

## Dan God 3681

### [Chapter 3681](#)

Young Master Fang was on top of the city wall, and he had not seen Jing Yun'er for the past two days, so he was more at ease.

Young Master Fang grabbed the little boy and jumped down from the city wall, then threw the little boy back to Chen Xiang.

The little boy's parents had arrived long ago. After Chen Xiang handed the little boy to the couple, he asked them to quickly leave the place.

"Don't worry, you definitely won't regret being my subordinate." Young Master Fang smiled, seemingly very pleased with himself, because he felt that he had conquered a very good person.

"I didn't say I was going to be your subordinate." Chen Xiang said indifferently.

The people on the city wall were stunned. It was already this far, yet they still dared to be so bold!

Who didn't know of Young Master Fang's strength? Furthermore, Chen Xiang had personally experienced it before, and still rejected Young Master Fang's offer.

"Are you sure?" Young Master Fang was infuriated, and his voice was grim. He felt as if he had been tricked.

"Who do you think you are? I will be your subordinate? Even if you were my subordinate, I still wouldn't necessarily think much of you!" Chen Xiang laughed coldly: "The black phoenix that came here two days ago was much stronger than you. At that time, you were so scared that you didn't dare to come out.

Chen Xiang was confident in his own strength, so he was not afraid of Young Master Fang.

"Since that's the case, I won't give you another chance this time!" You don't have to worry about being killed by me, I definitely wouldn't kill someone like you. It would be too easy for you to die just like that. " Just as he said that, Young Master Fang had already flashed behind Chen Xiang, and just like last time, he sent a palm strike towards Chen Xiang.

The power of this palm strike was just as strong as the previous one, so Chen Xiang could sense this power even more clearly now.

Last time, because Young Master Fang's speed had been too fast, Fang Xingjian had been unable to react in time. This time around, not only had he been prepared, but his cultivation had also increased by a level, and his powers had also increased significantly.

Young Master Fang was as fast as ever this time. His palm strike was terrifying.

Bang!

Young Master Fang smacked Chen Xiang's back with his palm and pushed hard at the same time, but this time, he did not send Chen Xiang flying as easily as last time. Instead, he felt an extremely berserk pressure rushing back towards him, pushing the lightning which he sent flying back into his arms.

Although he could not see it, the pressure that Chen Xiang instantly released was extremely strong. It was released and fused with his other two clones, sending Young Master Fang flying backwards.

Young Master Fang was shocked. It had only been three months, but Chen Xiang's strength had increased by so much!

"I do not know who you are, but if you threaten me, you will be punished by me." Chen Xiang's face was cold, this time it was his turn to attack. When he rushed over, he released a pressure domain that enveloped Young Master Fang.

The pressure field was gradually shrinking, as it could make the battle range smaller so that Chen Xiang could unleash stronger attacks.

"So that's how it is. You were previously at the middle stage of World Defying Stage Legendary Rank, but now that you have reached the late stage, it's no wonder you have the confidence to resist me ... Haha, you are only at the late stage, while I am at the peak! You are still nothing in my eyes. " Although the pressure was very strong, he was not afraid at all.

The people on the city wall also burst into laughter.

"I thought that he would be able to defeat Young Master Fang by stepping into the late stage of World Defying Stage Legendary Rank.

"Young Master Fang is from the Thunder-creation Sacred Race, and even the clan leader of the Thunder-creation Race is not his opponent! But this boy actually thinks that he has such strength. This is truly wishful thinking. "

"Young Master Fang, this kind of idiot will only embarrass you by being your subordinate. Kill him."

Young Master Fang's face was full of mockery as he looked at Chen Xiang, "You overestimating yourself.

"I just refused to be your subordinate, and you hurt me and took an innocent child to threaten me! Even if I die, I will never be a subordinate of an animal like you! "Also, a self-righteous person like you usually doesn't live very long." Chen Xiang sneered, facing everyone's ridicule, he pretended to not hear anything.

"Forget it, let me tell you again, within the Most Ancient Era, the Creation Race is still a very powerful force, and I am the son of the Battle God of Saints. Even though I am in the Most Ancient Era, many reputable people still have to treat me with respect, but you actually dare to be rude to me! If it was in Most Ancient Era, there would definitely be a large group of people fighting to help me teach you a lesson. "

Young Master Fang was also furious. Someone was actually scolding him as an animal.

"There must be something wrong with their brains! They must be a bunch of poor, pathetic weaklings, to be so courteous to a brute like you. " Chen Xiang laughed loudly.

The people on the city wall were furious because they felt that they had been scolded as well. They shouted out loud and told Young Master Fang to kill Chen Xiang.

"Humph!" Young Master Fang's face hardened. He actually used his hand to grab it, but his palm suddenly turned into a dragon claw. The Legendary gas on the claw was very thick, it should be a claw made from releasing Legendary gas.

At the peak of the legendary realm, one would be able to transform into various forms after using Legendary gas.

Young Master Fang directly grabbed at Chen Xiang's sword that was slashing rapidly and ruthlessly towards him. He had used this move before to grab onto many Divine Soldiers and break them in half!

But this time, he did not succeed. Chen Xiang's Heavenly magic sword was extremely sharp, and directly slashed at Master Fang's palm. A large portion of his shoulder had also been cut by Chen Xiang.

"You ..." Young Master Fang's face was filled with fear. When the Heavenly magic sword had chopped at his palm earlier, he could already feel the strength of the Chuangyuan key.

The Chuangyuan key could deal fatal damage to Creation Race like them. He immediately understood that the long spear he had just released would be easily broken by Chen Xiang!

After Young Master Fang realized the Chuangyuan key's power, the first thing he did was to ask for help.

Chen Xiang did not even give him a chance, he opened his mouth and roared, using the power of the sound wave Incantation, the sound waves produced were extremely strong, a sharp voice rushed into everyone's ears, they were unable to hear what Young Master Fang was saying.

As Chen Xiang continued to shout, he slashed out with his sword. Through the sword Qi released by the Heavenly magic sword, he could break through Young Master Fang's defenses.

Within a few moves, Young Master Fang's body was covered with numerous sword scars.

"Do you still want me to be your servant? Dream on!" Chen Xiang roared, he released a wave of Bone-melting magic power from his Heavenly magic sword and struck Young Master Fang's chest, causing him to fly out. At the same time, he was also dissolving the bones in Young Master Fang's body.

The spectators on the city wall had already realized that something was wrong. Some people jumped down from the city wall one after another.

Then, just as they jumped down, Chen Xiang released a lot of pressure and rushed towards Young Master Fang's body that did not have Bones!

Everyone watched on helplessly as Young Master Fang was crushed to pieces, turning into a ball of fire that scattered in all directions.

The powerful Young Master Fang had been killed just like that!

From afar, Xia Changdong saw what was happening, and his body couldn't help but shiver. This Young Master Fang was sent here on an important mission by the Thunder-creation Sacred Race, but he was actually killed.

"Beautiful!" Jing Yun'er suddenly flew over from afar, and started to giggle: "Let me train with this group of trash!"

Jing Yun'er's appearance caused the group of people who had jumped down to be struck by fear once again. Young Master Fang being killed by Chen Xiang made them feel afraid.

And now, a female devil had suddenly appeared!

It would be impossible for them to return to the car, and only Young Master Fang could control the formation plate.

After Jing Yun'er appeared, the feathers formed from black crystals on her Evil Phoenix Slaughterer's body fell off one after another, like countless black daggers, she flew down at a very fast speed. In just a short moment, these countless short dagger-like feathers pierced through the bodies of the group of people dozens of times, slicing them into pieces.

Even Chen Xiang felt his scalp go numb!

This group of Creation Race who were always watching the show from the city wall were all powerful and of noble status, but now, they had become a pile of mud! In the face of great power, their former nobility was nothing but a joke.

Young Master Fang was dead, as was a large group of experts from the Creation Race.

When the patriarchs of the various Creation Race in the Thunder Creation City heard about this, they all rushed over.

"Tao-creation's Crystal Mother... I never thought that you would actually train to become a killing Evil beast! " When he heard the news that Young Master Fang had been killed, he was terrified, because the Thunder-creation Sacred Race would definitely not let him off.

"If I don't cultivate it, I won't be able to deal with you turtle eggs! Ha ha, now that I'm strong, come if you have the guts! " Jing Yun'er laughed, his laugh was filled with evil.

"Are the Chuangyuan key in your hands?" Previously, when they went to Initial Evil-creation Realm, they did indeed sense that it was the Tao-creation's crystal mother.

However, when they returned to the Initial Evil-creation Realm to search for Chuangyuan key, when they discovered that the Chuangyuan key had disappeared, they immediately thought of the Tao-creation's crystal mother.

The Chuangyuan key were very harmful to the Creation Race, if Jing Yun'er went to the Most Ancient Era, it would be a disaster, because in the Most Ancient Era, there are too many people with the bloodline of the Creation Race!

"It is in my hands, but don't worry, I won't use it against you. It's too boring!" Jing Yun'er laughed loudly, then unleashed a murderous cry from the Evil Phoenix, which released countless feathers and crazily attacked the patriarchs of the Creation Race s like a torrent of rain.

After Jing Yun'er had cultivated to kill the Evil Phoenix, the power she borrowed to kill the Evil Phoenix became extremely terrifying. Furthermore, the powers she used were all related to the Tao-creation's sacred crystal.

Chen Xiang and Jing Yun'er had already taken over the City of Thunder, they found a large formation plate inside the City Lord's Mansion, this formation plate was very ancient, and had existed for a long time.

"This is the Transmission array Plate that leads to the Most Ancient Era. However, there is a certain limit, and only people with the Creation Race bloodline can pass through." After Xiao Xianglin came out, he quickly saw what kind of array disc this was.

Other than that, they also found a pearl at the top of a tall tower in City Lord's Mansion. They guessed that this pearl was the reason why the beasts could not attack this place.

Just as Chen Xiang and the others were surrounding the Transmission array plate to study it, the array disc suddenly shook.

"Someone's coming!" Xiao Xianglin anxiously shouted.

"Don't be afraid, I'm here!" Jing Yun'er was overjoyed to know that someone had come.

After the formation plate lit up, an old man appeared.

The old man's gaze was like a wolf's, his face dark, and his body releasing waves after waves of terrifying Legendary gas. He was a peak World Defying Stage Legendary Rank, and seemed to be much stronger than Young Master Fang.

"How did Fang Tian Qiang die?" I am his master! " The moment the old man arrived, he coldly asked. He even released an extremely strong pressure, wanting to intimidate the people around him.

Fang Tianqiang was that Young Master Fang. His master had thought that the people here were all Fang Tianqiang's subordinates.

"He died like this!" Jing Yun'er quickly dodged the Heavenly magic sword in Chen Xiang's hands, and stabbed his sword into the old man's chest: "Old Turtle, are you satisfied with my answer? "Haha ..."

The old man really did not expect that, at first, he thought that the people around him were just there to welcome him, that they were all people's subordinates of Fang Tian Qiang. He thought that the patriarchs of the Creation Race would not die, but now, it seemed that they were all dead.

"You ... "You!" The old man looked at Jing Yun'er who was covered in evil Qi, he was in pain but at the same time, he was also shocked: "Killing the Evil beast!"

"Old Turtle, you're still alive!" After Jing Yun'er pulled out the sword, he pierced it fiercely a few times, "Don't worry, when I get to the Most Ancient Era, I will kill all of you bastards and make you abandon me and throw me away, I will definitely make you die a horrible death."

"It's you... Jing Yun'er! " The old man had been stabbed a few times, but he still hadn't fallen. At this moment, the shock in his heart was greater than the pain. Because he was very clear what kind of existence Jing Yun'er was.

"Old Turtle, you know about me? Hurry up and tell me what's going on! " Jing Yun'er really wanted to stab her a few more times, but he stopped.

In the end, the old man still died. He was burned by the Chuangyuan key's power and released layers of black Qi.

Bai Youyou suddenly came out from the You Yao Mountain Villa, and quickly absorbed some of the remnant soul's memories within the dissipating black aura.

"Sister You You, did you get anything?" Chen Xiang asked.

"Yes, but not much!" Bai Youyou said.

"Hurry up and tell me!" Jing Yun'er came to Bai Youyou's side like a little girl and shook his arm.

"I just learned from that old man's memories that you are the daughter of the Tao-creation Evil Ancestor!" Bai Youyou's words had both Chen Xiang and Jing Yun'er extremely shocked.

"How is this possible?" Jing Yun'er shouted in shock: "I had met Tao-creation Evil Ancestor before, but he did not recognize me."

"I don't know. There must be some secret." Bai Youyou shook his head: "I can only go to the Most Ancient Era to find out!"

"If I am the daughter of Tao-creation Evil Ancestor, then I am also a member of Creation Race. Jing Yun'er pointed to the Transmission array plate and looked at Xiao Xianglin. She knew Xiao Xianglin was extremely familiar with these.

"Big sister Yun, that place must be Thunder-creation Sacred Race's territory, it will be very dangerous for you to go there." Xiao Xianglin advised.

"Don't worry, I'll be fine." Jing Yun'er laughed: "I can't beat them, I can run! As you can see, the old man who just came was extremely powerful, but wasn't he still killed by me? "

"Big Sister Yun, how about I lend you this sword for now!" Chen Xiang looked at the Heavenly magic sword and said.

"I don't need it. This Old Evil used his life in exchange for yours. You must take good care of it." Jing Yun'er said: "Alright, hurry up and teleport me over. I will definitely give you guys more Tao-creation Holy Crystals in the future."

Both Xiao Xianglin and Chen Xiang had no choice but to agree, or Jing Yun'er would definitely continue to pester him.

This Transmission array Plate already had an energy source inside, so Xiao Xianglin could quickly activate it and teleport Jing Yun'er over.

After passing through, he didn't know what happened to the formation plate but it suddenly cracked open.

"This is troublesome. Big Sis Yun won't be able to come back, right?" Chen Xiang frowned.

"She never thought of coming back! In my opinion, she must have destroyed the Transmission array plate over there after she came over, which is why it broke. " Xiao Xianglin said: "We also need to hurry to Most Ancient Era."

Xiao Xianglin had already finished refining the array disc and even transferred the refining method of the Transmission array plate to Xue Xianxian and the others once. The refining speed was a little slow on their side, so they needed to wait a while.

After the Transmission array plate was destroyed, it was no longer possible for the people of the Most Ancient Era to come over. Chen Xiang guessed that the array disc was initially in the hands of the Thunder-creation Race.

In this way, this Thunder City was extremely safe.

The Thunder City had been taken over by Yang Genming and he had let many people in. In order to accommodate more people, he built many tall buildings here.

Two months later, Xiao Xianglin excitedly told Chen Xiang that Xue Xianxian and the others had finished refining the Transmission array plate.

"They don't have any energy sources on their side, so when the time comes they'll consume all of our energy. I wonder just how much energy they'll need to transfer to us." Xiao Xianglin said: "We have over a hundred Tao-creation's Divine Beads in our hands, I'm not sure if it's enough."

"Try it!" We already have a lot of Tao-creation God Orbs at our disposal, if they still aren't enough, then there's nothing we can do about it. " Chen Xiang sighed, "Let's start the teleportation now."

"Alright!" Xiao Xianglin nodded, then stood with Chen Xiang on the Transmission array Plate, opened by him.

After Xiao Xianglin activated the array disc, it shook a little and released a white light. Then, they sucked a burst of fragrance.

This fragrance was familiar to Chen Xiang, it belonged to Xue Xianxian and the others!

"It's a success!" Xue Xianxian laughed.

Xiao Xianglin was also relieved. She smiled at Liu Meng'er and the others, she had finally seen these women with her own eyes.

#### [Chapter 3684](#)

So many years had passed, and Chen Xiang and the others had finally met again.

"I thought I'd never see you again, little scoundrel." Xue Xianxian giggled as he threw himself into Chen Xiang's embrace and tightly hugged with him.

Long Xueyi and Su Meiyao also came out from the You Yao Mountain Villa, hugging each other.

In the Most Ancient Era, all sorts of incantations were different. For example, the Flying mantra, Time Incantation and the Space mantra, they all could no longer be used. The Legendary mantra and the Supreme Mantra, on the other hand, were not a problem.

In the period of time that followed, Chen Xiang naturally made love with the girls. After all, they had separated for far too long.

The Hundreds of Flowers Village was still the same as before, the women inside were all improving quickly. This was mainly because Feng Yujie and the others were in the process of refining pills, in the future, Chen Xiang would have to teach them how to refine the Tai Yuan Legendary Pellets as well as master a few World Defying Dan grain.

Chen Xiang came to Lv Qilian's room. Lv Qilian had something important to discuss with him.

Every time Chen Xiang saw Lv Qilian, he would always feel a sense of awe. That kind of unparalleled temperament was something that Chen Xiang admired the most.

"Sister Qilian, what's the matter?!" When Chen Xiang arrived, he saw two women who looked like, one was Little Lizhi and the other was Xiao Baifeng. Both of them had the same personality.

"You've been so carefree these past few days, so I haven't told you about this yet." Lv Qilian looked at Little Lizhi, and said softly: "Tell him what you found out!"

When Chen Xiang came to the Most Ancient Era, he truly did not ask about the things that had happened here. There were many beautiful women that he loved here, and after being separated for such a long time, he would definitely be happy here.

"I know a bit about the Most Ancient Era as well." said to Little Lizhi with a smile. He hadn't seen Little Lizhi for the past few days, so he was actually by Lv Qilian's side.

"It's not a matter of the Most Ancient Era s, but rather something that is relatively related to you." Little Lizhi saw Chen Xiang's passionate look in his eyes and snorted softly, "After the era of Myriad Tao, where we are at was swallowed, news about you spread. You have done so many great things in the past, so you naturally caught their attention."

"There's really nothing we can do about it!" Chen Xiang sighed: "Who asked me to be so awesome!"

"Later on, there were eight ancestors who came back. They knew about you from the Tao-creation Place ... And among them is Qin Shuang's grandfather, Luo Jiuyang, whom did he come back with?" Xiao Baifeng said.

"I know that. I'm more worried about him." Chen Xiang frowned, "He's Xiao Shuangshuang's relative after all!"

"He's dead!" Little Lizhi said in a heavy voice.

Chen Xiang was startled, but luckily Qin Shuang was not in the You Yao Mountain Villa, so when he came to the Hundreds of Flowers Village, all the girls inside came out to play.

"Senior Luo has actually died!" Chen Xiang let out a long sigh: "I don't know if I should tell Xiao Shuangshuang or not!"

Suddenly, a little white kitten flew in from outside the window. Yue Er, the little kitten, had come.

"Yue Er, why have you come?" Chen Xiang said.

"I'm a spy right now." Yue'er stopped on Chen Xiang's shoulder. "Tell this matter to Xiao Shuangshuang, let me tell her."

"How did Senior Luo die?" Who killed him? " Yue'er, Little Lizhi and the others were able to investigate this matter, and it couldn't be considered as an easy task for them.

"We only know that he died inside the Initial God-creation Realm. We don't know about the rest yet." Xiao Baifeng said.

"And Senior Gu Tong! He's with Senior Luo! " Chen Xiang immediately asked: "Have you guys found out anything about him?"

"He's on the wanted list now. His whereabouts are unknown." Little Lizhi said: "Even though you have attracted their attention, they felt that you will die in the Myriad Tao era."

Chen Xiang nodded his head: "Then I understand, I will keep a low profile! Sister Feng and the others are already learning how to refine the Tai Yuan Legend Pills.

"In order to keep the matter of your return a secret, we did not inform the Heavenly Dragon City about our contact with you." Lv Qilian said: "The matter of you returning, will definitely not spread out to the Hundreds of Flowers Village."

Most of the women in the Hundreds of Flowers Village did not go out, while a few went out to investigate.

"That's good too!" Chen Xiang felt that this was not bad, he knew that his old friends were doing well anyway.

The Most Ancient Era was different, so he had to be very careful.

Before, Thunder-creation Race had contacted him, so he definitely knew that the Thunder-creation Sacred Race had Killing evil dragons. If they knew that he was here, they would definitely search for him with all their might.

"The Initial God-creation Realm is very mysterious. We didn't manage to find where the Initial God-creation Realm was. We only know that the various great Creation Clans are inside." Yue Er said.

Little Lizhi added: "The Initial God-creation Realm is not an independent space, it should be inside the Most Ancient Era, similar to a city or something like that. The spatial structure of the Most Ancient Era is very special, if it is connected to each other, it would require a lot of energy to use up.

Previously, Chen Xiang knew how much energy was consumed when he was teleported here from the Initial Thunder-creation Realm.

"What I need to do now is to investigate the location of the Initial God-creation Realm. Only then can I find out how Senior Luo died." Chen Xiang was extremely respectful to Luo Jiuyang, he had to investigate this matter thoroughly.

"Do you want me to follow you?" Yue Er said.

"No need for now, I'll go with Master and Junior Sister!" Chen Xiang said.

Xiao Xianglin and Little White Fox had been familiarizing themselves with the Hundreds of Flowers Village for the past few days, so Xiao Xianglin finally understood how many women Chen Xiang, her disciple, had.

Xiao Xianglin was teaching Xue Xianxian and the others how to forge Incantations at the Time array s. At this time, Little White Fox was playing crazily at the Hundreds of Flowers Village with Long Xueyi and some other girls who liked to play with each other.

Seeing that, Chen Xiang immediately went to find Xiao Xianglin. He felt that it would be better to have Little White Fox stay in the Hundreds of Flowers Village, as he was not weak either.

After saying that, Chen Xiang brought Xiao Xianglin, He Fengyuan and Feng Ke'er and left the Hundreds of Flowers Village. Xiang'er and Yu'er, the two maids, also followed along.

"I never thought that Senior Luo and Senior Gu Tong would encounter such a thing after coming here." After Xiao Xianglin found out about this, he also felt very sad.

"Yes!" If they had not followed Tao-creation Divine Lord back then, this might not have happened. "

Chen Xiang had already left the Hundreds of Flowers Village.

#### [Chapter 3685](#)

Little Lizhi and the others had already told them where to go to find out more information. There were no city walls surrounding the Most Ancient Era.

The cities here were all formed by mountains of various sizes. Their names were Mountain City!

Chen Xiang came to the mountain city that was closest to the Hundreds of Flowers Village.

"The mountains here are not made of stone and earth!" Coming here, and seeing it with his own eyes, only then did Chen Xiang realize that the mountain surface looked as if it was made of solid steel.

Some of them were even constructed using Tao-creation Holy stone s. Each mountain was extremely sturdy, and with one look, one could tell that it was difficult to destroy it.

"No wonder there aren't any walls in here. The defenses of these mountains are already very strong." After Chen Xiang entered Rong Mountain City, he noticed that there were a lot of houses, but these houses were very low class in the eyes of many people.

Chen Xiang entered a mountain that was three thousand meters tall, and the surface of the mountain seemed to be made of gold. From afar, it looked dazzling and golden, which was why Chen Xiang entered.

"This mountain is just a hotel. It can also be used for lodging." Chen Xiang asked about the price and felt that it was very expensive, because living for a day would cost 10 Tao-creation Holy Crystals.

Even if there were so many Tao-creation's Divine Crystals in the Initial Thunder-creation Realm, it would not be so outrageously expensive.

"Big Sister Yun came from here, there should be a lot of Tao-creation crystal mica, what kind of existence are these? Is it controlled by the organisations, or is it an independent existence?" Chen Xiang had never asked Jing Yun'er before.

He did not stay in the gold mountain. Instead, he went to some residential buildings and found an inn.

From the outside, this inn looked pretty good.

"Manager, I want to stay in the inn." Chen Xiang came to the counter and shouted.

"One Tao-creation's Divine Crystal in ten days. At least ten days." The manager said.

One Tao-creation Holy Crystal could stay here for ten days, which was much cheaper than those hotels that were like mountains.

"It's really cheap." Chen Xiang laughed.

"If you're not worried about being affected by the outbreak of the war, this price is quite good."

From the shopkeeper's words, Chen Xiang immediately understood that the reason the mountains were built so firmly was to prevent a huge battle from breaking out and being destroyed.

After Chen Xiang settled in, he thought back to what Little Lizhi and her told him. If he wanted to investigate more, it would be best if he could join those Creation Races and become their outer force.

If your performance is outstanding, you will be reused in the future. Then you will know more.

Little Lizhi and the others had already investigated thoroughly. Amongst the eight Creation Race here, the Ice Creation Clan could be considered to be one of the looser ones, unlike the other Creation Race who needed to sign a blood oath.

After staying here for two days, Chen Xiang had finally managed to get into a conversation with an outer disciple of the Ice-creation Sacred Race.

This inn was very cheap, but the accommodations were not bad at all, so the people staying here weren't poor at all. There were also some people who didn't want to stay in those giant mountain buildings.

For example, the outer sect disciple of the Ice-creation Sacred Race that Chen Xiang met was that kind of person. This outer sect disciple was at the early stages of the World Defying Stage Legendary Rank.

This person's name was Li Weicheng, and he had the appearance of a middle-aged man. His square face made him look very loyal and honest.

As for Chen Xiang, after he changed his appearance, he was a young man with average looks. He revealed a trace of a Legendary gas and looked like he was in the early stages of World Defying Stage Legendary Rank.

"Brother Li, whether or not I can enter the Ice-creation Sacred Race is up to you." Chen Xiang laughed and toasted Li Weicheng.

Li Weicheng was also very straightforward. When he met a World Defying Stage Legendary Rank like Chen Xiang in a poor inn, it was equivalent to meeting his best friend.

"If you are a World Defying Stage Divine Rank, I can't guarantee it! But you are from the World Defying Stage Legendary Rank, so I am very sure that you can smoothly become one of the disciples of our Ice-creation Sacred Race. Even though you are only an outer disciple, as long as you work hard, you will definitely be recognized and recognized in the future." Li Weicheng also gave a cup of wine to Chen Xiang.

"There's a branch of the Ice-creation Sacred Race here. I'll take you there right now." Li Weicheng smiled and said, "The clan has always encouraged us to introduce some outstanding talents."

"Brother Li, I'm a fire cultivator, I wonder if this is appropriate or not?" Chen Xiang revealed a face full of worry.

"I'm fine!" Where did all these people who were cultivating the power of the frost qi come from? As long as you want to join the Ice-creation Sacred Race, no matter what kind of power you cultivate, you have to do it." Li Wei Cheng patted Chen Xiang's shoulder: "Let's go!"

Li Wei Cheng came from another city. Due to a few reasons, he did not go to the Ice-creation Sacred Race's huge mountain to stay there, but came here. He said that it was mainly because he liked this kind of environment.

"That ice mountain is the branch of the Ice-creation Sacred Race." "Very easy to recognize!" Li Weicheng laughed.

Chen Xiang had already seen it before, the Fire-creation Sacred Race's was a scorching hot volcano.

Li Weicheng brought Chen Xiang to a large hole in the ice mountain. After they were stopped by someone, Li Weicheng took out his identity card and told the guards to recommend the person to join the Ice-creation Sacred Race. Then, they immediately let him and Chen Xiang in.

"There are many people from the Ice-creation Sacred Race living here." Li Weicheng said, "Every giant mountain here has multiple caves. Going in from each cave will be different. Some caves can enter the shop, some can lead to higher places, and there are even hotels."

The Ice-creation Sacred Race's huge mountain was relatively large, so it was filled with businesses. This allowed the Ice-creation Sacred Race to earn a lot of Tao-creation's Divine Crystals.

The process of entering the Ice-creation Sacred Race was very simple. First, one had to swear a blood oath that they had never joined any Creation Race, and as long as they passed through this, they would consider it a success.

Of course, this was only for people of the Legend rank. If this was World Defying Stage Divine Rank, then there would be a lot of tests needed.

He smoothly became an outer disciple of the Ice-creation Sacred Race, and the person in charge of the branch had also seen Chen Xiang, because Chen Xiang was from the World Defying Stage Legendary Rank, he received preferential treatment from the very beginning.

"Each branch will have something to do, more or less. If they do it well, they will be rewarded." Li Weicheng said, "This time, I've got a job. If I complete it, I might be able to become an Advanced student."

The elder from the Rong Mountain City branch nodded his head and smiled, "Youngster, you don't need to be too hasty with your success, you don't want to do something so difficult from the very beginning."

The branch elders were more courteous to Chen Xiang, because he himself was only in the middle stage of World Defying Stage Legendary Rank and he himself was also an outer disciple.

"Then what's the easiest thing to do recently?" Chen Xiang laughed: "I'll start from the easiest!"

"The easiest thing to do in a price comparison is to go inside the Raging Flames Mountain and search for the Flame Tao-creation holy crystal." The old man said: "The Fire-creation Sacred Race is also looking for us, and this area is ours. We cannot let them succeed."

### [Chapter 3686](#)

Tao-creation's Sacred Crystal of Raging Flames? This was the first time Chen Xiang had heard of this.

"Chief Steward, is there any use for the Tao-creation's Holy Crystal?" Chen Xiang asked.

"It has a lot of uses! If this thing was used to concoct pills... It can allow the flames to contain more energy, and if it is used to refine weapons, it can increase one's speed even more, and can also improve the quality of Divine Weapons. " The Head Supervisor laughed, "Of course, it can also be refined into a very dangerous thing. If this kind of thing were to explode, then it wouldn't be a joke."

"So powerful!" Chen Xiang was secretly moved: "I'll go take a look!"

"Okay, I will tell you some clues. If you find it, then tell me first, I will bring them to take over that place. If the people from the Fire-creation Sacred Race arrive later, they won't be able to say anything." The manager immediately told Chen Xiang some clues.

Li Wei Cheng also wanted to busy himself with his stuff and bid his farewells to Chen Xiang.

Chen Xiang immediately headed towards the Raging Flames Mountain Range.

The Raging Flames Mountain Range was very hot, and the peak of a large mountain was burning with flames. Almost every mountain here was burning, and in the night, these huge mountains were like huge torches.

After Chen Xiang arrived at the Raging Flames Mountain Range, he released his two clones and three illusions to search for the Tao-creation's Holy Crystals.

"This item is really hard to find!" Chen Xiang had been in the mountain for a good half a day already, but he still hadn't found anything.

From time to time, however, he would see giant ships flying through the sky, carrying people with them.

The teleportation in the Most Ancient Era consumed a lot of energy, and only those large powers could use teleportation. Most people could use these kinds of huge ships to travel in the air.

Those huge ships were refined using a large number of Flying mantras, so they could fly at a very fast speed.

"Xianxian and the others said that the Flying mantra is controlled very strictly here! Fortunately, Big Sister Yun had already let me learn Flying mantra, I will change your Six Realms mirrors." Xiao Xianglin said: "You can ride a Six Realms mirror."

After Chen Xiang came to the Most Ancient Era, he had Xiao Xianglin separate the Heavenly magic sword and those Chuangyuan keys, and seal them. Even the Evil dragon array and the Red fire dragon were sealed with multiple spatial and temporal seals.

"It seems that very few people here possess a flying-type divine tool!" Chen Xiang said: "If we were to sell this here, it might be very popular."

"It's mainly because the Most Ancient Era's Flying mantra is too complicated! No wonder it was able to improve so much after entering the Myriad Tao era." Xiao Xianglin laughed tenderly: "Even though it's complicated, it's not difficult for me."

"Master, you are the Heavenly Incantation Master, of course it will not be difficult for you." Chen Xiang laughed.

"Those wives of yours are also very powerful. Their comprehension abilities in learning incantations are very high. They are almost as good as me." Xiao Xianglin scoffed, "You are so much more amorous than I thought you were. Previously, when Xueyi said that I didn't really believe him."

Chen Xiang laughed: "Who asked me to be so powerful!"

Xiao Xianglin remembered that Chen Xiang had secretly kissed her before, and it was something he had kept in his heart.

The three illusions could fly, and that was because of the illusions and incantations. The Supreme Mantra and the Legendary mantra here did not seem to be affected by it, so they could be used normally.

"The Legendary mantra and the Supreme Mantra might have passed down from here." Xiao Xianglin said: "Because there are many shadows of ancient incantations within the Supreme Mantra and the Legendary mantra."

It was fortunate that Xiao Xianglin was able to refine Paternoster soul stone. If not, Chen Xiang and the others would not have been able to learn Doppelgänger mantras so quickly.

"Continuing like this isn't a solution, I have to find a way." Chen Xiang came to the top of a tall mountain. This mountain was one of the few mountains that did not burn.

"Don't you have a lot of Heaven devouring rats?" Feng Ke'er said.

"Let's go out and take a look." He Fengyuan said.

Chen Xiang had just recalled that after he had released dozens of Heaven devouring rats, he discovered that all of them had been burnt to death by the flames.

"Heaven devouring rat are too weak." Chen Xiang sighed, although Heaven devouring rat s increased along with his strength, their strength was limited. He simply did not have enough strength to resist the flames here.

"Beauty Feng Yuan, don't you communicate with plants? Maybe there are some tree spirits or something. " Chen Xiang anxiously said: "Go and ask the old tree spirits here, they might be able to find out something."

He Fengyuan was able to communicate with the Medicine soul, which was equivalent to being able to communicate with the souls of all plants.

When He Fengyuan came out of You Yao Mountain Villa, he found some weeds and trees on the mountain and started to communicate.

After a long time, He Fengyuan shook his head.

"No, these plants haven't reached that level yet. The reason why these plants are able to survive here is only because they have evolved and mutated along with the environment here. If they can cultivate their souls out of it, then they're probably good herbs." He Fengyuan said.

"Alright, I'll go look for the ingredients now." Chen Xiang said.

Searching for medicinal herbs was much easier than aimlessly looking for mines.

After Chen Xiang searched for a few days, he finally found a little red flower that was hidden on a cliff. Originally, he planned to let the illusion take it off, because he was worried that it would destroy the soul inside the little red flower.

Xiao Xianglin had refined Six Realms mirrors for several days, but he had still not succeeded. The main reason was that the Six Realms mirrors was simply too strong, so if he wanted to make changes to it, he would need a very long time.

He Fengyuan reaped the rewards after a short while.

"What do you know?" Chen Xiang asked anxiously.

"There is indeed a vein of the Tao-creation's Sacred Crystal of Raging Flames here." He Fengyuan said with a face full of pleasant surprise, "That's why Blazing Mountain was born."

"Are we going to take all of this Tao-creation's Divine Crystal?" Chen Xiang was extremely excited.

"I'm afraid not. It's too big. We can't take it away. We'll just take away most of it." He Fengyuan said: "That Little Red Flower has already told me where the mine is located at."

He Fengyuan took off the little red flower. She had already communicated with the little red flower previously and moved it to a better environment. Inside Chen Xiang's You Yao Mountain Villa was a large treasury of medicinal ingredients.

Chen Xiang immediately went along the path that He Fengyuan pointed out, and arrived at a small mountain very quickly.

"There are many short mountains here. Although none of these hills are on fire, there are many crystal mines below here." He Fengyuan said.

It would be easy for Chen Xiang to go down, he just needed to use his penetrating power. He immediately penetrated deep into the ground and quickly found many crystals that were like red-hot iron.

"These are the Holy Crystals of the Tao-creation!" Chen Xiang took as many as he saw and kept them frantically.

### [Chapter 3687](#)

After Chen Xiang obtained the Tao-creation's Holy Crystal, he immediately went to study it.

"Master, is the usage of the Tao-creation's Holy Crystal really that great?" From the tone of the old man earlier, Chen Xiang could tell that it was something very precious.

"It is indeed very useful. The fire energy contained within is very special!" Xiao Xianglin just burned a little bit of it, and quickly discovered the beauty of it.

"I'm not sure about the benefits of refining pills!" However, refining will bring about great benefits. " Xiao Xianglin said somewhat excitedly: "Because after these Tao-creation Sacred Crystals are burnt, the energy will be refined into the divine weapon along with the flames! If it is used with ordinary Tao-creation Holy Crystals, the effect would be even better. "

Chen Xiang had collected quite a bit, and it was enough for him to refine artifacts in the future. After that, he remembered the location and immediately returned to the ice mountain at the Ice-creation Sacred Race in Rong Mountain City.

"Did you find anything in the Blazing Mountain?" Of course, he did not hold much hope, because many people had already gone there to investigate for a long time. Although they could find one or two pieces of the Tao-creation's sacred crystal from time to time, no one had ever been able to find a mine there.

"Yes!" Chen Xiang said mysteriously: "I've already found the mine!"

The old man thought that Chen Xiang was joking, but when he saw Chen Xiang take out a large piece of the Tao-creation's Sacred Crystal, he was stupefied.

"This... Where is this place? The old man took a deep breath, and anxiously pulled Chen Xiang.

"Head Supervisor, you have to be a bit more careful. Don't spread this out for now." Chen Xiang said in a low voice.

The old man hurriedly nodded, then called for a few trusted disciples to follow Chen Xiang to the Raging Flames Mountain Range.

After Chen Xiang brought them to the Raging Flames Mountain Range, he deliberately wandered around there for a few days before bringing them to the location of the spirit vein.

After the old man and the few others dug downwards for a long time, they saw a large amount of Tao-creation's Holy Crystals. He was very excited, and took out a communication artifact, sending messages

to the higher ups of the Ice-creation Sacred Race, telling them to take over. He was worried that he was not strong enough to handle the situation.

Chen Xiang, the old man and the others waited for the people from Ice-creation Sacred Race to come.

A few days later, the people from the Ice-creation Sacred Race arrived. One was middle-aged, and the other two were youths.

"Shi Kunlin, you have done a great deed this time." The middle-aged man in the lead chuckled. At this time, they were also very happy, because this vein was relatively large.

"This was mainly found by Little Brother Shen Fei! He has just joined our Ice-creation Sacred Race and he has already rendered a great merit!" Shi Kunlin did not dare snatch Chen Xiang's contribution.

The middle-aged man nodded, then took out a golden jade tablet and gave it to Chen Xiang: "Take this golden jade tablet to the ice mountain in Holy Snow City. Someone will receive you."

Ice-creation Sacred Race was rather kind, and was pretty good to his disciples. After Chen Xiang received the gold jade tablet, he immediately thanked him.

"I was just lucky!" A young man behind that middle-aged man snorted, seeming to be a bit jealous.

"He was given this treatment just because he was lucky?" Another young man said in jealousy.

"Shut up!" The middle-aged man shouted angrily, "If he finds the vein, he can immediately inform us that this is a great achievement. If it was anyone else, they might have taken it all for themselves or sold it to another faction as a condition!"

Chen Xiang himself had taken a lot of Tao-creation's Divine Crystals, and he couldn't take that much either. If he were to leave it here, the Fire-creation Sacred Race might find out in the future and occupy this place, then he wouldn't be able to get anything anymore.

The middle-aged man's attitude towards Chen Xiang was very good, which allowed Chen Xiang to have a good impression of the higher ups of Ice-creation Sacred Race, but he could also tell that the Ice-creation Sacred Race was definitely one of the weaker ones, if not the higher ups would not have such an attitude.

"I'll inform someone to mine it now." Just as the middle-aged man finished speaking, a scorching aura gushed down from the sky. Raising his head, he saw many flaming meteors of all sizes falling down.

"It's the Fire-creation Sacred Race! These bastards actually dared to attack us!" The middle-aged man's face changed drastically as he hastily shouted, "Prepare for battle!"

"Elder, this is Fire-creation Sacred Race's Sacred Fire Meteor, let's go!" They have people at the peak of World Defying Stage Legendary Rank on their side. "A young man was trembling in fear as he said.

"Useless thing!" The middle-aged man was infuriated. He punched towards the sky, and a wave of cold air suddenly shot out and rushed into the sky, freezing all of the burning meteors.

"Explode for me!" The middle-aged man sneered. The frozen meteorites suddenly shattered and turned into ice crystals, floating in the air. This caused a wave of sparkling snow to fall from the sky.

Chen Xiang was secretly shocked, this middle-aged man was at the peak of World Defying Stage Legendary Rank! Furthermore, even though the flames could melt the ice, he was still able to freeze those meteorites using ice. This showed just how powerful his icy cold power was.

"You piece of trash from the Fire-creation Sacred Race, get the f \* ck out here." The middle-aged man roared.

"Han Zifan, keep your mouth shut!" You are above our mines! " The people from Fire-creation Sacred Race appeared. An old man brought three middle-aged men.

"Cao Huokun, you fart, this Raging Flames Mountain Range has always been our Ice-creation Sacred Race's territory! When we came to this mine, we didn't even see your shadows. You obviously followed us here. " Han Zifan said angrily.

"This is your territory! But we discovered the vein before you did! We sensed that someone was invading this place, so we attacked. It was your fault first. " Cao Huokun sneered.

A young man said in a low voice, "Clan Elder, this is all Shen Fei's fault. This mine was already taken over by someone a long time ago ..."

Han Zifan flew into a rage and slapped the young man hard in the face: "Shut up!"

Chen Xiang stood out and said: "Cao Huokun, when did you discover the mines?"

"Yesterday!" Cao Huokun immediately replied.

"Do you have proof that you discovered it yesterday?" Chen Xiang asked again.

"You ... "Then what proof do you have that we didn't discover it first?" Cao Huokun looked coldly at Chen Xiang.

"I arrived here ten days ago, and when I used my secret technique, I entered into the depths to dig out a portion of the's Sacred Crystals, and it was right under your feet! If you don't believe me, just dig downwards and see the marks I left behind. " Chen Xiang said.

"I don't believe it!" Cao Huokun immediately dug downwards. They dug a very large hole, and when they reached the bottom, sure enough, there were many empty spaces, and there were even Chen Xiang's footprints.

Han Zifan laughed: "Cao Huokun, you all have seen it, our people have already come here to investigate!" If not, the Fire-creation Sacred Race would definitely act shamelessly. In the end, they might even have to work together to create a disturbance, or else the Fire-creation Sacred Race would have to work it out with them.

### [Chapter 3688](#)

Chen Xiang could tell that the Ice-creation Sacred Race was a little afraid of him with just a glance. That youngster had been so timid when facing the Fire-creation Sacred Race just now.

At this time, Fire-creation Sacred Race was also doing things in a very domineering manner, and it was obvious that he would always take advantage of Ice-creation Sacred Race.

"Hmph, this must be some trick of yours." Cao Huokun refused to admit that the enemy discovered it first.

"Please leave the vein we found." Han Zifan coldly said, "Otherwise, don't blame me for being rude!"

"If you're not being courteous, then you're not. I want to see if you have the capability to be impolite to us," Cao Huokun's fists were brimming with fire, his aura was extremely imposing, and it was obvious that he wanted to use a barbaric method to fight for the vein.

"Han Zifan, let me deal with him. The three of you go deal with those trash." Cao Huokun said to the people behind him, and then punched towards Han Zifan, immediately starting an intense battle with him.

They quickly left the mines, they did not want to fight here, they were afraid that the Flame Tao-creation holy crystal would be destroyed.

"Shen Fei, it's all your fault. Look at what you've done." a young man said angrily, his hand trembling as he held his sword.

The three middle aged men from Fire-creation Sacred Race mocked with faces full of ridicule, "The youngsters from Ice-creation Sacred Race are getting more and more useless."

"On the other hand, that outer sect disciple called Shen Fei seems to have guts! I'll deal with these two guys, then you guys go deal with the old man and Shen Fei. "

Shi Kun Lin anxiously came to Chen Xiang's side and said: "Shen Fei, all of you go first, I will stop them!"

They were both in the late stage of World Defying Stage Legendary Rank, with the same cultivation level as Shi Kun Lin, and the two youths who came with Han Zifan were only in the middle stage of World Defying Stage Legendary Rank, far from the middle-aged men's strength. Those three middle-aged men were in the late stage of World Defying Stage Legendary Rank!

"All of you retreat!" After Chen Xiang finished speaking, he raised his hand and waved it, releasing an invisible pressure wall that pushed forward, and the two middle aged men who were rushing over immediately crashed into the pressure wall.

"Bam!"

After the two middle aged men were sent flying by the pressure wall, Chen Xiang released another formless pressure mountain, suppressing the two middle-aged men. At the same time, he flew over and arrived beside the middle-aged man who was extremely arrogant just now.

Legendary gas could condense into tiny grains, which could only be released during the middle stage of World Defying Stage Legendary Rank!

The sword qi of the Heavenly magic sword surged, releasing a fierce flame, directly cleaving apart the middle-aged man's body, which had been split into two halves and was still emitting intense flames, which then burned to ashes!

The two middle-aged men who were pressed to the ground were shocked!

They were disciples who possessed the pure blood of the Fire-creation Sacred Race and possessed an incredibly prestigious identity, but now, someone dared to kill them!

Shi Kunlin and the two young men from the Ice-creation Sacred Race were also stunned. They knew very well that the consequences of killing a descendant of one of these bloodlines were extremely serious.

"Shen Fei..." Just as a youth shouted Chen Xiang's name, Chen Xiang released an even stronger pressure and fused into the flames, pressing the other two middle-aged men into ashes.

"What is it?" Chen Xiang asked as if nothing had happened.

Shi Kun Lin and the others were shocked, especially the two young men, they did not dare underestimate Chen Xiang anymore. To be able to kill three late stage legendary realm warriors in such a short time, that was truly a terrifying strength!

"This is it!" A young man was sitting on the ground, looking depressed and worried.

In the distance, Cao Huokun's Qi suddenly increased in strength and was rushing over. In a few moments, Cao Huokun was rushing over, with a face full of anger.

"Where are they?" Cao Huokun roared, his forehead was filled with veins, his entire body releasing flames.

"If they want to kill us, we have no other choice but to do so." Chen Xiang looked to be in a difficult position.

Han Zifan had also rushed back, he never thought that the three middle-aged men would actually be killed. He knew from a glance that it was Chen Xiang's work, and he himself clearly knew what the two young men he brought were, along with the fact that although Shi Kun Lin was at the late stage of the legendary realm, his power was also extremely limited.

"None of you will survive!" Cao Huokun shouted loudly.

Chen Xiang had already made his preparations long ago to release two clones in the Divine Sense Sea, then give him enough pressure to form a pressure cage that held Cao Huokun inside.

Just as Cao Huokun wanted to release a strong flame to kill Chen Xiang, he found himself surrounded by an extremely strong pressure.

"Elder Han!" Chen Xiang shouted.

Han Zifan immediately understood, and poured an extremely strong icy cold power into the invisible wall.

Chen Xiang immediately merged the pressure together with the icy cold power and then pressed it into Cao Huokun's body. The frantic Cao Huokun was slowly frozen up just like that.

In a few moments, Cao Huokun was turned into an ice sculpture by the icy cold power. Following Chen Xiang's increasing pressure, the Cao Huokun who turned into an ice sculpture instantly shattered and became ice powder.

Cao Huokun was also dead!

Han Zifan himself was shocked, because he knew very well that with his own strength, it would not be easy for him to kill Cao Huokun. But after that pressure had fused together, he had quickly sealed Cao Huokun in ice.

"Elder Han, you killed this. It has nothing to do with me." Chen Xiang laughed.

Seeing Chen Xiang laughing, the two young men became even more speechless in their hearts.

"This matter absolutely cannot be spread out!" Han Zifan said: "Fire-creation Sacred Race will soon know about this!"

After that, Han Zifan immediately forced the two young men to swear a blood oath, not revealing anything about today, while Chen Xiang and Shi Kunlin did so on their own accord.

"Leave the things here to me!" Shen Fei, hurry up and go to Holy Snow City. " He could already tell that Chen Xiang was not an ordinary person, and was far from something the two trash he brought with him could compare to.

Chen Xiang nodded, and after bidding farewell to Shi Kun Lin, he immediately headed towards the Holy Snow City.

... ..

Sneaking into these Creation Races to learn more about the matters of them was precisely Chen Xiang's goal, and he had already arrived at Holy Snow City.

Holy Snow City was filled with ice mountains, the biggest of them being an important mountain of the Ice-creation Sacred Race.

After Chen Xiang came here, he revealed the gold jade tablet that Han Zifan had given him. The guards at the door immediately became respectful towards him, as if it was extremely difficult for him to obtain the gold jade tablet.

This huge ice mountain was not white, but silver white. Unlike the other ice mountain, Chen Xiang felt a sense of warmth after entering the ice mountain.

At this moment, he was following behind an old man who said that he would bring him to see the head steward.

"Young man, please be a bit more polite when you see the Head Supervisor! He is one of the ten great lords of our Ice-creation Sacred Race. " The old man said in a low voice.

"Lord?" Is this the strongest person in the Ice-creation Sacred Race? " Chen Xiang asked.

### [Chapter 3689](#)

The old man who brought Chen Xiang nodded his head: "One of the Strongest ... Originally, the strongest was the clan emperor, but the clan emperor has been missing for many years! "

seemed to understand why the morale of the Ice-creation Sacred Race was so low.

Chen Xiang followed the old man and understood what was going on.

Not long after, he followed the old man into a large hall. Above the hall sat a tall and sturdy, handsome middle-aged man. He wore white armor and emitted waves of oppressive cold air. The cold air was accompanied by a strong killing intent.

Although this middle-aged man exuded an ice-cold killing intent, his deep eyes revealed a hint of gentleness. A smile hung on his face, causing people to not be afraid of him.

Chen Xiang was very sure that this middle-aged man was one of the Ten Lords of Ice-creation Sacred Race, Han Yixian.

"It's the gold jade card that Han Zifan gave you, right?" Han Yixian received the gold jade tablet from the old man.

"Yes sir!" Chen Xiang nodded his head: "I am Shen Fei, greetings to the Lord!"

"Alright, you'll be a disciple of Holy Snow City in the future. We don't have any rules here. You just need to remember, don't betray Holy Snow City." Han Yixian returned the gold jade medallion to Chen Xiang and said, "For you to be able to find that vein would be of great help to our Holy Snow City, it is only right that you get the gold jade medallion."

"Other than that, there are still five hundred thousand Tao-creation Sacred Crystals here as your reward!" Han Yixian tossed a Storage bag over to Chen Xiang.

To have five hundred thousand Tao-creation Divine Crystals in a moment, Chen Xiang never thought that this Lord would be so generous.

"Thank you, Lord." Chen Xiang immediately thanked him.

"Shen Fei, can you tell me, what is your cultivation level?" Han Yixian was very curious, because he could not see Chen Xiang's true cultivation level. Although he had already sensed Chen Xiang's Spirit Qi, he was not sure.

"Late stage!" Chen Xiang answered truthfully.

"That's right!" Han Yixian was secretly shocked, he suddenly felt that the young man in front of him was very mysterious, but he did not ask too much.

"Shen Fei, if you are not busy, I have something that I need you to do." Han Yixian said, "Furthermore, it will be somewhat dangerous!"

"I am not busy, Lord, speak." Chen Xiang said.

"You might not be too familiar with our Ice-creation Sacred Race, so I'll explain the details to you right now." Han Yixian gestured for Chen Xiang to sit.

After Chen Xiang sat down, Han Yixian slowly said, "After the disappearance of the Emperor, our Ice-creation Sacred Race split into ten different lords, and became a pile of scattered sand. This is mainly because no one is convinced with us, so we all set up our own mountains!"

This was what Chen Xiang had already known before, he nodded his head: "I've already heard from Elder Liu just now."

"After our Ice-creation Sacred Race split up, it can be said that the glory of that day had long since disappeared, and now, our Ice-creation Sacred Race is already dead in name!" Han Yixian spoke of this matter in a helpless manner: "This caused our Ice-creation Sacred Race to be bullied and humiliated by others!"

Chen Xiang saw that the people from the Fire-creation Sacred Race were very arrogant, he could tell at that time.

Han Yixian continued, "And in three months, the grandson of the Thunder-creation Sacred Race's royal family will marry my daughter ... This is also a matter of helplessness! "

Chen Xiang's heart jumped, and he continued to listen.

"I will help you make the arrangements to head to the Divine Thunder Holy City to find a way to rescue my daughter." Han Yixian said: "My daughter is not weak either, she is at the peak of World Defying Stage Legendary Rank!"

"I'm only at the late stage!" Chen Xiang said as he furrowed his eyebrows. He was very surprised in his heart, this Han Yixian was the peak herself, and her daughter was also the peak.

"I know! She needs help now, and I can't find any good people. The main reason is that the people sent over cannot be too strong, if they are people at the peak of World Defying Stage Legendary Rank, they will definitely be suspicious. " Han Yixian said: "And since you know how to conceal your presence and are not a descendant of the bloodline of our Ice-creation Sacred Race, they definitely won't have any suspicions."

"I will arrange for you to go! At that time, I will say that you are the son of a good friend of mine who has died. In order to give you a decent job, I will arrange for you to be my follower. "

"Alright!" Chen Xiang nodded his head. Being able to sneak into the Thunder-creation Sacred Race was a very good opportunity, so he was naturally very willing.

"This is for you. This is my silver jade dagger. It's my token." Han Yixian handed over a dagger to Chen Xiang.

When Chen Xiang saw the dagger, he was extremely shocked, because the dagger was exactly the same as the Chuangyuan key s! Nine Chuangyuan key s, he had seven! Amongst them, he was missing the Ice key s.

And these two keys were both in Tao-creation Divine Lord's hands! How could this Han Yixian have it?

"This dagger has a very good effect against Thunder-creation Sacred Race's bloodline disciples. Unless it is absolutely necessary, you must not take it out." Han Yixian said: "This is also my reward for you. In the future, you don't need to return it to me, and you definitely can't say that it was I who gave it to you! If someone finds out that you have this dagger, you can say that you got it by accident. "

Chen Xiang was sure that the dagger was the Ice key, and it was very likely that the Tao-creation Divine Lord had given it to him, but Han Yixian had given the Ice key to him, as if a heavy burden had been lifted off his shoulders.

With the Ice key in Han Yixian's hands, it was like a burden!

"You must remember my words." Han Yixian warned again.

"I'll remember it!" Chen Xiang really did not expect him to obtain the Ice key so quickly.

Why did the Tao-creation Divine Lord give the Ice key to Han Yixian? What about the Chuangshen key?

"After you see my daughter, show her this dagger. She will believe you." Han Yixian said: "She was also forced into the Thunder-creation Sacred Race at the time, so I need to make it up to her."

Chen Xiang felt that since Han Yixian gave him the Ice key, he must save his daughter. He was glad that he did not monopolize the vein, otherwise he would have missed out on the Ice key.

Following that, Han Yixian arranged for people to send Chen Xiang to Divine Thunder Holy City, and his daughter was currently inside!

... ..

"Master, that's a Ice key, you gave it to him just like that?" Elder Liu said with a pained expression.

"Elder Liu, don't you know that the other clans don't have Chuangyuan key s? If this gets out, I will definitely die. Most Ancient Era will also think of a wave of blood rain because of the Ice key. " Han Yixian said, "Even the Tao-creation Divine Lord wouldn't dare to keep it, let alone me! His whereabouts are unknown, and his fate is unknown. It is very possible that it is because of the Chuangshen key in his possession, which is the most powerful thing in the world. "

"Is that young Shen Fei going to be alright?" Elder Liu said.

Although I do not know what his purpose for coming to our Ice-creation Sacred Race is, but I trust him and I hope that he can save the girl if the Ice key is given to him. " Han Yixian said.

### [Chapter 3690](#)

After Chen Xiang obtained the Ice key, he was unable to suppress the excitement in his heart. This was because he was getting closer and closer to gathering all the Chuangyuan key.

He sat on a large flying ship and headed towards Divine Thunder Holy City.

"With my strength, saving Lord Han Yixian's daughter shouldn't be difficult. I can only go there and talk." Chen Xiang had followed a middle aged man onto the boat, so he did not know much about him from the middle aged man, who was just in charge of bringing him to Divine Thunder Holy City.

All he knew was that Han Yixian's daughter was called Han Xiaoying and her cultivation was at the peak of World Defying Stage Legendary Rank.

"This Han Xiaoying is definitely extraordinary, if not he would not be taken seriously by the descendants of the Thunder-creation Sacred Race's royal family! It seems that Han Yixian must have been coerced to do so, or perhaps there was a time at the end of the month that he was able to marry his daughter off. " Chen Xiang thought.

After the large ship flew in the air for seven or eight days, it finally landed on a large lake in Divine Thunder Holy City.

"Shen Fei, after you get to Divine Thunder Mountain Villa, you must be careful not to offend people everywhere. Just follow the young miss and listen to her orders. He seemed to not know that Chen Xiang had been arranged by Han Yixian to save Han Xiaoying.

"Yes, I will remember." Chen Xiang replied honestly.

After half an hour, Chen Xiang and the middle-aged man arrived at the entrance of the Divine Thunder Mountain Villa.

The middle-aged man did not go in with Chen Xiang. He only passed Han Yixian's letter to an old butler in the Divine Thunder Mountain Villa and had him bring Chen Xiang in.

The cultivation level that Chen Xiang had displayed was only at the early stage of World Defying Stage Legendary Rank. Although this cultivation level was not bad, it was normal for him to be a follower. After all, Han Xiaoying was a person at the peak of World Defying Stage Legendary Rank, so having this type of follower was not a big deal.

In the letter, Han Yixian said very clearly that Shen Fei was the descendant of a good friend of his who had passed away. In order to find a good job, he had come to find him.

On the way, Chen Xiang was also asked many questions by the old butler.

The Divine Thunder Mountain Villa was very big, there were a total of five areas. The north, south, east and west regions were all around, and the middle area was the most tightly guarded area, so they could not casually enter.

"You can only follow Miss Han Xiaoying and can't run around. If you make trouble here, then Miss Han Xiaoying won't be able to protect you! Lady Han Xiaoying is currently living in the east side, so it would be best for you to obediently stay in the east side! If anything happens, Miss Han Xiaoying will give you the order badge to enter and exit the Divine Thunder Mountain Villa." The old butler said sternly.

"Yes sir!" Chen Xiang could only give such an answer. This Divine Thunder Mountain Villa was truly very strict, especially the enchantments that were used to protect the Divine Thunder Mountain Villa.

When Chen Xiang had taken a look at the Central Region earlier, there were even more barriers and formations in this area.

"Could it be that the Divine Thunder Mountain Villa is an important place to the Thunder-creation Sacred Race? Thunder-creation Sacred Race's old lair shouldn't be here right!" Chen Xiang thought, he had already followed the old man to the east region and entered a large courtyard house.

"Miss Han Xiaoying, the follower that your father recommended is here. Teach him the rules here!" the old butler shouted.

In a forest not far away, a pink figure suddenly floated over, bringing along a gust of fragrant wind, a graceful figure gently landed in front of Chen Xiang and the old butler.

The woman had a clear and beautiful appearance, her eyes were lively and her cheeks were pink. She had a seventy percent smile, and three parts of her face were gloomy. She had two small dimples, making her look gentle and lovely.

Chen Xiang only looked at Han Xiaoying a few times before he slowly lowered his head. This was what a follower should do, he would not reveal himself. Fortunately, he had seen many beauties before, so he did not lose his composure when he saw Han Xiaoying. This made the old butler secretly nod in satisfaction.

"Butler, sorry to trouble you!" Take care! " Han Xiaoying's voice was bright as he smiled.

The old steward nodded and left the house.

After the old housekeeper left, Han Xiaoying opened the letter her father gave her, which was the introduction letter.

Chen Xiang didn't say much as he followed behind Han Xiaoying. In his heart, he had a very good impression of Han Xiaoying.

After Han Xiaoying brought Chen Xiang into the hall, he smiled: "Shen Fei, is my father still well? Has he made enemies with anyone recently? "

"When I saw the Lord, he looked very good ... I don't know about anything else, please forgive me Miss. " Chen Xiang said. Han Xiaoying didn't seem to know that he was sent by Han Yixian to save her.

"Sigh, I'm worried about my father. He's not in a good situation right now." Han Xiaoying sighed, his expression full of worry.

"Miss, can we talk privately?" Chen Xiang had just released three illusions and scanned the surrounding area a few times, but did not find any spies, which was why he said that.

Han Xiaoying's beautiful eyes turned; she knew that Chen Xiang had other times to tell her. She nodded slightly, then brought Chen Xiang to her room.

Although she was already in the Divine Thunder Mountain Villa, she was not married to the emperor's descendant, so she still lived alone in this place.

"Shen Fei, you can say it now!" Han Xiaoying said.

Chen Xiang took out his Ice key.

Han Xiaoying was startled when he saw the Ice key.

"Why is it in your hands? Is something wrong with my father? " Han Xiaoying seemed to know that this dagger was extremely important, otherwise, he wouldn't have thought that something happened to her father.

"To be honest, I just joined the Ice-creation Sacred Race not long ago, I belong to a branch of the Lord. Because I found a Flaming Tao-creation Holy Crystal, I can get attention from the Lord! He said that he would give me this dagger, and that he would let me carry out an important mission, which is to get you out of here before your wedding. " Chen Xiang said.

Han Xiaoying also only took a look at the Ice key before returning it to Chen Xiang. She knew that her father definitely had a lot of trust in Chen Xiang, otherwise he would definitely not have given the Ice key to Chen Xiang.

"My father has always been very accurate in his judgement. When he arranged for you to come here, do you really have the confidence to take me away?" Han Xiaoying sighed lightly, "Divine Thunder Mountain Villa is surrounded by barriers everywhere, and there are patrols inside and outside the barrier, making it difficult to escape."

"Miss Han!" What will happen to your father if I save you? Will the Thunder-creation Sacred Race harm him? " Chen Xiang asked: "I'm not sure about your father's current situation, but it definitely isn't too good."

"Father must have made the best decision for you to come and save me!" Han Xiaoying's eyes flashed, thinking of something: If you really succeeded, he would definitely be happy, furthermore, he has already grasped the Flame Tao-creation holy crystal, so this will be the opportunity for him to gather the entire Ice-creation Sacred Race!
