

Dan God 31

Chapter 31: Manor Lord, Governor

Chen Xiang had successfully refined three Baptizing Marrow Dans and placed them in his mouth, then immediately started to operate the [Tai Chi Divine Exercise]. While assimilating the potency of the pills, he also started to absorb the five elements of Qi in between the heaven and earth. Furthermore, he also casted the [Dragon Saliva Exercise], while creating the accelerating growth catalyst for the spirit herb in the due process, the 'Dragon Saliva'!

The next morning, the sun had just started to rise and King City was already very noisy. The Danxiang Herbal Manor news had already been spread among the whole city. This was just a small issue and as long as nobody was killed, it was just a simple matter for the Governor. But yesterday, his own son was beaten. If the Governor wasn't going to intervene, then he would become a laughing stock to everyone.

Therefore, the entrance of Chen Luzhong's store was already surrounded by many guards. On the avenue, two luxurious horse carriages were respectively driving directly towards the store.

These luxurious horse carriage stopped just before the entrance of the store. There were many guards around the carriages but only one carriage belonged to the Danxiang Herbal Manor whereas the others belonged to the Governor. Both parties were here for the same purpose and that was to find Chen Xiang.

Chen Xiang was still training in his room but with his keen senses, he was able to hear the commotion at the entrance. He immediately woke up and carefully listened to the voices.

"Manor Lord Hua, I did not expect that you would personally come here regarding my son's issue. I know my son has really caused trouble for you, but please do forgive him." From the black horse carriage, only a man's voice could be heard and this voice belonged to the famous Governor of the King City of the Southern Martial Empire, Hua Gaoyun.

"Well, your son this time brought a lot of troubles for the Danxiang Herbal Manor! I didn't come here for him, I came because I couldn't sit idly and do nothing while someone has come to trouble my Danxiang Herbal Manor."

A sliver of anger could be felt in this beautiful voice. Chen Xiang couldn't help but be surprised. Danxiang Herbal Manor's lord turned out to be a girl!

After tidying himself, Chen Xiang left his room through the backyard and entered the store inside where Chen Luzhong was already present.

"Grand Uncle, how come you didn't hide this time?" Chen Xiang asked in a whisper. Meanwhile, he heard a knock.

"Shouldn't I worry about you brat? The Governor and Manor Lord are not people you can mess with."

After opening the door Chen Xiang and Chen Luzhong saw the bold and powerful soldiers standing outside. Of course, the most striking were the two horse carriages.

"What do you want?" Chen Luzhong asked while laughing.

From the two carriages inside, two people got down. The one with the robust body was the Governor. He had a very small beard on his middle aged face, wearing a golden robe and adorned with shiny gold ornaments.

The other was Danxiang Herbal Manor's Lord. A girl with a graceful figure and a gentle smile, wearing a blue skirt, face covered with a white muslin, revealing a pair of youthful and pretty eyes. When she saw Chen Xiang and Chen Luzhong, those clear like water eyes suddenly glittered with a slight shimmer.

"Was it you who injured my son?" Hua Gaoyun swept past Chen Xiang with his two eyes as he asked.

"Yes!"

On Chen Xiang's face there was no fear. Although he was facing two noble figures of King City, he was still very calm. He could see that Hua Gaoyun's strength had reached the 8th level of mortal martial realm. He was not only fearless, but also wanted to have a contest with him.

At this time, a group of people from the crowd rushed out and pointed at Chen Xiang as they cursed. And it was evidently clear from their covered body in gauzes, these people were the bodyguards wounded by Chen Xiang at the manor

"Manor Lord, this is the guy who rushed into our Danxiang Herbal Manor and wounded us and the shopkeeper." One bodyguard while grimacing in pain said.

Hua Gaoyun coldly smiled then turned to the Manor Lord and said, "Now that it is confirmed, Manor Lord Hua, how do you say we dispose of him!?"

The next words of Manor Lord Hua made surprised everyone.

"The partakers who damaged this store are hereby expelled from the Danxiang Herbal Manor. Although the young master indeed caused trouble with our manor, but it was all because we Danxiang Herbal Manor's people were wrong earlier, therefore we are not investigating. Hua Yueyun, take this opportunity to apologize to the young master and also, the Danxiang Herbal Manor will compensate for the young masters losses."

Danxiang Herbal Manor's lord went as far as to apologize to a person! Hua Gaoyun was not the only one who was shocked. Chen Xiang and Chen Luzhong were also puzzled, but their impression of the Manor Lord had improved at this time. As Su Meiyao had said, this Danxiang Herbal Manor's lord is indeed a person with a clear distinction between right and wrong.

"Although Manor Lord Hua let you off, I will not do the same! Catch him. This person caused trouble in King City, and injured many people. Be sure to deal with him ruthlessly."

Hua Gaoyun was not as easy as soft and gentle woman.

Hua Yueyun slightly sighed and said, "Governor Hua, these two present before your eyes are alchemist, are you really going to make enemy with alchemists?"

Hua Gaoyun was shocked, as well as those bodyguards and the soldiers too! That Young man and the old man before their eyes were alchemists, it should be known the identity of alchemists were very rare in the Southern Martial Empire. Particularly the old alchemist, they were generally in a formidable family

at a very high position and garnering respect. How would he appear here and moreover in such a poor condition?

Chen Xiang and Chen Luzhong from the start, never said a word. They calmly stood there, fearlessly.

Chen Luzhong said: "Governor Hua, this old man had bought this store many, many years before. Your son wanted to buy this from my hands, but I did not sell it so he took advantage of my absence and brought people to destroy it. If you don't believe me, you can go in and take a look!"

"Mister, you should be the hall lord of Wohu City's Spirit Dan Hall and this young master must be the famous genius of the Chen family."

Chen Family genius. Was he not the one who trounced against both the Yao family genius and elder? Famous throughout the whole Southern Martial Empire, Chen Xiang? He actually came to King City, moreover together with Spirit Dan Hall's lord. Everyone had long known that Spirit Dan Hall's lord was treated as ante and lost to the Chen family!

"Now, I am not a hall lord, just an old servant of this brat." Chen Luzhong laughed, but his words scared the hell out of everybody.

Spirit Dan Hall's lord was a relatively well-known figure in Southern Martial Empire and had now become a mere servant of someone. If they didn't hear this from his own mouth, people would never believe it.

Hua Gaoyun eyebrows were continuously moving up and down. The other two were alchemists and he didn't think that his own idiot son would have a dispute with alchemists, that's definitely not a wise move.

Chen Xiang looked at Hua Gaoyun and coldly said: "Governor Hua, your son tried to seize our Chen family property. If it would have been someone else, I would have definitely slain him! You should know if one's family property is threatened, it is a very serious issue!"

Chen Xiang's words were filled with slaughter Qi, the majority of the crowd couldn't help but have shivers run down their spines. The Chen family wasn't a martial artist's

aristocratic family inside King City, but they still had inheritance from many years back, their profound heritage still could not be overlooked.

Hua Gaoyun wrinkled his brows, his face filled with anger, yet he couldn't even attack. If he did so, he would have to consider the retaliation from the Chen family. Although his and the Yao family relationship was pretty good, it was only a relationship for mutual benefits.

"Let's go!" Hua Gaoyun coldly shouted. He swallowed down the anger inside his heart and embarked on his carriage to leave.

Chapter 32: Sect's disciple

Hua Yueyun commanded some people to enter the store and estimate the damages, then said to Chen Xiang, "If the two of you have some time, you can always come to Danxiang Herbal Manor as guests, we'll always welcome you two."

After Hua Yueyun departed, Chen Luzhong held his waist and said while smiling "You think this woman is interesting, right?"

Chen Xiang whispered while his shining eyes were looking at the distant carriage, "This woman schemes are very deep. I sense that she wants to win us over."

"You're over thinking Despite being a woman, she could still govern such a large pill force, she had long been accustomed to gnawing the bones till nothing was left. Why would she need to use any underhanded means to win us over?"

Five days quickly passed. The store was brand new and was all done at no cost. Danxiang Herbal Manor had sent people to repair it and as long as there were enough pills and alchemists, the store would soon be open.

Chen Xiang came to King city for two purposes. One was to start the pill store, and other was to participate in the Martial Arts tournament of King City.

King City's Martial Arts tournament had already begun accepting registrations. Although there were more than two months before it started, Chen Xiang had went to sign up early. Chen Xiang had also learnt some information along the way. Sect's disciple would indeed appear at the tournament, but they weren't going to participate in it, rather, they were just here to observe.

For several days, Chen Xiang and Chen Luzhong were very busy refining pills. In order for the business to run smoothly, they had to refine a large number of pills.

"Granduncle, with just the two of us refining pills, this is not the way to go... I don't know if we'll be able to continue like this." Chen Xiang had just refined a Baptizing Marrow Dan, but the herbs he had to buy were from the Danxiang Herbal Manor.

"Young man, you think it is so easy to open up a store? If we don't have at least five alchemists, it'll be difficult to sustain. Even after opening the store, we'd have to wait for the customers to come and buy. As I see it, it'll take at least two to three years before we can run smoothly." Chen Luzhong's reply made Chen Xiang stamp his feet anxiously, he couldn't wait for so long.

In order to attract alchemists, he could only use some precious spirit herbs. Chen Xiang had planned to ripen a batch of herbs so he immediately left the alchemy room but when he arrived inside the store, he saw several people standing inside.

These people were one old man and four handsome teenagers. The breath released from their bodies were very pure which give people a strange feeling. This kind of purest True Qi couldn't be cultivated out in the mortal world.

"You are....."

"HUMPH, YOU ARE CHEN XIANG?!" That white haired old man shouted, his face both mighty and angry, and also those four teenagers had put on a high and mighty act while looking at Chen Xiang.

Chen Xiang frowned, clenching his fist and said coldly, "Right. Are you here to make trouble?"

At this time Chen Luzhong also came out, when he saw that old man he also froze for a moment, his body still trembling. Apparently he was very afraid of this old man.

"You.....you are....." Chen Luzhong was speechless, he actually knew this old man.

That old man spoke, "Right, I am Chen Furong. Fifty years ago, I left the Chen family and entered a martial arts sect, and this time I came back to recruit some sect disciples but I heard some bad news."

Chen Xiang was shocked inside his heart. This person responsible for recruiting sect disciple unexpectedly was one of the Chen family elders, but this elder seemed to be somewhat discontented with him.

"You dare to be enemies with the Yao family. You should know when I was inside the martial arts sect, the Yao family members had helped me a lot!" Chen Furong glared at Chen Xiang, simultaneously, he released True Qi pressing towards Chen Xiang which made Chen Xiang suddenly feel as if his body weigh ten thousand jin.

[TLN: Jin = Chinese measurement of weight, 1jin = 500g]

Astonishment from Chen Luzhong's face had faded away and was replaced with coldness, "He is the Chen families once in thousand years born rare good seedling, but you embarrass him for your own selfish reason! This reason alone is enough for you not to have any qualification to be a member of the Chen family!"

When Chen Furong heard this statement, he restrained his breath, and looked at Chen Luzhong to determine his power level. As he was unable to see his power level, he contemptuously said: "What good seed? This little devil? Just casually grab anyone inside my sect and they will be much stronger than him. My four apprentices behind me will be able to win very easily against him."

Just as Chen Furong last words fell, Chen Xiang's stature moved similar to lightning. Azure aura started to surge into his fist, with flashing lightning aura and carrying vigorous and tyrannical lightning power, struck towards the teenager.

This sudden fierce attack left that teenager simply no time to dodge. His chest was ruthlessly hit by Chen Xiang's fist. Blood spilled from his mouth and was forced to retreat couple of steps before coming to a stop.

"Just so-so!" Chen Xiang faintly said. He completely saw through Chen Furong, he now knew that the Chen family elder had no loyalty towards the Chen family. In order to befriend the Yao family, he was even dealing with his own clansman.

Chen Xiang's sudden action made Chen Furong unceasingly shocked and angry. He had only heard of Chen Xiang's strength but never witnessed it, but now it seems it was indeed amazing, even capable of slightly injuring a martial arts sect disciple.

"This is the strength of a martial arts sect disciple?" Chen Xiang said in contempt while glancing at the four teenagers, which in turn made the four teenager extremely furious.

"If you did not sneak attack me, you wouldn't even be able to touch me." The teenager while wiping his bloodstain mouth angrily retorted.

"So how about we have a little fight?"

Chen Xiang knaded his fists, while on his face the intention to fight could be seen.

"Let's fight!" The teenager's heart was filled with anger, only by fighting would he be able to vent his anger that resided in his heart.

Chen Furong did not try to stop them, he retreated to one side blankly. This left a little space open, at this time, the teenager and Chen Xiang both rushed towards each other.

The teenager's steps were very light, it was similar to superficially treading only using the tip of the toes. Not only was it fast, but he carried himself with a strong momentum.

"Mortal martial realm level-6!" Chen Xiang judged the teenagers strength immediately.

The teenager saw Chen Xiang motionlessly standing there, his whole body full of openings. When he saw Chen Xiang trying to guard from his steps, he was secretly proud of himself. He leapt into the sky, both his feet continuously sent out flying kicks, suddenly, after images were overflowing from the top of the sky and surged towards Chen Xiang. Vigorous True Qi shook the air with a loud noise, obviously this teenagers kicking method was impressive.

Chen Xiang didn't imagine this kind of attack and at that moment, he simply couldn't escape the countless leg shadows. He didn't think this little weak looking teenager would know such an overbearing kicking technique.

"Deng deng deng"

Chen Xiang's body in a blink of an eye flew and kicked a dozens of times. Afterwards, he fell on top of a wooden table which destroyed it immediately.

"Humph! You are also just so-so!" The teenager in said in disdain. Just as he finished, Chen Xiang jumped into the sky and stood straight, beating his clothes like nothing ever happened.

The teenagers as well as Chen Furong were completely astonished.

"You.....I truly kicked your body a moment ago, but how can you afford to withstand my powerful True Qi? I had at least kicked your body ten or so times, on each kick I poured very powerful True Qi." That teenager with a serious complexion said. Only few people among the same level were capable of remaining safely unharmed under his kicking method.

Chen Xiang lightly smiled and said, "That move of yours was really good, but it was still average!"

While speaking, Chen Xiang dashed towards the teenager and with his fists, strikes similar to giant axe cutting mountains, were continuously struck out. Every fist strike had momentum similar to a giant river's flow, bursting out a flurry of explosions. Each fist transformed into ferocious tiger heads, shocking the air, as if ferocious tigers were roaring in anger.

Uninterrupted and quick, Chen Xiang's fist made countless afterimages similar to violent storm striking towards the teenage. The reaction of the teenager was very quick. Wind revolved around his body before it was covered in a layer of golden brilliance, which was metal attribute True Qi and he released a True Qi cover to protect himself.

Chapter 33: Hua Yueyun

The teenagers True Qi shield was also very intrepid, as it was even able to withstand Chen Xiang's crazy lightning fist strikes. Even so, Chen Xiang still didn't pay any attention to it. Suddenly a trace of fiery red Qi started to mix with his green True Qi.

Till now Chen Xiang was only using wood attributed Azure Dragon True Qi, but now he started to add fire attributed Zhu Que True Qi. As both True Qi fused and superimposed on each other, their combined might was more than just double.

Chen Furong's pupils' contracted as Chen Xiang's True Qi colour changed because one person possessing two types of True Qi was rarely seen!

The golden True Qi shield covering the teenager's body slightly vibrated before Chen Xiang's fists shook his firm True Qi shield.

Chen Xiang's fists, with an explosive roar, suddenly gushed out scorching hot flames with lightning blowing inside the flames. An all around powerful and oppressive aura like wave violently surged, completely shaking everything.

Chen Xiang's fists bombarded again while lightning and fire were flashing inside.

"Hong hong hong....."

Chen Xiang's fist were quick as always. In a blink of an eye, tens of fists struck on the teenager's golden True Qi shield sending out thunderous roars. Loudly shaking the ground, and soon after, spreading to the whole pavilion in all four directions.

With madness, continuously striking out fist while bursting continuous roars, watching this level of crazy attack, Chen Luzhong Chen Furong, as well as those teenagers watching were in awe. They did not think that the young Chen Xiang's True Qi was vigorous to this degree, madly able to cast out such fierce True Qi attacks.

The golden Qi shield covering the teenager's body covered already started to dim down. He was beaten back by Chen Xiang, and his body was numbing in pain as his golden True Qi shield was shaken by Chen Xiang's crazy fist strength.

"Break!" Chen Xiang heavily shouted. While jumping, on his fists lightning and fire burst out as they struck towards the teenager's body like a meteor. Directly breaking the teenager's golden Qi, the teenager flew out and crashed through the wall falling on the avenue outside as a mouthful of blood surged out before he fainted.

Chen Xiang's gaze swept past the other teenagers and coldly shouted, "Would you also like to come?"

The three teenagers couldn't even speak. At this time, they were unable to calm down. Fear was clearly visible on their face. The level of slaughter Qi emitted by Chen Xiang was similar to a Great General who was perennial engaged in slaughtering.

"Let's go!" Chen Furong was speechless. Chen Xiang's strength also made him deeply shocked, he could see Chen Xiang's martial skill was very strong and frightening.

"Wait, he is one of the big sect's disciple. Although we exchanged some pointers, as I was not careful and wounded him, I have to heal him to avoid the jealousy and hatred of the sect."

Immediately after Chen Xiang took out an alchemy furnace, he sat down cross-legged while taking out some spirit herbs from his storage pouch.

Chen Xiang actually wanted to refine a pill!

"Certainly you can directly heal him. Why bother!" Chen Furong impassively said.

Chen Xiang while sneering said, "You can try and see if ordinary pills will heal him. He was injured by my fire and lighting True Qi. If he doesn't have the corresponding pill, his wounds will have a hard time healing."

After speaking, Chen Xiang began to pour flames inside the furnace, meanwhile Chen Furong carried the teenager from the avenue. He determined that the teenager was seriously injured as he probed the wounds. Moreover, lighting and fire Qi had entered the body from the wounds, and these lighting and fire were not common lightning and fire.

Half an hour passed. Chen Furong and his apprentices had been silent, patiently waiting, and they also wanted to take a look at Chen Xiang's alchemy technique.

Chen Xiang opened the furnace lid while a pill aroma wafted out. It only took half an hour to refine the healing pill! This was too damn fast! This made Chen Furong and the three teenagers extremely scared.

"This is a Great Rejuvenating Dan, Middle-Grade Mortal Level Dan!" Chen Xiang handed out a pink dan to Chen Furong. He did this so that the Chen family senior wouldn't hate him as well as change Chen Furong's opinion about him.

Middle-Grade Mortal Level Dan! Chen Xiang only took half an hour to refine it! As Chen Furong received the dan, he immediately determined that it was genuine. At this time, he had to admit that Chen Xiang was someone with an immeasurable future.

"Do you want to start a business by selling dans? Here, there is not only the Danxiang Herbal Manor, but also the Yao family. With just the two of you refining pills, this store will surely fail! This idea is simply too naive, I will make the Chen family stop you. This is simply a waste of money! Chen Xiang here is a tip, it is best if you go and apologize to the Yao family!"

Chen Furong after dropping this sentence, left with the teenagers.

With Chen Furong gone, Chen Luzhong said with a sigh, "This guy has always been very selfish, therefore he left the Chen family a long time ago. I simply did not imagine that he would have received the Yao family's grace and actually came here to deal with his own clan member. If your grandfather was here, he would have punished him."

Chen Xiang asked as he cleaned the floor, "Granduncle, great sect's disciple all have this level of strength?"

Chen Luzhong shook his head and said: "They are just Outer Sect disciples. If it would have been an Inner Sect disciple or a True Disciple, then you would simply have no chance of winning! Chen Furong should have a relatively high position among outer sect's disciple."

Chen Xiang was shocked. He had estimated that Chen Furong's strength was at least at the 9th level of Mortal Martial Realm, and he was only an Outer Sect disciple! Then what is the level of Inner Sect and True Disciples?

"I have to go look and hire some alchemists." Chen Xiang said. He already had some plans about how to proceed.

"Most of the alchemists inside the King City have already joined other forces. In order to find some will be somewhat difficult." Chen Luzhong sighed because alchemists were very rare and so, many forces fought over them.

Chen Xiang said while he rolled his eyes: "I have to go to Danxiang Herbal Manor. I'll look for that woman to discuss about some business."

Soon after Chen Xiang put down the broom, he ran out of the store towards the biggest Danxiang Herbal Manor located in the central region of the King City. This was also the headquarters of all the Danxiang Herbal Manor located in King City.

The Danxiang Herbal Manor headquarters was a giant manor. Chen Xiang entered inside while indicating his identity. Immediately after, he was received with warm welcome. One maid took him through many halls and courtyards inside the manor eventually coming to a colourful and gorgeous garden, and amidst the garden was a small house.

The aroma wafting from the flower beds made Chen Xiang feel somewhat refreshed. Then from inside the house, came an enchanting and gentle voice, "Young master Chen, please come in! I knew you would come visit."

An attractive laughter sounded out and Hua Yueyun words slightly stunned Chen Xiang. In his heart, he subtly cursed 'vixen', then pulled himself together and walked forward.

Chen Xiang came to a small hall full of exquisite aroma. Inside the hut he saw an enchanting woman with a graceful posture and beautiful appearance was preparing some tea leaves.

Previously, Hua Yueyun had covered her face with a veil so Chen Xiang wasn't able to see her face, but now that he saw. It was much more beautiful than he had imagined but this time, she was wearing a white transparent gauze skirt. You could partly see her jade lotus like arms, as well as her sultry and slender legs. Her pretty waist was visible through her thin veil, as well as her milk white ample bosom with a deep ravine.

This was butt naked temptation. If Chen Xiang didn't have extremely good control over his mind against stunning beauties, he probably would have already been under their control. This left him puzzled about why such a stunning figure was here.

Chapter 34: Temptation

Hua Yueyun's little red mouth was slightly stretched before she took a sip of the petal tea. Seemingly speechless and enchanted, with a sweet smile hanging on her face, she said to Chen Xiang, "Young master, what say we get down to business over a cup of tea."

Chen Xiang touched his nose, he suddenly felt a little embarrassed, because he just had a martial art contest with someone. Moreover, he had also refined a set of herbs of the Great Rejuvenating Dan, so he was more or less covered in sweat and dressed very sloppy.

He smiled and said, "Manor Lord Hua, compared to the beauties outside, you are much more beautiful, and I just do not understand why would Manor Lord Hua be so warm towards me. This passion truly made me feel very hot ah!"

Finished speaking, Chen Xiang cursed 'Yaojing' in his heart. Soon after, a fire secretly started burning in his lower abdomen.

[TLN: Yaojing (妖精) = alluring woman or evil spirit who is enchanting and beautiful.]

Although on the surface, he was calm, he was actually very restless in his heart. He had seen Bai Youyou and Su Meiyao's jade like body before, and also had intimate contacts with the little fairy like soft refined dust*, Xue Xianxian. Moreover, he had also seen the remarkably graceful Empress of the Divine Weapon Heavenly Empire. He had to admit that the Hua Yueyun in front of him was indeed like lilies and roses, and that her appearance was comparable to the several beauties he had seen.

[TLN: soft refined dust (轻尘脱俗) I just translated as written but in Chinese it is used to describe a woman in elegant way who is pure and not tainted by any other worldly things. (Not that kind which you are thinking more in good way. :)]

"Young master already has Xue Xianxian, that talented little fairy. How could you think highly of this little miss?" Hua Yueyun pretended to be self-deprecating and on her pretty face a trace of envy was visible.

Chen Xiang no longer excessively looked at this beautiful woman. He drank a cup of petal tea and said, "Manor Lord Hua, let's get to the point. I want to dispose a Thousand Year Old Blood Spirit Grass, and I think that Manor Lord Hua should give me a satisfactory price!"

When Hua Yueyun heard this, she no longer sexually harassed this innocent young boy. She sat down and poured him more tea and said, "You caught me by surprise. This is a thousand year Blood Spirit Grass, and you are an alchemist. Is it that you don't know how precious it is? If young master is short on money, then this little miss can lend you some first."

Chen Xiang was surprised in his heart. He wasn't clear about why he got her favour. How was he able to make such a mature, stunning beauty act so intimately with him, even lend him some money.

"This woman's schemes are very heavy, I have to be careful." Chen Xiang fully realized that the truth was anything but gallant.

"No, I don't want to owe anybody. If Manor Lord Hua is not willing, then I will find someone else." Chen Xiang stood up. He did not want to get enticed by this woman again, after all, this was not good for him.

Hua Yueyun sighed lightly, sipped the tea while looking dejected, faintly said, "While in the eyes of others I'm a superior manor lord, but my real identity is nothing but a maidservant of the Danxiang Taoyuan. Just because I was comparatively more beautiful and a little clever, I was sent here to assume control of the Danxiang Herbal Manor."

So this girl, as beautiful as a heavenly immortal was just a maidservant! For Chen Xiang it was implausible.

"Young master Chen, you are but a rare genius, whether it is strength or alchemy, both are inherent. Even in martial arts sects, it would be very difficult to find someone like you! I want to say openly, I want to pull you into the Danxiang Taoyuan. That way I can obtain rewards from the Danxiang Taoyuan, and you can leave this damned place with meager Spirit Qi." Hua Yueyun grumbled tenderly and pitifully looking at Chen Xiang.

One martial arts sect recruiting a good seedling. For a sect, that was a good thing but Chen Xiang felt somewhat uncertain, "You mean, after you enroll me into the Danxiang Taoyuan, you will gain some benefits? You do not look like a maidservant, I sense your strength to be at least at 8th level of Mortal Martial Realm!"

Hua Yueyun was slightly taken back, "Young master Chen has good eyes. To tell you the truth, after entering the Danxiang Taoyuan, I'll only get the reward once you become a True Disciple, because many geniuses are unable to enter the True Martial Realm. I've personally seen many of those geniuses."

Chen Xiang said with a smirk, "You have been fooling a lot of people!"

Hua Yueyun pouted her little mouth, "I've never lied to them, which is why they voluntarily went to the Danxiang Taoyuan. Moreover, it was not harmful for them."

Chen Xiang shook his head and said, "I do not want to enter the Danxiang Taoyuan, I want to enter the Extreme Martial Sect!"

Hua Yueyun said with contempt, "Extreme Martial Sect? Young master Chen, you know amongst the eight major faction, the Extreme Martial Sect is the most difficult to enter. Extreme Martial Sect, no matter how talented you are, as long you cannot pass through their tests, you will be rejected from the gate!"

Chen Xiang gaze became sharp, said, "This is challenging!"

Hua Yueyun wrinkled her nose and with an angry 'humph' said, "Fool, you've me leading you into the Danxiang Taoyuan and you don't want to enter, you're hell bent going into that bloody Extreme Martial Sect. You're going to regret it later!"

"Regretting is still my issue, thanks for Manor Lord Hua's concern!" Chen Xiang slightly smiled to her.

Hua Yueyun nibbled her red lip, looking at Chen Xiang with resentment, she murmured, "Don't call me something like Manor Lord Hua, I'm just a maidservant. I cannot stand this title. Since you know who I am, don't be so flattering.....just call me Yueyun, or I will not sell any dans to your Chen Family."

Just a moment ago, she could eternally enthrall someone with her peerless charm, and now, she turned into an angry little girl which made Chen Xiang laugh involuntarily, "Yueyun, now can we talk about that thousand year old Blood Spirit Grass?"

Hua Yueyun drank two cups of tea, and after dispersing the anger in her heart, she said, "Chen Xiang, since you insist on selling, I'll not urge you! You're really a fool. Not only do you want to sell this precious

spirit herb, but you also want to reject my invitation to enter the Danxiang Taoyuan....Xue Xianxian, this heavenly pampered daughter, why does she fancy an idiot like you?"

Speaking of which, Hua Yueyun's pretty face full of anger had a totally different kind of charm. Looking at her, Chen Xiang secretly admired her in his heart. If Hua Yueyun came to know about this, she would certainly fly into a rage.

"If you are in urgent need of money, if you want, I can lend you some. Although I'm just a maidservant, I have a lot of spirit coins and I can also freely mobilise spirit coins of the Danxiang Herbal Manor."

"Woman, you're getting really long-winded. Give me a price! I don't want to owe you." said Chen Xiang while curling his lips..

Hua Yueyun spat and said, "Four hundred thousand spirit coins."

Chen Xiang was satisfied with this price. He nodded and said, "And I would also like to buy some of the spirit herbs."

Chen Xiang took out a list as well as the thousand year Blood Spirit Grass. Hua Yueyun sighed after taking the thousand year Blood Spirit Grass, "If you enter the Danxiang Taoyuan and become a True Disciple, I can be your maidservant...at that time I will be yours forever."

Chen Xiang's eyebrows rose. That was a very big temptation, but he refused, "Xianxian, this little girl will be jealous."

Hua Yueyun stuck her tongue out and said, "Talking to this fool is like talking to a dead person. Wait for my return."

Looking at that writhing charming waist of Hua Yueyun as she left, Chen Xiang let out a deep breath. This time Su Meiyao laughingly said, "This is a formidable little Yaojing! If she is capable of making you a True Disciple, that is indeed a very good thing! You should know that inside those martial arts sects, a True Disciple's status is very high."

"Why?"

Bai Youyou said, "Simple, because True Disciples are in or above True Martial Realm. Although those martial sects are very big and have numerous disciples, True Disciples are not many, and True Disciples basically represent the strength of the whole sect."

Chapter 35: Metal Spirit Fruit

At this point, Chen Xian wanted more and more to experience what it felt like to be in a sect. But, even those who were in the 8th and 9th level of the Mortal Martial Realm were only Outer Sect's disciples. From this, it was clear how competitive it was, let alone to enter the Extreme Martial Sect.

"Extreme Martial Sect has really harsh conditions, can I even become a true disciple?" Chen Xiang muttered.

"Sure, you have Yin and Yang divine veins, and being personally taught by us two sisters, as long as you work hard, in the future you will definitely become strong enough to even reign over an entire region." Bai Youyou said resolutely and decisively, as she was very confident in Chen Xiang.

Chen Xiang waited for a while, before Hua Yueyun returned. This time, she wore a purple robe and skirt, not like before, as she was now looming with temptation, which made Chen Xiang feel somewhat disappointed.

"These are the things that you wanted along with the leftover spirit coins." Hua Yueyun placed the spirit coins and some herbs wrapped in paper on the table.

Chen Xiang didn't bother checking and directly received them inside his storage pouch, thus showing his trust in Hua Yueyun, which made Hua Yueyun secretly happy in her heart.

"Have you registered to participate in King City's martial arts tournament? This Southern Martial Empire is under the jurisdiction of the True Martial Sect forces." Hua Yueyun asked because she was obviously concerned about Chen Xiang.

After some thinking, Chen Xiang said, "I will participate, but I'm not going to join the True Martial Sect. I'm just participating for the True Elemental Dan!"

Looking at Chen Xiang leaving, Hua Yueyun shook her head and lightly sighed, disappointment was evident in her pretty eyes. Previously, she was able to make this kind of callow teenager submit to her with just a few words. However, now, not only did she talk a lot, she was also rather enticing while she spoke. Yet, in the end, she still wasn't able to persuade Chen Xiang.

Chen Xiang sold the thousand year Blood Spirit Grass for four hundred thousand spirit coins, and then with a hundred thousand spirit coins, purchased a lot of mature spirit herbs. Among these spirit herbs, the most precious of all was the Metal Spirit Fruit's seed.

[TLN: here in the end I translated as seed but the actual translation would be fruit nuclei (果核) well basically seed. :)]

Metal Spirit Fruit was a high-grade profound level spirit fruit, and was as precious as the Thousand Vein Fruit. Reportedly, it would only appear once every thousand years. Whether it was the pulp or the peel, they were of great usage, especially in refining high-grade dans. Adding some of it during the refining could allow an increase of the quality of the dans, and also increasing the chance of congealing the dans.

Chen Xiang had just purchased a Metal Spirit Fruit's seed, and it would be used for planting a Metal Spirit Tree. The seed was also used in alchemy, but no one had ever thought of growing a tree from it, because it needed an exceedingly long time to grow. Even if someone were to grow one, they'd still have to wait a thousand years, before the tree would bear a fruit for the first time.

But this wasn't the same for Chen Xiang. These days, he had accumulated a lot of Dragon Saliva. Continually irrigating the seed with it, he would be able to produce the Metal Spirit Fruit quickly.

Chen Xiang was in the small courtyard. He planted the seed, before he took out a jade bottle filled with the Dragon Saliva. Now he needed to nurture the seed, so there was no need to dilute the Dragon Saliva with water. He just had to directly drip it on the Metal Spirit Fruit's seed inside the soil.

Just as he poured a drop, a large amount of Spirit Qi suddenly surged and permeated into the soil. Immediately after, a small bud grew out. After seeing that it was this effective, Chen Xiang continued dripping the Dragon Saliva on the soil.

With each drop, a large amount of Spirit Qi violently surged deep into the ground leading into the Metal Spirit Fruit's seed inside. The Dragon Saliva itself contained an abundant life force, and now, it would allow the small tree to absorb a large amount of Spirit Qi, which would accelerate its growth.

Chen Xiang now understood why Su Meiyao had always repeatedly urged him not to reveal anything about the [Dragon Saliva Exercise]. Otherwise, it would be very troublesome. It was only now, that he deeply felt the formability of this heaven defying divine exercise. His heart grew more and more excited. Give him some time, and even growing a ten thousand year old spirit herb, would be like taking a walk in the park!

After exhausting a bottle of the Dragon Saliva, the Metal Spirit Fruit's seed had grown into a human sized small tree; this was only in half a day worth of time!

"Ugh, there's still no fruit!" Chen Xiang complained as he was somewhat dissatisfied.

- Humph! -

"You should be content. If it was under normal circumstances, it would have taken at least five hundred years to grow into this size. You will need to collect at least one more month worth of Dragon Saliva to allow this tree to bear fruit."

As long as it bore a fruit, Chen Xiang would be able to grow several Metal Spirit Fruits. At that time he would announce this to the entire nation: 'Recruiting alchemists, with Metal Spirit Fruit as a reward'. With such an easy task, it might even lead to a dogfight between the alchemists.

"Brat, you should now start collecting herbs for refining a Building Foundation Dan. You have Yin and Yang divine veins and cultivate divine exercises, so entering into the True Martial Realm is not a problem, but if you want it to be fast and stable, this dan is a must!" Bai Youyou said.

Building Foundation Dan, a Low-Grade Profound Level Dan, mainly used for a stable foundation and enhancing the body. It also increased the purity of True Qi, and if taken before entering the True Martial Realm, advancing would be much easier.

Chen Xiang, while curling his lips, said, "I can only refine Middle-Grade Mortal Level Dan, but Profound Level Dan... ya! Even when I'm at the peak of Mortal Martial Realm, I'm afraid I still wouldn't have the ability to refine it!"

"Ignorant little devil, as long as you're able to refine a High-Grade Spirit Level Dan, you'll be able to refine the Building Foundation Dan! Only because the herbs of the Building Foundation Dan are very rare, it is categorised as a profound level Dan. But, the difficulty of refining it isn't all that great. Humph!" Bai Youyou said coldly.

Chen Xiang now had the Thousand Vein Fruit and also a thousand year Beast Dan. With these three rare spirit herbs, refining the Building Foundation Dan was possible. Because he practiced [Dragon Saliva Exercise], as long as he had a seed, he could infinitely grow the spirit herbs. At that time, he could have as many Building Foundation Dan as he wanted. Buying the seeds wouldn't be an issue, since the Building Foundation Dan could be sold for many spirit coins.

Thinking of this point, Chen Xiang was extremely excited. Of course presently he had to elevate his strength. With stronger strength, came also an increase in the ripening of the Dragon Saliva, moreover refining high-grade dans required stronger flames.

At night, Chen Xiang disguised himself and left King City. He went to a distant mountain forest, with relatively dense True Qi, which would allow him to speed up his cultivation.

Chen Xiang closed his eyes, and with the help of his Yin and Yang divine veins, he sensed the rich Spirit Qi within a radius of tens of Li. When he operated the [Tai Chi Divine Exercise], the Spirit Qi immediately surged into his body. Chen Xiang then refined them into five-element True Qi, compressing and storing them in the five locations inside his dantian.

Before dawn, Chen Xiang had already woken up. Cultivating in a place with rich Spirit Qi, not only would it allow him to cultivate more True Qi, it would also help him in gathering more Dragon Saliva. This was also one of the reason he came to these outskirts.

Chen Xiang was as energetic as a dragon and as fierce as a tiger. Suddenly, in the middle of the forest, he started boxing. In this dim forest, criss-crossing green and red light constantly flashed, transforming into tiger heads, striking out at the empty air, while bursting out roars. Each of his fists emitted fierce winds, while the soil on the ground was curled up like the waves of the sea. Intermittent sounds bursted out as his fists struck the trees, while dismembering the trees, which could be encircled by two people, in the process.

This was the high-grade spirit level martial skill [Heavenly Tiger Storm Killing Fist]. Chen Xiang had the [Divine Exercise Of Four Symbols], but presently he could only learn some of the common martial techniques, although its power was good, it was still insufficient.

Only if one was familiar in casting martial techniques would it be useful during a battle. By now, Chen Xiang was able to smoothly perform the [Heavenly Tiger Storm Killing Fist]. He now felt pleasure in releasing the vigorous True Qi from his body, while casting the martial techniques. As he struck out, his vigorous True Qi transformed into a formidable and ingenious power, which also made him feel more comfortable.

Many trees broke as his punches landed on them, one by one, blasting them off from the ground and forming many pits, Chen Xiang sighed as he thought. He was only at the 6th level of the Mortal Martial Realm and had this level of strength. An ordinary person, in his eyes, were already similar to ants, as even for someone at the same level, it would be difficult for them to resist his violent [Heavenly Tiger Storm Killing Fist].

"If I enter into the True Martial realm, how powerful will I be?" When Chen Xiang thought about this, his mind couldn't help but surge with an inexplicable excitement. He had a very strong desire for more and more power, which boosted his morale.

Chapter 36: In front of the Yao Family

Chen Xiang returned just before dawn. During the day, he madly refined dans. While during night, he went to the outskirts of the city to cultivate. Twenty days of this cycle continued. Now, not only had his cultivation enhanced by a lot, he also became very skillful in refining Middle-Grade Mortal Level Dans and below, with almost no chance of failure. The time required for the entire alchemy process was also

shortened by a large amount, it was to the point that even the old alchemist Chen Luzhong felt completely embarrassed of his own inferiority.

Seventy to eighty percent of the money acquired from selling the Thousand Year Old Blood Spirit Grass had already been spent. Chen Xiang and Chen Luzhong had refined many commonly used Low-Grade Mortal Level Dans, but it was still far from enough.

Of course, the Metal Spirit Tree planted by Chen Xiang, was also about to bear fruits! In these past twenty days, he had been constantly producing Dragon Saliva and accelerating its growth. This was the first time he had stimulated the growth of a single type of spirit herb for such a long time, but it would definitely be worth it.

The Metal Spirit Tree was his confidential secret, which was why he had planted it in his own private courtyard. Even Chen Luzhong wasn't allowed to casually enter Chen Xiang's small courtyard.

"As long as we hire enough alchemists, I can be carefree and gain some breathing room!" Chen Xiang was stroking a small golden fruit, which was birthed out from the tree this very morning after he nourished it with the Dragon Saliva.

Chen Xiang hadn't ever thought of just refining and selling dans all day. He aspired to do much grander things, such as finding precious spirit herbs, killing demon beasts, acquiring and practicing suitable martial techniques, or even just to explore this vast world.

At this moment, the King City's Martial Arts Tournament was only a month away and Chen Xiang went to sign up for it. However, what made him depressed was the fact that the King City's Martial Arts Tournament was unexpectedly hosted by the Yao Family, and due to this, the registration venue was inside the Yao Family area.

Chen Xiang had been lodging in King City for quite some time now, and had already heard people discussing about the missing Yao Tianhua and the Yao Family Elder. But fortunately for Chen Xiang, there were a few wicked organisations of formidable martial artists organisations that frequently wrought havoc outside King City. They looted and killed many of King City's children from aristocrat families, so Chen Xiang was never suspected of the deed.

That being said, the whole Yao Family was furious as their Yao Family genius and an elder had gone missing. They denounced those evil forces with the help of the Imperial Family, along with many other families with whom they had good relations with. In just a few days, many of the evil forces had been punished or completely destroyed, yet despite all this, the Yao Family wasn't able to find any clue to the whereabouts of Yao Tianhua.

In reality, Yao Tianhua and the Yao Family Elder had long been killed by Chen Xiang, their bodies incinerated until only ashes remained. The Yao Family finding out what happened was the least of Chen Xiang's worries.

Currently, Chen Xiang had just arrived at the Yao Family residence, which to no surprise, was very large. In his heart, Chen Xiang was slightly in awe from just seeing the entrance, let alone inside!

The competition, as well as registrations, was being held in the huge field in front of the Yao Family entrance. Although registrations had started early, a vast majority of people were still coming every day to register. The whole field was very lively, many long queues stretched out like a dragon.

Chen Xiang had lined up quite a while ago, and now, he finally stood in front of the registration table. The young, twenty or so, man responsible for registrations yawned and picked up his pen and paper. He lazily asked, "Name?"

"Chen Xiang!"

The young man was originally listless, but after hearing these two words, he became wide awake while carefully sizing up Chen Xiang. Everyone around them also looked over! Chen Xiang's name was well-known to everyone here. Not only was he capable of refining the Baptizing Marrow Dan, but his strength was known to be comparable to someone in the 7th Level of the Mortal Marital Realm! He had wounded the Yao Family Elder, beat up the governor's son, and gained the favour of the manor lord of Danxiang Herbal Manor, who was considered the most beautiful woman in the city! These were only some of his more notable deeds.

Chen Xiang was also a genius level figure comparable to Yao Tianhua. As long as one walked around the city before, they would have surely heard of his name. However, the Yao Family thought of him as nothing but a thorn in their eyes, every single Yao Family member pretty much hated him. For them, Chen Xiang injuring the Yao Family Elder and Yao Tianhua was the only reason they had gone missing. If not for the Yao Family Elder's injuries, there was no way they could possibly have been in any kind of danger.

"Go over there and take the strength test. Only after passing the test will you be able to participate in the Martial Arts Tournament." That young man pointed to another row.

Before coming here, Chen Xiang had heard that they tested your strength before successful registration. Those who were not able to pass the test would be unable to participate.

After the young man placed a seal on a paper, Chen Xiang took the paper and headed towards the other row.

Chen Xiang was actually this close to them, just thinking about this, many people were extremely excited. An alchemist, as well as the grandson of the famous Chen Family Patriarch. He had a limitless future, which made many people take initiative to chat with him.

To pass some time, Chen Xiang was also happy to chat with the other family juniors. While many of the family juniors tried to get on his good side to get the Chen Family's support for their families, some feared offending the Yao Family and were afraid to form an alliance with the Chen Family. However, these family juniors came to learn from Chen Xiang that Chen Family also had a dan shop, so they would be less wary of the threat posed by the Yao Family.

Unknowingly, time passed by quickly and it was now Chen Xiang's turn. The method to test one's strength was simple, you just had to strike a strange boulder. Originally, this boulder was black, but if one's power was strong enough, they would be able to change it's color.

Chen Xiang was standing in front of the boulder, which was taller than him! The person in charge of the testing site announced, "As long as you are able to turn this boulder's colour to yellow, you will pass this test."

According to the force exerted, the boulder would change its colour from black to red, orange, yellow, green, azure, blue, or purple, with purple being the highest amount of force it could measure.

Since standing in line, Chen Xiang had seen many people change the boulder's colour to red, sometimes even orange, but no one was still able to change its color to yellow.

"I heard that during the Crown Prince's test, the stone turned blue. Ah, truly unfathomable strength!"

"Oh, I also heard that one of the Yao Family's juniors was very formidable and also turned the stone blue."

"Ha, just that? The Great General Leng's daughter was able to change it to purple!"

"..."

Chen Xiang suddenly heard many people discussing about the strength of some notable figures. At this time, everyone seemed to be watching him with rapt attention, awaiting his results. Everyone wanted to take a look at Chen Xiang and see if his strength was truly as mighty as they heard, or if it was just a baseless rumor. Many of those present had never seen Chen Xiang's strength.

Chen Xiang rubbed his fists as he stared at the boulder. The Chen Family also had this sort of boulder, albeit a little smaller than this, it was still equally good for determining power. It was very painful to hit it, in fact, Chen Xiang had tried this test a long time ago at home. However, at that time he was barely able to turn the stone's hue into a faint red, denoting his former power to be weak.

However, things had changed and now Chen Xiang had reached the 6th Level of the Mortal Martial Realm! He was very eager to test out his strength.

After some preparation, Chen Xiang slightly inhaled. He operated the Vermillion Bird and Azure Dragon True Qi within his dantian and integrated them together. As the two True Qis fused together and surged into his arms, his sleeves suddenly turned into ash revealing blue veins on his stout arm.

At this time, everyone around the testing site had turned quiet. The people closer to Chen Xiang were even able to sense his frightening amount of True Qi. After this sudden show of explosive might, the crowd was in awe. At this moment, nobody doubted that Chen Xiang had injured the Yao Family Elder. The entire crowd was panic stricken just from the mighty pressure released by Chen Xiang's True Qi!

In one go, the dual attributed True Qi surged into Chen Xiang's arm. Tightening his fist, he punched out! Violent and fast as lightning, his fist ruthlessly slammed onto the boulder.

'BANG!'

That boulder suddenly shattered into many pieces and scattered on the ground, soot flew everywhere following outburst of True Qi.

Chapter 37: Generous Remuneration

Everyone stared blankly, originally they thought that the stone would just turn purple, but now Chen Xiang's fists blasted it into smithereens, not even the Strength measuring stone was able to bear his violent power.

Before there were those who turned the strength measuring stone into either blue or purple, and they were already considered leaders of the younger generation. But now Chen Xiang smashed the Strength measuring stone, obviously Chen Xiang's strength had already surpassed those people!

Chen Xiang was shocked with his own result, but now since he has broken the Strength measuring stone, he feared that the Yao family would ask for compensation.

"Did.....did I pass?! I did not intend to smash it, I just wanted to use the strongest power for the test, I did not expect my luck to be this good, and suddenly smash it!" Chen Xiang scratching his head grinned.

Everyone was looking at him with contempt, smashing the stone with luck, only an idiot would believe that bullshit.

"Passed!" The person in-charge thought if this is not considered a pass, then no one will be able to pass.

An additional stamp was added to his sheet, allowing him to participate in the King City martial art tournament.

Chen Xiang let out a deep breath, apparently the Yao family was not going to ask compensation for the Strength measuring stone.

Certainly, this was not Chen Xiang's entire strength, as he was only using fire and wood attribute Qi, and the other three attribute True Qi still haven't been used, if all five attribute True Qi has been fused, it would have been even more powerful.

He had been practising for many days just to perfect the fusion between fire and wood attribute Qi, complementing one another, and turning into a more powerful True Qi, it was also the one of the main reasons for Chen Xiang to be a difficult opponent among the same level!

Chen Xiang immediately started refining pills just after returning from the registration, even at this age, the pills refined by him were better than many of old alchemists, this is what Chen Luzhong said.

In the past few days he had learnt a lot of alchemy skills and experiences from Su Meiyao, and shared them with Chen Luzhong, Chen Luzhong had also benefited a lot from them, but Chen Luzhong thought that they were Chen Xiang's own perception, so he admired his nephew more and more.

Ten days passed quickly, in the small courtyard of his, six fist sized golden fruit were shining. As the sunlight shone on them, a very attractive golden glow was glittering. Near them one could feel the intense spirit Qi emitted by the Metal spirit fruit.

"This is a profound level high-grade spirit fruit ah! I wonder what its taste like!" Chen Xiang forcefully swallowed his own saliva, if those old alchemist came to know about his idea, he would be immediately beaten to pulp, eating a Metal spirit fruit was simply throwing it away.

Chen Xiang cautiously picked up six shining golden Metal spirit fruit, and after placing them inside his storage pouch, left the store in a hurry and arrived at a place nearby Danxiang herbal manor which was completely focused on seeking alchemist to help in alchemy, he had already prepared a notice to affix.

"Chen family Dan king hall, recruiting three alchemists capable of refining mortal level high-grade pills, remuneration-Metal spirit fruit....."

Above he also wrote his name and address, although he had six Metal spirit fruit, he was going to leave some for his own use, after all this Metal spirit fruit is also very useful in refining Building foundation dan.

Chen Xiang returned to store and patiently waited, he knew many alchemists will soon be attracted by the reward and come here, after-all a Metal spirit fruit is a priceless profound level high-grade spirit fruit, every alchemist desired them, soon he will be able to attract many alchemists.

Chen Xiang did not have to wait for long, someone immediately came and asked for him, to his surprise it was not an alchemist but someone he is already acquainted with, Danxiang Herbal manor lord---Hua Yueyun!

Chen Luzhong was also quite confused, he did not know anything about Chen Xiang using Metal spirit fruit for hiring alchemists, otherwise he would already been jumping around.

Hua Yueyun got down from the horse carriage, and directly rushed into the store, at this moment she did not conceal her face with a veil, seemingly elegant and noble in her snow-white dress, .

Chen Xiang immediately asked after noticing the resentment on her beautiful and elegant face:"Manor lord Hua, what happened?"

"Humph!"

With a low snort, Hua Yueyun asked with a serious face:"Did you really use Metal spirit fruit as remuneration for recruiting alchemists?"

Chen Luzhong surprised for a moment, then quickly took a glance at Chen Xiang.

"What's the problem?Is it not allowed?"

Watching Chen Xiang nodding his head and spreading his hands as he spoke, Chen Luzhong was stunned and uttered a shriek, immediately after he shouted:"YOU BRAT, YOU ACTUALLY HAVE METAL SPIRIT FRUIT, AND YOU'RE USING IT FOR REMUNERATING ALCHEMISTS, ARE YOU CRAZY?"

One can only come across Metal spirit fruit serendipitously, they are very rare, ordinarily people who have Metal spirit fruit will only use it for themselves, while just selling its peel and the seed.

Cough Cough!

Chen Xiang placed two shinning golden fruit on the table, suddenly bizarre spirit Qi drifts out form them, which even made Chen Luzhong and Hua Yueyun scared!

They didn't expect for Chen Xiang to have two of them.

"You.....you.....you"Chen Luzhong was left speechless.

Hua Yueyun took a deep breath, after all she was from a big sect, and already had seen the world, but it was still inconceivable for her to see Chen Xiang at such a young age, to actually have such a treasure.

Thousand vein fruit, Hell spirit grass, Thousand year beast dan, and now Metal spirit fruit, all of them were very precious and acquired by him.

At this moment, Chen Xiang came up with one more Metal spirit fruit, both of them shuddered once again, Chen Xiang just chuckled and said:"GrandUncle, I know you like to remain hidden, thus I give these three Metal spirit fruit to you for safekeeping, one is for your own use, while the other two for remuneration for recruiting alchemists, at the time when these alchemists come, they will all be reviewed by you."

Hua Yueyun looking at the three shining golden fruits on the table, nibbled her tender lips, an indescribable complexion visible on her face. In her opinion, Chen Xiang was a rare seedling of alchemy, and truly had a great chance in advancing to the true martial realm, but she just wasn't able to entice Chen Xiang in joining Danxiang Taoyuan.

Chen Luzhong's hands were trembling as he carefully received the Metal spirit fruits, after forcefully restraining his excited heart, said:"You brat, where did you get them?"

Chen Xiang randomly said:"Last night, while practising in mountains I came across a hidden place, the whole tree I moved it back."

"Metal spirit tree normally will bear five fruits, it seems you are now quite rich!" Hua Yueyun's pair of enchanting myriads eyes gently winked at Chen Xiang, indescribably charming.

Chen Xiang tilted his head, avoiding her charming gaze, asked:"Manor lord Hua, what did you come here for?"

"Humph!"

"I wanted to see whether you truly had Metal spirit fruit? But this approach of yours is too high-profile, it will be very troublesome, previously the Yao family didn't pay an ounce of attention to your Chen family Dan king hall, but as of now they will not allow you to open your shop smoothly as you are now using Metal spirit fruit to draw in alchemists."

"Who dares to stop us, I'll kill them!" Chen Luzhong roared out in a majestic voice, he just received a Metal spirit fruit, given some time, he will be able to refine it into a pill, and thus breaking through his current bottleneck will be easy as pie.

Chapter 38: Dan King

"Young master Chen, you must reconsider my previous invitation that is but one good opportunity, and you must carefully reconsider!" A sliver of pleading intention was present in Hua Yueyun's clear and pretty eyes.

Hua Yueyun departed, Chen Luzhong gave a bizarre look to Chen Xiang, then asked in a low voice:"Brat, that woman is also the Danxiang manor hall's manager, but in front of you she didn't have an ounce of arrogance, where did she invite you?"

[TLN:I will be using manager instead of hall lord.]

"She invited me to enter Danxiang Taoyuan, but as I am more interested in entering the Extreme martial sect, so I declined."

"What!?" Chen Luzhong stared blankly for a moment, immediately after knocked on Chen Xiang's head: "Danxiang Taoyuan is holy land for all alchemists and you brat actually declined."

Chen Xiang caressed his head, curling his mouth, said: "GrandUncle, this woman is just a maidservant, she had fooled many other people in joining Danxiang Taoyuan, and I will not do such stupid things! Enrolling into a sect is a very important matter, and I want to enrol in a sect which I admire."

Once one becomes a sect's disciple, it would be very hard to leave, unless banished by the sect itself, and once banished no other sect will take them in, so Chen Xiang wanted to carefully consider the sect he choose.

Chen Xiang had Su Meiyao to teach him alchemy, there was also the Dragon saliva exercise for maturing spirit herbs, he simply did not have any desire to enter Danxiang Taoyuan, thus he wanted to enter Extreme martial sect which has a very strong heritage.

Not long before two alchemists showed up at the door, Chen Luzhong was mainly responsible for screening, primarily alchemists first wanted to take a glance at the Metal spirit fruit, so Chen Luzhong proudly took out the Metal spirit fruit before them, watching these alchemists looking at it with envy, made Chen Luzhong very happy in his heart.

Chen Luzhong first let them refine pills on their own, afterwards he made them refine mortal level middle-grade pill, by observing the pill quality and time of the alchemy process, he identifies the level of these alchemists.

What made Chen Luzhong depressed was that, in just one day, although there were tens of people applying, but only two or three could be regarded as alchemists. Moreover many even failed to meet the standards, there were even some guys who intended to fish in troubled waters.

[TLN: Chinese Idiom(浑水摸鱼)=Fish in troubled waters, Meaning: Trying to make profit in a dangerous situation.]

Chen Xiang was not anxious, as many alchemists often secluded themselves for alchemy, and thus yet have to receive the information. So he speculated in the next few days, there will be many alchemists affiliated to several forces of King City applying.

Chen Xiang only planned on recruiting four good alchemists, two Metal spirit fruit is more than enough to make four alchemists stay here for some time, and by that time Dan King Hall will be strong and prosperous, and will not be afraid of being unable to recruit any alchemists.

Like previously, Chen Xiang returned to his original routine, going to the outskirts to practice at night and returning early for refining pills at Dan King Hall. Three days went by since posting the notice, Chen Xiang returned from the mountains outside the city, saw early in the morning, some grey-white haired old-men standing around Dan King Hall entrance.

At this time the sky had just lit up, Dan King Hall has yet to open, so these candidates for the alchemist position can only patiently wait, on ordinary days these alchemists were always aloof, they will not bat an eye even if many spirit coins were placed in front of them, but they regard these rare and precious spirit herbs as a treasure, as no amount of spirit coins can buy them.

Chen Xiang was the one who came up with the name of the store 'Dan King Hall', as long they had a sufficient amount of pills they will be able to open! Because Chen Luzhong had enough qualification to be called an old alchemists, the other alchemists were more than happy to join to Dan King Hall.

As the doors opened, tens of alchemists one after another hastily greeted Chen Luzhong, from the small amount of heat in the breath of these alchemists Chen Xiang roughly estimated their levels in alchemy, except for two, others True Qi were not pure enough and were only able to refine low-grade dan.

Many of these half-baked alchemists were only here to try their luck, as they all knew the qualification required would certainly be high, after they entered Dan King Hall, Chen Xiang also tagged along with them.

At this point, one blonde wrinkled old-man walked in, he shouted as soon as he entered: "Steward Get the fuck out!"

When the old-man yelled, pure fire Qi burst out from his body, shocking the tens of alchemists, because each one of them desired for this level of fire Qi, they were very confident that this blonde old-man was definitely an alchemist, also a very famous one at that, but alchemists rarely make an appearance, thus they were widely known only by their name.

Chen Xiang stood out and responded: "I am the steward here, what do you want with me?"

Everyone knew Dan King Hall was the Chen family property, and the person in-charge was Chen Xiang.

The blonde old-man spotted Chen Xiang, on his face suddenly revealed a look of contempt, his whole face full of arrogance, said: "I want you to immediately change the name of your store, you are not allowed to use the name Dan King Hall, because you do not deserve it."

Chen slightly squinted his eyes: "Why? I chose this name, and in any way is not hampering you, if you are here to cause trouble, then do not blame me for being impolite!"

That blonde old-man contemptuously looked at Chen Xiang and sneered: "This old-man is Dan King, so I will not allow you to use this brother's name for your store."

[TLN: Well basically he used Ge (brother), sometimes refer themselves as Ge to show their superiority.]

Dan king?

After they heard these two words, Chen Luzhong and those alchemist candidates were immediately shocked. In the whole Southern Martial Empire high and low there were tens of millions of people, only had one alchemist with a very brilliant alchemy technique, called Dan king, moreover he had dealings with the Yao family.

At this point everyone were able to determine, this proud old-man is the Southern Martial Empire's Dan king-----Meng Bo!

Chen Xiang was no stranger to this name, since childhood he had often heard this name, and now unexpectedly able to see this person, he quickly determined that the Dan King is certainly sent by the Yao family to make trouble.

Chen Xiang frowned, this was indeed somewhat troublesome, he named Dan King Hall because he wanted the store name to be somewhat domineering, he really did not expect the actual Dan King would walk in to smash the signboard.

"Humph, relying on this guy, dare to claim Dan king?I have been doing alchemy for thousands of years, and just barely able to achieve Dan Founder rank, let alone Dan King which is even superior to Dan Founder!"Su Meiyao's contemptuous voice sounded in Chen Xiang mind.

Chen Xiang was slightly surprised in his heart, at this time he came to know that originally that name was designated for an alchemist's level, his eyes lit up, ridiculing Meng Bo, said:"Humph, you dare claim to be a Dan King?Do you have the ability to go to those big Sects and show off?You think others will not scold you;this not knowing of immensity of heaven and earth old-man!"

Speaking of big sects, other alchemists were also longing to know about how formidable the alchemists inside those big sects.In front of those alchemists, Meng Bo obviously did not dare to claim to be a Dan King, he can only show off as such in this mortal world country.

Meng Bo's face turned red with anger, he had not thought;Chen Xiang the little devil would dare to humiliate him moreover in front of others.But what he said he also could not refute, he knew he cannot compare to those alchemists in big sects, and if he went there he can only be one little messenger.

Chen Xiang saw Meng Bo's old face turn red with anger, said:"Since you think your own alchemy technique is brilliant, then how about a little competition with this brat, and these alchemist can be the judge."

"Since.....this is a competition, of course we should add a prize, if I lose, I'll give you the Metal spirit fruit, and if you lose?"

Chapter 39:Respect

Chen Xiang and the Southern Martial Empire's Dan King were going to compete in alchemy, tens of alchemists were surprised so much that their jaws were touching the ground, Chen Luzhong knew Chen Xiang's talent was very high regarding alchemy, but to challenge a Dan King, he was still too tender.

However the reward offered by Chen Xiang was too enticing, in the mortal world the spirit Qi was relatively thin, resulting in spirit herbs to be very rare, so alchemists in the mortal world cannot resist the temptation of such a rare and precious spirit herb.

Meng Bo looked upward and burst into laughter:"Ha-ha-ha.....such being the case, this old-man will accompany you, if I lose, I'll give you my Profound yang alchemic furnace!"

Profound yang alchemic furnace!That is but one famous furnace, it is said to be made up of precious Profound yang stone, it was said there was a mystical force inside the furnace, which is also the reason for Meng Bo to have such great achievements in alchemy.

These alchemists'gazes were full of envy as Meng Bo took out a fiery red alchemic furnace, this alchemic furnace was small and exquisite, seemingly like a carved out red gem, there were many fine patterns on the outside, and one could tell it was by no means refined out by someone from mortal world.

"If we are competing in dan rank, then I will absolutely lose, to be fair, the most I can refine is a high-grade pill, Aura Qi Dan!"

This was the only way he had any chance of winning, at present he was only able to refine high-grade pills.

Aura Qi Dan provided a great help to 6th level of mortal martial realm practitioner, as 7th level of mortal martial realm was 'True aura realm', and at this state one is able to transform 'True Qi' into 'Aura'. After taking Aura Qi Dan, it helps 6th level of mortal martial realm martial artists in familiarizing with Aura Qi, 7th realm of mortal martial realm martial artists took in energy to strengthen their True Qi, making it much quicker and easier to transform True Qi into aura, and also strengthen it quickly.

"No problem, begin now?" Meng Bo readily agreed down, in his eyes, regardless of how high Chen Xiang's alchemic talent was, after all he is only a little devil. It was absolutely impossible for him to win, if his refined pill quality was not good as Chen Xiang, then he will also sincerely convinced about his defeat.

"Start now, each one is responsible for their own herbs, if you do not have it, then I will wait for you to get some so that you will not fall behind." Chen Xiang said, for more than one month, he had been constantly learning to refine other pills, he had also refined the Aura Qi Dan several times, apart from that after some failures in the beginning, he understood the essentials like the back of his hand, and has yet to fail again.

"Of course I have the herbs, so let's begin! There are so many alchemists to judge, I think the final result certainly would be very notary!" Meng Bo said, at present he is unexpectedly excited, he had been very jealous of Chen Xiang for owning the Metal spirit fruit, because he owed the Yao family a favour, so he agreed to come here and break the event.

To Meng Bo's surprise, Chen Xiang was one young aggressive brat, he even proposed a competition with such a large disparity in their strength, and he certainly is not going to miss this opportunity.

Chen Luzhong and the other alchemists were also very thrilled, because they can personally see how the famous Dan King refine pill, which is but one rare opportunity!

Most pill refining methods were similar, but the process of dealing herbs were nothing but different, moreover some herbs nature were very special, when dealing with these kinds of herbs, one has to be very cautious, otherwise it would be a failure, and worst case scenario the furnace would explode. Moreover herbs would be lost, for low-grade pills it was okay, but failure during high-grade pills, many alchemists were distressed about it for long-time.

At this point Chen Xiang and Meng Bo simultaneously poured flames into their respective alchemic furnace, producing fire Qi inside the furnace, while simultaneously controlling the inside temperature, only then placed the herbs inside.

Herbs required for the Aura Qi Dan, although somewhat expensive, but it was still profitable to sell in the market. The primary herbs were 'Yuan spirit mud', 'Earth aura grass-root', 'Profound spirit ginseng', 'Hellfire grass', then there were some auxiliary herbs, mainly more than fifty year old Ginseng, Spirit grass, Shouwu, Earth spirit grass and other common spirit herbs.

This Aura Qi Dan difficulty lied in processing the Yuan spirit mud and Earth aura grass-root, Yuan spirit mud was a sludge containing spirit Qi, and only found in special places, this mud was also capable of self-absorbing the spirit Qi, and afterwards refining the spirit Qi, this spirit Qi was relatively similar to near immortal type aura. It was also quite difficult to bake the Yuan spirit mud into herbal powder and herbal Qi, as the magnitude of required flames was extremely high.

Earth aura grass-root is a type of spirit herb grown inside Yuan spirit mud, and the grass-roots were present deep inside the Yuan spirit mud, after breeding, it produces 'Earth aura', as this grass-root was very easily burned to nothing, and that peculiar aura Qi was also very easy to evaporate, thus it was necessary to use divine sense to control the flames and protect them simultaneously.

Chen Xiang in the beginning failed many times because of these two difficulties, but afterwards as he grasped the subtle essentials, he was able to easily refine 'Aura Qi Dan', at this point Chen Xiang's face was quite relaxed while baking the herbs into herbal powder and herbal spirit Qi, only by thorough refining, can it actually drive out all the impurities, otherwise it would affect the pill quality, for this requirement Chen Xiang was very strict on himself, so the pills he refines all turned out to be of superior quality.

Every-time there were subtle changes in the temperature all around, Chen Luzhong and those alchemist were able to sense it, from time to time black Qi also emerged from the alchemic furnace as the herbs impurities were released, making everyone all feel speechless with admiration, and even Meng Bo was sweating, and his eyebrows were knitted together.

In contrast Chen Xiang had a somewhat relaxed look.

Obviously, Meng Bo had not refined the Aura Qi Dan for quite some time, as long as one was out of practice for some time, they would forget the feeling of subtle type of fire control, and will be difficult to grasp the degree of heat required for each spirit herb.

Suddenly, that ruby like alchemic furnace of Meng Bo's slightly shook, five or six different colour spirit Qi were rising from it! Meng Bo even made a mistake, one Dan King actually failed during the refining of mortal level middle-grade pill, all alchemists present felt very disappointed, and some even secretly despised this Dan King.

"GrandUncle, give him a set of Aura Qi Dan herbs, he will refine anew, he still has time to catch-up!" Chen Xiang opened his eyes and lightly said.

Meng Bo was suddenly stunned, suddenly a hint of shame flashed through his eyes, only to see Chen Xiang smilingly said: "During alchemy because herbs were insufficient, resulting in failure to analyze the deviations! This competition has to be fair as you lacked preparation."

Meng Bo slightly nodded his head, he knew Chen Xiang was slightly stepping down for him, after all he is a famous alchemist, this error may very well result in tarnishing his reputation and he may even not be able to show his face in public, so he was secretly grateful in his heart.

At this point he understood Chen Xiang was not supercilious like the rumours had depicted, whether it was people skills, or subtlety, he was far better than Yao Tianhua whom he guided several times.

Chen Luzhong soon brought the herbs, Meng Bo started refining again, but this time he had calmed down, and no longer underestimate Chen Xiang, he actually treated Chen Xiang as an opponent of similar skills!

A little time passed, though it had been very quiet, Chen Luzhong and the alchemists present knew that within these two alchemic furnace, very complicated process were undergoing.

Half an hour passed, finally it was time to condensate the pill, Chen Xiang was leading, only to see Chen Xiang come up with some sort of green liquid, and dripped it into one of alchemic furnace openings, this liquid was the Dragon saliva diluted with water, if added during the time of condensing pills, it helps in improving the quality of the pill, Su Meiyao was the one who told him.

Chen Xiang opened his eyes, and slightly implored some Qi, and at this time Meng Bo wiped his forehead, he was also done.

Chapter 40: Fire Dragon Blood Jade

Meng Bo originally came to find fault, but now he was ashamed in his heart, he was grateful about Chen Xiang's previous conduct, thus he decided even if he won, he would not accept the Metal spirit fruit.

In an ordinary situation, three Aura Qi Dan can be refined at once, and for formidable alchemists they can refine four pills at once, after Meng Bo opened the lid of Profound Yang alchemic furnace, one could see four transparent pills with a trace of light yellow colour gradually levitating.

"Four Aura Qi Dan, worthy of Dan King!" Nearby one Alchemist could not help but praise: "From the looks of the colour and herbal fragrance, the pill quality should be excellent!"

At this time, it was Chen Xiang's turn, and after Chen Xiang opened his alchemic furnace, he gently blew, as the mist blew away, this time everyone were shocked, astonishment clearly visible on their face.

Five exquisitely carved, flawless pills were visible inside the furnace, but also there was a trace of white glossiness, there was no visible impurities in the Aura Qi Dan, as the herbal aroma entered into their nose, no one could believe it.

Not only five pills, but also of excellent quality, this level is far more than that of Meng Bo!

Meng Bo heaved a sigh, when he saw Chen Xiang, his eyes were full of respect. Before, he thought Chen Xiang was the same as Yao Tianhua, although somewhat talented, but still proud and arrogant, but now he saw that Chen Xiang refined Aura Qi Dan quality was far more superior to his, and could not help but be sincerely convinced!

"I lost!" Meng Bo sighed and said, he was no longer a Dan King full of arrogance, and now he looked much older, after-all this was for him a big blow.

"Meng Lao, I think you usually don't refine Aura Qi Dan! You can still refine the pill with such quality in an unfamiliar situation, as a junior I'm impressed, so be it, we consider it a tie, I did not win, and you did not lose." Chen Xiang showed a gentle smile, Meng Bo in the entire Southern Martial Empire was the most powerful alchemist, it was better to be friends with him.

[TLN: Lao means old, it is used when speak to someone who are close to them and much older than them.]

Meng Bo shook his head, and then took out the red shining Profound yang alchemic furnace and handed it to Chen Xiang: "A lost is lost, this alchemic furnace is yours, for many years I have been relying on this alchemic furnace, and had neglected some basic things, it should have a better master than me."

Meng Bo's and Chen Xiang's actions, made those alchemist present filled with admiration, this made them have a new understanding of them.

Chen Xiang spread his hand: "Meng Lao, you should join our Dan King Hall, become the chief alchemist of the store? The Profound yang furnace is yours, while you still can obtain the Metal spirit fruit!"

Everyone was surprised, Chen Xiang actually wanted to reel in Meng Bo to Dan King Hall!

Chen Luzhong eyes lit up, smiled apologetically and quickly said: "This Dan King Hall needs Meng Lao to take charge, then only it can be undoubtedly Dan King Hall!"

Meng Bo pondered for a moment, said: "Good, but this alchemic furnace you must accept, you have very solid basics, with the help of this furnace, you will get twice the result with half the effort!"

Surprisingly Meng Bo complied, but the alchemist present were very unhappy with the presence of one such powerful Dan King. Now they would not be able to fish in troubled waters after entering Dan King Hall.

At this time, one old-man said: "Manger Chen, this old-man does not seek to be alchemist here, only hopes to be a janitor, you also do not need to pay."

Seeing the old-man, other followed the suit, having expressed their willingness to stay here without a pay, because they can together learn a lot of things from Dan King.

"Well.....Meng Lao you take responsibility!" Chen Xiang scratched his head and laughed.

Meng Bo frowned while looking at the dozens of old-men, then nodded his head: "You can stay behind."

Next, Chen Luzhong and Meng Bo picked two good alchemists from the tens of old-men, and gave them the Metal spirit fruit as remuneration.

After Meng Bo joined, Chen Xiang felt relieved, at least now he does not need to refine pills by himself, which was very tedious for him.

"GrandUncle, you should be the manager, you have been managing Spirit Dan Hall for many years, and is quite experienced regarding this, while Meng Lao and other seniors are simply responsible for alchemy."

Although Meng Bo is a Dan King, but perennial goes in seclusion for alchemy, so regarding management had no experience.

Meng Bo and the others also had no clue, Chen Luzhong also nodded, now inside Dan King Hall there were four relatively good alchemists and a dozen or so ordinary level alchemists, in comparison to the Yao family and Danxiang herbal manor, they had many alchemists compared to other forces.

At night, Chen Xiang and a group of white shinning haired old-men were sitting together, discussing alchemy techniques, Chen Xiang was taught by Su Meiyao, that alchemy technique was very brilliant,

combined with his own experience, gave some pointers. Making the congregation of alchemists benefit greatly, everyone admired Chen Xiang, at such a young age, he had comprehended such things which made them exclaim in surprise.

"Chen Xiang, about this morning affront please forgive me! The Yao family once gave me some herbs, therefore I owe them a favour, but from now on between me and them it's written off." Meng Bo face looked ashamed.

Chen Xiang smiles, said: "The past is the past, the Yao family's hate for me is deeply rooted, after-all I made them lose face." He got one good alchemic furnace and one excellent alchemist now, and this is all thanks to the Yao family, he was secretly grateful to the Yao family in his heart.

"Then we have to work hard, because the King City martial art tournament is about to begin, I have to prepare myself, I have to be first and get that True elemental dan."

Chen Xiang's eyes glittered with a confident aura, this time everyone once again got startled, because they admire Chen Xiang for his alchemy talent, they completely forgot about his strength, now that they thought about it, Chen Xiang was also one of the strongest martial artists among younger generation!

Chen Xiang with his strength remained unscathed against that 7th level of mortal martial realm Yao family elder, and even defeated him, this type of talent was simply monstrous!

"I will go out and practice, everybody rest early!" Chen Xiang dropped this sentence and walked away.

Inside the forest at the outskirts of King City, Chen Xiang looking at the Profound yang alchemic furnace glittering with a fiery red aura, was somewhat excited in his heart. When he touched the furnace, he knew the furnace was extraordinary.

Su Meiyao and Bai Youyou the two peerless beauty also came out of the ring, looking at the Profound yang furnace won by Chen Xiang.

"Fire dragon blood jade!" Bai Youyou could not help but retreat a few steps, on ordinary days this elegant beauty was always cold but now actually feared this Profound yang furnace.

Su Meiyao's eyes were shining while looking at the alchemic furnace, then bent down, and with her delicate hands caressed it gently, as similar to as caressing a baby.

Bai Youyou slowly came over, stubbornly staring at Profound yang furnace on the ground, her tender body wrapped in purple dress was actually slightly trembling, it looked as if she was facing an enemy.

"Yes, indeed it is the Fire dragon blood jade, I did not think that you, brat will get such an extreme treasure! If that half-baked Dan King came to know, he will probably die with grief." Su Meiyao smiled, and her face was full of joy, it was truly enchanting and moving, making people as such they could not wait to take her in her arms with love and affection.

Chen Xiang hastily put away the furnace, although he did not know what the Fire dragon blood jade, but he can see that Bai Youyou was very afraid of this alchemic furnace, with some guilt, he said: "Youyou sister, I'm sorry, I didn't know you were afraid of this thing."

Bai Youyou complexion eased a lot, whispered:"It's ok, it's not your fault!"Her voice was actually so gentle and enchanting, Chen Xiang could not help but be surprised for a moment, an unspeakable tenderness suddenly surged in his heart, and he felt an inexplicable comfort.

Bai Youyou saw Chen Xiang's complexion somewhat strange, coldly said:"I practice devil exercises and my extreme yin body conflicts with this extreme yang Fire dragon blood jade."
