

Dan God 3191

[Chapter 3191](#)

"You Turkish brats, you're dead meat. I've waited for so long. Finally, you've come. Today, let me have a feast." The old man laughed out loud. His strength was extremely strong, and Song Yichen's attack was actually useless against him.

Chen Xiang's hand that was holding onto the Heavenly magic sword was already drenched in sweat. If he used the Heavenly magic sword's method to kill the old man, both he and Song Yichen would probably be eaten.

"I want to eat ..." The old man laughed sinisterly.

"Eat your grandpa!" When Chen Xiang got closer, he swung the Heavenly magic sword past the old man's neck and immediately beheaded him.

After the head fell to the ground, the suction force immediately disappeared.

"A divine weapon refined by the Myriad Tao Divine Soil ... This is impossible, you Turkish people already don't have a Refiner to forge for you, you don't have such powerful divine weapons." The old man was shocked, he did not expect Chen Xiang's Heavenly magic sword to be so terrifying, to the point of forgetting to defend.

Chen Xiang sneered: "How is that impossible? Didn't you see it now? "Old man, go to hell!"

After that, Song Yichen immediately flew over, gathered the power of his body onto his leg, and then fiercely stepped on the head!

Boom, after his head was stepped on, it released a wave of Qi, Chen Xiang anxiously took out the World Defying mad source beads from his body and threw them into the Tianchuang furnace.

"That was close!" Song Yichen heaved a sigh of relief. They were almost eaten just now.

After Chen Xiang took the World Defying mad source bead, he started to dig out the large number of Myriad Tao Divine Soils.

"Why are there so many Myriad Tao Divine Soils here?" Chen Xiang asked: "Didn't you say you aren't here?"

"Maybe we're in the depths of this place, so it's possible that it might appear" Song Yichen walked over and looked. He frowned: "That's not right, these Myriad Tao Divine Soils were obtained from some other place. Could it be that someone obtained the Myriad Tao Divine Soil and threw it here?"

Chen Xiang took away the Myriad Tao Divine Soil Tribe members here, they weighed tens of thousands of kilograms.

"So much is enough!" Chen Xiang was a very easily satisfied person: "Let's go back after we go up, these Myriad Tao Divine Soils are enough for me."

"No, how can this little be enough?" Song Yichen felt that it was very rare, because he had seen many Myriad Tao Divine Soils before.

"Alright, then let's continue looking for the Myriad Tao Divine Soil ..." Chen Xiang looked at the corpse, and frowned: "Why is this fellow nailed here? Let's go see the swords that nailed him. "

Chen Xiang walked over and pulled out a sword and looked at it carefully, then said: "These swords are all mixed with Myriad Tao Divine Soil, but they don't have as many as mine!"

"Yes, and these swords are all from the Heaven Old Divine Race." Song Yichen was even more doubtful.

Chen Xiang released the Well-informed Ghost who had been in seclusion in You Yao Mountain Villa for a long time.

"Well-informed Ghost, take a look and see if you can collect all the residual souls here. I would like to know a few things." Chen Xiang said to Well-informed Ghost, who had been following him this entire time.

Back then, the Well-informed Ghost was trapped in a small house inside the Myriad Tao Mausoleum, so he himself liked peace and quiet. Moreover, in a remote corner of the You Yao Mountain Villa, there was a small house.

"No problem!" The Well-informed Ghost said.

Chen Xiang's Soul Absorbing Devil Spell could not be used on very strong people, otherwise they would suffer a backlash. If it was a serious case, it would greatly injure his soul, so he himself did not dare to randomly compare it to those people who were much stronger than him.

Well-informed Ghost had collected a large number of residual souls!

"I want to know why there are so many Myriad Tao Divine Soil s here." Chen Xiang said.

"These Myriad Tao Divine Soil s were all gathered together by seven of the elders from the Heaven Old Divine Race. When they first took away the Super Yang Divine Alter s above, they discovered that there was a deep pit here, and then they all came down together. When they came down, they were worried that something might happen to the Myriad Tao Divine Soil s, so they poured them out and prepared to divide them up.

"But they didn't dare to kill him because if this Great Elder died, they would be suspected as well, so they used a sword formation to pin him to the wall. But the moment they finished, Great Elder used a secret technique to absorb all the energy from their bodies, so they died as well."

After Chen Xiang and Song Yichen finished listening, they didn't know whether to laugh or cry.

Previously, Chen Xiang had witnessed the character of the Heaven Old Divine Race.

Chen Xiang let the Well-informed Ghost return to the inside of the You Yao Mountain Villa, then looked at Song Yichen and said, "They originally wanted to explore this deep pit, but something like that happened. Should we continue?"

"Yes!" Song Yichen immediately made a decision, looked at the cave, and said with a frown: "But there's no exit here!"

Chen Xiang laughed: "We'll see!"

He let out a large number of Heaven devouring rat and flew all around, finding a place where there was a huge rock blocking the way. A Heaven devouring rat could enter through a crack in the rock and then go to a passage.

"Over there!" Chen Xiang said, then walked over, and easily split the huge boulder with the Six Realms mirrors, revealing a hole.

"This should be left behind by your race, I wonder what it's hiding." Chen Xiang said.

"Let's go in and take a look!" Even though I am a native, over all these years, I have always been a beast, and never explored this Sacred Ground that was destroyed. " Song Yichen sighed, "I must have a good look at it now!"

Chen Xiang took out a luminescent stone, and then, together with Song Yichen, they entered the tunnel.

The moment they stepped into the tunnel, they felt a terrifying aura. This aura was the same as the one they felt before, causing them to suddenly stop, not daring to continue forwards!

"It's actually here!" Chen Xiang shivered. The aura that they were extremely afraid of, was precisely released from the depths of this passage.

They didn't know what it was!

"Now, we can clearly feel this aura. Although it is very frightening, there is no danger." Song Yichen said: "Chen Xiang, wait for me here. I will go in myself. Just tell Zheng profound and leave the matter of taking revenge on the Heaven Old Divine Race to him. "

"What kind of joke is this? We came together, so of course we have to go in together." Chen Xiang released a Heaven devouring rat, causing it to turn into a Mouse Man. "I'll let this guy scout the way first!"

To make it safer, Chen Xiang released more Mouse Man s. There were more than ten of them, and they were walking in front of the tunnel.

"Alright, you have so many tricks up your sleeves. Maybe you will be there, so I will be." Song Yichen curled his lips.

[Chapter 3192](#)

Song Yichen didn't really want Chen Xiang to go in with him, if he met with any danger, he would feel extremely sorry for Chen Xiang. Previously, when they met the Great Clan Elder of Heaven Old Divine Race, the two of them almost died.

"Don't worry. If there really is danger, we won't be able to survive until now." Chen Xiang laughed and patted Song Yichen's shoulder, "The thing inside should not be a living being. Although it has a very powerful aura, it does not carry any emotion, nor joy, anger and sorrow."

Song Yichen also agreed with this point. They had only felt an extremely terrifying aura, and did not feel any emotion from the aura. Otherwise, they would have been able to differentiate between the two.

If it was the aura of a strong Ranker, they would more or less carry a sense of pride or deterrence, but this aura did not exist, it was only strong, so Chen Xiang speculated that it was likely something that was released. Something like this was most likely a strong energy source or something.

Chen Xiang and Song Yichen were extremely at ease as they walked along the tunnel. They did not know why, but the more they walked in, the more relieved they felt. Even when they released that aura once again, they did not feel any fear!

Especially for Song Yichen, when he entered the depths of the passage, he felt an indescribable sense of security.

"What exactly is this thing? Why does it make me feel this way?" Song Yichen was very suspicious, "I suddenly have a very intimate feeling, why is it like this?"

"This might be related to your race, that's why you feel this way." Chen Xiang laughed: "This is a good thing, let's go in!"

Song Yichen nodded, then increased his pace.

Half an hour later, Chen Xiang and Song Yichen walked out of the passageway and arrived at a gigantic underground palace.

In the middle of the underground palace was a very short and very old altar.

The altar was constructed very simply and looked like it was made from stone. The stacking of the stones was not very neat and was very rough.

However, that terrifying aura was being released by this altar!

"What kind of Super Yang Divine Alter is this!" Song Yichen was shocked, and then shouted in shock: "Even though it looks rather old and worn out, Super Yang Divine Alter is like this."

Chen Xiang had already walked over. This Super Yang Divine Alter was not tall, only thirty meters or so, and it was not very big either.

He had seen many huge altars and things like that, and this was the one that was rotten and small.

"Is that how you Turkish Super Yang Divine Alter are?" Chen Xiang did not doubt the power of the Super Yang Divine Alter, but it seemed too weak.

"Of course not... This is an ancient Super Yang Divine Alter, our previous Super Yang Divine Alter did exactly this. I thought that after becoming an ancient Super Yang Divine Alter again, this old one would be of no use, but I never thought that he would actually be so terrifying. " Song Yichen shook his head: "The reconstructed Super Yang Divine Alter is very big and beautiful, but its shape is exactly the same as this one."

"What is the use of this Super Yang Divine Alter?" Chen Xiang touched it with his hand and that terrifying aura surged out again. It frightened him so much that he hurriedly took a few steps back.

"I don't know. It must be useful." Song Yichen had already stepped onto the Super Yang Divine Alter.

After Song Yichen went up, the Super Yang Divine Alter did not release any kind of aura either.

"Why is there such a big commotion from just a touch? It would be fine even if you go up there!" Chen Xiang touched it again, and that terrifying aura appeared again.

"Maybe it's because I'm Turkish." Song Yichen sighed: "All those years ago, the seniors in our clan were no longer here, if not they would have known how to use this Super Yang Divine Alter."

Chen Xiang's eyes lit up, and he summoned Well-informed Ghost out.

"Well-informed Ghost, let's see if there are any residual souls here. We want to know what use this Super Yang Divine Alter has." Chen Xiang said.

Well-informed Ghost nodded, sat down cross-legged and began cultivating, using his unique technique to sense the remnants of the soul.

Song Yichen had seen the abilities of the Well-informed Ghost before, he knew the capabilities of the Well-informed Ghost, and currently, he was really looking forward to see if the Well-informed Ghost could succeed. If he could succeed, then they would know the use of this Super Yang Divine Alter.

After a few hours, Well-informed Ghost finally had something to gain!

"This is one of the nine great Super Yang Divine Alters." The Well-informed Ghost said, "I can only gather a small amount of information. Although there are a lot of residual souls here, because they have existed for many years, there aren't many memories left inside."

"Mm, tell me what you know." Chen Xiang nodded.

"When it was very ancient, there existed a Super Yang Divine Race. This Super Yang Divine Race was originally in the world of the Myriad Tao, but later on, when they obtained the power of the sun, they were able to separate themselves from the Myriad Tao and open up a Heaven Old Super Realm. He was originally called the Super Yang Realm."

Song Yichen said as he furrowed his brows, "There is a legend within our clan that after our ancestors escaped from the Myriad Tao, they were able to create their own sun and then let the sun provide us with its power!"

"Yes, at that time, this place was called Super Yang Realm, but after it was separated, because there was a division within the Super Yang Divine Race, two worlds were separated. This place is called Heaven Old Super Realm, and the other is called Super Yang Realm." The Well-informed Ghost said, "You only have three suns left, and only the three clans remain!"

"Originally, the Heaven Old Super Realm had five Super Yang Divine Races. There was a total of five suns in the sky. Then the other two were wiped out, so there were only three suns left." The Well-informed Ghost said.

There were indeed only three clans left in the Heaven Old Super Realm, the Heaven Old Orcs and the Heaven Old Divine Race both still existed. Although the Turkish people were sealed, they were still alive and not exterminated.

If the Tus were to be exterminated, then there would only be two suns left, and the energy here would be greatly reduced. This was also the reason why the people of Heaven Old Divine Race did not intend to exterminate the Tus.

"Then where is the Super Yang Realm?" Chen Xiang was extremely curious, he never thought that there would actually be other strong races. These races were all as strong as the Heaven Old Divine Race, but he didn't know what their characters were like.

"This Super Yang Divine Alter can open a passage and connect two worlds, but this Super Yang Divine Alter is already damaged." Well-informed Ghost said: "According to the memories I obtained, I mentioned that I would need some Myriad Tao Divine Soil Crystals to repair this broken Super Yang Divine Alter."

Chen Xiang looked at Song Yichen.

"Myriad Tao Divine Soil Crystals, this is an extremely rare thing." Song Yichen carefully checked the Super Yang Divine Alter and found a few indented square on top of the Super Yang Divine Alter.

"There are a total of nine squares. Do you need Myriad Tao Divine Soil Crystals of the same size to be placed inside?" Song Yichen shook his head: "It's very difficult to get hold of so many Myriad Tao Divine Soil Crystals!"

[Chapter 3193](#)

The Well-informed Ghost only knew this much, it was unclear how he would obtain the Myriad Tao Divine Soil Crystal. Chen Xiang told him to return to the You Yao Mountain Villa.

"Brother Song, do we need to repair this Super Yang Divine Alter?" Chen Xiang asked: "If there's a need, we can continue to tangle with the Myriad Tao Divine Soil's Crystals."

"I feel that it's necessary. Right now, the Heaven Old Divine Race is at its peak, if we continue to wait, we will be exterminated sooner or later. At that time, they will also have a large number of Myriad Tao Divine Soil." Song Yichen said: "Among the nine Super Yang Divine Race s, I believe that we, the Turkish people, will be able to have Myriad Tao Divine Soil s in the future! "Although we, the indigenous people, have it, we have not used it to make Divine Weapons. This should have been deliberately given to us by someone when we were distributing our resources."

"I guess, back then the strongest person in Super Yang Divine Race had nine sons, and in order for these nine sons to not fight with each other, the Patriarch must have made arrangements! This way, you don't have to worry about the Myriad Tao Divine Soil being used to refine Divine Weapons, otherwise the consequences would be too scary. If you control the Myriad Tao Divine Soil, you can easily annihilate the other races. "

It was not strange that Song Yichen had such a conjecture. It was because the Tu Clan had always been instilled with the idea of not fighting.

"Our ancestors told us not to fight, but they never thought that we would be exterminated. He was too benevolent, and never thought that he would be bullied like this by his brother's descendants." Song Yichen said: "Right now, we are all about to have our clans exterminated, and we can already fully prove that our ancestors were wrong. Now, we cannot continue to be wrong."

Although there were only two of them, Song Yichen was very ambitious.

"We must break through two realms and have the other races come over to restrain the Heaven Old Divine Race. Otherwise, we will only be destroyed in the end." Song Yichen said: "The people from the other clans will definitely need Myriad Tao Divine Soil as well. At that time, we can give some to the Myriad Tao Divine Soil and the others to trade with them!"

Chen Xiang thought for a while, then said: "I feel that it's better if we don't break your seal for a short period of time, you guys are safe in here, don't go out for now, just wait here for them to kill each other."

"But... I'm worried that they will join forces and enter this place to rob the Myriad Tao Divine Soil. "

Song Yichen laughed: "Don't worry, as long as this ancient Super Yang Divine Alter can be repaired, we will not be afraid of them. If they dare to join hands, they will definitely pay a huge price."

Chen Xiang caressed this Super Yang Divine Alter, and once again released a very strong imposing manner, as if it was rejecting him!

"This guy ..." It can't be spiritual, right? " Chen Xiang laughed: "Brother Song, try to try and see if you can communicate with this thing. It has existed for so many years, and it seems to be very intelligent.

Song Yichen frowned as he thought, then took out a divine weapon. He cut his palm, and dripped a drop of blood on this Super Yang Divine Alter.

After the blood had dripped onto it, it had already seeped into it, as if it had been sucked dry.

"It worked!" Chen Xiang shouted in shock, "Hurry and get one more point!"

"Alright!" Song Yichen was also very excited, "In front of us, when our clan's elders worship the divine altar, they would make us prepare a bowl of blood, and then pour it all into a pool on top of the divine altar.

Three days later, Song Yichen was no longer able to laugh, and his expression was currently extremely ugly, his blood had been sucked out greatly.

Chen Xiang had no choice but to take out some recovery pills. However, its effect was very strong, because Song Yichen's body was very powerful. It would not be easy for him to quickly recover his blood.

"I'll be able to recover after resting. I need time!" Song Yichen sat on the ground.

"How about this, I'll get a Time Domain from your body." When Chen Xiang finished, he immediately released the power of time to envelop Song Yichen.

Song Yichen had stayed in Chen Xiang's Time Domain for a month and had already recovered to its peak.

This Super Yang Divine Alter had been neglected for a long time. Originally, the entire clan had needed to undergo a blood sacrifice, but with Song Yichen alone, it would naturally take a very long time.

Chen Xiang and Song Yichen had been stuck in here for more than a month, and Chen Xiang had even used the dual Time Domain s to increase their speed. He had left Song Yichen alone inside the Time

Domain for a few years and left a lot of blood inside, then poured it all over the Super Yang Divine Alter ...

Song Yichen also could not remember how many years he had spent in the Time Domain before Super Yang Divine Alter released a ray of sunshine.

"Finally alive, haha ..." Super Yang Divine Alter suddenly heard a wretched laughter. From the sound of it, it should be from a man.

Chen Xiang thought it was the voice of an old man.

"Spirit of Divine Alter!" Song Yichen anxiously shouted.

Hehe, fellow, I knew it when you came. I didn't expect you to be able to get so much blood in such a short time. The Spirit of Divine Alter laughed, "It's all thanks to the human ghost for using the power of time that we were able to move so quickly.

Chen Xiang curled his lips. Previously, the moment he touched the altar, it scared him, and it made him very unhappy.

"I touched you, why was your reaction so huge?" Chen Xiang was extremely curious, and couldn't help but ask.

"I'm not used to men touching me. If it's a beauty ..." Feel free to touch me, hahahaha ... " Spirit of Divine Alter laughed sinisterly, Chen Xiang could not help but kick him twice.

Song Yichen's face darkened. In his heart, the incredibly sacred Spirit of Divine Alter was actually such a wretched person.

"Stupid bastard, why did you kick me? I'm very weak after all, you will need to use the Myriad Tao Divine Soil Crystal to heal me if I kick you to death." The Spirit of Divine Alter scolded.

"It shouldn't be broken, you should be made from Myriad Tao Divine Soil Crystals. I really want to knock on a few of them to refine some of them." Chen Xiang snorted.

"That's right, Yours Truly was refined using Myriad Tao Divine Soil Crystals. If you have the guts, come and knock a few pieces of it." Spirit of Divine Alter sneered: "I don't think you have the ability!"

"Don't question my strength!"

Chen Xiang had already taken out the Heavenly magic sword and the Six Realms mirrors. "I'll try and see exactly how thick your skin is!"

Song Yichen anxiously stopped them. He knew how powerful Chen Xiang's Heavenly magic sword was, if he really could knock down a few pieces, this Super Yang Divine Alter would be even more heavily damaged.

"Spirit of Divine Alter, our people have already suffered from a calamity ..." Song Yichen carefully told the Spirit of Divine Alter about the events that had transpired of the Turkish people.

"Serves you right!" After the Spirit of Divine Alter heard this, he scoffed, "Your ancestor was a fool. I told him to guard against those bastards long ago."

[Chapter 3194](#)

Song Yichen was very helpless at the moment, he was relatively familiar with the matters of their people.

"Stoneman, the damage to your body is really strange!" Chen Xiang asked: "Why is there a lack of nine squares? This must be man-made... If you were really made from Myriad Tao Divine Soil Crystals, then to be able to take so many pieces of your body, you must have used a very powerful godly weapon! "

"Isn't this the work of that stupid chief of the Tu Clan?" Spirit of Divine Alter scolded: "Back then that guy was tricked, so he took the most important nine pieces of Myriad Tao Divine Soil Crystals from me. Without those nine pieces of Myriad Tao Divine Soil Crystals, I would basically be a trash, and other than scaring me, I can't do anything else!"

"Why did the Old Ancestor steal the Myriad Tao Divine Soil Crystals?" Song Yichen asked.

"There were originally nine of these ancient Super Yang Divine Alter s, and each clan had one was also used by the Super Yang Old Ancestor to prevent their clans from killing each other. However, the other eight races had teamed up together and found a way to break the rules. They destroyed all the ancient Super Yang Divine Alter in their clan, then used it to rebuild their own clan and used it to acquire World Defying Stage Fierce Power."

"At that time, I was the only one left in the ancient Super Yang Divine Alter, and the Patriarchs of the other eight clans were worried that I would restrain them in the future, so they lied to your foolish patriarch and let him destroy me."

Who asked him to be naturally honest? He was easily convinced, but he wasn't hopelessly stupid, so he only dug out nine pieces of Myriad Tao Divine Soil Crystals from my body. "" Alright!

"Not long after they were dug up, the boundary was separated and they started to fight. You should know what happened after that, right?"

Chen Xiang laughed: "Stoneman, it seems like you are still strong after all, and those guys are actually so afraid of you! If I repair you, can you make the two realms fuse again? "

"Of course it's okay, but the question is, can you get me back? This is extremely difficult, even the Super Yang Old Ancestor would need a lot of time to get here ... If it was you, then it would need even more time. The Spirit of Divine Alter sighed.

"Isn't it just using Myriad Tao Divine Soil Crystals? "How hard is it?" Chen Xiang did not think so, "Aren't there a lot of Myriad Tao Divine Soil? It shouldn't be hard to find Myriad Tao Divine Soil Crystals, you made it using Myriad Tao Divine Soil Crystals yourself, didn't it? "

"Do you know that I am the strongest one among the nine Ancient Super Yang Divine Alter s? Furthermore, in order to repair the nine damaged parts on my body, I would need Crystal emperor s as well. " Spirit of Divine Alter said: "It's easier to find ordinary Myriad Tao Divine Soil Crystals, but Crystal emperor are different!"

Song Yichen's face was filled with despair, it could be seen how difficult the Crystal emperor s were to him!

"What a coincidence, I know the Myriad Tao technique." Chen Xiang laughed: "I am most familiar with the Heavenly Alchemy, I had a Myriad Tao Divine Soil who refined this sword before!"

"This sword was crafted using the Myriad Tao Divine Soil. Is this really a material that you refined using the Myriad Tao Divine Soil?" Spirit of Divine Alter was very surprised, he did not expect to meet such a powerful human.

"I thought that humans who knew about Heavenly Alchemy had already become extinct!" Spirit of Divine Alter exclaimed once again.

"I did die many times." Chen Xiang laughed: "Then tell me now, where I can obtain the Myriad Tao Divine Soil's Crystal, and at that time, I will be able to use the power of time to complete it faster, and you can recover faster."

The Myriad Tao Divine Soil's Crystal was much stronger than the Myriad Tao Divine Soil's Crystal. Chen Xiang felt that refining this kind of crystal into a Divine Artifact would be very good, although his current Heavenly magic sword was already very strong, he hoped to be stronger.

"Okay, now we have to think it over." Spirit of Divine Alter was already getting serious. After being wasted for such a long time, he also wanted to recover his godly strength as soon as possible. This was a great opportunity.

This area has a large number of Myriad Tao Divine Soil s. Initially, the other eight races wanted to take over this area, but after a round of fighting, Heaven Old Divine Race and the rest successfully separated the other races into the Super Yang Realm. "Feng Shen Shi said. The Spirit of Divine Alter said, "Afterwards, they annihilated two more races. There were only three suns left here and now, the Heaven Old Divine Race controls two suns. If I can recover, I can take back a new sun. "

[Chapter 3195](#)

Taking back a sun was a very important thing to the Tu Clan. When Song Yichen heard about it, he was very excited, otherwise they would need to go to the Heaven Old Imperial Palace to get back that new Super Yang Divine Alter and take back the control of a new sun. The vertex says,.

"Spirit of Divine Alter, if you recover, will the clan members who become Tiangu beast recover as well?" Song Yichen's heart ached whenever he thought of these clansmen, especially those huge clansmen. There was basically no chance for them to recover.

"I can't guarantee... I may only be able to recover some of my soul which has not been corroded. When the time comes, I will try my best to help you all. " Spirit of Divine Alter said.

If he wanted the ancient Super Yang Divine Alter to recover its original strength, he would have to get the Crystal emperor with the Myriad Tao Divine Soil Crystal. This was the only way.

Now, only Chen Xiang was able to accomplish it. This burden had fallen onto his shoulders, making him feel an extremely huge pressure, and he didn't know if he would succeed or not.

Song Yichen had placed all her hopes on him!

"Don't worry, I will do my best." Chen Xiang laughed: "If I can recover the power of this boulder, I don't need to hide from the Heaven Old Divine Race people anymore, I can just stay here safely."

"That's true. Even though I am the most ancient Super Yang Divine Alter, I am actually very powerful. The Super Yang Old Ancestor had invested a lot in me." Spirit of Divine Alter chuckled. "Next, all you need to do is to go to the place where Myriad Tao Divine Soil is and find a portion of the Myriad Tao Divine Soil Crystals, and then use these Myriad Tao Divine Soil Crystals to refine Crystal emperor."

"I haven't seen Myriad Tao Divine Soil Crystals in many years. Is there really a place like that?" Song Yichen asked.

"You'll know when you go look. I believe that you'll definitely find a large amount of Myriad Tao Divine Soil Crystals." Spirit of Divine Alter said: "It's been many years since you've seen it, and this place is always sealed. No one has set foot in the area that Myriad Tao Divine Soil is in for many years, so a large amount of Myriad Tao Divine Soil Crystals will definitely be born from within."

Chen Xiang had heard from Song Yichen that this area was extremely dangerous, if no Turkish people led them in, they would most likely be killed inside, even the most powerful World Defying crazy realm Rankers would be the same.

"Alright, I understand." Song Yichen nodded, it had been many years since he went to that place, after hearing what the Spirit of Divine Alter said, he felt that it was true.

Just as Song Yichen and Chen Xiang were discussing which direction to go, Spirit of Divine Alter suddenly spoke in a low voice: "The Heaven Old Divine Race is here, and they are very strong. There are two of them in total, quickly leave through the other path!"

Just as the Spirit of Divine Alter was done, a path appeared on one of the walls in the huge stone room.

"Spirit of Divine Alter, what about you? Will you be okay?" Song Yichen was a little worried, because the Spirit of Divine Alter was still very weak, and this ancient Super Yang Divine Alter was once again destroyed.

"Don't worry, I won't be destroyed that easily." The Spirit of Divine Alter urged them, "Hurry up and leave, otherwise if they come, you won't be able to leave."

Song Yichen and Chen Xiang anxiously rushed through the passage, and after they entered the passage, a door automatically closed.

Following that, Chen Xiang and Song Yichen also heard two loud laughs coming over through the stone wall.

"Haha, we finally found the Super Yang Divine Alter from back then." It was the voice of an old man. Song Yichen and Chen Xiang did not leave, they only had their ears pressed to the wall and could hear the voices coming from inside.

"The ancient Super Yang Divine Alter is only mediocre!"

"Big brother, look at the materials used to make this Super Yang Divine Alter, they were actually made from Myriad Tao Divine Soil Crystals. Back then, Super Yang Old Ancestor was too biased, he actually gave the best Super Yang Divine Alter to this group of stupid natives."

"Don't worry, although this Super Yang Divine Alter was refined using the Myriad Tao Divine Soil Crystal, the most important part of it has already been destroyed, and only the Crystal emperor with the Myriad

In order to prevent such a thing from happening, Chen Xiang and Song Yichen had to make the Super Yang Divine Alter recover before they arrived.

"I wonder when they will arrive." Chen Xiang asked while running frantically inside the tunnel.

[Chapter 3196](#)

At this time, Song Yichen's heart was heavy. It was extremely difficult to obtain Crystal emperors for Myriad Tao Divine Soil Crystals, and he didn't know if he would be able to make it in time.

"It'll take at least a month. It'll take quite a bit of time for them to come back. "In other words ..." Song Yichen said: "In a month's time, are you able to refine the Crystal emperor that has the Myriad Tao Divine Soil Crystal?"

Song Yichen knew that Chen Xiang had the power of time, but even if he used Time Domain, he felt that he wouldn't be able to make it in time.

"It should be possible!" Chen Xiang was more confident in his own Time Domain. He was now a World Defying crazy realm, his World Defying Stage Fierce Power was much stronger than before, he felt that he could use it smoothly while also being able to refine Myriad Tao Divine Soil Crystals.

If he used the Triple time field, he would be able to buy more time, which was why he was so sure.

While still in the passage, Chen Xiang used the power of space to carry Song Yichen up.

"How far is it from there? Do you want me to just directly use the power of teleportation to go over there?" Chen Xiang asked.

"No need. Entering that place is troublesome. Spatial Force will be greatly restricted, so it's best not to use it." Song Yichen looked around, trying to determine his direction.

"It's right over here. We can just fly over there. I'm worried that if we teleport over there, we might encounter some unexpected situations." Song Yichen said.

"Alright!" Chen Xiang took out his Six Realms mirrors.

The Six Realms mirrors quickly flew. Not long later, Chen Xiang saw an extremely vast ocean of forests in front of him. This forest looked boundless, and the most unusual thing was that the forest's leaves were all pale gold.

Chen Xiang took a closer look and realized that the soil in the forest was all a light gold color!

The Myriad Tao Divine Soil was a light golden color, if he separated a pile of them, they would turn black, and after being burned by the flames, they would give off a light golden color.

"These... Is the soil of this forest all from Myriad Tao Divine Soil?" Chen Xiang was dumbstruck, he did not dare believe what he had just seen, the soil under this golden forest was all from the Myriad Tao Divine Soil.

"Yes!" Song Yichen laughed, "Although there are many, we cannot take away too much, or else this land will become angry!"

The golden forest looked peaceful, without any signs of danger.

Chen Xiang knew that this was just an illusion. This forest had so many Myriad Tao Divine Soil s, it definitely wasn't as simple as it looked.

"I'm going to start now!" After Song Yichen finished, his body released a burst of faint golden light aura, enveloping the Six Realms mirrors.

The Six Realms mirrors slowly flew over, and when it neared the forest, a huge light barrier suddenly appeared!

The forest was actually enveloped by a very large barrier, and now that Chen Xiang had successfully passed through the barrier.

"It's not over yet!" Song Yichen said, his body continued to release that faint golden light, it was even stronger than before.

Very quickly, Chen Xiang felt that they had passed through the second layer of the enchantment!

"How many layers are there exactly?" Chen Xiang took a deep breath. Every single enchantment was extremely terrifying, and if he was the only one, he felt that it would be impossible to enter.

And Song Yichen seemed to have some sort of power that could not be stopped by this barrier and could enter without a hitch!

"There are a total of nine spirit formations. These spirit formations are all called sun spirit formations. Right now, we have only passed through the second level." Song Yichen frowned: "I'm about to reach the third stage!"

It took a lot of energy for Song Yichen to release that kind of pale golden light, you could tell from his expression!

Within three thousand meters of this forest, there were actually nine such powerful enchantments. It could be seen how protective the Super Yang Old Ancestor was of this place back then.

"If your clansmen had hidden here, then nothing would have happened." Chen Xiang said.

"Yes, but they won't dare because there is a rule in the clan that no one is allowed to enter here. Otherwise, they will be punished by the Forest God." Song Yichen said.

"The name of this forest is Sun God Forest, and we usually only enter once at a certain time."

Very quickly, the Six Realms mirrors passed through the Nine Layered Sun Barriers and entered the Sun God Forest.

After entering, Chen Xiang immediately descended to the ground. He then grabbed a handful of soil and scrutinized it carefully: "As expected, it's Myriad Tao Divine Soil, and there's so much of it, it's like an ocean!"

Now, Chen Xiang understood why the other eight races were allying together to eliminate this Divine Soil Race. They were very envious of the Divine Soil Race, with so many of them and not knowing how to make use of them, it was practically taking advantage of them.

He also understood even more clearly why the Spirit of Divine Alter scolded the Divine Soil Race as an idiot. If the Divine Soil Race only took a small portion of the Myriad Tao Divine Soil s here to refine a large amount of powerful godly weapons, he would not have ended up like today.

"Brother Song, didn't we discover the elders from the Heaven Old Divine Race down there? They got the Myriad Tao Divine Soil of Xudu, how did they manage to get in?" Chen Xiang was very curious about this, he had personally witnessed the power of the Nine Layer Sun Barrier.

"They are, after all, the experts from back then. They must have expended a lot of effort to obtain it. But, aren't they only able to get one?" Song Yichen said.

To this forest, a Myriad Tao Divine Soil that was tens of thousands of kilograms was indeed only one.

"How are we going to find the Myriad Tao Divine Soil's Crystal?" Chen Xiang looked at the endless sea of trees and felt a headache: "There shouldn't be any danger in here right?"

"It's safe inside, it's just that it will be more troublesome to enter. If anyone else enters without sufficient strength, they might not even be able to survive." Song Yichen said: "You can leave it at that."

Chen Xiang nodded, and then released many Heaven devouring rat s, these Heaven devouring rat scuttled around everywhere, searching for the Myriad Tao Divine Soil's Crystal.

"It's impossible to drill into the ground!" Chen Xiang tried it, these Heaven devouring rat were unable to dig a hole in the ground, it was mainly because the Myriad Tao Divine Soil s here had already solidified and were extremely sturdy. Although the Heaven devouring rat were strong, they were unable to dig a hole.

Chen Xiang let the Heaven devouring rat search the ground for a long time, but was unable to find anything.

"The Myriad Tao Divine Soil Crystals should be deep underground." Chen Xiang guessed, it was also based on his years of experience with the genius treasures.

"It's not easy to dig a hole here." Song Yichen also tried it himself. Don't bother with the Heaven devouring rat, even he had a hard time digging out a hole.

This was an extremely difficult task, and it was the only way. They had no choice but to dig it out.

Chen Xiang was a lot better, because his Heavenly magic sword was created using the Myriad Tao Divine Soil s. After being refined, it was much more powerful than the Myriad Tao Divine Soil s that had not been refined before, so it was relatively easier to dig out.

[Chapter 3197](#)

Song Yichen was stronger than Chen Xiang, but he did not have the to refine the divine tool, so compared to Chen Xiang, he had a lot more work to do.

"Chen Xiang, there are so many Myriad Tao Divine Soil s here, can you use the Myriad Tao Divine Soil s here to make a shovel for me?" Song Yichen laughed bitterly.

Using the Myriad Tao Divine Soil to forge a shovel was just to dig a hole. If the old Refiner above the Myriad Tao knew about this, he would definitely spurt a mouthful of blood and spit Song Yichen to death.

Chen Xiang also thought that it was kind of funny. He thought for a while, then said: "Let Ke Er refine for you!"

Feng Ke'er had also eaten a lot of Strong strength Dan in the You Yao Mountain Villa. Her current World Defying Stage Fierce Power was still very strong, and she herself only knew how to refine equipment, Chen Xiang felt that it shouldn't be difficult for her to refine a shovel.

When Feng Ke'er came out of You Yao Mountain Villa and saw with his own eyes how many Myriad Tao Divine Soil there were, he could not help but be shocked again.

"There are as many Myriad Tao Divine Soil here as there are sand." Feng Ke'er laughed, "There are so many that I don't have any place to put them. But the others are all fighting over the Myriad Tao Divine Soil."

Feng Ke'er picked up the Myriad Tao Divine Soil that Chen Xiang dug out, and laughed: "Back then, Chen Xiang this guy also used a lot of time to create a few Myriad Tao Divine Soil s, and only refined this sword."

"That's right!" Chen Xiang looked at all of these Myriad Tao Divine Soil, and was already numb to it. He had already packed all of the Myriad Tao Divine Soil he dug out into the You Yao Mountain Villa, so Song Yichen had no objections.

"Ke'er, how long do you need to make a shovel?" Song Yichen asked.

"It will take at least a month!" Feng Ke'er thought about it and said.

"How about this, I will use the dual Time Domain. That way, as long as we wait outside for one day, it will take you thirty months to refine thirty shovels." Chen Xiang said.

"Alright!" When Feng Ke'er entered the You Yao Mountain Villa, he released a Time Domain for her alone.

Chen Xiang wanted so many spades to give to the Mouse Man!

After a day, Feng Ke'er had successfully refined thirty shovels, all made from Myriad Tao Divine Soil. Because the most important part was digging, she had refined them roughly, but it was very useful.

Song Yichen was digging very happily right now!

originally wanted to use the World Defying Stage Fierce Power to continuously attack and create a deep pit, but it was simply impossible. These Myriad Tao Divine Soil s already possessed the ability to quickly absorb the World Defying Stage Fierce Power, so even if he and Song Yichen combined a punch on the ground, the entire ground would not tremble at all, and the World Defying Stage Fierce Power would be completely absorbed by the large number of Myriad Tao Divine Soil.

"There's no way we can continue digging like this!" He, twenty to thirty Mouse Man s, and Song Yichen had already dug a huge hole that was three hundred meters deep.

What surprised him was that, three hundred meters below him, it was still the Myriad Tao Divine Soil.

"Keep digging!" Song Yichen rested for a while, they had no choice but to continue, they had only been in the forest for two days.

They dug for another few hundred feet, and suddenly they found ordinary rock and soil. It was no longer the Myriad Tao Divine Soil Level, and it was only about as thick as three hundred feet.

"Motherf*cker, we dug for nothing." Song Yichen scolded, and then flew up.

At the very least, I got quite a few Myriad Tao Divine Soil s. Chen Xiang shook his head and laughed bitterly.

At this time, he and Song Yichen were sitting beside the deep pit, discussing how to find the Myriad Tao Divine Soil Crystal.

"Elder Brother Shen, I heard that there is a very special kind of tree outside that grew from the Myriad Tao Divine Soil. We want to go out and take a look." Jiang Sijing said from the You Yao Mountain Villa.

"Sure!" Chen Xiang immediately let the two sisters out.

Jiang Sihua and Jiang Lisi were rather free in there, because they could condense divine pellets when they were resting. These divine pellets were for themselves, or perhaps Feng Ke'er.

On the other hand, the two Mei Jing Sisters s were not in a rush. They were taking care of all kinds of ingredients and teaching the two Elixir Spirit Cores, Jiang Sihua and Jiang Lisi. They were alchemists with an extremely high innate talent in alchemy, and had been born with special alchemy skills.

Seeing a pair of beautiful twin sisters come out, Song Yichen secretly despised Chen Xiang for hiding such a beauty.

"Hello, Brother Song!" They greeted Song Yichen very politely.

"Hello everyone!" Song Yichen laughed: "Chen Xiang really knows how to enjoy life."

"Pah pah pah!" They are just my friends, don't think too much. " Chen Xiang said: "They are extremely proficient in medicinal herbs, I want them to come out and take a look at the trees here."

Having interacted with plants and flowers all year round, they already possessed an ability to communicate with plants. This was something that many people did not have.

Mei Jing Sisters looked at a big tree, gently caressed it, and then closed his eyes.

"Chen Xiang, was this sword refined by Ke Er?" Song Yichen asked. He also wanted one, and one that was refined using Myriad Tao Divine Soil Crystals, this would greatly increase his strength.

"No, it's a guy called Chen Cai. He was born from the Heaven Old Orcs and the Heaven Old Divine Race." Chen Xiang said.

"What a pitiful guy, but he knows how to refine and his future is not too bad. Moreover, he should have understood this since he was born, and is considered a talent in the Heaven Old Divine Race. It's a pity

that the Heaven Old Divine Race won't accept him." Song Yichen had a rather good understanding of the Heaven Old Divine Race.

"Yes, that's why he appeared inside the Divine Wasteland with Heaven Old Orcs and met me afterwards." Chen Xiang laughed.

"Elder Brother Shen, we found something!" Jiang Simei suddenly shouted.

"What discovery?" Chen Xiang was shocked, she anxiously walked over, with Song Yichen following closely behind.

"There is something under the big tree. These trees can absorb the nutrients in the Myriad Tao Divine Soil and then condense something in the middle of the tree roots." Jiang Sijing said: "That thing should be the Myriad Tao Divine Soil Crystal that you are looking for!"

Chen Xiang looked at Song Yichen and asked: "Is that possible? Have you ever dug these trees before? "

Song Yichen frowned: "I really never dug up a tree before, but these trees have grown for a long time, they are all gold, I think it's possible."

"There's no need to dig out the tree and have Ke Er refine a hollow tube. Just insert the heart into the bottom of the tree root and take that thing out." Jiang Simei said: "This way, it won't cause any damage to the big tree."

In this place, Chen Xiang was unable to use the power of space, so he could not retrieve items through the air, so he could only use normal methods.

Feng Ke'er very quickly refined a very large pipe, big enough to fit inside a watermelon.

"Where?" Chen Xiang looked at Mei Jing Sisters and the others and asked, "Can you guys determine the exact location?"

Chen Xiang couldn't see it even if he used the Dao heart Eye, and he didn't dare to randomly insert it either. He was worried that he would destroy these big trees, since these big trees could condense Myriad Tao Divine Soil Crystals!

[Chapter 3198](#)

Jiang Simei was also afraid that she would destroy the big trees if she wanted to, it would not be easy for these big trees to grow to this extent, if she destroyed them, she would feel pain in her heart. After all, this was not an ordinary tree, but a very unique type of tree. A slant against a slant, a slant against a slant.

Chen Xiang asked Jiang Simei to carry it out. She had previously communicated with the big tree before and knew where the mysterious thing was.

Then, she said to Chen Xiang: "Try and see if you can get an Heaven devouring rat to take out the thing inside. It's not very big, so the Heaven devouring rat should be able to take it out."

Chen Xiang released a Heaven devouring rat and had it enter the big tree from the pipe. Then, he made the Heaven devouring rat's eyes emit a white light, illuminating the inside of the tree. Soon enough, he saw a black object.

He quickly asked the Heaven devouring rat to take it out.

The black crystal was not really that big, it was only the size of a thumb.

"Brother Song, are these Myriad Tao Divine Soil Crystals?" The moment Chen Xiang took it out, Song Yichen puzzledly frowned. He was not very sure, or else he would have recognized him a long time ago.

After Song Yichen received it, he took a careful look at it, then shook his head and said, "I'm sure. If you want to confirm whether or not this is a Myriad Tao Divine Soil Crystal, you can only try with your sword!"

"How do you want to test it?" Chen Xiang asked.

"Let's see if we can cut it open. If we can't, then this is the Myriad Tao Divine Soil Crystal." Song Yichen said: "All of the Myriad Tao Divine Soil Crystals I have seen before are light gold, but this piece is black."

Chen Xiang placed the black crystal on the ground. He tried using the Heavenly magic sword and was unable to cut it off easily.

"It seems that these are Myriad Tao Divine Soil Crystals without a doubt." Chen Xiang laughed, he did not dare to continue trying, and was worried that the Heavenly magic sword would break.

Song Yichen was also relieved, and laughed: "I've finally found it. I didn't expect it to be under the big tree. There are so many big trees here, there should be a lot of Myriad Tao Divine Soil Crystals."

"Ke Er, go get it with Sijing and Mei Mei. I'll try to refine this Myriad Tao Divine Soil Crystal here." After Chen Xiang finished, he said to Song Yichen again, "Big Brother Song, go and protect them!"

"Alright!" Only the Mei Jing Sisters and the rest were able to confirm the location of the Myriad Tao Divine Soil Crystal. Now that he had their help, they would be able to search for the Myriad Tao Divine Soil Crystal much faster.

Chen Xiang took out the Tianchuang furnace, placed the piece of Myriad Tao Divine Soil Crystal inside, and then released the most powerful, Arrogant Flame to refine.

He was already able to use a large amount of World Defying Stage Fierce Power to condense the Proud Flame, and his flames were much stronger than the previous World Defying god fire.

"This thing isn't easy to melt." Chen Xiang had burned inside the Time Domain for more than ten days and the Myriad Tao Divine Soil Crystal was only the layer of black on its surface.

He burned for another half a month, a total of one month, but there was no progress!

When he came out of the Time Domain, it was already dark outside. Mei Jing Sisters, Feng Ke'er and Song Yichen were all looking at him.

Chen Xiang shook his head, then took out that piece of pale golden Myriad Tao Divine Soil Crystal from the Tianchuang furnace, and said: "You have consecutively burned it for a month, but this piece of Myriad Tao Divine Soil Crystal is still ice-cold."

He threw the Myriad Tao Divine Soil Crystal to Song Yichen.

After Song Yichen received it from him, he sighed helplessly. "Myriad Tao Divine Soil Crystals are just like this, it's extremely difficult to refine, and they already possess an extremely strong defensive power. It's probably because your flames are unable to break through its defense, causing it to be unable to heat up."

Chen Xiang nodded her head: "That's exactly the case, the Myriad Tao Divine Soil Crystal has a very, very strong defensive power. It is not afraid of fire or ice, if it is used to refine protective divine armor, no one would dare imagine!"

The Myriad Tao Divine Soil Crystal was already that powerful, how could the Crystal emperor inside the Myriad Tao Divine Soil Crystal be so powerful?

What Chen Xiang admired was that Super Yang Old Ancestor actually used Myriad Tao Divine Soil Crystals to build a Super Yang Divine Alter.

"Spirit of Divine Alter, what you can refine, isn't he capable of refining as long as he can control the Heavenly Alchemy?" Song Yichen said, "Think carefully, is there any other possibility?"

Chen Xiang nodded. He had tried many different types of refining methods in the Time Domain, but none of them were able to break the defense of the Myriad Tao Divine Soil Crystal.

"How many Myriad Tao Divine Soil Crystals did you manage to get?" Chen Xiang asked.

"Over a thousand dollars." Jiang Simei said: "There are still a lot left, I wonder if a thousand pieces is enough?"

"I don't know. After you all have rested, go and continue mining for Myriad Tao Divine Soil Crystals. I will think about it carefully myself and see how I can refine it." Chen Xiang said, and then entered the Time Domain.

They needed to fix that Super Yang Divine Alter before he returned. Only by doing this would they be able to escape, if not, the Heaven Old Divine Race would be able to increase their power by a lot, which was something that Chen Xiang and the rest did not want to see.

"Is there really no other way?" Chen Xiang slapped his head, he could not think of any way, if he wanted to use the Myriad Tao Divine Soil Crystals to refine Crystal emperor, he had to first melt all the Myriad Tao Divine Soil Crystals, and then compress a large amount of energy like how he used to concoct pills, causing the quality of the crystals to continuously improve, and finally reach a limit.

This was the thought process of him refining the Crystal emperor, but right now, he could not cross over the first step, and could not advance at all!

"Is my flame not strong enough?" Chen Xiang frowned. His flames were condensed using the World Defying Stage Fierce Power, and Song Yichen's flames before were strong as well.

However, he felt that if he could condense such a flame, wouldn't that mean that anyone could use the World Defying Stage Fierce Power to condense it? Then this kind of flame should be very ordinary. It can even be condensed by a person from the World Defying crazy realm!

Truly powerful flames should be very difficult to condense!

"Looks like I have to find Spirit of Divine Alter to ask." Chen Xiang came out from the Time Domain.

"Brother Song, looks like we need to stop immediately. I need to go back and find the Spirit of Divine Alter." Chen Xiang said: "I feel that my flames aren't strong enough, I need to think of a way to level up!"

"Alright!" Song Yichen said as he nodded his head.

Chen Xiang let the Mei Jing Sisters and the others enter the You Yao Mountain Villa and then left the Sun God Forest with Song Yichen.

After returning to the stone room where the ancient Super Yang Divine Alter s were, Chen Xiang immediately asked the Spirit of Divine Alter s inside.

"Stone Golem, my flame isn't strong enough. How can I raise it?" After Chen Xiang asked this question, he kicked Super Yang Divine Alter twice.

[Chapter 3199](#)

Spirit of Divine Alter needed Chen Xiang's help, so he was more polite. Although he had been kicked twice, he could only groan lightly.

"I didn't expect your flame to be so weak!" When Spirit of Divine Alter saw the flame that Chen Xiang had released, he said in disdain, "I had thought that you had mastered the Heavenly Alchemy and possessed a pretty good fire refining divine art yourself."

"I used to have it, but that was only for cultivating World Defying god fire. I didn't cultivate World Defying Stage Fierce Soul." Chen Xiang said: "Do you have any cultivation techniques related to this?"

"I don't have a cultivation method, but I do have a method to help you cultivate a strong flame. It's also faster." Spirit of Divine Alter said, "That's right ... "It's just troublesome."

"What kind of trouble?" Song Yichen said: "It shouldn't be difficult, right?"

"Could it be that it's not that difficult? The reason it's so troublesome is because you need to set up a huge array and you need to use Myriad Tao Divine Soil Crystals to set it up. In total, it requires more than three thousand Myriad Tao Divine Soil Crystals." Spirit of Divine Alter said: "After the formation is set up, when the great formation is activated, those Myriad Tao Divine Soil Crystals will become useless."

"What are the benefits of setting up a great array?" Chen Xiang asked Feng Ke'er to come out, this was what Feng Ke'er was most familiar with.

"The main purpose of setting up this great formation is to condense the Sun Fire Seed from the three suns. After condensing the Sun Fire Seed, then, the Sun Fire Seed will go to the World Defying Stage Soul River above Myriad Tao to search for the Flame Madness soul."

"If you fuse the Fire Seed with a Fire Madness soul, and then fuse with this Fire Seed, then the Fire Seed will belong to you." Spirit of Divine Alter said: "Only Super Yang Old Ancestor knows how to set up this great formation, he was the one who taught me to do so."

After Chen Xiang heard this, he felt that this method would work.

"This isn't a problem. Just tell Ke Er the method of setting up the formation." Chen Xiang looked at Feng Ke'er and said.

"Alright, little girl. I will pass on the memories of the formation to you right now." The Spirit of Divine Alter suddenly flashed with a ray of light aura, and the light aura entered Feng Ke'er's body.

"Did you see that?" Spirit of Divine Alter asked.

"I saw it!" Feng Ke'er nodded, "It is indeed troublesome! However, this is not a problem! "

"You guys can settle it yourselves. I believe that you will definitely succeed." Spirit of Divine Alter said: "However, if the Tinder array is activated, no matter what movement it makes, the other races would definitely discover it."

"Regardless of them, as long as Chen Xiang possesses strong enough flames, he will be able to quickly refine Crystal emperor s. At that time, as long as this ancient Super Yang Divine Alter is restored, there is nothing for us to be afraid of." Song Yichen said.

... ..

After returning to the Sun God Forest, Feng Ke'er told Chen Xiang to give her the Three Thousand Mouse Man s, and allow her to control them. She wanted them to be used to set up a formation, so the formation would be bigger when the time comes.

Song Yichen found an empty space in the Sun God Forest, which was where he had set up the array.

Mei Jing Sisters went to get the Myriad Tao Divine Soil Crystals, so he needed a lot of them to set up the array.

Every day, they were able to get a thousand Myriad Tao Divine Soil Crystals. In just two days, they managed to get more than two thousand, and adding the previous one thousand, it was already enough to set up the formation.

"I'll have to trouble you guys next." Chen Xiang said.

"I'm fine!" Jiang Simei stuck out his tongue at Chen Xiang. "Little Sister and I have nothing to do anyway."

Chen Xiang came to that spacious area and asked: "How long will it take for the arrangements to be completed?"

"It will be completed in two days." Feng Ke'er laughed: "With the help of these Mouse Man, I can relax a lot!"

"Right, when the time comes, you will need to sit in the center of the formation, and you will also need to bleed." Feng Ke'er said, at this time, she had already dug out many lines in the vast space, these were all Spirit grain, it was extremely complicated.

These Myriad Tao Divine Soil Crystals were placed evenly on the pattern.

When Feng Ke'er was digging, she controlled several Mouse Man s to dig together, so she could complete it quickly. If she had enough shovels, she could dig even faster.

The main reason was that this place was the Myriad Tao Divine Soil, and only by using the shovel forged by the Myriad Tao Divine Soil could one easily dig out this place.

"Alright!" After Feng Ke'er finished placing the Myriad Tao Divine Soil Crystals inside, he clapped his hands.

She had a total of three days!

"It's your turn. Bleed!" Feng Ke'er said: "I need your blood, the sun fire seed that I condense will be under your control, and only then will it fuse with you."

"How much blood do I need to bleed?" Chen Xiang asked.

"Just fill up the patterns here, and let your blood fill up the Spirit grain here." Feng Ke'er laughed: "This is not easy!"

Chen Xiang swallowed his saliva.

A few days had passed and Chen Xiang's blood had finally covered all of the Spirit grain s. If it was only him, he would not have been able to complete it so quickly.

"Next, you need to sit in the middle." Feng Ke'er said.

There was a place in the array for him to sit cross-legged. After Chen Xiang floated over, he asked: "What's next?"

"After that, you will insert the World Defying Stage Fierce Power and use it to revive the entire array." Feng Ke'er said.

Chen Xiang closed his eyes and sent out waves after waves of World Defying Stage Fierce Power, allowing this wave of World Defying Stage Fierce Power to cover all the Spirit grain and wake the entire array.

Very quickly, the black colored Myriad Tao Divine Soil Crystals inside the large formation released a faint golden light aura, and the black color on the surface disappeared. Furthermore, the blood Chen Xiang previously released had already become golden.

The Spirit grain in the big array had already turned into a dazzling golden light, which was extremely beautiful.

"What's next?" Chen Xiang asked again.

"Next up, just wait for the spark to appear in your Divine Sense Sea." Feng Ke'er said: "After that, we will need Huakuan Dan, because at that time, your mind will need to head to World Defying Stage Soul River."

Jiang Sihua had already condensed quite a few arrogant core inside, so he did not need to worry about this.

Two hours after the great array opened, the three suns in the sky began to emit rays of light that were like golden clouds that were sucked into the array. If one were to look from a distance, they would see the three suns emit rays of light that shot into the ground, converging together in one place!

... ..

Inside Heaven Old Imperial Palace, a gold robed elderly stood on top of a tall tower, looking at the three threads released by the three suns, his brows knitted together.

"Emperor, you saw it right?!" An old man flew up from below and landed behind Heaven Old Emperor.

"I saw it, the legendary Tinder array, I didn't expect it to not be lost. From the direction, it should be the direction of the Divine Soil Restricted Area, what exactly happened inside?" The Heaven Old Emperor coldly said: "Who else knows about this great formation? What is the purpose of activating this great formation? "

"I don't know. In short, many unforeseen events occurred in the Divine Soil Restricted Area. As far as I know ... Previously, the people from Moon King went in there and made a huge discovery. As for what was discovered, I don't know. The old man said.

"Hurry up and investigate!" The Heaven Old Emperor snorted in anger, "Moon King and his group of people are actually sneaking around under my nose!"

[Chapter 3200](#)

Chen Xiang and the others knew that the commotion would be huge, so they were already mentally prepared. Fortunately, they were inside the Sun God Forest, so they didn't need to worry about people disturbing them.

"Chen Xiang, are you alright?" Feng Ke'er asked from outside the great array.

"No, everything is fine!" Chen Xiang was so huge, that he could only feel a warm energy flood into his body from all directions, and then enter the Divine Sense Sea s.

"How long will it last?" Song Yichen asked, only Feng Ke'er knew about this formation.

"One day, two days, or even three days is possible." Feng Ke'er shook his head: "I'm not too sure either, in short, I'll finish it in a few days."

After two days, the golden light released by the Tinder array became weaker and weaker. Chen Xiang could already see that within his own Divine Sense Sea, there was a Fire Elemental that was jumping around.

The prideful sword soul within the World Defying mad source bead was also trembling, it was unknown whether or not it was welcoming this new partner of his!

"Success, I need to go to the World Defying Stage Soul River ..." After Chen Xiang saw that sun appear successfully, he immediately felt that his Fire Seed had already been completed. Just when he was about to divide his attention to go to the World Defying Stage Soul River, he felt that his Fire Seed already had a very close relationship with him.

"What?" Chen Xiang was shocked, after he connected with the Fire Seed, he actually sensed that there was something flying out from the Fire Seed.

This Fire Elemental actually knew how to go to the World Defying Stage Soul River to search for the World Defying Stage Fierce Soul!

At this time, even though the great formation had dimmed down, it was still in operation, because the Myriad Tao Divine Soil Crystals were all flashing with light!

"Since the Fire Seed can search for the World Defying Stage Fierce Soul itself, there's no need for me to worry." Chen Xiang's mind followed the release of the Fire Spirit that was released by the Fire Seed. He could see how fast the Fire Spirit was.

That light was World Defying Stage Fierce Soul on the third floor of the World Defying Stage Soul River, it could easily fuse with this World Defying Stage Fierce Soul!

Chen Xiang's Divine Sense Sea burst with light as the intense sunlight shined down onto every corner of the Divine Sense Sea. The Fire Seed had already successfully merged with the World Defying Stage Fierce Soul, and was slowly fusing with Chen Xiang!

In just half a day, he had completed the fusion process. This process did not make Chen Xiang feel any pain, everything went extremely smoothly, and was much easier than he had imagined.

"The Myriad Tao Divine Soil Crystals have turned to ash!" Although Feng Ke'er knew about it, he couldn't help but be surprised. He said, "These Myriad Tao Divine Soil Crystals are all extremely sturdy, but they have turned into ashes now!"

Chen Xiang also saw this and nodded.

"Quick, take a look at your flame and see if it has risen in rank!" Song Yichen asked anxiously, he had never seen any strong flames before, he thought that the flames condensed from the World Defying Stage Fierce Power were strong enough.

Chen Xiang opened his palm and released a ball of flame. The ball of fire began to flicker extremely violently, and the light it released was as dazzling as the noon sun, and it could not be stared at for too long.

"This is the Sun madness fire!" Feng Ke'er exclaimed. At this moment, she was already sweating profusely, and so was Song Yichen, but when the firelight shot over, they only felt that their skin was extremely hot. If they did not use the World Defying Stage Fierce Power to block the scorching heat from entering their bodies, they would definitely feel extremely uncomfortable.

Chen Xiang immediately kept the flames. He was very excited in his heart, he knew that obtaining this kind of Sun madness fire would greatly increase his strength!

"That's great, I should be able to quickly refine the Crystal emperor next." Chen Xiang said blissfully.

Mei Jing Sisters had been taking Myriad Tao Divine Soil Crystals from the tree roots for the past few days and they had given Chen Xiang over three thousand.

Chen Xiang brought Feng Ke'er and found a quiet place before releasing the Time Domain.

"Triple time field!" After Chen Xiang released the Triple time field, he stayed inside for seventy-five years. Outside, he only spent one day.

He knew, even if he had the flames that could melt Myriad Tao Divine Soil Crystals, it would still take a very long time to refine a Crystal emperor. It was definitely not easy, otherwise the Super Yang Old Ancestor would have refined more than just nine of them.

"It was refined, but it was also not easy!" Chen Xiang took a month to melt a piece of Myriad Tao Divine Soil Crystal.

Then, he placed more than a thousand pieces of Myriad Tao Divine Soil Crystals into the Tianchuang furnace and released his strongest Sun madness fire to be burned.

Although Sun madness fire were very strong, they did not consume too much energy, and that was only one more than when he was using the World Defying Stage Fierce Power to release the Proud Flame. If he consumed too much energy, he only needed to eat the Strong strength Dan to recover.

"How many can I absorb from a thousand earth crystals?" Feng Ke'er asked.

"I don't know!" Chen Xiang shook his head: "I'll just try it and see, since I'm using the Triple time field now, there won't be any pressure!"

Chen Xiang took a total of more than twenty years to finish refining it, and even when he thought about it, he felt that it was not easy.

"Right now, it has only been refined. Next up, I have to merge it together!" Chen Xiang said to Feng Ke'er: "I'll be troubling you for the rest!"

When fusing with it, one would have to fuse together all of these melted large amounts of earth crystal solutions and compress them into a square block. Chen Xiang also did not know whether Feng Ke'er would succeed or not.

Feng Ke'er did not disappoint him, and her fusion speed was very fast.

"No, even if it is compressed into a square, it cannot become a Crystal emperor. You need to derive it once." Feng Ke'er said: "Just nine more crystals will be enough."

"Alright!"

Chen Xiang tossed and turned for a few more years, creating nine more crystals before using flames to melt them all, only then did he allow them to fuse together.

It took twenty or thirty years to melt.

Afterwards, Feng Ke'er and Chen Xiang immediately teamed up and compressed it into a square block, which could just happen to be placed inside the Super Yang Divine Alter's square block.

"I've finally succeeded!" Chen Xiang looked at the crystal that looked like it was bursting with sunlight, and wiped his sweat, "It was really not easy, using seventy years!"

"This thing should not be easy to melt ... "It seems that even if you have a lot of them, it will still be difficult to use them for weapon crafting." Feng Ke'er said.

"Yes, but it's just that I can't do it now. I'll definitely think of a way to use Crystal emperor to create two new Heavenly magic sword." When Chen Xiang took this piece of crystal out, it was unexpectedly extremely cold.

"Let me touch it!" Feng Ke'er took it and played with it: "It's beautiful, as if it was holding a square sun."

"You even want to make eight of these things!" Chen Xiang laughed bitterly, this meant that he had to refine Crystal emperor s for the next few hundred years.
