[Chapter 2791](#)

Chen Xiang was also shocked by Gu Qingtian's strength, this defensive power was released by Gu Qingtian himself. If it was a normal Six Gods Stage, they would have already died under this kind of attack, but Gu Qingtian was only suppressed to the extent of not being able to retaliate.

"We can't let this continue any longer. Once this guy recovers and finds an opportunity, it'll be the time for him to retaliate." At this moment, Chen Xiang could clearly feel that an extremely terrifying power was being concentrated within Gu Qingtian's body.

Chen Xiang was extremely terrified of that power. If he released it, the consequences would be unimaginable!

"Azure Dragon!" Chen Xiang immediately used the Azure Dragon within the second Divine Sense Sea, and let the Azure Dragon flow into his arm, so that it would not be exposed.

Even so, his arm suddenly swelled up, shattering his sleeve. On his arm were green dragon scales, flashing with terrifying lightning!

"This boy really hides a great deal of his strength. What he used just now should be the power of the Dao of Dragon Laws. He entered into the cultivation of the Dao of Dragon Laws!" Murong Jin's expression was solemn, at this moment, he felt that Chen Xiang was even more mysterious.

"Dao of the Dragon Laws!" A hundred Law beads required fifty billion, it was obvious that this fellow had the support of a terrifying old man. Otherwise, where could he have gotten so many Dao crystal? If we want to cultivate this kind of rare Rule Dao line, we have to first step into the Six Gods Stage and fight for it when we return to our families. " Mu Rong Ling looked at Chen Xiang with a bit of jealousy.

"That's right... "Now, I know what kind of technique he is using, and it actually makes his arm feel like it is being possessed by a green dragon. I wonder if Old Gu can withstand it." Liang Jinjun stared at Chen Xiang's arm and frowned.

"The power that Old Gu has condensed is also very terrifying!" Zhao Yunqiao said, "But... I wonder if there will be a chance to release it! "

After Chen Xiang allowed the green dragon to attach itself to his arm, he felt that the green dragon had already fused with his arm, and then, he immediately threw a punch!

This time, it was even the Berserk Dragon Heaven Blasting Palm!

Chen Xiang's palm exploded with a burst of glaring green light!

A flashing green dragon roared out from the resplendent green light. The roar of a dragon shook the heavens, causing everyone to tremble in fear!

With this palm, Chen Xiang used all his strength to control the power. If he felt that something was wrong, he could immediately control it and retrieve it!

Gu Qingtian was also frightened, he never thought that the hidden strength Chen Xiang possessed was actually this terrifying. In that instant, the energy he had accumulated in his body suddenly disappeared, which meant that he had given up on resisting!

When Chen Xiang sensed that the condensed power on his body had disappeared, he shouted loudly and controlled the green dragon to explode.

The green dragon did not directly land on Gu Qingtian's body, but the moment it exploded, the berserk force it produced pushed Gu Qingtian out of the fighting arena!

"Chen Xiang wins!" The old man below the stage was also frightened, but he quickly regained his composure and shouted.

"Are you a disciple of the Azure Dragon School?" Although Gu Qingtian had lost, he did not complain. After all, Chen Xiang had defeated him with absolute strength.

"No!" Chen Xiang knew why Gu Qingtian would ask such a question. It was because the Dragon Power and Azure Dragon power that he had used just now looked just like those of the Azure Dragon School's no matter how one looked at it.

After Chen Xiang finished speaking, he hastily went to the registration area to add his last point, so he could enter tenth place just in time!

Even though he was ranked tenth, he could defeat the one ranked first!

"This kid is really scary!" Gu Qingtian came over to Murong Jin and the others and sighed: "If not for him suddenly stopping, I would be lying down right now."

"No wonder my brother is so convinced. So it turns out that he also felt Chen Xiang's power." Liang Jinjun chuckled, "But of course, I'm not afraid of him. It's as they say. Although he's strong, he might not necessarily be able to defeat me."

Murong Jin laughed: That's right, if we are to compete in sword techniques, I feel that I can definitely win against him!

Gu Qingtian shook his head: "All you are saying is that when you fight with him, you will already know how terrifying he is. Under such circumstances, for him to be able to remain calm and collected, it goes to say that he has a lot of battle experience, and that he carries a killing intent with him! That killing intent is even more terrifying than your two brothers' God-killing sword."

"Those in the top ten, follow me." A grey robed old man suddenly appeared and shouted.

Chen Xiang immediately walked over, and the people who were in the top ten all rushed over.

"I am an outer sect elder of the Yuan Shi Tao School. From now on, you are all outer sect disciples of the Yuan Shi Tao School." As the grey-clothed old man spoke, he took out ten Storage bags. "One for each of us, take a good look at the things inside."

After Chen Xiang obtained it, he took out a book from within. Inside it were written the rules of the Yuan Shi Tao School. Other than that, there was also a cultivation technique, but it was only the first part of it.

"The sect rules are already written on it. You should know that cultivation in the outer sect is very difficult, right?" However, you only have ten days each month to cultivate. You are free to do so for the rest of your time. " The old man had already brought Chen Xiang and the others and was walking towards the Primal Sky Mountain.

"Elder, do you think that someone with strength like ours can withstand the cultivation of the outer court disciples?" Mu Rong Ling asked.

"It's hard to say. I have seen many imps that were even more talented than you, but there are only a few that managed to endure through it! Of course, although you guys are not as strong as those guys, but your character is not bad and you have also been chosen by the Supreme Elders in the inner sect, so even if you guys can't go through with it, you will definitely become a true disciple, and that is even higher than an inner sect disciple. "

Murong Jin said: "I will definitely not be able to hold on, if I do not, I will not have the face to enter the inner sect, and will only make those honorable disciples laugh."

Mu Rong Ling also nodded.

"Good ambition, I hope you guys can really endure it." The old man smiled.

"Elder, is there any method that doesn't require the outer court to conduct cruel cultivation every month?" Chen Xiang kept looking at that book, which had a lot of information on cultivation.

"Don't you want to cultivate?" Then why did you enter the Yuan Shi Tao School? " The old man asked, "Many people enter the outer sect just to train and gain experience!"

"The reason I entered the Yuan Shi Tao School was to find a safer and more stable environment to let me grow up." Chen Xiang said: "It's not that I don't want to cultivate, but the cultivation in the outer sect is completely useless to me. This kind of cultivation can also be described as cruel, and I feel that it's an insult to the word 'cruel'."

When Chen Xiang saw the content of the cultivation, it was no different from tempering his spirit and body. It was extremely extreme, especially when it came to tempering the body ... He needed to soak in the primordial flame pool, or be struck by the primal wild lightning, etc ...

To Chen Xiang, all of these were just a piece of cake!

[Chapter 2792](#)

"Do you think our cultivation is too simple?" are you wasting your time? " The old man was also surprised, he had also seen Chen Xiang's battle just now, and knew that his strength was indeed not weak.

"Yes!" Chen Xiang said: "It will not help me in the slightest!"

They were clear about Chen Xiang's strength, especially Gu Qingtian, and when they saw the content of the cultivation, their faces immediately became pale white. Although they were powerful, they were more or less people who had grown up cutely.

But Chen Xiang still felt that that was not enough!

"This cultivation method can temper a person's willpower. This is very useful for cultivation of the Six Realms magic kungfu. As for the increase in strength ... "This will strengthen the body. Of course, this will have to be endured." The old man said.

"I feel that I already possess this kind of willpower, because I've already experienced this kind of cultivation a long time ago!" Chen Xiang said. He had experienced things more cruel than them, so these experiences were nothing in his eyes.

The old man was speechless. He thought for a bit and said, "If that's true, then after you participate once, you feel that it's useless. You can go participate in the inner sect examination. As long as you enter the inner sect, you don't have to cultivate like this."

"Alright!" Indeed, the reason Chen Xiang came to the Primal Daoist Sect was to find a backer. It was because his Primordial Daoist Sect was rather concerned about its disciples.

Soon, the novel Ybdu. Chen Xiang and the others came with the old man to the middle of the mountain. There was a cave here, and the outer disciples could only train inside it.

The cave was located in the belly of the mountain, which led to the primal sky mountain. It was very spacious and could accommodate many people for cultivation.

"Alright, feel free to find a place to stay!" When it comes to women, we need to be together with other women. " The old man said, "Tomorrow morning, you will follow the team and enter the primordial lightning pool. After soaking in it for a day, you will enter the primal lightning zone ... Every time it starts, a name will be called, and if you don't come, you will be punished. "

Chen Xiang randomly found a cave and rested inside. Today's great battle had made him feel extremely tired.

"I need to hurry up and enter the inner sect to confirm that Lin Xirong's father is not here. If I can find him, maybe I can understand more about the Natural Law Divine Lord." This was also one of the reasons why Chen Xiang had entered the Yuan Shi Tao School.

Aside from that, he also needed to find a medicine pill that could allow him to quickly enter the Six Gods Stage. According to his knowledge, it was extremely difficult for the Three profound realm to enter the Six Gods Stage.

As long as they entered the Six Gods Stage, they would definitely be able to become a Successor Disciple.

Early morning on the second day, Chen Xiang and the other new disciples lined up together.

There were a lot of new disciples, more than a hundred of them, and most of them were disciples from prestigious families. Chen Xiang entered the Primordial Flame Lake with them and soaked them inside.

"You are not allowed to use your Dao power to resist, and you are not allowed to use Dao power to protect your body! Even though it will be very painful, I won't let you die. A middle-aged man in charge of monitoring said. He was from the Six Gods Stage and was not weak.

Just as he went down, many people cried out in pain!

Even those who were able to hold it in had painful expressions on their faces.

Gu Qingtian's body could be said to be stronger here, but the muscles on his face were tensed up from the pain, and his face slowly turned green.

Murong Jin could not help but moan in pain, the muscles on his face twitched continuously. Just as he wanted to rush over, he was suppressed by a burst of force from the middle aged man at the side.

At the same time, Gu Qingtian also started shouting. In here, it could not be considered as an embarrassing matter, because other than Chen Xiang, everyone else was shouting in pain.

Previously, Gu Qingtian and the others thought that Chen Xiang was exaggerating a little, but now that they had personally experienced it, they knew just how terrifying Chen Xiang was.

The middle-aged man by the pool was also surprised by Chen Xiang, he had even specially checked if Chen Xiang was using Dao Energy to resist, but after carefully checking a few times, he realized that there was not a single bit of Dao Energy leaking out of Chen Xiang's body, but there were quite a few people who were releasing their Dao Energy nonstop, wanting to resist the scorching heat.

However, all of their Dao power had been sucked away by the special formation!

"If you can't take it, you can tell me, then immediately leave the Yuan Shi Tao School. There's no need to feel embarrassed. After all, all of you are well aware that quite a few people can't bear it and have to leave the Yuan Shi Tao School." The middle-aged man said, "This is only the beginning. If all of you have enough strength to take the inner sect examination, then you don't have to cultivate like this."

"But, if one wants to pass the inner sect examination, it is impossible to not practice like this! Let me tell you this, the first round of the inner sect examination is to soak in a pool that is even scarier than this.

"The second stage is naturally the Lightning Territory. It is also one day, and the Lightning Territory there is even more terrifying than this place!"

"The third stage is a lot more relaxed and is a mental test. There will be all sorts of mental challenges, and it will be easier said than done because it won't be painful, and it will be even harder since many people can pass the first two stages and not the last one."

Chen Xiang's calm voice was heard: "As long as you pass these three tests, you will become an inner disciple?"

The middle-aged man nodded, "That's right, every three months there will be a test, and it will be conducted in groups. Just like now, everyone will be immersed in the pond, and even if we can't, we still have a chance, because our test will not lose our lives."

"Then when is the next assessment?" Chen Xiang asked again, while the others cried out in pain, but Chen Xiang was able to speak calmly with others, causing many people to think that Chen Xiang was cheating.

"Ten days from now, it will be your resting time. You can go and have a try." The middle-aged man also felt that something was wrong with Chen Xiang, he felt that even he could not remain as calm.

Chen Xiang nodded his head, then closed his eyes. Right now, he was not forcefully enduring it, rather, he was not in pain at all.

A day had passed. Although everyone was in pain, no one fainted. After knowing that they could rest for an hour, they all jumped to the edge of the pool like frogs.

Here were men, and the woman was on the other side, and it was said that the heat of the fire was as strong as that of the man.

"The reason why the Yuan Shi Tao School is so powerful is because of the foundation that was laid here. The middle-aged man smiled and said, "Rest first. After that, we'll go to the Lightning Territory and let you all experience a different level of pain."

Everyone was cursing in their hearts, other than Chen Xiang, everyone here had the intention to leave, but in the end they endured it, they also did it for the sake of dignity, if they were to withdraw right after entering, they would be laughed at by the people here, and it would be terrible if it got out.

[Chapter 2793](#)

After arriving at the Thunder District, Chen Xiang and the others heard sharp cries of pain.

Just hearing the sound made everyone's body turn cold. Everyone had just rested for an hour and the pain had already disappeared. This showed that their endurance was still pretty good.

But now, he could hear the cries of pain. It was as if the pain that he had previously eliminated had returned!

Within the lightning zone, thunder and lightning constantly struck down. The sound it produced was already terrifying, let alone wanting to enter.

"Those women are screaming so much!" Gu Qingtian could not help but mutter.

"Hehe, when you wake up, you won't be any better than them." The middle-aged man smiled slyly and said, "Prepare to enter. The rules are the same as before. You are not allowed to use your Dao power to resist."

Everyone stood by the side of the spacious underground room. They were all unwilling to enter, because entering this place meant immediate suffering!

"Let's go in!" Gu Qingtian then kicked Murong Ling's butt, right into his butt. then kicked Murong Ling in, causing numerous bolts of lightning to strike over, all striking Murong Ling's body.

"Ahhh ..." Mu Rong Ling screamed like a pig that was being butchered. His throat was about to crack and his body was still trembling uncontrollably.

Gu Qingtian originally wanted to laugh, but he was unable to do so because all of them had to do this later!

"You (a) (read) the novel ybdu. "You b * stard ..." Mu Rong Ling cursed angrily.

Just then, Chen Xiang had already walked in, and countless of lightning bolts charged towards him, in the blink of an eye, it struck his body, producing crackling sounds.

Chen Xiang frowned slightly. This was indeed a bit painful, but he could still endure it. After that, he sat down in a corner earlier and closed his eyes, allowing the lightning bolts to strike his body.

"All of you, come in!" As the middle-aged man spoke, he released a powerful force, pushing in all the people who were standing at the side. Soon after, this place became like a pig slaughtering field, and everyone started shouting loudly to their heart's content.

Another day had ended. After the cultivation in the Thunder Dominion had finished, everyone's body was releasing smoke, many of them were already charred black, while Chen Xiang's face was only black. The others were fine, at least he was the only one who was able to leave the Thunder Hall, while the others were all climbing out!

"Rest for four hours before you continue. There are eight more days!" The middle-aged man looked at these half-dead people and smiled.

And in the next eight days, they would be alternating between cold and thunder. As two people left the arena, everyone could understand this point. They didn't know how much longer they would be able to last!

Every month, they had to cultivate like this for ten days. Now, they could rest for twenty days, but everyone's mood was not very good because after twenty days, they still had to continue this hellish cultivation.

"I say, Chen Xiang, how did you manage to withstand that kind of pain?" Gu Qingtian was extremely curious, he crawled to Chen Xiang's side and asked.

"If you were to cultivate in the outer sect for hundreds or thousands of years, you wouldn't be afraid of pain." Chen Xiang said. This kind of painful cultivation, was something that he had experienced many times.

"Hundreds of thousands of years?" Gu Qingtian could not help but shiver, "Could it be that you walked over like that?"

"More or less!" Chen Xiang nodded his head, "There's nothing I can do. I was born into poverty, and in order to obtain powerful strength, I needed to cultivate a powerful body.

"I don't believe it! How can you possess such a powerful technique when you are born of such a poor background? Even the so-called chief disciples of the Azure Dragon School are not as powerful as you in terms of Dao of the Dragon." Gu Qingtian curled his lips.

"That's the nod I received after going through some tough times." Chen Xiang smiled and said: "You've suffered so much. You know how to make yourself stronger, and there's also ways to get more Dao crystal!"

"Sigh!" Are you really going to take the inner sect examination? The instructor said that it would be many times scarier than it is now. " Gu Qingtian still did not quite believe what Chen Xiang said. From start to finish, he still felt that Chen Xiang was very mysterious.

"I must go!" Chen Xiang said: "If I'm not able to make it here, I'll only be returning here."

The cultivation here was extremely difficult for many people, especially for the spoiled children from influential clans.

Chen Xiang rested for a moment, also recovered a bit, and then returned to his stone room.

"I will properly adjust for another day and then participate in the inner sect examination. I want to enter the inner sect!" Chen Xiang had already heard some things about the inner sect from the instructor's words, it would be much easier to enter, at least he did not need to undergo such a dry and painful cultivation.

After resting for a day, Chen Xiang immediately went to register. At this time, many people were present, all of them had passed the examination and entered the outer sect, they were originally the children of Venerable families, but now, their arrogance had been wiped out, and they no longer had the haughtiness that a Venerable Family disciple had.

After registering, everyone felt that Chen Xiang was very unfamiliar, because most of the people participating in the examination right now were old disciples, and some of them had even failed a few times. Only after everyone had understood that Chen Xiang had just entered the outer sect for ten days!

He had only been here for ten days, and yet he was already taking the examination! This caused many people to be shocked!

In the past, many people had thought of entering the inner sect as soon as they did, but after experiencing the first ten days of hellish cultivation, none of them had this thought!

This was because the inner sect examination was much crueler than hellish cultivation.

After reporting their names, everyone was brought into a cave. There was also a pool of lava inside. As soon as they approached, they could feel the scorching heat!

Chen Xiang and the rest were immersed in the water, a majority of them only lasted for an hour before retreating, while the rest endured the pain, with more people screaming in pain.

A day quickly passed. Originally, there were several hundred people who entered, but now there were only a few dozen. All of these people had passed the first stage.

"This exam is not simple at all, even I feel a great deal of pain!" When Chen Xiang was soaking in it, he circulated the Heavenly spirit kunfu, transforming the stimulation brought upon by the pain into a type of body strengthening.

The second trial was to enter the lightning zone. This was an existence that was even more terrifying than the fire liquid pool from before. It was just that a few people had already climbed out to leave from the start.

And there were only ten of them who were able to last till the end!

"The second test has been passed. It's still considered successful!" This second stage made Chen Xiang uncomfortable, and made him have the thought of leaving, but he still persevered.

Now, everyone can rest for four hours before the final test!

After going through the first two tests, everyone's mental energy was greatly damaged, and even Chen Xiang was feeling dispirited, so these four hours of rest time were too little.

, who was resting with his eyes closed, suddenly smelled a strong stench of blood. When he opened his eyes, he found himself in a grassland filled with corpses, and the people who died, were all his familiar family and friends!

When he saw this, he felt like he was about to collapse!

However, he quickly recovered and knew that he was undergoing the assessment. He immediately took a deep breath and stabilized his mind!

[Chapter 2794](#)

This kind of mental test was still too childish for Chen Xiang. As long as he knew that he was taking the exam, it would be useless against him.

Just as soon as he closed his eyes, the bodies disappeared.

He looked around and found that he was in the same room as before. He was the only one here.

"You've almost passed the assessment, but there's still one more stage to go." An old man walked in. He was in charge of the assessment.

"There's still the final hurdle." Chen Xiang felt a little suspicious: "Isn't there only three stages?"

"Yes, but this stage is rather special. As long as you pass, you can become an inner disciple and enjoy a lot of resources. You don't have to go through hell cultivation like before." The old man said.

Chen Xiang nodded his head: "Then what's the test?"

The old man waved his hand, and someone dragged in an old man tied to a rope and said, "Kill this old man."

"Why did you kill him? What did he do wrong?" Chen Xiang frowned, he looked at the old man who was on his last breath, whose entire body was covered with injuries.

"He is just an ordinary person. Because when he was walking, he accidentally stepped on my foot. I caught him in a fit of anger. As long as you kill him, we will return to the last stage." The old man threw a blade at Chen Xiang.

Chen Xiang picked up his blade, looked at the injured old man, and laughed coldly: "This old uncle only accidentally stepped on you, but you mistreated him like this and even killed him."

Chen Xiang looked at the elder in charge of the assessment, his expression became cold, the long blade in his hand suddenly slashed, aiming straight for the elder's neck.

"I should have killed you." When Chen Xiang's blade touched the old man's neck, a flash passed before his eyes, and he saw the few people who were resting with him just now.

"You passed." There were a lot of disciples that chose to kill the old man just now because the old man is an ordinary person and if we kill him we will become an inner disciple. For those of us who have great

power, killing an ordinary person would just be crushing an ant, so everyone would not hesitate to make a move.

"Although your killing intent is very strong, you do not kill wantonly. This is rather strange."

Chen Xiang shook his head: "Your exam is too easy, especially this kind of test on the soul, it's really easy, I can see through it with one glance."

The elder was speechless. He frowned and said, "Are you really able to see through me?"

Chen Xiang nodded his head: "Yes, for no reason at all, you want me to kill people, it's too sudden, without any preparation, you are right."

"It is a bit fake, but your Fire Essence Pool and Lightning District's assessment is for this third round. After the previous two rounds, your mental pressure must be great, so you will definitely be able to make the fastest decision in the final round ..." Of course, we can also quickly see the good and evil in a person's heart by doing so. "

Chen Xiang thought that this made sense. If it was someone who was addicted to killing, he would have killed the old uncle earlier without hesitation.

"No matter what, you have passed. You are truly powerful, entering the inner sect within ten days of being in the outer sect. Since you are not from Six Gods Stage, it seems that your path of growth is difficult." That elder looked at Chen Xiang with eyes full of praise.

Chen Xiang had passed the inner sect examination and become an inner sect disciple. He came to the summit of the Primal Sky Mountain, where there were many buildings.

"This inner sect is quite easy, but if you want to become strong, it won't be that simple. If you want to live through a cultivation technique or receive guidance, you'll have to pass some tests. Some require earning a large amount of Dao crystal."

Chen Xiang was free to go down the mountain. When he just entered the inner sect, he wanted to find someone to talk to, but he did not expect that there were many disciples who were busy, busy with some of the tasks assigned to them by the Yuan Shi Tao School.

"Now that I am an inner disciple of the Yuan Shi Tao School, I will just hide here if anything happens in the future." Chen Xiang looked at the jade tablet. The only reason he entered Yuan Shi Tao School was to find a place to settle down.

"Let's go down the mountain and take a look, I need to hurry up and find the pills needed to enter Six Gods Stage. In this thousand level, even though Late period of Three profound realm is a common existence, it's still too weak."

Chen Xiang rested for a bit, and just as he was about to leave the courtyard, he suddenly saw a middle-aged man walking towards him.

"Little brother, is that where Chen Xiang lives?" The middle-aged man stopped him and asked.

"I am Chen Xiang. Why are you looking for me?" Chen Xiang looked at the middle-aged man, who seemed to be at the early stage of the Three profound realm.

"You are Chen Xiang ah, I heard about your matters, so I wanted to accept you as my disciple." The middle-aged man laughed: "You are a good sapling. It's only been ten days and you have already entered the inner sect. Yuan Shi Tao School has never had a disciple like you before."

Chen Xiang had thought that this middle aged man was very weak, and did not expect that he would actually want to take him as a disciple.

"Could this guy be hiding his cultivation?" Chen Xiang thought, of course, even if the other party was very strong, he would not think like that, he could level up on his own, and did not need any master.

"Even though I look like a Three profound realm, my strength is very strong." The middle-aged man quickly said, "I am an elder here ... However, let me first explain. I am only an elder in charge of the chores, and not someone as powerful as the Supreme Grand Elder. "

Chen Xiang nodded his head: "I do not have the thought of taking you in as my master, even if it was the Leader who came to take me in, I would have refused, this is not because senior's cultivation level is low."

Really? As long as you don't despise my low cultivation, then it's fine. Since it's like this, then forget it. Although you can't become my disciple, you can at least become my friend. The middle-aged man smiled and patted Chen Xiang's shoulder.

"Of course not, I have nothing to do right now, I don't know how to address you, senior." Chen Xiang asked.

"Lin Jitian." The middle-aged man took out a bottle of wine and said with a smile, "This place is close to where you live, let's go and have a drink there."

"Lin Jitian, do you know Lin Xirong?" Chen Xiang did not ask Lin Xirong's father what his name was back then, but he was sure that his father's surname was Lin.

But when Lin Jitian heard Chen Xiang's question, he was stunned, as though he had been struck by lightning.

"To cherish Rong... You know her from. It came up from below. " Lin Jitian stared blankly at Chen Xiang for a good long while before he asked.

"So you're her father." Chen Xiang was also surprised, he had initially thought that finding Lin Xirong's father would be rather difficult, but he never expected that it would actually happen so easily.

"Tell me inside." Lin Jitian immediately let Chen Xiang bring him to the house.

[Chapter 2795](#)

Lin Jitian had been here for many years, and when he first came up by himself, he did not expect that he would be able to come to the Divine Wasteland alive.

After that, he explored the Divine Wasteland for a long time by himself, and found the entrance to the Flying Dragon Pagoda in the end.

"Sigh, I am truly sorry for abusing Rong. Back then, I was truly heartless and abandoned her just like that." Lin Jitian heaved a long sigh, his face full of guilt.

"She's having a good time." Although Chen Xiang had a grudge with him before, they became friends in the end. Now, Lin Xirong's personality was much better, and he got along well with the other girls in the Hundreds of Flowers Village.

"That's good, that's good."

Lin Jitian took a sip of his wine. He didn't ask Chen Xiang what their relationship was, but he could tell that Chen Xiang had treated Lin Xirong well, otherwise he wouldn't have come here to help Lin Xirong look for his father.

"I will have a chance to see her in the future." Chen Xiang laughed: "Uncle, don't tell me your cultivation has always been like this, it shouldn't be. No matter what, you are a former Primitive Supreme Lord, and have a certain level of foundation."

"I was originally a Tai Zun realm cultivator, but my luck was bad. After entering the Myriad Tao Mausoleum, I got injured, and then that happened." Lin Jitian's face was filled with helplessness as his strength regressed. This was indeed an extremely tragic thing.

When Chen Xiang found out that Lin Jitian had been to the Myriad Tao Mausoleum, he immediately took out the righteous Law beads, but it did not have any reaction, causing him to heave a sigh of relief.

"Justice Law beads." Lin Jitian suddenly laughed: "Looks like you've also encountered that kind of thing before."

"This... Please forgive me, Uncle." Chen Xiang did not expect Lin Jitian to actually know about the affairs of the Evil Soul.

"It's fine, I can completely understand. When those guys from the Myriad Tao Mausoleum came back, many of them did indeed get pushed over by the Evil Soul, and some even carried the Supreme Lord's cultivation." Lin Jitian laughed out loud. "Back then, when an elder of the clan's supreme level came out from the Myriad Tao Mausoleum and infected the entire Evil Soul, the last sect was extremely unfortunate."

"Uncle, is the Myriad Tao Mausoleum really so scary?" Chen Xiang was very curious about the Myriad Tao Mausoleum. Adding to the fact that he had previously eaten the Myriad Tao Divine Tablets Formation, he saw an image of the Myriad Tao Mausoleum.

Don't you see that the Yuan Shi Tao School is empty? Those inner disciples went all out in their cultivation, and before they could enter the Myriad Tao Mausoleum, they had already stepped into the Six Gods Stage. Lin Jitian said: "With your current cultivation, you will not be able to go, even the worst is at the early stages of Six Gods Stage."

"I know, that's why I need to find a way to increase my cultivation." Chen Xiang needed to level up even more now, he never thought that he would be preparing to enter Myriad Tao Mausoleum.

If you can step into the Six Gods Stage before you enter, then I'll follow you. I'm pretty familiar with the inside, and I've even picked up some good stuff before. Lin Jitian said as he took out a black pole: "This item is called the Six Legged Divine Rod."

"God stick, this name doesn't sound too strong." Chen Xiang couldn't help but laugh.

"Don't laugh, this thing is very strong. Back then, I was able to beat that Supreme Elder of the Azure Dragon School into a dog." Lin Jitian chuckled: "Even though I am currently a Three profound realm, as long as I recover, I will be able to regain my new strength."

"So it's like that, what do you mean by beating me up into a dog?" Chen Xiang was very curious about the power of the six divine rods.

"One swing of the rod. If the hit is accurate, that fellow will die immediately. Then, the dog will be reincarnated into the animal path." Lin Jitian laughed: "Impressive, of course, you can also turn others into pigs or something. But the most important thing is that guy still has his memories, but he himself became a beast."

"So vicious, but I like it." Chen Xiang exclaimed.

"Hehe, beating people up is fine, but those Evil Soul are most afraid of this rod of mine. If they were to be hit by it, I can immediately turn them into pigs and dogs." Lin Jitian's face was full of arrogance as he laughed: "When the time comes, I'll bring you in and guarantee your safety."

"Uncle, you have such a powerful weapon, why are you injured?" Chen Xiang was very suspicious about this: "What other powerful things is there in Myriad Tao Mausoleum?"

"I was injured by someone. Someone tried to use this stick of mine, and it was a few very strong guys who tried to attack me at the same time." Speaking of this, Lin Jitian's face was filled with indignation.

Chen Xiang thought for a moment, then said: Don't tell me that it was done by someone Uncle is familiar with, that normally speaking, if you are not a familiar person, it would be difficult for him to injure you, but if you are surrounded by experts, even if Uncle cannot beat them, it would not be a problem for you to escape, because if the opponent lets you escape, I'm afraid that you can still kill Uncle.

"Smart." Lin Jitian praised them, "Those fellows weren't as strong as me, and in the end, they were beaten into pigs by me, then killed by them. I will only tell you this, because at that time, I was in the same squad as them, and they saw me picking up this rod, and used it to beat up many fellows into dogs, cows, sheep, and pigs.

"The Yuan Shi Tao School actually has such a person. I thought this place was safe before this." Chen Xiang took a deep breath.

"They're not from the Yuan Shi Tao School, they're from the Six Great Divine Sects s. You might not have heard that there are four stronger sects hidden within this thousand floor, and once they become Four Great Divine Sects, they will all be able to grasp a portion of the Four Great Divine Arts. For example, the one behind the Yuan Shi Tao School is the Six Great Divine Sects s who cultivate the Six Realms magic kungfu."

"Then there's the Heavenly Alchemy Divine Sect. This one cultivates the Heavenly Alchemy, it's very mysterious, I don't know which sect he's in charge of, then there's the Heaven's Mandate Divine Sects, then there's the one who cultivates the Heavenly spirit kunfu, and lastly there's the one who cultivates the God Murdering Sword Techniques."

"There is actually such a power." Chen Xiang had indeed not heard of them before, but he was certain that these four Divine Sects were very powerful.

"Every time I enter the Myriad Tao Mausoleum, this Four Great Divine Sects will participate because this Four Great Divine Sects was the one that was built. They have a detailed map of the place, and after I killed those guys that plotted against me, I got the map." Lin Jitian said in a low voice.

Because Chen Xiang knew Lin Xirong and even helped Lin Xirong come here to find him, Lin Jitian was very close to him. That was why he told Chen Xiang such a secret.

Lin Jitian actually had a map of the Myriad Tao Mausoleum, this made Chen Xiang extremely excited, he wanted to go there and take a look.

"Uncle, what is the relationship between Myriad Tao Divine Tablets Formation and Myriad Tao Mausoleum?" Chen Xiang had always been suspicious of this, even though he could guess one thing.

"Myriad Tao Divine Tablets Formation is the person who turned the key into the key, but no one knows how to turn it into the key, so after a while, everyone thought that it was a legend. However, from the few guys who plotted against me, I found out that only Heavenly Alchemy Divine Sect knows how to turn the key into the key, and of course, the key is not only to open the door to Myriad Tao Mausoleum, but also to open many tombs inside."

[Chapter 2796](#)

Lin Jitian had a rather good understanding of the Myriad Tao Mausoleum. First, he had the map of the Myriad Tao Mausoleum in his hands, which was extremely important.

"Although I have a map, I don't have a key. There are places that require a key to pass through. That way, it would be safer." Lin Jitian sighed: "It's a pity that there aren't many keys, when we first went in, there were very few keys, and only the Four Great Divine Sects had them, but it's very big inside, we were split into groups to explore around, and were unable to stay with those Leaders."

Chen Xiang did not tell Lin Jitian that he had the key to the Myriad Tao Mausoleum.

"Uncle, is there any powerful Alchemist in this Yuan Shi Tao School?" Chen Xiang asked: "I want to learn pill refining."

Chen Xiang only wanted to learn how to refine pills that were useful to Six Gods Stage. He felt that Yuan Shi Tao School must have this kind of Alchemist, it was just that it was not easy to see.

"The Alchemist in this Yuan Shi Tao School are all rather special existences. Although they are all part of the Yuan Shi Tao School, other than the Leaders, no one else can control them." Lin Jitian did not expect Chen Xiang to actually want to learn alchemy: "I advise you to not learn alchemy in Yuan Shi Tao School."

"Why not?" Chen Xiang could already see something from Lin Jitian's expression.

"There is a Super Origin Dan Hall in the Yuan Shi Tao School, and this Yuan Shi Tao School is an independent existence. Other than the Leader, no one else can control them. If you want to learn alchemy, you have to go to the Super Origin Dan Hall."

Lin Jitian sighed: "Everywhere in Yuan Shi Tao School is good, so it can be considered fair, but only the Super Origin Dan Hall is very dark. Although the Alchemist inside is pretty strong, there are many dark curtains inside, and other people don't know, but I have been in the Yuan Shi Tao School for a long time, so I am more clear on the situation inside."

"Is the Alchemist inside really that skilled? Is there any way to learn something from it, such as a pill formula?" Chen Xiang asked, he was helpless against the pills that could help him break through to Six Gods Stage, and had no direction to go.

"If the Alchemist's Alchemist doesn't have a certain level of cultivation, then he would have disappeared from the Yuan Shi Tao School long ago. The Yuan Shi Tao School only turning a blind eye to the Super Origin Dan Hall was also because the Super Origin Dan Hall's here truly do have a decent level of cultivation." Lin Jitian said: "If you aren't afraid of hardships, then you can give it a try."

"Then how do we enter the Super Origin Dan Hall?" Chen Xiang had already decided to go in and look for some precious pill formulas.

This thousand floor also required a lot of pills, which could be seen from the special position Super Origin Dan Hall had in the Yuan Shi Tao School.

"I don't know anyone in the Super Origin Dan Hall. Furthermore, my current strength has regressed, so it's very difficult for you to live a good life in the Super Origin Dan Hall. You can only use the most basic method to enter." Lin Jitian took out a Storage bag and said: "First, we have to give them a billion entrance fee. There's a billion in there, take it."

Lin Jitian felt that Chen Xiang didn't have a one billion Dao crystal, so he gave it to Chen Xiang as a gift.

Seeing Lin Jitian like this, Chen Xiang knew that Lin Jitian should not be lacking any Dao crystal, but he did not have much on hand, so he took it.

"Thank you, uncle." Chen Xiang was quite touched. Not long after knowing him, Lin Jitian had given him so many Dao crystal.

Those guys will arrange for you to join the Super Origin Dan Hall as soon as they see that you have Dao crystal. As for the inner sect disciples, I will help you greet the inner sect elders. "" Yes, elder. Lin Jitian scratched Chen Xiang's head and laughed: "Seems like I need to work hard to recover my strength, so that you won't be bullied in the future. I need to go into closed door cultivation for a period of time, when I'm out of closed door cultivation, I will come to Super Origin Dan Hall to find you."

"Yes." Chen Xiang hurriedly nodded, then Lin Jitian told him the way to the Super Origin Dan Hall. Just like this, they parted after a short meeting.

... ..

The Super Origin Dan Hall was located on the edge of the Primal Sky Mountain and was a very small villa. After all, there weren't many people inside.

Chen Xiang was confident in his abilities and techniques, so even if he knew that it was dark inside, he was not worried.

Because he had the entry fee for the one billion Dao crystal, Chen Xiang successfully obtained the qualifications to enter the Super Origin Dan Hall, and also obtained a jade plate.

From today onwards, you are a member of the Super Origin Dan Hall, you are at least a Late period of Three profound realm. If you want to learn the skills to refine pills, you have to start from the most basic of tasks. An elder who was in charge of receiving the guests brought Chen Xiang to a medicinal field in the Villa.

When Chen Xiang saw these medicinal ingredients, he immediately knew that they were all high-grade Heavenly God medicine. Generally speaking, it had some effect on Three profound realm.

"You are in charge of taking care of the herbs here. Remember, if anyone comes here and doesn't show the Golden Jade Token, you must not let them pick the herbs. If they force you, just break this bead." The old man said, "Taking care of the herb fields is a very difficult task. Don't think that this is a very poor job."

Chen Xiang took the pearl, nodded his head, and walked away while brimming with emotions.

"There should be quite a number of medicinal fields here. Right now, I only have three acres of land to take care of. It can be considered relatively small." Chen Xiang looked at the herbs inside carefully and took out a notebook.

"Three kinds of flowers. Three acres of land with different kinds of flowers. 1000 flowers per mu. Let me count and see ..." Chen Xiang released his divine sense to count it out, then nodded his head.

"I don't know what kind of medicinal herb this is, but it should be of some use. If I copy it, no one will notice." Chen Xiang looked at his surroundings, then used teleportation to move three of them into his own You Yao Mountain Villa to make a copy. After duplicating them, he moved them back.

"This really is a good job." Although he did not know what the uses of the three flowers were, he was sure that they were relatively more valuable. Otherwise, he would not have warned him so repeatedly.

Chen Xiang still needed to use his Dao Energy to infiltrate the well every day so that the water in the well would contain even more Dao Energy and water the medicinal field.

Just like this, a few days had passed. This matter was relatively easy for Chen Xiang, but he didn't know when he would be able to obtain those precious pill formulas.

Suddenly, someone entered the medicinal field. It was two young men. One of them was a man in dazzling golden clothes. The other one was dressed in ordinary clothes and looked like a lackey.

"Who are you? What do you want?" Chen Xiang anxiously shouted, his voice was stern, because the two of them seemed to be sneaking around.

"We're here to pick the herbs." The golden robed man looked coldly at Chen Xiang.

"Where's the Golden Jade Token? You don't have the Golden Jade Token, you are not allowed to pick it. Please show it to us." Chen Xiang said. The two of them were Late period of Three profound realm s, but

judging from their postures, they should be the more tyrannical kind. These kind of people usually had a backer.

"I want to take the medicinal ingredients. Do you know who I am?" When the golden robed man heard Chen Xiang's question, he was immediately enraged and glared at Chen Xiang.

[Chapter 2797](#)

Encountering such a thing also caught Chen Xiang by surprise. Judging from his arrogant attitude, this golden-robed man definitely had a good background.

But if he was allowed to pick the herbs like this, wouldn't he be taking the blame then?

Chen Xiang took out a bead, and said: "Earlier, an elder told me, if there is someone who wants to forcefully pick the herbs, let me crush this bead!"

"You ... "Ignorant fellow, you must have just arrived!" The follower behind the golden robed man immediately sneered: "The young master in front of you is the son of the third hall master of the Super Origin Dan Hall, Yu Haorui. He came to pick the medicinal ingredients, and he doesn't need any of the Golden Jade Medallions."

"I don't care who he is! I only recognize the Golden Jade Token, if you guys are truly capable, getting the Golden Jade Token will not be a problem, right?!" Chen Xiang did not believe him, he felt that these two were here because they recognized him as a newcomer, so they wanted to take advantage of him.

If the other party came to pick the jade token when they didn't have any, they would investigate and if they refused to admit to it, then they would make him take the blame. This small trick was easily seen through.

"Alright, remember this. I must let you have a good look." Yu Haorui was full of anger, he snorted, and left.

Chen Xiang heaved a sigh of relief, shook his head and sighed: "As expected, it's as Uncle Lin said, the environment inside is not very good! As long as I can obtain the pill formula, I'll leave immediately! "

With the recipe, he would be able to break free. The novel ybdu. If he broke through to Six Gods Stage, then he could become a true disciple, and wouldn't have to suffer these retards anymore.

At night, an elder came to this place.

"Elder, it's so late. What's the matter?" Chen Xiang asked. At the beginning, he had guessed that the Elders Guild would talk about Yu Haorui, but the Elders did not.

"These herbs are almost ripe. Pick them up tonight. As long as the flowers don't hurt the stem, I'll wait for you inside." The elder took out a Golden Jade Token and entered the room.

Chen Xiang immediately went to pick the flowers planted on the three acres of land.

"That's right, leave it for the night in the basement. Tomorrow, we will begin to organize and refine it." The elder nodded in satisfaction and pointed to the entrance to the basement.

When Chen Xiang came up, the elder said: "You were tired just now, go rest. I'll stay here and watch."

Chen Xiang, on the other hand, was not tired. These matters were all trivial to him, but he still needed to rest, and then, he returned to his room.

In the middle of the night, he suddenly sensed that something was wrong. He jumped up from the bed and hastily headed to the larger room next to the herb field.

"Where did this guy go?" Didn't you say that you need to stay the night? " Chen Xiang suddenly felt that something was amiss. He immediately entered the basement and saw that the three thousand flowers were all gone.

"We've been tricked!" "Damn old bastard!" Chen Xiang angrily struck the wall with his palm. Not long after he entered, he was already tricked.

If that elder said that he was taking all the flowers, he wouldn't be able to explain it.

"Do we have to help this bastard take the blame?" Good... Since you dare to harm me, Chen Xiang, then I will not be merciful, and will return it back to you a hundred times, a thousand times over. "

Chen Xiang's heart suddenly became gloomy and cold. Although these flowers were all high-grade Heavenly God medicine, they were easy to plant, he had a lot of them in the You Yao Mountain Villa, he immediately plucked them and placed them in the basement, then quickly walked up.

Daybreak, that elder came, and he even brought Yu Haorui, the hall master's son over!

Seeing the two of them together, Chen Xiang understood even more. So these two had colluded with him to plot against him.

Behind them was an old man with long, straight white hair. This old man seemed to be filled with righteousness, and there was even a faint medicinal fragrance coming from him.

"Master Wang, the Sansu flowers you want is in the basement!" When the elder spoke, he was very respectful to the old man.

However, Chen Xiang had already seen through all of this, and remembered what happened just now. The arrogant Yu Haorui was laughing at him, the elder was extremely calm, as though nothing had happened.

"Good, good, good. This Sansu flowers is the main ingredient to concoct the Spirit-Restoring Pill. Its healing effect is very good." That Master Wang laughed and said, "After waiting for three years, I have finally matured!"

"Master Wang, for the past three years, these Sansu flowers have been under the care of this Chen Xiang fellow, and he has taken good care of them." The elder pointed at Chen Xiang and laughed, this was to let the Master Wang know that was in charge of all the Sansu flowers, at that time, it would be even easier for him to bite Chen Xiang.

"If it's really good, then I will definitely get a reward!" Master Wang looked down and nodded with a smile.

Chen Xiang harrumphed in his heart, then followed them into the basement.

The elder opened the door and entered. When he saw that the place was filled with Sansu flowers, he was stunned.

Yu Haorui was also the same, because he and this elder had already overnight kept the Sansu flowers in their pockets, and then shifted the blame to Chen Xiang, making Chen Xiang take the blame. At that time, Chen Xiang would be punished, but they would be able to sell off a large number of Sansu flowers.

"Not bad, you planted well!" Master Wang was extremely happy. With a wave of his sleeve, he took care of the Sansu flowers, then smiled as he said, "Little guy, you took care of all the Sansu flowers, right? I have never seen such a good Sansu flowers, you use your talent in this area! "

The elder and Yu Haorui were both stunned. They did not know how Chen Xiang suddenly produced so many Sansu flowers, and the quality was so good too.

"Reporting to Master Wang, these are all grown by this brat!" Chen Xiang immediately nodded his head, since that elder had said that he was under Chen Xiang's care for the past three years, even though he had only been here for a few days.

"Alright, alright, alright. Come with me from now on! I also have some medicinal fields to take care of, let's go! " Master Wang was a very cheerful old man. He always had a smile on his face, and now he was even happier.

Chen Xiang also never thought that it would be such a result.

"Then I ask Master Wang to take good care of me in the future!" Chen Xiang was also very happy. He then looked at the elder and smiled, "Thank you elder for taking good care of me these past three years. I will remember all the good things you have done.

With that, Chen Xiang followed Master Wang and left the basement!

Yu Haorui watched as Chen Xiang and the Master Wang left with a cold expression on his face, "What's going on!?! This guy who makes people feel so disgusted is actually able to follow by Master Wang's side. My father had recommended it many times to Master Wang, and wished that I would be able to follow by his side. However, I never succeeded! "

"This newbie actually stayed by Master Wang's side just like that? Right, what exactly are those Sansu flowers? We were the ones who took them away! "

[Chapter 2798](#)

The quality of the Sansu flowers that Chen Xiang had cultivated with the World God's Spring was indeed very good. Master Wang could tell with a single glance that the powerful Alchemist attached great importance to the quality of the medicinal ingredients.

"The Sansu flowers is still here!" The elder took out a few Sansu flowers and frowned: "This brat must have a lot of them. This guy is very mysterious, you should pay more attention to him!"

"Oh right, don't tell your father about this. If he finds out that our scheme involves the Master Wang, neither of us will get away scot-free." The elder said solemnly.

Yu Haorui nodded: "I understand!"

... ..

Chen Xiang followed Master Wang to a very quiet place. This was a very big courtyard with only a few mansions, the rest were herb fields.

"These medicinal ingredients are all relatively precious, especially those two medicinal fields over there. The medicinal ingredients in them are all supreme divine medicines!" The Master Wang pointed to the two golden colored dirt fields and said: "These are all heaven's divine medicines, although they are only of high quality, most of them are relatively rare! As for the more common ones, I will let others plant them! "

Chen Xiang looked at those medicinal herbs, and his heart was already blooming with joy.

"Master Wang, little brat Chen Xiang has also learned how to refine pills before, I hope master can give me some pointers in the future." Chen Xiang immediately said.

"This is good too, since you can make the Sansu flowers be so good, it means that your mental state is not bad! "If there's any difficulty in refining pills, come find me." Master Wang was very easy to talk to, as he smiled and nodded.

Chen Xiang now understood the situation of the Super Origin Dan Hall, these Pill Refiners were the most authoritative people here, it could be seen from how the arrogant Yu Haorui treated the Master Wang.

"That brat will thank the Master Wang first!" Chen Xiang said: "Right now, this punk is going to take care of the Master Wang's medicinal herbs."

Regarding the cultivation of medicinal herbs, even if Chen Xiang did not use the Creation God's Spring, he would still grow them well. For example, he would use the special Primitive Tao Power to condense a year old right now, and then rain down on those medicinal fields.

When Master Wang saw the Sansu flowers, he was pleasantly surprised and said, "Chen Xiang, the Dao Energy you use contains a very strong life force. No wonder the medicinal ingredients you plant are so good."

"Really? "I didn't know that there was such a life force in my Dao!" Chen Xiang said, he pretended not to know, because this kind of life force was not something that just anyone could have.

"I'm not surprised. Some people are born with some sort of special Dao meridian!" If these herbs were to be watered by you for a period of time, the quality would surely soar! Why didn't I meet you earlier? " Master Wang's face was full of joy. At this time, he also liked Chen Xiang a lot.

After the watering was done, Chen Xiang came over to help the Master Wang deal with the Sansu flowers.

"Master Wang, I have been stuck at the Late period of Three profound realm and have been unable to break through. Is there any pills that can help me break through to Six Gods Stage?" Chen Xiang boldly asked.

"Yes!" Six-gods Guiyuan Dan! The ingredients needed to concoct this kind of pill are extremely rare. I only have four pills with me, so I still need two more. " The Master Wang sighed: "Although this is only a

high-grade Heavenly Dao medicine, it is more difficult to find! "And the difficulty level of the refining process is also quite high."

"What medicinal herbs are they?" Chen Xiang asked anxiously.

"The Five Elemental Dew Fruits are one of the five, but I only have four of the Five Elemental Dew Fruits. Besides the Goldsoul Dew Fruit, the rest are in this herb field!" Other than the five Five Elements Dew Fruits, the last one is the Spirit Returning Purple Bamboo. " Master Wang said: "If you can find these two, I am willing to refine a batch of Six-gods Guiyuan Dan for you!"

"Where do I need to go?" Chen Xiang didn't have a clue when he broke through the Six Gods Stage.

Master Wang shook his head. "I'm not sure where I can find it, but there's a huge possibility that the location of these two herbs would be in the Taichang Forest, which is very close to Heavenly Alchemy Divine Sect. There are all kinds of strange flowers and herbs in the Taichang Forest."

"Elder Wang, do you mean that we can find it inside?" Wouldn't Taishang Forest be very dangerous then? " Chen Xiang was very familiar with this kind of place. There were all sorts of strange flowers and plants here, and it was impossible for there to be no danger.

"Indeed! But you don't need to go in yourself, just buy them with enough Dao crystal. Generally speaking, these two medicinal ingredients are only worth a hundred million Dao crystal, you can use fifty million to buy one. " Although the Master Wang was only concocting pills, he knew the rules for entering the Super Origin Dan Hall. Chen Xiang would definitely be relatively wealthy if he was able to take out a billion pills.

Seeing Chen Xiang being so anxious, Master Wang laughed: "You don't really want to go right? Actually, there was no need to be too anxious! How about this, you first learn how to make Natural Law Dan that can hit high rank, then come with me to participate in a pill gathering, maybe we can get there! "

Chen Xiang knew that there were not many high ranked Natural Law Dan that could be refined, so being able to learn it was a good opportunity.

"Alright, then I'll be troubling Elder Wang." Chen Xiang said, he also wanted to see the level of Alchemist in the thousand floors.

After they had arranged the Sansu flowers, Master Wang took out a pill furnace and began to explain the characteristics of the three types of flowers, as well as some of the changes that needed to be noted during the refining process. Chen Xiang listened attentively, and although his pill techniques were different, these were all very useful things.

After Master Wang finished his detailed explanation, he began to refine the pill. He placed the three Sansu flowers into the pill furnace, and had Chen Xiang pay attention to the temperature changes in the furnace, as well as the reaction of the Sansu flowers.

The Master Wang patiently guided Chen Xiang, but he did not tell Chen Xiang about his pill techniques. After all, Chen Xiang was not his disciple, and he also knew that Chen Xiang had his own pill techniques.

Therefore, he only needed to tell Chen Xiang about the changes in the medicinal ingredients as well as the various reactions and changes that would occur during the refining process.

In less than an hour, Master Wang had already opened the pill furnace. He took out four bright red pellets and laughed: "This is the Eternal Spirits Pill, it can quickly recover injuries and is extremely useful for cultivators of the Three profound realm. It can instantly regenerate bones and flesh, and replenish blood and Qi, it is a cheap and extremely effective Natural Law Dan."

The Master Wang's pill techniques were extremely brilliant, he had refined four pills in such a short period of time, and more importantly, in order to guide Chen Xiang, he had slowed down his speed.

"To be able to refine one pill in one furnace is to pass. To refine two pills is to be outstanding. To refine three pills is to be considered a genius. To refine four pills just like me is to become a master!" The Master Wang laughed and said: "You keep them. Maybe we can use them in the future. This is not expensive either."

Afterwards, Chen Xiang went to refine it himself. He had already accumulated a lot of experience in refining Natural Law Dan, the Tianhun gold Dan that he refined previously was one that he could do so on his own.

However, he found it rather difficult to concoct these kinds of Spirit-Returning Pill, which resulted in him being able to refine only two pills in a batch!

"Not bad, not bad!" "One furnace and two pills, even if the quality is high, you should be a genius now. In the future, you will have no problem refining three pills." Chen Xiang had surprised the Master Wang yet again.

"Okay, I will refine all these Sansu flowers for you. I will first help Leader refine a batch of pills, it might take a few days." Master Wang patted Chen Xiang's shoulders before disappearing without a trace.

[Chapter 2799](#)

Chen Xiang looked at the many Sansu flowers here, and suddenly understood that the Master Wang only asked him to help concoct pills, in this way, he could save a lot of trouble.

"This old fox!" Chen Xiang shook his head and sighed, the only thing he could do was to refine them, since this Master Wang was pretty good, if he could find the other two Six-gods Guiyuan Dan s, he would be able to obtain them very quickly.

Chen Xiang did not try to refine it quickly. If he were to use the Heavenly Alchemy Dao line, he would be able to do it much faster than before, but Master Wang would definitely suspect it. After all, the Heavenly Alchemy Dao line was still an astonishing thing.

"Refining a cauldron in an hour shouldn't be a problem!" Chen Xiang did not know how long he would have to concoct it, in short, it would take him a long time, since he would need to concoct a thousand batches.

Very quickly, a few days had passed, and Chen Xiang had only refined seventy batches of Sansu flowers, if he wanted to completely refine all of them, he would need a few months!

Chen Xiang originally thought that the Master Wang would leave all of the work to him, he never expected the Master Wang to suddenly come out.

"How many batches have been forged?" Master Wang looked at the Sansu flowers, and asked as there were fewer of them.

"70 batches, all of them are here." Chen Xiang pointed to a jade box at the side.

"Quite fast! "Good, good, good!" Master Wang was very satisfied, then he said, "I will first give the pill that I have just refined to Leader. I will return later with [BenThe novel ybdu. If you refine them together, these pills will be rewarded to some inner disciples. "

"Alright!" Chen Xiang nodded, then continued to seriously refine pills.

Not long after Master Wang left, someone knocked on the door of the courtyard loudly.

"Who is it?" Although I have been here for a few days, I am still unfamiliar with the people here. Could it be that Yu Haorui and the elder are looking for me here? " Chen Xiang originally did not plan to open the door, but a shout came from outside.

"Elder Wang, open the door!" You can't go back on your word, and said that you would have a contest today. Could it be that you are afraid of me, and are now a cowering tortoise? " This voice was filled with anger, because he had been continuously knocking on the door for quite some time now. It did not feel good to be shut out.

"So you're looking for a fight with Elder Wang, not looking for trouble with me." Chen Xiang anxiously walked over to open the door, and saw more than ten people outside, among them were Yu Haorui and the elder who had tricked him before.

"Master Wang has gone to deliver the pills to Leader. He will only be back after a while." Chen Xiang said: "Everyone, please come in!"

"Humph!" You were in there all along? " Yu Haorui suddenly became angry: "Knocking on the door for so long, did you not hear it? Letting Elder Chen wait outside for so long, this is a great disrespect, a capital offense! "

Quickly take this little thing down, he is just a little servant helping the Master Wang grow medicinal herbs, catch him and beat him up three hundred times. The elder who tricked Chen Xiang shouted.

He was also a white-haired old man wearing a black robe and when he saw that someone was going to take down Chen Xiang, he immediately said: "Stop, how can you casually touch Elder Wang's people? Don't you know this guy's temper? If this little fellow is able to keep Elder Wang here to grow medicinal herbs, then it must have some exceptional qualities. If you anger Elder Wang, then you all must bear the consequences. "

Elder Chen's words scared the two of them and caused them to shiver. They were too jealous of Chen Xiang, so when they saw Chen Xiang just now, they had such a good opportunity to teach him a lesson.

Old Chen and the rest of the ten entered the courtyard and saw the Sansu flowers and a pill furnace.

"This pill furnace is still warm. Has Elder Wang just left? But this is not Elder Wang's pill furnace! " That Elder Chen touched Chen Xiang's pill furnace and felt a sense of warmth.

"This is my furnace. I was too engrossed in concocting the Spirit-Restoring Pill just now that I didn't hear Master Chen's words. Please forgive me." Chen Xiang immediately said.

Elder Chen and more than a dozen other people were stunned. This brat in front of them actually knew how to refine the Spirit-Restoring Pill! This made them somewhat unable to believe it, because on the way here, Yu Haorui had told them that the Master Wang had just received a kid who grew medicinal ingredients!

Yu Haorui and the little elder knew that Chen Xiang had only just arrived and actually knew how to refine pills. This made them feel more and more that Chen Xiang was evil, especially regarding the three thousand Sansu flowers from before!

Elder Chen saw a jade box and hurriedly walked over to open it. A thick medicinal fragrance wafted out, and inside the box, there were about two hundred pills. It was obvious that they were of decent quality.

"You refined all of this?" Elder Chen could not believe it, because he knew how rare it was to be able to concoct such a high quality pill.

"It is indeed the clumsy pill that this young man refined. Master Chen, please give me a few pointers." Chen Xiang immediately said respectfully.

"Awkward my ass, giving me pointers my ass!" Elder Chen inwardly exclaimed a few words, but he did not say it out loud.

Elder Chen nodded his head, "This is already not bad! Right, how many pills can you refine in one furnace? "

"Only two pills. Master Wang can refine four, but the difference between us is too great, I can't even catch up to him!" Chen Xiang sighed.

"Two pills is already excellent, you don't have to be too modest. Elder Wang having a disciple like you also makes me envious." Elder Chen knew that Chen Xiang's talent was not bad.

"This kid is not Elder Wang's disciple!" Chen Xiang said, "But Elder Wang is actually very generous, he personally taught me how to refine the Spirit-Returning Pill."

Yu Haorui said in a low voice: "You can refine the Sapphire Divine Pill? Moreover, there was even a pot of two pills. This was truly unbelievable, as they might even be refined by the Master Wang! "Don't be fooled by this brat's pretentious appearance."

"What I just said is the truth." Chen Xiang said.

Hearing Yu Haorui say that, Elder Chen became suspicious, Chen Xiang was truly too excellent, the quality of the Restoration Spirit Pill he refined was not bad, being able to stand shoulder to shoulder with him, no matter how he looked at it, it seemed to be something Elder Wang refined.

In this Super Origin Dan Hall, to be able to refine such a good Inheritance Pill, he had to at least be a Six Gods Stage cultivator. But the Chen Xiang in front of him, was just a Late period of Three profound realm, this was indeed a big point!

"I came here to fulfill my promise. Previously, the better I was with Elder Wang, we wanted to have a spar here, mainly on pill refining! Since this is the Sapphire Divine Pill that Elder Wang instructed you to refine, why don't we have a competition? Of course, it's my disciple who will compete with you." Elder Chen said.

He secretly hoped in his heart that Chen Xiang would agree to it, because once his disciple won, he would be able to cause a ruckus here and say that the disciple that Elder Wang had pointed out was inferior to his Yun Yun.

Even though Chen Xiang looked young, he was definitely an old cunning fox. How could he not see through the other party's intentions?

"Master Chen's disciple must be stronger than the little brat, there is no need to compete to know," Chen Xiang immediately said, pretending to be flattered.

"You are too modest. For you to be able to concoct such a high level of Spirit-Returning Pill, you already possess the power to compete with my disciple." Elder Chen chuckled.

Chen Xiang knew that this kind of old fellow had the best face. If his disciple were to win against Master Wang, he would definitely feel very proud, and would even ruthlessly scold Master Wang.

Chen Xiang could not agree to something like that without permission, if he lost, it would make the Master Wang extremely embarrassed. Although he had the confidence of winning, he would not be so reckless.

Chen Xiang only shook his head and said: "Everyone, please come in. Master Wang will be back soon."

Yu Haorui laughed coldly: "You are not willing to compete, right? So you were lying to us just now. You, you actually dared to lie to Master Chen! "

"I am not lying, wait for Master Wang to come back first. If Master Wang is unable to prove me, then I will do whatever you want." Chen Xiang knew that Yu Haorui was provoking 'him with just one look, but he would not be fooled.

This also caused Yu Haorui to be even more enraged in his heart, and made him feel that there was a huge gap between him and Chen Xiang. Furthermore, he was the son of a hall master, and actually couldn't compare to this fellow who had just entered the Super Origin Dan Hall.

On the contrary, because of the matter of the Three Elements Flower, Chen Xiang had been able to soar to greatness, and even received guidance from the Master Wang when he came to this place of the Master Wang.

After Chen Xiang invited everyone into the hall, Elder Chen was still unwilling to give up. He wanted to have Chen Xiang compete with his disciple in pill refining, but Chen Xiang refused, saying that he had to get permission from the Master Wang.

Very quickly, the Master Wang returned. After arriving in the hall, he roughly guessed what was going on.

"Old Wang, this brat is truly cowardly. I asked him to have a match with my disciple to concoct a batch of pills, yet he dilly-dally." Elder Chen laughed, "It's good that you are back now. Look... Should we let the younger generation compete once? "

Master Wang immediately nodded his head: "That is no problem, the Large Competition between us is very damaging, letting the younger generation compete with us is actually not a bad idea! Chen Xiang, go and compete with him. You have to be confident in yourself. "

Since the Master Wang had already said so, everyone now believed that Chen Xiang was the one who concocted all the Spirit-Returning Pill!

He was a genius that could concoct this kind of Innate Divine Pill. If it were to expand in the future, he would definitely become a great master here, and would have a very high position like Old Master Wang Chen.

Yu Haorui clenched his fists tightly, and hatred filled his heart. If Chen Xiang could become a master, then he would definitely step on him in the future, and he absolutely could not allow this to happen, because he had once offended Chen Xiang. If Chen Xiang became a master, then would definitely not let him off.

"Alright Master Wang. Just do your best to win." Chen Xiang had wanted to compete before, but he had to get the approval of the Master Wang.

"Alright, then let's decide the rules of the competition first! After all, this is a very important competition. It represents the battle between me and Elder Wang. " Elder Chen said, "The people I've brought here today are all here as proof!"

Amongst the people that Elder Chen had brought, some of them were not bad, while the others were neutral. Although they were not masters in the Super Origin Dan Hall, they were still clan elders who specialized in handling the matters in the hall.

"First, draw the flames you want to use from the Flame Bead! "The pill furnaces used are all ordinary ones. This way, they can suppress some violent and extreme pill techniques. These pill techniques are very unfair." Elder Chen said.

Chen Xiang frowned. The so called berserk and extreme pill techniques sounded like Crash method s, because that was exactly the case for Crash method s.

This time round, he did not use his own furnace, nor did he use his own flame. There was still a huge restriction placed on his furnace, which was quite difficult.

To Chen Xiang, being unable to use his own furnace was nothing, and it was not difficult at all. However, being unable to use his own flame was an unprecedented challenge, especially in this kind of showdown.

"Alright!" Master Wang nodded his head, took out his Fire Pearl and said: "Everyone can only use one Fire Pearl!"

One Fire Pearl! Chen Xiang was secretly shocked, just how many flames were there!

"One fire pearl is enough to concoct the Soothing Spirit Pill. If it can't be refined with one fire bead, it means that its quality isn't good enough." Elder Chen nodded his head and took out a fire bead to fill it up.

Chen Xiang had participated in many of pill refining competitions, but this was his first time encountering such a rule!

With such a huge restriction on the flames, he would not be able to use the Crash method.

Very quickly, the two grandmasters filled up the fire balls and then placed them together in a box. At this moment, no one knew who created these two fire balls, and this was to avoid the possibility of the other party faking it.

The first one he pulled out was Chen Xiang, he pulled out a fire pearl and didn't know who injected the fire inside, but he felt it, the fire inside was not bad, stable and strong enough to concoct a batch of Spirit Recovering Pellets.

"When we compete in the refining process, we will mainly compete in the overall quality. At that time, we will use our tools to test the overall quality." Elder Chen said to the Master Wang: "You don't have any objections, right?"

"No, we can start now!" The Master Wang patted Chen Xiang's shoulders because he saw that Chen Xiang was a little nervous. He knew that Chen Xiang had just finished concocting the Sapphire Divine Pill, but he felt that Chen Xiang was able to concoct over a hundred pills, and the quality was very stable, so he would definitely win.

"Master Wang, do you know that if you lose this time, this precious land of yours would be mine!" Elder Chen laughed, "It's still too late for you to regret it now!"

"It's fine, even if you have the treasure land, it doesn't matter." Master Wang opened his eyes wide and smiled faintly.

His treasured land was famous, and it was something that he had fought for with his own strength. Hence, many people wanted to become the disciples of the Master Wang, because the medicinal herbs grown in this treasured land were many times faster than in other places!

Therefore, even though Yu Haorui's father tried many times to get his son to follow beside Master Wang, he was always rejected by the latter.

"Elder Chen, if you lose, you will have to pay a corresponding price. You should be clear about this yourself!" The Master Wang laughed, "I have been salivating over your Overlord Purple Ginseng Fruit for a long time, hehe"

"That will depend if this kid has the ability to help you fight for it." Elder Chen also smiled happily.
