

## Dan God 2941

### [Chapter 2941](#)

Before entering the Myriad Tao Mausoleum, Chen Xiang went back to see Long Tengyun and the others.

"Now, the High Priest is speeding up to help the World Defying dragon demon to break the seal. Do you have any countermeasures?" Long Tengyun asked.

Chen Xiang didn't have any countermeasures against this, because right now, his only plan was to step into the World Defying Stage first. Although he had already obtained the inheritance of the World Defying Stage Dragon Ancestor, this didn't mean that he could break through it in a short while!

Even with the guidance of the World Defying Stage Dragon Ancestor, he would still need a long time to cultivate if he wanted to steadily break through the current realm.

"The Dragon ancestor didn't seem to have said anything about letting me deal with the World Defying dragon demon!" Chen Xiang thought for a while, and it was true that the World Defying Stage Dragon Ancestor did not say anything.

The thing that World Defying Stage Dragon Ancestor warned Chen Xiang the most was that when Chen Xiang stepped into World Defying Stage, he needed to ensure that he was not affected by the power of the Evil Demons. Otherwise, the condensed World Defying soul would have a demonic and evil nature, and would have a huge impact on him in the future.

World Defying Stage Dragon Ancestor specifically reminded him of this!

"Then after you enter the Myriad Tao Mausoleum, you must be careful. At this time, there are people from the World Defying Stage inside!" Long Tengyun was very worried about this.

"I know!" Chen Xiang nodded, then chatted with the Flying Dragon Palace Leader and the others for a while before leaving in a hurry.

Chen Xiang had smoothly entered the Myriad Tao Mausoleum. He did not know how many times he had come and gone, but the enchantment of the Myriad Tao Mausoleum was already unable to stop him, so he was able to come and go as he pleased.

Every time he entered the Myriad Tao Mausoleum, Chen Xiang would always arrive at the Colorful Forest at the fastest speed possible. This was also the most beautiful place in the Myriad Tao Mausoleum, he really liked this place.

The territory of Divine Ghost Imperial Country was a sealed but strange gigantic palace, the palace inside was complicated, while the White Bones Imperial was filled with bones, the Flying Dragon Ghost Realm was filled with Evil Qi, and only the Colorful Forest had the best environment.

There was another reason why Chen Xiang came to the Colorful Forest, and that was to find the Alchemist of the Sun World Defying Stage that the World Defying Stage Dragon Ancestor had mentioned.

Colorful Forest was so vast, it was not easy to find a person, not to mention that the person would often appear and disappear like a ghost.

Although the Colorful Forest was beautiful, it was also filled with all kinds of disputes and dangers.

Chen Xiang had met a relatively gentle Pink Blood Man at this time. He had met one before, and after asking, he found out that the situation in the Colorful Forest had greatly changed.

Divine Ghost Imperial Country, White Bones Imperial and the Flying Dragon Ghost Realm had long set their eyes on the Colorful Forest, and at this time, they had already secretly sent a large portion of their forces to the Colorful Forest. Although they had come here to gain experience, everyone knew that these three powers wanted to divide up the Colorful Forest.

For the Colorful Forest to have so many plants, it showed that the Colorful Forest itself contained a lot of resources.

One must know that there were no Dao crystal mines in the other places, but there were many in Colorful Forest!

The most shocking thing was that more and more Blood Tribes found Dao crystal mines in there, thus attracting the other three forces to come and occupy this place.

There were also powerful forces in the Colorful Forest, but they could not defeat the other three powers. The main reason was that the three powers all had powerful warriors from the World Defying Stage, and they did not have any of them, so they could only swallow their anger.

"The Colorful Forest was ruled by the four races in the first place. They oppressed and enslaved the other races before this, and now that something like this happened, they do not deserve to be pitied at all." Chen Xiang thought in his heart.

He also found a piece of news that wasn't very good for him. It was the Natural Law Divine Lord that was staying in the White Bones Imperial.

The Natural Law Divine Lord was currently the second in command of the White Bones Imperial, standing equal to the Bone Emperor of the White Bones Imperial.

"This bastard, what is the point of relying on someone else's incomplete World Defying soul to break through?" Chen Xiang wanted to cultivate his own World Defying soul after all.

Once he cultivated it, he would have the confidence to defeat this kind of World Defying Stage.

"I heard that there's a very large Dao crystal mine nearby, I'll go take a look!" The Pink Blood Man that Chen Xiang had met before knew a lot of things, and he had even told Chen Xiang that low level bloodthirsty people like them were often caught and used as slaves to extract Dao crystal s.

Although Chen Xiang already had more than a billion Dao crystal, he would never think that there were too many of them.

Especially after knowing that the had occupied the entire mine, he wanted to loot everything.

The Flying Dragon Ghost Realm was now the ruler of the Dragon Devil Emperor Venerable and the Dragon Devil Emperor Venerable was under the Dragon Demon's command, so they had to listen to the orders of the High Priest. Because they were loyal to the World Defying dragon demon, the Dragon Devil

Emperor Venerable had obtained half of the crippled World Defying soul and stepped into the World Defying Stage.

The reason why they wanted Dao crystal was to search for the secret inheritance array. Chen Xiang decided to ask the other demons what kind of inheritance they wanted to obtain the next time they meet the Half-ghost Old Man.

After half a day, Chen Xiang arrived at the vicinity of the mine, there were people from the Flying Dragon Ghost Realm patrolling!

He released the Heaven devouring rat to investigate, and discovered that there were ten Venerable Ancestor Later-stage s, a hundred of them were in the middle to late stages of the Venerable ancestor realm, and there were more than a thousand of them in the other Tai Zun realm!

This was a very powerful force, the fact that the Flying Dragon Ghost Realm used such a powerful force to guard this mine showed how many Dao crystal were inside!

When Chen Xiang got closer, he could feel that the Dao crystal's aura was extremely rich!

"I have to plunder this place properly, otherwise, it would be too disrespectful to my Mouse Man!" Chen Xiang remembered that he still had a few thousand strong Heaven devouring rat, and he couldn't help but to be happy. He didn't need to do anything, as long as he could control the Heaven devouring rat and bring it into the mines.

He had accumulated for many years, and he had a large amount of storage tools. He let the Heaven devouring rat swallow those Storage magic treasure and then controlled them to enter the mine.

A large number of Heaven devouring rat had entered from the bottom, so even if there were many people patrolling above, they would not be able to discover the Heaven devouring rat below.

"Now that I have obtained these Dao crystal, it's as simple as cutting grass." Chen Xiang hid in a big tree's hole, controlling the Heaven devouring rat to continuously devour them.

When Heaven devouring rat swallowed the Dao crystal, it was equivalent to having Storage magic treasure s placed in his stomach. Once the Heaven devouring rat s were full, he would immediately use the power of space to replace the Storage magic treasure s.

Heaven devouring rat s were all around the early stage of the Venerable ancestor realm, and there were a few thousand of them, which were extremely powerful. This was equivalent to several thousands of Venerable ancestor realm's miners, and they could dig up the Dao crystal s buried deep underground day and night without stopping!

"There are so many Dao crystal down there, I wonder how long we'll have to dig them out for!" Chen Xiang estimated that there were at least a trillion Dao crystal in this mountain.

A month later, the earth suddenly shook, followed by a series of rumbling sounds. A large mountain in the distance suddenly sank down.

The main reason was that Chen Xiang had dug up all of the Dao crystal below the mountain. Although there were still some remaining, they were still more than a trillion, while Chen Xiang had dug up a total of fifteen trillion!

...

## [Chapter 2942](#)

When Heaven devouring rat were digging underground, they would become as big as hippopotamus and had a big mouth like hippopotamus. Thousands of these big mouth Heaven devouring rat swallowed up all the Dao crystal in a short month. The updates were quick.

"It's time to stop!" Chen Xiang chuckled. He had originally planned to use the power of space to teleport the Heaven devouring rat back.

But when he thought about how these rats had worked so hard for so long without getting anything, he set his gaze on the Draconians guarding the mine.

These Dragon Demons were all under the Flying Dragon Ghost Realm, and the strongest one among them was only the Venerable ancestor realm.

With how many Heaven devouring rat s Chen Xiang had, dealing with these Dragon Demons was basically not a problem, let alone those little Dragon Demons that only had Tai Zun realm s, it was basically going to happen one at a time!

The mountains sank down one after another, shocking the Dragon Demons who were guarding this area. They immediately went to investigate and found that these mountains were hollowed out. Someone was actually secretly digging their mines.

The Dragon Demons were instantly enraged, and they all rushed over.

However, just as they were gathering here, many black shadows suddenly rushed up. They were all huge hairy mice. They all opened their mouths wide and looked at them.

Over five thousand rats were like locusts that surrounded the thousand Draconic Demons, releasing their formidable power and constantly biting and devouring them.

In the blink of an eye, all of the Dragon Demons from the Tai Zun realm were swallowed. Although the Dragon Demons from the Venerable ancestor realm could temporarily defend, this was just a meaningless struggle, they were already completely surrounded by the Heaven devouring rat.

"What exactly is this thing?" A powerful Dragon Demon shouted in fear. Originally, they, Dragon Demons, were already feared by many, but now, there was actually something that frightened them.

Before they could get any response, the suddenly small Heaven devouring rat had already drilled into their bodies, eating them all in an instant.

"These Dragon Demons are really good fodder!" Chen Xiang retrieved all the Heaven devouring rat s. Heaven devouring rat could eat anything, what's more, they had the strong power of the Dragon Demon on them, so he was not afraid of not being able to digest the Dragon Demon.

Demonic dragons were created by the power of World Defying dragon demon, and when Heaven devouring rat ate this type of Demonic Dragon, it would only become stronger and stronger.

At that time, everyone in the Myriad Tao Mausoleum knew about it, and they were extremely envious of it. But now that the mine was dug up, all the Dragon Demons guarding the mine had all died.

This matter was known to the entire Colorful Forest in just a few short days. At this time, the other Dragon Demons in the Colorful Forest immediately rushed over to investigate this matter.

At this time, Chen Xiang was wandering in the Colorful Forest, searching for the mysterious World Defying Stage!

Let alone being alone, even if they were in a group, as long as they met Chen Xiang, they would be eaten by Chen Xiang's Heaven devouring rat.

"Looks like I have to restrain myself a little. It would not be good if I can 'get' this Dragon Devil Emperor Venerable fellow!" Chen Xiang didn't want to face the World Defying Stage right now. Although it was a half-baked World Defying Stage, it was still very strong.

When Chen Xiang was searching for the Alchemist, he originally did not have a clue, but he had coincidentally heard it from an old Pink Blood Man. Even though the Alchemist appeared and disappeared mysteriously, he had left a secret mark on the tree trunk of the forest.

"This guy is so bored!" Chen Xiang released the Heaven devouring rat and allowed it to take human form. He looked around at the branches of the Colorful Forest to see if there were any hidden secrets.

A few days later, he did not find any hidden secrets, but he did find a few familiar faces!

"I remember that they are all from the Dragon Ancestor's Mysterious Land!" Chen Xiang saw that the three middle aged men were all from Dragon Ancestor's Mysterious Land with decent strength, all of them were Venerable Ancestor Later-stage s.

"Why are they here?" Chen Xiang immediately took back the Heaven devouring rat, and then teleported near the location of the three people.

At this moment, they were talking!

One of the grey robed middle aged man said, "Our mission this time is to gather Evil Spirit ... But how do we get it faster? "

"The fastest way to gather evil energy is to kill those who are already demons, and then step into the path of evil, and then do some things specifically for evil, then you can gather a lot of evil energy." Another blue-robed middle-aged man said.

"I heard that there are many pure blooded people in Colorful Forest, and a lot of them are just slaves. Why don't we go slaughter them, then we can gather some evil energy and hand it over to the High Priest." The middle-aged man in grey said with a smile.

"Alright, we were always being watched by this old rogue, Long Tengyun, so we wanted to do this a long time ago. Let's go!" The blue-clothed middle-aged man laughed. Just as he was about to set off, he suddenly saw a white shadow float past him.

All of a sudden, they were on alert. They took out their swords and sabers, ready to fight.

With a flash of white, he suddenly appeared in front of them. When they saw this person, they were stunned!

Standing in front of them was a white clothed elderly man, who had a smile on his face, it was actually Long Tengyun!

Of course, this was not Long Tengyun herself, but Chen Xiang's transformation.

"The three of you still remember me, it's really my honor!" Chen Xiang chuckled, he had changed into Long Tengyun's appearance just to catch these three people.

"Dragon ..." Long Tengyun, don't think that we are afraid of you, you are just a piece of trash ... " After the middle-aged man in grey finished speaking, he suddenly remembered the white figure that they had seen earlier. The figure was extremely fast and had no aura. It had quietly appeared in front of them.

No matter how he looked at it, it did not seem like his cultivation had been crippled!

"Oh? Is that so? If I were a trash, would you dare to let me hit you?" Chen Xiang giggled, he did not care about whether the other party agreed or not, and teleported in front of the other party, as he waved his hand and slapped the middle-aged man's face.

Pa! With a crisp sound, the middle aged man's face was slapped on the face by Chen Xiang. After a thunderous sound, the face exploded and disappeared!

As for the body, it was lying unharmed on the ground. Its head had actually been smashed into thin air by the other party's palm!

The other two middle-aged men trembled in fear. They knew how strong the grey-robed man who had been killed was. He had the same strength as them!

Even the Long Tengyun back then did not dare to provoke them, but now, Long Tengyun had killed one with a single slap!

"You ... You are not Long Tengyun, just who are you!" The blue clothed middle aged man swallowed his saliva, looked at Chen Xiang and roared, "The High Priest behind us is from the World Defying Stage, he's right here!"

"I am Long Tengyun, I have obtained the inheritance of the Dragon Ancestor, I am now also the World Defying Stage's!" Chen Xiang said as he walked over and killed the middle-aged man in black as easily as killing a mosquito.

He was sure that the person in front of him was World Defying Stage. He felt that no matter how large the gap between them was, it was only possible for him to be casually killed by someone with a single slap.

...

### [Chapter 2943](#)

If one had not gone to the Flying Dragon Experience Place to cultivate the Venerable Ancestor Later-stage, the disparity between them would be extremely obvious! Especially when compared to someone

like Chen Xiang who had gone to the Tenth Flying Dragon Experience Place, he appeared to be even weaker.

Previously, Flying Dragon Palace Leader was much stronger than the Leader because he could go to the Eighth Flying Dragon Experience Place. But now, the Venerable Ancestor Later-stage's Dragon Demons had also reached a bottleneck, and the High Priest was no longer able to help them increase their strength, so he could only send them to the Flying Dragon Experience Place.

As a result, the Dragon Ancestor's Mysterious Land above the Eighth Flying Dragon Experience Place was taken over by the High Priest. What worries Chen Xiang is that the High Priest might have a way to help the Dragon Demons cultivate faster in the Flying Dragon Experience Place and produce many strong Venerable Ancestor Later-stage Dragon Demons. This is extremely disadvantageous for them. "

"You can't be Long Tengyun, Long Tengyun has already been crippled, I saw it with my own eyes, it can't be wrong, you can't recover so fast!" Even though that was what the blue clothed middle aged man said, he had already believed it in his heart. Before this, he also knew that Long Tengyun had entered the Dragon Ancestor's forbidden grounds before.

"Believe it or not!" "But you're really useless, going in to be the High Priest's lackey!" As Chen Xiang spoke, he released a spatial lock, preventing the blue-clothed middle-aged man from moving at all. Then, he placed his palm on the head and used the Soul Absorbing Devil Spell.

Chen Xiang did not successfully search through the blue-clothed middle aged man's memories, and was protected by a wave of energy.

However, he still forced himself to search, wanting to break through that protective force. He didn't expect that the middle-aged man's soul would be severely injured, so he was now in a crazed state.

"Looks like these fellows are completely under the High Priest's control. What a pity!" Chen Xiang released his Heaven devouring rat and ate all the people from Dragon Ancestor's Mysterious Land.

After Chen Xiang settled this matter, he continued to search for the imprint left behind by the mysterious Alchemist. Previously, he used a large number of Heaven devouring rat but he did not manage to find it, so he guessed that it was not because the imprint was not nearby, but because those imprints might need a special method to see it.

In the next few days, he used the Dao heart Eye to look at the big trees inside. He felt that he could use this method to see that kind of imprint.

His guess was not wrong, as expected, he saw the imprints when he used the Dao heart Eye, and the imprints were not on the outside of the tree, but on the inside. If he used his mind to sense them, he would be able to sense them, but he used the Dao heart Eye to detect them faster, and he could see them clearly.

He immediately walked in that direction, and quickly found another imprint. Just like this, he followed the direction of the imprints, and in about two days, he arrived at a place at the edge of Colorful Forest, where there were fewer flowers, plants, and trees, and a large piece of barren land.

"Is that master in such a remote place like Colorful Forest? There's so little life here! " When Chen Xiang arrived, he did not find any other imprints. Instead, he saw something in the middle of the wasteland that looked like a protrusion.

He walked over to take a look, and a bald youth suddenly appeared. He cried out in fear and almost attacked.

"Big brother, stop!" The bald man shouted, "I won't attack you!"

Chen Xiang took a small breath and asked, "Who are you? Why are you hiding here? "

"I'm a guide boy!" The bald youth shouted, "Are you looking for our master?"

Chen Xiang nodded. The master that the bald youth was talking about should be the Alchemist from World Defying Stage.

"I want to see him. Quick, take me there!" Chen Xiang said, he was truly happy to have such a Alchemist here.

The bald youth came out from the ground and patted off the sand on his body. "It's not that easy to see him. However, if you really want to see him, you can do it for me!"

The bald youth pointed at the hole in the ground and said with a smile, "Every year, there will be many people looking for our master. If everyone wants to see him, wouldn't he be very busy?"

"Did a lot of people come here?" Chen Xiang didn't expect that, in his opinion, there weren't many normal people in the Myriad Tao Mausoleum and someone would actually come here to find the Alchemist.

"Basically, there are around 10 every month! There are still a lot of people in Myriad Tao Mausoleum, don't look down on Myriad Tao Mausoleum. " The bald youth chuckled, "Big brother, you first!"

Chen Xiang looked at the hole and did not have the desire to go down. However, in order to meet that master, he could only obediently go down and take a look.

After he went down, he immediately felt a suction force. Then, he naturally slid down to a bright hall. What surprised him was that there were quite a few people in this hall.

These people were all sitting cross-legged on the ground. In front of them were pill furnaces. They were actually concocting pills!

Chen Xiang immediately guessed that these people were the disciples of the Master, but from the words of the bald youth, he knew that his guess was wrong.

"They are all here to see the master. They are all trying their best to get the qualification to see the master." The bald youth laughed. "If you want to meet the master, you have to be like him!"

"Like them? What are they doing? " Chen Xiang knew that these people were concocting pills, but why did he need to concoct pills to be able to see the master?

"Big brother, you don't know! I'll have a word with you right now. " The bald youth then began to talk about the rules.

Very quickly, Chen Xiang understood everything. In order to meet the Great Master, he needed to complete the mission given by the Great Master.

For example, these people were all concocting a type of pill. And this kind of pill was extremely difficult to concoct. As long as the pill was concocted, they would be able to meet the master.

Moreover, if one wanted to participate in this kind of mission, the first step was to hand over five trillion Dao crystal for a spot.

Although it was worth five trillion, the Dao crystal s would not waste time on words. The bald youth told Chen Xiang that every year, the master would issue a new pill formula, and the master would provide enough medicinal ingredients as well as the trick to concoct the pill.

Therefore, this 5 trillion was equivalent to tuition fees. As long as one paid 5 trillion, even if one was unable to meet the master, one would still be able to learn many alchemy techniques here.

"With 5 trillion, I can study here for the rest of my life?" Chen Xiang felt that this was still quite a good deal.

"Of course not, 5 trillion is only 5 years! However, if you study seriously here for five years, your alchemy standard will definitely improve by a lot. " The bald youth laughed, "If you don't know how to refine pills, you can hand over three trillion Dao crystal first. We will have someone to teach you how to refine pills!"

Chen Xiang suddenly felt that this was a place for learning pill refining. It sounded good, but he felt that it was kind of deceitful.

#### [Chapter 2944](#)

Chen Xiang was considering whether he should join, he counted the people here, there were a total of 500 people, that was considered more, and all of them knew how to refine pills, in Myriad Tao Mausoleum, it was truly not easy.

"What kind of pills do you usually learn to refine?" Chen Xiang asked: "If learning a few is of no use, won't we lose out?"

"It won't be a loss, the pill formulas that our masters released were all useful to many people, for example this year's pill formulas are called Heaven and Earth infinite Dan s!" The bald youth said, "Do you know what this pill is used for?"

Chen Xiang thought for a moment, and hearing the name was indeed hard to think of, he shook his head: "I don't know, what's the use of it?"

"Eating this pill will allow you to directly ingest a large amount of Myriad Tao's power to cultivate the powerful Myriad Tao's Golden Body. This is one of the ways to unleash the potential of the Venerable Ancestor Later-stage! If you are from Flying Dragon Pagoda, you must know that there is a method that can help you achieve your goals in cultivation in Flying Dragon Pagoda. " Although the bald youth looked like a youth, he knew quite a few things.

"Cultivate on the Flying Dragon Experience Place!" Chen Xiang said. Not long ago, he was in the Flying Dragon Experience Place, and had to go through a lot of pain to be able to reach the peak of the Venerable Ancestor Later-stage.

Even if you do not head to Flying Dragon Experience Place, you will be able to achieve the same result after eating the Heaven and Earth infinite Dan, and the results will be even faster. The bald youth arrogantly said, "This is the power of our Myriad Tao Dan God. Only he can create such a pill formula!"

"That master is called Myriad Tao Dan God?" This was the first time Chen Xiang had heard of this name. It sounded like it had something to do with the World Defying Stage Tao Ancestor.

"Yes, are you interested now? Hurry up and join us! " The bald youth raised his eyebrows and winked at Chen Xiang. Chen Xiang felt that in the eyes of the bald youth, he was just like a fish in water that was easy to scam.

"There's another benefit. If you can learn how to refine a type of pill, you will receive the reward of five hundred billion Dao crystal." The bald youth said.

"Can you reduce it?" Chen Xiang asked: "I don't have enough Dao crystal!"

If he really could get a few good pill formulas, Chen Xiang felt that it wouldn't be a big deal to get Dao crystal s. After all, the other party had provided him with the medicinal ingredients.

"How many Dao crystal do you have?" The bald youth saw that Chen Xiang had his own way of thinking and thought that he could make way, so he asked.

"3 trillion!" Chen Xiang said.

"This is too little!" The bald youth frowned. "Are you really that few?"

Chen Xiang was currently a simple and honest middle-aged man. He scratched his head, then nodded: "I was originally looking for a secret inheritance array, then heard that there was a master here, so I came here to look for him."

The inheritance secret array required three trillion Dao crystal to activate, which was something many people knew. The majority of them had accumulated three trillion Dao crystal and went to search for the inheritance secret array.

"Fine, 3 trillion is 3 trillion. You can study here for 5 years. We will provide you with medicine." The bald youth sighed, then nodded and agreed.

Chen Xiang knew that it had a price to it, so he looked down on the bald youth and purposely made himself look like a teenager so that he could lower the guard towards him and make it easier for him to trick others.

Following that, the bald youth and Chen Xiang even signed a contract, which made Chen Xiang feel a lot more at ease.

"Just call me Little Light in the future, I'm responsible for everything here." Little Light said with a smile, "If you encounter any danger, you can also hide here. We will definitely protect you."

Chen Xiang was very curious about the place, but it seemed like there was a very strong force here. Even though the Xiao Guang in front of him looked like a teenager, Chen Xiang did not know his cultivation, so he was not weak.

"Can I start to learn that Heaven and Earth infinite Dan now?" Chen Xiang asked, he felt that this pill was more useful to him, because it could absorb the Myriad Tao's power.

After stepping into the World Defying Stage, he would need to cultivate the World Defying soul and the Primordial Body, and he would need to absorb a large amount of Myriad Tao's power, so this kind of Heaven and Earth infinite Dan would definitely be of great help to him.

"Of course!" He then took out a jade chip for Chen Xiang and said, "There is information about the Heaven and Earth infinite Dan in there. Take a good look at it first!"

Chen Xiang sent his consciousness in, and very quickly, he had a very clear understanding of the Heaven and Earth infinite Dan.

Heaven and Earth infinite Dan is an arrogant profound core!

Amongst the prideful stage of the pellet, there were three more commonly seen. The first was the prideful profound pellet, the second was the World Defying holy Dan, and the third was the prideful divine pellet.

This was Chen Xiang's first time hearing of such a thing. Of course, he knew that these pills were not easy to refine, and the ingredients needed must also be very special.

Very quickly, Little Light arrived. He passed Chen Xiang a jade box and said: "There are ingredients for refining Heaven and Earth infinite Dan inside! Oh right, I forgot to tell you, this Heaven and Earth infinite Dan is this year's main topic. If you can refine it, you will receive the reward of one trillion Dao crystal! "

Previously, when he learnt to refine a type of pill, he would obtain the Dao crystal's reward. At that time, Chen Xiang had doubts, but he did not ask about it.

"Can anyone learn it? Aren't you afraid of losing money? There are hundreds of Alchemists here, if you were to learn all of them, then you would need to give me hundreds of billions of Dao crystal! " Chen Xiang said. At this time, he and Little Light were in a quiet stone room, and outside the room was the great hall. A large number of Alchemists were there seriously refining pills.

Little Light laughed, "It's not so easy to learn Myriad Tao Dan God's pill formulas, so we're not afraid of that happening! In fact, the prize money we give out each year is only one or two trillion! "

Chen Xiang curled his lips: "So that's how it is, your Myriad Tao Dan God's pellets are really hard to learn!"

Little Light patted Chen Xiang's shoulder and said: "Your bones are extraordinary, and there's a master's demeanor between your eyebrows. You will definitely learn it, do not be discouraged! Furthermore, learning how to refine pills wasn't something that could be accomplished in a day or a night. Especially Apothecary Mu, it was much more difficult! "If you are unable to learn it within five years, it will take ten years or even a hundred years. Our proud Pill Academy will welcome you at any time!"

Chen Xiang had already known that this was a big trap, how could learning to refine the Everlasting Pellet be that easy?

"Un, thank you for your guidance!" Chen Xiang hurriedly nodded. He felt that he could receive the three trillion Dao crystal rewards within five years.

"There are ten portions of medicinal herbs. Try to see if you can refine them yourself first. We will provide ten portions of medicinal herbs to you free of charge. If you want more, you will need to buy more!" "Not expensive, just 10 billion." "Yes."

Chen Xiang had known that there would be such a trap, and it was completely within his expectations. He only nodded his head.

### [Chapter 2945](#)

Little Light saw that Chen Xiang had no objections and was very happy in his heart. It was as if he was looking at Chen Xiang sending a large amount of Dao crystal to him nonstop in the future.

Chen Xiang had his own secret room here, he could also go to the main hall to refine pills with everyone.

Chen Xiang liked him to be alone, so he chose to refine in the secret room here. When he arrived inside the secret room, he found out that the several hundred Alchemists in the hall were only the tip of the iceberg. And there were also many Alchemists in the group of secret rooms here who came to learn from here.

"Why are there so many good Alchemists in this Myriad Tao Mausoleum?" Chen Xiang was very surprised. When he was in the Flying Dragon Pagoda, he did not encounter many outstanding Alchemists.

However, this prideful Pill Academy actually had a few thousand students!

"Next time when we go out, ask Little Light!" Chen Xiang needed to hurry up and concoct the pills, his goal was to enter the World Defying Stage and try his best to prevent the High Priest from helping the World Defying dragon demon to break the seal.

"Unparalleled Mysterious Pill ..." I wonder if it can be of any help to me. " Chen Xiang already had the means to step into the World Defying Stage and he knew how to cultivate it, but it was still rather difficult.

For example, cultivating the World Defying soul and the Primordial Body required a large amount of Myriad Tao's power to support it. Even if he was to madly absorb the energy from the Tenth Flying Dragon Experience Place, it would be difficult to achieve such a thing in a short period of time.

"I wonder if there are any Heaven and Earth infinite Dan that can be bought already!" Chen Xiang thought about it as he left the secret room to look for Xiao Guang.

After Xiao Guang finished receiving Chen Xiang, he went back to busy himself with other matters. When Chen Xiang came out of the secret room, he could not find.

"This damned baldy, once you've earned my Dao crystal, I will not care about it anymore!" Chen Xiang cursed a few times in his heart, and then, he asked around and found out that there was a place that specialized in selling medicinal pellets.

There was a very big underground palace here. Chen Xiang was looking at a map on a very wide corridor, and soon found the location of the medicinal pills being sold.

He arrived after walking for a short while. The Ao Dan Pavilion was quite lively, when Chen Xiang arrived at the entrance, a few people walked out.

"It's hard to imagine that there's such an underground city under the Colorful Forest!" Chen Xiang suddenly felt that this Pill Academy was a small city.

"Myriad Tao Dan God would definitely be rich, harvesting a large amount of Dao crystal every second." Chen Xiang thought so.

After he entered the Auland Pavilion, a tall and pretty lady hastily came over with a smile on her face. With a sweet voice, she asked: "Brother, do you need to buy any pills?"

"Do you have any Heaven and Earth infinite Dan s to sell?" Chen Xiang asked.

"Yes, please follow me!" Then, she anxiously invited Chen Xiang to a counter: "We can buy it here!"

Chen Xiang came to the counter and an old man smiled at Chen Xiang as if he was looking at a fat sheep. He said: "Brother, buy a Heaven and Earth infinite Dan, right?"

"Yes, how much?" Chen Xiang had already secretly guessed the price.

"One trillion Dao crystal pills!" The old man said.

Even though Chen Xiang was mentally prepared, he still wanted to curse at others. This was way higher than he had imagined, for he thought he would only need a hundred billion Dao crystal s per pellet.

"Can you reduce it?" Chen Xiang asked.

"That's already quite a bit. If you can refine it, then sell it to me. I, Ninety Five Million Dao crystal will take it from you." The old man said, "This pill is very expensive and very difficult to refine. So far, there have only been three students who have successfully refined it. They have all obtained a reward of one trillion yuan."

Chen Xiang was more surprised that there was actually someone who could refine it.

Right now, he only wanted to know the effects of these pills, and concocting them himself was still rather difficult. If it did not have any effect on him, he would choose another type of pill and would not waste too much time on these Heaven and Earth infinite Dan.

"Alright, I'll buy it!" Chen Xiang took out a trillion Dao crystal to buy it. He knew that this was only a temporary loss, and he would definitely earn it back in the future.

After buying it, he returned to his secret room and ate it.

"Is it really useful?" After consuming it, Chen Xiang immediately activated the Myriad Tao Divine Arts. At this time, he had a new understanding of the Myriad Tao Divine Arts, and if the Heaven and Earth infinite Dan is useful, he could try the Myriad Tao Divine Arts as well.

Although it was his first time coming into contact with a Heaven and Earth infinite Dan, he knew that the quality of the pellet was not bad. After he ate it, he immediately felt a very strange burst of Myriad Tao power.

After the power from Myriad Tao surged out, it also produced a strange power, allowing him to absorb the surrounding Dao energy and convert it into the power of Myriad Tao!

At this moment, he felt that the rate at which he was absorbing the Myriad Tao's power was multiple times faster than when he was at the tenth stage. As he operated the Myriad Tao's Sacred Art, the surge of Myriad Tao's power was quickly refined by him and continued to strengthen his Six souls and the Myriad Tao's body!

This pill could help him obtain a large amount of Myriad Tao's power, but the power of Myriad Tao was not enough to help him break through to World Defying Stage. Furthermore, it did not last for a long time with only twenty hours.

"It's not bad. If I were to use the Crash method to refine more, after the quality increases, the effects would become even stronger." Chen Xiang took a deep breath. "As expected of the Primordial Pellet, it helped me to step into the World Defying Stage!"

After Chen Xiang determined the effects of the Heaven and Earth infinite Dan, he decided that he would need to learn how to refine this pill. Whether it was for sale or to raise his own cultivation, it would be of great use to him.

He was sure that it would be difficult to refine. After all, this was a pretty good pill!

"I have to say, this Myriad Tao Dan God really has some skills!" Before, Chen Xiang wanted to find the Myriad Tao Dan God to see if there were any good pill formulas in there. Even though he hadn't seen the Myriad Tao Dan God yet, he had gotten such a good pill formula.

Chen Xiang planned to refine a little more and then find the Time Ghost to eat. That way, he would be able to save a lot of time.

Following that, he began to attempt refining. Initially, he used the most conservative method, but it was to no avail. The main reason was that the ingredients were difficult to refine. Then, he used the World Defying god fire to burn them for an entire day and night, but there was no reaction at all.

Just like that, after playing with it for three days, that batch of medicinal ingredients entered and mysteriously died!

"Damn it, the recipe never said something like this would happen, it only said that the ingredient was stubborn and would need to be burned for a long time. Once the ingredient softens, the fire will increase and the ingredient will be burned!" Chen Xiang silently cursed a few times. He guessed that it was because he had used the World Defying god fire to burn himself that such a situation had occurred.

...

## [Chapter 2946](#)

Although the jade slip that Xiao Guang gave him had detailed information about Heaven and Earth infinite Dan s, Chen Xiang felt that he did not have enough knowledge about the refining process of Heaven and Earth infinite Dan s.

Helpless, he could only leave the secret room. He had to ask the experienced Alchemist s, if he tried to find things by himself, he would only waste medicinal herbs. Now that the medicinal herbs had not been planted yet, if there were no more, he would have to use a lot of Dao crystal s to buy them.

Chen Xiang came to the main hall outside and looked at the hundreds of Alchemist s who were concocting pills. There were males, females, old and young, and he did not know their standards, but they all looked pretty good, and their standards of using flames were very high.

He suddenly saw an old man packing the pill furnace; it should be time for him to rest. His eyes lit up and he waited for the old man to leave the hall.

The old man wore a grey robe, and even though his hair was completely white, his skin was extremely white like an infant's. It could be seen that he had put a lot of effort into his appearance, and his cultivation was quite good as well.

From the old man's appearance, Chen Xiang felt that he looked very good, so Chen Xiang waited for him to leave the hall and quickly followed.

The old man was about to return to his secret chamber, so he was walking in a tunnel.

After Chen Xiang caught up, he immediately shouted: "Senior!"

When the old man heard someone shouting, he turned his head to take a look. After he saw Chen Xiang, he quickly sized him up, then revealed a kind smile: "Kid, is there something wrong?"

"Senior, junior Chen Xiang has just arrived at this place and is currently learning how to refine Heaven and Earth infinite Dan s, but I am completely clueless about this pill's refining process and I am unable to find that fellow, Little Light, so I would like to ask senior for some guidance." Chen Xiang said very respectfully.

The old man shook his head and sighed. "I haven't been able to refine it, but I can tell you about it ..."

After that, the old man invited Chen Xiang to his private room and slowly explained the difficulties in refining the Heaven and Earth infinite Dan to Chen Xiang. Chen Xiang memorized all of this.

The old man's name was Ding Yuchen. It had been four years since he came here, and he still hadn't learned how to refine a pill. This was mainly due to the difficulty of the pill.

"Is it all self-taught here?" Chen Xiang was a little angry, they had handed over many Dao crystal to learn concocting pills.

"Almost like self-study ... After all, even if someone were to teach us this pill, it would still be difficult to learn it. If they can concoct the pellet that the Myriad Tao Dan God created, that would be a huge profit.

" Ding Yu Chen said.

"I heard that there are people who can learn it. Who are those guys?" Chen Xiang was very curious about this, he also wanted to meet these people.

I don't know. I've seen one before, a young man who looked very young, but was extremely arrogant. Some old people who wanted to ask him about it were ridiculed and even insulted in front of the crowd. Ding Yu Chen shook his head and sighed: "Everyone with some ability is like that here!"

Therefore, when Ding Yu Chen saw that Chen Xiang's attitude was so good and respectful, he started to chat with Chen Xiang. He liked young people like Chen Xiang more.

Ding Yu Chen had concocted pills continuously for two months, and he was currently rather tired, so Chen Xiang left in a hurry, telling him to rest well.

He returned to his secret room and took out the medicinal ingredients needed to refine Heaven and Earth infinite Dan.

"So, Heaven and Earth infinite Dan needs to be burnt for a very long time!" Just now, Chen Xiang had heard from Ding Yu Chen that it would usually take about a month before it would have any effect.

But, this was simply too long for Chen Xiang, he felt that even if he had to buy time from the Time Ghosts, it would still be too long before he would stop.

"When I sent the World Defying god fire to burn, I directly burned the medicinal ingredients to death. What happened?" Previously, Chen Xiang had asked Ding Yu Chen if there would be any deaths of medicinal ingredients. Ding Yu Chen told him that no such thing had happened.

In other words, when using World Defying god fire to refine Heaven and Earth infinite Dan, it could be faster!

"World Defying god fire can definitely add time to concoct pills, it's just that there are some problems that need to be solved." Chen Xiang took out the medicinal ingredients and refined them again.

He had to find the problem and solve it!

Soon, he wasted seven batches of medicinal materials. Luckily, he found the root of the problem, so it wasn't considered a loss.

"So that's how it is. I understand now!" Chen Xiang already understood why the World Defying god fire would burn the medicinal herbs to death. The main reason was that the World Defying god fire's firepower was too strong and strong.

Furthermore, the Heaven and Earth infinite Dan's medicinal herbs and the Primordial Divine Flame are at odds with each other, especially their source energy, which is even more fragile. The World Defying god fire can directly exterminate the source energy within, causing the medicinal herbs to become dead medicinal herbs!

"As long as I find a suitable place to combine my Primordial Divine Flame and my medicinal herbs, I can use my flames to quickly refine Heaven and Earth infinite Dan."

After thinking about it for a while, Chen Xiang decided that when releasing the flames, he would not add the Heavenly Flame but directly use the World Defying god fire to refine it.

He tried it once, but it did not succeed. The situation was the same as before, which meant that it had nothing to do with the Heavenly Refining Flame.

"Seems like I can only try the Blood Refinement Method!" Chen Xiang planned to release blood and merge it with the World Defying god fire, and at the same time refine the blood into the medicinal ingredients.

This was what he had done to the medicinal herbs that were highly resistant to him in the past!

Chen Xiang only had two sets of medicinal ingredients left, if he failed, he would have to buy them.

"It will definitely work!" Chen Xiang took out the herbs and used the blood refining method to refine them.

In merely three days of time, he had successfully used the World Defying god fire to burn those medicinal herbs and turned them into tiny Medicine crystal. As long as he mixed these Medicine crystal together, he could successfully refine a Heaven and Earth infinite Dan!

"Hehe, I finally succeeded!" Chen Xiang wiped his sweat, he felt that at this point, he was not far from success anymore.

Very quickly, he gathered the Medicine crystal into a group and then entered the final stage of Core Condensation. He estimated that the group of Medicine crystal was split into three parts and then started to condense the core.

"To be able to refine three medicinal herbs in a single serving, that's not bad at all!" Chen Xiang looked at the three Heaven and Earth infinite Dan s as if he was looking at the three trillion Dao crystal s.

He had previously spent a trillion just to buy a Heaven and Earth infinite Dan. Back then, he had felt that it was very expensive, but now, he felt that selling it for this much was also good, because at that time, he would be able to make a huge profit by selling this kind of pill.

"Bastard, you stole so many of my Dao crystal, I'm going to earn them back soon!" Chen Xiang couldn't help but smile, then concentrate on condensing the core.

The process of condensing the pellet was not easy, and was much more difficult than Chen Xiang had expected. It also took a long time, and a total of five days. Fortunately, everything went smoothly, and in the end, he managed to condense three pellets of extremely high quality Heaven and Earth infinite Dan.

### [Chapter 2947](#)

Chen Xiang's refining technique could only be done by himself, so even if he told others how to refine it, no one else would know, but he could provide some ideas to others.

"I've finally succeeded. I'll take one and take a look!" After Chen Xiang ate a golden Heaven and Earth infinite Dan, he had a look of enjoyment. After all, he refined it himself, so it tasted better.

Very quickly, just like the last time when he ate the Heaven and Earth infinite Dan, he felt a very strong burst of Myriad Tao energy exploding inside his body, quickly merging into his body and even helping him to absorb the outside Dao energy and convert it into Myriad Tao power. "

After refining this pellet, Chen Xiang opened his eyes and said with a grin: "It's done. Because the quality is high, it's a lot better than the pellet I bought last time."

Chen Xiang planned to sell the Heaven and Earth infinite Dan in his hands right now. This could be exchanged for about two trillion Dao crystal.

The one before, if you could learn how to refine a type of pill, you would be rewarded with one trillion Dao crystal. The tuition fee he taught previously was three trillion Dao crystal, and he felt that it would return to him very soon.

"Go find that bastard Little Light." Chen Xiang excitedly left the secret room and went to the great hall to wait for Little Light. Previously, Ding Yu Chen said that Little Light would appear in the great hall from time to time.

Chen Xiang stood at the entrance of the tunnel and looked at the people inside the hall who were refining pills. Ding Yuchen was also refining pills.

Just like this, Chen Xiang waited for two days, but did not see Little Light.

Chen Xiang suddenly sensed that there were people approaching from behind. He was not Xiao Guang, because Xiao Guang did not have any Qi, and the man behind did not hide his Qi at all.

This person's aura was extremely arrogant. Chen Xiang didn't even need to turn his head to know that this person was one of those arrogant fellows.

He didn't plan to turn around to look either, but who would have thought that when this person walked over quickly, he would actually hit his shoulder fiercely, directly sending him flying a few steps. Moreover, it even caused Chen Xiang to feel pain in his shoulder.

"What are you doing?" Chen Xiang was enraged, and said coldly.

"Hmph, you deserve to be hit by me while standing here!" The man looked up and down at Chen Xiang, his expression extremely arrogant, and his tone extremely arrogant. Are you not convinced? I'll hit you if I hit you, what's wrong? "

This person was a young man wearing a set of purple clothes. Although his appearance wasn't bad, his currently arrogant face made people feel that he was ugly.

"Why did you hit me? This road is so big, and I'm standing against the wall, it can't stop you! " Chen Xiang clenched his fists tightly, the tone was filled with anger, even if the other party was a World Defying Stage, he would not be afraid.

"Yo, you actually still have a temper!?" Do you know who I am? You actually dare to yell at me, go and find out who I am! " The purple clothed man laughed and mocked a few times, looking at Chen Xiang with disdain.

Just as Chen Xiang wanted to speak, Ding Yu Chen who was concocting pills at this moment hurried over and sent a sound transmission to Chen Xiang at the same time: "Chen Xiang, this guy is one of the three who was able to concoct Heaven and Earth infinite Dan s. Don't provoke him, he has quite a lot of power here, and many people would stand on his side to curry favor with him."

"Forget it, it's just a misunderstanding!" Ding Yu Chen immediately pulled Chen Xiang.

Ding Yu Chen and the purple-clothed man thought that Chen Xiang would make the deal, but Chen Xiang's body suddenly moved, he instantly appeared in front of the purple-clothed man, and chopped down at his shoulder with a hand blade!

Kacha!

He only saw the purple-clothed man's arm suddenly shake, he had already been dislocated by Chen Xiang, and the purple-clothed man also cried out in pain!

"You deliberately bumped into me. I'll call back. We owe each other nothing." Chen Xiang was not afraid of this fellow. If he were to be investigated, he would just teleport away.

"How dare you hit me ... "You ..." The purple-clothed man was furious, his face had already been distorted by anger.

The pill refiners woke up one by one. They all knew about what had just happened. The purple robed man was extremely famous here. Although he was arrogant, no one dared to do anything to him. Many people had to treat him with respect.

But now, he was actually beaten up by someone!

Seeing the purple-clothed man's angry face, Chen Xiang could not hold back and uncontrollably waved his hand towards him!

Pow!

Chen Xiang slapped the purple clothed man hard once again, sending him flying with quite a bit of force!

"Once you refine the Heaven and Earth infinite Dan, you can act arrogant, right? I can also refine it too, so if I can be arrogant too, I'll slap your face, what's wrong?" If you have the guts, come and fight back! " Chen Xiang walked over, but was stopped by Ding Yu Chen.

"I will kill you!" The purple-clothed man roared and was about to rush over, but Little Light suddenly appeared.

No one knew when he arrived here, exactly why he appeared here. Then, his body released a surge of force, forcing the purple clothed man and Chen Xiang back into the two walls of the passageway.

"Is that all?" Little Light's expression was serious as he asked.

Xiao Guang was the person in charge here, he naturally knew the purple robed man very well, he was one of the few people that was able to refine Heaven and Earth infinite Dan, he did not know much about Chen Xiang, because Chen Xiang had just arrived.

"He attacked me first." Chen Xiang scoffed, then explained the situation to her, "This guy didn't say anything about hitting me, but he's still very arrogant, so I hit him!"

The purple-clothed man was extremely angry. He had received a fierce slap in public, so many people would definitely laugh at him in his heart. This kind of feeling made him go mad.

"Both of you are at fault! First of all, you. "Right, what's your name?" Xiao Guang did not know Chen Xiang's name, and Chen Xiang had not mentioned it before.

"Chen Xiang!" Chen Xiang said.

Little Light furrowed his brows, his mouth constantly chanting these two words: "Chen Xiang... Chen Xiang, what a familiar name, could it be ... Was it Chen Xiang who entered the Heavenly Alchemy stone wall back then? "

"That's right!" Chen Xiang revealed his true appearance, and said: "I never thought that in the past, there would still be someone who would recognize me!"

Many of the people here were old fellows, and their memories of what happened back then were still fresh in their minds. Back when Chen Xiang had entered the Heavenly Alchemy stone wall, the few powerful ancestors had all been beaten up by him.

Regarding Chen Xiang, some people knew a lot about him.

"I heard that Chen Xiang's body fused with the Heavenly Alchemy soul, and his pill refining skills are also extremely high!" An old man said. Back then, when Chen Xiang released a large number of Dragon Magic Dan s from the Flying Dragon Pagoda, he was still very famous.

The purple clothed man sneered: "So what? Back then, is it possible for him to refine Heaven and Earth infinite Dan? "

"Of course I can refine it!" Chen Xiang laughed blandly: Furthermore, I have never talked about refining a Heaven and Earth infinite Dan. There is nothing to brag about about about, I shouldn't be so complacent that I bite people like a dog.

### [Chapter 2948](#)

At this time, the purple-clothed man also knew that Chen Xiang had just come in. He had only come in not too long ago, and had already learned how to refine Heaven and Earth infinite Dan.

"Anybody can say it, why don't you refine a batch for me to see!" The purple clothed man sneered: "Don't boast!"

"If you want me to refine it, then I will refine it?" Chen Xiang curled his lips: "Of course, I will refine a cauldron. After all, learning how to refine Heaven and Earth infinite Dan will give you a reward of one trillion Dao crystal!"

Chen Xiang looked at Little Light, Little Light nodded his head and said: "If you can really refine them, then you can start refining now!"

Xiao Guang understood Chen Xiang quite well, back then everyone wanted to know what my Heavenly Alchemy stone wall was hiding, but after ten thousand years, everyone forgot about it. Now that they see Chen Xiang here, that kind of curiosity surfaced in their hearts.

"Alright, I'll start forging now!" Chen Xiang said: "I don't have any more medicinal ingredients ... .. Can you give me one? "

These were all divine medicine that could outshine the world, it would take a while for the Mei Jing Sisters to grow them, since Little Light had a lot of these medicine anyway, so he decided to shamelessly ask for them.

Xiao Guang gave Chen Xiang a set of medicinal ingredients.

Chen Xiang came to an empty place and took out his Tianchuang furnace. Looking at the purple-clothed man who had an unhappy face, he laughed: "Do you want us to compete to see who can refine the fastest and best?"

"So what if we want to compete? Are we afraid of you? If you lose, you have to give me three Heaven and Earth infinite Dan and then give me three slaps. " The purple-clothed man had a lot of confidence in himself. For someone as arrogant as him, he wouldn't be arrogant if he didn't have confidence in himself.

"Okay, if you lose, you have to give me three Heaven and Earth infinite Dan, and then give me three slaps." Chen Xiang said. He had not come to this gamble for a very long time, so he was very interested in this.

Little Light shook his head and could only watch from the side. This kind of thing was something that the two of them had agreed to, so he couldn't stop them.

After both of them took out their pill furnaces, Little Light shouted, "Starting now, the time limit is one month! A person's status is determined by their overall quality. "

Chen Xiang had previously learned from Ding Yuchen that refining a batch of Heaven and Earth infinite Dan required a long time, and one month was considered very fast.

From the start, the people around them all opened their eyes wide and concentrated. None of them could refine Heaven and Earth infinite Dan, so they hoped to see what experiences or insights they could gain from this battle.

When Chen Xiang refined it, he used the World Defying god fire and his unique method of blood refinement to refine it.

The furnace that he had previously refined was completed in less than ten days. And this was the second time that he was refining it. With his previous experience, he would be able to complete it faster than before!

Refining such an arrogant profound core already took a long time, and currently, the surrounding Alchemists all knew that, so they could only wait patiently after one or two months.

Time passed by quickly, and in the blink of an eye, eight days had gone by!

Just today, Chen Xiang suddenly shouted out: "I'm done refining!"

Everyone was startled, thinking that Chen Xiang was just joking, since it would be boring for them to wait here.

However, looking at Chen Xiang's expression, he was not joking!

Because Chen Xiang had already opened the lid of the pill furnace.

Chen Xiang had really finished refining, and it had only been eight days, and he had already refined the Heaven and Earth infinite Dan!

The purple-clothed man did not dare believe it, this purple-clothed man had some background. Chen Xiang had just found out that there were a lot of these kinds of families in Myriad Tao Mausoleum, their overall strength was not bad, and they were also people that the big powers did not dare to provoke.

The family that the purple-clothed man belonged to was called Yuan Family, it had been developing in the Myriad Tao Mausoleum for a long time. The entire Yuan Family was quite strong, and there were also quite a few good Alchemist.

His name was Yuan Guangxuan, and he had been learning alchemy since he was young. He had been studying for many years, and it was said that he was not the strongest young man in the Yuan family, and only because his father was respected and respected in the Yuan family, he was able to obtain a large number of Dao crystal s from the Yuan family.

Yuan Guangxuan was very clear about the difficulty and time needed to refine Heaven and Earth infinite Dan! Yet Chen Xiang in front of him was able to refine it within eight days. This was something that he found hard to accept, so he still could not believe it!

Little Light knew that Chen Xiang had succeeded. The moment Chen Xiang opened the lid of the pill furnace, he immediately felt the Heaven and Earth infinite Dan's aura.

Little Light walked over and saw three high quality Heaven and Earth infinite Dan s. He could not help but exclaim in his heart!

There were Alchemist s who could refine Heaven and Earth infinite Dan, and all the Elders in the academy knew how to refine them, but they could at most refine one or two of them! Only Myriad Tao Dan God could refine three or four pills.

This kind of astonishing strength shocked Little Light.

"Little Light, can you make a decision? There shouldn't be any problems with my Heaven and Earth infinite Dan!" Chen Xiang laughed.

"No problem, you really did produce three pills!" Then, he took out a Storage bag. There was a trillion Dao crystal inside.

Anyone who could learn how to refine Heaven and Earth infinite Dan would receive a trillion Dao crystal. This was something that he had promised before.

To be able to produce three pills in just eight days was already unbelievable, but at this moment, everyone heard that Chen Xiang could actually refine three pills. If he did not do so, they would not believe him, it was even more ridiculous for them.

Yuan Guangxuan could not sit still, he never thought that Chen Xiang's strength was so terrifying! At this moment, he was sweating profusely!

"Is it not done? I'll come back when it's time, so you can slowly refine it first!" Chen Xiang looked at the person on the other side who was related, and then handed over the three Heaven and Earth infinite Dan he had refined to him: "You should judge the overall quality!"

Little Light tested the quality of the elixirs. The total value was over three hundred thousand. To the Grand Pride Xuan Pellet, this was considered extremely high quality. One pellet was worth over a hundred thousand!

One had to know that the quality of the pills sold in the pavilion was only about eighty thousand.

"Alright, then I'll go back and rest first. I'll come out again when it's time." When Chen Xiang left, he sent a sound transmission to Ding Yuchen, asking him to follow her.

Ding Yu Chen immediately followed him. At this moment, he was very excited as he didn't expect that he would actually know a person that could refine Heaven and Earth infinite Dan. Although this person was young, he respected the elderly very much.

He knew that he was going to lose. No matter what happened, he would lose!

Chen Xiang told Ding Yuchen about some of the key points of refining Heaven and Earth infinite Dan. This gave Ding Yuchen a great deal of inspiration, so he hurriedly returned to the secret room to refine Heaven and Earth infinite Dan.

After around twenty days, Chen Xiang arrived at the great hall. At this time, Yuan Guangxuan had not finished refining the pill, which showed how big of a gap there was between him and Chen Xiang. In his heart, he also hated Chen Xiang to the bone!

#### [Chapter 2949](#)

Chen Xiang's talent in alchemy was indeed heaven-defying, not to mention an arrogant, short-sighted disciple like Yuan Guangxuan, even Xiao Guang did not expect Chen Xiang to be so powerful when refining Heaven and Earth infinite Dan.

"You lost!" When Chen Xiang saw Yuan Guangxuan taking out a decent quality Heaven and Earth infinite Dan from the pill furnace, he said with a disdainful tone, "According to the agreement, you know you should do this, right?"

The corners of his eyes twitched, wishing that he could fight with Chen Xiang for his life. However, he was still able to maintain a bit of rationality, and he knew that if he were to make a move here, the consequences would be dire.

"Give me three Heaven and Earth infinite Dan. If there are none, replace them with Dao crystal. One Myriad Tao Crystal." Chen Xiang said.

Since Yuan Guangxuan was able to refine Heaven and Earth infinite Dan, he himself still had some left over. He unwillingly took out three Heaven and Earth infinite Dan s and gave them to Chen Xiang.

"Although the quality is a bit worse than mine, it's still not bad." Chen Xiang chuckled, and then kept the three pellets properly.

At this moment, Yuan Guangxuan was speechless, but he was still conscious!

Just as Chen Xiang was about to give his third slap, a middle-aged man came out of nowhere.

"Xuan'er... "What is he doing!?" The old man came out from a passage, which was the secret room entrance of the Alchemist. Chen Xiang immediately knew that this old man was definitely an old man from the Yuan Family.

"Grandfather, quick ... Hurry and save me! " Yuan Guangxuan struggled to shout, "Quickly kill this bastard!"

When the Yuan clan elders saw that Little Light was also here, they immediately understood that this was most likely due to Little Light's approval. However, he still shouted in anger, "Stop!"

Chen Xiang ignored the elder of the Yuan Family and swung his hand down ...

"You're courting death!" The Yuan elder snorted angrily and anxiously rushed forward, at the same time, he released a formless energy, wanting to stop Chen Xiang's hand from falling down.

However, Chen Xiang immediately used his spatial energy to place him and Yuan Guangxuan in an independent Space Domain, so no amount of energy could enter his space.

Therefore, he still slapped Yuan Guangxuan's face with his palm that contained a lot of power, and sent him flying.

After the third slap, Yuan Guangxuan's face was no longer the same. As he flew out, he coincidentally bumped into the Yuan Family elder and was caught.

"What the hell is going on?" The elders of the Yuan family were extremely angry, especially as they watched their own family's juniors being bullied.

"It is only natural and right to admit defeat if you are willing to gamble! Furthermore, this was something that he had found himself, and could not be blamed on others. If he had to blame someone, then blame himself. " After Chen Xiang finished speaking, without even turning his head back, he walked towards a passage, heading towards the Ao Dan Pavilion.

After Chen Xiang left, Little Light walked over to explain what had just happened and told the Yuan Family elders why he did not stop him ...

Chen Xiang Pride Pill House mainly sold the Heaven and Earth infinite Dan s.

He had previously used so many Dao crystal s here, he needed to earn them back. Moreover, he also needed to buy some medicinal herbs and learn to refine other pills, which would require a lot of Dao crystal s in the future.

Last time, the old man from the Ao Dan Pavilion said that as long as he could refine a Heaven and Earth infinite Dan, he would be able to sell it here. Now that he had already refined it, he brought the Heaven and Earth infinite Dan with him and hurried over.

Seeing Chen Xiang bringing so many Heaven and Earth infinite Dan to sell, the old man was shocked. After confirming that the Heaven and Earth infinite Dan was correct, he bought them for a trillion each,

because the quality of the three pellets was not bad, which was why he gave him an extra five hundred Myriad Tao Crystals.

The Mei Jing Sisters inside the You Yao Mountain Villa had already grown many s, Chen Xiang did not need to buy any from there, after obtaining the six trillion Dao crystal, he ran back to the secret room excitedly, and prepared to concoct the pill head on!

If he wanted to eat it, he would have to eat the Crash method. Not only was the quality extremely high, it was also a pill from a Spiritual God.

Chen Xiang returned to the secret room. Right now, he needed to rest, and then, he would use the Crash method to refine Heaven and Earth infinite Dan, or perhaps find the Time Ghost.

He rested for the entire day and was preparing to leave to find the Time Ghost, but at this time, someone suddenly and violently smashed his stone room's door, barging in!

### [Chapter 2950](#)

Chen Xiang was extremely shocked, all of them were dressed in black, with masks on their face, their Profound Spirit Qi was concealed, he did not know who they were, but he knew their goal.

"They are all very strong. Just who are they?" They are here to capture me! " Chen Xiang was about to teleport away, but he did not expect his body to suddenly feel weak, as though he had been poisoned.

"I've been poisoned!" This caused Chen Xiang to be extremely shocked, he was extremely confident in his ability to resist the poison, but now he was actually hit, and was unable to circulate his cultivation, causing him to be unable to use his spatial energy to escape!

"Stop struggling!" A black-clothed man took out a web to trap Chen Xiang, then dragged him away.

"Who are you? Why did you want to capture me?" Chen Xiang felt that it was impossible for it to have something to do with him dealing with Yuan Guangxuan.

"The Vice Principal wants to capture you. The main reason is because you cheated when competing with Yuan Guangxuan in pill refining. Not only did you lie to us, the proud Pill Academy, to obtain our Dao crystal, but you also injured Yuan Guangxuan. So now, we want to capture you to receive punishment."

When Chen Xiang heard the black-clothed man's words, he could not help but be stunned. This was actually related to Yuan Guangxuan. How could the Yuan family be so powerful? They could actually get help from the vice principal of the Proud World Pill Academy.

Very quickly, Chen Xiang was brought to a pitch black stone room.

He saw the elder from the Yuan clan and another white-haired old man, whom he guessed to be the Vice Principal.

"Chen Xiang, you cheated, causing everyone to think that Yuan Guangxuan had lost to you, allowing you to earn the rewards of our One Myriad Tao Crystal. You even had the chance to humiliate Yuan Guangxuan, and almost destroyed a good seedling like him." The vice Principal sneered, "Do you know your crimes?"

Little Light saw it with his own eyes, and he also appraised the Heaven and Earth infinite Dan that I had refined. The quality is very good! Furthermore, my Heaven and Earth infinite Dan was also sold to the Ao Dan Pavilion. After the Ao Dan Pavilion's confirmation, they bought my Heaven and Earth infinite Dan. " Chen Xiang slowly said, fearless.

"You still dare to quibble? You must have cheated and the evidence is already conclusive!" All those Heaven and Earth infinite Dan you refined are fake, they can only be passed on for the time being! Hand over the six trillion Dao crystal that you have sold! And... "Guangxuan, come in!" The vice principal said.

Seeing Yuan Guangxuan come in, Chen Xiang laughed coldly in his heart.

"Chen Xiang, I said that I would definitely kill you, but this is definitely not now, haha ..." Yuan Guangxuan started laughing maniacally after he entered, and then quickly walked in front of Chen Xiang and tried to slap his face.

"Little bastard, go die!" Chen Xiang became angry in his heart, and then let Long Qiumu, who was from the You Yao Mountain Villa s, out.

Long Qiumu already knew that Chen Xiang had been captured, her sudden appearance caused everyone to be extremely surprised, but by the time they had reacted, the black sword in Long Qiumu's hand had already pierced Yuan Guangxuan's body by thousands of times, and Yuan Guangxuan was already badly mutilated.

"Die!" Long Qiumu shouted as she waved her sword to release a ball of white sword qi, slicing Yuan Guangxuan's body into eight pieces. Then, her body trembled, and released a burst of cold air.

"It's the Dragon magic poison!" The Vice Principal shouted in shock, and after the few black-clothed men who just came heard it, they immediately stood in place motionlessly, only to see them releasing a barrier of Qi, so that they would not be invaded by the Dragon magic poison.

Long Qiumu said to Chen Xiang via sound transmission, "You have been infected by a mutated Dragon magic poison, do you know how to cure the poison?" She had just finished speaking when her expression slightly changed. Then, she grabbed Chen Xiang and rushed towards the stone door, escaping the stone room.

Chen Xiang immediately took out the Dragon Magic Dan and swallowed it. He didn't dare to guarantee that this pill would be useful to him, but he could only try.

Long Qiumu lowered his voice and said, "This damned place is truly terrifying, there's actually such a powerful Dragon Demon hidden here. I don't know if it's the World Defying Stage's, but that aura makes my heart tremble."

Long Qiumu encountered many powerful Venerable Ancestor Later-stage s in the passageway, but none of them were her opponent. She flew all the way while swinging her sword, injuring many people who came along the way.

When Long Qiumu reached the end of the passage, a dense black qi suddenly appeared there. After the black qi appeared, it immediately gathered together and turned into a tall and sturdy middle-aged man!

"Father!" When Long Qiumu saw this middle-aged man, he was startled for a moment before frowning, "Don't stop me!"

Strictly speaking, Long Qiumu was raised by Supreme Dragon Demon Ancestral Founder, Long Qiumu was raised by the Dragon Devil Grandmother, she did not have much blood relation to the Dragon Devil Ancestral Founder in front of her, but after all, they had been together for a period of time, so they still had some feelings for each other!

Long Qiumu had been saved a few times by Chen Xiang, and it was even because of Chen Xiang that she could become so strong now ... If her father wanted to kill Chen Xiang, she would definitely not agree. Even if she had to risk her life, she had to bring Chen Xiang out.

"Hurry up!" "Don't ever come back here again!" Dragon Demon Sovereign said in a deep voice.

Hearing the Dragon Demon Lord's words, Long Qiumu's heart was filled with complex emotions. Shaking her lips, she rushed out of the tunnel while carrying Chen Xiang. After rushing out, she turned around to look at the Dragon Demon Lord.

"Don't worry about me, I'll leave you!" At this time, the eyes of Dragon Demon Sovereign suddenly turned red. Black qi surged out from his body and a vicious aura surged out like that of a peerless demon.

Long Qiumu had already passed through the great hall and burst open the stone door, bringing Chen Xiang along with him as he rushed to the ground.

Chen Xiang had just eaten up a lot of Dragon Magic Dan, so his current powerless and fatigued condition was already slightly better, but it was still not completely good.

"What kind of place is this?" Chen Xiang had already been taken away by Long Qiumu, and was now far away from the Primordial Pellet Academy. However, he could still sense that someone was chasing after him from behind.

"I don't know. I must go back. My father is there. He seems to be under some sort of control!" Long Qiumu said resolutely. She had to go save the Dragon Demon Sovereign.

"I must go back and get even with those guys. They actually tricked me." Chen Xiang bellowed: "Qiu Mu, enter the You Yao Mountain Villa and I will use the power of space to leave this place."

After Long Qiumu entered the You Yao Mountain Villa, Chen Xiang, who had recovered a bit, immediately used teleportation, teleporting far away from the Colorful Forest's borders and arrived in the Divine Ghost Imperial Country's room.

When Chen Xiang came here, he had already exhausted all of his strength. He was extremely tired as he laid on the ground and slept soundly.

When Time Ghost saw Chen Xiang, he immediately shouted, "Hey, why are you sleeping the moment you arrived? Wake up! "

Chen Xiang was infected with the Dragon magic poison, and it was even modified, so he slept for a whole ten days before the poison power weakened slightly, and then he continued to eat the Dragon Magic Dan.

He ate all the Dragon Magic Dan that he had to recover to his full state.

"Is the Myriad Tao Dan God really there?" Chen Xiang felt that he should go see that Well-informed Ghost and ask him about this.
