

Dan God 3781

[Chapter 3781](#)

Chen Xiang flaunted Chen Xiang a little, feeling a little proud in his heart.

"Master, don't mind me. I have no interest in her ..." Master, great beauty, you are much better than her. Chen Xiang laughed.

"You damned brat, do you believe that I'll come out and teach you a lesson right now?" Although it had been many years since Chen Xiang kissed her on the lips secretly last time, she still remembered clearly that time when Chen Xiang had tasted the sweetness and asked.

"In bed?" Chen Xiang chuckled.

"I'm ignoring you!" Xiao Xianglin pouted.

Chen Xiang lied on his bed. There were still ten days before the competition.

"I need to earn some Tao-creation Holy Crystals!" Chen Xiang felt that in the future, he would need a lot of Shenyuan crystal ginseng s. If he wanted to replicate a lot, he would need to use up a lot of Tao-creation Holy Crystals.

He walked out of the room and knocked on Long Yue's door.

"F * ck, this woman barged in when she came to find me. I could only knock on the door when I came to look for her." Chen Xiang thought.

After Long Yue opened the door, he asked: "What do you want?"

"Aren't you going to invite me in?" Chen Xiang said.

"Come in!" Long Yue let Chen Xiang in and quickly closed the door.

After Chen Xiang sat down, he casually picked up the cup of tea on the table and started drinking.

"I told the Smoke Charming that you are my man, but I only wanted to anger her, don't take it seriously." Long Yue said.

"That's good, I'm worried that you've taken it seriously! However, this is not your fault. Who asked me to be a handsome, elegant, and elegant young Pill God? It's normal for you to be interested in me. " Chen Xiang said while smiling shamelessly.

Long Yue rolled her eyes at him, but she admitted in her heart that Chen Xiang was indeed very outstanding. Otherwise, she would not pretend that Chen Xiang was her man, and use it to show off in front of Smoke Charming.

"What do you want?" Long Yue asked: "Could it be that you came here to drink some tea?"

"No, I just want to ask, how many Tao-creation's Holy Crystals do you have?" Chen Xiang said: "You are the Beast-creation Race Emperor, you must be very rich."

"I did have a lot of Tao-creation Divine Crystals back in my day, but I've already spent about seventy to eighty percent of them. Even now, I only have a little more than a hundred million!" Long Yue said: "If you need to, once the blood rain from the Sky Disaster stops, I will bring you out to dig. I have already dug a lot here in the past."

"There are a lot of Tao-creation's Divine Crystals in the Infernal Realm?" Chen Xiang said in shock.

"It's not any less than the Most Ancient Era. As long as we dare to look, we'll definitely dig out a lot." Long Yue said: "The Tao-creation's Sacred Crystals in the Infernal Realm are usually hidden very deeply. Furthermore, the places they are at are mostly dangerous places and there will be many natural barriers."

"It's very risky, and very slow." Chen Xiang shook his head.

"Didn't you sell Ziyuan Dan and Ziyuan spiritual fruit before? That's not little, you're still lacking!" Long Yue frowned.

"I need to copy the Shenyuan crystal ginseng." Chen Xiang said: "One copy requires fifty million Tao-creation Holy Crystals. If it is used to refine pills, I do not know how much it will cost."

"Does refining pills also cost the Tao-creation's Divine Crystals?" Long Yue suddenly became curious and asked: "I have never heard of such a method!"

"This is my special training method, of course you've never heard of it." Chen Xiang laughed.

"Looks like you really lack Tao-creation's Divine Crystals. I can give you the one hundred million Tao-creation's Divine Crystals I have, but you have to promise me, you definitely can't leak anything out in front of Smoke Charming." Long Yue took out a Storage bag and handed it over to Chen Xiang.

Chen Xiang hurriedly nodded his head in agreement. After he received the Storage bag from Long Yue, he felt that the one hundred million Tao-creation Sacred Crystals was simply too easy to earn.

"Don't worry, I promise I will defeat her and then mock her for once more." Chen Xiang felt that after taking Long Yue's one hundred million Tao-creation Divine Crystals, he had to do something better to completely satisfy her vanity in front of Smoke Charming.

"What a rich guy." Long Yue said in disdain.

Chen Xiang pretended not to hear and counted the Tao-creation Divine Crystals before putting them away.

"Xiao Yue, how much do you know about Smoke Charming's pill techniques?" Chen Xiang asked.

"Don't call me that!" Long Yue immediately shouted.

"We'll pretend to be husband and wife!" Chen Xiang said: "This way of addressing you is more realistic, you have to get used to it, otherwise Smoke Charming will see through it."

Long Yue thought that this made sense, so he endured it.

"For Smoke Charming to be able to become a Dan Devil and even gain a foothold in the Dan Devil City, with a Smoke Charming Tower, it goes to show that her level is very high." Long Yue replied: "When I

knew her, she didn't have the Smoke Charming Tower, but at that time, she already had excellent pill refining skills."

"She must have stayed in the Infernal Realm to avoid death, right?" Chen Xiang said.

"Yes, she's from the Initial God-creation Realm. I don't know the specifics." Long Yue said, "Anyway, at that time, when she found out about my Beast-creation Race Emperor, she also knew a little about his affairs."

"I can see that you and she are not really mortal enemies! "He's just fighting for a bit." Chen Xiang laughed.

"Hmph, in short, I am incompatible with her." Long Yue said: "How about I bring you to find her right now, and lower her spirit first."

"Sure, let's go!" Chen Xiang also wanted to see the situation between Long Yue and Dan Devil.

Long Yue put on his mask, walked out of Yellow Sky Tower with Chen Xiang, and quickly headed to the Smoke Charming's Tower in the southern region of the Dan Devil City.

Entering the first floor of the Smoke Charming Restaurant, Chen Xiang saw a shopkeeper leaving in a hurry, he should be going to notify him.

"Mr. Beautiful Beauty wants you to go upstairs." the shopkeeper said as he ran back after a while. Then he brought Long Yue and up the stairs of the Smoke Charming Building.

They were brought to a very spacious and luxurious hall. Smoke Charming sat at the head of the hall, using his orchid fingers to pinch the lid of a teacup, coquettishly drinking tea, looking very flirtatious.

At this time, the Smoke Charming was not covered by a white veil. When Chen Xiang saw her complexion, he realized that she looked somewhat similar to Long Yue. However, Long Yue's phoenix eyes were filled with coldness, haughtiness and killing intent, while Smoke Charming's were gentle, flirtatious and flirtatious.

"Why are you wearing a mask? "Don't you dare let your man compare us properly, do you?" The Smoke Charming laughed coquettishly.

Long Yue quickly kept his mask.

"Your name is Chen Xiang, right? You touched your own conscience and said, which one is prettier between Long Yue and me? " Smoke Charming laughed lightly, he then floated to Chen Xiang's front, and a burst of intoxicating fragrance assaulted his senses.

"Of course Xiao Yue is more beautiful!" Chen Xiang laughed naturally. Although Smoke Charming was emitting a seductive power, he was not moved.

The Smoke Charming was not angry, she was just acting coquettishly, and scolded softly: "You bad thing, you must have said that because you were afraid of your wife! I promise you, as long as you nod your head, I will immediately be your woman.

Her sweet and charming voice made Chen Xiang's bones go soft.

"Really?" Chen Xiang secretly cursed in his heart, he had not seen such a soul stealing spirit demon for a long time.

[Chapter 3782](#)

Originally, Long Yue wanted to bring Chen Xiang to play with the's spirit, but she never thought that the Smoke Charming would actually be so unrestrained, and directly seduce Chen Xiang in front of her.

"Of course it's true!" Smoke Charming's perky red phoenix eyes were filled with a deep sense of bewitchment. After she took off her robes, her beautiful jade-like shoulders were revealed.

When Chen Xiang saw that Long Yue's face was extremely ugly, he could only secretly feel regret in his heart. Otherwise, he really would have executed the Smoke Charming on the spot.

"I can only accept such a good thing." Chen Xiang smiled slightly: "I only accompanied her because I heard that you were bullying Xiao Yue!"

"Why are you bullying Xiao Yue? "She's such a nice girl, kind and pure. Do you have the heart to bully her?"

Long Yue blushed a little when he heard Chen Xiang's words. But Chen Xiang was able to say it without batting an eyelid.

Chen Xiang only felt that since he had accepted Long Yue's one hundred million Tao-creation Holy Crystals, there was nothing he could do about it.

Smoke Charming was startled, she never thought that Long Yue would be like that.

"Is Long Yue really such a woman?" Smoke Charming's eyes were full of disbelief, revealing a disdainful smile.

"No matter what, I feel that she is much better than you! Now I finally understand why you like to bully her. You think that Xiao Yue is better than you because you are jealous of her! " Chen Xiang said again, his face still unblushing.

Long Yue originally thought that Chen Xiang would use his pill techniques to suppress the Smoke Charming, he never thought that he would actually say these words without feeling embarrassed ... But she liked it.

"You ..." The Smoke Charming was also speechless, she looked at Long Yue who had revealed a trace of bashfulness, and was even more surprised. She had known Long Yue for a long time, she knew very well what personality Long Yue had, to be able to have such a passionate and young girl's shyness.

"I will defeat you in the competition ten days later! I want to prove that Xiao Yue's man is the best and the best. " Chen Xiang held onto Long Yue's jade hand, and said with a serious face: "At that time, if you bully her again, I won't be polite to you anymore."

Smoke Charming felt as if she was dreaming.

"Hmph, don't be complacent!" You must know clearly who set the rules, Burning Sun Dan Devil won't let you succeed that easily. " Smoke Charming said in a cold voice.

"Regardless of the rules, it won't be difficult for me!" Chen Xiang said very casually: "Since everyone is someone with a head and face, then I believe that you all would not do something like this. I believe that you all will definitely be fair, or else no one will agree with you."

"That's true, but it will definitely be detrimental to you!" I can tell that you are a newcomer to hell, but the pills in hell are different from the ones in us. " The Smoke Charming was no longer as flirtatious as she was before. If she put on an unhappy expression, it could be seen that there was jealousy in her eyes, and also a little jealousy.

"A truly powerful Pill God can overcome all difficulties." Chen Xiang smiled confidently: "You'll know when the time comes!"

Smoke Charming looked at Long Yue, bit her lips, and snorted: "Is this really your man? He's too arrogant, this is not a good thing! "

"That's confidence, not arrogance! "You're the one who is arrogant!" Long Yue said coldly.

"Alright, let's wait and see!" Smoke Charming put on his robe, turned around and returned to his seat: "Did all of you come here to say this?"

"Mm, you should remember what I said just now, right?" "You are not allowed to bully Xiao Yue anymore!" Chen Xiang said in a serious tone.

"When did I bully her!?" She's so powerful, I can't bully her. " Smoke Charming rolled his eyes at Long Yue.

"You stole more than a billion of my Tao-creation's divine crystals! Back then, because you are a Alchemist with many helpers, I could only acknowledge it. " Long Yue said: "And that Hell star, it was also snatched away by you!"

Over a billion Tao-creation Divine Crystals, this was not a small number!

"There is such a thing, return it as soon as possible!" Chen Xiang felt that if he could recover this one billion Tao-creation Holy Crystal, he would definitely be able to obtain a portion of it.

"I'll accept the one billion Tao-creation Holy Crystals, but the Hell star must return them to me." Long Yue said.

Since Long Yue values Hell star so much, it must be very important.

"Return them all!" Chen Xiang said again.

"Hell star are indeed very important to you ... Why don't we make a deal and give your man to me so I can give you the Hell star and the one billion Tao-creation Holy Crystals? " Smoke Charming's eyes flashed as she laughed: "I would like to see whether the Hell star is more important or your man is!"

Chen Xiang scolded the Smoke Charming in his heart, and to actually use such a despicable tactic. Right now, he had no confidence in Long Yue, if he really agreed to it, it would be equivalent to selling him off.

"Wishful thinking!" Long Yue said angrily: "I will definitely take back the Hell star!"

Chen Xiang and Smoke Charming were at odds with each other because of the Hell star. Chen Xiang finally understood, but he did not know what use the Hell star had. It seemed to be very precious to Long Yue and Smoke Charming.

"As long as you give Chen Xiang to me, I will give you the Hell star. I will never go back on my promise." Smoke Charming said, she had been suspecting the relationship between Chen Xiang and him.

Because according to her understanding of Long Yue, it was impossible for Long Yue to be so easily conquered by a man.

Chen Xiang was very unhappy. What did the Smoke Charming see him as? She actually thought that he could exchange with her as he pleased.

"Let's go!" Long Yue pulled Chen Xiang and left the Smoke Charming building.

"Xiao Yue, what exactly is that Hell star?" Chen Xiang asked anxiously.

"We'll talk about it when we get back!" Long Yue pulled Chen Xiang and hurried back to the inside of the Huang Tian Tower, into the room, then closed the door and set up the enchantment.

Then, Long Yue took out a five-pointed star shaped jade plate that was the size of his palm.

"This is the Hell star!" Long Yue passed it over to Chen Xiang, and asked: "Take a look at it and see what's so strange about it."

After Chen Xiang received it, he looked it over carefully. When he used his mind to inspect it, he did not find anything odd.

Seeing Chen Xiang's frown, Long Yue said: "Inject the Divine Origin Qi!"

Chen Xiang released his Immortal Origin Qi and poured it in, causing the Hell star to light up.

"Is that it?" Chen Xiang only saw the Hell star emit white light.

"Fill it with even more Divine Energy." Long Yue continued.

After Chen Xiang injected a lot of Immortal Qi into the Hell star, he suddenly discovered that there was a door inside the Hell star. The door was initially blocked by a lot of clouds, but after he poured in the Immortal Qi, he pushed the clouds apart, allowing him to see the door.

"What is this door?" Chen Xiang said in shock.

"I don't know!" Long Yue shook her head: "In short, it is an extremely mysterious door, if Smoke Charming gave me the Hell star in her hands, I could open it."

"Alright, just promise her that you'll give me to her." Chen Xiang laughed.

"No way!" Long Yue's reaction was huge, and he shouted loudly.

[Chapter 3783](#)

If Long Yue really agreed to Dan Devil's request and exchanged places with him, he would definitely be mocked by Smoke Charming. Furthermore, she didn't want to see Chen Xiang together with Dan Devil either.

"You don't need to worry about the Hell star. I will take care of it myself. You just need to win during the competition." Long Yue said: "That competition is extremely important, even if you lose to anyone, it doesn't matter, but you must not lose to Smoke Charming."

"It is important, but I am not doing it because of the Smoke Charming." Chen Xiang laughed: "I will definitely win!"

If he could win four Dan Devil s, he would be able to obtain four types of pill formulas. At that time, all four of them would have to give him the required medicinal ingredients.

He already had the Shenyuan crystal ginseng, so he needed some medicinal ingredients to match it, so he had to win that battle.

"You can't let your guard down. You have seen Burning Sun Dan Devil and Tian Yu Dan Devil, and with one look, you can tell that they aren't anything good." Long Yue said: "Perhaps they will really play dirty tricks in secret, you must be vigilant."

"En!" Chen Xiang earnestly nodded his head, he was the one who decided the rules for this competition.

In the Infernal Realm, the pills refined would definitely be different from those refined in the Most Ancient Era, because the environment of the Infernal Realm was able to produce very special medicinal herbs.

If he were to use these medicinal ingredients to refine pills, since Chen Xiang was not familiar with them, he would definitely be unfamiliar with them.

There were still a few days before the competition. Chen Xiang spent his days in the Yellow Heaven Tower to familiarize himself with the various divine medicines from the Infernal Realm. He had bought quite a few ingredients and placed them in the You Yao Mountain Villa to cultivate.

What made him laugh was that Long Yue went to Smoke Charming Tower every day to look for his sworn enemy. They couldn't fight in hell, so they could only bicker.

Soon, it was time for the competition.

At this time, the entire Dan Devil City was also in a state of panic. They were very worried that the Dan Devil City's barrier could not hold on any longer.

If the Dan Devil City's barrier was corroded by the blood rain from the natural disaster, the entire city would be engulfed.

Facing the blood rain of the natural disaster, even the experts who had cultivated the World Defying Stage Divine Source would find it difficult to resist.

The appearance of this kind of natural disaster would cover the entire Infernal Realm. If one wanted to escape, they would have to leave the Infernal Realm.

"Every time there is a natural disaster, we will arrange for a competition to refine pills. On one hand, it is to reduce the panic, and on the other hand, we are worried that the Dan Devil City will be destroyed. Yellow Heaven Dan Devil stood on top of the roof of the Huang Tian Tower as he looked at the sky filled with blood-red light.

"How long does this natural disaster usually last?" Chen Xiang frowned and said: "Could it be that the rumors were true? If the blood rain from the natural disasters were to continue for too long, the Dan Devil City would have fallen."

"The duration varies from one to two years, to two to three months." The Yellow Heaven Dan Devil sighed, "The rumors are true. If there was too much blood rain and it turned into an ocean, it might drown the Dan Devil City out."

"Let's go to the Dan Devil's Plaza. The competition is about to begin." The Yellow Heaven Dan Devil said. Chen Xiang followed the Yellow Heaven Dan Devil and left Huang Tian Tower, heading towards the Dan Devil's Plaza.

"There should be a lot of people waiting at the Dan Devil Plaza!" Yellow Heaven Dan Devil asked: "Where is your friend?"

"She already went first." Chen Xiang said. Sometimes, he wouldn't come back for the entire night, and would actually stay the night at the Smoke Charming Restaurant.

Chen Xiang really couldn't understand. Although Long Yue and the Dan Devil were sworn enemies, she still kept on running to the Smoke Charming, and even stayed at the Smoke Charming Building.

"It's really hard to understand these women." Chen Xiang thought.

The Dan Devil Plaza was located in the middle of the Dan Devil City, and there was a very large stage at the center.

"During the competition, you are not allowed to enter the Time array, so all the pills need to be completed within a short period of time." The Yellow Heaven Dan Devil said, as he flew Chen Xiang to the Dan Devil Stage.

Burning Sun Dan Devil had arrived a long time ago, but Smoke Charming was the last one to arrive. Chen Xiang had even seen that she came with Long Yue.

Chen Xiang had always felt that the Smoke Charming and Long Yue had become friends. He felt that it was necessary to ask Long Yue about this after the competition.

He had also asked before, but Long Yue had only said that in order to obtain the Hell star, she would do her best to get it back from the Smoke Charming.

"Everyone has been waiting for a long time!" When the Burning Sun Dan Devil arrived, he said with a clear voice.

At this moment, the noisy square also quieted down.

"As promised, our Four Great Dan Devils will compete here. It's just that our victory or defeat will not be because of our Pill Pavilion but due to our medicinal formula. The final winner will be able to obtain the medicinal formula from the other Dan Devil." Burning Sun Dan Devil said loudly: "In addition, this time, there is a special friend participating in our competition."

Dan Devil City had already known about this matter since long ago. That day when Chen Xiang sold his Ziyuan Dan at the foot of Tianyu Restaurant, his name had already spread throughout the entire city.

Dan Devil would compete onstage, and the people below the stage would also bet heavily on it, because they didn't know when the blood rain would stop.

If the Dan Devil City was truly defeated, even if they had more Tao-creation Holy Crystals in their hands, it would be useless, so they might as well gamble.

The Dan Devil Stage was very big, it was a six horned star and there was a ten meter wide disk at each of the six corners.

The disk would activate a barrier, preventing the pill refining process from causing an explosion that would affect others.

"Now that everyone is ready, I will announce the rules!" The Burning Sun Dan Devil said: "The entire competition will be held in two rounds. Those who pass through the first round will be able to continue with the second round."

"Now, I will announce the rules of the first round. I want everyone to use the medicinal ingredients that I provided to refine the Hell Magic Dan. The method to refine the Hell Magic Dan is not difficult, and you do not need the World Defying Dan grain either." Burning Sun Dan Devil waved his hand, and an old man brought up a pile of black gourds.

"This is a Hell's Gourd, it contains an extremely strong explosive power, I can refine a Hell Magic Dan with just one!"

Yellow Heaven Dan Devil frowned: "Your Hell Magic Dan is not for eating, but for bombing. What kind of pill is this?"

"This is also a pill! Hell's Gourd could normally explode, but after it has been refined into a pill, it can unleash an even greater power. " Burning Sun Dan Devil laughed: "Furthermore, this is a test of my skill in pill refining, do not underestimate this kind of pill."

Next, he began distributing the Hell's Gourd.

The Underworld Gourd was half the height of a person, and it was completely black. Moreover, it was very sturdy, and one could feel a slight warmth when touching it.

"It's really heavy, over ten thousand jin!" Chen Xiang said in surprise when he picked it up.

"It needs to be refined within ten days. As long as I can successfully refine a Hell Magic Dan, I can pass the first round." The Burning Sun Dan Devil said.

The reason he set up the first round, was also to test Chen Xiang, and also to see if he could eliminate the other Dan Devils at the same time. This way, the second round of competition wouldn't have too many Dan Devils, so he didn't need to provide too many medicinal ingredients.

[Chapter 3784](#)

Yellow Heaven Dan Devil's face was filled with unhappiness, he snorted and said: "Sunscorch, that's not right. You're already very familiar with refining the Hell Magic Dan, but now you want to compete with it, it's very unfair to us!"

"I have no objections." Tian Yu Dan Devil smiled slightly, then looked towards Smoke Charming.

"I don't care, I've always wanted to refine Hell Magic Dan." Smoke Charming smiled charmingly, then glanced at Chen Xiang.

"Huang Tian, how about this? I only have one chance, you guys have two." Burning Sun Dan Devil laughed: "Look at them, they don't have any objections ... Oh right, little brother Chen Xiang, do you have any objections? "

"So what if I have opinions? Whatever! " Chen Xiang actually wanted to try it out, he felt that it wouldn't be too difficult to refine the bottle gourd into a pill.

This type of pill was not meant for eating, but for battling. If he were to throw it out during a battle, it would be able to unleash an extremely powerful force. Chen Xiang had concocted this kind of pill before, so he was not too worried.

"Oh right, when refining, use the pill furnace that we provided! "If the pill furnace is broken and you are unable to continue concocting, you will be eliminated." Burning Sun Dan Devil had the pill furnace brought up.

"You fellows, in order to make things difficult for me, you came up with everything." Yellow Heaven Dan Devil was very unhappy: "You guys are obviously here to deal with Chen Xiang, in the past, you all used your own pill furnaces."

"Senior, forget it!" Chen Xiang shouted.

"\$. Old Yellow, it's fair that we all use the same pill furnace. " The Burning Sun Dan Devil said.

The spectators also supported the idea of using a uniform pill furnace. Sometimes, a good pill furnace could be very useful and cause injustice.

"Whatever you want!" Huang Tian snorted angrily.

Chen Xiang's Extreme Heaven Pill made the Burning Sun Dan Devil's heart palpitate with excitement. Smoke Charming and Tian Yu Dan Devil were also the same, and the rules before their eyes were all beneficial to them.

Smoke Charming already knew that Chen Xiang was from Most Ancient Era and had just arrived in the Infernal Realm. So he was definitely not that familiar with the herbs from hell, and adding the fact that he was using an unfamiliar pill furnace to refine, it would affect his performance.

The level of the four Dan Devils were all around the same level, and Yellow Heaven Dan Devil was slightly weaker among them. Although he had won two times before, he didn't have much confidence in himself.

The other three Dan Devils were brimming with confidence as they thought that they could win this time.

Chen Xiang was the same!

"If there are no other problems, we can start now!" Then, he looked at Chen Xiang and the others. Seeing that none of them had said anything, he flipped a very large hourglass.

"We have to make good use of ten days." Burning Sun Dan Devil was very happy, he hurried to his seat and started refining the pills.

Chen Xiang frowned, he looked at the pill furnace, he had picked this furnace himself, the other party would definitely not be able to do anything about it.

"What? Isn't this pill furnace good?" Xiao Xianglin asked.

"It's not bad. Rather, it was created with a special sort of material. This should be a material from the Infernal Realm that is filled with evil." Chen Xiang sent a sound transmission to Xiao Xianglin: "This evil energy will affect me, and restrain my flames."

"Looks like this Burning Sun Dan Devil sincerely wants to torment you." Xiao Xianglin said: "You should be able to solve this problem, right?"

"I'll try!"

Chen Xiang had no other choice, he could only start refining.

The pill furnace was quite large and was about the height of a person. There was no spatial formation within, so the amount of things that could be stored inside were limited. However, it was more than enough to put in a Hell's Gourd.

After the Inferno of Hell entered the pill furnace, Chen Xiang started to release flames. This was the first time he was refining a pill that was filled with Evil Qi.

"My dragon has fused with the Killing evil dragon, so the flame it releases should also possess some kind of evil power." Chen Xiang secretly experimented for a while and controlled the Scarlet Dragon to release the black and red flames.

"It can be incinerated!" After Chen Xiang released the dragon fire, he saw the surface of the bottle gourd slowly melt and fall off, like wax that had been melted.

He was secretly delighted in his heart. Then, he slowly increased the intensity of the flames and sped up the incineration process.

"Looks like this is quite easy to refine!" Chen Xiang thought, if he failed this time, he still had one more chance, which made him even more confident that he could pass the first round.

The refining speed was very slow, and Chen Xiang did not dare to use too strong of a flame, as this kind of medicinal ingredient was extremely unfamiliar to him after all.

After He Fengyuan received it, he entered the Time array s.

After Chen Xiang finished refining for more than two hours, He Fengyuan also came out from the Time array.

"Chen Xiang, what method did you use to refine this bottle gourd?" He Fengyuan asked.

"Use fire! The flames I released from killing the Scarlet Dragon, and they even have a trace of Evil Qi, so the progress is pretty good. " Chen Xiang said.

"This isn't good!" He Fengyuan said as he furrowed his eyebrows, "To burn this kind of Hell's Divine Medicine, either you use it with an evil flame or you don't need it, and your dragon fire isn't evil at all."

"Ah?" What should he do? Is it going to be a big deal? " Chen Xiang said in shock.

"I know! Also, you need to be careful. The moment the shell on the surface of the gourd breaks, a strong power will burst out from within! If you start to use fire to refine the outer shell well, then the energy that it releases will be very stable. " He Fengyuan said: "And your fire is also evil, this itself is a very conflicting type of fire, if it continues to burn like this, once the bottle gourd's outer shell breaks, the energy inside will also become extremely unstable."

"Could the energy inside the gourd be affected by the flames from the outside?" Chen Xiang asked.

"Yes, they will be affected. Although the gourd is a Hell's Elixir, it is only the outer shell that is filled with Evil Qi. However, the energy within the shell is extremely pure." He Fengyuan said again.

"When you were burning the outer shell with fire, your fire energy had already seeped inside to affect the pure energy."

Chen Xiang berated himself for being smart, and now that he was in a mess, he anxiously kept the Evil Qi infused flames, and replaced it with the purest fire to burn.

"It's really the opposite of being smart." Chen Xiang sighed in his heart: If I were to use the method I used in the past, this kind of mistake might not occur, I hope it's not too late to correct it now.

Two days had passed, and the others were refining very smoothly. Chen Xiang, on the other hand, was already feeling the pressure, and perspired profusely.

"It seems like this competition is really disadvantageous to me. It is aimed at me everywhere." This caused the bottle gourd to be very unstable. If this were to continue, once the shell was broken, the energy inside the bottle gourd would explode.

The outer shell of the gourd needed an extremely evil flame to be burned and refined in order to proceed smoothly! The Dan Devil here had stayed in hell for so long, after absorbing so much evil energy, their flames had become evil long ago.

But Chen Xiang did not have such an evil flame, which made him face a lot of difficulties.

[Chapter 3785](#)

When the Burning Sun Dan Devil and the Tian Yu Dan Devil saw Chen Xiang's forehead filled with sweat, they looked at each other and laughed, while the Smoke Charming smiled proudly at Long Yue who was watching from below the stage.

Yellow Heaven Dan Devil could only sigh helplessly. He knew from the start that this would be extremely disadvantageous for Chen Xiang.

"Although this competition is disadvantageous to me, it is also a good thing. It is unavoidable that I will encounter such problems in the future when refining pills. This is equivalent to increasing my experience points." Chen Xiang thought.

Suddenly, the pill furnaces of the four Dan Devils trembled. When Chen Xiang saw it, he knew that it was because the outer shell of the bottle gourd had been burnt and refined.

Because the Dan Devils could burn their shells very smoothly, the energy released by the broken shell would be relatively soft and could be easily controlled by them. Even so, the furnace could not help but tremble, showing that the energy released was still very strong.

"My gourd is about to break as well." Chen Xiang was secretly worried, because when he burnt the shell of the bottle gourd, it had an extremely intense reaction.

Chen Xiang raised his guard and used his clone to release the pressure to seal the inside of the pill furnace. If there was really a strong burst of energy, he could resist it or else the pill furnace would explode.

With the four Dan Devils cultivating the World Defying Stage Divine Source, their flames were definitely stronger than Chen Xiang's. Furthermore, they had rich experience in refining the Hell's Divine Medicines, so their progress was much faster than Chen Xiang's.

"Soon!" Chen Xiang could already feel that the energy inside the bottle gourd was attacking the thin shell of the gourd.

Although this layer's outer shell was very thin, it possessed a very strong binding ability. Like a spirit formation, it sealed the energy within it.

Chen Xiang cheered up!

Suddenly, the bottle gourd's outer shell had been broken through by the berserk energy from the inside. Chen Xiang could see that the energy that rushed out was pure black, as though it was ink that came out, bringing with it a very ruthless and evil aura, it roared and exploded!

Everyone could see that Chen Xiang's pill furnace was shaking frantically, black Qi gushed out, and evil aura soared to the sky!

Chen Xiang clenched his teeth. He never thought that the Evil Demon inside this Underworld Gourd would actually be this terrifying. He had already released a strong pressure from his clone, but he was still unable to stop the berserk Evil Demon.

Burning Sun Dan Devil, Tian Yu Dan Devil and Dan Devil couldn't help but laugh, because all of this was within their expectations.

Yellow Heaven Dan Devil just frowned as he looked at Chen Xiang.

"Protect yourself well!" He Fengyuan anxiously transmitted to Chen Xiang.

Chen Xiang took in a deep breath, and then released the strongest pressure, allowing this pressure star to envelop him.

BOOM!

A loud noise shook the air, causing everyone to jump in fright, while the place where Chen Xiang was standing was already shrouded in black Qi.

The Alchemist on the Dan Devil Stage were sitting on a round plate. The round plate's enchantment was extremely powerful, it was able to block the energy that was exploding out, but the Dan Devil Stage only trembled slightly from the huge explosion, it was not affected at all.

Long Yue and Yellow Heaven Dan Devil both looked at Chen Xiang with extreme worry. They couldn't see Chen Xiang because there was no way they could see the dense black aura enveloping him.

The Smoke Charming looked in Chen Xiang's direction as he frowned, revealing a trace of worry.

"Sunscorch, if this kid dies, then I won't be able to get his pill formulas." The Tian Yu Dan Devil said.

"He isn't dead, he still has the aura of life." The Burning Sun Dan Devil laughed, "After all, he has cultivated the Divine Origin Qi. He won't die that easily."

"You guys are really something. Bullying him like that, he's only a little brother!" Smoke Charming scoffed, "If he dies, I will be very unhappy."

When the black qi dissipated, everyone could see Chen Xiang. He was seated on the ground, with the floor covered with black pill furnace fragments.

Chen Xiang was fine, Yellow Heaven Dan Devil and Long Yue were a lot more at ease.

"He lost, his pill furnace is broken!"

"He's still too young. I heard that he just arrived in the Infernal Realm and is still not familiar with the medicinal herbs from the Infernal Realm."

"No wonder."

"He's quite strong. Even after being attacked by such a violent force, he didn't suffer any damage."

Everyone was amazed.

Burning Sun Dan Devil and the rest were surprised to see that Chen Xiang was fine.

"Little brother, you've lost! "You said before that you would beat me." The Smoke Charming laughed charmingly.

"I haven't lost yet. Don't I still have seven days?" Chen Xiang smiled slightly.

"But you don't have a pill furnace!" Smoke Charming chuckled: "I told you before, you can't use any other pill furnaces!"

"I don't need a pill furnace!" Chen Xiang took out the Underworld Gourd.

Not using a pill furnace? Everyone was stunned. Everyone had seen how powerful the Hell's Gourd was. If it wasn't for the pill furnace, one could imagine how powerful it would have been.

Chen Xiang had been able to refine a pellet a long time ago without using a furnace, and that was only because he was forced to do so in a situation where he had no other choice.

This time, he was going to use the Magic method furnace that he hadn't seen in a long time!

Furthermore, the Magic method furnace this time was different from the previous time. The previous Magic method furnace had been formed using his divine will, and this time he would use his divine origin energy with the Pressure mantra to condense a stronger Magic method furnace.

In addition, he also needed to use the characteristics of the Hell's Gourd to refine it!

"Even without a pill furnace, you can still refine one. But that's only for low-grade pills. It's just a small matter. What you're refining now is a Hell's Gourd!" You have already felt just how powerful the energy within the Hell's Gourd is. " Burning Sun Dan Devil sneered: "You should give up!"

"As long as there is a sliver of hope, I will never give up." Chen Xiang's expression was resolute. After taking a deep breath, he closed his eyes and used the Divine Origin Qi along with his two clones to activate the Pressure mantra, releasing a wave of pressure and condensing a transparent Magic method furnace.

The Underworld Gourd was already wrapped in Magic method furnace s.

"The outer shell of the Hell Gourd is an evil force. I must get rid of this evil force while I'm refining pills. This outer shell could have been discarded from the start." Chen Xiang thought.

The Underworld Gourd's most powerful aspect was its miraculous berserk energy. If it was refined, its might would definitely be very strong.

Chen Xiang pondered for more than two hours, then, using Feng Ke'er's mysterious golden needle, he pierced a few small holes on the bottle gourd. When he pierced those small holes, he contracted the Magic method furnace, and used the pressure of the Magic method furnace to block those small holes.

"Immediately form the core inside the gourd, and the exterior of the gourd will form a protective layer." Chen Xiang poured pure flames into the few small holes that he stabbed out, and immediately burned the energy inside the bottle gourd.

Seeing Chen Xiang's method, the four Dan Devil s were moved, because they knew that it was possible that he would succeed, and they all had the urge to try this method.

The flames that Chen Xiang poured in could be seen with the naked eye. With a golden red glow, it continuously poured into the bottle gourd, allowing the bottle gourd to be so stable.

[Chapter 3786](#)

Chen Xiang did not have any pill furnaces, so he could continue to refine pills. This made the four Dan Devil s on the stage surprised.

Even if Burning Sun Dan Devil was certain that Chen Xiang would fail in refining the pill and leave after the furnace blew up, all of this was within his expectations. But he never thought that Chen Xiang would actually not use a pill furnace to refine Hell Magic Dan.

At this moment, Chen Xiang was using the shell of the Underworld Gourd as protection to confine the berserk energy within. He directly burnt the inner energy. This way, he wouldn't need to worry about affecting the inner energy when he burnt the outer shell of the gourd.

For the next few days, Chen Xiang's Magic method furnace s remained extremely stable. Everyone could only see that Chen Xiang's Underworld Gourd was constantly emitting golden rays of light, and the bottle gourd's black outer shell did not change at all even after such a long time had passed. The Burning Sun Dan Devil and the others were also puzzled by this.

They could tell that Chen Xiang would need to immediately refine the energy inside the Underworld Gourd, but during the refining process, he would definitely need to release a very strong flame.

This flame would definitely burn the walls of the Hell's gourd shell. As long as the Hell's gourd shell was stimulated, there would be a huge reaction.

And this kind of reaction, would not let Chen Xiang refine it stably.

However, even though several days had passed, the interior of the Hell's Gourd that Chen Xiang refined was still extremely stable.

"I've already refined the energy into a crystal." Chen Xiang felt much more relaxed. When he refined it, he used the Pressure mantra to isolate the energy inside the Underworld Gourd from the Gourd. The flames also only burned that energy directly, it did not affect the shell at all.

"Don't think that's all. The Hell Magic Dan's essence is just its outer shell. Without the energy from the outer shell and the energy from the inner shell repelling each other, the Hell Magic Dan doesn't have any power at all. It's just not qualified Hell Magic Dan." The Tian Yu Dan Devil said.

"Of course I know that." Chen Xiang said indifferently, this was what He Fengyuan had told him.

He did not plan on refining the outer shell yet, because the internal situation had yet to be completely stabilized.

"You're making good progress, but that doesn't mean you'll succeed in the end." Burning Sun Dan Devil's voice was filled with ridicule, he did not like Chen Xiang's training method.

In order to refine pills, one would need to try many times in order to mature, and they all felt that it was Chen Xiang's first time doing it, so this method would definitely not mature and would would not succeed.

Chen Xiang had not used Magic method furnace for a long time, but that did not mean that he was unfamiliar with it. He had used it many times before, and this rich experience was already imprinted in his soul.

"All of you shut up!" Yellow Heaven Dan Devil was a little angry, because Burning Sun Dan Devil and Tian Yu Dan Devil were obviously putting more pressure on Chen Xiang.

Burning Sun Dan Devil and Tian Yu Dan Devil did not speak anymore.

Chen Xiang did not bother with them, and continued refining pills.

"Chen Xiang, if the shell of the hell gourd can fuse with the energy inside in an intense manner, then the reaction will be even greater and the power of this pellet will be even stronger." He Fengyuan said: "But there will be a certain risk, and I cannot guarantee success."

"They will definitely have a standard for the success or failure of the Hell Magic Dan, and that should be based on the power unleashed by the Hell Magic Dan. My current method of refinement did not get their approval, and at that time, I will definitely question my Hell Magic Dan." Chen Xiang said: "So I must carry out this intense fusion in order to guarantee the power of the Hell Magic Dan."

"If my Hell Magic Dan is rejected due to lack of power, the risk will be even greater."

When Chen Xiang saw that the energy inside the Underworld Gourd had stabilized by crystallizing, he used his Evil Flame to burn the shell of the Underworld Gourd to the best of his abilities.

Right now, it was only burning the outer shell. It wouldn't fuse with the energy and explode like before.

Right now, he was refining them individually.

Inside Chen Xiang's Magic method furnace, the Hell Gourd's outer shell was melting bit by bit, drop by drop, like a water drop, before solidifying into a black crystal.

Not long after, everything inside the Magic method furnace could be seen. The most shocking thing was the golden gourd.

The energy inside the Underworld Gourd was extremely pure in the first place, and it had been refined and solidified by Chen Xiang inside the gourd's shell, so it was shaped like a gourd.

The Yellow Heaven Dan Devil said in shock, "This is a very pure energy! "Awesome!"

In fact, what shocked him the most was how could Chen Xiang guarantee to be able to be so stable without a pill furnace.

Chen Xiang was sitting on a stone platform, and was enveloped by a barrier, so none of them could sense the aura of Chen Xiang's Pressure mantra.

"What's the use? He is only refining an energy pill, not a Hell Magic Dan that can produce a violent explosion." Tian Yu Dan Devil snorted: "He cannot succeed at all, because his steps are already in disarray."

The Burning Sun Dan Devil nodded his head as he understood the Hell Magic Dan the best: "From the very beginning, you have to fuse the shell of the gourd with the energy inside, and then refine it into a crystal together. This is a very critical step, and only by doing so can the two mutually exclusive powers fuse together to produce a stronger explosive power."

"Can't you guys just keep quiet and concoct pills?" Smoke Charming chuckled, "This is only the first round, why are you all so worried?"

"We aren't worried at all. We are only guiding little brother in his pill refining." The Burning Sun Dan Devil said.

"Correcting his mistakes will help him avoid detours in the future." During the short conversation he had with Burning Sun Dan Devil earlier, their thoughts were the same. They all thought that Chen Xiang had gone astray.

Chen Xiang was very clear about his own refining methods, and was very confident that he would be able to successfully refine the Hell Magic Dan.

There were only three days left!

Although it was an ordinary Hell Magic Dan, all four Dan Devil were extremely serious. If they were unable to pass this round of the competition, it would be extremely embarrassing.

Chen Xiang had already refined the shell of the Hell Gourd into a lump of black crystal.

"Next, I will use my strongest flame to melt the golden crystal ball and then press the black crystal ball into the interior. This requires pressure from the dragon fire."

Chen Xiang frowned, he released the pressure and fused with the legendary dragon fire, suddenly a red light flashed from within the Magic method furnace.

"It's still not strong enough, let's fuse with the profoundfeng Mantra." After Chen Xiang released the profoundfeng Mantra, that ball of red flames shot out like a jet, attacking the golden crystal ball from all directions, causing the golden crystal ball to erupt into a burst of dazzling golden light, fusing together with the red flame.

In just two hours, the golden crystal ball had turned soft, and Chen Xiang quickly pressed the black crystal ball into the ball.

Pressing it in was not enough, he continued to incite the strongest flame to burn it.

As it was being burned, he released another pushing force, pushing the crystal to revolve crazily. As it rotated, the black crystal that could be crushed into the interior melted and the energy spread uniformly to all parts of the golden crystal.

[Chapter 3787](#)

This scene had all been witnessed by the four Dan Devil s, and all of them were secretly shocked in their hearts. Especially Burning Sun Dan Devil and Tian Yu Dan Devil, they had all previously believed that it was impossible for Chen Xiang to refine a true Hell Magic Dan.

But now, they were not so sure!

At the very least, they did not have that many methods to practice such a mystical technique.

"He shouldn't have enough time!" The Tian Yu Dan Devil said.

"Yeah, there's still two and a half days. Because of the explosion, he took a long time to complete the mission. Otherwise, he might really succeed." The Burning Sun Dan Devil said.

At this time, they did not forget to attack Chen Xiang, which made the Yellow Heaven Dan Devil look down on them even more.

The crystal ball inside Chen Xiang's pill furnace burned on one side as it spun crazily. At first, it released a red-gold light, but in the end, only a red-gold light could be seen; this was the light of flames.

The gourd-shaped golden crystal ball had turned black!

Chen Xiang was secretly surprised in his heart. The black energy condensed from the shell of the Underworld Gourd was actually able to dye such a large golden crystal ball black.

The huge crystal was spinning while being pressured by the pressure from all directions. At this moment, it was much smaller than before, turning into a ball.

"Next, I'll proceed with the derivation process." Chen Xiang thought.

"Is there time?" He Fengyuan said.

"Too late ..." But I can ask Master to help me, and I can borrow some of her pressure. " Chen Xiang chuckled: "It's quite time-consuming during the final stage of the Core Formation Stage. If there's enough pressure, it won't be a problem."

Chen Xiang could not be seen by others when he was releasing the derivation method, so when he was using the derivation method, he released even more intense red flames, causing the inside of the Magic method furnace to become completely red, and shining strongly with fire.

The circular black crystal ball was covered up very tightly, making it hard to see.

Chen Xiang immediately activated his derivation method, allowing the black crystal balls to give birth to nine small crystal clumps.

The Hell Magic Dan was not a high-grade medicinal ingredient, so when using the derivation method, it could be completed relatively quickly.

After Chen Xiang produced the nine little crystals, he once again urged out the strong flames. Afterwards, he made the inner parts of the Magic method furnace spin, pressing the nine little crystals in.

"I seem to see many black crystals inside his pill furnace. What are those?" Someone suddenly shouted.

"I saw it too!"

Many people could see that the flame inside the pill furnace had been consumed too quickly. Chen Xiang did not have the time to replenish it, and as a result, the flame was reduced, revealing the nine little crystals that he had produced.

"What's going on? The original crystal did not decrease in size, but now there were nine more crystals? It shouldn't be from the giant crystal. " Smoke Charming said in surprise. Her charming eyes were filled with suspicion as she stared at Chen Xiang's Magic method furnace.

Burning Sun Dan Devil and Tian Yu Dan Devil also looked at Chen Xiang's Magic method furnace with wide eyes because such a thing had already surpassed their imagination.

"This is little brother's superior pill techniques. He was just trying to cover it up, but he accidentally exposed it." Yellow Heaven Dan Devil laughed, "Now you know how powerful he is!"

"It should have been formed from the original crystal. There's no meaning to it." Tian Yu Dan Devil sneered: "There isn't much time left, he has yet to start condensing the core!"

"The most difficult part of the Hell Magic Dan is the condensing of a core. These types of pills are originally meant to be used to explode, but the internal energy requirements for their stability are very high. During the condensing of a core, it requires a very strong pressure, making it very easy for the internal energy to erupt, so it cannot be done too quickly, it needs to be done step by step." The Burning Sun Dan Devil replied, "I started to condense three days ago, and he was so much slower than me. It's too late to condense the core."

Yellow Heaven Dan Devil laughed: "Just wait and see. Don't talk so much nonsense."

"That's right, we still have two days." Smoke Charming laughed: "We will see the results very soon."

Magic method furnaces were already mystical enough, but looking at it from the outside, it looked like a transparent pill furnace. This allowed the people of Dan Devil City to broaden their horizons, and more importantly, let them see this mystical refining process.

Especially for Alchemist, he had benefited greatly from it.

At this time, Chen Xiang was extremely serious, and he had already pressed the nine balls of tiny crystals into the large crystal ball.

"Master, lend me some of your pressure." Chen Xiang said.

"Alright!" Xiao Xianglin had already made his preparations, and released the Pressure mantra together with his clone.

Because Chen Xiang had released his Magic method furnace, his pressure was limited by more than half, so he had no choice but to borrow Xiao Xianglin's.

Xiao Xianglin had already cultivated out God's Origin Qi, and adding two clones, the pressure was extremely strong. After it entered Chen Xiang's body, it made his body ache slightly.

Chen Xiang suddenly roared out, and everyone only saw that the black crystal in the blazing flames suddenly became smaller and smaller!

"This... How is that possible?" Burning Sun Dan Devil shouted in shock.

"How did he do it?" This was too fast ... It must be because his crystal does not have any energy, it must be so." The Tian Yu Dan Devil said.

Smoke Charming's eyes flickered, looking at the serious face of Chen Xiang, no one knew what she was thinking, but in short, she had already experienced Chen Xiang's impressiveness.

That cluster of black coloured crystal quickly shrunk at a rate visible to the naked eye. When they were condensing their pills, they gradually became smaller.

Chen Xiang endured the pain of releasing all of Xiao Xianglin's pressure, and after fusing with his pressure, he became even stronger and quickly reduced the pressure on that lump of crystal.

"So it turns out that fast charging can cause energy to explode. This can greatly improve the quality." Chen Xiang also felt this just now when he released the berserk pressure from his body and rushed towards the crystal ball from all directions.

If the crystal ball was under strong pressure, it would definitely explode with a very strong energy. However, this energy was sealed by the pressure and continued to be pressed into the crystal ball. It was a cycle and its quality increased very quickly.

Chen Xiang comprehended another method to improve in quality, which made him secretly rejoice.

Five hours had passed and the flames in the Magic method furnace had already extinguished. A black pellet could be seen floating in the middle of the furnace.

There was still a day and a half until the end, and Chen Xiang had already completed it first!

Due to his unfamiliarity with the pill, he failed and caused the pill furnace to explode. However, in the absence of the pill furnace, he tried to concoct a pill out of thin air and managed to refine a Hell Magic Dan as fast as possible.

When Chen Xiang encountered such a series of difficulties, everyone was able to see it for themselves. They all thought that it was a hopeless situation for Chen Xiang, yet Chen Xiang overcame many difficulties until he successfully condensed the core.

At this time, many people were praising Chen Xiang's exceptional pill techniques.

Only, at the moment, no one could be sure whether or not the Hell Magic Dan that Chen Xiang had refined was qualified. Once it was confirmed, then it was no doubt that the level that Chen Xiang had displayed was the highest, higher than even the other four Dan Devils!

[Chapter 3788](#)

There was still one more day until the end of the first round. The four pill furnaces had also successfully formed their pills, one after the other.

"Good, we have all successfully condensed our pills and have smoothly passed the first round." Yellow Heaven Dan Devil laughed.

"Wait, the Hell Magic Dan refined by Chen Xiang might not pass." Burning Sun Dan Devil shouted, "Although he did not use his pill furnace to successfully refine it, this also means that the quality of the pill he refined was not very good."

"Only if the refined Hell Magic Dan reaches a certain standard can it be counted as qualified, otherwise it wouldn't be considered a real Hell Magic Dan! The more powerful the explosion, the better. This is the most important thing, if there is no power, then it would be a failure. "

Yellow Heaven Dan Devil sneered: "Okay, then how do you want to test it?"

After all, this was an explosive pill used for battles. The more the energy was restrained, the more powerful the explosion would be, and the quality of the pill would not be tested by using equipment.

"Use my furnace to test it!" Burning Sun Dan Devil smiled proudly, and then took out a golden-red pill furnace that was about half the height of a human.

When everyone saw this, they all cried out in alarm.

"This is the Scorching Sun God Furnace! one of the three great treasures on the body of the Burning Sun Dan Devil! "

"I've finally seen this beautiful pill furnace. This is something that the Alchemist would yearn for even in her dreams."

"It's really pretty!"

The light of the Burning Sun Dan Devil's pill furnace was as glaring as the sun, causing people to feel that it was very powerful.

After placing the pill furnace down, he threw one of the Hell Magic Dan down and covered the Sun Force Divine Furnace's lid.

"The Hell Magic Dan can be activated through one's consciousness. After I detonate the Hell Magic Dan, if the furnace is able to vibrate and produce an inheritance sound, then the Hell Magic Dan will pass the test." The Burning Sun Dan Devil said.

At this moment, everyone quieted down.

"I'm going to start now!" After Burning Sun Dan Devil finished speaking, he detonated the Hell Magic Dan inside.

The Scorching Sun Pill Furnace shook violently, releasing a "clang" as if it was clashing with a bell.

"This is a qualified Hell Magic Dan!" Burning Sun Dan Devil laughed: "Chen Xiang, you try!"

"I'll go first!" Tian Yu Dan Devil said, "Let me see it twice more, so that he won't think you're lying!"

"That's true!" The Tian Yu Dan Devil nodded.

Next was the Tian Yu Dan Devil. He placed the Hell Magic Dan in, ignited it, and the Scorching Sun Pill Furnace also started to vibrate.

"You guys try it too, in case he says we teamed up to trick him." Burning Sun Dan Devil laughed and said to Smoke Charming and Yellow Heaven Dan Devil.

Afterwards, Yellow Heaven Dan Devil and Smoke Charming went to check on the Hell Magic Dan that they had refined, Yellow Heaven Dan Devil had the least amount of activity, but it was still considered qualified.

What made Chen Xiang secretly surprised was that the Smoke Charming's Hell Magic Dan was very powerful and had the most movement. This made the faces of the Burning Sun Dan Devil and the Tian Yu Dan Devil very ugly!

Burning Sun Dan Devil glared fiercely at Chen Xiang!

"My Hell Magic Dan should be counted as qualified!" Chen Xiang purposely revealed a look of guilt and said: "I'm sorry, I broke your pill furnace!"

They had all blown up the Sun Scorching Furnace, this was simply over qualified, the Burning Sun Dan Devil wanted to cry but had no tears.

Although Burning Sun Dan Devil had successfully cultivated the World Defying Stage Divine Source, he could not release this power just now, otherwise, he would be teleported away once he was sensed it. Outside, it was a natural disaster and a bloody rain, if he were to be sent out, it would be a dead end.

"Hehe ..." "Little brother is truly amazing." Smoke Charming laughed tenderly: "I have already fallen for you!"

Long Yue glared at Dan Devil. Looking at her eyes, she could not wait to rush up to Smoke Charming and start a fight. At the same time, she also had a new understanding of Chen Xiang's pill refining skills, and she was even more surprised.

"After the break, let's begin the second round!" The Yellow Heaven Dan Devil laughed, he was extremely happy.

He was extremely jealous of Chen Xiang's pill techniques, and the fact that he had mocked and ridiculed Chen Xiang earlier, was now treated as a joke by many, causing his face to be swept across the floor.

"Oh right, tell me what pill formula you guys came up with first!" We all know Chen Xiang's pill formula, it's the legendary Extreme Heaven Pill, what about you guys? " Yellow Heaven Dan Devil said: "What I have is a Yellow Origin Divine Pellet, it contains a weak amount of divine energy, you all should know that I have this kind of pellet!"

"If you don't bring out a similar pill formula, then I won't play."

"What I want is the Divine Charm Pills!" The Smoke Charming said.

"profound God Pill!" The Burning Sun Dan Devil snorted coldly.

"Yuanyu Yuanshen Dan!" Tian Yu Dan Devil's face was full of pride when he mentioned this pill.

The Yellow Heaven Dan Devil nodded his head, "Not bad, they are all Supreme Pills! "Similar to mine, it can cultivate weak God's Qi."

Chen Xiang was secretly pleasantly surprised. All of them were similar divine pellets, but the ingredients were different.

[Chapter 3789](#)

Burning Sun Dan Devil was not in a good mood, and previously, he was the happiest. Now that his Scorching Sun Furnace had been destroyed, it would be a huge loss to him.

Although it was not Chen Xiang's fault, the Burning Sun Dan Devil would definitely hate Chen Xiang for it.

The details of the second round of the competition had not yet been specified, causing Chen Xiang to be a little worried that the Burning Sun Dan Devil would target him again.

"It's a good thing that there are still three other Dan Devil here. Even if this fellow wants to target me, he still needs to be wary of the other three Dan Devils, so he definitely won't go overboard." Chen Xiang now closed his eyes and recovered his energy from earlier.

The rest time quickly passed by, and Chen Xiang recovered to his peak.

"The second round of the competition is about to begin. I will now talk about the specific rules and content." The Burning Sun Dan Devil waved his hand expressionlessly, asking someone to carry a big basket of red fruits.

Chen Xiang could tell at a glance that these fruits were of the fire attribute. Their size was also very big, about the size of a watermelon, and there was a layer of scorching hot gas on the surface of the fruits.

"This is a Magic flame fruit, mainly used to cultivate devil fire. It can be considered a medium level medicinal ingredient. There are a total of twenty-one Magic flame fruit in the basket."

Chen Xiang and the rest were all looking at the basket.

"The main point of the competition is to see who can refine faster and more quickly. Each person can only refine two Magic flame fruit at a time, and only after that can they continue to refine more." Burning Sun Dan Devil said: "If you fail twice in total, then I'll consider it your loss."

This was mainly a competition of refining speed, so there definitely wasn't much of a requirement for quality.

"Thus, you must be careful when you refine it. If you fail even once, you will have to deduct a single pill during the final calculation." The Burning Sun Dan Devil continued, "The final victor will be determined by the quantity of the Devil Flame Divine Pills, whoever has more will win!"

Yellow Heaven Dan Devil frowned, "Refining a Devil Flame Divine Pill will take around three days. If I were to use all my strength in refining, two days shouldn't be a problem."

"That's right, there are a total of twenty-one fruits. If the speed is about the same among the five of us, each of us can refine at least four fruits. The fastest one will get the last fruit." This is an ideal situation. If we fail, it would be hard to say." The Burning Sun Dan Devil said.

"Any other questions?" Burning Sun Dan Devil asked.

"Do you have any requirements regarding quality?" If Chen Xiang did not say anything, Burning Sun Dan Devil would not be so angry, because his Scorching Sun Furnace had been blown up just to test its quality.

Burning Sun Dan Devil was immediately angered.

"Of course there is a requirement. If it's of inferior quality, then it wouldn't count as a pill at all!" The Burning Sun Dan Devil said coldly.

"The quality of the Devilfire Divine Pill is easy to judge, there's no need to test it like before." Yellow Heaven Dan Devil laughed.

Burning Sun Dan Devil snorted. "If there's no problem, let's begin!"

"Wait." The Smoke Charming suddenly shouted, "What are the requirements for quality? You have to be sure! "

"Yeah, you can say it now." The Tian Yu Dan Devil agreed.

This matter was related to the final victor, so they were very concerned about it. They had to get to the bottom of this to prevent the Burning Sun Dan Devil from being shameless.

"You all have testing equipment right? If you reach the level of 60, you'll be considered qualified." The Burning Sun Dan Devil said.

"Alright, it's alright now. We can start now." Smoke Charming nodded.

Chen Xiang stared at the Magic flame fruit, this competition was mainly about the speed at which they were being refined. The Magic flame fruit could only be refined in two days, this should not be a difficult pill to refine, at least, it was better than the Hell Magic Dan from before.

"There's still some difficulty to refining this pill." Tian Yu Dan Devil looked at Chen Xiang who was ready to make a move and laughed coldly: "You need to be slower in refining the first furnace. If you fail, then you will basically lose."

"Chen Xiang, the moment Magic flame fruit meets fire, it would release a strong demonic flame. You need to be careful of this." Yellow Heaven Dan Devil said, "Also, Magic flame fruit have a core. This core has the strongest energy, so you need to ensure the stability of the core when refining it."

"If the inner core is not stable, a strange change will occur. It will absorb all the energy into the inner core, and then the inner core will turn into ashes. There will be nothing left."

"It's useless no matter how much more you teach him. We'll only know when he goes to forge it!" The Burning Sun Dan Devil sneered. He felt that Chen Xiang would definitely not make such smooth progress this time. "Let's start now!"

In the beginning, everyone went up and each of them took two Magic flame fruit.

Just like before, Chen Xiang gave one of them to He Fengyuan for her to understand. He did not immediately start refining the pill. Previously, he had failed the first batch because he did not have enough knowledge about the medicinal ingredients.

Although the Yellow Heaven Dan Devil had told him something about the Magic flame fruit, he still needed to know more.

He Fengyuan entered the Time array and quickly came out.

"That's more or less what Yellow Heaven Dan Devil said ... But there is one thing I need to note, the Magic flame fruit's flame is a devil's flame, it is a very evil flame, whether or not it will clash with your

flame, this is something you need to note. " He Fengyuan said: "Also, there is the core, we must deal with it well, otherwise, it will be very easy for it to fail."

Chen Xiang was slower than the others by a little, but he had finally started.

All the other Dan Devil had pill furnaces, only he did not, his refining skills would definitely be exposed, but he was not too worried. If he could see the process of him refining pills, at most he would only get some inspiration, and it would not be that easy to master the essence of his pill techniques.

"I will directly use the legendary dragon fire for incineration. This shouldn't be a problem, right?" In the end, Chen Xiang decided to use the strongest legendary dragon fire.

Although the legendary dragon fire was red, it could still emit a red, crystal, and red glow, causing the entire Magic method furnace to appear as though it was enveloped in a red, hazy mist, allowing the inner part of the pill furnace to be seen clearly.

It was difficult to see the core of the burned Magic flame fruit because it was the area where the flames were the most concentrated. Adding to that, the Magic flame fruit itself would spew out flames, causing that place to look like a small, blood-red sun.

On the whole Dan Devil Stage, the most eye-catching person there was Chen Xiang, because he was refining with a Magic method furnace, anyone could see the situation inside the pill furnace, and the multicolored light he was releasing was also very beautiful.

The other four Dan Devil were the closest to Chen Xiang, and they could clearly see the interior of the transparent Magic method furnace. To be able to watch an outstanding Pill God's refinement technique like this was a good thing for them.

Six hours later, the Magic method furnace's radiance suddenly dimmed.

"The core has been swallowed!" Smoke Charming shouted.

"It's only been six hours ..." It's way faster than I thought it was going to be. It's so bad. " Tian Yu Dan Devil laughed.

[Chapter 3790](#)

Chen Xiang's forehead was beaded with sweat. This was his first time refining a Magic flame fruit, so if he was not careful, the core would immediately become unstable. This rate of devouring was extremely fast, and he was unable to stop it. "..."

A moment later, everyone saw that inside Chen Xiang's Magic method furnace, there was a round black bead that was the size of a fist.

"It's a failure!" Both he and Tian Yu Dan Devil revealed an extremely relieved expression.

As long as he failed, even if he performed well in the end, it would still be difficult for him to obtain the final victory.

"The core is not easy to control. My first attempt at refining it will inevitably fail because I'm not familiar with it." Chen Xiang was not in a hurry. Even though he had already failed once, he still had the confidence that he could win in the end.

Thereafter, he continued to refine the pill a second time.

If he failed this time, he could only leave.

"This is only a very low-grade medicinal herb. If I fail the second time, then I will have to leave." Chen Xiang calmed himself down.

He felt that the Burning Sun Dan Devil must have calculated his first failure, because this Magic flame fruit was extremely strange. Without any experience in refining it, the first time he tried refining it, he would definitely fail.

In this way, according to the rules, he would surely lose in the end.

"Even if I am able to successfully refine it, my speed will definitely be inferior to theirs." Chen Xiang had already stabilized the inner core.

Because of the special nature of the inner core, his speed of condensing the core could not be too fast. Otherwise, the inner core would definitely be thrown into chaos and he would begin to swallow the core.

After two days, the four Dan Devil s successfully refined a Devil Flame Divine Pill. They had placed it in a crystal box beside the pill furnace and anyone could see that the pill that emitted a black and red aura was of decent quality.

It had also been almost two days since Chen Xiang had carried it out, but there was still a blazing red sun within the Magic method furnace, making it difficult to see what had happened.

Only the four Dan Devil s on the Dan Devil Stage knew what was going on inside. Although Burning Sun Dan Devil and Tian Yu Dan Devil didn't want to admit it, they all felt that Chen Xiang's pill refining level was slightly higher than theirs.

They all knew the characteristics of the Magic flame fruit. Even though it was a low level medicinal herb, it was hard to obtain.

But Chen Xiang had only failed once, and things went on smoothly!

The second round of competition had already lasted four days. Chen Xiang had finally succeeded in refining one pellet, but the other Dan Devil s had already refined two and they had taken the second pellet.

Chen Xiang also started to take out the second batch of ingredients. He had only refined one pellet, adding the failure from the previous time, he would need to deduct the amount of pellets he had refined, this was equivalent to him not being able to successfully refine one pellet. Furthermore, he needed nearly four days to refine one!

Currently, the other four Dan Devil s were trying to speed up their pace so that they could finish refining the two Magic flame fruit in their hands. This way, they could obtain the last Magic flame fruit.

"Chen Xiang is definitely going to lose. Right now, he can at most refine three pills. No matter what, he won't have the chance to win!"

"Seems like the Smoke Charming is the fastest!"

"The outcome of the battle has more or less been decided!"

Everyone began to discuss with one another.

Long Yue was currently very sad, because looking at the situation on the stage, Chen Xiang was definitely going to lose. There was no suspense at all, on one hand, it would be a failure, and on the other hand, the speed of refinement would be too slow.

Perhaps if others had already refined four pills, he would only be able to refine two!

Just as everyone was discussing, Chen Xiang suddenly threw the two Magic flame fruit into the Magic method furnace together!

"He wants to refine two Magic flame fruit together?"

"The inner core of a Magic flame fruit is extremely unstable. Putting the two of them together is suicidal."

"Looks like he's desperate."

Everyone exclaimed.

He was powerless to deal with Chen Xiang's current situation, and now even he felt that Chen Xiang no longer had any hope.

The Smoke Charming didn't care about other things and focused on pill refining.

This was because it was the key that decided victory or defeat. Otherwise, the Tian Yu Dan Devil would definitely mock and ridicule Chen Xiang and give him a good beating.

After four more days, Smoke Charming was the fastest to finish refining the fourth Devil Flame Divine Pill. After that, she flew to the center and took out the last Magic flame fruit in the basket.

"This is mine!" The Smoke Charming laughed coquettishly.

Tian Yu Dan Devil and Burning Sun Dan Devil were initially anxiously trying to condense the last pellets, but now that they saw that Smoke Charming had already obtained the last Magic flame fruit, they immediately felt relieved, because there was no hope left.

"If you fail, then this fight will be tied." The Tian Yu Dan Devil said.

"That's not it. If the Smoke Charming fails, only Chen Xiang will lose. He needs to give the pill formulas to the four of us." The Burning Sun Dan Devil sneered.

Chen Xiang scolded silently. This Burning Sun Dan Devil was obviously telling Smoke Charming that he was trying to make the Smoke Charming fail on purpose so that they could all obtain the formula for the Extreme Heaven Pill together.

"How could I fail? "Once I succeed, I will be the only winner. I will be able to obtain your pill formulas." At this time, she was no longer in a hurry. She could slowly refine it, after all it would be better to be a bit more stable.

Although Chen Xiang's Magic method furnace was burning in flames and radiating light, he could no longer attract attention. He was a loser, so no one would care about him.

Everyone's eyes were focused on Smoke Charming, the charming and peerless beauty, waiting for her to condense her core.

More than two days had passed, and Smoke Charming had successfully formed a core!

"I won!" The Smoke Charming laughed.

"I'm not done yet!" Chen Xiang said: "Whatever you say, wait until I'm done!"

Yes, Chen Xiang was still refining, but everyone thought that there was no point in him refining anymore!

"Fine, I'll wait for you to finish then." Smoke Charming laughed: "Anyway, you have lost for sure!"

"Not yet!" After Chen Xiang finished speaking, the Magic method furnace suddenly exploded. The layer of fire outside disappeared, and a gigantic black and red crystal ball floated in the air.

Seeing this crystal ball, everyone was stunned, these were all Medicine crystal! Especially the Alchemists who had refined Magic flame fruit before, they understood this the best!

In the past few days, Chen Xiang had been silently refining those two Magic flame fruit. Although there were some people who suspected that he would be able to refine two Magic flame fruit at the same time with such stability, they didn't really care about him when they thought that he would lose in the end.

And when Chen Xiang refined it, he used all sorts of incantations to give birth to the Medicine crystal, causing it to become so big!

"You ... How did you do it? " Smoke Charming's face was filled with disbelief.

"This is my secret." Chen Xiang smiled faintly.
