

Dan God 2691

[Chapter 2691](#)

"What a fart!" Jiang Simei said very straightforwardly: "It's mainly because I don't have enough manpower, only having pills every few days, and I'm busy myself, over time, even the regular customers will choose other shops."

No wonder Jiang Simei asked Chen Xiang to stay, she was in need of people.

"You couldn't hire Alchemist before?" Chen Xiang asked again.

"Hmph, the majority of people who can concoct pills are just some old guys. Are they willing to let a little girl like me order them around?" If that old fellow did not keep his ancestor waiting, then he would have disappeared the next day. This kind of old man would not serve his ancestors. " Jiang Simei said.

She saw that Chen Xiang did not speak, and said: "Do you think it's because I have such a temper that I couldn't recruit Alchemist? Right! "

"I didn't say that!" Chen Xiang immediately denied it.

"But you must have thought so." Jiang Simei replied: "I won't beat you up even if I admit it. I'm clear about my temper, it's normal that you think so! "But I want to tell you, I've never treated anyone who comes to work here unfairly. It's just that I don't want to raise a lord, and quite a few old people have come to work for me just to be a lord."

"That's understandable! Boss, you know how to refine pills at a young age, but when some old Alchemist who have a similar level of alchemy came here, they put on airs and used their old age to show off, wanting to take advantage of us, right? " Chen Xiang said. He could guess this kind of thing.

"Well said, as expected of youngsters. Their thoughts are the same!" Jiang Simei nodded to Chen Xiang, agreeing with his words.

"If those old Alchemist's alchemy skills are better than mine, I would be happy to treat them as my lords, because they can earn me a lot of Dao crystal, so what if they can? But unfortunately, they don't have the ability, and they still want to claim the throne in my hands."

Jiang Sijing was worried that Chen Xiang would be angered to the point that he wanted to leave, but she didn't think that Chen Xiang would actually have so much to say to her sister that they could talk so much.

Jiang Simei said: "You should focus on refining the pill, if you cannot, no matter how nice your words sound."

Chen Xiang laughed: "I am very familiar with Jinyuan Dao Dan, that is no problem. After all, you are my boss now, and I am familiar with you now."

"Elder sister, how many s are there that are as young as Chen Xiang?" Jiang Sijing suddenly asked.

"Over a dozen of them, but those are real grandfathers. They're all bastards with oily heads and powdery faces like a woman. Not a single one of them is as pleasing to the eye as this brat." Jiang Simei also found Chen Xiang to be more pleasing to the eye.

"Are their pill refining skills really that great?" That status must be very high too. Even at such a young age, it's still hard to come by!" Chen Xiang said.

"Hmph, wasn't it their father who was awesome? Otherwise, they will just be a piece of scum." Jiang Simei was very unconvinced.

"Oh right, how many Dao crystal can each be sold for?"

"Not much, twenty-five Dao crystal, one pellet." Jiang Simei said: "I can refine two pellets per furnace and sell them for 50 Dao crystal, and the cost of the ingredients is 20 Dao crystal s, so I can earn 30 Dao crystal s per furnace! If you can only refine one pill, then you'll earn even less. "

"So it's like that! Is the best seller here a Jinyuan Dao Dan?" Chen Xiang had many of the Jinyuan Dao Dan's medicinal ingredients.

"It's quite easy to sell. I sell it for twenty pills per day, ten batches per day." Jiang Simei said: "It's barely enough to maintain the rent of my shop! Of course, I will occasionally refine some high level pellets. If I can sell it for a few hundred Dao crystal, then I will earn a lot of money. "

Although Jinyuan Dao Dan s were cheap, Chen Xiang felt that he would still earn a lot.

"Now that my sister is here to help me, I'll feel more relaxed in the future." Jiang Simei said.

"Sister, it's all my fault, I'm useless and can't refine pills together with you." Jiang Sijing felt very ashamed.

"Silly girl, your naturally born Earth Rule Dao line was able to quickly grow medicinal herbs. This is already helping me greatly. There's no need to be ashamed. You are stronger than many stinking men." Jiang Simei patted his little sister's head and smiled at her. He could tell that she loved her little sister a lot.

Chen Xiang never thought that Jiang Sijing would actually have such power.

In next to no time, two hours had passed.

"I've finished refining it!" Chen Xiang stopped and let out a light breath. This was only an ordinary refinement, and to him, it was extremely easy, and didn't consume anything at all.

"It's only been two hours, not a bad speed!" When Jiang Simei opened Chen Xiang's pill furnace and saw that there were four Jinyuan Dao Dan inside, she was stunned into silence. Her heart was filled with shock, and her beautiful yet cold face was filled with disbelief.

"Boss, my level is still pretty good, right?" Chen Xiang laughed.

"Very good!" Jiang Simei took a light breath, and couldn't help but exclaim in admiration.

Jiang Sijing also saw it, and she was so shocked that her mouth was wide open, unable to say a word. To be able to refine a strength Jinyuan Dao Dan, she must be stronger than her sister!

"Do you really only know how to refine such a pill?" Jiang Simei said.

There's another type of pill, but I don't know what it's called. After consuming it, my Dao meridian will be strengthened. Chen Xiang said, it was a pill concocted using that kind of hot little fruit.

"This kind of pill is not bad, but we'll sell the Jinyuan Dao Dan first and snatch the business back. Wait here, I'll go and get the ingredients for you." Jiang Simei then left in a hurry, he had some things to discuss with her initially.

"Sijing, your sister is a good person!" Chen Xiang laughed.

"She only sees you as strong, otherwise she would not give face to others! "However, you are truly very powerful. Even big sis appreciates you a lot." Jiang Sijing laughed.

"A little present for you!" Chen Xiang passed the four Jinyuan Dao Dan s to Jiang Sijing.

"Thank you, Master Shen!" Jiang Sijing saluted Chen Xiang and then started to laugh.

"Sijing, how's your power of the Earth Laws?" Chen Xiang asked: "Can make the plants grow faster?"

Chen Xiang was no stranger to this power. The most powerful one he had ever seen was the island his father was on, where the Island Spirit s resided.

"En, among the Heavenly God medicines, the high middle rank is easier to mature, while the King grade, heaven rank and saint rank are much harder. Let alone the rarity itself, it still requires a few hundred thousand years to mature, but people use all sorts of methods to shorten the time, to a few thousand years at the fastest, and I use the power of the Earth Laws to shorten it to a few years."

"So powerful!" Chen Xiang exclaimed. He possessed the Creation God's Spring, who knew how many years it could be shortened to.

"Can the power of the Earth Laws be obtained from the Myriad Tao's Divine Stele?"

"Sure, but it's very rare. It requires 200 million Dao crystal to condense one. I already had it since birth." Jiang Sijing laughed: "You want me to help you get the medicinal ingredients? I can quickly finish the high grade Heaven's Path Divine Medicine for you! "

"This... I have this kind of thing, I wonder how it compares with your power of the Laws of the Earth. " Chen Xiang took out a bottle of World God's Spring.

Jiang Sijing took it, opened the bottle and sniffed, then said: "This smell is very familiar, could it be that this is also the power of the Laws of the Earth? But it doesn't look like it! "

[Chapter 2692](#)

Jiang Sijing was extremely curious about Chen Xiang's World God's Spring, so the feeling that she was familiar with and unfamiliar with was very strange.

"Can this drink? I want to try it! " Jiang Sijing said.

"Of course you can!" Chen Xiang drank it a lot, and the taste was pretty good.

Jiang Sijing immediately took a sip, and with furrowed brows, she refined the Creation God's Spring. She wanted to see if it was different from her own power of the Laws of the Earth.

Not long after, she discovered that this kind of power could actually fuse with her Earth Rule Dao line and strengthen her Earth Rule Dao line.

"What exactly is this thing?" It can strengthen my Earth Rule Dao line! " Jiang Sijing was very surprised: "This is similar to the power of laws, but there is a problem, because I can't directly absorb it to form a Rule Dao line, but it can be used to strengthen the power of laws in my dao veins."

"Really?" Chen Xiang did not expect it to turn out like this. He took out a quality and laughed: "There are many of them. Take a look and see if you can use them to strengthen your Earth Rule Dao line."

"Un, thank you!" Jiang Sijing initially thought that this type of spring was very precious, he never expected Chen Xiang to give her so much in one go.

"You're welcome." Chen Xiang also hoped that Jiang Sijing's powers of the Ancient Code of Earth would strengthen as well.

After Jiang Sijing received the spring water from Chen Xiang, he gulped down a lot of it and started cultivating inside the pill refining room. He didn't mind being alone with Chen Xiang at all.

Chen Xiang also closed his eyes and separated a clone inside the You Yao Mountain Villa to control the clone to cultivate the medicinal herbs. He was prepared to refine a large amount of Jinyuan Dao Dan.

"I wonder if I can still focus on refining pills quickly ..." If we go with the Chuangshi god furnace, we should be able to produce four Jinyuan Dao Dan in one furnace. "

Chen Xiang took out the Chuangshi god furnace, opened its lid and placed the medicinal ingredients inside. After that, he widened his eyes and looked at the medicinal ingredients in the furnace.

As he willed it, two streams of fiery light shot out from his eyes. It was a type of intense flame that was generated through the ten levels of Laws and Mysterious Gate.

In just an instant, those medicinal herbs melted and then gathered together, forming a ball of Medicine crystal. Finally, they were split into four, and gradually formed into a pill ...

"Still a little too slow!" Chen Xiang scratched his head, looking at the Jinyuan Dao Dan that had just formed in the pill furnace.

His mental cultivation method was to release flames through his eyes, and use his powerful spiritual sense and fire to help him concoct pills as he pleased. However, he was also thinking about how to refine the flames and spiritual sense to complement each other and refine the medicinal ingredients.

In the past, he could condense a pill in an instant, but this Jinyuan Dao Dan was a Natural Law Dan, it was slightly more difficult than the pills he had encountered in the past.

However, his current speed was extremely fast.

"The mental energy consumption is still great, but it doesn't matter. I just need to rest for a while." Chen Xiang only closed his eyes for a moment, before recovering his spirit.

"If I were to use the Dawan refining method, the refining speed would be even faster." Chen Xiang suddenly had an impulse, he looked at the pill refining room, and felt that it was too narrow, and Jiang Sijing was also here.

Jiang Simei came back with a lot of ingredients. They were all used to refine Jinyuan Dao Dan s, with over a hundred.

"Chen Xiang, let's talk about the benefits first ... If you refine a batch of four Jinyuan Dao Dan, you will be able to sell them for a hundred, and if you deduct the cost of the ingredients, you will be able to earn eighty Dao crystal! Eighty Dao crystal, you are sixty, my sister and I are twenty! Because this is my shop, and my sister and I are in charge of sales and management, otherwise, you would need a lot of time to sell your own Jinyuan Dao Dan, which is also very troublesome. " Jiang Simei said.

Towards such a distribution, Chen Xiang was rather surprised, he never thought that Jiang Simei would give him so much.

He had run a shop together before, and the promotion segment was indeed quite troublesome. Forging a batch of pills could earn him sixty percent of the profit, which made him think that it was pretty good.

"Boss, did you buy these medicinal herbs?" Chen Xiang asked.

"Yes, but now that the Jinyuan Dao Dan's ingredients are out of stock, so in the next period of time, the Jinyuan Dao Dan's price will probably rise, and when the time comes, we can distribute the goods from the new market. In short, I won't cheat you, because I'm not that kind of person." Jiang Simei said very seriously.

"Boss, I have a lot of Jinyuan Dao Dan s' herbs, you don't have to buy them from others." Chen Xiang said: "How about this, I used my own ingredients to refine the Jinyuan Dao Dan, and earned the Dao crystal. I will seven, you three, how about it?"

"Alright!" Jiang Simei nodded in agreement.

Chen Xiang could tell at a glance that a person like Jiang Simei would definitely not wait patiently to concoct pills, especially for someone who concocted pills all year round.

Leng Youlan and Long Xueyi were both people like that, if not as a last resort, they wouldn't bother to stay in the secret room all day. Now that Jiang Simei was refining pills at the back, she would definitely go to the front desk to sell them.

"Of course, just selling Jinyuan Dao Dan s is not enough!" Jiang Simei said: "We are going to sell those pills with higher profits, it is a waste for you to use your time to refine cheaper Jinyuan Dao Dan. Right now, we are only at the initial stage. Once we earn enough Dao crystal to buy some precious herbs for our sister to plant, we will be able to earn more. "

Chen Xiang laughed, "I agree! "I'll start concocting the pills now. I'll split the 100 sets according to what you said just now. I'll use my own ingredients for the next 30%."

"Alright!" Jiang Simei looked at his sister and asked, "What is sister doing?"

"She's cultivating. I gave her a type of divine spring to drink. She said that she can strengthen her own power of the Laws of the Earth, and then she can cultivate here. It won't be a problem." Chen Xiang said.

"Yes, you start concocting pills for three days, I will go and advertise it now, after three days I will sell the Jinyuan Dao Dan you refined." Jiang Simei walked out of the pill refining room.

"In three days, I should be able to refine 100 batches!" Chen Xiang looked at the herbs. He could refine four batches in two hours.

"Refining nine hours a day and resting six hours would allow me to refine thirty-six batches of pills. Three days would be enough." Chen Xiang made a plan for a while, then began refining.

Right now, he was using the mental cultivation method. His speed was extremely fast, and he would definitely be able to complete it faster than he had planned.

Jiang Sijing did not have much to do now, so she cultivated here, and was very serious about it. Even though it was very hot here, she did not say anything.

Very quickly, three days had passed, and Chen Xiang had already refined a hundred batches of Jinyuan Dao Dan, for a total of four hundred pills!

"Damn it, I only got one Myriad Tao Crystal for four hundred pills. Excluding two thousand Dao crystals, I only got eight thousand, while I got six thousand." Chen Xiang felt that it wasn't worth it for him to earn this much after working so hard for three days.

Hearing Chen Xiang's words, Jiang Sijing woke up from her cultivation and laughed: "Chen Xiang, earning six thousand Dao crystals in three days is already very easy. Those who go out to hunt Dragon beast, not only need to take risks, they also need to go with a small team.

[Chapter 2693](#)

Jiang Sijing grew up here, and the speed at which she was earning Dao crystals was extremely fast, especially for a cultivator like Chen Xiang.

"You're really awesome. You managed to refine nearly a hundred batches in three days!" Although Jiang Sijing did not open her eyes when she was cultivating, she knew that Chen Xiang had used a unique pill refining technique. Flames shot out from her eyes as she refined the pill, and when she saw it, she was very surprised.

When she saw Chen Xiang concocting 100 batches of pills in a row, she got used to it.

"Come, let's go look for your sister!" Chen Xiang brought the refined Jinyuan Dao Dan and Jiang Sijing outside.

"How many have been refined?" Jiang Simei asked. At this time, she closed the shop's door, and now that the sky was about to brighten, she would open the door.

"The medicinal herbs that you gave me are all completed!" Chen Xiang laughed.

"This... Is this for real? " Jiang Simei was startled, he immediately took the jade box and opened it, taking a look, he took a deep breath.

"Awesome!" Jiang Simei could not help but exclaim in admiration, then nodded and smiled at Chen Xiang: "It's really too wasteful of you to only refine Jinyuan Dao Dan with this kind of ability."

"Sis, Chen Xiang is qualified to be a big boss again, right?" Jiang Sijing laughed.

"Of course. Many of the old pompous fellows on this street aren't even fit to carry shoes for him." Jiang Simei said, then patted Chen Xiang's shoulder: "I'll sell it later, you go and rest first, that's my room."

Chen Xiang yawned and laughed: "I'm not too tired right now, I need to finish refining the herbs in my hands, I'm also lacking Dao crystal, I want to quickly cultivate and produce more Rule Dao line."

"That's right, your current cultivation level is still very low, you should hurry up and increase it." Jiang Simei nodded.

... ..

Chen Xiang returned to the pill refining room and unceasingly refined Jinyuan Dao Dan. He refined 4000 pills in a month and used his own ingredients. He did not need to buy any of them, as he could get a lot of Dao crystal.

"Twelve Myriad Tao Crystals. You have eighty-four thousand and the rest are for me and my sister." Although Jiang Simei did not get much, but she was happy. She could earn close to twenty thousand every month, if they were to stay together, it would already be great if she had a few thousand.

Chen Xiang couldn't help but admire Jiang Simei. In just a day's time, she had sold all four thousand Jinyuan Dao Dan.

Previously, the Jinyuan Dao Dan was twenty-five, but it had now risen to thirty.

"Only eighty thousand can be exchanged for eight Fire rule beads." Chen Xiang sighed: "I need a hundred pills right now."

"Alright, one year is more or less enough. According to this, you will be able to cultivate up to the remaining Rule Dao line and step into the tenth place of Dao God realm in more than ten years." Jiang Sijing said.

"Yeah, there are very few people here who can earn Eight Myriad Tao Crystals in a month. Of course, we have also gotten our attention now, because we have too many Jinyuan Dao Dan in our hands, but you don't have to worry. In Myriad Tao City, those fellows who are jealous of us will not do anything that goes too far." Jiang Simei crossed her arms across her chest, her face ice cold.

"Boss, did something bad happen?" Is it because of the Jinyuan Dao Dan? " Seeing that, Chen Xiang asked.

"Don't worry, I will take care of this. Just don't worry about refining pills." Jiang Simei patted Chen Xiang's face.

Chen Xiang was just worried, Jiang Simei was just a tenth place of Dao God realm, there were a lot of Tai Dao realm here, after all, this was a place where strength reigned supreme.

"Boss, try this. I've told you before, after you eat it, you can quickly solidify your Dao Meridian." Chen Xiang said: "I call this one a Gumai Dan, it's a high quality Heavenly Pellet, it's just the kind that's better than the high quality ones."

"Un, I'll try it!" After Jiang Simei took the red pellet and swallowed it, his face slightly changed and was brimming with joy.

"The effects are pretty good. My tenth Rule Dao line has always been in an unstable state, making it harder for me to enter the Tai Dao realm. This pill can help me solve this problem." Jiang Simei said: "How much do you have left? I'd like to buy it from you. Five hundred Dao crystal pills. "

"This is worth five hundred Dao crystal?" Chen Xiang was a little surprised, because he felt that refining this kind of Gumai Dan was similar to refining Jinyuan Dao Dan s.

"Of course, I definitely wouldn't be wrong. It's worth this price." Jiang Simei said.

"There's no need to be polite, I'll give it to you!" Chen Xiang took out a dozen or so pills and handed them over, then said while grinning: "Boss, if you step into the Tai Dao realm soon, I'll also be a bit more at ease."

"Bro, enough. Don't call me boss from now on, mmm ..." Call me beautiful! " Jiang Simei smiled and replied. She liked to be straightforward.

"Hehe, right, stepping into the Tai Dao realm, I also need Jinyuan Dao Dan, right?" Chen Xiang asked.

"Yes, my current dao veins have been consolidated, but Jinyuan Dao Dan have always been insufficient, and I don't know how much I need to eat. After all, I need to condense Spirit of the Dao gods now." Jiang Sijing said. Seeing that their relationship was getting better, she was happy.

"Then I'll help you refine a kind of Jinyuan Dao Dan that should be able to help you all condense Spirit of the Dao gods and step into the Tai Dao realm."

Chen Xiang felt that Jinyuan Dao Dan that had been refined using Crash method would have a better effect, and would be helpful in breaking through.

... ..

In the following ten days, he refined twenty of the seven Crash s, and they were all of the highest quality.

She gave it to Jiang Simei and Jiang Sijing, letting them eat it.

Previously, when Jiang Simei ate the Gumai Dan, her Rule Dao line had already been consolidated and could begin condensing Spirit of the Dao gods s. The two sisters were in closed doors cultivation in the same room, while Chen Xiang was in the pill cultivating room.

"I can start refining the Gumai Dan diligently now. I can refine two pellets per furnace and refine five batches in two hours ... Refining eighty pellets in a day for sixteen hours would be equivalent to refining the Four Myriad Tao s Crystals! "

Chen Xiang calculated, even if he would give a bit to the twins, he was still very satisfied with this benefit.

He currently did not plan to cultivate Rare Principle, that was a matter of the ten billion Dao crystal, it would be fine if he could come back later when he had enough strength.

This Myriad Tao City was still very big, and he was only at the edge. If he were to stay in the center of this bustling area, it would be very easy for him to earn a large amount of Dao crystal.

"Flying Rule Dao line, spatial Rule Dao line, I must get them." Chen Xiang felt that without these two, he could not even use those methods of his. It could be said that it would be difficult to take even a single step.

Ten days passed and Chen Xiang refined eight hundred Gumai Dan, he gave them to Jiang Simei.

Jiang Simei and Jiang Sijing also broke through to the Tai Dao realm, their strength increasing by a lot, especially Jiang Sijing, who was shockingly fast in maturing the medicinal ingredients, a lot faster than when Chen Xiang was using the World God's Spring.

[Chapter 2694](#)

Jiang Simei took Chen Xiang's Gumai Dan and sold it everywhere, while Jiang Sijing was still here.

"Chen Xiang, selling those Gumai Dan would definitely earn us another fortune, but I didn't help in any way, taking so many of your Dao crystal with me, I don't need them this time. " Jiang Sijing said with a face full of guilt.

"Don't bother with me. Your sister already said that she's good buddies with me. You are her sister, so I also treat you as my sister." Chen Xiang laughed.

"My cultivation is higher than yours. I feel that I should be your elder sister." Jiang Sijing smiled sweetly, looking extremely beautiful.

"If I hadn't spent all my time studying alchemy techniques, my current cultivation would definitely be higher than yours, so I would be older than you." Chen Xiang pinched her face and laughed.

"What about my sister? She and I are twins born at the same time. If she treats you as her big brother, then I will be the same. " Jiang Sijing mischievously stuck out his tongue.

"She asked me to call her 'Beautiful Beauty'. She has already accepted me as her big brother." Chen Xiang said, to be honest, although his cultivation was low, but in terms of age, he was already an old man that had lived for ten thousand years.

Jiang Simei and the two sisters grew up here. Because of the environment, their cultivation rose quickly, and they were much younger than Chen Xiang.

"Elder Brother Shen, is it ready?!" Jiang Sijing chuckled.

"Oh, so it's like that. It seems quite complicated. I thought that the three doors outside were already very strong." Chen Xiang did not expect this.

"The people from the seven great villas were once part of the three great doors outside, and because everyone was rushing towards the Myriad Tao Mausoleum, over time, everyone gathered here, and gradually developed into a force that built the Myriad Tao City. So after leaving this place, it is true that the three great villas are the strongest, but here, the strength of the seven great villas is stronger than the three great doors."

"After so many years of development, the Three Gates are now pretty good. It can be said that they came from behind and after a while, they might be able to get the authority to manage the Myriad Tao's Divine Stele."

"A small fry like us, if we go to the Eastern Dragon Mountain Villa, we would also be bullied. Maybe there will be a worse result, in places with power and battles, there will be unspoken rules. We don't have enough strength, so we won't be able to control ourselves."

"That's why elder sister didn't go."

Chen Xiang nodded his head: "Indeed, there may be more battles coming up."

The three doors here had called in the experts from the other three sects. They must be preparing to take action to increase their strength.

"I'm really useless. I can't be like elder sister who knows how to refine pills or do business." Jiang Sijing sighed.

"Of course not, your speed of ripening medicinal herbs is extremely fast!" I have a batch of saplings here to mature you. " Chen Xiang took out more than ten small sapling. These were all saplings that would need the same kind of red fruit to refine Gumai Dan.

"Great, I was just worrying about nothing to do!" Jiang Sijing felt that he hadn't done anything, but wanted Chen Xiang's Dao crystal instead, so he couldn't help but feel apologetic in his heart.

"I will plant it in my Divine Sense Sea World." Jiang Sijing was suddenly very happy, her face had a sweet smile.

Right at this time, Jiang Simei returned.

"It's sold out?" Chen Xiang asked. He had not gone out for long.

"Yes, I went to the center of the city to sell them. I got them very quickly, I originally wanted to sell them for 500 pills, but I added 700 pills!" Selling a total of almost fifty Myriad Tao Crystals, that's f * cking great! " Jiang Simei laughed.

He was also very satisfied with Chen Xiang giving him thirty Myriad Tao Crystals. At this rate, he would quickly earn enough Dao crystal to buy a hundred of them. That would take a million.

bang bang bang *

Suddenly, there was a knock on the door.

Jiang Simei was just about to open the door, when he heard a "boom" sound.

"It's this woman!" A fiendish looking middle-aged man said.

"That's right, he's the one who went to our territory to sell that Gumai Dan." There were many people behind the middle-aged man, and one of them said.

"Smash it!" The middle-aged man shouted angrily.

A group of people immediately rushed in and with a few crackling sounds, they smashed everything inside the shop. Jiang Sijing was also scared and hid behind Chen Xiang.

Chen Xiang clenched his fists tightly, he really wanted to make a move, but realised that these people were all from the Tai Dao realm, especially the middle-aged leader, whose power was unfathomable.

"Take out the Ten Myriad Tao Crystals, and you will be spared from the pain of skin and flesh." A middle-aged man sneered.

[Chapter 2695](#)

Chen Xiang and Jiang Simei were both people who would rather die than submit. Even if they were to take's life, they would not give the other party a single Dao crystal.

"Do you dare to tell me where you're from?" Jiang Simei clenched her jade fists and said while gnashing her teeth.

Her shop had mysteriously suffered a beating, and was about to be threatened to give her ten Myriad Tao Crystals. Since she was young, she had never encountered such an infuriating situation.

"Girl, who do you think you are? It's just a Alchemist on the street, who would be afraid of you." The middle-aged leader sneered, "Are you going to give or not?"

"What? You dare to come and destroy my shop? Don't you dare report your own home?" Jiang Simei said lowly, and at the same time, his ice-cold eyes carefully sized up these people.

Jiang Sijing hid behind Chen Xiang, not daring to speak. She was a woman who had always hoped to stay away from worldly affairs, this was the first time she had encountered such a violent thing.

"If you don't give it to me, I will leave this shop for now. This broken shop of yours should be worth seven or eight Myriad Tao Crystals."

The middle-aged man looked at the shop and nodded his head in satisfaction. This was because there were still rooms and pill refining rooms inside, so it was rather spacious.

"What, you want to know our origins? Fine, I'll tell you then, we are from the Black Tiger Stockaded Village, now you know how to be afraid." The middle-aged man had already taken out his weapon: "If you can't take out the Ten Myriad Tao Crystals, then quickly scam. This shop is ours now."

Chen Xiang was also very angry at this moment. Seeing the ferocious veins on Chen Xiang's tightly clenched fist, Jiang Simei knew that she was feeling the same way.

Just as Chen Xiang was about to attack, she suddenly felt her fist being held by a delicate jade hand. Jiang Simei held him tightly, and then, she shook her head at him.

"Let's go." Jiang Simei anxiously brought Chen Xiang out of the shop.

After walking far away, only then did Chen Xiang snort. "Beautiful, with your personality, how could you allow this group of people to occupy our shop?"

"Right now, my strength is not enough, and they have so many people, and each of them is a Tai Dao realm, not to mention that there is a Black Tiger Stockaded Village behind them, if we were to offend them, and if the Black Tiger Stockaded Village finds out, it would be difficult for us to establish ourselves in the Myriad Tao City."

Jiang Simei said: "Don't look at how I normally am. If I encounter something like this, I'll still be extremely calm."

Jiang Sijing nodded his head, "Elder Brother Shen, Black Tiger Stockaded Village is very strong. We don't have any background, so we can only endure."

"I swear, I will definitely not let this bunch of bastards off easily. Black Tiger Stockaded Village, one day, I will definitely make them unable to even become dogs." Jiang Simei said fiercely.

Chen Xiang sighed: "Then you should tell me, who exactly is this Black Tiger Stockaded Village from, and I thought they were people from the Seven Great Villa and the Three Great Way."

"Although they are not one of the seven great villas and three great doors, they are related to one of the seven great villas. They are subsidiary powers of the Western Tiger Mountain Villa. Jiang Simei said: "This is what I am worried about, otherwise, even if I have to risk my life, I will castrate these bastards just now."

Jiang Sijing said in a low voice: "There are three evil dogs under the Western Tiger Mountain Villa, and the Black Tiger Stockaded Village is one of them, also known as the Black Dog Stronghold. As long as they don't pay attention to us, we will be bitten by them, because these subsidiary strengths are often given to the Western Tiger Mountain Villa by Dao crystal, so they are protected, people like us who don't have any strength are bullied, and we don't have anywhere to say it."

"Alright, the next step is to raise our strength and destroy the entire Black Dog Stronghold." Chen Xiang said.

Chen Xiang and the two sisters came to the old granny's shop.

"Grandmother." Once Jiang Sijing entered, he shouted happily.

"It's rare for you two girls to come visit me." The grandma was very happy and laughed. "This child is also here. It seems that you two have gotten along quite well."

"Greetings old granny." Chen Xiang immediately bowed.

"Grandma, our shop has been robbed. We'll stay here from now on." Jiang Simei sighed: "It's all my fault, I accidentally ran over to Black Tiger Stockaded Village's territory to do business."

When the old granny heard this, she was slightly shocked, but she quickly let Chen Xiang and the others in.

She was aware that Jiang Simei had refined the Gumai Dan, and now knew that it was.

"A big tree rouses the wind. However, this child is truly amazing. His alchemy skills are extraordinary and are destined to attract attention. However, we are not strong enough and you do not wish to rely on any other faction." The old granny said: "Although the Myriad Tao City looks orderly and orderly, but they are very dark in the dark, especially those powers."

"I know, but this is not the way. Chen Xiang's pill techniques are so brilliant, his pill refining speed is so fast, sooner or later, this business will be huge." Jiang Simei sighed: "Don't tell me that we really have to join some dog shit faction? The feeling of being under someone else is really not good, furthermore, if they see how skilled Chen Xiang is in pill refining, forcing him to teach them pill techniques, wouldn't that be harming Chen Xiang?"

Jiang Sijing also nodded her head: "Elder sister is right, those big powers are able to produce many evil and small powers, they will definitely not do well. Elder Brother Shen's cultivation is also low, when she sees Elder Brother Shen's brilliant pill techniques, she will definitely want to take it for herself."

"I have an idea." Chen Xiang said: "We will not sell the Gumai Dan to individuals, we will sell it to the shops, and let them earn the Dao crystal. This way, Mei Mei will not have to work so hard to promote and sell the Gumai Dan, and will directly send the owners of the shops to take it."

This way, the shops that managed to earn Dao crystal s would also be very grateful to us. After a while, they would become very reliant on us, and at that time, even a vicious dog like the Black Tiger Stockaded Village would not dare to be arrogant towards us.

Jiang Simei listened and nodded, "This idea is not bad."

Jiang Sijing laughed: "Although elder sister has a bad temper, but she has gotten along well with the owner of that street, and should be able to get along with him."

The grandma smiled and said, "Smart child. But you should be more careful and not attract too much attention. Even if you sell a lot, you can't say that you concocted those pills yourself. That way, no one would find it too strange."

"Un, I'll go and concoct pills now. Beauty, contact the owner of that street well..." Or the shopkeepers from other shops, I will speed up my cultivation and provide them with sufficient supplies." Chen Xiang said.

"Alright, I'll go talk to my enemies in Black Tiger Stockaded Village's medicine shop." Jiang Simei nodded.

Chen Xiang gave her some Gumai Dan and told her to give these Gumai Dan to the owners of the shops for free.

[Chapter 2696](#)

If he could not sell the Dao crystal, Chen Xiang's road to riches would be severed. He would definitely not allow this to happen, he had planned to cultivate 10 Rule Dao line here, so he needed to rely on the Dao crystal.

The old granny's shop was rather large, and its secret chamber was not small as well. It was constructed underground and was extremely well-sealed.

Chen Xiang stood in this secret room, which was filled with over a hundred people, and pondered on how many Gumai Dan he could refine all of a sudden.

"We can probably put down a hundred Magic method furnace here, but we don't know how long we'll take to refine them." Chen Xiang looked at the little red fruits in the You Yao Mountain Villa. There were a lot of them, too, he had planted many of these fruits inside the You Yao Mountain Villa.

Jiang Sijing had also used her Earth Laws' power to cultivate a lot. Basically, she would mature in three days, and the Gumai Dan's medicine could be said to be endless.

"Alright, now that I don't have to worry about the herbs, I'll just use four fruits to make them. I guarantee that I will produce at least ten of them, and a hundred of them in a day will make a thousand. This speed can be considered very fast."

As long as he did not use the Crash method to refine pills, Chen Xiang could use the Dawan refining method to refine multiple pills at the same time.

Chen Xiang adjusted his condition for a bit, and then began refining. He released a hundred Magic method furnace, and placed four red fruits in each of them.

After that, he closed his eyes and controlled the hundred pill furnaces to start refining the Gumai Dan.

From the very beginning, the process went smoothly. After all, the pill he concocted was a high-grade Heaven's Path Pill, and the consumption was quite huge. Moreover, he was not used to it.

It had only been six hours, but Chen Xiang already felt that it was extremely strenuous. Simultaneously refining a hundred batches, his speed would also drop by a lot.

"According to this rate of progress, I should be able to finish it within six hours." Chen Xiang estimated that he could still rest for the remaining matters.

At the end, he already felt very tired, and it was almost time for him to reach the Core Formation stage.

"As long as I can endure it." Chen Xiang's entire body was covered in sweat, his mind was in a mess and he wanted to fall down, but right now he could only rely on his will.

Congeaing pellets might only require an hour, but to the current Chen Xiang, it was like several days.

"Finally." Chen Xiang took a deep breath, with a wave of his hand, he collected all the Magic method furnaces. Right now, the entire secret room was filled with dense red light spots, those were all Gumai Dan s.

He placed the Gumai Dan in a jade box and then immediately laid down on the ground to rest. He released the Primitive Tao Power from the Dao god soul to water his withered Divine Sense Sea, restoring his spirit.

In just two hours, he had become spirited. However, this was only his appearance. He was still rather tired.

When Chen Xiang came to the top, Jiang Simei had already returned.

"How is it going?" Chen Xiang asked.

"Right now, the fame of the Gumai Dan is not small. It can be sold for six hundred or seven hundred Dao crystal s per pellet. I have already talked it over with the owners. There are a total of twenty shops that are willing to cooperate with me and agree to protect me." Jiang Simei laughed: "It's up to you to set the price."

"How about we sell five hundred Dao crystal s to them?" Chen Xiang said.

"Yes, this is also their psychological price." Jiang Simei nodded his head, "In ten days, you will probably have how much. We will give them the goods once every ten days."

"Ten days. Ten thousand pills." Chen Xiang smiled mysteriously.

To be able to refine 10,000 pills in ten days, both Jiang Sijing and Jiang Simei found this hard to believe. Even the knowledgeable and knowledgeable old granny had a face full of disbelief.

This was because Chen Xiang was concocting the pill alone. It would be more accurate if he had a hundred Alchemist s.

"Hehe, this is a secret, just tell the outside that we have a lot of Alchemist." Chen Xiang said.

"Alright, we don't need the Dao crystal that we earned for the time being. We'll help you buy the Law beads and raise it to the tenth place of Dao God realm first. Your current cultivation level is too low." Jiang Simei also believed in Chen Xiang.

"Then I won't be polite. I do need to raise my cultivation." Chen Xiang laughed, then walked into the secret room.

Chen Xiang was resting inside the secret room.

"In ten days, I will be able to sell ten thousand Gumai Dan, which would amount to five hundred Myriad Tao Crystals. In total, I can exchange for five hundred Law beads, which is enough for me to form five Rule Dao line. Hehe."

When he thought about this, Chen Xiang became extremely excited. He never thought that the pills he could casually refine would actually bring him such a huge benefit.

He still needed to condense nine more Rule Dao line, and each dao vein would require a hundred Myriad Tao Crystals, and he would also need nine million.

If it was before, he felt that it would still take a long time to do it, but now, he could earn that much in less than a month.

, who was above, was even more excited. According to Chen Xiang's pill refining speed, earning a thousand Myriad Tao Crystals in a month was not a problem at all.

Ten days later, Chen Xiang walked out of the secret room and gave Jiang Simei ten thousand Gumai Dan pills.

"In these ten days, I went to investigate. The demand for Gumai Dan s in the Myriad Tao City is still very high, especially for a lot of people with tenth place of Dao God realm s." Jiang Simei said: "And for those below tenth place of Dao God realm, there are a lot of people that need to quickly consolidate their dao veins, and also need this pill."

"In other words, Gumai Dan can sell for a long time."

Chen Xiang laughed: "Hmm, looks like I'll be able to break through to the tenth place of Dao God realm very soon."

"That's true. In the future, even if you manage to cultivate a rare Rule Dao line, it won't be a problem. I've already spoken to them about it. Jiang Simei laughed.

"Then I'll go rest first." Chen Xiang was not tired at the moment. He had gradually gotten used to refining continuously for ten days.

At the same time, Jiang Sijing was also in the secret room growing those red fruits. She had planted a lot of them to ensure that Chen Xiang was not lacking.

Chen Xiang did not refine any pellets in the secret basement, but was researching on how to refine higher quality Jinyuan Dao Dan.

The main purpose of the Jinyuan Dao Dan was to help the Tai Dao realm in its cultivation. If his Gumai Dan became hard to sell in the future, he would be able to obtain a new type of pill with good effects.

Two days later, Chen Xiang added one of the medicinal ingredients Tai Shangzhen had given him to the Jinyuan Dao Dan, refining a pellet of extremely high quality medicine that also had the characteristics of a Jinyuan Dao Dan.

"Let's call it Tianhun gold Dan." Chen Xiang did not have the Dao god soul, so he did not know how much more effective he was than the Jinyuan Dao Dan, but he could guarantee that this was an upper-level Natural Law Dan, and that it would be easy to refine. More importantly, the amount of pills he could produce was very high, because it was refined with several types of ingredients that could concoct six pills in one furnace.

"Let Mei Mei and Sijing try." Chen Xiang walked out of the secret room.

"Here, 500 Myriad Tao Crystals." Jiang Simei threw a Storage bag to Chen Xiang as he laughed, "It's only been ten days, and you're already earning that much. This book came from 17K, so the first thing he did was to look at the original content!"

[Chapter 2697](#)

Chen Xiang giggled. Jiang Sijing was there too, smiling sweetly at Chen Xiang, then walked over and gave the red fruit she planted to Chen Xiang.

"Elder Brother Shen, these are the little red fruits that I grew. There are tens of thousands of them." Jiang Sijing said.

"Mn, Sijing is so powerful. After I have reached the tenth stage of the Dao Shi realm, I will assuredly give you a share of the Dao crystal." Chen Xiang scratched her cute nose.

Chen Xiang took out two Tianhun gold Dan s and said: "Beautiful, Sijing, try this, see how much better the effects of this pill is compared to the Jinyuan Dao Dan! This is a new type of pill I just made, called Tianhun gold Dan. "

Jiang Sijing and Jiang Simei hurriedly took it and consumed it, then sat on the chair and refined it with their eyes closed.

Not long after, Jiang Simei said: "When strengthening the Spirit of the Dao gods, it's a hundred times stronger than a Jinyuan Dao Dan."

"What a tyrannical medicinal strength, it's way better than the Jinyuan Dao Dan!" Jiang Sijing said.

Chen Xiang was a little surprised: "A hundred times? Then how many Dao crystal s can it be sold for? "

Jiang Simei thought for a while, then said: "The lowest quality Jinyuan Dao Dan is thirty pellets, and this Tianhun gold Dan is a hundred times more effective than the Jinyuan Dao Dan, which is equivalent to three thousand Dao crystal, but taking into account that it has to compete with the Jinyuan Dao Dan, selling two thousand five hundred Dao crystal would definitely be very popular."

"Of course, as long as the price is two thousand two hundred and three, those shops will decide the price themselves."

Jiang Simei had carefully selected all the shops before, and they were all scattered across more than twenty areas of the Myriad Tao City. All of them were middle to large scale stores in these twenty areas, and since these areas were far from the shops, there was no need to form competition between the stores.

Of course, in these more than twenty areas, there were no Black Tiger Stockaded Village's territory, and there weren't even any shops under the Western Tiger Mountain Villa's banner.

The reason she did this, was also to take revenge on the Black Tiger Stockaded Village!

Because of the Black Tiger Stockaded Village, all of the powers under the Western Tiger Mountain Villa were implicated, causing Jiang Simei to not look for them to do business. One must know that their region was also very large, and many people ran to other regions to buy Gumai Dan.

If Jiang Simei found them, they could also earn a lot! If it was the past, they would definitely come to threaten Jiang Simei.

But Jiang Simei was currently being protected by twenty different shops, it would be good if Jiang Simei did not let the twenty over shops cause trouble for them.

Therefore, Jiang Simei was a big sister, because she made the owners of the shops earn a lot.

"Within the Myriad Tao City, there are the most number of Tai Dao realm s and tenth place of Dao God realm s, and they are also a relatively strong group of people who can often kill Dragon beast! And Tai Dao realm s need to cultivate Spirit of the Dao gods s, so they are very willing to learn from this. "

When Jiang Simei had nothing to do, he would investigate this sort of thing.

"Mn, when I reach the tenth place of Dao God realm and don't really need the Dao crystal, let's change to a bigger place. That way, I can refine even more pills." Chen Xiang laughed.

"Elder Brother Shen, the more larger the place, the more you can refine? It's so magical!" Jiang Sijing asked naively.

"The place is bigger, but he can store more pill furnaces. He must have controlled more than one pill furnace at a time. This is a very good technique, only those who have cultivated for thousands or tens of thousands of years can use it." Jiang Simei said: "Right, Chen Xiang!"

"Hehe, yes, my pill refining age is also tens of thousands of years." Chen Xiang laughed.

... ..

Chen Xiang walked out of the shop and headed towards the Myriad Tao's Divine Stele. He told Jiang Simei to tell the shop owners that the next time they sell it would be twenty days later, because he was going to cultivate the Rule Dao line next.

He was going to buy Law beads now.

After arriving at the old mansion, there were still many people present.

"Senior Tai, why are you here?" Chen Xiang did not expect to come here and meet Tai Shangzhen again.

"I'm working here now, I'm a member of the Eastern Dragon Mountain Villa." Tai Shangzhen laughed out loud: "Although I was a Leader of the Sublime Flow Sword Grotto before, when I came here, I knew that I was observing the sky from the well."

"So this is the Eastern Dragon Mountain Villa!" Chen Xiang did not expect this, "But why didn't you join the sword sect? The Sword Truth Sect's gate should also be here! "

"Sigh, it's hard to put into words ..." Although I train in the way of the sword, but the sword dao gate here is completely different from the one I train in since I was young, and it caused me to become very confused, so I decided to exit and enter the Eastern Dragon Mountain Villa. Tai Shangzhen said: "And people of the Pill Dao are also like me, they are all in the Eastern Dragon Mountain Villa, and that fellow in the Pill Dao is more or less what I thought."

Chen Xiang nodded, he had seen the old man in the Pill Dao, his temperament was indeed very different from the Leaders of other sects.

"Old man Tai, you actually have the face to preach to the younger generation after doing such a disloyal thing." A middle-aged man walked in, his body covered in blood, and beside him followed nine middle-aged men and elderly men, all of whom were sect Leaders of the Fire Way and the Sword Way.

Now, they had also joined the Sword and Fire Door, and no longer had a high and mighty status. From the looks of it, they had just returned from hunting Dragon beast.

"If I truly join this place's sword dao gate, then that would be true treason. The way the sword dao gate talks about walking in here is no longer the way of the sword dao that I'm familiar with." Tai Shangzhen said coldly.

Hearing Tai Shangzhen's words, Chen Xiang knew that the three sects here were strange, especially the Tian Dao Sect.

Previously, he had seen the upper echelons of the Heaven's Path Sect, but he had not seen Natural Law Divine Lord. He felt that the Natural Law Divine Lord must be inside the Heaven's Path Sect, and might be a very important person.

"We just caught a dragon ape, this is something worth twenty Myriad Tao Crystals! And you. Haha, how much can you earn here?" The middle-aged man from Fire Avenue sneered.

"Although I don't earn much, at least I don't have to do things that are ungrateful." Tai Shangzhen was extremely disdainful.

"Twenty Myriad Tao Crystals? Out of the ten of you, none of you are more than twenty thousand." Chen Xiang said.

"Brat, you're only returning 20,000 or so? With ten of us working together, it'll be easy for each of us to earn a hundred thousand a month. The last time you sold that Dragon wolf, you only earned a few thousand, can you guarantee that you could kill ten of them in a month?" "Definitely not." After all, Chen Xiang's cultivation was very low, and his relationship with Tai Shangzhen was not bad.

"Of course I can't kill ten Dragon wolf in a month. I won't kill one either, because I can still earn a lot even if I don't kill one." Chen Xiang laughed: "I am here to purchase Fire rule beads."

Hearing that, Tai Shangzhen laughed: "Really? I just happen to be in charge of selling the Fire rule beads, little friend Shen, I can give you a discount."

"Senior Tai, is this true? If I want a large amount, how much can you give me off? Did you make any money yourself?" Chen Xiang did not think that Tai Shangzhen would actually do such a thing, it was not bad.

"We have quite a few Fire rule beads here. If I sell them, I will receive a lot of rewards." Tai Shangzhen said.

"Hmph. With just this brat alone, he can buy five of them." The middle-aged man said in a mocking tone.

Chen Xiang did not bother with him and took out a Storage bag and said: "I want five hundred of them. There are five hundred Myriad Tao Crystals inside!"

[Chapter 2698](#)

The moment Chen Xiang opened his mouth, he asked for five hundred pills. Even Tai Shangzhen felt that Chen Xiang was joking, not to mention the people from the Fire Dao Sword Dao.

However, when Tai Shangzhen received the Storage bag from Chen Xiang, he was immediately stunned because there really were five hundred Myriad Tao Crystals inside.

Fire rule beads were worth ten thousand each. Chen Xiang wanted five hundred pellets now, and according to the price, it would indeed be five million. But since he bought so many at once, he would definitely get a discount!

"This... Wait a moment, I'll be right back!" Tai Shangzhen anxiously ran to the second floor and invited an old man. Chen Xiang had seen this old man last time and he was the shopkeeper who bought his Dragon wolf.

Hearing that there was such a big deal, the shopkeeper hurriedly walked down and picked up the Storage bag and took a deep breath.

"Five hundred Fire rule beads, right?" The manager asked again.

"Yes, how many benefits can there be? Senior Tai had said earlier that if you buy a lot at once, there will be a discount." Chen Xiang laughed.

"I'll return these fifty Myriad Tao Crystals to you, and only take four million five hundred thousand. I'll give you a ten percent discount." The shopkeeper returned fifty Myriad Tao Crystals to Chen Xiang and ordered another five hundred Fire rule beads to be handed over.

After Chen Xiang received it, he took a glance at the fire middle-aged man who had mocked and ridiculed him just now. Although there was an expression of disbelief on his face, his eyes were filled with jealousy.

He could not understand why Chen Xiang had so many Dao crystal! They had spent a lot of time and effort to hunt a Dragon Ape, but they had only managed to obtain twenty Myriad Tao Crystals.

Chen Xiang was just a little brat, yet he could actually take out five million in one breath. With such a comparison, they were all a group of poor bastards, and had even belittled them earlier, when they thought of this, they really wanted to find a hole to hide in.

"There's a rented practice room here?" I want to find a quiet and safe place to cultivate. Chen Xiang said. He had five hundred Fire rule beads s right now, but they were a large amount of wealth.

"Yes, I'll give it to you for free!" I'll take you there. " The storekeeper chuckled. Towards such a big client, his attitude was naturally very good.

Chen Xiang followed the shopkeeper up the stairs and into a quiet secret room. He did not know how long he would take to come out.

"I wonder if these Fire rule beads can be refined!" Chen Xiang took out one pellet and carefully examined it. These Law beads need to eat it in order to absorb the power of the Ancient Code.

"Try it, and you'll know. If I can refine it, I might be able to cultivate a Rule Dao line with only a few Fire rule beads."

Chen Xiang took out the Chuangshi god furnace. He was still very confident in his own Heavenly Alchemy.

He placed a Fire rule beads into the Chuangshi god furnace and used the method of refining pills to refine it.

He had been injecting strong flames into the Law beads to burn and refine, wanting to split the power of the Ancient Code inside the Law beads and then use the Crash method.

However, the Fire rule beads was very strange, the flames could not even get close to it.

"Could it be because of the power of the laws inside the Fire rule beads? so the flames cannot get close to it? " Chen Xiang continued to use the Heavenly Alchemy to try and use multiple methods, but no matter what, the flames could not get close to the Law beads.

After tossing and turning for more than two hours, he took out the Fire rule beads. There was not even the slightest bit of heat on it.

"This is strange!" After Chen Xiang put away the Law beads, he closed his eyes and went to check the Heavenly Alchemy.

As his cultivation realm rose bit by bit, the contents of the Heavenly Alchemy that he was unable to comprehend before also began to become clearer and clearer.

He carefully read it twice from start to finish. Finally, he understood the method to refine the power of law.

"This kind of Law beads is also called a Law Pill, or a Great Dao Pill. It is equivalent to a formed pill, so it cannot be refined by pill refining."

Chen Xiang had read from new a change in Heavenly Alchemy, and after obtaining a huge harvest, he now had a direction and knew what to do.

After he ate a Law beads, the law of fire inside the Law beads gradually leaked out.

At this time, he controlled the overflowing Law of Fire to flow out of his body and pour into the Chuangshi god furnace.

"These Fire rule beads energies are the laws of the Divine Wasteland, they can be said to be of an even higher level than the laws of fire. As long as I use these laws of fire to cultivate these Rule Dao line, I can become compatible with my Dao god soul."

The Fire rule beads would melt when it entered the body, which was the same as a pill with a Spiritual God. From this, it could be seen that the quality of the Law beads was also very high.

Very quickly, the Chuangshi god furnace already possessed a large amount of the Fire Laws. Chen Xiang never thought that a very small bead would actually contain such a dense amount of the Laws.

"This is also very good. I don't need to use fire to refine it. My previous method was really stupid." Chen Xiang laughed at himself and then split the power of the Ancient Code within the Chuangshi god furnace into eight balls, making a collision!

At the moment of impact, the pill furnace was calm and did not emit any sound!

After that, Chen Xiang started his second Crash ... It was only when he reached the Five Crash s that he found it hard to endure.

"It should be fine. I only used an hour from start to finish. I don't know how much the quality will increase." Chen Xiang took out the Fire rule beads s that had gone through the Five Crash s.

After eating it, there was an unending stream of the Fire Laws flowing out. Chen Xiang immediately channeled his energy and absorbed it, merging it into the Divine Sense Sea and condensing his fire dao vein.

Very quickly, this Law beads was completely absorbed by Chen Xiang.

"Not bad, after the collision, this pill is equivalent to three pills. This effect is very good!" Originally, I was going to use 100 pills, but after I refined it, I only needed to eat 30 pills to condense the Fire Dao Meridian. " Chen Xiang was very satisfied with this result.

After discovering this, Chen Xiang planned to refine more of these, this way, he would only need to eat 270 pills to condense 9 Fire Dao Veins, at that time, he would only have a lot more left.

He continued refining the Fire rule beads. What he was looking forward to was, in the future, the Space Laws or Flight Laws and other kinds of rare laws and powers could also be refined using this method. At that time, he wouldn't need to buy that much and he would be able to cultivate a rare Rule Dao line.

His speed was a little faster than before. Right now, he was eating all the pills and cultivating at the same time, but even so, he was still able to refine more than twenty pills in a day, which was about a month's time. He estimated that he would be able to reach tenth place of Dao God realm in about a month's time.

In just a day's time, he had cultivated a Dao meridian in fire, and in addition to his previous Dao meridian, he now had two.

Just as he had expected, he only ate thirty refined Law beads and broke through.

In order to break through to the tenth place of Dao God realm in one go, he asked Tai Shangzhen to send a message to him, telling him that he would be staying in closed door cultivation for a month, and that he would need to ask the owners of the shops to wait.

[Chapter 2699](#)

Jiang Simei also thought that it was nothing much, the shops were not in a rush, even if they sold out, as long as Chen Xiang knew how to refine these pills, he would still sell them quickly in the future, and with the lack of stock for a period of time, coupled with the fame of the Gumai Dan, the price would increase a little.

Just like that, Chen Xiang went back to cultivate peacefully.

He had just formed a Fire dao vein, he needed to consolidate this dao vein to be able to cultivate in the third meridian, at that time, his Gumai Dan would be useful.

The Gumai Dan that he had eaten were not the kind that he had refined in batches. What he had eaten was something that had been refined using the Crash method.

"The quality of Gumai Dan after is different!" Chen Xiang sighed in admiration. He had only taken two pills, and it was enough to stabilize his Fire Path Meridian, before continuing to refine Fire rule beads.

Just like this, more than twenty days passed. At this time, he had already cultivated up to ten dao veins, one of which was his basic dao vein while the other nine were fire Rule Dao line.

"I only used fire to increase my strength by a lot. The other aspects of the improvement are not very obvious!" Chen Xiang was a little disappointed, but his flames were indeed much stronger.

In terms of physical body, he was already strong enough, and had long reached the level of many tenth place of Dao God realm s, and even far surpassed it.

He had also only consumed two hundred Fire rule beads, because he could carry out six Crash s of Fire rule beads later on.

"I still have three hundred Fire rule beads left! This is three hundred Myriad Tao Crystals! " Chen Xiang planned to ask Jiang Simei again when he got back. Seeing as he had a way to deal with it, he didn't have any use for it now.

Now he began to eat the Tianhun gold Dan that had been refined by the Crash method, because he wanted to cultivate the Spirit of the Dao gods, and only by doing so would he be able to increase his strength greatly!

"Tai Dao realm mainly focuses on the Spirit of the Dao gods. The stronger the Spirit of the Dao gods, the stronger the dao force it can release. As for my Spirit of the Dao gods, it can release Primitive Tao Power, so it is much stronger than others."

Chen Xiang's refining techniques could allow him to produce pills with strong effects, such as the Tianhun gold Dan he was eating now had extremely strong effects.

He had carried out six Crash s of all those Tianhun gold Dan, so he could refine five pellets a day!

Roughly ten days later, he ate fifty of these Tianhun gold Dan and also cultivated Spirit of the Dao gods. This Spirit of the Dao gods was very special, it looked like a huge golden mirror that was suspended in the air.

At this time, one end of the ten Rule Dao line s was connected to the ten Law profound doors, while the other end was connected to the Spirit of the Dao gods!

"Let's see how strong the Primitive Tao Power is right now!" Chen Xiang's mind moved, the Divine Sense Sea mirror flashed and released a golden light. The golden light passed through the Rule Dao line and rushed into the Code Gate.

"What a strong flame!" Chen Xiang only felt the flame coming to his arm and he found it to be strong, he immediately kept it.

"It would be great if I could have a space dao meridian!" Chen Xiang could now use an even stronger power of the Fire Laws. After all, he had nine fire Rule Dao line.

Chen Xiang had isolated himself for a month and now he had also stepped into the Tai Dao realm. This had exceeded his expectations before, and even he himself had not expected that he would break through so quickly.

Chen Xiang hurriedly returned to look for Jiang Simei.

Jiang Simei did not say anything, she even hoped that Chen Xiang would cultivate for a long time! Right now, she was no longer able to clearly sense Chen Xiang's cultivation level, which meant that Chen Xiang was already around her level, and they were both in the Tai Dao realm.

In just a month's time, Chen Xiang, who was at the first level of the Dao God Realm, actually broke through to the Tai Dao realm.

"This... As long as there are enough Law beads, it will suffice. But looking at the Dao crystal in your hands, you can only purchase five hundred of them!" Jiang Simei couldn't understand.

"Elder Brother Shen, what method did you use?" Jiang Sijing was very curious.

"Hehe, I am a very powerful Alchemist. After I refine those Law beads, I will place several of each one on top." Chen Xiang smiled mysteriously: "This is a secret, don't tell anyone! If you need my help in refining it, you can just say so."

Jiang Simei and Jiang Sijing were both shocked that the Law beads could be refined as well. They nodded their heads immediately and became extremely excited, which meant that they did not need to buy too many Law beads to be able to cultivate such a rare Rule Dao line.

"Right, I'll go back to forge pills first. I'll wait for a day or two more!" Chen Xiang laughed.

... ..

After breaking through, all aspects of him had greatly improved. After all, he had risen by a whole realm.

The underground chamber that he was in was relatively small and he could only produce a hundred pill furnaces. In order to refine more Gumai Dan faster, he had poured more medicinal ingredients into each one of the Magic method furnace.

With his current strength, this was not as difficult as before, and he could still do it easily.

"Fifty pills per batch, this should be my limit!" Chen Xiang also had a lot of those red fruits. Jiang Sijing had always had a lot of them, so he could use a lot of them to refine.

In two hours, he had completed 100 batches of pills. Each batch contained 50 pills, and 5000 pills were completed just like that. He had refined 50,000 pills in an entire 10 hours, and his pill refining speed was simply insane!

After Jiang Simei obtained the Gumai Dan, he anxiously contacted the owners of the shops, telling them to come here to retrieve the cores, and they sold it very quickly.

"Meimei, there are three hundred Law beads here. Use them to buy a larger shop!" Chen Xiang handed the Fire rule beads over to Jiang Simei.

The larger the space, the more comfortable it would be to live in.

She only went there for half a day before she came back to look for Chen Xiang and Jiang Sijing. Afterwards, she moved to the little villa that she bought.

The old granny remained in the same shop.

"Sijing, it's so beautiful, have you guys thought about what kind of rare Rule Dao line you want to cultivate?" Chen Xiang laughed: "Next, we'll be earning Dao crystal more and more."

"I've already thought about it. I want to cultivate Death Rule Dao line and Ice Lightning Dao Veins. All of the required Law beads are worth ten million each." Jiang Simei said.

"My current Dao Meridians are pretty good" If you want to cultivate a rare dao meridian, that is, to regenerate a Rule Dao line. It can heal injuries, and it can also control a beast. " Jiang Sijing said: "They are also Law beads of the Thousand Myriad Tao's Crystal rank."

"Elder Brother Shen, what about you?" Jiang Sijing asked.

"What does the most expensive Law beads have?" Chen Xiang did not say it out loud, he did not think that there would be such strange laws here, he had not even heard of the rules that Jiang Simei and Jiang Sijing talked about before.

[Chapter 2700](#)

Chen Xiang actually wanted to cultivate the most expensive pill, at first, Jiang Simei and Jiang Sijing were very surprised, but when they thought of Chen Xiang's terrifying pill refining skills, they felt that it was nothing strange. = = =

"The most expensive thing is... The Space Laws, Law of Flight, Law of Annihilation, Law of Stars, Law of the Dragon Dao, these are all 100 million Law beads each. "

"Is there nothing more expensive?" Chen Xiang asked. He felt that the spatial and flight laws were more important, especially when fighting, and the Annihilation Laws also made him more interested. It sounded like a type of Law with a strong destructive power.

Of course, he was also very curious about the Dao of the Dragon!

There was no need for too many Rule Dao line s. Just one was enough and Rule Dao line could only use higher level laws.

For example, Chen Xiang knew how to use the power of space, but it was not high enough. If there was a Rule Dao line, his ability to use the spatial laws would increase by one level, and he could use it here.

"It should be gone, the more expensive thing is the primal laws, because they are not for sale." Jiang Simei said.

"Alright, I will start concocting pills now. I will calculate and see how many Gumai Dan I need to buy and how many I need to buy." Chen Xiang laughed.

"This is too much!" Jiang Simei said: "Oh yes, you can take a hundred Law beads from twenty of them?"

"Yes, your Law beads are all at the level of ten million. Why don't you try cultivating them first?" said. Twenty pills was still only two hundred million, he felt that it should be done very quickly.

"In theory, it will be very fast, but with so many pills, we will definitely become very famous. We just don't know how much trouble we'll attract then." Jiang Simei was very worried about this.

If the Gumai Dan was sold for two hundred million, then there would definitely be a lot of them, so he could roughly calculate how many there were.

"Looks like we have to keep a low profile." Chen Xiang nodded.

... ..

Chen Xiang was concocting pills in the basement, which amounted to fifty thousand in one day. After he closed up for ten days, he managed to refine five hundred thousand pills.

Of course, she did not dare to release so many goods at once. She would definitely cause trouble and would do as she was told.

But even so, her reputation was very big, after all, the supply of Gumai Dan was very large, and the effects were not bad, for many people, it was very useful, allowing them to quickly consolidate their Rule Dao line.

Chen Xiang suddenly thought of a way, he immediately went to look for Tai Shangzhen.

"Senior Tai, did you get promoted?" When Chen Xiang arrived, he laughed and said.

"Yes, I'm the manager here now." Because he had made a huge deal with Chen Xiang last time, Tai Shangzhen was highly regarded, "Do you have some kind of big business deal with me again?"

Chen Xiang nodded his head, with a stern expression, Tai Shangzhen anxiously brought him to a private room.

"To be honest, the famous Gumai Dan today was created by me." Chen Xiang had known Tai Shangzhen for a long time, so he had confidence in Tai Shangzhen. He felt that the Eastern Dragon Mountain Villa Tai Shangzhen joined was pretty good, so he wanted to ask Tai Shangzhen a few things.

"So that's how it is. No wonder you're so rich." Tai Shangzhen chuckled: "You should be the big boss behind Mei Jing Store's scenes."

"Something like that!" Chen Xiang revealed a face of worry: "Now that the business is big, I am worried that it will cause trouble. Senior Tai, do you know any experts that are lacking Dao crystal? I want to invite a few of them to guard my Mei Jing Store!"

The Mei Jing Store was named after Jiang Simei and Jiang Sijing, and did not sell pellets to individuals, they only sold them to the shops.

Honestly speaking, not long ago, we were found by those fellows from the Black Tiger Stockaded Village. Chen Xiang sighed.

"That's not a problem, I knew two good guys in Eastern Dragon Mountain Villa. They are old guys like me, who are usually idle, but they are very strong, and their parents are both elder-class people in Eastern Dragon Mountain Villa." Tai Shangzhen said: "If they had protected the Mei Jing Store, the others would definitely not have come back to cause trouble."

"Oh? Do you trust these two people? " Chen Xiang asked.

"Of course you can, I, Tai Shangzhen have always been very accurate with regards to other people." Tai Shangzhen patted his chest and guaranteed: "I'll guarantee it, you don't have to worry."

"Can you tell me about the two of them? I want to know more about them." Chen Xiang asked.

"Of course they can, they are two brothers with the same surname, and it's also because of this that we know each other. Brother's name is Tai Bao, brother's name is Tai Bo, his parents are the elders from the Eastern Dragon Mountain Villa, they normally don't like to earn Dao crystal, because their parents are both elders."

"Because of this, people in the Eastern Dragon Mountain Villa say that they are lazy eaters, and they always want to find relaxed and decent jobs to do them. If they can earn a few more Dao crystal, they would be even happier."

Chen Xiang also felt that this was a pretty good candidate. Since his parents were all elders of the Eastern Dragon Mountain Villa, the other forces would definitely be wary of them.

"Then, go and ask them how many Dao crystal they need every year!" Chen Xiang said: "It would be even better if I could talk with these two seniors."

"That's easy. I'll send someone to get them now." Tai Shangzhen said.

Not long after, two white-robed elders walked in. Although they had a head full of white hair, they were very neatly groomed. They looked like older disciples of a famous sect, and were very concerned about their appearance and appearance.

"This young friend is Chen Xiang, right?" When the taller old man saw Chen Xiang, he laughed heartily: "I am Tai Bao."

"I am Tai Bo!" The other old man had a kind smile on his face. He didn't seem to be of any value at all. Although they were all old, there was a sense of nobility to them.

"This kid greets the two seniors." Chen Xiang also quickly bowed.

After that, Tai Shangzhen briefly told the two brothers about Chen Xiang, and after they found out about it, they were extremely surprised. They did not expect the owner of the Mei Jing Store to be so young.

"Right now, Mei Jing Store has indeed received attention from many powers. Fortunately, the shops that Mei Jing Store cooperates with all come from the seven great villas, so the seven great villas only paid attention to it and did not send anyone over to temporarily contact them!" Tai Bao nodded his head: "If you ask us to stand guard, this will not be a problem. With the reputation and prestige of us two brothers, the other powers will not dare to find trouble with you."

"At present, the Gumai Dan sold by the Mei Jing Store does not have any conflicts of interest with the Seven Great Villa's medicine stores, and it even makes those shops profitable. It can be seen that the people operating the Mei Jing Store are extremely quick-witted." Tai Bo laughed: "If you add on the fact that we are here, I can definitely let you rest easy!"

"How much do the two elders need in return?" Chen Xiang asked. These two old men looked very friendly, but Jiang Zhong was older after all, and both of them needed a decent amount of income.

"One year, thousand Myriad Tao Crystals!" Tai Bao said, while Tai Bo also nodded his head.

Tai Shangzhen was surprised. "Isn't that a bit too much?"

"Brother Shang Zhen, this is not too high. Because some things happened, us two brothers are going to take action. We even need to ask our parents for help." Furthermore, these thousand Myriad Tao Crystals are split between us two brothers, and not only is it ten million each. Tai Bao said.

"Alright, I'll come back here to trade with you in three days." Chen Xiang nodded his head. He thought that the other party was taking too little, and thought that they would offer a price of over a hundred million. He didn't expect them to only offer ten million, and two at that.
