Chapter 411: Inferno in the sky

Chen Xiang's impression of this brat was pretty good so he laughed and said: "thank you, the reason why i flew so high up is to have a look the prowess of those Golden Griffins."

"Humph, you big idiot! whatever , i'll wait for you at the destination, you better not withdraw after this round, i have to have a fight with you at the end."

Lanlan flew away very quickly, her speed was indeed very horrifying, Chen Xiang was only able to fly faster when he allowed his wings to grow bigger, that was the Vermilion Bird Flame Wings true form, when activating it, his body will release flames, transforming into a shape of a huge bird and from the ground it will look like a huge flame bird.

Knowing that there was Golden Griffins in front, Chen Xiang grew agitated, from Wu Kaiming, he knew that Spirit Hall was most proud of their Golden Griffins, many people tried to borrow it from Spirit Hall ten thousand years ago for the Three Great Realm War but were rejected, even disciples aren't allowed to bring them to fight either.

Not only did Chen Xiang want to meet those Golden Griffins, he also let those Golden Griffins experience some pain! Because he wasn't happy with what Wang Quan did, sending people to stop him, he believed that other King's Continent warriors did not meet any obstacles on their way, only he met them.

"Golden Griffins? Ill now let you know the Vermilion Birds strength!" Chen Xiang laughed, and his heart filled with anticipation.

Chen Xiang was on alert as he fly, but he still havent see any Golden Griffins after flying tens of dou, but he was still waiting very patiently.

[TL note: i have no idea what they meant by 都 so yeah]

"The clouds in front! Watch out." Long Xueling warned

In front of Chen Xiang was a huge cloud pillar soaring into the sky, upon having a closer look, Chen Xiang could see that there were small dots in the clouds, and those dots were actually Golden Griffins circling around it, creating a huge air vortex, sucking all the clouds in it, exposing Chen Xiang to the blue skies and leaving him with nowhere to hide.

"So many!" Chen Xiang looked at the gigantic cloud pillar and he can't help but exclaim in his heart.

"These Golden Griffins are definitely being controlled by someone, that person should be riding on the Golden Griffins, and it should be more than one person." Long Xueling said.

Chen Xiang flew straight, and those small dots in the huge cloud pillar also gathered together, from afar it looks like a flock of birds but Chen Xiang was very sure that those are a bunch of True Martial realm ninth stage spirit beast, Golden Griffins!

Golden Griffin's feathers were very hard, its wings can be used as a sharp knife, and their mouth can even spit out fire, its flying speed was very fast, along with their sharp claws and beaks, it is able to cause huge threat to humans.

Chen Xiang was in Extreme realm, if he were to fight independently he wouldn't choose these ninth stage Spirit realm beast, but now he wasn't fighting one, he was fighting thousands, if all of them were to come at him at one, even him will have a hard time.

[TL notes: sounds weird i know but it just means that if he wouldn't choose to fight ninth stage True Martial realm as it was too easy]

The Golden Griffins from afar approaches quickly, Chen Xiang's wings also becomes more and more bigger, becoming hundreds of zhang in a blink of an eye. Chen Xiang unceasingly released the Vermilion Bird True Qi within his body, the one thousand True Element Dan that contains vigorous True Qi gushes out, Chen Xiang's wings continuously expands, burning with fierce flames, forming a sea of flames.

When Lanlan saw the huge wings she was shocked till her jaws drop, exclaiming: "this meanie is so strong, what is he planning to do?"

"Almost!" Chen Xiang said with a slight sigh of relief, he stretched his huge wings that is already thousands of zhang wide, when he flapped it, the wind generated was imaginable.

Those warriors riding the the Golden Griffins slowed down after seeing, they knew that Chen Xiang wanted to resist them, seeing the magnificent pair of huge flame wings, feeling the incomparably scalding hot air wave, they were considering whether they wanted to continue on

A total of eight people riding the Golden Griffins, and their strengths are all at Extreme realm, each bringing a thousand Golden Griffins and flying towards Chen Xiang.

"No need to be afraid, we have eight thousand Golden Griffins, no matter how strong he is, he will be surrounded by Golden Griffins, just waste him!" a male shouted.

When Chen Xiang heard this, he was furious in his heart and immediately he roars.

"Inferno Tornado!"

Chen Xiang suddenly spins, and his wings followed suit, firstly, it was waves of intense heat spreading all around, following it was a strong suction force, some big trees and stones got uprooted and attracted under the suction force, with Chen Xiang spinning, it forms a huge flaming tornado reaching up to a few thousand zhangs wide, the scene was shocking and horrifying, similar to the end of world.

Clouds from all sides are being attracted over, making the clouds very thick and when they bump into each other, it erupts crazy lightnings and those lightnings were also being attracted into Chen Xiang's tornado.

Originally those Golden Griffins are charging at Chen Xiang, but now it was too late, when they tried to run away from the scary fire lightning tornado, it was already too late, the tornado was too huge thus causing a very strong suction force, those Golden Griffins are like ant in front of this huge tornado, in a short amount of time, they were all inside the huge tornado that contains intense heat and crazy thunder.

“This guy is too perverse, i almost got implicated!”Lanlan gasped for mouthful of breaths, those voluptuous chest continuously rise and fall, as she looked at the huge fire lightning tornado filled with destruction with lingering fear!

Those nearby all saw it, and most of them are competing warriors, they all heard the lighting sound but there is a familiar sound mixed in it, it was the wails of thousands of Golden Griffins.

Chen Xiang was madly laughing while spinning furthermore he was constantly releasing wood attributed lightning Qi, making the lightning more crazy.

The inside of this huge tornado became a purgatory, people inside it cannot resist at all, the only thing they can do is to receive punishment.

This was Chen Xiang’s Inferno Tornado! Last time he used this move to fight the devil Dao warriors, but back then his strength was still weak so the tornado was very small ,compared to before the current tornado was bigger by few hundred folds.

The huge tornado’s surrounding hills and lush forests was all sucked into the tornado, Lanlan personally saw a mountain thousands of zhang tall slowly getting sucked into the tornado finally totally vanishing into the tornado

In the tornado is the tyrannical Heavenly Sun Fire and crazy lightning, when fused together, its might was incomparable.

“Haha...haha...haha, i thought that a group of Golden Griffins were very powerful, turns out it was only mediocre, haha...” Chen Xiang’s mad laughter was similar to a devil, reverberating in all direction, when people heard it, they were absolutely terrified.

Chapter 412: Unending Obstacles

Chen Xiang spun unceasingly, the large tornado looks like it won’t stop madly extracting everything from the ground, wherever it went, it turns the area into a flat land.

Those Golden Griffins that got sucked into the tornado will collide with either a huge rock or another Golden Griffin, while being baked by the heat and struck by the lightning, those few people were also the same, but they didn’t die immediately, only physically devastated.

The Golden Griffins and the few Extreme realm warriors are only at beginner stage of Spirit Martial realm, their strength are far below Chen Xiang, so it was very difficult for them to escape Chen Xiang’s domineering techniques, furthermore they were now heavily injured.

When Cheng Xiang felt that he was only left with half of Vermilion Bird Qi and Azure Dragon Qi, he quickly stopped his skill, only to see those Golden Griffins and few people dropping, thousands of Golden Griffins wailing in low voices and falling heavily to the ground, leaving a lot heavy casualties.

Chen Xiang breathed a sigh of relief, and the wings behind his back turned small again, he found his direction, flapped his wings, flew up to the sky and continued towards the destination

Wang Quan came when Chen Xiang just left not long ago, he rushed here immediately after receiving an emergency notification saying that there were very heavy casualty here.

Seeing the group of unconscious Golden Griffins on the ground, and listening to these weak cries, veins popped out from Wang Quan's fist

"Old Wang, as I have said before, don't belittle him, it was you who originally planned to use the Golden Griffins to stop him, so his counter-attack was very normal! You can only say that you brought this upon yourself, I advise you to better not use dirty moves, if you make him mad, it might cause deaths." Gu Dongchen said

Wang Quan gasped for breath, suppressing his anger as it slowly disappears, he gave a cold humph: "this was part of the rules, I didn't stop him on purpose!"

Seeing Wang Quan, Gu Dongchen followed behind as he was afraid that Wang Quan would attack Chen Xiang.

"Ai, there is only death of Spirit beasts now, if you were to stop him again, the next death would be some people!" Gu Dongchen sighed and said, those who were riding on the Golden Griffin's didn't die but they were very heavily injured.

From the start, those who tried to stop Chen Xiang all died, except for those few just now who had heavy injuries.

Wang Quan didn't want to stop Chen Xiang, all he wanted is to delay Chen Xiang, but he didn't know that Chen Xiang had such a strong killing skill, even thousands of Golden Griffins can't do anything, instead they got suppressed by Chen Xiang.

Chen Xiang is blowing whistle while soaring in the sky, at this point his mood was very good because he knew that the deaths of those Golden Griffins would bleed Spirit Hall, furthermore this was all because they asked for it

"His mother, if someone tries to stop me again, I will personally attack them!" Chen Xiang suddenly very look forward to meeting people sent by Spirit Hall.

"Hey, your move just now was very powerful, but the consumption is very high, it is only suitable for people who are weaker than you, if it was used against me, it would be useless." Lanlan came again from the top of Chen Xiang.

"Brat why do you always follow me? I am a big meanie! Is it because I'm too handsome?" Chen Xiang happily said with a smile.

"Pei! You narcissistic guy, I was only bored, I don't know how long I would still need to fly, this competition was too boring, there is also nothing to relieve my boredom." Lanlan gently sighed.

"Why don't you go find your King's Continent warriors! Why did you find me?" Chen Xiang also don't understand why he was targeted by this brat.

"They are too slow, and you are the only one that flies, the others are all running, totally unable to talk to at all." Lanlan said

"Forget it, I better fly faster and reach the destination as soon as possible, so bored!"

Lanlan's speed made Chen Xiang jealous, and she seemed like she was flying with ease, he could only sigh as he still didn't know how many more things would be waiting for him on the road, he guessed that his competition was held because of him, because he had the powerful Dragon Force, if it was a face to face fight, Wang Quan had no confidence in his disciples at all.

For Chen Xiang to lose, this was the only method to eliminate him, thinking to this point, Chen Xiang was furious, this was also the reason why he purposely didn't hide himself was to allow those waiting in ambush to discover him, this way he could heavily injure them as a way to relieve his dissatisfaction in his heart.

Two days passed, in the middle of the night, Chen Xiang suddenly saw a beam of light shooting from the ground to the sky, just as he felt odd, he sensed a very strong pressure, making him stop immediately.

Chen Xiang flapped his wings, allowing his heavy body to land on the ground, he found out what the beam of white light was, it was a formation that that creates pressure.

If it wasn't for his quick reaction, he would most likely crashed fiercely.

"This was a big formation, in order to eliminate you, the Spirit Hall has spent quite a lot!" Su Meiyao said

Chen Xiang roared, he used a palm with Dragon Force on the ground, only to see to the circumference of several miles split open, the ground starts to shake crazily, and the forest was immediately ruined.

"There's people, watch out!" Su Meiyao abruptly shouted.

Chen Xiang already sensed those people's aura, it was four person and all of them are at Extreme realm.

That formation along with the ground had already been destroyed, so the pressure was also gone, but Chen Xiang didn't choose to fly but to confront the four person walking towards him.

In the darkness, four people in black suddenly appeared around Chen Xiang, seeing Chen Xiang's natural face, as if he was waiting for them, their hearts all felt very shocked.

After they appeared, they raised their hand without any second words and a strange energy spout out from their palms, in a blink of an eye, appeared a complicated Spirit pattern formation under Chen Xiang's feet.

Once the formation appeared, Chen Xiang's complexion changed drastically because he can't use True Qi, the worst thing is that his body cannot move too.

Seeing Chen Xiang's complexion, those four men in black looked very haughty.

Chen Xiang quickly calmed down, he coldly laughed: "Aren't you guys gonna attack?"

"We are only responsible to hold you down, the person to attack you will come shortly after!" a person coldly said.

Chen Xiang wrinkled his brows, feeling hateful in his heart, both his feet are now closely attracted to the ground and unable to move at all, furthermore he could not use True Qi, if someone were to come, he would be in a dangerous situation.

“It seems like this big formation is laid down by you, but it was easily broken by me!” Chen Xiang was unexpectedly calm now and this made the four men in black feel worried.

However when it comes to this formation where they collaborated, they were still quite confident, furthermore the person that is coming to deal with Chen Xiang is also reaching soon, when the time comes it would be Chen Xiang’s turn to be heavily injured.

Chen Xiang could not use True Qi or move! But his mouth can still move, so his magic powers can be used! This way, he could display his Divine Sense, and use magic to gather strength using Qi of Heaven and Earth to attack.

Chapter 413: Grasping Soul Talisman

Chen Xiang realized that the four person setting up the formation could not simply move, because if they moved, it would affect the formation, otherwise the four person would have already attacked Chen Xiang.

◦

Seeing this point, Chen Xiang was secretly delighted in his heart because if he is able to disturb them, this formation will break, and then he would be able to use True Qi again.

“You underestimate our big formation! Even if you break the ground, the formation will still exist, the main crux of the formation still exists, you only destroyed a small formation.” Said a guy in black..

Chen Xiang laughed, even at this situation he was able to laugh, this made the four men in Black instantly on alert, but no matter how much they think they can’t understand how Chen Xiang would escape this formation, furthermore there was someone coming over to beat Chen Xiang, as long as that person reaches first, it will spell doom for Chen Xiang.

Chen Xiang was already able to detect the person running over, that person was also Spirit Martial realm beginning stage, Divine Martial Palace wouldn’t dare to use cultivators of high cultivation, otherwise it would be too much, that is why they spent so much effort to set up formation and use Golden Griffins to block Chen Xiang.

The transformations in Seventy two Transformation technique not only allow user to transform themselves but also use Spiritual Energy to create something from nothing like Chen Xiang’s Illusionary Brilliant Furnace, was also one of the transformation techniques, just that he isn’t proficient in it.

After that, he went to ask Long Xueyi for advice to understand this transformation technique better, he already grasped the main point and now he only need to display it.

The Spiritual Energy the cultivated from Shinto was colourless and shapeless, only those with strong Divine Sense was able to sense this kind of energy, even deans like Gu Dongchen was currently unable to sense it.

Chen Xiang released his Spiritual Strength, and chants the incantation, controlling the released Spiritual Strength to flow to the back of those men in black, this moment their complexion changed because they discovered that behind the back of their teammates congealed a glowing short sword.

This was Chen Xiang's display of his seventy two transformation, creating something from nothing! Those short swords was a made with Spiritual Strength by condensing Spirit Qi from Heaven and Earth, and its might is not small.

Normal warrior can also use True Qi to congeal this kind of energy sword, but they need to use their own True Qi and their area of control is also very small. But Chen Xiang doesn't need it, he is able to congeal this Energy weapon as long as it is in his sight.

"You underestimated me!" Chen Xiang laughed loudly, those four short swords under his divine sense, fiercely shot forward, penetrating the four persons back, and then explodes, making a bloody hole on the back of those four person

The formation binding Chen Xiang was also gone, Chen Xiang once again controlled his thick True Qi, only to see him explode loudly, the True Qi within his body gushed out , under his control, it became very vigorous, and explodes from his body, forming waves of very strong and filled destructive force Qi wave, sending those four men in black flying.

o

Those four men in black was already injured from the piercing and explosion of the energy short sword, adding in the explosion of True Qi from Chen Xiang, all their meridians were broken and they fainted on the spot.

Chen Xiang looked at the black clothed persons lying on the ground, coldly humphed and jump to the sky, just when he was going to release his Vermilion Bird Fire Wings, he was pressured by a strong energy, making he fall to crash into the ground.

"Darn, that formation is still there!" Chen Xiang felt the person coming closer, although the speed of the person was slower, as the person gets closer, Chen Xiang felt more and more dangerous.

Therefore he wanted to quickly run away, if he tangled with that person, it would delay a lot of time, if Divine Martial Palace was able to delay him, it would make him fall behind significantly, that way he would be eliminated.

"Should be a Blood Warrior, his True Qi is different of others, oth True Qi and body needs to be stronger than average, i think it should be because of the blood in his body, but i have never heard of this kind of clan! Dali Clan is different from them, Herculean clan from ancient time where it was because of a special breeding method, this Human King Clan is stronger than the Herculean Clan, their bloodlines are definitely not simple. Long Xueyi said."

Chen Xiang released the water vine,coiled around the four fainted person in black, he quickly brought them to him, and used the Grasping Soul Devil Curse taught by Bai Youyou, to search their memory in hopes to break the formation.

Very quickly, he found it, at this moment he was very shocked by Divine Martial Palace's handiwork, this formation was completed on a large stone plate, and the stone plate was deep underground where they were at.

"Moveable formation, this formation's cost is not cheap, the cost for the formation plate is very high, and there is a need to put a lot of cornerstones, usually alot of top grade crystal stones and items with a

lot of energy is needed, if this formation plate was destroyed, Divine Martial Palace would probably cry!" Su Meiyao laughingly said.

Usually when you lay down formations, it would always be on the ground, but this formation that could stop Chen Xiang from flying in the sky is a type where it would be laid down on a big stone plate to move it, the formation energy given out from the stone plate can cover a lot of ground, and only rich sects could afford this kind of formation.

Chen Xiang got a lot of information from those four people's memory and it is all about laying formations, but having these memories doesn't mean that he could instantly lay down formations, but these were all precious experiences, he suddenly found out that Grasping Soul Devil Curse was very strong, in this way, he was able to quickly learn a lot of things.

A lot of formation techniques were now in his memory so he decided try it out next time, next he continued to use Grasping Soul Devil Curse to search those four men's memory for formations.

There was a lot of information, it's like his head was going to explode, if not for his formidable spirit, he would be unable to contain all these memories.

Although his head hurts, his face was filled with happiness, he knew that those four people was a decent formation master, but now all their knowledge on formation is shared with Chen Xiang.

"Quickly destroy the formation. That guy is coming!" Long Xueyi said.

Chen Xiang nodded his head, and fly towards one direction, he now knew where the formation plate is at, and he planned to lure the Blood Warrior and use the formation against that Blood Warrior

From the memory of the four person in black, he knew that the formation plate has great use, not only can it be used to prevent people from flying in the sky, it has also great defensive and offensive energy, that formation plate was originally protecting a herb garden in Divine Martial Palace, Wang Quan wanted to increase the chance of winning against Chen Xiang, so he temporary used it against him.

Magic changed to Spiritual Strength

Dali Clan changed to Herculean Clan

Long Xueling was the wrong name, it was actually Long Xueyi

Chapter 414: Confrontation in the night

Chen Xiang very quickly reached the area with the formation plate, only after he destroyed the formation plate below will he be able to fly away and avoid a fight with the Blood Warrior.

"Hehe, who asked you to go against me, this is the price you will have to pay!" Chen Xiang's palm slowly surfaced a white layer of light, along with the appearance of that light, the ground started to crazily shake.

Chen Xiang gave a loud shout, palm facing the ground, and used Dragon Force to cast Heaven Shaking Palm, its might was predictable, that powerful and enormous energy once again swept through the ground, and the land once again got turned over by Chen Xiang.

And the formation plate beneath him, also got hit by the Heaven Shaking Palm till it became dust!

“This time Divine Martial Palace is going to bleed!” Chen Xiang laughed, and jumped to the sky, released his Vermilion Bird Fire Wings, the pair of wings that are burning with fierce flames were very eye-catching in the dark sky, lighting the black night sky.

Just as Chen Xiang flapped his wings, a loud shout was heard from the ground: “stop!”

Chen Xiang didn't bother about that person and flew away as if nothing happened, that was the Blood Warrior from Divine Martial Palace, although Chen Xiang wanted to fight with that person, but he is rushing for time, if he was slow, he would be eliminated and he doesn't want to be eliminated in this kind of competition.

o

“Watch the blade!” the rapidly flying Chen Xiang was shocked, because in front of him was a middle-aged man standing there, this middle aged guy was standing on a hexagon shaped flying disc, with a golden blade on his hands, and slashed towards Chen Xiang, and blade shined brightly and countless blade shadows erupts from the blade.

Chen Xiang couldn't understand why this person suddenly appeared in front of him, luckily his reaction was quick, and quickly kept the Vermilion Bird Fire Wings, allowing him to fall down abruptly to dodge the blade shadows.

“Bastard, you actually used weapons, then don't blame me for not being polite!” Ever since Chen Xiang reached the Extreme Realm, he rarely had any chance to use Azure Dragon Slaughtering Devil Blade to fight, seeing that the enemy used weapon, he definitely wouldn't have mercy

Chen Xiang willed, and the Azure Dragon Slaughtering Devil Blade appeared in his hands, at this point, he was already on the ground.

“I originally didn't want to play with you, but since you wanted me dead so much, i don't care anymore.” Chen Xiang already didn't care about the competition anymore, he only wanted to vent out the anger in his heart through his body's fierce energy.

Long Xueyi said:“ the disc under his legs is not simple, it is able to conceal the user's aura!”

That person wielding the golden blade appeared before Chen Xiang, and said to Chen Xiang indifferently: “I heard that your blade is very strong, but it turns out to be average!”

Chen Xiang's brows congealed, only to see his blade slightly move, but the ground suddenly surfaced a thread like crack, passing through directly the crotch of the middle-aged guy.

That middle-aged person's complexion changed, although Chen Xiang's blade only slightly moved, but it was actually a slash, only because the speed was too fast, so fast that people could not see him slash with his blade at all.

Middle aged guy was still standing at the hexagon shaped flying disc, but he felt that the hexagon shaped flying disc was already destroyed the moment Chen Xiang waved his blade.

Chen Xiang's blade was not fast, but the power released was very unique, it was because he used Universal True Qi, through his precise control and Tai Chi Subduing Dragon Divine Arts, it allows the Azure Dragon Slaughtering Devil Blade to chop out a thin blade strength, passing through the ground and directly chopped the middle-aged guys hexagon shaped flying disc beneath his feet.

"The toy beneath you must be expensive!" Chen Xiang laughed, his words had already enraged the middle-aged man, the middle aged man roared, waved his sword and darts toward Chen Xiang, his sword techniques were very ferocious, strings of beautiful chops were completed in a breath of time, and Chen Xiang could only block them.

"This person's blade is also not simple!" Chen Xiang had used a lot of energy in blocking, but it didn't ruin the opponent's blade as he had expected.

Chen Xiang found out something weird after blocking several times, it was that before the Azure Dragon Slaughtering Devil Blade even touched the opponents golden blade, it would be blocked by a strange shaking energy, the opponent's attack speed was very fast, and Chen Xiang was only able to block but the shaking energy would always shake his hands until it was numb.

He told this to Su Meiyao and Bai Youyou, Bai Youyou then said: "His blade has other peoples energy, the blade should be covered in a special energy made from Wang Quan's True Qi, thats why it was so hard, furthermore it also has Wang Quan's Nirvana realm energy. "

Chen Xiang finally understood, why the blade was so scary, furthermore the person wielding it was a Blood Warrior.

Previously in the points competition, Qiu Sheng did not use True Qi, so he was unable to learn about Blood Warrior's strength, and the middle-aged man in front of him was a True Qi based Blood Warrior.

Chen Xiang felt that both Blood Warrior and Herculean Clan are the same, they were able to turn the True Qi in their body into a special energy, fuses with their fleshly body, allowing the their strength to mix, and then burst forward, forming a very strong and domineering energy.

"Lightning True Qi!" Chen Xiang determined the opponent's original True Qi, this middle-aged man hid it very well, and when he used True Qi, it would turn into another type of explosive energy, making it hard to determine.

Under the night sky, the ground was full of holes, blade light shinning, and Chen Xiang was only blocking, not even counter attacking, this made the middle-aged guy suspicious because he knew that Chen Xiang's strength wasn't at this level

The middle-aged man chopped, but this time Chen Xiang did not block, just when the golden blade slash is going to hit Chen Xiang in the waist, he was shocked because Wang Quan had said that he could not kill Chen Xiang, or else the consequence will be very serious.

Just when the golden blade slash was going to hit Chen Xiang's waist, he saw Chen Xiang explode into mist.

Chen Xiang used Water Mirror skill, using water to make an illusion, while he himself used his fastest speed to leave the place, just as the middle-aged guy was shocked, many water jar like thick water vines

appeared from the ground and holds the middle aged guy, he has completely use the Black Tortoise True Qi.

“I don’t have time to waste with you!” Chen Xiang slowly walked away, while slashing towards the middle-aged guys golden blade, the Azure Dragon Slaughtering Devil Blade roar like from an angry dragon, shining with eye piercing Azure light, breaking the golden blade.

The golden blade without the middle age guy’s energy turned very weak, as such it was easily cut down by the Azure Dragon Slaughtering Devil Blade.

“What do you want to do?”the middle aged man didn’t expect Chen Xiang’s water vines were this strong, but during his struggle, the water vines were already showing signs of breaking, he only hated himself for being weak, if he didn’t spend so much energy fighting before, he would have easily struggle free from the water vines.

Now he understood why Chen Xiang only blocked, it was all to waste his energy.

Chen Xiang laughed sinisterly, he backed up and his lips moved, chanting a weird curse, the middle-aged man saw the clouds surge, lightning roaring, the Spirit Qi from surrounding hundreds of li madly rushing towards here.

“Heavenly Dragon Seal!”Chen Xiang’s eyes twinkled, and the sky sounded out a dragon shout, and a golden huge dragon claw drop down from the sky, hitting the middle-aged guy that was restricted by the water vine.

That instant, golden lights explodes, shining the sky bright, and the ground appeared a very huge hole, those dirt that was blasted up to the sky fell down like rain, the middle-aged man was covered in dirt as he was in the hole, he slowly wriggled his body, wailing.

And Chen Xiang already released the Vermilion Bird Fire Wings, flying in the night sky.

Chapter 415:Endpoint

The sky brightens, seeing the distant sun rise, Chen Xiang felt elated, he didn’t know about others but he knew that it wasn’t easy for him, he had went through ups and downs to arrive here, at this point he was already very near the end point.

Although he was delayed, he still thinks that he was the faster one, he estimated that he would at least be able to enter top ten.

Originally he believed that he could get first, but seeing that young girl Lanlan’s horrifying speed, he knew that he was too proud, this King’s Continent had quite a lot of young strong warriors.

He could guarantee that those in the top fifty in the points competition would have decent speed, if they did not get obstructed, they might have overtook him.

Thinking until here, Chen Xiang was furious, it was all because of Wang Quan’s delay his time by planning a lot of ambush.

Of course, thinking that on his way here, he also made Divine Martial Palace a lot of losses, he was secretly happy in his heart, because he can get to see Wang Quan’s angry yet helpless face.

The biggest reward this trip, was that he got the four formation masters memories, those memories are very precious, through Grasping Soul Devil Curse, Chen Xiang was able to imprint it in his own memory, after simple absorption, it would become his, others would need a lot of time to accumulate all those rich formation experience, but Chen Xiang could do it in a while.

It wasn't that formation masters were not a good option, it is just that it would take a lot of resources, especially during learning phase, furthermore, there is also some danger of formation exploding if there was a slight mistake during the setting up of formation or any other actions that is dangerous, Chen Xiang have heard that there was quite a lot of people who died when setting up the formation.

As long as he could efficiently use those precious memories, he could be a formation master in the near future, furthermore he had the Refiner's Scroll, the spirit patterns in the Refiner's Scroll were all regarded as treasures in the eyes of Liu Menger, after absorbing the memories of the four people, he had a solid foundation, now he only need to spend some time in this aspect again, after being skilled in formations will he be able to start refining weapons.

Chen Xiang was soaring above the clouds, although he had a pair of huge fire wings, he had the clouds as cover, so the people below couldn't see him, but with his strong Divine Sense, he was able to clearly observe the ground, on his way he found out twenty plus person going all out dashing, their speed was very fast, Chen Xiang guessed that they was continuously flying, not even stopping once.

Based on his calculation, even if they were running with that speed, it would be impossible to take ten plus days to rush here, he guessed that there was definitely some trickery here, maybe Wang Quan helped these disciples to cheat, since the distance is very big, Gu Dongchen and Wu Kaiming would definitely not know what happened.

There was a lot of people in Divine Martial Palace, helping those disciples to cheat wasn't hard, even though this was the case, Chen Xiang was still able to overtake these twenty individuals, as he accelerates his speed, he discovered more participating martial warriors.

"This competition eliminates thirty people, now that there are thirty people behind me, if nothing unexpected happens, i would be able to pass this round." Chen Xiang relaxed slightly, if he was eliminated because of Divine Martial Palace's tampering, he would be angry for a very long time, just thinking about this did not make him feel good.

Three days passed, Chen Xiang once again caught up on a few more people, and the ending point was just in front, it was a very tall summit, and the summit had flat ground, and on it is a very big bronze bell, as long as he sounds the bell, it will be counted as reaching the end point.

Although Chen Xiang could see, but there was still some distance, that summit was very high, directly piercing through the clouds, if it was running from the ground it would take very long to climb up to the summit.

"Full speed ahead!" Chen Xiang was worried that there would be unexpected accidents at the last moment, so he used up all his True Qi to fly, only to see his Vermilion Bird Fire Wings suddenly increased in size, and both his feet were shooting out Azure True Qi, this was the Azure Dragon True Qi's wind energy, there would also be occasional violent thunder, increasing the explosive force, not to mention his speed.

There were some people sandong on the summit, from afar they saw Chen Xiang flapping the majestic Fire Wings, and his feet shooting out Azure Dragon Qi balls while flying, it made everyone's countenance change, because these kind of speed speed and impact force was very shocking.

While Chen Xiang is flying over, he was banging the air producing bursts of explosion, originally the distance between him and the summit was still very far, but under his full speed dash, his speed had increased multiple folds, making him look like a flash of light, dragging the green red light, shooting straight for the summit.

Chen Xiang did a flip in the air, and beautifully landed on the summit's flate ground, quickly walked to the bell and rang it...

Hearing the bell resounded through heaven and earth, Chen Xiang gave out a long sigh of relief, after the resounding bell sound vanish, did they hear an elder shout: "Chen Xiang, position fifteenth. ."

Lanlan came beside Chen Xiang said lightly: "fifteenth, you are so slow!"

Chen Xiang laughed: "brat, if you were blocked by a few Nirvana Realm warriors at the start, then surrounded and attacked by tens of thousands of Golden Griffins, and then your True Qi suppressed by four formation masters, and finally a Blood Warrior wielding a brilliant weapon to attack you, can you be this fast?"

"Luckily those guys are trash, those Nirvana Realm warriors have already been finished by me, those tens of thousands of Golden Griffins should be either dead or seriously injured. As for those four formation masters...haha, they were also stabbed by me, their meridians broken too, that idiot Blood Warrior who uses the Brilliant weapon got his weapon broken, and beaten heavily! Although there are a lot of obstacles, they were all useless. "

While Chen Xiang was talking, he was looking at Wang Quan, Wang Quan's complexion was not looking good, Gu Dongchen and Wu Kaiming's complexion were equally bad, because when they were waiting there, those who arrived early all said that there were actually no obstacles blocking them, and they came here easily.

But Chen Xiang continuously met with obstacles, furthermore it was targeted at him, there was even a Blood Warrior wielding a treasured sword to attack Chen Xiang.

"Its unavoidable Chen Xiang! You are a guest of King's Continent, of course we have to take special care of you, but you did very well, and returned the favor, a big favor."Lian Yingxiao laughed and said, Divine Martial Palace tried to steal a chicken with rice but lose everything instead, they lost a lot of warriors.

o

Chen Xiang was from Chenwu Mainland, and several big shots fro Chenwu Mainland were waiting here for him.

Hua Xiangyue smiled: "King's Continent is so hospitable, but you guys lost too much face, you can't even stop a kid with so many people, but still allowed him to get placed fifteenth, successfully passed!"

"Wang Quan, don't you think your method id very disgusting? If you don't like Chen Xiang participating in the King's Martial Competition, you only need to say and i guarantee that he will withdraw. Is it

necessary to use despicable means? Tell you what, don't think that because you are the highest person in power in King's Continent that i wil be afraid! If there is a next time, i, Liu Menger will definitely fight it out with you!"

Liu Menger's angry sentence carried a chill that lingers on the whole summit, this tall mountain was instantly covered in thick frost, that peculiar cold energy makes people have the urge to kneel down and worship

The whole summit was dead silence, Wang Quan frowned, and removes the strange coldness in his body, a lot of people couldn't understand why Liu Menger was this mad!

Chapter 416:Big Gift

Gu Dongchen and Lian Yingxiao looked at each other, they knew the relationship between Chen Xiang and Liu Menger, they just didn't know it was so deep that it could make this empress so mad.

As for Wu Kaiming and other big shots, they only thought that Liu Menger was angry for his disciples husband.

"Wang Quan, you might not know! This brat is an Honorary Chief Alchemist of our Danxiang Taoyuan, he is the guest of Danxiang Taoyuan."Hua Xiangyue laughed coldly

Now Divine Martial Palace knows that Chen Xiang not only had Gu Dongchen, Wu Kaiming and Huang Jintian as his backing, he also had these two powerful ladies.

Wang Quan's brows were already covered in frost, he took a deep breath, he knew that Liu Menger had crossed the Nirvana seventh tribulation, and she cultivates Cold Wind Divine Exercise, which is very formidable. Of course, Liu Menger's parents were the previous eras characters, not even Huang Jintian dared to fight them.

Although Liu Menger said that her parents have already ascended to heaven realm, no one know whether they left behind many influence and befriended hidden strong warriors when they ascended, if they were to band together with Divine Weapon Heavenly Empire, Divine Martial Palace naturally wouldn't be scared, but they must consider the lost.

"I didn't aim him, just that.... Just that people of Divine Martial Palace have heard of his name before, and they all wanted to spar with him...."

Wang Quan haven't even finished speaking and Gu Dongchen interrupted: "but is this fair for him? This is you dereliction of duty, are you going to just leave it like this?"

Wang Quan frowned, Gu Dongchen wanted him to apologize to Chen Xiang, but he was the highest person in power in this King's Continent, Divine Martial Palace's palace master, how could he personally apologize to the ant like Chen Xiang.

"It wasn't because of the dereliction of duty of our Divine Martial Palace, it is just that Chen Xiang passed by the ambush locations by chance, that's why the ambusher attacked." Wang Quan said coldly.

"That's not the reason..."suddenly, a timid voice sounded, although it was soft, everyone basically heard it, they all looked at the same place at the same time, only to find out the person who spoke was beautiful young girl wearing blue dress, when her pair of cute eyes rotated, it even has blue lights.

The big shots waiting here all knew that this young girl was the first to reach the end, but none of them have any knowledge of her.

Lanlan seeing that everyone was looking at her, stuck out her tongue, and said softly: "earlier when i was on my way, i met those keys too, but they didn't block me, the guys riding the lion even asked me to go further away."

Chen Xiang cant help it but to laugh, but his heart was feeling weird, he always thought that Lanlan was part of Divine Martial Palace, but from the looks of it, she wasn't, otherwise saying these things would be equal to giving Wang Quan a tight slap in the face.

"Brat, you...." Wang Quan glared at Lanlan, only to see Lanlan make faces at him, her face not containing any trace of fear.

This made the crowd instantly liked the young girl in blue dress, and they knew that this Lanlan is also not simple, otherwise it would be impossible to fly to the end point so quickly, furthermore she is unafraid of Wang Quan, although she speaks very softly and looks very timid, her face had fearless written over her whole face.

"What i said is true, i have also seen that golden blade bear, that stupid bear even told me his plan, saying something about using a very powerful group formation to imprison this naughty Chen Xiang, making him unable to use True Qi or move, and the golden blade bears mission is to cut off both of Chen Xiang's arms." Lanlan said angrily when she saw Wang Quan being mad at her.

Hearing Lanlan call Chen Xiang naughty, Liu Menger and Hua Xiangyue rolled their eyes at Chen Xiang, and Chen Xiang was so embarrassed that he can't even raise his head up, he didn't think that Lanlan this girl who looked timid, would dare to say so much details.

"Lan brat you... you..." Wang Quan was breathless, he raised his hands, but had to put it down, as there was a lot of people watching, furthermore what Lanlan said was also true.

Wang Quan previously insisted that he didn't aim Chen Xiang, but after Lanlan this King's Continent warrior testified, this was simply pushing him to the abyss.

"Don't think that i'm scared of you because my grandfather died. Humph our Lan Family isn't as simple as you think, if necessary, our Lan Family can destroy your Divine Martial Palace anytime." seeing that Wang Quan wanted to hit her, she was very angry and said tenderly

Wang Quan gave a cold humph, jumped and flew away, if not Gu Dongchen might force him to apologize to Chen Xiang.

This moment, and elderly said: "there is still one more challenge, after clearing the next challenge, it would be martial arts competition last, now you have three days of rest, after three days, the next challenge will start."

"Chen Xiang, you better withdraw!" Hua Xiangyue said.

"I have already reached this point, if i give up now, wouldn't my suffering previously be for nothing?" Chen Xiang smiled lightly, if it wasn't for the Fruit of Fortune as reward, he would have quitted long ago.

But he was confident in himself, moreover the gap between now and the final martial arts competition were also not big, he would be able to get the Heavenly Grade pill and the Fruit of Fortune quickly.

Hua Xiangyue can also see that Chen Xiang came for the Fruit of Fortune, if it wasn't for her Danxiang Taoyuan disciple being incompetent, she will also make her disciples come and compete.

o

"Elder Ding, your Divine Martial Palace should be more sincere! Although Divine Martial Palace has the most influence in King's Continent, you should know that it is only on the surface! Our Wu Village and Blue Blood Clan is only disinclined to care about worldly affairs, if you guys do things too far, we will do the necessary move, in order to avoid you throwing the King Clan's honor." Wu Kaiming said.

Chen Xiang now know that there is still other powerful influences in King's Continent, the Wu Canghong that Chen Xiang previously met should be Wu Kaiming's old ancestor.

Elder Ding nodded: "I will speak with the palace master, he truly overdid it this time."

Wang Quan's disastrous defeat by Huang Jintian was known by many, everyone suspected that Wang Quan wanted to get revenge because of the matters in the past, so he intentionally made things difficult for Chen Xiang.

There was a lot of houses on the summit, but due to the temperature being low and Liu Menger's Ice True Qi she released just now, the houses were all covered in frost, making it more freezing, but now Liu Menger released flames to melt those frosts.

Liu Menger's purple fire spirit had ice characteristics, so her Ice True Qi was more overbearing, this was also part of Liu Menger's hidden strength.

Chen Xiang wasn't angry, he was now inside a room, digesting the memories, he treated those memories as a big present by Wang Quan, those four formation master's knowledge on formations far exceeds his expectation, those four people studied different things, when added together it becomes more astonishing.

Other than knowledge on formations and formations setting up experiences, Chen Xiang also obtained three of Divine Martial Palace's secret skills, these four people must be important characters in Divine Martial Palace, obtaining these secret skills was only average, the best part is that he now knew a lot of Divine Martial Palace's secrets.

For example, location of Divine Martial Palace's mysterious medicine garden, how to deal with the formation in the medicine garden. And Divine Martial Palace's Martial Arts Pavilion, Divine Martial Palace's alchemy rooms and Divine Martial Palace's dungeon and so forth.

Because these four people needed to lay formations there to protect those top secret places, therefore they were very clear on it, but now, Chen Xiang had all those memories!

Chapter 417: Evil Demon Mysterious Realm

Chen Xiang learnt from the memory that Divine Martial Palace's medicine garden only has one Fruit of Fortune, and it is still hanging on a dead tree, furthermore, there is unexpectedly some Five Elements True Elemental Pill and Foundation Building Pill's precious materials, there was two White Jade Lotus

and two Life Returning Grass, other than those, there is also quite a lot of herbs to refine Middle and High Grade Profound level Pill, it was basically a treasure trove.

This made him drool, and he wished to ransack it immediately, but it was only wishful thinking because there is a few Nirvana Realm warriors guarding it, once he was caught, it would be over for him.

Because King's Continent had a huge natural barrier, so the Three Realms Great War back then didn't have any impact on them, thus they were able to keep some rare herbs and martial skills, making their background very abundant, worthy of the first Continent in the mortal world.

Three days of rest ended very quickly, as Chen Xiang made it into top twenty, he was able to go to the next stage, no one knew anything about the next stage's content, so he and the rest are waiting at the summit for further announcement.

Wang Quan didn't come, instead it was Elder Ding who came, even without thinking everyone knows that Wang Quan didn't want to show his presence in the face of other strong warriors so as to avoid apologizing, so hiding was the best choice right now.

"This is the last stage's elimination round, the four person with the best results will move on to the fight in martial arts, and the last man standing will be rewarded." Divine Martial Palace's Elder Ding said.

Chen Xiang looked at the other warriors, and discovered that a there a number of them are Wang Quan disciples, they all have an air of arrogance, but their strength are pretty good, if not they wouldn't be able to reach this stage.

"This stages content is more unique, and will have a certain danger. In this stage, you will be sent to a mysterious realm that is detaining evil demons, the realm is called Evil Demon Mysterious Realm, many years ago, our King's Continent warriors captured and detained them, as of now there is quite a number of them Evil Demons in the realm, the strongest should be at peak Extreme State, and none at Nirvana Realm, this is personally verified by us, Divine Martial Palace."

Hearing that this stage was this scary, Chen Xiang and others had different complexions, some were worried, some were excited and Chen Xiang was very calm, if it is really in a mysterious realm, he wasn't any afraid, because he is very confident in his hiding ability.

"In there has a kind of Extreme State evil demons, they all have a demon core within their bodies, this demon core contains very pure white energy, and it is equivalent to our Dantian's True Qi Ball, it stores huge quantities of pure True Qi and Life force, with a lot of uses! Once inside, you will need to find and kill those evil demons, you will be ranked according to the amount of Demon Core you have obtained, and those demon cores will be yours to use too."

Chen Xiang secretly nodded, this was considered good, these Demon Cores made him want to stir up trouble, because it contains all of Extreme Realm's energy, the best way to use it was to lay down formations or refine weapons, while the life force within the demon core can be extracted to refine pills, when refining pills, you can add a little in and the pills healing effect will be better.

"Elder Ding, can we have confront each other when we are inside?" Lanlan asked.

“This... Yes, you can have conflicts, but i believe everyone is clear that having a confrontation is a waste of time and wiends no benefit. But sometimes when martial arts sparring will be necessary to solve a conflict, for example, two people finding the same evil demons at the same time...”

Chen Xiang asked: “what if someone died during the confrontation? Blade and knives have no eyes.”

“This is same as the previous preliminary contest, no one will be blamed for dieing, if you are scared of death, you can quit now.” Elder Ding said.

Chen Xiang suddenly felt a number of cold gazes filled with killing intent staring at him, these youngsters was always with Wang Quan, they were all Wang Quan’s disciple, all of them were Blood Warrior, so their strengths were all unfathomable, furthermore they are not even the abit scared of Chen Xiang even after hearing what Chen Xiang did on his way here, they were all the same, they don’t think highly of Chen Xiang.

Thus, Chen Xiang determined that those youngsters aren’t simple, after going in, he need to be alert against those guys.

“If you are scared, you can choose to withdraw now!” Elder DIng looked at Chen Xiang and rest of the young warriors, waited awhile and still no one withdrew, they have already reached this stage, if they were to withdraw now it will not be worth it.

“Ok, you can start entering now, the time limit is ten days, at the last day, in the sky of the mysterious realm will appear an exit, all you need to do is jump higher and you will be able to exit.”Elder Ding said.

Liu Menger transmitted her voice to Chen Xiang: “Little rascal, you better be careful, those demons strength aren’t weak, and try to avoid having any conflict with disciples of Wang Quan.”

“I know!” Chen Xiang replied, seeing Liu Menger care so much about him, he was very elated in his heart.

Elder Ding said: “first one to go is Lanlan, we will let you in according to the ranking,one will enter every two hour..”

Hearing this rule, Chen Xiang was cursing in his heart, but he was unable to say anything, because there was another five people behind him, those people will take longer to go in.

Chen Xiang was ranked fifteenth, so he needed to wait more than twenty hours, this was already one day worth of time, he was already behind others by one day plus.

A ball of white light gradually opened, space power gushes out, following a smell filled with evil spookiness, now Chen Xiang and others know why they needed to come her, because there was a mysterious realm here, and opening the gate to the mysterious realm was easier here.

Divine Martial Palace had kept quiet about this realm so long that even the four formation masters didn’t know.

o

“I’ll go first!” Lanlan smiled tenderly, and jump into the gate, there wasn’t even a hint of nervousness, it is hard to believe that such a cute girl like her was not scared of those evil demons.

At this time, people gradually left, because there was nothing to watch this stage, it was all happening in the mysterious realm, Liu Menger and Hua Xiangyue nagged at Chen Xiang over and over again, before leaving together, only Gu Dongchen and Wu Kaiming stayed to wait for him to go in.

Chen Xiang waited here for a day and a little more, but he was able to keep calm, he was absorbing the memories during this time, those things will be very helpful to him, this would allow him to have a solid foundation on formations and weapon refining.

“Chen Xiang, it’s your turn!” Elder Ding said.

Chen Xiang opened his eyes, and walked over while smiling.

“This gate is able to transport all twenty of you to different places, so you don’t need to worry about getting ambushed as soon as you reach there, hopefully you will once again get good results.” Elder Ding said to Chen Xiang, he was not like Wang Quan who hates Chen Xiang to the bone, he was still acceptable of Chen Xiang.

Chen Xiang nodded, and stepped over the gate, everything blacked, and he soon arrived at a dim world, in was filled with thick death Qi in here, but what draws the attention of others is that the plants here was filled with vitality, he was able to see a lot of tall trees, and some dark colored strange flowers, all and all the atmosphere here wasn’t as bad as he had imagined.

Chapter 418: Suppressing Devil Yuan Qi

After Chen Xiang came here, he discovered that other than the frigid evil aura, there was also quite a lot of pure Spirit Qi, these Spirit Qi filled up the sky, but once it sinks down, it will be corroded by the evil aura.

“Worthy of being a mysterious realm, even after detaining so many beasts, it is still able to produce this much pure Spirit Qi.” Chen Xiang looked at the trees and said, these trees were able to grow very well because of the Spirit Qi here.

The creation of mysterious realm was very complicated, the conditions were very high, if it is a mysterious realm, the Spirit Qi is usually more thick, and this particular realm was used to detain beasts tens of thousands of years ago.

Chen Xiang had to admire the lifeforms in this demon world, unexpectedly it is able to survive this long, although the strength did not increase, the lifespan had far overtook humans, this is not what humans can achieve.

“There’s something coming!” Long Xueyi quickly shouted, Chen Xiang also heard some noise, like a huge group coming in all directions.

Su Meiyao urged: “Don’t treat it lightly, these beasts were from tens of thousands of years ago, even if their strength did not increase, their intelligence will definitely not be bad, otherwise they wouldn’t have survived this long.”

Living here in this place for ten thousand years, those able to live till now were definitely strong, but now there is a group surrounding Chen Xiang.

“Why did the King’s Continent back then detain so many things here? How did they do it?” Chen Xiang could tell from the movements that there is a lot of beasts coming towards him, these beasts all have demon and beast characteristics, their sense of smell and other senses are much stronger than humans, thus they were able to detect that there is human at this direction.

“Maybe Space formations were used to transport this bunch of beasts here, and this mysterious realm was definitely emptied by King’s Continent, this way, they could slowly kill those beasts without moving.” Su Meiyao said.

At this point, those beasts were like a thousand frantic horses running wildly, but Chen Xiang wasn’t afraid, he had already taken out the Azure Dragon Slaughtering Blade, this blade was very effective against Demons and Beasts, and this time he also wanted to test out the prowess of Suppressing Devil divine art.

Sensing that there is a large number of beasts nearby, Chen Xiang felt the Azure Dragon Slaughtering Blade tremble, seeming very excited, and Chen Xiang also felt the Suppressing Devil Yuan Qi fluctuate, making Chen Xiang’s blood boil, infecting Chen Xiang, making him want to immediately start slaughtering.

“Its coming!” Chen Xiang only saw a group of beast with human body or human with beast body rushing out from the forest, knocking down many trees, each showing their sharp claws, emitting different howls, making the scene very scary.

Even if it was Chen Xiang, he still felt numb about it, in this dim environment, suddenly appeared a group of horrifying creatures, everyone would not feel good, luckily Chen Xiang had already met those beasts before, so at this moment he was pretty calm.

“Haha... its human, everyone, release your poison, and poison this weak human to death, we can then slowly enjoy human meat.” a sharp voice sounded Chen Xiang felt his hair standing when he heard the voice.

Following the voice, Chen Xiang saw many beasts emitting colourful gases from their mouth, these things were all poisonous, and when it touched a tree, the tree would instantly melt, showing that the toxicity was very strong.

After cultivating Suppressing Devil divine arts, Chen Xiang was immune to all poisons, even Bai Youyou’s sister, Bai Ziqian was not able to poison him, let alone these small troops in the beast world.

Chen Xiang moved his palm, and operated Tai Chi Subduing Dragon Divine Art, a very strong suction force was produced in his palm, sucking all the poisonous gas towards his palm, and then he concentrated the different poisonous gases together, along with the strong suction force, the poison formed a vortex, pressed together, and finally formed into a small Qi ball.

Those beasts blanked, they have lived for tens of thousands of years so they have high intelligence, they of course now what was happening in front of their own eyes, they also know very clearly that what the highly condensed Qi ball in Chen Xiang’s hands meant.

“Ill return this to you!” Chen Xiang laughed coldly, only to see the “poison ball” in Chen Xiang’s palm fly out, it shot into the group of beasts and exploded, exploding out a lot of dark mist, following it is a lot of

miserable howling, those originally clumped up beasts separated, they all know that the poisonous gas was very scary.

Those poisonous gas were made by Chen Xiang by merging and condensing to form a very strong poisonous gas, even these beasts could not easily touch it without any protection.

These group of beasts were furiously scolding Chen Xiang this anomaly, who is unexpectedly not afraid of poison, and was even able to easily mix different poisonous gas together like a game.

Chen Xiang smiled slightly, his body erupted a pure and holy light, the Qi scatters from his body and turns golden ,this was Suppressing Devil Yuan Qi, Chen Xiang seldom used this.

Feeling this type of aura, those beast suddenly felt scared, they felt that in front of this strength, they were like ants facing against the mighty gods.

The Suppressing Devil Yuan Qi disappeared, Chen Xiang released the aura to test if the beasts were really afraid of it, from the way the beasts were shouting and wailing frantically, he knew that the Suppressing Devil Yuan Qi was very strong.

Chen Xiang rushed into the group of beasts, waved the Azure Dragon Slaughtering Blade ins his arms, when filling it with True Qi, he also added Suppressing Devil Yuan Qi.

With a wave, Chen Xiang hacked a lion-headed man from the waist, this lion-headed man let out a ghastly wail and died, and there was smoke coming out from the part where he was cut, the beast's body was very corroded by the Suppressing Devil Yuan Qi.

Chen Xiang slashed his blade, exploding out Qi waves into the surrounding and hits the body of the beast, he saw the beasts looked like it got hit by a scalding hot molten iron, they were producing smoke and melting.

This point, Chen Xiang couldn't help but admire the creator of this Suppressing Devil divine art, he was unexpectedly able to to make the Suppressing Yuan Qi so effective against beasts.

Chen Xiang shua shua shua shua, waved his blade, his body filled with True Qi, following the Suppressing Devil Yuan Qi exploding out, making those beasts near him run in all directions, originally, they thought that Chen Xiang was a weak human, but they had never thought that he was like a Devil God, madly slaughtering them, furthermore he can even use a type of energy that made them felt scared.

[TL Note: shua shua shua shua is the sound of blade cutting through air.]

“Want to flee? Impossible!” Chen Xiang jumped into the sky, quickly turning True Qi into Suppressing Devil Yuan Qi, facing the ground with a palm, only to see a huge white palm made from Suppressing Devil Yuan Qi congeal, and ferociously pressed down, covering the group of beasts.

The ground shook, that palm made from Suppressing Devil Yuan Qi exploded, Qi wave rushed everywhere, similar to a tide sweeping across the surrounding, instantly, the surrounding escaping beasts were submerged.

Along with cries of agony, a very smelly odor arises, those beasts were corroded by the Suppressing Devil Yuan Qi, all of them were corroded beyond recognition.

Chapter 419: Wolf Slave

Chen Xiang lightly landed on the floor, and looked towards a direction, sensed there is an aura weakening in that direction, during the chaos just now, a monster escaped.

The strength of the monster was strong, it might be the leader of the group of monster just now, most likely it will have a monster core, and the motive of Chen Xiang coming here wasn't to slaughter these monsters, but was to collect monster cores for a competition.

Chen Xiang immediately chased after it, this was the first strong monster he encountered in this mysterious realm, he won't let it go.

Those little monsters number in thousands, but none of them have any monster cores, Su Meiyao and Bai Youyou said before, that monster cores are very valuable, each piece can be at least sold for five hundred thousand crystal stones, in ancient times, it was commonly used to lay formations because it contains very pure energy.

Chen Xiang very quickly saw the escaping big monster, as the distance got smaller, he was able to clearly feel that within the monster is a ball of extremely pure energy, he can confirm that, it was a big monster.

"It actually is a wolfman." Chen Xiang said, although it is a monster, he felt that it was more like a monster man, because most of them transformed from monster monsters, and they have high intelligence, that's why they are called Evil monsters.

"Long time ago they were indeed called beastmen, but humanity thought that it was insulting to them, so they were renamed to Evil monster." Long Xueyi said.

Chen Xiang laughed: "It would be better if they were more stupid, this way it wouldn't feel scared and afraid and I wouldn't need to chase for it bitterly."

If it was a dumber monster, it would already fight to the death with Chen Xiang already.

"Almost there!" Chen Xiang smiled, only to see water True Qi flow out of his body, and the running monster in front fell down head first, this monster's ankle was wrapped with Chen Xiang's water vine.

This werewolf felt a scalding hot wind coming over, immediately whined and said: "Don't kill me!"

Chen Xiang originally wanted to directly take the monster core in this werewolf, but he suddenly had an idea.

"Give me a reason why I should keep you, or I will take your monster core!" Chen Xiang's voice contained a frightening tone, and he also released the Suppressing Devil Yuan Qi to make the werewolf uncomfortable.

The werewolf was scared witless, although he is at Spirit Warrior Realm beginning stage, but he was unable to face off against both Devil Suppressing Yuan Qi and Azure Dragon Slaughtering Blade.

"I....I don't know, but I can be your goon, I can guide you to find what you want." the werewolf hurriedly said.

Chen Xiang smiled: "I don't trust you!"

The werewolf's forehead suddenly appeared a spirit pattern, seeing this spirit pattern, Su Meiyao said: "this is the life contract of this evil monster, if you receive it, you can control his life using this contract"

Chen Xiang caught the spirit pattern, the spirit pattern went into this palm and disappeared, but he could feel a marvelous feeling, he found out that with a thought, he can kill this werewolf.

"After living for ten thousands of years, as expected you didn't waste it." Chen Xiang laughed, he needed a guide, otherwise he wouldn't know where to get monster cores in this vast mysterious realm, but this werewolf should know.

Although Chen Xiang had the Suppressing Devil Yuan Qi, but in this mysterious realm wasn't absolutely safe, there maybe stronger monsters, it was strength close to Nirvana realm, and this werewolf have lived here for so many years, it surely knows where the influences extend to..

"Master, if you have anything for this slave, just speak of it!" the werewolf stood up, and said formally, although he was half monster half human, Chen Xiang found him pleasing to the eyes, and no sense of loathing at all.

Chen Xiang asked: "In these one or two days, have you seen any other humans here.?"

The werewolf shook his head: "replying master, i have not met any but i have heard other tribes had met some."

Chen Xiang nodded his head: "in the future, there is no need to call me master, just reply my question"

He once again asked: "I need huge quantity of monster cores, you just have to lead the way, leave the rest to me."

That werewolf stared blankly: "no problem, there is a lot of guys here with monster cores, but if too many died at once, it would arouse the this land's demon."

"Oh? What is the strength of the king here?" Chen Xiang asked.

This werewolf knew quite a lot of things: "Only one step more to attract the Nirvana Tribulation, only that in this mysterious realm, Nirvana Tribulation does not appear here, thus they are unable to breakthrough."

"Relax, you only need to lead the way!" Chen Xiang said.

The werewolf's red eyes shows traces of worry, but his life was now in the hands of Chen Xiang, he could only follow instruction, otherwise, Chen Xiang could

"Master, you better disguise yourself, this way you would be safer." the werewolf said in a low voice, he was worried that it would cause Chen Xiang to be angry.

Chen Xiang nodded his head, only to see a tail appear behind him, his legs grew some white fur, from the looks, Chen Xiang had turned into a white tiger, looking very similar to an evil monster.

Now Chen Xiang's spiritual strength was enough for him to turn into a beast with a white tiger shape, to turn a small part of his body was not difficult.

That werewolf was shocked in his heart, he didn't know how Chen Xiang did it, he even suspected that Chen Xiang was a monster too, because it was too similar.

"White tiger monster, there is a lot of these kind of monsters." the werewolf said: "master, please follow me."

The werewolf ran, Chen Xiang also ran at the same speed, following behind him, he guessed that the werewolf is bringing him to find the first target, most likely it would be the nemesis of this werewolf.

Chen Xiang can't be bothered, he was only here for less than nine days, he needs to get as much monster core as possible in this nine days.

This stage's competition was very harsh, only four of twenty people could advance, this made Chen Xiang feel quite some pressure.

"Wolf slave, how many demons with demon core are here?" Chen Xiang asked.

"There is about fifty around here, most of them are stronger than me, some are even stronger, the one called king is not nearby, but he might come." the werewolf said.

Chen Xiang was currently thinking of an all round plan, there is quite a lot of demons here, if there is a massacre, it might agitate the so called Kings, and did would not be a loss.

Suddenly, Chen Xiang had a flash of insight, he had always wanted to test out the formation in his mind, if used to make a trap, it would be pretty good.

He took out a Hundred Beast pill, and gives it to the werewolf: "Do you eat this stuff?"

The werewolf came to a conclusion, gave it a smell, and was instantly happy, the werewolf immediately gulped down on it.

Seeing that the demons like this thing, Chen Xiang was secretly happy, he had a lot of Hundred Beast Pills, enough to use as bait to lure those big evil demons with demon core

Chapter 420: Skillfully taking demon cores

"Master, could this be the pill of the mortal world? According to my knowledge, in this mysterious realm, only a certain fruit have the effects of this pill." the werewolf said with feeling.

Chen Xiang's eyes shined, he previously thought that there was no Heaven and Earth treasures here: "What fruit? Where is it located?"

The werewolf stopped: "master, do you want to get the demon core first, or do find the tree?"

Chen Xiang thought for a while, then asked: "are you the only one who knows about the location of the tree? Is there any strong guys there?"

"That's not the case, only that the tree is located at dangerous place, that place is filled with strange energy, we can't even get close to it, those who claimed to be kings tried their hardest and was only able to pluck one out, but the effect wasn't as great, so they stopped picking it, i think master can try to pick it"

Chen Xiang nodded his head: “if that is the case, let’s get a demon core first, i’m afraid that it would get taken by others.”

The werewolf continued to lead Chen Xiang, he knew that Chen Xiang was rushing for time, so the speed was very fast, not long later, Long Xueyi felt that there are demons in front.

“It’s in front, their total number is about two thousand, they are much more influential than me.” the werewolf said, while sighing lightly, his influence was not small, but it was ruined by Chen Xiang instantly, thinking of Chen Xiang’s horrifying strength, he had lingering fear, he personally saw many of his subordinates experience that type of extremely uncomfortable strength.

[TL Note: this sentence looks weird lol]

Chen Xiang said in a low voice: “you wait here for me, i’ll take a look.”

The werewolf hid behind a tree, while Chen Xiang drilled into the grass, at the same time followed Long Xueyi’s instruction to turn into a lion-headed person, mixing into the tribe.

Chen Xiang was not discovered, only that some demons found his strange, but they were not suspicious, because there were often cases of rebels from other tribes coming, thus meeting a strange demon did not make them feel strange.

There was a lot of thatched roofed huts, Chen Xiang very quickly found the tribe leader, it was in a bigger wooden house, the leaders here were similar in strength with the werewolf, having Spirit Warrior realm beginning stage strength.

“There are two! Be careful, there is one hiding under the ground, just now he let out a breath and was found out by me, it should be the tribe’s second in command.” Long Xueyi reminded Chen Xiang.

Chen Xiang circled to the window area of the wooden house, most of the demons in this tribe were resting, only a few were patrolling. Even so, he would not alert other demons to avoid getting surrounded, he did not want to attract the attention of those so-called Kings.

Feeling the big demon’s position in the wooden house, Chen Xiang took out the Demanding Life Devil Bow, aimed at the big demons in the wooden house, instilled his thick True Qi, preparing for a silent assassination.

The Demanding Life Bow was an assassination weapon, along with the increase in Chen Xiang’s strength, the arrow shot out will be more powerful, to kill a beginning stage Spirit Martial realm beast was not a difficult thing.

According to his Spiritual Strength’s probing, that demon was lying on a stone bed resting, Chen Xiang aimed at the big demon’s head, pulled the trigger on the Demanding Life Devil Bow, shooting out a hidden arrow.

The hidden arrow silently went through the wooden floor, flying straight towards the demon’s head, after Chen Xiang felt the demon’s aura weakening, immediately came to the window area, and jumped in.

This demon is a leopard-headed man, his forehead was half blown off when the hidden arrow was shot out, and it is already dead.

Chen Xiang activated his Suppressing Devil divine art, released the Suppressing Devil Yuan Qi, his hands like eagle claw, along with the Suppressing Devil Yuan Qi, fiercely stabbed towards the demon's chest, and effortlessly pierced through the solid muscle, taking out a pure white heart like item.

"This is a demon core? What a pure energy, i didn't think that these guys energy was this pure!" Chen Xiang said shockingly.

"Of course, only that when they used this pure energy, it would turn extremely evil when it passed through their innate ability." Su Meiyao said.

Chen Xiang kept the demon core, used the Suppressing Devil Yuan Qi to corrode the body, and silently left the wooden house, walking into another direction, Long Xueyi told him that, towards there was also another demon with demon core.

"That guy is underground, most probably sleeping!" Long Xueyi said in a low voice.

Chen Xiang saw that there was no one around, and the patrolling demons didn't dare to pass through here, Chen Xiang quietly neared the place, hiding near a huge log, not letting any patrols see him.

"Looks like demons with demon core all have their own influence, if he wants to kill them, it is necessary to go pass their subordinates first!" Chen Xiang said in his heart, he had many ways to assassinate. If it was other people, it might be hard to achieve, in another word, those King's Continent disciples can easily attract over the so called Kings.

Holding on to a Demanding Life Devil Bow, he quickly instilled thick and strong True Qi, at this point, Chen Xiang felt that the Demanding Life Devil Bow had reached a bottleneck, because when he instilled to much strong True Qi, the Demanding Life Devil Bow would shake, if he were to continue pumping True Qi, the Demanding Life Devil Bow might break.

A black key shot out, shooting into the ground, making a small hole, Chen Xiang's Spiritual Sense was strong, so he was able to feel that he had shot a life threatening shot directly at the head of the demon underground.

[TL Note: lmao black key, rip idk what author was writing there the raw just said he shoot out a black key]

After hitting, Chen Xiang quickly walked over, reached out his hand to grab, his hands went through the ground, grabbing the demon core, afterwards, he once again pumped out large quantity of Suppressing Devil Yuan Qi, corroding the body of the beast.

The werewolf though that he would need to wait very long, maybe he might even need to help Chen Xiang to fight off the big tribes, just when he was dreaming, Chen Xiang suddenly appeared and gave him a pat on his shoulder, smiled: "I've got it, now bring me to the tree!"

The werewolf was shocked: "so quick?"

Chen Xiang brought out two demon cores, laughed: " of course I'm quick, do you want to personally check it?"

The werewolf's body fiercely shook, thinking of how his own demon core would be taken out, he felt extremely scared, he didn't understand how Chen Xiang was able to silently do it, furthermore, his speed was so quick

In just a short one hour, Chen Xiang had got two demon core, his gain was not considered small. If not for the werewolf leading the way, maybe he had to find for it everywhere, and he would even have to fight large amounts of demons, finally he would attract the kings, and that would be a very annoying thing.

Chen Xiang followed the werewolf to a gloomy swamp ground, that place was filled with poisonous miasma, that werewolf doesn't seem to be afraid of poison, Chen Xiang was absolutely not afraid of poison at all.

"It is in front the shining place, no one knows where the energy came from, but we do not dare to get near!" the werewolf pointed in front and said.

"Could it be a Pure Elemental Fruit?" Su Meiyao said in alarm.
