

Dan God 3161

[Chapter 3161](#)

If he could infiltrate it, he would definitely learn a lot of things from it. This was what Chen Xiang planned to do.

"What kind of pill do you know how to refine?" The shopkeeper sized Chen Xiang up, and a look of contempt appeared in his eyes. He did not think that Chen Xiang knew how to refine pills, and that Chen Xiang was a human himself.

Although their Heaven Old Divine Race was powerful, they did not have a lot of people. Currently, the shop was indeed lacking manpower. If he could have a human Alchemist to join, he would be more willing.

"I only know how to refine Strong strength Dan." Chen Xiang said, he had never refined this pill before, moreover, he had only eaten one before. However, he was confident in himself, and felt that as long as there were ingredients, he would definitely be able to successfully refine one.

"Alright, follow me in." The shopkeeper felt that it was already good that they only knew how to refine Strong strength Dan, because they needed this kind of Alchemist, so he didn't expect the human Alchemist to refine other pills.

Chen Xiang followed him into a secret room.

"This is the medicinal herb, I'll be coming in two hours later!" I am very clear on whether or not it is the pill that has just been concocted. If you dare to lie to me, you will be like that fellow just now. " The manager harrumphed, then walked out of the secret room.

Chen Xiang opened a box and found Strong strength Dan's medicinal herbs.

"One fruit, then five hundred Wild source stone, is it that simple?" Chen Xiang handed the fruit to the Mei Jing Sisters and started the Triple time field on him.

Mei Jing Sisters cut off half of the fruit, then used the power of regeneration to regenerate the other half and gave it to Chen Xiang.

By the time they finished, an hour had already passed. This way, Chen Xiang would have successfully obtained a fruit like this, and would not need to purchase it.

Buying these herbs here was an extremely difficult task, because all of them were controlled by the Heaven Old Divine Race and no one dared to sell them privately.

"It won't be difficult to start now!" Chen Xiang placed the green fruit into the Tianchuang furnace, and then placed the Wild source stone in.

To him, refining Wild source stone was the easiest because he had refined it many times before.

As for the green fruit, that would be a little difficult. When he used the World Defying god fire to burn it, he felt a strange energy gushing out, blowing away his World Defying god fire.

However, this did not trouble him. He had many miraculous methods of refining pills, which easily overcome the obstacle, turning the green fruit into a ball of green mist, and then merging the mist with the refined Wild source stone.

After fusing, it would crystallize.

He only needed to turn it into a pill.

When he successfully formed the pill, two hours had just passed and he was already sweating profusely.

Even though it was the lowest price, he had spent an hour to refine it. Moreover, he had never refined it before, so it was not a small challenge to him. Fortunately, he had already succeeded.

He felt that he could refine at least three pills, but he did not want the Heaven Old Divine Race to realize that even if there would not be any problems, he also did not want to earn the Wild source stone for the Heaven Old Divine Race.

The manager had already opened the door and entered. The moment he entered, he smelled a rich fragrance and a trace of surprise flashed in his eyes.

"Looks like you've succeeded in refining it!" The shopkeeper was a little happy in his heart, because he could tell from the fragrance that the pill inside Chen Xiang's pill furnace was of extremely high quality.

Chen Xiang nodded his head and pretended to exhale, making people feel that he was very tired, as if he was doing his best.

The shopkeeper opened the lid of the pill furnace and saw the green pill inside. He nodded in satisfaction. "Okay, you can stay. What's your name?"

"Shen Fei!" Chen Xiang used a fake name, although he did not have much fame here, using a fake name was his habit.

"Your mission in the future will be to refine two hundred Strong strength Dan for the shop every month. After refining one, we will give you a reward of two hundred Wild source stone." The shopkeeper asked, "Do you have any objections?"

Chen Xiang shook his head, he had not come here for the Wild source stone, if he wanted it, he could just refine it himself.

The reward of one pellet for one Wild source stone was only two hundred, which was pitifully little. If a Strong strength Dan of his level were to be sold for at least forty thousand pellets, it showed how profitable this shop was.

"Good!" "Don't waste your medicinal ingredients. If you waste too much of your medicinal ingredients, your end will be very miserable." The shopkeeper said, "When you want to refine pills, come to the third floor to look for me or the second storekeeper for medicinal herbs. Once you've obtained them, you must start refining them."

"Understood!" Chen Xiang nodded his head: "Am I going to stay here too?"

"Yes, you cannot leave the shop once you have collected the medicinal ingredients. You must finish refining those medicinal ingredients before you can leave." The shopkeeper said, "I suggest that you take a few dozen at a time. Once you've finished refining, you can go out and rest, and then continue refining. Once you've completed the month's task ahead of time, you will have other time."

"Alright!" Chen Xiang nodded: "I want to take a hundred portions now."

Being able to refine ten batches a day was only ten days of time. The manager felt that it was rather reasonable.

After Chen Xiang received the medicinal ingredients, the shopkeeper said: "Wait a moment, I will get someone to bring you to your residence. I hope that the Strong strength Dan you refine all have such quality."

The shopkeeper handed over to Chen Xiang the two hundred Wild source stone and said, "This is the reward for refining this Strong strength Dan."

Chen Xiang did not have any interest in these two hundred Wild source stone, but he accepted them with a smile.

He was led by a young man to a house in the backyard. He had a small independent house with a secret room that could allow him to refine pills in peace.

"Begin pill forging!" Chen Xiang wanted to quickly enter the World Defying crazy realm.

This time, he was extremely serious about refining the Strong strength Dan, and he never thought that he would actually be able to refine the Strong strength Dan in an hour.

"Is it because my World Defying god fire has been strengthened in all aspects?" Chen Xiang felt that he was pretty fast.

"If I were to carefully refine them, I wonder how many would be produced in a single furnace." The pill he had refined in the shop was for the sake of concealing his identity.

Right now, he didn't have such considerations. If he gave out more medicinal herbs, he could save them all for himself.

Very quickly, two hours had passed. He earnestly went to refine the Strong strength Dan, and the time required to do so was twice as much as before. However, he actually produced four pellets!

"Hehe, this way, I only need twenty-five sets of ingredients to refine a hundred Strong strength Dan. The remaining seventy-five sets will be mine."

This was more than what he had expected. He thought that he could only produce three pills at most.

[Chapter 3162](#)

Chen Xiang had only refined a hundred Strong strength Dan s in the past three days. The next few pills he refined were all for himself to consume, and the process of refining them was very different from the previous ones.

"Strong strength Dan is considered the lowest level of the Arrogant Core. However, if I were to use the derivation method and the Crash method to refine them, I would definitely be able to refine extremely high quality ones."

Chen Xiang had previously eaten Strong strength Dan, so he now had a certain understanding of its medicinal properties.

After all, Chen Xiang had reached a certain level of cultivation in the World Defying Stage Fierce Power and his strength could be considered strong. His World Defying god fire had already reached the pinnacle, so it gave him quite a bit of convenience during the process of refining pills.

"It has been successfully derived!" Chen Xiang reached this step very quickly. The next thing he wanted to do was ram the nine Medicine crystal that he had created.

After he made sufficient preparations, he immediately began to clash with them!

Bang bang!

The furnace shook twice consecutively, then produced two muffled sounds. Chen Xiang was also sweating profusely at this moment!

"This is a Mad Arrogant Pill, after it is formed, it will then collide with others. The explosive power is very strong, it's all World Defying Stage Fierce Power, I almost can't control it." Chen Xiang took a deep breath. Luckily he was able to react in time, and threw the Six Realms mirrors into the Tianchuang furnace, if not the World Defying Stage Fierce Power inside would explode continuously. At that time, all of his Tianchuang furnace would be destroyed.

"What's the situation like?" Feng Ke'er asked.

"Not bad, I'll have to let you help me the next time I refine. It's too dangerous." Chen Xiang said.

Previously, when he was refining, he did not feel that there was anything difficult about the Strong strength Dan. He was able to refine four pills in two hours, but he did not expect that after he had made a breakthrough, it would actually become like this, almost destroying his pill furnace.

In the next round of condensing the pill, Chen Xiang ordered Feng Ke'er to take action.

Feng Ke'er's power of sealing was still very effective against this kind of arrogant core.

Not long after, Feng Ke'er successfully condensed the rich medicinal power into a pill.

"A super high quality Strong strength Dan, let me try!" After Chen Xiang took out this pellet from the Tianchuang furnace, he immediately consumed it and began to refine it.

He only needed six hours to refine the pellet, and he could easily refine it by himself. This pellet could be refined by himself, and this was the best place, because the pellet itself could be refined, allowing it to merge with the human body more quickly.

Therefore, it only took Chen Xiang four hours to refine that pellet.

"The effect is very good. It's equivalent to a hundred ordinary Strong strength Dan." Chen Xiang opened his eyes and felt the newly strengthened World Defying Stage Fierce Power.

"Looks like I'll be able to cultivate World Defying Stage Fierce Power very quickly." said. The World Defying Stage Fierce Power was still very useful to her, if she also had a very strong World Defying Stage Fierce Power, then when she released the seal and formation, it would make the array and seal even more powerful.

"Yes, I'll start refining a bit more." Chen Xiang still had a lot of medicinal herbs in his possession, if he was to continue staying here, he did not need to grow them himself.

He needed to make the shopkeeper more interested in him. When the time came, he would have the opportunity to refine an even more precious Primordial Pill.

In the next few days, Chen Xiang spent all his time refining the Super High Quality Pride Pill. He could refine four pills a day and after he refined thirty pills, he felt that it was about time.

After walking out of the pill refining room, he saw a person in the small hall of his own small house. He was dressed extremely extravagantly, and there was even a mask on his face.

"You're finally out!" The cold and proud voice of the man from Heaven Old Divine Race came over. It was a man.

"Well, what is it?" Chen Xiang asked suspiciously.

"It's nothing, let's go find the manager. He'll explain everything to you clearly." The man got up and walked out of the store.

Chen Xiang followed and saw the shopkeeper.

"I've finished refining it!" Chen Xiang handed the hundred Strong strength Dan pills over to the shopkeeper.

The shopkeeper opened it and took a look. His eyes were filled with pleasant surprise, but there was also some helplessness. He did not know the reason behind this.

Chen Xiang had a premonition that he was about to be chased away.

The shopkeeper said: "Shen Fei... The pills you refined are not bad, this is your reward, one pill for two hundred Wild source stone, here is twenty thousand. "

After Chen Xiang received it, he asked: "Are you going to let me leave?"

With that, he looked at the Heaven Old Divine Race man beside him.

"Yes, I'll take your place." The Heaven Old Divine Race man said coldly.

"That's not it, you can stay and continue refining the Strong strength Dan, I can make an exception for you and let you stay." Although the shopkeeper did not concoct pills very aggressively, after running this shop for many years, he was clear that the quality of the Strong strength Dan that Chen Xiang refined was very good.

Other than that, he could also see Chen Xiang's potential. He did not wish for Chen Xiang to leave just like that, because if Chen Xiang left this shop, there would be people taking him in no matter where he went.

"Manager, what do you mean?" The man asked in annoyance.

"You should understand what I said. I want him to stay." The shopkeeper said, his expression turning ugly.

Chen Xiang was a little confused.

"Didn't you say that the Alchemists in the shop were enough? If I join your shop, I'll let a human leave, but why hasn't he left yet?" The man was a little angry. Of course he could tell that the shopkeeper valued Chen Xiang a lot, which made him feel an indescribable jealousy in his heart.

Chen Xiang also understood that the man in front of him was Alchemist, but since the shop was full of Alchemists, if he wanted to enter, he could only kick one out. Normally, he would kick the humans out and let the Heaven Old Divine Race people in. After all, the shop was owned by the Heaven Old Divine Race, and the shopkeeper was from the Heaven Old Divine Race.

However, Chen Xiang had performed very well. Even if he was a human, he could still be valued highly by the shopkeeper!

"Yes, but the pills he concocts are quite good. I think we should keep him here." The innkeeper said, "Your current house is for you to live in. I will arrange for someone to build another one for him."

"He's just a human!" The man was somewhat angry. "Why didn't you make an exception for me before and instead built a house for a human!"

This man was from the Heaven Old Divine Race, but he felt that the shopkeeper wasn't paying attention to him at all. Instead, he was looking at a very weak looking human, which made his heart very unbalanced.

"So what?" The shopkeeper was getting impatient, after all, they were all from Heaven Old Divine Race and all of them had temper.

"If you feel bad, you can leave." The shopkeeper added, "The value of his creation is higher than yours, so he was able to receive this kind of treatment."

[Chapter 3163](#)

Chen Xiang really did not think that this shopkeeper would actually think so highly of him, which made him shocked on the inside. He could at most earn a few more Wild source stone for this shop, these Wild source stone should not be worth it for this shopkeeper to clash with his clansmen.

"You ... "Alright, just you wait. Just leave." As expected, the Heaven Old Divine Race man had left.

"Manager, I've troubled you!" Chen Xiang felt a little embarrassed and said.

"Nothing, you should go rest first." The shopkeeper waved towards Chen Xiang, and then took the pellets and left.

Chen Xiang wanted Feng Ke'er to eat ten Strong strength Dan s. He wanted to see what kind of effects Feng Ke'er, who had just started cultivating the World Defying Stage Fierce Power, would have after eating these Strong strength Dan.

Feng Ke'er's refining speed was much faster than Chen Xiang's. Being able to refine one pellet in an hour, Chen Xiang was very surprised with her speed.

"How is it big!" Feng Ke'er used his hand to measure the size of a World Defying mad source bead, it was the size of a walnut, and it was not small either.

"So fast!" Chen Xiang laughed: "Can you use the World Defying Stage Fierce Power to release the seal now?"

"Of course you can, the seal released is also powerful." Feng Ke'er laughed, "If my World Defying mad source bead was stronger, then I would be even more powerful. I hope that I could have long since stepped into the World Defying crazy realm."

With Feng Ke'er around, it would be relatively easy for Chen Xiang to refine pills. Especially when refining those types of pills that were difficult to refine, Feng Ke'er was always able to help a lot, otherwise it would be difficult for him to succeed.

Chen Xiang went to look for the shopkeeper. He wanted to collect a hundred sets of medicinal ingredients, and he would complete his mission of refining another hundred pellets this month.

When he arrived at the main hall of the shop, he saw that the shopkeeper was with a few masked men wearing luxurious robes.

"It's that guy from last time!" Chen Xiang felt a very familiar Qi, it was the Heaven Old Divine Race person from last time.

The Heaven Old Divine Race originally wanted to come to this shop to work, but because he saw that Chen Xiang was neglected, he left in anger. Now that he had even brought a few people here, he did not know what his purpose was.

After Chen Xiang arrived, the man pointed at Chen Xiang and said: "It's this human!"

When the few masked men looked over, Chen Xiang felt a lot of pressure. This extremely tall masked man was very strong, and they had intentionally released a type of aura to scare Chen Xiang.

It was a good thing that Chen Xiang was a person who had seen great storms before, and stood there calmly.

"He is Shen Fei, he just joined our shop not long ago." The shopkeeper said: "The Strong strength Dan he refined is indeed not bad, so I made an exception and asked him to stay. There's nothing wrong with that, it's just that your family's kid is too suspicious."

"Hmph, how good can a pill concocted by a human be?" The man said angrily, "I want to compete with him. If he can't beat me, then tell him to leave immediately. Then apologize to me."

Chen Xiang's eyes were filled with helplessness, he never thought that such a thing would actually happen, this man looked just like a child!

"Then let's fight. What if you lose?" The shopkeeper sneered. He didn't seem to be afraid of these masked men.

"If I lose, then I'll be convinced." The man had already taken off his mask. He was a handsome youth, but his face was filled with arrogance and he looked extremely arrogant.

"Then you can leave." The shopkeeper said: "I think I did the right thing, the one wrong is you, the arrogant guy. Let me tell you the truth, the Strong strength Dan you refined is very bad, I don't like it at all."

When the man heard the shopkeeper's words, he became extremely angry.

"Elders, you all have heard that he is humiliating me." The young man said angrily.

"If he loses, then I will kneel down and apologize to you." A masked man said. When they saw their clan's younger generation being looked down upon in such a manner, their hearts were filled with rage.

Chen Xiang was a little helpless. That young man couldn't even bear to see the manager of the Heaven Old Divine Race anymore.

"Alright!" The shopkeeper was very confident in Chen Xiang, "How do you want to compete? Shen Fei only knows how to refine Strong strength Dan, so he can only try to refine Strong strength Dan. If he wants to refine other pills, I will not agree. "

The quality of the Strong strength Dan that Chen Xiang had refined was very good. This shopkeeper still had over a hundred pellets that he had not sold yet, because he had to find a good buyer to sell all at once.

"Let's compete in refining the Strong strength Dan. If he is the first one to refine it, then we will consider it his victory, regardless of the quality!" That young man said. From his confident expression, it could be seen that he was very confident in his alchemy speed.

The shopkeeper looked at Chen Xiang, only to see Chen Xiang nodding his head, competing with him in pill refining speed, that would be courting death, his heart was blooming with laughter.

"Are you really okay? This fellow concocts pills at an astonishing speed, even though its quality is a little lacking. " The shopkeeper suddenly told Chen Xiang.

"How much does he have?" Chen Xiang asked.

"To be able to refine three batches of Strong strength Dan in two hours is something that I know of. If it was a competition, his speed would probably be even faster." The manager sent a voice transmission.

Just as they were communicating through voice transmission, the young man suddenly said, "How about this, let's compete with each other. Within two hours, whoever refines more Strong strength Dan will win!"

They suddenly changed the rules again, which made the shopkeeper a bit angry. He knew the other party's pill refining speed. This kind of rule was very beneficial for them.

"And now?" The shopkeeper sent a sound transmission to Chen Xiang.

"Don't worry, it won't be a problem." Chen Xiang replied calmly, he suddenly felt that this shopkeeper was not bad, although he was from the Heaven Old Divine Race, he had a lot of respect for him, which was why he asked for his opinion.

The shopkeeper trusted Chen Xiang a lot and said, "Then let's begin!"

In order to let more people testify, the shopkeeper called over ten Alchemists over to watch the competition. These Alchemists were all old Alchemists in the shop, and they knew about Chen Xiang's situation, because they had all seen the Strong strength Dan that Chen Xiang had refined and received their unanimous approval.

Now that they understood the reason for the Dou Dan, they all felt that this young man was extremely arrogant. However, there was nothing they could do about it. After all, this young man came from a big clan. When the disciples of the big families came out to gain experience, the ones who were unlucky were these shops.

"They are people from the Zhen Clan, the kid who fought with you over refining pills is called Zhen Minghui, their family's refining pills are not bad, and the people they sent out to gain experience are all people who want to enter some shops to concoct pills." The innkeeper said, "Bullshit. He's just here to show off. This sort of thing happens a lot. You have to discourage him this time."

Chen Xiang also laughed in his heart. Since he allowed the members of his clan to go out and gain experience, they should have suffered some setback or other in order to grow, but now the old one actually jumped out to help the young one. This little one clearly had no reason to.

[Chapter 3164](#)

In the hall, other than the Alchemist in the shop, there were a few other people there. These people were all here to buy pills, and now that they knew about this, they began to watch with interest.

Strong strength Dants were a type of pill that many people ate frequently, and they were the cheapest here, and their effects were not bad as well. As long as one ate long-term, they would be able to feel the obvious increase in World Defying mad source bead strength.

Therefore, this pill was still rather popular.

Since there were people competing here, of course, many of them were very curious about it. Although they ate quite a lot, they had rarely seen Alchemist refining anything.

"In two hours' time, the hourglass ended. There are many Alchemists present and they are all able to testify here. It can be seen whether they are cheating or not." The shopkeeper said, "So you all must be more honest with me."

Everyone could tell if it was the Strong strength Dan that was just refined, let alone the old Alchemist.

"Is it possible that whoever concocts the pill will be the victor at the end of the process?" Chen Xiang asked again, he wanted to confirm it one more time.

"That's right!" Zhen Minghui replied: "You're definitely going to lose!"

Chen Xiang did not bother with him anymore, looked at the shopkeeper and said: "Shopkeeper, do you still have a pill furnace here? Can you give me a few more? "

Zhen Minghui laughed: "Are you worried that the furnace will explode? "If the furnace explodes, then you can forget about winning against me. The most important thing in this competition is time. If you explode a furnace, then you won't have a chance to win."

"Of course not!" Chen Xiang smiled at him, the feeling he gave was one of modesty, and he himself was very good at refining pills. Even the Heaven Old Divine Race who looked down on humans did not dare look down on him, as they had a very good impression of him.

The shopkeeper took out five pill furnaces and gave it to Chen Xiang, saying, "Is that enough?"

The shopkeeper did not know what Chen Xiang was doing, but he saw that Chen Xiang was very calm and collected, with just a glance, he had that kind of experienced look, and although Zhen Minghui looked full of confidence, he had a kind of excitement.

This was Zhen Minghui's first time competing, but he was confident that he could win. At this moment, when he thought about how he would be excited when he won, it could be seen that his current state of mind was not the least bit good.

Many of the old fellows here could tell that Chen Xiang was much better than them with a single glance, especially when faced with such a challenge.

"You can begin!" Chen Xiang said after he finished setting up the pill furnace.

The shopkeeper gave him five pill furnaces, which, in addition to his own, was six!

"Alright, let's begin!" After the shopkeeper announced the start of the auction, Zhen Minghui immediately threw the herbs into the furnace. He looked to be in a hurry, and was extremely excited.

Chen Xiang, on the other hand, very slowly went to inspect the medicinal ingredients. After he was done, he waved his hand and opened the lids of the six pill furnaces, letting them float in the air. Then, he placed the six sets of the medicinal ingredients into six separate pill furnaces.

When everyone saw this, they thought that Chen Xiang did it to save time. After refining one furnace, he would immediately refine another!

"Hmph, I can tell you don't have much strength with a single glance. You can only play this kind of small trick. This will indeed save a lot of time, but you still won't be able to win against me." Zhen Minghui said sarcastically.

"That's all he can do. Right now, he can only rely on his little intelligence. It can be seen that he doesn't have any real talent." A masked man from the Zhen family also sneered.

Everyone felt that Chen Xiang was very good at this, so what if he was smart? To save time for winning, this was a very normal thing to do.

However, Chen Xiang's following actions caused everyone to be extremely shocked. Three different types of flames appeared on Chen Xiang's palms, which overflowed from his palms and entered the six pill furnaces' fire entrance.

"He can actually control six pill furnaces at the same time. He wants to refine six batches of pills in one go. If he succeeds, he will be able to refine six pills in two hours." An old Alchemist exclaimed.

"If that's the case, it might be able to make up for it, but... However, to control six pill furnaces within one hour is obviously a little strenuous. If I were to control five pill furnaces, it would take me at least two hours to complete the task. "

"That's right, isn't he being a bit too arrogant?"

Everyone listened to the old Alchemist's soft discussion. They came to the conclusion that it was possible to refine six batches of pills at the same time, but completing it within two hours was too difficult!

Chen Xiang was truly powerful not only in this, he could simultaneously control six batches of pills and make even more of them appear. However, he did not want to reveal the number of pills he had obtained, as he would not be able to take advantage of this.

Therefore, he came up with this method. If he were to use six pill furnaces to refine one pill, he would only be able to refine one pill per furnace.

"He's desperate." Seeing Chen Xiang controlling six pill furnaces, Zhen Minghui laughed: "It's only at that level, I thought it was very powerful!"

"It seems that Ming Hui is definitely going to win, there is no doubt about the strength of our Zhen Clan's genius Alchemist."

"That's right, the shopkeeper actually looked down on our Zhen Clan's youngest genius Alchemist."

"This time, we'll make them convinced of our defeat."

Everyone was secretly looking down on him. Before the results were out, those Zhen Clan people already thought that they had won. They boasted so arrogantly that it made people feel uncomfortable.

Therefore, no matter what the other party said, his heart would not waver. Furthermore, he had also seen Chen Xiang's calm expression, which showed that even though he had been mocked and ridiculed many times by the other party, it did not affect him in the slightest. He did not speak a word or counterattack.

An hour had passed, and at this time, Zhen Minghui had already successfully refined three batches of sand. At his current speed, he could refine six or even seven batches in two hours.

"Ming Hui, it shouldn't be difficult to refine seven batches in two hours, right?"

"It's not difficult!" Zhen Minghui laughed proudly: "It's a piece of cake!"

Chen Xiang had seen the pills he had refined before, they were of extremely poor quality, and not even a single pill was round. These pills could not be eaten, and would only be sold at a very low price, causing all the Alchemist to look at them with contempt.

An hour had passed and Chen Xiang suddenly opened his eyes. The six flames on his palm had also disappeared.

"Haha, you must have failed!" Zhen Minghui laughed.

"No, I have already forged a cauldron!" After Chen Xiang finished speaking, under everyone's bewildered gaze, he took out six Strong strength Dan from the six pill furnaces.

When the six Strong strength Dan s were placed in a jade box by him, everyone was so shocked that they couldn't speak, especially the shopkeeper. Because the quality of Chen Xiang's six pellets was very good, although he was refining six pellets at the same time, the quality did not decrease.

[Chapter 3165](#)

Zhen Minghui, who was just laughing at him, couldn't laugh anymore. The six Strong strength Dan s that Chen Xiang had just refined were right in front of him, so how could he not see the quality of these six pellets?

The Strong strength Dan that Chen Xiang had refined was much better than those that were sold on the market. Even those who were not familiar with the medicine would be able to tell that.

Zhen Minghui suddenly felt a lot of pressure, there was still an hour left, and if Chen Xiang could concoct another six, it would be twelve of these pills, which he would not be able to compare to.

In order to pursue a faster speed, Zhen Minghui had sacrificed his quality, and the Strong strength Dan he refined had no quality at all. Compared to the ones refined by Chen Xiang, he was the most clear of himself. At this time, he had already clearly understood the difference between Chen Xiang and himself, but he was unwilling to admit defeat.

Right now, they were only competing in the amount of pills produced, not in their quality.

Within the set time, the most they would be able to concoct would be a winner. Zhen Minghui and the others were secretly glad that the rules they had set were suitable for them, if not they might lose.

"The pill this kid refined is really good. Even from a distance, we can see that!" The things that Zhen Minghui refined were just trash, they could not even compare to his, and even if he could win, the disparity would be obvious. "

"Yes!" Unfortunately, his pills are of such high quality, and one pill is enough to take ten of Zhen Minghui's pills, but Zhen Minghui still won against him. "

"This kind of Strong strength Dan, even selling it for forty thousand Wild source stone wouldn't be a problem."

The surrounding people were all discussing in low voices. They all felt that this was very unfair to Chen Xiang, because the pills Chen Xiang had refined were very good, but he was about to lose to Zhen Minghui.

Indeed, Chen Xiang had just used an hour and a little bit of time to refine those six batches of pills. Everyone felt that they could not win anymore, because if Chen Xiang wanted to refine more, he would need at least an hour, but there wasn't enough time right now.

Just when everyone felt that it was a pity, they saw Chen Xiang throwing three medicinal ingredients into the pill furnaces.

When everyone saw this, they were enlightened!

Chen Xiang was refining six batches at the same time, so it would take slightly more than an hour. But he was only refining three batches at the same time, so there should not be a problem for an hour.

No one had thought about this just now, and could not help but admire Chen Xiang's calculations. This way, they would have a guaranteed victory.

Zhen Minghui secretly clenched his teeth, the pressure was even greater now, because he might very well lose this competition. If he lost, he would have to kneel down and admit his wrongs, it would be a very shameful thing, and they were previously so full of confidence, if he lost in the end, wouldn't that make them look bad?

Just when Zhen Minghui was feeling nervous, an old man patted his shoulder, as though he was secretly sending a sound transmission to Zhen Minghui. When Chen Xiang saw it, he cursed in his heart.

"These guys are probably going to cheat us." Chen Xiang understood this kind of person very well.

Before, Zhen Minghui was extremely anxious, but now, he had calmed himself down. Everyone was secretly suspecting that the Zhen Clan might have done something bad, as everyone could see what they were thinking at this point of time.

However, if the Zhen family was up to no good, then everyone present would definitely be able to find out that they had done something.

"Manager!" Chen Xiang sent a sound transmission to the shopkeeper, "What if they are cheating?"

"Don't worry. Right now, no one can hide from our eyes. If they are truly able to do so without us discovering them, then that is their ability." The manager said.

This allowed Chen Xiang to heave a sigh of relief. There were quite a few old Alchemists in the shop, and all of them had their eyes wide open watching the shop.

However, Chen Xiang was still a little worried, so he had to be cautious, otherwise, he would lose to the Zhen Clan in the end.

"What will they do?" Chen Xiang was thinking about this matter, and then, he began to think about how he should leave a trump card in his hands, in order to guarantee that he would be able to successfully defeat Zhen Minghui in the end.

Even if Zhen Minghui were to use tricks, he would still win!

After thinking about it, Chen Xiang decided to do it this way.

"If you win, what benefits will you gain?" Feng Ke'er asked.

If it was only Zhen Minghui kneeling, then this wouldn't bring much benefit to Chen Xiang, but in order for Chen Xiang to obtain victory, he had to expose his true strength.

"If I win, then this manager will think highly of me. At that time, even if I'm a human, I'll still have a good relationship with him." Chen Xiang said: "You should be clear that the pill administration here is very

strict, but if I build a good relationship with the shopkeeper, it will make it much easier for me, and this will allow me to obtain even more high level arrogant medicine."

Strong strength Dan were only the initial stage of the Primordial Desolate Pill, there were even middle stage higher ranked pills, the quality of those pills were even better.

"That's true!" Feng Ke'er nodded.

At this time, Chen Xiang planned to display his true strength within the three stoves he had concocted. A total of four pills out of one, which would make twelve pills.

However, if Ye Xiao secretly cheated, it wouldn't increase the amount of money he could get.

Soon, an hour had passed. Zhen Minghui had already finished his work, and this was his last batch. Previously, he had refined a total of six pills, but if this batch was added, he would only have seven.

"Alright, it really wasn't easy. In order to win, I had no choice but to use my true strength." Zhen Minghui laughed, then opened the pill furnace and took out six Strong strength Dan s.

To be able to produce six pills in one furnace, everyone was stunned!

"This... This is impossible, how can someone refine six Strong strength Dan s in one go? "

"That's right. Although the quality is very low, it's impossible!"

After everyone saw this, they shouted in shock, accusing Zhen Minghui of cheating.

"Why is it impossible? If there are seven or eight Alchemist s in our Zhen Clan, then what is six? It is not strange that Ming Hui was able to obtain the true inheritances of the ancestors. " An elder of the Zhen family said.

Right now, they couldn't say anything more, because whether or not it was true or false would only be known by the Alchemist s at the side of the store.

The shopkeeper and the store's Alchemist all walked over to take a look. After carefully inspecting the Strong strength Dan, they all frowned, because these Strong strength Dan seemed to have just been made.

"Shopkeeper, you should know that the Alchemist in our Zhen Clan is able to do this." An elder of the Zhen Family asked.

"Of course I know. Furthermore, the quality is not bad. Eight pills will be produced in one pot." The manager nodded.

"Then you guys tell me, are there any problems with the Strong strength Dan that Ming Hui refined?" The Zhen Family elders looked at the Alchemist s.

They shook their heads. Although they were shaking their heads, they were very dissatisfied in their hearts.

[Chapter 3166](#)

Right now, Zhen Minghui only had six pills, adding the six that he had refined previously, it was already twelve pills! And right now, Chen Xiang was only refining three batches of pellets, adding the fact that the last six he had refined were also only nine.

Even if the quality was good, the numbers were still lacking. In the end, they were still going to lose. The rules had already been agreed upon before, so it was hard to blame them.

The shopkeeper shook his head and sighed. They did not expect the Zhen Family to have this kind of trick, and now they were unable to find any evidence that the Zhen Family cheated. If they doubted it, the Zhen Family could find other Alchemists to appraise it, and the final result would be the same.

"It's almost two hours, you are bound to lose." On the surface, he was ridiculing Chen Xiang, but in his heart, he was extremely jealous, because the quality of the Strong strength Dan Chen Xiang refined was very good.

Also, he had won disgraced, because the quality of the Strong strength Dan that he produced was extremely poor. Although there were 12 of them, they were not even comparable to the two that Chen Xiang had refined.

In many people's eyes, even if Chen Xiang lost, but in essence, he won against Zhen Minghui, Zhen Minghui's level was too lacking, in order to ignore quality, he had no use.

Moreover, for Chen Xiang to be able to balance quality and speed, it was very impressive.

When the Zhen family saw the shopkeeper's unsightly expression, they were very happy in their hearts. These large families loved to use any means they could to humiliate others with.

The sand in the hourglass had already been leaked out, and everyone just now realized that Chen Xiang was extremely calm. Even though he knew that could refine six Strong strength Dan in one go, it was useless to be affected by it, and he continued to refine pills quietly.

"It's over. You lost." Zhen Minghui laughed: "Hurry up and admit your mistake!"

Chen Xiang stood up, and laughed: "The one admitting your wrongs is you, moreover, you have to kneel down and admit your wrongs!"

With that, he waved his hand and opened the lids of the three pill furnaces. A strong medicinal fragrance wafted out, shocking everyone. Although they did not know how many pills were inside, judging by the medicinal fragrance, it was definitely not little.

The shopkeeper, the Alchemists and the Zhen family's elders all rushed forward to take a look, their faces were filled with surprise. Each pill furnace had three Strong strength Dan in it!

There were a total of nine pellets, and they were all of good quality. Adding the six pellets from before, there were fifteen in total, which was more than Zhen Minghui's twelve pellets.

The outcome had already been decided. Although it was too unbelievable, the result was still acceptable to many people!

"A pot of three pills? That's impossible!" Zhen Minghui shouted, "You must have cheated!"

"If you can get six pills in a pot, it's normal for others to get three pills in a pot." The manager said with a smile, "You've already lost. Hurry up and admit your mistake!"

The shopkeeper was still very surprised, he was already prepared to lose, and had even thought of saying something when he was ready to admit his wrongs. However, he didn't expect Chen Xiang to actually have such a reversal, which made him very happy.

He also didn't know how Chen Xiang managed to do it, and he didn't plan to ask her about it right now.

"I had no choice. In order to win, I used my true strength." Chen Xiang looked very tired at the moment. He had shown this on purpose, and his true level was four pills per furnace. He had refined three pills per furnace just so that no one would think it was exaggerated.

Zhen Minghui glared at Chen Xiang. He really did not think that Chen Xiang would hold back such a move, his knees were already slightly bent, and in the end, he kneeled on the ground.

"I'm sorry." After saying that, Zhen Minghui stood up quickly and left the shop in a fit of anger. The other elders also left in a fit of rage.

"I'll go rest first." After Chen Xiang finished, he quickly left the hall of the shop and returned to his small house in the backyard.

... ..

The shopkeeper watched Chen Xiang leave, then hurried to the highest level of the shop and arrived inside a luxurious hall.

"How is the competition?" An old man asked.

"He won. That kid from the Zhen Clan has already kneeled down. This time, the Zhen Clan has lost a lot of face." The shopkeeper laughed: "This Shen Fei brat is truly powerful. Although he looks gentle and refined, his ways of doing things are very shrewd and experienced."

"Tell me the process." An old man with a head full of white hair walked out. He was wearing a set of blood-red clothes, and on the clothes were patterns drawn with golden lines. This pattern was the picture of a dragon.

When the shopkeeper saw the old man walk out, he immediately lowered his head, not daring to look at him directly. Then, he told the old man about Chen Xiang's refining process.

Looking at the Strong strength Dan that Chen Xiang had refined, he said: "The quality of these pills are very good, moreover, he had only used two hours to refine so many pills. It can be seen that this person's potential is extremely great, if he were to refine other pills, then the amount he would produce would be even more."

"Yes, he's not like that brat Zhen Minghui. The Strong strength Dan that Zhen Minghui refined are all trash." The shopkeeper said: "Boss, Zhen Minghui was able to concoct six pills in the end, what was going on? We don't see how he cheated at all. "

The old man laughed coldly: "The Zhen Clan's people used a secret technique to directly control Zhen Minghui's pill refinement, and they can even channel a certain amount of World Defying Stage Fierce

Power into Zhen Minghui's body, which is equivalent to the upper half of his body. In that case, those old fellows must be trying to concoct the pill, because this secret technique is extremely profound, and there's no need to touch the other party's body when using it, so you all wouldn't be able to see it."

"Hmph, they actually dare to use such despicable methods here. I will deal with them sooner or later."

The shopkeeper was extremely angry and said, "The Zhen Family is becoming more and more arrogant."

The red-clothed old man said, "Isn't it because a woman from the Zhen Family can become a woman by the side of the Ancient Emperor? Now, many people no longer care about the Heavenly Ancient Emperor. If he were to be killed one day, the Zhen Clan would be the first to suffer. "

"Oh right, during this period of time, you will not allow Shen Fei to do anything else. Let him rest well, then ask him if he refined any other pills, at that time I will bring him to participate in the Heavenly Pill Assembly. If he can display such abilities, he should be able to obtain a good ranking during the competition."

"But boss ..." He's a human! " The shopkeeper said softly: "Isn't it possible for the people of Heaven Old Divine Race to participate in the Heavenly Pill Assembly?"

"My master is a human! There are a lot of humans, and some are very weak, but some are very powerful, especially in the human world. They were born very weak, but in order to become strong, to live forever, and to fight against fate, they have experienced all kinds of difficulties that we cannot even imagine. "

"So, I have never dared to look down on humans, and only those idiots look down on humans! If you knew that our Heaven Old Divine Race was almost annihilated by humans, you definitely wouldn't believe it. "

The red-clothed old man's words caused the shopkeeper to tremble. All this time, he had always thought that humans were ants, and even though there were many of them, they were unable to shake their Heaven Old Divine Race.

[Chapter 3167](#)

After Chen Xiang finished resting, he went to the great hall of the shop to find something to do.

When the shopkeeper saw him, he immediately said: "Shen Fei, you don't have to take missions anymore, rest well!"

"Ah?" Why not? I have already rested well! " Chen Xiang also planned to use this mission to obtain more medicinal herbs.

"This is what the boss instructed me to do..." "Oh right, are you able to refine other Mad Arrogant Pills?" The manager asked.

"No way!" Chen Xiang shook his head: "In the Primordial Violent Pellet, I only know how to refine Strong strength Dan."

"So it's like that! Take this back and take a look. " The shopkeeper gave Chen Xiang a booklet, which wasn't very thick. Chen Xiang took it and looked through it, and on it there were some arrogant pills.

"Very useful to me, thank you." Chen Xiang laughed: "Who is the owner of this shop? Why didn't he show up last time? "

Chen Xiang's pill refining skills were also very strong, much better than the Alchemists here. Of course, this was only in terms of refining Strong strength Dan.

"Anyway, as long as he is here, the Zhen Clan would not dare to come knocking." He carefully looked at Chen Xiang, but did not realize that Chen Xiang was especially powerful. Not long ago, his boss had told him that powerful humans were extremely terrifying, and they could even kill Heaven Old Divine Race s easily.

But he had never seen many strong humans, although Chen Xiang was good at concocting pills, he did not seem to be strong.

"So mysterious!" Chen Xiang laughed: "Then I'll go back and read this book first."

Returning to the small hut, Chen Xiang looked carefully at the contents of the booklet. There were a few dozen pages filled with arrogant pills.

"Beginner's, intermediate and high rank pills are available, there aren't many of them, but the effects of these Proud Ape pills are pretty good, it's more than enough." Chen Xiang said: "There is no description of any medicinal ingredients used to refine it, the pill formula should be in the hands of that boss."

Chen Xiang noted down the contents above and then went to find the shopkeeper.

"Finished all of them?" The shopkeeper said, "Keep it for yourself. It's not something important."

Chen Xiang had thought that he would have to return the booklet.

"I've seen all of them. They are all very useful Arrogant Core. They must be very precious." Chen Xiang said.

"Yes, it is very precious! But the boss knew how to refine, and he also had medicinal ingredients! In this city, the boss is the most powerful Alchemist. " The shopkeeper suddenly said in a low voice, "Follow me!"

After that, he brought Chen Xiang to the highest level of the shop and entered the luxurious little hall.

After entering, Chen Xiang saw a very energetic old man dressed in red sitting on the chair in front.

The old man's face was filled with dignity, he gave off an invisible pressure, the pair of eyes that were deep like the sea of stars made Chen Xiang unable to look any further, he was indeed an extraordinary person, although Chen Xiang did not know him well.

"Shen Fei?" the old man asked.

"Yes!" Chen Xiang nodded.

"I'm afraid it's a fake name!" The old man was watching Chen Xiang earlier. Although Chen Xiang's expression was extremely natural, he could feel that there was an extremely weak fluctuation inside Chen Xiang's body when he answered.

From this weak fluctuation, Chen Xiang seemed to have lied when he answered.

"Chen Xiang is my real name!" Chen Xiang was a little helpless. He knew that it would be hard for him to hide in front of this kind of people, it was already not bad that no one had discovered the bigger secret on him.

"Manager, you can leave!" The red-clothed old man waved his hand and the shopkeeper immediately left the small hall.

The red-clothed old man said to Chen Xiang: "Sit, it's a bit natural, I won't eat you!"

After Chen Xiang sat down, he asked: "Boss, do you know how to refine all the pills in the booklet?"

"Yes, do you want to learn?" The serious face of the red-clothed man revealed a trace of a smile, which surprised Chen Xiang.

He was sure that this strong old man was from Heaven Old Divine Race, but he did not have that bad temper of his. From his point of view, most of the people from Heaven Old Divine Race were like the Zhen family.

"Yes!" Chen Xiang nodded.

"Did you just arrive at the Heaven Old Super Realm?" The red-clothed old man asked.

"Yes, Boss, how did you figure it out?" Chen Xiang did not expect to be seen through so quickly, and did not try to hide it.

"Your aura ... I can discern the unique aura of the Heaven Old Super Realm. Although you have some of the aura of the Heaven Old Super Realm s on you, it's too sparse. Usually, only people who have just arrived in the Heaven Old Super Realm would be so sparse. " The red-clothed old man said: "You shouldn't be from the Myriad Tao s, right? You should be from the Myriad Tao s!"

In front of this kind of old fellow, he was seen through in an instant. Chen Xiang could only nod his head.

"What is your purpose in coming here? It's not easy to get here from that place. " The red-clothed old man said with a frown: "Generally speaking, only those who enter the Myriad Tao can go down from above the Myriad Tao, and directly come to this place from there ... With your current strength, it will be difficult for you to do so. "

"I used an array disc to come here." Chen Xiang took out the array disc. The Six Realms mirrors had already copied the array disc, so even if it was taken away by the old man, he did not need to worry.

"It's something the Heaven Old Imperial Family made!" The red-clothed old man frowned, "I heard that they have a plan to go to the Myriad Tao. I didn't expect that it would already be carried out.

Chen Xiang's heart skipped a beat. In such a short period of time, this old man was able to see through many things, which made him admire him. No wonder the shopkeeper was so respectful to him.

"Can you tell me about them? You don't have to worry, I'm different from them, I treat humans the same. " The red-clothed old man returned the array disc to Chen Xiang.

"We have to start from the Tiangu beast s ..." Chen Xiang also felt that the red-clothed elder in front of him was different from the others. He told him about what happened in the Myriad Tao and concealed what had happened between Zheng profound and Song Yichen.

As the red-clothed old man heard this, he shook his head and smiled, "They've underestimated humans. It's normal for them to suffer such a great loss!"

"I had no choice but to do so. It was them that bullied me too much." Chen Xiang said.

"It's fine, now that they've all died, it's equivalent to them failing. They won't be able to send another group of people out for a short period of time." The red-clothed old man said, "Heaven Old Imperial Family doesn't have much time to do these things right now."

"Boss, how much do you know about Tiangu beast?" Chen Xiang asked.

"They are all sealed in the same place now, but they will come out sooner or later. Tiangu beast was a very powerful race back then, even if they were turned into Tiangu beast, their powers are still there." The red-clothed old man sighed, "If we can't kill them, when they run out, it will be a disaster for the people of Heaven Old Divine Race."

[Chapter 3168](#)

They had already left the city and were unable to use Communication jade Symbol paper s to relay messages to them. They could only do so within a certain range.

Right now, he also wanted to know the situation of the Tiangu beast. The Tiangu beast were sealed in one area, so Song Yichen and Zheng profound should have already gone to that area to find a way to break the seal.

Chen Xiang had promised them before that he would help them break the seal. Once the seal was broken, they would be able to lead the Tiangu beast army to fight the Heaven Old Divine Race.

"Boss, are you afraid of Tiangu beast?" Chen Xiang asked. Although the boss in front of him was from Heaven Old Divine Race, but he was not bad, and there were not many such people in Heaven Old Divine Race.

Many Heaven Old Divine Race people were still quite hostile towards humans.

"There's nothing to be afraid of." The red-clothed old man shook his head.

"Boss, you should be good at concocting pills, right?" Chen Xiang asked again, he had heard the shopkeeper say this before.

I'm having a problem right now, and I can't solve it. "

"What problem?" Chen Xiang was extremely curious, he anxiously asked, the red robed old man was powerful, the pill refining level must be high, Chen Xiang had seen the small manual before, the pill inside could even be refined by the red robed old man.

The red-clothed old man hesitated for a moment and said, "Do you think that this sort of pill has a limited quality?"

Chen Xiang frequently thought about this issue, because in the many pill refining competitions he had competitions, there were many rules that required quality. In order to win, every time he tried to refine a pill, he would always be able to concoct a pill of a very high quality, and would always surpass his limits.

"No!" Chen Xiang thought about it, then shook his head.

He had the derivation method and the Crash method, he felt that as long as he had enough control, he would be able to continuously create and clash with them. It would continue to circulate, and this way, the quality would continue to grow without limit.

Of course, this was only Chen Xiang's guess, because he had never tried it before, and it was mainly because he wasn't strong enough.

If there were conditions, he would try to solve the doubts in his heart and see what would happen if the quality was higher.

"Boss, why did you ask that?" Chen Xiang saw that the red-robed old man was deep in thought.

The red-clothed old man sighed, and said: "My name is Yue Yiran, I have been to Myriad Tao before, and at that time, I also had some private businesses up there, and the guys up there are all very powerful, especially those Alchemists."

"Oh?" Chen Xiang had also heard of it.

Back then, the Myriad Tao Dan God was able to go up, and it was through alchemy to break through.

"I've seen the highest quality pills." Yue Yiran continued: "It's precisely because I've seen pills of this quality before, that's why I don't dare to stay on top. I'm worried that one day I will die."

"What do you mean?" Chen Xiang was a little doubtful, but he was also very shocked in his heart. There really was a high quality pellet, what kind of pellet would that be?

"Even though I look strong now, I can't beat a single pill up there." Yue Yiran laughed at himself.

Since he could not beat a single pill, this made Chen Xiang even more confused!

"Amongst the arrogant pills, just say the initial stage, arrogant pills, do you think you can refine a Strong strength Dan of the highest quality?" Yue Yiran asked.

"No way!" Chen Xiang immediately answered: "I can't do it with my current strength, but once I'm strong enough, I think it should be possible."

"En, as long as it's a Alchemist, it's possible to refine the highest quality Mad Arrogant Pill!" Yue Yiran said: "If you really can refine the highest quality Strong strength Dan, then at that time, what you will see will not be a pellet, but a person!"

"The highest quality Primordial Pill, no matter what rank it is, can turn into a person."

These words shocked Chen Xiang!

He knew that the pill had a spiritual nature, and he could sense it very early on. However, this was the first time he had heard of a pill that could turn into a human!

"This person has his own independent thoughts, but he will be very loyal to you. To put it harshly, he will be your slave, and no matter what, he will be completely loyal to you! "In addition, you have extremely high intelligence and can become your right-hand man."

When Yue Yiran said these words, he was filled with longing. It could be seen that he really wanted to do it!

"If you treat him badly, he will commit suicide. However, he will absolutely not betray you." Yue Yiran said: "I met such a pill spirit back then, and it was very powerful, its power was stronger than mine by a lot, but what shamed me the most is that in terms of pill refining, I actually lost to a pill spirit. You have to know that he was only a pellet, but he was able to defeat me."

Chen Xiang was completely shocked. The pill could turn into a human, and it could also turn into a pill.

"Is this true?" Chen Xiang's face was full of shock, he did not dare believe it.

"It's true. I've never told this to anyone else." Yue Yiran said: "Ever since I came down from above, I have been bitterly searching for a way to refine a pill into a pill spirit, but I could not succeed no matter what."

"Only the 'Arrogant World Pill' can do it. The other grades of the pill are not, because once the other grades reach a certain level of quality, it will be the 'Arrogant World Pill'!"

Chen Xiang nodded his head: "If the low levelled pills were to continuously increase in quality, then it would indeed raise one's grade. If it is to be raised to the level of the Primordial Desolate Pill, who knows how long it would take, I might as well just start with the Pride Pill."

"Yes, under the level of the Arrogant Core, no matter what rank it is, it will eventually become an initial level Arrogant Core." Yue Yiran nodded his head: "Seems like you are also knowledgeable in this area!"

"Can the initial level 'Arrogant Core' become an intermediate level 'Arrogant Core'?" Chen Xiang asked. From Yue Yiran's tone earlier, it seemed that it was not possible.

"No!" "The highest quality of the Initial Stage of the Arrogant Core would be able to transform into a human, while the Intermediate Stage of the Arrogant Core would become even stronger, the Arrogant Core would be different from the others." Yue Yiran said.

Chen Xiang was considering whether he should try to use this method, but he felt that his strength was far from enough, at the very least, he should be able to train to World Defying crazy realm.

"Is elixir spirits really that powerful?" Chen Xiang still could not believe it, because he had never seen it with his own eyes.

"Mm, you won't believe it even more if I tell you the most powerful part." Yue Yiran said, "The most amazing thing about a pill's spirit is that it can quickly produce pills ... If the Strong strength Dan can become a human, it only needs to absorb the energy between heaven and earth and it can quickly condense pellets. It will not be a problem to refine a few hundred pellets per day, but after that, your Strong strength Dan will be able to form an endless stream and will be able to eat until you puke. "

The corner of Chen Xiang's mouth twitched. If it's really possible, then wouldn't it be defying the heavens' will? Strong strength Dan s could create many strong warriors!

[Chapter 3169](#)

Chen Xiang suddenly understood why Yue Yiran had returned to the Heaven Old Super Realm. It was because there were many such abnormal things in there.

"As a Alchemist, if I can't refine a pill spirit, I won't even be able to raise my head." Yue Yiran said: "If you meet some of the more vicious Alchemist, they will capture you and feed you to their core spirits. This way, their core spirits will become even stronger, and if they can successfully swallow your soul, then their core spirits will be able to obtain your memories and can refine even more pills."

Yue Yiran's words moved even Chen Xiang's heart, even though he did not have enough power to refine it, he wanted to try and see if he could continue refining the Strong strength Dan.

"Boss, then what are the problems you have? Are you about to succeed? " Chen Xiang thought about it and asked.

"Yes, I'm about to succeed. The problem I'm facing right now is that I can't condense the pill at the last moment!" Yue Yiran sighed and continued, "When you refine pills, you should know that condensing a pill is very crucial. Furthermore, the higher the quality of the pill, the harder it is to condense it during the refining process, because it requires a very strong compression of energy."

Chen Xiang nodded, "Yes!"

"This is exactly the difficulty." Yue Yiran said: "It's not that my strength is insufficient, but that I have not found a solution! When I was above Myriad Tao, the Alchemist that I met earlier were weaker than me, so they wouldn't be able to beat me in a fight. But they were able to refine a pill spirit.

There was actually such a thing, a pill spirit could be even stronger than its master.

"Do you want to try the sealing method?" Chen Xiang said: "At the very last moment, he used a very strong sealing power to seal that power, preventing it from exploding out, the only problem is that the power of the seal is very, very strong."

"This is a good idea. Have you used it? Did it work? " Yue Yiran asked, he had not expected this before.

Chen Xiang used it frequently. Before he met Feng Ke'er, he used Six Realms mirrors as support, and it was very successful.

"If I succeed, I will often concoct a pill that surpasses what I am capable of." Chen Xiang said: "And I am using an array disc. I will place the array disc at the bottom of the pill furnace, when necessary, I will control the array disc to open up and release the seal's power."

After Yue Yiran heard this, he frowned and started to ponder.

"This is a good idea!" Yue Yiran thought as he nodded.

If you are close to success, then the 'medicine' crystal you need to condense will definitely be very terrifying. The array disc you need will also not be an ordinary array disc. Chen Xiang said: "According to my experience, the sealing power that can be released by controlling the array discs is also very crucial."

"Alright, I can give it a try!" Yue Yiran said: "Right now, I'm finally seeing the light. Before, I didn't even know what to do, I've already failed many times."

Yue Yiran was actually close to success, which made Chen Xiang feel that he was very powerful. If he really succeeded, Yue Yiran might be able to share some of his experience with him, which was also very important to him.

"Boss, are you going to start trying now?" Chen Xiang asked: "What pill did you refine?"

"It's an Intermediate Level Primordial Pill!" Yue Yiran laughed. He and Chen Xiang had chatted for so long, the two of them had already become very familiar with each other.

"If it really succeeds, can I take a look when the time comes?" Chen Xiang said.

"Of course not." Yue Yiran said: "I will bring you to participate in the Heavenly Pill Assembly later on, and I will get a friend of mine to help me create an array disc, this type of array disc must be good, and the ingredients must use the Myriad Tao Divine Soil."

The array discs used by the Myriad Tao Divine Soil were not bad!

"Heavenly Pill Assembly?" Chen Xiang didn't really understand this.

"It's a Alchemist Great Assembly. You should know the meaning of this Great Assembly." Yue Yiran said.

"Yeah, there's usually some competition or something." Chen Xiang had participated in it many times.

"At that time, you can represent our store and not allow you to get first place. As long as you can get first place, then that's fine, because there will be a lot of geniuses participating. If you want to fight for first place, then there will be a lot of pressure." Yue Yiran patted Chen Xiang's shoulder, and then handed over two jade boxes to him. "These are two commonly used types of arrogant pills, both of them are medicinal ingredients, take them back and try to see if they can be refined yourself. If you encounter any difficulties, then come and find me."

"One of them is Beginner's and the other one is Intermediate."

Chen Xiang immediately thanked her after she received it.

After Chen Xiang obtained these ingredients, he returned to his hut in great excitement. He never thought that the owner of the shop would actually be such a good person.

"Chen Xiang, if you can refine a pill spirit, wouldn't that mean that you're the same as me?" Feng Ke'er laughed.

Feng Ke'er was a spirit that was sealed and nurtured, so when Chen Xiang refined a pill spirit, it was the same as hers.

"Let's wait until I refine it first." Chen Xiang said.

"I have a suggestion that might be able to be refined by you right now." Feng Ke'er said.

Feng Ke'er had always been helping Chen Xiang with the concocting of pills during this long period of time. But as an extremely competent child in the field of alchemy, he had given Chen Xiang a great help and lightened many of Chen Xiang's burdens.

"Tell me about it." Chen Xiang said.

"You can start refining the Strong strength Dan now and just keep using the derivation method. Don't use the Crash method." Feng Ke'er said: "The Crash method is not easy to control, you should be clear about this."

"That's a good idea." Chen Xiang was currently thinking, he really wanted to refine a pill spirit quickly, this could increase his strength.

"After you give birth to the 'medicine' crystal, I'll help you fuse it. My sealing power is very strong." Feng Ke'er laughed: "I have cultivated a World Defying mad source bead now, I can use the World Defying Stage Fierce Power."

"Yes, I can try." Chen Xiang looked at the two jade boxes, he needed to concoct the same pill now, but after thinking about it, he decided to try the method Feng Ke'er suggested.

The sealing power of Feng Ke'er was very strong, so he was quite confident in her.

"If I can't do it by then, you just have to find a way to provide me with World Defying Stage Fierce Power. When I release the sealing power, it will consume a lot of energy. Feng Ke'er said again. Seeing that Chen Xiang was moved, she secretly looked forward to it in her heart.

[Chapter 3170](#)

"World Defying Stage Fierce Power?" Chen Xiang thought of the World Defying mad source bead: "But I wonder if the World Defying mad source bead can do it?"

Chen Xiang had tried to absorb the energy from the World Defying mad source bead before, but to no avail. Even if he had to 'take' the energy from the World Defying mad source bead to refine it, he would not be able to. -

However, Feng Ke'er's situation was different. She did not want to 'fuse' this type of energy into her own body, but wanted to maintain the circulation of the seal's power.

"Won't you know after trying?" Feng Ke'er said: "First, swallow the World Defying Stage Fierce Power inside the World Defying mad source bead into your own body, then control this wave of World Defying Stage Fierce Power and enter the Six Realms mirrors. At that time, I will guide this wave of World Defying Stage Fierce Power to activate the formation."

"Alright, I'll give it a try now!"

Chen Xiang placed the Six Realms mirrors inside the Tianchuang furnace, and then placed a drop of World Defying mad source bead inside his own Divine Sense Sea. This World Defying mad source bead had already been sealed by Feng Ke'er, and wouldn't go around randomly.

Chen Xiang used the Devouring magic kungfu to devour the World Defying Stage Fierce Power inside the World Defying mad source bead, and then channeled this wave of World Defying Stage Fierce Power into the Six Realms mirrors.

"It worked!" Feng Ke'er shouted in surprise: "You still have a few World Defying mad source bead left, I believe you should be able to succeed."

"En!" This time, Chen Xiang was even more confident.

After saying that, Chen Xiang decided to start.

He did not need to concoct any pills in the shop now, as he had plenty of time to do so.

"It will definitely take quite a bit of time." Feng Ke'er said: "If we can really refine a pill spirit, then wouldn't that mean that in the future, there would be endless Strong strength Dan s?"

Yue Yiran had previously said that Elixirs could also produce elixirs, so of course Strong strength Dan spirits would give birth to Strong strength Dan s, but he did not know if that was true or not.

"Only success will know." Chen Xiang laughed: "Let's begin!"

Chen Xiang took out all of the Strong strength Dan medicine ingredients and threw them into the furnace. This way, the quality would be high from the start.

It took him three days and three nights to finally refine the medicinal ingredients that he had saved before into a lump of medicinal crystal. This lump of medicinal crystal was very big and of an extremely high quality.

"I'm starting to use the derivation method. It might take a little more time." Chen Xiang said. Right now he did not use Time Domain, because the refining process would definitely consume a large amount of energy. If he used Time Domain again, he might not be able to last until the end.

Although the quality of the derivation is very high, it does not take a long time. This is one of the advantages of derivation.

The derived method was better than Crash method, it was softer. However, when the Crash method collided, it would pose a huge challenge. Chen Xiang's Tianchuang furnace would once explode from the impact.

Chen Xiang used the huge lump of 'medicine' crystal to give birth to nine and a half large pills, and handed them over to Feng Ke'er. What he needed to do was to release a strong World Defying god fire and make those crystals soften under the high temperature.

"It's not that hard." Feng Ke'er released the sealing power, and very quickly, the large and small 'medicine' crystals all merged together.

Although it had fused together, the crystal was still as big as before. It was just that the quality had become very, very high.

But Chen Xiang would continue with the derivation process, and then continue the fusion process after. He did not know how many rounds he would have to go through.

It would have to wait until the pill spirit was refined, or until both he and Feng Ke'er were unable to continue, before it would stop.

The second round was completed in a flash. Both Chen Xiang and Feng Ke'er did not feel any pressure and could be considered to be relatively relaxed. Just the second round alone used ten days of time.

The third round could also be easily completed, but it would take at least ten days!

"Just the third round alone took twenty days." Chen Xiang took a deep breath, "I wonder how many rounds I'll need to succeed!"

"We were already mentally prepared, so no matter how many rounds it takes, we will persevere." Feng Ke'er said.

If Chen Xiang had a very strong power, he could use the Crash method to 'cross' them. Then, the quality of the 'medicine' would be even higher, and the improvement would be much faster than the 'derivation'.

Especially in the later stages of the pill, the higher the quality of the crystal, the higher the impact, the higher the improvement, which was also better than the derivative method, it was just that Chen Xiang had high requirements for it, he was unable to suppress the power that would come out when the crystal collided, even if they combined with Feng Ke'er.

In the blink of an eye, three months had passed, yet Chen Xiang had already gone through twenty rounds, which made it extremely difficult for her to fuse the 'medicinal crystals'.

Because the quality of the grown 'medicine' crystal was already very high, Chen Xiang had to fuse them together with Feng Ke'er.

"I wonder when the Heavenly Pill Assembly will begin ... Forget it, forget it. Refining a pill spirit is more important." Chen Xiang had already been in closed-door training for a very long time and had not left his room. Fortunately, no one came to disturb him, so he continued his refinement with ease.

"It's only twenty rounds and it's already that difficult. I previously estimated that I would need a hundred rounds to refine a pill spirit." Feng Ke'er said: "How about this, you release the Time Domain, or else it will take too long. When the time comes, you will be disturbed, and things will become troublesome."

Feng Ke'er was most worried about this, and he couldn't be disturbed like this. Once it stopped, all their previous efforts would have been for naught.

"Alright!" Even though Chen Xiang had only released the first stage of Time Domain, it was enough to buy him a lot of time.

After releasing the Time Domain, it also increased the burden on Chen Xiang's energy consumption. Although it was only a little, for a pill spirit like the one Chen Xiang was refining now, the energy consumption would be huge if it accumulated for a long time.

... ..

Yue Yiran looked at Chen Xiang's hut and said with a frown: "This guy has already been in closed door cultivation for four months, and yet he still hasn't come out."

"Should I go in and call him?" The manager said.

"Don't, Alchemist hates being disturbed when he is refining pills." Yue Yiran shook his head: "How about this, I will participate in it myself, at that time you just have to tell him how to find me, I need to hurry up and register for our shop."

"Okay, I'll tell him when he comes out." After the shopkeeper had finished speaking, he asked, "What if he goes into seclusion like this all the time?"

"Then forget it!" Yue Yiran said: "He has been in closed-door training for so long, he must be doing something extremely important, and cannot be disturbed."

"It's going to start in two months. I hope he can make it." The shopkeeper looked at Chen Xiang's hut and muttered.

Yue Yiran left the shop by himself.

... ..

As for Chen Xiang's side, he had already used the Time Domain for one month. Inside the Time Domain, he had already spent thirty months.

"It's really not easy. I never would have thought that I would be able to persist until now." Chen Xiang was already extremely exhausted. He had just completed a round of fusion with Long Xueyi and his sisters were currently channeling the power of rebirth to them, allowing them to quickly recover.
