

Dan God 2921

[Chapter 2921](#)

Chen Xiang left the stone room of the Time Ghost and went to look for the Well-informed Ghost.

He quickly found it and entered the Well-informed Ghost's stone room. This stone room was pretty much the same as the one in the Time Ghost.

"You were introduced by the Time Ghost, right?" This was the old man's voice, the Well-informed Ghost.

Chen Xiang cursed Time Ghost in his heart. He was worried that Time Ghost would tell him all of his secrets.

"Yes!" Chen Xiang said: "I want to ask you something!"

"Ask away, as long as I know, I will answer you ..." I think you are already prepared. " Well-informed Ghost said.

"How many Dao crystals do you need?" Chen Xiang asked about the price first, so that he wouldn't be tricked later.

"100 billion!" Well-informed Ghost said.

"+ again. "See you!" Chen Xiang could tell that the other party was trying to trick him, so he turned around to open the door.

"70 billion ..." Well-informed Ghost quickly lowered the price, but Chen Xiang still opened the door.

"50 billion!" The Well-informed Ghost shouted again.

Chen Xiang then came back and sat down, and laughed: "I am not that easy to deceive."

"You ..." Ask a question first and see if I know anything. " Well-informed Ghost said.

"I heard that the Myriad Tao Mausoleum has many mysterious array formations, and these array formations require a large number of Dao crystal to be activated." Chen Xiang said: "Do you know where you can find this array?"

"This... We need to increase the price. " Well-informed Ghost said: "This is extremely secretive!"

"How much?" Chen Xiang did not feel too surprised, because the Ghost Emperor had concealed this matter from him, and as his subordinate, the Well-informed Ghost was not too loyal.

"30 billion!" Well-informed Ghost said.

"Two hundred. How about it?" Although Chen Xiang had many Dao crystal, he would not use them carelessly.

"Alright!" Well-informed Ghost was very lacking in Dao crystal, so he was more or less willing.

Well-informed Ghost did not immediately answer Chen Xiang's question. He was waiting for Chen Xiang to give him the Dao crystal, so Chen Xiang had no choice but to take out the seventy billion Dao crystal.

Well-informed Ghost took the Dao crystal, and after he finished counting, he said: "There are many such mysterious formations, so finding them isn't too difficult. It requires a certain level of skill to do so!"

"You must promise me not to wander around. I'm the one who told you how to find that kind of formation, or else I'll be in big trouble!" Well-informed Ghost said.

"I understand. Tell me how to find that formation quickly!" Chen Xiang urged.

"Wait!"

Well-informed Ghost spoke slowly after a full hour, "Let me first talk to you about the origin of this mysterious formation! The existence of this kind of formation is for inheritance. As for what kind of inheritance it is, it's extremely useful to humans. Once obtained, one can advance by leaps and bounds!"

"Is it really that magical?" Chen Xiang felt that this was a little exaggerated.

"It's really that magical, we collected a large number of Dao crystal just to enter this kind of array to receive the inheritance." Well-informed Ghost said: "I don't know who will be the one to create these array formations, but I do know how to find these array formations, and it's the fastest method to do so."

"First of all, if you want to find this kind of array, you need to place the Dao crystal in a very big container, and let the Dao crystal be exposed. This way, the array will be able to sense a large number of Dao crystal, and the Dao crystal will be able to resonate with the array and flash." First of all, if you want to find this type of array, you need to place the Dao crystal in a very large container, and let the Dao crystal be exposed.

"If your Dao crystal does not react, then you will have to continue increasing it. The array is too far away from you, you can only use more Dao crystal to let the array feel it."

Chen Xiang quickly understood the principle of this method, and asked: "Will this work?"

"I guarantee it. I have a lot of credit. I definitely won't lie to you." Well-informed Ghost said: "Oh right, when you use it, you need to be careful, because a large number of Dao crystal would attract other things."

"Got it, I will go and try it now, if there are any other problems, I will come and find you, I will probably stay in Myriad Tao Mausoleum for a period of time, and I will need some pointers." Chen Xiang said.

"Leave it to me." The Well-informed Ghost laughed.

Chen Xiang left the Divine Ghost Imperial Country and came to Colorful Forest. He felt that the Colorful Forest should be the safest place to be, and its environment was very beautiful. He really liked bringing her here.

Ever since he came here, he did not use the same method that he used with the Well-informed Ghost. Instead, he found a hidden place to hide and took out the Cauldron.

He put a trillion Dao crystal into the furnace and also refined these Dao crystal into a very big bead!

One could imagine the quality of the trillions of Dao crystal compressed into a single bead, which was equivalent to several times their original size.

Suddenly, Chen Xiang felt that if there were not enough Dao crystal, he could refine some of the Dao crystal, and let the Dao crystal level up. That way, he would be able to use a small amount of money to activate the mysterious array.

After he finished refining, he took the Dao Jing bead and went out!

The Dao Jing bead quickly reacted, its eyes flickering.

"Well-informed Ghost didn't lie to me!" Chen Xiang spun in place, and quickly determined a direction, then teleported in that direction. This was because the Dao Jing bead flashed towards that direction the most frequently, with the brightest radiance.

Just as he teleported over, he suddenly sensed strong auras all around him, causing him to suddenly remember the Well-informed Ghost's reminder. Using this method would easily attract the attention of the people who were stealing the Dao crystal.

The quality of his Dao Jing bead was extremely high and the aura it emitted was very strong.

"Why are these guys so sensitive?" Chen Xiang immediately kept the pearl. Without the pearl, he did not know where the mysterious array was.

After he became invisible, he would occasionally take out the Dao Jing bead to confirm his direction. After confirming, he would teleport a distance away and then take it out again.

After about half a month, he discovered that this area was filled with people who had been attracted by the strong aura of Dao crystal.

"The Colorful Forest is the territory of the Four Colors Blood Tribe. Could it be that all of these are from the Four Colors Blood Tribe?" Chen Xiang was also annoyed by this group of people, this couldn't let him rest at ease to search for the mysterious array.

In order to avoid a battle, he took out the Dao Jing bead very carefully. He took out the Dao Jing bead for an instant, then took it out again after teleporting.

The people who came to find him also felt very depressed. They had never encountered such a situation before. They felt as if they were being toyed with and were extremely furious.

"Right here!" At night, the moment Chen Xiang took out the Dao Jing bead, the Dao Jing bead suddenly shot out a ray of light towards the ground.

...

[Chapter 2922](#)

Dao Jing bead were refined by a trillion Dao crystal, and the moment they were taken out, they would emit a very strong aura. In addition to that, the formation greedily absorbed the Dao Jing bead's energy, causing the aura released to be even stronger.

Chen Xiang was extremely anxious at the moment, because he was unable to keep the Dao Jing bead inside. At the same time, he sensed a few powerful auras nearby, and they were all coming towards him.

Chen Xiang could only use an Invisibility Spell to hide himself as he neared the mysterious formation and used the power of space to cut off the Dao Jing bead's Qi, causing it to immediately stop releasing.

Not long after he disappeared, more than ten people appeared around him. Purple, white, and blond, all of them of the blood-red race.

The other people were all dressed in black. Chen Xiang did not know where they came from, but they were all very strong and were all in the middle stage of the Venerable ancestor realm.

"Who are you people?" When the golden-haired man saw the black-clothed men, he frowned and asked. He didn't think that there would be so many unknown people fighting over them.

"Who are we? What does it have to do with you?" A black man. It seems like all of them, the black-clothed men, are in the same group.

The golden-haired man was extremely angry. Their Golden Blood Tribe was, after all, one of the hegemony of the Colorful Forest, yet they were looked down upon so much. This made him extremely furious.

"What, you want to fight? We're not afraid of you, if you have the guts come at us!" The man in black burst out laughing when he saw the golden-haired man's flustered look.

The golden-haired man was alone in this place, yet the opponent had so many men in black. He was not a match for them, so he could only swallow his anger in a pitiful manner.

If he were to clash with these people, then there would only be one outcome and he would definitely be killed. Although the purple-haired and white-haired people were part of the Four Great Blood Clans, they would definitely not help him.

When Chen Xiang saw this situation, he secretly rejoiced in his heart. All of the people who were chasing after him should be coming for the Dao crystal.

Dao crystal were extremely rare here, and they knew why there was such a strong aura of Dao crystal. It was because someone had come to this place to search for a mysterious array.

They could judge the number of Dao crystal based on the Dao crystal's aura, which was more than a trillion.

Even though they had arrived at this place, they could not see Chen Xiang, and the Dao crystal's Qi had also disappeared. Even if they were to focus their minds, they were unable to sense it in the slightest, they could only sense the remnant Qi.

Before, they had been tracking that aura. After all, it was an extremely strong aura, so they were extremely patient. Once they felt it, they would fly over as fast as they could.

But this time, the aura appeared the longest, so they were able to catch up to him!

"After the formation absorbs enough power, it will definitely open. At that time, it might cause some sort of disturbance. If that's the case, then I will definitely be discovered." Chen Xiang looked at one of the black-clothed men. His heart was moved as he used the power of space to shoot a ray of golden light at the black-clothed man.

The direction in which the golden light shot out was from the golden-haired man. This way, the black-clothed man would think that it was the golden-haired man who had attacked.

As for the golden-haired man, the power he used was definitely golden. It was easy for him to arouse suspicion from others.

Of course, Chen Xiang did not hit the black-clothed man, but the black-clothed man still looked at the golden-haired man angrily, and said: "Are you the one who attacked me?"

The golden-haired man had also sensed this strange phenomenon. He hurriedly shook his head. "It's not me!"

Although he was like that, none of the men in black believed him.

The black clothed man had a bad temper, two of them rushed forward aggressively, their bodies gathering their energy. One look was enough to tell that they were about to start a fight.

The other five men in black were just watching by the side. Although they were partners, they felt that as long as the two men in black attacked, it would be enough.

The purple-haired and white-haired man also felt that the golden-haired man had secretly attacked because of his hatred towards the black-clothed man. They definitely weren't a gang member. They would only provoke him.

However, with Chen Xiang here, it was impossible for them to gloatingly watch a good show. Chen Xiang then used the power of space to create a space on the white-haired man and the purple-haired man's arms respectively, before releasing his own two powers.

One of them was white, the other was purple, all of them extremely strong.

After they left, their power advanced very quickly. In an instant, their bodies were pierced through by the two men in black! When the golden-haired man saw the two men in black with white and purple holes, he was very surprised. He didn't expect the purple-haired man and the white-haired man to secretly help him.

He was shocked and happy at the same time. Taking advantage of the two men in black being injured, he used all his strength to send out two palm strikes, turning the two men in black's upper body into a golden mist!

"You all ... "You bastards, kill them for me." The black clothed man roared, and then he started to attack.

The purple-haired and white-haired people didn't understand what was going on, but in order to protect themselves, they had no choice but to fight back. Although it was strange, they could only fight with their lives on the line, otherwise they would be the ones dying.

Chen Xiang took out his Six Realms mirrors and released an array to envelop him. This way, he wouldn't be affected by the aftermath of the battle.

This way, he would be able to happily watch the big show below.

"You want to rob me? This is what happens to you guys!" Chen Xiang laughed and then took out more Dao crystal for the mysterious array to absorb. This way, it would open even faster.

Although there were only three blood-colored people, they were abnormally vicious. Especially when they were fighting with their lives, it did not take long for them to kill a black-clothed man.

Previously, the black-clothed men only relied on the arrogance of their numbers, but now they weren't as powerful as they looked on the surface. Just now, they were just putting on an act, which made the golden-haired man's fight even better.

Just now, the golden-haired man had choked back a few sentences. He had been holding back his anger, but now that it had been released and fused with his power, he was completely satisfied.

As they were fighting with all their might, a burst of light suddenly burst out from below them. They only saw the appearance of a five-star array formation. Then, they suddenly remembered why they had come here!

They were all here to track the person who used the Dao crystal to search for the mysterious array. Now, that person had activated the array!

They also gradually understood what was going on. The reason for their inexplicable fight was all because of that person with powerful concealment skills!

This was especially true for the golden-haired man. Earlier, he had seen a golden beam of light suddenly appear. However, the other party had attacked him without asking him to explain himself. What followed next was for him to act blindly!

[Chapter 2923](#)

Chen Xiang had already successfully opened the mysterious array, and his heart was extremely excited!

However, just as the array was about to open, the black and blood-colored races discovered it and immediately sent out powerful masses of energy towards him.

After the ball of energy flew towards him, he immediately urged the Six Realms mirrors to quickly defend against the energy in order to stabilize the array.

BOO!

A large wave of energy balls shot over, as if they wanted to destroy the earth. They erupted with a powerful force that caused the wind and clouds to surge. The sky darkened, and the earth began to crack!

Chen Xiang used his Six Realms mirrors to successfully block the wave of the attack, which made him feel a lot more at ease. Because the mysterious array formation had already been activated, he had already stepped into it!

With a sou sound, the array released a blinding white light, following that, Chen Xiang disappeared, and the big array also gradually disappeared.

"This bastard must have told us to start a fight so that he could activate the formation." The golden-haired man said.

"Even so, this matter is not over yet. We are still dead. We will definitely not let you all off." If they didn't die, then so be it.

But right now, they were at a disadvantage and the other side was completely fine. In addition, they were even more furious as they saw others enter the mysterious formation with their eyes.

Thus, they started fighting again ...

These mysterious array formations were all Transmission array, and the moment the array opened, Chen Xiang was teleported into another space.

When Chen Xiang arrived in this space, he felt that it was different from what he had imagined. He had thought that there were many good things inside, but he didn't expect it to be inside a small room that was completely white.

"Hello, is there anyone here?" Chen Xiang shouted, he could not see anything inside.

"There's no one here, but there's half of a ghost!" Suddenly, a mischievous voice was heard. It sounded like the voice of an old man.

"Why is it half a ghost?" Chen Xiang was extremely curious, so he asked.

Soon after, Chen Xiang saw an illusion. This illusion only had a upper body, and was an old man with white hair.

Chen Xiang finally understood why he was pretending to be a ghost, because the illusion had only half a shadow!

"What the hell are you?" Chen Xiang was not afraid, and asked, because the shadow did not seem to have any power, it was just a spirit body or a memory soul, that's all.

"You must have gone through a lot to be able to enter here, right? After all, you are only at the early stage of the Venerable ancestor realm. The old man laughed.

"You know it well!" It was not easy for Chen Xiang to be here. Although he knew how to find the mysterious array, it was very easy for people to track him when he was searching.

"You're pretty lucky to have met me. If you had gone to such an empty place, you might have cried!" The old man laughed. "That's why I won't let you down!"

Chen Xiang curled his lips: "I won't cry, but I definitely will! Old grandpa, what do you have here? I've heard that activating this kind of formation can grant one the inheritance, right? "

"That's not right. The only reason why I can activate this formation is because I might be able to obtain the inheritance. It isn't certain!" The old man said, "I don't have much inheritance for you, only one.

What kind of inheritance do you want? Once you say it, you can't change it. You have to think about it carefully!"

Chen Xiang had thought that he would get some kind of godly skills or some rare treasures, he never expected that the inheritance would be like this.

He thought it was good to have at least what he wanted. He quickly made up his mind.

"I need medicinal recipes and ingredients that can quickly improve within the Venerable ancestor realm." Chen Xiang said, as long as there was such a thing, he would be able to reach the Venerable Ancestor Later-stage in no time.

Furthermore, there was a heaven defying being like the Time Ghost here, he only needed to consume a bit of the Dao crystal to be able to break through in the shortest time possible.

"Well... The inheritance you need is really special! However, it's not good if you need a pill formula and medicinal herbs because you might not be able to refine one. Even if you were to refine one for someone else, it would still be very difficult! "You must know that this pill is not easy to refine at all." The old man said.

"Didn't you just say it? You can't change it once you say it. Why are you still talking so much to me? " Chen Xiang laughed, "Give it to me quickly!"

"You little rascal ... "Yeah, you can't change that when you say it, okay!" The old man sighed and took out a jade box. He said, "There are three types of medicinal herbs. The name is not important. You only need to know to refine these three types of medicinal herbs together."

Chen Xiang received it and asked: "Then what's the name of the pellet that was refined?"

"Nine-turn Yuanzun Dan!" The old man said, "This will help you break through to the late stage! However, the condition is that you have to grow a lot of medicinal ingredients to concoct this kind of pill. This requires a lot of time. "

"I got it!" These things were not difficult for Chen Xiang.

"Alright, then I'll send you out of here!" The old man said.

"I don't want to return to the Transmission array that I entered." Chen Xiang hurriedly said. When he came in, a great battle had already broken out at that place.

"No problem, let's go!" The old man laughed and sent Chen Xiang off.

... ..

Chen Xiang appeared in a forest. This was still the Colorful Forest, but he was far away from the place he had entered.

"My luck is really not bad!" Chen Xiang previously thought that that kind of mysterious array would definitely have an inheritance, but after going there once, he realized that it was not for sure.

Moreover, he had used a large number of Dao crystal to open the formation. He had used ten thousand to refine the Dao Jing bead, and another thirty thousand to open the formation!

His dozens of Myriad Tao Crystals were only enough for him to use more than ten times, and these dozens of times were not always for him to pass on. He was unlucky and might not even be able to meet that old man.

Chen Xiang threw the medicinal ingredients to the Mei Jing Sisters, letting them see if they can grow it quickly.

Then, he took out the Dao Jing bead and continued to search for that mysterious array!

This time, he did not proceed inside the Colorful Forest. Although it was beautiful inside, there were more people squatting inside. After all, the environment was good and many people wanted to stay.

Hence, he planned to go to a place with a very harsh environment, and that was the White Bones Imperial!

He used Teleportation and quickly arrived at a very desolate place in White Bones Imperial. There were bones everywhere, and he wasn't sure if there were any powerful guys around.

"Let's see if there are any mysterious formations around here!" Chen Xiang took out the Dao Jing bead and tested it out. Soon, the Dao Jing bead had a reaction.

Not long after, he found a Transmission array. He used three trillion Dao crystal to open that Transmission array and was teleported to a white space. It was the same as last time.

However, his luck was not so good. He did not encounter any "half a ghost". He shouted for a while, but there was no reaction.

However, he still persisted in staying inside and shouting. After a while, he was automatically transported out of the formation.

"Bastard, damn you..." Chen Xiang kept cursing and trampling on the mysterious Transmission array, which wasted three trillion of his Dao crystal.

[Chapter 2924](#)

Chen Xiang still had a lot of Dao crystal, he had even planned to give it a try. This was just like gambling, he would have to try his luck.

After that, he searched the White Bones Imperial for legends. In this month, he had found a total of eight, but there weren't even a single ghost inside.

"Damn it!" He kicked the skull at his feet, sending it flying, "Damned half ghost, why don't you come out?"

Chen Xiang continuously kicked away a few skulls, and said: "It must be the White Bones Imperial's Transmission array, this place is so strange, we have to find somewhere else!"

He then returned to the Colorful Forest and tried to open the Transmission array once more. Even though he was faced with the trouble of being tracked, he succeeded in opening the Transmission array in the end and went back into the white space.

This time, he still didn't meet a single ghost, and he didn't even bother to scold them anymore.

"It's already the tenth time, if I fail ten times in a row, I will go find Time Ghost. Although I can't really see what it is, there's at least a ghost in that place, unlike those darned Transmission arrays that don't have half a ghost!" Chen Xiang had already used up thirty trillion Dao crystal, he only had over a trillion Dao crystal left.

It had not even been a month. He had earned it with great effort for a long period of time.

If you want to become a prodigal family, then go and gamble, and this will be the situation for Chen Xiang.

"Colorful Forest is also a bird!" Chen Xiang left the Colorful Forest and headed towards the Flying Dragon Ghost Realm.

It was easy to be discovered by a lot of people in the Colorful Forest. Since the results were the same, he felt that those places without people were better. At least he wouldn't need to worry about being hunted down.

Not long after arriving at Flying Dragon Ghost Realm, he quickly found a Transmission array. He searched for it along the way, and just like before, he threw three trillion into the space where the legendary Dao crystal were placed, opening the Transmission array.

Very quickly, after the Transmission array opened, he arrived in a white space.

"Hey, is there anyone here?" Chen Xiang lazily shouted. He did not have much hope as well, he just wanted to quickly use up all his Dao crystal so that he could feel at ease in concocting pills.

Unexpectedly, at this time, an astonished voice sounded out, "It's you? It's only been a month or so, and you're here again! "

"Half-ghost Old Man, I've finally seen you, hahaha ..." When Chen Xiang saw the old man, he laughed out loud.

"What is it? Have you tried it many times before? " The old man asked in surprise.

"Yeah, I was really unlucky nine times before! Now we finally meet an unlucky old man like you. " Chen Xiang sighed: "It used me so many Dao crystal."

The old man's mouth twitched, and said: "You little brat, there are actually so many Dao crystal, where did you get them from? Are the Dao crystal outside that easy to find now? "

"I picked it up!" Chen Xiang laughed.

"I'm not a child, do you think I'm so easy to deceive? "How the hell did you get it?" The old man was very curious about this.

"If I don't tell you, you won't give me the inheritance?" Chen Xiang asked.

"Yes!" The old man chuckled, "Speak quickly!"

"I earned it from selling the pills." Chen Xiang said: "I can refine Huazun Dan and sell them. Many people are fighting to buy them, but that place is under the control of an evil force, so I can only sneakily sell them, or else I will have more Dao crystal."

What Chen Xiang said was the truth, he had to use Mouse Man even if he wanted to sell the Dao crystal.

"So it's like that! The situation outside is actually so complicated! " The elder had a serious expression on his face. It seemed that this matter was of great concern to him.

"Oh right, I realized that I didn't need that many Dao crystal to activate those Transmission array s, but they did take away so many of my Dao crystal." Chen Xiang snorted: "What are you doing with the extra Dao crystal?"

"Of course the extra Dao crystal were moved to the Flying Dragon Pagoda!" The old man said: "Otherwise, why do you think there are so many Dao crystal here in Flying Dragon Pagoda?"

"So this is how it goes back to normal?" Could it be that a lot of people are consuming Dao crystal here? " Chen Xiang did not know about this.

"Of course, you just didn't notice, because this place is very big." The old man said, "What inheritance do you want? Now you have to think carefully!"

"There are all kinds of legacies, right?" Chen Xiang asked.

"If you don't, you can change it." The old man did not directly answer Chen Xiang.

Chen Xiang snorted: "It's not that powerful!"

Chen Xiang had not thought about what kind of inheritance he would want, and now he was desperately thinking about what kind of inheritance.

"I want a legacy that can control time." said. Time Ghost could do it, but if it was possible, he could use his time and energy to cover the medicinal herbs that were being used.

"No, I don't!" The old man's words poured a bucket of cold water on Chen Xiang who was secretly excited.

"Hmph, you don't even have that, and you still dare to say that it's the Myriad Tao's inheritance!" Chen Xiang said in disdain, "How can you not have one? There must be, right? "

"Yes, but I can't give it to you! "You need to comprehend the Time Laws yourself. If you give them to me as you please, it will be a mess, so I can't give it to you." The old man said.

"Abominable Half-ghost Old Man!" Chen Xiang cursed in his heart. That was an inheritance that he had thought of with great difficulty, but it actually had no effect.

"Can you give me a way to make Dao crystal?" Chen Xiang said: "This way, I won't have to work so hard to find the Dao crystal."

"No, think of another one." The old man shook his head: "You little brat, you always think of these kinds of evil ways."

"Controlling the time is not a demonic thing, okay!" Chen Xiang curled his lips: "Let me think about it!"

This inheritance was not omnipotent, so Chen Xiang had to think about it in many ways when he thought about it, because he did not know when he would be able to see the Half-ghost Old Man again.

"Give me the Fire Inheritance, the most powerful flames, such as those cultivated by World Defying Stage s." Chen Xiang said. If he concocted pills with flames that were even stronger, it would bring him a lot of convenience.

"World Defying Stage... You actually know about this realm. " The old man could not believe what he was seeing. The little imp in front of him was truly shocking.

"I heard that there are such inheritances?" Chen Xiang asked.

"Of course I do, but you need to train by yourself, so I'm not going to guide you." The old man gave Chen Xiang a piece of paper, and said: "This is the World Defying god fire's mental cultivation method, you can comprehend it yourself!"

"The World Defying god fire is really strong!" Chen Xiang took a look at it, and then memorized the incantation. It was indeed very profound.

"Is there a connection between the World Defying god fire and the Myriad Tao's Divine Arts? Or did the World Defying god fire come out of the Myriad Tao technique? " Chen Xiang asked again.

"You cultivate the Myriad Tao Divine Arts?" The old man was shocked again.

"I was lucky." Chen Xiang nodded.

"You can even get lucky like this?" The old man curled his lips. Chen Xiang always said things that were difficult to do very easily.

"The Myriad Tao Divine Arts allowed people to cultivate to the World Defying Stage, and World Defying god fire is a cultivation technique from the World Defying Stage. The World Defying god fire should be much stronger than the Myriad Tao Divine Arts." The old man said.

"That's good then. Take me out!" Chen Xiang said.

[Chapter 2925](#)

Chen Xiang was quite satisfied with the inheritance that was World Defying god fire. If it was really as powerful as the Half-ghost Old Man said, he felt that it would definitely be of great help in refining pills.

Cultivating would be more difficult. He could tell from the chants and incantations that the more difficult something was, the more he would like to challenge it.

After Chen Xiang was sent out of the space, he immediately returned to the Divine Ghost Imperial Country to look for him.

If Long Tengyun did not find the World Defying Stage Dragon Ancestor, the High Priest's plan would be successful and the World Defying dragon demon would be resurrected. At that time, he would be in danger.

Only by making himself strong, would he be able to place all his hopes on nothing.

Although Chen Xiang had spent several tens of trillions, he had actually obtained two kinds of good legacies. The first was the Nine-turn Yuanzun Dan's medicinal ingredients, so if he successfully refined this kind of pellet, he would be able to quickly cultivate within the Venerable ancestor realm.

At that time, he would be able to give this pill to Lin Jitian, Great Clan Elder and the others to eat. Mei Jing Sisters could also use this method to increase their cultivation.

Chen Xiang once again went to Time Ghost's room. At this moment, he was bargaining with Time Ghost, hoping that he could be cheaper, but this Time Ghost refused to lower the price no matter what. After all, he knew that Chen Xiang was a tycoon, and every time Chen Xiang came to find him, it was at a very critical moment.

Since Chen Xiang could not say anything, he could only go according to the price of the Time Ghost.

The time he bought this room was one of the larger ones. The time spent on this room was one year outside, and the Time Ghost had to spend a huge amount of time on this room. After using it once, he would need to rest for a few days to recover.

Inside the You Yao Mountain Villa, Mei Jing Sisters and Long Qiumu had already grown a lot of Nine-turn Yuanzun Dan's medicine, so Chen Xiang took out a portion and began to refine it.

Nine-turn Yuanzun Dan only had three medicinal ingredients, one flower, one fruit, and one grass, all of which were purple in color! It looked to be of the same color, making Chen Xiang feel that it would be very easy to refine.

Previously, Huazun Dan were so difficult to refine that he could even successfully fuse them. Thus, he felt that this Nine-turn Yuanzun Dan should not be too difficult.

However, after he started refining for an hour, he realized that the difficulty of refining this Nine-turn Yuanzun Dan far exceeded that of refining Huazun Dan.

"What's going on?" Chen Xiang was unable to understand the situation he had just encountered. He had only released flames to burn the medicinal ingredients, but those medicinal ingredients did not react at all when they met flames.

He continued burning for an hour before those medicinal herbs turned into ashes. After that, there was nothing left of them.

Just a moment ago, it was still fine, but in the blink of an eye it suddenly turned into dust and disappeared.

"Can these medicinal herbs really be used for pill forging?" Chen Xiang looked at the three purple colored medicinal herbs in his hands. He didn't know what kind of medicinal ingredients these were nor what their characteristics were.

Chen Xiang did not believe it, and continued to refine. He tried again, and an hour later, just like before, the herbs that were just right suddenly turned into ashes!

"This is really strange!"

Chen Xiang immediately made his third attempt, and controlled the time well. Seeing that an hour was about to pass, he immediately withdrew the flames, leaving the pill furnace in a state where it was not being burned at all.

There were no more flames in the furnace, so Chen Xiang carefully observed to see if there would be any changes to the herbs after an hour.

Soon, an hour had passed. To his surprise, the medicinal herbs were turned to ashes. Just like the previous two times, after they were turned to dust, the dust instantly disappeared.

He had never encountered such a situation before, nor had he heard of it before. He did not know what was going on!

"This is going to be troublesome!" Chen Xiang held his chin and thought about the reason.

No matter how he thought about it, he couldn't come up with a solution. Thus, he could only take out the medicinal ingredients and start the fourth refining process.

This time, he only used the flame to burn for a moment before stopping. The rest of the time, he observed the changes of the medicinal herbs.

He was only doing it to confirm his guess!

An hour later, the three medicinal herbs suddenly turned into ashes and disappeared.

Previously, he had guessed that the moment the three medicinal herbs came into contact with the flames, they would turn into ashes within an hour.

"What kind of medicinal herb is this? To think that it would be so delicate and expensive. Just a touch of flame and it would be dead!" Chen Xiang felt that it was inconceivable. If he couldn't touch the flames, how could he refine it? This was simply impossible to refine!

Right now, he could only search through the Heavenly Alchemy and see if he could find a solution to this problem.

He studied for a few days, but was unable to find any methods. This made him feel extremely helpless. He wanted to ask someone else, but he didn't know who to ask.

Even if he went to the Master Wang to look for him, he wouldn't be able to help if he encountered such a problem.

"Forget it, I'll just cultivate the World Defying god fire first. Maybe I can use the World Defying god fire to refine it!" Chen Xiang had memorized the World Defying god fire's mental cultivation method before, and now he was trying to understand the deep meaning behind it.

In order to understand the contents of the book, he had spent a whole year reading it, but he had only managed to understand a few sentences.

At this time, the Time Ghost also wanted to rest, the power of time had been withdrawn.

He had been inside for a year, and it was only the past day outside, which saved him a lot of time.

"The World Defying god fire is powerful indeed!" Chen Xiang didn't know it before, but after he tried to comprehend the contents inside, he realized how terrifying the World Defying god fire was.

What he found inconceivable was that this type of flame did not have a formless and colorless form. After using it, it would not be like the other flames, with all kinds of colors and shapes.

World Defying god fire could not see it, but she could feel the temperature. As for how high the temperature she could feel, Chen Xiang was not clear about that.

Right now, he only had a simple understanding of World Defying god fire, as well as a basic cultivation method.

The World Defying god fire could only be cultivated in the World Defying Stage, and he had to start cultivating now, he was not sure if he could succeed either, so he could only try.

He waited for a few days, and after the Time Ghost finished resting, he gave the two hundred billion Dao crystal to the Time Ghost.

He was going to start training the World Defying god fire according to the mantra!

World Defying god fire s were even harder to cultivate than Chen Xiang imagined. They needed to condense a large amount of Dao energy to become World Defying god fire s.

Right now his cultivation was only at the early stage of the Venerable ancestor realm, although his cultivation could compare to mid stage or even late stage of the Venerable ancestor realm, it was still extremely strenuous for him to cultivate it, even after releasing all of his cultivation, it was still difficult for him to form the World Defying god fire.

"I should be able to condense a World Defying god fire. My body's strength and Dao power have already reached the standard. As long as I try a few more times, I will definitely succeed." Chen Xiang knew that it was impossible for him to condense an extremely strong World Defying god fire in an instant, but condensing a small amount of World Defying god fire was still possible.

[Chapter 2926](#)

Chen Xiang was also very much looking forward to the World Defying god fire, and when he thought about how he could cultivate such a strong flame, he had a lot of motivation, and continuously tried it out.

Forming the World Defying god fire required a lot of Dao power, so he was now using 90% of his Dao power to condense it.

He had to gather so much Dao energy in his body and then do it according to the mantra. However, why did you have to use World Defying god fire s all the time?

He kept trying like this every day. Initially, he felt that 90% of his Dao Energy was insufficient, and then he used all the Dao Energy in his body to try. However, he still could not succeed.

Just like this, he continued to try every day, and in the blink of an eye, a year had passed. In this year, he constantly repeated one thing every day, he did not remember how many times he had failed, he only knew that he had to cultivate a World Defying god fire, and no matter how many times he failed, he could not give up.

If he gave up, all his efforts would have been in vain!

Furthermore, he felt that after cultivating the World Defying god fire, he would be able to refine the Nine-turn Yuanzun Dan. This way, condensing the World Defying god fire would become extremely important.

"I must succeed!" Chen Xiang had been trying for so many days, and he clearly knew why he couldn't succeed. The main reason was that the flow of his dao energy still wasn't smooth enough.

When he mobilized his dao energy inside the Six souls, it would rush out fiercely from within the Six souls. Then, he needed to let the dao energy flow out from his dao veins in the shortest time possible, and then pass through the profound door. In the end, he would gather the dao energy and circulate it according to the chant of the mental cultivation method to his entire body.

Right now, he knew that he hadn't done enough in the previous stage. Although he could move smoothly in the previous stage, it was still slow.

Actually, he was not slow either, because he could complete it in an instant, but it was still a lot slower than the process of forming the World Defying god fire.

For this, he still had to practice harder. Only by repeating the process over and over again would he be able to make himself faster and faster, and finally succeed.

The Time Ghost did not know what Chen Xiang was doing. In the past, he could only know that Chen Xiang was either refining pills or cultivating. But now, Chen Xiang was meditating in this room every day, it did not seem like he was cultivating.

"The third time!" Time Ghost said: "I can begin, give me the Dao crystal!"

After Chen Xiang gave the Time Ghost Dao crystal, he began cultivating his World Defying god fire.

... ..

Half a year later, Chen Xiang suddenly spread open his palm, he looked at the heat emitted from his palm, and was instantly ecstatic, because he had already successfully cultivated the World Defying god fire!

The World Defying god fire was indeed formless and colorless, so currently, there seemed to be nothing on Chen Xiang's palm except for Chen Xiang who knew that a mysterious World Defying god fire was burning in his own palm.

"It's not that hot!" Chen Xiang could only feel a hint of heat, but he knew that the temperature of this World Defying god fire was extremely scary.

The other flames were usually emitting scorching hot auras, which was why they looked so terrifying! But World Defying god fire were different. Even if Chen Xiang did not intentionally hide it, the flames themselves could control the heat and release it internally.

Therefore, the temperature inside the World Defying god fire was extremely scary!

"My Dao Energy is limited. Even with all my strength, I can only condense this little bit!" Chen Xiang let out a light breath, closed his eyes, and allowed himself to recover quickly. In this way, he would be able to have a very good mental state to condense the World Defying god fire.

After resting for a while, he took out Tianchuang furnaces and the materials to refine them. He was prepared to use the World Defying god fire to refine this kind of strange medicine.

"Even though the World Defying god fire is only a tiny bit, the temperature that this tiny bit of flame releases is much more terrifying than the World Creation Flame that I condensed with all my might. This should be enough to help me refine the Nine-turn Yuanzun Dan." Chen Xiang was extremely confident in this flame.

Very quickly, he began to refine. He placed the World Defying god fire that he had formed before into the pill furnace to burn the three purple medicinal ingredients.

Just like before, after the three purple colored medicinal ingredients were burnt by the flames, there was no reaction, which made Chen Xiang knit his brows.

Right now, he could only patiently wait for an hour!

This was because that medicinal plant would react after an hour and only then would one know how effective it was.

As he patiently waited, Chen Xiang also felt a bit apprehensive. If he did not succeed, he could only find other ways to quickly break through the Venerable ancestor realm.

As for what he could do, he had no idea.

Very quickly, an hour had passed and Chen Xiang was extremely disappointed, because those three purple colored medicinal herbs were still turned to ash, and then, they disappeared.

Just when he was disappointed, he suddenly felt that the World Defying god fire in the furnace had a very strange reaction.

Previously, when he was controlling this kind of World Defying god fire, it was very pleasing to his heart, but now, this kind of World Defying god fire had become very irritable, and actually wanted to struggle free from his control.

"What's going on?" Chen Xiang immediately suppressed the World Defying god fire, and when he did, he sensed that there was an extremely shocking change to the World Defying god fire.

Within his Tianchuang furnace, a ball of purple light had actually appeared!

"Purple blob of light? Could it be the form of the three medicinal ingredients that were refined earlier?" Chen Xiang suddenly understood that the three medicinal herbs had not disappeared even after turning to ashes, but they were still in a very special form.

That form was the same as the World Defying god fire, they were both formless and colorless, so he could not observe them and mistook them for having disappeared!

And now, because of the existence of the World Defying god fire, it could be seen after those medicinal ingredients were refined.

Chen Xiang guessed that it was because the World Defying god fire had absorbed the power of the medicine, and he could sense the World Defying god fire. Furthermore, with the World Defying god

fire's own characteristics, it had changed the concealed form of the medicine. In the end, it revealed its true form.

"Looks like I'll be succeeding soon!" Chen Xiang was suddenly excited, he then used his previous refining techniques to refine this ball of purple light.

"This pill requires World Defying god fire to refine. Does the creator of this pill know about World Defying god fire?" Chen Xiang thought.

He felt that the World Defying god fire was just like a container, able to absorb the Nine-turn Yuanzun Dan's medicinal herbs, which was the special medicinal effect of the Nine-turn Yuanzun Dan, in order for this medicinal effect to be noticed by others.

Only when he was observed and felt could he undergo refinement. The state of concealment that he was in previously, was something that Chen Xiang could not see nor sense. It was like disappearing, there was nothing he could do about it.

"Alright, I'm about to succeed." Chen Xiang had already compressed that ball of purple mist bit by bit as the purple mist started to contract, condensing into a small ball of purple light.

Not long after, a purple pellet appeared within the Tianchuang furnace. Chen Xiang had finally refined the Nine-turn Yuanzun Dan!

[Chapter 2927](#)

Chen Xiang held onto the Nine-turn Yuanzun Dan and let out a long sigh. He had struggled for more than two years and had finally succeeded in refining it.

"I wonder how effective it will be. If it doesn't have any effect, I will definitely find the Half-ghost Old Man to scold him." Chen Xiang put the pellet into his mouth and swallowed it.

The moment he ate it, the Nine-turn Yuanzun Dan melted and the medicinal power rushed into his Divine Sense Sea. The Six souls in his Divine Sense Sea was connected by six purple rivers.

The six divine beasts of the Six souls had their chests poured into by the purple river and were constantly imbuing them with that purple energy.

In just a short while, Chen Xiang already felt strong indications of Six souls. Even though it was still relatively slow, the effect could still be seen.

If he did not have the help of the medicinal pellets, he would have to spend a lot of time to cultivate in the Venerable ancestor realm. Even if he used the time power of the Time Ghost, he would still need a lot of time.

However, if he were to use pellets, then he only needed to borrow the Time Ghost's time power to refine a few more pellets, and then eat them to cultivate outside. This way, he could save a lot of time and Dao crystal.

Very quickly, this pellet was refined by him, and the effect made him very satisfied. This was because the Nine-turn Yuanzun Dan still had a lot of room for improvement.

For example, he could use the Crash method to refine it.

The Nine-turn Yuanzun Dan s were very hard to refine at the beginning, but it would be very easy at the end.

In the past two years, Mei Jing Sisters and Long Qiumu had grown many Nine-turn Yuanzun Dan's medicinal ingredients, so Chen Xiang did not lack any medicinal ingredients at all. What he lacked most was just time.

"If that's the case, I should be able to breakthrough very soon." Chen Xiang chuckled, then took out the medicine ingredients to continue refining. He planned to refine dozens of pills in one go, and then eat outside.

With his previous experience of success, his next refining speed was much faster than before. However, he would have to add a collision step later. This would slow down the time, but it would bring a lot of benefits.

Half a year later, he had refined fifty Nine-turn Yuanzun Dan that had gone through three stages of Crash. Now, he too was leaving the Time Ghost's room, and was prepared to find a safe place to eat and cultivate.

Just as he reached the wide path of the Divine Ghost Imperial Country, his Communication jade Symbol paper suddenly trembled, and he quickly took it out.

"It's Long Tengyun's!" Chen Xiang had previously given Long Tengyun a piece of Communication jade Symbol paper.

Earlier, Long Tengyun went to the Dead Land to look for the World Defying Stage Dragon Ancestor. Now that he was able to send a message to Chen Xiang, it meant that he had already left the Dead Land, but was still within the Myriad Tao Mausoleum.

"Chen Xiang, are you still in Myriad Tao Mausoleum? I found some clues related to the World Defying Stage Dragon Ancestor. Long Tengyun sent out a message.

"Where are you in Colorful Forest? I'll go over right now! " He had stayed in the Time Ghost for three years, but not much time had passed outside. He calculated, and adding the time he had spent searching for the mysterious array, it would only be two or three months since Long Tengyun had entered the Dead Land.

Chen Xiang did not expect him to come out so quickly, and even found some clues!

The fact that the World Defying Stage Dragon Ancestor was actually here was good news for Chen Xiang. At least, he wouldn't need to worry about being hunted down by the strong High Priest, and he wouldn't need to worry about the World Defying dragon demon coming and exterminating him after it revived.

Long Tengyun was still hiding in the Colorful Forest. After contacting him, Chen Xiang found out where he was and immediately rushed over.

Very quickly, he arrived at the place where Long Tengyun was hiding.

"Senior, do you have any clues?" Seeing Long Tengyun, Chen Xiang anxiously asked, as Long Tengyun did not tell him about it in the communication talisman, and wanted to talk about it.

Just as Chen Xiang asked, he found out that Long Tengyun's condition was not very good, he was actually injured!

Long Tengyun's strength was not on par with the High Priest's, he was considered one of the top existences beneath the World Defying Stage, but he still suffered from heavy injuries, so who actually injured him?

"The Dragon Ancestor is indeed in the Myriad Tao Mausoleum, and with the World Defying Stage Tao Ancestor!" Long Tengyun sighed: "They are inside the Dead Land, but... But... "Sigh ..."

"Senior, what happened to your injury? Is it related to the Dead Land? " The Dead Land sounded very mysterious. From the words Long Tengyun had said just now, could tell that the World Defying Stage Tao Ancestor and the World Defying Stage Dragon Ancestor might have met with some trouble inside.

Long Tengyun nodded his head, "I was chased all the way here. Luckily, they met some blood colored people on the way here and fought with them, so I could safely hide!"

"Chased down?" Chen Xiang found it even more strange, "What happened to the two ancestors in Dead Land? What did you meet in there? "

"They're in terrible shape inside, trapped! I don't know much, but this Myriad Tao Mausoleum isn't as simple as we think. The situation is extremely complicated. " Long Tengyun said: "When I was in Dead Land, I encountered a wisp of the Dragon Ancestor's soul fragment. After I had a simple conversation with this wisp of his soul fragment, I was attacked by a group of black-robed people."

"The black-cloaked person is extremely powerful. I haven't even exchanged ten moves with them before I was severely injured by them. After that, I fled all the way here."

Chen Xiang took in a breath of cold air. Long Tengyun was so powerful, to think that he would be heavily injured after less than a hundred exchanges with his opponent! From this, it could be seen that the group of people before him were all as strong as Long Tengyun.

"Is the Dead Land related to World Defying dragon demon?" Chen Xiang thought for a while, then asked.

"It doesn't matter. Although the Flying Dragon Pagoda is holding the World Defying dragon demon, the World Defying dragon demon is not a big threat to the two forefathers. The biggest threat is the fellow inside the Dead Land! Dragon ancestor told me, the original intention of this Myriad Tao Mausoleum was to lure that fellow in and trap him inside, and World Defying Stage Tao Ancestor was the bait. "

"Even though we successfully lured him in and sealed him inside the Dead Land, that guy is becoming more and more powerful ... "That's all I know."

Long Tengyun's face became extremely ugly. The Flying Dragon Pagoda was facing the crisis of the World Defying dragon demon's revival, and the inside of the Myriad Tao Mausoleum had also become very unstable.

If the worst really happened, they didn't know where to hide.

"Don't worry!" Chen Xiang patted Long Tengyun's shoulder, "Senior, you should heal your injuries first, we will definitely have a way to get through this."

Long Tengyun nodded his head, and said: "Chen Xiang, you better make a trip to Dead Land because that wisp of Dragon Ancestor's soul fragment is still inside, before he can even finish speaking to me, I'm already being attacked! And you have a very strong concealment technique. I think you should be able to discuss this matter with Dragon Ancestor."

[Chapter 2928](#)

The incomparably powerful two patriarchs of the World Defying Stage were actually trapped inside, and they were even trapped inside the Myriad Tao Mausoleum they had constructed. Chen Xiang only wanted to know who it was that had trapped them.

"Are you sure those guys won't find me?" Chen Xiang naturally wanted to go to the Dead Land and ask about the soul of the World Defying Stage Dragon Ancestor, as long as he knew what was going on there.

"There are a lot of them, but they are not the type that should be paid attention to, if not I would not have easily mixed in. In short, right now the Dead Land is their territory, the Dragon Ancestor and the others cannot leave the Dead Land, only having a portion of their souls wandering around inside." Long Tengyun said.

"Okay, I will go and tell me the location of that soul fragment. I wonder if I can find it by rushing over now." Chen Xiang said. He had already decided.

Long Tengyun told Chen Xiang the location of the soul fragments, and then Chen Xiang immediately headed to Dead Land.

Long Tengyun would stay in the Colorful Forest and wait for Chen Xiang to come back.

Previously, Chen Xiang had brought Long Tengyun to Dead Land before, and he already knew which direction the Dead Land was in. Now, he could teleport there in half a day.

Currently, he was only outside of Dead Land, he did not know what kind of dangers lay deep inside, and would not rashly teleport there.

This was why he could walk, and walk from the outside. This way, he could slowly remove the Dead Land's mysterious veil.

The Dead Land s were all black. When Chen Xiang stepped onto the black ground, he grabbed a handful of black soil to examine it carefully.

"What a strange soil, it actually contains a very rich life force!" Chen Xiang never thought that he would have to use his fire to burn the soil to refine the power of life.

He immediately made a pile of soil and placed it in the You Yao Mountain Villa, letting her know.

"This is a very fertile soil!" Jiang Sijing was shocked: "Even if it's us, it would take us tens of thousands of years to use a large amount of life force to nourish this soil."

Chen Xiang was very surprised. From the name of the Dead Land, it seemed like it was related to the evil of death, but the soil here was actually so fertile.

But why is there not a single plant here?

"Hurry up and bring in more." Jiang Simei said: "If we use these to grow medicinal herbs, then its growth rate will be even faster ... How much of this soil is there? "

Chen Xiang looked around and said, "A lot, they are everywhere ... But why is it that even though the soil is so good, not a single blade of grass grows on it? "

Chen Xiang roughly told them about the situation here.

Not only was this place barren, there was also the possibility of a large group of demons hiding here.

"You should plant something outside." Jiang Sijing said: "If there are other reactions, we can find the problem within ... In short, from our point of view, there is no problem with this soil. "

Chen Xiang took out some of the fastest growing grass seeds and placed them on the ground, before watering the World God's Spring.

Very quickly, the grass seed began to sprout, and in a short period of time, it had grown to the height of half a person. In less than an hour, it had already sprouted a few acres of grass, and the speed of its growth was so fast that Chen Xiang could only click his tongue.

"No problem!" Just as Chen Xiang finished speaking, a gust of wind suddenly blew over, causing the green grass and grass to slightly rustle.

Chen Xiang looked at the lively grass and couldn't help but smile, but when the wind blew, the grass suddenly withered, all of the grass' life force was instantly sucked dry by the wind, almost all of it disappearing in the blink of an eye.

Now, Chen Xiang understood why the soil here was fertile but not growing at all. It turned out that there was a strange wind that could quickly devour life force!

"What ghost wind is this?"

Chen Xiang suddenly felt his own life force being drained, and luckily he managed to react in time. Using the power of space, he was not affected by the gust of wind when he was cut off from the space.

Chen Xiang was sure that there was no problem with the soil here, it was because of the wind that could suck out their vitality quickly, causing no plants here.

After confirming that there was nothing wrong with the soil, Chen Xiang started to transport the soil in handfuls towards his Divine Sense Sea World.

He planned to let all the places in the Divine Sense Sea World that he could store soil be covered with this black soil. As long as he grew plants on top of the soil, it would not look so black and ugly.

"Alright, this Dead Land is pretty big, it should be big enough to fill my Divine Sense Sea World." Chen Xiang then unceremoniously transported the black soil to Divine Sense Sea World.

He already had the strength of Venerable ancestor realm, and he had a large group of Mouse Man s below him to loosen up the soil, so he quickly dug out a lot of soil.

"This soil is only thirty meters deep, but it is still extremely bouncy." After Chen Xiang dug further down, he realized that the black soil did not go all the way down, it was only that there was this black soil on the surface that was around thirty meters.

In the following ten days, he used an extremely fast speed to dig out a large piece of black soil from the Dead Land and placed it inside his own Divine Sense Sea World.

If the area he dug up was filled with water, it would be a very large lake.

Chen Xiang still remembered the important thing that caused him to enter this place. Right now, he had to speed deeper into the Dead Land to search for the soul fragments of the World Defying Stage Dragon Ancestor.

"I wonder if this fellow has run around!" Chen Xiang had hidden himself just in case the black robed man discovered him.

When Long Tengyun was previously injured by the black robed man, his injuries could already be considered serious. From this, it could be seen just how terrifying the black cloaked man was.

If he were to encounter one and be attacked from all sides, he would definitely be unable to withstand it.

Chen Xiang searched according to Long Tengyun's instructions, but didn't find any soul fragments of the World Defying Stage Dragon Ancestor. Instead, he found traces of many fights, as well as Long Tengyun's footprints.

It could prove that Long Tengyun was right, there was indeed an intense battle going on here.

"The soul of the World Defying Stage Dragon Ancestor is already gone. How can I find it?" Chen Xiang had originally planned to send out Mouse Man to help him search, but that strange wind would appear in the depths of the cave from time to time.

After thinking about it, Chen Xiang also felt that he could only release the Mouse Man to help him search.

"If you meet any strange wind, let Mouse Man burrow deep into the ground to hide." That was what Chen Xiang had done when he told Mouse Man to dig the black soil.

In order to quickly find the soul of the World Defying Stage Dragon Ancestor, he sent out thousands of rats to search for it. He did not make the Heaven devouring rat turn into a human, it would be very conspicuous, after it becomes a mouse, it would be the same color as the black soil, and would be hard to find.

In addition, these rats were very fast. Even if they encountered the black-robed man, they would be able to escape.

[Chapter 2929](#)

The Dead Land was lifeless to begin with, when thousands of rats suddenly appeared. Although the aura of life released by them was weak, the black-robed man who had been looking for them all year round could sense it. <>

After they sensed the presence of life, they immediately went to find the source of the aura. What confused them was that there were a lot of life auras coming from all directions. They had never encountered such a situation.

In the past, there were, but never so many auras. Even if it was a group of beasts, they would be weak if they were able to enter this place. Their life force had long since been sucked dry by the outside.

Chen Xiang controlled over a thousand Heaven devouring rat, but he suddenly saw the black robed man that Long Tengyun mentioned. This black robed man was indeed powerful, but just after seeing him, they had already arrived.

"Two black-robed men in a group!" When Chen Xiang saw the black-robed man, he immediately controlled the Heaven devouring rat to drill deeper into the ground. The speed at which Chen Xiang drilled was extremely fast, and he even suddenly changed his direction from there.

However, even if Chen Xiang's Heaven devouring rat managed to quickly avoid the black robed man's attack, it had been killed after it could feel a tremor. It had lost contact with the black robed man!

"He actually used such a powerful force to kill my rat!" At this time, Chen Xiang could feel a strong vibration reaching him from where he was.

At the same time, the strong vibrations came from all directions. It was caused by the Heaven devouring rat being attacked by extremely strong forces.

Not long after, ten Heaven devouring rat were killed.

"They actually knew that my Heaven devouring rat was moving so quickly. It looks like they have no choice but to hide deep underground." Chen Xiang could not control the Heaven devouring rat to go deeper into the ground, otherwise it would not take long for it to be all killed.

Unexpectedly, there were many people in black robes here. Otherwise, it would have been impossible for them to kill his mice in such a short amount of time.

After controlling the Heaven devouring rat deep inside, the Dead Land became much quieter. Otherwise, the Heaven devouring rat would be discovered very quickly and be attacked and killed by the black-robed men with his extremely strong power.

Although the Heaven devouring rat had hidden deep underground, it could still sense the situation on the ground. Through the Heaven devouring rat, he found out that the black cloaked man was flying on the ground.

"I wonder if I can find the soul of the World Defying Stage Dragon Ancestor?" Chen Xiang was also flying in the air at the moment, but he had already hidden himself, concealing any presence so that the black-robed man would not be able to detect him.

Chen Xiang continued to search for the soul fragments of the World Defying Stage Dragon Ancestor, and at the same time, used the Heaven devouring rats to test his strength. Finally, he discovered that the black-robed people were extremely sensitive to life force, even if it was just a tiny bit.

As for the Heaven devouring rat, it was hiding deep underground. Although it was releasing its life force, it was sealed off by the thick black soil.

Chen Xiang did not know when he would be able to find the soul of the World Defying Stage Dragon Ancestor, nor did he know if the soul of the World Defying Stage Dragon Ancestor was still there. After all, it was only a wisp of soul that the World Defying Stage Dragon Ancestor had left behind, and was only used to contact the outside world.

"I can only continue to search." Chen Xiang planned to use a year's time to search for it. If he did not find it within a year, he would treat it as a part of the soul of the World Defying Stage Dragon Ancestor being destroyed.

In the blink of an eye, a month had passed. During this time, he had accidentally let three Heaven devouring rats appear and be killed by the black-robed man.

Right now, he also had a certain level of understanding towards the black-robed men. He had met them before, but they had never been discovered.

These black robed people had a very dense life aura around them. Their bodies were completely wrapped up and their faces could not be seen. They were all wearing a black robe and flying in the air with a very long greatsword in their hands.

Other than that, Chen Xiang also knew that these black robed men were not some kind of evil demon, because they did not have any extremely evil auras on their bodies.

For example, although Long Qiumu was a more gentle Dragon Demon, she still had some Evil Qi on her body.

This made Chen Xiang feel that the black-robed men were humans!

"I wonder what kind of origins these guys have. Judging from their auras, they are very similar to humans. Furthermore, they have such dense life force. It should be due to their vigorous auras." Chen Xiang had met quite a few black-robed men, but he did not make a move.

Most of the people in black robes were two-two. It seemed like there were only two of them, but as long as they met two, there would be a large group nearby.

The black gowned person was roaming around the center of the Dead Land like a net, the moment two of them were discovered, and they clashed, the other black gowned people would quickly rush over.

Because of this, Long Tengyun was heavily injured all of a sudden.

Following that, Chen Xiang searched for a few more months, and also wandered around the center of Dead Land. However, he didn't find anything.

"Could it be deep underground?" Chen Xiang could only see a large group of black-robed men in the center of the vast Dead Land, but he didn't discover anything.

Even though he hadn't found anything after searching for a few months, he had already set a time to look for it for a whole year before withdrawing.

It had now been half a year!

In order to strengthen his search, he had released more Heaven devouring rats to soar into the ground. In just a few short days, more than two hundred Heaven devouring rats were killed.

More than two hundred huge craters appeared in the Dead Land, all because of the Heaven devouring rats that were attacking them.

"Whenever these black-cloaked men encounter a living being, they would attack with the same amount of strength. They would attack with their full strength, is this to ensure that they would be able to kill me in a single strike?" Chen Xiang realized that the black robed men were all exactly the same. The power they used was exactly the same as they used to fly.

Just as Chen Xiang was getting disappointed, one of his Heaven devouring rats was suddenly caught.

"What's going on?" He hastily focused his attention on the Heaven devouring rat and upon closer inspection, he discovered that the Heaven devouring rat was actually in an underground stone room.

The one who caught his Heaven devouring rat was a dignified looking old man.

"Who are you?" Chen Xiang anxiously changed the Heaven devouring rat into human form and got rid of the old man's hand.

When the old man saw that the Heaven devouring rat knew how to talk, he was extremely surprised.

"This Rat Emperor split his body into two, and what's wrong with him turning into a human?" The old man said with a frown. He was also very curious about this.

"You know the Rat Emperor? "Who are you?" Chen Xiang was shocked, and asked through the Mouse Man.

He felt that this old man could very likely be the World Defying Stage Dragon Ancestor!

"It's been many years since I last met him. Back then, it was not easy for him to escape from the Myriad Tao Mausoleum. In the end, he was sealed away." The elder's stern face revealed an expression of reminiscence. He then sighed and said, "He should be dead by now!"

[Chapter 2930](#)

"Are you the World Defying Stage Dragon Ancestor?" Chen Xiang asked, and at the same time rushed to the location of the Mouse Man. <>

"You know me?" World Defying Stage Dragon Ancestor was slightly surprised, but he quickly thought of something and asked back, "Were you so lively these past few days because you came to find me?"

When Chen Xiang got close to the underground stone room, he teleported there.

"That's right, I've been looking for you for more than half a year and lost quite a few of these rats." Chen Xiang said with a smile, then kept the Heaven devouring rat into the Rat emperor beads.

Seeing Chen Xiang's Dragon Demonic Rat emperor beads, World Defying Stage Dragon Ancestor felt that it was very familiar, but he did not ask any further. At this time, he was extremely interested in Chen Xiang, he kept having the feeling that Chen Xiang was giving him a very familiar feeling.

"Dragon Ancestor, you met Long Tengyun here before, old senior, right?!" Chen Xiang said: "At that time, he escaped after being injured by the black robed man, and after he found me, he told me to come here and find you, and now he has finally found me!"

This was only a part of the soul of the World Defying Stage Dragon Ancestor, so his strength was limited. Therefore, he had to hide underground, Chen Xiang did not expect his Heaven devouring rat to accidentally run to his hiding place.

Although the World Defying Stage Dragon Ancestor was only a soul fragment, he had a body. Just now, he was able to catch his Heaven devouring rat, but he was not strong, otherwise the Heaven devouring rat would not be able to struggle free so easily.

"It turns out that Teng Yun asked you to come ... "He is really reckless, coming here to find me is really too dangerous." World Defying Stage Dragon Ancestor was extremely clear about the situation here.

But now that Chen Xiang had found him and he was safe and sound, he felt much better.

"Yes, he said you still had something you didn't tell him before. Now that he's heavily injured, let me do it." Chen Xiang laughed: "It's really not easy finding you!"

Finding the World Defying Stage Dragon Ancestor also made Chen Xiang very happy.

Although he was a powerful Dragon Ancestor, he did not have any airs of arrogance. The divine artifact looked serious, but at the moment, he was giving Chen Xiang a very kind and gentle feeling.

After Chen Xiang sat down, the World Defying Stage Dragon Ancestor said: "Back then, I had spent a lot of energy to split this soul fragment in order to contact the outside world. Over the years, I have only seen Teng Yun, this little brat, but I only spoke a few words with him before I was attacked by the Evil Ancestral Demon Guards."

"Are those black-robed men the Evil Ancestral Demonic Guards? Who is the Evil Ancestor?" Chen Xiang asked quickly.

"World Defying Stage Evil Ancestor! He is below us, right in the middle of the Dead Land. The Daofather, myself, and this fellow are all there. " The World Defying Stage Dragon Ancestor said.

The three of them were actually trapped inside, Chen Xiang suddenly guessed the reason. Earlier, Long Tengyun said that the World Defying Stage Dragon Ancestor and the World Defying Stage Tao Ancestor created the Myriad Tao Mausoleum to 'tempt' that strong fellow.

Now that the three of them were sealed together, it was clear that World Defying Stage Tao Ancestor had planned to perish together with him.

"Back then, the Dao Ancestor lured the World Defying Stage Evil Ancestor over here and after the war with the World Defying Stage Evil Ancestor, both of them were injured. In order to seal the World Defying Stage Evil Ancestor permanently, he had activated the super seal that he had secretly set up to seal both him and the World Defying Stage Evil Ancestor."

"Later on, in order to help the Daofather kill World Defying Stage Evil Ancestor, I entered that seal. I thought that the World Defying Stage Evil Ancestor was very easy to kill, but I didn't expect that by the time I entered, his injuries would have already healed quite a bit. And the Daofather, in order to maintain the seal, consumed a lot of energy."

"In order to prevent the World Defying Stage Evil Ancestor from recovering to its peak, I fought a battle with the World Defying Stage Evil Ancestor inside, and in the end, both were injured."

World Defying Stage Dragon Ancestor's face was filled with helplessness, "I don't know why World Defying Stage Evil Ancestor is so powerful, but his recovery rate is astonishing, and his recovery rate is faster than us. Luckily, we were able to always injure him when he was about to recover, and then the three of us fell into the same situation."

"But, this guy had kept his trump card! Originally, I had completely sealed the World Defying dragon demon inside the Flying Dragon Pagoda, but now that the World Defying dragon demon was about to be released, and many mysterious Evil Ancestral Devil Guards appeared outside as well. "

If the World Defying dragon demon removed the seal and came here, the consequences would be unimaginable!

"When the World Defying dragon demon and the World Defying Stage Evil Ancestor join hands, the Dao Ancestor and I will definitely be suppressed by them. They can also destroy the Myriad Tao Mausoleum and release the many sealed monsters inside. When that happens, the world created by the Dao Ancestor will probably be destroyed." The World Defying Stage Dragon Ancestor said.

Now, Chen Xiang had already 'understood' that the World Defying dragon demon were created by the World Defying Stage Evil Ancestor. Their relationship was the same as the World Defying Stage Tao Ancestor's and the World Defying Stage Dragon Ancestor's, they originally had a master-servant relationship.

"Then what do we do now?" Chen Xiang asked: "The World Defying dragon demon is about to be resurrected, he is arranging some kind of high priest to help him"

Chen Xiang told the World Defying Stage Dragon Ancestor what had happened outside. He did not wish for the proud and peerless Dragon to gain power, if not, the Natural Law Divine Lord would have two great devils as followers. At that time, the Natural Law World would be even more dangerous.

From this, it could be seen that the evil forces within the Myriad Tao Mausoleum would definitely help the World Defying Stage Evil Ancestor to get out unconditionally. As long as the World Defying Stage Evil Ancestor came out, they would be able to destroy the entire Myriad Tao Mausoleum, and they would be able to leave the Myriad Tao Mausoleum to go to the wider world outside.

"You cultivate the Myriad Tao Divine Arts, right?" World Defying Stage Dragon Ancestor grabbed Chen Xiang's wrist, and checked Chen Xiang's body.

Chen Xiang nodded, he already had a way to enter the Venerable Ancestor Later-stage in a short amount of time, but he didn't know how to enter the World Defying Stage!

"Okay, after you go back, think of a way to get on the tenth stage of the Flying Dragon Experience Place. When you get there, you'll find what I left behind!" The World Defying Stage Dragon Ancestor said:

"When you find the thing I left behind, go find Teng Yun and have him bring you to the Dragon Ancestor's Mysterious Land, that place has a power that I inherited! Of course, the most important thing is that there are some important legacies left behind by me that can help you step into the World Defying Stage. "

Long Tengyun and the others lived in the Dragon Ancestor's Mysterious Land, and should be living in there. After Chen Xiang memorized everything, he nodded his head and said, "Alright, I will definitely enter the World Defying Stage!"

Then quickly leave this place, it is getting more and more unsafe, many evil beings will come here from time to time to pay their respects to the World Defying Stage Evil Ancestor, and if everything goes well, the World Defying Stage Evil Ancestor will choose the right people from among the evil beings, and help them step into the World Defying Stage. The World Defying Stage Dragon Ancestor said.

Chen Xiang thought of the Natural Law Divine Lord. This Natural Law Divine Lord was currently the Bone King of the White Bones Imperial, and he had great potential, and was also at the peak of the Venerable ancestor realm. If he could step into the World Defying Stage, then it would be even more difficult to deal with him in the future.

Chen Xiang bid farewell to the World Defying Stage Dragon Ancestor, and immediately left the Dead Land. He needed to quickly raise his strength, obtain the inheritance of the Dragon King, and step into the World Defying Stage.
