

Dan God 351

[Chapter 0351 - Reclusive Alchemy Training \(Final Part\)](#)

Gu Dongchen smiled and said, "You are right. Anyway, I came to tell you that we just returned from the One Hundred Thousand Devil Mountains; you were right, there was indeed a rift from which many small Evil Demons were coming to our world."

"You mean to say that the One Hundred Thousand Devil Mountain's large formation is already useless?" Chen Xiang didn't expect that it would lose its role so soon.

"Yes, we had to guard outside for a long time! That rift is already quite large, but seemingly it is releasing some strange power that is blocking the intrusion of some bigger Evil Demons from Demon Domain. However the number of small Evil Demons has already reached a scary number, we spent a couple of days killing them, but we were still not able to kill all of them."

A hopeless look covered Gu Dongchen's face, "That's why we have returned. We are waiting for the powerful experts from the other mainlands to arrive, then we can join forces to seal that little rift; or else the One Hundred Thousand Devil Mountain will be packed with these small Evil Demons!"

"Are those Evil Demons still staying inside the Devil Mountain, aren't they coming out?" Chen Xiang recalled the scene when he too had encountered such a large group of Evil Demons. He secretly despised Gu Dongchen and the other's strength; much to his dismay, they had spent a few days killing those Evil Demons yet they were still not able to finish them. That day with just one move Bai Ziqian had killed the entire Evil Demons.

A frown appeared on Gu Dongchen's forehead, "Temporarily they can't come out; as they had just arrived, they seemed to be seriously weakened. They are absorbing the Devil Qi inside the One Hundred Thousand Devil Mountains to recover their strength, that's why we have to quickly close that rift.

Even the Deans who were standing at the peak of the Mortal World were not able to completely kill those Evil Demons after a few days of killing. Apparently, the Evil Demons were quite large in number; moreover, they seemed to be inexhaustible, kill one, and another one would come right away.

Chen Xiang pursed his lips as a smile appeared on his face, "Little Featherhead, did you come here to tell me this?"

Gu Dongchen smiled, somewhat embarrassingly said, "But of course; however, I hope that Young Martial Uncle can help us with a small matter. You should know that there are many powerful Deans who are coming from overseas to attend the Hero Assembly. They are also bringing their own favorite disciples. They are not only coming to attend the Hero Assembly, but they are also going to show off their prowess!"

Chen Xiang sneered.

"These guys seem to have a very good relation with Xiao Ziliang, it is very likely that when Xiao Ziliang traveled to the other mainland he made some friends. They all have been instigated by Xiao Ziliang such that their disciples are going to challenge our Extreme Martial Sect's disciples. The majority of our Extreme Martial Sect's disciple are going to fight, although we will win some and lose some, the number of winnings should be greater."

Chen Xiang pursed his lips and said, "Do you want me to fight to increase your prestige a little?"

Gu Dongchen laughed cunningly and said, "No, no, of course not, it is to win glory for the entire Extreme Martial Sect."

Chen Xiang gave a spat, "Little Featherhead, if I were you, I'll decide not to fight, now the time is hard pressed, and you still want prestige. If I ask the teacher to come out, these arrogant Deans will one by one return to their mainlands, we will see how they'll keep their arrogant asses."

Ask Huang Jintian to come out? That would be a complete chaos, thinking of this, Gu Dongchen was hit with a shiver.

Seeing Gu Dongchen's distressed appearance, Chen Xiang as their martial uncle, of course, wanted to save his martial nephew's prestige, but he didn't want to fight.

"Little Featherhead, do you want to show off? It's simple, aren't those guys from overseas not short on Building Foundation Dans?" Chen Xiang said with a smile as his eyes twinkled with a hint of a sly gleam. On the other hand, Gu Dongchen upon seeing this shuddered from fear. He knew he was going to be having a bad luck.

Gu Dongchen nodded his head, "Since ancient times, there seemed to be a shortage of Building Foundation Dans in the Mortal Martial World."

"In my hand, I have eighty pieces of Building Foundation Dans, I will sell all of them to you! Later you can take them out in front of them to show off, wouldn't this will be very cool?" Chen Xiang smiled and said.

Indeed it would be very cool, Gu Dongchen thinking of this also felt elated. However, the problem was that he needed to buy these Building Foundation Dans. He couldn't understand why Chen Xiang had so many Building Foundation Dans as though they were peanuts. All of a sudden, he had a few dozen dans, usually even a few dans together would be extremely rare.

"Young Martial Uncle, you are lending them all to me so that I can show off, right? With this we can show to others the heritage of our Extreme Martial Sect, after that I will give them back to you." Gu Dongchen smiled and said. He certainly didn't want to buy them because Chen Xiang was definitely going to swindle him off.

Chen Xiang smiled and shook his head, "You can take them on rent — a million crystal stones for a day."

Gu Dongchen secretly cursed, as far as he was concerned, a million crystal stones for him was simply nothing, but he was a very stingy person, no matter how much it was, he would feel a heartache.

"Little Featherhead, for the Extreme Martial Sect's glory, can't you sacrifice even a little bit!" Chen Xiang said with a smile.

"Alright, I'll take them!" Gu Dongchen clenched his teeth and firmly decided that next time he would not look for Chen Xiang for any cooperation. After the Young Martial Uncle had discovered that he was a local tyrant, he would think of a variety of ways to swindle him off his crystal stones.

Chen Xiang took out a rather large jade box that had a large pile of dans inside which were exuding a dazzling azure radiance. The eighty Building Foundation Dans were looking a lot like shiny beans. Gu

Dongchen was tremendously shocked, though he had prepared himself well, so many Building Foundation Dans were after all very rare!

"Worth it!" As Gu Dongchen's eyes shone upon seeing those dazzling Building Foundation Dans which appeared to be no different than emerald, he praised. He immediately closed the lid and left quickly.

After Gu Dongchen left, Chen Xiang smiled and said, "A million crystal stones for a day, if I hid for a year or so, every day I will rake in a million crystal stones, it is totally worth it!"

If Gu Dongchen knew Chen Xiang had this kind of idea, he would rather die than make this trade.

"Little Rascal, you are really bad, you are his Young Martial Uncle!" Su Meiyao tenderly laughed and said.

"What should I be afraid of, as his elder, of course, I have to discipline him. Let him have a lifetime lesson, who asked him to love being in the limelight!" Chen Xiang retorted with a smile, then carried on with his work.

Ten days went by, and Chen Xiang remained in his private room. He knew Wu Qianqian had arrived, he speculated that it was Gu Dongchen who had asked Wu Qianqian to look for him. However, he intentionally dodged them. He would get more crystal stones with the passage of time.

In a blink, two months went by. Chen Xiang took care of the herbs every day. Although his herb garden was small, the spirit herbs growing there were incredibly precious, such as White Jade Lotus Seed which was the main ingredient for some restorative dans, the Nine Sun Flames Tree, the Azure Profound Tree, and likes were all very rare and precious goods. As long as an alchemist saw this, he would be scared to death, he would remain here until his death.

Chen Xiang discovered a very surprising thing, and that was the soil, after absorbing the Golden Dragon Saliva for so long had already changed. As long as any herbs were grown in this soil, the speed of their growth would be very fast, moreover, it would absorb a large amount of Spirit Qi on its own.

"I had never thought that I would be able to create a spirit field!" Chen Xiang excitedly said. He had now planted many Five Elements True Elemental Dan herbs, a total of ten or so sets. Out of the twelve that he had refined, he failed twice, which gave him a little heartache, but he was still satisfied.

"Now I have one-hundred-and-fifty Five Elements True Elemental Dan!"

Chen Xiang looked at the exquisite dans and proudly smiled. His days were spent taking care of his spirit herbs, refining dans, cultivating or just chatting with Long Xueyi, Su Meiyao, and Bai Youyou. He very comfortably passed these calm days, as far as he was concerned, it could be regarded as a kind of relaxation.

"I should collect the bill!" Chen Xiang mischievously smiled. As he opened the gates of Extreme Dan King Courtyard, he found Gu Dongchen with a glum face standing at the entrance. Only Chen Xiang would dare to be so cruel to the Extreme Martial Sect's Dean!

"Young Martial Uncle, I realized my mistake!" Gu Dongchen's handsome face was filled with bitterness, he obviously realized that Chen Xiang was intentionally punishing him.

[Chapter 0352 - Letter of Challenge](#)

Chen Xiang took the box of Building Foundation Dans and a storage pouch with sixty million crystal stones, checked them out before nodding his head in satisfaction.

"Little Featherhead, you have suffered a loss, next time you will definitely remember this. But think about it, isn't it better than letting you go to the teacher." Chen Xiang smiled and said. He wanted to inform Huang Jintian, Gu Dongchen was hit with a shudder.

Gu Dongchen took Chen Xiang's Building Foundation Dans to show off, he was indeed feeling very happy; those Deans from overseas were all also feeling extremely envious. However, his happiness never came again because he would look for Chen Xiang daily, but Chen Xiang did not respond and intentionally stalled for time.

Gu Dongchen nodded his head and said, "Right, I am the Dean of the Extreme Martial Sect, I have crossed eight Nirvana Tribulation. This was originally my wealth which I can show off, but to avoid this, those guys cooperated with each other, and used their powerful disciples to fight my Extreme Martial Sect's excellent disciples in turns to tire them out. I was too focused on being the victor and ignored this point."

"Now you get it. If I were you, I will go and challenge them! Although at that time they will certainly resort to various means to refuse the challenge, you just can say that they are refusing you because they are afraid of you."

Gu Dongchen lost tens of millions of crystal stones, which woke up his mind. After he left, he did what Chen Xiang had suggested, and challenged those Deans, but not one person dared to accept his challenge, this made him feel a lot better.

"Chen Xiang! You have been really busy these days!" As Wu Qianqian came out from next room and saw Chen Xiang lying on the roof, she smiled and said.

"Everyone is like this!" Chen Xiang replied with a smile.

Wu Qianqian also jumped to the roof, took out a letter and handed it to Chen Xiang, "All these days I have been looking for you but we never ran into each other, it is really too difficult to meet you now. The Free Immortal Sea's little monster have given you a letter of challenge."

"Oh? Why did he look for you?" Chen Xiang took the letter but didn't open it.

Wu Qianqian's face flushed red, and tenderly snorted, "This little rascal thought that you and I are in a relationship, moreover, he also knew that I also live in the Extreme Dan King Courtyard. So, he kept pestering me continuously to pass on his letter of challenge to you."

Chen Xiang smiled and said, "So it was like this, he has wronged you! Right, when you were mistaken as my lover, do you feel aggrieved?"

Wu Qianqian was startled, she didn't expect that Chen Xiang would ask such a question. She tenderly spat, her face turned redder! She jumped off the roof and quickly left the Extreme Dan King Courtyard.

"This girl is too easy to get, as long as you speak of it, I dare say that you will be able to have a good time with her in bed tonight!" Long Xueyi said.

"Smelly Dragon, you have finally shown your true colors, you are one lascivious dragon! In the future, I need to be on guard against you." Chen Xiang didn't expect that Long Xueyi would suddenly say something like this.

"This is because of the memory inheritance from my father, I am a very pure and innocent dragon! Beautiful and lovely!" Long Xueyi said with a pout.

"Don't talk nonsense, you are a lascivious dragon." While laughing, Chen Xiang opened the challenge letter.

The content of the letter rendered him flabbergasted. Xiao Chou's handwriting was extremely ugly, unrecognizable, it seemed to be a scribbling of a two-year-old child. On the challenge letter, one ugly turtle was drawn, the turtle had withdrawn its head inside the turtle shell, and on the turtle shell two words were written "Chen Xiang". Not only was the handwriting very bad, there were also so many mistakes.

"Chen Xiang, you are afraid to fight with me, you are a cowardly turtle who only know how to hide!"

This was what was written in a blank space.

Chen Xiang shook his head and smiled, "Just from his scribbling, this idiot could make other's will to fight dissipate."

"Are you going to fight or not? Herculean Family's Little Devil is a good partner to train yourself. Last time you used the Ice Spirit Devil Aura, and that was the only reason why you were able to win, it does not count! Moreover, you are now in the 6th level of the True Martial realm." Su Meiyao said.

Chen Xiang pondered over it for a bit. Although Xiao Chou was a Little Monster, his strength was nothing to be trifled with. From Gu Dongchen, he came to know that many powerful martial artists from overseas had suffered defeat under Xiao Chou's hand. Soon his name would resound in the entire Mortal Martial World.

Bai Youyou said, "Using the Ice Spirit Devil Aura to defeat him is nothing indeed. I think it's best if you have a spar with him, but first, you must enter the 7th level of the True Martial Realm! Don't you have a hundred-and-fifty Five Elements True Elemental Dan?"

Su Meiyao and Long Xueyi were also in favor of Bai Youyou's suggestion. They too wanted Chen Xiang to step into the 7th level of the True Martial Realm before fighting again with Xiao Chou.

Last time when Chen Xiang fought with Xiao Chou, if not for him using the Ice Spirit Devil Aura, Xiao Chou might very well be the final victor. Although possessing the Ice Spirit Devil Aura was also part of his strength, he felt a little apologetic. He too very much wanted to utilize absolute strength to defeat his opponent, only then could he feel extremely refreshed.

"It is not too good to eat so many Five Elements True Elemental Dan all at once! Moreover, I am still not proficient enough in controlling my strength after I have stepped into the 6th level of the True Martial Realm." Chen Xiang hesitated a bit and said.

"There's nothing to fear, you can go and ask your teacher for his help. I'm sure that he knows a good method for you to enter the 7th level of the True Martial Realm that won't leave any hidden injuries!" Bai Youyou said.

Chen Xiang was hit with a shudder. Go to Huang Jintian to get his help in training, wouldn't that be simply asking to get tortured. Although it was a very good way to cultivate.

"Little rascal, think about your teacher; he is an elder yet he is all alone staying there, how pitiful it is. You are his apprentice, moreover, you and he are so close, should you not take care of him!" Su Meiyao tenderly laughed and said. It was easy for her to say because she was not the one getting tortured.

Chen Xiang bitterly smiled and said, "You can speak 'cause you don't have to actually experience it yourself! But forget it, I don't have anything to fear, what's the worst that could happen, anyway I am not going to die. I can treat it as a brutal training!"

For the first time Chen Xiang felt admiration for himself, he actually dared to do this kind of thing and that too on his own.

"Young Martial Uncle, please repeat what had you just said! You want to go where?" When Gu Dongchen learned the reason Chen Xiang came to him, he suspected that he had heard him wrong.

Wu Kaiming too stood aghast.

"I want to go to the teacher to help me cultivate because I want to prepare the fight against Xiao Chou." Chen Xiang smiled and said. Although he had a smile hung on his face, in his heart he was feeling jittery.

"Young Martial Uncle, are you perhaps sick? Are you alright!" Gu Dongchen sucked a cold lump of air as he asked.

"I am completely alright, I'm perfectly sane. Take me to the forbidden area!" Chen Xiang spread out his hands and said.

Gu Dongchen and Wu Kaiming thought that Chen Xiang was a masochist, he unexpectedly wanted to get tortured on his own. However, they also felt admiration for Chen Xiang.

Along the way, Chen Xiang inquired about some stuff; he wanted to know what had occurred these past few days. What made him surprised was that at the Chenwu Mainland, valiant martial artists from sixty mainlands had actually arrived. Among them were over a hundred Nirvana Realm martial artists who were all Dean-level kind of figures. However, the majority of them had only crossed the sixth Nirvana Tribulation. Although there were some who had crossed the seventh tribulation, they were scarce in number! And someone like Gu Dongchen who had crossed eight tribulations were even fewer, that was why among those Deans, Gu Dongchen could be considered as extremely powerful.

It was also the very reason why the Hero Assembly was going to be held at the Extreme Martial Sect. After the rift was blocked, the Hero Assembly would be held. Even those Evil Demons would serve as a target for many disciples to hunt during the Hero Assembly.

[Chapter 0353 - Dragon Force](#)

Chen Xiang jumped into the deep pit; while Wu Kaiming and Gu Dongchen soon left. They gave Chen Xiang a privilege, such that in the future, he would be free to access this region. Now he was not

subjected to any restrictions as he jumped down into the pit, he was now free to fly, and no power was going to be blocking him.

Huang Jintian was roasting a very large cow ham when Chen Xiang suddenly fell down and smashed into the fire. When Huang Jintian was about to flip out, he noticed that it was his own apprentice, he could not help but exclaim in surprise.

"Am I dreaming?" Huang Jintian upon seeing the dirty face of Chen Xiang, suddenly burst into his maniac laughter, "I must be dreaming."

Chen Xiang grabbed the cow ham and took a few bites off of it, forcefully smiled and said, "Teacher, you are not dreaming, your apprentice came to play with you."

Huang Jintian caressed Chen Xiang's head, startled and once again started laughing maniacally.

"Little Rascal, it is truly rare! Not to mention you, even your senior brother who had ascended to the Heavenly Realm is afraid to death of me. You unexpectedly had the courage to come down here. Say, why did you come looking for me!" Much to Chen Xiang's surprise Huang Jintian had refrained himself from torturing him.

Chen Xiang swallowed the meat in his mouth, smiled and said, "Teacher, didn't you ask me to come down often? That's why I came."

"I had indeed said so, but I thought it went through one ear and out the other! I have said the same thing to your senior brother's apprentices, but they only came down when they have something very important. Little rascal, you are very thoughtful!"

Huang Jintian nodded his head, in the depths of those bright eyes flashed a sliver of a naughty smile, which made Chen Xiang's whole body be draped in cold sweat.

"Teacher, to tell you the truth, I wanted to quickly elevate my strength. As you can see I'm currently in the 6th level of the True Martial Realm, though it can be considered quick, I want it to be a little quicker. I have some dans with me, relying on them, I can step into the 7th level of the True Martial Realm but I'm afraid that my foundation will be unstable, that's why I came down." Chen Xiang honestly explained.

"Brat, your progress is indeed very quick. Right, have you learned the Suppressing Devil Divine Exercise?" Huang Jintian at this time remembered that he had sent Chen Xiang to learn the Suppressing Devil Divine Exercise.

Chen Xiang nodded his head.

"Talk to me about it, Suppressing Devil Divine Exercise is not so easy to learn." Huang Jintian had only heard of it, but he had never learned it.

Chen Xiang told the details to Huang Jintian, which made Huang Jintian sigh with emotions again and again. He still didn't understand what made the Suppressing Devil Divine Exercise so mystical, the learning process was not too difficult.

"No wonder in the ancient records of Extreme Martial Sect, it was said that only martial artists with the Heavenly Sun Fire Spirit could learn the exercise, so it was true!"

At the beginning Huang Jintian didn't understand why, but now he understood. If one wanted to learn the Suppressing Devil Divine Exercise, he must use the Heavenly Sun Fire to burn the chanting formula which would be branded into his soul, when memorizing the chanting formula. Afterwards, he would unconsciously begin to learn the Suppressing Devil Divine Exercise.

This kind of bizarre divine exercise made Huang Jintian greatly widen his horizons.

"Little Rascal, now many experts have gathered at the Chenwu Mainland. These guys are not lacking in experience or knowledge. It is highly likely that some of them might be the martial artists who wanted to snatch my Tai Chi Subduing Dragon Exercise. They are quite knowledgeable regarding this kind of True Qi, that's why, after you go out, it's better if you use the Universe True Qi as little as possible." Huang Jintian said in a very solemn tone.

If he was found out, it would be very dangerous.

The Tai Chi Subduing Dragon Exercise was the Supreme Exercise of the Imperial Dragon Clan. Even the experts of the Heavenly Realm very much yearned for it, not to mention the martial artists of Mortal World.

Chen Xiang nodded his head.

Huang Jintian laughed and said, "Which dan do you have to improve your cultivation? Let me take a look, I need to check in order for me to draft a training program for you."

As Chen Xiang took out the Five Elements True Elemental Dans, with one glance Huang Jintian recognized them. He used to be an influential figure during his era, he had travelled to different mainlands, have traveled far and wide and seen a great deal. But he had never seen so many Five Elements True Element Dan. He knew that his apprentice was also a powerful alchemist, but he didn't expect him to be so abnormal.

"Little Rascal, I am pretty sure that you will ascend much earlier than your senior brother!" Looking at those exquisite and crystal clear Five Elements True Elemental Dans, Huang Jintian said with emotion.

Chen Xiang smiled and said, "This is all thanks to teacher's guidance! I want to quickly elevate my strength, there is a Little Monster of the Herculean Family outside clamoring to challenge me."

Huang Jintian smiled, "Herculean Family's Little Monster? Hei hei, these arrogant guys indeed need to be taught a lesson. When your teacher traveled here and there, I have taught a lesson to many Herculean Family members."

Next, Huang Jintian developed a training programme for Chen Xiang. One-hundred-and-fifty Five Elements True Elemental Dans were divided into three batches which would be taken once every ten days. And during daytime he must undergo a kind of torturous training, while during the night he was scheduled to cultivate True Qi. And also everyday he must spar with Huang Jintian for one hour.

What troubled Chen Xiang was that even after entering the 6th level of the True Martial Realm, he was still not able to congeal "Dragon Force". After cultivating the Tai Chi Subduing Dragon Exercise, the Dragon Force was the strongest form of True Qi. He had inquired Long Xueyi, only to hear that he was still not proficient enough.

When Chen Xiang first came here, he had seen Huang Jintian cast Dragon Force. At that time it had almost scared him, however, no matter how much he tried to congeal it in accordance with the Tai Chi Subduing Dragon Exercise, he was still unable to congeal it.

He had told the same thing to Huang Jintian, however, Huang Jintian too replied that he was not proficient enough.

"I think after you have entered the 7th level of the True Martial Realm, you might be able to congeal it. This kind of strength is very strong, however, powerful martial artists can easily recognize it. You must not use it in front of many people." Huang Jintian said. Only those who cultivated the Tai Chi Subduing Dragon Exercise could congeal the Dragon Force.

Long Xueyi too knew that the Dragon Force was nothing trivial. So, whenever she lent her strength to Chen Xiang, she had never used the Dragon Force, and only used her True Qi instead. She was a dragon, naturally she inherently possessed the Dragon Force.

The torturous training began, in order to improve his strength, Chen Xiang could only bear it down!

The huge pit began to echo with Chen Xiang's heartbreaking screams. Using his unique method, Huang Jintian tempered each and every part of Chen Xiang's body. As a result, not only did his body become stronger, his True Qi too became more pure, his foundation was even more solid. This was also the reason why the three Tycoons of the Extreme Martial Sect were so powerful.

Chen Xiang thought that the time was passing very slowly. Every day the kind of brutal pain he had to undergo was extremely terrifying, but after the brutal training, he would have a lot of harvest. It was also the reason why he persevered.

Now Chen Xiang had completely eaten all the one-hundred-and-fifty Five Elements True Elemental Dans. The reason why Chen Xiang could quickly improve his strength using dans without any hesitation was all accredited to Huang Jintian's help. Unknowingly, fifty True Element Grains were added to his dantian.

Chen Xiang had stepped into the 7th level of the True Martial Realm, but only a little part of those Beast Forms was bright. Imagining the countless True Element Grains required to completely illuminate the five Reverend Beast Forms, Chen Xiang was having a hard time calculating when would he be able to reach that stage.

As envisioned by Huang Jintian, in just one month Chen Xiang had entered the 7th level of the True Martial Realm, and now he was at the most crucial moment, he was trying to congeal the Dragon Force!

To congeal the Dragon Force, not only must his True Qi be vigorous, he was also required to comprehend and perceive the abstruse principles of Tai Chi Subduing Dragon Exercise which often needed a flash of inspiration.

Suddenly, a frown appeared on Chen Xiang's glabella; he only felt that a half of his True Qi had suddenly been drawn out, while on his palm a rice-grain-size speck of white light appeared.

This was the Dragon Force which was exuding an incredibly powerful strength. The aura that was surging out one after another from the white speck was raging the water inside the pool up and down. Seeing this Chen Xiang was extremely excited.

[Chapter 0354 - Fight Again With Xiao Chou \(First Part\)](#)

With half of his True Qi, he could only congeal a speck of Dragon Force. Chen Xiang now came to realize why in the past he was unable to congeal Dragon Force even after so many tries, it was all because his True Qi was still not vigorous enough!

Although it was such a small amount of Dragon Force, its might was altogether completely different. If one day he could release and use Dragon Force in a steady stream just like the Universe True Qi, he would have an exceedingly powerful strength in his hand. It was also the reason why so many people wanted to seize the Tai Chi Subduing Dragon Exercise.

"A speck, that's all! However, if you assimilate this speck with the strength in your palm, you will be able to smack an 8th level True Martial Realm guy to death, even a 9th level too!" Huang Jintian laughed and said. He was feeling extremely happy because his apprentice accompanied him. Even though he knew that Chen Xiang was afraid of coming down; he, as before, helped Chen Xiang improve his strength, though his means were extremely brutal.

"You have now learned how to utilise Dragon Force, in the future, once your True Qi becomes vigorous, then you too can utilize it just like your teacher! However now, as far as you are concerned, it is not extremely useful to you. You might as well use some powerful martial technique with all your strength."

Chen Xiang nodded his head, then he said farewell to Huang Jintian and on his own flew out. In the past, he never had the chance to say farewell and was kicked out.

Chen Xiang just flew out of the forbidden area, as he traced his steps back to the Extreme Dan King Courtyard, he met Gu Dongchen on the road.

Gu Dongchen looking at Chen Xiang tattered clothes could imagine what kind of torture Chen Xiang had to undergo there.

"Young Martial Uncle, I admire you!" Gu Dongchen spoke this from the depths of his heart. If it was him in Chen Xiang's place, he would not dare to arbitrarily go and seek Huang Jintian.

Chen Xiang laughed and said, "But of course, otherwise how can I be your martial uncle?"

"Little Featherhead, quickly go and tell that Herculean Family's Little Monster that father will fight him after three days. You can prepare a good place to show how I deal with him!"

He heartily smiled and swagger his way into the Extreme Dan King Courtyard.

Gu Dongchen was secretly excited. Herculean Family's Xiao Chou had defeated many genius martial artists from overseas. If Chen Xiang defeated Xiao Chou, all of his fame would be snatched by Chen Xiang; and Chen Xiang only had to fight one battle, while Xiao Chou had to fight many.

"Humph, every day he remained low-key and now he can easily get so much prestige!" Gu Dongchen cursed.

After Chen Xiang came out from the forbidden area, his strength had improved a lot. He was very confident in defeating Xiao Chou and that was also why he dared to say such aggressive and lofty words. Gu Dongchen didn't know Chen Xiang had advanced to what level, but he was very much looking forward to it.

After returning Chen Xiang took a bath right away. When he came out, he happened to encounter Wu Qianqian. He chatted with Wu Qianqian for a while and came to know what happened this past few months, Xue Xianxian and Leng Youlan too had earned a great deal of fame. All of this because of their identity as girls, and also defeating many formidable genius martial artists who think highly of themselves. However, the one they had defeated all came from overseas, they had refused Xiao Chou's challenge many times.

"Qianqian, that Herculean Family's Little Monster is no longer pestering you, right!" Chen Xiang asked. Since he had accepted the challenge, many people were now anticipating their fight.

"He has not, this is all thanks to you!" A smile appeared on Wu Qianqian's face. In regards to Chen Xiang's strength, she naturally was not worried. Last time, she had witnessed Chen Xiang pummeled Xiao Chou unconscious.

"Hei hei, you are also not weak. You can also learn to be like Xianxian and Youlan, and challenge other guys. This is a very good opportunity!" Chen Xiang rubbed his chin as he watched Wu Qianqian's beautiful face.

Wu Qianqian shook her head, smiled and said, "I am just an alchemist, fighting and all, if it can be avoided, then why not? Elder Dan has prepared many cultivation materials for me, moreover, there is still the alchemy part."

When she talked about alchemy, Chen Xiang took out some herbs and gave them to Wu Qianqian, "These are a hundred set of True Elemental Dan herbs, take them! When you are going to try refining the Building Foundation Dan, I will give you some herbs again!"

The Building Foundation Dan herbs! Wu Qianqian was stupefied. She didn't expect that Chen Xiang would actually be so generous. So casually giving her Building Foundation Dan herbs!

She knew some of Chen Xiang secrets in the Extreme Dan King Courtyard, like the Azure Profound Tree planted by Chen Xiang. In the beginning, she had often come to watch the flowers bloom, however, after Elder Dan had laid the restrictive barrier, she could not come anymore. However, Chen Xiang still trusted her.

Wu Qianqian was a poor and strong girl. Yet, to Chen Xiang, she was a happy-go-lucky girl. Moreover, she was the only person with whom he could have a conversation within the Extreme Dan King Courtyard.

Subsequently, Chen Xiang had also given Wu Qianqian many tips regarding alchemy, and even guided her in refining a few batches of True Elemental Dans, such that, Wu Qianqian was able to refine five dans with one set of herbs!

In the field of alchemy, Wu Qianqian could be regarded as extremely talented, not to mention that she had a Fire Spirit. In the future, she would surely become one powerful alchemist.

In the dark curtain of the night, Chen Xiang laid on the roof, looking at the stars in the sky. The scene in the sky was exactly the same as the outside, it was just that it was not in same space. This was the miraculous thing about the Mysterious Realm.

He closed his eyes and recalled the sparring with Huang Jintian past this month. Although he would lose every time, and suffered serious injuries; he had benefited a lot during the course of the fight, it also stimulated him to release his strongest strength.

"Little Rascal, Wu Qianqian seems to be taking a bath. Do you want to take a look?" Long Xueyi naughtily laughed and said.

"You smelly dragon, weren't you firmly against the idea of me taking such kind of actions? Are you planning to frame me?" Chen Xiang rejected Long Xueyi's suggestion.

"That is one extremely beautiful girl, are you sure you don't want to take a look?" Long Xueyi asked again.

"Forget it, I have seen even more beautiful figures. So it is not that tempting to me!" Chen Xiang didn't seem to care.

"Damn brat!" Su Meiyao tenderly snorted. She knew that Chen Xiang was talking about her and Bai Youyou; when they first encountered Chen Xiang, they were completely naked.

Bai Youyou snorted and said, "Never mention this again!" She had told this many times, but how could Chen Xiang forget a such thing, from time to time, he would still mention it.

Although Chen Xiang's mouth said so, in the end he was still a man. Moreover, he was also a little lascivious. He could not wait to turn into a bird and flew over to peek at the top beauty of the Extreme Martial Sect whilst she was taking a bath.

Every man's mind, would more or less harbor some evil thoughts. The majority of which could restrain themselves, some just fantasize about it, and nothing more; while there were a few who could not restrain themselves and act according to their desire. So, they would become evil, and create some crime and bring calamity.

In a flash, two days were over. Chen Xiang had also taken a good rest. He walked out of the Extreme Dan King Courtyard and followed Gu Dongchen to the Extreme Martial Sect's square.

On the way, Gu Dongchen exhorted him multiple times that he must not wreck the square. Although during their fight many Nirvana Realm martial artists would lay down a barrier, he was still worried that the scene from the Danxiang Tower would be repeated here.

"Fuck, the Herculean Family's Little Monster came to challenge me, why must we fight here?" Chen Xiang doubtfully asked.

"Our Extreme Martial Sect is the biggest sect in the Chenwu Mainland, naturally, we should act a little nobly. Not to mention, the majority of the people are gathered here." Gu Dongchen replied.

A lot of people had arrived at the Extreme Martial Sect. In addition to the disciples of the Extreme Martial Sect, there were disciples of the different sects from Chenwu Mainland and other mainlands. Among which many had been defeated by Xiao Chou. They wanted to witness the strength of the rumoured strongest young martial artist of the Extreme Martial Sect .

[Chapter 0355 - Fight Again With Xiao Chou \(Final Part\)](#)

Just as Chen Xiang appeared, the entire square quieted down.

Today he was meticulously dressed, he looked extremely handsome and stunning, he was overflowing with heroic spirit.

Chen Xiang's handsome and angular face was extremely clear, his eyes were glistening in an unyielding aura as bright as the stars and as deep as the starry sky. His lips stretched to reveal a calm smile, it had a unique charm on its own. His entire body was wrapped in black tights which seemed to be emphasizing his robust body, revealing a dense masculine spirit, and overflowing with charisma. Some of the girls in the square secretly gasped in admiration.

Watching a man with such an extraordinary bearing appear, those martial artists from overseas were discussing in a low voice. They had all seen Chen Xiang's portrait, but they have not seen him personally. Now sensing the extraordinary temperament from Chen Xiang, all of them acknowledged that the portrait and the actual person were worlds apart; like heaven and earth.

Many among the audience knew that Chen Xiang had once defeated Xiao Chou, but a false information was disseminated by Xiao Chou and the Free Immortal Sea that the outcome of the battle was hanging by a thread, and both parties were on par with each other. However, Chen Xiang mainly with a stroke of luck won the fight. What made Chen Xiang dumbfounded, even more, was that — according to the Free Immortal Sea, that day Xiao Chou was actually seriously injured and despite his injuries, he still fought with Chen Xiang!

Many people came to believe this information, especially the people who had been defeated by Xiao Chou. They all knew Chen Xiang's cultivation was lower than Xiao Chou, so they believed without a shadow of a doubt. Among the martial artists who had lost against Xiao Chou, there were many whose cultivation was higher than Xiao Chou, nevertheless, they were still defeated. That was why they choose to believe these rumors.

On one side of the square, stood Xiao Ziliang with a smile hanging on his face. This time he and an elder from the Free Immortal Sea, as well as, Gu Dongchen and Wu Kaiming were going to lay out the barrier. Even if the entire square is wrecked, this time it had nothing to do with him. Moreover, this time, he had extreme confidence in Xiao Chou. This time he was not going to lose, there would be no second time.

"Chen Xiang, you cowardly turtle, after hiding for so long you finally came out!" Xiao Chou shouted in a young and tender voice.

Looking at the little boy in front of him, Chen Xiang secretly chuckled. A sentence of Long Xueyi appeared in his mind, "He is one immature brat, pummel him to the ground."

"Last time I was seriously injured, and you also used underhanded tricks to defeat me. That's why the previous fight can not be counted!" Xiao Chou yelled.

The spectators were watching the whole drama unfold very calmly. Although it was just a fight between two True Martial Realm martial artists, the Nirvana Realm Deans who had come far and wide across the seas were still very much in anticipation. After all, it was a duel between two peak young martial experts of the Chenwu Mainland. And Xiao Chou had defeated many of their outstanding disciples again and again.

Because Xiao Chou was from the Ancient Herculean Family, they did not feel disgraced. After all, they were all normal humans. They knew that there were some among the humankind who could win against the Herculean Family, but for them, it was difficult to believe. So they were seriously watching the contest.

Chen Xiang smiled and said, "Little brat, lying is bad!"

"Father is a couple of hundred years old, you are not even worthy to be my grandson!" Xiao Chou hated it the most when others called him a 'little brat', let alone Chen Xiang, the guy who had defeated him.

"Haha, if you were my child, I will not despise you. Quickly call me daddy!" Chen Xiang laughed and said. His words made the entire square burst into laughter.

Xiao Chou was boiling in anger, his whole body was trembling. Yet he actually suppressed his anger, which made Chen Xiang feel surprised. Last time he discovered that the Herculean Family was easy to anger, which was a magnificent move.

On one side of the square, Xue Xianxian with a white muslin hanging on her face said in a low voice, "Teacher, last time did Brother Xiang really used some trick to defeat this little monster?"

Xue Xianxian and Leng Youlan, both had arrived to watch the fight. They had personally seen several fights of Xiao Chou. Although they were strong, they believed that they could hold their ground against Xiao Chou. However, if they wanted to win, they had no such confidence.

Liu Menger pondered for a bit and said, "You can't say that it was a trick, what Chen Xiang had used was a kind of powerful martial technique which can cause a damage to the spirit. Now Xiao Chou appeared to be so confident, I think he has a way to overcome it! In the previous battle, Chen Xiang was indeed far weaker than Xiao Chou, that's why Xiao Chou remained unconvinced of his defeat."

Regarding that fight, Chen Xiang also didn't believe he had won; he felt that he had not won in the martial art because at that time he was weaker than Xiao Chou and had to rely on Ice Spirit Devil Aura to defeat him. That's why, this time he had made up for it, otherwise, he would not have accepted the challenge.

If the barrier was still not completely laid out, perhaps Xiao Chou had already charged at Chen Xiang.

Xiao Chou was still as before; his strength had not much progressed. While Chen Xiang had advanced from 5th level to 7th level of the True Martial Realm. He was a lot stronger than before. Not to mention, he had gone to the forbidden area and had undergone the brutal training of Huang Jintian.

Xiao Chou also was not aware that Chen Xiang was suddenly a lot stronger. Who was going to believe that someone, in just a few months, could continuously advance two levels? It was totally unheard of.

This time, Chen Xiang could not use the Universe True Qi, as there were too many Nirvana Realm martial artists among the audience. If they recognized that peculiar True Qi, they might guess that he was Huang Jintian's apprentice.

Naturally, Xiao Ziliang was completely aware of the truth, however, he dared not reveal this. He knew the consequences he would face if he did so. Moreover, he guessed that Chen Xiang too dare not use his

Five Elements Universe True Qi, which was also one of the reasons he invited so many Nirvana Realm martial artists to spectate this fight.

The barrier had been completely laid out. Four Nirvana Realm martial artist spread their strength and completely enveloped the center of the square to create one transparent barrier enveloping the center and even the ground too, to protect the tiles which were the most vulnerable to damage.

"Start!" Gu Dongchen loudly gave the signal for battle. He too had no idea how powerful Chen Xiang was. He just knew that Chen Xiang had undergone a hellish training this past month. What was the cause of concern for him was that, now, Chen Xiang was absolutely unable to use the Universe True Qi. Otherwise, the secret would be easily exposed, he now realized that it was quite unfavorable for Chen Xiang.

Chen Xiang was a normal human while Xiao Chou was from Herculean Family; his blood was flowing with a mystical power which had strengthened his body. He also had divine power inherently, and along with the cultivation, his strength would only increase if not decrease.

Which was also the reason why, at the same level, Xiao Chou was unrivaled in the world. Which also made him even more arrogant!

Once the fight began, the first to attack was Xiao Chou. He was boiling in anger, but unlike before, his mind was not in a mess because of his anger. He was now channeling his anger into power, noticing this kind of progress, Chen Xiang held him in admiration.

Xiao Chou like a lightning bolt leaped, his tiny fist suddenly surged out with a shockwave as if it could shake the space. He punched out, and because of the impact force generated from the jump, the strength behind his fist was even stronger.

Chen Xiang clenched his fist and punched directly towards Xiao Chou's tiny fist which was carrying a shockwave. The fist met with the fist, last time too Chen Xiang fought with Xiao Chou just like this.

Xiao Chou's punch was carrying his innate power, and through some kind of martial technique, he had turned this power violent. Because of which it produced a terrifying shockwave, while Chen Xiang's punch was burning in flames. His entire fist seemed to be burning red, that scalding hot aura was spouting steaming flames.

As both punches collided with each other, two different types of power collided with each other. Much to everyone's dismay, both shares of power fused into one before bursting out with an explosion; the resulting strength exploded and spread to all direction, giving rise to a fierce gale, which collided with the invisible barrier.

With the collision of their punches, the curtain of this fight officially opened.

[Chapter 0356 - Awakening of Strength](#)

Chen Xiang had only utilized fire attribute True Qi, he did not use that peculiar invisible True Qi which would undoubtedly weaken him a lot. Yet, Chen Xiang was still able to thwart Xiao Chou's punch. It appeared that the two were neck and neck with each other.

Last time, even when Chen Xiang had utilized the invisible True Qi, he could only weaken a large part of Xiao Chou's strength. But now, his fire attribute True Qi was surprisingly equally powerful as Xiao Chou's which made it difficult for Xiao Chou to understand!

Many formidable martial artists had seen the previous fights of Chen Xiang, and now it was crystal clear that Chen Xiang had made great progress which took them aback.

Xiao Chou tightly clenched his tiny fist above which some smoke appeared to be rising. The scalding hot True Qi had forcefully invaded his arm; fortunately, he had already learned how to deal with this situation.

"How did you become so strong?" Xiao Chou let out a shout as he once again sent a punch directly towards Chen Xiang's face.

Chen Xiang's current speed was extremely fast. When he was training with Huang Jintian, Huang Jintian focused on helping Chen Xiang improve his speed which allowed him to become more agile. With such speed he was able to evade the enemy's powerful yet quick attack.

Xiao Chou too was very confident in his speed. In the past, because 7th level True Martial Realm martial artists were not able to predict that kind of frightening speed, they were defeated in one move.

Xiao Chou grinded his teeth. The moment when his ruthless strike was going to land upon Chen Xiang's eyes, he only punched through the thin air. He had felt that his fist touched Chen Xiang's eyelashes yet Chen Xiang still dodged it.

After Chen Xiang leaned his head sideways, he mischievously smiled as he smacked a palm directly towards Xiao Chou's tiny face. As he smacked his palm, his palm seemed to be flashing in numerous electric aura.

It was an extremely violent Lightning True Qi. However, it only flashed once before his big palm ruthlessly slapped Xiao Chou's tiny face. Moreover, it was accompanied by a deafening roar, as if a thunderbolt from the sky struck there.

Chen Xiang had utilized sufficient strength on the Shocking Heaven Palm, moreover, it was also carrying a vigorous lightning power. Such strength was enough to topple mountains. Watching Chen Xiang so casually cast such violent palm technique, everyone was aghast.

Xiao Chou was mistaken, Chen Xiang was not only faster than before, he was stronger too, and attacked even more ruthlessly. On his tender white cheek appeared a red palm imprint, a drop of blood also trickled down from the corner of his mouth. Xiao Chou was boiling in anger, his chest was as if a volcano was ready to erupt. Even he had to burn himself up to defeat Chen Xiang, he would not hesitate to.

Chen Xiang had directly slapped his face, which was the worst action to hurt someone self-esteem. Normally in any fight, very few people would hit the other's face, most would go for the head. Seemingly Chen Xiang had intentionally done so.

"Chen Xiang, I'm gonna kill you!" Xiao Chou growled in anger. His young and tender voice became hoarse as a duck, his pair of eyes turned red in anger, blue veins were bulging on his forehead, and his muscles swelled which gave him a grim appearance; now he was like an angry wild beast.

Suddenly, Xiao Chou's thin body trembled as a White Qi fiercely exploded from his body. Xiao Chou once again let out a furious roar, the square suddenly started shaking.

The anger had allowed Xiao Chou to tap into the hidden strength in his body, the frightening potential of the Ancient Herculean Family! Even the Deans who were watching this were incomparably shocked, this kind of frightening potential made them feel threatened. If Xiao Chou grew up, for sure he would become one extremely powerful guy, it would be absolutely difficult to find a rival in the same level.

"Fuck, he sure is as formidable as the old mad man had stated. Is this the awakening of power of the Herculean Family?" Chen Xiang was unexpectedly laughing. Anyone could see that because of his anger Xiao Chou was erupting with a fearsome power than the usual, while Chen Xiang not only had no ounce of tension, on the contrary he was laughing.

Is he laughing? Many people thought that he had some loose screw!

Previously Huang Jintian was boasting to Chen Xiang that he had taught lessons to many martial artists of Herculean Family. Furthermore, he also suggested to Chen Xiang that if he wanted to truly anger a Herculean Family member, the quickest was to hit them on the face ruthlessly and that too in front of many people.

However, this would make the Herculean Family member enter a crazed state, in which their strength would soar a couple more times; which would be extremely frightening.

"Little rascal, quickly slap him! It's a very good opportunity. Didn't your mad teacher said that after they are furious, they would erupt with a stronger power? However, while their power is increasing they will also come to a standstill; which is their weak point. You must seize this opportunity!" Long Xueyi hastily shouted. She very much abhorred the Herculean Family.

Chen Xiang smiled whilst he rush forward like a lightning bolt. On his pair of arms appeared a layer of lightning net. Everyone was shocked by the terrifying power erupting from Xiao Chou. But once again a deafening explosion rang as Xiao Chou's cheek was once again ruthlessly slapped by Chen Xiang.

The strength behind this slap was not any lower than the previous slap. However, once this slap landed upon Xiao Chou's cheek, as Xiao Chou was about to fly, he was once again pulled back as if there was some kind of force pulling him back to Chen Xiang, which was once again followed by another slap; and once again a glaring electric aura flashed.

This time, Chen Xiang's violent and continuous Shocking Heaven Palm was carrying lightning. Under Chen Xiang's onslaught, Xiao Chou fell into a peculiar state in which he was unable to control his body, he could only helplessly watch as his body was constantly ravaged by Chen Xiang.

This was precisely the weak point of Herculean Family; even Xiao Chou was completely oblivious to this. Furthermore, it was only useful for those members of Herculean Family who had never experienced the awakening of strength.

A White Qi constantly emerged from Xiao Chou's body, this was the aura overflowing due to the increase in his strength. It was rather powerful, but he could not fight back.

Xiao Chou's both cheeks had been slapped with armageddon like might, everyone could not help but feel a burning sensation on their own cheeks, let alone Xiao Chou.

Witnessing this, Xiao Ziliang was secretly grinding his teeth. He had realized that Chen Xiang had intentionally angered Xiao Chou, and then the moment his strength was awakened he had been fervently attacked.

"Brother Xiang is really ruthless!" Xue Xianxian slightly frowned. She had rarely watched Chen Xiang's fights. Now that she got to watch how overbearing Chen Xiang was, she realized why Chen Xiang had refused to fight her before.

"This is so gratifying! Brother is too good, I must have a bout with brother sometime!" Leng Youlan said in excitement. This made Xue Xianxian and Liu Menger speechless. Even after witnessing how strong Chen Xiang was, she unexpectedly wanted to fight with Chen Xiang!

Witnessing Chen Xiang's wild onslaught on Xiao Chou's cheeks, everyone gasped in unison! In particular, those guys who had once been defeated by Xiao Chou. Before, they all believed that no one could win against Xiao Chou, but now Chen Xiang had subverted their cognition.

There was no shred of a doubt that Chen Xiang was extremely strong. But no one could exactly see his cultivation. Some believed that he was in 9th level of the True Martial Realm, but he was just twenty or so years old, which made it difficult for them to accept. It was well known that Chen Xiang was in 5th or 6th level of True Martial Realm, which was rather easier to accept.

However, under such cultivation, Xiao Chou was unable to fight back even after being a member of the Herculean Family!

"This little monster can really take a beating!" Chen Xiang slightly frowned. Suddenly, both his arms were wrapped in some lava-like stuff. Subsequently, a scalding hot Qi erupted from his body which continued to impact the barrier.

At this moment, Chen Xiang's pair of arms were as if they had been casted from molten iron, they appeared to be extremely terrifying. Even more scary was that after Chen Xiang's Shocking Heaven Palm landed upon Xiao Chou's cheek, not only had it erupted with a flash of lightning, the subsequent impact was no different than a meteorite crash which gave rise to an intense heat wave one after another.

All of Chen Xiang's strike landed directly upon Xiao Chou's cheek. Nevertheless, Xiao Chou still continued to roar. Apparently, Xiao Chou's defense was very tough!

[Chapter 0357 - Thunderbolt Strike](#)

From the very beginning, this fight was completely led by Chen Xiang. And his subsequent onslaught made everyone lose their breath!

"Is this the strongest young martial artist of the Chenwu Mainland? That's completely crazy, this guy is a madman, he is not human!" A youth from the other mainland murmured.

"And I even wanted to challenge him before! If he had hit me that much, I'm afraid I would have keeled over already!" A man said with a completely horrified look. Chen Xiang's thunderbolt like offense made every young martial artist from overseas scalp tingle. They have already realized the conclusion of their fight with Chen Xiang!

And of course, Xiao Chou had also shocked them. Much to everyone's surprise, under such a violent onslaught, he could still utter such heartbreaking screams. If it was someone else, perhaps not even an ounce of a dreg would have left.

"How about I lend you my power? Get rid of this little rascal with the strongest strength!" Long Xueyi anxiously said, she was itching to get in action.

"No need, I can do it myself!"

A frown appeared on Chen Xiang's forehead because Xiao Chou's strength was still soaring. If he could not finish the fight before Xiao Chou's awakening was finished, he would enter an arduous battle.

Sensing the power emanating from Xiao Chou gradually weakening, Chen Xiang knew, Xiao Chou's awakening was about to be completed. He hardened his heart and let out a thunderous shout; soon after an intense aura overflowed from his body, powerful waves of energy whistled to every direction. Much to everyone's surprise, the strength emanating from Chen Xiang was no weaker than Xiao Chou's.

Watching such energy erupting from Chen Xiang, everyone freaked out. Chen Xiang was already formidable, yet he was still able to rouse his strength, this scared the hell out of everybody!

Chen Xiang was not rousing his strength but casting some kind of a powerful martial technique. Suddenly the sky turned dark as it was densely covered in dark clouds. The clouds swell as a tyrannical Spirit Qi gathered above the square; the friction between the clouds gave birth to lightning one after another.

Suddenly the square was shrouded in a layer of darkness which was accompanied by the flashes of lightning! The onlooking Deans could not help but have a scare; last time, in the Fragrance City, he also came up with such move which had rendered Xiao Chou unconscious. Not to mention, that move had ravaged the square there.

"Young Martial Uncle! I'm not going to get any compensation, please have mercy!" Gu Dongchen upon witnessing the billowing dark clouds in the sky groaned in his heart.

Liu Menger grabbed Xiu Xianxian and Leng Youlan; apparently, she was preparing to jump. Last time, she had witnessed Chen Xiang's earthshaking strike from the sky. She cannot forget that scene. In particular, that majestic White Dragon whilst it charged towards the ground, it made her feel as if the world was about to end.

Everyone who had witnessed that scene was all preparing to jump. There were many such people in the square because that move had nearly buried them, they didn't want to get buried a second time.

Obviously, Chen Xiang was not going to be casting the Furious Dragon's Retribution. Currently, he was in no condition to cast that move, he didn't have enough Spiritual Energy, and also he would have to rely on Long Xueyi's power. He was casting the Thunderbolt Cut!

It was a move from the Dragon Slayer's Seven Killing Cut. It was a very powerful move, last time using this move coupled with the Azure Dragon Slaughtering Devil Blade as well as Long Xueyi's strength, Chen Xiang had killed a 9th level True Martial Realm, the Lu Family Elder.

For the first time he was going to cast this move without the Azure Dragon Slaughtering Devil Blade, but instead using his arm as a blade! He rarely did such because it required time to gather lightning, furthermore, he also needed to draw support from the lightning force and let the lightning channel through his body and finally transform it into power and release it outside of his body.

Xiao Ziliang could not wait to rush over and stop Chen Xiang, but he knew Gu Dongchen would definitely not let him. He could only helplessly watch Chen Xiang as he once again cast an earth shattering move. What gave him a slight pleasure was that this time it would be the Extreme Martial Sect's square which was going to be destroyed, and he did not need to compensate for this.

"Chen Xiang, you are so dead! Ha ha..." Xiao Chou's voice suddenly reverberated; a while light flashed from his tiny fist as a terrifying power surged out.

Xiao Chou's awakening of strength was complete! Earthshaking waves of power were released from his body, making everyone choke.

Chen Xiang immediately brandished his palm to counterattack Xiao Chou's oncoming fist!

Lightning and fire combined with the Shocking Heaven Palm clashed with the Herculean Divine Fist after the awakening of Xiao Chou's strength, the resulting explosion from the clash gave off the impression that space was about to collapse! The subsequent powerful recoil sent Chen Xiang as well as Xiao Chou both into flying, while a tremor ran through the ground from the shockwave produced from a moment ago.

Xiao Chou spewed a mouthful of blood, he had suffered a couple thousands of Shocking Heaven Palms; he was not lightly injured, and now he was once again subjected to such a powerful rebound, he had been holding back the blood somehow, but now because of further injuries he couldn't hold back and spewed that writhing blood.

Chen Xiang also felt sweet in his throat, but he forcefully swallowed the surging blood!

Bang!!!

Suddenly, in the sky a few dozen thunder simultaneously rang, tens of lightning like net suddenly came down. Xiao Chou was startled upon witnessing this; it was the power of nature, he, of course, had to avoid it. If his body was struck by it, the consequence could be disastrous.

Lightning was naturally very fast which rendered any one unable to resist. When everyone saw lightning coming down, they all subconsciously thought that it would strike Xiao Chou because this lightning was produced by Chen Xiang's move. But much to everyone's surprise, every bit of lightning was gathered on Chen Xiang's body.

In that moment, everyone was stupefied! Someone was struck by so many lightning, it would be a wonder if he would not vanish into a puff of smoke!

In that very moment, Liu Menger and the others' mind went blank, they all believed that Chen Xiang was finished!

The instant that countless lightning fell on Chen Xiang's body, everyone including Xiao Chou felt that time had stopped. They all thought that Chen Xiang was finished, they believed that Chen Xiang was unable to control those bolts of lightning.

But after that moment, everyone was once again shocked by Chen Xiang. Much to everyone's dismay, Chen Xiang was alright, his entire body was wrapped in wild and dazzling lightning. As he raised his arm high towards the sky, hideous blue veins started bulging on his forehead one after another. He let out a roar and suddenly his arm swelled as if a big river was about to flow out of his arm.

Thunderbolt Cut! It was as fierce as a thunderbolt!

Just as everyone reacted to the moment Chen Xiang was hacked by lightning, Chen Xiang had used his arm as a blade and hacked towards the far away Xiao Chou. A wild lightning immediately surged out from his arm and transformed into a Powerful Qi that was accompanied by a dragon's furious roar as it charged towards Xiao Chou.

This was nature's lightning power whose might was boundless. After Chen Xiang mobilized the abstruse principle of Dragon Martial Technique, it was transformed into a Powerful Qi which made it, even more, stronger.

In just a blink of an eye, an irresistible Powerful Qi flashed in a dazzling electric aura which crashed into Xiao Chou and was soon followed by bloodcurdling shrieks of Xiao Chou. The Heaven and the Earth once again calmed down.

Xiao Chou flew out and fell on the ground. And on the ground, a deep gully appeared from the impact of the Thunderbolt Cut which further crashed into the barrier; the barrier was almost smashed into nothing!

Chen Xiang slightly sighed. He was a little tired but his breathing was still smooth, evidently, he still had strength to spare!

Obviously, he had only mobilized the Azure Dragon True Qi and the Vermillion Bird True Qi, there was still three kinds of attribute True Qi left unused! This was also the reason why Xiao Ziliang and the others were feeling surprised.

This time Xiao Chou had not fainted, he was still able to move. He very difficulty raised his head and looked at Chen Xiang with a look of admiration in his eyes. He had lost twice in the hands of Chen Xiang; he was truly impressed by Chen Xiang's strength.

"I... I admit defeat!" Xiao Chou said with difficulty. It was not because he was injured but he had never thought that he would say such a thing.

[Chapter 0358 - Peace Talks](#)

As Xiao Chou threw in the towel, Chen Xiang slightly smiled and left.

Xiao Chou was lying on the ground facing the sky. He was seriously injured. Although he was able to awaken his strength, it had been simply shattered under the Chen Xiang's Thunderbolt Cut.

Chen Xiang took out a little bit of Hell Spirit Grass and shoved it into Xiao Chou's tiny little mouth.

Anyone with good eyesight among the audience could easily discern that it was Hell Spirit Grass. This made many burst into exclamation one by one, admiring Chen Xiang's behavior. He even gave this kind of sacred herb to his opponent, this sort of magnanimity made many Nirvana Realm martial artists secretly nod in appreciation!

Soon after swallowing down the Hell Spirit Grass, Xiao Chou recovered enough of his strength for him to stand up.

"Humph!" Xiao Chou coldly snorted, but he soon followed up with a word of gratitude in low voice, "Thank you!"

"In the end, you are still just a little monster! You can not beat me." Chen Xiang laughed while he pressed his arm on Xiao Chou's little head. This made Xiao Chou clench his fist and stare at Chen Xiang.

"Chen Xiang, I want to worship you as my teacher!" Xiao Chou shouted suddenly which made the laughing Chen Xiang suddenly stop as though he had suddenly eaten a fly.

Meanwhile Xiao Ziliang, who was rushing towards Xiao Chou, suddenly halted his footsteps with his mouth agape.

Everyone was once again dumbfounded. Much to everyone's surprise, Xiao Chou wanted to take Chen Xiang as his teacher. What kind of request was this? Anyone could see that after Xiao Chou had undergone the awakening, he was almost as strong as Chen Xiang. He could be said to be at the same level as Chen Xiang. Chen Xiang's strength was far from enough to become his teacher.

After blankly staring for a while, Xue Xianxian started giggling, "Little guy, later you should call me missus."

"Does that mean he's going to call me martial aunt?" Leng Youlan also felt it was a little interesting. Furthermore, her eyes shone with an intelligent gleam. Liu Menger knew what she was thinking — She was definitely thinking of taking Xiao Chou often for spars.

Gu Dongchen and Wu Kaiming both started secretly deliberating. If Xiao Chou became Chen Xiang's student, then they would be his peers, he would become their junior brother! They were somewhat dumbfounded. No one had expected that things would develop like this.

Xiao Chou suddenly knelt down and knocked a few times on the ground, furthermore, his each knock was very heavy that drew a large crater on the ground.

"Teacher!" Xiao Chou directly shouted, as he completely disregarded whether Chen Xiang was going to agree or not.

Chen Xiang swallowed a mouthful of saliva; this was going to his second apprentice whose strength was comparable to his.

"Aren't... aren't you from the Free Immortal Sea? Now you are worshipping me as your teacher, isn't this a little inappropriate?" Chen Xiang looking at Xiao Ziliang said.

"No. Uncle Xiao just promised me that he will arrange battle for me. I only fought for the Free Immortal Sea, I never actually entered the Free Immortal Sea." Xiao Chou replied. At this moment, he was looking at Chen Xiang without any ounce of hatred in his eyes.

Xiao Chou's attitude took a big turn which made it Chen Xiang difficult to accept for a while. However, he remembered Huang Jintian say that 'once the Herculean Family guy firmly believed in you, that day would be your lucky day'!

Chen Xiang eyes turn bright as he slightly smiled and said, "Ok then! Are you going to join the Extreme Martial Sect? Same sect as your teacher's."

Gu Dongchen was secretly elated. Another monstrous talent was going to be added to the Extreme Martial Sect, and it was one from the Herculean Family!

Xiao Ziliang had a bitter look on his face. Xiao Chou was a rare good seedling whom he had found after searching for a long time. Although he had not officially entered the Free Immortal Sea, Xiao Ziliang was confident that one day he could hoodwink Xiao Chou into joining his sect. But Xiao Ziliang had never expected that Xiao Chou would be seized by Chen Xiang.

"Not a problem! Teacher, please once again accept your apprentice's salute!" While speaking, Xiao Chou immediately knelt down once again and fiercely kowtowed. The entire square shook for a bit. At this time, many woke up from their stupor and burst into exclamations. Such a scene was rare. In the near future, such a master and apprentice could roam freely in the entire Mortal World.

Wu Kaiming walked over with a big grin on his face, "Little guy, you are still seriously injured, follow me to recuperate. Come, I will show you the Extreme Martial Sect!"

Chen Xiang said, "It's okay, follow his arrangement, he is an Elder there! If you want to be my apprentice, you need to listen to him. You can not act like before!"

Xiao Chou was somewhat reluctant but still nodded his head before he leaving with Wu Kaiming.

The fight was over. Everyone left with a variety of moods. Today's battle had been completely etched into their memories. Although it was just a fight between True Martial Realm martial artists, it still brought them a great deal of surprise. Especially Chen Xiang, they firmly etched this name into their hearts!

"Xiao Ziliang, how about you return to the Extreme Martial Sect and sit down for a while with us!" Gu Dongchen smiled and said.

Xiao Ziliang coldly snorted but still followed Gu Dongchen to the Extreme Martial Mysterious Realm. Chen Xiang also followed behind them.

Leng Youlan also wanted to chase after them, but in the end, she left with Liu Menger. She knew that in the future she could play with Xiao Chou.

Inside the Extreme Martial sect, Xiao Ziliang drank a glass of wine and heaved a long sigh. It seemed as if he suddenly become much older.

"I used to fight the old mad man, and now I am similarly fighting with his apprentice." Xiao Ziliang sighed mournfully. At this moment, he could not hate Chen Xiang because he knew there were still many more things left to deal with, such as the approaching catastrophe.

Gu Dongchen smiled and asked, "Do you want to meet him?"

A look of horror appeared on Xiao Ziliang's face, "Hell no!"

"Useless, I often go look for him!" Chen Xiang said in a despising tone. Naturally, he was unafraid of Xiao Ziliang, especially after he got to see how much Xiao Ziliang dreaded Huang Jintian.

Apparently, Xiao Ziliang seemed to have encountered Huang Jintian's insane methods.

"No wonder you are so abnormal!" Xiao Ziliang heart leaped. He had quite a bit of understanding in regards to Huang Jintian. Naturally, he was aware of how Huang Jintian would teach his apprentice.

Gu Dongchen smiled and asked, "Xiao Ziliang, will you continue to work with us?"

"Humph, in the Black Tortoise Mysterious Realm, didn't you kill a few of my Free Immortal Sea's Nirvana Realm martial artists? You have made me lose too much, what do you have to say about that?" Xiao Ziliang turned angry the instant he mentioned this matter.

"Haha, why don't you talk about the matter them trying to kill me? At that time, we three tycoons of the Extreme Martial Sect were almost on death's door. If Young Martial Uncle had not arrived at the opportune moment and taken action, perhaps the old madman might have already annihilated your Free Immortal Sea." Gu Dongchen sneered.

Xiao Ziliang looked at Chen Xiang, he was shocked. Thinking about this matter, he just remembered that Chen Xiang was able to use his True Qi in the Black Tortoise Mysterious Realm. If so, then the Nirvana Realm elders had probably all been killed by Chen Xiang!

Obviously, Tang Yichao, who had returned alive, would never mention this to anyone because it was far too shameful; he didn't dare to mention this.

"Impossible, I had told them they could never resort to ruthless hands!" Xiao Ziliang said with certainty. He was well aware of the consequences if Gu Dongchen and the others died. Huang Jintian's retribution was nothing to joke about, the old madman had always been one of strongest power of the Extreme Martial Sect.

"How would you know? Do you think I wanted to kill them? At that time, it was them who attacked in the most fearsome and gruesome manner. They had probably been encouraged by the True Martial Sect and the Beast Martial Sect. You better go and ask Tang Yichao to clarify this matter!" Chen Xiang said.

Upon hearing Chen Xiang say so, Xiao Ziliang was secretly feeling helpless. At such a young age, Chen Xiang had already killed so many Nirvana Realm martial artists. Who in the world was going to believe this?

If they have truly been killed by Chen Xiang, what could Xiao Ziliang do? He dreaded the consequences he would have to face if he did something to Chen Xiang.

[Chapter 0359 - Isolated](#)

Xiao Ziliang was completely aware of the current predicament. It was really not the time to be in conflict. If they could become allies, it might be possible to reduce the loss everyone would have to suffer while crossing the catastrophe.

"For the time being, let's put down this matter. In the future, I am going to settle it with you." Xiao Ziliang said.

Upon hearing this, Gu Dongchen heaved a sigh of relief. His complexion suddenly turned heavy, "Xiao Ziliang, you often travel overseas, do you know why some guys haven't come?"

As Gu Dongchen asked this matter, a frown immediately appeared on Xiao Ziliang's face. He glanced at Chen Xiang and said, "Little guy, you should leave now, it is better for you to stay away from this."

Chen Xiang realized from the solemn expression on Gu Dongchen and Xiao Ziliang's face that the matter was rather serious. He became extremely intrigued about it, but he didn't expect he would be driven out.

Gu Dongchen forcefully coughed and said, "Young Martial Uncle, naturally, there are reasons why Xiao Ziliang is asking you to leave!"

Chen Xiang snorted, left in curiosity and anger. He suspected that Xiao Ziliang was aiming at him.

"How about you turn into a bird and eavesdrop on them?" Su Meiyao suggested.

Chen Xiang was also planning to do this, but Long Xueyi suddenly poured cold water on him, "It's not going to be possible, the two of them have jointly laid down a barrier!"

It had not been long since he came out of the room, yet they had laid down a barrier. It was quite apparent how extraordinary this matter was.

"Are there many mainlands in the Mortal Martial World? If fewer people have arrived, what does this mean?" Not to mention the entire Mortal Martial World, he didn't even completely understand just the Chenwu Mainland.

The Mortal Martial World was just a Mortal World in the countless Mortal Worlds. There were thousands upon thousands of Mortal Worlds, and generally only Nirvana Realm and above martial artists had the strength to travel around the world. If one wanted to navigate the worlds, he would have to find some rifts to cross.

"There are so much more, but even I am not aware of the exact number. Since Gu Dongchen said that some people have not arrived, something must have definitely happened!" Su Meiyao was also pondering about what might have happened which caused the people of the other mainlands to be unable to come.

When Chen Xiang was fighting with Xiao Chou, he had discovered many Nirvana Realm martial artists around. As far as he was concerned, it was already quite spectacular, but according to Gu Dongchen, it was far less.

Bai Youyou said, "Some of the mainlands are very small and are lacking in resources. And naturally they are lacking in strong experts, they might just have only one sect. Now it seems, some small mainlands had sent a Nirvana Realm Dean and brought some apt disciples to attend the Hero Assembly."

It was very hard to perceive the cultivation of Nirvana Realm martial artists, so as Su Meiyao and the others weren't able to tell their cultivation, they naturally didn't know who was strong and who was

weak. If they could perceive their strength, then they could tell with surety whether they had come from these barren mainlands or not.

The strength of a sect could generally be gauged by looking at the number of disciples and Nirvana Realm martial artists as well as the strength of the Dean. That was why it was very difficult to determine at the moment.

"Sister Youyou, you suspect that these powerful mainland has not sent anyone?" Chen Xiang asked. The Demon and Devils were going to invade through the Chenwu Mainland. This was going to affect the entire Mortal Martial World. If these powerful mainlands were not going to help, didn't that mean that the Chenwu Mainland would be exterminated?

Thinking of this point, Chen Xiang's heartbeat became erratic. He was still sitting at the entrance of the room. He truly wanted to know what Gu Dongchen and Wu Kaiming were discussing about.

Su Meiyao said, "Senior sister's suspicion is not without any basis. After all, the Mortal Martial World is very vast. Gu Dongchen must have used some Extreme Martial Sect's brilliant grade equipment which had been handed down from the past to transmit information with speed of light to every corner of the Mortal Martial World. Yet after so many months, only a handful of people have arrived!"

Bai Youyou pondered for a bit and said, "How is it possible that the young disciples who have arrived are worse than the outstanding disciples of the Chenwu Mainland. There are more than sixty mainlands and yet only a few of them have challenged. If there were disciples from those powerful mainlands, they would not have let the Extreme Martial Sect's disciples win so many rounds."

Previously, Chen Xiang from Gu Dongchen came to know that many disciples from other mainland had all challenged the Extreme Martial Sect, yet the Extreme Martial Sects had won the majority of the fights. From this point, it was evident that the Extreme Martial Sect's strength was comparable to a few dozen mainlands who had arrived!

At this time, Chen Xiang suddenly understood one point. Gu Dongchen had allowed the Extreme Martial Sect's disciples to fight with the disciples of the other mainland not only for the glory, he also wanted to take this opportunity to gauge the strength of these mainlands.

Liu Menger had similarly taken Leng Youlan and Xue Xianxian to challenge everyone. Xiao Ziliang had also similarly made Xiao Chou seek opponents!

Now Chen Xiang was completely sure that they have all done this to assess how strong these people from other mainlands were.

"Things seems to be very serious!" Chen Xiang suddenly felt that he was too young, his experience was too shallow. Now, he very much wished to know what this meant.

He immediately arrived at the Divine Weapon Shop. Since everyone here knew Chen Xiang and Xue Xianxian's relation, he was not stopped and freely arrived at the top floor.

Today, he came for Liu Menger. Maybe he could learn something.

Realizing Chen Xiang had arrived, Xue Xianxian's body floated like a drifting smoke and arrived next to Chen Xiang. She laughed and said, "Where is your apprentice? Why didn't you bring him to meet with us?"

Leng Youlan too was planning to make a few jokes but noticing that Chen Xiang's complexion wasn't right, she asked, "Brother, what's the matter?"

At this time, Xue Xianxian too noticed something was wrong, she took Chen Xiang's arm and asked, "Brother Xiang, what happened?"

Chen Xiang heaved a little sigh, smiled and caressed Xue Xianxian's face before looking at Liu Menger, "Sister Menger, I want to ask you something."

After Liu Menger offered Chen Xiang to sit, she said, "What are you waiting for?"

"Aren't the guys from the other mainland very weak?" Chen Xiang asked in a solemn tone.

"You don't need to worry about this, sigh..." Liu Menger was stupefied for a moment, she heaved a light sigh, "This thing is very complicated. Even if you know it will be useless because you can't do anything. Leave it to us, the Nirvana Realm martial artists to worry."

Chen Xiang was startled, shook his head and said, "I can't do that, I am a resident of the Chenwu Mainland. I, too, like you facing the dangerous situation. Furthermore, I have done plenty of things inside the One Hundred Thousand Devil Mountains or else you won't be sitting here drinking tea with relief."

Chen Xiang was indeed right. He had released Bai Ziqian in the One Hundred Thousand Devil Mountains who had extinguished that powerful Double-Headed Snake Demon along with the army of Evil Demons. As a result of which the barrier disappeared. Otherwise, if the Double-Headed Snake Demon was alive, he would have brought that army of Evil Demons outside.

Naturally, Liu Menger didn't know what Chen Xiang was talking about. And Chen Xiang too wanted to keep things about Bai Ziqian and the Suppressing Devil Divine Cultivation under wrap, so he also didn't say anything.

"Alright, I can only tell you that our Chenwu Mainland is located in the eastern sea. In the endless sea, our mainland is like an island. Currently, only people from a few dozen mainlands have arrived and these mainlands are weak in strength. You can say these mainlands are no bigger than the Divine Weapon Heavenly Empire and their overall strength is very poor." Liu Menger helplessly sighed. She seemed to know some things.

Chen Xiang knew Chenwu Mainland was relatively big and fertile too. Otherwise, why else would it be so strong after so many years, why else would it have so many powerful sects?

"Our Chenwu Mainland is being isolated!" Liu Menger bitterly smiled.

[Chapter 0360 - The Will of Martial Arts Way](#)

At this time, Leng Youlan and Xue Xianxian too realized the gravity of the situation. If only the Chenwu Mainland was going to be defending at the start of the Great Battle with the Demon and Devil World, then the end could be imagined.

Just a single Chenwu Mainland resisting the two Demon and Devil World? This was simply throwing an egg against the rock.

"Teacher, aren't there still those small mainlands? Haven't they arrived!" Xue Xianxian said.

Liu Menger shook her head and said, "Yes, they have come, but you can't say they have truly arrived of their own volition, they have all been sent! Even if they came, it will be far from enough. A hundred thousand years ago, the entire Mortal Martial World had exhausted itself to resist the Demon and Devils. Only then was it possible to save so many mainlands!"

"The Mortal Martial World has four sea domains pertaining to the east, west, north and south. Each sea domain has no less than ten mainlands as strong as our Chenwu Mainland. Furthermore, there are some which are even stronger than the Chenwu Mainland. You are still very young and have not traveled to other mainlands. If you had, you would come to know that sects like Extreme Martial Sect are simply nothing in front of these forces!"

Nothing?

Chen Xiang was having a difficult time understanding this. After all, Extreme Martial Sect's Gu Donghen was a Nirvana Realm martial artists who had crossed eight tribulations. He could be regarded as a martial artist standing at the apex of the Mortal World.

"How can it be nothing?" Chen Xiang still could not believe it.

Liu Menger said, "Does Chenwu Mainland have any sect with more than a thousand True Martial Realm disciples? Do we have a sect with about ten Perishing Golden Body-level elders?"

Perishing Golden Body level, it was the Nirvana Realm martial artists who had crossed the seventh tribulation, a sect having as many as ten! Their strength could only be imagined! More than a thousand True Martial Realm martial artists, that was ten times as much as the Extreme Martial Sect. If there was truly a sect like this, it was indeed a lot stronger than the Extreme Martial Sect!

"Why didn't these sects come? Isn't it better to block the Demons and Devils here? Once the Demons and Devils start invading and if they scatter to other mainlands, wouldn't it endanger many mainlands." Chen Xiang asked in a powerless voice. He already knew he was an insignificant character, but he didn't expect that in the world he was living would actually have so many powerful figures stronger than the Extreme Martial Sect.

"A hundred thousand years back it was indeed so, but men are not what they were in the times of long ago. Now, everyone clears away the snow only in front of their door, how can they still be like before?" Liu Menger snorted, she too was feeling helpless in this matter.

"If so, once the Demons and Devils start invading, isn't our Chenwu Mainland completely finished?" Chen Xiang clenched his fists. Chenwu Mainland was the home of countless civilians!

"En, that's why tycoons of various sects are considering to evacuate. Bring the core disciples and enter some Mysterious Realm to take refuge inside! If not, they will all be exterminated."

Now, Chen Xiang knew why Gu Dongchen and Xiao Ziliang didn't let him know about this. If the disciples came to know about this or if this information was to spread to the civilians and they wanted to evacuate too, certainly, the entire Chenwu Mainland would be in a state of chaos.

"Chen Xiang, do you know this fierce battle is going to continue for at least a hundred years. Only relying on the forces of the Chenwu Mainland, it would simply be impossible to resist for so long!"

Liu Menger knew what Chen Xiang must have been feeling at this moment. After all, they had to give up their homeland to survive. They were simply letting their homeland be trampled by these Demons and Devils; many civilians would be killed in this catastrophe. At that time, a river of blood was going to flow in the Chenwu Mainland, it would simply become a hell in the human world!

Xue Xianxian and Leng Youlan, both were dispirited. It was simply the worst for them. They were martial artists and the will of martial arts way was precisely to cut the demons, eliminate the devils because according to the legends; in the ancient period, the demons, devils and the humankind all resided in the same world. At that time, the humans were weak, while the demons and devils were innately powerful. All humankind had been enslaved by them. Some humans could not take it lying down, so they created the road of martial arts to resist the demons and devils and also get rid of any adverse situation they might face in the future. They wished to go against the heavens and create a world of their own.

Chen Xiang with a broken-heart returned to the Extreme Martial Sect. He tended to his herb garden and left the Extreme Dan King Courtyard for the forbidden area.

He wanted to see his teacher. When he became his apprentice, Huang Jintian had told him a lot about the will of martial arts way. He could still remember it very clearly.

Huang Jintian was surprised to see Chen Xiang return so quickly. Looking at the crestfallen Chen Xiang, he didn't torture him and directly asked the reason for his dispirited mood.

After Huang Jintian came to know the reason, he started laughing.

Listening to Huang Jintian's insane laughter, Chen Xiang felt doubtful.

"Teacher, why are you laughing? Is it very funny?" Chen Xiang asked.

"Little Rascal, you are too tender! This is certainly very funny. If someone goes against their martial arts will, they will be finally abandoned by the martial arts way, they will not have a good end! That's why no matter what happens, you firmly stick to your belief. Use the martial arts you have learned to fight till death!" Huang Jintian laughed and said.

Since childhood, Chen Xiang held the martial arts way in awe and veneration because the martial arts way was extremely strong and could allow people to obtain strength, enable them to break space and ascend to the Heavenly Realm! No one knew who created the martial arts way everywhere or when it began. Many didn't seem to care about it and, over time, the sacred will of martial arts way was slowly forgotten. That was why many people who had obtained strength through cultivating in the way of martial arts did things which were contrary to the will of the martial arts way.

"It seems in the eastern sea only the Chenwu Mainland almost remain unconquered! There is definitely some vicious guys manipulating the others from behind. Let me think, the eastern sea guys will definitely not be so stupid, they must know it would not do them any good if the Chenwu Mainland fall!"

Huang Jintian stroked his long beard, his as-deep-as-sea eyes glistened in an aura of wisdom. He was in the course of thinking about this.

Chen Xiang knew his teacher was very formidable. At this moment, he was even more determined to stick to his belief till the end! Otherwise the Azure Dragon Slaughtering Devil Blade fused with his body would not forgive him, he felt the Azure Dragon Slaughtering Devil Blade, the Black Tortoise Adamantyl Armor, these divine weapons were forged in light with the will of martial arts way, and the same was true for the Suppressing Devil Divine Exercise or any other divine exercises!

If he went against the will of martial arts way, these divine exercises and divine weapons would abandon him!

Huang Jintian suddenly sneered. His face unexpectedly revealed a trace of anger. This was the very first time he had seen his teacher angry. This made him shudder, even though Huang Jintian was only slightly angry.

"It must be the doing of those bastards! Brat you can leave now, you don't need to worry about this for long. The Chenwu Mainland is not going to be finished! Tell Little Featherhead that he doesn't need to worry about any forces, he can deal with this in his own way!" Huang Jintian spoke while grabbing Chen Xiang and gave him a kick, kicking him out of the pit.

Chen Xiang cursed several times before quickly leaving this place. He would like to go down but he knew if he went again, he must suffer torture for a good several months before he could leave that hell hole.

When Chen Xiang arrived at the Extreme Dan King Courtyard he unexpectedly found Wu Qianqian sitting at the entrance. She looked anxious. Noticing Chen Xiang was back, she quickly said, "Chen Xiang, Yao Haisheng is beaten and is seriously injured!"

"What? Who was it?" Chen Xiang was furious, he yelled. He clenched his fists, which gave off a series of cracking of joints.

Yao Haisheng was his apprentice. Although they used have to some disagreements, they get along very well now. Whenever he has the time, he would guide Yao Haisheng in alchemy. Now someone had beaten his apprentice, that was simply equal to hitting him in the face.
