[Chapter 2741](#)

After Chen Xiang finished his meal, he curled his lips and followed Wu profound downstairs. At this time, many people were the same, the commotion just now was so huge, startling many people.

When he reached the first floor, Chen Xiang heard a loud noise.

"Little girl, how dare you cause trouble at our place. Just because of what you did just now, you can't even afford to spend ten thousand years to pay for it." A middle-aged woman said angrily. Her body was emitting an imposing manner and was not weak at all.

"Quickly hand my sister over, or I'll destroy this Drunken Fragrance Inn right now!"

Chen Xiang heard a very familiar voice, and looked outside the door, to see that it was a woman wearing a mask, and it was actually Jiang Simei!

Why was Jiang Simei here? Didn't Feng Ruxue say that she was brought to a mysterious place by the Grandma Jiang? The mysterious place was actually the Flying Dragon Pagoda!

Chen Xiang didn't understand, because Flying Dragon Pagoda only appeared after the competition, and it wasn't easy for Grandma Jiang to bring the two of them to the Hundred Floor.

"Your sister has been chosen by the young master of our Drunken Fragrance Tower, and we have even offered you a price, is a thousand Myriad Tao Crystals not enough? If it wasn't for our Young Master being interested in your sister, would your sister be able to sell them for Thousand Myriad Tao Crystals? Not even a million people want it!" The middle-aged woman said.

Chen Xiang was really furious in his heart. Drunken Fragrance Pavilion was obviously trying to buy it by force, and it was even trying to buy someone, and the person who did so was Chen Xiang's good friend.

Jiang Sijing, this kind of beautiful woman, was actually sold. First, last time, Chen Xiang was instantly infuriated, he wanted to go over and kill the middle-aged woman with a single slash.

"Wu profound, is the young master of Drunken Fragrance Pavilion here too?" Chen Xiang anxiously asked Wu profound. As matters stood, the most important thing was to save Jiang Sijing.

"At the top. We were just eating at the top floor, what business do you have with him?" Wu profound said.

"Let's go, quickly." Chen Xiang said: "The woman that guy bought, is my friend!"

When Wu profound heard it, without saying a word, he rushed to the top floor with Chen Xiang.

"This is the residence of that young master!" Wu profound said, and kicked the door open, since the people around him did not know that he was the one who did it.

Chen Xiang immediately rushed in, released the Dao heart Eye, and quickly saw Jiang Sijing, who was trapped in a secret room!

"She's here!" Chen Xiang pointed to the secret room. Wu profound took out a long sword, and with a few thrusts, he destroyed the door of the secret room, and then, kicked it open.

When Chen Xiang saw Jiang Sijing, Jiang Sijing's face was filled with fear. When she first saw Chen Xiang, she thought that she had seen wrongly, and when she confirmed that it was Chen Xiang's Qi, she immediately pounced on him.

"Elder Brother Shen!" Jiang Sijing began to cry, she had been through a lot these past few days.

"That guy didn't do anything to you, did he?" Chen Xiang patted her back and asked gently.

"No, I threatened him with death. He did not dare to do anything to me." Jiang Sijing hugged Chen Xiang tightly.

"Rest well. Your sister is still down there. I'll go down now." Chen Xiang placed Jiang Sijing inside the You Yao Mountain Villa.

Jiang Sijing was very familiar with the You Yao Mountain Villa, she had stayed inside for a period of time and liked the environment inside.

"Chen Xiang, hurry up and go down. That lady might not be able to hold off the people from Drunken Fragrance Pavilion." said. No matter what, he would help Chen Xiang, with Chen Xiang's power, he had earned almost a billion Dao crystal, if he was willing to pay a hundred million, a lot of people would rush to help him shovel the Drunken Fragrance Pavilion away.

Chen Xiang immediately went downstairs and fought with the middle-aged woman. The first floor of Drunken Fragrance Pavilion was already in a mess.

Chen Xiang observed carefully and discovered that there were a lot of experts in Drunken Fragrance Inn, all of them were from the Heaven realm!

What surprised him was that Jiang Simei was also from the Heaven realm, and was using an extremely berserk Law of Death and the Dragon Law to suppress the middle-aged woman.

"Impressive, this girl should be in the early stage of Heaven realm, and the Drunken Fragrance Madam is in the middle stage of the Divine Sky Realm, to actually be suppressed, this is unreasonable!"

"Miss Mask's rules are Rare Principle, three hundred million Dragon Law Rule Beads per pellet! Seems like she has cultivated the Dao of Dragon Meridian, this requires thirty billion Dao crystal, the Drunken Fragrance Madam has kicked a metal board this time. "

"Is what you said true? Don't scare me, to be able to cultivate a dragon meridian worth 30 billion while being at the early Heavenly God Stage, this is ... "What is the background of this girl?"

Wu profound could guess a little, he felt that Chen Xiang must have helped him, because Chen Xiang could refine Law beads! Thinking about it now, he also felt excited, because it wouldn't be long before he could cultivate Rare Principle, so no matter what, he had to build a good relationship with Chen Xiang.

"Young Master, quickly save me!" Drunken Fragrance old procuress suddenly shouted, and a young man rushed in from outside.

"Dao of Dragon Meridians" When the young master Drunken Fragrance sensed the violent primal dragon qi, his heart was shocked. However, he still made his move. After all, someone was causing trouble for him.

Seeing this, Wu profound jumped over with the sword in his hand, and slashed towards the throat of the old procuress, chopping her head off.

"Wu profound, you're crazy!" Seeing that, the young master was enraged, and then he rushed towards Wu profound.

"You're the crazy one, snatching my daughter, I just can't bear to see you do it!" Wu profound sneered.

Wu profound was rather famous here. Usually, he wouldn't have to pay the bill when he came to Drunken Fragrance Inn, because the owner of Drunken Fragrance Inn had given him a free ticket, and because his master was a Successor Disciple, he was someone worth fawning over.

Chen Xiang immediately sent a sound transmission to Jiang Simei. "Meimei, it's me! Sijing has already been saved by me, you don't have to worry! "

Wu profound let Chen Xiang go first and reunited with him at profound Wu Dan Pavilion.

Chen Xiang had already went outside the door, and Jiang Simei had also followed him out. The fight inside the Intoxicated Intoxicated Inn was extremely heated, Chen Xiang did not have the strength to continue watching, and furthermore, Jiang Sijing was already safe. He believed that Wu profound would definitely give the young master a painful lesson.

Jiang Simei was very shocked, he never thought that Chen Xiang would actually come to this place.

Outside, Jiang Simei took out a pearl and shook it in front of Chen Xiang.

"Is this a justice Law beads? I'm fine! " Chen Xiang could not help but laugh, but he was secretly surprised. This was because Jiang Simei actually had a righteous Law beads, which meant that she knew about the affairs of the Myriad Tao Mausoleum s.

Chen Xiang brought Jiang Simei to stroll around the streets, shaking off a few people who were following them, then they arrived at the profound Wu Dan Pavilion.

"Why do you have such a righteous Law beads?" Chen Xiang frowned, he had Jiang Sijing come out of You Yao Mountain Villa.

The moment Jiang Sijing came out, she hugged her big sister and didn't cry anymore. She had already been saved and they had even met Chen Xiang.

"Grandma gave us. This is a long story! "

Jiang Simei sighed. It could be seen that when she was taken away by the Grandma Jiang, she had many stories.

"When Grandma went to look for Xue Yunxiong, she suddenly met an old acquaintance ... This old acquaintance is Grandma's junior brother and is also one of the three heroes of Myriad Tao. However, while Grandma and this old acquaintance was chatting, he suddenly attacked Grandma. Fortunately,

Grandma has a very powerful protective divine artifact on her body, which prevented her from getting injured. "

"Later on, she also guessed a few things. She knew that Xue Yunxiong had been possessed by the Evil Soul and when you went to look for him again, she believed that you would definitely suffer, so she lied and said that she would bring us to look for someone. At that time, she was also worried that Ru Xue had been carried by the Evil Soul, so she didn't tell Ru Xue."

[Chapter 2742](#)

Chen Xiang nodded after hearing what Jiang Simei had said. In that situation, it was understandable for Grandma Jiang to be worried that he would be carried away by the Evil Soul and then return to harm the Mei Jing Sisters.

After she left the city, she found an old friend, her old friend used the ancient Transmission array, he used up a lot of Dao crystal and teleported us here. Only when Grandma came here did she tell us what had happened. Jiang Sijing patted Chen Xiang's head as if he was a child.

"How could I be alright?" Chen Xiang pinched her face and laughed.

"What about Ruoxue?" Jiang Simei asked: "How is she?"

After spending a while with Feng Ruxue, Jiang Simei had already become his close friend. Back then, when Grandma Jiang said that Feng Ruxue might be tricked, she was very sad as well.

"She's fine ..." She and I almost fell for it. " After that, Chen Xiang told the Mei Jing Sisters what happened to him.

The two sisters had been here for a while now. After coming here, Grandma Jiang had thought of ways to raise their cultivation to the early stage of the Divine Sky Realm, then abandon them here to do something important by himself.

"Your grandma is really mysterious!" Chen Xiang sighed: "To think that you would know someone who can teleport you all here, it would be very difficult for me to come here."

"She also used a lot of Dao crystal!" Jiang Sijing said.

"In fact, all the old guys at the Seven Great Villa know the way to come here. They will come soon, but they aren't the strongest here, and their tricks can easily be seen through. They can't do anything about it." Jiang Simei said.

"Will those Evil Soul s be seen through? The seven great villas that they belong to all correspond to the seven Divine Beast Sects here. " Chen Xiang said.

"They should be seen through. However, if they want to enter the seven God Beast Sects, they must first hand over a certain number of Dao crystal. It's not that easy to get in. " Jiang Simei said.

"Right, who was that man with you?" Jiang Sijing asked curiously.

"His name is Wu profound ... It's my partner here. " Chen Xiang said with a smile, then he told them about his cooperation with Wu profound in a simple manner.

In the past, Jiang Simei and Chen Xiang had cooperated, but since they had come here, Jiang Simei's strength was limited, so he was unable to help Chen Xiang.

It was all thanks to the Dragon Law Rule Beads that Chen Xiang gave her that she was able to suppress the middle stage of the Heaven realm this year, allowing her to cultivate and gain an extremely strong power.

"Talk to Wu profound and ask him if I can do something in this shop. I'm also a Alchemist, so refining some pills shouldn't be a problem." Jiang Simei said.

"Of course you can, how about this, I still have some medicinal herbs, you two sisters can work together." Chen Xiang said: "If you need Rare Principle Pearls, come and find me."

Jiang Simei did not want to rely too much on Chen Xiang, since she already had the Dragon Path Meridians, her need for Dao crystal s was not much, but she wanted to find something to do.

When Wu profound returned, looking at his smiling face, he knew that had handled the matter well.

"What did you do to that guy?" Chen Xiang laughed.

"After a fierce beating, even if he doesn't die, he'll still be crippled. If his father hadn't come to plead for mercy, I would have been even more ruthless." Wu profound said: "That old procuress was not that lucky. Back then, she was the one who kidnapped this lady, right?"

Jiang Sijing was not as strong as her elder sister, and she was also a relatively simple type of person, so it wasn't strange that she was tricked and taken away.

"Well, they're bad." Jiang Sijing nodded.

"The old procuress has been killed, and it was the owner of Drunken Fragrance Inn who did it." Wu profound said: "Is this result satisfactory for the young lady?"

"It's enough, I can't thank you enough!" Jiang Simei cupped his fists towards Wu profound: "Sijing is fine now."

"You're welcome, you're Chen Xiang's friends!" Wu profound laughed. He felt that the relationship between Chen Xiang and the twins was definitely not ordinary.

"Wu profound, I have something to tell you."

Just a moment ago, Jiang Simei said that he wanted to stay and do things, when Chen Xiang mentioned it, he patted his chest and agreed. Previously, when he bought 30,000 Tianhun gold Dan s from Chen Xiang, he received a lot of attention from the profound Wu Dan Pavilion.

When Wu profound first came to the central region, he felt that it was easier to mix with the profound Wu Dan Pavilion s there since their competitiveness wasn't very high. As expected, it was as he had expected.

... ..

Chen Xiang had already decided that before the Flying Dragon Association started, he would cultivate and break through spatial channels. He had already found out some details about the Flying Dragon Association and thought that they might have to fight to the death.

There were so many people in the Flying Dragon Pagoda's Hundred Floors, yet so few managed to get a placing, so the competition would definitely be huge.

Just like this, Chen Xiang continued to refine Tianhun gold Dan s to increase his cultivation, and then, he would refine two every month for Wu profound to sell.

During this period of time, Wu profound had also taken a few pieces of the Black Tortoise Law beads for him to refine.

The Xuanwu Law beads was activated by the Xuanwu Divine Beast, and after cultivating, it would possess the power of Xuanwu, which was mainly suitable for the disciples of profound Marital School.

These were also the three hundred million Dao crystal s!

In merely five months, Chen Xiang had already gathered twenty spatial Law beads. He had told Wu profound to buy all of these.

In these five months, he had also reached the tenth level of the Tai Dao realm, and was only a hair away from entering it! And entering the Heaven realm was relatively difficult, even with the help of pills, it was difficult!

There was no discount if he was buying Law beads here. Chen Xiang had bought six billion Dao crystal here! If it was in Myriad Tao City, he would have been able to buy it with less than two billion.

However, Jiang Simei had told him that the Grandma Jiang had said that after the's Myriad Tao's Divine Stele was tormented, its lifespan would decrease and would quickly disappear. At that time, the people of the Myriad Tao City would think of ways to come here.

"I can finally start refining. I can refine twenty Law beads in a day! "I wonder what will happen if I manage to open a new meridian."

Chen Xiang was looking forward to see that if he could teleport here, he would be able to do a lot of things, and at the same time be safer.

He had previously asked Wu profound before, but many of the Rankers here didn't cultivate in spatial laws, so they were definitely unable to teleport or even seal space. Even if his opponents were strong in the future, he was confident in killing them.

Of course, this was on the premise that he could use the power of space as he had expected!

After a few days, he successfully cultivated the spatial dao vein. He secretly tested the strength of the Primitive Tao Power in the secret room, and released the Primitive Tao Power from the Spirit of the Dao gods. Then, he sent it through the spatial dao vein to the spatial profound door, urging the power of space.

"Teleport!" Chen Xiang immediately teleported from one end of the secret room to the other.

"It's a success!" Chen Xiang was incomparably excited. After being in the Divine Wasteland for so long, he had finally teleported once more. It had been a long time since he was this excited.

Although it was a success, Chen Xiang found a lot of problems.

"The energy of space is indeed consumed much more!" Fortunately, I can teleport, and I'm not too far away, I can teleport at least three thousand meters away. "

Chen Xiang was already very satisfied with the distance. As long as he could teleport thousands of meters in an instant, he could enter and leave many places. Even if he met with danger, he could quickly escape.

After that, he used the teleportation technique to retrieve objects and other spatial techniques, allowing him to freely use them.

"Looks like I need to cultivate a new Dao meridian. This will allow me to use the power of space here like a fish in water." Because Chen Xiang had the foundation of a spatial profound door, after he had cultivated a spatial dao vein, he was different from many people here.

From the very beginning, people in the Divine Wasteland would not be able to use the power of space, so no one would cultivate in a spatial profound door!

And Chen Xiang was previously training in the Natural Law Divine Realm, so he laid down such a foundation!

[Chapter 2743](#)

After cultivating the spatial dao vein, Chen Xiang finally felt a bit of safety, and now he dared to work even more boldly.

"I have to go out and try." After Chen Xiang came out of seclusion, he went to find Wu profound and asked him how he was going to get to the 101st floor.

"You want to go to the upper level? Why are you going there?" Wu profound asked.

"I just want to take a look. Could it be that that floor is very dangerous?" Chen Xiang heard that there weren't any Dragon beast on this level, which was why he wanted to go to the upper level. As for the ninety-nine floors below, they were filled with meteorites.

"I am certain of the danger. If you go with your current cultivation level, it will be a bit inappropriate, why don't I touch you? I am at the late stage of the Heaven realm anyway." Wu profound laughed.

Chen Xiang already knew that Wu profound was at the late stage of the Divine Sky Realm. Otherwise, he wouldn't have been able to defeat the Young Master of Drunken Fragrance Pavilion so easily.

"No need, I'll go myself. Don't forget that I'm a Alchemist." Chen Xiang laughed mischievously. Wu profound immediately remembered that since Chen Xiang could refine Law beads, he must definitely cultivate in a rare and powerful Rule Dao line.

"I'm just worried that you might get hurt. Since you think that's okay, then go and take a look." Wu profound nodded.

"Oh right, Wu profound, do you know the disciples of Azure Dragon School, I heard that they are very powerful." Chen Xiang asked. When he came here, he immediately knew Yi Chong, Yi Chong's brother was injured by that disciple.

When was in Flying Dragon Association, he said that he wanted to fight to the death with that disciple, so Chen Xiang felt that he had to help Yi Chong. After all, Yi Chong was a decent, honest person.

Hearing Chen Xiang talk about the disciples of the Azure Dragon School, Wu profound's face slightly changed.

"This fellow is very powerful, very terrifying ..." All of the sects are extremely surprised that he is able to become their disciple, because the reputation of the Azure Dragon School is not bad, but the current disciple is a sinister and ruthless person. " Wu profound shook his head: "Disciple here means that in the future, he will take over the entire sect, and there's a very high possibility for him to become a Leader."

"If such a person were to become the Leader, it would be an extremely terrifying matter."

"Isn't he at the late stage of the Heaven realm? You are also at the late stage of the Heaven realm, so your strength should be comparable to him, but you seem to be very afraid of him." Chen Xiang said. Since they were both at the late stage of the Heaven realm, the difference between them shouldn't be too big.

Wu profound shook his head: "Other than needing to comprehend, Heaven realm still needs Law beads to cultivate. The difference between the initial, middle, and late stages of Heaven realm is really because of the Three profound Divine Junctures."

"Three profound Divine Junctures." Chen Xiang had heard that the Heaven realm mainly required one to open three profound entrances. As long as he could open one, he would be able to enter the Heaven realm.

"The Heaven realm opens up the Three profound Divine Junctures, and after it comes the Three profound realm. The main thing is to cultivate the Three profound Divine Junctures, and the Three profound realm also consumes a lot of Law beads." Wu profound saw that Chen Xiang had a face full of doubt and said, "Let me tell you something then ... I really don't know what's going on with you. Even though your pill forging is incredible, you don't know a thing about cultivation. "

"You are now at the tenth level of the Tai Dao realm, and have already cultivated the Spirit of the Dao gods to the maximum, and the next thing to do is to strengthen the Spirit of the Dao gods, and unearth the power of the Spirit of the Dao gods, allowing the Spirit of the Dao gods to release even more dao energy in one breath. This way, when we use dao energy, we can instantly use more dao energy, and our power will also become stronger."

"How much stronger?" Chen Xiang asked. Right now, he also felt that the bottleneck they had to face was not enough Primitive Tao Powers, even though he could transform into an even stronger profound door based on the Ancient Code and Rule Dao line.

However, Spirit of the Dao gods was, after all, the source of every power.

"Under normal circumstances, the difference between the tenth stage of the Tai Dao realm and the initial stage of the Heaven realm would be ten times, and the difference between the early and middle

stage of the Heaven realm would be ten times, while the difference between the middle and late stage is still ten times."

Hearing that, Chen Xiang's face changed slightly: "Doesn't that mean that there's a thousand times difference in strength between you and me now?"

"Of course not, I was talking about the usual case. If the Gate of Wonders is really big, or if there is a strong and rare Rule Dao line, the difference between you and I can be shortened to a hundred times."

Chen Xiang curled his lips: "So that means you're much, much, much stronger than me."

Wu profound laughed, "That's right, although my strength is thousands of times stronger than you, my ability is far inferior to yours. I work for you everyday, I am your subordinate."

"How do I open the Three profound Divine Junctures?" Chen Xiang asked.

"So you're saying... This will depend on luck and perception." Wu profound sighed: "There are some who can't break through to the late stage of Heaven realm even after they reach the early stage of cultivation very quickly. This is fate."

"There are three divine entrances within the Spirit of the Dao gods, which are known as the Three profound Divine Junctures. When I opened one of the profound entrances, the amount of dao energy that surged out of the Spirit of the Dao gods was more than ten times that of before."

Chen Xiang understood quite a bit, and said: "After clearing three profound God s, you should be able to reach the late stage of the Heaven realm, don't you think that there are no pills that can help you to open the Three profound Divine Junctures?"

"No, I've never heard of any miraculous medicine that could help me. But at this stage, eating Law beads s can help me understand the key to clearing Three profound Divine Junctures, and every person's situation is different, I also ate a lot of Law beads s to succeed." Wu profound said: "Furthermore, you have to eat those that are very expensive, and the help will be great. Since you can refine Law beads, it shouldn't be a problem."

Wu profound felt that Chen Xiang would only be able to break through sooner or later. After all, he knew how to refine pills and he could earn a lot of Dao crystal.

"Will I be able to break through? I'm very worried about getting stuck in this Heaven realm." Chen Xiang laughed bitterly.

"Well... It's hard to say. The son of the Leader s from the White Tiger Sect was stuck here for too many years, laughed at by others for so many years, then committed suicide. The White Tiger Leader s expended a lot of resources, but in the end, none of them succeeded."

"Don't scare me." Chen Xiang pretended to be terrified.

"I really am not trying to scare you. To tell you the truth, one of my big brother was like this, watching as the people beside him continuously broke through Heaven realm, and he kept on walking, until he finally had to leave his family. It was really too hard to endure in that kind of environment."

"Using Law beads can help me comprehend. If I don't understand the way to open profound God, then Law beads will just be wasting their time." Chen Xiang couldn't understand this point.

If the Law beads is fused with the Spirit of the Dao gods, it can strengthen the Spirit of the Dao gods and make it stronger. This can forcefully extract more dao energy when you really need it, and can increase your strength by quite a bit. " Wu profound said: "When you're training, I'll understand for myself."

Chen Xiang had a fairly good understanding of the Heaven realm now, so he decided to wait for him to personally go and cultivate for a while. He would leave the profound Wu Dan Pavilion and head towards the one hundred and first floor.

[Chapter 2744](#)

There was not much time until the Flying Dragon Association s begin. Chen Xiang calculated that there were still four to five months left, and felt that it would be beneficial for him to acquire even more strength.

After flying for two days, Chen Xiang arrived at the end of the stairs. At this time, there were also people who had entered the upper level, but they were all people from the Heaven realm.

The reason why Chen Xiang was hiding at the upper level was mainly to test how much he could use the spatial power. He intended to coordinate with the spatial power and then fight with the powerful Dragon beast, in order to quickly familiarize himself with the battle experience of the spatial power that he was currently controlling.

Because the spatial laws that he controlled were different from before, the speed and consumption of his teleportation was vastly different from when he was in Natural Law Divine Realm.

In order to familiarize himself with the current power of the Space Laws, he had to practice it several times in actual combat. Only then would he be able to use the power of the Space Laws more proficiently.

Arriving at the upper level, Chen Xiang memorized the location where he was going down and then flew towards a certain direction, towards the desolate mountains and plains. He was going to look for the Dragon beast s to fight with.

There were too many people on the one hundred floor, so the living quarters of the Dragon beast were all occupied. As a result, in order to search for the Dragon beast, one could only search for it on the higher or lower floor.

There were also lower floors, but it would take them a long time to find anything. Chen Xiang came up from below, so he knew about it.

The reason why he chose to go to the higher floors was because he wanted to fight the stronger Dragon beast, and the lower level Dragon beast were weaker, so they could not activate his transformation ability.

Chen Xiang flew into a forest, and the trees inside were all tall and ancient trees, which weren't too dense. This kind of place was very suitable for living in Dragon beast, and such a terrain was relatively common in Flying Dragon Pagoda.

"There aren't many Dragon beast in the 101st level. After all, leaning on the 100th level makes it easier for humans to come here. This way, the Dragon beast would be killed and run away." Chen Xiang thought as he flew above the forest.

After entering the forest, he suddenly discovered that there were Dragon beast's footprints on the ground.

"It's a big guy." Chen Xiang was overjoyed. From the footprints, he could tell that it was a Dragon beast with huge sharp claws.

"This kind of footprint is usually of the ape type. Being able to find a dragon and tiger should have good luck." Chen Xiang had thought of purchasing the Dragon beast's corpse before, and then extracting the Dragon's Strength from it to refine it into a Dragon Law Rule Beads. It was just that previously, when his cultivation was too high, the refining process would be much slower.

He felt that if he could break through to the Heaven realm and use Dragon beast s to refine Dragon Law Rule Beads, the speed would be much faster.

He could earn six hundred million after refining it. He felt that if he used the Dragon beast's corpse to refine a Dragon Law Rule Beads, it might only require a hundred million or even less Dao crystal to refine one pill, and he could earn an extra two to three hundred million.

"The Dragon Tiger isn't bad either. Its strength is one of the stronger Dragon beast s. I'll try my best sneak attack first."

Chen Xiang followed the footprints on the ground and quietly flew through the forest.

Dragon Tiger was currently eating a dragon pig, it was extremely bloody, and Dragon beast killing each other was a very common sight.

"It's a dragon and tiger with golden armor. I heard that the strength of this kind of dragon and tiger is usually at the middle stage of the Heaven realm. I wonder if I can succeed in ambushing them."

Chen Xiang held his breath, and upon maintaining a certain distance from the Dragon Tiger, he immediately teleported over. At the same time, he released his Heavenly magic sword and fiercely swung it down.

Chen Xiang hurriedly put away the corpse of the Dragon Tiger and half of the Dragon Boar into the Chuangshi god furnace s.

was ecstatic to be able to kill this dragon and tiger in an instant. He used all his strength to teleport away and left that place.

"The distance is about three thousand feet. That's not bad. Although the consumption is high, it can still be within the acceptable range." Chen Xiang had already used the limit of teleportation just now.

He then used the Space wind to travel with the wind. Although his speed was not as fast as the speed in Natural Law Divine Realm, it was still many times faster than flying here.

"The consumption is great, it seems I have to use it carefully." Chen Xiang didn't expect that just a few moments would cause him to float along with the wind for more than 10m, which was much faster than teleportation.

In the next few days, he killed dozens of Dragon beast. Some of the later stage Heaven realm's Dragon beast were all killed by his sneak attack.

"There are also Heaven realm s among those Evil Soul s. If I use this method to launch a sneak attack, I will definitely succeed."

Chen Xiang did not want others to know that he had such a high level of spatial energy. This was because although the people here could cultivate the spatial dao, they were unable to control the spatial laws.

"The strongest person in the Evil Soul should be the Six Gods Stage. The Six Gods Stage is above the Three Profound Realm, I am not a match for him right now, so I must stay far away from him."

Although Chen Xiang was only at the tenth level of the Ancient Dao, he had an incomparably sharp Heavenly magic sword. At the same time, he had cultivated three types of rare dao veins, namely the spatial dao vein, the flight dao vein, and the dragon dao vein, which were worth thirty billion.

This was an increase in strength.

Of course, if he could not use the Heavenly magic sword and the spatial dao vein, his strength would also be greatly reduced. Usually, he would not use these during formal matches.

"It's time to go back." Chen Xiang reaped quite a lot from this trip, allowing him to regain the feeling of controlling the power of the spatial laws back then.

In order to reduce his energy consumption, he only flew, he did not use teleportation or Space wind.

After flying for several hours, he suddenly sensed a familiar aura.

"Isn't this Big Brother Yi?" Chen Xiang had secretly watched Yi Chong fight with his master before, and he had memorized Yi Chong's aura at that time.

At the moment, he was flying in the air. He did not hear the sounds of battle, but he could feel Yi Chong's Qi, which meant that Yi Chong was engaged in an intense battle.

He immediately followed Yi Chong's Qi and flew over, only to see a few tens of people watching the battle from afar.

The battlefield was quite far away from them because the aftermath of a battle of this level was very strong.

"Who are these people?" Chen Xiang saw that the people watching the battle were all young men and women wearing luxurious clothing. They were not ordinary people, and all of them had extremely sharp auras, and were all extremely powerful people.

"There are many in the middle and late stages of Heaven realm." Chen Xiang exclaimed in his heart: "Could it be that the disciples of the famous sects are gathered here, but why is Brother Yi here?"

Boom! A thunder-like sound echoed out.

Chen Xiang looked in the direction of the voice. From that direction, a person was flying horizontally towards him. That person let out a sorrowful and angry roar, and was then struck down by someone who suddenly appeared above him.

"Brother Yi has been beaten down. The person who attacked him was very fast and had an extremely strong jumping ability. He instantly jumped above Brother Yi and knocked him to the ground."

Chen Xiang saw that person. He was dressed in green with a dragon pattern on it. This was obviously the attire of the Azure Dragon School.

[Chapter 2745](#)

After confirming it was Yi Chong, Chen Xiang immediately teleported over, and at the same time, revealed his true form. After grabbing onto the ground, he heavily injured Yi Chong, jumped up, and left the place.

The instant he left his original spot, a streak of cyan lightning struck down from the skies. The body of the youth who had attacked Yi Chong earlier, swiftly shot downwards, his feet stepping on the ground.

BOOM!

The young man landed on the ground, but did not step on Yi Chong. The berserk Thunder power erupted, blasting a huge pit there.

The moment Chen Xiang appeared, everyone noticed him. The young man who was falling from the sky was also very surprised, but he was too late. He had already attacked, so he wasted his last powerful attack.

Right now, Chen Xiang was being surrounded by a group of people, and when they saw Chen Xiang appearing, they immediately rushed over to surround him.

"Big Brother Yi, are you alright?" Chen Xiang looked at Yi Chong who was covered in blood, and shouted lightly, ignoring the people who surrounded him.

"Brother... Why did you save me? "I am truly sorry ..." Yi Chong looked at Chen Xiang, who had a low cultivation level and was surrounded by the strong youths, and felt grief and indignation in his heart.

He felt that he would definitely kill Chen Xiang!

"Big Brother Yi also helped me in the past. You thought highly of me when you took me to Flying Dragon City, so I treated you as a friend and a brother." Chen Xiang smiled at Yi Chong.

= 1 = Ben = Read = Fiction = "Bro!" Yi Chong shouted in grief, "You will die ... I have long been prepared to die ... Qin profound, this brother of mine doesn't have any grudges with you, let him go. "

"Hmph, he saved you! I don't want to kill this nuisance, but I want to teach him a lesson. " This man was short and handsome, but his face was full of viciousness and ruthlessness.

Chen Xiang had thought that the youth who was fighting with Yi Chong was the head disciple of the Azure Dragon School, but he never expected that it wasn't him!

The young man who spoke just now was the one. Chen Xiang also noticed that there were more dragons embroidered on Qin profound's green clothes, which made him look a lot more domineering.

"Fan Qing, quickly kill this fellow. You actually want to sneak attack me ... By the way, don't let him die too comfortably." Qin profound said coldly and ruthlessly, his sinister gaze carried a kind of anticipation. It seemed that he really liked it when people watched him die.

"With me here, don't even think of touching a single hair on my big brother's head." Chen Xiang said coldly, looking at Fan Qing who was about to fight, the young man who was fighting with Yi Chong just now.

When the others heard Chen Xiang's words, they could not help but be shocked. Everyone here could tell that Chen Xiang was only at the tenth layer of Tai Dao.

Ordinary Heaven realm people would be able to sense the aura of the profound God on other people, so they were very sure that Chen Xiang had not stepped into the Heaven realm.

For someone with a cultivation at the tenth level of the Tai Dao realm to appear at this level was already rather unexpected, but now he even had to protect Yi Chong!

"Bro ..." Yi Chong felt very upset. He had originally wanted to fight Qin profound with his life on the line, but he hadn't thought that it would implicate Chen Xiang.

"Alright then, you go first! Something like you, I want to see just how capable you are in preserving this trash." Qin profound sneered and gave Fan Qing a signal with his eyes.

When Chen Xiang suddenly appeared just now, many people were shocked, because they did not notice him.

"Wait!" Chen Xiang roared: My big brother has lost to you! If I defeat you, can you let us leave?

Chen Xiang could use teleportation to leave very smoothly, but he had another plan.

"With just you?" A young man in the crowd asked in disdain.

"That's right!" Chen Xiang looked at Fan Qing, he felt that this Fan Qing should only be at the early stage of the Heaven realm, the Spirit Qi he had when fighting Yi Chong, was similar to Jiang Simei's.

"Haha ..." He began to laugh loudly, "Although Fan Qing is Qin profound's disciple, he is still at the early stage of the Heaven realm! Furthermore, he has a rare set of rules. Even though Yi Chong is in the middle stage of the Heaven realm, he still can't beat Yi Chong."

"Since this Fan Qing can defeat people in the middle stage, then why can't I defeat people in the early stage of the Heaven realm with the strength of 10 levels of the ether realm?" Chen Xiang replied with a question, "Can we fight? We'll only know if we fight or not, don't jump to a conclusion. I've seen a lot of guys like you who like to fart with their mouths! That's why I'm curious, are you using your mouth to fart? You even use your mouth when you're shitting?"

"You ... I will tear you apart!" The man was instantly enraged, the berserk Qi around his body erupted, bringing about a gust of wind, the strong killing intent enveloped Chen Xiang, but he stood there straight, his expression calm, as though he was not at all scared.

This level of calmness actually caused many people to praise in their hearts. In this sort of situation, many people at the tenth level of the Tai Dao realm would kneel down in fear of that murderous intent.

"It seems that you have some ability. If you lose, both of you will die miserably." Qin profound said.

"I'll wait until your fight wins. If I win, I can bring Big Brother Yi away, right?" Chen Xiang said.

"If you win, that won't be a problem." Qin profound laughed sinisterly.

"Don't believe his bullshit." Yi Chong shouted.

"Big brother Yi, you rest first. I'll definitely beat him." Chen Xiang smiled mysteriously at Yi Chong.

Qin profound was extremely interested in Chen Xiang, because there was no aura around the place when Chen Xiang suddenly appeared, which made him a little fearful. After all, Chen Xiang was only at the tenth stage of the Tai Dao realm, but even he himself did not know how Chen Xiang suddenly appeared here, nor did he save Yi Chong.

Chen Xiang supported Yi Chong to the side, and after rubbing his fists, he asked: "Can I use weapons?"

Fan Qing immediately replied: "Do as you wish, even if you use ten weapons, it's useless. Your weapons are like tree branches in my eyes!"

Chen Xiang took out his Heavenly magic sword.

"That's right, I'll kill you truthfully. What should I do?" Chen Xiang asked again.

"Don't even think about stupid things, you can't even kill me in your dreams." Hearing that, Fan Qing frowned, Chen Xiang actually wanted to kill him.

"Begin!" Qin profound was getting impatient, and shouted loudly.

With a shout, Fan Qing immediately attacked, transforming into a ray of cyan colored lightning, and struck horizontally towards Chen Xiang. Qin profound's voice still reverberated, and the Fan Qing that had turned into a cyan lightning had already penetrated Chen Xiang's body!

Fan Qing passed through Chen Xiang's body, turned his head, and saw that there was only a hole on his abdomen, but there was no blood at all. Furthermore, his body did not explode, which meant that there was a big problem!

Earlier, everyone thought that Chen Xiang was a little lucky, that he would be able to hold on for a period of time. However, they didn't expect that he would actually be able to kill her with just one move.

Just as everyone was thinking about that, Chen Xiang suddenly appeared behind Fan Qing. With a flash of his sword, a red line suddenly appeared on Fan Qing's neck.

Just as everyone saw the red lines on Fan Qing's neck, Fan Qing's chest had ten more holes in it. When Chen Xiang cut Fan Qing's head off, he had also thrust dozens of times into Fan Qing's body, his speed reaching his limit.

[Chapter 2746](#)

Fan Qing, who was full of confidence just a moment ago, had his head smashed into the ground now and his body turned into a hornet's nest!

Everyone present, especially Qin profound, were all dumbstruck by Chen Xiang's previous attack. This was because Chen Xiang was only at the tenth stage of the Tai Dao realm, yet he was already so formidable upon entering.

Qin profound immediately analyzed Chen Xiang's fighting technique. He was certain that Chen Xiang did not disappear just now because he was moving too quickly, and had even used some secret technique to make himself invisible so that he could hide his presence. That was why Fan Qing did not sense him.

Furthermore, Chen Xiang also used another secret method, which made himself look like he had been defeated. He released an illusion to confuse Fan Qing, allowing him to be careless.

And this was all done instantly by Chen Xiang, in one breath, it was so smooth, it required a lot of fighting experience!

"I won!" Chen Xiang helped the surprised Yi Chong up and walked towards the lower level.

"Don't even think about leaving!"

Qin profound bellowed, his entire body brimming with killing intent, the rest of the people also surrounded him, some of them were from the Azure Dragon School, and the others were probably Qin profound's friends, all of them were in the early stage or even the late stage of the Heaven realm.

"On what basis? Didn't you just say that you only need to beat him?" Chen Xiang asked.

"It's not bad that you won against him, but you killed him too! He's my disciple. You killed my disciple, do you think you can leave? 3w.ybdu " Qin profound clenched his fists tightly. His disciple was killed right in front of his eyes. What kind of shame was this?

"Hey, your disciple also wanted to kill me just now. If he wasn't that ruthless, I would have shown mercy." Chen Xiang snorted.

"If you are killed by my disciple, your friend can also kill me. I have no objections!" Qin profound had already walked over, and shouted at the same time: "Everyone surround him, this guy has a strange secret technique, don't let him run away"

Just as Qin profound finished speaking, Chen Xiang and the injured Yi Chong suddenly disappeared!

"They're still nearby. I can feel their auras ..." Qin profound immediately faced a direction and struck with his palm, striking out a huge, angry black dragon.

The black dragon flew away, leaving behind a gully in the ground. It crashed into a small mountain in the distance, blowing it away.

Chen Xiang was already invisible as he flew up with Yi Chong. Just now, he was running on the ground purposely to attract Qin profound's attention, and with that, after Qin profound attacked, he would release a burst of Qi that would disrupt the atmosphere.

This way, no matter how much Qi Chen Xiang released, it would not be discovered so easily!

"He ran away, where did this guy come from!" Qin profound's face turned sinister, the veins popping up were black, and he looked very frightening. No one beside him dared to speak, as they had already been scared stiff by his violent and angry aura.

Yi Chong had already fainted, but when he saw Chen Xiang kill Fan Qing, he knew that Chen Xiang's strength was not weak, so he was a lot more at ease.

Chen Xiang put Yi Chong inside the You Yao Mountain Villa, he did not leave Qin profound's side!

"These guys, they actually want to kill me!" Chen Xiang was not afraid of them right now. It was a common thing for various sects and schools to clash with each other in private, especially in this kind of place.

If they were to return to the city, they wouldn't dare to do so!

... ..

"Let's split up and search. It would be best if we could send three people in a row. He must still be here. He must have consumed a lot of his secret arts to use invisibility, so he won't use it often. We can sense his aura just by concentrating." Qin profound shouted.

Chen Xiang had teleported back to that place just now and heard what Qin profound said.

"This Qin profound is indeed very strong, when he was angry, his Qi was extremely violent, even if he ambushed me it would be difficult, maybe he would even injure me heavily, if I had the strength of a middle stage Heaven realm, it wouldn't be a problem for me."

Chen Xiang was unwilling, but for safety's sake, he could only give up the idea of killing Qin profound, and turn his attention to the others!

"These fellows are together with Qin profound, and they can endure his temper. They must be colluding with Qin profound, and are all the same kind of people as him, so there's no need for me to be lenient. If I didn't run away just now, they would have definitely surrounded me and killed me."

Chen Xiang would never hold back against an enemy that wanted to kill him!

Right now, he was secretly following the five disciples of the Azure Dragon School.

Four hours later, these five people had entered a forest, Chen Xiang also planned to make his move inside!

Inside You Yao Mountain Villa, Yi Chong's voice suddenly came out: "This ... "What is this place?"

"This is my Divine Sense Sea World. Big Brother Yi, rest well." Chen Xiang immediately replied.

"Bro, you're really amazing. You actually killed Fan Qing. This guy is so strong." Yi Chong sincerely admired Chen Xiang.

"Nothing... Oh right, why are you here? " Chen Xiang asked: "Big Brother Yi, are you here to kill Qin profound? Does he know where he is? "

"Yes, I heard that he brought his own team here to hunt Dragon beast, and then hid on the road to ambush and ambush him ... I never thought that his team would be so strong and have so many people. I can't even defeat one of them. " Yi Chong was extremely ashamed.

"Big brother Yi, you should go rest for now. I'll be back on the hundredth floor soon." Chen Xiang said, he had already taken out his Heavenly magic sword.

He sucked in a small breath of air and used Teleportation to hack off the heads of the three Azure Dragon School disciples closest to him.

After the other two disciples realized this, they were about to attack, but Chen Xiang had already arrived behind them and killed them all.

"Hmph, is it at the early stage of Heaven realm?" Chen Xiang disposed of their corpses, then left the forest and returned to the one hundred floor.

On the way back, he met more than ten people with Qin profound, all of whom were killed by him cooperating with spatial teleportation.

After returning to the one hundred floor, Chen Xiang immediately returned to the Flying Dragon City. He gave Yi Chong some Dao crystal s to hide in, and told Yi Chong that he would help him kill Qin profound sooner or later.

Yi Chong was extremely grateful to Chen Xiang. He did not accept Chen Xiang's Dao crystal, and also promised Chen Xiang that he would not be so reckless in the future.

When Chen Xiang returned to the profound Wu Dan Pavilion, he thought back to when he killed those people at the early stage of the Heaven realm.

"I have to enter the Heaven realm. Next time I meet Qin profound, I must kill him." Chen Xiang greeted Wu profound and then entered the secret room to cultivate.

"Three profound Divine Junctures, how do I gain enlightenment?" Chen Xiang was confused by this, because the process of comprehension was different for everyone. Sometimes, it would suddenly happen and it would be hard to describe it in words.

[Chapter 2747](#)

Chen Xiang closed up for more than ten days, but he did not make any progress at all. He had no choice but to let Wu profound buy Dragon beast s worth one hundred million.

He wanted to try using the Dragon Law Rule Beads and see if he could gain insights into the Three profound Divine Junctures if he ate it.

Wu profound did not know why Chen Xiang wanted so many corpses of the Dragon beast, but he did not ask.

Chen Xiang still had three billion Dao crystal s, which was a lot in the eyes of many. However, Chen Xiang felt that it was very little, because he wanted to cultivate Heavenly Alchemy Dao line!

He had asked Wu profound before, but there was actually a Heavenly Alchemy Dao line here.

But there was something here from the beginning, which made Chen Xiang feel that the rules were very ancient as well!

However, Heavenly Alchemy rule Beads were extremely expensive, and in Wu profound's eyes, they were supreme powers of the Ancient Code. He didn't even know what use the Ancient Code had.

Wu profound did not know whether or not he had trained in the Laws of Heaven, but although many sects knew that there existed such laws, when the Myriad Tao Divine Stele appeared, they had never used a Dao crystal to condense them, because condensing a single Heavenly Alchemy rule Beads already required a price of over four billion.

Wu profound had heard that if one bought one, it would require at least five billion Dao crystals!

Under normal circumstances, a hundred Law beads would be required to cultivate it, but a hundred would be required to buy one. I. Ben. Read. Fiction requires five hundred billion Dao crystals!

So even though Chen Xiang had three billion now, he felt that it was far from enough, even though he only needed twenty Law beads!

"We can only look at Flying Dragon Association!" Chen Xiang planned to cultivate in seclusion for another half a month. If he was unable to open one of the profound God's gates, he would temporarily give up.

This was because he wanted to earn more Dao crystal. After he obtained the Flying Dragon Association's quota, he would be able to use the least amount of Dao crystal to condense even more rare Law beads.

"A hundred million Dragon beast corpses can allow me to condense two Dragon Law Rule Beads!" Chen Xiang did not expect to receive such a huge harvest.

Although the Law beads here were much more expensive than the Myriad Tao City's, the corpses of the Dragon beast here were very cheap, and the corpses here contained even more Dragon Energy.

"Two Dragon Law Rule Beads is six hundred million, but I only used one hundred million! If I refine them again, these two Dragon Law Rule Beads can be sold on the black market. At that time, they will definitely sell for two hundred million!"

Thinking about it, Chen Xiang felt joy in his heart, it was just that the refining process was a little more complicated than before, it would require at least an entire day to be completed. However, it would save them a lot of costs, and it would still be more worthwhile. At least they wouldn't need to let those powers earn so many Dao crystals.

The next thing he wanted to do was to make the two Law beads for himself to eat, he wanted to see if he could figure out a way to open the Three profound Divine Junctures.

He ate one of them. It was worth a billion and it made his heart ache, but he had no choice, it was all for the sake of allowing him to quickly break through to the Heaven realm!

After eating it, he immediately fused the power of the law that the Law beads refined into the Spirit of the Dao gods. He did not know what uses it had, and that was what Wu profound told him.

He focused his mind and refined the power of law into the Spirit of the Dao gods!

"The tenth level of the Dao Dan realm is only a matter of cultivating the Spirit of the Dao gods to the mature state, but it is not at the peak of strength. I feel that there is still room for display." At this time, Chen Xiang could feel that the Spirit of the Dao gods was becoming stronger.

Although the Spirit of the Dao gods was strong, it was still the same as before. The amount of Primitive Tao Power extracted from it was the same as before, with the same intensity, it did not increase by much.

Very quickly, more than ten days had passed. Chen Xiang did not gain anything, but he had slowed down to refine the Law beads bit by bit.

"Looks like my time isn't up yet!" Chen Xiang took out another Dragon Law Rule Beads. He was considering to eat it, and continued to try to open the Three profound Divine Junctures.

"Eat another one!" Chen Xiang had decided that if he did not succeed, he would stop for a period of time to earn Dao crystals.

Before he ate, he gave Wu profound another two hundred million Dao crystals and told him to purchase the corpse of the Dragon beast. For the time being, he did not tell Wu profound the uses of the Dragon beast.

Wu profound had told Chen Xiang before, the majority of Flying Dragon Pagoda were filled with Dragon beasts and Dao crystals, as if they were endless. After so many years, the resources inside did not decrease, but instead became richer and richer, which was also the reason why many rankers did not want to leave the Flying Dragon Pagoda.

After Chen Xiang ate the second pellet of Dragon Law Rule Beads, he did not have much hope. Even if he failed, he would not lose the Law beads, because the Law beads could continue to strengthen his Spirit of the Dao gods.

While Chen Xiang was cultivating, more than ten days had passed unknowingly. Even now, he had not made any progress, and just when he was feeling a little disappointed, he suddenly felt the Spirit of the Dao gods moving!

The Spirit of the Dao gods was like a golden ball of light floating in the sky within his Divine Sense Sea. It emitted a piercing light, just like the scorching sun at noon, and was still revolving non-stop.

At this time, his Spirit of the Dao gods was violently swaying!

"What's going on? Don't tell me that I have to open a profound God Barrier?" Chen Xiang also did not ask Wu profound what would happen when he made the call.

He immediately focused his mind and looked inside the Spirit of the Dao gods.

The inside of the Spirit of the Dao gods was in chaos, as though it was a golden ocean that was constantly churning.

As the Spirit of the Dao gods shook non-stop, the light it emitted became even more intense.

"What is this? White pearls?" Chen Xiang saw a white pearl inside the Spirit of the Dao gods. It was not big in size, the remaining space was just big enough to fit two of these pearls inside.

"Could this be the profound God Pass?" Chen Xiang saw that the Spirit of the Dao gods had stabilized, and then tried to circulate it.

In that instant, he suddenly felt that the Primitive Tao Power he extracted from the Spirit of the Dao gods was more than ten times stronger than before.

"I've broken through?"

Chen Xiang couldn't believe it, he thought he would need at least a few years, because Wu profound had previously said that it would be extremely difficult. But now, he had only eaten two Law beads that he had refined himself, and had successfully broken through.

"Seems like stepping into the Heaven realm will not be difficult!" Chen Xiang walked out of the secret room happily.

"Chen Xiang, the corpse of the Dragon beast that you wanted, here!" When Wu profound saw Chen Xiang coming out, he immediately passed two Storage bag over. "I can't hold it anymore, I really want to know what you're doing this for!"

"The thing that makes a fortune!" Chen Xiang laughed, "How many Dao crystal pills? I mean. After the refinement, the pill would be five times better than the original. Six times! "

When Wu profound heard it, he was stunned, and he took a deep breath: "Dragon Law Rule Beads are slightly more expensive than other Rare Principle, they need three hundred and fifty million. If it's a large quantity, then it's actually three hundred million Dao crystal s.

[Chapter 2748](#)

Based on Wu profound's familiarity with the black market, he calculated and had a count.

"Six times that would be around 1.9 billion." Wu profound said: "Oh right, your Dragon Law Rule Beads are going to be extracted from these Dragon beast?"

Chen Xiang smiled and nodded: "That's right!"

Wu profound's heart jumped, and asked: "Then how many Dragon beast can refine one pill?"

With regards to Chen Xiang's ability to refine pills, Wu profound already had a certain level of understanding and was able to calm down.

"A hundred million Dragon beast can refine two ordinary Law beads, and then, I can refine some from this foundation, hehe ... "It can be sold for 1.9 billion!" Chen Xiang laughed.

Wu profound almost lost his balance. To be able to earn this much in one breath, it was truly great, and it did not even take much effort!

Wu profound and Chen Xiang had a contract, so Chen Xiang was not worried that he would reveal it.

Just like before, you can continue to take out one billion. The remaining 1.5 billion will go to me. Chen Xiang said.

"No problem, just running errands is enough to earn so much. I still feel somewhat guilty!" So I'm very satisfied with this number. " Wu profound wiped his sweat and laughed.

"That's not right. You have a certain risk. If you don't make it, you might lose your life." Chen Xiang said very seriously: "Especially after we sell the Dragon Law Rule Beads, this will definitely attract more people's attention!"

"You can rest assured that the man has already signed a contract with me. He won't leak it, and he's got a very strong background, and he's on the black market, after all." Wu profound laughed lowly: "That person is also from our profound Marital School, his strength is not weak either, he had gained something from the sale."

Chen Xiang nodded, "Right, how has Mei Jing Sisters and the rest been?"

"Fortunately, thinking beautiful knows how to refine Tianhun gold Dan s is very popular with the pavilion masters of profound Wu Dan Pavilion. They treat the two sisters as distinguished guests." Wu profound said.

"That's good... Right, how long until the Flying Dragon Association begins?" Chen Xiang asked: "I need to hurry up and earn more Dao crystal. When the time comes, I'll go in and get more cheap Law beads."

Wu profound also thought the same. During this period of time, he did not purchase any Rare Principle beads, and instead kept the Dao crystal to display its abilities in the Flying Dragon Association.

"The precise time is after three months! "Don't worry, when the time comes, I will go with you and you won't miss it." Wu profound patted Chen Xiang's shoulder.

"Wu profound, we have been selling a lot during this period of time, is that convenient?" Chen Xiang asked again. Previously, he only popped out two pellets every month, but Chen Xiang felt that it was slower.

"You go refine first, I'll go ask the buyer. If he thinks there's no problem, then there's no problem." Wu profound laughed: "That guy is probably collecting Dao crystal s to join Flying Dragon Association."

After saying goodbye to Wu profound, Chen Xiang entered the secret room. During these three months, he would be refining a few more Law beads.

Now that he had stepped into the Heaven realm, Chen Xiang's refining speed had increased by a lot, and he could even go up a level when using the Crash method.

In just two days, he had refined four Dragon Law Rule Beads that were six times stronger than normal Law beads!

After exiting the secret room, Chen Xiang went to find Wu profound in a hurry.

"Success?" Let me see! " Wu profound was very excited to see Chen Xiang.

"Here!" Chen Xiang passed four Law beads s to Wu profound.

"Four pills, this... It's only been two days!" Wu profound received it and took a look. He discovered that there was an extremely strong power of the Dragon Way within it, and he confirmed that it was five times stronger than that.

"How much can we sell?" Chen Xiang asked.

"Ten pills a month isn't a problem!" Wu profound said.

"Mn, this is one and a half billion Dao crystal. It's best to be careful around people who buy Dragon beast." Chen Xiang was a little worried, if too much was sold, he was worried that it would arouse the suspicions of the powerhouses.

"We'll all be careful." Wu profound solemnly nodded his head, then proceeded to the transaction.

... ..

After Chen Xiang changed his appearance and left the profound Wu Dan Pavilion, he had to rest for two days and stroll around casually.

"Qin profound and the others suffered such a huge loss this time, I wonder if this news will spread out!" Chen Xiang asked around on the street, but he did not find any news about them.

"This place is the central region after all, and there are quite a few people here. Why haven't there been any news about it?" Could it be that Qin profound was worried that it would be too embarrassing and kept it a secret? " Chen Xiang thought to himself. He wandered around until night and did not hear anything about Fan Qing being killed.

At night, he returned to the profound Wu Dan Pavilion and Wu profound returned as well.

Wu profound was now a rich person as well, and because of his extensive network, he bought the Dragon beast quickly. In just a single day, he bought the corpse of the Dragon beast, which was worth five hundred million.

"4 pills, 6 billion for you!" Wu profound smiled brilliantly. He had also earned 1.6 billion today.

"Wu profound, when we were at Flying Dragon Association, do you think we would meet the head disciple of Azure Dragon School, Qin profound?" Chen Xiang asked, he felt that Wu profound must know about Qin profound's situation.

"Well... You won't meet him, but I will definitely meet him. I'm at the late stage of the Heaven realm, in the same group as him. " Wu profound laughed bitterly: "At that time, what I need the most is to protect him well, I do not need to worry about anything else. He is at the late stage of the Heaven realm, and I am only afraid of him."

"So powerful!" Chen Xiang was secretly glad that he did not ambush Qin profound the last time.

"He is quite amazing. I heard that all nine of his mysterious doors are open." "Ten." Wu profound laughed: "But this guy also tumbled over. My own disciple was killed by someone, and that person was even killed in front of him ... Even if I don't know who this person is, I'm still inquiring about him ... Also, more than ten people in the squad he is leading have died unnecessarily. Qin profound has never suffered such a heavy loss before. "

"Wu profound, the one who killed his disciple is me!" Chen Xiang said.

Wu profound was stunned. He naturally did not believe Chen Xiang subconsciously, but when he thought about how powerful Chen Xiang's pill refining was, how he definitely had to use a large number of medicinal pellets to make himself very strong. Furthermore, Chen Xiang had even earned a large number of Dao crystal, so he did not doubt Chen Xiang's words anymore.

"Will there be any serious consequences?" Chen Xiang looked at the dazed Wu profound and asked.

"This... Can you tell me what's going on? I don't know what's going on. " Wu profound was even more curious.

Chen Xiang told Wu profound about saving his life. In order to save his friend, he did not hesitate to offend Qin profound and even killed Qin profound's disciple.

"It's going to be more serious, if it's someone else's disciple, then it's fine, but Qin profound's disciple Because of Qin profound, the Azure Dragon School will definitely value him a lot, but at that time, even if they are in the Flying Dragon Association, they will not dare to do anything, so it will be hard to say for sure in the future. " Wu profound said: "So you must be careful and not let them find out that you're here."

[Chapter 2749](#)

Now that Wu profound knew that Chen Xiang was the one who killed him, he would help Chen Xiang keep an eye on Qin profound's movements and the Azure Dragon School's attitude towards him.

Chen Xiang knew that Qin profound was very strong, but he was not afraid now, because he had already stepped into the Heaven realm, although it was only the early stages, he had already opened all of his profound veins, and was able to increase his strength by a lot compared to cultivators of the same level.

Furthermore, he still had sword spirits in his Heavenly magic sword, as well as powerful supporting divine tools like Six Realms mirrors and Emperor seal, which could produce tremendous power.

When Chen Xiang saved Yi Chong, he had gone through a simple disguise, so even if Qin profound saw him again, he would not be able to recognize him. He had also understood from Wu profound that although Qin profound had created a portrait, it did not resemble him at all.

"Concentrate and prepare to participate in Flying Dragon Association." At this time, Chen Xiang was trying his best to refine Dragon Law Rule Beads. He still had three months time, so he wanted to gather as many Dao crystal as possible.

Three months was an extremely short period of time for Chen Xiang. Because of the limitations of the time, he could only sell ten of those Dragon Law Rule Beads every month, which meant thirty of them in three months. Although it wasn't much, it was enough for Chen Xiang to obtain around fifty billion Dao crystal.

With what he had earned in the past three months, added to the previous ones, Chen Xiang now had fifty billion Dao crystal.

"The Flying Dragon City is incredible, 50 billion doesn't seem like much to this place." lamented. At this time, he was sitting in Wu profound's carriage, and Wu profound was bringing him to the Center of Flying Dragon City.

"Fifty billion is indeed nothing to the Flying Dragon City. Everyday, there are hundreds of millions of Dao crystal but in the Flying Dragon City, one person only needs three months to earn more than forty billion. I think there should not be more than ten people like that." Wu profound looked at Chen Xiang with a face filled with admiration, because Chen Xiang was one of them.

"Wu profound, have you been to the Center of Flying Dragon City before? How is it inside? I've been to the Flying Dragon City for so long, but I haven't even been to the Inner District." Chen Xiang said.

There were already many rich people in the inner regions of the Flying Dragon City, let alone the Center of Flying Dragon City. Chen Xiang only knew a little about it, but he didn't know much about it.

Wu profound laughed and said: "Of course I have. Although the people inside are all rich and powerful, all of them are from famous families, and the people inside are more profligate and more powerful, most of them are young disciples ... But, compared to you, they are far weaker, they only know how to spend, they don't know how to change. Even though they are very rich in the eyes of many, but to make them take out one billion and eight hundred million Dao crystal s in one go, would probably be very difficult. "

"Wu profound, you are so rich now." Chen Xiang snickered.

"Isn't that still taking advantage of you?" Wu profound felt that his cooperation with Chen Xiang was very happy. Just running errands was enough for him to earn this much Dao crystal s, which was more than ten billion.

In such a short period of time, he had already reaped such a great harvest. Previously, he couldn't even dream of such a thing, but now, he was truly born in his body.

"Chen Xiang, actually, we do not need to worry about offending people anymore. We have so many Dao crystal, we can use them to hire some strong practitioners to protect us ... Of course, no one knows about us right now, so there won't be any trouble. " Wu profound said. Seems like he was very confident about the black market.

After the carriage drove to the side of a river in the Inner District, Chen Xiang followed Wu profound out of the carriage and boarded a huge boat.

"Can't the carriage go in directly?" Chen Xiang asked.

"Of course you can, it's just that you can view the scenery along the way by boat ..." And it would be more comfortable to take a boat. " Wu profound said: "Of course, I have to pay a lot of Dao crystal."

Although Chen Xiang had more Dao crystal than him, he could not possibly let Chen Xiang out this tiny bit of Dao crystal.

There were still about ten days until the start of Flying Dragon Association. This ship's speed was extremely fast, and also very stable, so Chen Xiang was currently looking at the scenery along the coast from the window in his room. It was indeed quite good.

"Why did it slow down?" Just now, Chen Xiang could still feel that the giant ship was flying, but it had slowed down in a short amount of time and was approaching the shore.

"Chen Xiang, it's me." Wu profound knocked on the door, his voice anxious.

"What is it? Come in quickly." Chen Xiang immediately replied, "Are we at Center of Flying Dragon City?"

After Wu profound entered, he said anxiously: "No, this is still the inner region. The ship is now docked, and another group of people are to board the ship. I heard from the captain just now, that a group of disciples from famous sects will be coming up later ... Qin profound is also among them. "

"What? Why is he here?" Chen Xiang was very surprised.

"There was an auction in the inner section just now, and all these guys were gathered here. I never would have thought that I wouldn't ride on this ship if I had known they would come up." Wu profound said with some self-blame.

"It's alright, that fellow didn't recognize me ..." Oh right, I've changed my identity to being your follower. Although you didn't say it yourself, I can guess that you have a very prestigious background. It shouldn't be a problem for you to have a follower by your side, right? " Chen Xiang laughed.

Wu profound was startled for a moment, then said: "Do as I say, don't scare me."

"It's just an act, they won't suspect that your follower killed Fan Qing." Chen Xiang spread out his hands and laughed.

"Alright then ... "When the time comes, I will say that you are the son of an old subordinate of my grandfather and will temporarily be my follower."

Wu profound thought about it, and felt that this was also good, because when the time came, he would inevitably meet many disciples from famous sects.

"Qin profound came." Chen Xiang looked through the window and saw Qin profound and a large group of people walking over.

"The experts of the seven Divine Beast Sects have arrived. The pressure is quite great." Wu profound sighed: "Hopefully I will be able to get a placing this time, I have prepared quite a few Dao crystal, if I can get a spot, I can quickly cultivate even rarer dao veins."

Chen Xiang said: "You should know them, there is no need to go out and welcome them."

Wu profound nodded his head: "I do know them, but their relationship is very ordinary. Some of them are my enemies, and when I meet them, they will always ridicule me a few times ... In the past, I did feel inferior in front of them, which resulted in me always being in the Central Region and not going to the Inner Region or even Center of Flying Dragon City. "Heh heh."

Even though Wu profound had earned this much Dao crystal, he was still filled with confidence.

"They must know I'm here. Later, they'll hold some kind of dinner and invite me." Wu profound said: "I'll bring you there then, and see if Qin profound can recognize you or not."

"Alright." Chen Xiang suddenly looked forward to the banquet.

[Chapter 2750](#)

At night, Wu profound came to find Chen Xiang and bring him into a very luxurious hall. Now, Chen Xiang knew that many disciples of famous sects would like to board this ship.

Wu profound was dressed extravagantly and had a heroic air about him. A smile hung on his face, making him look like a very confident person.

Chen Xiang was dressed simply and followed behind Wu profound.

As soon as he entered the spacious and luxurious hall, Chen Xiang could feel the hostility from Qin profound. Qin profound was also one who didn't know how to restrain himself, especially in this kind of place where all sorts of heroes fought, and he raised his aura to the limit.

"Yo, look who's here, this is the son of the former Leader, the former disciple of profound Marital School's eldest disciple Wu profound, Young Noble Wu." A handsome man with a long shawl on his back suddenly laughed loudly. His laughter was filled with ridicule.

Chen Xiang did not know that Wu profound actually had such a title, his father was actually the former profound Marital School, and was even her eldest disciple.

"Hey, hey, don't forget, Wu profound's mother is also the former Great Elder of the profound Marital School, and master is also the former very high Elder.

"Isn't that so... The elders in the family are all important figures, and my uncles are all once elders of the profound Marital School. "Cough, cough."

Now, Chen Xiang understood why there were so many connections with Wu profound. Originally, the entire clan used to dominate the profound Marital School, but now that things had declined, they should have been overthrown by another power within the profound Marital School.

"I say, your mouths still need to be slapped. It's a pity that I can't beat you, or else I would have already slapped you fiercely a few times."

Wu profound laughed at himself: "Little brother hasn't even fallen to this stage, stop making fun of me, this is something that happened many years ago. You are all famous youths in the sect now, what meaning do you have in mocking a person with such a difficult life like me?"

"It's rare for you to have such self-awareness. It seems that your family's fall in profound Marital School has allowed you to grow up a lot." The beautiful man said with a smile. His clothes were engraved with the design of the Vermilion Bird Sect.

Chen Xiang looked at the youngsters inside. They were all outstanding disciples from the seven great sects of the Divine Beast, and their clothes had patterns of Divine Beasts engraved on them.

After his careful observation, he found that the disciples of the seven great Divine Beast Sect were all present. This was because there were as many Divine Beast images on their clothes as there were on Qin profound's.

Wu profound was from profound Marital School, but he wasn't wearing profound Marital School's clothes, so was profound Marital School's current disciple.

"Wu profound, are you here to participate in the Flying Dragon Association as well?" A beautiful woman wearing a red dress walked over. Her long skirt had the picture of a Qilin on it, and it was even ten Qilins. This was a seating disciple.

The disciple of the Qilin Sect was actually a woman.

"It's just joining in the fun. I don't expect to get a spot." Wu profound picked up a cup of wine and said, "Ren Lingyi, you've become a disciple, let me toast you."

"When I became your disciple, you did not even give me any face when you did not come. How could a cup of wine from you be enough? One vat." Ren Lingyi laughed coquettishly and took out a large wine jar.

Chen Xiang was shocked when he saw the large vat that was half the height of a human. If it was normal wine, it would have been fine, but the wine inside looked like lava, and when it emitted a strong smell of alcohol, it also gave off a scorching heat wave.

"The Fire Qi Lin Dream that was brewed with the Fire Qilin blood is red, this ... This time, it's going to kill me." Wu profound was immediately drenched in sweat, it did not look like he was pretending.

"Haha ..." Wu profound you cowardly, let me tell you, if I don't kill you with this wine, at most I can just let you lie in bed for a year or so." A tall and sturdy handsome young man said with a smile. His clothes had the design of an idol, and it should be part of the Celestial Phenomenon Sect.

"Drink it."

"Drink, drink."

The group of people jeered blindly, they were all here to watch the show, and there were even a few disciples who ridiculed Wu profound.

Wu profound finished the cup of wine in his hand, then laughed: "I drank it. Honestly speaking, your jar is too expensive, it's at least worth a billion, I'm not willing to drink it."

Ren Lingyi giggled with a mocking expression on her face, "Do you really think I would give you a drink? Even Qin profound doesn't dare to drink it all in one go This is a Dao crystal worth one and a half billion, it is my Qilin Sect's congratulatory gift to Flying Dragon City Lord."

Wu profound frowned, and said: "Originally, I did not want to drink it, but after being provoked by you, I do want to try it. Even if I have to lie in bed for ten years, I will drink the gift that your Qilin door was prepared to give me."

"Oh, are you sure you're going to break after ten years of lying in bed?" Ren Lingyi laughed tenderly and looked towards Qin profound, who was not far away, "Qin profound originally planned to do the same, but he just drank a bowl and was unable to hold on any longer, he gave me a hundred million Dao crystal."

Wu profound was a little surprised: "I still need to give you the Dao crystal if I can't drink it."

"Of course, this Fireshine Dream Red is very useful. It contains the Qilin Law and Dao Energy, and the blood can also strengthen one's body. It will greatly overrun the body of a fire refiner. A bowl of 100

million isn't an exaggeration." One of them said, "If you are not strong enough and drink too much at once, you will be crippled even if you don't die."

Wu profound looked at Chen Xiang and said: "Can you drink it?"

Chen Xiang wanted to try it, but he did not expect Wu profound to actually ask him.

"Who is he? Look at his clothes ..." "Is he your follower? But aren't you being too stingy? Your follower is dressed so poorly." A man dressed in phoenix robes said. This was a disciple of Phoenix Sect.

"He... He's not my follower, he's the grandson of a friend of my grandfather. Don't look at him, he's an extremely amazing Alchemist ... Alchemist is something that you should all know about, since you all spend all your time hiding in your rooms, so naturally you do not pay much attention to what you are wearing. " Wu profound laughed.

Chen Xiang was startled, he had previously agreed to it with Wu profound, and said that he was a follower, why did it change now?

"Alchemist huh? He looks pretty young, and it's indeed rare. I just don't know how good his pill concocting skills are, in general, young Alchemist like him only knows how to use their skin." The disciples of the Phoenix Seat looked at Chen Xiang with disdain.

"I don't have much skill in pill forging, but I can still drink that much ..." "Among the pill techniques that my master passed on to me, there is a method to use the body as the furnace. Although this vat is powerful, I can refine it using my own body as the pill furnace." Chen Xiang said.

"You must be bragging. How is it that I've never heard of such an incredible pill cultivating technique?"

"There are a lot of things you've never heard of." Wu profound patted Chen Xiang's shoulders and said: "Brother, let's just forget about it. This is a gift that the Qilin Master's elder had given to others. Although she has brought it out to show off, it is still a very precious thing.
