[Chapter 0371 - Law](#)

Those who were angry at first, after hearing Lian Yingxiao's words were slightly trembling inside.

"Lian Yingxiao, don't spout nonsense, martial arts law and will of martial arts way are all bullshit! I have never believed in that stuff, I toiled hard to reach where I am now, I have obtained my power through my own efforts, anyone or anything else is completely unrelated to it! It's just that heaven is jealous of us. Only when our power reaches a certain level will it lower the Nirvana Tribulation! It wants to kill us." Qin Zejun loudly proclaimed.

Lian Yingxiao sneered, "If you don't believe me, then take a look at the guys from Devil Path Sect. Since these guys had committed so many sins, not even one person amongst them has crossed six tribulations."

The Devil Sect Deans trembled a bit but they did not say anything.

"Is it true? Is Nirvana Tribulation truly related to some martial arts law?" Chen Xiang asked Su Meiyao and Bai Youyou.

"Yes, it is related but how precisely, I have no idea. If you seriously go against the law, then when you are crossing the tribulation, the Nirvana Tribulation will indeed become stronger. What the exact law is, we are also unsure. At best, all I can say is that from the will of martial arts way you can take a glimpse of it!" Su Meiyao explained.

The will of martial arts way is used to constrain powerful martial artists. So that these powerful martial artists won't do something which would incur the hatred of both men and god. However, a majority of humans, after acquiring powerful strength, forgot that there was anything called the will of the martial arts way.

"What utter nonsense!" Qin Zejun loudly shouted, then continued, "Since you, Chenwu Mainland are so strong, then you don't need to worry about it, you can take care of everything yourselves!"

"Let me see how you are going to convene the Hero Assembly!" Qin Zejun continued before returning to his seat as he coldly smiled and viciously glared at everyone.

At this time, Gu Dongchen spoke, "Qin Zejun, I have long been aware of your ambition, but I didn't think that there will be so many idiots to follow your nonsense. And as Brother Lian had said, these bitches will definitely die tragically under the Nirvana Tribulation in the end!"

They were already furious from Lian Yingxiao's cursing, yet now they are being cursed once again. This made those Nirvana Realm martial artists angrily glare at Gu Dongchen one by one.

"Why? Do you want to fight? Did I say anything wrong? You are someone who has been alive for so many years, yet you are actually willing to become someone else's slave, you have actually forsaken your original intention for learning martial arts! Relying on martial arts, you have become powerful, but now using the very same power you want to harm the common people, you will definitely face retribution!"

Gu Dongchen sounded dull, his voice was filled with ridicule, and when he looked at these Nirvana Realm martial artists, the look in his eyes was actually that of a pity.

Nothing is sadder than abandoning their most trusted thing. As far as martial artists are concerned, they believed in the will of martial arts. But now these Nirvana Realm martial artists — under the fear of dying during the Nirvana Tribulation — had forsaken the one thing they trusted when they stepped on the road of martial arts, the will of martial arts way!

"Humph! Gu Dongchen, in addition to moving your mouth, what can you do now? If you surrender to the Sacred Light Temple, the Chenwu Mainland can certainly survive! At that time, the residents of your mainland would not be treated badly. Aren't you also unwilling to submit to Sacred Light Temple just for the sake of your power and influence?" Qin Zejun sneered.

Lian Yingxiao smiled and said, "Qin Zejun, do you think everyone is like you? At the very least, the residents of my Lotus Island are very happy, moreover, I have not enslaved them. If they do some work for my Lotus Island, they will get a very extravagant reward! And if they don't want to, I will not force them either."

"What about your Sacred Light Continent? Hei hei, last time I visited that place, it was simply a world of slaves, their life was worse than dogs! Still, it is called Sacred Light? Bullshit!"

"Surnamed Lian..." Qin Zejun was furious. He vigorously slapped his palm on the stone table, but everyone was astounded because not only was there not a single chunk from the table broken off, the table didn't even shake a little.

Gu Dongchen sneered, "The righteous sects of Chenwu Mainland were all established to promote the martial arts. Martial artists too were once ordinary people, they have reached their level step by step. Humans are the fundamentals of martial arts, they are the object of our protection. Once the catastrophe arrives, and if we are not willing to charge forward, then are you going to make civilians stand and resist the Demons and Devils? What power do they have to resist those Demons and Devils?"

"So boring, is the Heroes Assembly even going to be held today? This little miss has somehow taken a time out of her busy schedule! But who would have thought that we would actually have to lecture a group of pigs here! Wrong, I am insulting the pigs! Pigs are better than you, they will not do anything that will bring scourge to humans." Hua Xiangyue, with her tender cheek resting on one of her palms, said with an impatient look.

"You..." Qin Zejun was completely furious. His pair of eyes shone with an ominous gleam as if he could not wait to kill them, but he had to weigh everything. If he killed the Deans of Chenwu Mainland, the martial artists of western seas, northern seas and southern seas would not let this opportunity go and erase his Sacred Light Temple off the world.

The experts of other three sea domains were not stupid. They knew that the Sacred Light Temple's existence was a great threat to them, they too wanted to let the Sacred Light Temple collapse, but the Sacred Light Temple had always resorted to peaceful ways to make other continents submit. If they fought against his Sacred Light Temple, a conflict was bound to happen. At that time, both sides would be defeated and wounded.

Although Chenwu Mainland was just one mainland, Gu Dongchen and the others' strength could not be overlooked. Although they overwhelmed them in number, it was a mainland with a long line of history. Some hidden dragon and crouching tiger experts were bound to exist; if they fought here, Qin Zejun might even get injured.

"It is not up to you to talk about how we are going to defend against the Demons and Devils, you all can get the fuck out! You are so annoying, the threat of Demon and Devil Domain is imminent, yet you want to take this opportunity to threaten us and dominate the entire eastern seas! Wishful thinking!" Liu Menger stood up, the look on her face was as cold as frost, her pretty eyes were shining in furious gleam.

Qin Zejun had now realized that he would not be able to swallow the Chenwu Mainland. The thing he could not understand was that what gave the Chenwu Mainland's Nirvana Realm martial artists such courage that they even dare to resist Demons and Devils alone - it was just nothing more than a dead end! Things were not going according to his calculations.

"Tsk, tsk, tsk, the Divine Weapon Empress is still as brave as ever! You even dare to speak like this towards our Sacred Light Temple's Pope!" From far away floated a naughty laughter, it turned out to be coming from an old man.

Hearing this voice, a few of the Nirvana Realm martial artists suddenly startled. While Gu Dongchen on the other hand, immediately stood up, laughed and said, "The true people to participate in the Heroes Assembly have arrived!"

Chen Xiang was a little curious, he asked in a low voice, "Elder Wu, who are they?"

"They are the experts of the other three domains! They have some conflict with our Extreme Martial Sect, originally they didn't intend to participate, but the Dean somehow persuaded them!" Wu Kaiming replied in a low voice.

Chen Xiang now understood why Gu Dongchen had said the seats were not enough. Originally, the number of experts from the mainlands of other three domains: the southern seas, northern seas and western seas were more compared to the eastern seas. If all of them arrived, then the current gathering could be compared with the one from a hundred thousand years ago.

"All of you get up quickly, you are occupying others' seat!" Lian Yingxiao laughed.

Chen Xiang reckoned that Lian Yingxiao might very well be an eighth tribulation Nirvana Realm martial artist. Otherwise, he would not so courageously contradict Qin Zejun. After all, the Deans of True Martial Sect, Proud Sword Sect, Free Immortal Sect and others remained silent as they calmly watched the proceedings.

As for Hua Xiangyue, she herself had been very mysterious. Moreover, she was a high ranked alchemist. While Liu Menger was in charge of both Divine Weapon Heavenly Empire and Icewind Valley, she also cultivated the Icewind Divine Exercise, even though she had only crossed six tribulations, her strength was impressive.

"Old Hai, long time no see!" Lian Yingxiao laughed and said as a white-haired old man dressed in blue robe appeared beside Qin Zejun.

[Chapter 0372 - The Most Crucial Character](#)

As the blue-robed old man appeared, Qin Zejun's complexion turned ugly. This was totally outside his expectation. Previously, he was quite sure that the experts from other sea domains would not be arriving to participate in the Heroes Assembly.

Subsequently, other people landed on the square at the summit of the mountain one by one. Over a hundred or so people, consisting of males and females of varying ages, from old to young, were all present.

Chen Xiang was left stunned upon witnessing this, because he knew these people were all extremely powerful Nirvana Realm martial artists who had arrived from other sea domains. This scene was indeed an eye-opener. For the very first time, he was able to see so many Nirvana Realm martial artists gathered together while they laughed and chatted with each other. Gu Dongchen went to greet them.

Chen Xiang discovered that these people were all well connected and knew each other. Liu Menger, Lian Yingxiao, and the others also went to greet a few people. Even Proud Sword Sect's Yue Jiangling also knew a few of them.

"Is this the Mortal Martial World's experts circle? It sure is marvelous!" Chen Xiang exclaimed.

"Generally, all Nirvana Realm martial artists would go out to travel. After they arrive at other continents, they would certainly go and meet the experts of that continent first, and then associate with each other, sometimes they would also exchange some stuffs. It is also one of the ways by which Nirvana Realm martial artists find precious herbs." Su Meiyao said.

Qin Zejun was incredibly thick-skinned and surprisingly, he still hadn't left! The Nirvana Realm martial artists of eastern seas who had submitted to the Sacred Light Temple also found it a quite unbearable, because they all knew that the Sacred Light Temple didn't have any good reputation in the other three sea domains. And now others were pointing or staring at them, there were some who even knew them, some of whom were their friends.

"Yo, Pope, you are still here!" The blue-robed old man smiled and said. Chen Xiang discovered that this blue-robed elder called Old Hao was very respected. Many Nirvana Realm martial artists politely greeted him.

"Lan Hai, didn't you all have deep-seated hatred with Extreme Martial Sect? If I remember correctly, a couple of your teeth had been knocked out by Huang Jintian in the past. It's just not you, the majority of people in your group had been beaten by Huang Jintian once!" Qin Zejun sneered.

Chen Xiang's heart skip a beat. He remembered once Huang Jintian said that in the past a bunch of people wanted to force him to surrender the Tai Chi Subduing Dragon Exercise, but he refused and in the end, it ushered into a big fight in which many experts were injured by him and finally the Beast Martial Sect Dean even lost his poor life. Many rallied together against him before he was imprisoned in the Extreme Martial Sect's forbidden area until today.

"Yes, originally we didn't intend to come, but we only had grudges with that old madman. Dean Gu, on the other hand, is a friend. Now, everyone please take your seats as in the past, the Heroes Assembly

will now begin!" Lan Hai shouted. Subsequently, everyone arrived at their respective table and sat down one by one.

Just four hundred continents and four hundred tables. Initially, the Sacred Light Temple had occupied no small amount of seats, but now, they had to empty those seats which made Qin Zejun unhappy. He had already lost his momentum and power. After all, powerful experts from other three domain were gathered here, mere eastern seas were far from enough.

The experts of other three sea domains arrived along with some of their disciples. They brought these disciples to let them play with each other in order to broaden their horizons. Let them experience the circle of strongest experts of Heroes Assembly.

"Before we start the meeting, I hope that those who do not intend to help the Chenwu Mainland resist Demons and Devils would consciously leave!" Gu Dongchen glanced at Qin Zejun and his group.

Qin Zejun coldly retorted, "Who says we are not going to help the Chenwu Mainland?"

Now that it had come to this, Qin Zejun was also left with no other way. If he left in front of the other three sea domains, then later perhaps Gu Dongchen and the others would discuss to deal with the people who had conspired to isolate the Chenwu Mainland with the Sacred Light Temple, and remove his Sacred Light Temple from the face of this world. He had to stay.

"Elder Wu, why was Dean able to invite the experts of other sea domains?" Chen Xiang tugged Wu Kaiming's sleeve and asked in a low voice.

Till now, the Heroes Assembly was moving in the right direction. As it is now, nothing unfavorable could go for the Chenwu Mainland. And thence, the Huang Jintian's prediction of him encountering some disaster would also not come by.

"Just wait and watch, you will soon know!" Wu Kaiming's complexion seemed to be a little strange, but Chen Xiang could not see anything out of the order.

Chen Xiang could not help but feel that there was something wrong. Although everything was proceeding in the correct direction, he still could not help but have a bad feeling.

"Gu Dongchen, there is nothing to talk regarding resisting the Demons and Devils. This time, we all came to defend until our last breath at the One Hundred Thousand Devil Mountains, just like in the past! Every continent will have its own arrangement! Now let's talk about business, you must comply with your promise!" A middle-aged beauty said.

"That's right, let's talk business! As long as your commitment is true, we will help you kill the Demons and Devils!" Lan Hai also seconded. Soon other people also followed in shouting.

Only now did Qin Zejun understand. Originally, Gu Dongchen had promised them something, and only because of this were the experts of other three sea domains willing to set aside their grievances and come here. As to what he had promised, he could only wait and let everything proceed? What could be so important that it could lure them all here?

Chen Xiang was also thinking about that very same question. He remembered when Huang Jintian was a dean, he had forged enmity against many powerful experts. He suddenly felt that these powerful

experts of other three domains were not of the good kind. They all came here completely because of the conditions proposed by Gu Dongchen!

Everyone looked at Gu Dongchen, waiting for him to reply.

Gu Dongchen forcefully coughed, sighed and said, "I will not let your trip become a fool's errand, the person is already sitting on my table."

At this time, Gu Dongchen looked at Chen Xiang. Chen Xiang was astounded, he suddenly thought of something but he dared not believe it.

"Isn't he Chen Xiang? Is he really Huang Jintian's apprentice?" With a flicker, Lang Hai's figure, like a blue light, traversed the whole square and appeared before Gu Dongchen.

Chen Xiang was now certain, he had been sold out by Gu Dongchen! Now, he finally realized why Huang Jintian had said that no matter what Gu Dongchen did, he should not blame him. Although it was so, he still furiously looked at Gu Dongchen.

Only to see him smiling right back at him with a completely ashamed look on his face.

The experts of other three sea domains had a conflict with Huang Jintian just because they wanted to acquire his Tai Chi Subduing Dragon Exercise. If Gu Dongchen promised to pay out Huang Jintian's apprentice, they promised to help Chenwu Mainland in resisting the invasion of Demons and Devils together.

Chen Xiang was Huang Jintian's apprentice, so he definitely knew the Tai Chi Subduing Dragon Exercise. If he didn't know, they could always use Chen Xiang to threaten Huang Jintian. That's why in the eyes of these Nirvana Realm martial artists, Chen Xiang was akin to an extreme treasure.

"Gu Dongchen, you motherfucker, you actually dare to sell out this father!" Chen Xiang furiously roared. Now he knew what it meant by an imminent disaster that was going to be landing on his head.

Upon hearing Chen Xiang's yelling, everyone was stunned, but now they were dead sure that Chen Xiang was Huang Jintian's apprentice. And Gu Dongchen's martial uncle!

Everyone secretly whispered in each other's ear as they discussed about Chen Xiang in a low voice. Particularly, the experts of Chenwu Mainland. They were even more astounded by Chen Xiang's identity. They now understand why Gu Dongchen would always protect Chen Xiang. Because he was the martial uncle of all three tycoons of Extreme Martial Sect!

Many of the disciples of the present generation were all scared to death. Even the disciples and Elders of Extreme Martial Sect who were present at the scene were all taken by surprise.

Chen Xiang always knew that this day would arrive, but he didn't expect it to arrive so soon. Although he was angry, he quickly wrecked his brain and soon came to realize that Gu Dongchen must have definitely discussed this with Huang Jintian. Otherwise, even if he had all the courage in the world, Gu Dongchen would not have dared to sell him out.

[Chapter 0373 - Impossible to Escape](#)

After realizing some of these things, Chen Xiang wasn't that angry. Now, he must calm himself down in order to properly face this sudden matter. He absolutely could not be taken away by these Nirvana Realm martial artists, or else, they would resort to all kinds of threats and inducements in the future to make him hand over the Tai Chi Subduing Dragon Exercise.

"Gu Dongchen only promised them that he would hand you over. Now, Gu Dongchen has already fulfilled his promise. As far as he is concerned, whatever happens next is none of his business. Even if you escape, they still have to fulfill their side of the bargain. So you must escape!" Su Meiyao said. Both she and Bai Youyou were extremely anxious. However, what they must first do was to calm themselves down before discussing countermeasures.

Chen Xiang clenched his fists as he remained standing in place. He knew that it was a stroke of luck which made it possible for him to acquire Huang Jintian's inheritance. And now, he has to pay for this. Everything, from acquiring the complete Tai Chi Subduing Dragon Exercise for nothing, to getting Huang Jintian's help and embark on the right path of cultivation was all extremely rare indeed.

Many years ago, Huang Jintian had forged enmity with the experts of the other three sea domains. The experts of the three sea domains didn't arrive to participate in the Heroes Assembly - it was the work of a single person alone. Huang Jintian was responsible for this, and that's why Huang Jintian pushed everything onto Chen Xiang.

After some thinking, Chen Xiang came to realize that this scenario had already been planned by Huang Jintian and Gu Dongchen. Huang Jintian had once said that it was a kind of test!

Certainly, the Nirvana Realm martial artists would not make it outrageously difficult for Chen Xiang. After all, Huang Jintian was still alive and kicking!

"Little rascal, we will not make things difficult for you. You are Huang Jintian's apprentice, he should have passed on the Tai Chi Subduing Dragon Exercise to you!" The blue-robed old man asked with a smile. From his appearance, it seemed he could not cause any harm to humans or animals. But in Chen Xiang's opinion, it was nothing more than hypocrisy.

Tai Chi Subduing Dragon Exercise! Upon hearing these words, everyone held their breath in surprise. In the past, because Huang Jintian cultivated this marvelous bizarre exercise, he came to possess preeminent strength due to which he showed disdain for the mortal world, struck terror in all direction and killed many famous Nirvana Realm martial artists!

After Huang Jintian agreed to be punished and imprisoned himself in the forbidden area, his apprentice took over the Extreme Martial Sect. He similarly cultivated the Tai Chi Subduing Dragon Exercise and his cultivation soared by leaps and bounds. In just a short span of time, he had ascended to the Heavenly Realm. If not for Gu Dongchen going out to fight with other martial artists every once in a while, everyone would have suspected that he too had acquired the Tai Chi Subduing Dragon Exercise.

"As long as you hand over the Tai Chi Subduing Dragon Exercise, we will not make things difficult for you. Isn't the catastrophe going to arrive? If you share the Tai Chi Subduing Dragon Exercise with everyone, you will be the biggest contributor for mankind, you will be a hero!" Lan Hai said, his tone was rather gentle, it seemed as if he was stealing candy from a baby.

Chen Xiang slightly laughed, "Do you have Yin and Yang Vein? If you don't have, you are unable to learn Tai Chi Subduing Dragon Exercise. Besides..."

Much to everyone's surprise, even under such circumstances, Chen Xiang was speaking so calmly. Just a moment ago, Chen Xiang in a state of extreme anger shouted at Gu Dongchen, but now he had calmed himself down. This kind of state of mind had rendered everyone surprised.

Many already knew that the absolute requirement of cultivating Tai Chi Subduing Dragon Exercise was Yin and Yang Vein. Now, everyone understood why Chen Xiang was so monstrous. Originally, because he cultivated the Tai Chi Subduing Dragon Exercise, he was able to defeat Xiao Chou of Herculean Family. Realizing this point, everyone, thirsted even more for the Tai Chi Subduing Dragon Exercise. Not only was it a divine exercise, it was still a Dragon Martial Technique which went against the common norms. Upon thinking about this, everyone was in a frenzy.

"I am well aware. Even if I can't cultivate the Tai Chi Subduing Dragon Exercise, that does not mean I can't create some power martial technique!" Lan Hai laughed and said.

Chen Xiang glanced all around. He discovered that these Nirvana Realm martial artists had their face filled with greed. They were all waiting for him to hand over the Tai Chi Subduing Dragon Exercise.

Liu Menger and Hua Xiangyue walked together. They already knew Chen Xiang was Huang Jintian's apprentice. They had been in constant worry that this day would come, but they had not expected it to arrive so soon.

Xue Xianxian and Leng Youlan, both tightly clasped Liu Menger's hand. The revelation of Chen Xiang's identity had also surprised them, yet at the same time, it became the cause of their worry. They both knew that in that past, in order to seize the Tai Chi Subduing Exercise, a dreadful slaughter was set off in the entire Mortal World.

Chen Xiang scratched his head and laughed, "Tai Chi Subduing Dragon Exercise is a supreme divine exercise. I had to spend an entire year just to remember the whole thing. How should I say this, if I am to hand it over, I will need one or two years."

When everyone heard this, they were petrified for a moment. However, they were even more excited, he needed an entire year to remember the whole exercise, evidently, this spoke for its esoteric principles itself. Obviously, Chen Xiang was intentionally exaggerating and he was now stalling for time.

Gu Dongchen secretly came to admire Chen Xiang for his calmness in such a dangerous situation. Previously, he was prepared to be cursed a few times by him.

"I only promised to hand him over. I did not guarantee that he would tell you Tai Chi Subduing Dragon Exercise. Whether you can ask him all depends on you!" Gu Dongchen sighed softly and surprisingly jumped into the sky and flew away.

Once Gu Dongchen left, what was going to happen next had no relation with him whatsoever. He had already completed his end of the bargain with these Nirvana Realm martial artists.

Escape? Currently, he was surrounded by a few hundred Nirvana Realm martial artists. If he escaped, perhaps these Nirvana Realm Martial artists would die from shame.

As Chen Xiang glanced at Sacred Light Temple's Qin Zejun as well as the other Nirvana Realm martial artists who were wearing golden robes, he said, "Seniors, I understand that Gu Dongchen has made an agreement with you, but how can the people of Sacred Light Temple share the same benefits? Seniors, you are the one who Gu Dongchen had made an agreement with, don't you think Sacred Light Temple is getting all the advantages for nothing?"

Chen Xiang was indeed right. The experts of other sea domain secretly felt happy. They had come from far away just for the Tai Chi Subduing Dragon Exercise, while the Sacred Light Temple didn't have any agreement with Gu Dongchen.

"You lots of Sacred Light Temple, get the fuck out!" Lan Hai shouted. At this time, everyone felt incredibly excited because they knew Chen Xiang had no way out. He had no choice but to pass the Tai Chi Subduing Dragon Exercise to them.

The people of Sacred Light Temple ground their teeth in hatred. In their eyes, the Tai Chi Subduing Dragon Exercise was also akin to extreme treasure. But now, how could they remain here? The opposite side had powerful experts of three sea domains and if they fight, they were going to lose without a shred of doubt.

Chen Xiang was stalling for time in order to think of some ways to escape.

After the martial artists of Sacred Light Temple left with a dejected look hanging on their faces, Gu Dongchen once again came back. Now, Chen Xiang was standing in the center while three hundred or so Nirvana Realm martial artists surrounded him!

"The sects of Chenwu Mainland cannot leave! The martial artists of Sacred Light Temple are definitely close by. Seniors, can you lay down a soundproof barrier so that when I speak the chanting formula, others can't hear it. And everyone please have patience because the chanting formula is incredibly long."

Chen Xiang had a helpless look hanging on his face while everyone was even more excited. They immediately laid down a soundproof barrier together.

It did not take long for the sound-proof barrier to be completed. It completely isolated the sounds from either side, neither the people outside could hear what was happening inside, nor the people inside able to hear anything happening on the outside. Everyone was fearless of any kind of attack; after all, they were the strongest martial artists standing at the peak of the Mortal World. What should they be afraid of?

Chen Xiang was also very excited; if he could escape from amidst these people, it was no different than ruthlessly slapping them in their faces.

[Chapter 0374 - Creating Opportunity](#)

That Chen Xiang could even escape didn't even cross Gu Dongchen's mind because it was absolutely impossible! That was why he especially selected the elite disciples in the sect in order to let them learn the Tai Chi Subduing Dragon Exercise.

The experts of other three sea domains brought their proud disciples for the very same intentions!

"Seniors, Tai Chi Subduing Dragon Exercise is very abstruse. Although I had memorized it, my comprehension of it is still nothing but superficial! If everybody wants to understand its abstruse principles, you must first know the backdrop of how Tai Chi Subduing Dragon Exercise was created and some of its stories. This is to let everyone realize what they are lacking, realize the greatness of its creation as well as know how insignificant we are! This is what my teacher told me. And according to him, this is one of the most important parts of the entire exercise!" Chen Xiang said with a solemn look pasted on his face. It seemed, that it truly had happened.

"But of course, we are very happy to learn the stories of Tai Chi Subduing Dragon Exercise! After all, some martial exercises need a certain level of understanding. Maybe these stories will let us gain a deeper level of understanding." Lan Hai nodded his head and said. Other experts too nodded their heads in agreement one by one.

Chen Xiang was secretly having a great laugh. He suddenly found it cool to fool these hypocritical guys. In the future, he could even use it to have a great laugh.

"Senior really knows his stuff, truly worthy of experts whom my teacher often mentioned about. This junior completely admires you!" Chen Xiang cupped his hand to salute Lan Hai as he said with a complete look of admiration on his face. This caused Lan Hai to secretly feel proud.

Chen Xiang's gaze swept through every expert around him. Using this opportunity, he even took a peek at Liu Menger and the girls. Then seriously said, "Has everyone heard of the Imperial Dragon Family?"

"I have heard of Ancient Dragon Family, as for Imperial Dragon Family...I've never heard of them." Lan Hai shook his head, others too shook their head in unison.

In his heart, Chen Xiang secretly felt elated. Long Xueyi, this smelly dragon would often brag about the Imperial Dragon Family. If he narrated the story of Imperial Dragon Family, he could go on for at least 10-15 days easily.

"Everybody please focus, The Imperial Dragon Family is akin to emperor-like existences in the Dragon Family. The Tai Chi Subduing Dragon Exercise was created by a dragon of the Imperial Dragon Family! And the well-known countless Dragon Martial Techniques were all created by these very members of Imperial Dragon Family! The so-called Dragonslayers Divine Martial Techniques does not only grant humans the power to slay dragons, but using the same techniques, a dragon can also slay a dragon! That's why these techniques are extremely terrifying. People who knew me, all know that many of the martial techniques I use are related to dragons. This is the most terrifying about the Tai Chi Subduing Dragon Exercise!"

Although Chen Xiang was amusing them, it lured everyone's attention.

"Tai Chi Subduing Dragon Exercise is very powerful. It is a divine level technique amongst the Dragon Martial Techniques! And it is ranked ninth in the Imperial Dragon Family's Dragon Martial Techniques. There are eight other stronger techniques above it which are said to have fallen into Mortal World!"

The crowd of martial artists burst into exclamations. The Tai Chi Subduing Dragon Exercise was just ranked ninth!

Next, Chen Xiang began talking nonsense, from left and right he pulled out some stories, fabricated some of the nonsense, and with Long Xueyi help, accordingly added a little bit. The way he spoke seemed to make everyone immerse in his stories. As if they themselves were the protagonists, as if they were in the world of Imperial Dragon.

Like this, three days had passed in the blink of an eye. Chen Xiang excitedly said, "The most crucial point of cultivating the Tai Chi Subduing Dragon Exercise is the state of mind! You need to be like a dragon who has an aura of looking down upon the whole world. Although all seniors here are the strongest experts in the Mortal World, after you arrive at Heavenly Realm, your strengths can not even be compared with a claw of the dragon. Facing the imposing manner of a dragon, everyone will feel like an ant."

"But, after cultivating the Tai Chi Subduing Dragon Exercise, we can slay dragons!"

Chen Xiang's nonsense went on straight for three day and three nights, yet he still had not arrived at the main point. Although some people were getting impatient, they still listened to him with rapt attention. Because Chen Xiang had repeatedly mentioned that these stories were very important, they must definitely remember! All because when they are going to cultivate the Tai Chi Subduing Dragon Exercise, they could get some enlightenment from these stories.

Watching Chen Xiang conning these people, Long Xueyi could not stop laughing. She also continuously kept imparting Chen Xiang with new ideas. Su Meiyao and Bai Youyou were also trying to find ways.

"Alright, seniors, you have to first assimilate what I have said till now. Afterward, I will begin imparting the chanting formula. Everybody has to remember the chanting formula well! If you forget even one word when you are cultivating, it could very easily lead to Qigong Deviation and you might even die!" A solemn look appeared on Chen Xiang's face. Although these people could not cultivate the Tai Chi Subduing Dragon Exercise, they needed to draw reference and create some martial techniques from it. That's why there was no room for carelessness.

Chen Xiang rested for a moment as he discussed with the two girls inside the ring, "Is there a plan? Smelly dragon, tell me what you have discovered, what about the surroundings!"

"There is a very small hole enough for a bird to get under a table. This hole is very deep and I don't know where it will lead! All the stone tables and chairs are protected by a strange power, so it is very difficult to break them and also difficult to probe! My divine sense is unable to enter the depths of the hole!" Long Xueyi said.

Chen Xiang was pleasantly surprised. The Heroes Mountain was the venue of Heroes Assembly, so of course, it had to be marvelous. Perhaps, a hundred thousand years ago, this place was carefully built by the strongest of experts. And after repulsing the Demons and Devils, they might have come here to celebrate!

"According to Zhenzhen, her parents are nearby. If you open the profound beast bag, her parents will be able to sense the aura of Little White Tiger. Her parents are very strong. Perhaps, they will have a conflict with these people, this might very well be the opportunity we are looking for!" Bai Youyou said.

"At that time, you can cast the "Misty Sky" from the Black Tortoise Divine Exercise and envelope this whole area in dense mist. Afterward, you can transform into a bird and quickly drill your way into that hole which is located under the table!" Su Meiyao said.

Currently, Chen Xiang was left with no choice. He quietly opened the profound beast bag, so that the aura of Little White Tiger quietly overflowed outside. From Bai Zhenzhen, he came to learn that her father and mother were both extremely powerful. They had at least crossed the eighth Nirvana Tribulation. They could be considered as peak martial artists in Mortal World. Mankind definitely could not dare to arbitrarily start a feud with these kinds of demon beasts.

After the profound beast bag was opened, Chen Xiang began imparting the chanting formula, word by word, very slowly. This time he was speaking the true formula, however, he was very slow. In any case, the chanting formula of Tai Chi Subduing Dragon Exercise was very long, even if he imparted it at a normal speed, it would take a very long time.

These Nirvana Realm martial artists turned extremely excited just by listening to a few words of the chanting formula, because they all knew its abstrusity. They thought that by coming here to the Chenwu Mainland, their harvest was pretty huge. They felt they could create powerful martial techniques from the Tai Chi Subduing Dragon Exercise which would be handed down to the later generations by generations; making them famous throughout the ages!

Everyone remained very quiet as they aptly listened to the chanting formula read by Chen Xiang. Liu Menger and the others had a pretty good understanding of Chen Xiang's character; they always felt that something was bound to happen. They all knew that Chen Xiang is not someone who would so easily surrender!

Just like this, half a day has already passed, yet Chen Xiang had only spoken fifty words of chanting formula. Furthermore, he repeated it three times under the pretense that others might not remember!

Chen Xiang would not truly impart the Tai Chi Subduing Dragon Exercise. If someone with sinister intentions created some deadly martial technique due to it, it would bring scourge upon the common people. In particular, the devil path martial artists. And if it fell into the hands of Demon and Devil Domain, the consequences would be disastrous.

Suddenly, two overlapping tiger roars floated over from far away which was followed by a gust of wind filled with an aura of slaughter. Surprisingly, it pierced through the barrier, and awakened many people who were immersed in remembering the few words of the chanting formula!

Chen Xiang's heart started pounding madly. He knew that his opportunity has arrived. He was currently a little tensed because everywhere around him were Nirvana Realm martial artists. If he fails this time, these guys will take care of him more strictly. At that time, it would be difficult to find any opportunity to escape.

[Chapter 0375 - Shocking Development](#)

Many of the Nirvana Realm martial artists whose cultivation was relatively low happened to have a change in their complexion upon listening to the furious tiger roars that kept on coming continuously. Although they, too, were Nirvana Realm martial artists, facing this level of White Tiger, their only choice was to escape.

"White Tiger Family!" Gu Dongchen dispiritedly said. At this moment, the entire soundproof barrier has already been destroyed. The birds and beasts inside the forest all seemed to be fleeing in fear. The sky above was full of varieties of birds as they flee in distress. The summit could be said to be shrouded in a haze of fear.

Chen Xiang was secretly shocked. He didn't expect Zhenzhen – this Little White Tiger's parents – to be so formidable! He hastily shut close the opening on the profound beast bag. If they came to know that he had caught their daughter, he was finished.

Of course, he had done so in order to let the White Tiger husband-wife duo have their hatred pointed at these Nirvana Realm martial experts. At that time, as long as the situation here was in chaos, it would present the best opportunity for him to escape.

"Smelly dragon, can you lure some birds here so that we can confuse these old men? Otherwise, a sudden appearance of a bird will only make them suspicious." Chen Xiang asked Long Xueyi.

"It's a piece of cake. Those two powerful White Tigers are about to arrive. Looking at their imposing manner, they should be ready for a big fight." Long Xueyi excitedly said. At this time, a flock of birds suddenly charged at the summit of the Heroes Mountain. Countless birds flew like a swarm of locust, covering the sky. And the experts at the summit had their hands full, they could only manage so much. All of them stood up and turned their gaze towards the place where the tiger roars seemed to be coming from.

At the moment, all they could worry about were those two powerful White Tigers.

"They are coming!" Gu Dongchen shouted and flew out. He was the strongest expert of the Chenwu Mainland and also the host for the Heroes Assembly of this time. Surely, he had to guarantee the safety of the assembly.

Gu Dongchen was the first to bear the brunt of the attack as a white mist rose from his pair of fists. The power and momentum emanating from these fists had made many hearts tremble. This was precisely the strength of someone who had crossed eight Nirvana Tribulation.

At that very moment Gu Dongchen flew out, two white light streaks made their way here from far away and crashed into Gu Dongchen fiercely.

Gu Dongchen immediately followed up with a fierce shout as he suddenly punched out, seemingly bearing the momentum that could topple mountains and overturn the seas. In the twinkling of an eye, it seemed as if the sky and the earth were going to collapse. A large part of the earth had cracked open, even the Heroes Mountain was shaking violently! A burst of glaring light had covered the sky and the earth, even worse was that it gave people a kind of burning sensation.

Of course, what made everyone feel terrified was the monstrous Slaughter Qi which had covered the world; it made everyone feel as if they were in a battlefield where over a billion people were slaughtering each other! After the glaring light vanished, a middle-aged couple stood before Gu Dongchen. The robe worn by the couple were just like the fur of a White Tiger, it had many stripes, while the look on their faces seemed to be that of anger.

At this time, a flock of birds once again flew their way into the crowd of martial artists. Presently, everyone's attention was completely focused on the White Tiger husband and wife couple. They simply didn't notice that a dense mist was slowly spreading under their feet.

Lian Yingxiao and the blue robed old man also charged out and faced the White Tiger couple standing next to Gu Dongchen. All of them were not flying, but using their strength, they were making their body float in the air which can only be done by Nirvana Realm martial artists.

Chen Xiang was also incomparably tensed. At the very moment the glaring light covered everyone's vision, he quietly cast the "Misty Sky". There were countless moves inside the Black Tortoise Divine Exercise. Generally, all of the moves were focused on escaping, that was why he rarely used them. However, now was just the right moment to use them.

After he kept on releasing a large part of water attributed True Qi that transformed into white mist, the mist grew denser and denser. In just a few seconds, the crowd at the summit of the mountain were shrouded in a dense mist.

Suddenly, Chen Xiang cast 72 Transformations and silently metamorphosed himself into a little bird. At this moment, many birds were chaotically fleeing amidst the crowd, he simply would not be discovered.

"Chen Xiang has disappeared!" An old man suddenly shouted.

Even though many people were watching the White Tiger couple, there were still people who were monitoring Chen Xiang. Once Chen Xiang is discovered, it was immediately known.

After Chen Xiang turned into a little bird, he immediately flew in accordance with Long Xueyi's direction and flew his way towards that stone table and entered the small hole under the table. Just as he entered the hole, he heard someone speak that he had disappeared.

"Chen Xiang ran away! How can there be so much damn fog!" An old man furiously roared as he released a gust of wind, blowing away the mist to immediately look for Chen Xiang.

"Quickly, look everywhere!" Lan Hai shouted. The field was suddenly in a complete chaos. And after the White Tiger couple noticed that their daughter wasn't here, on the contrary, it was full of many powerful experts, they angrily roared several times before flying away.

Although the beasts could change form, they were still very much detested by mankind. The White Tiger couple were worried that instead of finding their daughter, they would be captured. So they had no choice but to leave.

"Quickly find him, he could not have gone far!" The blue robed old man was anxious as well as furious. Floating high in the air, his gaze swept through the mountain forest everywhere, and he also released his powerful divine sense that swept all around.

Just after Chen Xiang hid in the small hole, in a few short seconds, he suddenly sensed hundreds of powerful divine sense swept over. But he was not discovered, and thus, he even more leisurely continued his way down the hole.

Under the sweeping of hundreds of divine sense of Nirvana Realm martial artists, not to mention human, they were even clear of the number of ants. Yet they still could not find Chen Xiang.

"What the fuck happened! Not to mention a little rascal, even if Huang Jintian was here, it would be absolutely impossible to escape in such a short amount of time. Even if he escaped, he would still leave the fluctuations of his aura, but this brat seems as if he had evaporated into thin air!"

Lan Hai angrily said. He was unable to accept this fact. Although the situation was very chaotic, he felt that even he himself could not escape if he was surrounded by so many Nirvana Realm martial artists.

But the fact was that Chen Xiang had disappeared without a trace! These people were the strongest in the Mortal World, their divine sense could almost search a few hundred zhang deep under the ground. In just a short span of time, the entire Heroes Mountain had been locked by their divine sense. They could sense many birds and beasts fleeing, but they could not sense any human running away.

Those Nirvana Realm martial artists who had come from far away anxiously searched up and down. On one hand, they were grumbling and cursing, while on the other they were searching for Chen Xiang using divine sense. Even Gu Dongchen and Wu Kaiming took part in the search.

Liu Menger and Hua Xiangyue also stood at the edge of the square, released their divine sense and swept the mountain forest around them. They were extremely happy because of Chen Xiang's escape, but they could not understand using what means had Chen Xiang escaped. If it was just a few Nirvana Realm martial artists then it was still probable, but there were hundreds of Nirvana Realm martial artists here, yet he had safely escaped.

Xue Xianxian said in a low voice, "Brother Xiang has really surprised everyone, he had actually run away!"

"Was it just nonsense he was talking? He has always been waiting for an opportunity, this little rascal can be truly hateful! I think that this mist is definitely created by him!" Hua Xiangyue looking at the white mist and said in a low voice.

Suddenly, the entire white mist floated into the sky and slowly gathered together to form a row of words, "A bunch of idiots, hahaha!"

"Quickly look at the sky!" As a man shouted, everyone raised their head. After they read the sentence, they were incessantly furious. They understood that Chen Xiang was blatantly shaming them, the Nirvana Realm martial artists. And they too also felt it as a great insult!

Seeing those few words, Lan Hai furiously roared as he sent a palm towards the sky, thereby, dispersing the white mist. Afterward, he looked at Gu Dongchen.

"Don't look at me, I don't know anything either!" Gu Dongchen spread his hand as a bitter smile appeared on his face.

[Chapter 0376 - Mysterious Passage](#)

Indeed, it had nothing to do with Gu Dongchen. When Chen Xiang disappeared, everyone had witnessed Gu Dongchen obstructing the White Tiger couple who had suddenly appeared right before them. That White Tiger couple abruptly came and abruptly left, which also puzzled everyone.

Everyone believed that Chen Xiang had escaped using some secret technique. The one thing they were completely sure was that the fog had been released by Chen Xiang.

"That brat indeed has the ability to escape. However, I still can't figure out this martial technique which can leave so much water behind. But obviously, he hadn't used this kind of martial technique to escape. If he had, he would have definitely released a rich water attributed True Qi." Lian Yingxiao turned around to look at the stone tables nearby. Even though he had noticed the hole, it never crossed his mind that somebody could escape here because, in his mind, a human could never enter this hole.

"Hahaha... what a bunch of idiots. Surprisingly, that little rascal ran away. Hahaha... I am laughing to death here. In my entire life, this is the funniest thing I have ever seen!" An insane laughter suddenly floated over, angering Lan Hai and the others even more.

It was Huang Jintian's laughter!

"At the beginning, I intended to wait till that brat had imparted half of Tai Chi Subduing Dragon Exercise before saving him, but who would have expected him to spout a load of bullshit. And after you blockheads actually believed him, he escaped. Hahaha... truly worthy of my apprentice! Those bullshit stories are all false, concocted by that brat, but they were actually not that bad! They were enough to fool you blockheads to listen to him for three days and three nights!"

Once Huang Jintian finished speaking, he once again burst into maniacal laughter. Listening to his mirth, Lan Hai and the others turned pale. Chen Xiang had actually treated them as pigs^[1] and toyed them with for three days and three nights!

"Hahaha... this is so funny! A group of pigs. However, that brat's story was pretty good! You have not suffered a loss here! Hahaha..."

Previously, when Huang Jintian heard Chen Xiang telling those stories, he had almost spewed blood from laughing. And now that Chen Xiang had fled, he was mercilessly ridiculing these self-righteous Nirvana Realm martial artists.

"Blue robed old man, if I remembered it correctly, when that little rascal was telling the story, you were the first to praise it. Now, it seems that you are the dumbest pig! Hahaha..."

Lan Hai was trembling in anger, he almost had an impulse to vomit blood. When others thought of the time when Lan Hai was singing to Chen Xiang's tune, it was indeed true that Lan Hai was a complete idiot. At his age, he had actually been played by a little rascal.

Xue Xianxian and Leng Youlan too very much wished to laugh, but they dared not! The same was true for Liu Menger as well as Hua Xiangyue, but thinking of it, they realized they too had been cheated, they could not laugh.

"Hahaha... I'm dying here, imagining your looks when you pigs had been fooled by my apprentice, I can't stop laughing! That brat is too formidable, the pupil has surpassed his teacher, hahaha..." Huang Jintian's voice disappeared. However, that insane laughter which was full of ridicule still echoed everywhere.

Lan Hai and the other felt as if someone had ruthlessly slapped them in the face. They were all incomparably furious. This was the biggest shame of their life, especially for Lan Hai. Now, he could not wait to find a hole in the ground and jump into it.

Long Xueyi, Su Meiyao, and Bai Youyou also could not stop laughing, especially Bai Youyou. It was the first time for Chen Xiang to see her laughing so hard. Needless to mention - Su Meiyao and Bai Youyou - these two girls constantly laughed to their heart's content.

As long as they are those who believed Chen Xiang's story were true, they did not feel it was funny at all because they felt like a pig who had been idiotically sitting there, listening to Chen Xiang blindly for three days and three nights, and also believing it was all true!

"I'm extremely sorry! I admit that at that time, I was no more than a stupid pig in that brat's eyes, I indeed had been played by him. But Old Hai, you can not go back on your words! I have personally handed him over to you, it was you who could not look after him. You can't blame me for that!" Gu Dongchen helplessly sighed and said. Chen Xiang's means had taken him by surprise. And now, the public was completely furious.

Of course, Lan Hai and the others could not go back on their words. It was indeed their carelessness which allowed Chen Xiang to escape. After they all calmed down, they more or less had come to admire Chen Xiang a little. Not only had Chen Xiang had that kind of means, he also had the guts to even dare to spout nonsense, concoct some stories in front of a few hundred Nirvana Realm martial artists, in order to fool them.

Not just anyone could have such courage!

"This brat... I must catch him!" Lan Hai angrily snorted.

Lian Yingxiao laughed and said, "Old Hai, I'm afraid, that brat is not going to return to Extreme Martial Sect for a long time. I think that the next time he returns, he should be in Nirvana Realm!"

Chen Xiang in Nirvana Realm? Not to mention Nirvana Realm, Chen Xiang was just in True Martial Realm, and he had been so unruly. Thinking about this made everyone's head ache!

"I promise everyone, if he returns to Extreme Martial Sect, I will be the first to catch him and hand him over to you! But of course, if that old madman took action, then I won't have any way to do so." Gu Dongchen bitterly smiled and said.

Huang Jintian still made everyone dread him. A majority of the people in here had a bout or two with Huang Jintian. Furthermore, a group of them had besieged Huang Jintian together, yet in the end, they were injured by him. This spoke for Huang Jintian's strength itself. They were all well-aware that if Huang Jintian so wished to rely on his heaven-defying strength, he could definitely dominate the entire Mortal World. Yet he did not do so, and finally, his fate had fallen to that of a prisoner.

"Although the old madman is imprisoned, if he... if he wants to take action, it is still not a problem. He seems to have mastered a powerful means by virtue of which he could congeal a body from his divine sense." Gu Dongchen solemnly said.

Everyone was aghast. They all looked at each other and noticed a stunned look on everyone's faces. What did they just hear, Huang Jintian actually has the ability to come out and take action?

There was already no sign of Chen Xiang. Now, he continued advancing through that passage of small hole. He found that this small passage had been intentionally made by someone as if it was leading to a place right below the venue of Heroes Assembly.

"Who in the hell had created this? This mountain is but incredibly hard!" Chen Xiang was extremely uncertain. Previously, the Sacred Light Temple Pope had ruthlessly smacked a palm on the stone table, yet it did not leave any damage, it did not even shake the ground. It was quite clear that, from the beginning to end, this mountain had been carefully crafted.

"It is very deep, it looks like this passage is going around the mountain till it reaches the bottom, who in the hell is so bored? If he wanted to reach the bottom, he could have made it straight." Long Xueyi was also uncertain.

The mountain was extremely massive. If the passage continued going around the mountain to reach the bottom, then this passage indeed could only be made by someone who was incredibly bored.

"Is it sealing some bored guy?" Chen Xiang made a guess. Previously, when he went to take the Suppressing Devil Divine Exercise, he had freed Bai Ziqian who had been sealed there for a hundred thousand years. If someone was sealed below the mountain, he would not find it strange at all.

"Who knows! However, this place has always been a forbidden area, there is definitely something under it! At the very least, this passage was intentionally made by someone, it is impossible to be naturally formed." Long Xueyi said.

Chen Xiang turned into a mouse and quickly crawled his way into the passage. At the beginning, he intended to hide here for some time before leaving. But now, driven by his curiosity, he continued to advance.

[Chapter 0377 - Fortuitous Encounter](#)

Hero Assembly officially began. The crowd of experts discussed on how to jointly seal that rift and destroy those Evil Demons later.

Naturally, Chen Xiang who was still inside that quiet and dark passage had no way to know. What made him a little worried was that he might encounter some danger.

"This place should be enveloped in a powerful restrictive spell, otherwise, it would not be so firm!" Su Meiyao said.

Chen Xiang also gave it a try, but no matter what he did, he could not budge a single piece of stone, he could not even leave a scratch on the surface. He was now sure that there were definitely some good things hidden under the mountain.

This mountain was built a hundred thousand years ago, a time when the martial way was flourishing. Later, because of the catastrophe, many martial and alchemy techniques were lost. So the current martial artists were much worse than before.

After crawling for more than half an hour, Chen Xiang suddenly felt a gust of chilly wind which made him feel very comfortable. But this comfortableness didn't last for long because of an extremely strong suction force had suddenly appeared and immediately started to pull him downwards.

It felt like he was flying in this small passage. Chen Xiang panicked, "What the fuck is happening?"

"A strong suction force is sucking you forward." Long Xueyi explained.

"There should not be any problem. If this place was established by the martial artists a hundred thousand years ago, then they should not have any malicious intention. I think that the suction force is there to make you reach that mysterious place quickly." Su Meiyao said.

Chen Xiang heaved a sigh. However, he was still vigilant. At this moment, he felt like he was moving faster and faster, like he was inside a passage created by the wind itself. And this feeling was pretty good.

A moment later, he suddenly fell to the ground. He also reverted back to his human form because there was an ample room of space here.

"Is this the bottom of the mountain? Where the hell am I?" The stonewalls in here were exuding a weak white light. Chen Xiang glanced all around, hoping to find something here.

It was only a broad stone room with nothing else inside, which made him quite disappointed.

"Which mainland are you from? What sect do you belong to?" A very loud voice suddenly rang in his ear, frightening Chen Xiang to the point that he could not help but scream in fear.

Chen Xiang hadn't expected that there would actually be someone in this huge stone room. But no matter where he looked, he could not find anyone, which gave him the creeps.

"Chenwu Mainland, Extreme Martial Sect disciple!" Chen Xiang slightly took a breath before replying.

"Worthy of the sect created by Extreme Martial Old Man. His sect's disciple is actually the first one to arrive here. So to say, the Extreme Martial Sect is still surviving after a hundred thousand years, amazing!" The voice was filled with admiration.

Chen Xiang secretly chuckled to himself. Now it seemed that there would be some good things inside this stone room.

"Senior, are you sealed here?" Chen Xiang asked. If he could, he would free this man.

"No, it just a wisp of my spirit thought which is talking with you. I am already inside the Heavenly Realm!" The man laughed.

Chen Xiang was shocked. Is he in the Heavenly Realm? Furthermore, he could still talk with him. He reckoned that this man's divine sense was definitely astonishing, or else it would have been impossible to separate a wisp of spirit thought and maintain it for so long, not to mention, he could still control this spirit thought from the Heavenly Realm.

"This fellow is definitely a Shinto cultivator. There is a Splitting Soul Technique in Shinto which can not be affected by constraints of space, making it possible to control spirit thought from another space and get the latest information directly! Even for me, it is currently impossible. It seems that this fellow after crossing the ninth Nirvana Tribulation didn't immediately ascend, and remained here for some time." Long Xueyi was also caught by surprise. She encountered Chen Xiang, a human who could cultivate in Shinto was already unexpected, now she had encountered another one.

After listening to Long Xueyi, Chen Xiang was suddenly filled with deep veneration, "Senior, could it be that you are a Shinto cultivator?"

"Oh? Little brother, may I ask how strong are you now? How did you know that I am a Shinto cultivator? Even in the past, many old men didn't know what is my ability called, even I didn't know. Only after I ascended to the Heavenly Realm did I come to know of Shinto." The man asked in surprise.

"I am just a 7th level True Martial Realm cultivator. I have read a book that had records about Shinto, that's why I know." Chen Xiang replied.

"So it was like that! How did you come here? Discovering the hole is not difficult, the difficult part is to realize that there is something underneath. Furthermore, when you arrived, you didn't destroy the mountain. Not to mention, by your current strength, it will be near impossible for you to destroy it!" Regarding this issue, the man felt extremely uncertain.

Long Xueyi said, "Tell him that you are a Shinto cultivator. This person had been exploring the cultivation of Shino on his own, furthermore, he is currently in the Heavenly Realm; he is definitely not an ordinary person. It's better for you to become friends with him, you might encounter him in the Heavenly Realm later on."

"Senior... In fact, I am also a Shinto cultivator. I have just learned itsy-bitsy of spiritual power, by virtue of which I turned into a mouse and crawled my way here!" Chen Xiang laughed and said.

"Hahaha, interesting, interesting! In the past, I had said, anyone who can come here would definitely not be some ordinary person. Who would have expected that after one hundred thousand years, the human who could arrive here is actually a Shinto cultivator! In the past, this place was built together by me and a group of old men." The man laughed and said.

"Where in the end is this place? Right, I have yet not asked senior's good name?" Chen Xiang asked.

"My name is Wu Canghong, little brother, what about yours?" Wu Canghong asked with a laugh.

"Chen Xiang! Senior Wu, where am I? I only came here in order to hide." Chen Xiang replied.

"Oh? Why were you hiding? The Great Battle of the Three Realm has yet not started, right!?" Wu Canghong doubtfully asked, "I very much want to know, why you came here?"

Chen Xiang possessed the Tai Chi Subduing Dragon Exercise was already known to many, he had nothing to be afraid of in telling it to Wu Canghong.

After listening, Wu Canghong was furious as well as surprised.

"We have never imagined that, after us, the Mortal Martial World would actually become like this, so inharmonious! It's good that the leader of Extreme Martial Sect was able to unite the various continents at the most crucial moment, otherwise, the Chenwu Mainland would have been finished." Wu Canghong furiously said.

"Chen Xiang, in fact, you don't need to be afraid. Your teacher is actually very strong, he absolutely would not have let you get hurt. The only reason that he doesn't dare to use too much of his power is because he is afraid that he will be sucked into the Heavenly Realm. At present, he is still safe inside the Mysterious Realm!"

Wu Canghong continued, "Since you were able to arrive here, and got my approval as well, I will give you two things! One is a magical equipment called Tian Luo Door[1], and the other is a map."

Chen Xiang was secretly elated. Although he didn't know what was good about these two things, he knew that these things were definitely not ordinary.

[Chapter 0378 - kings' mainland](#)

Suddenly, a white beam of light appeared in the center of the stone room. When Chen Xiang arrived beside it, he found two things suspended inside the white beam.

One was a black disc that was as big as a palm, the other was a map.

As Chen Xiang took them in his hands, he noticed there were a lot of text on the black disc. The disc appeared to consist of many rings that were placed one after another to form a whole circle, and these rings could be rotated!

"This Luo Tian Door is a very powerful magical equipment that would not only allow you to shuttle to another mainland, as long as you have enough strength, you could even shuttle to another world, and even enter the Heavenly Realm! However, that is under the premise that you have enough strength. As I see it, your current strength is just about enough for you to run around the mortal world. If you want to travel to another world, you would have to step into Nirvana Realm first."

Wu Canghong's words astounded Chen Xiang so much that his eyes were almost about to come out. Even in his wildest dreams, he could never imagine that such an inconspicuous thing was actually so formidable that it could allow someone to cross the world, and even shuttle to other mainlands easily.

"First, you need to pour a drop of blood on it so that the magical equipment recognizes you as its master. Afterward, you can turn the various rings on the Luo Tian Disc! The direction, space distance, elevation, and other parameters are marked above it. After you have determined the parameters to the location where you want to shuttle and utilize the Luo Tian Door, the disc will then open a portal. As long as you enter it, you will reach your destination!"

Chen Xiang immediately gulped a mouthful of saliva. This magical equipment was truly heaven-defying. It was an extremely powerful space magical equipment, one that was very useful to him. This made him incessantly wild with joy. Not only could he easily leave the mainland, he would eventually be able to leave this world.

"The data of many places are already stored inside the Luo Tian Door. They are all major mainlands in the mortal world. After your blood has merged with it, you can sense them! Don't worry, I have set the door to shuttle to a very safe place. After you arrive there, you will definitely be safe." Wu Canghong said with a smile.

Quickly, Chen Xiang expressed his gratitude, "Senior Wu, thank you for giving me such a powerful magical equipment. With this equipment, many of my future troubles will be greatly reduced."

Wu Canghong smiled and said, "You don't have to thank me. In the Heavenly Realm, this thing isn't that useful. But in the mortal world, it is quite formidable, so I thought to look for a suitable person to pass this thing on! The other item in the light is a map that leads to a mysterious realm."

A map of a mysterious realm! Chen Xiang was pleased in his heart. Generally, a lot of good stuff could be found inside a mysterious realm. If he could go there, he would definitely make a big score.

“On the back of the map is a diagram of the formation that opens the mysterious realm. You need some people to arrange the formation and release its strength. This will allow you to open a small entrance to the mysterious realm, which should be enough to let a human to go in and out. On the front is the route map! The things stored inside the mysterious realm are extraordinary, all of them are rare martial arts books left behind by us 100,000 years ago, and some of them even have our cultivation experience recorded! However, they are all useless to you. After all, you have the all powerful Tai Chi Subduing Dragon Exercise. This divine exercise covers and contains everything.”

Chen Xiang nodded and said, “Yes, but I still want to learn other powerful martial techniques as well.”

The martial techniques inside the Divine Exercise of Four Symbols could not be used too much. Although their application slowly increased along with his strength, he still felt like it was not enough.

“I just have a single suggestion. Give this map to those guys above who are still holding the assembly, let them find the mysterious realm. Some of the martial techniques inside are also the inheritance passed down by their sects’ ancestors. At that time, they could take their own sect’s martial techniques. That would be the best! This way, their trip would not be in vain, and you can also put forth a condition to them, that they can’t catch you.” Wu Canghong said.

Chen Xiang’s eyes lit up, that was indeed a good solution. At that time, the Extreme Martial Sect can also get many martial techniques. Then, he could ask Gu Dongchen for techniques, and he was sure that he would be able to get them.

“Entering the mysterious realm is still a little dangerous. If you let these guys go, you just have to wait and you will still get your Extreme Martial Sect’s martial techniques.”

Chen Xiang looked at the map, asked, “Senior Wu, in the past, how many sects were there?”

“I don’t know about the other mainlands, but the Chenwu Mainland had eight major righteous sects. If I had to guess, some of the sects might have disappeared in the midway, or emerged in another way! For example, a sect disbanded for quite some time and then reappeared with another name to continue their martial arts inheritance. Of course, if they had conflicts with other sects and were destroyed, then consider them finished.”

According to Chen Xiang’s knowledge, several of the sects on Chenwu Mainland were established after the Great Battle of Three Realms such as the Danxiang Taoyuan, Icewind Valley, True Martial Sect. These sects didn’t have a long history like the Extreme Martial Sect.

The mysterious realm was located on the Kings’ Mainland. Chen Xiang felt that the Kings’ Mainland would definitely be marvelous, just from its name, it was clear that it was incredibly formidable. “Senior Wu, in which sea domain is the Kings’ Mainland located in the mortal world?” Chen Xiang asked while looking at the map.

“Forget which sea domain, the Kings’ Mainland is an independent existence! The citizens of the Kings’ Mainland rarely have contact with the outside world, they didn’t appear even during the last Heroes Assembly! Presumably, they didn’t appear this time too, so there isn’t any table for them.” Wu Canghong sighed and said.

“So to say, they didn’t participate in the Great Battle of Three Realms?”

“They have, they sent many powerful people, like... like me, I am from the Kings’ Mainland.” Wu Canghong smiled and said.

Chen Xiang asked in a surprise, “Are the people of Kings’ Mainland strong?”

“But of course, it was the only mainland which hasn’t suffer any damage during the Great Battle of Three Realms. In regards to the martial arts inheritance, no one can compare with the Kings’ Mainland.”

“If you have decided, I will then send you above, allowing you to make a deal with them! If they don’t want to, you can think of some way to escape! Oh, that’s right! You can’t reveal anyone about what happened here. If they ask, you can just say it was from a senior of the Kings’ Mainland.” Wu Canghong said.

Chen Xiang nodded his head, “I have decided. Senior Wu, will your spirit thought still remain here in the future?”

“No, I am already a person of Heavenly Realm. I should not manipulate the matters of the Mortal World. After you leave, this wisp of my spirit thought will also dissipate.” Wu Canghong said.

Chen Xiang was a little disappointed. He had thought of coming here once in awhile to discuss Shinto with Wu Canghong. But he knew there would be opportunities in the future, after all, they could still meet in the Heavenly Realm.

“Although I will not be here, you can still come here to cultivate anytime. I think this place should be the safest place in the Chenwu Mainland.” Wu Canghong said with a smile, “I’m going to send you above now, I reckon those guys will definitely jump from fright.”

Above the stone room, Gu Dongchen was enthusiastically speaking when suddenly he saw Chen Xiang rise up from the center of the room. Gu Dongchen let loose a shriek of surprise, his face paled as if he had just seen a ghost.

The stone tables were arranged on the square field in a way that they would form a circle. At this moment, everyone was looking at Chen Xiang who stood in the center. Their appearances were not much different than Gu Dongchen!

CHAPTER 379: INHERITANCE

Chen Xiang had fled, and yet he was here. Was he not just seeking death? After all, he had angered a crowd of powerful experts. What made everyone puzzled was that Chen Xiang was back, but he was not stupid, so definitely there must be a reason.

Thereupon, Lan Hai and others quickly came over and surrounded Chen Xiang. They all furiously stared at Chen Xiang, they all had been ruthlessly ridiculed by Huang Jintian, especially Lan Hai, he had been even treated a stupid big pig.

Chen Xiang looked all calm and composed, dismissively said, “Seniors, I just went to ease myself, that’s all, there is no need to make a fuss.”

Went to ease himself? Just because he went to the bathroom, all the experts of various mainlands were anxious like ants on a hot wok, and most of them had almost suffered internal injuries from anger.

However, everyone didn't believe his nonsense. Chen Xiang had escaped, and now he was back, just because there was some reason.

And obviously, Chen Xiang suddenly disappeared and appeared, such a trick was ingenious, which made everyone marvel again and again in their heart.

"Why are you like this! If I wanted to escape, I definitely can, hadn't my teacher still not acted!" Chen Xiang said with a smile.

His indifferent appearance was making hundreds of Nirvana Realm martial artists furious, but his calmness also showed his courage.

Certainly, if someone had a teacher like Huang Jintian, who would not be fearless?

"Alright, to tell you the truth, I had originally escaped, but when I thought of getting hunt down by you day and night, I didn't feel very well! First of all, the Tai Chi Subduing Dragon Exercise was given to me by my teacher, as soon as I thought about this, I realized I don't have any obligation to teach you! And you relied on your strength, forced the Extreme Martial Sect to hand me over to you, and forced me to give you the Tai Chi Subduing Dragon Exercise, you don't have a little bit of morality and justice." Chen Xiang looked at everyone with contempt.

"So do you think, that you will come back and speak these words, we will let you go?" Lan Hai coldly said.

"Hey, the Tai Chi Subduing Dragon Exercise is mine, I'm not going to hand it over to you, what can you do? In order to seize my martial exercise, took hundreds of Nirvana Realm martial artists like you are going to collectively force me? I know, at present, I don't have any strength, I am a soft persimmon, you can crush me whenever you so wish! If I was as powerful as my teacher, I would not have just wounded you, I would have killed all of you. You hypocritical lots are violating laws of martial arts way, you are definitely going to die under the Nirvana Tribulation!"

At this time, Chen Xiang was a little angry.

"You..." Lan Hai was extremely furious, the same was true for the others. But under Gu Dongchen's gaze, they endured and didn't take any action.

"Frankly speaking, since you came today to grab my martial exercise, no wonder you who are from the same era as my teacher are unable to ascend to Heavenly Realm. In this regard, my teacher is a mile ahead of you. In the first place, my teacher had the absolute strength to kill you, but he didn't and let you keep your life! At that time, with my teacher's strength, if he so wished, he could have dominated the entire mortal world, yet he didn't and even choose to imprison himself in that damn place. That was because he had seen through everything, although he was insane, he is a hundred times, no a thousand times better than you!"

"Now, you, not only didn't thank my teacher, you hate him as an old man. Don't forget, at that time, it was you who wanted to rob him of his martial exercise at first, it was you who was wrong. Only because you lots gather together, courageously, believing you were right, have you acted like that. At that time, if my teacher had killed you, it would have been as just as the heaven and the earth."

Chen Xiang swept a glance over those Nirvana Realm martial artists, looking at them without any ounce of emotion; in his heart, he was secretly proud.

Lan Hai was rendered speechless. They were indeed wrong. Now, if they did the same as before, they would be following the wrong path again. They were now reflecting on what they did to determine whether or not they were truly wrong!

“Forget it, in any case, it was all because of my teacher that you didn’t come to help Chenwu Mainland. So my teacher had no choice but to discuss with Gu Dongchen, and sell me over to you. Then, my teacher will save me, and finally, let me live a life of a fugitive.” Chen Xiang sighed and said.

“Alright, in the future, we are not going to ask you to hand over the Tai Chi Subduing Dragon Exercise again, we are also not going to hunt you down! From now on, I don’t have any grievances with you master and apprentice.” Lan Hai took a long deep breath, and loudly said.

Other Nirvana Realm martial artists also voiced the same opinion. They knew that this would continue forever—an eye for an eye, a tooth for a tooth. And now that they have angered Chen Xiang, in the future, when Chen Xiang would become stronger, he would not be soft-hearted like Huang Jintian. From their understanding of Chen Xiang’s way of conduct, he was certainly not a good fruit to eat.

Chen Xiang smiled and said, “I will also not make everyone’s trip a wasted one. This is a map given to me by a senior. According to him, it leads to a place where the old men from 100,000 years ago had left their inheritances. They were afraid that the mortal world will fall, so they had stored their inheritances inside a mysterious realm.”

While speaking, Chen Xiang took out the map and having handed it over to Lan Hai, continued, “On the back of it is a secret array, you need to gather people to lay out the array to release its power, that way you will be able to open the entrance to the mysterious realm, as for the inside? According to senior, it is a bit dangerous, so he persuaded me to not go as I am not powerful enough.”

Lan Hai took over the map and carefully looked. From the material of the map, he was sure that it was really 100,000 years old, and the array diagram was also very rare and ancient. If the mysterious realm truly contained the inheritance from 100,000 years ago, then they can also have a prosperous and flourishing martial arts era like back in the day.

“Where did you meet that senior?” Lan Hai asked. Someone from 100,000 years ago who was still living was definitely marvelous.

“That senior is gone, after he handed me over the stuff, he ascended to the Heavenly Realm.” While speaking, Chen Xiang then described the scene when Bai Ziqian ascended to the Heavenly Realm, how an entrance was opened in the space, which actually made these experts truly believe that it was all true.

“I was originally planning to give it you today, but who knew that such things would happen! Although you can not acquire my Tai Chi Subduing Dragon Exercise, the things who will get can not be considered bad. Inside, maybe there are things left for you by your founding ancestors. And also it will all be your own things, you can cultivate with a peace of mind. Now, you don’t need to be concerned about Tai Chi Subduing Dragon Exercise.” Chen Xiang said with a smile.

Their own thing was the best. Everyone burst into praises! Chen Xiang had acquired this map, and rather than swallowing it alone, he had instead shared it with everyone. And when they thought of how they all wanted to find ways to make Chen Xiang hand over the Tai Chi Subduing Dragon Exercise, they felt ashamed!

They were all many, many times stronger than Chen Xiang, yet in this regard, they felt they were inferior to Chen Xiang. Now, when looking at Chen Xiang, the hatred in their eyes had already vanished, and what replaced was respect!

Chen Xiang in his heart was secretly taking pleasure. From the very beginning, this belonged to them, he was just handing it over, that's all. These experts, who originally could not wait to tear him into pieces, were now feeling incessantly grateful to him instead. Nothing was better than learning the martial exercises and techniques left behind by their founding fathers, this kind of inheritance made them even more excited!

"This is actually located in the Kings' Mainland. For a long time, I have been looking for it, but I couldn't find it." Lan Hai said. He passed the map over to Gu Dongchen.

Gu Dongchen smiled: "No need to worry, my Extreme Martial Sect's Elder Wu is from the Kings' Mainland. He knows how to go there, moreover, I will also take a trip to the Kings' Mainland. To be honest, that place is the Holy Land of Martial Arts!"

Chen Xiang looked at the bald old man. Wu Canghong's surname was "Wu", are they related?

"In that case, after making some preparations, we will go to the Kings' Mainland to retrieve these things. The Great Battle of Three Realms is about to start, we are far too lacking compared to the people from 100,000 years ago." Lan Hai looking at the sky lightly sighed.

CHAPTER 380 – LUO TIAN DOOR

Currently, they still could not leave for the Kings' Mainland because a rift had appeared in the One Hundred Thousand Devil Mountains. They needed to close that rift, and only then could they leave.

"100,000 years ago, our Sacred Light Temple also must have left some inheritance, we also need to go to the Kings' Mainland." A golden light shot over from far away as a group of people dressed in golden robe flew over.

The Sacred Light Temple's members had still not left, they had been paying attention to everything happening here from far away. They saw everything clearly—from Chen Xiang suddenly fleeing to his sudden appearance. However, they had never imagined that Chen Xiang would actually be such an idiot that he would hand over the map.

Chen Xiang was not stupid. He knew he needed a lot of time for him to step into the Nirvana Realm. If he became enemies with these tycoons of other mainlands now, it would not be the slightest bit beneficial for him. It was impossible for Huang Jintian to forever remain inside the Extreme Martial Sect and protect him. Liu Menger, Gu Dongchen, these tycoons would also someday leave the mortal world. He did all this in order to have a way out.

He was not lacking martial exercises. Now that he had handed over the map to these tycoons, he was able to forge a good relation with them. If in the future, he became a high-level alchemist, these

powerful tycoons would often be in touch with him. As long as he had good relations, even though he would not be the strongest in the mortal world, he would still be welcomed everywhere.

Lan Hai looked at Chen Xiang, but saw Chen Xiang speak with a smile, "Now, the map is not mine, I cannot take any responsibility. However, if inside the mysterious realm, there isn't any inheritance left for the Sacred Light Temple, I think that there is no need to give it to someone who would go against their words and obligation."

The Sacred Light Temple, enslaved numerous mortals in order to amass many resources, bringing harm to many people and even leading them to death. The Sacred Light Temple's way of conduct was completely hated by other sea domains.

"Qin Zejun, I ask you to restrain yourself a little, if you do something too much again, I think it will become necessary to teach you how to follow the law of martial arts way before the start of Great Battle of Three Realms." Gu Dongchen coldly said.

"Humph!" Qin Zejun had realized that because Chen Xiang had handed over the map, the conflict between the other three sea domains and the Extreme Martial Sect seemed to have been resolved. If the Extreme Martial Sect joined hands with the experts of other three sea domain to deal with their many mainlands of eastern seas, he would have no choice but surrender a portion.

The Sacred Light Temple had still not conquered the entire eastern seas and yet he was about to be nipped out. Had it not for the critical moment, he, Qin Zejun would definitely have not let it go just like that.

"You don't have to teach me, I also have the qualifications to go the place marked on the map!" Qin Zejun said.

"That's a given, but after entering, you can only take your own things, if you tried to fight for others' inheritance, then don't blame me for being impolite." Lan Hai said.

After the Sacred Light Temple's people came, they continued to discuss how to deal with the rift together. Chen Xiang absently listened to them. In the final run, he only knew that these experts, in order to quickly leave for the Kings' Mainland and acquire the martial arts rare books, had decided to jointly lay down a seal to block the rift, then join forces to extinguish all those small Evil Demons that had arrived here.

After the meeting, Gu Dongchen, with the crowd of experts, left for the Extreme Martial Sect and held a banquet. But Chen Xiang didn't have spare time to participate. He chatted for a while with Xue Xianxian and Leng Youlan before returning to the Extreme Dan King Courtyard.

Although many things had occurred during the Heroes Assembly, in the end, it all ended very peacefully. Furthermore, everyone had come to an agreement that they would fight alongside the Extreme Martial Sect against the invading demons and devils.

In the Extreme Dan King Courtyard, Chen Xiang hid in the private room and took out the Luo Tian Door. Although it was a disc, it could open a space entrance, that's why it was named as Luo Tian Door.

After putting a drop of his blood and getting recognized as its master, when Chen Xiang poured his divine sense into the disc, he was immediately able to read a lot of detailed contents stored inside.

Moreover, he also saw a map which was very big and had various mainlands of the mortal world marked on it, on each mainland, there were several safe footholds that were available for Chen Xiang to choose.

Chen Xiang found a fair share of markers on the Chenwu Mainland, the closest was in a forest near the Heroes Mountain. As long as he went there, he could open a gateway to various continents in accordance with the recorded data in Luo Tian Door.

The Luo Tian Door was so formidable and yet even Su Meiyao and Bai Youyou had never heard of it. Chen Xian had to use it very prudently, if he did not want to let others know about it. And naturally, he would not go and tell everyone that he had such a thing.

At night, the Extreme Martial Sect was hustling and bustling; it was very lively. At the banquet, everyone was drinking to their heart's content as the sounds of their merry laughter resounded in the Extreme Martial Sect. And as far as the powerful experts were concerned, they were truly in a good mood. Although they didn't acquire the Tai Chi Subduing Dragon Exercise, they got the map which marked the location of ancient inheritances!

Yet Chen Xiang was nowhere to be found amongst this hustle and bustle. Chen Xiang had told his friends that he was a little tired and he was going back to take a rest.

After Chen Xiang returned to Extreme Dan King Courtyard and got recognized as the master of Luo Tian Door, he disguised himself before quietly leaving the Extreme Martial Sect. Even if he didn't use the 72 Transformations, his concealing technique was superb.

Chen Xiang could not hold his curiosity; he wanted to try the formidability of Luo Tian Door. Whenever he thought of shuttling through various continents in the mortal world via the help of Luo Tian Door, he would grow incessantly excited.

Far away in a forest outside the city where it was very dark, Chen Xiang sat under a tree and took out the Luo Tian Door.

"How far do you think the seaside is from here? I want to see the sea!" asked Chen Xiang. He found that even after so many years, he had never seen how the sea looked like.

"In that case, you consider the vicinity of Lotus Island. Wait a minute, let me help you find a good place to disembark," said Long Xueyi. She too wanted to see how formidable the Luo Tian Door was.

Chen Xiang asked with a surprise, "Smelly Dragon, how are you even going to find it? Or are you planning to go there and check yourself?"

"Of course not! There is a high-level technique called the 'Wandering in the Ninth Heaven' in Shinto which could allow my divine sense to leave far away from my body, moreover, its speed is as fast as the speed of light. Even for me, it is very difficult to use because it consumes my divine sense very fast." Long Xueyi said.

"When will I be able to use that?" Chen Xiang incessantly thirsted for this technique.

"When your Divine Soul is at the very least on the 10th level of the Adolescence Stage. Now, you are just only at the 1st level, you still have a long way to go!" Long Xueyi replied.

The Divine Soul grew very slowly which tormented Chen Xiang a bit. Now, as long as he could refine many Elemental Spirit Dan, he could start cultivating Divine Soul.

“Found it, it’s a hilltop inside a forest, it should be completely safe. Just set the disk on the grounds. As for the coordinates, I have already told you,” said Long Xueyi.

Although Chen Xiang couldn’t use the ‘Wandering in the Ninth Heaven’ currently, it was all good as Long Xueyi could. Now, this would allow him to conveniently use the Luo Tian Door!

“Hahaha, this father is invincible!” Turning the rings on the disks, Chen Xiang set the coordinates in the Luo Tian Door. At this moment, his hands were actually shaking; apparently, he was very excited.

“Alright!” Chen Xiang shouted in excitement. As he fervently poured his True Qi into the disc, a door wrapped in white brilliance slowly appeared before his eyes.

“Is this the Luo Tian Door?” Chen Xiang observed the door with a glittering white frame that had appeared before him. At this point, he had also stopped supplying his True Qi to the disk.
