

Dan God 2861

[Chapter 2861](#)

The Heavenly Alchemy stone wall s had a great influence within the Myriad Tao Mausoleum. Feng Xue Nan told him that many people obtained a strong power because of the Heavenly Alchemy stone wall.

For example, the Natural Law Divine Lord back in the day, because he had studied the cultivation methods of the Heavenly Alchemy stone wall, he had become stronger, and after entering the White Bones Imperial, his strength had increased by leaps and bounds, becoming one of the top ten White Bone Kings.

Many famous Rankers in the Myriad Tao Mausoleum had benefited from the Heavenly Alchemy stone wall before, and many of them had ordinary aptitudes to begin with. However, after comprehending the contents of the Heavenly Alchemy stone wall, they had become extremely strong overnight, killing those who had mocked him before.

All of these miracles that had truly happened made many people want to go to the Heavenly Alchemy stone wall no matter what. As a result, all sorts of battles and battles happened all the time, resulting in many people dying miserable deaths.

Chen Xiang had already flown above the shore of the Rainbow River for two days now. At this time, he was still very far from the Heavenly Alchemy stone wall and thus, he was unable to use his spatial energy.

At night, when Chen Xiang was flying, he suddenly saw a little purple light in front of him!

He saw purple in the Colorful Forest, the first place was the Purple Blood Man!

Purple Blood Man was very strong, especially when they could fly in the air, those that could fly were usually at least at the Tai Zun realm level, and only a few respected Six Gods Stage were able to use flying dao veins to fly in the air.

"Could it be the Purple Blood Man? I have to be careful! " Chen Xiang also did not dare to go closer. He even slowed down his speed to keep a distance from those purple spots of light.

Now that he had not been discovered, he could no longer guarantee if he got a little closer. If he met an extremely powerful Purple Blood Man, and was discovered, they would be able to fly over at an extremely fast speed. Chen Xiang could not use teleportation, and it would be extremely dangerous by then.

"Could it be that they want to go to the Heavenly Alchemy stone wall as well? This is not a good thing! " Chen Xiang had currently run into the Purple Blood Man, his strength was limited, he did not want to be injured again, and then recover for more than ten years. This was truly a waste of time.

"We can only talk after we reach the Heavenly Alchemy stone wall. They still won't be able to discover me!" Chen Xiang became even more careful. Ever since he raised his cultivation to the peak of the late stage of Six Gods Stage, the moment he used the Counter Power to hide himself, it was even more difficult to be discovered.

He was sure that even if it was the Lan Hong Tao Priest s, it would still be very difficult to detect him.

"These bastards, when I get stronger, I will definitely take care of them one by one." Chen Xiang hated Purple Blood Man very much. Back then, that purple-haired man gave him a palm strike for no reason and seriously injured him.

At that time, he had felt himself to be an ant that could not be resisted. Recalling that experience, he wished that he could find the purple-haired man and ruthlessly trample him.

Chen Xiang followed for five days, and was finally about to fly out of the Colorful Forest.

Outside the Colorful Forest was an extremely desolate place, and there were large, bald, stone mountains everywhere. Upon entering the area, Chen Xiang immediately felt a bitter aura of death rush towards him.

How many people had died in this place when there was so much aura of death!

Feeling the threatening death aura, Chen Xiang knew that the Heavenly Alchemy stone wall was getting closer. At that time, even he himself did not know how dangerous it would be.

Sensing the death aura that had settled in, Chen Xiang broke out in a cold sweat. He knew that he would die here as well, hence his resentment would turn into death aura and precipitate in here.

After the Rainbow River entered this area, it was still as clear as ever. There were no Rainbow Fish in the river, but there were many bones deep within the river.

As Chen Xiang flew across the surface of the river, he could see many bones at the bottom of the river. They were actually piled full up at the bottom, which made Chen Xiang's scalp go numb.

"This Myriad Tao Mausoleum is really a mausoleum, there are dead people everywhere!" When Chen Xiang flew past a mountain, he saw that the surface of the mountain was filled with white skulls.

Many of the huge mountains in the Heavenly Alchemy stone wall were formed from white bones, now Chen Xiang believed it!

Following that, not only did Chen Xiang discover that there were a lot of bones in the gigantic mountain, there were also a large amount of bones in the ground. Not only were there bones of humans, there were also various types of bones in the beasts, but they were all covered by a thick layer of soil.

"Terrifying!" Chen Xiang no longer looked down. If he continued like this, it would affect his condition. He had never felt this sort of inexplicable fear before.

In the afternoon, the sun was scorching the ground, causing the death aura to become even more oppressive, causing Chen Xiang to be unable to endure the pressure, finding it hard to breathe.

Under the sultry atmosphere, the cold wind suddenly blew, making Chen Xiang feel cool. He secretly praised in his heart, but just as he was praising, the Purple Blood Man in front of him suddenly stopped.

"Purple Blood Clan, you should know that this is the White Bones Imperial's territory. You guys are not giving us any face by coming in so majestically."

Hearing that, Chen Xiang's heart trembled, this place was actually the White Bones Imperial!

Previously, Feng Xue Nan didn't tell him that the Heavenly Alchemy stone wall was inside the White Bones Imperial.

"We are only flying above the Rainbow River, this does not belong to your White Bones Imperial! Furthermore, you should be well aware of our goal." The voice that came out was very familiar to Chen Xiang, it was the purple-haired man that took Lan Hong Tao Priest away earlier.

Chen Xiang was still quite a distance from the group of people in front of him. Their bodies were shining with a purple light, making it impossible to see their appearances clearly. However, he saw that the person from the White Bones Imperial was actually a very large Skeletal Man. He was walking out from the ground, and there were also many small Skeletal Man behind him with snow-white long blades in his hands.

This Skeletal Man was very big, at least as tall as three ordinary people. The Bones on her body was gray, her eyes had two golden eyeballs, and they emitted a golden light. It was obvious that this Giant Skeletal Man was very strong.

"You guys are also joining in on the liveliness of the Heavenly Alchemy stone wall? Now that the Leader s, hall masters and Dragon Devil Emperor Venerable s are all there, it's hard to say if you will be able to come back alive." Although he wanted to kill a skeleton, his voice was still quite pleasant to hear.

"You don't have to worry so much. In short, we didn't cause any trouble on your territory. Since we're on our way, we won't talk to you any longer." After the violet-haired man finished speaking, he began to fly away.

Chen Xiang did not fly with him. He waited until the giant Skeletal Man drilled into the ground before he carefully took note of it. The Four Great Divine Sects was still inside, which made him feel a lot more at ease.

[Chapter 2862](#)

Chen Xiang could no longer see the Purple Blood Man, but the presence they left behind was still floating above the Rainbow River. Chen Xiang increased his speed and flew above the Rainbow River, he was already impatient to head to the Heavenly Alchemy stone wall.

Knowing that the Four Great Divine Sects s were all at the Heavenly Alchemy stone wall's side, Chen Xiang felt more relaxed. This way, when he went to the Heavenly Alchemy stone wall, it would be much safer.

When he was in Heavenly Alchemy Divine Sect, he had gained quite a bit of fame. The Heavenly Alchemy Divine Sect's Leader would definitely recognize him, and he felt that the Heavenly Alchemy Divine Sect's Leader would take care of him at that time.

The White Bones Imperial was filled with bones, as if everyone in this vast world had died here.

"Why is the Heavenly Alchemy stone wall in the White Bones Imperial?" From beginning to end, Chen Xiang could not believe that all of the people here had died because of the Heavenly Alchemy stone wall. In the White Bones Imperial, any random digging could dig out a human head; it was simply filled with white bones.

Chen Xiang increased his speed and flew. Half a day later, he suddenly saw a piece of green land in front of him.

From time to time, there would be the cries of birds. When they got close, they could smell the strong scent of life, full of vitality, which was out of place for the death aura in the White Bones Imperial. The Rainbow River was also precisely flowing into this oasis.

"Could the Heavenly Alchemy stone wall be inside?" Chen Xiang looked at the four directions outside the oasis. There were many short mountains, and these short mountains were also piled with many white bones.

"Forget it, let's go in and take a look!" Chen Xiang flew above the Rainbow River and quickly entered the oasis.

The moment he entered the oasis, he felt that the entire oasis seemed to be covered by a barrier. However, the barrier didn't have any special power; it was just a faint aura.

"What is the use of this Spirit Formation?" Chen Xiang was free to enter and exit at this time, there weren't any restrictions on the barrier.

Only after entering the oasis did he find out the use of the enchantment. The enchantment could only stop the death aura outside, and at the same time, it also released a dense life force to nourish the oasis and enliven it.

The two banks of the river were the most beautiful, with all kinds of beautiful flowers and herbs. As dusk approached, the flowers and plants here shot out beautiful lights, causing the previously clear river to become colorful.

For a Heavenly Alchemy stone wall to stay in such a beautiful place, Chen Xiang was very familiar with it. He had previously heard that the surrounding area of the Heavenly Alchemy stone wall was filled with corpses.

Late at night, Chen Xiang was flying in the forest. In front of him, he could see a weak golden light and a faint Heavenly Alchemy immortal power coming from it, causing his entire body to tremble!

The Heavenly Alchemy stone wall was right in front of them!

When he got closer, he saw many people along with the Heavenly Alchemy stone wall!

The Heavenly Alchemy stone wall was not that big, it was like the mountain walls of a small mountain, and that small mountain was only the size of an ordinary house.

The only lush green thing on this small mountain was a bare mountain wall, and the bare mountain wall was currently glowing with a golden light.

To be exact, the reason why the stone wall could emit light was because the two words "Heavenly Refining" were glowing!

The Heavenly Alchemy stone wall's mountain was located on a prairie, but no one approached the prairie. On the contrary, many people were currently sitting cross-legged on the ground outside the prairie, staring at the small mountain.

"Are they all comprehending the Heavenly Alchemy inside the Heavenly Alchemy stone wall?" Chen Xiang slowly descended to the ground. He realized that the people here were all very harmonious, and there weren't any conflicts.

He searched for the group of Purple Blood Man s in the crowd and quickly found them. These Purple Blood Man s were all standing at the edge of the grassland, seemingly discussing something.

"What are they going to do?" Chen Xiang saw that some of the people had also stood up, staring angrily at the group of Purple Blood Man.

Chen Xiang watched from the side and suddenly saw the Heavenly Alchemy Divine Sect standing up. He had also sat down on the ground and started to comprehend the Heavenly Alchemy seriously!

"Bloodviolet clan, behave yourselves." Heavenly Alchemy Sect Leader shouted in a low voice and walked over.

After all, he was a Leader of the Heavenly Alchemy Divine Sect. As he cultivated in the Heavenly Alchemy, everyone there would be respectful towards him.

"Even though you are a Leader of the Heavenly Alchemy Divine Sect, the Heavenly Alchemy stone wall is not yours. What do you want me to do?" The purple-haired man sneered: "We are going to go in now and destroy the Heavenly Alchemy stone wall!"

With that, the few powerful Purple Blood Man turned into a red light and rushed towards the Heavenly Alchemy stone wall.

"You bunch of idiots, are Heavenly Alchemy stone wall so easy to destroy?" The Heavenly Alchemy Sect Leader did not stop him and stood there sneering.

BOO!

After the few Purple Blood Man s rushed over, their strong powers struck the Heavenly Alchemy stone wall, but it only caused a loud explosion. On the other hand, the Heavenly Alchemy stone wall did not sustain any damage.

The most terrifying thing was that the berserk power unleashed by these powerful Purple Blood Man s were actually all absorbed by the Heavenly Alchemy stone wall.

Long before this batch of Purple Blood Man s, there had been many people who had attacked the Heavenly Alchemy stone wall, and the results were the same, unable to shake this mysterious and powerful Heavenly Alchemy stone wall.

Chen Xiang was curious, all of the Purple Blood Man s were only at Supreme Realm, with the strongest being at Late period of Tai Zun realm, while the Heavenly Alchemy Sect Leader s were at the Ancestor Realm, so the Purple Blood Man s were not even afraid of the Heavenly Alchemy Sect Leader s.

"How exactly do you want to comprehend the Heavenly Alchemy stone wall? Let me take a closer look! " Chen Xiang looked at the word "Heavenly Refining" on the Heavenly Alchemy stone wall.

What shocked him was, even though the Purple Blood Man were continuously attacking the Heavenly Alchemy stone wall, the word "Heavenly Refining" could still clearly be seen from the start. As long as he stared at the two words on the stone wall, everything else would disappear!

Right now, he could no longer see the Purple Blood Man, nor the mountain, nor the lush green grassland. He could no longer see the people around him.

BOO!

Suddenly, the word "Heavenly Refining" exploded in front of Chen Xiang's eyes, causing him to come back to his senses. He looked around, then looked at the Heavenly Alchemy stone wall, and saw that everything was exactly the same.

"Comprehension failed?" Chen Xiang took a deep breath and asked Mei Jing Sisters. Only then did he find out that ten days had passed.

There were more and more people surrounding the grassland, and there were also some people in the grassland. There were more than ten Purple Blood Man s and Heavenly Alchemy Sect Leader s inside.

"What are they doing?" Chen Xiang immediately asked a sober old man beside him.

"The revered ancestors of the Purple Blood Clan have come. I wonder what kind of madness they are going through to destroy the Heavenly Alchemy stone wall, but they did not succeed! Heavenly Alchemy Sect Leader will go and stop them now. " The old man said, "These guys are really full."

The Purple Blood Clan's ancestor was a purple-haired old man. He was very tall and thin, and a huge ball of purple light condensed in his hand.

"Enough!" If you want to destroy the Heavenly Alchemy stone wall, don't you want to make the other low leveled races stronger because of the Heavenly Alchemy stone wall? How laughable, to actually enslave another blood-colored race for a lifetime, the Heavenly Alchemy stone wall are unable to be destroyed, and doing so would be useless. "

Heavenly Alchemy Sect Leader's body shook, he opened his palm and a small golden bell appeared. After the small bell rang, a berserk Heavenly Alchemy immortal power shook the bell, shaking the entire world.

[Chapter 2863](#)

The Heavenly Refining Leader was already angry, as the Heavenly Refining Divine Sects, being in charge of protecting the Heavenly Refining Stone Wall was one of his duties, the people in front of him continuously attacked the Heavenly Refining Stone Wall, and he could no longer tolerate it. The updates were quick.

"You bunch of bastards, I can only beat you up to make you listen to me." After the Heavenly Sword Leader finished speaking, the little bell in his hand flew out and floated in the air.

The small bell continued to shake, and then it suddenly became extremely huge, as if it was a huge mountain floating above the stone wall.

"Dong! Dong!" When the divine refining tool was shaking, it released waves of terrifying sound waves. That wave of vibrating power pierced through the barrier of the stone wall. When many people heard this, they felt as if their heads were about to shatter and were in incomparable pain.

Chen Xiang immediately released his divine might to protect himself, but was shaken by the sound and felt no pain at all. Everyone present quickly used their power to stop the sound from attacking his Divine Sense Sea.

And the grassland enveloped by the sound wave was the most terrifying, especially the Purple Blood Man inside, even if they were Late period of Tai Zun realm s, after being hit by the sound wave, they all spat out blood and fell to the ground!

Only the Purple Blood Man with a revered cultivation could withstand it, and it was extremely strenuous.

Chen Xiang suddenly realised something strange. Although the Heavenly Refining Leader did not release his Dao Energy, his Heavenly Refining Divine Bell was supported by an extremely strong wave of Heavenly Refining Dao Energy.

Otherwise, if they were similarly revered ancestors, the ancestor of the Purple Blood Man wouldn't have been suppressed like this.

Chen Xiang looked at the Heavenly Smelting Stone Wall and suddenly understood. At this time, the Heavenly Smelting Stone Wall was giving the Heavenly Smelting Leader's divine tool a huge amount of Heavenly Smelting Dao power.

And the Heavenly Refining Leader only controlled the bell to attack the Purple Blood Man below.

At this moment, many people began to retreat. The sound of the bell ringing was too terrifying, and it was difficult for them to resist. They could only stay far away from this place.

Such battles frequently occurred on the stone wall, so they weren't surprised at all. If they didn't leave by then, they would definitely be killed.

Although everyone was far away from the prairie, they could still see the Heavenly Refining Leader attacking the Purple Blood Man. The Grand Elder's cultivation level was not his opponent at all, so he could not even withstand a single blow. If not for the ancestor level Purple Blood Man helping them withstand the sonic wave, they would have been crushed into pieces by the sonic wave right now.

Chen Xiang was still at the side of the prairie. After he used Divine Might to protect his body, that sound wave did not have any effect on him. He was surprised to find that even if he got a little closer, there was no problem.

"This bastard, here's my chance to kill you." Chen Xiang looked at the purple-haired man who was kneeling on the ground. Previously, the purple-haired man had given him a ruthless slap.

Chen Xiang suddenly flew in, shocking them. What was even worse, after Chen Xiang came in, he rushed towards the purple-haired man at an extremely fast speed, and swung his sword towards the purple-haired man's neck, he was even using the God Slaying Sword Technique!

Even though he had fallen into a state of berserk fury, he did not go insane. At this time, he was still very rational, he wanted to take advantage of the chance of the divine bell being blown away to delay the Heavenly Refining Leader, and then let the other Purple Blood Man s go kill Chen Xiang.

When Chen Xiang barged in earlier, he had felt the strange divine might of the Heavenly Refining Stage from Chen Xiang's body. This was definitely not an ordinary person, moreover, the Heavenly Refining Leader was extremely concerned about Chen Xiang, so he had to destroy Chen Xiang no matter what.

The Heavenly Refining Leader had also seen through his plan, he was currently being held back by Supreme Violet Blood Ancestor and was unable to escape. He also could not understand why Chen Xiang would want to go to the wall of Heavenly Smelting Stone, it was not a good place to go.

Chen Xiang had already rushed to the front of the Heavenly Smelting Stone Wall but he was blocked by the stone wall. A few Purple Blood Man s behind him started to attack as well, as countless balls of purple light shot out!

Chen Xiang immediately channeled all his Heavenly Refining Dao power and released waves after waves of Heavenly Refining Divine Power. In that instant, his Heavenly Refining Divine Power reached its limit, causing the Heavenly Refining Leader and Supreme Purple Blood Ancestor to be extremely shocked.

Just as the countless balls of purple light were about to hit him, the words "Heavenly Refining" on the wall suddenly flashed, the flickering gold light completely destroyed the balls of purple light, and Chen Xiang also disappeared without a trace as the two words flashed.

"He was sucked in!" When an old man from the Tai Zun realm saw this from afar, he cried out in shock.

Although it was a mess just now, there was still someone who could see Chen Xiang entering the Heavenly Smelting Stone Wall. There was actually a space inside the wall, no one knew how he entered it!

Everyone was very curious, what kind of secrets would Chen Xiang obtain after entering?

Back then, Chen Xiang had already formed an unfathomable connection with the Heaven Smelting Stone Wall, and at that time, he had an extremely strong feeling that the stone wall could be entered. When he got near it, he released the divine might of the Heaven Smelting Stone, only then would he be sure that he could enter the stone wall as long as his body continued to possess the divine might of the Heaven Smelting Qi.

That was why he was able to rush to the stone wall at an extremely fast speed!

[Chapter 2864](#)

After Chen Xiang entered the Heavenly Alchemy stone wall, he thought that he would receive a great harvest. Just when he was extremely excited, he felt a piercing pain all over his body. Access:.

He looked around him. Right now he was in a sea of Fire of Heavenly Alchemy power, and the divine flames here had all sorts of colors, the golden divine flames in them forming long trails. When he walked along this path, the pain was much less.

"It hurts!" Chen Xiang did not take a single step forward, as wave after wave of burning heat entered his body from the bottom of his feet and then rushed up to his head, causing him to almost faint. He only took a dozen steps, and knelt on the ground while holding his head.

Even though he had previously suffered from many kinds of painful experiences and torments, he still couldn't bear the piercing pain brought by this Heavenly Alchemy immortal power.

This kind of piercing pain would cause him to die and he would collapse. He could only retreat a little at this moment!

As he retreated, there would also be pain. However, he did not move forward like he usually did. He looked at the golden light screen behind him. That should be the door that led to his exit.

"The Great Dao of Heavenly Refining ..." Chen Xiang looked at the four words that appeared in front of him and grinded his teeth, "It's a pity that I don't have enough strength to advance right now!"

"I will definitely come back. I will definitely walk all the way to the end!" Chen Xiang could only plan to leave first and try to increase his own strength again. If he went over right now, he would definitely die.

Chen Xiang had no choice but to withdraw at this moment.

After some torture, Chen Xiang finally fell out of the Heavenly Alchemy stone wall, and at this time, he was already covered in wounds.

The moment he came out, Heavenly Alchemy Sect Leader immediately flew over, picked him up and placed him into the golden bell.

Chen Xiang did not know what had happened outside after he had entered the Heavenly Alchemy stone wall but his current injuries were extremely serious and he had fallen into a deep sleep.

... ..

It was unknown how long Chen Xiang slept for, but when he woke up, he discovered that his wounds had completely healed. He was lying on a stone bed, on top of a mountain cave.

Just as Chen Xiang stood up, he saw a middle-aged man wearing golden clothes walking over.

"Leader!" Chen Xiang anxiously shouted.

The Heavenly Alchemy Sect Leader chuckled, then said to Chen Xiang: "There's no need to get up, continue resting. You have at least just recovered from your injuries, but your 'spirit' isn't too good yet."

"After I entered the Heavenly Alchemy stone wall, what happened outside?" Chen Xiang asked: "Then did you kill Reverend Bloodviolet?"

"I can't kill him. He's the same as me, also at the early stage of the Ancestor Realm. It would be very difficult to kill him! Fortunately the other three Divine Sects came and chased him away, I waited for you outside for ten days!" Heavenly Alchemy Sect Leader said: "What did you see inside the Heavenly Alchemy stone wall?"

"I went in for ten days?" Chen Xiang was extremely shocked. He felt that he had not even been inside for an hour, and ten days had already passed since he had entered outside.

"I saw a great path of Heavenly Refining inside, but I could not reach the end. I only walked about ten steps and I was injured to this extent." Chen Xiang sighed.

After Chen Xiang had fainted from his injuries, the Heavenly Alchemy Sect Leader had already checked on his body. Chen Xiang's body could be said to be extremely strong, although he was only at the peak of the late stage of Six Gods Stage, it was very difficult to find someone at the same level with a body like his. Even if it was a lot of early stage True Sovereign Realm cultivators, they could only be slightly stronger than Chen Xiang.

Even so, Chen Xiang still suffered such heavy injuries!

then told Heavenly Alchemy Sect Leader about the situation of the Heavenly Refining Great Dao in detail.

"So the legend is true. There really is a great dao of Heaven's Refinement inside the Heavenly Alchemy stone wall." After listening, Heavenly Alchemy Sect Leader sighed, "But to reach the end of the Heavenly Refining Great Dao is extremely difficult."

"Not only is it difficult, it's deadly!" Chen Xiang shook his head and sighed: "Am I still in Myriad Tao Mausoleum?"

When the time comes, we will be able to leave. With your current situation, it would be best for you to return to Flying Dragon Pagoda to cultivate for a while. Although there are many strong fellows in Myriad Tao Mausoleum, it is not suitable for cultivation. The Heavenly Alchemy Sect Leader said.

Chen Xiang also had this plan. After returning to the Flying Dragon Pagoda, if he succeeded in his cultivation, he would try to cultivate it there.

Once he entered the Heavenly Refining Great Dao, he would have more power to deal with it. Although he was afraid of the Great Dao, at the same time, he had a strong sense of conquest, the more he wanted to conquer something that terrified him, the more he needed to conquer something, and that was the only way to overcome his fear!

"What about the Dragon Devil Emperor Venerable? Didn't he also come in? Why did he come in?" Chen Xiang was also very worried about Dragon Devil Emperor Venerable, he knew that Dragon Devil Emperor Venerable was very strong.

"Dragon Devil Emperor Venerable is trapped inside. He should not be able to leave! Of course, it would be hard to say if he had passed Flying Dragon Experience Place's Practical Experience." Heavenly Alchemy Sect Leader laughed: "This guy is currently heading to Flying Dragon Ghost Realm to find his old enemy."

"The Flying Dragon Ghost Realm must be filled with dragons!" Chen Xiang heaved a sigh of relief. Dragon Devil Emperor Venerable being unable to leave this Heaven Prison was indeed a good thing.

"That's right, they are all powerful dragons. Most of them were attracted by the various legends in the Myriad Tao Mausoleum, so they are unable to leave." Heavenly Alchemy Sect Leader laughed:

"Generally speaking, as long as a person with an evil power comes in, it will be very difficult for them to escape. Unless there is the slightest error on the part of the Myriad Tao Mausoleum, then they will be able to let a large group of Dragon Demons escape."

"Also, it is very difficult for someone with the cultivation of Venerable Ancestor Later-stage to come out, and our Heavenly Alchemy Venerable Ancestor only had a mid stage ancestor back then. It would be very difficult for him to come out."

The Heaven Prison was used to restrain some super strong warriors.

"We have been in here for quite some time. I wonder how is Flying Dragon Pagoda doing now, there are a lot of Dragon Demons up there." Chen Xiang said.

"Without the Dragon Devil Emperor Venerable, those Dragon Demons won't be able to make the weather. Right now, all four of us Leader are inside, so we don't need to worry about the situation outside. That's why we plan on cultivating inside." Heavenly Alchemy Sect Leader took out a pellet and gave it to Chen Xiang: "Eat it, it will help recover your spirit."

After Chen Xiang ate it, he immediately felt the benefits of the medicine's power, and his spirit became much better.

"Heavenly Alchemy Sect Leader, have you heard of Natural Law Divine Lord?" Chen Xiang thought about it and asked.

"Of course I've heard of him. He's very famous now, but he's one of the ten great Bone Kings of White Bones Imperial, and is very powerful. I'm not his match." Heavenly Alchemy Sect Leader said: "But he will never be able to leave this place. I heard that he controls another world!"

"Yes, he controls the Natural Law World. I came from that world!" Chen Xiang said, "I want to take back the Natural Law World from him, so that he won't be 'messed up'."

[Chapter 2865](#)

The Refining Leader had a rather good understanding of the situation. He would often enter the Myriad Tao Mausoleum and get to know quite a few of his friends. Access:

"It's true that he's in control of the world of the Dao, but for now, he won't dare to do anything to the world of the Dao for a short period of time. The world of the Dao is a part of his power; as long as it isn't a threat to him, he definitely won't destroy it." The Leader said, "But in the future, it will be difficult. Because he has to control a world and if the world is not stable, he will have to transfusion his own blood. At that time, it will be a burden for him."

"What if it becomes his burden? "What are the consequences of the Dao World?" Chen Xiang asked anxiously.

"If it became his burden, he would definitely find a way to abandon the world of the Dao. At the same time, he would destroy the world of the Dao." The Refining Leader thought for a moment, then told Chen Xiang, because this kind of result, was not what Chen Xiang wanted to hear, and it would cause a lot of psychological pressure for Chen Xiang.

"The world of the Dao is his world, after all. He won't let anyone get their hands on his destruction!" But of course, the prerequisite for destruction was that the world of the Dao was useless. If the Dao World was still valuable, he would definitely drain the Dao World's energy. This would be a form of destruction for the Dao World. "

After hearing what Leader had to say, Chen Xiang's heart felt incredibly heavy. He really wanted to return to the dao world to see how it was doing right now.

"Don't worry, he's the White Bone King right now. If the Dao World is always in a stable state, he won't make a move." The refined Leader patted on Chen Xiang's shoulder: "Right now you need to focus on raising your cultivation, do not be disturbed, if you 'f * ck' too much, it might have a negative impact on your mental state."

"I know! Leader, when are we going to return to Flying Dragon Pagoda?" Chen Xiang was in a hurry to go back, because he would never be able to cultivate in peace in Myriad Tao Mausoleum.

"Soon, within ten!" The Leader said, "You must have obtained some rewards from entering the Myriad Tao Mausoleum, right?"

's harvest was indeed not good. He obtained many life Law beads and hundreds of billions of Dao crystal, and even killed this annoying fellow, Zhao Kunxin.

"No, no!" Chen Xiang smiled, he would not tell the Alchemist Leader about him killing Zhao Kunxin, although he did not have a good reputation there.

"After you go back, are you going to go back to refine Divine Sects or are you going to go back to the six?" The Refining Leader knew the conflict between Chen Xiang and the Zhao Clan.

"Let's return to the Divine Sects first, I have friends there." Although Chen Xiang was viewed with hostility by the Zhao Clan, the Great Clan Elder still treated him extremely well. Furthermore, the Master Wang was also currently inside the.

The Refining Leader had brought him out of the White Bones Imperial, followed the Seven Colored River, passed through the Colorful Forest, and finally arrived at a large canyon.

"After passing through the Great Canyon, you will reach the Divine Ghost Imperial Country! The great doors of the Myriad Tao Mausoleum have always been opened by the Divine Ghost Imperial Country. " The refined Leader said: "The main reason why the Divine Ghost Imperial Country is here is to obtain a large number of Dao crystal, so we will think of a way to open the big doors of the Myriad Tao Mausoleum at regular intervals, and let a large number of Dao crystal come in."

The Time Ghost that Chen Xiang had met before entering the stone room had consumed quite a lot of his Dao crystal.

"If you are unlucky, you will accidentally enter the Colorful Forest or the White Bones Imperial, which is not a safe place. If you do not have enough strength, you will die if you leave the Divine Ghost Imperial Country." The Refining Leader brought Chen Xiang through the canyon and entered a huge black coloured palace.

Arriving at the palace, Chen Xiang saw many familiar wide paths.

Accompanied by the refined Leader, Chen Xiang left the Myriad Tao Mausoleum, and returned to the Primordial Transmission array, returning to the Thousand Floors of the Flying Dragon Pagoda!

Although he could safely return during this trip, Chen Xiang was still very suspicious. The Myriad Tao Divine Tablets Formation he refined did not seem to have any effect.

Previously, he had heard that this Myriad Tao Divine Tablets Formation was a key, but what exactly did this key open? There was someone who could open up the many tombs inside, Chen Xiang did not know how to use them.

"Myriad Tao Mausoleum will open it from time to time. When the time comes, Four Great Divine Sects will also know about it. The Leader brought Chen Xiang to the island where the Great Clan Elder was at.

When the Great Clan Elder saw Chen Xiang coming back, he was extremely agitated. He was worried that something bad had happened to Chen Xiang since Chen Xiang had already been missing for more than ten years!

The Refining Leader and the Great Clan Elder chatted for a while before they left the island.

"Great Clan Elder, how is Master Wang now?" Chen Xiang laughed: "Has he recovered yet?"

Just as he finished, Master Wang walked out from the house and laughed: "Ghost, I'm almost recovered. I can concoct pills now."

"Master Wang, you are still so 'fine'!" Chen Xiang walked over and laughed.

Soon after, Chen Xiang and the two old men started talking about the things that happened inside the Myriad Tao Mausoleum. When the Great Clan Elder found out that Chen Xiang went to the Refining Stone Wall, he was extremely shocked.

In truth, the Great Clan Elder's strength was still considered strong, after all, he was a Late period of Tai Zun realm. If he was at that time, Chen Xiang would not have been treated like that by the Lan Hong Tao Priest, and might not even be able to beat the purple-haired man.

However, the Supreme Realm cultivators in the middle of Myriad Tao Mausoleum all had some strange powers. For example, the spatial strength of the Lan Hong Tao Priest was extremely terrifying.

The Lan Hong Tao Priest had secretly 'snuck' into the Divine Ghost Imperial Country, and even placed many of the Six Gods Stage s into his own Divine Sense Sea World. That strange blue profound sea was playing a killing game inside, so he was very clear on Chen Xiang's every move.

It's just that the Lan Hong Tao Priest was taken away, Chen Xiang guessed that the Lan Hong Tao Priest would become a slave if he was taken back.

"Master Wang, I am now at the peak of the late stage of Six Gods Stage, how can I step into the Tai Zun realm? Is there any miraculous elixir or medicine?" Chen Xiang asked.

"The peak of the late stage of Six Gods Stage. If you want to achieve the unity of the six gods, then you will be able to cultivate the Six souls and you will be able to step into the Tai Zun realm." The Master Wang said, "This is not easy. The Six Gods Unity already requires the user to continuously use their own powerful dao energy to control the fusion of the Six yuan god, but they also need a certain amount of comprehension to allow the Six yuan god to complete the final fusion. Many people have tried it a thousand times, but they were unable to succeed."

"Why can't I succeed?" Chen Xiang had also tried it before, and it truly was not a success. Even though he could 'knead' all the Six yuan god together, it could not fuse together in the end, and once it was absorbed by Dao Energy, the Six yuan god would immediately disperse and return to its original state.

...

[Chapter 2866](#)

"No, no one knows." The Great Elder shook his head. "Therefore, it's not reliable that we can use the elixir to complete the final fusion."

"Not really!" Master Wang laughed heartily: "Medicinal pills are useful, but this kind of medicinal pill is hard to find and is not easy to refine! When I accidentally obtained a pill formula that I thought was left behind by my ancestor during the Primal Era, it would be beneficial for me to enter the Tai Zun realm. "

"It will help you enter the Tai Zun realm, but I can't guarantee that you will definitely be able to do so!" The Great Elder shook his head. "There are many of these in the market, but I think they are all lies. For example, the Six Shenprofound Dan that was previously refined by Chen Xiang, it was a pill that guaranteed the peak of the Late period of Three profound realm to step into the Six Gods Stage.

"That's right! The pill recipe that I obtained, I am not sure if I can guarantee entering the Tai Zun realm, but it is rather interesting, and the difficulty of refining it is extremely high. Although it is only a middle ranked Taizun Dan, the difficulty of refining it is much higher than a high ranked Taizun Dan, in my opinion, this is just a high ranked Taizun Dan, or even a high ranked Taizun Dan.

Master Wang's words also made Great Elder curious. Great Elder was also a Supreme Pill God.

"Master Wang, this pill recipe of yours." The Great Elder asked curiously.

This kind of pill is called the Huazun Dan, and it requires a lot of ingredients to grow. The maturation cycle is the same as the middle grade Supreme Medicinal Herbs, so it is classified as a middle grade Taizun Dan. Master Wang said.

Chen Xiang was overjoyed, and asked urgently: "Then Master Wang do you have medicinal ingredients?"

"Of course there is. I have searched for this medicinal ingredient for many years and finally found it!" Master Wang took out two jade boxes and gave them to Chen Xiang and the Great Clan Elder respectively, saying, "There aren't many ingredients required, only three of them!"

Chen Xiang received the jade box, and when he opened it, he saw three fruits inside. All three fruits were very special, each fruit had two different colors, which meant that the three fruits had six different colors. Chen Xiang picked up a fruit that was a mixture of white and black color. After looking at it carefully, he could feel that there were two types of energy inside it, and these two types of energy were mutually exclusive.

In addition to the black and white fruits, there were also the purple gold and red and blue fruits. There were two types of energy that repelled each other, but they both grew together to form the same fruit.

This was indeed very strange!

"When refining pills, one needs to refine these medicinal ingredients, and then fuse all of the medicinal ingredients into one." The Master Wang said, "And once the six fruits in your hands are refined, the energy that rejects each other will come out. At that time, it would be extremely difficult to fuse the six fruits again, because the six energies are mutually exclusive."

Chen Xiang had previously refined a type of medicinal pill in the same situation, and that was the 'Yin Yang Nine Inverse Divine Pill'. At that time, there were only two types of repulsive powers, but now, they were all mutually exclusive.

From the sound of it, it was obvious that it would be difficult to refine.

"Is there really no way at all?" Chen Xiang used the Dao heart Eye to look through the inner workings of the medicinal ingredients, but he could not find anything special about them.

"I've tried many times and never succeeded." The Master Wang shook his head.

"Alright, I'm ready to give it a try. If it's useful, it's fine!" Chen Xiang put away these fruits and gave them to the Mei Jing Sisters so they could grow them. He also warned them not to improve these fruits.

At this time, all of Mei Jing Sisters were at the peak of the late stage of Six Gods Stage. If they could all become Overlords, Chen Xiang wouldn't need to be afraid even if he met with any late stage Overlord experts.

Before Mei Jing Sisters was fully grown, Chen Xiang did not start refining. Instead, he left for the Original Tao.

The Lin Clan's position in the Original Tao was not low, he had already regained his strength, his cultivation was Late period of Tai Zun realm, and he even possessed the powerful six divine weapons.

Chen Xiang found Lin Jia, who was drinking wine and chatting with Lin Jia.

"You're so worried, I thought you'd never come back." Lin Jia laughed: "If you die inside, I really feel bad."

"How could I possibly die? I'm really lucky!" Chen Xiang laughed: "Uncle Lin, what good stuff did you and the bat get from inside?"

"Good stuff... This time, there are not many good stuff, they are all Law beads, I have exchanged them for Dao crystal, the bats are about the same, but this guy is very powerful, after returning from Myriad Tao Mausoleum, he actually went into closed door training to breakthrough to the Honored Ancestor Realm." Lin Jia was impressed. "I also know if he can succeed. If he succeeds, then I can be considered to have a friend with the cultivation of the ancestor."

"Bats are so powerful!" Chen Xiang never thought that Bat Super Venerable, who looked just like a child, would become a revered ancestor upon entering, which made him extremely shocked.

"I still haven't confirmed whether it will succeed or not. I wish him success. Cheers!" After that, he scooped a few bowls with Chen Xiang in quick succession.

"Uncle Lin, do you have any way to return to the world?" Back then you came here from Myriad Gods Abyss, and I heard that he was able to return to the Dao World. "

Chen Xiang really wanted to return to the dao world to take a look. Although it was not the first time he had parted ways with his old friends for so long, it was different this time.

"Since the Myriad Gods Abyss is within the Divine Wasteland, you must first leave the Flying Dragon Pagoda, and then walk a long way to reach there. After arriving at the Myriad Gods Abyss, there is no guarantee that you will be able to go to the Dao Realm, at the very most, only to the Primitive Land. "If you're going back, I'll go with you. I'm quite familiar with this road."

Chen Xiang felt that since he had the power of space, returning shouldn't be too troublesome.

"Alright, wait until I step into the Tai Zun realm. I'll check on the situation then." Chen Xiang planned to return and investigate the situation of the current world.

Chen Xiang was about to step into the Tai Zun realm, and yet he was so fast. Lin Jia remembered that when he first saw Chen Xiang, Chen Xiang's cultivation was still very low.

"Okay, just call me when the time comes." Lin Qi nodded.

Chen Xiang and Lin Qi chatted for more than two hours before they finally left the Original Tao.

Many people already knew about his return. At that time, everyone thought that he had already died and felt that it was quite a pity, especially those who had purchased the Herbal Tea Pill from him.

When some people heard the news, they were very disappointed. The Zhao Clan s who were trained in the art of refining Divine Sects were one of them, they already knew that Chen Xiang had killed Zhao Kunxin, but they did not tell the other party about this matter.

Especially when they found out that Chen Xiang was brought back by the Leader!

Chen Xiang would not kill Zhao Kunxin for no reason, it must be Zhao Kunxin's fault first! But Zhao Clan would definitely not swallow his anger like this. Chen Xiang was a thorn in their side, they had to get rid of him no matter what. The fact that Chen Xiang had stayed in the Divine Sects s in particular had a huge impact on their business.

...

[Chapter 2867](#)

Chen Xiang returned to the Refining Divine Sects and asked for Zhao Clan's reaction. Access:.

Although the Zhao Clan had lost Zhao Kunxin, they still had many talents. After all, in these ten years that Chen Xiang had not been around, their Zhao Clan's business had become even better.

The Dragon Demon outside was still wreaking havoc on the thousand floors of Flying Dragon Pagoda. The abyss in the middle of the Dragon Devil Dead Land was extremely strange as Dragon Demon kept gushing out.

Previously, many people thought that those Dragon Demons were created by the Dragon Devil Emperor Venerable, but now, the Dragon Devil Emperor Venerable was trapped inside the Myriad Tao Mausoleum and couldn't come out at all.

These Dragon Demons evolved very quickly. After taking over the human body, they had the human mind, and became very smart and cunning. They controlled the weak Dragon Demons that were just

born in Dragon Devil Dead Land, and from time to time, they would send these Dragon Demons to attack humans.

When the people of Four Great Divine Sects went out, they would often be watched by the Dragon Demons, who knew how those Dragon Demons knew the whereabouts of the Four Great Divine Sects's disciples.

Especially when there was a large group of disciples who went out together, they would always be besieged by a large number of Dragon Demons!

Dealing with the weak Dragon Demons was not difficult, but the difficult thing was that the Dragon Demons could release the poison, so in these past ten years, Zhao Clan's Dragon Magic Dan s had been selling extremely passionately, and their prices had risen to 200 million.

Now that Chen Xiang had returned, the Dragon Magic Dan in the Zhao Clan could no longer be sold, and he also had a large number of Golden Dragon Magic herb in the You Yao Mountain Villa. He sold these Golden Dragon Magic herb to the other forces in the Divine Sects and quickly earned more than a trillion Dao crystal.

Now that he already had close to two trillion Dao crystal, he didn't know what these Dao crystal were used for. The Great Clan Elder however, told him that they would definitely be useful in the Myriad Tao Mausoleum.

Because of Chen Xiang's interference, the business of the Zhao Clan's Dragon Magic Dan was blocked, and they hated Chen Xiang even more now. However, they did not make a move, because Chen Xiang was the big shot of the Divine Sects, together with the Great Clan Elder, they received care of the, so the Zhao Clan did not dare to even touch Chen Xiang, otherwise, when the Leader gets angry, the Zhao Clan would be in deep trouble.

"Although these fellows from the Zhao Clan did not do anything on the surface, it was hard secretly. Before I enter the Tai Zun realm, I must be careful when I go out." Chen Xiang could feel the hatred the Zhao Clan had towards him.

A month had passed, and the double colored fruits planted in the Mei Jing Sisters had ripened. Chen Xiang was already unable to wait and wish to refine them.

"Is it really that difficult to refine?" I must refine it! "

Chen Xiang took out three Twin Divine Fruits, looked at them carefully, and placed them into the Chuangshi god furnace s. Last time, he used the Chuangshi god furnace s to defend against attacks that caused them to be injured, but they had already recovered.

From the very beginning, Chen Xiang had used the flames of divinity to burn those three Twin Divine Fruits, whose burning speed was extremely fast. Or perhaps the three Twin Divine Fruits seemed to have been released the moment they met the flames, as the two mutually exclusive powers within them quickly absorbed the flames and then quickly broke apart.

This was Chen Xiang's first time encountering this kind of medicinal material. He only needed to continuously release flames and the medicinal material would absorb the flames and quickly refine itself.

To Alchemist, this was a very good thing, to be able to complete this stage so easily!

But, even though this stage was easy, the rest of the stage was extremely difficult. Chen Xiang had used many techniques, but none of them were able to fuse the six 'Spirit Qi' into the six 'Medicinal Crystals', they were all extremely strong in repelling each other, and even with his Spirit Refining power, he was still unable to succeed, and had even almost caused an explosion.

"It shouldn't be a problem with my cultivation level. I will definitely need some skills and techniques!" Chen Xiang began to think of a way.

Master Wang was a Tai Zun realm cultivator, but he had tried many times but to no avail, so it should have nothing to do with cultivation.

Chen Xiang was now at the peak of the late stage of Six Gods Stage, coupled with the Spirit Refinement Stage power unleashed by his strong dao vein, it was enough for him to refine a middle grade Taizun Dan.

Chen Xiang used many of the training methods he was familiar with before to try all of them, but there was no progress at all.

While he was trying, the energy within the furnace was constantly being drained. Just the expenditure of a portion of the ingredients announced his failure in refining the Huazun Dan.

"Comprehension refinement technique?" Chen Xiang felt that all the techniques in the [Refinement] technique had been comprehended by him to the point where there was no longer any room for growth.

However, he still tried to search for it. After a few minutes, he still couldn't find anything.

"As expected, it's just like the Master Wang, it's really difficult to refine! How on earth can I successfully refine it?" Chen Xiang took out the ingredients again and tried. He would have to encounter the most critical and difficult point in order to solve the problem.

Currently, he only knew that the six types of energies were extremely repulsive towards each other, causing him to be unable to fuse them together. Even though he had used many techniques, he was still unable to succeed.

However, those six types of energies were extremely special. They were not common types of energies. Therefore, he had to figure out why the six types of energies repelled each other. What kind of energies were they!?

Very quickly, he refined a set of medicinal ingredients and infused the six types of energy into his body to examine them one by one.

This type of energy was very strange. After entering his body, the energy that entered his body would be greatly repelled, causing him to struggle free as soon as it entered.

"Not even the Counter Power!" Chen Xiang tried using the Counter Power, but to no avail.

In the blink of an eye, three months had passed. Chen Xiang did not make any progress, and so did the Great Clan Elder. Chen Xiang had already spent over a hundred portions of medicinal ingredients, but fortunately, the Mei Jing Sisters grew them quickly so he could afford it.

Although he had failed hundreds of times, Chen Xiang had still obtained something. At the very least, he knew that the situation of the six types of energies was the same as the Six yuan god.

The reason the Six yuan god could not become one with the six gods was because, like the six types of energy, although it could be forcibly 'rubbed', it could never fuse together. Once it was released, the Six yuan god would immediately split apart.

The same was true for the six strands of energy from the three Twin Divine Fruits.

Realizing this point, Chen Xiang was sure that as long as he could successfully refine this Huazun Dan, he would be able to enter the Tai Zun realm.

Chen Xiang had also told the Mei Jing Sisters about what had happened and he had basically discussed this matter with them every single time. They were also discussing all kinds of possibilities, and it would sometimes be greatly helpful for them to pool their thoughts.

"I feel like the reason why these six medicinal powers can't be combined is due to the lack of a boss!"
"There are some people who are scheming and scheming in private, but because they have a leader that they trust, even if they have conflicts, they can put them down and do big things." Jiang Simei said.

"Are you saying that these six portions of medicinal energy are missing a primer to bring them together?" Chen Xiang frowned.

"That's right, we might still be lacking a medicinal ingredient. However, I don't know what medicinal ingredient is lacking. Perhaps it's not a lack of medicinal ingredient, but rather a lack of some kind of energy." Jiang Simei said.

...

[Chapter 2868](#)

Hearing Jiang Simei's words, Chen Xiang also had a direction in which he could go. Although he did not know if he was going the right way, at least he had a way to try it out.

He immediately began to think hard, and at the same time, stared at the three medicinal ingredients. He used the Dao heart Eye to examine them carefully, but he did not discover anything new.

"They lack a type of power that can gather them. What kind of power is this?" Chen Xiang sat in place and started pondering.

"I wonder what the effect of eating this fruit will be." Chen Xiang did not ask the Master Wang, but after he picked one up and ate it, he closed his eyes to feel the changes of the fruit's power in his body.

He used the Heavenly Alchemy immortal power to digest this energy, which was more beneficial for him to understand the characteristics of this medicine.

To understand more about medicinal herbs was also a way to break through. However, it would usually be more difficult.

Chen Xiang closed his eyes and focused on refining the power of the fruit. This fruit was a Golden-purple Duo Colored Fruit, and after the fruit was refined, the two powers immediately separated and swam around Chen Xiang's body.

Chen Xiang did not refine the two medicinal powers into his body, but allowed the medicinal powers to swim in his body, in an attempt to fuse the two powers together.

The purplish-gold medicine had a strong repulsive power. As long as one was at a distance, they would turn around and run away. It was very difficult to combine the two together, but after the combination, it was difficult to fuse them.

"Motherf * cker, what do I need to do to allow them to fuse together?" Chen Xiang cursed in a low voice before he started to think hard about it again.

It had been a long time since he last encountered such a difficult pill, and although the process of refining would seem very irritating, it was still viewed by Chen Xiang as a form of challenge, an enormous challenge that allowed him to advance by leaps and bounds!

ate a total of no less than a hundred of these fruits and conducted all kinds of experiments, which almost exploded within his body. It was extremely dangerous.

However, in order to succeed, he could only take the risk.

"The origins of these medicinal plants are all different. How strange. If their origins are the same, then no matter how mutually exclusive they are, I still have a way to deal with them." Chen Xiang thought in his heart. Right now, he understood more and more about these three Two-Colored Divine Fruits, and he could already clearly see the origin of the three Two-Colored Divine Fruits.

This was actually a different source energy, this was a situation he had never encountered before.

Without Essence, you create Essence for them. Essence is the bridge through which they fuse! Earlier, Mei Mei also said that these medicinal herbs are missing an element of aggregation, but how can one create an element of aggregation for them? "

This was something that Chen Xiang had been thinking about for the past few days!

"Creation of Essence!" Chen Xiang suddenly thought of an idea, and that was to create the same origin for the three Two-coloured Divine Fruits.

He asked Jiang Sijing and Jiang Simei if they could change the origin of the three Two-coloured Divine Fruits to the same, but they all felt that it was impossible. The reason why they could improve the quality of the spirit medicine was all because of the same origin.

With regards to this matter, the Mei Jing Sisters had no other choice but to try out the method that he thought was possible.

"Let's see if we can erase their source energy first, and then we can implant the same source energy!" Chen Xiang placed a purple gold divine fruit into the Chuangshi god furnace s.

After he refined this fruit to a certain degree, he would investigate its origin. After he found its origin, he used his powerful divine sense to accurately control it and pull it out!

There were two different sources of energy within a single fruit, yet it could produce a single fruit. This was an extremely miraculous thing.

After Chen Xiang removed the two streams of Origin Energy, the two flows of powers suddenly underwent a huge change. They were originally purple and gold, but now they suddenly became transparent. This was a very common type of Dao power. The Dao crystal contained a large amount of this pure Dao power!

After extracting the origin energy, the medicinal plant became like this. This meant that the various unique effects of the medicinal plant were due to the accumulation of Dao energy under the influence of the origin energy.

Now that he had lost his quintessence, the Dao-energy that he had gathered had become ordinary Dao-energy.

"Looks like I have to keep my source energy!" Chen Xiang encountered another problem, which made him feel that it was more reliable to unify the Source Energy in this direction first.

"How can I turn two or more different sources into the same one?" Chen Xiang began to think about this problem.

"Blood is thicker than water!" Chen Xiang suddenly thought of something: "Could it be that I need to use my blood to refine it? "Let's give it a try first!"

Chen Xiang immediately tried to refine the origin of his blood into his own and then infused it into his own blood. He had refined his own blood into the two different types of origin laws.

Soon after, he successfully refined and entered the blood. To him, this was still relatively easy, but the two types of source energy were still extremely repulsive.

"Could it be that I don't have enough blood?" Chen Xiang then gave out a lot of blood, although this technique was a little masochistic, but luckily he had a strong regeneration ability, so even if he lost a large amount of blood, it was not a big problem for him, because the Life Qi in his body was releasing a large amount of Dao Energy to nourish his body, allowing him to regenerate the blood very quickly.

Just like this, Chen Xiang continued to bleed non-stop for a good two hours before stopping, because he saw that his original purplish-gold coloured origin had turned blood-red!

After it turned blood-red, Chen Xiang tried to fuse it again. Using the Heavenly Alchemy immortal power, he quickly completed the fusion process.

After so many days of trying, he finally succeeded!

"Blood Refinement Art!" This method is not something that any Alchemist can try. Chen Xiang frowned for so many days, and now he finally revealed a smile.

Right now he had only successfully fused the two elements of expulsion together, and now he had to proceed with six! He felt that he would definitely succeed, but he needed a lot of blood.

After staying in the room for a few months, Chen Xiang finally had a new breakthrough. He went outside to take a breath of fresh air, then immediately returned to the house.

"It's going to cost me a lot of blood." Chen Xiang laughed bitterly, then placed all three kinds of Two-coloured Divine Fruits into the pill furnace, starting his blood refinement technique.

This method worked, but the process definitely wouldn't be that easy!

"At the same time, I tempered six types of Essences with blood, connecting them to each other so that they could be fused together. At the same time, I tempered six Essences with blood, connecting them to each other, so that they could be fused together.

Chen Xiang looked at the hexagonal source energy, other than the red source energy, the other colors had started to turn red. Previously, he had only been refining two types of Source Energy at the same time, but now it was six, the difficulty difference was huge.

Seeing the change in color, Chen Xiang knew that it would work, but it would be more difficult.

...

[Chapter 2869](#)

When Chen Xiang was refining it, he had also thought of separate refining the three Twin Colored Divine Fruits so that it would not require too much blood. However, he also thought that if he refined it separately, he wouldn't be able to combine the six types of origin.

Refining them at the same time was equivalent to connecting the six bloodlines together. Although refining them separately also required one's blood, there was no connection between the three Twin Divine Fruits. He would have to refine them once more.

After bleeding for two hours, his source energy had only turned slightly red. To have all of it turn blood-red meant that he would have to continue bleeding for a long time.

"I need to rest!" No matter how strong Chen Xiang's regeneration ability was, he could not endure this crazy method of continuously letting the blood flow. He rested for an hour, and after producing a large amount of blood, he started to refine again.

His Divine Sense Sea World grew a large amount of medicinal ingredients, and after he absorbed the energy released by the medicinal ingredients, he could also increase his recovery rate.

Other than that, there were also various things in his Divine Sense Sea World. These things could continuously release energy, such as the Creation God's Spring, which could ensure his recovery speed.

This was a middle tier Taizun Dan, so refining it would definitely take a long time, especially at the start, where it required the fusion of six different types of origin laws and the release of blood. This was something that ordinary Alchemists could not do.

Chen Xiang only managed to make him practice this desperate blood refinement because of his years of accumulated experience.

Ten days and ten nights later, within Chen Xiang's Chuangshi god furnace, all six different types of source energy were finally refined blood-red by Chen Xiang.

"This is good!" Chen Xiang took a deep breath, then used the power of divinity and gathered the six origin energies together.

After being refined by Chen Xiang using the Blood Refinement Art, the different Source Energy could easily be merged together. Following that, the 'Medicinal Qi' and 'Medicinal Crystals' would also be merged quickly.

After going through the difficult process before, the remaining was very simple for Chen Xiang. Although he was currently very tired, his heart was excited and full of vigor.

Because it was for him to eat, he only refined one pellet. This way, the quality would be higher.

"Could it be that just one pill is enough for me to step into the Tai Zun realm?" Chen Xiang looked at the blood-red ball of extremely enchanting light, and his heart was filled with anticipation.

Originally, there were six colours in the spirit energy released by the medicine, but because the origin of the medicine had been turned blood-red by Chen Xiang, it had all turned red right now.

The process of condensing the pill was extremely fast. It only took six hours!

"Is this the Huazun Dan? I wonder if it's really effective!" Chen Xiang looked at the Huazun Dan that was like a ruby. He really hoped that it could let him step into the Tai Zun realm, but he was also prepared to be disappointed.

No one had ever proven the efficacy of such a pill!

"If I do not succeed, it will only be a wasted time. Isn't it just half a year of time?" Chen Xiang placed the pellet into his mouth and swallowed it.

Inside the You Yao Mountain Villa, Jiang Simei and Jiang Sijing both hoped that this pill would allow Chen Xiang to step into the Tai Zun realm. During this period of time, Chen Xiang had put in a lot of effort!

After eating the Taizun Dan, Chen Xiang channeled his medicinal power into the Spirit of the Dao gods in the Divine Sense Sea. If he succeeded in stepping into the Tai Zun realm, the Spirit of the Dao gods would undergo a huge change, and he would be able to cultivate the Six souls!

After Chen Xiang ate the Huazun Dan, he immediately felt a power that was connected to his blood slowly seeping in. Inside the Spirit of the Dao gods, the Six yuan god was suddenly enveloped by a blood-red light, and following Chen Xiang's control, the Six yuan god gradually gathered together!

Before, Chen Xiang had to use a lot of effort to fuse the Six yuan god. Although it could not be completely compatible with the Six yuan god, it was still extremely difficult to 'knead' it.

And now, after Chen Xiang ate the Huazun Dan, he merely channeled the medicinal power into the Spirit of the Dao gods, and the Six yuan god inside naturally sucked it in, and gradually merged together.

This made Chen Xiang's heart race. This was a pretty good start, which meant that it was possible to successfully fuse the Six yuan god.

Chen Xiang was currently in a very natural state. He did not even need to worry about the Six yuan god in the Spirit of the Dao gods, as it would naturally and gently fuse with one another. This kind of process was extremely enjoyable for him, causing him to be immersed in an extremely special kind of slumber.

He did not know how much time had passed, but when he woke up, he realized that the Spirit of the Dao gods had already disappeared.

It was actually those six Beast statue!

These Beast statue were from the second Divine Sense Sea, but they were from the first Divine Sense Sea!

"Could this be the Six souls?" Chen Xiang was not sure, but he immediately went to look at the Second Divine Sense Sea, only to find that the Second Divine Sense Sea had disappeared!

"The second and first Divine Sense Sea have fused!" Chen Xiang never thought that such a situation would occur. That Huazun Dan was actually so powerful, and directly allowed his first and second Divine Sense Sea to fuse together.

Although this change had occurred, Chen Xiang was still more at ease. Because he had already made a breakthrough, he could feel that the dao energy he released from the Six souls was more than ten times stronger than before.

"Alright, these Beast statue should belong to the extremely special Six souls!" Chen Xiang looked at the six small Beast statue floating above the First Divine Sense Sea.

These Beast statue were extremely huge during the second Divine Sense Sea, but in the first Divine Sense Sea, they were as small as little birds in the sky.

However, this Six souls was extremely terrifying, and could be released with just his will. After it was released, all of them would become living Heavenly beast.

Furthermore, these Heavenly beast would not die, at most, they would only be injured.

"Did you successfully break through?" Jiang Sijing felt that Chen Xiang had already awoken from his slumber, and immediately asked.

"I broke through. I'm already at the early stage of the Tai Zun realm, but I'm still not sure if the Huazun Dan would have such an effect." Chen Xiang said: "Oh right, how long did I sleep after eating the Huazun Dan?"

"One month!" Jiang Sijing said: "Elder sister and I are both peak late stage of Six Gods Stage, you just need to refine one for us. Any one of us can make a breakthrough, as long as one of us makes a breakthrough, then with the cultivation of Twin Life Mysterious Techniques, we can help each other out."

"How amazing." Chen Xiang exclaimed. In this way, as long as one of them cultivates, the other one can break through without doing anything and save a lot of time.

"Alright, then I'll immediately refine a Huazun Dan." Chen Xiang said, "That's right, help me plant a little more Supreme Blood Coconut!"

[Chapter 2870](#)

The Supreme Blood Yam was a high-grade Supreme God medicine, it was given to Chen Xiang by the Master Wang. Although it was a high-grade Supreme God medicine, it was still more expensive, but it was only because it had a long maturity period, that was why this kind of coconut fruit was classified as a high-grade Supreme God medicine. Access:.

Chen Xiang planned to not use his own blood because there would be a large amount of blood inside the Blood Eagles. That blood was exactly the same as human blood, and it would all be filled with great power.

He wanted to try and see if the Huazun Dan that had been refined with the Supreme Blood Coconut could succeed.

After making a breakthrough, Chen Xiang's strength had greatly increased, but he was actually very calm right now. He did not think about whether it was because he wanted to see how his strength was, or if he wanted to practice something.

He patiently waited for the Primordial Blood Coconut to grow properly. He walked out of the room and breathed in fresh air as he gazed at the tranquil surface of the lake. At this moment, his heart was as tranquil as the surface of the lake.

After Master Wang walked out of the house, he saw Chen Xiang standing by the lake. Looking at Chen Xiang's back, he felt that Chen Xiang seemed to have merged with the calm lake surface, causing him to tremble violently.

Chen Xiang had broken through to the Tai Zun realm!

Anyone who stepped into the Tai Zun realm would have to go through a difficult process of becoming one with the Six Gods. Once they crossed this stage and stepped into the Tai Zun realm, they would be able to easily assimilate into nature.

When the Master Wang saw through it, he took a deep breath. He didn't know how Chen Xiang broke through, but he was sure that Chen Xiang had stepped into the Tai Zun realm in such a short amount of time.

He anxiously went over to Chen Xiang and asked: "Chen Xiang, have you really become the Supreme One?"

Chen Xiang smiled: "Yes, it is thanks to the medicine that you gave me Master Wang that I was able to refine the Huazun Dan and step into the Tai Zun realm."

Compared to when Chen Xiang had stepped into the Tai Zun realm, the fact that Chen Xiang had refined a Huazun Dan made Master Wang even more shocked.

"You really managed to refine it?"

Master Wang found it hard to believe. He had tried many times and experienced many years, but to no avail. But Chen Xiang had only tried for half a year, and he had already succeeded.

"That's right, I have mastered the basics..." Chen Xiang then told the Master Wang about the method to successfully refine the Huazun Dan.

After all, this was an ingredient provided by the Master Wang, otherwise he didn't know when he would be able to find a pill that could help him break through.

So Chen Xiang was very 'excited' about Master Wang.

After the Master Wang found out about Chen Xiang's secret technique, he couldn't help but give him a thumbs up, "Amazing, in just a few short months, you were able to understand medicine so well, and even find the crux of the problem, admirable!"

Although Chen Xiang had failed many times and also spent a lot of medicinal ingredients, the number of failures of Master Wang and the amount of medicinal ingredients required were no less than Chen Xiang's. That was why he admired Chen Xiang so much.

At this moment, the Master Wang was already impatient to refine it. He smiled and said, "I will use my own blood to refine it first.

Chen Xiang was not sure if he would be able to succeed with the Supreme Blood Coconut. He had only told this thought to the Master Wang.

The Master Wang did not have Chen Xiang's terrifying regeneration ability, but he was still a supreme Pill God after all. He had many good pills in his possession that could help him recover quickly.

Chen Xiang was already in the Tai Zun realm, adding all his other methods, his strength was extremely strong. He decided whether or not he should go find Lin Jitian and return to Myriad Gods Abyss.

"I don't have enough strength, so I won't go for now!" Chen Xiang suddenly thought of the Flying Dragon Experience Place.

It was said that it was difficult for even the Late period of Tai Zun realm to pass through the Flying Dragon Experience Place, but that did not mean that it was impossible for the Ancestor to pass at the beginning.

Therefore, if he wanted to pass Flying Dragon Experience Place, what he needed to see was not cultivation. Chen Xiang decided to try it out now, he would first obtain an even stronger power, and then decide whether or not he wanted to return to Natural Law World.

Since he did not grow the Supreme Blood Lair, it would take at least a month. Chen Xiang planned to use this period of time to understand what was happening outside.

What he did not expect was that after he had isolated himself for the past few days, the Zhao Clan had become more and more hostile towards him, and even the ancestor of the Zhao Clan had come out to say that Chen Xiang was not a good guest, and hoped that Chen Xiang could leave.

The meaning of his words was to tell the Heavenly Alchemy Sect Leader to find Chen Xiang and have him talk, so that Chen Xiang would leave, or perhaps make Chen Xiang less hostile towards them.

Chen Xiang had been in closed-door training for a long time, and a large number of Golden Dragon Magic herb had matured. However, after walking through a few shops, he surprisingly did not dare to take any of them!

They had clearly been threatened by the revered ancestor of the Zhao Clan, and even if they hadn't, they were afraid of him, so they didn't dare to go against him.

"There's actually such a thing, don't tell me that I have to personally refine the Dragon Magic Dan and sell it?" Chen Xiang suddenly felt very unhappy, the Zhao Clan's Dragon Magic Dan had sold for another 200 million.

And following that, Chen Xiang also heard a lot of rumors about him in the Zhao Clan, saying that he was someone's private 'child, a spy sent by the Flying Dragon Palace, or someone sent by the six Divine Sects to intentionally cause trouble in the Heavenly Alchemy Divine Sect ...

Hearing these rumors, Chen Xiang was very angry, Zhao Clan using such a despicable method was too shameless, if only Zhao Clan had some sort of lecherous little horn, but he, the Zhao Clan had his own ancestor, yet still used such a method.

"Alright you Zhao Clan, since the Supreme Blood Coconut is still growing, I will refine some Dragon Magic Dan and consider it my retaliation towards you all."

Chen Xiang was not afraid of the Zhao Clan at all, he immediately returned to the small island in the middle of the lake and went inside to refine Dragon Magic Dan.

Now that he was at the Tai Zun realm, refining Dragon Magic Dan was simply a piece of cake. Furthermore, he could control multiple Magic method furnace to refine at the same time.

One time he could control twenty Magic method furnace, and there were ten of them in each furnace. He could finish them in half a day.

The speed at which the Tai Zun realm was refining pills was extremely fast. He could refine four hundred Dragon Magic Dan in a day, and refine a thousand in two and a half days.

"Chen Xiang sold his Dragon Magic Dan!"

These words quickly spread throughout the entire Heavenly Alchemy Divine Sect. When many people went out to fight with the Dragon Demons, most of them were reluctant to use Dragon Magic Dan s, because it was simply too expensive. Furthermore, the effects were not good.

And when they found out that Chen Xiang had taken action yet again, and was even selling it at five thousand Myriad Tao Crystals, many people rushed to buy it from Chen Xiang one after another. By the time they arrived, however, they had already sold it all out!

With Chen Xiang doing this, Zhao Clan's Dragon Magic Dan could no longer be sold. That night, Heavenly Alchemy Sect Leader arrived at the small island in the middle of the lake.

"The Heavenly Alchemy Sect Leader is here! Is it about the Zhao Clan?" Chen Xiang walked out of the house with a questioning look. Heavenly Alchemy Sect Leader was already waiting for him in the courtyard.
