

Dan God 3491

[Chapter 3491](#)

Chen Xiang frowned and thought. He had to save Xiao Xianglin, because Xiao Xianglin risked her life to avenge him.

"Chen Xiang, do you think Big Sis's parents are already dead?" Xiang'er asked softly.

"Even though Big Sister's temper is quite aggressive, she will consider the consequences. Didn't she not attack you last time?" Liu'er also said, "Big Sis would suddenly do such a thing. I think it's because she was provoked by something else. That's why she couldn't suppress her anger."

Hearing them say that, Chen Xiang also felt that it was possible, that Xiao Xianglin might know something about her parents.

"When such a thing happens in the Dragon-Elephant School, other powers will treat it as a joke ... The two elders from Dragon-Elephant School were also very angry, so they decided to invite the big shots from various powers to the Dragon-Elephant School to watch the execution of big sister ... " Xiang'er said.

Chen Xiang said with a sunken voice, "Master will definitely be fine, I must save her!"

Now that the injury to his soul had yet to be healed, he had to wait for it to heal before he could come up with a thorough plan.

"Is it safe here?" Chen Xiang asked.

"We don't know either, but this month, when we went out to find out more, the Dragon-Elephant School was also looking for us. The elder of the Dragon-Elephant School has already found out, it was us who took you away." Yu'er said.

"Let's leave this place first!" Chen Xiang took out his Six Realms mirrors.

"Your injuries aren't fully healed yet, why don't you stay here for now?" Xiang'er said.

"Although we haven't recovered yet, we're fine now. Let's leave this place first. Maybe they have some method to find us, and we have the greatest hope of saving Master." Chen Xiang finished.

Xiang'er and Liu'er nodded, and then entered the Six Realms mirrors.

When He Fengyuan saw Chen Xiang, he heaved a sigh of relief. "You scared me to death!" She and Chen Xiang had signed a contract, if Chen Xiang died, she would die.

"My life is still tough!" Chen Xiang snorted.

He Fengyuan did not know about what had happened with Chen Xiang. She was not aware of what had happened outside because she was inside the Six Realms mirrors, but she knew that Chen Xiang's soul was extremely weak.

"What happened?" He Fengyuan asked.

Chen Xiang told He Fengyuan everything in detail. Although He Fengyuan did not have much cultivation at the moment, she had grasped a lot of knowledge and was also his assistant.

"You guys are really reckless!" After He Fengyuan heard this, she sighed endlessly. Xiao Xianglin actually killed multiple elders of the Peak of World Defying magic realm.

Chen Xiang was sure that Xiao Xianglin had used the Tao-creation's Holy Crystal. It could be seen how angry Xiao Xianglin was at that time.

"In other words, your Legendary mantra is gone?" He Fengyuan felt that it was a pity and sighed.

"No, I heard that elder sister took away the Da Elder's body. The Da Elder wanted her to hand it over ... This might be the reason why the Elders have yet to take action, and have said that they would wait for the Leader to come out and take charge. " Xiang'er said.

After the Great Clan Elder took away Chen Xiang's Legendary mantra, and was killed by Xiao Xianglin, his corpse was taken away by Xiao Xianglin. The Legendary mantra and the Great Clan Elder's soul were connected, so the two surviving Elders definitely wanted to snatch it away.

Although there were a few doyens from the Tao-creation School s, they were definitely divided on the ownership of the Legendary mantra. Perhaps, there were some other unforeseen events that occurred during the discussions.

Chen Xiang suddenly thought about it, the longer he dragged it out, the worse his situation would be.

"This way, Dragon-Elephant School and Tao-creation School will definitely look for you everywhere. If you want Big Sis to hand over the Legendary mantra, you can only do it from your bodies." He Fengyuan said.

"Yes." Chen Xiang nodded his head, "I think the elders of the Dragon Controlling Palace are also involved in this matter This is because in the big barrier, the Leader s and elders of the various sects have all suffered heavy casualties. These elders have no choice but to come out.

If the Dragon Controlling Palace hadn't told him that he had Killing evil dragon, this wouldn't have happened!

"Right now, I can only go to Tao-creation Mountain." Chen Xiang did not know where the Tao-creation Mountain was, but he felt that he could ask around.

"Do you know how to get there?" Who should I ask? " Xiang'er said. They all knew about the Tao-creation Mountain.

"of the Tao-creation School." Chen Xiang said.

"This... That's not so good, is it? " Liu'er said worriedly.

"I believe in my eyes. I have saved this guy before. If it wasn't for me and my master, he would have already died." Chen Xiang said: "He should know some things about the Tao-creation Mountain."

Xiang'er and Yu'er could only listen to Chen Xiang. Although their cultivation was higher than Chen Xiang's, their knowledge and thoughts were not as good as Chen Xiang's. After all, they had been servants since they were young.

Chen Xiang could circulate a stage of Time Formation inside the Six Realms mirrors, which could speed up the recovery of his soul.

After a few days, with the help of Mei Jing Sisters, Chen Xiang gradually recovered and went to Tao-creation School.

"Maybe there is some relationship between Tao-creation School and Tao-creation Mountain. As a Leader, Wan Haixu definitely knows something." Chen Xiang said. He had already reached the city near the Tao-creation School.

At this time, the entire city was also talking about Xiao Xianglin's matter. The elders of the sect were one of the strongest existences in the city, but more than half of them had been killed by Xiao Xianglin, leaving only two behind.

When Chen Xiang was in the city, he asked around. Soon enough, he found out that Ding Yuhai was often walking around outside, and he came to a hotel. At that moment, Ding Yuhai was meeting his friends at the hotel.

During the night, when Ding Yuhai finished drinking and just as he entered the room, he sensed a faint Qi, followed by the appearance of a person. He reacted quickly and immediately brandished the Immortal Sword, preparing to stab forward, but then he saw the familiar face!

"Brother Chen!" Ding Yuhai was startled, all of the things that Xiao Xianglin did was caused by Chen Xiang, and everyone knew about it.

Tao-creation School, Dragon-Elephant School and the rest were all searching for Chen Xiang.

"Brother Ding, I need your help." Although his relationship with Ding Yuhai was not deep, he still believed in his judgement. He believed that Ding Yuhai would definitely be able to help him.

"What can I help you with?" As Ding Yuhai sat on a chair, he let out a long sigh. He was very clear how complicated the matters Chen Xiang was facing right now were.

Xiao Xianglin was caught, and publicly executed one year later. As his disciple, Chen Xiang was sure to think of ways to save Xiao Xianglin.

"I want to see your Leader." Chen Xiang said: "Help me deliver a message, tell me to wait for him here, do not worry whether he comes or not."

Ding Yuhai was extremely suspicious, why did Chen Xiang want to see the Tao-creation School? Furthermore, Tao-creation School was currently in closed-door training with serious injuries ... Many powerhouses had returned from the Great Barrier and were heavily injured. Some had even died, and this was something that everyone knew.

[Chapter 3492](#)

Seeing that Chen Xiang insisted to see their Leader, and the matter was extremely important, Ding Yuhai did not ask anymore.

"Leader is in closed-door training to heal his injuries. I don't know if I can contact him, so I'll do my best. I'll go right now." It was already night time, so he returned to Tao-creation School overnight.

Chen Xiang stood at the window and looked out into the night, not in the mood to watch. In a year's time, Xiao Xianglin would be publicly executed, he had to think of a way to save Xiao Xianglin before that.

Although he had the Time Domain, he didn't have the confidence to step into it within a year. Initially, it was already rather difficult to even step into the World Defying Stage Divine Rank, let alone the Peak of World Defying magic realm.

Daybreak, Chen Xiang was still standing by the window. He did not come, but Wan Haixu did. Chen Xiang really did not expect that the one who opened the door and entered was not Ding Yuhai, but Tao-creation School!

Ding Yuhai really succeeded in getting Wan Haixu to come here.

Wan Haixu was dressed in a black robe and a conical bamboo hat. After he took off the conical hat, he could see his slightly aged and weak face;

"I know the gist of it." Wan Haixu looked at Chen Xiang with a stern expression: "You and that girl have saved me before. Even though I have given you Tao-creation Holy stone as repayment, I feel that my life does not only belong to two Tao-creation Holy stone! I have yet to recover from my injuries, when I recover, I will do my best to save her, even if it means losing my life! "

"Leader Wan, you're too serious!" Chen Xiang had not expected that Wan Haixu would actually prepare to fight with his life on the line. After all, he understood a bit about this, because even the elders of the Tao-creation School s had all gone to the Dragon-Elephant School.

"Leader Wan, I am not here to find you so that you can save my master ... Although you are powerful, even if you are able to fully recover, it will still be difficult for you to defeat that many doyens. " Chen Xiang said.

He did not try to look for Xiao Xianglin in the Dragon-Elephant School, because the place where he was currently imprisoned must be extremely tight. If he were to barge in and be arrested, then no one could be saved, so he did not attempt to do so.

"Then ..." Wan Haixu was extremely suspicious. Actually, even if Chen Xiang told him to go and save her, he definitely would not refuse.

"Let me ask you, there's something about the Tao-creation Mountain!" Chen Xiang said. There were even stronger existences in the Tao-creation Mountain, he was going there to find even better pills.

Although there was a pill here that could let people enter the World Defying Stage Divine Rank, it was not very effective, Chen Xiang needed a pill to let him enter the Late period of World Defying magic realm, there was no pill here.

"You actually know about the Tao-creation Mountain." When Wan Haixu mentioned the Tao-creation Mountain, Wan Haixu felt that there was still hope to save him, because the Tao-creation Mountain was extremely powerful. If Chen Xiang could find help in the Tao-creation Mountain, there was still hope.

"I happened to hear someone mention it." Chen Xiang said: "This is my only hope right now, so I must go."

Wan Haixu nodded. "Tao-creation School and Tao-creation Mountain have very deep roots ... I don't really know the specifics, but when I became the Leader of Tao-creation School, I had read a history book about the Tao-creation School, it was simply recorded inside. "

"Then where is the Tao-creation Mountain?" Chen Xiang's heart skipped a beat. As expected, Leader knew a bit about the Tao-creation Mountain.

Wan Haixu took out a big ancient book, the ancient books were made with special materials, even though it was a long time ago, the ancient books did not have any trace of age, but it was filled with an ancient aura.

Wan Haixu flipped open a few pages, and then saw a huge map.

"This area is where we are." Wan Haixu drew a circle on the edge of the map with his finger. This area was very small.

After that, Wan Haixu drew a circle near the center of the map: "This is the Tao-creation Mountain, this map should be useful to you, remember this well."

Chen Xiang immediately noted down the map. The ten great sects were located in such a vast area, but in Tao-creation Place, it was actually a very small area.

"Be careful on your way!" This is twenty pieces of Crystal emperor, I might not know much about you. " Wan Haixu passed twenty Crystal emperor s to Chen Xiang.

"Thank you, Leader Wan ..." Chen Xiang was extremely grateful. Even though he was at his most helpless right now, there was someone helping him.

"You're welcome!" Wan Haixu smiled and patted Chen Xiang's shoulder: "You will definitely succeed."

"Thousand Leader, if Gu Tong and Luo Jiuyang return, I hope that you can tell them about it! To tell you the truth, Luo Jiuyang and I come from the same place. " Chen Xiang said.

"I can see that." Last time when he saw Luo Jiuyang and Chen Xiang leaving alone, he knew what secrets they had.

If Luo Jiuyang and Gu Tong were here, Chen Xiang probably wouldn't need to head to Tao-creation Mountain.

"Thousand Leader, help me thank Brother Ding." Chen Xiang said.

"Got it!" "Be careful along the way." Wan Haixu nodded.

Chen Xiang left the hotel, following the directions indicated by the map, and headed there quickly.

After leaving the city, he released Ah Hu, who was even faster and could fly higher. This would make him safer.

"Chen Xiang, go to the Tao-creation Mountain and remember to hide your dragon. Even if it's your green dragon, it might have the aura of a Killing evil dragon." He Fengyuan said: "Maybe this Dragon Controlling Palace sensed your Azure Dragon. Because your Azure Dragon contained the aura of a Killing evil dragon, it was followed by this Dragon Controlling Palace."

"Dragon Controlling Palace these bastards, just you wait." Chen Xiang clenched his teeth. Forget about Killing evil dragon, even if it was his own Red fire dragon, it would still give off a scary feeling.

Chen Xiang rode on Ah Hu's back and flew high in the sky with a heavy heart. He was very worried for Xiao Xianglin and worried that those people would attack him ahead of time.

The Tao-creation Mountain was very far away and Chen Xiang didn't know how long he would take to fly before he could reach it. Right now, he could only let Ah Hu rush there as fast as he could.

Therefore, Chen Xiang was able to fly continuously for more than ten days, without encountering much trouble, and without encountering much of a problem.

"It's already been more than ten days, is it still not here?" Chen Xiang didn't want to waste so much time on the road, but he had no other choice now.

Ah Hu was extremely fast, flying without stopping for more than ten days. He had flown for a long distance, but Chen Xiang had not seen any signs unique to Tao-creation Mountain, it was just like those giant mountains.

Back then, Wandering Old Man had told him that Tao-creation Mountain was extremely huge!

A few days later, a thick cloud of fog appeared in front of them.

"Strange, such a high place is shrouded in mist." Not long after Chen Xiang saw the clouds, Ah Hu had already entered the clouds. Chen Xiang looked down and felt that there were thick clouds below.

"Could this be a natural barrier?" Chen Xiang wondered.

[Chapter 3493](#)

While Chen Xiang was deep in thought, Ah Hu had already passed through this thick layer of clouds.

Soon after, Chen Xiang saw a huge blurry shadow in the distance. Upon closer inspection, he saw a huge monster standing tall in the distance, reaching high into the sky, and he could not see the top.

The Tao-creation Mountain was extremely huge and the summit was very high, as if they had already touched upon the starry sky. Chen Xiang had already flown very high now, but he was still unable to see the peak of the Tao-creation Mountain.

"It's really huge!" At this moment, Chen Xiang seemed to see a piece of land fall from the sky and lie on the ground. Tao-creation Mountain covered an extremely large area.

After Chen Xiang let Ah Hu fly downwards, he looked at the tall and big mountain in the distance and immediately felt an indescribable pressure assault him, causing him to be unable to breathe.

"Ah Hu, you can rest." Chen Xiang let Ah Hu enter the Six Realms mirrors. After flying for almost twenty days without resting for even half a moment, Ah Hu was already extremely tired.

Chen Xiang entered the Six Realms mirrors and controlled it to fly.

Right now, he had already arrived at the area where the Tao-creation Mountain was. There were definitely many experts here, so he had to be extremely careful, as entering the Six Realms mirrors was the safest.

After the Six Realms mirrors was concealed by the Counter Power, it quickly flew into the forest.

There were a total of seven Tao-creation Mountains, and they were all separated by a distance. Chen Xiang could only see one of them now.

After controlling the Six Realms mirrors to fly for two days, he had already reached the bottom of Tao-creation Mountain and boarded there. Right now, he didn't know where he should go to find places with people gathering, such as cities or sects.

Only by finding these places would he be able to quickly understand the affairs of the Tao-creation Mountain, and then, deal with his official business.

The Tao-creation Mountain was green, and the main difference was that it was covered with huge green trees. Chen Xiang was in a relatively short region in the Tao-creation Mountain, and this area was extremely vast.

Of course, the Tao-creation Mountain was huge, and only by going to a higher place would one have the feeling of climbing the mountain. The highest place was the tip of the mountain, and that place was definitely very small.

"I wonder what kind of sects this Tao-creation Mountain has." Chen Xiang walked aimlessly. He wanted to go deeper.

All along at night, inside the Six Realms mirrors, he suddenly heard a sound coming from outside.

"It's so late, what are you doing in this place?" a man complained.

"Kid, you only know how to be lazy all day ..." I brought you here to gain experience. If you don't work hard, you'll be kicked out of the family." A middle-aged man sighed. It could be seen that the man was his son.

"Dad, I'm too lazy to stay in the family. If I'm kicked out, I'll be even more carefree." The man chuckled.

With a dong sound, the middle-aged man fiercely hit the man on the head, causing the man to scream out in pain.

"I was stupid to begin with. If you keep fighting, I'll die of stupidity." The man shouted in dissatisfaction.

When Chen Xiang came out of the Six Realms mirrors, he had already seen this pair of father and son, both had burly bodies, their father had an extraordinary bearing, and their son looked rather simple and honest.

"I am Chen Xiang, and am only at Tao-creation Mountain. I wonder if the two of you can tell me how I can get to the place where there are people?" Chen Xiang walked over and cupped his fists and said.

"I am Song Jiangnan, this is my son, Song Longprofound." The middle-aged man saw someone and hurriedly said. He even pulled his son, who was sitting on the ground, to get him up as soon as possible.

"Senior Song, Big Brother Song." Chen Xiang smiled and said.

Being called Big Brother by someone, Song Longprofound was a little flattered and quickly stood up with a silly smile: "Brother, there's no need to be so polite Right, you said you want to go to a place with people? The closest to here is the Cang Fire City, our Song Family is an aristocratic family of the Cang Fire City. "

"Little brother, you must be from outside, right?" Song Jiangnan patted his son to stop him from talking, then pointed at the cloud and said.

Chen Xiang nodded his head: "It was really not easy to travel here, but I am unfamiliar with this place, I hope the two of you can give me some guidance."

"Truly amazing. To be able to come to Tao-creation Mountain from the outside, I must have experienced a lot on the way." Song Jiangnan said with great admiration. Then, thinking about how his son was a coward, he couldn't help but sigh.

"No no, the journey wasn't too arduous." Chen Xiang laughed.

"Anyway, I don't want to go out. I heard that it's very dangerous outside." Song Longprofound curled his lips. Right now, his father wanted to capture him and drag him out.

Chen Xiang had been flying high in the sky the entire way. There weren't many fierce beasts that could fly here, so Chen Xiang was extremely safe in the sky.

Song Jiangnan said: "Little brother, why don't you follow us back to the Cang Fire City Originally, I wanted to bring this brat out for training, but seeing him like this, I think I'll forget about it. "

"Senior Song, everyone has their own ambitions. Brother Song may not like fighting and killing because of his personality, he only likes to live a stable life and enjoy peace. I think with his personality, he should either refine or refine pills. He might have a bright future." Chen Xiang said.

It was as if Song Longprofound had found a close friend, and wished that he could become sworn brothers with Chen Xiang, Jin Lan.

"Dad, I've always liked refining, but you just don't agree. You always say that I don't have any talent, but in fact, I do." Song Longprofound said in an extremely wronged manner.

"The important talent required for refining is to learn the Tao-creation's incantation. Brother Song, if the speed at which you learn the Tao-creation's incantation is very fast, it means that you have talent in this aspect." Chen Xiang said.

"I do, my learning speed is many times faster than others." Song Longprofound was extremely proud of himself for bringing up this matter.

Song Jiangnan sighed helplessly, "I actually hope that he can achieve great things in refining, but our Song Family does not wish for him to learn the important Tao-creation's incantations, because ..." He has always given people the feeling that he won't have any future prospects, and is also a coward when it comes to doing things. "

"It's not a bad thing to be timid. At least we can live a little longer." Chen Xiang laughed heartily, "Since the family does not give it to you, Senior Song, as your father, you should think of a way to fight for it.

Song Longprofound wanted to hug Chen Xiang and cry loudly. After so many years, there was finally someone who could say what was on his mind.

"Big brother, you are too right. If there is a good Tao-creation's Incantation for me to learn, after I learn how to refine a precious divine tool, I will definitely be able to stand proud." Song Longprofound had already called Chen Xiang big brother, and it could be seen how honest he was ...

He suddenly felt that the Song Family looked down on his father and son, so they never gave them the chance. When he thought about it, he felt that there was something wrong with himself, if he had the ability as his father, the Song Family would definitely hand over the precious Tao-creation Incantation to his son to learn.

If he had the ability, even if the Song Family didn't give it to him, he could find it for his son to learn from.

[Chapter 3494](#)

Song Jiangnan thought about what Chen Xiang had said and decided that in the future, he would work hard to find the Tao-creation's Incantation for his son so that he could learn it.

"Little brother must be someone who has a lot of experience and has seen a lot. Thank you for your guidance, otherwise, I might have let my child take the wrong path." Song Jiangnan cupped his hands towards Chen Xiang.

"Big Brother, in the future, what don't you understand about Tao-creation Mountain? Just ask me, I will definitely tell you." Song Longprofound said while admiring Chen Xiang very much.

"Your cultivation is higher than mine. You should be the big brother." Chen Xiang laughed, Song Longprofound was from the World Defying Stage Divine Rank, he did not dare to accept it.

"Don't say that your cultivation isn't high, but those that have reached it are your masters. Moreover, I only called you big brother!" If you didn't remind my dad, who knows what kind of stupid thing my dad would take me to do. It's equivalent to saving my life. " Song Longprofound laughed.

Song Jiangnan couldn't help but be surprised, because he realized that his son was no longer in a daze, and had actually said such sloppy words. He seemed to understand, that Song Longprofound didn't talk to anyone before, mainly because they looked down on him and didn't understand him, so he naturally resisted those people in his heart.

Song Jiangnan suddenly felt that he didn't know much about his son. He thought for a moment. In the Song Family, his son might have been looked down upon often, so he didn't talk much. That was why he was regarded as a fool. In fact, he wasn't. He suddenly felt that his son should be a genius, as his speed

of learning Tao-creation's incantations was extremely fast, which was something that no one in the Song Family could compare to.

"I still don't deserve it." Chen Xiang laughed.

"From now on, you are my big brother!" Song Longprofound did not care whether Chen Xiang dared to say it or not, as long as he confirmed it.

"Alright, let's hurry back to the Cang Fire City." At this moment, Song Jiangnan was also very happy that his son met a close friend. This was also not a bad thing.

Song Jiangnan and his father chatted and laughed with Chen Xiang all the way inside the forest. Song Jiangnan was not weak and was actually a Late period of World Defying magic realm Cultivator. However, with his strength, he was not taken seriously in the Song Family. It could be seen that there were a lot of people with Peak of World Defying magic realm in the Song Family.

"Senior Song, right now, I am only at the peak of Aoshi Holy Stage. I want to quickly step into the World Defying Stage Divine Rank. Chen Xiang asked. He felt that since Song Longprofound was able to enter the World Defying Stage Divine Rank, he must have eaten a pill.

"Eat the Return-to-God Dan! "This is exactly the pill that I ate to break through." Song Longprofound said: "This is a low grade Tao-creation Divine Pellet, it's pretty expensive, and I need to eat quite a few of them."

"A single Crystal emperor would probably need around two hundred to eat." Song Jiangnan replied: "The main purpose of Return-to-God Dan is to help the Aoshi Holy Stage step into the Divine Realm, but after that, it becomes useless. Amongst the low rank Tao-creation Divine Pellets, this is the cheapest."

Chen Xiang did not say anything, because the pill he had previously purchased, also required a Crystal emperor. It was definitely not as good as a Return-to-God Dan, so the Return-to-God Dan was considered to be relatively cheap.

"Did you sell it in Cang Fire City?" Chen Xiang asked.

"Cang Fire City is a city dominated by flames, and refining pills requires fire. Cang Fire City is proficient in this aspect." Song Jiangnan replied: "Our Song Family uses flames. We mainly cultivate the Tao-creation's Blue Flames. We have both the Song Family's Alchemists and Refiners."

"Then why not send Brother Song to be nurtured? His artifact forging must be pretty good. " Chen Xiang asked.

"Those bastards called me a fool. They said I couldn't learn it, and they didn't want to teach me either." Song Longprofound said in disdain, "Even those idiots would need the Time Formation to learn the Tao-creation's incantation. Only then would they be able to recover quickly, but they had stayed inside the Time Formation for hundreds, even over a thousand years before being able to learn one."

He actually has a Time Formation, Chen Xiang thought excitedly. On his way to Tao-creation Mountain, he had to use up 20 days of time.

"Big brother, just call me Long Xuan." Song Longprofound said.

"Long Xuan, what kind of Tao-creation's incantations have you learned?" Chen Xiang asked.

"I have mastered all of the first realm, but there are only five of the second realm..." I won't be able to learn the rest. " Song Longprofound felt extremely helpless as he looked at his father.

"Don't worry, when I get back, I will think of a way to get the Tao-creation's incantation for you. If they don't give it to me, I will buy it myself." Song Jiangnan said.

"This is my good old man." Song Longprofound laughed out loud. "When I learn it, I'll let those guys who look down on me see who's the real fool."

In the Cang Fire City, the city walls were burning with flames, and every household's roof was burning with flames. These flames were of various colors, and in the night, they were extremely beautiful.

When Chen Xiang entered the city, he felt that it was extremely hot here, but the people who cultivated fire here thought nothing of it.

Chen Xiang followed the father and son as they walked down a wide street that was burning with flames. Because fire was the most beautiful in the dark of night, Cang Fire City was the most lively in the dark of night.

In the darkness of the night, the light of the fire illuminated the entire Cang Fire City. The multicolored flames were incomparably gorgeous and dazzling, causing Chen Xiang to sigh in admiration in his heart. This city of the Tao-creation Mountain really had its own special characteristics.

In the distance, there was a hundred-story building. The edges of each floor were burning with flames, and on the roof, there was a huge ball of fire that was like a tree's crown dancing in the air. It was a very spectacular sight.

"Dad, you go back to the Song Clan yourself. I don't want to go back. I'll take my big brother for a walk. He said he wants to buy some medicinal pills, so I'll take him there." Song Longprofound said.

"Alright, you guys have to be careful not to cause trouble everywhere." Song Longprofound warned as he quickly returned to the Song Family.

"Long Xuan, does your Song Family sell Return-to-God Dan?" Chen Xiang asked.

"No, only the Ling Family has Return-to-God Dan. Our Song Family's specialized pills do not." Song Longprofound said: "In the Tao-creation Mountain, every family required an irreplaceable pill, or a method to refine artifacts, or maybe the existence of divine tools was special to a certain extent, so that they could have a foothold in this family. Once their pills were replaced, it would be a family crisis."

"This way, wouldn't there be a variety of Tao-creation Divine Pills here?" Chen Xiang suddenly felt that this was probably the Alchemist's Holy Land.

"Isn't it! I'll take it to the Ling Family store to buy it. " Song Longprofound said: "I know the people from the Ling Family. Although they are not very friendly, but I feel that they are much more reliable than the disciples of our Song Family."

Song Longprofound walked very quickly, bringing Chen Xiang through the blazing Cang Fire City, then arrived at a building that was hundreds of stories high.

"This is the Ling Family!" All of their shops, as well as their family members, are in this building. " Song Longprofound said: "Our Song Family's building is dozens of storeys shorter than them."

"In here, whoever has the highest height will be the strongest?" Chen Xiang asked.

"Hmm, if you were to build it up, you would know that the taller you are, the harder it is to build it ..."
There will be an invisible pressure on top of it, and ordinary materials will not be able to resist that pressure. " As Song Longprofound spoke, he brought Chen Xiang to the great hall on the first floor.

[Chapter 3495](#)

Song Longprofound then brought the light carriage to a counter in the corner. The other counters had people on them, but this one did not have any.

"Long Xuan, are we selling Return-to-God Dan s here?" Chen Xiang took a look at the other counters. Not only were there people selling things, there were also many other counters that were very lively. Only this counter was not the only one that did not sell anything, the counter did not display any items either.

"Brother, you don't understand ..." After the Return-to-God Dan were all refined by the Ling Family's Alchemist, the younger generation went to the Alchemist to retrieve their goods, and then came here to sell them. " Song Longprofound said: "Here, over ten stalls sell Return-to-God Dan s, but only here is of the highest quality, and at the same price."

"Old Song, did you pick up a Crystal emperor? You want to buy pills?" A very skinny man walked over and laughed. Although this man was small and skinny, he was dressed very extravagantly, making him look quite comical.

"Old Ling, this is my big brother, his name is Chen Xiang." Song Longprofound anxiously introduced Chen Xiang, then said to Chen Xiang: "Big brother, his name is Ling Yong, he is the shopkeeper of this counter."

"Hello!" Chen Xiang smiled.

"Old Song actually recognizes you as his big brother, looks like you're quite capable!" Ling Yong laughed. Chen Xiang had already seen that Song Longprofound and this Ling Yong's relationship was not bad.

"No, Old Song, this big brother of yours seems to be much weaker than you. You were not strong to begin with, so you should have found someone stronger." Ling Yong looked at Chen Xiang and confirmed that he was still from Aoshi Holy Stage after sensing that there were no Arrogant Morale on his body.

"Don't worry, I brought him here to buy the Return-to-God Dan. Do you have any goods with you?" Song Longprofound said.

"I happen to have two, but someone has already reserved them..." Ling Yong sighed.

"Do you want us to increase the price?" Song Longprofound snorted.

"Old Song, you haven't been staying, I just don't understand why people call you idiot." Ling Yong laughed and admitted that he would need to increase the price to buy it.

Song Longprofound was a little angry, and glared at Ling Yong.

"Old Song, you have to understand that we are not friends. You only talk to me often, that's why I'm so familiar with you." Ling Yong said.

Chen Xiang took out a Crystal emperor and talked: "Forget it, I will go to other houses to buy it!"

Ling Yong was indeed a businessman, with one glance, he could tell that Chen Xiang's Crystal emperor was not ordinary. The Crystal emperor that Chen Xiang took out was one that was refined by Young girl Danling, and the quality was extremely high.

Chen Xiang just did not know whether or not the non-natural Crystal emperor would be rejected in this place.

"No, no, no." Ling Yong anxiously pulled Chen Xiang back, "Brother Shen, don't be in such a hurry to leave!"

Song Longprofound could tell that Chen Xiang's Crystal emperor was not bad, the reason why he learnt the Tao-creation's incantations was so that he could prepare them for refining. The Crystal emperor was a material for refining, and it was even used as a cultivation resource, he was obviously very familiar with it, and he could also see that Chen Xiang's Crystal emperor was of high quality.

"Big brother, let's go. We'll go somewhere else to buy it. The Return-to-God Dan s here have all been reserved." Song Longprofound pulled Chen Xiang and was about to leave.

"Wait ..." My Return-to-God Dan can be sold to you all. " Ling Yong immediately said: "Brother Shen, only I will take your Crystal emperor, other people do not dare to take it."

When Chen Xiang heard Ling Yong's words, he knew that these refined Crystal emperor were still rejected. However, the quality of his Crystal emperor was at least half a times higher than the other Crystal emperor.

"Brother Shen, you should be clear about the origins of this sort of thing. No one would want it if you took it out, but it would be useful to me, so I want it." Ling Yong took out a Return-to-God Dan and gave it to Chen Xiang.

Chen Xiang took the Return-to-God Dan and said: "What do you want this Crystal emperor for?"

"Of course it's refining ... Your Crystal emperor's quality is so high, and I want to use them myself, so it's still worth it. " Ling Yong chuckled: "If you want a pill next time, you can still come and find me."

"Alright, big brother, let's go." Song Longprofound anxiously brought Chen Xiang and left, arriving at the inn where he was staying.

After entering the room, Song Longprofound anxiously asked: "Big brother, are those Crystal emperor s of yours the kind that can be refined?"

"Yes, why?" Chen Xiang asked curiously.

"That's a human blood Crystal emperor." Song Longprofound's face was solemn: Next time, don't take it out so casually, it's easy to cause trouble.

"I got it!" Chen Xiang nodded his head. The term 'human blood Crystal emperor' was something that Xiao Xianglin had mentioned before. He did not think that the Tao-creation Mountain and the top ten sects would all use this term, it could be seen that it had existed for a long time.

"Long Xuan, I'll go try out this pill first. You rest first." Chen Xiang then entered a secret room, and then entered the Six Realms mirrors.

"Feng Yuan, it's up to you!" Chen Xiang said. He Fengyuan's ability to discern the pill formula from eating was extremely mystical, he had always been curious how He Fengyuan had done it, but He Fengyuan refused to say it.

He Fengyuan knew that Chen Xiang wanted to save Xiao Xianglin, and currently, the only way to quickly increase her strength was through medicine. She ate the Return-to-God Dan, closed her eyes, and went to identify the medicinal ingredients that were needed by the Return-to-God Dan.

After half a day, He Fengyuan said: "The Return-to-God Dan only uses one type of flower to refine. This flower is called the Giant flower, and it's as big as a washbasin, weighing several hundred kilograms, and it has twelve petals. These petals are white during the day and black at night."

"With only one kind of medicinal ingredient, it's still very easy to refine!" Chen Xiang said. This was a Tao-creation Divine Pellet, although it was of low quality, the difficulty of refining it was a challenge for Chen Xiang.

Chen Xiang walked out of the Six Realms mirrors and waited outside for him.

"Big brother, how are the Return-to-God Dan's effects?" Song Longprofound asked anxiously.

"Not bad!" Chen Xiang smiled slightly: "It's just that I don't know when I'll be able to eat it if I keep eating it like this. I want to concoct this pill myself."

"Self-made?" Song Longprofound was shocked.

Chen Xiang originally thought that Song Longprofound didn't believe in anything, but after Song Longprofound shouted in shock, he said, "Big Brother, you're too awesome!"

"I'm still refining it!" I already know the herbs that the Return-to-God Dan needs, but I don't know if that Ling Yong is willing to sell to me. " Chen Xiang said: "This is the Ling Family's lifeline!"

"Let's go ask Ling Yong!" Song Longprofound was very excited, and asked: "Big Brother, are you a Alchemist?"

Chen Xiang nodded his head, and laughed: "Yes, but I still cannot concoct a high level pellet!"

"Anyway, you are Alchemist ..." "You don't know that refining pills is much more difficult than smithing. I had wanted to learn it as well, but the moment I heard about the process, I gave up." Song Longprofound said.

Song Longprofound excitedly brought him to the Ling Family Building. At this time, the sky was already bright, and compared to the night, it was much colder here.

This time, Chen Xiang saw Ling Yong lying on the counter. When he saw Chen Xiang and Song Longprofound, he immediately became energetic and full of smiles.

[Chapter 3496](#)

When Song Longprofound arrived, he looked around. Since no one was nearby, he lowered his voice and said, "Old Ling, we want to discuss a special deal with you. Is it convenient to talk about it here?"

"It's not convenient. Follow me." Ling Yong opened a door behind him, then brought Chen Xiang and Song Longprofound in.

Ling Yong knew that Chen Xiang had that kind of "human blood Crystal emperor". He was very clear that this kind of Crystal emperor was refined using human blood, so he did not mind.

"Do we still need Return-to-God Dan? I don't have many high quality Return-to-God Dan, so I might need some time to get them!" Ling Yong sighed: "My Return-to-God Dan were all taken from my grandfather's hands, but my grandfather isn't the only one. He has dozens of them!"

"Big Brother, what he said is true." Song Longprofound said: "His grandfather is a Alchemist, and every month, he will only refine a large batch of Return-to-God Dan. There are twenty of these in total, which is not easy to obtain."

"Yes, my grandfather used to concoct several batches of pills a month. At that time, I would have more pills." Ling Yong was also very helpless.

"What I want this time isn't a pill, it's a kind of flower" Chen Xiang paused for a moment before continuing, "It's a very big flower, weighing fifty kilograms. It's white during the day, and black during the night."

The corner of Ling Yong's eyebrows twitched, although the movement was very weak, but Chen Xiang could still see it.

"What a strange flower! I don't have any here." Ling Yong shook his head, but he was extremely shocked in his heart. This was because the flower that Chen Xiang was referring to was the one that refined the Return-to-God Dan.

Ling Yong thought about it for a long time. He guessed that Chen Xiang was able to identify it using the pellet, but it was too mystical, it was a secret that no one could imagine, and this was their Ling Family's

secret for many years. Anyone who knew of this secret would have to sign a blood contract, and they would all die the moment they divulge it or sell the Giant flower.

Chen Xiang took out two Crystal emperor s and placed them on the table!

"I really don't know!" Ling Yong sighed and shook his head. He really wanted the two Crystal emperor, but he couldn't sell them.

Young Alchemist was a common sight here, but in the Ling Family, they looked so young, but not many could refine Return-to-God Dan.

"I heard that a girl who found this flower was originally going to sell it to a shop, but her price was too high and the shop didn't ..." There is a purple leaf tree at the entrance of the small hut on the west side of Cang Fire City. You can go and find that lady, and that's right, the flower in that girl's hand is too precious, so it is easy for it to attract fatal disasters. You all should hurry over. " Ling Yong said.

After hearing Ling Yong's words, Chen Xiang understood that it was not allowed for to sell Giant flower, even these three words were not allowed to be mentioned, it was the same for Dragon-Elephant School. Those elders could not pass on the Fusion spell after learning it to others, even if it was their children.

"Long Xuan, let's go quickly!" Chen Xiang shouted.

Song Longprofound anxiously brought Chen Xiang and quickly walked out. When Ling Yong saw that Chen Xiang did not bring away the Crystal emperor s on the table, his heart was filled with joy. He originally thought that Chen Xiang would take one of them, but he had given them all to him.

Ling Yong kept his Crystal emperor, but he was still shocked in his heart. He did not know whether Chen Xiang could really refine a Return-to-God Dan or not.

"Forget it, it's best not to tell the family about this matter. It doesn't benefit me at all." When Ling Yong took out the two Crystal emperor s, he felt that Chen Xiang had given him even more benefits.

... ..

Song Longprofound was more familiar with the Cang Fire City, he sprinted forward with Chen Xiang and headed towards the west city wall.

"The Ling family has found out that the lady has those kinds of flowers, they will definitely send people to assassinate her." Song Longprofound said.

"Yes, although that lady doesn't know what flower it is, the Ling family definitely cannot allow this flower to fall into the hands of other pill shops, and they also cannot purchase it themselves. Otherwise, it would easily arouse suspicion from others." Chen Xiang said.

Soon, they arrived at the western city wall. The houses here were all of the type that descended, and this place was a slum that was extremely messy. For the greater part of a day, there were only a few people here.

"Violet Leaves Tree, over there!" Song Longprofound shouted, and then immediately rushed over.

Song Longprofound sprinted forward at a speed much faster than Chen Xiang's, and in almost an instant, he had already rushed past. After Chen Xiang went over, he immediately felt a trace of danger.

"Long Xuan, you have to be careful!" Chen Xiang anxiously said.

After Song Longprofound entered the house, a burst of fragrance drifted over. Chen Xiang immediately waved his hand and released a gust of air, dispersing the aroma: "It's the Poisonous scent!"

Song Longprofound had only smelled a little bit earlier, and was immediately forced out of his body. At the same time, he held his breath, and a black shadow suddenly rushed out from the rooftop.

"Leave it to me!" Song Longprofound anxiously chased after him.

Chen Xiang then activated her Counter Power and carefully entered the house, only to see a woman dressed in white, with a snow-white robe lying on a chair.

"Xuan Fei!" Chen Xiang almost shouted out, he anxiously teleported over and picked Peng profoundfei up, and sent him to You Yao Mountain Villa, giving him to Su Meiyao and Bai Youyou.

Su Meiyao and Bai Youyou were extremely anxious, especially Su Meiyao, whom she liked the most. When Chen Xiang came to Tao-creation Place, Su Meiyao had mentioned it several times, and told Chen Xiang to think of a way to find this White Roc Girl.

Now, they had suddenly encountered it, and Peng profoundfei had been poisoned.

"The poison isn't too deep. Xuan Fei already has a certain level of resistance towards poisons, and she also has a slightly deeper understanding of poisons. She can use her own methods in time to resist the spread of the poison." Bai Youyou used the extremely strong icy cold power to seal the poison in Peng profoundfei's body, and then extracted the original version of the poison from the Poisonous scent in the room, then began to refine the antidote pill together with Su Meiyao.

"Why is Xuan Fei here?" After entering the You Yao Mountain Villa, Peng profoundfei's wings had disappeared, and her expression was haggard. Chen Xiang could not help but feel his heart ache, as she caressed her face that was as white as paper.

"I don't know. Anyway, I found her. Fortunately, it's not too serious." Su Meiyao let out a light breath.

When Chen Xiang came out of the You Yao Mountain Villa, he saw Song Longprofound carrying a black clothed man and walking over.

"Big brother, after I caught him, he was scared out of his wits, but his body is still fine." Song Longprofound said.

"Burn him." Chen Xiang nodded.

"What about the girl?" Song Longprofound asked.

"I really didn't expect her to be a friend of mine who has been missing for so many years. She has been poisoned by one of my divine tools, so nothing should happen to her. Let's go back." Chen Xiang said, "Long Xuan, do not bring up this matter today to anyone."

"I got it!" Song Longprofound nodded.

When Chen Xiang and Song Longprofound returned to the tavern, Chen Xiang had been paying attention the entire time. He did not notice anyone following them, which made him feel a lot more at ease.

At night, Chen Xiang was in his room waiting for him to wake up.

Peng profoundfei, this White Roc girl, was originally taken away by her grandmother and went to Tao-creation Place. However, Chen Xiang did not understand one thing, Peng profoundfei had actually stepped into the World Defying Stage Divine Rank, although it was only the early stage, he was not weak in this place.

[Chapter 3497](#)

Deep in the night, Peng profoundfei woke up. When she woke up, she saw Su Meiyao, Bai Youyou and the others.

After she confirmed that she was not dreaming, she threw herself into Su Meiyao's and Bai Youyou's embrace and sobbed.

When Chen Xiang entered the You Yao Mountain Villa and saw Chen Xiang, she felt more at ease. She knew Chen Xiang's abilities.

"Are you alright?" Chen Xiang laughed. Back then, Peng profoundfei had said that she would marry whoever wanted to save her father. In the end, she was sure that she would leave with Chen Xiang, but she was suddenly taken away by her grandmother.

"Xuan Fei, I missed you so much." Su Meiyao caressed Peng profoundfei's beautiful jade face.

"I miss you guys a lot too!" Peng profoundfei said.

"Where's your grandmother?" Chen Xiang asked.

Mentioning her grandmother, Peng profoundfei's expression darkened, and said: "She's dead When we came to the Tao-creation Place, we hid and hid, especially after we came to the Tao-creation Mountain, we were often hunted down because we were soul beasts. Once, Grandmother took me along to escape while defending against the enemy's injuries. In the end, we were surrounded! "

"In order to help me escape, Grandmother transferred all of her power to me and helped me escape."

Peng profoundfei's eyes were moist. Although her grandmother took her away, he treated her very well.

"It's all in the past now!" Bai Youyou consoled.

"Mm, I'm really happy to be able to see you two." Peng profoundfei said.

Xiang'er and Yu'er already knew about Peng profoundfei's situation. When Peng profoundfei was unconscious, Long Xueyi chattered incessantly, telling the entire story to the two girls. They had always liked listening to the stories, so they listened to them very patiently.

"Oh yeah, don't you have a Giant flower?" Qin Shuang asked.

"Giant flower?" Peng profoundfei obviously did not know the name of this flower, but she quickly thought of it. She immediately took out her Giant flower and asked: "Is it this flower?"

It was currently black, and because it was night outside, its color changed according to the time outside.

"Probably." Chen Xiang received it and felt its weight. It really did weigh a hundred kilograms.

"Where did you get it?" Long Xueyi asked.

"I got it from a forest." Peng profoundfei said: "Coming to this place, I have no one to rely on, and don't have enough Crystal emperor s on me. I originally wanted to sell one of them, but no one wanted to ... "I didn't expect that someone would set their eyes on me and poison me."

Qin Shuang said, "They poisoned you for another reason ..." Qin Shuang patiently told Peng profoundfei about the Ling Family and the Return-to-God Dan, making him very angry.

"I didn't know about this. He actually wanted to kill me to silence everyone." Peng profoundfei frowned, and said angrily.

"It's fine, let Chen Xiang teach them a lesson." Feng Ke'er laughed.

Chen Xiang took the Giant flower, went inside the Six Realms mirrors and examined it. After she was certain, he then gave it to the Mei Jing Sisters for them to grow.

Chen Xiang walked out of the room and looked at the blazing Cang Fire City outside. He asked, "Big Brother, how is it?"

"Everything is going smoothly!" Chen Xiang said, "Long Xuan, I remember you saying that there is a Time Formation here, right?"

"Yes, big brother. You want to use it?" Song Longprofound asked.

"Yes, I came to the Tao-creation Mountain to increase my own strength ... The main thing is that my master was captured by a group of strong people, so I have to save her. " Chen Xiang said: "I need to quickly reach the Late period of World Defying magic realm."

"Big Brother's master... Can I help? " Song Longprofound felt that the situation was extremely serious.

"That group of fellows is very strong, they are all from the Peak of World Defying magic realm." Chen Xiang sighed.

"We, the Song Family, have Time Formation, but it is not something that anyone can use." Song Longprofound said: "But you can ask Ling Yong, he might have a way."

"Alright, let's go now." Chen Xiang didn't use the Time Formation for cultivation, but to duplicate a large number of Giant flower.

Right now, even if he used the third stage of Time Formation, he would need a lot of time to grow more. After all, this was a Tao-creation divine medicine.

When Ling Yong saw Chen Xiang, he did not know if he had obtained anything from it, but he anxiously brought Chen Xiang into the room.

"Did your Ling Family kill many people who obtained those flowers?" Chen Xiang asked as soon as he entered.

Ling Yong did not deny it. He nodded: "I have never fought before ... Moreover, the other clans have done the same thing in order to protect the clan's interests, and I personally do not agree with this approach. "

"Old Ling, I want to use the Time Formation to help me buy as much time as possible." Chen Xiang said: "What can you do? The reward is good! "

Ling Yong thought about it, he could think of a lot of things, because he guessed that Chen Xiang had already obtained the Giant flower, and would need a lot of time to grow it.

"I coincidentally have a chance to use the Time Formation, so I can transfer it to you ... This is transferable. " Ling Yong said: "But the price is"

"Name your price!" Chen Xiang said. He was more or less willing to invest.

"A Tao-creation Holy stone." Ling Yong said.

Tao-creation Holy stone were extremely precious, even if they had Crystal emperor s, they might not be able to be bought.

"What's the situation with the Time Formation?" Chen Xiang asked.

"I can use it for ten days. In ten days time, it should be around five thousand years ... It can only be used by one person at the most, once this Time Formation senses other people, it will immediately stop working, and I will also be punished, so you have to guarantee that you can only use it by yourself. " Ling Yong said.

"No problem. When can I use it?" Chen Xiang asked, and took out a piece of Tao-creation Holy stone.

"I can do it now!" When Ling Yong saw the Tao-creation Holy stone, his eyes shone. After receiving it, he immediately brought Chen Xiang upstairs.

The Ling Family's building was hundreds of floors high, and Chen Xiang did not know how many floors he reached at the end. In short, he passed through many doors before he arrived at a very large stone room.

"In the middle is the Time Formation. When someone enters, it will automatically activate and they can leave during the process. In total, it will stop after ten days." Ling Yong said: "Remember, only you can use it."

"Don't worry, I hope that I can continue to cooperate with you in the future." Chen Xiang smiled slightly.

Ling Yong walked out of the stone room feeling at ease.

Chen Xiang let Jiang Simei out, and let her be responsible for bringing the Giant flower into the Time Formation.

"Beauty, thousands of years have passed. Thank you for your hard work." Chen Xiang said.

"It's only been a few thousand years. It's nothing much, I was just learning the Tao-creation's incantation along the way!" Jiang Simei laughed openly before bringing the Giant flower in.

If Jiang Simei could increase her cultivation inside and master the Tao-creation's incantation, she would only need to cultivate the Twin Life Mysterious Techniques with Jiang Sijing, and Jiang Sijing would be able to do the same.

[Chapter 3498](#)

Chen Xiang was going to release Time Domain to let him learn the Tao-creation's incantation.

"Let's use the Triple time field!" Chen Xiang felt that it was a pity, if Xiao Xianglin was here, he would be able to teach how to learn the Tao-creation's Incantation, which would allow him to learn the incantations faster.

He had already mastered the first level of the Incantation of Elements and the second level of the Increase spell, and the third level was the Space mantra. Right now, he was in no hurry to master it and was instead going to learn the fourth level of the Fusion spell.

"Let me see, can you learn a few more things? It should be enough to learn the sixth." Chen Xiang used Fusion spell mainly for pill refining.

If he were to fuse with Six beasts, six Fusion spell would obviously not be enough!

"Ah Hu also has a special Fusion spell. I might be able to use it."

Ah Hu's Fusion spell belonged to the Legendary mantra rank, but Chen Xiang felt that this Legendary mantra must have evolved from a Fusion spell. If he could master the nine Fusion spell, maybe his learning would be even faster.

Chen Xiang's Legendary mantra had already been snatched away by an elder of the Dragon-Elephant School. This elder had already been killed by Xiao Xianglin using the Tao-creation's sacred crystal, and his corpse had already been preserved by Xiao Xianglin, most likely for the sake of preserving the Legendary mantra as well.

After staying in the Time Domain for the past few years, Chen Xiang had experienced the importance of talent even more. For people like him who didn't have talent, it was simply too difficult to learn. However, with Xiao Xianglin's talent, learning Legendary mantra was like playing, which made him extremely envious.

Ten days later, Chen Xiang came out of the Time Domain and sighed, "I can only learn the sixth Fusion spell, but its progress is too slow."

He had spent hundreds of years in the Time Domain!

When Jiang Simei came out of the Time Formation, she spent even longer inside!

"Beautiful, thank you for your hard work!" Chen Xiang said. Jiang Simei had lived alone for so many years, this was extremely difficult to bear.

"It's fine, I'm learning the Tao-creation's incantation, time flies." Jiang Simei smiled slightly.

"How are you doing?" Chen Xiang was also very curious.

"The Increase spell has been learned. The Fusion spell has learned three." Jiang Simei sighed softly, "I don't have talent, so my progress is extremely slow. Your master is much faster."

"Yes!" I must save her, and then I will teach you the Tao-creation's Incantation. " Chen Xiang said.

"In total, I grew a hundred Giant flower. I wonder if that's enough." Jiang Simei said.

"It should be enough!" The combination of the Fusion spell and the derivative method could improve the quality a lot.

Right now, he could only rely on pills to improve himself. Otherwise, even if he trained in the Time Formation for a few thousand years, it would be hard for him to step into it.

When Chen Xiang walked out of the secret room, he found that Ling Yong was already waiting for him outside.

"Will there be more in the future?" Chen Xiang asked, he wanted to use it once more, because it would be faster.

"Yes, ten years later!" Ling Yong said.

Ling Yong could only use the Time Formation once every ten years, but he sold this opportunity. This way, he would be able to obtain a Tao-creation Holy stone.

Using this chance to exchange for a piece of Tao-creation Holy stone, he felt that it was still worth it.

Chen Xiang did not say anything. He followed Ling Yong downstairs, and when they reached downstairs, Song Longprofound anxiously brought them in.

"Happy cooperation." Ling Yong laughed and bid farewell to Chen Xiang.

Song Longprofound brought Chen Xiang back to the tavern.

There was only one use of the Time Formation every ten years, and only Ling Yong knew how to sell it. The number of Return-to-God Dan was not many, only a little every day. Furthermore, the quality was very low for Chen Xiang.

"I've checked. Right now, there are only fifty Return-to-God Dan in the Ling family's shop every month. There's really not enough of them!" Song Longprofound said: "The Ling family attaches great importance to this type of pill, it seems like they plan to control the number of Return-to-God Dan."

"After that, we'll raise the price and wait for the price to go up before we put out a little more." Chen Xiang said, he knew what the Ling Family was going to do right away.

"That's right!" It's all up to Big Brother now. If you can refine it, then you don't need to ask for help from the Ling Family. " Song Longprofound laughed.

Chen Xiang took out the Giant flower and sniffed it. This was a Tao-creation divine medicine, he had never seen it before.

"sister Meiyao, you try refining it too." Chen Xiang said.

Following the previous route, Chen Xiang would first refine one pellet, then give it to the Young girl Danling to see if they could evolve. Now, he also planned on doing the same thing.

Su Meiyao of course wanted to refine one as well. She had been studying the Tao-creation Incantation all day long and had planned to give it a try since long ago.

Chen Xiang entered the Six Realms mirrors and closed his eyes. He did not know what she was doing.

"Feng Yuan, what kind of ingredients do you think it would be better for the Giant flower to add in?" Chen Xiang said.

"You don't have many Tao-creation Divine Medicines in your hands! Giant flower is a divine medicine of the Tao-creation. If they want to add other medicinal herbs, then it must also be a divine medicine of the Tao-creation." He Fengyuan said: "If you had even more of the Tao-creation's divine medicine, I might be able to deduce that I would be able to sense the effects of the fusion of the medicinal ingredients."

Sometimes, when two different medicinal herbs were fused together, the effects would be several times, or even a dozen times greater than before. This was the reason why pills were so expensive after they were refined.

"Alright!"

Hearing He Fengyuan's words, Chen Xiang decided to take He Fengyuan to see some of the Tao-creation's divine medicine.

Chen Xiang walked out of the room and called Song Longprofound out.

Song Longprofound saw a beautiful girl in a white dress standing next to Chen Xiang.

After He Fengyuan heard it, she did not say anything and only smiled sweetly. In front of others, she appeared to be very natural and gentle, making others feel that she was a natural and graceful woman ...

Seeing He Fengyuan's reaction, Chen Xiang was secretly startled, this Heavenly Proud Empress had actually changed so much, now it did not look like she had any sort of temperament at all.

"Good God, he's not my wife, he's just a friend." Chen Xiang laughed and scolded, "Long Xuan, I need to go to a shop that can choose the Tao-creation's divine medicine. Do you have it here?"

Song Longprofound had a look of "I understand" on his face, and laughed twice: "Of course there is, I should be able to find Ling Yong since he is there too."

After Song Longprofound walked downstairs, he did not know where he got a car to get He Fengyuan and Chen Xiang to get on it. Then, he rushed over to the Ling family store.

"I didn't expect us to look like a couple!" He Fengyuan chuckled.

"It doesn't look like it at all. It's just that this guy thinks so." Chen Xiang curled his lips: "On the other hand, Heavenly Proud Divine Lord and you seem to be husband and wife, both of you are eccentric."

[Chapter 3499](#)

When He Fengyuan was inside the Heavenly Proud Imperial Palace, he did whatever he wanted. Even the Heavenly Proud Divine Lord knew about it, but he didn't ignore it. Even when He Fengyuan made a fake prince out, he actually recognized this son that was not related to him in any way.

Chen Xiang also felt that it was weird.

"Don't mention him. The reason why I'm together with him is because of my father." He Fengyuan snorted lightly: "That guy is the real prodigy. He obviously controls such a huge empire but he doesn't pay any attention to him, allowing others to insult his empire."

"Feng Yuan, you seem to have an ability that can distinguish the characteristics of medicinal ingredients? I dare say you have never seen a Giant flower before, nor have you heard of this name, but you know it. " Chen Xiang had always been very curious about this.

"The ingredients are spiritual. You are a Alchemist, you should know this better than me." He Fengyuan said.

Chen Xiang nodded his head: "You can communicate with the spirit of the medicinal materials?"

It was possible for Chen Xiang to establish a connection with the spirit of the medicinal ingredients, but he could not go that deep, nor could he be that fast! Moreover, He Fengyuan did it using pills, this was even more unbelievable, because after the ingredients were refined, the spirit essence would basically be erased too.

"Low-priced medicinal ingredients have spirits, high-ranked medicinal ingredients, and those that reach the level of the prideful medicine will have souls, which is the Medicine soul! But it is very weak, and the Tao-creation's divine medicine's Medicine soul is very strong. "

This was the first time Chen Xiang had heard such a thing.

"Even though the medicinal ingredients were refined into a pill and the Medicine soul had been torn apart, there are still remnant souls within the pill. These remnant souls contain certain information, and the most specific information is about the shape and ability of the medicinal ingredients, and then is the Medicine soul's ability to sense the outside world. For example, the Medicine soul can hear the conversation of humans, so the Medicine soul knows the name of their own body.

It could be seen that she was trying to completely resolve the conflict between her and Chen Xiang when He Fengyuan had told her the secret.

"How did you do it?" Chen Xiang asked.

"I had previously fused with a World Defying Stage Fierce Soul called the Grass and Wood Souls." He Fengyuan said: "It is precisely because of this that my father is able to become a Alchemist, and I myself am not proficient in alchemy."

Chen Xiang suddenly felt that this He Fengyuan would be of great help to him.

"Chen Xiang, you and I have a promise, you promised me, you will help me recover my cultivation." He Fengyuan said: "If I did not have enough pills, it would be impossible for me to recover my original cultivation! I have also signed a blood contract with you, so I will not harm you in the future. Moreover, in this kind of place, our cooperation will be of great benefit to both sides. "

"I will definitely do what I promised you. But now, you should also know that my master has been taken away. I need to go save her." Chen Xiang said.

Xiao Xianglin was very strong, his artifact forging skills were not bad, and he had an exceptional talent in Tao-creation's incantations. If he was together with Chen Xiang, it would be able to increase Chen Xiang's strength, and this was something He Fengyuan was happy to see.

Right now, she treated Chen Xiang as her own reliance. She had considered everything regarding Chen Xiang in the long term, weighing the pros and cons.

"Give me a Giant flower. When I go and observe the Tao-creation's divine medicine later, I will be able to tell which Tao-creation's divine medicine has the most effect after being combined with the Giant flower." He Fengyuan said.

"Alright!" Chen Xiang took out a Giant flower and passed it to He Fengyuan: "How do you see it? It's really magical! "

"This is a kind of feeling. I can simultaneously fuse the Medicine soul power of two medicinal herbs with my wood spirits, and then feel the reaction of the Medicine soul s of the two medicinal herbs towards each other." He Fengyuan said.

Chen Xiang also did not understand, because he did not have any plant essence.

"We're here!" Song Longprofound shouted from outside.

"Chen Xiang, this foster brother of yours isn't a bad person. Don't mistreat him." He Fengyuan said.

"I know!" Chen Xiang nodded.

When He Fengyuan walked out of the carriage, her jade-like face revealed a faint smile. Then, she held onto Chen Xiang's arm, elegantly got down from the carriage, and followed Chen Xiang into the hall.

After all, he had just obtained a piece of Tao-creation Holy stone, and was in a very good mood. However, just as he was about to leave the counter, he saw a noble person, Chen Xiang, coming over, and bringing this beautiful and charming woman along.

"Brother Shen, you just left and you're back. Did you suddenly think of something you want to buy?" Ling Yong laughed.

"My friend wants to buy the Tao-creation's divine medicine, what good stuff do you have? Show it to us." Chen Xiang laughed.

"Please come in!"

Ling Yong brought Chen Xiang and the other two into a great hall. There was a long table in the great hall, and then, one after another, he took out the Tao-creation's divine medicine and placed it on the table.

"These are all grown by our Ling Family. There is a large amount of sources, and they are all low grade Tao-creation Divine Medicines." Ling Yong said: "With my current level, I can only get this Tao-creation's Divine Medicine."

When He Fengyuan saw the Tao-creation Divine Medicines, he frowned slightly and looked at them seriously. Furthermore, he picked them up with both hands and checked again and again, until only Chen Xiang knew that she was using that mysterious ability to communicate with the Medicine soul.

"How much are these Tao-creation's Divine Medicines selling for?" Chen Xiang asked.

"Ten portions of Crystal emperor. That's very cheap." Ling Yong laughed.

Chen Xiang looked, although he did not recognize any of the Tao-creation Divine Medicines, they looked to be of average quality.

"The quality is not good." Song Longprofound curled his lips: "Old Ling, is this all you have?"

"Our Ling Family has a lot of disciples, and a lot of wolves and little meat. I'm already quite amazing for me to be able to supply a large amount of goods." Ling Yong said.

Of course, He Fengyuan felt that this wasn't a problem at all. She knew that the women in the You Yao Mountain Villa were extremely good at growing medicinal ingredients, and could increase the quality of the medicinal ingredients.

He Fengyuan looked for an entire two hours. If it wasn't for the fact that Chen Xiang was a great benefactor, Ling Yong would definitely be impatient. He also didn't understand why this woman would look at him for so long.

Song Longprofound was also very suspicious, but did not ask, only drinking tea with Chen Xiang and chatting on the side.

There were more than twenty kinds of Tao-creation Divine Medicines on the long table, which could be said to be an extremely large number, and in the end, He Fengyuan chose three of them: Ye, Grass and Fruit.

"If you want these three things, you'll need ten portions first." He Fengyuan said.

"I only have these kind of Crystal emperor, do you accept them?" Chen Xiang took out three Crystal emperors and gave them to Ling Yong.

"Of course!" Ling Yong didn't avoid this kind of blood Crystal emperor. He laughed as he received it, and then took out ten portions of those three medicinal ingredients.

After buying it, He Fengyuan pulled Chen Xiang and hurriedly walked out of the shop. Song Longprofound also felt that it was strange as he seemed to be slightly nervous.

After getting on the carriage, He Fengyuan panted a few times, "This is too unexpected, I never thought that there would be such a good medicine!"

Song Longprofound had already started to drive.

"What good medicine?" Aren't they all low grade Tao-creation Divine Medicines? " Chen Xiang asked anxiously.

"It's not that bad to have low-grade Tao-creation Divine Medicines ... The main reason for forging pills is due to the reaction between the medicinal herbs and the medicinal herbs. The quality of the reaction is high, and its effects are even better!" He Fengyuan said.

[Chapter 3500](#)

Chen Xiang had concocted pills for a long time, so he was naturally aware of this matter.

"Refining Return-to-God Dan only has one kind of medicinal ingredient, that's not enough. If you can add other medicinal ingredients, then the effect of this pill will be even stronger." He Fengyuan said, "The reason I used it for that long was mainly because I realized that those three medicinal herbs could react with the Giant flower very strongly, and that all of them could react with each other in such a way."

"Then wouldn't the resulting pill be extremely effective?" Chen Xiang was also looking forward to it.

"Yes, but the difficulty is certainly not small." He Fengyuan said, "The more intense the reaction is, the harder it is to fuse ... Of course, I didn't know that there were Fusion spell in the past, so I thought that it would be easier for you to master Fusion spell of the sixth step now. "

"I will definitely succeed." Chen Xiang said.

If this pill was useful, He Fengyuan could immediately step into the World Defying Stage Divine Rank after recovering his cultivation.

He Fengyuan's Divine Sense Sea was destroyed because it was a place that stored energy. She needed a large amount of energy to rebuild her Divine Sense Sea in order to recover her cultivation, and the quickest way was to use a large amount of Crystal emperor.

Chen Xiang had Crystal emperor, and he could even refine higher quality ones, it was just that right now Chen Xiang did not have the energy to do it, so He Fengyuan did not raise this requirement.

"Big Brother, did you buy those things for the sake of refining pills?" Song Longprofound asked, but he only saw Chen Xiang getting off the car alone, and He Fengyuan disappearing.

"Where's your friend?" Song Longprofound asked.

"She is in seclusion." Chen Xiang laughed: "Those medicinal ingredients are indeed needed to concoct the pill, and she also bought them for herself."

Song Longprofound immediately understood as he hid inside Chen Xiang's Divine Sense Sea World or a God Equipment that he had put away for others. He nodded: "Big Brother, you should be starting to refine pills now!"

"It's about to begin!" Chen Xiang laughed: "Long Xuan, there are some Tao-creation's incantations here. Take a look!"

Chen Xiang took out nine pieces of transparent crystal with Space mantra carved on it and gave it to Song Longprofound.

When Song Longprofound saw it, he was ecstatic and at the same time shocked.

"Brother, this is... This is the Space mantra." Song Longprofound shouted in shock, "Although I have never studied before, I have seen my clan's elders display it before, and they are at the ninth step as well!"

"Yes, I am too stupid to grasp it, so you should learn by yourself first." After Chen Xiang finished speaking, he took out a few more Increase spell and gave them to Song Longprofound.

Song Longprofound was so excited that he was crying. These Tao-creation's incantations were something he yearned for day and night.

"Long Xuan, study hard!" "I'm going to start concocting pills." Chen Xiang patted Song Longprofound's shoulder.

Song Longprofound nodded immediately: "I will definitely study hard."

Chen Xiang also wanted to see how good Song Longprofound's talent was. Right now, he couldn't wait to refine the Return-to-God Dan too, so he hurried towards the secret room.

In the secret room, Chen Xiang would refine pills and he would release a first stage Time Domain.

A first stage Time Domain did not consume too much energy for him and did not burden him much. It would make it much easier for him to refine pills and at the same time, buy him more time.

"Giant flower are the main medicinal ingredients. The other three herbs aren't as powerful as Giant flower, but after fusing with the Giant flower, it can emit a very powerful energy." He Fengyuan said: "So, when fusing these four medicinal herbs, you must take note of it, because at that time, it is extremely likely that there will be a strong explosive force."

Chen Xiang remembered He Fengyuan's reminder, and after taking out the Tianchuang furnace, he allowed it to fuse with the Tianchuang furnace.

To refine this kind of Tao-creation Divine Medicine, the original Tianchuang furnaces were not strong enough to suppress the power of the Tao-creation's Divine Medicine, so he had to integrate with the Six Realms mirrors.

The process of burning them was extremely difficult. At the moment, he was only at the peak of the Aoshi Holy Stage, and even if he were to release the strongest ancient fire, it would still be very difficult to incinerate the medicinal ingredients.

"Based on this speed, I'll need at least a few months to completely refine it!" Chen Xiang was shocked, this was something that was even harder to melt than Crystal emperor, it was mainly because the herbs had a special defense that allowed him to absorb the fire energy.

"Fire Curse, Increase spell, open it for me." After Chen Xiang cast the Fire Curse, he used the Ancient Flame, and then used the ninth stage Increase spell to increase the strength of the flames.

The flame had become very strong, but Chen Xiang felt that it was still not enough.

Chen Xiang could see with his naked eyes that those medicinal herbs seemed to have slowly melted after being exposed to the heat of the ice. He silently praised the power of the Tao-creation's incantation, which actually increased the intensity of the flames by many times.

"These Tao-creation's incantations will disappear in an hour, it won't be difficult to engrave them again." Chen Xiang thought in his heart as he looked at the gradually dimming Tao-creation's incantation.

Ten days had passed, and the four types of medicinal herbs had already been refined by Chen Xiang. They formed into four independent air whirls within the Tianchuang furnace, and these four masses of air whirls seemed to be born with mutual protection;

"I can only use the Fusion spell now." Previously, Chen Xiang was naive enough to think that he could easily combine the four cyclones like the other two pellets.

Chen Xiang had etched three, four, five and six stages of Fusion spell into these four cyclones respectively. When fusing multiple things, he had to use even higher ranked Fusion spell to the best of his abilities, in order for the fusion to have an even stronger effect.

When Chen Xiang finished carving the Fusion spell with the four cyclones, the four cyclones actually started to gradually attract towards each other, and started to gather together.

Chen Xiang carefully observed the four cyclones, and at the same time, made his preparations. This was because He Fengyuan had told him that he had to pay attention to the exploding energy once it was condensed.

The four cyclones condensed together, and with a boom, the Tianchuang furnace started to shake violently. Fortunately, the Six Realms mirrors suppressed the energy, otherwise, it would have caused a big commotion.

"Too strong!" Chen Xiang had clearly released his strongest power just now to control it, but this situation had still occurred. Fortunately, Feng Ke'er had acted in time and released a strong seal to suppress it.

"I lost some energy, but it's fine. Just pay attention next time." Chen Xiang heaved a sigh of relief. This was also the reason why he brought Feng Ke'er along when he was refining pills.

"Assembled successfully." Feng Ke'er said.

"Yes, it has become a very powerful crystal!" Chen Xiang sighed, "The Tao-creation's divine medicine is also strange. After being fused, it is not a crystal but a gas, but it has such a berserk energy."

"You're wrong. After the Tao-creation's divine medicine melted, it looked like Qi But it's actually the Medicine soul." He Fengyuan said.
