

## Dan God 2881

### [Chapter 2881](#)

At the end of the path was a table. On the table was a white jade book with nothing written on the cover. The updates were quick.

When Chen Xiang came to the table, the burning pain suddenly disappeared, causing his entire body to relax. He carefully 'touched' the book, and felt a chill.

He picked up the jade book and opened it. Every page inside was blank. There was nothing inside!

"Is this the Myriad Tao Divine Technique?" Chen Xiang looked around, and even went under the table to look once, but he did not find anything.

Just as he was about to carefully inspect the mahogany table, he realized that many cracks had suddenly appeared on the table. Then, it shattered, turning into a red light and flew away.

"Is this the only thing at the end of the Heavenly Alchemy stone wall?" Chen Xiang looked at the book in his hands and frowned. There was nothing written on it!

"Try dripping blood!" Chen Xiang immediately dripped blood on it, but to no avail.

Following that, he used many techniques to prevent the book from making any movements. Coming here, he obtained this mysterious thing, causing Chen Xiang to suddenly want to curse.

He had placed all his hopes on this book, but there was nothing about it!

"There must be something ..." Chen Xiang released the Heavenly Alchemy immortal power and gave it a try, but there was still no response.

After tossing and turning for the majority of the day, Chen Xiang rested for a bit, but he did not despair.

After all, he had been busy for a very long time. He would never give up on something like this.

"We'll talk about it when we get back. I wonder if the Flying Dragon Palace Leader will be able to do anything about it?" Chen Xiang looked at the Heavenly Refining Great Dao, and his scalp went numb, because he still had to endure the pain and walk back.

"Heavenly Alchemy stone wall, this broken place!" Chen Xiang could not help but curse, and then stepped onto the Heavenly Refining Great Dao. Just as he stepped onto it, he originally thought that he would immediately endure immense pain, but it did not come.

Chen Xiang was ecstatic, he laughed: "Haha, when we reach the end, we'll go back and be fine!"

Just like this, Chen Xiang continued to run wildly all the way, stopping and walking uncontrollably. He did not have to endure the pain, hence he was extremely fast!

In just a day's time, he had reached the big 'door' that led in!

It had taken him over a year to get here, but he had only taken a single day to get back. This meant that this path was not very long. It was just that it was very difficult to walk on.

Chen Xiang stood in front of the light curtain and took a deep breath. He didn't know what would happen after he left, and he didn't know how many years had passed since he came out. In short, when he came in, the fight outside was extremely fierce!

"Let's go all out!" Chen Xiang clenched his teeth, and ran frantically towards the light screen.

After rushing out, what Chen Xiang saw shocked him. It was not an oasis anymore, it was filled with water!

The short mountain that the Heavenly Alchemy stone wall was on was now like an island in the middle of the water.

Chen Xiang looked forward, in front of him was the endless blue ocean. It was currently noon, and the sun was extremely intense.

"What happened? You became like this after a single battle?" Chen Xiang climbed to the top of the mountain where the Heavenly Alchemy stone wall was.

"Hey!" Chen Xiang shouted, but there was no reaction.

"What should I do now? Go back? The direction has changed!" Chen Xiang was now unable to determine the direction to return to. Previously, Flying Dragon Palace Leader had promised him that he would wait for him outside, but now, he had yet to come.

Just as Chen Xiang was about to leave, he suddenly saw a small golden dragon swimming towards him like a small snake.

"This should be the Flying Dragon Palace Leader's golden dragon!" Chen Xiang had seen the golden dragon released by the Flying Dragon Palace Leader before, and its aura was the same as this little golden dragon's.

He immediately went over and caught the little golden dragon and asked, "Can you hear me? What had happened? Why is there such a huge change outside!"

"You're still alive!" The golden dragon spoke out. It was the voice of the Flying Dragon Palace Leader.

"Nonsense, of course I'm alive! Just what is going on, I want to go back!" Chen Xiang suddenly felt that a long time had passed outside.

He suddenly wanted to curse. He had lost so much time because he couldn't understand a single book.

"What's the situation now?" Chen Xiang asked.

The little gold dragon sighed and said, "This has already been over ten thousand years! This is the only body I have left."

"What? You're already dead?" Chen Xiang did not dare believe that the extremely strong Flying Dragon Palace Leader would actually die, and only the little golden dragon remained to support his existence.

"It's not that I'm completely dead, it's just that my body has been destroyed and my soul is still there." Flying Dragon Palace Leader said: "All these years, I have been waiting for you to appear here. Now, I have finally found you! "Oh right, how long have you been in there?"

"It's only been a little more than a year and it's already been ten thousand years outside. Damn it, Laozi is spending so much time on it!" Chen Xiang could not help but scold loudly, as he held onto the Heavenly Alchemy stone wall tightly: "What happened to this broken stone wall? Why isn't the light shining anymore? No one will come to understand what is going on with this Myriad Tao Mausoleum, there's water everywhere! "

Jin Long sighed. "In the past ten thousand years, many things have happened... You definitely didn't expect that, among them, all of the Four Great Divine Sects died! "

"What? They ..." They are all dead! " Chen Xiang was stunned, he did not dare believe that Heavenly Alchemy Sect Leader, who he had been laughing and talking with was now dead, and this was more than a year ago.

"Why? Why would they die?" Chen Xiang suddenly thought of Lin Jitian, the Great Clan Elder and the people who were on good terms with him, and he wondered how they were doing.

"It's a long story!" The Flying Dragon Palace Leader lied on the ground and said, "I'll tell you slowly!"

The Flying Dragon Palace Leader and Chen Xiang talked for a long time, listening to Chen Xiang's shocked tone. In the past ten thousand years, there had been too many things happening! Although the Flying Dragon Pagoda was not destroyed, the world had been turned upside down inside, especially above the Thousand Floors, which was now the world of the Dragon Demons!

Humans had already become very low level organisms, and could only survive if they were loyal to the Dragon Demon. Four Great Divine Sects and the Flying Dragon Palace were completely ruled by the Dragon Demon!

When the Flying Dragon Palace Leader suffered a crushing defeat in battle with the Dragon Elder, he could only protect his soul and hide inside the Myriad Tao Mausoleum, which was why he was not killed.

Dragon Demon Sovereign did not dare enter the Myriad Tao Mausoleum, and he hated the Myriad Tao Mausoleum very much, so he would send many strong humans there soon, causing a huge commotion inside. He even cooperated with the White Bones Imperial and the Flying Dragon Ghost Realm, making a mess of the inside of the Myriad Tao Mausoleum.

As for the Heavenly Alchemy stone wall, because it was hard for it to comprehend anything again, it had gradually been forgotten!

"I obtained this at the end of the Heavenly Refining Great Dao. I wonder just what use it has!" Chen Xiang took out the nameless jade book and helplessly said: "You've been wasting so much time, just because you got this thing?"

"This... This is the Myriad Tao Divine Arts, you have succeeded. " Flying Dragon Palace Leader said excitedly.

### [Chapter 2882](#)

Chen Xiang could not believe that this thing, which did not have any content, was actually the legendary Myriad Tao Divine Arts!

"Is this true? Why is there nothing in it? " Chen Xiang anxiously said: "Palace Lord, do you know of any way to use it? "Hurry up and tell me!"

Ten thousand years had passed, and Chen Xiang also didn't know how the Natural Law World was doing right now. He was extremely anxious, and really wanted to return to take a look, but he didn't have enough strength. The updates were quick.

"Open this book and put it on the ground. I'll try." The Flying Dragon Palace Leader seemed to have a deep understanding of the Myriad Tao Divine Arts.

Chen Xiang nodded and followed his instructions.

"You just wait patiently." Flying Dragon Palace Leader didn't know what to do as he laid on the jade book.

While Chen Xiang was waiting, he entered the Six Realms Time and Space Door to check Xue Xianxian's Wheel of Fate. After he finished looking, he discovered that Xue Xianxian's Wheel of Fate was still in quite a good state, and he could still feel joy and happiness from it. This made him feel a lot more at ease, and he then went to inspect the Wheel of Fate of his other 'women' one by one, who were already friends and relatives.

As long as the Wheel of Destiny was still there, it wouldn't be a big deal.

Lin Jitian and the Great Clan Elder were also here, which meant that they were still alive. The Four Great Divine Sects's Wheel of Fate was already gone, and they were indeed dead.

When Chen Xiang was inside the Six Realms Time and Space Door, he suddenly felt a strong wave of Heavenly Alchemy immortal power outside, he immediately left the Six Realms Time and Space Door. He saw that the 'Jade Book', which was placed on the ground and opened, released a golden light that shot towards the Heavenly Alchemy stone wall.

Chen Xiang looked at the Heavenly Alchemy stone wall that was being 'shot' by the golden light. Seeing that there were more than a hundred chants written on it, he immediately memorized them all.

"This is the complete extent of the Myriad Tao's divine arts ... Although it is simple, it can combine the Four Great Sacred Arts and fuse them into one. If you have the Four Great Sacred Techniques in your mind, you can combine them all to form the Myriad Tao Divine Arts. " Flying Dragon Palace Leader said, "Do you remember now?"

"I've already remembered it." Chen Xiang said.

"Alright!" After Flying Dragon Palace Leader finished speaking, the 'jade' book stopped releasing a golden light.

"Keep it safe, only by cooperating with the Heavenly Alchemy stone wall can you see the contents. You have memorized it already, so you won't need it again in the future." Flying Dragon Palace Leader said: "Your trip this time wasn't in vain. It has already allowed you to obtain the Myriad Tao's divine arts."

Flying Dragon Palace Leader had also learned it himself, but it was not convenient for him to cultivate in his current state, so there was a sense of loss in his voice.

"Then how is Natural Law Divine Lord now?" Chen Xiang asked.

"He's still the Bone King of the White Bones Imperial. He was originally ranked seventh, but now he's ranked first. This guy has a pretty good relationship with the Dragon Demon Lord, even though they haven't met each other before." The Flying Dragon Palace Leader said.

Even the Dragon Devil Emperor Venerable had to call him master, it showed just how powerful he was.

Now that Dragon Demon Sovereign has taken over the Flying Dragon Experience Place, only with his permission can they enter it to cultivate. Otherwise, no one is allowed to enter.

After the Flying Dragon Experience Place was taken over, the growth of humans was limited. This way, it would be difficult for them to defeat the Dragon Demons in the future.

As long as you were in Flying Dragon Pagoda, you would be enslaved by the Dragons and Demons for your entire life!

The ancient Transmission array that was teleported from the Flying Dragon Pagoda to the Myriad Tao Mausoleum was also controlled by the Dragon Demons, making it even more difficult to enter the Myriad Tao Mausoleum.

"Why did this place become a sea?" Chen Xiang asked.

"Wasn't it because of the war ... The battle was too intense, causing the ground around the Heavenly Alchemy stone wall to collapse. Afterwards, more and more water came from the Rainbow River, and over time, it became an ocean. " Flying Dragon Palace Leader mounted Chen Xiang's Six Realms mirrors.

"Do you want to return to the Flying Dragon Pagoda now?" The Flying Dragon Palace Leader said.

"That's right, I have to go back. With my ability, it shouldn't be a problem for me to quietly grow inside." Chen Xiang said.

"But... It's not easy for you to return. The formation to return is already under the control of the Dragon Demons. " The Flying Dragon Palace Leader replied, "It was also with great difficulty that I came here back then."

As long as I leave this area, I will be able to use my spatial power and return to the Flying Dragon Pagoda. With my current strength, this shouldn't be a problem. Chen Xiang said.

"That's for the best, then let's go back! You must think of a way to go to the Flying Dragon Experience Place, a place that can make you stronger. " The current Flying Dragon Palace Leader was extremely weak, so he could only rely on Chen Xiang.

Although Chen Xiang did not have any good impressions towards the Flying Dragon Palace, he and the Flying Dragon Palace Leader did not have any deep grudges either. They had a common enemy now, and both had a common goal.

The Flying Dragon Palace Leader was not as arrogant as before. After all, he no longer had the strength that could look down on all the heroes, and he could no longer be arrogant.

Under the guidance of the Flying Dragon Palace Leader, Chen Xiang came to the Divine Ghost Imperial Country and then used the power of space to return there.

When he returned, he used the Six Realms Time and Space Door, so he was able to sense where Lin Jitian was.

"So fast!" Although the Flying Dragon Palace Leader was strong in the past, they were not strong enough to be like Chen Xiang.

"It's also exhausting my strength." Chen Xiang let out a long breath, "Ten thousand years have passed, but I haven't made any progress in all these years. The Dragon Demons in the Flying Dragon Pagoda must be very strong."

"That's not it. You are an early stage Tai Zun realm after all, and you even possess a Heavenly Alchemy immortal power!" The Flying Dragon Palace Leader said: "Even though the Heavenly Alchemy Divine Sect is dead, he left you something. It is in the Great Clan Elder's hands, you must find the Great Clan Elder."

"What is it?" Chen Xiang asked anxiously.

"The most valuable treasure of the Heavenly Alchemy Divine Sect, the Heavenly Refining Divine Cauldron!" The Flying Dragon Palace Leader said, "This is a supreme divine object, the Heavenly Alchemy soul was created using the divine furnace. Back then, he risked his life just to protect this divine object and let the Great Clan Elder take it away."

"Is he really going to give it to me?" Chen Xiang didn't dare believe that such an important thing was actually going to be given to him.

"Who should I give it to if not you? Only you are worthy of this divine cauldron, your Heavenly Alchemy soul and body are fused, and you are even cultivating the Myriad Tao Divine Technique. " Flying Dragon Palace Leader said: "So you have to quickly find the Great Clan Elder. Right now, many people are looking for him ... Especially that Zhao Clan! "

"Zhao Clan?" Of course Chen Xiang did not forget. He was just curious about how the Zhao Clan was doing now.

"Zhao Clan is now a follower of the Dragon Demon, a lackey of the Dragon Demon. These bastards!" The Flying Dragon Palace Leader cursed.

"Alright, I'll go find the Great Elder now, but I need to find two friends first. They're both pretty strong." Chen Xiang wanted to find Lin Jitian and Little Bat, they were still alive.

Lin Jitian was now near him.

...

### [Chapter 2883](#)

Although Flying Dragon Palace Leader was the only overlord of the Flying Dragon Palace and was extremely powerful, many people in the Flying Dragon Palace knew that he was very respectful.

However, ever since he had lost, the people who had been loyal to him in the Flying Dragon Palace had all pledged their allegiance to the Dragon Demon. Only then would they be able to continue living.

When the Flying Dragon Palace Leader brought up this matter, he really wanted to go to the Flying Dragon Palace and kill all of those fence-sitters.

Chen Xiang came to the foot of a large tree. The trunk of the tree was very thick, and could fit a small house inside.

"Uncle Lin." Chen Xiang shouted from the powerful tree trunk.

Using the Dao heart Eye, Chen Xiang could immediately tell that there was a space inside the tree trunk, but he could not clearly see if there was anyone inside.

However, he had sensed from the Six Realms Time and Space Door that Lin Jitian's ingyun wheel was here, so Lin Jitian would definitely be.

"Isn't it here? "That's impossible!" Chen Xiang waited a while, but still did not make any move, as his heart was filled with suspicions.

Just as Chen Xiang was about to use the spatial teleportation technique, the big tree suddenly shook, and released a white light, then Lin Jitian walked out.

"Uncle Lin!" Chen Xiang was very excited.

Lin Jitian was even more agitated than him, he had thought that Chen Xiang had died and it had been ten thousand years since they last met.

"Brat, you didn't die! That's great!" Lin Jitian quickly pulled Chen Xiang into the tree trunk.

Behind the jinqi was a small hall, where Lin Jitian had been hiding all these years.

Chen Xiang could also tell that Lin Jitian's current cultivation was still at the Late period of Tai Zun realm, so it would not be easy for him to step into it.

"Uncle Lin, how have you been these past few years?" have you not stepped into the Venerable ancestor realm yet? " Chen Xiang felt that this ten thousand years should be enough for Lin Jitian to break through.

Lin Jitian shook his head: "Right now, improving is becoming more and more difficult. According to what I know, if one wants to enter the Venerable ancestor realm, they would normally have to go to the Flying Dragon Experience Place to cultivate.

"What about the little bats? Do you have any contact with him? " Chen Xiang asked. The little bat had said before that it would cultivate and charge into the Venerable ancestor realm.

"He has already become your ancestor. I haven't seen him for many years. The last time I saw him was more than a thousand years ago." Lin Jitian sighed: "Last time, he said that he was going to the Dragon Devil Dead Land. I wonder how he is doing now."

"Why do you want to go to the Flying Dragon Experience Place after stepping into the Venerable ancestor realm?" Chen Xiang released the little golden dragon. This was the Flying Dragon Palace Leader, he understood the matters of the Flying Dragon Experience Place the best.

The Flying Dragon Palace Leader said: "The Flying Dragon Experience Place has a special power, and after actually cultivating inside, it can allow people to cultivate the Golden Body of the Myriad Tao. If they want to become an ancestor, they must have the Golden Body of the Myriad Tao."

Lin Jitian nodded, "I never thought that after separating for ten thousand years, how have you been? Where are they? "

"I'm inside the Heavenly Alchemy stone wall ... I've only been inside for more than a year. " Speaking of this matter, Chen Xiang felt very uncomfortable, he had lost ten thousand years in vain.

Then, Chen Xiang told Lin Jitian about the situation inside the Heavenly Alchemy stone wall.

Lin Jitian knew that Chen Xiang was still alive, and also knew that there was hope!

Now that the Flying Dragon Experience Place was under the control of the dragon demon, without extremely powerful strength, it was impossible to overthrow the dragon demon's rule. In that case, it would be almost impossible to use the Flying Dragon Experience Place to cultivate the Golden Body of the Myriad Tao.

However, Chen Xiang was able to use the corpse of such a terrifying mouse to refine a Jinzun Dan, and this Jinzun Dan was able to help a person cultivate the Myriad Tao's Golden Body.

Because he could not break through, Lin Jitian looked much older.

Chen Xiang now knew that refining Jinzun Dan was his top priority, but he still had to find Little Bat and the Great Clan Elder. In this situation, he needed to gather these trustworthy people.

After Chen Xiang sensed the little bat's location from the Six Realms Time and Space Door, he brought Lin Jitian there. This place was very close to the Dragon Devil Dead Land, and when they arrived, Chen Xiang sensed the aura of the Dragon Demon and thought that he had entered the Dragon Devil Dead Land.

If Lin Jitian had not told him that this was only a city outside of Dragon Devil Dead Land, he would not have believed it!

"How is it inside the Dragon Devil Dead Land?" Chen Xiang looked in the direction where the dragon's demonic aura was coming from.

"There are a lot of Dragon Demons there. They have already built a city inside, but I have no idea where these Dragon Demons came from." Lin Jitian said: "Are you sure that the little bat is here?"

"I'm sure I'll be able to find him soon." Chen Xiang said, then once again entered the Six Realms Time and Space Door. Not long later, he teleported with Lin Jitian.

This time they came to a dark cave in the mountain.

Coming here and sensing the weak aura of the little bat, Lin Jitian immediately shouted excitedly: "Little bat, I am Old Lin!"

When Lin Jitian shouted, the surroundings suddenly lit up, only to see a gigantic golden bat hanging upside down on the belly of the mountain, following that, a green haired teenager running out from the dragon bat's wings.

The little bat looked like a child previously, but now he was a teenager. His strength had increased a lot as well.

"Old Lin, Chen Xiang!" The little bat knew them and couldn't help but laugh happily.

Afterwards, Chen Xiang and the other two started to chat with each other. They knew that the reason the little bats were at this place was to observe the Dragon Devil Dead Land, because there were too many secrets hidden in the Dragon Devil Dead Land.

He had been here for many years, and had gained a lot!

"There are already cities built in the Dragon Devil Dead Land, and all of these cities actually have Transmission array s. These Transmission array s are actually connected to other large cities." The little bat said: "These Transmission array are not easy to arrange, but they understand!"

"There must be a master capable of using the Transmission array to help them from the back." Chen Xiang said, "Who exactly is it? Why are you helping these guys! "

"I don't know. In short, the Demonic Dragon has gradually become more human. On the outside, it looks like a human, but if we fight, it will reveal the shape of a Demonic Dragon." The little bat shook its head: "There are currently many Dragon Demons in the Dragon Devil Dead Land. In the few large cities, humans are allowed to join them, and I need to agree to become their slave or serve one of the Dragon Demons."

"Humans have a very low status in there. If you have strength, you don't need to be a slave, but you need to be one of their subordinates."

Chen Xiang said: "We must change this situation. These Dragon Demons are always hidden dangers. We don't even know what they want to do!"

After that, Chen Xiang told Little Bat of his plan to look for the Great Clan Elder with him. He was worried that he would encounter danger on the way, because with the protection of the Venerable ancestor realm, he would be much safer.

#### [Chapter 2884](#)

Bat immediately promised Chen Xiang to go with him to look for the Great Clan Elder. The updates were quick.

The Great Clan Elder had the Spirit Refining Furnace in his hands, and Chen Xiang felt that if he could get it, it would allow him to refine the Jinzun Dan a little faster.

In this situation, it was hard for him to earn Dao crystal by selling pellets and medicines, and he did not have many Dao crystal with him right now. If he were to use Chuangshi god furnaces to refine, he would need a large number of Dao crystal.

When Chen Xiang sensed the Great Clan Elder from the Wheel of Fate in the Six Realms Time and Space Door, he realized that the situation for the Great Clan Elder was not bad. Her life force was extremely strong, and from this, Chen Xiang could tell that the Great Clan Elder was in a very good condition.

Moreover, he could clearly sense the location of the Great Elder!

After teleporting twice, Chen Xiang finally arrived at the place where the Great Clan Elder was hiding. This was a desolate, lifeless land.

However, not long after, he saw an old man quickly flying over. It was the grand elder.

When the Great Clan Elder of the Refining Divine Sects saw Chen Xiang, he was very excited and immediately increased his speed by a fold.

At this moment, he still could not believe it. He pinched Chen Xiang's arm and felt that there was blood and flesh on it.

Lin Jia, the bat sitting beside Chen Xiang, also started laughing.

"Grand Elder, have you been well these past few years?" Chen Xiang smiled slightly.

"He's still alive. That's not too bad." The Great Clan Elder laughed bitterly. Even though he was still alive, the entire Divine Sects was already under the control of someone else. The Zhao Clan controlled the Divine Sects and he was often hunted down and killed by the Zhao Clan.

What caused him the most grief was the death of the Leader who refined the Divine Sects!

"Do you have anything to gain from going inside the stone wall?" The Great Elder asked.

"Yes!" Chen Xiang nodded: "Let's talk somewhere else!"

The Myriad Tao Divine Arts that Chen Xiang had obtained from the stone wall was extremely important, he had planned to pass it down to the Great Clan Elder since the Great Clan Elder had brought the Leader along with him!

The Great Clan Elder brought Chen Xiang into a secret room deep underground. After he went down there, Chen Xiang immediately passed down the Myriad Tao's Divine Arts to him.

When the Great Clan Elder obtained the Myriad Tao's Divine Arts, he felt excited and at the same time sad. If the Leader was still alive, he would definitely be very happy.

"This is the Spirit Refinement Furnace, Leader gave it to me that day and asked me to transfer it to you. If I didn't fulfill Leader's last wish, I would have already gone to Dragon Devil Dead Land and fought for my life." The Great Clan Elder handed the Spirit Refinement Furnace over to Chen Xiang. It was a golden cauldron, and it looked very simple, as if it was made by a child using mud.

"This is the Spirit Refinement Furnace?" Why does it look so terrible! " Bat said, "It's like being pinched by a child!"

"Hehe, this Spirit Refinement Furnace is truly being pinched by a child. Moreover, it is the first cauldron under the heavens!" "Legend has it that after the child produced a cauldron, a surge of power was absorbed by the child. The cauldron also absorbed the first bit of power from the earth, so it became this Spirit Refining Furnace."

"Of course, this is only passing down from the sect. I don't know if it's true or not, but in short, this is the Spirit Refinement Furnace without a doubt." The Great Elder said.

Chen Xiang took it over and held it in his hand. When he touched it, he could feel the terrifying power within the Spirit Refinement Furnace ...

Then, he took out the Chuangshi god furnace!

The Chuangshi god furnace had also merged with other cauldrons before, so he wanted to see if the Chuangshi god furnace could still fuse with this Spirit Refinement Furnace.

What he did not expect was that they were able to fuse together once again, and the two cauldrons actually came into a tacit understanding as they clashed.

The moment they collided, a golden light flashed. Chen Xiang and the others could not see the situation clearly!

"What's going on?" The Great Clan Elder was extremely anxious. This was a treasure of the Divine Sects, and now this strange phenomenon had occurred.

"After fusing the Spirit Refinement Furnace with my pill furnace, I will still be able to preserve the abilities of the Spirit Refinement Furnace." Chen Xiang laughed: "Don't worry."

The Chuangshi god furnace and the Spirit Refinement Cauldron quickly merged together, and their shape did not change much, and they still looked like Chuangshi god furnace!

However, Chen Xiang realized that Chuangshi god furnace could also transform into the shape of a Spirit Refinement Cauldron!

Of course, Chuangshi god furnace s were more beautiful!

"It's fused ..." "What's this called?" The Great Clan Elder could not help but exclaim in his heart when he saw the treasure he obtained from refining the Divine Sects change to something else.

"Cauldron Forging Furnace!" Chen Xiang laughed: "This thing should be able to speed up my refining process. If it's true, we might not be able to change the situation!"

The Great Elder shook his head. As long as that guy is alive, there will be no hope for us at all. He is a very powerful being, and even Flying Dragon Palace Leader died miserable deaths in his hands! "

"I'm not dead yet!" Flying Dragon Palace Leader suddenly ran out and shouted.

"Fly ..." Flying Dragon Palace Leader, you are still alive! " The Great Elder said in surprise.

"Of course I'm alive. How can I die that easily? Sooner or later, I will seek out the Draconians to seek revenge. " At this time, Flying Dragon Palace Leader had also grasped the Myriad Tao Divine Arts. With the Myriad Tao Divine Arts, he felt that he still had a chance to make a comeback.

"That's good. I will now continue to refine pills. First, I will allow Uncle Lin and Great Elder Lin to become revered ancestors!" Chen Xiang said. Ten thousand years had passed and the Great Elder was still in the Late period of Tai Zun realm, so his situation was the same as the Lin Family's.

"You have a way?" The Great Clan Elder couldn't believe that Chen Xiang could actually refine a pill that could help him step into the revered ancestor realm.

"I just have a certain amount of confidence that I can do it. This will take a bit of time." Chen Xiang said: "Right now, I need to make a trip to Myriad Tao Mausoleum!"

"Why are you going to the Myriad Tao Mausoleum?" The Great Clan Elder did not understand, "The situation in the Myriad Tao Mausoleum is also very bad, Divine Ghost Imperial Country does not dare to casually open the big doors of the Myriad Tao Mausoleum now!"

"It's fine, even if I don't open the door, I can still enter!" Chen Xiang laughed: "All you need to do is wait here for me. Right, you guys must think of a way to 'get' more Dao crystal for me. I need a large number of Dao crystal right now, and it would be best if I could get a few trillion! "

Tens of billions of Dao crystal were all there! However, Lin Jia, Bat and Great Elder were not ordinary people. Although they could not guarantee that they could get their hands on it, they still nodded their heads and promised Chen Xiang as much as possible as they tried to get their hands on more Dao crystal.

Chen Xiang only had three trillion Dao crystal on hand, he did not know if it was enough!

If Chen Xiang could enter the Six Realms Time and Space Door and grasp the power of space, he could teleport himself out and enter the Divine Ghost Imperial Country s.

There were no spatial restrictions within Myriad Tao Mausoleum, so Chen Xiang could easily enter.

Once again entering the Divine Ghost Imperial Country, Chen Xiang followed his memories and arrived outside the house where the Time Ghost was.

In order to save time, Chen Xiang could only come to Time Ghost!

"Time Ghost, I'm here again. Do you still remember me?" Chen Xiang snickered after entering.

"It's you!" You... How did you get here? does not seem to have opened it yet. " Time Ghost exclaimed: "You have become much stronger!"

"Un, not bad. I need to buy some time now!" Chen Xiang said with a smile, "Is it still okay now?"

### [Chapter 2885](#)

If Chen Xiang wanted to quickly refine Jinzun Dan, he would need a large number of Dao crystal to activate the array formation inside the furnace, but he did not have that many Dao crystal. The updates were quick.

Therefore, he could only use more time to refine it, which was why he thought of coming to this place to look for Time Ghost.

"Of course you can, but the usual price is one billion Dao crystal for one hour. If you stay inside for one hour, it will only take two hours!" Time Ghost was very willing, he had not had any business for a very long time.

"I'm going to stay here a little longer." Chen Xiang laughed: "Is that okay too?"

"No problem, as long as you have many Dao crystal, you can stay as long as you want." On one hand, there were very few people who could find him here, and adding that the opening of the Myriad Tao Mausoleum's Earth Gate was not that frequent, the last time someone came here, was seven to eight thousand years ago.

The last time he bought the time from Time Ghost, it was also with Chen Xiang!

"Alright, I'll buy 30 first!" Chen Xiang gave Time Ghost thirty billion Dao crystal.

If he were to use an array formation to refine a Jinzun Dan, the cost would be over ten billion, but now that the Chuangshi god furnace and the Spirit Refinement Furnace had fused into a furnace, the speed would definitely increase.

Chen Xiang estimated that he only needed twenty billion Dao crystal to do that!

Right now, he did not know that this method was more worthwhile, so he could only enter and give it a try.

Chen Xiang took out a mouse from the Six Realms mirrors. This mouse had entered into the Refining Stone Wall with him, so the time they spent there was the same. It had only been a little more than a year.

"Now let's see if I can refine this thing without activating the formation inside the cauldron." Chen Xiang placed the mouse into the furnace and poured the strong divine flame.

After entering the furnace, the divine power fire immediately increased by more than ten times. It had suddenly increased by this much, which was unexpected for Chen Xiang!

"The Spirit Refinement Cauldron is indeed powerful. After it merged with my Chuangshi god furnace, it became even more formidable!" Chen Xiang was extremely agitated. Even if he did not use Dao crystal now, he could still incinerate the mouse's Myriad Tao's Golden Body.

"According to this speed, I should be able to refine one out of three pills!" Even if I had to use thirty billion Dao crystal s to activate the formation previously, it would still take me half a month. According to this speed, I can refine ten of them in a month inside this place.

"I need to stay here for 300 pills before I can refine 100 of them. About 100 of them can cultivate the Myriad Tao's Golden Body!" Chen Xiang thought, it was not that hard a task for him, but it would be a little boring.

"Looks like I have to try out the Crash method. If I am successful in my attempt, I might only need fifty of them to cultivate to reach the Myriad Tao Golden Body. I can also save more rat 'flesh'."

Chen Xiang patted the furnace, feeling that it should be able to withstand the power that came out from the collision.

"Alright, let's try to use the Crash method!" Chen Xiang had already made his decision, thinking that he needed to become stronger even faster. After all, ten thousand years had passed since the dao world started.

After two more days, Chen Xiang was already prepared to condense the pellet, and in order to perform the Crash method, he needed to do so at this stage.

He took a deep breath and then skillfully activated the Crash method, controlling the lump of golden energy into eight strands, and then fiercely collided with them!

BOO!

As expected, the furnace was able to withstand the pressure. Even though there was a lot of commotion, the furnace was fine.

"It's a success!" Chen Xiang was also sweating profusely, he himself had tensed up in that instant, he was extremely satisfied with his control, and was able to hold out just now.

"What the hell are you doing?" Time Ghost was shocked by the commotion.

"I'm concocting pills!" What's wrong? "Does it have a big impact on your room?" Chen Xiang asked: "Don't tell me that you've 'ruined this house', right?"

"Of course not, it's just a little scary!" The Time Ghost laughed.

"Time Ghost, hasn't your Divine Ghost Imperial Country's Ghost Emperor woken up? I heard that your Divine Ghost Imperial Country was being suppressed really severely. " Chen Xiang asked.

"Isn't that so? There's no other way. Who knew that when the Flying Dragon Ghost Realm and the White Bones Imperial united, our dynasty would become like that? " Time Ghost said.

"So, what are you going to do next?" Chen Xiang asked again.

"I don't know, how could a minion like me know?" However, the current Myriad Tao Mausoleum is in a very bad situation. It has been a long time since such a noisy and noisy situation has occurred, would there be a big battle? " The Time Ghost replied, "Fortunately, I do not need to participate in the battle."

Chen Xiang asked a few more questions, but Time Ghost didn't understand any of them, so Chen Xiang didn't continue asking.

Next, he charged at the Jinzun Dan twice!

Very quickly, the second collision ended and a Spiritual God was born! Pills with a Spiritual God could form and refine themselves.

"Great! With a Spiritual God, I'll be able to fuse a lot more!" Chen Xiang laughed out loud. After that, he would enter the Core Formation stage, and after that, he would be unable to control himself.

Very quickly, this [Second Crash] s Jinzun Dan was refined, and Chen Xiang immediately ate it. That way, he would be able to find out how effective the medicine was!

After eating, the Jinzun Dan refined itself, and the refining speed was extremely fast. It wasn't long before he clearly knew the effects.

"It's five times better than before. In that case, I only need twenty of them to cultivate the Myriad Tao's Golden Body." Chen Xiang clenched his fist.

To him, refining 20 pills was a piece of cake. It only took him two months!

Originally, he planned to give it to the Great Clan Elder and the rest to eat, but now that this situation had occurred, he changed his plan and refined all of the Jinzun Dan that he needed in one go.

"One of the Great Elder, Uncle Lin, I, and Mei Jing Sisters would need eighty pills, which would probably take around eight to nine months. Three hundred or so, which is equivalent to three hundred hours outside! "In other words, Uncle Lin and the others will need to wait for a month. It's not a very long time."

And before, Chen Xiang would need half a month to refine one pellet, and need to refine one hundred to be able to cultivate the Myriad Tao's Golden Body, but now, he would need twenty, and twenty would only need two months!

The reason why he could improve so much was all because of the Spirit Refinement Furnace. The furnace that the Spirit Refinement Furnace had merged with his Chuangshi god furnace was extremely powerful, allowing him to refine Jinzun Dan at twice the cost of half the effort.

After that, Chen Xiang bought a total of about 300 million years from the Time Ghost, using up about 300 billion Dao crystal. This 300 billion was nothing to Chen Xiang, and was definitely worth it in his opinion.

Time Ghost was also very happy, coming here would be a huge deal!

After three hundred years, Chen Xiang had long cultivated the Myriad Tao's Golden Body, and also stepped into the middle stage of the Tai Zun realm. The Jinzun Dan's power could strengthen the Six souls, but it could only help him reach the middle stage.

However, he had the Myriad Tao's Golden Body, which meant that it would no longer be difficult for him to step into the Venerable ancestor realm!

### [Chapter 2886](#)

Chen Xiang walked out of the room, left the Myriad Tao Mausoleum and returned to the Flying Dragon Pagoda.

He had only left for two months, but was already at the middle stage of the Tai Zun realm at the moment. Furthermore, he had cultivated the Myriad Tao's Golden Body, and all of the Mei Jing Sisters inside the You Yao Mountain Villa had also stepped into the Tai Zun realm and cultivated the Myriad Tao's Golden Body, quickly advancing to the middle stage of the Tai Zun realm.

Lin Jitian and the Great Clan Elder were both at the peak of Late period of Tai Zun realm, they only needed to cultivate the Myriad Tao's Golden Body, and they would be able to become revered ancestors.

They had been stuck in the Late period of Tai Zun realm for many years already, but because they could not go to Flying Dragon Experience Place to cultivate, and because they could not cultivate the Myriad Tao's Golden Body, they were unable to break through.

When Chen Xiang returned, he immediately gave the Jinzun Dan to them!

The Great Clan Elder took the twenty Jinzun Dan pills, still having some suspicions about this, because he had never heard of a pill that could help a person cultivate the Myriad Tao's Golden Body. Although he was also a Alchemist, this was still too inconceivable to him.

However, Lin Jitian knew very well that this was true, because he knew the terror of those mice!

"Uncle Lin, is that enchantment still there?" Chen Xiang asked.

Back then, it was precisely because of that place that Lin Jitian came across those terrifying rats. If that barrier was still there, then there would definitely be treasures left inside.

"I'm still here, are you going?" Lin Jitian asked: "Do you want me to go with you?"

"There's no need. I'm already in the middle stage of the Supreme Realm. My power is much stronger than before. When I was in there, there was no problem, let alone now." Chen Xiang laughed: "I just don't know if they noticed anything strange about that place."

"There are some Dragon Demons that have tried, but the Dragon Demons do not understand much about it. Soon, all of them have been eaten by rats!" Lin Jitian said, "I will go to the capital every once in a while, and there will always be many Dragon Demons there ... Right now, there should be quite a few Dragon Demons or humans inside. "

There were a lot of Dragon Demons, and they loved to walk around. In this past ten thousand years, it was not strange that the Dragon Demons had found that place. Chen Xiang was worried that the things hidden inside might be found.

Lin Jitian and the Great Clan Elder would need a period of time to refine them, so Chen Xiang planned to go inside the mysterious barrier to find out.

After Chen Xiang told the Great Clan Elder and Lin Jitian what would happen after he ate the Jinzun Dan, as well as the things that he needed to pay attention to, he headed towards the barrier.

Chen Xiang took out the Six Realms mirrors, sat on top of it, and then used his spatial energy to teleport over.

Chen Xiang let Flying Dragon Palace Leader come out from the Six Realms mirrors and asked: "Flying Dragon Palace Leader, do you recognize this place? The mouse I mentioned before appeared in here. "

"Let me think... It would be even better if you could tell me the terrain within a ten thousand kilometer radius. This will help me determine what kind of region this is. " The Flying Dragon Palace Leader said.

"Alright, I'll tell you the situation in the area with a radius of a thousand miles first." Chen Xiang then rode on his Six Realms mirrors, and flew a circle above the barrier, before turning everything he knew into an image for Flying Dragon Palace Leader to see.

The Flying Dragon Palace Leader was one of the earliest ancestors and could be considered to be one of the oldest existences in the Flying Dragon Pagoda. Now that Chen Xiang wanted to know what was hidden inside the barrier, he could only ask the Flying Dragon Palace Leader.

Not long later, Flying Dragon Palace Leader suddenly exclaimed: "It's actually this place!"

"Where is it?" Chen Xiang asked anxiously, the Flying Dragon Palace Leader was aware of his situation.

"You should know that the Myriad Tao Mausoleum is a heavenly prison, where many extremely strong and evil beings are imprisoned. And after the evil spirits leave, they will not be able to come out." The Flying Dragon Palace Leader said.

"Bucuo!" "What does it have to do with this place?" Chen Xiang thought for a while, then asked, he could not think of any relationship between the two.

"But, in the Myriad Tao Mausoleum, there were demons that ran out themselves. This place is where the evil monster once resided, and now, the evil demon should already be dead, when he ran over, he was sealed in this place by a mysterious power."

The words of the Flying Dragon Palace Leader made Chen Xiang's body tremble. An evil demon that could run out of the Myriad Tao Mausoleum must be very powerful.

"Are you sure that guy is dead?" Chen Xiang anxiously flew out of the barrier, he was worried that the evil demon hidden inside would suddenly appear.

"He should already be dead, otherwise he would have already run to the ground!" Flying Dragon Palace Leader said, "Back then when he was sealed in this place, we didn't dare to get any closer. We were worried that he would kill us!"

"How much do you know about this? Will there be anything good left behind?" Chen Xiang asked, and then flew inside the barrier. At this time, he knew that there were a lot of people below.

"I only know that this is a big rat, a very powerful rat monster." Flying Dragon Palace Leader replied, "I know nothing else."

A powerful mouse monster! Chen Xiang thought about those little mice. They were truly powerful, they could even easily kill the Late period of Tai Zun realm!

"How can I find what's hidden here?" Back then, Lin Jitian's friends knew that there was something inside, but it seemed that it was already dead.

Chen Xiang used the Dao heart Eye to look at the ground from midair, but was unable to discover anything.

"Oh right, those mice should know a bit about this. I wonder if I can search through their memories!" Chen Xiang caught a mouse, and then used Soul Absorbing Devil Spell on the mouse to search its memories.

Mouse's memories were not many, and it was very simple, but he could give Chen Xiang very useful information.

There was a underground palace under this barrier. In Lao Shu's memory, he had mentioned when he would return to the underground palace and when he would come out. Furthermore, if anyone approached him on the ground, he must kill them and eat them.

Chen Xiang didn't find anything useful in the mouse's memories, and it also didn't have anything to do with the mouse Ancestor.

"Do you want to know?" Chen Xiang pondered. After all, there was a big rat nest down there, and although he had caught a lot of rats inside, there were still a lot of them.

"Descend!" Chen Xiang made his decision, and then, he released a very strong spatial sensing power to sense everything in the surrounding space.

It took him over two hours to sense the underground palace. After which, he immediately teleported.

"This underground palace is really deep. As expected of the mouse nest of the Ancestor." Chen Xiang came to the underground palace. It was very dark here and there wasn't the slightest bit of light.

Because he accidentally made a little noise, many dots of green light suddenly appeared. When he took a closer look, he couldn't help but feel his scalp go numb. It was actually a lot of rats!

These mice were as powerful as the ones he had captured. They were all rats with the Myriad Tao's Golden Body, and possessed terrifying speed!

"Dammit, why are there so many rats?" Chen Xiang took out a light emitting stone and illuminated his surroundings. There were many rats, but the thing that attracted him the most was a black bead.

### [Chapter 2887](#)

The bead was as big as a watermelon and it was black all over. There were a lot of black energy inside the bead. At this moment, he saw a tiny mouse coming out of the black bead!

"Was it the black pearl that gave birth to the mouse?" Chen Xiang never thought it would be like this, he thought there was a female mouse crazily making mice. <>

Right now, Chen Xiang was holding onto the Six Realms mirrors. The array formation released by the Six Realms mirrors had a strong defensive power, and a lot of rats flew over, but were repelled by the array formation above, causing them to be unable to approach him.

"What exactly is this thing?" Chen Xiang immediately told Flying Dragon Palace Leader about the black pearl he saw.

"Quickly go and get it. This is an extremely precious item. If I'm not wrong, it should be a beast core left behind by the Ancestor after his death!" The Flying Dragon Palace Leader said anxiously.

Originally, Chen Xiang wanted to walk over to take a look, but he was stopped by a large group of rats. Although these rats were unable to injure him, they released a huge amount of power and were frantically trying to break through the formation to protect him.

During the collision, Chen Xiang found it difficult to even move, so he had no choice but to retreat.

"You can't stop me!" Chen Xiang laughed mischievously, and then, using the spatial extraction technique, he took the black pearl into his hands.

"How do I use it now?" Chen Xiang asked.

"Drops of blood. We'll know when we drip blood." Flying Dragon Palace Leader replied, "As for what it will be used for, I'm not too sure either. In short, it will definitely be useful."

Chen Xiang immediately bled!

As the blood dripped, he suddenly had a strange feeling. After he understood this feeling, he was suddenly overjoyed!

He did not expect that he would be able to sense all the rats here!

The rats here were all his slaves, and they were all under his control. Furthermore, he could see everything the rats were looking at!

"That's great!" Chen Xiang thought for a bit, then all the rats gathered here, and many of them started to move back.

He counted over five thousand rats!

These rats could not leave the boundary, but he could!

As long as he put these mice into the Six Realms mirrors, he could bring them away.

Not long after, he put all five thousand or so mice into the space within the Six Realms mirrors and left the underground palace.

He also realized that as long as he injected his Dao Energy into the black Rat emperor beads, he would be able to make it give birth to mice, and the rat would only need to absorb a certain amount of Dao energy to grow quickly.

These rats all had strength comparable to the Late period of Tai Zun realm, especially when they ganged up and attacked it together, they would definitely win.

"How are things now?" Flying Dragon Palace Leader asked anxiously, he did not know that Chen Xiang could control this rat.

"I'm the new King of Mice now, haha." Chen Xiang laughed, he had already left the barrier with the group of rats.

This barrier was only famous because of the powerful rat that killed the Tai Zun realm. Now that this mouse had been brought away by Chen Xiang, this place would also become a deathly zone in the future.

Chen Xiang returned to the belly of the mountain where Little Bat was. The Great Clan Elder and Lin Jitian were still in closed door cultivation, while Little Bat was not.

"I wonder where that fellow went!" Chen Xiang had originally planned to invite Little Bat to the Dragon Devil Dead Land to have a look.

He felt that being able to control these rats would give him a lot of power. Even if he went to the Dragon Devil Dead Land, he wouldn't need to worry about being surrounded by the Dragon Clan.

"There's no need to wait for him. Go directly to Flying Dragon Palace and see if there's any way to enter there. You need to go to Flying Dragon Experience Place to gain experience!" Flying Dragon Palace Leader said, "You will know once you enter the Flying Dragon Experience Place. If you cultivate inside, the power you will gain will make you stronger!"

"With the same Late period of Tai Zun realm, if one has been trained in the Flying Dragon Experience Place, their strength would be stronger than other Late period of Tai Zun realm s."

If Lin Jitian and the Great Clan Elder succeeded, they would also step into the Venerable Ancestor Later-stage. Furthermore, he was still in the middle stage of the Tai Zun realm, so he had to use this time to catch up.

Right now, he had no good way to continue levelling up, so he could only go to Flying Dragon Experience Place to take a look.

Flying Dragon Palace Leader was the most familiar with Flying Dragon Experience Place, and under his guidance, they quickly reached Flying Dragon Palace!

There were large cities around Flying Dragon Palace, and it was already very lively in the past, but now that they were ruled by the Dragon Demons, the ones managing the cities around the Flying Dragon Palace were still the same people, they had all betrayed the Flying Dragon Palace Leader, surrendered to the Dragon Demons, and became the Dragon Demons's underlings.

This was something that the Flying Dragon Palace Leader would never forget!

Right now, no one dared to sell Dragon Magic Dan, no one even dared to mention, after all, this was the world of the Dragon Demons!

One of the strengths of Dragon Demons was their poison. Almost every Dragon Demon could release the poison of Dragon Demons, and the poison released by the powerful Dragon Demons was even more powerful!

However, the poison released by the powerful Dragon Demons had an instantaneous effect, and there was no way to guard against it at all, unless one ate the Dragon Magic Dan beforehand.

Only the Zhao Clan and Chen Xiang possessed the Dragon Magic Dan s' medicine. The Zhao Clan was currently a loyal supporter of the Dragon Demon Empire, and they had long since destroyed all the Dragon Magic Dan s' medicine, letting them die, so as to display their loyalty.

Therefore, in the current battle, you had to be very accurate and fast. Otherwise, if you couldn't kill the dragon with a single blow, the dragon would immediately poison you with its poison once it reacted!

Without the Dragon Magic Dan, the poison of the Dragon Demons were fatal, especially after being poisoned by the strong poison of the Dragon Demons.

Chen Xiang was in a city around Flying Dragon Palace. Although there were many Dragon Demons here, they were still a lot fewer compared to humans.

In this place, regardless of whether one was strong or weak, the Demonic Dragon was an existence similar to a great lord. No human would dare to offend the Demonic Dragon!

Although they were ruled by the Dragon Demons, humans still lived a good life. Unless they were unlucky, accidentally provoking the Dragon Demons would make them miserable.

Humans had been ruled for a long time. Due to the great disparity in strength, they had gradually lost their will to resist. In addition, their current situation wasn't that bad. In order to preserve their lives, no one would make enemies with the Dragon Demons.

The strongest amongst humans was the Flying Dragon Palace Leader, but the Flying Dragon Palace Leader was defeated by the Dragon Demon. Ever since the Flying Dragon Palace Leader was defeated, the human had not pulled himself together.

But from time to time, there would be a small group of humans secretly fighting against the Dragon Demons, often assassinating some of the more evil Dragon Demons!

"What kind of existence is the Dragon Demon? People are not human, dragons are not dragons, and demons are not devils!" This was Chen Xiang's conclusion to the Dragon Demons.

The Dragon Demons all had the outer appearance of a human, had a strong Dragon Power and a certain level of demonic nature. There were indeed quite a few Dragon Demons committing evil, but Chen Xiang also discovered that some Dragon Demons, because they had interacted with humans over the years, had gradually absorbed their human nature. After all, they had lived together for almost ten thousand years.

"The Flying Dragon Experience Place is about to be opened. I heard that this was created by some Dragon Devil Princess." Chen Xiang heard a voice as he walked past a street.

### [Chapter 2888](#)

The Flying Dragon Experience Place had always been controlled by the Dragon Demons, and it had never been opened to the public. It was only open to those humans loyal to the Dragon Demons, or to the Dragon Demons. <>

"Dragon Devil Princess? Was she the daughter of the Dragon Lord? What exactly is she thinking and why is she doing this?" After an old man heard this, he became excited: "If I can go to Flying Dragon Experience Place, maybe I can make a breakthrough and live a few more years."

Chen Xiang anxiously asked Flying Dragon Palace Leader about it. He also told him about the opening of the Flying Dragon Experience Place.

"Dragon Devil Princess? Back then when I was fighting against the Dragon Lord, I didn't know that he had a daughter!" The Flying Dragon Palace Leader said, "It could have been born later on ... However, this Draconian Ancestor himself was capable of producing a large number of Draconic Demons. Just how did he manage to produce this girl? And it's even some kind of princess!"

The very first Dragon Demon had a hideous face when it was born, but after that, it turned into a humanoid shape. Even if it took the form of a Dragon Demon, it would at most maintain the appearance of a large portion of the human race.

It was equivalent to becoming a human dragon. Chen Xiang could become like that in the past! His recognized sister, Leng Youlan could also do it, this was the Draconian!

"Motherf\*cker, could it be that the Demonic Dragon has changed for the better?" After all, so many years have passed. "Flying Dragon Palace Leader was also very suspicious about this. "Forget it, this is a good thing after all. You must go inside Flying Dragon Experience Place to cultivate for a while."

"I know. I will go in and out and start cultivating the Myriad Tao Divine Arts." Chen Xiang said: "If I continue to live like this, I feel that I will clash with the Dragon Demon sooner or later ... Even if I do not clash with the Dragon Demons, I will definitely not let you off, and I will not let you off! "

Right now, he was very weak compared to the Natural Law Divine Lord, so as long as he was strong, he would do anything.

The Flying Dragon Experience Place was going to be opened soon, and this news quickly spread through the streets. Everyone on the first floor of the Flying Dragon Pagoda knew about this, and now that there were Transmission array, it was much more convenient for people to come and go, so the information circulated even faster.

Although the Flying Dragon Experience Place s were open, there was still a limit to their ability to enter the Flying Dragon Experience Place s. First, they had to undergo an assessment, which meant that not everyone could enter.

Although it sounded rather harsh, it was not difficult for those who wanted to enter the Flying Dragon Experience Place. Those who wanted to enter the Flying Dragon Experience Place were mostly people stuck in the Late period of Tai Zun realm.

"Does the Demonic Dragon need Dao crystal?" Chen Xiang suddenly felt that this was a possibility. The reason the Myriad Tao Mausoleum opened it earlier was also because the Divine Ghost Imperial Country needed a large amount of Dao crystal.

"Flying Dragon Palace Leader, would the Dragon Demons really need a large number of Dao crystal? Previously, it was the same for the Divine Ghost Imperial Country. " Chen Xiang said.

"That's a possibility!" Flying Dragon Palace Leader thought for a moment: "Other than Heavenly Alchemy stone wall, there are other things that can make people stronger in Myriad Tao Mausoleum. Maybe they need Dao crystal to go there."

"As for the details, only those who are familiar with the Myriad Tao Mausoleum would know." The Flying Dragon Palace Leader said.

Chen Xiang headed to the Flying Dragon Palace to register and participate in the assessment. He felt that it would be very easy for him to pass, even though he was only at the middle stage of the Tai Zun realm, he could still cultivate the Golden Body of the Myriad Tao without using the Heavenly Alchemy immortal power.

"Another examination. I've already participated in this kind of examination who knows how many times." Chen Xiang had no choice but to participate in the competition.

Now that he could safely enter the Flying Dragon Experience Place, he did not plan to take any risks. After all, he was still too weak, if there was a large group of Patriarchs guarding the Flying Dragon Experience Place, it would be very dangerous for him to enter, and he would not be able to cultivate peacefully.

"I heard that the exam is very simple. As long as you pass the test, there's no need to fight." A person said.

"It's true. I passed it without a hitch as an elder!" I heard that this time, Dragon Devil Princess will also enter the Flying Dragon Experience Place to cultivate with everyone. "

"Dragon Devil Princess needs a group of powerful human experts to follow them. I wonder why? Their race has many powerful Dragon Demons, so why are they looking for humans? "

"I heard that the current situation of the Dragon Demons is very chaotic. There are two others who have the same strength as Dragon Demon Lord, and a large number of Dragon Demons are controlled by the other two Dragon Demon Great Leaders. Although her father has some control over them, he is not trusted by her."

"This is not a good thing. If the Dragon Demons were to fight, we humans would be in an even worse situation. When that happens, we will definitely be forced to fight the Dragon Demons. The number of humans that will die will be the greatest."

Although he was not sure whether it was true or not, he felt that it might happen.

Chen Xiang immediately told Flying Dragon Palace Leader about this.

"How could this happen? Dragon Demon Sovereign ... this fellow ... Serves him right! Back then, if he had not destroyed me and allowed me to co-exist with him, he would have had me as his helper at that time. Then, I could have led the humans to fight against his powerful enemies. " Flying Dragon Palace Leader laughed coldly: "This matter should be true, if not the rumors would not have spread out! These Dragon Demons are becoming more and more human, and they have also learnt the art of scheming and fighting human beings, haha! "

The strongest power would usually not collapse because of external factors, and the majority would collapse because of internal strife. Chen Xiang had encountered many such things over the years.

This kind of thing happened to the humans and beasts, but even now, this kind of mysterious dragon demon was still hard to escape from!

Of course, this couldn't be considered a good thing. If there were internal conflicts within the Dragon Demons, humans would definitely be affected and many people would die.

Chen Xiang queued for half a day before finally entering a large hall within the Flying Dragon Palace. Inside the Dan Hall, there was a spirit power testing bead, and as long as he placed his hand on it, the bead would emit a golden glow. Even if he passed, and paid the ten billion Dao crystal, he would be able to obtain a sign and enter the Flying Dragon Experience Place together with him.

Finally, it was Chen Xiang's turn. He only used a little bit of dao energy to make the pearl release a golden light, and previously, many people used the power of their breast milk to release their dao

energy. It took a long time before the pearl lit up, which was also the reason why they had been queuing for so long.

Seeing this, many people knew that Chen Xiang, this young one, was a guy that hid his strength well.

After Chen Xiang passed through, he paid the Dao crystal and obtained a plate. In front of the Dragon Demons, he dripped his blood and fused with the jade plate, they did not ask for Chen Xiang's name, but only told him to head to the Flying Dragon Experience Place in ten days, and where he would be waiting for the Flying Dragon Experience Place to open up.

After Chen Xiang obtained the tablet, he left the Flying Dragon Palace. He wanted to inform Lin Jitian and the Great Clan Elder of this news, even though they were still in closed-door training, he had left a note at the entrance of their stone room, which they could immediately see the moment he came out.

### [Chapter 2889](#)

Chen Xiang left the note to tell Lin Jitian and the Great Clan Elder his whereabouts and immediately headed out of Flying Dragon Experience Place to wait for them to enter the Flying Dragon Experience Place.

Flying Dragon Experience Place was a huge floating platform, with a total of ten Flying Dragon Experience Place s. The first floor was the stage, and the highest one was located below.

Every Flying Dragon Experience Place was a million miles away from each other, and even if he were to ascend to the first Flying Dragon Experience Place, he would only be barely able to ascend to the second Flying Dragon Experience Place.

It was said that every Flying Dragon Experience Place was as big as a giant island, and there were extremely complicated environments on top of them. As long as one could cultivate for a period of time on top of them, they would be able to absorb a type of mysterious power, and cultivate the Myriad Tao's Golden Body.

Chen Xiang had already cultivated the Myriad Tao's Golden Body, he had only entered the Flying Dragon Experience Place to find out what the cultivation above the Flying Dragon Experience Place was like.

The legend was rather hard, but most people could endure it. Chen Xiang felt that he should not have any problems.

At this time, many people were waiting under the First Flying Dragon Experience Place!

If one wanted to enter the Flying Dragon Experience Place, they had to use a huge Transmission array beneath the Flying Dragon Experience Place. Although they could also fly into the air to get close to the Flying Dragon Experience Place, they could not do so because the Flying Dragon Experience Place was shrouded in a barrier. It was extremely difficult to do so because the Flying Dragon Experience Place was surrounded by a barrier.

Chen Xiang had never tried it before, he had already paid the Dao crystal, so he did not want to take the risk in public. If he was accidentally discovered by the powerful Dragon Demons that were guarding inside, it would be extremely dangerous.

"I don't know if the first Flying Dragon Experience Place is only open for you, but with your current strength, the first Flying Dragon Experience Place isn't enough to satisfy you." The Flying Dragon Palace Leader said, "You must at least go to the third Flying Dragon Experience Place to have any results."

"When the time comes, I will know. If that is not possible, I will think of something." The reason Chen Xiang went to Flying Dragon Experience Place to cultivate was also to increase his strength, if the first Flying Dragon Experience Place was truly useless to him, he would definitely think of a way to continue his journey.

... ..

The sky was still dark, and there were still four hours before dawn. But at this time, many people were extremely excited, because after dawn, the Flying Dragon Experience Place would open, and at that time, they would be able to step onto the Flying Dragon Experience Place. Although they could not guarantee that they would be able to cultivate the Myriad Tao's Golden Body, it was the only hope they had to break through.

In the days that Chen Xiang was waiting, although there were only two thousand people who were observing the place, these two thousand over were all from the Tai Zun realm, and a few hundred of them were from the Late period of Tai Zun realm.

What Chen Xiang did not expect was that there were also some Dragon Demons here.

"Someone from the Zhao Clan? They're also here to join in the fun?" Suddenly, Chen Xiang heard someone discussing. The Zhao Clan's few Tai Zun realm s were also here.

It was only later that Chen Xiang found out that Zhao Clan's people did not have to pay Dao crystal s to enter, and that they had come to supervise a few people doing whatever they wanted on top of that.

Daybreak, Chen Xiang was the same as many others, he was secretly excited in his heart.

In the distant sky, a beautiful, snow-white Dragon horse suddenly flew over.

The Dragon horse was very white and beautiful, but the person riding the Dragon horse was wearing black tight clothes, which contrasted sharply with the snow-white Dragon horse. What was even more obvious, was that the person riding the Dragon horse had a faint demonic aura, which was also inconsistent with the pure aura of the Dragon horse.

The black clothed person wore a conical hat, but from the figure it could be seen that it was a woman. Even though the aura on her body carried a faint demonic aura, she was very powerful, at least from Venerable ancestor realm.

"Dragon Devil Princess is here! Someone said in a low voice.

This was actually the Dragon Devil Princess, Chen Xiang was suddenly curious, the purpose of this Dragon Devil Princess opening the Flying Dragon Experience Place, although there were a few guesses, but they were only guesses, no one was sure what she was planning to do.

After the arrival of the Dragon Devil Princess, a few Venerable ancestor realm Dragon Demons took out a few things, they were all used to activate the Transmission array to teleport people to the Flying Dragon Experience Place.

At this time, everyone had already walked into the Transmission array!

Dragon Devil Princess had already mounted on his white horse and flew directly to Flying Dragon Experience Place.

Seeing that, Chen Xiang immediately asked the Flying Dragon Palace Leader: "Why can she fly herself?"

"I used to be able to do it too, but she was able to directly fly because she had the Flying dragon bead in her hands!" Flying Dragon Palace Leader said: "As long as there is a Flying dragon bead, we can enter that barrier at any time. I had several of these Flying dragon bead, but after my body died, it would be gone too."

"Aren't you putting such an important thing in the Divine Sense Sea World?" Chen Xiang curled his lips: "Otherwise, I would have been able to directly kill them now."

"Well, actually, it was me who used it during the battle. It had quite a bit of power. Otherwise, my soul would not have been able to escape." The Flying Dragon Palace Leader said: "Every thousand years, Flying Dragon Experience Place will drop one of these Flying dragon bead. If the Dragon Devil Princess has one, then it means that she is quite powerful."

The Transmission array had already been activated, and in the blink of an eye, Chen Xiang and a group of people had already arrived at the first Flying Dragon Experience Place.

This was a place filled with the fragrance of flowers, it was filled with a kind of extremely comfortable energy. When Chen Xiang absorbed a little of this energy, he was immediately sure that this could allow people to cultivate the Myriad Tao's Golden Body.

"Flying Dragon Experience Place's environment is pretty buu! I thought it was bad! " Chen Xiang looked around at the beautiful flowers and plants, and his mood inexplicably became good.

"This is only the location of the Transmission array, moreover the Myriad Tao's power is the thinnest here. If you really need to cultivate the Myriad Tao's Golden Body, then you need to head to the place with the densest and most concentrated Myriad Tao's power. That place is also the most dangerous place." The Flying Dragon Palace Leader said.

"How can I go to the second Flying Dragon Experience Place?" Chen Xiang came to an old man and asked. This old man was a Dragon Demon, from Venerable ancestor realm.

"If you want to go to the second Flying Dragon Experience Place, you need to rely on your own strength. As long as you find the Flying dragon bead here, you can bring it up to the Flying Dragon Experience Place." The old man said.

Finding the Flying dragon bead was easier said than done, there might not even be one here!

Chen Xiang did not ask any further, and left the Transmission array, following the direction indicated by the Flying Dragon Palace Leader. The Flying Dragon Palace Leader was very familiar with this place, so it might be able to guide him to the Flying dragon bead.

Chen Xiang left the Transmission array not long after. If he wanted to leave the Flying Dragon Experience Place, he could have just gone to that Transmission array.

Under the guidance of the Flying Dragon Palace Leader, Chen Xiang arrived at a blazing mountain. This place was filled with flames, and the intense flames made even Chen Xiang, who had cultivated the Myriad Tao's Golden Body feel very hot, let alone the others.

"We might be able to find the Flying dragon bead here, this is the place with the densest power in the Myriad Tao." The Flying Dragon Palace Leader replied, "I found two of them here before. The Flying dragon bead that you need right now is the second Flying Dragon Experience Place that fell, this kind of Flying dragon bead is more difficult to find, the location where it fell is not fixed, and it will even run around by itself. "

"According to my many years of experience, the second Flying Dragon Experience Place's Flying dragon bead would usually go to the place with the densest power in the Myriad Tao. This kind of Flying dragon bead is very spiritual, and if it is grown for a long time, it can still be cultivated to an adult."

### [Chapter 2890](#)

Hearing that the Flying dragon bead could transform into a human, Chen Xiang was in disbelief. If she could become a human, then she would be very strong.

"Have you seen it?" Chen Xiang asked: "Is it very powerful?"

"I heard that it's really powerful. I've never seen it before!" The Flying Dragon Palace Leader said.

Although Chen Xiang was unbearably hot in this sea of fire, he could still persevere with this kind of heat.

He walked in the sea of flames for several days, yet he still could not find the Flying dragon bead.

This mountain range was extremely large. He didn't know how long he would have to fly into the air or use the Dao heart Eye to search for it. He wanted to see if he could use the Dao heart Eye to search for something.

After he became invisible, he flew in the sky for two days, then suddenly used the Dao heart Eye to search for a black dot that was moving.

"Found it, what is it?" Chen Xiang looked down at the rapidly moving dot below him, and was unable to determine what it was: "Could it be the Flying dragon bead? What color are Flying dragon bead normally? "

"Black!" Flying Dragon Palace Leader said: "Flying dragon bead can fly by itself, its speed is still very fast."

"Then that's right, maybe our object is the Flying dragon bead." Chen Xiang immediately flew into the Flying Dragon Experience Place. He could not use the power of space, otherwise he would have already flown up to the second Flying Dragon Experience Place.

He dived into the sea of fire, suddenly seeing a figure, he was extremely shocked, and quickly said to Flying Dragon Palace Leader: "I know the Flying dragon bead s, the Flying dragon bead can indeed turn into a human ... .. And very powerful. "

When Chen Xiang swooped down, he wanted to stop the flying black dot, but he discovered that it was a black shadow that was flying past. This caused him to jump in fright, and he immediately thought of the Flying dragon bead that transformed into a human.

"Quickly chase!" Flying Dragon Palace Leader said: "If the Flying dragon bead turns into a human, it must be very powerful, you have to be careful, if possible, grab him!"

Chen Xiang immediately chased after him with his fastest speed for a good half a day before catching up.

After nearing the black figure, Chen Xiang didn't know whether to laugh or cry. "It's actually Dragon Devil Princess ... I never thought it would be this girl. I thought it was the Flying dragon bead that turned into a human, what is she doing in here? Could he also be looking for Flying dragon bead? "

The black shadow that Chen Xiang had seen before was not a humanoid Flying dragon bead, but a Dragon Devil Princess. Dragon Devil Princess was running wildly in this blazing mountain range, not knowing what he was doing.

"Maybe she is also looking for Flying dragon bead, Flying Dragon Experience Place is still very powerful, if she wants to reach the upper level, she definitely needs Flying dragon bead, looks like she does not have any Flying dragon bead from the upper level." The Flying Dragon Palace Leader said.

At this moment, Chen Xiang was closely following behind Dragon Devil Princess. Using his Dao heart Eye to observe, he discovered that there was indeed a blurry black dot in front of him.

"Could it be that there really is a Flying dragon bead flying? Dragon Devil Princess is chasing after us? " Chen Xiang never thought that the Flying dragon bead's speed would be so fast, that not even the ancestors of the Dragon Devil Princess would be able to catch up.

Right now, he could only barely keep up, and he had expended a lot of energy.

Just like this, Chen Xiang chased for a few days straight before escaping from the Blazing Mountain Range and arriving at the flat prairie. Chen Xiang could now clearly see the well-built figure of the Dragon Devil Princess chasing after a black pearl with extreme speed.

Now, Chen Xiang was sure that Dragon Devil Princess had already found the Flying dragon bead, and even caught it for a very long time, but he couldn't catch it.

"She must have already discovered you, but she can't be bothered with you. Otherwise, she would only let the Flying dragon bead escape." The Flying Dragon Palace Leader said: "It's not easy to capture Flying dragon bead, but whether we can succeed is one thing. Back then, many people could encounter it, but very few could catch it in the end."

Chen Xiang was also currently thinking of a way to capture the Flying dragon bead. He felt that if he ever encountered a Flying dragon bead, he had to release his divine web as soon as possible and capture the Flying dragon bead.

Just as he was distracted, a delicate shout suddenly came, "It's flying towards you!"

did not expect the fellow who was flying in a straight line to suddenly come back with a big turn.

Chen Xiang regained his senses and immediately took out the huge golden net that he used to capture the terrifying rat. The net covered an extremely wide area and instantly trapped the pearl inside.

Once it was trapped, Chen Xiang quickly withdrew the net. As he retracted the net, he threw out the Six Realms mirrors, who instantly flew to the sky above the Flying dragon bead and covered the struggling Flying dragon bead and kept it inside.

Dragon Devil Princess looked at the panting Chen Xiang, and said with a frown: "You, I never thought that you would actually catch the Flying dragon bead, who are you exactly? It seems like you know a lot about Flying dragon bead, there are a lot of ways! "

Dragon Devil Princess had a ponytail, tanned skin, her face was originally that kind of sweet, but right now her face was stiff and cold. She had her hands folded across her chest, looking valiant and formidable, just like a female warrior.

Chen Xiang was on his guard as he faced the Dragon Devil Princess. He was a Dragon Demon, after all, and he had even caught a Flying dragon bead.

"What is it? "Are you careful that I don't make a move against you?" Dragon Devil Princess snorted in disdain: "I am not the kind of person to imagine. You can consider yourself lucky that you have obtained the Flying dragon bead!"

After he finished speaking, Dragon Devil Princess continued to rush towards the Blazing Mountain Range.

"Wait!" Chen Xiang shouted. Since he could capture Flying dragon bead, this Dragon Devil Princess had helped him a lot.

"What for?" Dragon Devil Princess turned around and asked.

"Dragon Devil Princess, you want to go to the second Flying Dragon Experience Place, right?" Chen Xiang asked.

"You are willing to give me the Flying dragon bead?" Dragon Devil Princess looked at Chen Xiang, she suddenly felt that Chen Xiang was strange, she then stared at Chen Xiang's normal face and said: "This is not your original appearance, right?"

Chen Xiang just nodded his head, "I can't give you the Flying dragon bead, but we can go to the second Flying Dragon Experience Place together!"

"How?" Dragon Devil Princess asked.

"You can enter my storage-type Divine Equipment, and then I'll bring you there. This is the best method for both of us." Chen Xiang smiled slightly: "If you are worried, you can just make a blood contract with me."

"I am a Dragon Demon from the Venerable ancestor realm. Not to mention ordinary storage divine tools, even the powerful space masters of our Dragon Clan are unable to contain me, let alone yours." The Dragon Devil Princess said, then turned and prepared to leave.

"You haven't even tried it, how do you know? If storage of divine tools is truly not possible, then just enter my Divine Sense Sea! " said, his Divine Sense Sea World was rather powerful, it should not be a problem for him to accommodate a Ancestor, furthermore, he had already trained in the Golden Body of the Myriad Tao.
