

## Dan God 3671

### [Chapter 3671](#)

Xiao Xianglin was also very happy at the moment, because this would allow her to understand more about the Most Ancient Era.

"Big Sister Yun, do you have the Most Ancient Era's space-time incantation? I have a bit of it in my hand, but it's incomplete." Xiao Xianglin said.

"Of course! Jing Yun'er immediately gave Xiao Xianglin a lot of Most Ancient Era's incantations, of which there were many time and space incantations, making him even more happy.

"Alright, when you come to find me, my sudden change will definitely shock you." Jing Yun'er laughed and pinched Feng Ke'er's cute little face.

Chen Xiang and the others bid farewell to Jing Yun'er, and began their journey towards the Initial Thunder-creation Realm.

"Great! With the incantation Big Sister Yun gave me, I should be able to refine a stable Transmission array Plate." said. It was very easy for her to learn the Most Ancient Era Incantation. She had mastered the Tao-creation Incantation herself, it was similar to the ancient incantations.

Chen Xiang spent more than ten days before finally arriving at the passageway that Jing Yun'er had described.

There was also a time and space barrier here, but this time and space barrier had a very large white hole in it. As long as they passed through this white hole, they would be able to get to the Initial Thunder-creation Realm in front of them, who was covered with green mountains.

"So Initial Evil-creation Realm and Initial Thunder-creation Realm are next to each other."

Chen Xiang passed through the white light hole and arrived at the Initial Thunder-creation Realm. This place was not as lifeless as the Initial Evil-creation Realm, it was full of life and vitality, and was an extremely good world.

"Chen Xiang, you'd better use the multiple space-time seal formation to seal the Red fire dragon, the Evil dragon array and those other Chuangyuan key." Xiao Xianglin said: "They might be able to sense you through these things."

It was difficult to sense him from a distance, but it was hard to say if he could sense him at a close distance. After all, he had so many sensitive things on his body, especially those Chuangyuan key s.

Those patriarchs might even have special connections to their own clan's Chuangyuan key.

Chen Xiang immediately had Xiao Xianglin seal all the Chuangyuan key, along with the Red fire dragon and the Evil dragon array.

Thinking about Old Evil's and Evil-creation Race's deaths, Chen Xiang's heart inexplicably became heavy.

"Back then, Tao-creation Evil Ancestor was also killed when we teamed up like this!" Chen Xiang sighed: "I don't know about the people from Tao-creation Evil Ancestor, but the impression Old Evil and Evil-creation Race gave me was very good."

"Indeed! The other fellows from the Creation Race s give me a very evil feeling, especially that God-creation Race. " Qin Shuang said.

"This is indeed strange, although Evil-creation Race carries the word Evil, and is covered in Evil Qi, Old Evil gives off a very righteous feeling, especially right before he died." Bai Youyou said. She had been in contact with the demon's power for a long time, so she knew what it was like.

"It seems that the death of the Tao-creation Evil Ancestor must have been a secret." Chen Xiang said: "It's a pity that those who know about this will definitely not say it!"

Chen Xiang thought of the Uncle Shi and the Oldest Tree. The world they resided in should not be swallowed by the Most Ancient Era, so they could be together with him.

Chen Xiang released his illusion body and floated in the air to take a look.

The first thing the people from Tao-creation Place did when they moved to this place was to build a city or something. It was a large city, and since they had moved here together, it would definitely be more crowded.

Chen Xiang searched for a few days until he found a weak aura. This aura was left behind when the group of patriarchs from the Creation Race s left for the Initial Evil-creation Realm.

At the edge of this sea, there was a huge city.

"They've been here for a very long time. It's enough for them to build such a huge city." Chen Xiang looked at the city and released his spirit body to the door, realising that it was extremely tight.

"It looks like they have registered everyone who entered the Initial Thunder-creation Realm. If they want to enter, they need to verify their identity."

This way, Chen Xiang would not be able to enter the gate openly.

He wandered around outside the city for a while. The enchantment in the city was very strong. If he used his penetrating power, he would be able to enter. However, he would trigger the enchantment and cause a lot of noise.

Just as Chen Xiang was at a loss for what to do, he suddenly saw a rock in his spatial storage that was connected to Xia Changdong light up.

"Could this city be built by the Fire-creation Race? Xia Changdong is inside? " Chen Xiang rejoiced in his heart, and then, he waited for Xia Changdong's arrival.

An hour later, Xia Changdong finally arrived.

"Master!" When Xia Changdong saw Chen Xiang, he was not surprised at all, because he knew that Chen Xiang had Chuangxie key.

"Zhang Dong, is that city the Fire-creation Race's?" Chen Xiang laughed.

"It's from the Wood-creation Race." Xia Changdong said: "I was sent to do some work here."

"Where is the Super Yuan Dan Alliance?" Chen Xiang anxiously wanted to find Chu Jinfeng.

"The Super Yuan Dan Alliance no longer exists. The various clans and seven major sects no longer allow the Super Yuan Dan Alliance to exist. They divide up the Alchemist among themselves." Xia Changdong said: "Chu Jinfeng's whereabouts are also unknown, all we know is that he previously exchanged the Chuanghuo key with our Fire-creation Race."

"What is used in this transaction? Is it the Tao-creation's Divine Crystal?" Chen Xiang asked.

"Yes!" Inside Initial Thunder-creation Realm, there were also many Tao-creation's sacred crystals! These Tao-creation's Divine Crystal Mines can only be owned by various families and the seven major sects, whoever discovers them first will own it. " Xia Changdong said: "This place has already been ruled by the various races and seven major sects."

"Is the patriarch of the Wood-creation Race in the city?" Chen Xiang looked at the huge city in the distance.

"No, they have another place!"

Xia Changdong didn't know why Chen Xiang was looking for the Wood-creation Race either, but he still told Chen Xiang the location of the Wood-creation Race. Other than that, there was also the hiding spot of the God-creation Race, which was located deep inside the mountains.

In a situation where there were no Chuangyuan key, God-creation Race s, Fire-creation Race s and Thunder-creation Race s were all relatively strong. Chen Xiang would not find them first, so he had to go to Wood-creation Race s first to check them out.

Chen Xiang bade farewell to Xia Changdong, and then headed towards Wood-creation Race's territory. He found out from Xia Changdong that the Wood-creation Race possessed a large amount of Legend rank medicine, so it became his first target.

"They don't have Chuangyuan key s, but I have seven!" Chen Xiang felt that if he stabbed these seven keys into the Patriarch's body, he might die like the Old Evil.

The Wood-creation Race knew how to choose a place. When Chen Xiang heard this, he felt that it was not bad and it was quite far from the other big cities. It should be because he did not want others to find it.

"The environment in Initial Thunder-creation Realm is so good, we must have already nurtured some kind of beast." Chen Xiang thought, he only hoped that he would meet those fierce beasts.

Being unable to find Chu Jinfeng after arriving here made Chen Xiang feel somewhat disappointed. If he could find Chu Jinfeng, then it would be of no small help to him.

## [Chapter 3672](#)

Chen Xiang still did not know how to deal with the Wood-creation Race. He first planned to take a look at the environment of the Wood-creation Race, then make other plans. His main goal was to eliminate

the patriarch of the Wood-creation Race as well as some of the elders with formidable strength within the clan.

As long as these Creation Race's experts were killed, these Creation Race would not have enough strength to stand at a high position. They would definitely be defeated by other rising forces in the future.

On the way to the Wood-creation Race, Chen Xiang thought about many things. Six Realms mirrors s rolled at a very fast speed, so Chen Xiang didn't have time to look at the scenery outside.

If not for the Six Realms mirrors being affected by the energy wave that suddenly attacked them from afar, Chen Xiang would not have known that there was a big movement in the distance.

"Someone is fighting! "A very strong guy." Chen Xiang immediately came out from the Six Realms mirrors and released his [Body Fusion]. Just from the aura alone, he could determine that the cultivation levels of the people who were fighting before him were all above the middle stage of World Defying Stage Legendary Rank.

After the illusion flew past, it saw that there was a huge pit on the ground over there that had just been punched out. And in this pit was a mass of black fog that was currently churning.

Roar!

A roar sounded out and the black fog dissipated. The lower half of the fog was formed by a tiger while the upper half of the fog was formed by a human. The black fog was filled with an evil aura.

"Could this thing be one of the beasts in the Initial Thunder-creation Realm?" Chen Xiang was shocked, he carefully observed it through his illusory body.

Tigerman was battling with an old man. He was dressed in a green robe, and in the distance, there were a few old men dressed like that. Chen Xiang could tell that these people were Wood-creation Race's people.

"You fellow from the Wood-creation Race! From the looks of it, he's still quite strong. " Chen Xiang thought, for the time being, he did not know the identity of these Wood-creation Race people, but in terms of strength, they were definitely stronger than the rest.

When the old man in green saw the Tigerman flying towards him, he waved his sleeve and released a green light mist. The light mist flew out and turned into a green mist dragon, wrapping around the ferocious Tigerman.

Tigerman's speed was originally very fast, but the green fog that the old man suddenly released seemed to have a very strong blocking force that stopped Tigerman and also wrapped Tigerman up.

"He's just a mere Evil beast. He doesn't pose any threat." The old man in green robe sneered and took out a huge hammer. He then smashed it down on Tigerman, who was surrounded by green mist.

The black sledgehammer struck down, producing a burst of green lightning. The violent Thunder power entered the Tigerman's body, and then exploded the Tigerman's body.

BOOM!

The tiger-man's body exploded along with the Thunder power that had entered his body. A violent storm instantly appeared, bringing along a surge of thunder and lightning energy, along with a strong destructive force, and in an instant, hundreds of mountains were flattened.

"These Wood-creation Race fellows, how could their destructive power be so terrifying?" Chen Xiang was also shocked, this was the first time he saw Wood-creation Race's men fight with his own eyes.

Tigerman was killed.

"Third Elder, your cultivation has advanced again." Another old man laughed.

"What? Compared to you, chief, I am nothing." The Third Elder smiled humbly.

"Third Bro, you're too modest." One of the oldest old men said. From his tone, he should be the Great Elder.

"Alright, alright, we have to hurry up and travel. Fire-creation Race and the others are waiting for us! They have discovered Chu Jinfeng's whereabouts. We need to hurry and regroup with them and capture Chu Jinfeng as soon as possible." The Wood-creation Race leader said.

After that, the four elders hurriedly ran away and left.

Chen Xiang was stunned, the Wood-creation Race was actually going to cooperate with the Fire-creation Race to take Chu Jinfeng down!

Chen Xiang didn't understand. Didn't Chu Jinfeng hand over the Chuanghuo key? Logically speaking, they should have already made peace.

Chen Xiang could only follow along, he had originally come to look for the Wood-creation Race, but did not expect to find any clues about Chu Jinfeng, which made him a little surprised, he was now worried if the Fire-creation Race took Chu Jinfeng down.

"The chief is very strong, he won't be taken down that easily." Chen Xiang told himself not to worry so much.

"It's hard to say, but wasn't he captured by a few old things from the God-creation Race last time?" Bai Youyou said: "But last time, it also gave him experience, and allowed him to react more easily this time."

Chen Xiang kept his distance from the four Wood-creation Race people in front of him, this was to prevent them from noticing him. In order to be a little closer, he released his spirit body to follow behind them, and could even eavesdrop on their conversation.

Chen Xiang followed them for a few days, after which they finally stopped to rest after running for a few days.

"If I didn't use Six Realms mirrors to follow them, I wouldn't even be able to take it. These old fellows' speed is really scary." Chen Xiang could finally stop to catch his breath.

Through the illusions, he heard a few Wood-creation Race's people talking. They hadn't said a word for a few days, and were extremely vigilant while running.

"Why are these people from Fire-creation Race running further and further away!" The patriarch of the Wood-creation Race said as he took out a disk and looked at the dots on it.

"Could it be that Chu Jinfeng found out that the people from Fire-creation Race were following him, so he is running too?" An old man said.

"It's extremely possible that this Chu Jinfeng is very smart! Moreover, he is not a pure-blooded human. There is a certain amount of beast blood in his body, and for him to be able to so readily hand over the Chuanghuo key, it means that he has a way out. Perhaps, he is very familiar with this Initial Thunder-creation Realm. "

"We have to continue to catch up! Those idiots from the Fire-creation Race cannot handle them. "

"Yes, we need to quickly kill Chu Jinfeng, if not the group of Alchemist who followed him back then would not hand over the pill formulas. The Super Yuan Dan Alliance s were all restricted by the blood contract."

The Alchemist got the World Defying Dan grain and a lot of pill formulas from Chu Jinfeng, and these pill formulas and pill patterns were what the various families wanted. It was just that the Alchemist's people all had the Blood Contract, and wouldn't hand over the pill formulas and pill patterns no matter what.

This way, the clans wouldn't be able to completely control the Alchemist s.

The few old men from Wood-creation Race continued on their way.

Chen Xiang followed them and heard their conversation, he was even more shocked, Chu Jinfeng actually had such an history, he was truly the disciple of the Tao-creation Divine Lord.

"Alliance Master, don't let anything happen to you!" Chen Xiang had to find Chu Jinfeng quickly and give him the Chuangyuan key. This way, Chu Jinfeng would not need to be afraid of this group.

The Initial Thunder-creation Realm was very big, much bigger than the Initial Evil-creation Realm. Furthermore, it contained an extremely dense amount of energy, and this energy came from somewhere above. Such a good world was actually abandoned here, and Chen Xiang found it hard to believe.

In the blink of an eye, more than ten days had passed. The people of the Wood-creation Race only rested once, and all of them rested for a short while. Chen Xiang followed them to a very hot region, which was filled with desert.

### [Chapter 3673](#)

Chen Xiang could sense a very minute yet very familiar energy from the scorching aura.

"Time Space Divide!" Chen Xiang looked forward, and then, through the illusory body suspended in midair, he looked carefully, and discovered that in front of the desert, there was a very inconspicuous passage, a slightly twisted time and space gate.

There was a time space barrier, which meant that they were at the edge of Initial Thunder-creation Realm.

"To think that we've chased them all the way here. If we're going over here, we're going to enter the Origin Creation Fire Domain!" The patriarch of the Wood-creation Race said with a frown, "Chu Jinfeng went to the Essence Creation Fire Domain! Amongst the many Creation Regions, only the Initial Thunder-creation Realm and the Initial Thunder-creation Realm are good, but the Initial God-creation Realm is the homeland of our ancestors, so we cannot go there. "

"I wonder how is it going in the Creation Elemental Fire Domain?"

"Nothing, it's most likely the same as the Initial Evil-creation Realm, it's just that it's hot, let's go in!" We are at the peak of World Defying Stage Legendary Rank, we will not die. "

As he spoke, these people entered the Space and Time Gate and the domain of elemental fire.

Chen Xiang was surprised in his heart. After waiting for a little while, he also entered the Domain of Creation Fire and quickly caught up with the people from Wood-creation Race.

"What the hell is Chief doing!?" Chen Xiang learned even more things from the patriarch of the Wood-creation Race. Amongst so many of the Creation Region, only the Initial Thunder-creation Realm and the Initial Thunder-creation Realm were good, the rest were already dead.

However, the Evil Realm was dead and gloomy, and here, not only was it dead and heavy, it was also very hot and hot. Streams of hot steam rose from the ground, and from time to time, waves of hot steam would surge forth, causing people to feel uncomfortable from the heat.

Wood-creation Race and the rest did not think much of it, but they had slowed down a lot. Maybe it was because they were unfamiliar with the place, so they needed to be on high alert.

Chen Xiang originally thought that the inside of the Blood Yuan Fire Domain would be as lifeless as the Initial Evil-creation Realm, but after following the few elders for a few days, he saw a large, verdant mountain. From afar, he saw at least tens of thousands of piles of mountains.

Seeing these mountains, Chen Xiang's body couldn't help but shiver, because the forms of these mountains were already layered with these structures, reminding him of the Tao-creation Ancient Place.

Tao-creation Ancient Place above Seven Mountains Divine Island were exactly like this!

When Little White Fox saw it in the You Yao Mountain Villa, he felt that it was very familiar.

"The Tao-creation Ancient Place might have been created based on this." Little White Fox said.

When the few Wood-creation Race's people arrived and saw the numerous giant mountains, they were shocked as well. This was because this was different from what they had imagined, and these giant mountains that seemed to be full of life seemed out of place when compared to the Spirit Creation Fire Domain.

"They're inside, and they've stopped." The patriarch of the Wood-creation Race took out a disk and said with a frown, "Let's go in!"

Chen Xiang followed behind them and entered the forest as well. As they travelled, they went over mountain ridges and slowed down even further, so no one knew what was inside.

After entering the mountain for a few days, he began to rest. However, when he was resting, Chen Xiang suddenly heard a few roars from beasts, and then he felt the ground trembling.

"Monsters!" Chen Xiang was shocked as he looked into the distance.

At this time in the evening, the sun was shining down on a mountain side, illuminating the entire area. Smoke and dust were billowing, and stone was flying everywhere. The sounds of people running and trampling along were accompanied by a great earthquake.

Upon closer inspection, it was clear that there were many black beasts surging over the mountains. At this moment, they were like a flood that was pouring down from the mountains. Their roars reverberated throughout the mountains, causing people's souls to tremble.

There were a lot of huge beasts, but when Chen Xiang looked carefully at the beasts floating in the air, he realized that they were all huge black boars the size of elephants.

What was terrifying was that there was a sharp horn on its forehead. This horn was like a light golden crystal, with one glance, one could tell that it was an extremely high quality Tao-creation Holy Crystal. This was equivalent to a very powerful Tao-creation Divine Weapon.

"Are they here for us?" Chen Xiang immediately used his penetrating power to hide deep underground and observed the situation above through the illusions.

The few elders of the Wood-creation Race were also frightened, they never thought that they would meet with such a situation.

"Hide on the ground." The patriarch of the Wood-creation Race used some unknown ability and drilled his way down to the ground. The other elders did the same.

Not long after, the gigantic crystal horned boar arrived, they were not here for Chen Xiang and the other few Wood-creation Race people, as though they wanted to escape from this mountain.

After four hours, it finally quieted down. Originally, the surrounding mountains had many evergreen ancient trees, but now, they were all pushed down by the wild boars and collapsed.

Chen Xiang felt that only by finding Chu Jinfeng would he know what was going on.

The few people from the Wood-creation Race did not know either. Their faces were filled with bewilderment and shock, because they did not expect that there would be so many ferocious beasts hidden in this kind of place.

After two days, Chen Xiang's order badge suddenly lit up, meaning that Chu Jinfeng was close by.

"The alliance master's command medallion is truly not simple. We were able to sense it when we arrived here." Chen Xiang rejoiced in his heart. He had the same reaction as Xia Changdong's stone from before, so he guessed that all of these things came from the Domain of Creation.

After the order badge reacted, Chen Xiang did not need to follow the people from Wood-creation Race, he could go look for Chu Jinfeng by himself.

The direction that Chu Jinfeng was heading in was different from the direction that Wood-creation Race and the others were heading in.

Chen Xiang immediately made a decision and went to Chu Jinfeng's place. Just like before, his body continued to fly forward like before.

After entering this mysterious mountain for a few days, they were considered safe. The group of wild boars they encountered before were quite scary.

Chen Xiang followed the order badge and searched for two days, before finally getting close to where Chu Jinfeng was. The order badge also had a lot of movements.

"It's the chief!" Through the illusion, Chen Xiang saw Chu Jinfeng sitting on an array disc.

That formation plate was extremely ancient, as if it had been here for a long time. Chu Jinfeng sat on it with his eyes closed, meditating, and no one knew what he was doing.

Chen Xiang carefully observed his surroundings.

Around Chu Jinfeng, there were many huge beast bones stuck into the ground. These beast bones were sparkling and translucent, like the Holy Crystals of the Tao-creation, and they were even releasing waves of energy.

Chu Jinfeng seemed to be conducting some kind of ancient ceremony.

"Chief!" Chen Xiang sent a sound transmission over through his illusory body. He did not get closer, nor did he understand the situation around him.

Chu Jinfeng heard Chen Xiang's sound transmission and his brows only slightly trembled. He then replied, "Chen Xiang, why did you come here!" He couldn't understand why Chen Xiang would always have a way to find him.

"Originally, I wanted to go get the Wood-creation Race, but on the way, I met the patriarchs of the Wood-creation Race. They said that they wanted to cooperate with the Fire-creation Race to take you down, and the Fire-creation Race had always been following you. Chen Xiang said.

#### [Chapter 3674](#)

When Chu Jinfeng found out about this, his brows knitted together slightly. He did not seem to have expected that the people from the Fire-creation Race were following him.

"Alliance Head, what are you doing here?" Chen Xiang asked.

"This is my birthplace. I am here for the return ceremony." Chu Jinfeng said: "Are the Wood-creation Race and their people in the vicinity?"

"No, the people from Wood-creation Race thought that the Fire-creation Race had found you, so they followed the information from the Fire-creation Race. When I followed them here, I suddenly sensed that you were here, so I came to look for you." Chen Xiang never thought that Chu Jinfeng would actually have such a background.

"It's good that they didn't come here. After I finish this ceremony, I'll go deal with them." Chu Jinfeng also let out a sigh of relief, "Chen Xiang, wait a little longer."

"Alliance Head, I met a large group of wild boars when I was coming here earlier ..." After Chen Xiang described the wild boars's appearance to Chu Jinfeng, he asked: "What are the wild boars doing?"

"Chen Xiang, you are probably very curious about this mountain range! When you came in, you should have felt that it looked very similar to the Tao-creation Ancient Place. " Chu Jinfeng laughed: "This mountain range is actually the gathering place of an unknown race, which is my race, called Beast-creation Race!"

Beast-creation Race!

Chen Xiang suddenly realized something. He had thought it was weird before, that in the era of Myriad Tao, there were many different types of beasts, but not a single one of them were related to beasts.

"The existence of the Beast-creation Race is very strange. It's different from the other Creation Race, and there aren't any Chuangyuan key either." Chu Jinfeng continued to speak, "Beast-creation Race has always been hiding within the Domain of Creation Fire, and now that the Domain of Creation Fire is gone, this place has also become Beast-creation Race's territory. Furthermore, in the near future, Beast-creation Race will even head to the Initial Thunder-creation Realm."

"Is the Beast-creation Race the strongest?" Chen Xiang thought of dragons, phoenixes and such divine beasts.

"It should be so. Because of this, there is a huge restriction that we can only stay in the Creation Region forever, and then, the Tao-creation Divine Lord will bring all kinds of creation beast souls to the Myriad Tao to reproduce in the era of the Myriad Tao." Chu Jinfeng sighed: "And I am a special existence that was born and bred in both Fire-creation Race and Beast-creation Race. When Tao-creation Divine Lord took a fancy to me, he immediately accepted me as his disciple.

"Alliance Master, Old Evil is dead. The entire Evil-creation Race is exterminated." Chen Xiang's voice sounded a little dejected.

"This is the fate that a Evil-creation Race should have!" Chu Jinfeng let out a long sigh, he seemed to have some other understanding towards this clan.

"I keep having the feeling that the Evil-creation Race is not as evil as the rumors." Chen Xiang said: "And from what I know, Tao-creation Divine Lord and the others went to Most Ancient Era."

"Yes, they went to the Most Ancient Era and took everything." Chu Jinfeng's tone was extremely melancholy, because the Tao-creation Divine Lord had also given up on him.

"Chen Xiang, the matters of the Evil-creation Race are very complicated, I don't know how to explain it, and I don't know much about the Evil-creation Race either." Chu Jinfeng brought up this matter, his tone heavy. "You must have experienced many things yourself, since you have enough experience to judge what's right and wrong."

"Yes."

Chen Xiang did not know why Chu Jinfeng said all these, but he suddenly felt that it might involve the Tao-creation Divine Lord, and that the Tao-creation Divine Lord had done him a favor, so he did not want to say these things.

"I want to avenge the Old Evil." Chen Xiang said: "Their Chuangyuan key are all in my hands!"

"Chen Xiang, you are the luckiest person alive! Old Evil's Evil dragon array should also be in your hands, and only you can suppress their Evil dragon array. " Chu Jinfeng laughed: "Take care of those seven Chuangyuan key s properly. If you collect the other two, you might be able to reach an unprecedented level! This is because even the Tao-creation Divine Lord did not possess this many Chuangyuan key at the same time. "

Chu Jinfeng knew a lot of things, he even knew about the Evil dragon array.

Chen Xiang also did not know how to use the Evil dragon array, because there was a Killing evil dragon inside. It looked relatively docile, but it was sealed inside the Evil dragon array, who knew what would happen if he let it out.

"Alliance Master, the patriarchs of Fire-creation Race and Wood-creation Race are here. There are a few strong ones beside them! I want to kill them. " Chen Xiang felt that this was a very good opportunity. Chu Jinfeng would definitely be able to help him.

"I'll help you!" Chu Jinfeng said.

Suddenly, the gigantic beast bones around Chu Jinfeng started to flicker with different colours.

"It's going to be a success!" Chu Jinfeng bellowed, he opened his eyes, and suddenly many red scales appeared all over his body.

Seeing those fiery-red scales, Chen Xiang felt that they were extremely familiar, those were the scales of the Fire unicorn.

Chu Jinfeng bellowed, and flames erupted from his body, followed by the roar of a Qilin. The surrounding area was covered by a sea of fire.

It was a good thing that Chen Xiang was quite a distance away from Chu Jinfeng, otherwise he would definitely have been burned to death.

"The chief has the blood of the Fire unicorn!" Chen Xiang really did not expect that Chu Jinfeng would suddenly turn into a gigantic and mighty Fire unicorn.

Chu Jinfeng completed the ceremony, he turned back into his human form, and then sucked the flames around him back.

Chen Xiang immediately ran over.

"Alliance Head, you're really amazing!" Chen Xiang exclaimed and laughed.

"That reverse born little dragon of yours is powerful! That was formed from the fusion of Six beasts. " Chu Jinfeng shook his head and laughed: "This is an extremely rare sight. That Six beasts, is the strongest batch of our Beast-creation Race."

When Chu Jinfeng last saw it, he had already noticed it.

Chen Xiang only smiled slightly and did not say much. Red fire dragon was indeed his strongest power.

"Do you want to go to Most Ancient Era?" Chu Jinfeng said: "Most Ancient Era is not a good place, I have to tell you this first."

"Why? Isn't that even older than the Myriad Tao?" Chen Xiang asked.

"If the Most Ancient Era was really good, then those First Tao-creation Ancestor would not have started the era. It's just that in the end, the era lost control and they had no choice but to let the Most Ancient Era swallow the era." Chu Jinfeng said: "I'm not sure about the specifics of the Most Ancient Era, I know that it is definitely not a good place to go."

"Even so, I still have to go. There are people closest to me there." Chen Xiang sighed.

"You don't have to worry, with your ability, you will definitely be able to defeat everything in that place." Chu Jinfeng put his hands on Chen Xiang's shoulders and laughed: "Let's go, I'll go kill the ones from Fire-creation Race and that one from Wood-creation Race first!"

"Chief, this is for you!" Chen Xiang took out the Chuanghuo key and the Wood Creation Key.

"They are just a bunch of idiots. I never thought that the Chuangyuan key would end up in your hands." Chu Jinfeng looked at the two daggers and smiled: "With two items, dealing with them is simply too easy."

Chu Jinfeng quickly found the location of the Wood-creation Race and its people. He immediately rushed over, with Chen Xiang following behind him using his illusion.

### [Chapter 3675](#)

Fire-creation Race and her group had already reunited. "..."

"The reason why Chu Jinfeng was lost to us was mainly because we encountered a strong savage beast on the way." The Fire-creation Race Elder was furious, "I wonder what kind of place is this to have such a powerful savage beast!"

Wood-creation Race looked ugly, they had come all the way here, for nothing!

"Don't worry, Chu Jinfeng is definitely still inside. We can definitely find him." The Fire-creation Race Elder also felt very apologetic, his eyes dodging the light.

"Let's just go back!" "This damned place is huge, and there are even so many powerful savage beasts hidden here. If we continue to linger here, it will be extremely dangerous." When the Wood-creation Race was on his way here, he encountered a horde of terrifying wild boar beasts.

"No!" He had to find Chu Jinfeng! As long as we capture this guy, we will be able to completely control those Alchemists and maybe even force out some information from Chu Jinfeng's mouth. " He felt that it would not be easy to come all the way here, and he had to leave empty-handed.

"Then, how do you think we should find Chu Jinfeng faster? This guy is very familiar with this place, so the terrain here is very advantageous for him. " Although the Wood-creation Race only encountered a beast tide, he still revered this place.

The Fire-creation Race Elder was very unwilling, "Then you guys can go back. We'll stay here."

"Hmph, as you wish." After the Wood-creation Race leader finished speaking, he was about to bring his people and leave, but at this time, Chu Jinfeng flew over.

Seeing Chu Jinfeng suddenly fly up, Chen Xiang was secretly surprised, Flying mantra would not work in this place, and the reason why Chu Jinfeng could fly up here, was probably because he had recovered the power of the Fire unicorn.

When Chu Jinfeng suddenly appeared, the patriarchs of the two Creation Races below immediately sensed Chu Jinfeng's Qi.

All the way here, they had been running on the ground and were unable to fly. On the other hand, Chu Jinfeng was able to use some unknown ability.

"Seeing how pitiful your search for me is, I won't hide it anymore." After Chu Jinfeng flew over, he laughed heartily: "What business do you have with me? Could it be to control those Alchemists? I promised you that I would dissolve Super Yuan Dan Alliance and that Alchemist would be taken over by you. You are all truly greedy! "

Amongst so many Creation Races, only the Wood-creation Race and the Wood-creation Race came all the way here.

"Chu Jinfeng, we are very clear about what kind of trash you are! Hurry up and tell us, what the hell is this place? " When the Fire-creation Race saw Chu Jinfeng, he was extremely furious.

The main reason the Fire-creation Race came to this place was to seek revenge, because back then, Chu Jinfeng had infiltrated their Fire-creation Race and stole their Chuanghuo key, causing him to lose all face.

"What is this place?" "How could you not know that the ancestors really did not see you as people and did not tell you?" Chu Jinfeng mocked.

"Chu Jinfeng, didn't Tao-creation Divine Lord abandon you by not taking you away? "How are you any better than we are?" The head of the Wood-creation Race sneered.

Chu Jinfeng seemed to have been stabbed in his sore spot, and was silent for a while, but he still said while grinning: "Didn't you guys want to know what kind of place this is? I'll tell you. This is the territory of our Beast-creation Race! "

Beast-creation Race!

Hearing these three words, the Wood-creation Race Elder and the Wood-creation Race Elder trembled, their faces filled with fear!

"Alliance Head, do you have any pill formulas here?" Something that can allow me to level up quickly in World Defying Stage Legendary Rank. " This was also one of the reasons Chen Xiang came to Chu Jinfeng.

"The Tai Yuan Legend Pill is the best pill formula in my possession!" Chu Jinfeng said: "The advancement of World Defying Stage Legendary Rank is extremely difficult. It's already good enough for you to be able to step into the middle stage of World Defying Stage Legendary Rank in such a short period of time."

"Chen Xiang, you should know that in many cases, there are no pills that can help a person cultivate and break through quickly ... At least it was like this before, only until your Peak dan appeared did this situation be broken! I believe that you will definitely be able to create a pill that can advance quickly in the World Defying Stage Legendary Rank. "

Chen Xiang nodded his head, in fact, the Tai Yuan Legend Pellet that he modified was already very good, it was just that when refining it, he would need more Tao-creation Holy Crystals, it would cost tens of thousands of, and the refining time was also quite long.

"Chief, will you go out again in the future?" Chen Xiang asked.

"It can't be!" I have to stay here for a period of time. This is the rule of my clan. " Chu Jinfeng shook his head: "Maybe Beast-creation Race will go to Most Ancient Era in the future!"

"I will go too!" Chen Xiang laughed.

"Hm!" "Then take care."

"Chief, goodbye!"

After Chen Xiang and Chu Jinfeng parted ways, they quickly left the place.

The fight between Chu Jinfeng and the two clan leaders just now had created a huge commotion. It would be safer for to leave as soon as possible.

After a long journey, Chen Xiang finally returned to the city outside the Wood-creation Race, where he was waiting for Xia Changdong.

The patriarchs of the Fire-creation Race and the Wood-creation Race had died, it was a huge matter here. It was just that Chen Xiang was unable to enter the city, so he did not know the exact details of the situation.

After waiting for a few days, it was finally Xia Changdong.

"Master, something big has happened to Fire-creation Race and Wood-creation Race." Xia Changdong said. He could guess something, but he never thought that it would happen so quickly.

"Does anyone know?" Chen Xiang asked in a low voice.

"All the big cities already know." Xia Changdong nodded.

Chen Xiang just nodded.

"Master, after you left earlier, I found out from the people in Thunder-creation Race and some of the people in the God-creation Race that they found a mysterious passage. I heard from them that this passage leads to the Most Ancient Era." Xia Changdong said: "I just don't know if it's true or not! They also said that only the progenitor's bloodline could pass through this passageway. "

There were many mysteries within the domain. For example, why were Initial Thunder-creation Realm still here, while the others were still in a lifeless state. Also, where was the mysterious Initial God-creation Realm?

"Continue to pay more attention to the news of this technique." Chen Xiang said.

For the time being, he would not head to the Most Ancient Era. He had to avenge the Old Evil and then leave.

"Master, if you want to enter the city, I have a way to 'get' your identity card." Xia Changdong said: "But Master, you may have to use your own methods."

"Tell me what solution you have!" Chen Xiang asked anxiously.

"As long as you have enough Tao-creation Divine Crystals, you can buy it! The price is around twenty thousand Tao-creation Holy Crystals. " Xia Changdong said: "If Master is willing to pay this sum of Tao-creation's Divine Crystals, I can arrange for you to meet a person."

Twenty thousand Tao-creation Sacred Crystals was merely a small sum to Chen Xiang, so he was naturally very willing.

"Alright, immediately arrange it."

As long as he had an identity plate, he would be able to enter various big cities. This was rather convenient for Chen Xiang, as entering the city would allow him to obtain more information.

Xia Changdong had also changed his appearance. As long as he sealed the Red fire dragon and those Chuangyuan key, they would not be seen through.

The person who sold the identity badge was an old man. Chen Xiang haggled with him, and in the end, used thirty thousand Tao-creation Holy Crystals to buy two identity plates, because he might have to change his identity in the future.

After that, Chen Xiang could happily enter the city of Wood-creation Race.

Although the patriarch of the Wood-creation Race was killed, the Wood-creation Race was still able to operate very well. This was because there were people who had been eyeing the patriarch and the few elders for a long time, and now that they were all dead, there would be people who would immediately replace them.

Those who had the ability to sit in those seats were naturally all extremely powerful, and no one was unconvinced of their strength.

In order to avoid suspicion, Xia Changdong would not meet Chen Xiang often after entering the city.

"I need to eat some Tai Yuan Legend Pills. I should be able to enter the late stage of World Defying Stage Legendary Rank." Chen Xiang felt that as long as he stepped into the late stage of the Legend Realm, he would be able to fight against the clan leaders at the peak of the Legend Realm.

Right now, Su Meiyao and the others had already passed the middle stage through the Tai Yuan Mythical Pellet.

Xiao Xianglin was currently modifying a new array disc and was able to teleport to the Most Ancient Era!

Although the city was bustling, everyone seemed to be worried. From time to time, there would be various rumors that the Initial Thunder-creation Realm was a very dangerous place.

Later, as time passed, everyone laughed off these rumors.

Chen Xiang had been in closed door cultivation for many years, and even after consuming fifty Tai Yuan Legend Pellets, he did not make a breakthrough. Fortunately, there was progress in his cultivation, he just did not expect to need to consume so many Tai Yuan Legendary Pellets, he probably still needed to eat another fifty or so.

Xiao Xianglin had already finished refining the Transmission array Plate, but Chen Xiang was not in a hurry to test it, because now was not the time to go to Most Ancient Era.

Just as he was about to go out for a breath of fresh air, there was a new rumor on the street that a large group of strong wild boar beasts had destroyed a city.

No one believed that it was true!

However, Chen Xiang believed that because he had seen those wild boars before, it was a few years ago!

"Maybe there is more than just this herd of wild boars. Could it be that there is some power controlling the wild boars to come here?" As Chen Xiang thought this, he immediately went to contact Xia Changdong.

He and Xia Changdong met in a small tavern.

"The wild boar herd is real." Chen Xiang said.

"Yes, I have confirmed, those wild boars are all very strong, they are all in the middle to late stage of World Defying Stage Divine Rank, or even at the peak." Xia Changdong said: "If it's a small city, it's impossible to defend against it. For a big city like this, there shouldn't be a need to worry."

"Chang-Dong, what happened to the passage?" Chen Xiang asked.

"The passage to the Most Ancient Era? I investigated for a few years and confirmed that it was real. This is in the hands of the Thunder-creation Race, I found out from the disciples of the Thunder-creation Race that someone from the Most Ancient Era has come, and I don't know what to talk about with him. " Xia Changdong was very curious about this.

[Chapter 3677](#)

was very surprised that someone from Most Ancient Era could come, but he didn't know if it was possible. He felt that there must be a limit to the passage. The people from the Most Ancient Era would not allow people from there to enter so easily. Fastest Fiction (Advertisement) - 79xs.

Chen Xiang wanted Xia Changdong to continue to pay attention to the passage. It would be best if he could find out what the people from the Most Ancient Era were doing.

"I need to continue my closed door cultivation." When Chen Xiang returned, he had to continue refining pills and eat. On the other hand, Xiao Xianglin had been learning the two Legendary mantras for a long time!

It was mainly because she had learned the set of Legendary mantras used to refine Paternoster soul stone, making it even more difficult to learn later on.

Chen Xiang entered the secret room. He did not know how long had passed, but just as he felt that he was about to break through, he was suddenly awoken by a loud noise. When he opened his eyes, a big sized man barged in and immediately caught him.

"What are you guys doing?" Chen Xiang asked coldly. Just now, Bai Youyou had told him that he had isolated himself for nearly five years.

"You don't know? The monster hordes are crazily attacking the city, we have to send our soldiers out to kill the monster horde, you are too carefree hiding in the secret room. " The big man sneered.

The invasion of the beasts had actually forced the city into such a passive position.

Chen Xiang had already guessed that the herd coming for him was very scary.

The two people who came to capture Chen Xiang weren't strong, they were just from the Late period of World Defying magic realm.

"Who do you think you are?" Chen Xiang bellowed and released the Legendary gas, scaring the two middle aged men to the point that they were trembling all over.

"Uncle, I'm sorry!"

A large man quickly knelt down.

"Who told you to arrest him?" I am cultivating in seclusion! " Chen Xiang said coldly with both his hands behind his back. There are almost all of them. They are much more stable than the average station and can be updated much faster. There are no advertisements in the entire text.] He felt that he would be able to achieve a breakthrough with just a few more pills, but he was disrupted by these fellows.

"We were sent by the Wood-creation Race!" A large man said with a trembling voice.

"You are disciples of the Wood-creation Race? It doesn't look like it! " Chen Xiang did not sense any aura from their bodies.

"We are from a different clan from the Wood-creation Race. We only followed orders, we did not know that you were training here." Who would have thought that the people of the World Defying Stage Legendary Rank would be hiding in this middle class inn to train.

"I've been in closed-door training for years. What's going on outside?" Chen Xiang asked.

"Right now, all the large cities have been attacked by the beasts, and only three cities have not been destroyed, namely the Wood-creation Race and the God-creation Race." The man said.

Chen Xiang had to admit that with so many races, even the Beast-creation Race was the strongest, able to destroy the city that quickly.

"Then wouldn't a lot of people have died?" Chen Xiang said in shock. The Seven Great Sects had already built cities, but they were actually unable to defend it.

"Not really... Those hordes of beasts didn't know what had happened. They had just destroyed the city, and didn't kill anyone everywhere. If they are stopped, they will definitely be killed. " The big man said: "There are many beasts outside, Wood-creation Race wants us to capture them and fight with them."

"It's impossible to win! Why did Wood-creation Race do this? " Chen Xiang asked.

"We don't know either! In short, many people could not take it anymore, and they all ran out of the city. As long as there was a city or a group of beasts gathering together, they would be killed. Those beasts are too terrifying. "

Chen Xiang immediately jumped down from the window and headed towards the city wall. He saw that outside the thick and big city wall, there was an endless sea of beasts, all of them were gigantic black wolves.

The teeth of the black wolf were all crystal clear, they were all sharp teeth condensed from the Tao-creation's sacred crystal!

The wolf pack advanced forward one after another, continuously charging into the array, like wave after wave of waves, waves after waves of attacks.

Chen Xiang stood on top of the city walls. Outside, there was basically some open space, and it was being covered by huge wolves that were like cows.

"What is the purpose of these beasts?" Is it just to destroy the city? " Suddenly, someone from Chen Xiang's side was thrown down to the ground by the Wood-creation Race.

But strangely, as long as these people did not attack the wolves, the wolves would not attack them. They could escape through the wolves, and if they attacked the wolves, they would immediately be torn to shreds.

Chen Xiang had already taken out Xia Changdong's stone just now and called him over. Xia Changdong would be in this city all year round.

"Master!" When Xia Changdong came to Chen Xiang's back, the countless wolves outside felt a sense of despair as well.

"The cities of the Fire-creation Race were breached?" Chen Xiang asked.

"Yes, it was broken by a group of tiger beasts." Xia Changdong sighed: "The Fire-creation Race is already in a mess!"

"Isn't there a strong expert at the peak of World Defying Stage Legendary Rank?" Chen Xiang asked:  
"How was it broken?"

"The beast kings in the wolves are at this level, they can't even beat them. After the Fire-creation Race was unable to defend the city and fled, the villas hidden deep in the mountains were also destroyed." The group of people that Xia Changdong had thrown down said: "Master, let's leave this city! Once you get down, you can escape without even fighting! They all went to the city of Thunder-creation Race, and only that city has not been attacked. "

"Alright, let's go to that city." Chen Xiang nodded at Xia Changdong: "Jump down!"

After Chen Xiang and Xia Changdong jumped down, they pushed their way through the giant wolves one by one. They wanted to pass through the wolves, but the wolves didn't attack them.

"Why is the Thunder-creation Race not surrounded by a horde of beasts?" Chen Xiang felt that this matter was not simple.

"This is also strange for many people, because there were a few hordes of beasts that passed by that city, but no one attacked them." Xia Changdong said: "Thunder-creation Race is starting the bidding right now, we need a large amount of Tao-creation's Divine Crystals to enter the city, we should go first, there are a lot of people gathering outside the city walls."

Chen Xiang felt that the Thunder-creation Race must have grasped something, and was also the first person who opened the Initial Thunder-creation Realm.

"How is the passage to Most Ancient Era?" Chen Xiang asked.

Because of the herd of beasts, it was difficult for me to gather any information. I only knew that the Thunder-creation Race took in a portion of the people from the Creation Race, but they only wanted the strongest batch, and didn't want anything else. Xia Changdong said: "And people like me are people who have been abandoned! At this time, the dozens of strong experts of the Fire-creation Race were all in the city of the Thunder-creation Race. "

Chen Xiang and Xia Changdong ran frantically for half a day before they finally arrived at the city. Outside the city walls, there were many people building houses, so this place was temporarily safe.

On the way there, Chen Xiang and his group met many lonely wild beasts. Those wild beasts had the same characteristics, their teeth and claws were all condensed from the Tao-creation's Holy Crystals. These wild beasts would take the initiative to attack them, but were all killed by Chen Xiang in an instant.

### [Chapter 3678](#)

This city that was built by the Thunder-creation Race did not have any beasts that would approach it. This made people feel that it was strange, as though the city was protected by some mysterious power, causing the beasts to not dare to approach it.

"Long Winter, there are quite a few people gathered outside this city. Some people seem to have been here for a long time." Chen Xiang could see that someone was building a house here, so these people must be planning to stay for a long time.

"These people are not good at living in the wild and do not want to live in that kind of life. Now that it has become a small city, as long as they can still live here, they will not run around." Xia Changdong said: "Master, do you want to go in? As long as you do not reveal your original identity, with your strength, they will definitely let you in. "

"I'm not going in for now." Chen Xiang looked at the high walls, and it looked like a huge cage. He did not know why he had such a feeling.

There were over a million people outside the Thunder City. After all, after the other cities had been destroyed, those who did not want to wander around had all come here.

Before, someone had shouted, "The beasts are coming!" It scared many people into running away. Later on, it was just a prank by one person, but that person got beaten up by everyone. Nothing like this ever happened again.

After Chen Xiang and Xia Changdong walked around the city, they found out that the city of Wood-creation Race had collapsed. The pack of wolves had broken through the city walls and entered the city.

"The Wood-creation Race can't hold on any longer. It seems like the higher ups of their clan have long been inside the Thunder City." Xia Changdong said: "Just what power does Thunder-creation Race and the rest have that they can not be attacked by a horde of beasts!"

Chen Xiang believed that these beasts must be related to the Beast-creation Race. The reason why this city was not attacked was because of some agreement between the Thunder-creation Race and himself.

"The Thunder-creation Race has a passage that leads to the Most Ancient Era. This is already mysterious enough, and now, I can avoid being attacked by wild beasts." Chen Xiang said in a low voice: "We can see that there is definitely a mysterious and powerful force backing Thunder-creation Race."

"Master, are you trying to find a way to enter?" Xia Changdong said that Chen Xiang had said before that he would enter.

"NO!" I did think of that before, but now I don't, because I feel there's something wrong with it. " Chen Xiang shook his head, he had only felt that way after coming here.

He didn't know why, but when he sensed the aura that was being released from the city, he felt a sense of disgust. At the same time, this feeling of disgust made him feel very uncomfortable, so the moment he came here, he gave up on the idea of going in.

Chen Xiang was deep in his thoughts, thinking about the matters of the Thunder-creation Race, when he suddenly heard someone shouting "The beasts are coming".

Chen Xiang and Xia Changdong immediately looked towards the distance, and saw a pitch black beast running towards them.

The savage beast wasn't small, and it looked extremely bizarre as well. It looked like a gigantic snake, but it had numerous legs similar to a centipede. Furthermore, its legs resembled dragon claws. He was covered in black armor, and his head looked like a centipede.

"This should be a centipede with a bit of the bloodline of a dragon in its body. That's why it became like this." Chen Xiang said: "Seems like this savage beast is not in a herd. These lone savage beasts are all very aggressive."

Chen Xiang and Xia Changdong encountered this kind of beast on their way here.

"Master, the aura of this savage beast is very strong. Look at the Legendary gas that he spat out, it seems that it is about to condense. This is a savage beast that is close to the middle stage of World Defying Stage Legendary Rank." Xia Changdong's voice carried a trace of fear.

Many people had already escaped. From afar, they could sense how fearsome this savage beast was.

The Centipede Dragon soon arrived. Chen Xiang originally wanted to leave, but he found that the Centipede Dragon's ferocious head was biting towards a child who was a few years old.

As long as he encountered something like this, he wouldn't stand idly by and watch.

Chen Xiang had already flown over. Eating Heavenly magic sword s, using Legendary gas s, he condensed a layer of ice on the surface of the Heavenly magic sword and then chopped at the centipede dragon.

The centipede dragon was not an ordinary dragon either. Sensing that there was danger, it immediately dodged. However, Chen Xiang still slashed open its claws.

Xia Changdong was right behind Chen Xiang just now. He quickly took the child away and returned it to his parents' side. Then, he watched from afar, powerless to interfere in this kind of battle.

After a few claws were chopped off by Chen Xiang, the centipede dragon spurted out a mouthful of black blood.

Chen Xiang immediately sent a sound transmission to Xia Changdong, telling him to stay far away from this place, because the centipede dragon's poison was not weak.

"The poison of this beast is quite simple." The Centipede Dragon ferociously swung its tail at him. That tail was extremely sharp, and it flew towards Chen Xiang ruthlessly, and it even released a black aura that carried a poison.

"Idiot, did you send it for me to chop?" Chen Xiang immediately merged the Six Realms mirrors into the Heavenly magic sword, and then released his own Legendary gas to its limits. After completing all of these in an instant, he ruthlessly slashed at the black, disgusting tail that was swung at him.

With a whoosh, that tail was cut off like tofu by Chen Xiang's Heavenly magic sword. Black blood gushed out like a gushing spring and the black evil aura spread out, enveloping Chen Xiang within.

Although Chen Xiang was shrouded by the black poison aura, he did not have the poison aura, so his resistance to it was still very strong.

After the centipede dragon's tail was chopped off, it began to writhe crazily on the ground in pain. The furious Centipede Dragon pounced towards Chen Xiang and tried to use its huge mouth to tear Chen Xiang apart.

Many of the people who saw it from the distance were terrified, thinking that Chen Xiang was done for, since Chen Xiang was previously enveloped by the poison mist.

Chen Xiang was not poisoned, although the centipede dragon's pounce was fast, it was dodged by Chen Xiang.

Swish!

After Chen Xiang dodged to the side, his sword landed on the centipede dragon's neck and was cut off by its head. Then, he thrust out his sword several times and easily sliced the centipede dragon into eight pieces.

Chen Xiang took out a black crystal from the centipede dragon's body. He felt that this should be the poison sac of the centipede dragon, and it could be considered a rather useful thing.

"Beautiful!" A handsome blue-robed man on top of the city wall clapped his hands and jumped down.

Chen Xiang's battle just now was witnessed by many people, especially those who were watching from above the city walls. Those people all came from famous families, and they seemed to know that a centipede dragon was coming, which made Chen Xiang feel weird.

"Big brother, you're so awesome. Thank you for saving me." The little boy from before ran over and said.

"There's no need to be courteous. You must become stronger in the future and behead demons and exterminate devils." Chen Xiang smiled and patted the little boy's head.

The blue clothed man laughed disdainfully, "This kind of small fry will at most become an old fry. How strong can it become?"

### [Chapter 3679](#)

Chen Xiang frowned. Even though the blue-clothed man had been very appreciative of him earlier, his words were extremely arrogant, causing one to feel disgusted with him. Towards such a person, Chen Xiang basically did not want to bother with him.

Chen Xiang merely looked at the blue-clothed man, then turned and left.

"Wait!" The blue clothed man shouted, his tone carrying a trace of coldness, as if he was angry because Chen Xiang was so indifferent to him.

"What is it?" Chen Xiang asked. He secretly tried to sense the aura of the blue clothed man and actually discovered that he was at the peak of World Defying Stage Legendary Rank.

He was suspecting whether this person was someone from the Creation Race!

"I think you are also a World Defying Stage Legendary Rank Cultivator! I welcome you to Thunder City. " The blue-clothed man said, "But after you enter, you must be my subordinate."

"Oh!"

Chen Xiang very casually replied. He wanted to go, and be someone's subordinate? Chen Xiang would not do such a foolish thing, from the man's tone, it could be seen how much work it would take to be his subordinate.

"How dare you!" A middle-aged man also jumped down from the city wall and shouted angrily at Chen Xiang, "Master only wants you to be his subordinate.

"I'm not in the habit of being someone else's subordinate." Chen Xiang replied, "I don't want to enter the Thunder City either."

Chen Xiang responded indifferently. But just as he was about to leave, he was stopped by the middle-aged man.

"If you don't want to do it, then so be it. Today, no matter what, you will become my master's subordinate." The middle aged man was extremely arrogant, clenching his fists, as though he wanted to fight a big fight with Chen Xiang.

The blue clothed man's expression became gloomy, because no one had ever dared to refuse him like this, or to disregard him like this before.

The man on the wall whispered, "What the hell is going on with this guy? Young Master Fang is a disciple of the Thunder-creation Sacred Race, and Thunder-creation Sacred Race is from there, his strength is unfathomable. Before long, they will bring the Thunder-creation Race here to the Most Ancient Era, and they will become Young Master Fang's subordinates.

"That's right! Even if this guy doesn't know who Young Master Fang is, he should at least know his strength! Despite being so young, you're already so powerful. Even the clan leaders of various clans felt admiration for you. "

"This kid is in trouble, he's going to suffer a lot."

Chen Xiang heard their conversation and was surprised in his heart. This Young Master Fang actually came from such a background, and he came from some Thunder-creation Sacred Race!

The Thunder-creation Sacred Race must be related to the Thunder-creation Race, otherwise he would not be cared for so much.

"Brat, I'll give you another chance!" He had addressed Master Fang as Master, and was obviously a servant.

"Give me ten more chances, and I'll still be the same. I won't be someone else's subordinate." Chen Xiang's attitude was firm. Just as he finished speaking, the middle aged man threw a palm attack over.

The middle-aged man was also very strong. The moment he waved his hand, the ground began to shake violently. Thunder and lightning flashed from his palm, and when he pressed his palm down, it was as if thunder and lightning were crashing down from the heavens.

Such a powerful person could actually be a servant! Everyone was shocked. From this, it could be seen that Young Master Fang was much stronger!

Xia Changdong originally wanted to follow them, but he still felt that it would be better if he stayed behind.

Chen Xiang was heavily injured, although Young Master Fang's palm was very strong, he was not afraid, he felt that if he were to use it on a late stage World Defying Stage Legendary Rank, he would not need to be afraid of that Young Master Fang.

"I almost made my move just now!" Chen Xiang hid inside a cave far away from Thunder City.

"You should be very clear that even if you use all your strength, you still won't be a match for that guy." Xiao Xianglin said.

"So I restrained myself!" Chen Xiang said: "There are still many powerful people on the walls, even if I let my Red fire dragon out and defeat Young Master Fang, it will still be difficult for me to escape, I will definitely be surrounded and attacked by them, I don't need to use my Time and space power here."

You are about to step into the late stage of World Defying Stage Legendary Rank. Is three months enough time? " Xiao Xianglin said.

"Enough!" Chen Xiang was very sure.

#### [Chapter 3680](#)

Chen Xiang had almost broken through before, he only needed to heal his injuries quickly, and then start to refine the Primordial Legendary Pill. He would be able to breakthrough after taking a few more pills.

Soon, three months had passed, and there were more and more people outside the city. Even though they had been attacked by a few powerful savage beasts, they had all been taken care of by them in the end.

Chen Xiang had suspected before that those beasts that attacked them from time to time might have been obtained by Young Master Fang. Otherwise, they wouldn't be watching them like they were watching a show.

This world was very cruel. In the face of absolute power, life was very lowly! Chen Xiang had already seen through it, but he would definitely not stand by and do nothing when something like this happened.

What's more, it even involved him!

The little boy was taken away to threaten him, and Young Master Fang was even trying to force him to be a servant! Threatening him, forcing him, these were all things that he hated the most, yet Master Fang had done these two things to him at the same time.

... ..

After Chen Xiang made a breakthrough, he quietly arrived at the outskirts of the Thunder City and found Xia Changdong.

Xia Changdong had been waiting for Chen Xiang here for a long time, he was still worried that Chen Xiang would not return.

Everyone felt that if Chen Xiang came back, he must have come back to save the little boy. If he didn't come back, no one would blame him.

And the biggest reason Chen Xiang came back was not only to save the little boy, but also to punish Young Master Fang for the dignity he had trampled on and for looking down on the people.

"Master, I've heard quite a lot about Young Master Fang." Master, I've heard quite a lot about Young Master Fang. Xia Changdong said: "They seem to have the ability to control the herd!"

"Tell me what you found out." Chen Xiang said, he already knew what kind of Thunder-creation Sacred Race Young Master Fang was.

"Young Master Fang has taken control of this city!" He came here from the Most Ancient Era for an important mission, which was to search for the Chuangyuan key. " Xia Changdong said in a low voice: "But those Chuangyuan key were all thrown away by the patriarchs of the various families. In order to not mutually threaten them, they abandoned the seal on the Chuangyuan key."

Chen Xiang was very clear about this matter, because the Chuangyuan key that the patriarch threw away were all with him, he got them from the Old Evil.

"Now, all the different clans have gone to the Initial Evil-creation Realm to look for the Chuangyuan key ... The only way they can go to Most Ancient Era is to find a Chuangyuan key. "

From what Xia Changdong heard, he understood why Miracle Thunder City accepted dozens of experts from the various Creation Race s. It was to let them search for Chuangyuan key.

Chen Xiang snickered in his heart. The old fellows of the Creation Race would never be able to find the Chuangyuan key on him, so they wouldn't have any clues either.

Chen Xiang wanted to save the little boy early so that he could get rid of Young Master Fang.

"The battle with Young Master Fang will be a bitter battle." Xiao Xianglin said: "Do you have enough confidence to defeat him?"

"If I do not care about his strength, I will borrow the power of the Red fire dragon. If the Red fire dragon is not powerful enough, I can only use the Chuangyuan key. Chen Xiang said.

"That's good." Xiao Xianglin said.

It was day. Chen Xiang wanted to show himself, but a shadow appeared far away and many people started shouting out loud, "The savage beasts are here! The savage beasts are here!

A flying savage beast was a terrifying sight to behold. This was because they had never known that there would be a flying savage beast here.

There were already many people on the city walls. They were the ones who came to watch the bloody battles earlier. They had already sensed the aura of a savage beast from the city.

The object flying over was shrouded by a mass of black gas. His appearance could not be seen clearly, but his aura was extremely terrifying.

Many people were panicking, but Chen Xiang was still apprehensive, because that aura was very similar to the Killing evil dragon's, yet not at all like that of a Killing evil dragon.

"What could it be?" Chen Xiang frowned as he looked at the flying object.

There were three Killing evil dragon. He could cultivate one of them himself, and it had already turned into a Red fire dragon. One of them was when the Tao-creation Evil Ancestor was cultivated and sealed on the Seven Mountains Divine Island. After the Seven Mountains Divine Island exploded, the injured Killing evil dragon was swallowed by the Red fire dragon, and the other one was from the Old Evil. These three Killing evil dragon were all with him.

Other than him, was very curious about the other people who had managed to cultivate Killing evil dragon.

Master Fang and the others stood on the city wall, staring at the mass of black Qi with serious expressions.

Suddenly, the black gas exploded and a whistling sound rang out. A huge black bird flapped its wings and glided over.

Chen Xiang was very familiar with the shape of this giant bird. It was only black, and was filled with Evil Qi. Other than that, the Evil Phoenix's entire body was sparkling, its surface seemed to be covered with a layer of black crystal.

Chen Xiang looked carefully and discovered that on the Phoenix's back, there was a beautiful woman. Her face was gloomy and angry as she looked at the city.

"Big Sister Yun!" Chen Xiang immediately understood.

Jing Yun'er this Tao-creation crystal mother did not cultivate a Killing evil dragon inside the Initial Evil-creation Realm, but she did cultivate a killing evil phoenix.

The killing aura of the Evil Phoenix seemed to be as powerful as that of the Killing evil dragon, causing one to feel a wave of despair surging through one's heart.

"You bastards, disturb my cultivation in Initial Evil-creation Realm!" Jing Yun'er shouted angrily, the killing evil phoenix roared angrily, its wings flapping, releasing a black evil flame, it rushed towards the people on the city wall.

The City of Thunder was protected by a very strong barrier. Although Jing Yun'er's flames were very strong, they were unable to break through the barrier in a short period of time.

"Who are you?" Young Master Fang didn't seem worried at all.

"When your ancestor sees your mother, he has to call you 'aunt'! How could a little turtle like you casually ask about my identity?" Jing Yun'er scolded angrily: "Hurry up and come out, hiding inside the barrier is nothing."

Young Master Fang was scolded, he was furious, but he could not flare up because he did not dare to do anything to Jing Yun'er. If he came out, he would be dead for sure.

Jing Yun'er was someone at the peak of World Defying Stage Legendary Rank, and now that she had cultivated and killed the Evil Phoenix, her strength had increased by leaps and bounds. It was difficult to find opponents at the peak of World Defying Stage Legendary Rank, and to deal with her, one could only rely on the combined forces of multiple experts.

"Big sister Yun, I'm Chen Xiang. The little turtle that was talking to you just now is my enemy. You should withdraw first, I want to settle this with him." Chen Xiang anxiously transmitted to Jing Yun'er.

"Alright!" Jing Yun'er was extremely polite to Chen Xiang and immediately agreed, but she still scolded him loudly before leaving.

Chen Xiang originally wanted to make it in advance, but when Jing Yun'er came, he made everyone feel anxious, and he waited for two days before he appeared.

"I'm here, what about the little boy? I'll let you go! " Chen Xiang stood at the bottom of the city gate and shouted.
