

## Dan God 3361

### [Chapter 3361](#)

In the next few days, during the daytime, Chen Xiang brought Su Meiyao, Bai Youyou and the others to shop and look at the Heaven Fire City.

Su Meiyao was more interested in medicine pills, but the medicine here was controlled by the large clans. Good pills were usually sold by auction at irregular intervals, and the ones that were usually sold were usually more ordinary or even worse.

In other words, a pill refined during practice would only have a tiny bit of use, but it was sold at an exorbitant price.

At night, he would lie on the bed and say some sweet words...

On the seventh day after Qin Shuang left, someone suddenly knocked on Chen Xiang's door with great force. and the rest were currently in the You Yao Mountain Villa, because the three young girls were able to condense Aohun holy Dan everyday. They did not have much to do, so they decided to eat pills and cultivate inside.

Chen Xiang didn't even need to sense his presence to know that the person knocking on the door was definitely his master.

"Damn brat, you're not dead? That's great!" After opening the 'door,' Lei Yichen saw Chen Xiang and was very happy. He immediately pushed him into the 'door'.

"Master, do you really think I'm dead?" Chen Xiang curled his lips.

"This... At that time, my master said that even if you could escape, you would not live long because you will be able to bring out a power that is many times stronger than yourself. "" At that time, my master said that it would definitely harm your body greatly.

After Lei Yichen finished speaking, he scolded in a low voice: "My master is speaking nonsense, he makes me worry to death."

"Master, what happened to the Tao-creation's incantations?" Chen Xiang asked anxiously: "Xiao Shuangshuang said that if I can control the Tao-creation's incantation, I can obtain a lot of power, but I do not know how to control it, the Tao-creation's incantation is inside the Six Realms mirrors."

"I don't quite understand either. In short, my master said that I need to integrate the Tao-creation's incantation into my body and soul. When I need to use it, I can make the Tao-creation's incantation release its power, and increase it by many times." Lei Yichen shook his head and said: "I'm afraid that you will have to comprehend this yourself."

"Master, I have a piece of Tao-creation Holy stone here. Would you like to refine it into my sword or the Six Realms mirrors?" Chen Xiang took out the Tao-creation Holy stone that was the size of a grain, and it had already become a light white color as it emitted a weak white light.

Lei Yichen was surprised that he actually had a Tao-creation Holy stone. He had lived for so long, yet he had not obtained one.

"Of course it's better to refine it into a Six Realms mirrors!" Lei Yichen said: "You do not need to refine your divine sword, because if you can control the Tao-creation's incantation in the future, you will be able to imbue the Tao-creation's incantation into your divine sword, and then you will be able to create enemies. Furthermore, refining the Tao-creation's Holy stone into the Six Realms mirrors, can make them stronger, and suppress the Tao-creation's incantation, otherwise they will run away."

"There's actually such a thing!" "Then Master, please help me refine it. Did you bring the tools?" Chen Xiang asked.

"Of course! I've got these guys with me. " Lei Yichen snickered.

Chen Xiang was in a hurry right now. After thinking for a moment, he said: "Master, how about you enter my furnace to refine the pill? I used the power of time on you because I needed it more urgently. "

"Alright, anyway, I can study the Tao-creation's incantations in passing!" Lei Yichen was more anxious to refine the Tao-creation Incantation, and he also hoped to refine the Six Realms mirrors once again. This will give him the chance to understand the Tao-creation Incantation.

Because he had heard his master say that in the past, Super Yang Old Ancestor and Gu Tong had once come into contact with the Tao-creation's incantation, they were both able to become extremely powerful master refiners.

After Lei Yichen entered the Tianchuang furnace, he took a deep breath and used the power of time.

"I wonder how much energy will be consumed in the use of the Triple time field?" Chen Xiang tried and discovered that he had lost a lot of energy, "Could it be because master is more powerful? So when I use it on him, I consume a lot of energy? "

If it was the Triple time field, then one day outside would mean more than seventy years within the domain. With so much time, it would be more than enough for Lei Yichen.

"With so much time, I should be enough time for master to study the Tao-creation's incantations." When Chen Xiang used the power of the Six beasts, it allowed him to sustain energy consumption.

He had originally planned to let Lei Yichen enter his Divine Sense Sea World to refine, but after thinking about how Lei Yichen was powerful, and how accidents might happen during the refining process, such as explosions, had a huge impact on his Divine Sense Sea, so he let Lei Yichen enter the Tianchuang furnace. Even if something happened inside, the Tianchuang furnace could resist a little.

It was a good thing that his You Yao Mountain Villa was growing a large amount of flowers and trees that were filled with all kinds of energy. At the same time, he could only absorb a little of the energy and at the same time, eat the Myriad Tao Divine Soil Pellets that he had stored inside to replenish his energy.

A day had passed, and when Chen Xiang withdrew his Time Domain, he felt a sense of exhaustion.

"Master, how is it?" Chen Xiang shouted.

Lei Yichen did not make a sound.

"Master!" Chen Xiang shouted again.

"Great harvest!" "The Tao-creation's incantation is extremely mysterious. Over the years, I have only comprehended seven of the Tao-creation's incantations, but I have benefited greatly from it."

"Haha, now that I have mastered the Tao-creation's incantation, I will have a big breakthrough!" Lei Yichen laughed wildly.

Chen Xiang curled his lips and said: "This is mainly because you have picked up a very powerful disciple;

"Hmph, I worked so hard to forge for you. Isn't that something good? Such a competent teacher, where are you going to find him?" In his heart, he was extremely 'agitated' towards Chen Xiang. If not for Chen Xiang, he would not have been able to come into contact with the Tao-creation's incantation.

"Your Six Realms mirrors is done refining!" Lei Yichen came out from the Tianchuang furnace and said.

Chen Xiang took it and looked at it, "You're still the same as before!"

"Tao-creation Incantation, Dao Extinguishing Bronze, do you know what that means? Those bronze are no ordinary bronze." Lei Yichen said: "This type of Bronze is extremely mysterious. Normally, after being refined by the Tao-creation Incantation, it would turn into this type of Bronze."

"Therefore, most of the divine tools refined by Gu Tong back then were bronze in color."

"Super Yang Old Ancestor has also mastered the Tao-creation's incantation, but the divine tool he refined is not." Chen Xiang said.

"That's because the Tao-creation has not mastered enough Tao-creation's Incantation. If we have Gu Tong's amount, it would turn into Destruction Bronze." Lei Yichen said: "In other words, the power released by the Tao-creation's incantation can turn into the power of the bronze exterminator. Only with the power of the Tao-creation can it exterminate the exterminator. This is a very terrifying power."

"Alright, thank you master!" Chen Xiang kept the Six Realms mirrors well.

## [Chapter 3362](#)

When Chen Xiang saw Lei Yichen's excited expression, he knew that his excitement was unnecessary. He felt that it should be Lei Yichen who 'stirred' him up, because he was the one who gave Lei Yichen the chance to grasp the Tao-creation's Incantation.

"Master, you don't seem to be happy here in Ancient Fire Divine Sect." Chen Xiang's eyes lit up, and suddenly said.

"That's right!" The eight elders and Leaders of Ancient Fire Divine Sect are all a bunch of pigs, but they actually submitted to Fierce Saber Race and Soul River Divine Race.

Speaking of that, Lei Yichen's face was filled with anger, the happiness on his face just now disappeared.

"Let's leave Ancient Fire Divine Sect." Chen Xiang said.

"Alright!" Lei Yichen very straightforwardly said: "I had the same idea for a long time, since disciple is so supportive of me, then I cannot disappoint you."

Lei Yichen knew the hatred between Chen Xiang and Ancient Fire Divine Sect, the eight great elders inside hated Chen Xiang to the core.

"Master, how about going to World Defying Stage Soul River?" Chen Xiang laughed.

"Oh yeah, I heard that there was a group of dragons above World Defying Stage Soul River. It seems like this matter is related to World Defying holy dragon. Weren't you World Defying holy dragon's friend back then? Do you know what happened? "

Lei Yichen had also heard of this matter, and it was being spread crazily in the Ancient Fire Divine Sect. This was because after the Fierce Saber Race and the Soul River Divine Race investigated the World Defying holy dragon, they found out that the World Defying holy dragon was actually the disciple of the Ancient Fire Divine Sect.

"Of course I know. I was just going to let you go find them. It's not wrong that you're with them." Chen Xiang patted Lei Yichen's shoulder, and laughed: "Who knows, it might not be long before you see my great master."

"Kid, you really know about this!" That group of dragons are really powerful, just thinking about it makes it great. " Lei Yichen laughed out loud. "Alright, after I go to World Defying Stage Soul River, I'll go look for them ... Right, how can I find them? "

Chen Xiang took out a piece of Myriad Tao Divine Soil Crystal and left his own mark inside it, as he already transmitted his words to Long Jiuxiao and Long Zhiyu.

"When the time comes, go to that lake and find a way to communicate with the people inside. Tell them that I told you to go find them, and then give this thing to them." Chen Xiang handed the Myriad Tao Divine Soil Crystal over to Lei Yichen.

"Master, when are you planning to go?"

Lei Yichen laughed: "Of course it's when the Ancient Fire Divine Sect is making the arrangements. If I were to go there myself, it would take a lot of time ... They will be sending people over very soon. I am an elder, so there will definitely be a quota. "

"Oh right, Master, what happened to the Tao-creation's Incantation?" Chen Xiang asked anxiously: "Can you tell me something?"

"This is a very mysterious process! You need to comprehend the mysteries of this incantation, learn how to integrate your energy with this incantation and let the incantation release all of your energy. In short, the process is quite complicated, I only managed to master a few of them after dozens of years in your Time Domain. " Lei Yichen was also at a loss when he said it, because he found it difficult to express that kind of feeling.

"Alright, looks like I'll have to rely on myself to comprehend it." Chen Xiang said.

Lei Yichen went back and continued to wait.

Before Qin Shuang went back, he needed to wait for her to refine her Purple Yang Excalibur. This would take some time.

After waiting for more than ten days, just as Chen Xiang was feeling depressed about why he still did not come, he heard a sound of explosion coming from outside, followed by a burst of cold air. The strange thing was, the cold air contained a hint of Sun madness fire's power.

Only Qin Shuang could use the icy cold power and release a Sun madness fire at the same time!

"Xiao Shuangshuang is fighting here, what is going on?" Chen Xiang's heart skipped a beat and he immediately jumped down from the roof. Then, he ran towards the direction of the battle wave that came from.

While Chen Xiang was sprinting, he told the few women in the You Yao Mountain Villa that he might need them to fight in the battle. To be able to make Qin Shuang take action, they must be a group of stronger people.

After getting close, waves of scorching air continued to attack, the hot air entered his body, followed by a bone-piercing coldness. This feeling was extremely uncomfortable, and Qin Shuang's current strength surprised Chen Xiang, Qin Shuang was only at the early stage of Aoshi Holy Stage, yet this kind of power.

Qin Shuang was in the spacious area of the city gate, fighting against the four men. She was holding onto her Purple Yang Excalibur, blocking their attacks, while the people from the Heaven Fire City, who were protecting the city, also rushed over.

"Xiao Shuangshuang, who are they?" Chen Xiang asked.

"One of them is from the Ancient Fire Divine Sect, and the other three are from the Fierce Saber Race and the Soul River Divine Race. They are in charge of following me and they suspect that I have met you in secret. Qin Shuang's voice was filled with anger, she never thought that these people would be so afraid.

"They're all only at the early stage of Aoshi Holy Stage, how dare they be so arrogant!" Chen Xiang snorted, then said to Bai Youyou: "Sister You You, do you want to go out and test your strength after making a breakthrough?"

"Alright!" Bai Youyou said coldly.

Chen Xiang called Bai Youyou to come out of the You Yao Mountain Villa. Bai Youyou was dressed in a black tight suit, and after she came out, she rushed like a demon towards one of the men who was controlling the dancing divine swords.

The man felt a burst of killing intent from behind him, when he noticed it, he only felt a light pat on his back, and by the time he slashed with his sword, Bai Youyou had already rushed towards another big sized man.

The man could not understand why Bai Youyou had only lightly patted him. Just as he was wondering, a cold feeling suddenly gushed out from his heart and he could not help but shiver. He felt that his body was as cold as ice, the bone-piercing coldness causing his entire body to feel pain.

Clang!

The godly sword he controlled fell to the ground. He had already lost the power to control the godly sword. He curled up on the ground, trembling like a dog.

"The Hail magic wind! "As expected of Sister You You You, she was actually able to continuously raise the level of her devilish arts. Even if it was the Aoshi Holy Stage, she was still able to completely unleash the power of her devilish arts." When Chen Xiang thought of this, he couldn't help but admire him in his heart.

It could be said that Bai Youyou's devil arts had been cultivation since he was young and had never given up. That was how many years had it been, how many realms had it been, and yet still hadn't been abandoned by Bai Youyou. And with such power, it could be said that Bai Youyou was constantly upgrading his devil arts, modifying her devil arts.

Seeing Bai Youyou joining the battle and eliminating one of them, Qin Shuang felt much more relaxed.

With just one palm, he caused one person to fall. This kind of strange method caused people to panic, the big sized man did not know where Bai Youyou came from, but seeing a cold and killing intent lady coming over, it was as though she was facing a great enemy.

The middle aged man gave up on attacking Qin Shuang and chose to attack Bai Youyou instead. Raising the huge blade in his hand, he slashed at the approaching Bai Youyou, releasing several streams of Scorching Blade Qi.

### [Chapter 3363](#)

The enemy's attack was very tyrannical, the places where the blade Qi passed all turned into lava, rushing towards Bai Youyou as if it was covering the entire sky.

Bai Youyou's entire body was releasing cold qi, forming a protective shield around himself, when that wave of blade qi swept over, it was simply unable to penetrate the ice shield released by Bai Youyou.

Just a moment ago, Chen Xiang was still sweating profusely for Bai Youyou, so he could now be at ease.

The middle-aged man cursed in his heart. He did not know where this woman came from, but she was so strange. He did not believe what he was seeing and continued to strike out with his scorching energy.

Being protected by the layer of frost energy, Bai Youyou walked quickly amidst the wave of heat emitted by the blade energy. In just a few blinks of an eye, he had already passed through the wave of scorching blade energy and arrived next to the middle-aged man.

The middle-aged man was from Fierce Saber Race, and the blade in his hand had been transformed from his arm, but the bones inside had been melted by Bai Youyou!

"Bone-melting magic palm!" Chen Xiang's heart trembled. The Bone-melting magic palm that Bai Youyou used was actually able to melt the bones of the Fierce Saber Race.

The fact that Fierce Saber Race used his arm as a wild blade showed that his arm was extremely sturdy, especially his bones. However, they had been melted by Bai Youyou, which made him extremely surprised.

"Seems like I have to learn from Bai Youyou in the future." Chen Xiang thought in his heart.

His other arm immediately turned into a wild blade, but Bai Youyou had already launched an attack consecutively, the energy in his palm was like a gale wave, surging forth like waves and smashing onto the body of the wild blade user!

The formless palm power strangely penetrated the defense of the muscles and went straight for the bones that were wrapped in flesh and blood. The bones were touched by this strange power and instantly disappeared.

The Raging Blade Master's other arm had already been struck by this power, the bones inside were all gone!

Just as the Raging Blade Master had turned pale with fright, Bai Youyou had released both his palms, releasing an icy wave of energy that sealed the Raging Blade Master in ice. She then rushed over and struck the ice cube with her palm, causing the entire block of ice to instantly shatter and the people inside to also shatter.

She did not expect Bai Youyou to be so powerful. He did not use a weapon, and just fought with his bare hands against the Raging Blade Master, and with a few moves, killed one of them.

Of course, Bai Youyou had previously used the Hail magic wind to kill a Soul River Divine Race.

Of the four people present, two of them were killed by Bai Youyou, and at this time, Qin Shuang had also killed one of the Ancient Fire Divine Sect, leaving behind one of them, the Raging Blade Master.

"Let's go!" Qin Shuang shouted.

Chen Xiang also felt a wave of aura approaching, and anxiously let Bai Youyou and Qin Shuang enter the You Yao Mountain Villa. Then, he used Counter Power Invisibility, and teleported to the crowd at a distance, following the crowd of people out of the city.

The experts of the Heaven Fire City had arrived, but it was already too late. All of the people who were following Qin Shuang had died, and those were all Aoshi Holy Stage s.

After Chen Xiang left the city, he went straight to the Transmission array constructed by the Super Yang Old Ancestor.

"Just now, it was really dangerous. Luckily, you guys came quickly." Qin Shuang looked at the flowers and plants in the You Yao Mountain Villa. There were all kinds of medicinal herbs used to concoct pills, which were innumerable.

"Chen Xiang, this brat, is really something. He only knows how to watch from the side and let two women fight him." Long Xueyi scoffed, "I thought he would attack, so I didn't go out."

"I saw that Sister You You You was so powerful, so I didn't do anything. When I wanted to do something, there was no need for me to do anything." What Chen Xiang said was the truth, and Bai Youyou had indeed dealt with those two fellows quickly.

Qin Shuang nodded his head: "I never thought that You You You would have such strength as soon as you stepped into the Aoshi Holy Stage.

Of course, Bai Youyou had a lot of battle experience, she could be considered half a teacher to Chen Xiang.

"It's just that my cultivation technique can restrain them." Bai Youyou said: "The Fierce Saber Race mainly transformed its own bones into sharp divine blades, but my techniques are specialized in dealing with bones."

Bai Youyou had experience in all kinds of battles, and at this moment, he was also chatting with Qin Shuang.

Originally, he had planned to use the same method he had used when he returned back to the World Defying Stage Soul River. However, Qin Shuang had told him that there were a lot of strong experts guarding the entrance to the World Defying Stage Soul River, and that it would be very easy to be discovered.

Therefore, Chen Xiang could only use the Transmission array again.

The time above Myriad Tao was the same as the time inside the World Defying Stage Soul River. Above the Myriad Tao was the daytime, while inside the World Defying Stage Soul River was the daytime.

Chen Xiang chose to head to the World Defying Stage Soul River during the day because the Transmission array would teleport him to the river side. If he teleported at night, he would encounter countless World Defying Stage Fierce Souls and would be in big trouble.

"That's the World Defying Stage Soul River. Do you guys want to come out and take a look?" Chen Xiang asked.

Long Xueyi was the first to come out, she was extremely curious about World Defying Stage Soul River and immediately ran out.

Bai Youyou, Su Meiyao and Qin Shuang also came out, looking at the calm and pitch black water of the World Defying Stage Soul River!

"The first time I came here, I almost went down. At that time, I didn't know how powerful this river was." Chen Xiang looked at the river surface, he could not see the other side, and said: "Wanting to cross World Defying Stage Soul River is not easy, I can only fly, and I don't even know how wide this river is, what if I fail to reach the other side before nightfall?"

"Your Six Realms mirrors, we can hide inside the Six Realms mirrors and then hide ourselves. The Six Realms mirrors can release a protective shield and not leak out any aura." Feng Ke'er said.

"It's hard to say, but the World Defying Stage Fierce Soul that came out of the World Defying Stage Soul River possesses a very mysterious devouring power. The protective shield that the Six Realms mirrors released is made of energy, so it might be devoured." Chen Xiang shook his head.

"Why don't we do an experiment and at night, think of a way to get a few World Defying Stage Fierce Souls and then use the Six Realms mirrors to try it." Su Meiyao said.

"Alright, let's leave this place for now!" Chen Xiang looked at the sky and said.

Everyone entered the Six Realms mirrors. Originally, he had planned to let the Six Realms mirrors fly and roll about, but he never thought that the Six Realms mirrors would actually be able to float.

"The Six Realms mirrors can actually fly? What's going on?" Chen Xiang was very surprised. The Six Realms mirrors could fly now, but its speed was much faster than when it was scrolling on the ground.

#### [Chapter 3364](#)

"Is it related to him joining the Tao-creation's Holy stone?" Su Meiyao said. Advertisement -

Qin Shuang shook his head: "No, my Purple Yang Excalibur has also joined the Six Realms mirrors, but I can't fly on the sword. My guess is that it has something to do with the Six Realms mirrors's Tao-creation's curse, maybe the Tao-creation's curse has something to do with flying."

When the Six Realms mirrors was being refined for Lei Yichen, it was played around with for a long time by Lei Yichen. At that time, Lei Yichen was mainly playing with the Tao-creation's Incantation, so Qin Shuang's guess was very possible.

"However, I'm not flying high. Could it be that my strength is not enough?" Chen Xiang controlled the Six Realms mirrors and flew at its fastest speed. Although it was not fast, it was extremely fast.

"Seems like I have to find some time to study the Tao-creation's incantations. Maybe it can allow me to fly."

Chen Xiang planned to release Red fire dragon when he was crossing and then ride them to cross. However, he was worried that if the river was too wide, he wouldn't be able to cross it even at night.

At night, Chen Xiang and the others stood atop a tall mountain, looking at the light mist that surged over from afar.

"So beautiful, like countless fireflies!" Long Xueyi laughed.

"It is indeed very beautiful. When our spirit went to World Defying Stage Soul River to look for World Defying Stage Fierce Soul, we didn't even encounter this many World Defying Stage Fierce Soul s. "This is also the first time Qin Shuang has seen this, and he felt incredibly shocked.

Countless World Defying Stage Fierce Soul s were like a glowing tide as they surged forth, covering the dark night and illuminating the world.

"What's going on? It was getting closer and closer! Little Scoundrel, are you sure these World Defying Stage Fierce Soul won't come over? " Although Su Meiyao was a little intoxicated by the sight, he suddenly realised that something was amiss. Just now, the tides of the Madness soul were still moving very slowly, but now, it was moving even faster.

"But... This is also the place where I saw it last time! " Chen Xiang and the others were last time at this mountain range, so he couldn't remember wrongly.

"What the hell, they're coming! Let's go!"

They who had originally enjoyed the sight, hastily entered the Six Realms mirrors s. Chen Xiang controlled the Six Realms mirrors to fly up, and quickly flew away.

"Then what do we do now? We were planning to capture some of them and test them out. " Long Xueyi said.

Those that they fished out from the river during the day did not swallow energy. It was as if these that came out at night had a very strong devouring power, or perhaps these World Defying Stage Fierce Soul would only devour at night.

"Let's get away from here first." Chen Xiang controlled the Six Realms mirrors to speed up its flight. But no matter what, they could still see the sandstorm like World Defying Stage Fierce Soul from the Six Realms mirrors that swept towards them.

"Why is this happening?" Chen Xiang found it hard to understand, as though these innumerable World Defying Stage Fierce Soul were about to swallow this entire piece of land.

"Is it because our energy is too strong? attracted these guys over? " Su Meiyao said as she frowned.

"That's not it, last time Uncle Song and I were fine, but they were all in the middle stage of Aoshi Holy Stage, so they were even stronger than us, so we couldn't attract these World Defying Stage Fierce Soul s."

Chen Xiang shook his head: "Something must have happened to the World Defying Stage Fierce Soul!"

The Six Realms mirrors flew towards the Milky Way Mountain Range. Chen Xiang wanted to find the World Defying holy dragon and ask them what was the reason for this.

There were many people in the small city outside the Astral River Mountain Range. They were all here for the Divine Dragon Lake.

Divine Dragon Lake was the lake where World Defying holy dragon and the rest were at. This was the name everyone had given it!

Above World Defying Stage Soul River, as long as one was well-informed, they would know about the Divine Dragon Lake. They had come here only to see the legendary dragon battles, they thought that the Fierce Saber Race and the Soul River Divine Race would definitely attack the Divine Dragon Lake forcefully, after all, many of them had died there, and they were all experts.

"This place is so lively!" Through the Six Realms mirrors, Qin Shuang saw many people hunting beasts in the Heavenly River Mountain Range. When she was at Ancient Fire Divine Sect, she had heard about the matters there.

Now she already knew why so many dragons suddenly appeared in the Divine Dragon Lake through the teleportation channels of the Divine Soil Restricted Area. Furthermore, this cute girl, Long Xueyi, was like a white dragon. Later, Qin Shuang also found out that this White Dragon was actually Chen Xiang's wife too.

When Chen Xiang arrived at the Divine Dragon Lake, he opened a small opening for the Six Realms mirrors to fly in. All along the way, the Six Realms mirrors was concealed by Chen Xiang using the Counter Power, which was impossible for others to discover.

When he returned, Chen Xiang saw that the island had been expanded greatly, and many buildings had been built. In the middle, he had 'made' a villa with mountains and water.

Chen Xiang came out of the Six Realms mirrors and went straight to Long Zhiyu.

"Chen Xiang... He came back so quickly! Seeing that you're in a hurry, what's going on?" Chen Xiang walked into a hall, and Long Jiuxiao was also there.

"Big news!" Chen Xiang said: "Do you know that whenever night falls in World Defying Stage Soul River, the World Defying Stage Fierce Soul will always come from the river?"

"Of course I know that those World Defying Stage Fierce Souls are extremely terrifying. At night, these World Defying Stage Fierce Souls possess a very strange devouring force that can devour all kinds of energy. "Wherever you go, not a single blade of grass grows." Long Zhiyu said: "What's wrong? Just stay away from these things. "

"The World Defying Stage Fierce Soul has spread even more since it came out of the World Defying Stage Soul River. I wonder how it's doing now!" Chen Xiang told Long Zhiyu about what happened to him before.

After Long Zhiyu finished listening, his expression slightly changed. "It's very possible that it's the Madness soul's natural disaster!"

"This... What exactly is going on?" Chen Xiang was shocked, "Is it very dangerous?"

"If the defense is not good, at least half of the people above World Defying Stage Soul River will be engulfed." Long Zhiyu said: "I also heard from my previous master that a natural disaster of the Madness soul also happened once before. At that time, many people did not know, that above the World Defying Stage Soul River, there were very few people who died."

"He can even devour World Defying Stage Fierce Soul during the day?" Chen Xiang felt that this was unbelievable.

"You can't, but during the day, the World Defying Stage Fierce Soul will float high in the sky, so it's hard to catch it anymore. Once night falls, it will descend and begin to devour." Long Zhiyu said: "Perhaps, this is a good thing for us flying dragons, because I can fly up there. At that time, I will be able to consume a large amount of these World Defying Stage Fierce Souls."

Long Jiuxiao laughed: "If that's the case, then when the time comes, we can have a hearty meal and eat a large amount of World Defying Stage Fierce Souls. This will help us strengthen our World Defying holy soul and maybe help me reach the middle stage of Aoshi Holy Stage."

"Is the World Defying Stage Fierce Soul delicious?" Long Xueyi came out from the Six Realms mirrors and asked curiously.

"It's not tasty at all." said. He could only wait a few more days to see if the Madness soul natural disaster happened.

### [Chapter 3365](#)

Originally, Chen Xiang was going to cross the river, but now that something like this had happened, he could only wait and see. Almost all of the books he wanted to read were there, and they were even faster to find than the usual stations. There were no ads in the entire text.

To ascertain this matter, he entered the Six Realms mirrors. Afterwards, he left the Divine Dragon Lake with the few girls and went to the small city outside. There were all kinds of people here, and he could learn a lot of things from them.

As expected, not long after Chen Xiang arrived, he found out about the Madness soul's natural disaster. A large group of World Defying Stage Fierce Souls came out of the World Defying Stage Soul River and slowly floated over.

However, many people did not panic, because they knew the solution. Hiding deep in the ground, or hiding in the caves, these were all the experiences they accumulated from the Madness soul disaster.

Fierce Saber Race and Soul River Divine Race were definitely very familiar with the Madness soul's natural disaster, so everyone must have known about it through them.

"Come, let's give it a try and see if we can catch some World Defying Stage Fierce Souls during the day." Chen Xiang said: "I wonder how the World Defying Stage Fierce Souls that come out of the World Defying Stage Soul River are different from the ones that we use our souls to feel when we cultivate."

Through his Divine Sense, Chen Xiang had caught quite a few World Defying Stage Fierce Souls, but he couldn't absorb any of them.

The Madness soul calamity had already covered the entire Divine Dragon Lake, and Chen Xiang did not return to the Divine Dragon Lake yet. He knew that Long Zhiyu definitely had a way to deal with it, so the seal on the Divine Dragon Lake might even be able to withstand the World Defying Stage Fierce Soul. Fiction 80txt. /

Chen Xiang had already gone to an area that was far away from the city, where no one was around and his Six Realms mirrors was hiding underground. Right now, he was not sure if the Six Realms mirrors could withstand the World Defying Stage Fierce Soul's devouring. 800 Tales Network

After a night, Chen Xiang came out from underground and discovered that the mountain range that was originally lush green with flowers had actually become barren. There were no longer any flowers or trees, only the roots that were buried deep in the ground.

"How terrifying!" Chen Xiang released the Red fire dragon and rode it into the sky.

He surveyed the land from a high vantage point. There was not even a shadow of the green leaves below him, they had all been devoured by the World Defying Stage Fierce Soul. He did not know when he would recover from this natural disaster.

The Red fire dragon Chen Xiang released was not very big, so he wouldn't be too conspicuous and he could fly high up in the sky.

From below, it looked as if the entire sky was covered by a sea of golden clouds, making it look extremely beautiful. However, the golden fog was made up of countless World Defying Stage Fierce Souls, and at night, these World Defying Stage Fierce Souls would become extremely terrifying, devouring everything.

When Chen Xiang reached high up in the air and came into contact with the World Defying Stage Fierce Soul, he felt a very berserk energy flood into his body. Luckily, he was able to resist this energy even if he did, otherwise it would have quite a great impact on him.

"These World Defying Stage Fierce Soul are actually not separated into individual groups, but are actually split into a large group." Just as Chen Xiang was touching these World Defying Stage Fierce Soul, he felt a surge of energy suddenly turn into a wave and attack him.

He took out the Tianchuang furnace, collected around ten thousand light dots, and then went deeper. Right now, he only needed to wait until night time to release a small amount of World Defying Stage Fierce Soul to see how it was devoured.

Only a small number of World Defying Stage Fierce Soul s, even if they were to be devoured, Chen Xiang was able to control them.

Long Xueyi asked Chen Xiang to give her a few World Defying Stage Fierce Soul s from the Tianchuang furnace s. From the looks of it, they were just a few grains of rice.

"I want to try and see if it tastes good." Long Xueyi laughed as he looked at the few spots of light on his palm. These were World Defying Stage Fierce Soul, no matter how he looked at it, they did not look like delicious food.

"You gluttonous dragon, it's been so many years but you're still the same." Chen Xiang twisted her cute face.

Su Meiyao and the others also came over to watch.

"The World Defying Stage Fierce Soul above the World Defying Stage Soul River is indeed different. The World Defying Stage Fierce Soul that we sensed in the Divine Soil Restricted Area back then is not like this." Su Meiyao said.

"Yes, very violent!" Bai Youyou used his finger to touch one of the light spots, and he felt a pain like that of a mosquito biting.

"Will it be alright to eat it?" Su Meiyao was a little worried: "Xueyi, you better not eat it, I will refine a pill for you to eat!"

"I just wanted to try." Long Xueyi had already swallowed those few World Defying Stage Fierce Soul s.

Qin Shuang was also extremely curious about what would happen after he directly eats all these World Defying Stage Fierce Soul s.

"Any reaction?" Chen Xiang patted her face.

"It was refined by me, so the energy released by these little things is pretty good. It can strengthen the World Defying holy soul. Although it was violent in the beginning, it was swallowed by the World Defying holy soul the moment it came into contact with it." Long Xueyi laughed, "If we dragons were to fly high in the sky and swallow us, we would definitely be able to improve very quickly."

Chen Xiang's eyes lit up, and said: "Wait until daylight, I will let my Red fire dragon go up to eat until it's full."

"We'll just eat the Aohun holy Dan." Su Meiyao said: "We don't have flowers that are evil like you guys."

There were a lot of World Defying Stage Fierce Soul in the sky, it could not be counted.

It was still daytime when Chen Xiang came to the ground and released the Red fire dragon. The Red fire dragon also released the Red fire dragon to make it the largest, opening its huge mouth and releasing a suction force, like a super whirlpool in the ocean, it engulfed the World Defying Stage Fierce Soul.

"Be careful, don't make your Red fire dragon choke. If you have indigestion, it will be very troublesome." Seeing the way the Red fire dragon ate, Long Xueyi was also shocked. It was even more exaggerated than she had imagined.

"When did you have such a dragon!" Su Meiyao had only seen Chen Xiang riding on a small dragon before, but now that the Red fire dragon had become the largest, the power it was emitting scared her.

"This dragon is different from the dragons in Heavenly Dragon City. It has a special feeling, it gives people a feeling of fear!" Bai Youyou frowned.

"How do you feel?" Chen Xiang asked, he did not feel anything.

"Death!" Long Xueyi said.

"Destroy!" Bai Youyou said.

"Evil!" Qin Shuang said.

"Kill!" Su Meiyao said.

Chen Xiang was startled, he looked at the four women, their expressions extremely serious, not like they were joking, but he could not sense any of their auras.

He suddenly thought back to when he met Long Zhiyu at Blood Wind Fire Sea. Long Zhiyu had once told him to think of a way not to get destroyed by the Red fire dragon, and to let him control the Red fire dragon well!

"Is this a good thing?" Chen Xiang was stunned for a moment, and then asked.

Bai Youyou shook his head: "I don't know, but if I am controlled by you, then it is not a bad thing! However, if we lose control, it will be hard to say! "

Chen Xiang controlled the Red fire dragon to continue devouring the large amount of World Defying Stage Fierce Soul s, and the World Defying Stage Fierce Soul s were like seawater as they crazily rushed into the Red fire dragon's mouth.

"I'll definitely be able to control him." Chen Xiang said as he frowned, his fists clenching tightly.

### [Chapter 3366](#)

Shen Xiang did not know why, he could not sense the feelings of these women on the red fire dragon, and Feng Ke, who had been with him, did not feel it, otherwise he told him long ago.

Qin Shuang may have already sensed it before, but I am not sure, I will tell it now.

"Don't the grandmother yell at me before, because she saw that there is something wrong with my red fire dragon?" Shen Xiang secretly thought, continue to control the red fire dragon to devour those proud world.

There are a lot of arrogant madness in the sky, and how to devour the red fire dragon can not reduce these proud world madness.

"Satisfy meal." Shen Xiang looked at Long Xueyi and smiled: "Would you like to go shopping too?"

Long Xueyi originally thought, but then he shook his head again: "It's still a proud soul."

The proud soul of Shengdan is also refining the proud world, and it feels better to eat. If you eat these proud worlds directly, you need to go to refining. The process of refining is very long, so Long Xueyi finally decided not to have eaten.

As the sky gradually dimmed, Shen Xiang returned the red fire dragon to the Shenhai world. After returning, he turned the red fire dragon into the original six beasts, and then the six beasts began to refine the large number of proud worlds swallowed today.

"We are going back to the deep below, and it is going to be dark now," Qin said.

After returning to the secret room in the underground, Shen Xiang took out six mirrors and released a few heroes who were caught during the day.

After dark, the proud world madness finally reacted again, and began to produce the power of swallowing.

Shen Xiang stood on the mirror of six glasses. He hurriedly controlled the six mirrors, letting the six mirrors release a shield. After seeing the shields that the proud spirits touched the defense, they stopped and could not continue to approach. .

"Successful?" Shen Xiang was slightly surprised, but he soon discovered that these proud mad souls entered the energy of the swallowing shield.

Although it only devours very weak energy, it can't affect the shield of the six mirrors, but if there are more heroes, then the speed of engulfing will be very fast.

Shen Xiang controls the movement of the six mirrors. Although there is a distance from those who are proud of the world, the proud world can still absorb the energy of the six mirrors in the distance.

"What is going on? These proud world madness can actually devour the energy of the six mirror shields. This is terrible." Shen Xiang was disheartened. The shield released by the six mirrors could not be defended. These strange and proud worlds.

"Enter the six mirrors." Su Meiyao said: "The six mirrors are an artifact, and they are made of a variety of materials. Maybe they don't need any shields, they can directly resist these things."

After Shen Xiang entered the six mirrors, he released more arrogant madness, and now there are dozens of them.

The proud madness is like a firefly. Floating in this dark stone room, the six mirrors are quietly flat on the ground, but these proud mad souls are not close, and there is no energy to swallow.

If the proud world can swallow the energy, it will shine a flash of light, but now there is no, it can be seen that the six mirrors of a little energy are not released, the proud world is not sensed.

"The six mirrors are really magical. With so many crystal refinings, they are not smelled by these proud madnesses." Shen Xiang is now a peace of mind, and the six mirrors can defend these proud spirits.

"Would you like to try it out." Qin Shuang said: "There are only a few arrogant madness here, and the effect may not be too obvious. If you go to the above, there will be many arrogant madness, then you can really test the six mirrors. Defensive ability."

Shen Xiang nodded. He came out of the six mirrors. After the dozens of proud spirits sensed him, he immediately floated and began to swallow when he was close to him. He did not need to touch him.

"These little things!" Shen Xiang released a mental power, grabbed all these proud madness, and threw them into the Tianchuang furnace.

"I won't go out. I will control the six mirrors below." Shen Xiang hid in the deep secret room and controlled the six mirrors from one passage to the ground.

After coming to the ground, Shen Xiang passed through the induction of six mirrors and saw that there were all kinds of firefly-like light spots everywhere. It was densely swayed like a glowing sandstorm, and it was shocking and full of horror.

The six mirrors stayed on it for a while, and Shen Xiang did not sense the energy of the six mirrors, indicating that the six mirrors do not need any energy shield protection, nor will they be discovered by these proud madness.

"Successful, it seems that we can go to the other side to see." Shen Xiang is very excited, control the six mirrors back.

After the six mirrors came back, he carefully examined it again, and then he was relieved.

At dawn, Shen Xiang originally wanted to release the red fire dragon, but the six beasts were sleeping in the Shenhai world, apparently eating too many proud madness yesterday.

When the six beasts are asleep, they release a burst of holy energy. He let his proud sacred soul absorb the energy and have a good effect.

"Then we will start on the road!" Qin Shuang has been eager to wait, because her grandfather is likely to be on the other side.

"it is good!"

Shen Xiang entered the six mirrors, and then came out from the deep ground. After coming to the ground, the six mirrors floated and quickly flew to the proud soul river.

He had told Long Jiuyi and Long Zhiyu before, he would not come back for a while, and he did not tell them to go to the proud world, otherwise they would be blocked by them.

Long Xueyi, a few of them also came out from the Youyao Mountain Villa, together in the room inside the six mirrors, looking at the sea of light and fog outside.

"These proud spirits are just a layer of proud madness? I don't know what will happen on the second, third and fourth floors." Long Xueyi is very curious.

"Small fart dragon, how many layers of your proud madness?" Shen Xiang only remembered now.

"Of course, it is four-story. I am a proud beast. I can go to the fourth floor with ease. It is a mad dragon soul." Long Xueyi said: "Don't look down on people!"

Shen Xiang just wanted to say something, and the six mirrors suddenly trembled fiercely.

"What's wrong?" Bai whispered and asked.

"I bumped into something!" Shen Xiang was very surprised: "This thing will move, just passing by me, I will be hit!"

Later, they could see through the six mirrors what they had just hit, and it turned out to be a giant leopard with a scale.

"This is... the mad beast!" Shen Xiang exclaimed: "Is this kind of thing not to be swallowed up?"

The mad beasts were not affected, which made Shen Xiang feel incredible.

boom!

There was a mad thunder in the mouth of the giant leopard, and it was beaten on the six mirrors, making the six mirrors violently shocked.

"This guy, so arrogant!" Shen Xiang was angry and released two poisonous monkeys.

### [Chapter 3367](#)

Both poisonous monkeys were mad beasts. After they went out, they did not have any influence, and they were not discovered by the giant leopard.

The strength of the giant leopard should be in the middle of the proud world. The strength of the poisonous monkey is not strong, but it is very poisonous, and the speed is fast. It is very strong. Soon, the thick scale of the giant leopard is poisoned by the monkey. To catch it, the poisonous monkey squirts a venom from the tip of the claw and injects it into the body of the giant leopard.

It wasn't long before the giant leopard fell to the ground, and Shen Xiang brought in the giant leopard.

Shen Xiang took out a beast nucleus from the giant leopard body, and then placed the beast nucleus outside, and found that it was not swallowed by the proud world.

"They are all family, so they won't swallow the same kind?" Shen Xiang frowned.

"Maybe these mad beasts are the evolution of the proud madness in the days of natural disasters." Su Meiyao said: "The beasts of the beasts contain a lot of power, but they are big tonics."

"Forget it, give these little guys!" Shen Xiang gave the beast to three poisonous monkeys, and the poisoned monkey became stronger. After that, he was his best card.

The six mirrors continue to fly fast, now he knows that the mad beast is okay here, the night can still walk safely, will not be swallowed, and these mad beasts will madly swallow the proud world, used to strengthen themselves .

"After the madness, these mad beasts will definitely become very strong." Qin Shuang said: "It is better to let your three monkeys go out and try them. Can they swallow the proud world?"

Shen Xiang let the poisonous monkeys go out. Although the poisonous monkeys can swallow them, the speed of eating them is very slow. After all, the poisonous monkeys are too small, and there is no other way to swallow them quickly. Even if Shen Xiang catches a lot to help them, they have no So fast to digest.

"The effect is not very good. They will increase the speed of the beast kernel to increase more quickly." Shen Xiang said that before he fed the proud spirit Shengdan to the poison monkey, the poison monkeys liked it very much, but they refining slowly. Can only be eaten once every other time.

When passing by a city, Shen Xiang found that the whole city was empty and should all be hidden under the deep ground. As long as the energy is not sensed by these proud madness, it is safe.

All the way straight, the six mirrors soon came to the shore of the proud soul river.

"I want to start crossing the river." Shen Xiang said: "I hope everything goes well!"

The six mirrors have already flown to the river. At this time, there are a lot of proud madness coming out, endless and general, and I don't know where these proud world mad souls come from.

"These proud madnesses are very weak, but they have a certain amount of swallowing power. How did the proud world madness come into being?" Shen Xiang looked at the proud world, and the river seemed to be giving birth to a large number of singularities all the time. Madness.

Countless proud mad souls overflowed from the river and only flew in the same direction, but did not fly to the mysterious opposite.

"There is no such thing on the other side?" Shen Xiang's six mirrors are still very low from the river. They can't fly too high. This makes him a little embarrassed. If something is so powerful in the river, it will definitely make him unprepared. .

In the six mirrors, everyone's heart is full of expectation, because they will soon be able to go to a field full of mystery. In the place where they were, many powerful people know nothing about this mysterious field. Those stronger and stronger are mysteriously missing.

"My grandfather, the ancient boy, they should all be here. They are powerful and capable of crossing the proud world." Qin Shuang said: "My grandmother seems to know some things about this other side, but she refuses to say, And she is full of fear of this place, and I don't know why, is there a lot of great things there?"

"In the past, I will know." Shen Xiang said: "At that time, you have to stay in the Yaoyao Villa honestly. You must never come out. If you are scattered, it is too dangerous. If I am alone, I rely on six. The mirror can easily escape."

A few women nodded, their strength is not weak, but in the face of the unknown danger, they need to be more cautious, if only Shen Xiang himself, can retreat, but they do not sink so many means.

The six mirrors flew above the proud world of the river, very calm and stable, and did not encounter anything. All the way, there are countless proud madness flying out of the river.

These proud madness did not sense the presence of six mirrors, so the six mirrors are very safe.

The night soon passed, and the six mirrors still flew over the river. The river was very wide, so that Shen Xiang felt like he was crossing the sea. At this time, the two sides could not be seen. The six mirrors were suspended at a height of a few feet from the water. The river below is dark and looks very strange, which is a little scary.

"It's all daytime, it's not on the other side." Shen Xiang frowned and said that his six mirrors are very fast, and at this speed they can't reach the other side overnight, showing how wide the river is.

During the day, no arrogant madness flies out of the river, making the river look even more dead.

Shen Xiang can only continue to let the six mirrors fly quickly. He feels that he should see the other side soon. He is very confident about his speed.

Three days later, in the middle of the night, the six mirrors were still in the middle of a large number of proud madness, but then came to an area where there was no arrogance.

"Look at the river." Long Xueyi shouted.

Before the river was black lacquered, but the river here was pale gold, and the lake was not so dead and quiet. In this area, there was a weak breeze blowing the river, the pale golden river was slightly rippled, sparkling, golden The brilliance of the brilliance is very beautiful.

"How could this be?" Qin Shuang said: "Be careful, maybe there is something here!"

"You can see the other side!" Shen Xiang exclaimed.

In the six mirrors, they can see a large tree in the distance. The river banks are all trees, which can be clearly seen under the golden light of the river, and these trees are very tall.

The other side is actually in the middle of the night, there will be no arrogant areas of arrogance.

"I don't know what kind of environment is it?" Su Meiyao's charming eyes are full of curiosity, staring at the clear light curtain in the room, from which the light curtain can see everything outside.

"I knew it in the past. I made the six mirrors smaller." Shen Xiang's six mirrors can be small and small, and at this time it becomes only the size of sand, which is safer.

The six mirrors themselves can hide the energy, and now they become very small. If you don't deliberately detect all the movements around you, it is difficult to find the existence of the six mirrors.

In the back, Shen Xiang put a lot of materials into the six mirrors, which is a very wise choice, and now it is very useful.

"There is something jumping out of the river, it's a human! Golden man!" Long Xueyi shouted, very surprised.

### [Chapter 3368](#)

Shen Xiang, they are now focusing on the person who jumped out of the river!

"There is one more!" Long Xueyi shouted again.

These people are slender, light-haired, and their bodies are like gold-colored scales. They are shining with faint golden light, which looks like the golden light on the river.

"More and more." Shen Xiang said.

The golden portrait is a fish that leaps from the river and climbs the river bank. There are more than a hundred.

Shen Xiang's six mirrors have already flown at this time, quietly following these people into the woods.

Among the forests, there are all kinds of beautiful flowers, and in the darkness, colorful and splendid brilliance is released, which makes the forest full of gorgeous scenery.

The group of gold scales was called by something and consciously came to an empty place.

"Yes, we have a lot of good seedlings, and the birth is the strength of the proud world. Haha." An old man suddenly appeared. The old man's mouth has two squid-like beards and his mouth is like a fish mouth, and there are fish scales on the half of the face.

Hearing the voice of the old man, Shen Xiang probably understood it!

"I didn't expect the ethnic groups on the other side to be humanoid creatures born out of the world's madness." Qin Shuang said: "It should be more than just the mad fish, there will be more ethnic groups here."

"These guys should be considered mad genie! Xiaoshuang cream, have you heard of it?" Long Xueyi asked, and several of them followed Shen Xiang's name as Qin Shuang, Qin Shuang did not mind.

"I haven't heard of it. I don't know how many such groups are there. In short, the strength of these guys is not weak. One birth is the peak of the proud world!" Qin Frost frowned, and it is not easy for us to cultivate to the peak of the proud world.

"Yes, they will soon be able to step into the sacred world, and it is indeed a very powerful group!" Bai secluded said.

"The ethnic groups here should be the most powerful of the Yaozu! On the other side, they are all mad beasts and human beings." Su Meiyao said: "The babies that have just been born are the peaks of the proud world, then among them The core strength must be strong!"

Shen Xiang said: "They are all born out of the proud world, why can the proud world of this world directly breed this powerful demon?"

More than a hundred fish people have gone far, and Shen Xiang is not going to follow the past. They don't know what the fishermen's attitude towards humans is. If they are hostile, they have no use in the past.

"Go ahead, continue to explore and explore to see if there are any places where humans gather." Qin Shuang said: "In a sense, the Soul River Protoss and the Mad Knife are also born out of the proud world, they belong to The demon, but with no obvious features, and like humans, will be considered human."

The characteristics of the mad knife family are more prominent, and their arms can be turned into a very strong knife.

Shen Xiang controlled the six mirrors and flew forward. He wanted to leave the forest... However, when he flew to the daytime, he still did not fly out of the forest. There are all kinds of sky trees everywhere.

"Would you like to go out and see if you can meet a better talking guy." Shen Xiang asked for advice from several women.

"Okay, but you have to be careful." Su Meiyao nodded, and several of her women also nodded and agreed, and then Shen Xiang sent them to the Youyao Villa.

Shen Xiang walked out of the six mirrors to be truly on the opposite side of the mysterious.

He took a deep breath of air and found that the air contained a very strange energy, like the soul of the proud world, so that he could not help but take a few more mouthfuls.

Shen Xiang walked alone in the forest, saw beautiful flowers and plants, and got in and planted for several women to watch.

After a long walk, he suddenly heard the sound of horseshoes running.

"Is there a horse in this place?" Shen Xiang quickly jumped into the canopy above a big tree and hid it.

He just jumped up and saw a horse running down and stopped at the place where he had just collected flowers.

To be precise, this is not a horse, but a human face. This is a man!

The head of the horse is the upper body of the human body. He has arms and looks like a handsome man. He wears a soft armor and wraps his body very tightly. He carries something on the horse and doesn't know what it is.

"Is it the Terracotta?" Shen Xiang's heart said: "This guy seems to have found that there is movement here, so he came over!"

Shen Xiang carefully sensed the strength of this man, is the middle of the proud world, is one level higher than him.

"Not in the late stage of the sacred world, there should be nothing to fear, I will meet him." Shen Xiang made up his mind.

"Cough!" Shen Xiang coughed twice in the tree.

After the following people discovered it, they didn't know what was going on. He suddenly had a bow and arrow in his hand, pulling the bowstring at a very fast speed, firing an arrow and shooting at Shen Xiang.

"Your uncle!" Shen Xiang quickly ducked, and his heart darkened.

The strength of this man is very strong, the speed of archery is extremely fast, Shen Xiang has just evaded, and it is a rain of arrows. Shen Xiang has to use six mirrors to block it.

"Hey, what do you mean? Just just met, you want my life?" Shen Xiang was angry, decided to give a good lesson to this stinky horse, he released three poisonous monkeys.

The man seems to find something close to him, and his heart is in a desolate situation. He turns his body in the same place, and the bow and arrow in his hand are shot in succession, but he is not able to beat the poisonous monkey.

The man was regretted for a while, and he did not expect to encounter such a tricky prey.

"Use drunk magical poison." Shen Xiang gave orders to three poisonous monkeys.

The poisonous monkey launched an attack, in which two poisonous monkeys distracted the attention of the horse, and the other one was close to the human horse, scratching the horse's buttocks and injecting drunk magic.

The human body is so big, it's too good to start.

After the poison monkey succeeded, Shen Xiang let the poison monkey come back.

"You...you are despicable." The voice of the man was a little weak, with endless fear.

"Live, I was going to talk to you. I didn't expect you to say anything, just attack me directly." Shen Xiang jumped from the tree and looked at the stupid man.

"What the \*\*\*\* are you? You are not a demon!" The man saw that Shen Xiang had no characteristics of a monster, and shouted: "You are a man!"

"Yes, do you want to die?" Shen Xiang smiled coldly: "You can't do it. I will kill you now. Damn the man, you almost scared me, right?"

Shen Xiang took out the Jiuyi Excalibur and placed it on the neck of the man. The man who fell on the ground was trembled at this time. He was drunk and magical. His body was soft and only a little strength could make him speak reluctantly.

"I... I don't want to die, you don't want to kill me." The man is very afraid of death, and there is a domineering stance of just bowing and archery, just like a dead dog pleading for Shen Xiang.

### [Chapter 3369](#)

Shen Xiang saw Centaur's look of death at this moment, and his heart was speechless. The Centaur archery was just awesome, cool, but now it has become this bear.

"I can't kill you, but you almost killed me just now. You scared me to know?"

Shen Xiang's voice is full of threats and says: "So, you have to give me some compensation... Are there any precious things on your body?"

Centaur has been poisoned. He seems to know that he has a very powerful poison. Even if he uses his strong strength, he can only slowly push the poison away. If he wants to detoxify himself, it will take a long time. .

"Big brother, I am sorry! I came out to hunt here. I thought that everything here is prey, and you look... it looks like... like a monkey, that is a monkey!" Centaur said with a sad face: "If I Knowing that you are human, I will never fight."

Shen Xiang expression A cold: "I am like a monkey? Have you seen a monkey so handsome? It seems that you don't want to live, actually say that I am like a monkey!"

Centaur stunned, more panicked, hastily shouted: "No, no, it's all my eyes, I'm wrong, you guys don't care about villains, let me go, I'm still young, don't want to die, big brother!"

"As for your bear, I am too lazy to kill you." Shen Xiang coldly snorted: "Quickly hand over your good things, I may be able to spare you, or I will take you to feed the monkeys."

Shen Xiang showed the three poisonous monkeys and saw the three little monkeys. Centaur had a fear on his face because he was poisoned by the three monkeys.

"I... I have no good things on my body," Centaur said.

"In this case, I can only send you on the road." Shen Xiang touched the blade, said with a sneer: "My three monkeys are starving! Don't worry, when your body is foraging, you already Dead, I can't feel the pain."

Centaur was frightened and cried out. This made Shen Xiang didn't know whether to cry or laugh. This guy also looks like a horse. He cried when he cried.

"Big brother, I am really wrong, you let me go!" Centaur did know that he was wrong, regretted it, and regretted crying.

"There must be something good in you." Shen Xiang coldly snorted, he suddenly felt that the Centaur was not only worried, but also a bit stupid.

"No... can't give it to you." Centaur swallowed and then courageously said, "You can't die for you!"

Shen Xiang thought about it and said, "Okay, I won't kill you, I will help you detoxify!"

Centaur heard it, and I was so happy that I quickly said, "Thank you, I will not attack you again in the future."

"Wait, don't be too happy! I just came to this ghost place, I am not familiar with life. You need to take me a ride and take me to a place with humans. I will ride on you. It will feel very good." Not bad," said Shen Xiang.

"No, I can't be riding, and I can't die." Centaur said reluctantly.

“Well, this won’t work, that won’t work, I can only take you to feed the monkeys.” Shen Xiang let the three poisonous monkeys release the claws with acute poison.

After Centaur saw it, he almost cried out. He was a noble Centaur. How can he feed the monkey?

“I can give you good things, but not the one on me. I will take you to a place where there are many good things, can you get them, look at yourself,” Centaur suddenly said.

Shen Xiang coldly snorted: “How is this called? It is clear that I have to get it myself. What the hell is it?”

“dao creation saint stone, don’t you know if you have heard of it?” Centaur said: “This thing belongs to me, but it was taken over, but I know where it is hidden!”

Shen Xiang was screaming in the heart, actually it was dao creation saint stone.

“How big is it?” Shen Xiang expression does not move: “dao creation saint stone I also have it, but if it is too small, it is not worth the risk.”

“There are only two in total!” Centaur sighed. “It was mine.”

Shen Xiang suddenly thinks that this Centaur is not simple, I can know this kind of thing, but how does he seem so shackled?

“Well, you take me, I can see if I can get it! Also, don’t play tricks, or if you are caught by me, I won’t kill you, it will make you feel better than death.” Shen Xiang gloomy and cold smiled and scared the Centaur for a while.

Shen Xiang took Detoxification Dan, and this Detoxification Dan was only able to temporarily ease the situation, not affected by the Strange Intoxicating Spirit Poison. When the drug of Detoxification Dan failed, the Strange Intoxicating Spirit Poison will break out again.

“You don’t think you can completely detoxify if you eat it. You need to eat a few more to completely detoxify, so don’t play tricks, or you will suffer yourself,” Shen Xiang said.

Centaur grimaced and ate the Detoxification Dan, and the strength gradually recovered.

“Big Brother, your poison is really powerful!” Centaur said, now he doesn’t dare to talk about Shen Xiang anymore, but he is very afraid of Shen Xiang’s three poisonous monkeys, very terrible.

“What is your name?” Shen Xiang asked.

“Ma Tianhai, what about your big brother?”

“Shen Xiang...Hurry and take me to the dao creation saint stone.” Shen Xiang said that if you can get two dao creation saint stones, then the harvest is not small.

Ma Tianhai nodded and ran wildly.

I have to admit that this Centaur runs very fast.

“You guy, wait for me.” Shen Xiang shouted in the back.

Ma Tianhai heard Shen Xiang’s shouting and immediately slowed down, and Shen Xiang followed.

“You can’t run on me?” Shen Xiang complained. “Your speed is very fast, and you are still a horse.”

“No, absolutely not.” Ma Tianhai’s voice is very determined, and he will not die.

“Okay!” Shen Xiang can only count, completely dispelling the idea of this Centaur.

Shen Xiang followed Ma Tianhai, shuttled through the forest and asked him many things.

This forest is very large. It is called Soul Demon Sacred Forest. There are all kinds of Soul Demon gathered here. There are also many human beings. The strength of human beings here is only flat, but the number is quite small.

Shen Xiang learned that most of these humans came from the World Defying Soul River. There is no human being here. Shen Xiang guessed that there was a period of time in the past, and World Defying Soul River was very good. There are quite a few humans coming over.

Ma Tianhai is now taking Shen Xiang to the site of their Centaur Soul Demon, Centaur Sacred City, a very huge city, where Ma Tianhai says there are millions of Soul Demons and humans.

This is indeed a very big city.

“There are so many Soul Demon on the opposite side of World Defying Soul River!” After Qin Shuang learned it in Hidden Jade Villa, it was a surprise, and the number was much more than the human side.

There are only a few million in a big city, and on the other side, when the small city of Sky River Mountain Range is full, there are only a few hundred thousand people. There are a lot of huge thousand people in the big city.
