

Dan God 3391

[Chapter 3391](#)

Peng Guquan was precisely Peng profoundfei's father. The reason Peng Kunyao came here was because he urgently wanted to bring Peng Guquan back so that he could obtain the Aohun holy bead as soon as possible.

"It will take at least five months! We've already cured him of the poison as fast as we can ... This fellow is too strong. If not for the fact that we used poison so fiercely back then, our Python Demon Race would have definitely suffered heavy losses. An old poisonous python said.

"Sigh, time is of the essence, if I don't hurry, I might not even be able to obtain the Aohun holy bead! If I bring Peng Guquan back now, my position in Roc Race will be even higher, and I will be able to immediately obtain the Aohun holy bead. But after Peng Guquan is poisoned, his vitality will definitely be greatly damaged, and it will be difficult for him to compete for the position of Patriarch against me. "Peng Kunyao was extremely worried that there would be a problem, because he had already planned this beforehand.

"Didn't you say before that you wanted to kill that little girl? and even sacrificed a lesser demon. " Another old poisonous python said.

"Don't mention it!" Peng Kunyao sighed: "It's really strange, she can't succeed both times, although it can obviously poison her to death, but she can always cure the poison herself ... Come to think of it, do you think your poison can do it? Why is she still alive? "

"Of course we can. If you don't believe me, you can try it yourself! There must be a problem. " The old poisonous python said, "How about this, you go with us to force the poison out of Peng Guquan's body, and then, as soon as possible, if you join, we can force out more of the poison even faster, and then use our method to cure it quickly."

"Alright, alright, alright. I'll go now." Peng Kunyao was very worried that something would go wrong with his plan.

Chen Xiang was secretly excited, because as long as he could follow behind these guys, he would be able to find Peng Guquan.

Peng Kunyao followed the Old Poison Python as they walked along the passage. Soon enough, they arrived at a secret room, guarded by four middle-aged Poisonous Python Demon s.

Chen Xiang did not follow him in. He already knew where Peng Guquan was.

"Okay, wait until they go in, then I'll make some noise."

When Chen Xiang was in You Yao Mountain Villa, he had asked the Heaven devouring rat to bring along a few pellets that would cause a violent explosion and then release the Heaven devouring rat. The Heaven devouring rat had already been used by Chen Xiang's Counter Power, so it could remain invisible for a while.

The Heaven devouring rat quickly crawled to a corner not far from here, put down the pills that would explode, and climbed back down.

While Chen Xiang was hiding in another corner of the passage, with a thought from him, those pills suddenly exploded!

After the explosion, the entire underground palace began to shake, creating a huge ruckus.

The four middle aged men outside the stone room anxiously rushed over, while Peng Kunyao and the others who were in the secret room also rushed out.

Rumble rumble rumble!

Another pill exploded, causing the commotion even more, and when they went to check, Chen Xiang had already teleported into the stone room.

The stone room was very cold and there was ice everywhere. This was mainly to prevent the poison in Peng Guquan's body from spreading, so Peng Guquan was currently sealed in a thick layer of ice.

Chen Xiang quickly placed the thick ice inside the You Yao Mountain Villa, passed it over to Bai Youyou and the others, then hastily ran out of the secret room and crawled towards the top. At this moment, the Poisonous Python Demon's underground palace was in chaos, because they had never experienced something like this before.

"It worked!" Chen Xiang was very excited at the moment, he quickly came out from the ground, released his Six Realms mirrors, and entered the Six Realms mirrors, controlling it to fly up quickly. On the way, he did not care about any traps anymore, he charged forward recklessly and even destroyed many traps, so he did not need to worry about alarming Poisonous Python Demon and the others anymore.

As Chen Xiang's Six Realms mirrors flew, it would occasionally release waves of air, which would engulf the entire region of the Poisonous Python Demon and trigger many traps. The traps and traps here were meticulously laid by the Poisonous Python Demon for many years, and were all destroyed by Chen Xiang with a single strike.

"How is it?" Chen Xiang asked about the situation inside.

"Fortunately, the poison has been suppressed. The antidote pill has worked, and it is slowly detoxifying the poison." Bai Youyou said: "What about you? Did those Poisonous Python Demon chase out? "

"No, they probably haven't reacted yet!" Chen Xiang laughed: "These idiots, I thought they would be hard to come by, I never thought it would be so easy!"

The most excited person should be Peng profoundfei, to be able to see her father again, her tears couldn't help but flow down! She could tell that Peng Guquan was heavily poisoned, but under the effects of the antidote pill Su Meiyao refined, the venom was slowly dissipating.

Peng profoundfei had thought that he would let her come out and fight. After all, Chen Xiang wanted him to go into the Python Demon Race's Snake Nest by himself!

However, Chen Xiang did not start a fight, it seemed to be very easy for him to save her father. It looked very easy, but Peng profoundfei felt that it was very scary, after all it was the Python Demon Race's snake nest.

"Your father will be fine soon. Don't worry." Su Meiyao said: "Your father is very powerful, after expelling the poison, it will not affect his strength in the slightest."

Peng profoundfei nodded: Thank you! If it wasn't for you, I don't know what kind of fate I would have! "

She knew very well that she had been very simple before, and that she had almost been killed by her uncle. She knew very well that she had been very innocent before, and that she had almost been killed by her cousin.

Chen Xiang also didn't know what kind of nest Python Demon Race's snake nest was right now, but he could guess that those old fellows were extremely angry. Peng Kunyao would definitely be so angry that he would vomit blood.

Peng Kunyao's good plan had been messed up by Chen Xiang, but even now, he still did not know who had done it in the dark.

Chen Xiang had left the area where the Python Demon Race was, and at this time, the Peng Guquan inside the You Yao Mountain Villa had already woken up. When he woke up, he was extremely furious, because he was ambushed by Peng Kunyao back then, so he landed in the hands of the Python Demon Race.

It was Peng Kunyao and the Python Demon Race who had acted together to harm him!

Peng profoundfei had also told his father many things. Peng Guquan was indeed a righteous person, he knew that Chen Xiang had saved him, and he had even saved Peng profoundfei before. He nodded immediately and agreed to give the Aohun holy bead to Chen Xiang.

Seeing that Peng profoundfei and Peng Guquan's relationship was deep, Su Meiyao did not say anything about letting Peng profoundfei follow her, and had even given up on that idea. After all, Chen Xiang had already obtained the Aohun holy bead, so they could use him in the future.

Chen Xiang used the first stage of Time Domain, allowing Peng Guquan to recover even faster inside it, and allowing him to quickly possess sufficient strength.

A first stage Time Domain could buy him quite a bit of time, and in a mere day's time, Peng Guquan had recovered and allowed him to leave the You Yao Mountain Villa.

"It's been so many years, and I've been trapped in that block of ice. Thank you, brat! Haha!" Peng Guquan patted Chen Xiang's shoulders and laughed.

He had a complete face, while the other Roc s and even Peng Kunyao's were like beaks of birds. This might have been the reason why Peng profoundfei was so beautiful, but Peng Guquan was also an extremely handsome man.

"Go, let's return to Roc Palace now." Peng Guquan said to Chen Xiang: "This thing of yours, its speed should not be as fast as me!"

[Chapter 3392](#)

Although Chen Xiang's Six Realms mirrors could float, it couldn't float that high, and Peng Guquan could fly high in the sky.

"Alright!" Chen Xiang nodded.

Peng Guquan transformed into a giant roc, rolled up a tornado at the same time, and sucked Chen Xiang inside, allowing Chen Xiang to land on his back. Then, he flapped his wings, flying toward Roc Palace.

The feathers on Peng Guquan's body were silver white, which was also a very unique color.

"Uncle, have you heard of any powerful humans that have been here before?" Chen Xiang asked, this was a question that he was more concerned about, the reason he came over was to find Super Yang Old Ancestor.

"Not only have I heard of it, I've also seen it! He has all sorts of strange techniques, just like you, young man. Peng Guquan said: "But that was many years ago. At that time, I met them and wanted to make them stay, but they refused me. They said that they wanted to go to some Tao-creation Place."

"They? "How many are there?" Chen Xiang never thought that there would be so many people, he guessed that it should be the Super Yang Old Ancestor and the rest.

"Two!" An old man and a child. " Peng Guquan said: "Especially that kid, don't look at how young he is, even if he is strong, I am still no match for him."

Gu Tong looked just like a young boy, while Super Yang Old Ancestor was an old man. They had actually come together to this place, no wonder they had been missing for such a long time!

Although Chen Xiang did not know what kind of place the Tao-creation Place was, judging by its name, it was an extremely extraordinary place.

"Uncle, do you know which direction they're going in?" Chen Xiang was also curious about the Tao-creation Place and wanted to take a look.

"I don't know, because even they don't know where it is." Peng Guquan sighed: "Initially, the humans that came here weren't limited to just the two of them, there were also quite a few, it's just that I have never seen them before.

Chen Xiang no longer asked about this matter, he was sure that Super Yang Old Ancestor and Gu Tong had come here before.

"Uncle, the Aohun holy bead is so important to your Roc Race, will the elders in your clan agree?" Chen Xiang asked.

"Even if you don't agree, I still have to. After all, the Aohun holy bead is mine! I said before that if I really needed it, I could take it away. " Peng Guquan said: "Don't worry, the old man in my Roc Race is still not bad."

"I don't really believe you. I keep having the feeling that they don't treat Xuan Fei very well." Chen Xiang said. Although he had never seen those seniors before, looking at the way Peng profoundfei was using the Aohun holy bead, those seniors were slowly reducing the time Peng profoundfei had to use the Aohun holy bead.

When Peng profoundfei came out of the You Yao Mountain Villa, she was right by his side. When he was in the You Yao Mountain Villa earlier, Su Meiyao had already told her that he wouldn't let her follow him

and let her stay in the Roc Palace to accompany his parents. After all, staying far from his family was extremely difficult for her.

"Father, the first thing you should do when you return is to give the Aohun holy bead to Chen Xiang." Peng profoundfei replied: "I'm worried about some unforeseen event."

Because of Peng Kunyao's cunning uncle, Peng profoundfei had become suspicious of his clan's elders.

"Don't worry about that, I'll definitely do it." Peng Guquan was extremely grateful to Chen Xiang for saving his daughter. He would rather die than let anything happen to Peng profoundfei, so he was very willing to gift a Aohun holy bead to Chen Xiang.

Peng profoundfei was silent for a moment, then looked at Chen Xiang and said: "Father, I previously announced a bounty, as long as I can save you from Python Demon Race, I will marry him and give him the Aohun holy bead ..."

Peng profoundfei seemed to have made a great deal of decision before he spoke of this matter.

"Xuan Fei ... I only want the Aohun holy bead, don't think too much about it, what I said before was just a joke. " Chen Xiang anxiously said, he could not bear to watch this girl leave his parents.

"But, I want to be honest!" Peng profoundfei said in a low voice.

Peng Guquan was silent for a while, then said: "That's right, you have to be honest! Now that you have grown up and are already at the late stage of Aoshi Holy Stage, you should be able to go out and adventure. If there are no Aohun holy bead in the clan, the situation will become chaotic, so you should follow this young lad! "

Peng Guquan had also thought about it carefully. Chen Xiang had Aohun holy bead, and it was a Alchemist, with all kinds of mysterious techniques at his side, he could even cure the snake poison that was extremely difficult to cure.

Chen Xiang had charged into the Python Demon Race's Snake Nest alone and saved him. Just this point made him admire Peng profoundfei's ability, it would definitely be able to grow even better if he stayed by Chen Xiang's side.

"It's better not. As parents, you definitely don't want your children to be far away from you ..." I don't know where I'm going. " Chen Xiang immediately tried to shirk her.

Peng profoundfei looked at Chen Xiang with hidden bitterness, but Chen Xiang was unable to bear with her sad eyes, and anxiously asked: "sister Meiyao, you demon, did you make her do it?!"

"No, I told her not to take her away." Su Meiyao said: "Since she has no objections, and her father has no objections, you can take her away, I'll take it if you don't want it!"

She was a little reluctant to part with Peng profoundfei since it was as if he was in a new world in the You Yao Mountain Villa. She felt that if her father had no objections, she would be willing to follow Chen Xiang.

"Do you dislike me?" Peng profoundfei whispered.

"Of course not... Alright, I'll bring you along. If I get the Aohun holy bead, I might have to leave." Chen Xiang said.

"En!" Peng profoundfei revealed a bright smile.

Peng Guquan had already flown back to the Roc Palace, and upon his return, he immediately brought Chen Xiang and Peng profoundfei to the stone room where the Aohun holy bead were stored.

"Elder, you're back!" An old man guarding the door saw Peng Guquan and was pleasantly surprised.

"Mm, who's inside?" Peng Guquan said.

"Third Elder!" The old gatekeeper said.

"Oh, let him out. I want the Aohun holy bead." Peng Guquan said very straightforwardly: "I was saved by this young man. My daughter once promised him that she would give the Aohun holy bead to him."

Who didn't know about Peng profoundfei's bounty? Furthermore, he had obtained the consent of all the elders within the clan back then, and now that Peng Guquan had returned, he had to fulfill his promise.

The two old men who were guarding the door thought it was natural as well. They hurriedly knocked on the door and called for the third elder.

At this time, Peng profoundfei sent a sound transmission to Chen Xiang, "This Third Elder is Peng Kunyao's little brother and is also my uncle.

It was actually Peng Kunyao's little brother. Chen Xiang felt that there would most likely be a problem, because Peng Kunyao had to do such a big thing.

"There should be a problem. Tell your dad to pay attention to this guy." Chen Xiang said to Peng profoundfei through sound transmission.

Peng Guquan had been scammed once, so there definitely wouldn't be a second time!

[Chapter 3393](#)

Peng profoundfei and Chen Xiang stood behind Peng Guquan, and as Peng Guquan waited for the people inside to come out, he gathered all the energy in his body, because no matter what, he had to get the Aohun holy bead back today.

Previously, he had contributed the Aohun holy bead, but this had instead aroused the greed of others. That Peng Kunyao wanted to kill him and her daughter in order to obtain the Aohun holy bead.

Peng Guquan was extremely angry and cold at this moment. He was starting to suspect that some of the elders in the Roc Race might have the same idea.

"Peng Kunyao should have returned by now. Inside is his little brother Peng Kun Shan, later we have to pay attention to Peng Kun Shan's expression." Peng profoundfei whispered to Chen Xiang.

The door to the secret room was suddenly opened, causing Peng Kun Shan to be extremely suspicious. When he walked out, he saw Peng Guquan standing at the door.

Seeing Peng Guquan's return, Peng Kun Shan was immediately stunned. He stared with wide eyes but was unable to say anything.

After Peng Kun Shan reacted, he immediately rushed towards the Aohun holy bead, but Peng Guquan's speed was even faster. When he rushed over, he struck Peng Kun Shan with his palm, sending him flying against a wall.

"Hmph, you want to take my Aohun holy bead?" Peng Guquan shouted in anger.

Peng Kun Shan's actions just now had also made the two old men standing guard feel that something was very strange! When Peng Kun Shan saw that Peng Guquan had returned, his first reaction was actually to snatch the Aohun holy bead away. With one look, he could tell that Peng Guquan wanted to take it for himself.

Peng Guquan was already holding onto the Aohun holy bead in his hands. He glared at Peng Kun Shan and shouted, "I know about the dirty things you two brothers have done!"

"Peng Guquan, what are you saying? Why did you hit me!" Peng Kun Shan's strength was not as good as Peng Guquan's, and he could not understand why Peng Guquan would suddenly appear here.

The news of Peng Guquan's return quickly spread. After the clan elders knew about it, they rushed over in a hurry. When they arrived and saw Peng Guquan holding the Aohun holy bead in his hand, they knew that the situation wasn't good.

"Gu Quan, you're back! What exactly is going on?" A white-haired old man with a long beard asked.

"Hmph, that year I fell for that brat Peng Kunyao's schemes. He joined hands with the Python Demon Race to make a move on me, and he even hurt Xuanyuan Fei multiple times! Fortunately, this little brother is resourceful, and was saved by me from the Python Demon Race's den of snakes, and even helped me cure the poison! Earlier, Xuan Fei had released a bounty, but now that we need the target to promise us, I want to give the Aohun holy bead to this little brother. "

Peng Guquan said as he handed the Aohun holy bead over to Chen Xiang.

After Chen Xiang received it, he anxiously kept it.

The Aohun holy bead was given to someone else just like that? Peng Kun Shan's heart was filled with madness as he roared: "Peng Kunyao, you bastard, such a precious thing, how can you just give it to someone else like that?"

"Isn't this what you two brothers did? For the sake of obtaining the Aohun holy bead, you have deliberately set up such a plan. " When Peng Guquan gave the Aohun holy bead to Chen Xiang, he did not feel any heartache.

"Gu Quan, what you're doing is too wrong. You should have discussed this with us." Then, he gave an eye signal to the few elders beside him.

The few elders surrounded Chen Xiang one by one. Chen Xiang had the Aohun holy bead in his hands, which was an extremely valuable thing to their Roc Race. Although it was Peng Guquan's, they had used it for so many years, and had long regarded it as theirs.

"Since that's the case, why did you allow me to post the bounty?" That is something that you agreed to. Could it be that you guys are planning this with Peng Kunyao? " Peng profoundfei was completely enraged, the patriarch and several elders of the Roc Race were clearly going to go back on their words.

They stopped talking, and the patriarch said coldly: "I don't care, the Aohun holy bead must stay, or else none of you are allowed to leave."

"Kid, can you take Xuan Fei away?" Peng Guquan asked.

"No problem!" As soon as Chen Xiang finished speaking, he let Peng profoundfei enter the You Yao Mountain Villa, and teleported to the outside of the stone room. At the same time, he used his Counter Power to conceal himself, and in a few moments, he was outside.

Just as Chen Xiang left the secret room, Peng Guquan explosively roared, and a wave of berserk thunder and fire energy violently surged out. It erupted from the ground and shot into the sky, and in the stone room deep underground, was pierced through by Peng Guquan.

Peng Guquan flew out along with the huge pit. He was still very strong, and when he had obtained the Aohun holy bead, he had secretly used it for a period of time.

"Father is going to look for my mother. It seems like he plans to take Mother and stay far away from Roc Race." After Peng profoundfei found out about the situation outside, she felt a lot more relieved. As long as her father did not fall into the hands of the clan leaders and the others, it would be enough.

Chen Xiang didn't know what the Patriarch and the others had agreed to with Peng Kunyao, but from their previous performance, it could be seen that they already had ill intentions towards the Aohun holy bead. And after Peng Guquan was harmed by Peng Kunyao earlier, he had to immediately make a decision and leave the Roc Race due to the situation earlier.

"Do you want to go find your parents now?" He was still in the holy city of Da Peng.

"For the time being." Peng profoundfei only let out a faint sigh. She had a certain tacit understanding with her parents and even though they did not say goodbye, they did not say anything.

Peng Guquan had previously seen Chen Xiang's strength, and knew that Chen Xiang was able to protect Peng profoundfei, so he was relieved and allowed Peng profoundfei to follow Chen Xiang.

"We must not let a guy like Peng Kunyao live." Chen Xiang said as his brows furrowed, "Xuan Fei, do you know where the secret room of the ice is? is he in Roc Palace? "

After hearing Chen Xiang's question, Peng profoundfei knew what he was thinking!

"I know, I'll take you there now, it's not inside Roc Palace." Peng profoundfei hurriedly said: "Who knows, maybe my father will also go there. Those big peng that were poisoned, some of them are seniors, and all of them were mysteriously poisoned, maybe all of them were caused by Peng Kunyao."

After experiencing this string of events, Peng profoundfei had also become smarter, and was able to think of many things in an instant.

Under Peng profoundfei's guidance, Chen Xiang headed towards the secret room that was filled with ice at the fastest speed possible.

The Ice Chamber was located outside of Da Peng Holy City, a distance away from the Roc Palace. It was the place where the Roc Race first resided.

Chen Xiang's Six Realms mirrors was flying among the Soul Demon Sacred Forest, heading towards their ancient habitat.

After two days, Chen Xiang finally arrived.

This place was a little special. The trees here were all very huge, and were the largest batch of trees Chen Xiang had seen in the Soul Demon Sacred Forest.

"Because these trees were all nourished by the great roc, they became extremely large." Peng profoundfei said, "There is a crack in the ground here, the secret room of the Ice Ape is constructed below."

Under Peng profoundfei's guidance, Chen Xiang found the crack in the ground. It was only forty to fifty meters wide, with a depth that could not be seen at the bottom.

"Let me take you down." Peng profoundfei pulled Chen Xiang's hand, then flapped his wings and descended. If he didn't know how to fly, it would be extremely difficult to fly up and down.

[Chapter 3394](#)

After Peng profoundfei descended for less than an hour, he finally reached the bottom. It was extremely dark down there, Chen Xiang took out a glowing stone and illuminated everything.

"It's right in front!" Peng profoundfei brought Chen Xiang and walked deep into the crevice.

After walking a distance, Peng profoundfei stood on top of the stone wall and carefully looked at the stone wall, frowning: "Since father isn't here, I had thought that he would come, but it doesn't matter, let's first rescue all the great peng inside."

Peng profoundfei pushed hard on the stone wall, and after the stone wall caved in, a stone door appeared. Opening the stone door, a gust of cold air blew over, causing Chen Xiang to shiver.

"Enter!" Peng profoundfei took the light emitting stone and walked in front.

He didn't know what was going on, but there was actually a large amount of cold air here. If Chen Xiang didn't use his power to resist the cold air, he would definitely have been frozen to death.

"There are a total of eight golden rocs that have been poisoned. Let's quickly cure them of the poison." Peng profoundfei said.

When Bai Youyou and Su Meiyao came out of the You Yao Mountain Villa, Chen Xiang released a barrier made up of Six Realms mirrors and covered the eight pieces of ice, isolating them from the cold energy of the place.

After that, he carefully melted the ice and placed the antidote pill into the mouths of those great peng, allowing them to remove the poison.

After finishing their work, more than two hours had passed. The eight Roc demons were all relatively old and their strength was not weak. They should all be at the elder level.

They were all Great Roc's disciples who flew back after being poisoned, and that was why they were frozen here.

After Peng profoundfei saw that the eight elders had recovered their spirit, they briefly told them about the matters of the Roc Race, making them extremely angry. They all expressed their wish to help Peng Guquan.

The eight elders left the crevice and came to the ground to adjust themselves. They had been poisoned for many years and needed some time to recover. Right now, they were resting in the great roc region.

"I wonder if my parents will come here." Peng profoundfei said.

They are already completely disappointed in Roc Race, so they came to the old place to take a look. " They all knew Peng profoundfei. When Peng profoundfei was born, they all had a deep impression of him.

After waiting for a few days, Peng Guquan came along with Peng profoundfei's mother.

Peng profoundfei's mother was a beautiful middle-aged woman, hence Peng profoundfei looked somewhat similar to her.

Within the Roc Race, there were several great peng, golden peng, fire peng, thunder peng, and so on. Peng profoundfei's mother was a fire peng, and Peng Guquan was a very special lightning, fire, silver, peng.

Peng Guquan really did not expect Chen Xiang and Peng profoundfei to come here, they saw that the seniors who were poisoned back then had good complexions, and immediately understood that it was Chen Xiang who helped them cure the poison.

"Gu Quan, what's going on with Roc Race?" An old man asked.

"Hard to say! In short, a traitor has appeared in the Roc Race and is colluding with the Python Demon Race! " Peng Guquan told what he knew to the elders.

These eight elders had already heard from Peng profoundfei about it before, but now, after hearing the details, they became even more furious.

"You have some prestige in the Roc Race. How about this, you spread the news and get those Roc who want to follow you here, we will establish a new Roc Race." An old man said, "Many of the great peng must have been kept in the dark. If they knew the truth about this matter, they would probably take action."

At this moment, Peng profoundfei was with her mother, and it was unknown what she was whispering. Previously, she thought she wouldn't be able to see her mother again before she left.

After a few days of rest, Chen Xiang had Su Meiyao and the three Young girl Danling s refine even more antidotes at the same time. He passed these antidotes to Peng Guquan and the others, and after that, they might have to fight against the Poisonous Python Demon.

Many of the golden rocs had seen Peng Guquan return before, so after knowing about this matter, they all chose to believe in him. After all, Peng Guquan was captured by the Poisonous Python Demon, and Peng Guquan himself had a very strong ability.

Many golden rocs gradually appeared in the Ancient Great Peng Land. A crisis appeared in the Roc Palace, many of the golden rocs that had received Peng Guquan's favor all flew to the Ancient Great Peng Land.

Many of the golden rocs knew that Peng Guquan no longer had a Aohun holy bead, but they did not mind. It was because of the Aohun holy bead that Peng Guquan was saved, otherwise their Roc Race would have to cooperate with the Poisonous Python Demon.

All these years, many of the Roc King hated the Poisonous Python Demon, and their higher ups actually colluded with the Poisonous Python Demon, which made them very happy. After knowing the truth, they all came here one by one.

This matter became more and more serious, and many of the surrounding demon clan members knew, they were all very angry that Peng Kunyao had colluded with the Poisonous Python Demon, because after they thought carefully, they could understand the consequences of Poisonous Python Demon colluding with Peng Kunyao.

Therefore, the surrounding cities all supported Peng Guquan in building the new Holy City of Da Peng. They all sent people to build a city with the Ancient Da Peng as the center.

Chen Xiang did not leave, he stayed behind and passed down the method to concoct the antidote to the old Alchemist, which made them very happy after mastering it. They all promised Chen Xiang that they would join the Roc Race to help him concoct the antidote.

As long as they had the antidote, they wouldn't need to fear the Python Demon Race anymore.

In the blink of an eye, a month passed. With the help of many Soul Demon, a new city was built, and the Great Peng Holy City that was saved wasn't as lively as it was before.

... ..

"How do you do things? We don't have any Aohun holy bead left, so the clan members should all go to Peng Guquan's side. We are currently being seen as a Poisonous Python Demon. " Peng Kunyao was extremely angry.

"Brother, why don't we join hands with Python Demon Race? With the few of us here, Python Demon Race will definitely be stronger." Peng Kunshan said.

The old patriarch said angrily, "You still dare to blame us? Wasn't it due to you failing a few times? Peng profoundfei is just a little girl, yet you can't kill her. Furthermore, all of this was caused by the mysterious human beside her! This Chen Xiang fellow, his strength is extremely mysterious. It was he who sneaked into the Python Demon Race to save Peng Guquan, causing great chaos to our plan! And you have always been in charge of Peng profoundfei's matters, you should have killed this brat back then. "

"It's all because your reactions were too slow! Otherwise, as long as we have Aohun holy beads, there's nothing to be afraid of! Now that there's nothing left, us joining the Python Demon Race is also a matter of being controlled. We cannot join them like this, otherwise we will only be a level lower than them." Peng Kunyao said angrily: "Let us try to see if we can be invited by the clan's ancestor to settle this matter."

The oldest and oldest Da Peng was still in the Soul Demon Sacred Forest, and Peng Kunyao and the others knew where the ancestor was. They were leaving right now, since there was a patriarch who was assigned to this ancient Da Peng back then.

[Chapter 3395](#)

With the city constructed, the number of people and Soul Demons started to increase. Chen Xiang felt that it was time to head deeper into the Soul Demon Sacred Forest.

"Xuan Fei, are you sure you want to come with us?" Chen Xiang asked: "If we really go, I don't know when we'll be able to return."

"Yes, I'm sure." Peng profoundfei had already made his decision.

Suddenly, a burst of noise came from outside, Peng profoundfei anxiously went out of the house, and saw that there were a lot of big peng flying in one direction, and there were a lot of hisses coming from that direction!

"This is a call from the grandmother." Peng profoundfei shouted in shock, "I must go and take a look!"

After Peng profoundfei finished speaking, he rose into the air and flew towards the direction of the sound.

Before Chen Xiang could react, Peng profoundfei was already far away, he anxiously entered the Six Realms mirrors and followed.

At this moment, all the great peng in the city was flying towards that direction.

"What kind of background does this grandmother have?" "So you have prestige!" Chen Xiang thought in his heart as he stood inside the Six Realms mirrors.

"Maybe he's the one who gave birth to the entire Roc Race. You should know how the Soul Demon was born, right?" Feng Ke'er said: "This old lady suddenly appeared, I think she's here to resolve the issue, maybe she is called Peng Kunyao."

The place they were gathered at was a distance away from the Da Peng Ancient Region. When Chen Xiang went there, he saw a tall platform constructed from many large trees, on which stood a white-haired old lady with a walking stick. She was a little hunchbacked, wearing a simple set of grey clothes.

Chen Xiang guessed that this was Roc Race's grandmother.

"Xuan Fei is there!" After Chen Xiang came out from the Six Realms mirrors, she quietly went to Peng profoundfei's side. Peng profoundfei was currently with her parents.

"I've heard all about your matters. It's no small matter! You juniors really disappoint me. " Roc Old Ancestor sighed, her voice full of helplessness.

"Grandmother, since you already know about it, how should we deal with Peng Kunyao and the rest? They colluded with the Python Demon Race." Peng Guquan glared at Peng Kunyao and the others, "You have colluded with the evil Python Demon Race to frame our fellow clansmen, how can you let them go just like that?"

"Grandmother, don't listen to his nonsense. He wanted to become the Clan Leader himself, so he came up with such a lie." Peng Kunyao laughed coldly: "These are just his words, everyone do not listen to him."

"Not bad, because Peng Guquan used his own Aohun holy beads, and has a good reputation in the Roc Race, to fabricate a truth to frame us!" The clan leader said: "Peng Guquan wasn't poisoned at all, he was only pretending to join up with his own wife and daughter to deceive us!"

Roc Old Ancestor scolded: "All of you shut up!"

Peng Kunyao and the others had already decided not to admit it. Because there was no evidence, they believed that nothing would happen to them.

"I remember that all of you had been poisoned by the snake's poison, but now you are able to dispel it. What's going on?" Roc Old Ancestor looked at the eight elders who had been poisoned by Chen Xiang.

Hearing Roc Old Ancestor's question, Peng Kunyao and the others finally started to carefully observe the eight elders. Because these eight elders had been poisoned for a long time, they were frozen inside the ice room, to the point that Peng Kunyao and the Roc Race leader almost forgot.

Peng Kunyao and the others started to feel apprehensive, because Peng Guquan had already grasped the method to cure the poison.

"This is mainly thanks to this little friend that Xuan Fei knows. He has the antidote pill and it was he who helped us read it." An old man said, "Grandmother, I believe you should know that Gu Quan was saved by this little friend from the den of snakes. That's why you gave the Aohun holy bead to him."

Peng Kunyao and the others looked at Chen Xiang, their hearts burning with anger. It was precisely Chen Xiang who had destroyed their entire plan, and this brat who had killed them with a thousand cuts was something he hated to the bones.

"Grandmother, you should now believe that I was captured by the Python Demon Race. I have been poisoned for many years, and it was Chen Xiang who helped me cure the poison." Peng Guquan said.

"I have my own thoughts on this matter." Roc Old Ancestor nodded, then looked at Chen Xiang: "I wonder if you can give me a detoxification pill, let me take a look?"

"Of course you can!" Chen Xiang immediately threw over a light green antidote pill.

After Roc Old Ancestor ate it, his face revealed a trace of surprise, and then, he nodded repeatedly. "Not bad, not bad, so this is the thought of refining the antidote pill, why didn't I think of it? "Originally, it was a very simple matter, but I had thought about it in a complicated manner."

Back then, after the frozen Eight Elders were poisoned, this Roc Old Ancestor came out to cure them of the poison, but it did not succeed.

"Gu Quan, can you take out any conclusive evidence to prove that Kun Yao colluded with the Python Demon Race? If you can't, then let it go." Roc Old Ancestor said. She was in a difficult position.

"I ..." Peng Guquan gritted his teeth as he looked at the pleased Peng Kunyao.

"I knew you didn't! Hmph, everyone should be able to see that I am innocent, Peng Guquan was the one who framed me." Peng Kunyao pointed at Peng Guquan and said angrily, "You have destroyed my good name, you must be held accountable."

"Alright, why did Peng Kun Shan want to snatch my Aohun holy bead that day? The two Patriarchs guarding the door can prove that not only Peng Kun Shan wants to snatch the Aohun holy bead, the Patriarch and the few other Elders want to stop me as well! The Aohun holy bead is mine to begin with, and when I offered it up, I said that I could take it away anytime." Peng Guquan questioned Peng Kun Shan, the Patriarch and the others.

They were not with Peng Kunyao. When the clan had been split, the two of them had immediately went to find the Roc Old Ancestor, so after that, they did not come into contact with Peng Kunyao and Peng Guquan at all. Their words were very trustworthy.

Peng Kun Shan could not explain this matter. Back then, he had indeed taken action and plundered them, and his killing intent was even more intense. The most difficult ones to explain were the Patriarch and the rest who surrounded Chen Xiang and Peng profoundfei, the two juniors.

"It's all because they couldn't bear to part with their Aohun holy bead and fell into the hands of a human. They had to do this in such a desperate situation, so it's not weird that the Aohun holy bead were extremely useful to our Roc Race. For the sake of the entire clan, the clan leader and the others made such a mistake." Peng Kunyao said loudly.

The black one had turned white because of him, which made Peng Guquan and the others angry and anxious!

"Peng Guquan, what else do you have to say for yourself? We were loyal to the Roc Race, but were framed by a villain like you!" Peng Kunyao laughed coldly, feeling extremely pleased in his heart.

"Wait, I have evidence!" Chen Xiang suddenly said.

He took out a large crystal ball. He controlled the crystal ball to float in the air so that everyone could see it.

A few figures appeared inside the crystal ball. They were Peng Kunyao and the few old poison pythons ...

"They're the old guys from the Python Demon Race. I haven't seen them for a long time!" Roc Old Ancestor's pupils contracted as he stared at the crystal ball.

Following that, a sound came from the crystal ball ...

"Three elders, when will you be able to cure Peng Guquan's poison at the fastest time?" This was Peng Kunyao's voice.

"It will take at least five months! We've already cured him of the poison as fast as we can ... This fellow is too strong. If not for the fact that we used poison so fiercely back then, our Python Demon Race would have definitely suffered heavy losses. This was the voice of the old poisonous python.

"Sigh, time is of the essence, if I don't hurry, I might not even be able to obtain the Aohun holy bead! If I bring Peng Guquan back now, my position in the Roc Race is even higher, and I can immediately obtain the Aohun holy bead. However, after Peng Guquan gets poisoned, his vitality will definitely be greatly damaged, and it will be difficult for him to compete for the position of Patriarch with me. "

"Didn't you say before that you wanted to kill that little girl? and even sacrificed a lesser demon. "

"Don't mention it! This was really strange. She couldn't succeed on both occasions. She could have been poisoned to death, but she could always cure herself ... Come to think of it, do you think your poison can do it? Why is she still alive? "

These were all things that Chen Xiang had personally heard and witnessed the other day. He used a secret technique to extract the memory fragment for everyone to see.

Peng Kunyao was startled, he never thought that Chen Xiang would have such a move, his head was drenched with sweat, the patriarchs and the rest were also like that.

After the two old men saw this, they became furious and immediately rushed over, surrounding Peng Kunyao and the others. The dozen or so old men inside the Roc Race also rushed over and surrounded them.

"Peng Kunyao, what else do you have?!" Peng Guquan took a deep breath, Chen Xiang had helped him a lot.

[Chapter 3396](#)

Peng Kunyao's face twitched, he really did not think that Chen Xiang would do such a thing.

"This... This is all a trick created by the little human Chen Xiang, and he's lying to you all! " Peng Kunyao said loudly: "Could it be that none of you believe me?"

Roc Old Ancestor laughed coldly: "It's not that I don't believe you, but you're just full of nonsense! Those old poison pythons are usually well-hidden and won't show their faces easily. I'm sure that if this brat didn't see them with his own eyes, he definitely wouldn't be able to do it! The things that we saw just now were all released from his memory, so I believe that this must be true. "

Peng Kunyao was unable to say anything. He already had no way to argue, and this was originally the truth.

"Go to hell!" Peng Kunyao roared out, transforming into a gigantic Roc. However, the moment he transformed, Roc Old Ancestor had already made her move. No one knew what she did, but a gigantic ball of blue light suddenly appeared in the air.

The huge ball of light smashed down from the sky and struck Peng Kunyao.

After being struck by the gigantic ball of blue light, Peng Kunyao's huge body immediately ignited with blue flames. Everyone could hear Peng Kunyao crazily howling as he flapped his wings and flew around in the air.

Those few clan leaders had long been captured by Peng Guquan and the others, and they would receive extremely severe punishments.

The Roc Old Ancestor flew into the air, the cane in his hand flew out and stabbed into Peng Kunyao's head, causing him to immediately fall from the sky, his huge body still burning with blue flames.

"Go and extinguish the flames over there!" Roc Old Ancestor sighed. She had watched these Roc s grow up like her own children, but now that they had committed such a grave mistake, she had no choice but to ruthlessly destroy them. Otherwise, he would definitely continue to make mistakes in the future.

If he had admitted his wrongs, the Roc Old Ancestor might not have killed him. Instead, she had imprisoned him and allowed him to live the rest of his life.

"Gu Quan, I'll leave the Roc Race in your hands. I won't care about the matters here in the future. It's too tiring, and too injured." Roc Old Ancestor sighed, then looked at Peng profoundfei.

"Xuan Fei, come over here!" Roc Old Ancestor also knew that Peng profoundfei was a very special existence. She was born white, and her talent was not bad either.

Peng profoundfei walked over to Roc Old Ancestor's side.

"Grandmother, what is it?" Peng profoundfei asked in a low voice.

"I want to go to a place. You can come with me." Roc Old Ancestor looked at Chen Xiang, as if he already knew that Peng profoundfei was going to follow him.

When Chen Xiang heard this, he had a bad premonition.

Sure enough, the Roc Old Ancestor grabbed Peng profoundfei and flew into the sky, transforming into a blue light that flew into the distance and disappeared in an instant.

"This ..." Chen Xiang looked at Peng Guquan and his wife.

Peng profoundfei had already said that she would go with him, and Su Meiyao was still looking forward to it. But now that she was kidnapped by the Roc Old Ancestor, who knows where she would go to.

"Uncle, where is your grandmother going?" Chen Xiang was very depressed in his heart. If he had Peng profoundfei in the You Yao Mountain Villa, it would be even more lively inside.

"I don't know, but Grandmother said before that if one day she wants to leave Roc Race, she will go find Tao-creation Place." Peng Guquan also didn't think that the Roc Old Ancestor would take Peng profoundfei away like this.

"Alright, that is also my goal." Chen Xiang looked at the sky, he could only go there to find Peng profoundfei.

The Roc Old Ancestor was the strongest Roc here, its flying speed was definitely very fast, if Chen Xiang wanted to go up there he would definitely be too late. Fortunately, the Aohun holy bead was in his hands, and he could let Su Meiyao and the others use it to cultivate on the way there.

"You must be careful on your journey. Find the Tao-creation Place. The journey is dangerous." Peng Guquan warned.

"I got it, Uncle. Farewell!"

After Chen Xiang finished speaking, he ran off without a trace.

"Damned old woman. She actually kidnapped my gentle and lovely Xuan Fei. I must snatch her back." Since Su Meiyao had a temper inside the You Yao Mountain Villa, she couldn't blame Chen Xiang either, because no one would have expected the Roc Old Ancestor to do such a thing.

"Sigh, we can't let Xuan Fei carry me flying." Long Xueyi was also very depressed.

The Six Realms mirrors was flying at a very fast speed. He had previously only seen the direction the Roc Old Ancestor was flying in, so he was not sure if the Tao-creation Place was over there or not.

At this time, Bai Youyou had already used Aohun holy bead to cultivate, so she needed to raise her strength. Only then would she be able to wield even more power, and only when Chen Xiang was in danger would she be able to help Chen Xiang.

Qin Shuang said: "Chen Xiang, let me go out and see if I can find the Transmission array my grandfather left here, something like that."

Chen Xiang's eyes lit up, he anxiously asked the Six Realms mirrors to stop.

Qin Shuang was always able to find the ancient Transmission array laid out by the Super Yang Old Ancestor. This wasn't by coincidence, but because she had her own way.

Chen Xiang and Qin Shuang came out from the Six Realms mirrors.

Qin Shuang saw that Qin Shuang was holding onto a very small disk. He took a look at it and saw that it was a very small array disc, but it was very complicated.

Normally, this very complicated round would mostly be the Transmission array. If one could teleport from a world above the Myriad Tao, then this kind of Transmission array would be even more complicated.

"What kind of array disc is this?" Chen Xiang still asked.

"A small scale Transmission array was given to me by my grandmother. It would be even easier to find the Transmission array my grandfather had set up." Qin Shuang said: "As long as you place the things on this little formation plate, and activate the teleportation, if you can teleport out successfully, it would mean that there are Transmission arrays that my grandfather built nearby."

Qin Shuang held the Transmission array in this way and activated it in all directions, but the stone on top was unable to teleport out.

"Come on up, give it a try every time we walk a certain distance. After all, the distance we can travel is limited." Chen Xiang allowed the Six Realms mirrors to grow a little, allowing the two of them to sit on it.

The Six Realms mirrors quickly flew up and Chen Xiang used Counter Power Invisibility, so he was still very safe.

"My grandfather has a habit. Every time he goes to a place, he hopes to build a Transmission array, and these Transmission array can always be teamed together ... If you have enough energy, you can teleport very far away. " Qin Shuang said.

This was something that Chen Xiang firmly believed in. Previously, on the small island inside the Divine Dragon Lake, there was a Transmission array that was connected to the Divine Soil Restricted Area.

After the Six Realms mirrors flew for a few days, the stone on top of Qin Shuang's formation plate suddenly disappeared.

"Chen Xiang, stop." Qin Shuang anxiously shouted, Chen Xiang was only paying attention to the situation around him, so he did not notice the formation plate, but upon hearing Qin Shuang's screams, he stopped the Six Realms mirrors.

[Chapter 3397](#)

As expected, Qin Shuang found a nearby Transmission array, and now he was even more sure that the Super Yang Old Ancestor had come here.

"That's great ... But now, how do I know where the Transmission array is?" Chen Xiang asked.

"This array disc can determine the direction!" Qin Shuang held onto the array disc, injected some energy, causing it to release light, and then she started to spin on the spot. When the array disc became bright, she immediately stopped, and looked in the direction of the Ancient Transmission array.

After confirming the direction, Chen Xiang immediately had his Six Realms mirrors speed up its flight.

"Where will your grandfather's Transmission array take us to?" Chen Xiang was extremely curious.

"I don't know, but when the time comes, I'll probably need Crystal emperor s." Qin Shuang chuckled: "When the time comes, I might need you to use the Crystal emperor!"

Chen Xiang still had a few Crystal emperor he couldn't use right now, but if he used them to open the Transmission array, he would be reluctant to use them.

"Crystal emperor are also in the form of energy. I wonder if they can condense a Crystal emperor pill if I feed them to their Elixir Spirit?" Chen Xiang said, this was an idea that suddenly popped up in his mind. If his pill spirit could do it, then he would not need to spend too much time refining the Crystal emperor.

Although he could refine it, he would need to stay in the Time Domain for a long time to produce a bird.

"sister Meiyao, do you think that is possible?" Chen Xiang asked. Su Meiyao also knew how to use the derivation method and the Crash method, it wasn't as extreme as Chen Xiang's, but she could still create Crystal emperor s.

She had already mentioned this to Chen Xiang before, but the time she needed was much longer than Chen Xiang.

"Of course it's possible. Let me ask those three little girls." Su Meiyao said.

The three Young girl Danling were currently playing around with Long Xueyi. It was very easy for Long Xueyi to cultivate in the Little Naughty Dragon, so she spent most of her time playing around. According to her, only when her body and mind were happy would her rate of improvement be fast.

The Young girl Danling was originally very gentle and quiet, but ever since Long Xueyi came here, it had become a little wild. It was estimated that it wouldn't be long before it would evolve into a wild girl.

After Su Meiyao asked about the three Young girl Danling s, he said to Chen Xiang: "They said yes, about 20 of them!"

"Just let Flower and Lili eat one. When the time comes, the two sisters will train in the Life and Life Mysterious Technique and assimilate the other two." Chen Xiang said, "Your pill spirit shouldn't be able to cultivate the Twin Life Mysterious Techniques with them, right?"

"After all, different bloodlines, of course not." Su Meiyao said, "But you don't have to worry, just wait until Flower and Li Li successfully form their Crystal emperor and then give me their Elixir to eat."

To refine twenty Crystal emperor, that would take a lot of time.

"I am already at the middle stage of Aoshi Holy Stage now. Using the additional Crash technique and Foreseeing Alchemy should save me even more time." The last time Chen Xiang refined it, he had not stepped into the Aoshi Holy Stage. Now, he was many times stronger than before, and could even use the mysterious ancient flames.

When flying on the Six Realms mirrors s for a distance, Qin Shuang would use the formation plate to confirm his direction, so that he could fly to the location of the Transmission array more accurately.

Two days later, Chen Xiang and Qin Shuang found the Transmission array. It wasn't very big, and they could only find a few people who could enter.

"Your grandpa hid this legendary array very well!" said with a smile. Right now, he and Qin Shuang were inside the big tree's cave, if Qin Shuang did not use the formation plate to locate them, it would be difficult to discover them.

There were many such huge trees in the Soul Demon Sacred Forest, and it was very vast. Normally, no one in the Soul Demon would notice this big tree.

"Do you want to open the Transmission array now, or wait for the pill spirit to evolve successfully?" Qin Shuang asked.

"Let's just wait for them to evolve. They won't be able to catch up to that old woman no matter what." Chen Xiang knew that he had already been left far behind by the Roc Old Ancestor, so if he wanted to find him, he could only go to the Tao-creation Place.

"Alright!" Qin Shuang could also wait, because once a Pill Spirit succeeded in evolving, it meant that there would be an endless amount of Crystal emperor in the future.

After Qin Shuang and Chen Xiang left the Transmission array, they made a secret cave in a large tree nearby. Chen Xiang wanted to refine a Crystal emperor inside.

Chen Xiang would use the Time Domain when he was refining pills, and he wouldn't have to wait for many days when he entered the You Yao Mountain Villa to successfully refine it.

"It's time to start refining this boring thing again."

Chen Xiang took out Tianchuang furnace and a large pile of Myriad Tao Divine Soil Crystals and began to refine them.

"I got it, I can go and comprehend the Tao-creation's incantation!" 's eyes lit up. Now that he had comprehended the first layer of the Tao-creation's incantation, he could instantly use his energy to draw the perfect Tao-creation's incantation.

"Let me try to see if I can comprehend the second stage of the Tao-creation's Incantation in a short amount of time." Chen Xiang poured his consciousness into the Six Realms mirrors, searching for the Tao-creation's incantation.

The second stage of the Tao-creation's Incantation was only one more stroke. Although it was only two strokes in total, it gave Chen Xiang a headache.

"The first layer of the Tao-creation's Incantation has the attributes of all kinds of powers. I wonder what the second layer of the Tao-creation's Incantation will be like? I'm really looking forward to it! "

The first level of the Tao-creation's Incantation was able to directly absorb the untouchable power of the world, and then turn it into an even stronger type of energy. For example, lightning, fire, water, frost, tremors, earth, and so on, these were all commonly seen in nature.

Furthermore, Chen Xiang was able to stack these incantations together. For example, if he were to stack the thunderfire on top of the thunderfire, it would cause the energy that he released to become even more berserk! If the water, frost, and wind superimposed on each other, it would create a terrifying snowstorm. If the lightning was superimposed on each other, it would be like a thunderstorm. It would be even more terrifying.

Chen Xiang was only able to stack them together, but he had never used them before.

When he comprehended the second stage of the Tao-creation's Incantation, time passed very quickly. He had already refined five Crystal emperor, but he had not even managed to comprehend a single second stage.

"The second stage of the Tao-creation's Incantation is different from the first stage! The nine Tao-creation Incantations of the first layer do not have any commonalities, and the nine Tao-creation Incantations of the second layer, from the simplest to the most complicated, all have certain commonalities. Therefore, the two Tao-creation Incantations of the second layer should be able to release the same type of energy. "

Chen Xiang judged from the outline of the Tao-creation Incantation.

"If I can comprehend the simplest one, then it will be much simpler. At that time, I won't need too much time."

This made Chen Xiang even more curious about what kind of energy the second Tao-creation Incantation could release.

The refined five Crystal emperor had already been given to Jiang Lisi to eat. It would take her a lot of time to refine them, and it had only been three days outside.

Chen Xiang had used the Triple time field, and was currently in the middle stage of Aoshi Holy Stage, so the burden of using the Triple time field would not be too great.

[Chapter 3398](#)

To Chen Xiang, comprehending the Tao-creation's incantation was just a waste of time. He was already familiar with the way to refine the Crystal emperor, and was able to distract himself from comprehending the Tao-creation's incantation.

However, what made Chen Xiang feel depressed was that even though he had spent sixty-five years in the Time Domain, he was still unable to comprehend a second stage Tao-creation Incantation. He was always unable to successfully condense a Tao-creation Incantation using his superior power.

"Why is it so hard? It's so much more difficult than the first stage. " Previously, when Chen Xiang went to comprehend the first stage of the Tao-creation's Incantation, he felt that it wouldn't be difficult enough to reach the second stage.

Chen Xiang could only continue to comprehend. He had already refined a total of ten Crystal emperor, and the quality of the Crystal emperor he refined was the best. This was mainly to ensure that the pill spirit could evolve successfully! Right now, the quality of the Crystal emperor that he was refining was much higher than the one that he was refining at the beginning. According to Qin Shuang, it was already at the same level as the Super Yang Old Ancestor.

In the blink of an eye, Chen Xiang had refined another five Crystal emperor for Jiang Lisi to eat.

Since it had already begun, he could only continue.

To comprehend the Tao-creation's incantation, one had to use their own proud strength to perfectly create a Tao-creation's incantation. It required grace and nature, and even if there was a deviation, it would still be unable to succeed.

Chen Xiang didn't remember how many of them he condensed over the years. They all looked the same, no different from the Tao-creation's incantations. However, the Tao-creation's incantations he condensed never lived to see the end, they were all dead.

If the complete Tao-creation Incantation was formed, the Tao-creation Incantation would have a chance to come to life and release the unique power of the Tao-creation Incantation.

"I can't be irritable. I have to calm down. Calm down, calm down!" Chen Xiang told himself that if his mood was too bad, he would only fail more and more.

Chen Xiang had stayed in the Time Domain for more than ten years, and this time, the Tao-creation Incantation he condensed finally had a reaction, which made him wild with joy.

"Tao-creation Incantation succeeded! What is this Tao-creation Incantation?" Chen Xiang stared at the Tao-creation Incantation he had successfully formed, and started to tremble slightly.

"Shock Power?" Chen Xiang frowned: "That's not right, the vibrating power is not like this. Furthermore, I have also cast the Shock Tao-creation Incantation before, so there shouldn't be any more in the second stage of the Incantation!"

Just when Chen Xiang was feeling suspicious, the Tao-creation Incantation suddenly expanded and then contracted. The aura it was releasing right now was extremely shocking to Chen Xiang!

"Self-improvement!" Chen Xiang took a deep breath.

The Tao-creation's Incantation was formed using Chen Xiang's proud power, but that Tao-creation's Incantation was able to increase its power by one fold after a short period of time!

"Could it be that the attribute is increased?" is it able to double your own energy?" Chen Xiang was very excited: "If that's the case, if I were to inscribe the Tao-creation's incantation on it while refining the pellet, wouldn't it double the quality of my pellet?"

Chen Xiang looked at the remaining eight Tao-creation Incantations inside the Six Realms mirrors. He was certain that the Tao-creation Incantation had double the attribute, it's just that the increase in attribute would be more than that.

For example, the second stage of the Tao-creation's Incantation could be increased by two times!

"Hurry and try it, put it on the Crystal emperor!" Coincidentally, Chen Xiang had an Crystal emperor that was about to succeed. At that moment, he only needed to use the melted Crystal emperor to condense the Tao-creation Incantation.

Although the Crystal emperor was sturdy, it had turned into liquid under Chen Xiang's berserk flames.

Chen Xiang followed the feeling just now and used a strong power to turn the Crystal emperor he was about to form into a second stage Tao-creation Incantation.

"It's a success!" Chen Xiang looked at the Tao-creation Incantation that the Crystal emperor had turned into, and looked at it with great anticipation.

The Crystal emperor in the shape of a Tao-creation Incantation started to tremble, after that it started to spew out a burst of Qi, and in an instant it became twice as strong, it was equivalent to two Crystal emperor!

Chen Xiang immediately heated up the Crystal emperor, compressing it a little, when compressing it, its quality would also increase a little.

Although the shape of the Crystal emperor had already become square, what was strange was that inside the Crystal emperor, there was actually a second stage Tao-creation Incantation that was as thin as a strand of hair.

"The Tao-creation's incantation is still kept inside. It's really magical." Chen Xiang passed this piece of Crystal emperor to Su Meiyao, and then told Su Meiyao to let them know that he had succeeded in comprehending the second stage of the Tao-creation's Incantation.

She had also seen the first stage of the Tao-creation's Incantation that Chen Xiang had condensed a few times. She and Su Meiyao had both tried to condense it, but they had never succeeded.

After Jiang Lisi absorbed the Crystal emperor, he exclaimed: "What a strong wave of energy!"

Right now, Jiang Lisi had only eaten the sixteenth Crystal emperor, but she said, "Big Brother Chen Xiang, I might be able to evolve after eating this ..."

"This Crystal emperor is probably only equivalent to the last two or three pills ... "It's not enough for you to evolve." Chen Xiang was extremely curious.

"No, after eating it, for some reason, I don't know why, but it suddenly doubled." Jiang Lisi also felt that it was strange, she felt that the previous five or six Crystal emperor that she absorbed were all like this.

Following that, she described her feelings in detail!

Su Meiyao said, "It must be the doing of the thin Tao-creation Incantation hidden inside the Crystal emperor. After Li Li absorbed it into her body, the thin Incantation is still in use, merging together with the refined Tao-creation Incantation and increasing the power of the refined Tao-creation Incantation by another fold. This Tao-creation Incantation is truly terrifying."

Chen Xiang himself was very surprised, he now understood why the weapon that Gu Tong refined was so terrifying, but that was only adding a Tao-creation Incantation.

"Energy increase multiple times ..." This is the power of the second stage Tao-creation's Incantation. I wonder what the third stage of the Tao-creation's Incantation will be like. " Chen Xiang was extremely curious. He felt that even if he did not comprehend all two Tao-creation's incantations, he would still be able to comprehend the third Tao-creation's incantation.

Jiang Lisi had successfully evolved. She was able to condense two Crystal emperor s a day, and it was as if she was laying eggs with them. Chen Xiang then placed her and Jiang Sihua into the Time Domain.

With their speed of only four pellets a day, it only took them five days to condense twenty Crystal emperor s for Su Meiyao's Elixir Spirit Su Yao to eat. With three pellets successfully evolved, if necessary, they could make six Crystal emperor s a day.

"Damn it, if anyone dares to bully me in the future, I will smash their uncle with my Crystal emperor." Chen Xiang laughed foolishly while holding the six Crystal emperor in his hands. He had endured in the Time Domain for so many years and his efforts had not been in vain.

Although Qin Shuang was shocked, she was already used to it. She came out from the You Yao Mountain Villa, placed the Crystal emperor into a groove on top of the Transmission array and then activated the Transmission array.

"I wonder where I'll go. I'm really looking forward to it!" Qin Shuang was done, the Transmission array had already been activated.

[Chapter 3399](#)

After the opening of the Transmission array, Chen Xiang and Qin Shuang immediately went to the other Transmission array, and this place was still within the Soul Demon Sacred Forest.

"He hasn't left the Soul Demon Sacred Forest!" Chen Xiang looked around to see that there were still many trees, and sighed helplessly.

"I also don't know why Grandfather wants to get a Transmission array here!" Qin Shuang thought that he could teleport out of the Soul Demon Sacred Forest.

Chen Xiang took out the Six Realms mirrors and said: "You can enter the You Yao Mountain Villa. I'll take a walk around and see if there's anything special about this place."

The Soul Demon Sacred Forest was very big, he must have his reasons for creating a Transmission array, but he just hasn't discovered it yet.

Qin Shuang had already entered the You Yao Mountain Villa. Chen Xiang rode on his Six Realms mirrors and walked through numerous huge trees, these trees were huge ancient trees that reached into the sky, and the trees looked much larger than the ones he had seen before.

"The trees here are much larger, could this be another region of the Soul Demon Sacred Forest? Could it be that the Soul Demon and the humans have never come to this place before? "

Chen Xiang thought to himself. He continued to control the Six Realms mirrors to fly and not long later, he saw a lot of water appearing in front of him.

The huge tree in front of him was submerged in water and he had arrived at a sea area!

Trees grew in the water. A third of the giant trees were submerged in water, while the trees were still green and green. It was obvious that the water didn't make the trees wither. On the contrary, it made them taller and more resilient.

"I really came to a different area." After Chen Xiang traversed across the water area for a while, he realized that he was surrounded by water. It was endless, and huge trees could be seen everywhere.

"I wonder if there are any Soul Demons here!" Chen Xiang said.

"We'll know when we take a look. The energy here seems to be stronger than in the previous region. If there's a Soul Demon here, then it must be a very strong one. I wonder what kind of place this is." Qin Shuang said. She had already reached the top of the Six Realms mirrors and used her jade hands to splash on the clear water.

"Hey!" There seems to be something down there! " Qin Shuang frowned and said: "Quick, look, it's a dot of light, not small!"

Chen Xiang immediately looked towards the underwater area where Qin Shuang was pointing at.

"Could this be the World Defying Stage Fierce Soul?" Chen Xiang said in shock, "If it's the World Defying Stage Fierce Soul ... Why did it appear here, and why is it so big! "

"The World Defying Stage Fierce Soul is not only big, it's also not many!" Qin Shuang let Chen Xiang look around.

Chen Xiang let the Six Realms mirrors fly everywhere and discovered that there would be World Defying Stage Fierce Soul emerging from the water from time to time. They were all the same size.

"Could these be the World Defying Stage Soul River's rivers?" Chen Xiang shouted in shock, "If it's really like this, once night falls, this place will be in danger."

Qin Shuang also did not understand Soul Demon Sacred Forest, so she could not be sure what was going on!

There was the World Defying Stage Fierce Soul below, and it was not weak either. Chen Xiang did not dare to venture further, otherwise, it would be extremely dangerous.

"I can only continue to look for the Transmission array." Qin Shuang said: "My grandfather should have kept the Transmission array here!"

She took out the small formation plate and began to sense it.

Chen Xiang let the Six Realms mirrors fly all over the place, and he started to feel more and more that this place was not simple.

"There's no reaction. This really is a sinister place." Qin Shuang said as his brows furrowed, "I feel that there's a huge difference here compared to the previous Soul Demon Sacred Forest, but I can't tell where."

Chen Xiang could only fly around and search for the Soul Demon.

At night, he originally thought that the World Defying Stage Fierce Soul would come out of the water, but it did not, which made him feel more at ease. The World Defying Stage Fierce Soul here was so big, if all of them came out, it would still be terrifying.

In the next few days, Chen Xiang kept searching all over the place for the Soul Demon, and he was not disappointed.

"There's a tree hole in the tree in front of us. It looks like it was created by a living creature." Chen Xiang saw a tree hole from afar, and the tree hole wasn't small either.

When he got closer, he noticed that there were even more trees behind the tree. They all had holes in them, as if they were a tribe living in this place, or perhaps this place was more like a city.

Chen Xiang had already activated the Counter Power to make himself invisible, he still did not know what that race was like. If it was that type of bloodthirsty nature, he would not need to show his face, and if it was normal and he could communicate with others, he could go and ask.

When the invisible Chen Xiang entered this area, it was already very quiet. It was already noon, which made him feel a little strange.

"Is this place empty? Have you already moved?" Chen Xiang didn't find it strange that there was such a doubt in his heart. It had been half a day, yet this place was so quiet.

Just as he was thinking this, something flew out from the tree hole and fell into the water.

Upon closer inspection, Chen Xiang saw that the object that fell out was a person, his entire body seemed to have been smeared with a pitch-black substance. After falling into the water, the calm surface of the water suddenly rose and fell.

Crash! *

A huge object suddenly flew out of the water and entered a pitch black crocodile. Just that mouth of the crocodile was several Zhang long. The person covered in black substance seemed very small in that mouth, barely enough to fill the gaps between his teeth.

Yes, that person was swallowed by the crocodile!

When the Giant Alligator returned to the water, Chen Xiang took a deep breath. Just now, the Giant Alligator had only stuck its head out, but it was extremely huge.

After Chen Xiang regained his senses, he looked at the big trees around him. Many people were standing at the entrance of the cave, looking at the scene just now.

Of course, Chen Xiang was not sure if it was a human or not now. From the way they were dressed, they didn't look like the old kind. They all knew how to make pretty clothes, but why would they want to live in a tree hole?

"This is what happens when you break the rules here. No matter which race you come from, as long as you violate the rules that we set, you will be thrown down to the fishes." An old man stood at the entrance of a tree and said loudly.

~ It actually is some Ancient Wolf Race, it doesn't sound like a human!

It turned out that he had received a punishment and was thrown into the water to be fed to the fishes. It could be seen that the giant crocodile was very powerful, and there were definitely many of these giant crocodiles here.

"This place should be able to accommodate other races!" Chen Xiang made up his mind. He would go and take a look inside a tree hole, it was just that his Six Realms mirrors wasn't flying high enough, he would need a very short tree hole before he could enter the big tree.

Chen Xiang continued to fly around chaotically, when he suddenly saw a group of people standing on the back of a huge black alligator.

"The giant crocodiles here should be raised by that Ancient Wolf Race or something." Chen Xiang understood.

Chen Xiang also quietly went into the tree cave now. He saw those people coming down from the tree hole, then walk up a flight of stairs and enter the top of the big tree.

The trees here were very far apart, but because the crown of the trees was very large, most of them were connected. The thick branches could be linked together to reach every tree.

Chen Xiang had already appeared and walked up the stairs. At this time, he was inside the trunk of the huge tree.

"The trees here are like huge buildings! This is not bad, in case I have to build a house or something. " When Chen Xiang arrived at the top, he found it to be a bustling market. The interior of the tree trunk was still very big, and this floor could accommodate more than ten thousand people.

What Chen Xiang saw here were only humans, compared to the half human, half beast Soul Demon s that he had seen before.

"What exactly is this place?" Chen Xiang was extremely curious, he could only continue to go up and find a suitable place to ask.

All the way up, Chen Xiang finally arrived at a place to drink tea.

This place was no longer used for trading with the Myriad Tao Divine Soil, but used Myriad Tao Divine Soil Crystals.

After taking a sip of tea, he could not help but sigh in admiration as he felt the mellow taste of the tea entering his mouth and the warm flow flowing through his body.

"I don't know how to make it. It tastes so good!" Chen Xiang happily drank a few cups, then ordered two pots to be placed inside You Yao Mountain Villa to let the girls have a taste.

Even though drinking tea didn't bring about any improvement, it brought a sense of relaxation to the mind. It was a type of enjoyment that allowed one to relax.

"It's delicious, it seems like people here really know how to enjoy themselves! "Little Scoundrel, hurry up and go look for something. Is there anything to eat here?" Long Xueyi asked anxiously, she was a gluttonous dragon, and loved to eat delicious things.

When Chen Xiang was drinking his tea, he saw an old man in poverty come in and asked for the most ordinary tea. Chen Xiang immediately took his pot of the best tea and went over.

"Old mister, you are by yourself and I am by myself. Why don't we all sit together at a table?" Chen Xiang politely smiled.

The old man wore very simple and unadorned clothes. His gray clothes were slightly old and white, but he was full of energy, giving off a very lively feeling.

"Very much so!" Even if the old man did not see Chen Xiang's expensive tea leaves, he was still very willing. After all, many people despised a bad old man like him.

"Kid Chen Xiang, how should I address you?" Chen Xiang said as he poured a cup of tea for the old man.

"Xue Wenbo!" The old man chuckled. "Young man, from your aura, it seems that you aren't of the Soul Race!"

"Old Xue really has good eyesight. You actually saw through it." Chen Xiang's heart trembled as he laughed: "I just arrived at this place and do not understand many things. I wonder if Elder Xue can tell me a little?"

"You must be from the human race!" In here, there are differences between the human and Soul races. I'm a human, but I've been here for a long time. " Xue Wenbo said: "So you do not have to worry too much, this Ancient Wolf Race is not bad, and will not have any enmity towards humans."

"What kind of existence is the Soul Race?" Chen Xiang asked softly, worried that he would be beaten up by the nearby Soul Race people.

"Cough cough ..." They were all formed from the World Defying Stage Fierce Soul. " Xue Wenbo never thought that Chen Xiang would actually not even know this.

"So that's how it is!" Chen Xiang finally understood that they were only of Soul Demon, but because their transformation was extremely thorough, they looked exactly the same as humans, and they were called Soul Clan.

"Old Xue, the World Defying Stage Fierce Soul in the water seems to be quite large!" Chen Xiang said again, because the World Defying Stage Fierce Soul he had seen before wasn't really that big.

"This is the World Defying Stage Soul River of the third floor, he's definitely not small." Xue Wenbo laughed and drank a cup of tea. As he poured for himself, he also poured for Chen Xiang.

Chen Xiang was startled, this was actually the World Defying Stage Soul River of the third floor!

There were actually many powerful races here. He really did not expect that the Transmission array would actually teleport them to the third level of World Defying Stage Soul River. Super Yang Old Ancestor's Transmission array was indeed useful.

Qin Shuang was also quite shocked. Previously, they had thought that those who were still in Soul Demon Sacred Forest, were only thinking that they had left the vicinity of Roc Race. They hadn't thought that they would actually come to the third floor.

"Old Xue, have you heard of Tao-creation Place?" Chen Xiang asked again. All the Soul Demons on the first floor had heard of this place, so they were sure that the humans and Soul Clans here had heard of it as well.

"Of course I've heard of it. That place is the sixth floor, World Defying Stage Soul River, at the very top!" Xue Wenbo looked above and said: "There are still two World Defying Stage Soul Rivers between us. Without sufficient strength, it will be difficult to reach them!"

"What kind of strength does it usually take to get there?" Chen Xiang asked. He was in a hurry to find the Super Yang Old Ancestor and Roc Old Ancestor.

He also did not know that the Roc Old Ancestor was currently up there. If he were to head towards the Tao-creation Place, he would have to pass through here.

"He must be at the peak of Aoshi Holy Stage, and this is barely enough." Xue Wenbo shook his head and said: "I'm not too sure about the specifics, I have never tried it, I am only at the late stage of Aoshi Holy Stage now, so I do not dare to try, it's very dangerous."

Chen Xiang felt that if he were to go there, it would not be too hard. If the Super Yang Old Ancestor left behind the Transmission array, he would only need to use up a little bit of the Crystal emperor.

Although Xue Wenbo looked to be down and out, his temperament made Chen Xiang feel that he was once glorious.

"Old Xue, are you a hidden expert?" Chen Xiang laughed: "You have quite the imposing manner, it shouldn't be like this."

Xue Wenbo laughed self-deprecatingly: "I do not need to hide my name ... I just left the place where I once stood and came here to meditate. "

"Can you tell me something? "It seems like you were once an influential figure, Old Xue." Chen Xiang was extremely curious, and asked for a pot of even better tea.

"Since you're treating me to tea, I'll tell you. Just don't laugh at me." Xue Wenbo was indeed an old man with a story.

"Of course I wouldn't laugh at you!" Chen Xiang said.

"Human and Soul Race are very different, you should know that right? The human race was not in the same region as the Soul Race. The Soul Clans were all grouped together in the same species, such as the Ancient Wolf Race. What tiger clan, sword clan, and sword clan are all like that. "

Chen Xiang nodded, it was only now that he realized, there were swords and blades within the World Defying Stage Fierce Soul, the kind of Madness soul that could also transform into human forms.

"Humans, on the other hand, like to build cities, build empires, build sects, and rope in all sorts of like-minded people to create a powerful force." As Xue Wenbo spoke till here, he could not help but sigh. "I was once the emperor of an empire!"
