

Dan God 2751

[Chapter 2751](#)

Ren Lingyi was a woman who liked to show off, so no one here could stand even a small cup of that kind of wine, let alone a large bowl. Only Qin profound could drink a big bowl of that.

So Chen Xiang's words were nonsense in the ears of others, because they had all drunk Fire Qi Lin Dream's red wine before.

However, Wu profound believed in Chen Xiang. Now, he would believe anything Chen Xiang said, because Chen Xiang made him earn ten billion Dao crystal s in a few months, without using much energy.

"If he can drink it, he won't want his Dao crystal ... You need to drink it within an hour, or else you'll have to accompany me for two billion. " Ren Lingyi did not believe Chen Xiang's words.

Wu profound looked at Chen Xiang and laughed: "Brother, do you want to try? If you can't drink anymore, I'll help you pay the two billion Dao crystal."

"Since when are you so rich, to actually be able to take out two billion Dao crystal." The disciple was surprised, but he did not believe Wu profound.

"Don't think I'm always so poor." When Wu profound took out a Storage bag, everyone present immediately used their divine senses to take a look. There really were two billion inside.

Chen Xiang smiled slightly: "Since that's the case, then little brother will not be courteous."

As he said that, Chen Xiang picked up the huge vat

Everyone thought that Chen Xiang would drink every bowl, but he actually used the vat to drink every single bowl. This shocked everyone.

Chen Xiang opened his mouth wide and caught the remaining wine. Although it was extremely hot, Chen Xiang was able to endure it.

In just a few moments, Chen Xiang had drunk quite a bit. This was not only a bowl, but Chen Xiang was actually still able to stand.

Even Qin profound, who rarely spoke, couldn't help but be moved at this moment, while everyone present was stunned.

They drank a small cup of wine, but were unable to endure the alcohol. Their heads were already dizzy. If it wasn't for the fact that they were about to refine the wine, their bodies would have been damaged by the alcohol.

But Chen Xiang had drunk so much in a row now, he could still hold onto the huge vat in his hands, and stand there like a giant mountain as he drank crazily.

"Hey, hey, wait for my bro to finish drinking." Wu profound immediately pulled Ren Lingyi back and laughed. "Why are you in such a hurry?"

"This... This is a gift. " How could Ren Lingyi not be anxious? The wine cup was not hers, it was given to the Flying Dragon City Lord by the Leader of Qilin Sect. She had indeed used it to show off previously and earned some Dao crystal s, but it was still far from enough to buy this jar of wine.

Furthermore, these were things that even Dao crystal could not get their hands on. The brewing process was extremely complicated and required a long time, and the materials were also extremely rare.

Chen Xiang could feel that Ren Lingyi's aura was increasing, so he increased his speed. A suction force also came from his mouth, like a dragon swallowing water.

"Good wine." Chen Xiang licked his lips and cupped his hands towards Ren Lingyi, "Thank you for your wine, I am extremely grateful, haha ..."

Ren Lingyi's beautiful face was already so white that it had turned green. She glared at Chen Xiang and Wu profound with her beautiful eyes, and really wanted to beat them up She had used that wine jug to trap everyone here. Now that everyone else had drunk their fill, if she wanted to return, her reputation as a disciple of the Qilin Hall would definitely be very poor.

At the same time everyone was rejoicing at Chen Xiang's misfortune, they were even more surprised that the Alchemist actually drank that huge vat of powerful wine, and there was nothing wrong with it right now.

"Wu profound, your brother really has some skills. I wonder who his master is, to actually have such a miraculous pill cultivating technique." the disciple asked.

"My master's name is Huang Jintian, you probably don't know him. He's been living in seclusion for many years." Chen Xiang said. His master was indeed called Huang Jintian, but he was not an alchemist.

The people here had never heard of it.

"Seems like your pill refinement isn't bad. What pill can you concoct?" The shrine asked again.

"I'm only average. After all, I'm still young." Chen Xiang smiled humbly.

Ren Lingyi clenched her teeth as she looked at Chen Xiang. She didn't know what to do now either, because she had lost such an important present.

Qin profound suddenly walked over, once he moved, everyone immediately scattered. No one wanted to get close to him, because the aura around him made people feel uncomfortable.

Wu profound scolded himself for being careless. Had he known this would happen, he would not have allowed Chen Xiang to cause such a ruckus. Right now, he was very worried that Chen Xiang would recognize him.

Qin profound walked towards Chen Xiang, one step at a time, and the hostility and killing intent on his body became heavier and heavier. Everyone did not know why, and did not ask either, but if Qin profound wanted to kill someone, no one could stop him, and if they did, he would be in trouble as well.

"It was you who killed Fan Qing, right?" Qin profound's face suddenly turned extremely sinister, surging with killing intent, and the black aura around his body gushed out like a dragon.

Everyone was stunned, this man actually killed Fan Qing, and was even so reckless in coming here, and was even so calm in drinking, talking and laughing, no one knew where Chen Xiang got the guts from.

"I killed him. I didn't expect you to actually see through it." Chen Xiang laughed unperturbed, because he was not afraid of Qin profound at all, he felt that if he were to fight with Qin profound, even if Qin profound did not die, he would be half crippled.

"You sure are bold." Qin profound's originally ferocious face had calmed down.

Qin profound was actually worried about something, and did not make a move.

Everyone thought about it and understood, just now, that Chen Xiang was able to drink that jar of wine, it meant that Chen Xiang had a certain amount of strength, and that Chen Xiang was able to bring a person along to retreat after killing Qin profound's disciple in front of Qin profound, no one had such abilities like this.

"I am actually very timid... When I encounter something that frightens me, I usually run away in fear." Chen Xiang chuckled, then picked up a cup of wine and finished it.

What he meant was that Qin profound was not enough to scare him, so he came over.

"Alright, just you wait." Qin profound snorted, and left the hall.

Wu profound was scared to the point that he broke out in a cold sweat, he now even more respect Chen Xiang, when facing such a terrifying Qin profound just now, he was actually able to drink wine without changing his expression, and even dare to say such words to provoke Qin profound.

Very quickly, Wu profound understood that there was a type of thing called confidence. If there was something that one could have confidence in, it would mean that one was afraid, and Chen Xiang's confidence came from earning Dao crystal very quickly. It was extremely easy for him to earn tens of billions of Dao crystal in a few months, so Qin profound was definitely not able to do it, so Chen Xiang was not afraid of Qin profound.

The people here were all afraid of Qin profound, but Chen Xiang was someone that even Qin profound was afraid of, so these people did not dare to mock Wu profound. Ren Lingyi did not even look at him, worried that she would be implicated in the conflict between Chen Xiang and Qin profound.

Wu profound also anxiously brought Chen Xiang and left, afraid that there would be other things that would happen.

[Chapter 2752](#)

Chen Xiang was not afraid of clashing with Qin profound, but he was worried that Wu profound would be implicated because of this, so he stayed in his room the entire time. He did not go out, as he wanted to avoid provoking Qin profound.

Wu profound also didn't know what to do. After all, what had happened was already happening and his was limited, so he couldn't help Chen Xiang fight against Qin profound. During this period of time, he was also very conflicted, because after offending Qin profound, the consequences would be severe.

"What's wrong with you these few days? Don't you want to be like this?" It had been several days since Chen Xiang arrived at Wu profound's room, when they had a conflict during the last banquet.

This fellow is extremely vicious, I'm worried that he would do anything to get revenge on you. " Wu profound said: "How about this, you don't need to participate in the Flying Dragon Association, once the Flying Dragon Association begins, something will inevitably happen. If you leave now, it will be much safer ..." At worst, I won't participate, and will hide with you for a while. "

Chen Xiang laughed and said: "I was worried about you. I came to find you with the intention of warning you not to join the Flying Dragon Association, so that you could hide away for a while."

"This... "I don't have anything to be afraid of. It's not a problem for me to protect myself, I'm actually worried about you." Wu profound said somewhat unhappily.

"Believe me, I'll be fine, don't you know that I killed his disciple right in front of Qin profound's eyes, and took an injured person with me when I ran off? Even he couldn't do anything to me, let alone the fact that I was still in the tenth stage of the Tai Dao realm at the time, I'm already in the Heaven realm now."

"Heaven realm."

Wu profound did not know that Chen Xiang had already stepped into the Heaven realm.

"It's just that I've just stepped into the Heaven realm. My current aura is still weak, so you didn't sense it." The aura emitted by the profound God that Chen Xiang had just opened was not very strong.

Under normal circumstances, people who were also from the Heaven realm would more or less be able to sense a bit of the other party's profound God's Qi, and from then on judge the other party's cultivation.

"You ... I remember that not long ago, you were only at the tenth level of Tai Dao realm. Not long after that, you actually ... This is unbelievable. " Wu profound was extremely shocked. He knew that Chen Xiang's pill refining skills were strong, but he knew that pills could not help a person break through during the stage of the Heaven realm.

"Alright, I believe you. You are always so astonishing. If your heart is bad, you will easily be scared to death." Wu profound wiped his sweat, he did not know what kind of person Chen Xiang was, he felt that Chen Xiang definitely did not have any background here, he did not even have a master.

Because Chen Xiang had previously asked him about the Heaven realm, if he had a master instructing him, he would have known about it since a long time ago, but Chen Xiang did not.

When he thought about how he managed to cultivate Chen Xiang all by himself, he couldn't help but shiver. This kind of person was simply a monster.

In the next few days, the huge ship was enveloped in an extremely heavy and tense atmosphere, because when Qin profound was here, the person who killed Qin profound's disciple was also here.

What was shocking was that Qin profound, who was usually decisive and ruthless, was actually able to hold back and did not make a move.

And then, under this atmosphere, everyone finally arrived at Center of Flying Dragon City.

At this time, the Center of Flying Dragon City was very lively. All the heroes on the 100th floor of the Flying Dragon Pagoda were gathered there, preparing to join the Flying Dragon Association.

"This is the Center of Flying Dragon City, no matter how strong Qin profound is, he would not dare make a move here, there are many experts from the 200th floor who are in charge of organizing the Flying Dragon Association, no one would dare to cause trouble here." Wu profound was finally relieved.

He looked at Qin profound who had just walked off the boat. He did not understand why Qin profound did not make his move on the boat and did not have any chances to get here. Unless there were other programs during the convention that required participants to compete with each other, it was impossible for Qin profound to make his move on Chen Xiang.

Qin profound's face did not look good. Originally, Qin profound had a cold expression on all day, but now, it looked even worse. When children saw him, they would definitely be scared to the point of crying.

On the other hand, Chen Xiang was smiling all day without feeling any pressure at all.

Seeing Chen Xiang's candid smile, Wu profound suddenly understood why Qin profound did not make a move on the ship, because Qin profound did not have the confidence to kill Chen Xiang.

"Let's go." Wu profound said, then walked down the boat with Chen Xiang.

The other disciples stayed far away from Wu profound and Chen Xiang, because they were all afraid that Qin profound would hate them.

After getting off the boat, Wu profound led Chen Xiang to the residence area, which was profound Wu Dan Pavilion.

"This really is a place full of rich people." Chen Xiang saw that there were many people on the streets, the accessories on their bodies were all special, they were not gold or jade or anything similar, but Law beads.

To wear a Law beads as an accessory would directly tell others about one's identity and status, and would allow one to show off more.

"That's right, he only has 1 billion yuan worth of jewelry on him, how can he not be worried about being targeted?" Wu profound had once been glorious, but he couldn't understand why this was so. He was very rich now, but he would never show it off like this.

Chen Xiang was even more so.

"Flight rule beads, spatial Law beads ... It's actually just hanging on my waist." Chen Xiang saw a youth in the distance and couldn't help but twitch his mouth.

"They are only one. Most of them do not have one, and the best way to show off is not to hang so many of these Law beads, but to cultivate more tens of billions of dao veins." Wu profound laughed. He was sure that Chen Xiang had two rare Dao Veins, Dragon Path Veins and Flying Dao Veins. This added up, it was worth sixty billion Dao crystal.

"Chen Xiang, you asked me to buy a spatial Law beads before. Could it be that you want to cultivate a spatial dao vein?" Wu profound asked. He had already brought Chen Xiang to the Center of Flying Dragon City.

Although Wu profound's elders lost their power and influence in profound Marital School, but a skinny camel is bigger than a horse. His family still have many forces, so this profound Wu Dan Pavilion belongs to his family.

"No, I was just researching. I wasted a lot of Dao crystal." Chen Xiang shook his head and sighed. He did not want others to know how powerful the spatial channels he cultivated were.

If others were to know that he had this kind of ultimate move, they would definitely be wary of him or find a way to deal with him. It would be disadvantageous to him.

Chen Xiang sat by the side of the bed, looking at the other side of the street, suddenly seeing a familiar figure, his face changed greatly.

"What's wrong?" Wu profound asked anxiously. When Qin profound was angry, Chen Xiang did not have such an expression.

"Old enemy." Just then, he had seen the people inside the Myriad Tao City who were possessed by the Evil Soul, and one of them was Xue Yunxiong and Xue Qing.

These Evil Soul s actually came to this place.

"These Evil Soul armies... I wonder what is he doing here, could it be that he wants to participate in the Flying Dragon Association selection?" Chen Xiang pointed at the people in the distance: "Wu profound, have you heard of the Evil Soul inside the Myriad Tao Mausoleum?"

[Chapter 2753](#)

"Evil Soul." When Wu profound heard this word, he felt that it was a little familiar.

When I was very young, I once heard Father and Mother say that this is a very terrifying thing, after the people who were trapped inside the Myriad Tao Mausoleum died, they would absorb the Evil Demon's power from the Myriad Tao Mausoleum and cultivate it to become a terrifying Evil Soul. Wu profound's expression also changed, "The most powerful thing about this kind of Evil Soul is that it can take over another person's body, and there is no way to guard against it."

Chen Xiang nodded his head, "That's right. In the place I was previously at, many of the big shots and powerhouses had their bodies occupied by the Evil Soul, and even I myself nearly suffered."

Wu profound had always been curious about Chen Xiang's background. Now that he found out that Chen Xiang had come up from the first floor by himself, he admired Chen Xiang even more, and at least he didn't think that he had the ability to do so.

"I have another friend who also went up to the tower. I just don't know if he came here yet. I hope he's fine." Chen Xiang had always been very worried about Tai Shangzhen.

Tai Shangzhen had sent out the news much earlier than him, but now that there was no news, he didn't know how to contact him.

"It will definitely be fine. Don't worry." Wu profound said: "Right now, the ones we need to pay attention to are those Evil Souls, I wonder if they brought them here."

"Go and tell the more prestigious people here to keep their guard up and see if we can get rid of those guys." Chen Xiang said: "Amongst them, the strongest should only be the Six Gods Stage. If they occupy someone else's body, they will have a lot of problems, and won't be able to unleash that body's power for a short period of time. Right now is the best chance to eliminate them."

"Alright, I'll go look for Flying Dragon City Lord now. My parents have a good relationship with him, he should be able to see me." Wu profound said.

After Wu profound left, Chen Xiang also left the profound Wu Dan Pavilion to look for Xue Qing.

Chen Xiang had always been good to his friends, but now, Xue Qing's situation was very special. Even though he still had that body, his soul had already been devoured and occupied by the Evil Soul.

The thing that made his heart ache the most was that Xue Qing's memories were also swallowed up by the Evil Soul. The Evil Soul possessed all of Xue Qing's memories and he could pass off as Xue Qing.

Now, when Chen Xiang went to find the Evil Soul, he wanted to free him. He could not let the Evil Soul continue occupying Xue Qing's body.

This was also the only thing he could do for Xue Qing.

Chen Xiang had been keeping an eye on Xue Qing this whole time, and he saw Xue Qing and Xue Yunxiong entering a big hotel, they should be staying in.

He looked at the door of the hotel from afar and waited for more than two hours. After seeing Xue Qing coming out by himself, he then quietly followed behind Xue Qing.

At this moment, he had the appearance of a middle-aged man, so there was no need to worry about him being recognized.

He followed Xue Qing and arrived at a beautiful place.

"This guy, he actually came to this kind of place." Chen Xiang also walked in.

After he entered, he sensed a few extremely powerful auras, he never expected that there would be such a strong person guarding this wind and moon place, he felt that it should be the Late period of Three profound realm, or even an early stage Six Gods Stage Ranker.

"We can't fight here." Chen Xiang thought that it would be more convenient to make a move here.

"Let's deal with him for a while and wait for an opportunity to strike." Chen Xiang made up his mind and waited outside for Xue Qing.

Flying Dragon City was very tight as well. From time to time, a large group of powerful guards would patrol the place.

Therefore, Chen Xiang could not make a move inside the city.

In the evening, when Xue Qing came out of the Wind Moon Restaurant, he had changed back into his original appearance, pretending to be passing by to let Xue Qing see him.

Sure enough, Xue Qing saw it in a glance, and he was very surprised too.

Previously, they had planned to take care of Chen Xiang with their group of Evil Soul, but ever since Brother Wang gave Chen Xiang a flying divine tool to go to Flying Dragon Pagoda, he had never appeared again.

Now that he saw Chen Xiang, he immediately understood why Chen Xiang had not returned. He had come to this place.

Although Xue Qing thought like this, he was still very suspicious, because they had all come here via the Transmission array.

Chen Xiang did not know about the Transmission array, so it would definitely be difficult to get to the top, and he was also clear about Chen Xiang's strength; it was impossible for him to get to the top by himself.

"Chen Xiang." Xue Qing anxiously walked over and pulled Chen Xiang, and revealed a surprised look on his face, "It's really you, you actually came here too, and I thought you had met with some accident."

Chen Xiang also pretended to be very excited.

"Xue Qing... "How did you get here? When I first came here, I lost half my life." Chen Xiang's face was full of surprise as he asked.

was shocked, and now he was sure that Chen Xiang had climbed up to this hundred floor by himself.

"He came together with my grandfather ... That's right, my grandfather and the others are outside of Center of Flying Dragon City, I will bring you to see them. Even though you came here, we had always thought that something had happened to you. Xue Qing pulled Chen Xiang and immediately walked toward the main door of the Center of Flying Dragon City.

There was a wilderness between the Center of Flying Dragon City and the Inner District. Chen Xiang had heard from Wu profound that this Xue Qing was going to bring him away from the Center of Flying Dragon City.

Previously, Chen Xiang had seen Xue Yunxiong entering the hotel and not coming out. Now, it was said that Xue Qing's grandfather was outside the Center of Flying Dragon City, and obviously wanted to take him outside to kill him.

"Alright, I also want to see the Head Xue and ask him about the things related to the Flying Dragon Pagoda. This place is really mysterious." Chen Xiang laughed, it suited him perfectly that Xue Qing wanted to go outside with him.

Xue Qing had been here for a while, and he was familiar with the place. Walking on the shortcut, he quickly brought Chen Xiang to a forest outside of Center of Flying Dragon City.

"Where are the Head Xue and the rest?" Chen Xiang looked around: "How long more to go?"

"Right here." Xue Qing's tone changed, and became gloomy and cold. This was also within Chen Xiang's expectations.

"Not at all." Chen Xiang continued to pretend not to know, and looked around.

"Go to hell, idiot." When Xue Qing shouted this, he had already arrived behind Chen Xiang. At the same time, a blade stabbed into Chen Xiang's heart, and even used a purple colored iron chain to tie Chen Xiang's throat.

The purple chains emitted a true purple electric light, and it looked very domineering.

"Hehe, your body is mine now. As long as I can obtain your alchemy memories, I can have endless wealth." Xue Qing's face turned sinister as he laughed wildly.

Just as Xue Qing thought that he had succeeded, his head was suddenly slapped.

Chen Xiang suddenly appeared behind Xue Qing, using a type of power that was extremely harmful to Divine Sense Sea, using the Heaven Blasting Palm, it shook Xue Qing's Divine Sense Sea to the point of collapse.

After Xue Qing's Divine Sense Sea was smashed into pieces by the force, the intense pain caused him to bleed out of his seven orifices, and he fell onto the ground.

This was something that Chen Xiang had done using his body splitting technique and a camouflage technique. When Xue Qing had attacked, his true body had already teleported away and he had even hidden himself. When Xue Qing had completely relaxed and focused all his attention on his body, would immediately take action.

"You are too inexperienced. I have already seen through your little trick." Chen Xiang's large palm grabbed Xue Qing's head, and lifted it up. Both of their gazes met, and their faces were filled with a cold sneer and ridicule.

[Chapter 2754](#)

Xue Qing now understood that he had actually known that they were Evil Souls from the beginning. He now felt that he was extremely ridiculous, to actually lure Chen Xiang out so that Chen Xiang could take action.

"Idiot." Chen Xiang laughed out loud. "You guys definitely won't meet a good end."

"You ... When did you find out about our matter, was it Feng Ruxue who told you?" Xue Qing knew that Feng Ruxue and his family had left, and Feng Ruxue had a good relationship with him, so he felt that it was Feng Ruxue who said it.

"It was Brother Wang who said it ..." I carefully overheard their conversation and after finding out about it, I immediately went to find Feng Ruxue. At that time, Feng Ruxue almost fell for it too. " Chen Xiang's face suddenly became serious: Don't worry, I won't destroy your Evil Soul, I will keep you and torture you for a period of time.

"I'll get you out of my friend's body, filthy Evil Soul." shouted in anger as he used the Soul Absorbing Devil Spell. He also wanted to know what was in the Evil Soul's memories, especially the situation he was in right now.

Evil Soul was tormented to the point where he wished he were dead by the Soul Absorbing Devil Spell. Evil Soul was also pulled out and thrown into a cauldron.

Right now, even if that Evil Soul dies, it would still not be possible. Chen Xiang would burn him for a period of time, and then let him recover on his own. When the Evil Soul thought about how he would have to live like this everyday, he couldn't help but tremble. Even if he wanted to dissipate his soul, he couldn't.

Chen Xiang had already understood a lot of things from the Evil Soul's memories.

"I never thought that the seven great villas and three great doors would all be here. Back then, the Myriad Tao City was constructed with the help of this Flying Dragon Pagoda and had even reserved the ancient Transmission array to be transferred here."

Chen Xiang learned a lot of useful things, and he had always been suspicious of the Transmission array, because the spatial power used here was very immature, the reason why Tai Shangzhen and the others came to the Myriad Tao City was through the Transmission array.

Now he knew that the Transmission array were all built by some seniors of the Flying Dragon Pagoda, and those old antiques had all gone to the Myriad Tao Mausoleum and not returned. Therefore, the method of setting up the Transmission array that he was able to teleport here was also lost.

Of course, to Chen Xiang, the most useful thing should be the matter of the Natural Law Divine Lord.

The reason he came to the Divine Wasteland was also to look for the Natural Law Divine Lord. Now that he finally had news about the Natural Law Divine Lord, the Natural Law Divine Lord was actually in the Myriad Tao Mausoleum.

He wanted to take over the control of the Natural Law Divine Realm from the Natural Law Divine Lord. As for what he wanted to do, he did not know yet, but it would definitely require a strong power.

"It seems that I have to make a trip to the Myriad Tao Mausoleum after all."

Not long after he left the Myriad Tao City, the Myriad Tao Divine Stele became abandoned. This was mainly because Xue Yunxiong had previously used those secret methods on the Myriad Tao's Divine Stele, which could add to the extinction of the Myriad Tao's Divine Stele.

When he returned to the profound Wu Dan Pavilion, Wu profound had also returned.

When Wu profound saw Chen Xiang, he heaved a sigh of relief. He was worried that Chen Xiang would mess around here.

"How is it, what did the Flying Dragon City Lord say?" Chen Xiang asked, he hated those Evil Soul s who took over the bodies of others.

"The Flying Dragon City Lord has placed great importance on this matter. He said that he would immediately inform the person in charge of the Flying Dragon Association to remove this group of

people before the Flying Dragon Association begins." Wu profound said: "Actually, Flying Dragon City Masters and the others are also very afraid, they are quite familiar with these Evil Souls, because they are worried that these Evil Souls have a large group of Evil Souls in their hands, and these Evil Souls love powerful bodies the most."

"As long as they value it, that's enough. Oh right, when is the specific starting time for Flying Dragon Association?" Chen Xiang asked: "How do I participate, and how do I get a placing?"

"I've already helped you register. Due to the matter of Evil Soul, we have to delay it. If we don't destroy Evil Soul, they won't start." Wu profound said, "According to the past rules, Tai Dao realms are divided into three groups, which are the early stage, middle stage, and late stage, and the three levels of Three profound realm are respectively divided into three groups, and there are all the way to Six Gods Stage."

"Of course, the rules are always different. The specific details will be announced the day before the start of the competition."

"One spot, right? I think there's still a lot of hope." Chen Xiang laughed: "If I don't get the slot, my fifty billion Dao crystal would be a waste."

"That's right." Wu profound laughed: "That's why we have to work hard. As long as we can get a placing, when we come out, we can definitely improve by leaps and bounds."

Just as Wu profound finished speaking, a wave of hostility suddenly came from outside the window, causing Wu profound's face to change greatly.

"It's that guy again. I'm so bored, to think he would come here to scare people." Chen Xiang couldn't help but laugh when he felt the hostility in the air.

Qin profound had arrived and was right below them. Although Chen Xiang and Wu profound were at the height of the tenth floor, the hostility within them could be clearly felt.

"Just passing by and scaring us." When Chen Xiang saw Wu profound stretching his head out to take a look, he smiled and said, "We're already far away."

"This bastard, he was almost scared to death. When I can cultivate two more Rule Dao line, I want to fight it out with him." Wu profound scolded.

"I say, why are you so afraid of him? Have you been tortured by him before?" Chen Xiang laughed.

"Of course not... I have seen him many times. When I was still a Seating Disciple back then, I often sparred with the Seated Disciples of other sects. I had already seen Qin profound kill people little by little just because he was ruthless.

"It's not just one or two times. Every time he makes a move, it's basically the same. Over time, we all fear him, but you, you're not afraid at all ..." Maybe you have seen his cruel and merciless methods. "

Chen Xiang sighed: "I am definitely going to fight with this guy. Although I do not have the confidence to win, I will not let him use his methods on me."

"Come, let's go out for a walk. Let's take you for a walk around the Center of Flying Dragon City." Wu profound laughed sinisterly: "The quality of the girls in this Center of Flying Dragon City is very high, there are all kinds ... "I'll treat."

"Not interested." Chen Xiang curled his lips: "You should bring me around the profound Wu Dan Pavilion. I'm very interested in medicinal pellets."

"You're right. You already have a pair of twins, and they're all of high quality. They're many times stronger than those mediocre fans." Wu profound snickered.

"The two of them are just my friends. Don't let your imagination run wild." Chen Xiang fiercely knocked him on the head, and then walked downstairs.

Wu profound brought Chen Xiang to the second floor and saw a familiar person. He quickly shouted: "Uncle Feng, why are you here?"

Chen Xiang had thought that Uncle Feng was a man, but the person who had responded to Wu profound was a fat middle-aged woman of great weight. When she saw Wu profound, she walked over with a smile.

[Chapter 2755](#)

Chen Xiang looked at the pills, while Wu profound chatted with Uncle Feng, he would occasionally listen to Wu profound and the others.

Suddenly, he heard something that piqued his interest.

That Uncle Feng was a manager of the Phoenix Sect, his cultivation was average, but his relationship with Wu profound was not bad, and he could be considered a friend.

Just a moment ago, Chen Xiang had heard Uncle Feng mention that a phoenix had come to Phoenix Sect called Feng Ruxue.

Chen Xiang was surprised that Feng Ruxue had also come to this mysterious Flying Dragon Pagoda, but he didn't feel it was strange that the group of Evil Soul could come as well.

"I wonder if Ru Xue participated in the Flying Dragon Association." When Chen Xiang had parted ways with Feng Ruxue's family, he had mentioned that they were going to leave the Myriad Tao City. He never expected that they would actually come to the Flying Dragon Pagoda today.

Chen Xiang actually didn't really want to go see Feng Ruxue. He only wanted to become stronger quickly so that he could head to the top of Flying Dragon Pagoda.

He firmly believed that after going through these layers of experience, he would be able to become stronger, and at that time, his journey to Myriad Tao Mausoleum would be even safer.

Chen Xiang wandered around for a while before returning to his room to rest. He did not have any suitable medicinal pellets in the profound Wu Dan Pavilion.

"As expected, there aren't any good pills to eat in the Heaven realm. It might be better to reach the Three profound realm." Chen Xiang wanted to see if there were any pills that could help him breakthrough in the Heaven realm, but he did not find anything.

He had been in his room for a few days straight, and he did not want to go out. He was worried that he would run into Xue Yunxiong and his group of Evil Soul.

A few days passed, and Chen Xiang also received a small piece of news. Evil Soul like Xue Yunxiong and the others actually left the Center of Flying Dragon City.

"These guys can actually leave here safely. I thought they would be killed." The group of Evil Soul were not weak. If they could be killed, he would not meet them again in the future.

"Killing them is not easy, their powers are still very strong, and right now is the Flying Dragon Convention, if we were to fight here, it would cause chaos and unease, and the Flying Dragon City Lord and the rest could only put pressure on this group of Evil Soul, telling them to stay far away from the Flying Dragon City." Wu profound said: "But we will definitely kill them all in the future. This kind of fellow is scary enough."

At this time, Wu profound and Chen Xiang were heading to the great plaza of Center of Flying Dragon City, where the Flying Dragon Association had already begun.

The so-called Flying Dragon Association would select tens of thousands of outstanding people from the hundred floors of the Flying Dragon Pagoda, giving these tens of thousands of people a chance. This chance would allow them to exchange their extremely small number of Dao crystal for rare and precious Law beads.

Currently, the outstanding experts from various sects were all participating.

The tenth stage of the Tai Dao realm was the lowest standard for participants, and the highest was the Late period of Three profound realm.

Chen Xiang and Wu profound arrived at the Wyvern Square, where there was a sea of people. The place was bustling with noise and chaos, showing how many people were there.

"The Flying Dragon Square is already big enough, but it's still so crowded." Chen Xiang exclaimed, this was the first time he had seen such a grand gathering.

"When the time comes, there won't be so many people competing. Right now, it is only the initial stage, so there will be a screening of Dao power. If the strength of Dao power doesn't reach the standard, then it will be eliminated." Wu profound said: "After the Dao test, they will organize the groups according to the strength of the Tao, and when the time comes, they will divide into a hundred groups, with one hundred and three people in each group, and then pass all sorts of tests, eliminating three people in each group.

"If that's the case, then the chances are very high." Chen Xiang felt that this rule was extremely easy. As long as his Spirit Qi reached the required level and he was allocated to one group, it was equivalent to success. In the end, as long as the three of them were not eliminated, he would pass.

"Seems like the chances are rather high. Let's hope so. If that's the case, we won't be able to get a placing. It can only be said that we are really unlucky ..." Of course, the prerequisite for that was that one must not be in the same group as Qin profound, as anyone in the same group would be unlucky. " Wu profound thought of Qin profound and couldn't help but frown.

Chen Xiang and Wu profound began to queue up, waiting for the test of Dao power.

It was night before it was their turn.

"This Dao Force test is so strange." Chen Xiang said.

He saw many people gently place their hands on top of a crystal ball, and then the inside of the ball began to light up.

According to the difference in Dao power, the number of light spots that lit up inside the crystal ball was also different. Chen Xiang had seen people who had light up over ten thousand light spots before, those were experts from the Three profound realm.

After everyone had finished their tests, they would choose 10,300 people with the highest amount of Dao power. The 300 people would be eliminated and the remaining 10,000 people would be chosen to pass the test.

Chen Xiang felt that it would be easier to pass this way. With more than ten thousand people, as long as they didn't become one of the three hundred people.

"Three thousand four hundred." After Wu profound's test, the number of light dots on the crystal ball neared two thousand, which was pretty good too.

Chen Xiang just saw many people around ten or twenty years old, and that was also from the Heaven realm.

In the early stages of the Heaven realm, there were only one or two dots of light and Wu profound was at the late stage of the Heaven realm, which was more than three thousand times stronger than the initial stage. After all, he was once a disciple and the average Heaven realm was around one thousand eight hundred points of light.

And most of the one hundred or two hundred spots were in the intermediate stage.

Now it was Chen Xiang's turn, he was extremely curious about the intensity of his own dao energy, and when he placed his hand on the crystal ball, the light that appeared inside caused Wu profound to jump in fright.

"Over a hundred." Wu profound was only at the early stage of the Heaven realm. No matter how powerful the early stage of the Heaven realm was, it was at most fifty to sixty light dots.

However, Chen Xiang had more than a hundred. Now he understood why Qin profound was so afraid of Chen Xiang, because Chen Xiang was not weak at all.

After Chen Xiang had registered his name, he left the plaza with Wu profound, and after getting onto the carriage, Wu profound sighed.

"This fellow is truly strange. He is only at the early stage of the Heaven realm, but his dao energy is actually this strong."

Chen Xiang disapproved, and laughed at himself: "I am only a little over 100, you have 3000, you are many times stronger than me."

Wu profound shook his head: "Don't underestimate the power of early stage Heaven realm. You are now in a hundred, and when you reach the middle stage of the Heaven realm, it will increase by ten times, and when that happens, it will at least be around a thousand. Then at the late stage, it will increase by ten times, and then it will be around ten thousand."

"Then how many Qin profound s are there?" Chen Xiang thought that it was true.

"He must be over ten thousand." Wu profound sighed: "So we are all afraid of him."

"Then doesn't that mean that the strength of my Dao is a thousand times stronger than his?" Chen Xiang took a deep breath. That Qin profound was actually that terrifying.

"That's right. Now you know how powerful he is, right?" Wu profound was extremely speechless, so in the eyes of many people, it was simply a miracle that Chen Xiang, a small fry, did not die after provoking Qin profound.

They returned to the profound Wu Dan Pavilion and waited for two days. The results were finally out, Chen Xiang was allocated to the fiftieth group, and the people here were all in the middle stage of the Heaven realm.

He was in the fifth group and all of the disciples were seated, but luckily, Qin profound was not in the group. Qin profound was only in the late stage of Heaven realm, but he was assigned to one of the groups in the Three profound realm.

[Chapter 2756](#)

Chen Xiang felt that this Flying Dragon Association was rather fair, that they should all be placed in the same group.

Otherwise, it would be very dangerous for a guy like Qin profound to be together with a normal late stage Divine Sky Realm expert.

When Chen Xiang arrived, he was also stared at by Qin profound a few times. He already knew the strength of Chen Xiang's Dao power, which meant that from now on, he could be at ease while dealing with Chen Xiang without worrying about how strong he was.

Back then, they had thought that Chen Xiang was really strong, but now that they knew that Chen Xiang's profound strength was only slightly more than a hundred, they knew that Chen Xiang was definitely going to die. Even though they were shocked by Chen Xiang's potential, they were surprised at how strong he was as long as they could sense that he was in the early stages, so they would definitely be far ahead of them.

Chen Xiang could also feel the schadenfreude of many people, especially those disciples.

"It's not bad that Ru Xue didn't come to the Flying Dragon Association to participate. If she came, it would definitely cause a lot of trouble." Chen Xiang learnt from Wu profound that although this person's Phoenix Sect was very strong, there weren't many true phoenixes. This person's family, on the other hand, was a true phoenix.

"The first battle is a competition." An old man in the middle of the plaza suddenly shouted, "From here to the outer region's Flying Dragon Monument, the one hundred people who are the slowest will be eliminated."

Everyone felt that it wasn't too difficult to use the fastest speed to travel from the Center of Flying Dragon City to the Wyvern Monument in the outer region.

"Also, the fastest way to get to the top ten of the Flying Dragon Monument, everyone will receive ten Flight rule beads, and the top one hundred of the eleventh will receive one pellet. This is the first round's reward." The old man added.

Ten Flight rule beads would be three billion, that was a huge sum. However, many people thought that they wouldn't be able to obtain one, the fastest must be the Three profound realm people.

Chen Xiang was also restless. After all, those were ten Flight rule beads, and after being refined by him, their price would increase by several times. He was very confident in his own speed.

"Very well, prepare for an hour. When I announce the start of the fight, all of you can begin. No conflicts are allowed on the road. If any of you are fighting, you will be disqualified." the old man shouted.

After resting for an hour, under the order of the old man, everyone started to run like a swarm of bees.

"Chen Xiang, I'll be leaving first." Wu profound quickly flew past Chen Xiang and laughed.

Chen Xiang frowned, he suddenly felt that splitting into 100 groups was meaningless, the first round of the competition had made him feel extremely chaotic.

"Whatever, I'll try my best to get into the top ten." Chen Xiang also started to run frantically. He did not plan to use the flight rule right now, because it would be exposed.

After all, he was only at the early stage of the Heaven realm.

They were also the more outstanding people from the sects. Although they were middle-aged, their responsibilities were very difficult, and the sect had asked them to come, in order for them to help condense more Law beads.

Those who saw the Three profound realm flew into the air, and many people started cursing. It was because it was extremely unfair, but there was nothing they could do.

Chen Xiang was now in a relatively later position, so many people were scattered and running wildly, so it did not seem densely packed.

There were many paths from the Center of Flying Dragon City to the Outer Region, and everyone had to choose the closest path according to their own memories.

"Qin profound actually also has the flight rule." Chen Xiang was secretly shocked, he had already seen Qin profound flying.

When Chen Xiang arrived at a place with no one around, he began to conceal himself. Then, using the flight laws and the power of space, he quickly flew towards the place where the Dragon Flying Monument was located.

"I've used up quite a bit of Dao energy as well. I wonder if I can make it into the top ten." As Chen Xiang flew in the air, he could see that many of the middle and late stage Heaven realms had been passed by him.

Qin profound is still in front, his speed is fast, after all his Spirit Force is over 10,000 strong, if we really fight, even if I use Spirit Equipment like Emperor seal and Six Realms mirrors to help, I might not be able to beat him, seems like I have to be careful in the future.

Chen Xiang looked ahead and felt the dense evil aura. Even though Qin profound was divided into the Three profound realm, he was not worried at all. He was very confident in his own strength.

In the blink of an eye, half a day had already passed, but Chen Xiang was currently only in the Central Region. He had already confirmed that he had passed Qin profound, and not many people could catch up with him now.

This Flying Dragon City was extremely vast, so Chen Xiang had to fly for several hours before he finally saw the Flying Dragon Monument. It was a monument that was three thousand meters tall, and was coiled up by a stone dragon.

"No one's come yet. I don't want to be first."

Chen Xiang saw that there were people at the Flying Dragon Tablet, but they were not people who were fighting miserably. Those people were all old men who were presiding over the Flying Dragon Association.

Chen Xiang hid at the side, waiting.

Daybreak came, and more people came.

Those who came first were all the old men from the Bai Cang Realm, all from the Three profound realm.

"The ninth." When the nine people arrived, Chen Xiang immediately revealed his real body and quickly flew over.

The first nine people were all elderly people from the Three profound realm. They all knew each other and were currently discussing who the tenth person would be. Within the circle of the Three profound realm, they all had a little understanding of each other ...

However, the person who was flying over was actually a young man.

"It's actually not Qin profound." An old man shouted.

With a young face, only Qin profound was able to move so quickly. However, this person was not Qin profound, so the nine elders were all extremely surprised.

"This brat... It seems to only be in the early stages of the Heaven realm. " An old man saw Chen Xiang approaching and felt his Qi.

"That's right, he's from the Heaven realm, but his strength is just over 100. He's a guy with a lot of potential." An old man, who was the host, laughed sinisterly.

Chen Xiang had already reached the bottom of the Flying Dragon Monument. He used his hands to pat the Flying Dragon Monument, then sat on the ground and panted.

"Am I number ten?" Chen Xiang gasped for breath and asked.

"Yes ..." "Yes, how can you be so fast? You used the flight technique." An old man asked.

"Of course not. The divine ability that I cultivate is called Godspeed Steps. It can travel tens of thousands of meters in an instant ... "I ran with my life on the line and I finally made it into the top 10." Chen Xiang smiled.

He was just spouting nonsense, and the old men were only half believing and half doubting his words.

"This is your reward ..." "You've lost too much because of such a small matter." An old man handed over ten Flight rule beads s to Chen Xiang.

"Why?" Chen Xiang was very suspicious, the other old men were feeling the same way.

"Because after the first match, there will be a rearrangement. With how fast you are, by the time of the second match, you will be ranked according to your speed in the new group. At that time, you'll be out of luck." The old man said, "If you were to be eliminated and not enter Myriad Tao Divine Tablets Formation, don't you think it would be a huge loss?"

[Chapter 2757](#)

"You ... Why didn't you say so earlier? " Chen Xiang's expression became somewhat ugly. If he was added to the group of Three profound realm, he would definitely cry to death.

"Hehe, you don't have to worry about that. You shouldn't be thrown into the Three profound realm group, but the later stages of the Heaven realm are certain, at least you'll be with those disciples." The old man laughed sinisterly.

Chen Xiang tightly held onto the ten Law beads s. This was indeed not good for him.

In that group of disciples, the strength of their Dharmic powers was above 2000, but he was only 100. If the competition rules were related to strength, then he would be in deep trouble.

If he could obtain a placing and enter the Myriad Tao Divine Tablets Formation, with the fifty billion Dao crystal in his possession, he would definitely be able to earn a huge sum of money and obtain far more benefits than the ten stalks of Flight rule beads in his possession.

Chen Xiang sat on the ground silently, he was in a very bad mood.

... ..

This was the difference between the Three profound realm and other people. Chen Xiang now knew that his speed was simply too fast.

"Qin profound is here." When Chen Xiang saw Qin profound, his speed was much slower than many of the Three profound realm s. There were even some in the late stage of the Heaven realm who were faster than him.

Chen Xiang suddenly realised something.

Qin profound knew the rules of the competition, so he deliberately slowed down his pace so that he could lower the number of participants in the group.

Now he finally understood why Qin profound was so relaxed before. It was because he understood the rules of the competition.

However, the old man previously said that the rules of the competition were confidential, yet Qin profound actually revealed it to Qin profound.

"There's something fishy about this Flying Dragon Association. I spit on it, to think I felt that it was very fair before." Chen Xiang secretly sneered in his heart.

When Qin profound arrived and found out that Chen Xiang was actually ranked tenth, he was extremely shocked. Now he understood why Chen Xiang could run away last time, because Chen Xiang had a secret method that allowed him to move extremely quickly.

In battle, speed was also very important, and it was also a part of one's strength.

Therefore, Flying Dragon Association's words made sense from the new group arrangement.

Many people knew that Chen Xiang was the tenth in the early stage of the Heaven realm, so they were just as shocked as Qin profound. They were secretly glad that they were not in the same group as Chen Xiang, because facing such a terrifying speed, it would be difficult for them to hit him.

Wu profound came, one of them was Chen Xiang who ran for ten and obtained ten Flight rule beads. When he was pleasantly surprised, he suddenly knew that the second round would start from a new lineup, so when he saw Chen Xiang's ugly expression, he could understand Chen Xiang's feelings.

"I was careless." Chen Xiang sighed.

"It's fine, you use that piece. Even I don't dare to underestimate you with that kind of strength. To be honest, even if I wanted to hit them, it would be very difficult. I've fought against the Three Profound experts before so I can't even touch a single hair on their bodies." Wu profound shook his head and sighed.

"Alright, next, I just hope that I won't be included in the monsters' group." Chen Xiang sighed.

The Human Ranking 6 had been renewed, and the 100 slowest people had been eliminated.

After half a day, the few elders who were in charge of the Flying Dragon Association finished their new arrangement.

Chen Xiang's face did not look good, because he was now in the same group as Qin profound.

Because Qin profound's speed was too slow, he didn't need to be in the same group as the Three profound realm.

"Now we're in trouble, I'm actually in the same group as you." Wu profound frowned: "My speed is very slow "Why are you in this group?" Wu profound was very suspicious.

"This Flying Dragon Association is not fair. Clearly, someone intentionally arranged it this way. We have to be careful, and all of the disciples are also in this group." Chen Xiang said in a heavy voice.

That's right, they are so afraid of Qin profound, when the time comes, they will definitely help Qin profound, and in the second round, there will be a hundred people eliminated. Wu profound nodded.

"In the second round, we will have a competition to hunt Dragon beast. All the powerful Dragon beast will have Dragon beast Dan in their bodies, and at that time, the hundred people in each group who obtain the least Dragon beast Dan will be eliminated." The old man said.

"The time limit is one month. Other than that, you still need to go to the 110th floor of the Flying Dragon Pagoda. We will be there first." The old man said.

The second round was not a battle, so Chen Xiang heaved a sigh of relief.

"Do we still need to regroup after the second round?" One of them asked, which was what many people wanted to know, Chen Xiang was not the only one who complained that he was placed in a strong group.

After resting for three days, you can begin to hunt the Dragon beast. At that time, all the Dragon beast Dan that you have obtained will have to be handed over to us. " With that, the old man flew away.

Wu profound took out his horse carriage and entered it with Chen Xiang.

"Wu profound, help me get the one billion corpses of the Dragon beast. I'll be refining the Law beads for the next three days." Chen Xiang said with a serious expression.

"Alright." Wu profound knew what he was going to do. Chen Xiang was currently in a very dangerous situation and he was also in the same situation. There was still time for Chen Xiang to make a breakthrough during this period of time.

"I can already feel that this is someone who Qin profound is colluding with the Flying Dragon Association, and has purposefully lined me up with him. It looks like he's deliberately trying to kill me." Chen Xiang's face darkened: Don't think I'm easy to bully.

To use such a method to deal with him, this sort of unfair treatment was extremely infuriating.

After returning to the profound Wu Dan Pavilion in the Central Region, Wu profound immediately bought a billion corpses for Chen Xiang.

Chen Xiang took it and quickly refined it.

"I need to become stronger, I need to get a placing in the Myriad Tao Divine Tablets Formation. I need to find out who colluded with Qin profound."

Chen Xiang's heart was filled with anger, now he could only increase his own cultivation quickly, in order to win the next round.

In two days of time, Chen Xiang had refined twenty of them. If it was anyone else who had consumed them, they would be able to cultivate a set of Dragon Path Meridians.

And he wanted to use these Law beads to clear the second profound God, and step into the middle stage of the Heaven realm.

Wu profound was waiting for Chen Xiang. The three days of rest were already up, but Chen Xiang did not come out ... He could only continue to wait.

Now, the others had all started to go to the higher floors of Flying Dragon Pagoda to hunt Dragon beasts, only Chen Xiang and Wu profound had not come out.

After waiting for five days, Wu profound suddenly heard the sound of a dragon's roar coming from inside the profound Wu Dan Pavilion, and it was from Chen Xiang's secret room that the roar came from.

At this time, Chen Xiang's body was being encircled by a scattered green dragon. He didn't know what was going on either, he only knew that he had already opened the second profound God, and was already at the middle stage of the Heaven realm.

"The green dragon in my second Divine Sense Sea actually came out of its own body."

Chen Xiang pinched the green dragon, he could feel that there was a blazing Dragon Blood moving inside the green dragon's body, and it was a living green dragon.

[Chapter 2758](#)

Chen Xiang kept the green dragon in his second Divine Sense Sea. His second Divine Sense Sea had always been very mysterious, containing extremely strong and terrifying powers.

"My second Divine Sense Sea also has seven divine beasts. In the future, I should be able to cultivate one of them!" With a thought from Chen Xiang, the green dragon appeared, and it was much smaller than before. It was now like a small snake, coiling around his wrist.

"Before this Azure Dragon, there was already an Azure Dragon's divine soul, but now that the consciousness of that divine soul has already disappeared, it seems like it's really as the Azure Dragon's divine soul said. He will be reborn this way!" Chen Xiang guessed that this green dragon had already been reborn, and it had even merged with him.

"I wonder how much it will increase to!" Chen Xiang used his mind to control the green dragon to grow bigger.

In just a few blinks of an eye, the green dragon had quickly become extremely large, and seeing that the secret room could no longer hold more, Chen Xiang anxiously stopped, allowing the green dragon to return to the Divine Sense Sea.

"Just now, I was able to feel the power of this azure dragon. It seems like this azure dragon's power can be used by me, and can even be changed many times. As for how I can use this azure dragon's power, I have to carefully dig."

Chen Xiang had already stepped into the middle stage of the Heaven realm! When he had stepped into the early stage, many people had thought that it was too quick, much less now!

"The breakthrough of the Heaven realm is not as difficult as the teleportation! I have already grasped the key to break through. When I have enough time, I will verify it again, and if it is really as I thought, then I will definitely be able to reach the peak of the Heaven realm quickly. "

Chen Xiang felt that this was related to the Law beads he had eaten. He had only eaten twenty of the s and he had already broken through to the middle stage.

Chen Xiang came out from the secret room, and anxiously asked: "You broke through?"

Even though he had already felt the aura of the two profound God s, he still did not dare believe it.

"He broke through!" Chen Xiang closed his eyes and activated the Counter Power, allowing the Counter Power to flow into his Spirit of the Dao gods and wrap it around one of the profound God s.

After being shocked, Wu profound suddenly felt that one of his profound God s was missing!

"Can't you tell now?" Chen Xiang snickered.

"Incredible..." Wu profound exclaimed, and laughed: "Looks like Heaven realm can be broken through quickly!"

Wu profound had guessed that it was definitely related to those Law beads. Law beads s that were refined by Chen Xiang were many times stronger than ordinary Law beads, and this kind of Law beads had never appeared before. Thus, no one knew that extremely high quality Law beads would be of great help when breaking through the Heaven realm.

"The second round should have begun!" Chen Xiang asked.

"It's begun." Wu profound nodded his head: "Originally, I wanted to buy Dragon beast Dan s to pay for them, but I found out that there were very few Dragon beast Dan on the market that sold them. Even if I bought one, it would not be new! Because a fresh Dragon beast Dan would be able to tell at a glance. "

"Looks like I need to hunt Dragon beast s myself! However, this can also be cheated, if there is a powerful person secretly helping the participants kill Dragon beast Dan and then trading it on a certain floor, it would be very difficult to be discovered. " Chen Xiang said: "There are too many loopholes in the competition rules, so it's clear that they are convenient for us to cheat."

"Well, that's true." Wu profound nodded, "Should we move quickly?"

"Don't worry, I will have a plan!" Oh right, Wu profound, I urgently need ten billion Dragon beast s, can you help me get them? " Chen Xiang asked: "We need to do it in secret!"

Wu profound took a small breath. No problem, but it would take some time.

"Alright, here is 10 billion!" Chen Xiang said: "It should be okay in a month!"

"No problem!" Wu profound received Chen Xiang's ten billion Dao crystal, then hastily went to arrange them. After returning, he and Chen Xiang headed to the upper floors.

In these hundred floors, there were no Dragon beast to kill, so they could only go to higher floors. Other than that, the Dragon beast that were hunted had to go through strict selection, because most of the Dragon beast did not have any.

The Dragon beast s that had Dragon beast Dan s were all Dragon beast s that had entered the Three profound realm and were preparing to turn into humans.

Although Dragon beast s in human form also had Dragon beast Dan s, they were much stronger, and even humans of the Three profound realm did not dare to fight them easily.

Wu profound had a map that showed him the one hundred and tenth floor, and knew that the stairs were above. He and Chen Xiang decided to go to the one hundred and third floor to hunt Dragon beast.

"Although there are a lot of Dragon beast here, there aren't many that have Dragon beast Dan!" After Wu profound and Chen Xiang came to this floor, they had killed more than ten Dragon beast but none of them were weak and the amount of Dragon beast they had killed was not weak either.

"It shouldn't be just us who find it hard to kill those Dragon beast. Everyone should be the same." Chen Xiang said: "The next time I meet a Dragon beast, I'll look carefully before making my move!"

When Chen Xiang reached the middle stage of the Heaven realm, his strength had also increased by a lot, so the distance from Wu profound wasn't that far. He guessed that the strength of his own Dao Energy should be around a thousand times stronger than Wu profound's, and not by as much as before.

"Look carefully? It's not good to see if this Dragon beast has a Dragon beast Dan. " Wu profound shook his head.

Chen Xiang had the Dao heart Eye, so he felt that if he really met a Dragon beast, he might be able to see through it.

"There are still twenty-seven days. I wonder how many we'll be able to find then." After Chen Xiang assassinated a dragon ape, Wu profound carefully searched for it, but didn't find any Dragon beast Dan, so he started to worry.

The Dragon beast they met were all assassinated by Chen Xiang. Although the Dragon beast was strong, under Chen Xiang's assassination, it seemed so easy.

Before, Wu profound did not know that Chen Xiang had this capability, but after seeing it before, he finally understood why Chen Xiang could be so arrogant in front of Qin profound.

"How many people do you think are needed for us to not be eliminated? Our group will have ten people eliminated. " Wu profound said.

"If we don't have a single Dragon beast Dan, we will be eliminated! As for Qin profound and the other chief disciples, it is certain that they will not be eliminated. They might even be on the way to the tenth floor right now, so there will naturally be people who will help them kill Dragon beast. " Chen Xiang laughed coldly, because he knew that this Flying Dragon Association was not fair when he encountered the previous division.

Two days later, Chen Xiang and Wu profound arrived at the seventh floor.

Just as he arrived, Chen Xiang discovered a Dragon monkey near the exit. He used his dao heart to look, and saw that there was a ball of light inside the Dragon monkey's body. He could clearly see that there was a little golden dragon revolving around this ball of light.

"This Dragon monkey has a Dragon beast Dan!" When Chen Xiang saw it, he immediately flew over stealthily.

Just as he was about to slash and kill, the Dragon monkey suddenly knelt down and anxiously shouted: "Master, please wait!"

[Chapter 2759](#)

The Dragon monkey actually knew how to speak, so Chen Xiang immediately stopped, and Wu profound held his sword out in alert.

"You actually know how to speak." After Chen Xiang appeared, he laughed: "Seems like you are also preparing to transform."

"That's right, I will soon be able to enter the Three profound realm and take human form. Please be magnanimous and let me go." The Dragon monkey knelt on the ground with a pitiful look.

Wu profound had never interacted with these Dragon beast before, so he did not believe in them. He was even more vigilant now, and his face was filled with killing intent.

Chen Xiang understood Dragon beast better, as he had become friends with her before.

Once these Dragon beast had intelligence, they would become more or less like humans.

"I don't have to kill you, but you have to promise me one condition." Chen Xiang said: "We need a large number of Dragon beast Dan, and fresh Dragon beast Dan at that. Do you have a way to help us?"

The Dragon monkey was one of the elves. It could speak human language before it reached the Three profound realm, which showed what kind of fortuitous encounters it had.

"Dragon beast Dan." The Dragon monkey did not understand.

"It's the object that was condensed in your body." Chen Xiang laughed: "You should know that we need something like that right now."

"So this is what you call a Dragon beast Dan." The Dragon monkey scratched its head, and said: "If you need it, I can give you my Dragon beast Dan, but I can still condense this Dragon beast Dan again."

Chen Xiang and Wu profound did not understand much about the Dragon beast Dan, and were greatly surprised to hear the Dragon monkey say so.

"It really is possible." Chen Xiang suddenly had a flash of inspiration, he thought about the Spirit Transformation realm, and felt that it might be related to this.

"Master, the Dragon beast Dan that you speak of is where the energy stored in our Dragon beast is located. Normally, only Dragon beast that are ready to take human form will have enough energy to

condense this energy in their body. Even if I gave it to you, we only need to rest for a while before condensing it again."

After the Dragon monkey finished speaking, it spat out a ball of light the size of a thumb from its mouth and passed it to Chen Xiang.

"This is a Dragon beast Dan, and it's very fresh. So a Dragon beast Dan is such an existence. I thought a Dragon beast would die without a Dragon beast Dan." Wu profound exclaimed.

After Chen Xiang received the Dragon beast Dan, he asked: "Little monkey, how many days would it take for you to condense this Dragon beast Dan?"

Wu profound immediately understood what Chen Xiang meant. This Dragon monkey was currently like a hen who laid eggs, if possible, they didn't need to go anywhere, as long as they were together with this Dragon monkey, the Dragon monkey would condense more Dragon beast Dan.

"I'll be able to recover in a day." The Dragon monkey looked weaker now, because he had given all of his stored energy to Chen Xiang.

Chen Xiang took out a Myriad Tao Crystal, and then, he refined the Dao crystal a few times before condensing it into a pellet.

"Eat it and see if it can speed up your recovery." Chen Xiang said.

In order to preserve his life, the Dragon monkey had to follow Chen Xiang's instructions. After eating it, he said joyfully: "It's faster by a lot, if this goes on, I can condense twenty pills in a day."

Chen Xiang laughed: "Follow us during this period of time, when the time is almost up, you can leave. Also, right now, it's equivalent to helping me, at that time, I will also repay you."

Chen Xiang still had Spirit Transformation Law beads in his possession, this kind of Law beads did not have any value to humans, no one would buy it, but for Dragon beast, it was like a treasure.

Wu profound was also very happy. He knew that it would definitely be much easier to be with Chen Xiang, and now that things were better, they wouldn't need to go hunting Dragon beast in the future.

Just like this, Chen Xiang and Wu profound brought a monkey and arrived at the 109th level.

"As long as the time is right, we will head to the 110th floor." Chen Xiang was actually very relaxed now, he had only used Dao crystal s to refine pills for the Dragon monkey to eat.

Ten days had passed and Chen Xiang had already obtained two hundred Dragon beast Dan.

"This should help us avoid being eliminated." Chen Xiang laughed: "But just in case, we have to make more, anyway we have time."

Chen Xiang and Wu profound each had two hundred Dragon beast Dan s in their hands, but they did not take them all out in one go. Rather, they would take them all out based on how much they could take out, as long as they did not get eliminated, because if they took too many out, they would only benefit the host of the Flying Dragon Association.

Chen Xiang also gave some Spirit Transformation Law beads to the Dragon monkey, this could help him change his appearance earlier.

Wu profound did not say anything either. The Dragon monkey had saved them a lot of trouble, and he was secretly grateful.

"Let's go to the upper level." Chen Xiang said: "It's better if we go earlier, just in case something unexpected happens."

Wu profound thought so too, nodding his head, he quickly followed Chen Xiang up the stairs.

The staircase was in a forest, and when Chen Xiang and Chen Xiang entered the forest, they saw the staircase from far away. Just as they sped up, a gloomy and cold Qi suddenly attacked them.

"There's an ambush. Be careful." Wu profound anxiously shouted, and immediately avoided the incoming white light beam.

After the beam landed on the ground, it created a huge pit in the ground. An extremely strong wave of fire instantly enveloped the entire forest.

He had a premonition that it wouldn't be so easy for him and Wu profound to reach the upper level. This was one of the reasons why he needed to raise his cultivation so urgently, and as expected, he was ambushed while he was going up.

With such a powerful attack, it was obvious that he was going to die. Chen Xiang was very angry, and rushed forward.

"Three profound realm." Chen Xiang immediately grabbed Wu profound and stealthily flew away using the Law of Flight.

In just a few blinks of an eye, Chen Xiang had already reached the staircase and rushed up. In the moment that he rushed up, he recovered once again, and at this time, Wu profound still had not reacted.

"It's safe now." Wu profound saw that there were a lot of people here, and they looked like a small village. He heaved a sigh of relief, but right then, Chen Xiang disappeared.

Chen Xiang returned to the lower level and was already invisible.

He quickly sensed that the Three profound realm assassin was moving quickly, as if he was trying to escape. This was the staircase, after all, and with the large commotion he made earlier, it would be rather troublesome if the people above knew.

"You want to leave?" Chen Xiang immediately followed, he also planned to stay far away from this place and find a chance to successfully launch a sneak attack.

Very quickly, Chen Xiang saw the expert. It was an old man.

"It should be a rather poor Three profound realm. Its strength is about seven or eight thousand. It seems like he won't have much more to show in the future." Chen Xiang's heart turned cold, "I must find out who sent them to kill me."

This old man came to a desolate mountain, as if he was waiting for someone.

[Chapter 2760](#)

Chen Xiang took out the Emperor seal, and secretly tried to use the power of his Second Divine Sense Sea's green dragon.

What he did not expect was that as soon as the green dragon released its power, the Emperor seal started to shake violently, releasing waves after waves of Qi.

"Not good, we've been discovered by that guy." Chen Xiang never expected that after he used the power of the Azure Dragon, it would make the Emperor seal possess such immense power that even he himself was unable to restrain it.

As expected, after the old man sensed the Qi, he immediately became vigilant. He was in charge of assassinating Chen Xiang, so he naturally had some understanding of Chen Xiang's concealed ability, and guessed that Chen Xiang was nearby.

"Let's give it a try and see if we can get rid of him." Chen Xiang originally wanted to see who the old man would meet up with, but now he was discovered by him.

As he was in the air, he immediately teleported to the ground and appeared behind the old man. At the same time, he released his strongest strength in an instant, urging the Azure Dragon in the Second Divine Sense Sea to explode.

All of the Azure Dragon's power was channeled into the Emperor seal.

"Hah."

The arm where Chen Xiang held the Emperor seal was wrapped by an azure dragon, the green dragon's power was continuously transferred into the Emperor seal, and that boundless power, caused Chen Xiang's entire arm to continuously shake, as if he was about to be knocked out.

His Emperor seal pushed the old man horizontally, and at the same time, the seal glowed with a green light, and an incomparably large illusory green dragon appeared behind Chen Xiang.

The green dragon let out a roar and a violent power surged out from his seal, shaking the world. At the same time, the huge green dragon phantom behind him also shot out a violent green lightning, like a tide pouring down from the nine heavens, densely packed and enveloping the area.

Boom! Boom! Boom!

Chen Xiang held the Emperor seal, gritting his teeth as he constantly smashed it towards the old man from the Three profound realm. In just a few short moments, he did not remember how many times he had smashed it, he only knew that he had risked his life to release all of his energy into the Emperor seal.

In just a few short moments, the place which was originally surrounded by mountains had been razed to the ground, and there was even a huge pit in the middle. The body of the old man who tried to assassinate Chen Xiang was already smashed into pieces, and he was on his last breath, lying inside the huge pit.

Although the old man was in a daze, his mind was currently filled with fear. That instantaneous burst of power scared him out of his wits, because this was only a person from the Heaven realm attacking him.

"Hmph, this is what happens when you assassinate me." Chen Xiang pressed his hand on the old man's head, he activated Soul Absorbing Devil Spell and searched through the memories in his mind.

Soon, he knew who had sent this old man to assassinate him.

"Flying Dragon Association, Qin profound ... "You guys really are colluding." Chen Xiang frowned, he was furious in his heart, and threw the old man into the Chuangshi god furnace, turned it into ashes, and left the place.

Chen Xiang was very surprised. The person in charge of organizing the Flying Dragon Association was actually very partial to Qin profound, as if Qin profound had a very mysterious background.

The old man sent to assassinate Chen Xiang was one of the followers of the old man in charge of organizing the Flying Dragon Association.

Qin profound also colluded with the elder.

"The third battle is between two fighters. When the time comes, it will be very disadvantageous to me. If I don't want to die, I will have to withdraw."

Chen Xiang already knew the rules of the third round. When the time came, every group of one hundred and ten people would engage in a chaotic battle in a fighting stage, and the ten people who fell first would be eliminated.

Currently, he was in the same group as the seated disciples of the seven divine beast sects, and from what he knew, these sects all had transactions with the person in charge of organizing the Flying Dragon Association s.

According to the memories of the old man, when the war broke out, all the disciples would join hands and defeat all those who had nothing to do with them.

This way, the number of people entering the Myriad Tao Divine Tablets Formation at that time would be very small, far less than ten thousand.

"Right now, my cultivation is on the brink of rising, at that time, I will be helpless against just one Qin profound, if those disciples join hands and attack me, with my current strength, I will definitely lose."

Chen Xiang's heart was heavy now that he had reached the one hundred tenth floor. Seeing that he was able to return, Wu profound became more relieved as he was worried that Chen Xiang was going to look for the killer.

However, seeing how serious Chen Xiang's face was, he immediately knew that Chen Xiang must have found out about something.

"How are things now?" Chen Xiang asked: "How many of our people have returned?"

"He's almost back, Qin profound got the most Dragon beast Dan, there's over forty of them, I don't know how he got them." Wu profound said in a low voice: "I've investigated everything clearly, there are

more than ten people who are unable to get their hands on the Dragon beast Dan, when the time comes these guys will all be eliminated."

"Although we said that ten people would be eliminated in each match, judging from the rules now, it is clear that we have to eliminate as many people as possible. This way, the number of people who will enter the Myriad Tao Divine Tablets Formation will be fewer."

Chen Xiang nodded his head: "I will only take out five or six Dragon beast Dan."

Wu profound and Chen Xiang had handed over their Dragon beast Dan and successfully passed through the competition. It was not surprising for them to be able to pass through this round since Chen Xiang and the other disciples had some ability after all.

That was why Qin profound had sent people to ambush Chen Xiang and Wu profound.

Now, the second round had ended. Seventeen people from Chen Xiang's group had been eliminated.

"This month, everyone should be very tired, so the third round will be held in a month. After the third round, the Myriad Tao Divine Tablets Formation will arrive around the same time, just in time to enter the Myriad Tao Divine Tablets Formation." The old man said, "The third round is a competition of strength. When the time comes, all of you will enter a battle field. As long as you hold on for an hour and do not fall, you will be able to pass."

This was exactly what Chen Xiang understood, he clenched his fist tightly, he had noticed the elder's cold gaze just now.

The old man who tried to assassinate him earlier, was one of the followers of the old man who just spoke. This old man came from a higher level power, he came here to collect many benefits, which was why he agreed to do business with the sect.

After the disbanding, Qin profound came over to Chen Xiang's side and said coldly: "Chen Xiang, if you know what's good for you, then don't participate in the third round. Of course, even if you don't participate, you will only live a little longer."

"Are you threatening me?" Chen Xiang said coldly.

"I am only kindly telling you that your death is imminent. Before you die, do something joyful or you will never be able to enjoy it again." After Qin profound finished, he laughed and left.

heard what he said just now, and felt a great sense of danger. He was so close to Chen Xiang, at that time, Qin profound would definitely not let him off.

"Chen Xiang, are we really going to leave?" Wu profound had already determined that he did not have enough strength to defeat Qin profound;
