

Dan God 2701

[Chapter 2701](#)

Previously, Chen Xiang had used ten days to refine five hundred thousand Gumai Dan. If he sold them all, he would be able to earn more than two hundred million Dao crystal.

When he returned to the Mei Jing Store, the first thing he saw was that the Mei Jing Store's door was rotten to the core.

Chen Xiang's heart tensed up, he immediately rushed into the Mei Jing Store, only to see more than 10 big sized men surrounding Jiang Simei and his group.

These black clothed men were all very familiar to Chen Xiang and he immediately recognized that they were people from the Black Tiger Stockaded Village.

"What's going on?" Chen Xiang immediately rushed over and stood in front of the two sisters, his voice bringing with it a bone-piercing coldness.

Jiang Simei and Jiang Sijing's faces were ugly, and what was inside was also tattered and tattered, one could tell that they had attacked just now, but they were unable to defeat these big sized fellows.

Could it be that you are the Alchemist who refined the Gumai Dan? The black-clothed man in the lead laughed.

"Talking is fine, but before we start talking, I want to ask you all whether you made a move here or not. You were the ones who destroyed the door." Chen Xiang was furious to the extreme, how could this Black Tiger Stockaded Village be so bold as to directly attack him.

He remembered that Jiang Simei had spoken with the shops, if Black Tiger Stockaded Village dared to come and cause trouble, the shops would definitely help, and Black Tiger Stockaded Village was definitely aware of this, but they still came to make trouble, and it must be because of someone from the Black Tiger Stockaded Village.

"That's right, we are only here for Jiang Simei to discuss business, but she rejected us outside. Our Black Tiger Stockaded Village is quite famous in the Myriad Tao City, to actually look down on us, in our anger, we could not control our emotions, and that would be rude."

"After entering, this woman did not bother to be reasonable and directly attacked us. We also did not injure them. Else, they would have already died."

Chen Xiang's expression became colder and colder, but the big sized man was not afraid at all.

"All of you need to be clear that our Black Tiger Stockaded Village is prepared for you. Don't think that those shops will stand up for you." The man laughed: "I'll just say it directly now, sell your Gumai Dan to us, we four hundred Dao crystal will buy one from you."

Jiang Simei sold them for five hundred Dao crystal s to other stores, but this Black Tiger Stockaded Village was actually bidding at four hundred. This caused Chen Xiang to be even more furious in his heart.

"Don't go too far, I will give you a chance. Leave a hundred Myriad Tao Crystals as compensation, or else I will fight to the end with you." Chen Xiang said.

Jiang Sijing pulled Chen Xiang, they had exchanged blows with this group of people previously and knew that they were all very strong, but when Chen Xiang had just stepped into the Tai Dao realm, they believed that Chen Xiang's strength was similar to theirs.

Who are you kid? The sons and grandsons of the Seven Great Villa's Villa Masters and the high disciples of the Leader s, you actually dared to say such arrogant words to our Black Tiger Stockaded Village s. "

"Let me tell you, hurry up and sell it to us Gumai Dan at a low price, otherwise, don't think about doing business here in the Myriad Tao City, do you know who the backer of our Black Tiger Stockaded Village's chief is?"

Chen Xiang clenched his fist tightly, channeled the Primitive Tao Power in his body, and said in a deep voice, "All I know is that the bastards of your Black Dog Stronghold are all shameless dogs that can't get rid of their piss."

With that said, Chen Xiang took a step, and already appeared behind the big sized man. The Primitive Tao Power that surged with incomparable rage, roared out angrily the moment it passed Chen Xiang's arm.

The big sized man never thought that Chen Xiang would actually dare to make a move against him, and at such a fast speed. Just as he was about to dodge, Chen Xiang's fist had already struck his face.

Boom.

The shockwave was accompanied by a burst of intense fiery light as it exploded out. The scorching wave of flames made the Mei Jing Store feel as if he was in a furnace.

The leading man's face was smashed into pieces by Chen Xiang, as though someone had ripped a piece of flesh off his face. This kind of berserk power caused everyone to tremble in fear.

"You ... "Ah ..." The big sized man covered his face and shouted in pain. At this moment, he was completely confused, Chen Xiang's punch earlier was filled with anger.

His Primitive Tao Power was not just any ordinary dao power. Adding to the fact that all ten of his profound gates were open, even the fourth or fifth stage of Tai Dao realm was not his opponent.

"Hurry up." The big man shouted in anger, "Cripple this kid!"

Just as he finished shouting, the ghost-like Chen Xiang had already rushed to the back of the group and struck out his palm at the person behind the two. The berserk Heaven Blasting Palm's power, which carried the flaming force of an angry dragon, surged into the two people's bodies, shaking them and causing their chest to be ripped apart.

Chen Xiang's Shrinking step was extremely mysterious, moving as fast as teleportation. In the blink of an eye, it had already flashed past, and then, a fierce fist struck over. Although being hit by his fist wouldn't kill him, he would definitely be severely injured.

Boom! Boom! Boom!

In just a few blinks of an eye, the entire group of Black Tiger Stockaded Village were severely injured by Chen Xiang, and each one of them was thrown out of the window by Chen Xiang.

Chen Xiang walked out, and ruthlessly trampled on the burly man leading the group. He then punched him again and again, covering his entire body, and beat the burly man until he was like minced meat.

This is what I returned to you all along with the last time. When I go back, I need to tell your Black Tiger Stockaded Village's chief that if he doesn't bring the one billion Dao crystal, I will personally fetch his dog head.

Chen Xiang's cold voice carried an extremely insolent might, scaring the group of people to the point they struggled to get up, dragging their leader who was like mud as they swiftly fled.

Jiang Sijing was already dumbstruck, trembling in fear, she never thought that the normally gentle Chen Xiang would actually be so terrifying when angered, and was even more impressed. She thought that Chen Xiang was only capable of refining pills, and was not very strong.

"Meimei, how many Gumai Dan have you sold? How many do you have right now?" Chen Xiang asked.

"I sold it for thirty thousand crystals, that's one thousand five hundred Myriad Tao Crystals." Jiang Simei said.

"Alright, come with me." Chen Xiang immediately brought them to the store in Eastern Dragon Mountain Villa. Neither Tai Shangzhen nor the two Tai Clan elders left.

Tai Shangzhen saw that Chen Xiang had arrived and laughed: "You're here already."

Chen Xiang nodded, took out a thousand Myriad Tao Crystals and gave it to the two elders, and said: "Seniors, these are one thousand Myriad Tao Crystals ... But let me make it clear first, just now, I beat up that fellow from Black Tiger Stockaded Village. "

Afterwards, Chen Xiang told them about the group of people who had attacked the Mei Jing Store and how they had besieged him, making the two elders very angry.

"To think that a small Black Tiger Stockaded Village would be so arrogant. I would like to see who the backers of the village chief is. Don't worry, since we have accepted your Dao crystal, we will definitely protect you." Tai Bao received Chen Xiang's Dao crystal and said, "This book is from 17K, read the original content immediately!"

[Chapter 2702](#)

Ten million in a year, 100 million in ten years, and he didn't even need to do anything. This was quite a high income, especially since these two elders didn't have much of a special background.

In fact, there were many powerhouses and descendants who did not have any good methods to earn many Dao crystals. Hunting beasts were too tiring and dangerous, and refining pills was not something anyone could learn. Furthermore, it was tiring as well.

Therefore, these two elders felt that accepting Chen Xiang's job was extremely worthwhile.

"How about this, we will go to the Mei Jing Store today. If they come back to the Mei Jing Store again in the future and cause trouble, we brothers will immediately capture them. At that time, you can do whatever you want." Tai Bo chuckled, "Black Tiger Stockaded Village is also just a small force within the Western Tiger Mountain Villa, there's nothing to be afraid of."

Just like this, Chen Xiang and the two elders returned to the Mei Jing Store. Now, Jiang Sijing and Jiang Simei also felt more at ease.

The tyranny of the people of the Black Tiger Stockaded Village was already known to everyone in the Myriad Tao City. However, normally, they only dared to bully those who had no power or power, but now they were beaten up and thrown into the streets, this had never happened before.

At this time, Chen Xiang was busy tidying up the shop with Mei Jing Sisters. The two elders had also wanted to help, but Chen Xiang did not allow them to do so, allowing them to sit by the side and drink tea.

"Those shops that cooperate with you are truly unloyal. They just got scared and didn't dare to make a sound, hmph." Chen Xiang thought that this plan was very safe.

"I didn't expect that either... Sigh, things are unpredictable." Jiang Simei sighed.

"Speaking of which, we are in charge here now, you can sell the Gumai Dan yourself. In any case, the shops that you are working with did not stand up at this critical time, and there is no longer a need to work with them." Tai Bo said: "Although those shops have the strength, if they were to join forces, they could still suppress Black Tiger Stockaded Village, and the one who supports Black Tiger Stockaded Village."

"They were afraid of trouble, that's why they did not make a move. I felt that they looked down on you guys in their hearts, and thought that even if you were bullied by the Black Tiger Stockaded Village, they would still look for you to do business in the future." Tai Bao also nodded and said.

"Seniors, we will just sell the Gumai Dan like this. Are we really not going to be bothered by other shops?" Jiang Sijing asked softly.

"Little girl, although we are not the strongest here, but our parents have power in the Eastern Dragon Mountain Villa, and are considered top ten experts, and have a lot of authority in the Eastern Dragon Mountain Villa, other than the Eastern Dragon Mountain Villa, if other powers knew that we were here, they would definitely not cause trouble, even if they had the power, if they provoked us, it would definitely be very troublesome."

Chen Xiang thought about it, also thinking that it would be great if he could sell it, he could earn more this way.

"Meimei, we'll sell it ourselves from now on. Don't sell it to those guys." Chen Xiang said.

Jiang Simei did not answer immediately, but was thinking instead.

"To guard the store every day and sell it to a lot of people is very troublesome... I do have a good style." Jiang Simei smiled mysteriously.

"Tell me about it." Chen Xiang was very curious.

Jiang Simei came in front of the two elders and smiled: "Seniors, Eastern Dragon Mountain Villa should have many medicine shops in this Myriad Tao City. According to what I know, these are all opened by different factions within the Eastern Dragon Mountain Villa."

"Not bad, although these shops do not belong to the same person, their relationship is still good, and they are evenly distributed throughout the Myriad Tao City. This is also to avoid competition and conflict." Tai Bao nodded his head, and laughed: "Girl, don't tell me you want to sell all of your Gumai Dan to our Eastern Dragon Mountain Villa's shops, that's fine."

"No." Jiang Simei chuckled. "I want to sell the Gumai Dan to the two seniors, our price is five hundred Dao crystal s per pellet, and the ones that are sold on the market is seven hundred, or even seven hundred and five hundred, I can sell them to you two. Then, you two can add a few Dao crystal s for sale to those shops, this way you can also earn a bit of difference in prices."

Tai Bao and Tai Bo looked at each other, and suddenly felt that this idea was not bad, they knew that Chen Xiang had a lot of pills, otherwise they would not be able to give them the thousand Myriad Tao Crystals.

"Furthermore, we can give you guys the goods first. Wait until you sell the Gumai Dan s, then you can pay us." Jiang Simei laughed.

"We have grown up, although we have done business before, we have never made a lot of money before. Little girl, tell us, if we help you sell your Gumai Dan, how much can we earn?" Tai Bao asked.

"That's too much, so much that you can't imagine, that's more than if you took a thousand Myriad Tao Crystals in a year." Jiang Simei laughed mischievously: "Let me calculate for you guys, I now have around five hundred thousand Gumai Dan in my hands."

"If you five hundred Dao crystal s are to sell them, if you add a hundred to the price, you can earn one hundred Dao crystal per pellet, after which you can obtain five hundred thousand pellets. that would be five thousand Myriad Tao Crystals. "

When the two Tai Bao elders heard about the five hundred thousand pills, they were shocked. They were very curious as to how Chen Xiang had refined so many Gumai Dan.

"There really are that many." Tai Bao did not dare believe it: "If there really is that much, I will help you sell it right now and I will also return the thousand Myriad Tao Crystals that I took from you earlier."

Jiang Simei handed over a Storage bag over to Tai Bao. When Tai Bao received it and took a look, he was immediately stunned.

When Tai Bo looked at it, his expression was the same as Tai Bao's earlier.

"Alright, I'll sell it now, hehe." Tai Bao was very happy, he could only earn so much, and that was only enough to let him make a few trips. He believed that the Eastern Dragon Mountain Villa had the ability to eat that much.

Before, Jiang Simei did not even look for those large shops, because large shops were not easy to talk about. However, Tai Bao and the others were different, because they all said that the status of the Eastern Dragon Mountain Villa was very high.

It was only when it was night time that Tai Bao returned with a smile on his face. It was obvious that his mood had improved by a few points.

"This is for you. 250 million."

As expected, Tai Bao sold all of those Gumai Dan, and then sold five hundred Dao crystals to Chen Xiang and the others, at the same time returning the thousand Myriad Tao Crystals.

"Old grandpa, how much did you sell it for?" Jiang Sijing was extremely curious.

"I added a hundred and fifty, and sold six hundred and fifty Dao crystals to them one pellet. In any case, I'm the only one selling them." Tai Bao laughed, "This business is worth it, it's just one vote, but it's already more than what we earned in the past."

Tai Bao had also gotten half of the profit, so the relationship between the two brothers were still very good. Tai Bao had increased by 150, so he had earned more than 70 million.

"Alright, we'll be partners from now on. If anyone dares to cause trouble for you, we'll definitely let them have a good time." said. Cooperation with Chen Xiang and the others was much more worthwhile than charging them protection fees.

At this moment, loud noises came from outside.

With a boom, the door that had just been repaired was smashed open again. The Black Tiger Stockaded Village's people had come.

[Chapter 2703](#)

The Gumai Dan in Tai Bao's hands were all sold to the Eastern Dragon Mountain Villa's shops, the shops did not advertise that they were the two who were selling them, they only knew that it was a big shot inside the Eastern Dragon Mountain Villa, because he was selling a lot, it was just too shocking.

In order to not cause a sensation, Tai Bao made those shops not to announce that they would eat so much, as long as they sold the Gumai Dan like they did before.

Therefore, the people of Black Tiger Stockaded Village did not know that Tai Bao had already started working with Chen Xiang.

"You bunch of bastards. When you see the sworn brothers of our chief and chief, hurry up and greet them." A man with a sharp mouth and monkey cheeks shouted.

"Are you guys here to deliver the Hundred Myriad Tao Crystals?" Chen Xiang asked: "Like I said before, if I do not deliver the Hundred Myriad Tao Crystals, I will take away the head of your village chief."

"I wonder if the chief of the village will bring over the Hundred Myriad Tao Crystals or your own head."

Chen Xiang and the others saw the Black Tiger Stockaded Village's chief wearing a black cloak and armor, he was a middle aged man with a big beard. Beside him was a slim middle-aged man wearing white clothes and holding a fan.

"Arrogant brat, do you know who our Black Tiger Stockaded Village's sworn brothers are?" The monkey-like man sneered: "He is the son of the Western Tiger Mountain Villa's Internal Affairs Elder."

Hearing this, Tai Bao immediately laughed out loud. "I was wondering who it was, it was the little bastard who was hired by Western Tiger Mountain Villa."

"What did you say?"

His father was the Western Tiger Mountain Villa's Internal Affairs Elder and was indeed in charge of odd jobs. It would not be bad to call him a servant, but to the man, this form of address was filled with ridicule and humiliation.

However, even if he is the son of an elder of Western Tiger Mountain Villa, I am not afraid. Honestly speaking, the Western Tiger Mountain Villa has become more and more useless in the recent years, to actually be able to depend on this kind of business to support his livelihood, it is truly laughable. Tai Bao continued to mock him.

"Old bastard, are you tired of living? You're courting death."

The Black Tiger Stockaded Village's chief rushed forward, holding a long blade in his hand, but just as he entered the door, Tai Bao's eyes flashed, two rays of green light shot out, followed by a dragon's roar, and a ball of green light struck the Black Tiger Stockaded Village's chief's body, sending him flying.

"This is the Eastern Dragon Mountain Villa's green dragon law, a type of the Dragon Dao law. You are people of the Eastern Dragon Mountain Villa."

Those disciples of the Eastern Dragon Mountain Villa who understood the rules of the Dragon Way were not ordinary people. Those were people who obtained the legacies of the Eastern Dragon Mountain Villa, people who were directly related to the people in charge of the Eastern Dragon Mountain Villa.

"Junior, consider yourself sensible, you have your eyes on the Gumai Dan here, they can make profits for you, using forced selling methods, this method is extremely despicable, and before that, your Black Tiger Stockaded Village also stole the shops of these little ghosts, what do you think we should do with this account." Tai Bo walked to the front with his hands behind his back and said with a cold smile.

"Here are 100 Myriad Tao Crystals." The chief of the Black Tiger Stockaded Village took out a hundred Myriad Tao Crystals hastily. Their Black Tiger Stockaded Village had been acting tyrannically for so long, but that was because they would never anger someone with power and influence.

But this time, they didn't expect that Jiang Simei, the little girl, would actually invite a direct disciple of the Eastern Dragon Mountain Villa.

"Little girl Simei, tell me how should I deal with them." Tai Bao laughed.

"The Black Tiger Stockaded Village's chief had already taken our shop, and now he is here smashing everything up. This is not something that can be made up for with the help of Dao crystal. If we cripple him, he will fall onto the Mei Jing Store."

Jiang Simei said, then looked at the white clothed man and said: "If it wasn't for this guy supporting us from behind, Black Tiger Stockaded Village would not be so fierce, compensate us with 1000 Myriad Tao Crystals, or else we will end up like the chief."

"You ... Ten million, that's too much." The white-robed middle-aged man's expression was extremely unsightly.

If you don't give it, I'll kill you. If you want to live, it's the Dao crystal, you can't give it to me. Let your father send it over, we want to see how your father will react to the fact that you and the Black Tiger Stockaded Village did this. Tai Bao said.

After bullying Chen Xiang and the others over and over again, if Tai Bao and the others were to kill the middle aged man, the Western Tiger Mountain Villa would not say anything. The Internal Affairs Elder was not an important person in the Western Tiger Mountain Villa, and his position was not high either.

Just as the white robed middle aged man was hesitating, Tai Bo suddenly flashed and arrived beside the Black Tiger Stockaded Village's chief. At the same time, he threw out a few palm strikes, causing the chief to scream miserably.

The chief of the stronghold had done all sorts of evil deeds. He had done this quite a few times. However, he had never expected it to happen to him.

"This is ..." I do not have that many five hundred Myriad Tao Crystals at the moment, give me a few days, I will definitely deliver it to you personally. " The white clothed middle aged man took out five hundred Myriad Tao Crystals and gave them to Jiang Simei.

"No, you must stay here. God knows you will run up there." Tai Bo grabbed him.

Just as the white robed middle aged man was in a difficult situation, a black clothed elderly man walked over and handed over a Storage bag to Tai Bo.

"There are five hundred Myriad Tao Crystals inside. He should be able to leave now, right?"

This old man was the Western Tiger Mountain Villa's Internal Clan Elder. When he heard that Tai Bao had sold a lot of Gumai Dan to Eastern Dragon Mountain Villa's stores, he remembered that his son had allied with the Black Tiger Stockaded Village to control the source of the Gumai Dan. Then, he immediately rushed over.

"Take care of your son. If this was in our Eastern Dragon Mountain Villa, you would also be punished. I never thought that the Western Tiger Mountain Villa would not fall to such a state." Even if Tai Bao faced the Internal Affairs Elder, he was not afraid, because he had strength and reason.

This matter was finally resolved, and the Black Tiger Stockaded Village was dissolved in one night. The half-dead chief was hung on an iron shelf beside the entrance of the Mei Jing Store.

This matter was quickly known to the entire Myriad Tao City, especially to the shops that were cooperating with the Mei Jing Store, they were all extremely regretful at the moment. If they were to report up high and let the forces behind them help the Mei Jing Store through, perhaps they would be the only ones selling Gumai Dan.

Currently, all the Gumai Dan were in the hands of the Eastern Dragon Mountain Villa, and they were even being sold at a higher price.

Tai Bao, together with Tai Bo, earned a lot of Dao crystal from the collaboration between them and the Mei Jing Store. This matter was also known to the people of the other villas, and this matter also made Tai Bao and the two elders feel very face, because they had earned a few thousand Myriad Tao Crystals without using any strength at all.

Not only did they earn money, they also obtained Gumai Dan for the Eastern Dragon Mountain Villa. This made the elders and villas of the Eastern Dragon Mountain Villa have a whole new level of respect for them, and they secretly praised them.

Chen Xiang also had to work hard to concoct pills now. What he was preparing to do next was to buy rare Law beads, and that was to make preparations to go to Myriad Tao Mausoleum in the future.

Myriad Tao Mausoleum was extremely dangerous, if there were any Laws of Flying and Space, there would be an additional safeguard for it. [Chapter 2704](#)

Chen Xiang had isolated himself for ten days, and had refined a few hundred thousand Gumai Dan. Right now, everyone in the Myriad Tao City knew just how effective Gumai Dan was, and the demand for this kind of pill was quite large, so it could be sold for a while.

After coming out, Jiang Simei saw Chen Xiang, and anxiously walked over, took out two Storage bag and said: "One of them is a Death Law beads, the other one is a reborn Law beads, both have ten."

Chen Xiang took it and nodded: "Alright, I'll help you guys refine it soon." Afterwards, he also gave the Gumai Dan to Jiang Simei.

"Meimei, go and investigate what pill the Tai Dao realm needs to grow faster." Chen Xiang said.

"Alright." Jiang Simei was also doing his research everywhere these days. After all, this was a business, and he had to understand the market's needs.

Right now, she had investigated that the Myriad Tao City still needed Gumai Dan s very much. There were many people in the Myriad Tao City, and there were also many powers outside the Myriad Tao City who needed Gumai Dan s very much.

Consolidating cultivation channels was a headache for many people. Previously, Jiang Simei had been troubled for a period of time, but after eating the Gumai Dan, he was able to resolve it very quickly.

Even if the current Eastern Dragon Mountain Villa offered a higher price, many people would still be willing to buy it.

Chen Xiang continued to close up, this time refining his Law beads.

Jiang Simei wanted to cultivate the Law of Death, it was a type of Code power that had a strong killing power. For a violent woman like Jiang Simei, it wasn't strange for her to train in this Code.

A hundred thousand Law beads required ten million one pellets, and Jiang Simei had only bought ten. After Chen Xiang refined them with the Crash method, one pellet was worth three and a half, so more than half of the ten pellets were completed.

Then came the Law of Regeneration, which was what Jiang Sijing wanted to cultivate.

A few days later, Chen Xiang had very successfully refined these Law beads, and their effects had increased by several times.

After he came out, Jiang Simei and Jiang Sijing had also gone to refine the Law beads, and in this period of time, she had also sold the Gumai Dan to the two Tai Clan elders. She gave all two hundred and five million Myriad Tao Crystals to Chen Xiang.

But to buy those rare Law beads, it was only enough to buy three.

Of course, this was extremely fast, because as long as he used the Crash method to refine it, thirty pellets would be enough for him to cultivate up to the level of a rare Rule Dao line.

"Seniors, it's not bad to get up." Chen Xiang laughed.

"Of course, we are the big red man in the Eastern Dragon Mountain Villa now, the manor lord thinks very highly of us." Tai Bo laughed.

"It's all thanks to you." Tai Bao said, they would visit here everyday, and the Mei Jing Store had also closed the door, opening it only to enter a small courtyard.

Since they knew the relationship between the two elders and the Mei Jing Store, no one from the other shops dared to come. Instead, they secretly sent a message to Jiang Simei, wanting to cooperate with him, but was rejected by him.

"Oh right, is there anything going on with the Myriad Tao Mausoleum in this period of time?" Chen Xiang came here to take a look at the Myriad Tao Mausoleum.

Usually, he went inside the Myriad Tao Mausoleum at that time to investigate, and a lot of people would die every time he went there. Furthermore, the last time he went there, many strong warriors were trapped inside. My father was trapped inside for hundreds of years last time, and ran out when he opened it last time. Tai Bao said.

"The Myriad Tao Mausoleum does have some good stuff, but don't think too much about it. Usually only the top people would dare to go in, and us two brothers are only there to join in the fun." Tai Bo sighed: "The last time it was opened, a strong cousin of ours died inside."

"So dangerous." Chen Xiang never expected that, no wonder so many people planned to stay.

"This Myriad Tao Mausoleum is also very strange. Sometimes, it's very dangerous, and when you enter, you will die for no reason. Sometimes, you will also be very safe, and when you enter, you won't encounter any dangers. Tai Bao said in a low voice: "This is a secret, no one else knows about this."

"What can I get?" Chen Xiang asked: "Is it a cultivation technique or something like that?"

"So far, no one has ever obtained a cultivation method from inside, instead, they have obtained some rare Law beads, such as the Space Laws, the Law of Flight, the Law of the Dragon Path, and so on. In addition, there are also the mysterious Primal Laws and the Laws of Creation." Tai Bao said in a low voice, "My father had only obtained two primordial Law beads."

"The's Divine Stele doesn't have the Ancient Code of Creation, but there are also the Laws of Heavenly Refining and the Laws of Sword. These are all rather special and rare." Tai Bo added.

This made Chen Xiang even more curious. He had never heard of the existence of the Heaven Refining Code before.

"Then how long will it take for it to open again?" Chen Xiang asked.

"It seems like it won't be long, but we don't know the specifics either. We'll go back to the Eastern Dragon Mountain Villa to ask for it later, we'll see if the old guy in the Villa can figure it out." Tai Bao said.

"Little brother, why are you asking this? You can't be thinking of going in, right?" Tai Bo was a little curious.

Heh heh, of course not. I just want to make some pills that will increase my cultivation level before we start. That way, more people will be able to improve their strength. Chen Xiang laughed.

"That's not bad. Every time before Myriad Tao Mausoleum opens, all kinds of pills will rise sharply. Now, we really need to make preparations." Tai Bo laughed.

After that, the two old men left to help Chen Xiang find the exact time of opening the Myriad Tao Mausoleum.

Chen Xiang returned to his room, took out the Emperor seal, and then entered it. He saw the green dragon.

"Senior Azure Dragon, have you heard of that Myriad Tao Mausoleum before?" Chen Xiang asked. This green dragon was the green dragon of the Divine Wasteland.

"Myriad Tao Mausoleum, this is a very scary place. It's very easy for people to lose themselves in it." The green dragon suddenly said.

"You know a lot about the Myriad Tao Mausoleum. I heard that there are a lot of good things you can get from entering." Chen Xiang said: "Furthermore, the few Dao Patriarchs that entered previously caused many of the supreme divine arts to be lost."

"Really? Back then, I was once summoned by a mysterious voice to go search for this place. Before this, there were already many warriors who mysteriously went missing. The green dragon was suddenly very interested in the Myriad Tao Mausoleum.

Chen Xiang told the green dragon the general situation of the Myriad Tao City.

"Eastern Dragon Mountain Villa, this villa sounds like it has something to do with me. Could it be that it was established by my disciples all those years ago?" The Azure Dragon was very suspicious, "Apart from me, the White Tiger, Black Tortoise and the Vermillion Bird should be in the Divine Wasteland. If there's no news about them, they might be here.

[Chapter 2705](#)

Chen Xiang didn't want to look for them, because he didn't know if they were friends or foe. What he needed to do now was to earn Dao crystals and cultivate the spatial laws.

This Emperor seal was also one of Chen Xiang's killing moves, he would not use it so easily.

Chen Xiang left the Emperor seal and took out the Chuangshi god furnace. Right now, he was refining them into Tianhun gold Dan s, so this was something that could cultivate Spirit of the Dao gods and could be sold at an even higher price.

"Right now, I have to familiarize myself with refining Tianhun gold Dan. If I want to earn billions to buy those Law beads, just relying on Gumai Dan is not enough." Even if Chen Xiang could refine Law beads s, he would need several dozens of them.

If he wanted to cultivate the spatial laws of the Law of Flight, he would need thirty of each, which would be equivalent to around six billion Dao crystal.

In a single day, he had refined ten batches of pills, and this speed was still too slow for him, but he was still familiar with the process, and it didn't matter if it was slow, as he could raise it in the future. Furthermore, when he was close to refining, he had controlled multiple pill furnaces and used the Dawan refining method.

Most of the time, he could control ten thousand pill furnaces to practice true ten thousand refining techniques. As long as he had enough ingredients, he would be able to produce pills very quickly.

For the past few days, Chen Xiang had been refining this kind of Tianhun gold Dan, and the speed also continued to increase. The faster he refined, the more he got familiar with this type of pill.

"Now let's see if I can control a hundred pill furnaces at the same time." Chen Xiang immediately released a hundred Magic method furnace, and then began to refine medicinal ingredients.

Fortunately, with Jiang Sijing's heaven defying laws of the Earth, he was able to grow medicinal herbs quickly. Otherwise, if Chen Xiang were to use the Creation God's Spring to cultivate it, it would be very difficult for him to keep up with his consumption.

Therefore, he planned to help Jiang Sijing cultivate complete rebirth laws. Jiang Sijing would also need twenty more rebirth Law beads s that had gone through impact refining. This was equivalent to two hundred million Dao crystal, and it was also very easy.

After half a day, Chen Xiang had finally finished refining those hundred batches of Tianhun gold Dan. There were six hundred in each batch.

Compared to the Gumai Dan, this speed was still very busy. When he refined Gumai Dan, he could refine 50,000 pills in a day.

"Looks like I'll have to continue practicing. I'll need a hundred batches in two hours and sixty pills in one batch." Chen Xiang had only just started using the Dawan refining method, so it was normal for him to slow down.

If he put ten of them in, the difficulty would be even greater. Furthermore, ten sets of medicinal herbs would be refined in an hour, which was also very difficult. He would need to practice a great deal in order to slowly master this step by step.

After a few days had passed, Chen Xiang was now able to refine twenty thousand Tianhun gold Dan in one day. This was pretty good for him, and every time he finished refining, he would be exhausted and had done his best.

Right now, he had fifty thousand Tianhun gold Dan in his hands, but he did not eat them. His current goal was to cultivate a spatial dao vein.

Because he couldn't use the power of space, he felt extremely insecure.

When he walked out of the secret room, Jiang Simei and Jiang Sijing had also refined all of those Law beads.

"How's the effect?" Chen Xiang asked.

"The effect is very good. One pill is equivalent to four pills. I will probably only need to eat another fifteen pills." Jiang Simei laughed: "At that time, if someone like the Black Tiger Stockaded Village comes looking for trouble with us, I can beat them down myself."

Meimei, this is for you, go and contact the two seniors to discuss the price of the Tianhun gold Dan. I will be preparing to sell the Tianhun gold Dan as the main force, I think many people need it, especially the Tai Dao realm. Chen Xiang said.

"Fifty thousand pills! Did you refine it in a day?" Jiang Simei asked, she already knew that Chen Xiang's pill refining speed was extremely terrifying.

"Of course not, I refined it in a few days, but the progress will be even faster in the future. With this pill, I think that it should be able to help a lot of Tai Dao realm cultivate to the peak in a short while." Chen Xiang laughed.

"Of course, the effects of the Tianhun gold Dan are extremely strong, as long as enough Dao crystal are bought and eaten, their cultivation will definitely increase by leaps and bounds." Jiang Simei said.

Chen Xiang looked at Jiang Sijing and said: "Sijing, how are the medicinal herbs that I asked you to cultivate earlier?"

"The planting conditions are quite good. Here." Even if Jiang Sijing took out a few Storage bag, they were all arranged by her, there were still tens of thousands.

The cultivation speed of the Tianhun gold Dan wasn't as fast as that of the Gumai Dan, because there were many types of herbs that needed to be grown. Although Jiang Sijing grew the plant fast enough, Chen Xiang felt that it was still not enough.

"Sijing, how about this ... You enter my Divine Sense Sea and help me grow it. There's that water inside, and if you use that water to help me grow it, it should be very fast." Chen Xiang said.

"Alright." Jiang Sijing agreed without even thinking. To many people, entering someone else's Divine Sense Sea was not safe at all.

However, Jiang Sijing trusted Chen Xiang a lot.

After she entered Chen Xiang's Divine Sense Sea, she was also praising the environment inside. She never thought that a man like Chen Xiang would be able to make her own Divine Sense Sea look so beautiful.

Jiang Simei contacted the two Tai Clan elders. Chen Xiang entered the spacious underground secret room and continued refining the Tianhun gold Dan below.

There were tens of millions of people in the Myriad Tao City, and amongst them, the number of Tai Dao realms should be the most. Furthermore, the strength of the Tai Dao realm was not weak either, if the effects of the Tianhun gold Dan could be spread, it would definitely sell very well.

Chen Xiang could refine thirty thousand Tianhun gold Dan each day the fastest, and sell one for two thousand. That would be six thousand Myriad Tao Crystals, and his speed would still be fast.

"Try to reach the level of refining a Gumai Dan." Chen Xiang only thought that way, but Tianhun gold Dan were higher ranked than Gumai Dan after all, and they would need more medicinal ingredients, so they couldn't be as fast as Gumai Dan.

"Sijing, with the help of the Divine Spring, how is your speed compared to before?" Chen Xiang asked.

"It's a lot faster than before. These divine springs are truly powerful." Jiang Sijing had already drank a lot before, so as to strengthen her own Laws of the Earth.

"If you were to cultivate a new Rule Dao line, then you will definitely be able to grow medicinal ingredients even faster." Chen Xiang: Little Dong.

"Mn, with Elder Brother Shen here, I can quickly cultivate it. Before, I didn't even dare to think about this." was extremely happy. Rare Principle was a life's goal for the majority of people, but she was able to achieve it so quickly.

Chen Xiang refined until night, and walked out of the basement, wanting to give the thirty thousand Tianhun gold Dan pills to Jiang Simei. However, he did not see Jiang Simei here, but instead saw the two Tai Clan elders.

"Hehe, the Tianhun gold Dan that the beautiful girl Simei brought with her today is not bad, she sold a lot of them in one go. I think her reputation will spread tonight. We'll add two hundred to resell it." Tai Bao said.

"That's good then. The demand for this is much higher than the demand for Gumai Dan s." Chen Xiang laughed.

Right, the Myriad Tao Mausoleum still has three more years before it opens. It's very close, get ready. " Tai Bo said.

Afterwards, the two brothers left Mei Jing Store and returned. They said that Eastern Dragon Mountain Villa had something important to tell them during this time.

Just as they were walking, an arrow flew in, tied with a note. Chen Xiang opened it to look, and immediately he was enraged.

Jiang Simei was taken away.

[Chapter 2706](#)

When Chen Xiang finished reading the contents of the paper, his entire body was trembling in anger, and the paper was also burnt to ashes by his anger.

"A guy like him must not be forgiven for encountering such a thing again. Just you wait." Chen Xiang calmed himself down.

The note stated that they could not tell anyone else or they would make their move against Jiang Simei. Even now, Chen Xiang did not dare to go and find the two Tai Sisters.

"I wonder who this guy is, and if he is someone from the Western Tiger Mountain Villa. I only have enemies like him here."

Chen Xiang calmly thought about it. On the paper slip, it said that if he were to leave the city alone and meet with that person on a designated mountain peak, and agree to their conditions, they would let Jiang Si go.

Chen Xiang not telling Jiang Sijing about this matter would make her very worried.

"Looks like I can only make a trip." Chen Xiang changed his appearance and stealthily left the city. He did not want to be caught midway.

Right now, Chen Xiang's plan was to first agree to the other party's conditions, no matter what they wanted, and then use any means possible to take revenge on him after he saved Jiang Simei.

... ..

Late at night, the stars were obscured by thick clouds. The sky was dark and the wind was cold.

Chen Xiang came out of Myriad Tao City, and after travelling for six hours, he finally arrived at the peak of the mountain, which was also the place they had agreed to meet.

After waiting patiently for over an hour, someone finally arrived.

There were four people that had come. Two of them were old men, and in the middle of the old man was a young man with an overbearing aura. It was obvious that he had an extraordinary background.

The other one was Jiang Simei, she was tied up with a black rope, her face was pale white, it was obvious that the rope had a strange power, it could make Jiang Simei feel weak.

Are you guys from the Western Tiger Mountain Villa? Chen Xiang immediately asked.

"That's right, we are from Western Tiger Mountain Villa. I am the descendant of the manor lord of Western Tiger Mountain Villa, my name is Hu Luo." The man had a disdainful smile on his face as he said, "Your cultivation level is not that high, but your pill refining skills are quite good."

"We really shouldn't have let that Internal Affairs Elder go." Chen Xiang snorted, then looked at Jiang Simei. Jiang Simei was currently extremely haggard, her expression was full of resentment, and wanted to kill all the people who had grabbed her.

From her gaze, Chen Xiang could see that Jiang Simei was willing to let him go, regardless of her, as long as he helped her take revenge.

"The old fellow you're talking about has already been killed by us. Regardless of whether you used to kill him or not, if he lost the face of our Western Tiger Mountain Villa, he would still die." Hu Luo rolled up his sleeves and continued to speak: "I heard that you're very arrogant, and that you earned a lot of Dao crystal, and you're also very young, so I'm very jealous of you."

"Don't you know our relationship with the Tai brothers?" Chen Xiang's voice became ice-cold.

"Of course I know, but as long as you become my servant, I feel that we don't need to be afraid of them. Hehe, as long as you become my servant and sign a contract with me in the Master-servant Contract, I will let this woman go." Hu Luo smiled sinisterly, "You should be a righteous and loyal person, otherwise, you wouldn't have crippled that old fellow's son just because of anger last time."

"I'm not wrong, right? How is it? Do you think that I'm very smart and can easily control a Alchemist like you?" Hu Luo laughed out loud.

The Master-servant Contract required Chen Xiang's willingness, so it did not have a good effect to capture Chen Xiang and force him into a corner. However, Hu Luo felt that even if Chen Xiang was unwilling, he would not be able to escape today.

"I'll give you some time to think about it. After all, those Tianhun gold Dan are not bad, and if they were in my hands, I would sell them for at least three thousand Dao crystal." Hu Luo said.

Chen Xiang suddenly took out a Storage bag and said: "How about this, I will exchange you twenty thousand Tianhun gold Dan s that I just refined."

"20,000 pills, you still have so many left." Hu Luo was startled, but he was not stupid: "I don't want to, as long as you become my servant and help me concoct pills, then I will have as much as I want. Right, pour out all of your Tianhun gold Dan s, I want to see what kind of twenty thousand are like, I have never seen them before."

At this time, Chen Xiang sent a sound transmission to Jiang Simei, and said: "Later on, I will turn you into a little thing, when you realize that something is wrong with your body, you can try to jump over to my side.

When Jiang Simei heard it, he blinked his eyes.

Chen Xiang held the Storage bag in his hand and waved it towards the sky. Twenty thousand Jinyuan Dao Dan s flew out like golden stars.

"Wow." Hu Luo looked at the Tianhun gold Dan in the sky and couldn't help but exclaim in admiration.

"Haha, I'll have as much as I want in the future." Hu Luo laughed out wildly, and caught the Tianhun gold Dan s that fell to the ground with both of his hands. The two elders behind him seemed to have never seen so many pills, and could not help but to look at them with interest.

Just then, Chen Xiang's eyes suddenly shot out two rays of weak white light, the power of the transformation technique struck Jiang Simei's body.

Jiang Simei immediately turned into a very small flea, struggling free of the black ropes that were tying her up. As she struggled to jump over to Chen Xiang's side, Chen Xiang also jumped over with his Shrinking step.

The moment he touched Jiang Simei, he brought Jiang Simei inside the You Yao Mountain Villa.

"You're courting death." An old man came over when he saw Chen Xiang, at the same time, he struck out with his palm, sending Chen Xiang flying far away.

When Chen Xiang fell from the tall mountain, he became a small stone, but the power of the old man's palm just now was extremely strong, the entire mountain shook, and many small stones rolled down, making it difficult for them to discover Chen Xiang.

The old man was very powerful. Chen Xiang had suffered severe injuries from his big palm, but fortunately, he was still able to maintain his consciousness.

"All of you go and find that kid. I'll pick this Tianhun gold Dan up and make sure to find him. If he goes back and tells that surnamed Tai's brother, we'll be in trouble." Hu Luo said anxiously, then quickly picked up the Tianhun gold Dan on the ground, the two old men also flew towards the direction Chen Xiang flew towards.

Chen Xiang rested for a moment, stabilising the condition of his body, then transformed into a small insect that quickly climbed up the mountain.

"You don't need to pick them up. Follow these Tianhun gold Dan and destroy them." Chen Xiang went up and saw that Hu Luo was busy picking up the Tianhun gold Dan, so he took out the Emperor seal and imprinted it onto Hu Luo.

With a dragon's roar, it smashed onto Hu Luo's body and the entire mountain peak was smashed into pieces by the force of the roar.

Hu Luo was the Villa Master's grandson and had extremely strong defensive treasures on his body. After Chen Xiang left the seal, he saw that Hu Luo had only been sent flying, hence he also rushed towards the direction where Hu Luo had been sent flying.

The two old men were all stunned, they never thought that after receiving such a heavy blow, Chen Xiang would still be able to run to the top of the mountain to attack him, they were currently extremely anxious, if Hu Luo died, they would definitely be in deep trouble,

[Chapter 2707](#)

Chen Xiang rushed towards Hu Luo, very quickly grabbing onto Hu Luo, and threw him into the Chuangshi god furnace. Then, he turned into a rock, rolled down the mountain along with the other messy rocks.

He was not afraid that the two elders would go back and tell Western Tiger Mountain Villa.

When Western Tiger Mountain Villa did such a thing, it was already wrong to do it in the first place. If this matter were to spread, Western Tiger Mountain Villa's reputation would also be bad.

"We're in trouble now. The Young Manor Lord has been taken away by that guy. What should we do now?" An old man frowned, his face full of worry.

"Go back and find the manor lord first. Check if the young manor lord's life orb is still intact. If it has already shattered ..." We have to plan for the worst. "

"Do we really have to go back? If the Young Villa Master's life orb shatters, we might not be able to leave. Or perhaps, just by joining the Heavenly Dao Sect, I will not be able to return to Western Tiger Mountain Villa. "

They were both old followers of the Western Tiger Mountain Villa's Villa Master, so their status in the Western Tiger Mountain Villa was not very high. Furthermore, they were now in charge of protecting Hu Luo.

If Hu Luo died, their fate would be very serious, so they didn't dare go back right now.

"Even if we go to the Heavenly Law School, we will be in for a lot of trouble. If Western Tiger Mountain Villa finds out that we are in the Heavenly Law Sect, he would definitely not let us off."

"We will just hide our identities inside the Tian Dao Sect while disguising ourselves. As for today's incident, we will just stay silent, the Western Tiger Mountain Villa shouldn't be able to find us, just treat it as us and the Young Villa Master disappearing."

"Alright, that's my decision."

After that, the two elders left the mountain and Chen Xiang arrived at the foot of the mountain. She dragged her injured body and carefully returned to the Myriad Tao City.

When he returned to the Mei Jing Store, it was already dawn. Chen Xiang had released Jiang Simei from his secret underground room.

"How's your injury?" Jiang Simei saw that Chen Xiang's face was ugly and asked anxiously.

It's not bad, I didn't manage to injure Divine Sense Sea, but her body was heavily injured so she will be able to recover after a while, don't worry about me, what about you, are you alright now? Chen Xiang laughed and asked.

"I'm fine now. It's all my fault for being too careless and not being on guard." Jiang Simei said as he blamed himself, "I will definitely be careful in the future."

Chen Xiang nodded, took out his Chuangshi god furnace and released Hu Luo who was inside. Hu Luo had not been killed yet, but he had also suffered quite a few injuries, and currently, he was lying on the ground in pain.

"This is the bastard." When Jiang Simei saw that she was thrown out, she was immediately enraged and stomped on Hu Luo fiercely.

Furthermore, Jiang Simei had purposely stepped in the middle of Hu Luo's legs, causing him to scream miserably.

"Spare me, I won't dare to do it again." He had never thought that not only would Chen Xiang be able to save Jiang Simei, he would also be able to capture him. Until now, he still could not understand what methods Chen Xiang had used.

Chen Xiang also went over to ravage Hu Luo ruthlessly. Such a fellow actually wanted to take him in as a servant and even used Jiang Simei to threaten him, causing him to get injured right now.

Hu Luo took turns to be beaten up by Jiang Simei and Chen Xiang. Not only was he resentful, he was also filled with fear.

"This guy is the young master of the Western Tiger Mountain Villa, his grandfather is the master of the Western Tiger Mountain Villa, his father's strength is also not bad." Jiang Simei said.

"Then how should we deal with him and kill him?" Chen Xiang said. They had let out their anger, but did not know whether to kill Hu Luo or not.

"Hmph, of course we have to kill this guy. If we let him go back this time, we will be in even greater trouble in the future." Jiang Simei's face was gloomy and cold, "Such an evil and soft bastard, letting him stay in this world is practically committing sin."

"Don't... There will never be a next time." Hu Luo pleaded for mercy, but a fierce look flashed past his eyes, which was seen clearly by Jiang Simei and Chen Xiang.

Chen Xiang had already taken out the Heavenly magic sword, but Jiang Simei had already made his move. With a flash of red light, the red curved blade in Jiang Simei's hand chopped out, and cut off Hu Luo's head.

"Go to hell, motherfucker." Jiang Simei waved his hand and released a ball of black air. The black air enveloped Hu Luo's body and ignited into black flames.

"This is ..." "The fire of death?" Chen Xiang asked in surprise.

"Not yet, it's just a flame with a little power of death. If I could use the true power of death, I wouldn't be captured by this bastard." Jiang Simei said, she was also a decisive woman, especially after being taken away, causing Chen Xiang to be severely injured, she would not show any mercy when facing her enemies.

Chen Xiang kept all of these things into the Chuangshi god furnaces for purification and then sat cross-legged on the ground for treatment.

"Oh yeah, the two old men escaped, worried that they would return to the Western Tiger Mountain Villa." This was what Chen Xiang was more worried about right now. Although the two elders went to the Heavenly Dao Sect, it was hard to say whether or not they would spread the news to the Western Tiger Mountain Villa.

"We trust Senior Tai so much. It would be best for us to discuss this matter with them and let them prepare." Jiang Simei said: "Eastern Dragon Mountain Villa is the strongest out of the few villas, they aren't afraid of Western Tiger Mountain Villa."

"Alright, now that things have come to this, we can only do it. They should be coming today to take a walk. When the time comes, you can go and discuss it with them. I'll heal up first."

Chen Xiang was only injured in the flesh right now, but by using the Primitive Tao Power, he could quickly recover from his injuries.

... ..

Seven days later, Chen Xiang had already recovered from his injuries and refined twenty thousand Tianhun gold Dan.

He walked out of the secret room and anxiously went to look for Jiang Simei. He was worried that something would happen to Jiang Simei.

"How are you doing?" Jiang Simei was in her room, but when she knocked, she immediately opened the door and asked.

"It's done, I even refined twenty thousand Tianhun gold Dan." Chen Xiang laughed.

"It was really a waste to throw away those twenty thousand Tianhun gold Dan previously." Jiang Simei couldn't help but sigh as he thought about it. He had only lost her because he wanted to save her.

"It's nothing compared to a beauty like you, twenty thousand Tianhun gold Dan are nothing." Chen Xiang snickered.

Jiang Simei scoffed, and then pulled Chen Xiang into the room.

"I've already told the two seniors about that." Jiang Simei said: "They feel that this matter is more serious, and they have already sent people to investigate the reaction of the Western Tiger Mountain Villa, they will tell us when the results come."

"Looks like you have to hurry up and train to become a Death Rule Dao line, you still lack 15 Law beads. Right now, we have enough Dao crystal." Chen Xiang said, he already had more than three hundred million Dao crystal in his hands.

Even if he were to use one hundred and fifty million to buy the Law beads, he would still have nearly two hundred million.

"Alright, I'll go now." Jiang Simei said.

"Don't go out during this period of time. I'm worried that another accident will happen to you. We'll talk about it when you're able to cultivate the Death Rule Dao line." Chen Xiang immediately stopped Jiang Simei.

At this time, Tai Bo and Tai Bao also came.

[Chapter 2708](#)

Chen Xiang and Jiang Simei anxiously walked out. They wanted to know the current situation of the Western Tiger Mountain Villa, and whether or not they could continue to stay in the Myriad Tao City was related to this.

Chen Xiang had also prepared for the worst, if Western Tiger Mountain Villa knew that it was them who did it, and had steeled his heart to deal with them, at that time, even if Tai Bo and Tai Bao did not help out, he would continue to bring Jiang Simei out of Myriad Tao City for the time being, and wait for some time before changing his appearance to come back to earn Dao crystal.

"Seniors, how are things at Western Tiger Mountain Villa?" Chen Xiang asked.

"Western Tiger Mountain Villa already knows of Hu Luo's death, but we don't know the cause of death. They are currently sending many people to investigate, and I have also found the two old fellows who joined the Heavenly Dao Sect. They have already been secretly killed by us two brothers." Tai Bao said.

"It's alright now, you don't have to be so nervous." Tai Bo chuckled: "Those two old followers have not told Western Tiger Mountain Villa about this."

Tai Bao shook his head: "For now, I'm fine, but we can't guarantee that the Western Tiger Mountain Villa won't know in the future."

"What if Western Tiger Mountain Villa finds out?" Chen Xiang asked.

"If Western Tiger Mountain Villa knows that you did it, we brothers will definitely protect you. In short, we won't cower." Tai Bao patted Chen Xiang's shoulder to show his determination.

After all, Chen Xiang had allowed them to earn a lot of Dao crystal, and their position in the Eastern Dragon Mountain Villa had risen a lot. This would also allow them to gain more attention from the higher ups of the Eastern Dragon Mountain Villa, and be able to approach the core, and be groomed as the successor to the Eastern Dragon Mountain Villa.

Currently, the Eastern Dragon Mountain Villa only earned a few Dao crystals from the pills the two brothers received. This was something not even the other two generations of Eastern Dragon Mountain Villa were able to achieve.

"How about this, we can help you find another partner, even if the matter is exposed in the future, the pressure on us will be reduced a lot." Tai Bao thought about it and said.

"Who are you looking for?" Chen Xiang also felt that being like this was not bad, if he could have two strong backing in the future, even if it would bring trouble, he did not need to worry.

"Seniors, wouldn't this cause you to lose quite a bit of business?" Jiang Simei said: "Chen Xiang's pills are limited. If you find him a partner, it means that you get half of the benefits for him."

"This Chen Xiang brat has great potential, and there will definitely be a lot of things happening in the future. If we were to give up half of our profits, it would be equivalent to reducing the pressure by half." Tai Bao chuckled: "I believe that in the future, Chen Xiang will definitely concoct pills that would bring even higher profits. Right now, we have only been working with him for a short while, and have earned a lot of money. After all, there's still a lot of time."

"What kind of villa is that?" Jiang Simei asked.

"Phoenix Mountain Villa, out of the seven great villas, only the Phoenix Mountain Villa and our Eastern Dragon Mountain Villa have not had any conflicts. The other villas all have at least a little." Tai Bao said: "Don't look at how friendly the seven great villas look on the surface, and how they occasionally move around a little."

Phoenix Mountain Villa is also one of the seven great villas, and to be named after the Divine Phoenix is definitely related to the Phoenix.

"I will help you all contact the people of the Phoenix Mountain Villa. You all don't have to worry about the people of the Phoenix Mountain Villa as well, they are still relatively easy to talk to. Over the years,

the Phoenix Mountain Villa has rarely had any conflicts with other villas, and it has only been a few times with the Western Tiger Mountain Villa." Tai Bao laughed.

After that, the two brothers left in a hurry. They said that they would go find the people from the Phoenix Mountain Villa and ask them to wait here.

Chen Xiang and Jiang Simei were waiting for them here.

"Meimei, what kind of person do you think the Phoenix Mountain Villa will send?" Chen Xiang asked.

"He should be sending either the Qing Que King or Feng Ruxue." Jiang Simei said: "These two are the ones with more power in the Phoenix Mountain Villa."

"Qing Que King is male, right? Feng Ruxue is definitely female." Chen Xiang laughed: "Do they all say young people?"

"Yes, probably the same as Hu Luo, being one of the more important ones among the three generations. Among the many villas, the third generation is usually free and leisure, but within the Phoenix Mountain Villa, the third generation Qing Que King s and Feng Ruxue have already begun to take charge of some of the Phoenix Mountain Villa's affairs. It's very rare."

"It's two of Senior Tai's. They should be the second generation, they seem to have nothing better to do." Chen Xiang laughed.

"That's because of various reasons, they haven't been listed in the core of the family and won't receive much resources in the future. But now that you're cooperating with them, they should have already entered the core of the family and obtained more resources than before." Jiang Simei said.

"Right, why do you have to be called Qing Que King? What a strange title." Chen Xiang was very curious.

He was the grandson of the Great Elder of the Phoenix Mountain Villa, and was born as a cyan sparrow. However, he had already evolved into a phoenix after that, and Feng Ruxue was born as a phoenix. Both her parents possessed pure Phoenix bloodline, so they were the granddaughters of the Phoenix Villa Master. "

"Qing Que King and Feng Ruxue are cousins, the two of them have a pretty good relationship." Jiang Simei said: "So, in the future, it might be the two of them."

Jiang Simei understood these things very well, she had already investigated into it before.

Before long, Tai Bo and Tai Bao returned. Just as Jiang Simei had guessed, the Qing Que King and Feng Ruxue had come to meet Chen Xiang.

Qing Que King was dressed in a beautiful blue robe, looking gentle and refined, with a refraction sword in his hand, and a smile on his handsome face.

Feng Ruxue was wearing a red and white cheongsam. That luxurious dress looked like a fire that had been set ablaze by snow.

Of course, Feng Ruxue's appearance was much prettier than her long skirt. Her oval face carried a trace of a gentle and seductive smile, and she looked mature yet charming without losing any of her gentleness and elegance. She was a very beautiful woman.

"Ru Xue greets Master Shen." Feng Ruxue saw that Chen Xiang was staring at her and laughed softly. He immediately bowed politely and said with his clear and beautiful voice.

"Bluebird pays his respect to Grandmaster Shen." Qing Que King was also very polite, he had long heard of Chen Xiang's big name, but this was the first time he saw him, he never thought that Chen Xiang was actually also a handsome man.

"I dare not be a master, the two young elites of Phoenix Mountain Villa are too courteous, please take a seat." Chen Xiang laughed and let them sit.

Jiang Simei also gave them some tea.

Tai Bo and Tai Bao had definitely talked about cooperation with them, and were only here to formally discuss the details of cooperation with Chen Xiang.

Of course, Qing Que and Feng Ruxue couldn't understand why Chen Xiang would suddenly cooperate with them, and why he was the one who invited them here.

Tai Bo was not stupid enough to tell the two of them that Chen Xiang had killed the young master of Western Tiger Mountain Villa, so he wanted to ask for more help.

[Chapter 2709](#)

Chen Xiang made Jiang Simei take out a few boxes of Tianhun gold Dan, allowing the Cyan Sparrow and Feng Ruxue to take a look at them, then took a good look at these goods.

"This is the Tianhun gold Dan that we have just researched, Eastern Dragon Mountain Villa's shop has begun to sell, its current sales are not bad." Chen Xiang said.

"We have eaten Tianhun gold Dan before, and the effect is indeed very good, much better than Jinyuan Dao Dan, the price can also be considered cheap, there are a few areas in Myriad Tao City that are not a threat to Eastern Dragon Mountain Villa, if we sell this kind of Tianhun gold Dan, we can definitely sell it very well." Feng Ruxue said softly.

"We gave you the same price as them, two thousand pills." Jiang Simei said: "All of the large shops in your Phoenix Mountain Villa do not overlap with the one in your Eastern Dragon Mountain Villa at all. If your shop were to sell this pill, it might even pull a few nearby villas over, making your area even more prosperous."

The cyan sparrow nodded its head, "Indeed, this is a very good deal. Even if you increase the price a little, we will still buy some from you."

"It's just that we don't understand. You must be cooperating very well with Old Tai and the others. Why are you letting us benefit?"

Chen Xiang laughed: "I just want to be friends with Old Tai and the others. I think that Phoenix Mountain Villa is more suited to work with me, and this is also because your Phoenix Mountain Villa has not formed enmity with any other powers for many years, so Old Tai and the others respect you more."

Tai Bao chuckled: "Actually, this brat Chen Xiang is around the same age as you, always cooperating with us old guys. I'm worried that he will feel bored, after all you are all young, maybe you guys have some better ideas that can help everyone get rich together."

Tai Bo laughed: We brothers will be core members of the Eastern Dragon Mountain Villa in the future, and there's a greater chance that we can take over the Eastern Dragon Mountain Villa in the future, and for you two to have such accomplishments at such a young age, I believe you two will become leaders of the Phoenix Mountain Villa someday, and at that time, we will be able to cooperate even more.

They also knew that the young disciples of the other Villa are secretly joining hands at this moment. This is also to reduce the pressure on others and to even get help from outside if they were to ascend to the position in the future.

"One pellet of two thousand Dao crystal. There are twenty thousand pellets here." Chen Xiang said: "In the future, you can come here to retrieve it once every ten days, when that time comes, I will give you all at least fifty thousand pills. If I need to cultivate in seclusion for a long period of time, I will inform all of you in advance."

"Alright, I and the cyan sparrow will have ten thousand each. Here are my two thousand Myriad Tao Crystals." Feng Ruxue took out a Storage bag and gave it to Jiang Simei.

The Cyan Sparrow took away the ten thousand Tianhun gold Dan and gave them to Jiang Simei.

After Jiang Simei finished counting, he nodded towards Chen Xiang.

"Then Phoenix Mountain Villa will be my new partner." Chen Xiang laughed.

"En, Master Shen, if you have any difficulties in the future, I, Feng Ruxue, will give my all to help you." Feng Ruxue stood up and said to Chen Xiang.

"Before this, we also knew that Master Shen had been disturbed by some people from the Western Tiger Mountain Villa. We, the Cyan Sparrow, had promised that we would never do such a thing again." The cyan sparrow cupped his fists and said to Chen Xiang.

The two of them promised in their own names, but didn't say that they were Phoenix Mountain Villa.

Chen Xiang did not mind, after all, Feng Ruxue and Qing Que had only just tasted the sweetness, if they earned more from it, the elders behind them would support them even more, so if Chen Xiang was in trouble, they could get the elders behind them to help.

After Feng Ruxue and the chickadee left, Chen Xiang gave Tai Bo and Tai Bao one hundred and five million Myriad Tao Crystals. He told them to help Jiang Simei buy the Death Law beads.

After Chen Xiang obtained these Law beads, he entered the secret room to refine them.

Right now, he did not ship the goods every day, but every ten days. As for how many there would be, he did not know. In short, it would more or less be there.

Very quickly, he had refined fifteen Law beads. As long as Jiang Simei refined these Law beads, he would be able to cultivate a Death Rule Dao line.

If she was able to cultivate the Death Rule Dao line, her power would increase by a lot, and at that time, she would be able to focus all her energy on training the Spirit of the Dao gods.

Training Spirit of the Dao gods required either Jinyuan Dao Dan or Tianhun gold Dan, these were not difficult for Chen Xiang.

"Elders, have you two seen anyone who has successfully cultivated an interspatial dao." Chen Xiang asked.

"Of course there are. However, many people who managed to break through to the Dao Path are filled with regret. Could it be that you wish to train in it?" Tai Bao said in shock.

"Why do they regret it?" Chen Xiang was very curious about this, causing him to be very suspicious. If the spatial laws were not of much use here, then the space foundation he built up over the years would have been a waste.

"The main thing is that it's not as powerful as they imagined. The distance to teleport isn't far, and the consumption is huge. It's more useful at critical times." Tai Bao said: "If you are training Rare Principle, I hope that you can train in the flight laws."

Tai Bo nodded his head: "The flight rule is very practical. After training, one can fly in the air, especially during battle. If one can master flying freely, then one's flying speed will be even faster.

"That's right, it seems like those fellows from the Phoenix Mountain Villa have been born with flying dao channels."

His innate flying Dao veins reminded Chen Xiang of Xue Ying. Back then, he could already fly in Primitive Land.

"How many different kinds of Rare Principle can a person cultivate at the same time?" Chen Xiang asked again. He knew that there were a lot of Rare Principle s who were relatively strong.

"In theory, there are nine. One basic dao vein, the other nine dao veins can all cultivate Rare Principle." Tai Bao thought for a moment, then said: "Of course, there aren't many people like him, because Rare Principle are very expensive."

Law beads could only be formed by throwing them into the Myriad Tao Divine Stele. Even though those villas controlled the Myriad Tao's Divine Stele, they still needed to use Dao crystal to exchange for Law beads.

Chen Xiang actually wanted to try, because not only could he earn a lot of Dao crystal, he could also use the Heavenly Alchemy to refine the Law beads, increasing the power of the Ancient Code by several times.

He was very interested in the Heavenly Refining Code and wanted to try and see what it could do with the Heavenly Alchemy.

"Just what use does the Heavenly Refining Laws have? This name sounds a bit strange." Chen Xiang said.

The main purpose is to quickly refine all kinds of things. However, it requires a lot of Dao crystal, and originally, it required about a hundred million Dao crystal to condense one, but the Heavenly Dao Sect had made quite a few, and in the future, they would need a billion Dao crystal to condense one. As time passed, the Heavenly Dao Sect would no longer be able to gather any more from the Myriad Tao's Divine Stele.

"The same goes for the way of the sword, you can find it in the Myriad Tao Mausoleum."

This was related to the Heavenly Dao Sect, and was most likely related to the Heavenly Alchemy. He was sure that he could use it together with the Heavenly Alchemy, this made him even more curious, and he wanted to use it even more.

"A one billion Dao crystal, this is really scary." Chen Xiang exclaimed. He needed to get at least 25 pills to be able to condense the Dao meridian, that would require 25 billion Dao crystal.

[Chapter 2710](#)

The Myriad Tao Mausoleum would need another year to open, and rare Law beads could be found there too. If Chen Xiang wanted to cultivate a spatial Rule Dao line, he wouldn't even be able to wait until the Myriad Tao Mausoleum opened.

This was because the Myriad Tao Mausoleum was extremely dangerous, if he could not cultivate the spatial laws, he did not plan to go inside to die.

In the past, the reason he was able to survive in all sorts of dangerous lands with his low cultivation was mostly due to the power of the Space Laws.

Thus, he had to cultivate up to the spatial dao vein in order to head to Myriad Tao Mausoleum.

Chen Xiang chatted with the two elders for a while before he decided to start concocting pills. He already had two partners, and he needed to concoct even more pills.

If he had been able to use the power of space to save Jiang Simei earlier, he wouldn't have been injured then.

Originally, Chen Xiang could refine twenty thousand Tianhun gold Dan s a day but now he could refine thirty thousand. In ten days, he would refine three hundred thousand.

When Tai Bao came to retrieve the pellets, he was also very surprised.

Chen Xiang would sell them to Tai Bao for one hundred and fifty thousand pills, and Tai Bao would sell them to other shops specifically. After getting the money, he would sell them to Chen Xiang and the others, at the same time, Chen Xiang gave them one hundred and fifty million pills.

The main reason was because Jiang Sijing's current rate of planting herbs was not fast enough. Tianhun gold Dan s required a lot of different kinds of herbs, and the quality was slightly higher, making it difficult to cultivate.

If Jiang Sijing could cultivate the Ancient Code of Rebirth, his speed would be even faster.

After Tai Bao and the other two brothers left, Feng Ruxue, who had received the notification, also came to retrieve the pellets. Last time, their Phoenix Mountain Villa only took twenty thousand pellets from Chen Xiang's hands.

This time, Feng Ruxue wore a fiery-red long skirt, looking extremely red and noble, her oval face carried a faint charming smile, giving people a hot and captivating feeling.

"Miss Feng, you're really punctual. How was the sales of those Tianhun gold Dan last time?" Chen Xiang appreciated Feng Ruxue's beauty and asked with a smile.

"Master Shen, you can just call me Ruxue." Feng Ruxue smiled lightly, "Those twenty thousand Tianhun gold Dan pellets were sold out very quickly. Because we were cooperating with you, we were praised by some of the elders of the Villa.

"Don't call me Grandmaster, just call me Chen Xiang. It seems like we are of the same generation." Chen Xiang laughed, "Sit down, sit down."

Saying that, he poured Feng Ruxue a cup of tea.

"Where's Young Master Bluebird? Why isn't he here today?" Chen Xiang asked.

"He's rather busy, so please forgive him for not being able to come today." When Feng Ruxue poured tea for her, Feng Ruxue was a little flattered. She respected Chen Xiang's ability to refine pills.

"Where's that beautiful lady? Why didn't I see her today?" Feng Ruxue's eyes moved, he looked around and asked.

"She's cultivating behind closed doors. Is there something I can do for her?" Chen Xiang asked.

"I just want to chat with her. She seems to be very familiar with the distribution of power here. She probably did a lot of research." Feng Ruxue took a sip of his tea.

"Of course. Beauty is indeed very hardworking. I'll let her know when she comes out." Chen Xiang said.

"Oh yeah, Simei and Sijing are twin sisters, Sijing seems to be with you as well." The last time Feng Ruxue came, she did not see Jiang Sijing. She had investigated Chen Xiang a little and only found that Chen Xiang was on good terms with this pair of twins.

"She's in charge of growing medicinal herbs, so she's rather busy." Chen Xiang said.

"They are truly your good helpers. They are beautiful and very capable." Feng Ruxue said with an ambiguous smile.

Chen Xiang took out a Storage bag, and laughed: "Ruxue, you're also very strong. Not only are you a phoenix, you're also so beautiful."

Although Ruxue is a phoenix, but with a dragon among men like Young Master Shen here, I am just a little sparrow. " Feng Ruxue received the Storage bag from Chen Xiang with a charming smile.

She looked at it and took a small breath.

"One hundred and fifty thousand. I don't have that many Dao crystal on me." Feng Ruxue was panicking a little. She thought that Chen Xiang only had a few tens of thousands of spirit stones with her this time, and there weren't many Dao crystal that she could call.

"It's fine. When I cooperate with the two elders of the Tai family, I will wait for them to change hands before collecting the Dao crystal. It's not too late to bring them back the next time you come to retrieve the pill. I trust you." Chen Xiang laughed.

Feng Ruxue secretly heaved a sigh of relief. She was afraid that she would lose her composure, but she never thought that Chen Xiang would be so generous.

"Young Master Shen, Ruoxue will definitely be transferred to our Phoenix Mountain Villa's shop as soon as possible, and we will settle the debt with you as soon as possible." Feng Ruxue said. Now that she was holding so many of Chen Xiang's Tianhun gold Dan for free, she felt a little uncomfortable.

Feng Ruxue stood up and was about to leave, when Chen Xiang anxiously said: "Don't be in such a rush, I still want to chat with you for a bit."

Feng Ruxue didn't expect her to blush and then sit down again.

Chen Xiang was very curious about the phoenix here, so he wanted to understand more about it.

"Ru Xue, can you really become a great phoenix and fly in the sky?" Chen Xiang asked curiously.

Feng Ruxue smiled slightly and nodded: "Yes, but I rarely become a phoenix, and the latest change is more than ten years ago. If Young Master Shen wants to see it, I can show it to you right now."

"That won't be necessary. I've seen the Phoenix before, but it's not here." Chen Xiang promptly waved his hand. If she were to turn into a phoenix, it would definitely cause quite a bit of commotion. He did not want to be so ostentatious.

"Where have I seen this before? If there is a phoenix in any other place, it would be extremely rare." Feng Ruxue was very surprised about this, because according to her understanding, there were very few other places that had phoenixes.

Chen Xiang had seen many dragons, but she had rarely seen the phoenix, so she could only see Xue Ying and her father.

"In my homeland, it isn't the Divine Wasteland." Chen Xiang felt that Feng Ruxue would definitely understand what kind of place it was.

"So it's from the lower realms, and this is even rarer, I wonder what kind of understanding Young Master Shen has towards that phoenix, if it was a phoenix scattered everywhere, it could all come back to us, our Phoenix Mountain Villa should be the only phoenix gathering place." Feng Ruxue immediately said.

"Hehe, that Phoenix is one of my wives. I do understand her, but her strength is still lacking. Therefore, it is rather dangerous to come here from the lower realms."

Chen Xiang couldn't help but think back to the scene where he was entangled with Xue Ying. At that time, Ji Meixian was still there, and when he thought of that bright and beautiful scene, he couldn't help

but sigh inwardly. He had already arrived at the Divine Wasteland, and it was unknown just how long he would need to return.

"Ah, Young Master Shen is really amazing, to have a phoenix as his wife." Feng Ruxue was a little surprised. She thought that the woman beside Chen Xiang was only Mei Jing Sisters.

"That's true, Ru Xue. Were you born with a flying Dao meridian?" Chen Xiang suddenly asked earnestly. This was the main reason why he kept Feng Ruxue.
