

Dan God 3081

[Chapter 3081](#)

Chen Xiang didn't know what the Heaven Old Orcs was, but Feng Ke'er actually had a faint feeling of fear toward this kind of Heaven Old Orcs.

"Have you seen this kind of Heaven Old Orcs before?" Chen Xiang asked.

"I have... Above Myriad Tao, this thing is humanity's natural enemy." Feng Ke'er said in a low voice: "You must be careful, although the Heaven Old Orcs here aren't very strong, they aren't weak either. With your current strength, it would be difficult to deal with them."

"It's something that's above Myriad Tao!" Chen Xiang was shocked, "Could it be that they came down from the Myriad Tao themselves?"

If they came down from the top, then their power must be terrifying.

"No!" Feng Ke'er shook his head: "If they really came down from above, you wouldn't have been able to escape. The Heaven Old Orcs above Myriad Tao is indeed very strong."

"Then how was the Heaven Old Orcs born here?" asked. Currently, he was still in the Myriad Tao Forest, if this thing was truly frightening, he might have to find another safe place to cultivate.

"I'm not too sure either. Above Myriad Tao, this thing was bred by a mysterious power, and it was born into a human body. However, it had a very strong beast heart, and this beast heart made it extremely powerful, as terrifying as a World Defying beast." Feng Ke'er said: "There were a few human Rankers who caught a human together, at that time, they let the beast heart escape, and in the end, the beast heart was able to breed a new powerful human body in a short period of time, and then return back to find those humans and kill them."

"It's so scary, can I still stay here?" Chen Xiang was shocked.

"It should be possible, they aren't the kind that is scary like the Myriad Tao. Looks like you have to cultivate the Primordial Divine Body as soon as possible, otherwise dealing with this kind of guy will be extremely difficult." Feng Ke'er said: "The one you met just now, should be considered the stronger Heaven Old Orcs here, but you can still escape from him."

"Why did so many Heaven Old Orcs suddenly appear here?" Chen Xiang knew that a lot of things had suddenly happened, and the toad's head had been injured.

"I guess it's because there are huge stones here, and these stones fell down from the Myriad Tao, containing a certain amount of mysterious power, on top of the Myriad Tao, there is a very strange and mysterious power. I don't know what it is, but it will enter the human body and become a part of the human power." Feng Ke'er said: "It could be that after being nurtured for a period of time, they were born together."

The person Chen Xiang met just now was a golden-haired old man, who didn't seem to have just been born.

"Looks like we can only avoid these guys. I just don't know if they will be able to leave this Myriad Tao Forest." Chen Xiang suddenly heard a burst of muffled sound from far away, like a thunder from far away, he was standing there, watching the battle.

"Heaven Old Orcs should be fighting for their territory. They also do this kind of thing frequently in Myriad Tao. Although they fight with each other a lot, they usually don't kill the other party." Feng Ke'er said.

Chen Xiang had also seen just now that after the golden-haired Heaven Old Orcs defeated her, she would let her opponent leave, and did not finish him off.

Chen Xiang dug a deep pit in the ground. He planned to hide underground and have Feng Ke'er create a few layers of enchantments so that his presence could be isolated. Even if he were to make a huge commotion while concocting pills, he did not need to worry about his presence being detected by the Heaven Old Orcs above.

"I feel that these Heaven Old Orcs may not be able to leave the Myriad Tao Forest, but they definitely have a way to leave. Once they fight for their own territory, an Ancient Emperor will appear, and at that time, this Emperor will join forces with the other Heaven Old Orcs to break the restrictions on them." Feng Ke'er said.

He thought that he would just have to deal with the World Defying Stage Clan, but from the looks of it, these Heaven Old Orcs were also a big threat.

"Alright, now let's see if we can successfully refine the World Defying heavenly Dan." Chen Xiang did not have much confidence in refining this pill. The main thing was that Myriad Tao Dan God had previously said that this pill was extremely difficult to refine.

Chen Xiang took out the Tianchuang furnace from the secret underground room.

The Tianchuang furnace had already merged with the Myriad Tao Divine Soil, becoming extremely sturdy. This allowed Chen Xiang to feel more at ease, otherwise, with such a high level medicinal ingredient like the World Defying heaven fruit, once the energy exploded, he would definitely find it hard to endure.

"If I refine it, will I really be able to cultivate the Primordial Divine Body?" Although Feng Ke'er knew that Chen Xiang was good at refining pills, he still found it hard to believe. It was because cultivating the Primordial Divine Body was extremely difficult.

If Chen Xiang was able to refine it, it could be said to be a huge overturning point. As long as there was enough of these pellets in the future, it would allow many people to cultivate the Primordial Divine Body.

"If Myriad Tao Dan God didn't lie to me, then it shouldn't be wrong." Chen Xiang took out the World Defying heaven fruit. This type of fruit was very special once it had ripened. The previous fruit was only a seed and had been stored for many years, so its characteristics were not revealed.

Right now, the World Defying heaven fruit in his hand was very fresh, there was a faint silvery white fog flowing on the surface, this white fog could not be dispersed no matter how he blew, and it slowly surrounded the silver-white World Defying heaven fruit like immortal fog.

"It's very hot!" After holding it in his hand for a period of time, Chen Xiang actually felt that it was very scalding, he had no choice but to throw it into the Tianchuang furnace s.

"What a strange thing!" After Chen Xiang threw the World Defying heaven fruit into the cauldron, he suddenly saw that outside of the cauldron, there was a layer of frost.

"What's going on? Didn't you say that it was very hot? " Feng Ke'er felt that it was unbelievable. She also saw that Chen Xiang's hands were burnt red and were still smoking. However, a layer of frost had appeared on the surface of the cauldron.

"I don't know. It's very strange." Chen Xiang frowned and said: "This fruit is beginning to emit heat again No, other than the hot air, there is an even more unique aura, what kind of power is this? "

Before he had even started concocting, so many strange things had happened. This made him feel that it would be even more difficult to concoct the pills in the future.

"Whatever, let's set a fire to see what it's like." He immediately released his strongest World Defying god fire.

The World Defying god fire began to burn intensely, wrapping up all the World Defying heaven fruit.

"There's no movement. Is it okay to continue burning like this?" Chen Xiang tried using another method to burn the fruit. Originally, he thought that he could easily succeed, but not long later, he saw the fruit suddenly tremble, and then the flames wrapped around the fruit completely submerged into the fruit.

The strong World Defying god fire that he had released had all been swallowed by this fruit, almost in an instant!

[Chapter 3082](#)

Chen Xiang was startled, and continued releasing the World Defying god fire. What made him angry, was that no matter how many World Defying god fire he released, they would all be immediately engulfed, and if he continued releasing, the World Defying heaven fruit would also continue to absorb his flames.

This way of refining the pellet was simply impossible to continue, which made Chen Xiang very depressed.

"I'll see if I can use other techniques to succeed." After that, he used a variety of refining methods, all of which were specially designed to deal with this kind of stubborn medicinal ingredient. However, after trying them one by one, he did not succeed.

"It's a failure. There's no other way. This guy actually devoured them all!" Chen Xiang was a little disappointed. He had tried for many days and all of them had ended up like this.

"Why don't you just continue releasing the flames and see how much of this fruit it can be devoured? If he can't continue devouring it, that would be easy, right?" Feng Ke'er laughed.

"Alright, I'll try!" Chen Xiang used the Time Domain, then released the strongest World Defying god fire. He planned to burn it for a very long time, which might actually be what Feng Ke'er said.

However, after a few months had passed, the World Defying heaven fruit was still able to absorb a large amount of his flames without any reaction. This made him feel extremely helpless.

"This thing can't be fed at all." Chen Xiang sighed: "What exactly happened? "I'll just eat and take a look!"

There was nothing he could do now. He planned to eat it directly and see if he could find out what was so special about it.

This fruit was the size of an apple. He had originally planned to take a bite out of it, but as he was trying to do so, he felt a sharp pain in his teeth and nearly broke!

"Motherf * cker, this thing is too tough." Chen Xiang couldn't help but curse, then covered his mouth. He had used a lot of strength to bite just now, how could he have known that it would be so sturdy?

"Let's try using my golden needle to see if it can be pierced." Feng Ke'er took out his invincible golden needle.

After Chen Xiang received it, he pierced the fruit very smoothly. He had no choice but to admit that the golden needle was indeed terrifying.

"It can pierce through!" After Chen Xiang pulled out the golden needle, he wanted to pour some flame into the hole, but the moment the needle was pulled out, the little hole above started to heal.

"So that's how it is. This fruit has an extremely strong defensive layer on the surface, and the regeneration ability inside is very strong. It's a bottomless pit that can swallow large amounts of fire." Chen Xiang used his Gold Needle again. He could feel a bit of resistance when he pierced the skin, but it became much easier after piercing through the skin.

"You can do this!" Feng Ke'er suddenly said excitedly: "Although this golden needle is very small, but you can use it to directly send the flames to the inside of the fruit, and then you will be able to break through the defense of the fruit!"

Chen Xiang's eyes lit up. This was indeed a good idea, he would immediately try it out!

Very quickly, he successfully channeled the flames through the end of the golden needle. What surprised him was that the golden needle was absorbed very well by the World Defying god fire, and after extracting his World Defying god fire, it would be strengthened a lot, and in the end, it would be transported from the top of the golden needle to the inner parts of the World Defying heaven fruit.

"Let's see if you can absorb it this time." Chen Xiang held the World Defying heaven fruit in his hand. What made him more suspicious was that the World Defying heaven fruit had never shown any signs of burning, nor did it emit any icy Qi.

When he had such doubts, he suddenly felt a burst of coldness, causing him to turn pale in fright. Because his entire hand was instantly frozen, and he felt that the icy cold power was quickly spreading, he had no choice but to call out the Heavenly magic sword, slashing his palm down from his wrist.

His broken palm fell to the ground and instantly shattered into ice crystals. The World Defying heaven fruit on top of it also tumbled to the ground.

"So dangerous, I was almost killed by that thing!" Chen Xiang closed his eyes and had the Mei Jing Sisters channel the power of rebirth into his severed arm.

"It seems like this fruit will most likely be able to refine a pill that would allow one to cultivate an unparalleled divine body. Since it's so terrifying, the defensive power of one's self will be very strong." Feng Ke'er said.

Chen Xiang nodded. Under the infusion of a large amount of life force from the Mei Jing Sisters, his severed arm had already grown back. He stretched his wrist and nimbly moved his fingers a bit, finally letting out a sigh of relief.

"You can't take it directly... I must have been a great threat to him, and that's why I fought back so hard." Chen Xiang said: "Previously, this fruit swallowed a large amount of my World Defying god fire, it should be used to cultivate."

Chen Xiang used the Heavenly magic sword to hack a few times, but only left a few faint marks, and did not successfully dodge it. He used the Heavenly magic sword to carry the fruit into the Chuangshi god furnace.

"I'll give it back to you." Chen Xiang took out the golden needles and gave it to Feng Ke'er.

"You don't need my method?" Feng Ke'er asked.

"There's no need. Let me try and see if I can use the Time and space power to directly send the flames into the fruit." Chen Xiang said, then closed his eyes and released the Time and space power.

This was only one of his conjectures, but after he tried for a bit, he did not succeed. This World Defying heaven fruit actually managed to cultivate such a strong defensive barrier, it was able to resist his Time and space power from infiltrating it.

Chen Xiang immediately told Feng Ke'er about this shocking discovery.

"Xiao Ke'er, I might need your help next. It's obvious that there are all sorts of arrays within this thing, these arrays are all formed naturally, and form all kinds of enchantments, which is why it has such a strong defense." Chen Xiang said.

"Alright, I'll take a look for myself!" After Feng Ke'er ran out, he immediately controlled this fruit to float in front of her, and then carefully examined it.

Very quickly, she saw many very small lines under the skin. These lines looked dense and complicated, but they were actually very profound array Spirit grain.

"Sure enough!" Feng Ke'er saw through it with a glance, and he was extremely excited, "As long as you destroy this formation, you can easily deal with this fruit."

"Yes!" Chen Xiang nodded: "Can you do it?"

"Of course not." After Feng Ke'er finished speaking, he immediately began.

She closed her eyes and a small dot of light appeared on her forehead. Afterwards, a faint beam of light shot out from inside, hitting the World Defying heaven fruit's surface, revealing a layer of faint light mist.

This was Chen Xiang's first time seeing her using this method.

"Alright!" Feng Ke'er only opened his eyes a short while later and laughed: "I've succeeded, and I've even learned this thing's Spirit grain. The world is big, and there's nothing too bizarre about it, this kind of fruit is actually born with such a strange and powerful Spirit grain."

[Chapter 3083](#)

Chen Xiang took the World Defying heaven fruit in his hands and laughed: "I feel much better now. Previously, this guy always wanted to bite me, but now, it seems like his teeth have been pulled out."

The fruit in Chen Xiang's hand started to sway, but was held tightly by Chen Xiang, and was unable to escape his grasp.

"But the surface is still very firm. I feel like you can't burn it directly with fire." Feng Ke'er replied: "You'll know once you try."

Chen Xiang first used the Heavenly magic sword to cut it down.

Then, he threw the fruit into the Tianchuang furnace and used a blazing flame to burn it!

"Why would it still consume?" When Chen Xiang saw that the flames he released were immediately engulfed, he shouted out in shock.

"I only destroyed the Spirit grain on the surface. There are many Spirit grain inside this fruit, so it's very difficult to destroy them." Feng Ke'er said: "Even if it is destroyed, it can regenerate very quickly."

"Rapid regeneration?" Chen Xiang was puzzled: "Didn't they destroy the Spirit grain? can Spirit grain also be reborn? "

"The Spirit grain s inside are all made up of the tiny tendons of the fruit itself. These tendons are the Spirit grain s, so even if I break through, I'll still be a complete Spirit grain after I revive." Feng Ke'er said: "However, the Spirit grain on the surface is not like that. Although the Spirit grain on the surface is made up of a part of the fruit itself, I sealed a small part of it and it caused the entire Spirit grain to lose its effectiveness! But I can only seal it. "It's just on the surface, but it's not on the inside."

Therefore, it was not as simple as Chen Xiang had imagined it to be. If he wanted to continue refining, it would be very difficult.

"What's the use of damaging the Spirit grain s on the surface?" Chen Xiang asked again.

"This fruit will not be able to release the power that will stop your Time and space power." Feng Ke'er said: "You'll know once you try!"

Chen Xiang tried it and sure enough, the flame could be poured directly into the fruit through the air and then burn it inside. However, the fruit would still swallow and absorb his fire, which was why refining the fire from the inside failed.

"There's another way!" Chen Xiang still planned to use the power of space. It was just that he did not seep his flames inside, but rather used space to divide the fruit into four parts.

He tried it, and instantly succeeded. The barrier that was blocking the Time and space power on the surface of the World Defying heaven fruit had lost its effectiveness, so he could very successfully use space slicing to separate space.

"Xiao Ke'er, seal a portion of it, so that this part of the fruit cannot be related to the other three parts. This way, you can cut off the formation of the Spirit grain inside them." Chen Xiang said.

"Alright!" Feng Ke'er also thought that Chen Xiang's method was very good, and immediately released a seal.

After sealing a part of it, Chen Xiang threw these three parts of the fruit inside the Tianchuang furnace, and then used fire to refine them.

This time, he finally made some headway. At least his flames were not being devoured.

Although he was not engulfed, his progress was very slow. Fortunately, he was able to use the Time Domain to envelop him, allowing him to shorten the instantaneous change from the outside.

Burning the three pieces of fruit flesh took him a whole three months to succeed. Now, the three pieces of fruit flesh had turned into many tiny crystals and a mist, floating in the midst of the Tianchuang furnace.

"You can release the sealed part now." Chen Xiang said.

After releasing Feng Ke'er's portion of the energy, Chen Xiang immediately grabbed the opportunity to burn it, because he was getting closer and closer to success.

It took him an entire month to burn a portion of the fruit.

"I've finally reached this step." Chen Xiang relaxed a lot at this time and let out a long sigh.

There were still a lot of things that needed to be done, and all of them were not easy!

"It's beginning to fuse!" Chen Xiang fused all of the tiny Medicine crystal and the mist inside, and through the power of Feng Ke'er's seal, quickly formed a large silver-white crystal.

Then, he used the derivation technique to make the crystal produce nine and a half times the size of small crystals. This took him a whole year!

"The process is really long!" Feng Ke'er sighed.

"The effects of this pill are so strong that it's a must. It's not easy to concoct at all, so I might need more time." Chen Xiang was not planning to go against them anymore. He was very clear that he did not have the strength to do so after he had gained the upperhand from the current situation.

Thus, he was able to directly fuse them together!

Nine and a half crystals were produced, fusing together with the original body and improving the quality greatly. Finally, it would have to be compressed into a very small pill.

"Xiao Ke'er, thank you for your hard work." Chen Xiang said.

"It's nothing. Just remember, in the future, just help me refine one. I also need to cultivate a very powerful divine body." Feng Ke'er laughed. She worked really hard, because it was very difficult to fuse them together and it was even harder to compress them into a very small pellet.

All of this required her to release a very strong sealing power to carry out.

would only be assisting him in this later stage, as transferring his own World Defying Stage Divine Power into Feng Ke'er's sealing power would be able to reduce his energy consumption.

"You pill refining boy!" I can't even do what you can do. " Chen Xiang laughed bitterly. If not for Feng Ke'er, he would not even have used the derivation method, because he would never have been able to fuse it and condense it into a pill.

After Feng Ke'er released the sealing power, he started to integrate it. His progress was slow, and it would take a lot of time.

The amount of time needed to condense the pellet was beyond Chen Xiang's expectations. It actually took two full years, and it only added up to more than three years. Of course, outside, only forty to fifty days had passed.

"Motherf * cker, can this pill really allow one to cultivate an unrivalled divine body?" As Chen Xiang held the World Defying heavenly Dan that was shining with a silvery light, he couldn't help but become excited.

Even if it was those World Defying Stage Clans, it would still be difficult for their own young disciples to cultivate and reach the Primordial Divine Body. Otherwise, a person with a great power like He Huang would have cultivated the Primordial Divine Body long ago.

However, the He Clan had been searching for a way, so their slaves that were wearing the Slave in Purple Costume clothes might have come out from the experiment.

"Let's eat them." Feng Ke'er urged, she was even more agitated than Chen Xiang at the moment.

"En!" Chen Xiang did not remove his spatial domain. He was worried that he would need a longer time to refine it.

After eating the World Defying heavenly Dan, Chen Xiang immediately felt himself enter a very comfortable state. A faint silvery-white glow flowed out from the surface of his body and wisps of smoke curled up into the air.

As Feng Ke'er watched from the side, he could not help but turn pale from shock: "The Spirit grain inside that fruit has not been completely refined, and is currently still appearing within his body. This kind of pill is indeed not simple, who knows what kind of method he will use to cultivate the Primordial Divine Body?"

[Chapter 3084](#)

After eating the World Defying heavenly Dan, Chen Xiang fell into a deep slumber. He did not feel that many Spirit grain s were gradually appearing in his body. These Spirit grain s formed a formation to absorb the World Defying Stage Divine Power in his body and used it to temper his body.

Other than that, the pill also released an ability that after fusing with his World Defying Stage Divine Power, it would be able to seep into his body, refine his body more quickly, and strengthen his body.

"How strange!" Feng Ke'er looked at Chen Xiang outside.

Chen Xiang's body was enveloped by the shimmering silver mist. When it surrounded his body, it would occasionally surge a little and enter Chen Xiang's body, and then spew out a pale white mist from Chen Xiang's body. This mist merged with the silver mist and quickly fused together.

After continuing like this for a while, the silver light mist suddenly entered Chen Xiang's body, causing his body to suddenly swell up, and the skin on his body started to flicker with gold light, revealing waves of Spirit Qi.

Feng Ke'er could feel that the Qi he was releasing was very strong, and immediately released a few more seals, isolating the Qi, although she had already set up the seals, but she was not at ease.

"The change isn't regular at all. What's going on?" Feng Ke'er also did not know how long Chen Xiang would have to continue like this.

Chen Xiang only felt very comfortable and comfortable, as he was immersed in a very good state of mind, allowing his entire body to relax ...

In the blink of an eye, a month had passed. When Chen Xiang woke up, he saw Feng Ke'er looking at him with her big and round eyes.

"What's wrong?" After Chen Xiang woke up, he felt extremely energetic and energetic. He looked at his body and exclaimed, "It has improved a lot!"

"But he didn't manage to cultivate the Primordial Divine Body!" Feng Ke'er said somewhat dejectedly.

"I only ate one. It's not that easy to cultivate in the Primordial Divine Body." Chen Xiang laughed: "You have to be a bit patient, I already feel that the pills here can bring about a great improvement, if I refine a few more, I will definitely be able to cultivate the Primordial Divine Body!"

There were still many World Defying heaven fruit on the World Defying heaven fruit tree, which was enough for him to refine a few pills. This was because he only needed a single fruit to refine one.

In the next period of time, Chen Xiang and Feng Ke'er worked together and continued refining World Defying heavenly Dan. With the previous experience, he could speed up a lot this time, but it would still take a lot of time.

After the second pill was refined, Chen Xiang immediately ate it. When he woke up, he discovered that the progress was actually even greater than last time!

"Soon. I feel that I only need to eat one more pill to successfully cultivate the Arrogant Divine Body." Chen Xiang was very confident.

"En, when you finish cultivating, it's my turn. I also want to cultivate my Primordial Divine Body, so that I won't be able to beat those Heaven Old Orcs in the future." Feng Ke'er could also tell that Chen Xiang had improved a lot.

Chen Xiang started to refine the third pellet.

Refining the World Defying heavenly Dan now wasn't too difficult for him, it was just that it took a lot of effort and time. Fortunately, he had Feng Ke'er's help, so refining the World Defying heavenly Dan would be even easier than before.

After consuming the third World Defying heavenly Dan, the moment Chen Xiang began to refine it, golden light began to leak out of his body!

"Is the Primordial Divine Body coming out?" Feng Ke'er was pleasantly surprised. She could sense an extremely strong Qi from the golden fog that was leaking out. "This should be emitted from the World Defying beast in the Divine Sense Sea."

"Oh right, Chen Xiang still needs to cultivate his Six beasts, so he will need to eat even more pills. No wonder I couldn't see how much of an improvement he had previously, he was already cultivating all the way up there." Only now did Feng Ke'er remember this matter. Chen Xiang's World Defying beast was the strongest.

Now that Chen Xiang's body was able to release such a strong amount of beast's power, it meant that the Six beasts inside the Divine Sense Sea had already cultivated an unrivalled divine body, and following that, as long as Chen Xiang could cultivate an unrivalled divine body, he would be able to completely step into the World Defying Stage's Divine Level. Furthermore, his strength would far surpass experts of the same level, because he had six World Defying Green dragon.

When Chen Xiang was refining the medicinal power of the two World Defying heavenly Dan s that he had eaten earlier, most of the medicinal power had indeed been absorbed by the World Defying beast. Although it looked like he was cultivating with his flesh, but the slight increase in strength meant that it would be absorbed by the World Defying beast.

Feng Ke'er carefully observed the changes in Chen Xiang. Just as she approached, Chen Xiang's body suddenly shook, and then, he spat out a burst of red flames.

"This is ..." Could it be that the Six beasts's aura just now fused together again? " Feng Ke'er hurriedly retreated, she did not know what changes were happening inside Chen Xiang's Divine Sense Sea World.

Just as she was feeling suspicious, she saw some dragon scales or Qilin armors appearing on Chen Xiang's face.

"Looks like the Six beasts is fusing with his body, and is also strengthening his flesh. His cultivation method is truly unique." Feng Ke'er felt that it was extremely strange and observed it more carefully.

After more than twenty days, Chen Xiang's body was still in a state of dragon's scale and Qilin armor, but as he opened his eyes, his body returned to its original state.

"I did it!" Chen Xiang had a very calm breakthrough, and unexpectedly, not a single bit of Qi was leaked out, which Feng Ke'er found hard to believe.

"Really? But I don't seem to have felt your proud divine body!" Feng Ke'er ran over and pinched Chen Xiang's face, and frowned: You really broke through? I really can't feel that your fleshly body is that proud of the divine body. "

"I've really broken through!" Chen Xiang laughed: "My body is at the early stage of the Divine Body realm, so it's not very obvious for now."

Feng Ke'er asked: "What about the Six beasts in your body?"

"They have all successfully cultivated the Primordial Divine Body!" Chen Xiang laughed: "They are becoming more powerful now, the reason why I am so slow, is probably because they have absorbed a lot of medicinal power."

"I saw that you were in a very strange state ..." Feng Ke'er told her about Chen Xiang's condition just now.

After Chen Xiang heard this, he also felt that it was very interesting, but he did not take it to heart.

"Next is for you to eat." Chen Xiang said.

He and Feng Ke'er had teamed up and refined three pellets in one go.

What he did not expect was that Feng Ke'er only ate one pill to cultivate his Primordial Divine Body, he was much faster than him.

"Breaking through with just one pill, this World Defying heavenly Dan is too scary." Feng Ke'er had thought that he needed to eat three pills just like Chen Xiang's.

"Of course!" Chen Xiang chuckled: "Whoever made this pill, succeeded in heading to the Myriad Tao from here."

The pill formulas left behind by the Myriad Tao Dan God were extremely useful to him, he would be able to continue consuming these pills to cultivate in the future.

[Chapter 3085](#)

Now that he only had two pills, he gave these two pills to the Mei Jing Sisters. If they were to improve, the cultivation of World Defying heaven fruit would speed up even more in the future. During their cultivation, Chen Xiang and Feng Ke'er continued to refine World Defying heavenly Dan s together.

They needed more than two years to refine a single World Defying heavenly Dan, roughly thirty months. To the outside, only one month had passed.

"Xiao Ke'er, I want to try refining the World Defying heavenly Dan on my own." Chen Xiang said: "You only need to help me destroy the Spirit grain's outer appearance."

"Alright!" Feng Ke'er nodded.

This was the first time Chen Xiang had refined a World Defying heavenly Dan by himself, and the process was extremely difficult. If he had teamed up with Feng Ke'er, he would only need thirty months to complete one pellet.

"Not bad. Without me being able to refine it, I thought you would be unable to do it by yourself." Feng Ke'er laughed.

"Right now, I have cultivated the Primordial Divine Body, alright? Refining it out is quite easy." Chen Xiang snorted, he just did not have Feng Ke'er's powerful sealing power, he felt that if he were to use his own Six Realms mirrors, it would be able to increase his speed.

He took out another World Defying heaven fruit and was about to start refining it, when he suddenly felt a weak vibration.

Now, he was hiding in the depths of the earth, and these vibrations meant that the ground was shaking. I. Ben. Read. He might even be that kind of powerful Heaven Old Orcs.

"I wonder if the Heaven Old Orcs is fighting on top, I am a little worried that it will affect me." Chen Xiang looked up. At the moment, he was in a stone room, he had been here for a while, but there had never been such a commotion.

"Go up and take a look, you'll see that your current strength is not weak, even if you meet a Heaven Old Orcs like last time, you can still run away." Feng Ke'er said.

"That's true!" Chen Xiang kept his Tianchuang furnace and prepared to take a breather.

However, just as he was about to take action, his stone chamber violently shook. With a bang, something broke through the stone chamber's wall and a person tumbled inside.

Chen Xiang never thought that someone would find her way to this place. Feng Ke'er felt that it was even more unbelievable, because she had used so many layers of sealing powers to hide this place. Logically, it was impossible for people to find this place.

"You ... "Who are you!" Chen Xiang anxiously asked, he had already summoned the Heavenly magic sword.

"Young man, calm down!" The man stood up, and anxiously patted the dust off his body, it was a middle-aged man who was dressed in reminiscence, with two whiskers on his face, his appearance was extremely ordinary, but his two whiskers were especially eye-catching, he saw Chen Xiang looking at his whiskers, he laughed and touched them.

"You are the Heaven Old Orcs!" felt the Qi on his body and shouted, as though he was facing a powerful enemy, the Heaven Old Orcs was extremely powerful, even though he had already cultivated the Primordial Divine Body, he still had to be extremely careful when facing against such a strong Heaven Old Orcs.

"You actually know our nickname?" The middle-aged man was also surprised, but he smiled and said, "Don't be afraid of me, I am just an extremely weak Heaven Old Orcs."

"Really? But you can come here! " Chen Xiang did not believe his lies. He knew clearly about Feng Ke'er's seal, the three layers of enchantments and the seals that surrounded the stone room, but he had still found it. Furthermore, he had even crawled in.

"Do you think I look strong?" The middle-aged man laughed: "My name is Chen Cai, you can just call me Ah Cai."

"Hey, I'm very familiar with you!" Chen Xiang saw the middle aged man laugh and try to get close to him, so when he was about to pat his shoulder, he quickly took a few steps back.

"I really have no ill intentions! I know that our Heaven Old Orcs has a bad reputation, but I am a good Heaven Old Orcs. Chen Cai laughed: "If I really had any ill intentions, I would have already hit you."

"You even said that you're very weak, yet you can actually beat me." Chen Xiang scoffed, "I'm not very familiar with you, and I don't want to get to know you. I don't blame you for breaking this place. "

"So that's how it is. I'll help you settle it!" Chen Cai saw that the hole had been smashed open by him, and nodded his head. He waved his hand, releasing a burst of grey mist, and after the mist blocked the hole, he sucked in the stone soil that had fallen to the ground. In the blink of an eye, the hole was blocked by him.

"You ... I told you to leave this place. " Chen Xiang pointed his sword at Chen Cai.

"Young man, don't be agitated ..." Your sword is so powerful, I think it has Myriad Tao Divine Soil painted on it, right? " Chen Cai looked carefully at the Heavenly magic sword in Chen Xiang's hand and was suddenly shocked.

"Yes!" Chen Xiang nodded and said: "Quickly go, I am very worried about you staying here."

"It would be such a waste for a Myriad Tao Divine Soil like you to be smeared on it. If you let me control it, I can make your sword even more powerful." Chen Cai said: "What a waste of Myriad Tao Divine Soil!"

Chen Cai shook his head and sighed at the same time, as if his flesh was cut off.

When Feng Ke'er, who was in You Yao Mountain Villa, heard this, he immediately felt very unhappy, he ran out and snorted: "Who the hell are you with these two sideburns? Myriad Tao Divine Soil is just something I applied to my sword, isn't that the best way to use it? Myriad Tao Divine Soil does not need to be smelted, adding on that his sword is already damaged, I am only applying it to repair it. "

"So it was you who did it, little girl. No wonder, no wonder ..." "You can forgive me." Chen Cai laughed, he wanted to reach out to pinch Feng Ke'er's cute little face, but was slapped away by Feng Ke'er.

"I'm not very familiar with you, so don't even think about pinching me." Feng Ke'er immediately hid behind Chen Xiang, and due to her anger, she quickly flapped her beautiful transparent wings.

"If it was you, what would you do?" Feng Ke'er only felt that the other party's tone was a little inappropriate, but if this Chen Cai was truly strong in refining, she could still learn from him.

Chen Xiang still had not figured out his purpose for coming here!

"Why are you here? How did you find this place? " Chen Xiang asked.

"There's a very strong Spirit grain's aura here, I was born to be able to sense it, so I came here. I originally thought that there was some kind of treasure hidden here, but I didn't expect to see you here after entering, you are also very brave, there are so many Heaven Old Orcs outside, you actually dare to hide here." Chen Cai laughed: "But don't worry, even though I am a Heaven Old Orcs, I am a good Beastman."

Chen Xiang also did not know how strong this Chen Cai was, because he did not sense Chen Cai's Qi, but he could sense that special feeling the other party had from the Heaven Old Orcs.

Rumble rumble rumble!

A violent vibration came over, causing Chen Xiang to frown: "Is the battle at the top?"

[Chapter 3086](#)

Chen Cai placed his hand on the stone wall, and after he closed his eyes, he nodded his head: "They are fighting, but you don't have to worry, it won't affect us here. The place you have chosen is pretty good, and the formations are very beautiful, those idiots will definitely not be able to discover this place."

"Right, are you the one who set up these powerful formations?" Chen Cai looked at Chen Xiang curiously: "You don't look like someone who knows how to arrange formations, you don't have the aura of a Spirit grain either."

Feng Ke'er laid on Chen Xiang's shoulder, curled his lips and said: "It was all arranged by this lady, do I not have the aura of a Spirit grain on my body?"

Chen Cai found it even more interesting: "Really, not a single bit. This is indeed very strange, awesome!"

After being praised, Feng Ke'er was secretly happy in his heart, his attitude towards Chen Cai was much better.

"Sit down, let's have a good chat. I really have no ill intentions." Chen Cai took out a table for Chen Xiang and his sister to sit.

Just as Chen Xiang was about to put away the Heavenly magic sword, he saw Chen Cai anxiously shouting, "Don't put it away first, let me see!"

Chen Xiang hesitated for a moment, then handed the Heavenly magic sword over.

"This sword itself is pretty good, but it's too weak. Later on, it was destroyed, causing the Spirit grain inside to lose their effectiveness. Right now, use the Myriad Tao Divine Soil to make the Spirit grain inside perfectly fit each other, and also increase the strength of the sword." Chen Cai caressed the Heavenly magic sword and said.

Chen Xiang and Feng Ke'er hurriedly nodded, the situation with the Heavenly magic sword was indeed like that.

"Isn't that good? We do not have many Myriad Tao Divine Soil s, so we can only use a small dot to rub it. Although Feng Ke'er was aware of the Myriad Tao Divine Soil's benefits, she herself wasn't very clear about how to use them either.

"You just applied it onto the sword after heating it up. Although it can make the sword's strength increase, this is a relatively simple usage, but there is still a better use, which is to refine the Myriad Tao Divine Soil into the sword, and then completely fuse with the Spirit grain inside the sword, allowing the energy of the Myriad Tao Divine Soil to transform into the Spirit grain. This way, the sword can increase even more, and become even more sturdy." After Chen Cai finished speaking, his two fingers suddenly turned gold, flashing with a burst of golden light.

He used two fingers to hold onto the sword blade, and then rolled it over. He saw that between his fingers, there was a bit of a pale gold thing, and it was actually Myriad Tao Divine Soil.

"You took down the Myriad Tao Divine Soil!" Feng Ke'er said in shock.

"Yes, I'll teach you how to use the Myriad Tao Divine Soil!" Chen Cai laughed, "Although I'm not very good at it myself, I feel that I can use it better than you."

After he finished speaking, he pinched the tip of the sword and released a golden light that enveloped the blade.

In just a few moments, the blade of the sword was enveloped by this golden light.

"Let's go!" With a soft shout, the golden light around the sword disappeared, and the sword turned red.

Chen Xiang had already seen that the golden light that Chen Cai had released was that of a World Defying god fire, and it was extremely special as well. Just now, he had used a very short amount of time to burn the sword's body red.

"Now, I will refine the Myriad Tao Divine Soil into the sword!" Chen Cai stopped smiling and turned serious. He smeared the Myriad Tao Divine Soil that he just took off onto the two sides of the sword once again, and then used his palm to continuously hit the sword, releasing a very powerful force every time it hit the sword. However, the force of the impact just hit the sword and disappeared.

He very accurately controlled the impact and used it to strike the two sides of the sword blade, inserting the Myriad Tao Divine Soil on the surface into the sword blade.

Bang bang bang, he kept hitting the sword body, it took him a whole hour to stop, and the Heavenly magic sword that was originally red also started to fade.

"Alright!" Chen Cai returned the Heavenly magic sword to Chen Xiang, and laughed: "Looks like it's better than what you had before!"

After Feng Ke'er received it, he took a careful look at it and nodded: "It's too much, you're really awesome!"

"You're too kind!" Chen Cai laughed: "Oh right, why are you guys hiding here?"

Chen Cai's nose moved and said: "There is a very strange smell. This smell must have come from some plants!"

"We've finished eating the fruit here." Feng Ke'er said. Since Chen Xiang could refine such a powerful pill, she would definitely not talk about this kind of thing.

"What's the situation up there?" Chen Xiang asked: "We have been here for quite some time, we do not know the situation up here."

"The Heaven Old Orcs is fighting on top, fighting until their heads bled in order to become the Human Emperor. They are really a group of simple-minded people." Chen Cai shook his head and laughed: "I felt bored and decided to walk around. I didn't think that I would actually be able to find you guys, it's really rare to meet humans in this world."

"How did the Heaven Old Orcs appear? A large group suddenly appeared." Feng Ke'er asked.

The main reason is that a large amount of stones fell from the Myriad Tao, and we were sealed inside those stones before, we were the weaker Heaven Old Orcs, so we were sent here, and our goal was to rule over this place. It was just that, I never thought that once everyone broke the seal on this place, they would start fighting for the territory, and now that the competition for the highest position of the Human Emperor was almost over. Chen Cai said.

"You all can't leave this Myriad Tao Forest? Are you all restricted to one area? " Chen Xiang asked.

Yes, this is mainly due to the restriction of the law of this world, we are still unable to leave this place, but after a period of time, it will be fine, because once the Human Emperor is born, everyone will contribute a part of their power to the Human Emperor, and he will be able to break through the restriction of the law, and then we will be able to leave this place. Chen Cai said.

"How many people like you in Heaven Old Orcs? You look peaceful. Why are they so cruel? " Feng Ke'er scoffed, "You made a mess here. We were almost killed by a golden-furred old man earlier."

"Is this the golden-haired old man?" This fellow has a very high chance of becoming the Human Emperor! " Chen Cai laughed out loud: "I am a weirdo within the Heaven Old Orcs, I did not want to come, but my cultivation is too low, so I was thrown in here! Our goal is to destroy the laws of the Myriad Tao, as for whether or not we can succeed, I am not concerned at all. "

Originally, Chen Xiang wanted to go up and take a look, but he felt that it was no longer necessary.

He took out the Six Realms mirrors, wanting to see if he could contact Murong Honglian. He decided to make a trip to the Mu Rong family.

"Little Red Lotus!" Chen Xiang saw that Murong Honglian was in the forest outside of the Mu Rong family mansion and shouted.

"Chen Xiang... How have you been? Myriad Tao Forest is very dangerous, are you still inside? " After waiting for a long time, Murong Honglian's voice finally appeared in her mind.

[Chapter 3087](#)

When Murong Honglian was in the Mu Rong family, he also found out what happened in the Myriad Tao Forest. There were many powerful Heaven Old Orcs that suddenly appeared, and all sorts of intense battles broke out, causing a huge commotion that could be seen from the outside of the Myriad Tao Forest.

"You also know the situation in Myriad Tao Forest?" Chen Xiang thought about it, and felt that the Mu Rong family still paid more attention to the Myriad Tao Forest.

"Several World Defying Stage Clans had met to discuss the situation inside the Myriad Tao Forest ... He Clan knows a lot about the situation inside, so he has to listen to He Clan's advice this time. " Murong Honglian said: "I am not too sure about the specifics, I only know that a lot of powerful people suddenly appeared and are fighting inside."

"I was worried that something might have happened to you inside!"

Chen Xiang laughed: "How could I have gotten into trouble that easily ... "By the way, how is your Mu Rong family now?"

Previously, he had agreed with Murong Honglian that he would return to the Mu Rong family with her within ten years and ask her to save his master, but it had only been two years now. Murong Honglian was not in a rush, so she didn't bring up this matter.

"The Mu Rong family is still the same as ever. They saw that I often stayed at their house so they urged me to bring you back within 20 years to let them take the World Defying Green dragon and Myriad Tao treasures from your hands." Murong Honglian sighed.

"In that case, you're not in a rush to deal with your master right now, right? I haven't prepared enough yet, so in a few years time." Chen Xiang said.

"En, if possible, you can contact me. I will be staying in the forest outside of the Mu Rong family's residence. There will be people from the Mu Rong family patrolling the area, so it will be quite safe." Murong Honglian said: "This way, you can contact me more often."

Chen Xiang had already planned to follow Murong Honglian to the Mu Rong family after cultivating the Primordial Divine Body, but now that he had other plans, he felt that he wasn't prepared enough.

"Alright, I will contact you when the time comes."

Chen Xiang put away the Six Realms mirrors and then took out a small piece of Myriad Tao Divine Soil.

He had previously searched for the Myriad Tao Divine Soil in this Myriad Tao Forest, and obtained this from the He Clan's hands. However, he didn't know that the He Clan had been snatched away by him, but he did know that their Slave in Purple Costume had found the Myriad Tao Divine Soil.

When Chen Cai saw Chen Xiang take out the Myriad Tao Divine Soil, he said in shock, "You actually have quite a few Myriad Tao Divine Soil s? Where did you get them from?"

Chen Xiang laughed: "I found it inside this Myriad Tao Forest. It's hidden inside a rock. The Heaven Old Orcs on top of it fight a lot.

Chen Cai shook his head and sighed: "Those barbarians do not recognize this good stuff, it will only be wasted in their hands. Although a small piece of Myriad Tao Divine Soil like you is quite small, you can actually refine very strong weapons."

Chen Xiang had also just seen that Chen Cai was more proficient in using Myriad Tao Divine Soil's Artifact Forging and had used it better than Feng Ke'er, which was why he had intentionally brought it out.

"Can you refine it as strong as that needle?" Chen Xiang was extremely envious of Feng Ke'er's golden needle. It was just that he needed something even bigger to be as big as a sword. This would allow him to easily break through's defense in battle.

Feng Ke'er's needles were not only sharp, they could also easily penetrate various kinds of energy barriers. They had good defense, but they were a little too small.

"Many thanks!" Chen Xiang laughed.

"I'll go out for a while, put my materials somewhere else ..." Alright, I intend to borrow some from the barbarians. " Chen Cai chuckled, and then left.

Chen Xiang looked at the small piece of Myriad Tao Divine Soil in his hand and said, "With my current strength, I should be able to produce at least a Jin after refining the Inherent Skill and Crash method together. As long as I refine it a hundred times, it would be enough."

The last time he was refining the Myriad Tao Divine Soil, he had only used a derivation method. At that time, he was not strong enough and did not dare to use the Crash method, but now, both he and Feng Ke'er had already cultivated the Primordial Divine Body!

"It will definitely work!" Feng Ke'er was also restless. A powerful Divine Weapon was about to appear very quickly.

[Chapter 3088](#)

Feng Ke'er had wanted Chen Xiang to refine the Myriad Tao Divine Soil a long time ago, so now that Chen Xiang had made this plan, she was extremely happy and immediately felt a lot of motivation.

"Let's begin now!" Chen Xiang took out the Tianchuang furnace, placed the cluster of Myriad Tao Divine Soil into the cauldron, and released the World Defying god fire to begin refining. At this moment, his World Defying god fire had also become much more resplendent, his divine flame was already close to the Large Success Realm.

Refining a Myriad Tao Divine Soil still required a bit of time, especially when using the derivation method and the Crash method.

Previously, when he was refining the Myriad Tao Divine Soil, it was only a small amount of time, but now he was refining a small ball, which was a lot more than before.

"I wonder if it will be as difficult as refining a World Defying heavenly Dan!" The usage of the Myriad Tao Divine Soil was huge, and it was an extremely strong material, so the difficulty would definitely be no less than that of the World Defying heavenly Dan.

The last time he was refining this little, he was unable to execute Crash method, and could only use the derivation method!

"I will definitely succeed. I still have the power of the Six Divine Beasts in my body to borrow!" Chen Xiang closed his eyes and released the flames to burn.

He had previously had the experience of being able to successfully refine one, so right now, his refining process was much smoother.

Just as he had expected, because there were too many Myriad Tao Divine Soil s who could refine a single pill, refining a single pill was a little difficult. At this stage of the refining process, it was already difficult for him.

However, he would not give up. The harder it was, the better it would be for him!

"You should be able to handle it." Feng Ke'er said.

"No problem, it's just that it will take more time. I've already endured during the refining of the World Defying heavenly Dan previously, so there's no need to talk about this." Chen Xiang laughed, then wiped off his sweat: "You rest first, it'll be hard on you later when you get there."

really liked refining Myriad Tao Divine Soil s. No matter how hard it was, she would be willing to refine it.

took about ten months to finish refining the crystal and another month to finish refining it. By using the derivation method, he took half a year to produce the small crystal.

When they collided, he was very hesitant, he was worried that he would not be able to handle it, but in the end he still tried, because Feng Ke'er was here.

Feng Ke'er's sealing power was still very strong, but now that she had stepped into the Divine s, he was more at ease.

After a series of collisions, he and Feng Ke'er finally managed to suppress the power that had instantly exploded out!

"I've finally passed this stage!" Chen Xiang heaved a long sigh. This trial required the shortest amount of time, but it was the hardest, because the power that was unleashed in an instant was extremely strong. If he could not control it, even if the furnace did not explode, it would still fail, and waste the Myriad Tao Divine Soil s.

"Mm, next I just need to fuse and compress it." Feng Ke'er was also relieved, the next step was for her to use the power of the seal to compress it.

The process was very arduous and required a long time. Chen Xiang also began to rest at this time.

After a period of time had passed, Feng Ke'er felt a sense of relief and happily shouted, "It's finally done!"

Chen Xiang immediately took out the refined Myriad Tao Divine Soil. He hefted it in his hand and said in pleasant surprise: "It actually weighs three catties, one catty can be refined into three catties, it is much better than what I imagined."

"Mm, in this way, you don't need to refine for that long." nodded. Previously, when he estimated that a jin could already produce two jin of pill, he already thought that it was pretty good.

Right now, it was out of his expectations, much more than he had expected.

"It took me close to three years. Fortunately, with the Time Domain, it has only been a month outside. I have to continue refining it fifty times." Chen Xiang thought about what he had to do next and felt a headache.

"Be contented, after all these years of trying, I still can't find you, and you only need to put in a bit of effort to refine it, but it's still so many. If those fellows above Myriad Tao were to find out, they would definitely be jealous to death." Feng Ke'er was very happy, she had always liked to do this kind of thing.

"Alright, Chen Cai hasn't come yet, let's continue refining!"

For the rest of the time, Chen Xiang and Feng Ke'er continued to refine Myriad Tao Divine Soil s day and night. With Feng Ke'er accompanying them in refining, Chen Xiang would not feel that it was boring, and would occasionally tell Feng Ke'er jokes or pinch her cute cheeks.

Time passed quickly, and soon, several years had passed As for Chen Xiang who used the Time Domain, he had already survived more than a hundred years, and had finally gathered a hundred kilograms worth of Myriad Tao Divine Soil.

During this period of time, Chen Cai had come twice, both times to tell Chen Xiang to wait patiently. He already knew that Chen Xiang had a way to refine the Myriad Tao Divine Soil, and when he confirmed this matter, he almost kneeled down. He was very clear on the value of the Myriad Tao Divine Soil, but Chen Xiang had a way to make the Myriad Tao Divine Soil come out endlessly.

Chen Xiang and Feng Ke'er could finally rest.

After they had rested for about ten days, Chen Cai came again!

"I've collected my materials too. Where is your Myriad Tao Divine Soil? Are you ready? " Chen Cai looked to be much more excited than Feng Ke'er and Chen Xiang, because he was prepared to refine an extremely terrifying divine tool.

"Look!" Chen Xiang took out a jade case, and laughed: "Are these Myriad Tao Divine Soil enough?!"

"Enough is enough. Who knows, there might still be some left." When Chen Cai saw these Myriad Tao Divine Soil, he nearly couldn't catch his breath, and laughed happily: "Next, in just a hundred years, I'll be able to refine an extremely powerful divine sword for you."

Chen Xiang couldn't wait for more than a hundred years, and there were only three or so years until the agreement between him and Murong Honglian.

"When you are refining, do you need to absorb the Myriad Tao's power outside to refine it?" Chen Xiang asked.

"No need, I only need time. You can wait a hundred years, right?" Chen Cai was also a fellow who had lived for many years, so he had no concept of time.

"I can't wait!" How about this, I'll let you enter a Time Formation. Your time inside is different from my time outside. " Chen Xiang said: "Even so, I will not have to wait for long."

"Sure!" Chen Cai felt that it didn't matter anymore. As long as he could refine treasures, he could do it anywhere. Not everyone would have the chance to refine so many Myriad Tao Divine Soil s in one go.

Chen Xiang allowed him to enter the Six Realms mirrors, then used the power of time, and even used dual Time Domain s. Like this outside for a day, it was almost three years inside, and outside for approximately two months, it had been a hundred years inside.

[Chapter 3089](#)

Chen Xiang used the power of time to cover a person's body, the consumption of energy was not too big, furthermore, he did not want to do anything else.

"If you succeed, when you have time in the future, make more Myriad Tao Divine Soil s. When that time comes, refine a thing that cannot be pierced with needles." Feng Ke'er said, Chen Xiang did not know why she was so bitterly chasing after him.

"Hm!" Which one of my Heavenly magic sword s is stronger than your golden needle? " Chen Xiang laughed.

"It should be my golden needle. Because my golden needle is relatively small, it shouldn't be a problem to pierce through your Heavenly magic sword." Feng Ke'er smiled tenderly: "When the time comes, you better not try it or else if it breaks, you and I will be busy these past few days for nothing."

Of course Chen Xiang did not dare to try, even if he wanted to, he would have to wait until he got back to the Mu Rong family to try again.

Very quickly, a month had passed. When Chen Xiang let Chen Cai come out of the Six Realms mirrors and saw how happy Chen Cai was, he knew that he had already succeeded.

"Here, take a look for yourself!" Chen Cai carefully handed the Heavenly magic sword over to Chen Xiang, and warned him, "You better not randomly try to hack at your own things, or else your heart will ache very badly."

Chen Xiang found a relatively useless divine weapon, and gently cut through it!

Afterwards, he took out another World Defying heaven fruit and lightly cut it in half! Previously, his Heavenly magic sword could only leave a little mark on that World Defying heaven fruit, but now, it could be as simple as cutting a fruit.

"The improvement is really huge!" Chen Xiang was very happy. This sword could make his strength stronger.

"I wonder if I can break that golden needle!" Chen Xiang really wanted to try it out.

"Don't ever try it. That needle is very powerful. If you go and hack at it, you might damage the sword." Hearing Chen Xiang's words, Chen Cai immediately became anxious.

This made Chen Xiang feel quite disappointed, because Chen Cai did not have much confidence in allowing this sword to surpass the needle.

"Yes, my golden needles are still very strong. In the case that I'm not too sure, it's better not to randomly try." Feng Ke'er said.

"If you want to try, go up there and try, there are a few barbarian beastmen who claim that their bodies are very strong, hehe ..." Chen Cai laughed.

"Alright!" Chen Xiang felt that this Chen Cai was definitely not weak, otherwise he would not be able to run up and down the tower looking for the materials.

"Come, let's go up." Chen Cai brought Chen Xiang to the ground.

What surprised Chen Xiang was that after he came to this place, he didn't feel like he was in the Myriad Tao Forest at all!

The Myriad Tao Forest from before was a scene of devastation and devastation. It was a desolate place, but it was now a grasslands filled with greenery. There were even some tall mountains in the distance, making it seem as if the world had turned upside down.

"Is this really a Myriad Tao Forest?" Chen Xiang exclaimed, there was even a large forest in the distance.

"Of course, this piece of Myriad Tao Forest has already been modified, it has become pretty good. After all, there is a large group of Heaven Old Orcs living here, and amongst these Heaven Old Orcs, there are a few who are more human-like, able to transform this place so beautifully." Chen Cai chuckled: "Now, I'll take you to find that guy who thinks that the scales on his body are indestructible."

Although Chen Cai was a weirdo within the Heaven Old Orcs, he did not seem to be afraid of the Heaven Old Orcs at all. The light carriage brought Chen Xiang to the side of a large river with many stone houses built beside it.

Once Chen Xiang arrived, many Heaven Old Orcs s rushed out from the stone hut.

"Human!" Chen Cai, you actually brought a human back! "

"It looks soft and tender, but it definitely tastes good. Sell it to me!"

"How much is an arm?"

"I prefer thighs. I want a thigh!"

"I want it too..."

Chen Xiang saw that this group of Heaven Old Orcs were dressed very impressively, but the words that came out of their mouths made him feel cold. He suddenly felt that in the eyes of these Heaven Old Orcs, he was like a delicious cake.

"Enough of you, he is my friend." Chen Cai snorted: "I won't even give you a single hair. If you guys want to eat it, then eat it, what's so good about human meat?"

Hearing Chen Cai's words, Chen Xiang could not help but shiver. After all, he had been with Chen Cai for a period of time, but Chen Cai actually dared to say such to his flesh, making him feel like Chen Cai had the intention to eat him.

"Bastard, do you want to eat me?" Chen Xiang immediately sent a sound transmission to him and asked.

"How is that possible? "What's so good about you? I said it to trick these idiots." Chen Cai replied.

This group of Heaven Old Orcs s did not really believe Heaven Old Orcs's words. Right now, they were looking at Chen Xiang like hungry wolves looking at a little white sheep.

Chen Cai was also extremely cautious along the way as he shouted, "All of you better stay far away from me, or else I will kill all of you ..."

Seeing this group of hungry Heaven Old Orcs, Chen Xiang's heart was a mess. He did not dare look at them in the eyes.

"Give me a finger to try it..."

"Scram!" Chen Cai bellowed: "If you want to die, then immediately scam over. I haven't eaten anything in a long time!"

Chen Cai was a little imposing here, but when they saw him angry, the group of Heaven Old Orcs immediately jumped back into their stone houses.

Chen Xiang was finally relieved. Although these Heaven Old Orcs had the appearance of a human, they were still the heart of a beast, and he felt that Chen Cai was a strange existence in the Heaven Old Orcs.

Chen Cai brought Chen Xiang and flew across the river, arriving at the other side.

The buildings on the other side of the river looked much more high-class than the ones on the other side. Although Chen Xiang had caused a bit of a commotion when he arrived, none of the Heaven Old Orcs said that they wanted to eat him.

"You have to remain calm. You are a human, and they are wild beasts. That is why they are acting this way." Chen Cai replied: "With me here, you don't have to worry."

Chen Xiang thought about it, and felt that it was understandable. After all, he had fallen into a herd of beasts by himself, and these beasts all liked to eat meat.

"The guy over there looks really amazing. He's very different from the guy over there." Chen Xiang said, the Heaven Old Orcs at the side did not look as noble as them.

"Of course, only the strong can live here, and the Heaven Old Orcs here likes it to be quiet, whoever dares to make a ruckus here, will be torn apart alive." Chen Cai's words gave Chen Xiang a fright, for it to be the same against its own kind.

He started to worry. If this Myriad Tao Forest's barrier was broken open, after this group of Heaven Old Orcs had left, it could be imagined!

"I feel like a lamb... I wonder if they will still look at me like this after I show my strength. "

That was why he had this kind of thought. In the wild beasts, only the strong were respected, and they acknowledged the strong even more than humans.

[Chapter 3090](#)

Not only did the Heaven Old Orcs want to eat Chen Xiang, they also looked down on a human like Chen Xiang. Of course, in the Heaven Old Orcs, even if they were the same kind, as long as they were weak, they would only be tasty food.

"Don't worry, if you're really that capable, these guys wouldn't dare to do anything to you!" Look at them, they don't dare to come here right now, mainly because they're afraid of me. " Chen Cai sent a sound transmission to Chen Xiang. He was worried that Chen Xiang would become crazy because of this.

"It's fine. Even if you're not here, I'm not too worried." Since Chen Xiang had cultivated the Primordial Divine Body, he wasn't afraid of these Heaven Old Orcs right now. He could just use the power of space to avoid them.

After Chen Cai and Chen Xiang crossed the bridge, they walked along the river and arrived at a large stone house by the river. The outside of the stone house was surrounded by many stone walls.

"Are the guys inside very strong?" Chen Xiang asked softly. Since he had come here, and there were no Heaven Old Orcs nearby, he must be afraid of the owner of the stone hut, which was why he did not dare come here.

"Yeah, he's very strong. Even I'm a bit afraid of him." Chen Cai nodded his head: "This guy had once fought with many other powerful Heaven Old Orcs for their territories, but he couldn't win against them. But he still has some strength, so he is now the king here."

Chen Cai pointed to the buildings on both sides of the river. "This is a place under his jurisdiction and is the king of this part of the Heaven Old Orcs. He can bring this group of people for war."

"So it's like that!" Chen Xiang suddenly thought back to what Chen Cai had said before. A great war had broken out here, the main reason being the battle for the Human Emperor Realm.

"Who is the Human Emperor now? These fellows are obviously beastmen, why do they call themselves the Human Sovereign and not the Beast King? "

"I'll tell you who the Human Emperor is, and you won't know, but I can tell you with certainty that he isn't the golden-haired old man from before." Chen Cai chuckled, then knocked on the door and continued: "Although we are from Heaven Old Orcs, because we look like humans, we are called Human Emperor."

Chen Xiang still remembered that golden-haired old man, he had almost been killed earlier.

"Come in!" A thunderous roar came from inside, shaking the stone door.

Chen Cai immediately opened the door and brought Chen Xiang in.

After Chen Xiang entered, he only saw a tall and sturdy man seated on a large stone chair. This burly man's face was filled with ferociousness, the children that saw him would definitely be scared to tears. He had a thick beard and a pair of green eyes, making him look somewhat terrifying.

"Bear King!" After Chen Cai entered, he immediately bowed. It could be seen that he was truly a little afraid of this big guy.

Chen Xiang immediately followed and bowed towards Chen Cai.

"Is this a human?" Xiong Quan looked at Chen Xiang with his pair of green eyes, and revealed a great deal of interest. What made Chen Xiang annoyed was that this fellow actually wanted to eat him too.

"Yes!" You should know my personality. I'm very curious about many things, so I became friends with this human. I hope you don't hurt him. " Chen Cai laughed: "The reason I brought him here is mainly because he doesn't believe that the Heavenly Bear Divine Scale you possess is that powerful."

"What is it? He wants to meet you first? " The bear sneered, "Why should I show it to this weak human?"

Chen Cai shook his head: "Not for him to see, but for him to try. He said that they, humans, have extremely powerful weapons, and can easily break any scales! If you are unable to do so, he is willing to let you eat him. "

Hearing that, Chen Xiang's eyes stared widely at Chen Cai, he had never said such a thing before.

"Don't worry, these guys are very gullible. If you really can't do it, then just run away." Chen Cai immediately transmitted back to Chen Xiang.

"This is interesting!" Weak humans are always self-righteous. I admit that their little tricks are powerful, but in the face of the absolute power of our Heaven Old Orcs, those things are basically not able to withstand a single blow. Come! "

With a loud laugh, the Bear King released a large amount of black gas from his body before a layer of greyish black scales covered his body, making him look extremely sturdy and hard to break through.

"Where are you going to stab me? Come at me!" Xiong Wang looked at Chen Xiang, his face filled with a disdainful smile.

"Is your heart okay?" Chen Xiang had already taken out his Heavenly magic sword, so it was impossible for a Heaven Old Orcs like the Bear King to see how powerful his Heavenly magic sword was.

This bear king's strength was not bad either. He had reached the initial stage of the Primordial Divine Body, and Chen Xiang's Primordial Divine Body was only at the initial stage, so it was one stage stronger than Chen Xiang's.

"You want to kill me?" When the Bear King heard this, he became somewhat angry.

"What is it? Aren't you very confident in what fish scales you have? If I am unable to pierce through them, I am willing to let you eat them. " Chen Xiang sneered, seeing his expression, the bear king was even more furious, it wanted to smash Chen Xiang's head to pieces.

"Good, my heart is in this place. If you have the guts, then go ahead and pierce it!" With your weak strength, you are unable to shake this huge mountain of mine. " The Bear King pointed to the location of his heart.

Chen Cai had previously said that the most important thing for Heaven Old Orcs was the heart, because the heart was their very foundation. The reason they were called Heaven Old Orcs was because they had that strong beast heart of theirs.

"Is this it?" Chen Xiang was a little nervous at the moment. After he walked over, he gathered his energy and ruthlessly pierced the location of the bear's heart.

The bear king had a confident and disdainful look on his face earlier, but when he felt the sharp pain in his heart, his expression changed greatly, but it was already too late, because his powerful heart had already been pierced through. Furthermore, Chen Xiang had even poured a violent surge of World Defying Stage Divine Power into it through the Heavenly magic sword, shattering the heart!

After the heart was shattered, the bear fell to the ground, twitching. It was lifeless, dead.

"It's too easy to kill!" Chen Xiang looked at the Heavenly magic sword in his hand that was covered in black blood.

"You should have seen the power of this sword, right? Haha ..." Chen Cai himself was extremely happy, because this was something that he had refined. "Before, I did not dare to do anything to this guy, but now, he has finally died!"

"Then what should we do next?" Leave this place? " Chen Xiang looked at the corpse of the Bear King, then threw it into the Six Realms mirrors.

"Do whatever you want!" Chen Cai laughed: "Anyways, my biggest enemy has already been eliminated, I never thought it would be so easy!"

"Bear King!" A roar came from outside, "I heard a human came to your territory. When are you going to eat him? You don't care about me at all? "

Chen Cai immediately frowned and said in a low voice: "This is the nearby Pig King, his strength is also pretty good, do you want to go and fight him?"
