

Dan God 461

[Chapter 461 – Tensed Situation](#)

The array that was protecting the garden disappeared. As Chen Xiang and Hua Xiangyue walked into the herb garden, their sight was filled with rare and precious herbs. A majority of which, Chen Xiang wasn't in short supply, like herbs for Building Foundation Dan, Five Elements True Elemental Dan, Hundred Beast Dans, these low-grade profound-level dans. What he was lacking was the herbs for middle-grade and high-grade profound-level dans.

"The Resurrection Grass and Nine Elemental Flower, take them. What else do you need, tell me!" Chen Xiang generously offered.

"I don't want them, keep them for yourself!" Hua Xiangyue heaved a sigh. There were only two each of Resurrection Grass and Nine Elemental Flower, that's all.

Chen Xiang pursed his lips, "Alright!"

"Penta Crystal Dragon Fruit, I have not seen it for a long time!" Hua Xiangyue gazed at a fruit on a tree with surprise. Although there was only one, it was regarded as the most important thing by Hua Xiangyue.

Chen Xiang cracked a smile and said, "This is one of the main ingredients for refining Five Elements Profound Dan, right!"

Hua Xiangyue nodded in acknowledgment. "Last time, you were only able to stride into the Extreme State because you ate Five Elements Profound Fan!"

Chen Xiang had gotten that Five Elements Profound Dan from Wang Quan. It indeed played a crucial role in Chen Xiang's entering the Extreme State.

"Profound Lightning Grass! With its Profound Lightning Seed plus with the Lightning Element Fruit that you bought from the auction earlier, you can refine Heavenly Lightning Pellet. The Heavenly Lightning Pellet is an attack-type middle-grade profound-level dan!" Su Meiyao said.

Hearing Su Meiyao's remark, Chen Xiang lightly caressed an approximately one foot tall grass. But just as he did, flashes of lightning glittered on its surface, which caused Chen Xiang to jump back in fright.

"True Purple Figwort, Nine Fruits Flower, Golden Fameflower, this are but the herbs to refine Innate Nine Elements Dan, which is quite similar to Five Elements True Elemental Dan, it can allow its consumer to obtain a vast amount of True Qi very quickly." Hua Xiangyue was wandering about the herb garden. Needed as the herbs in here were for her, they were all in random, incomplete set per se. Furthermore, there were very few in number. Also, she could not bear to take Chen Xiang's things.

A vast majority of herbs here were either low-grade profound-level herbs or spirit-level herbs. Middle-grade and high-grade profound-level herbs were very few in number. As for earth-level herbs, there were only two, which were for the Resurrection Dan.

However, as far as Chen Xiang was concerned, it was a pretty big harvest. Currently, he started to move these herbs into the herb garden inside his ring. Surprisingly, the ring could still accommodate these many herbs.

There were also many auxiliary herbs in the herb garden, all of which were ten thousand years older. These could be dug up and saved, there was no need to plant them again.

With the help of Hua Xiangyue, the herb garden was emptied out very soon.

“Do you want the soil? This is spirit soil!” Hua Xiangyue asked. There was with a frown on her brow. She was very clear what was so precious about this soil.

“I don’t need it. Do you want it?” Chen Xiang wasn’t lacking spirit soil, he already had a lot of it.

“Since you don’t need, I am taking it!” Hua Xiangyue’s hand was already in motion. Using that ultrastrong strength of her, she made a large quantity of soil float in the air before storing it inside her storage ring.

Chen Xiang pursed his lips into a smile and said, “Sister Xiangyue, you went through so much trouble to come here with me, and yet gained nothing. Also, you have been taken advantage of by me, I am really sorry!”

“Go to hell, you scoundrel, you still talking about that embarrassing thing!” Hua Xiangyue let out a tender snort as he stepped on Chen Xiang’s foot. Recalling Chen Xiang fondling her breast, she was fuming in anger.

Just like this, Chen Xiang and Hua Xiangyue frolic about as they left this underground herb garden. Chen Xiang knew that his hands would be full later, for he had to plant many herbs, refine many dans, train his own forces, improve his cultivation. This was all in order to be ready for the approaching Great Battle of Three Realms.

The Chenwu Mainland was the frontline of the Mortal Martial World. As a disciple of Extreme Martial Sect, he was under a lot of pressure. At that time, so long as the Extreme Martial Sect disciple was powerful, he would have to deal with those demons and devils.

“Sister Xiangyue, when is the Great Battle of Three Realms about to start?” asked Chen Xiang.

Hearing this question, Hua Xiangyue could not help but heave a sigh. This was something which every expert of the Chenwu Mainland was worried about. Because that would be the day when the Chenwu Mainland would be plunged into misery.

“There is still some time to prepare. You must survive the battle!” Pulling Chen Xiang’s hand, Hua Xiangyue held it very, very tightly. Worry was clearly written on her face. The complex look in her eyes puzzled Chen Xiang.

“Mhmm, I give you my word!” Having promised, Chen Xiang took out that disc and look through the coordinates recorded in it. Very soon, he found a teleportation point close to the Kings’ City.

Seeing Chen Xiang take out this thing, Hua Xiangyue’s heart was gripped with fear. Earlier, when she went through this thing with Chen Xiang, it led to a very dreadful place where they encountered a dragon!

“Don’t worry, this time we will be directly leaving this ghastly place!” said Chen Xiang, a smile on his lips. Having assured Hua Xiangyue, he opened a space door and entered it, pulling Hua Xiangyue.

In just a blink of an eye, they emerged in a forest. The trees in the forest were very common. The spirit qi in here was also thinner than the spirit qi in the forest they were in before.

“Where are we?” Hua Xiangyue was shocked. Now only did she come to realize how amazing the disc in Chen Xiang’s hand was. With this, he could pierce through space and go to a faraway place anytime and from anywhere.

Chen Xiang broke into a laugh and answered, “We are just outside the Kings’ City. We can return to the Chenwu Mainland very soon.”

Although there was a teleportation point recorded in the Luo Tian Door for the Chenwu Mainland, Chen Xiang’s current strength was limited. He was still unable to open a space door that could traverse through such a long distance.

Hua Xiangyue and Chen Xiang, with a mask on their faces, entered the Kings’ City and returned to the Chenwu Mainland through the teleportation array right after; to be precise, returned to the topmost floor of the Danxiang Tower.

“We are finally back, I never thought I would actually encounter so many things on a trip with you, Little Rascal!” Hua Xiangyue spoke with feelings. More importantly, it was more fun to go with Chen Xiang than going by herself. Whenever she went alone, she would get bored to death. Furthermore, she would be aimlessly searching for herbs all day.

Chen Xiang broke into a laugh and said, “Next time, I will take you and Meng’er together, hei hei!”

Seeing that perverted smile, Hua Xiangyue rolled her eyes at Chen Xiang. “You have a wife, behave yourself!”

“I have been behaving very honestly, otherwise, you would long have been eaten by me,” said Chen Xiang, laughing honestly.

“Go away, I am very busy.” Hua Xiangyue harrumphed tenderly.

Chen Xiang suddenly came to her side and gave a peck on her cheek before jumping out of the window.

“Little Rascal...” Hua Xiangyue shouted in a cutesy voice. As she caressed the place kissed by Chen Xiang, a charming blush appeared on her face. She was kissed by a man for the first time.

Chen Xiang, who was in a wonderful mood, flew out of the Taoyuan Province and returned to the Extreme Martial Sect very soon.

“Sigh, Qianqian, where are you? I am bored to death here!” Chen Xiang heaved a sigh as he murmured to himself. The Extreme Dan King Courtyard had always been deserted. Except for Chen Xiang, this place was devoid of anyone.

With no choice at hand, Chen Xiang could only look for Yun Xiandao and the others. But he was disappointed once again. He didn’t find anyone. All of them were going through brutal training under Gu Dongchen’s arrangement.

Not only Yun Xiaodao’s group, all the disciples of Extreme Martial Sect were training three times harder than before. This was all in order to be prepared for that Great Battle of Three Realms.

At this moment, the news about the Great Battle of Three Realms could not be concealed. It had already spread far and wide across the Chenwu Mainland. Knowing that the demons and devils would enter the Chenwu Mainland, the Chenwu Mainland had already gone through many changes. Everyone was on their tenterhooks.

[Chapter 462 – Still a Long Way to Go](#)

A short while after Chen Xiang returned to the Extreme Martial Sect, he took another trip to the Divine Weapon Heavenly Empire, looking for Liu Meng'er. However, to his disappointment, Liu Menger had yet not returned, leaving him no choice but to return to the Extreme Dan King Courtyard and wait.

"It seems I have to make a trip to the Icewind Valley myself to look for her," Chen Xiang wondered. Then, he closed his eyes, trying to congeal the Golden Dragon Saliva. He ventured that Hua Xiangyue was in very much need of the Resurrection Dan herbs and the Fruit of Fortune. Although he has had not the faintest of an idea as to what were her feelings for him, he trusted Hua Xiangyue very much. Not to mention, this beautiful and charming woman had helped him so many times.

Now that he had entered the Extreme State, the ripening ability of the Golden Dragon Saliva had been strengthened a lot. Su Meiyao had once said that if and when Chen Xiang's cultivation reached a certain level, the Dragon Saliva congealed could mature some spirit herbs by a couple millennia in the blink of an eye.

Chen Xiang's current Golden Dragon Saliva was also pretty good. According to his estimation, he would be able to get five sets of Resurrection Dan herbs and a Fruit of Fortune in just two months.

The herbs of Resurrection Dan had long been planted by him. Moreover, he had also acquired two sets of herbs from the underground herb garden in the Sacred Ancient Land. At present, his focus was on that Tree of Fortune.

He was planting a heaven-level spirit herb for the first time, and a tree at that.

All Chen Xiang knew was that the Good Fortune Dan was used by the Nirvana cultivators to improve their strength. Once a cultivator had entered the Nirvana Realm, he or she needed to compress a lot of his or her True Qi. Ordinary dans had little to no effect on them. Taking a Good Fortune Dan would allow them to save a lot of time in their cultivation.

"Good Fortune Dan is needed by martial artists who had crossed six or more Nirvana Tribulations. Even the immortals who had crossed the ninth tribulations would need this dan to quickly improve their cultivations! You should know that the Good Fortune Dan not only improves one's True Qi, it helps in improving one's divine sense and physique as well. This is an all-purpose dan. Even in the Heavenly Realm, it's rare and in demand," explained Su Meiyao.

Chen Xiang asked, "Is Fruit of Fortune the only main ingredient for refining the Good Fortune Dan?"

"It can be refined in that way, however, there are some alchemists who would add some other heaven-level spirit herbs to increase their chances of success! If it's you, I think you can directly use this Fruit of Fortune plus auxiliary herbs that are ten thousand years old or older to refine. However, your current divine sense and True Qi is still lacking!"

Since True Qi was used to release the flames, the stronger the flame released, the more the True Qi is needed. And as a heaven-level spirit fruit, the Fruit of Fortune had a very tenacious life force. In other words, any ordinary flames were simply ineffective to this level of fruit.

“Even the immortals of the Heavenly Realm needs it! If in the future, I can have many Good Fortune Dan, wouldn’t I be able to roam in the Heavenly Realm rather aloofly?” Chen Xiang said, excited.

“Not necessarily, those forces of the Heavenly Realm won’t allow a new force with a lot of resources to emerge, either they would rope you in or destroy you! If you didn’t have the backing of the Extreme Martial Sect, Liu Menger, and Hua Xiangyue, the same principle would have also applied in the Mortal Martial World,” Bai Youyou poured cold water of all of Chen Xiang’s excitement.

Last time, when Chen Xiang was participating in the alchemy competition on Kings’ Mainland, he had refined many Five Elements True Elemental Dans. At that time, Wanq Quan was so jealous of him that he wanted Chen Xiang dead, because with that kind dans, Chen Xiang could train many powerful True Martial Realm martial artists, that was something that no money could buy.

Su Meiyao and Bai Youyou were guiding Chen Xiang with zeal and vigor because they wanted to make Chen Xiang ascend into the Heavenly Realm as soon as possible. Only there Chen Xiang could find the herbs which could make restore their strength. However, Chen Xiang still had a long way to go for that.

At present, they began preparing Chen Xiang for the Heavenly Realm. Early as it might look, they believe that with Chen Xiang’s current speed, it was about time.

“Young Martial Uncle, open the door! You have shut yourself in for over a month, everything is about to get mildewed!” Gu Dongchen exhorted to open the door.

In fact, Gu Dongchen had come a several times looking for Chen Xiang, but Chen Xiang simply didn’t open the door. Only Chen Xiang could deny an honorable dean of Extreme Martial Sect entrance at the door.

“Little Featherhead, you are a dean, but you still seemed to be at leisure and free! My disciple, who is in the early-stage of the Spirit Martial Realm is busy, yet why are you goofing around?” finally opening the door, Chen Xiang spoke in a rude manner.

Gu Dongchen pursed his lips and said, “Where have I had the time to be so free? I have been training those little rascals of King Courtyard all day, also, I have to pay attention to the overall situation, stabilize the entire Extreme Martial Province! Junior Brother is about to cross Nirvana Tribulation, I am neck deep in work!”

“Then, why are you still bothering me?” Chen Xiang invited Gu Dongchen in.

“I wanted to buy a bit of your Five Elements True Elemental Dans, you can offer your price!”

Gu Dongchen, with a bitter smile on his face, continued, “I am at your door, ready to let you butcher me, are you still not happy?”

“Two million crystal stones for one, don’t bargain with me,” Chen Xiang said as a sinister smile crept up on his lips. Since Gu Dongchen had delivered himself to get slaughtered, why would Chen Xiang not butcher him ruthlessly?

Hearing the price, a forlorn look immediately appeared on Gu Dongchen's face. He shook his head as he heaved a sigh. "How good it would have been if I had a beautiful daughter? Maybe you would have given me the dans for free!"

"Give me a hundred dans at first!" Gu Dongchen said.

"Pay me with True Elemental Dans," said Chen Xiang. He was in need of a lot of True Elemental Dans. When he was going to train his own force, he would use dan sea technique; smash everyone to death with his dans. He was going to build a small army of three thousand True Martial Realm experts.

Having sorted and paid True Elemental Dans to Chen Xiang, Gu Dongchen hastily left. As high price as Chen Xiang had asked, he knew that in the entire Mortal Martial World, it would be very hard for him to buy so many Five Elements True Elemental Dans at once.

Because of the development for so many years, some of the spirit herbs had become scarce. This was also the reason why there were so few alchemists. Therefore, the current Mortal Martial World was far worse than when it was a hundred millennia ago.

And the True Martial Realm experts were the backbone of any sect; the more the better. And this required a large number of dans.

Chen Xiang believed that if he opened a shop, it would be a big hit, for his Building Foundation Dans, Five Elements True Elemental Dans, and the Elemental Spirit Dans were rare and sought-after. However, he himself was in need of them.

"Sigh, I have to consolidate my cultivation now. If I could raise my cultivation, the Golden Dragon Saliva's potency would surely become very strong." Chen Xiang heaved a sigh of lament.

"Your mad teacher is very good to you. Bear with it! It is already very difficult for you to reach this stage in such a short time and using so many dans. Furthermore, your current strength is good enough, it should allow you to survive the Great Battle of Three Realm," said Su Meiyao.

Even so, Chen Xiang still had many things he had to do. Although he could no longer cultivate True Qi, he still could train his body, cultivate in Shinto, plant herbs. Each of them could improve his strength.

Over these two months, as Chen Xiang had expected, the Tree of Fortune had grown. Furthermore, it had also borne a fruit. He had already gathered five sets of Resurrection Dan herbs.

"Hei hei, it's about time for me to take that enchanting Hua Xiangyue my maid!" Chen Xiang broke into a perverted laugh as he continued, "Bringing such an enchanting slave wherever I go, it sure is going to be eye-catching."

"You will only get yourself killed by the jealous gazes of all the men!" Su Meiyao laughter mischievously as she said. She had no objection regarding Chen Xiang pulling in Hu Xiangyue, for she felt that an alchemist like Hua Xiangyue could also bolster Chen Xiang's forces.

Chen Xiang felt that he truly was a spirit herb treasure house. However, that herb garden in that ring was getting crammed more and more.

[Chapter 463 – Danxiang Taoyuan](#)

Chen Xiang had been to Fragrance City many times, but he never went to Danxiang Taoyuan. Furthermore, it was not a place that anyone could enter. From what Chen Xiang had heard, only the core disciples could enter Danxiang Taoyuan. And the outer disciples could only stay at Fragrance City or outside Danxiang Taoyuan, that's all.

Having crossed Fragrance City, Chen Xiang arrived at a canyon. On the steep cliffs on either side of the canyon, many lush and verdant vines were hanging down, surrounded by colorful flowers. Chen Xiang had never seen such a beautiful canyon before.

Danxiang Taoyuan was on the other side of the canyon. Chen Xiang had heard Hua Xiangyue mentioned that Danxiang Taoyuan was the most beautiful sect in the Chenwu Mainland. After having arrived at this canyon, Chen Xiang no longer held any doubt.

"Chen Xiang?" Having recognized Chen Xiang, the patrol guards in the canyon exclaimed. They hastily bowed to Chen Xiang in respect.

After all, Chen Xiang was the Honorary Chief Alchemist of Danxiang Taoyuan. Hua Xiangyue had long exhorted that Chen Xiang would be unrestricted in Danxiang Taoyuan.

As many as alchemist there were inside Danxiang Taoyuan, martial artists who could refine dans were far more. Moreover, these martial artists had attached themselves to some alchemists, therefore, they were very respectful to the alchemists. Not to mention, Chen Xiang, who was an alchemy prodigy.

Chen Xiang also bowed in return quickly. Danxiang Taoyuan and the Extreme Martial Sect always had pretty good relations. The disciples of both sects had gone back and forth to the other side and done dealings once or more. Therefore, whenever they met each other, they would be very polite to the other.

After crossing this beautiful canyon, a misty lake presented before Chen Xiang. Next to the lake stood small but very unique buildings. Some only had one floor, other had two to three floors. They looked like a small picturesque village. None would have imagined that the core region of such a huge influence would be so simple.

But very soon, Chen Xiang came to realized the extraordinary part of that lake. The mist rising from the lake was actually dense spirit qi. Furthermore, there were a few streams connected to the lake, and next to each of these streams was elegant houses.

"This is a mysterious realm!" said Su Meiyao.

After similarly sensing the rich Spirit Qi here, Chen Xiang recalled that the Danxiang Taoyuan had that ten thousand years old Spirit Milk. Chen Xiang had long guessed that only a place with rich dense Spirit Qi could give birth to ten thousand years old Spirit Milk.

"No wonder only core disciples were allowed to come in here, it's the same with the Extreme Martial Sect!" Chen Xiang stated. In the Extreme Martial Sect, only the True Martial Realm disciples were allowed to enter the Extreme Martial Mysterious Realm.

Danxiang Taoyuan was truly beautiful. It looked like a paradise; melodious twitters of birds and the sweet fragrance of flowers lingered in the air. Everywhere in sight had flowers blooming. In many places, one could see some spirit flowers and spirit grasses. The Spirit Qi was so rich here that it had

transformed into mist, which was scattered everywhere. The roars of waterfalls crashing down the mountain were the only noise in this calm and serene mysterious realm. However, it did not destroy the beauty of this mysterious realm, on the contrary, it added a magnificence of it.

After Chen Xiang came in, he noticed a few patrol teams patrolling here, once more. All of them were True Martial Realm martial artists. Even at the entrance of the mysterious realm stood a few powerful martial artists.

Chen Xiang slowly made his way to the lakeside, looking about at the picturesque scenery here. Smelling the lingering sweet fragrance in the air, Chen Xiang felt that it won't be a bad idea to go into a closed-door training here.

In the past, when he was in the secular world, Hua Xiangyue had tried everything to recruit Chen Xiang. Now, Chen Xiang was feeling a bit regretful.

"Chen Xiang, right? It's really rare meeting you here!" a voice suddenly resounded. The voice belonged to a beautiful and refined middle-aged beauty, Mrs. Li.

Chen Xiang was also acquainted with Danxiang Tower's Mrs. Li. He cracked a smile and said, "Your Danxiang Taoyuan is very beautiful. Our Extreme Martial Sect only has buildings one after another. Although we also have a mysterious realm, it isn't so beautiful."

Mrs. Li pursed her lips into a smile. "Then in the future, you can often come and stay here!"

"Right, I am looking for your Dean, where should I go?" asked Chen Xiang.

"The source of the river stream here is the restricted area, that's also the place where she is staying. Apart from her, no one is allowed to go there. You can only wait for her here," answered Mrs. Li.

Chen Xiang thanked Mrs. Li as he ran down a small stream, towards the source. At this time, Chen Xiang saw that before the buildings next to these streams, there was a small courtyard as well. However, these courtyards were only surrounded by a common fence. But to his surprise, there were some spirit herbs planted in these courtyards.

A majority of these spirit herbs were high-grade spirit-level herbs for refining True Elemental Dan and White Jade Dan like dans. There were some courtyards that had spirit herbs, particularly for refining detoxification dans...

There were many herb gardens here. After counting a bit, Chen Xiang estimated that there were at least a hundred of them here. Furthermore, there were some bigger gardens far away next to the river.

"The Spirit Qi is so dense here that the spirit herbs grow very quickly after watering them with these water here. No wonder the Danxiang Taoyuan can supply spirit herbs in a steady stream. Furthermore, they have so many alchemists themselves," stated Su Meiyao.

Danxiang Taoyuan could recruit so many alchemists because they have many spirit herbs. More importantly, they had such a good environment for planting spirit herbs. Therefore, the Danxiang Taoyuan had become the holy land that the alchemists yearned for.

Like the Extreme Martial Sect, the Danxiang Taoyuan had also entered an alert state as the Great Battle of Three Realms approached closer. Many people were busy refining many dans, because, at that time, many dans would be needed, especially the healing dans.

Down the stream, Chen Xiang noticed that the buildings became fewer and fewer, while the Spirit Qi became a bit thinner.

After traveling for an hour or so, Chen Xiang suddenly spotted a huge fountain gushing out and falling into a lake, which was the source of several streams here.

“This spring water is so rich in Spirit Qi. However, just after coming out, it needed some time to erode away for the Spirit Qi in the water to become active. Only then could the mist emerge. Therefore, only after flowing for some time did the mist rise from it! And because of this, the Spirit Qi is thinner here!” Su Meiyao said, marveling.

Now, Chen Xiang realized why the buildings were erected at the end of the river streams.

The Spirit Qi at the source was thinner. But why is Hua Xiangyue staying here? This question puzzled Chen Xiang.

Chen Xiang had already spotted a cave on the huge mountain in the front. As he made his way to the cave, he discovered a horrifying power lingering around the entrance.

Previously, Hua Xiangyue had given him a pearl saying that as long as he took that pearl out, he could enter the restricted area of the Danxiang Taoyuan.

Chen Xiang also wanted to see what was there inside the restricted area.

After Chen Xiang took out the pearl, he didn't suffer any kind of attack from the spells protecting the entrance. He easily went in. After going through a long passage, he arrived in a wide stone room. There many tables and chairs carved out of rock here. It was an audience hall.

Going through a door, Chen Xiang traveled down another passage. As he carefully pushed open the gates carved out of rocks at the end of the passage, a stone room exuding a white gentle aura appeared before him. He could smell the unique bodily fragrance of Hua Xiangyue in the air. He knew that this was definitely Hua Xiangyue's boudoir.

He took a closer look and saw Hua Xiangyue, who currently had her eyes closed, sitting in a lotus position on a white jade bed that had mist emerging from it. To his shock, she wasn't wearing anything.

[Chapter 464 – Master-Slave Contract](#)

At the sight of this scene, Chen Xiang's heartbeat rose slightly. But what made him gnash his teeth was that the mist arising from the jade bed was too dense, he was unable to see the ravishing parts he wanted to see.

Nonetheless, the blurry scene was even more tempting! Earlier, Hua Xiangyue had said that if he came in, he had to wait outside for her, asked him not to move around. However, Chen Xiang didn't pay any attention to her instructions, for he was in a hurry to see Hua Xiangyue.

Chen Xiang very much wanted to blow air, blow the mist away. That way he could see Hua Xiangyue's ravishing body clearly. However, he only dared to think about it, he didn't dare to execute it. In light of these circumstances, he could only sigh in lament. Only then did he noticed that there was a small pond in the room as well. This small pond was just as big as the bed and also had some mist arising from it. However, it wasn't Spirit Qi at all.

"This is a special kind of hot qi, it should be able to help her cultivate her flames. This seductress is an alchemist, she has very high requirements for flames," explained Long Xueyi.

"How about I help you blow this mist away?" asked Long Xueyi as she broke into a mischievous laughter.

Chen Xiang very much wanted to agree. He was struggling in his heart. Finally, he still refused, for he was worried that it would affect Hua Xiangyue's cultivation, which might lead to a qigong deviation, which would be extremely bad.

When he was just about to shut the doors and leave, Hua Xiangyue's numbing voice fell into his ears, "Little Rascal, why don't you come in? I have been waiting for you for a long time!"

Chen Xiang gulped nervously, again and again before coming inside in large strides, "This...Sister Xiangyue, I didn't see anything!"

Hearing this, Hua Xiangyue broke into a giggle. Then she turned around, putting on a loose white maxi.

"Didn't I tell you that when anyone comes in, I will know immediately? I asked to wait outside, but you were so unscrupulous! You wanted to peek at me!" Hua Xiangyue gave a sidelong glance at Chen Xiang, that stunning oval face was filled with a bewitching look.

Right afterward, Hua Xiangyue's voice turned angry, "Little Rascal, did you came looking for me after you couldn't meet Sister Meng'er, again?"

At this moment, Hua Xiangyue was resorting to her charms. She had put that enticing charm of hers full on display, without any reserve. Seeing this, Chen Xiang could not wait to tear that maxi of her and push her down on the bed, show her that seducing a man like this had serious consequences.

Seeing Chen Xiang blushing, Hua Xiangyue chortled and said, "Never think that only you can tease me, I can also tease you!"

Chen Xiang took a deep breath and said, "If I take liberties with you, I will not be eaten by you absolutely, but if you take liberties with me, hei hei!"

While speaking, Chen Xiang pulled Hua Xiangyue into his embrace suddenly! At present, Hua Xiangyue was only wearing a thin maxi, she wasn't wearing anything inside. When Chen Xiang hugged her, he could feel the two pointy tips pressing on his chest, which made Chen Xiang's lower abdomen explode. An evil fire violently rose from his lower body, spreading to his limbs and bones. His heartbeat and body temperature rose at once. He almost lost his mind.

Chen Xiang fiercely inhaled near Hua Xiangyue's neck, greedily sucking in the sweet fragrance lingering around her body.

Hua Xiangyue gave out a tender shout as she pushed Chen Xiang in a hurry. Her face, on the other hand, had a smug smile, "Little Rascal, you better remember that this Elder Sister is far more powerful than

you. You think you can eat me so easily? I am not going to give myself to you, but I can tease you, seduce you. You can only watch but you can't be able to do anything!"

"Damn witch!" Chen Xiang groaned and turned his head. Who could blame him, he was almost thirty. Although he had a wife, to this date, he was still a virgin.

Hua Xiangyue knew that she could not take things too far. She chortled and said, "I am sorry, I didn't expect this elder sister's seduction would be too much for you to handle!"

"Bullshit!" Chen Xiang snorted in a low voice. Just a moment ago, the only thought in his mind was to press her down summarily.

"To what do I owe the pleasure? You are not going to ask me to go around once again, do you?" asked Hua Xiangyue.

Speaking of this, a secretly satisfied Chen Xiang hurriedly took out six jade boxes and said, a smile on his lips, "Of course, I came bearing gifts! To be honest, last time, I took too much advantage of you, therefore, I am here to compensate you!"

Hua Xiangyue nibbled her lips and said in a low voice, "I accept your good intentions, I am very grateful about it, however, I know these things will be very useful to you in the future. These things are getting scarcer and scarcer. If you give them to me now, what are you going use in the future?"

She didn't even take look. She knew Chen Xiang wanted to give her something. Previously, she was just joking, she didn't expect Chen Xiang to bear it in mind. This moved her very much, a warmth flooded her heart.

Chen Xiang smiled and said, "Rest assured, I am really not short of them!" He ventured that Hua Xiangyue was about to cross her nirvana tribulation, and for that, she definitely needed these things. Therefore, he would not be stingy about it absolutely. In any case, it was not difficult for him to get them, even a bit.

Hua Xiangyue faintly sighed as she opened those jade boxes. Inside the boxes were the five sets of Resurrection Dan herbs and a Fruit of Fortune as well.

"Don't tell Sister Meng'er for the time being, she would definitely get jealous," said Chen Xiang as he broke into a mischievous laugh.

Hua Xiangyue was quite a proficient alchemist. At one glance, she had noticed that these spirit herbs had just been picked, particularly the Fruit of Fortune, which had just been picked from the tree.

At this instant, Hua Xiangyue was struck with a fearful thought. However, there wasn't any change in her expression, because she had associated it with that golden liquid which Chen Xiang had once fed to Lanlan, it was quite similar to the ten thousand years old Spirit Milk that Danxiang Taoyuan had.

She suspected that Chen Xiang quite possibly had something similar to the ten thousand years old Spirit Milk, owing to which he could grow many herbs quickly. However, the ten thousand years old Spirit Milk was quite scarce, it was simply insufficient to use in large quantity.

“Meng’er is yours, it’s very normal for you to give things to her! However, what am I to you?” Hua Xiangyue had no intentions to refuse Chen Xiang’s kindness. More importantly, she too wanted these things.

A perverted smile crept up on Chen Xiang’s lips immediately as he said, “Didn’t you want to become my maid? Hei hei, is that still valid?”

Hua Xiangyue’s eyes immediately lit up. She pursed her lips into a smile. “Of course! Now, you finally realize how good I am!” While speaking, she charmingly flung her hair. Her charm made the onlooking Chen Xiang burn with passion.

“That’s better! From today, you are my maid!” Chen Xiang, rubbing his hands, said.

“Your maid greets Young Master.” Hua Xiangyue chortled as he hastily bowed to Chen Xiang and continued, “However, You must sign a master-servant contract with me!”

Master-servant contract? Chen Xiang had never heard of such a thing. It was the first time he was hearing.

“What is that?” asked Chen Xiang.

“With this contract, I won’t betray you. However, you also have to act according to the contract. You must take good care of me.” Hua Xiangyue looked at Chen Xiang with a gentle gaze.

Right then, Chen Xiang spotted purple spell diagrams glittering in those pretty eyes of Hua Xiangyue. Suddenly, Chen Xiang was shocked as the content of that contract appeared in his mind.

“It’s done. One day, you will understand why I did this!” Hua Xiangyue said with a complex look.

At this time, Long Xueyi blurted out all of a sudden, “This is Master-Servant Death Contract. As long as you are dead, this young lady will also die!”

[Chapter 465 – Searching for Divine Weapon](#)

Having come to know that the master-servant death contract to be so terrifying, Chen Xiang was so scared that fear was clearly written on his face. However, this made it even more difficult for him to understand. To his surprise, the contract was over in a moment of a daze.

“You are the lord and she is the servant, that’s why the contract was completely so easily. But why did this woman do this?” Long Xueyi found it difficult to comprehend. The same was true for Su Meiyao and Bai Youyou.

Noticing Chen Xiang’s expression, a frown appeared on Hua Xiangyue’s brow as she asked, “What is it?”

“Isn’t...isn’t this master-servant death contract?” Chen Xiang asked.

“How do you know this?” Hua Xiangyue blurted out in surprise. “That’s right! If you are dead, I too will die! Since you have taken me as your maid, of course, I would have to live and die with you!”

Chen Xiang heaved a sigh. “Why did you do this?”

“You will understand it in the future! In short, it will not bring any harm to you. Now that I have become your maid, aren’t you happy?” Hua Xiangyue chortled.

Suddenly, a perverted smile appeared on Chen Xiang’s lips as he said, “So, can I do anything to you?” while speaking, Chen Xiang caressed that charming face of Hua Xiangyue with the back of his hand.

“Of course, but you can’t go too far, unless you have the ability to not let me stop you,” Hua Xiangyue said with a chuckle. Her gaze was filled with a teasing look.

Chen Xiang pulled Hua Xiangyue in his embrace at once and said with a perverted smile, “Maid Xiangyue, you better take care of this great master well, or else, I will smack your ass! No, your ass is pretty big, very round, very curvy, very supple!”

Suddenly, the arm that was holding Hua Xiangyue’s waist slipped down, stopping on those shapely buttocks and then, lightly kneading them. He felt really good, so good that he wanted to continue fondling them to eternity.

Hua Xiangyue’s face flushed red. She immediately lashed out in anger, pinching Chen Xiang’s waist, “Little Rascal, get your hands off them, I still have important things to do. I will attend you properly later!”

Kissing her beautiful cheeks, Chen Xiang broke into laughter and said, “Though I don’t know what are your intentions for me, but since you have delivered yourself at my door, how could I not savor a free lunch, it would be a pity not to!”

Hua Xiangyue also gave a peck on Chen Xiang’s cheek before she said with a chuckle, looking at Chen Xiang with a gentle gaze, “My dear master, why does it never crossed your mind that I might like you?”

“Knock it off, anyway, I am already yours. In the future, you will have the opportunity to do anything you like to me!” said Hua Xiangyue, pushing away the dishonest hand of Chen Xiang that was playing with her chest. She had long known that after she became Chen Xiang’s maid, Chen Xiang would definitely do these kinds of things. She had long prepared her heart as well.

Having just tasted, Chen Xiang was infatuated. He was a bit disappointed. However, he knew that Hua Xiangyue indeed had some important things to do.

After bidding Hua Xiangyue goodbye, Chen Xiang circled around the picturesque Danxiang Taoyuan and came to the Divine Weapon Heavenly Empire. At first, he was planning to refine dans, but suddenly he recalled the matter of White Tiger Divine Weapon.

The Azure Dragon Divine Weapon, the Black Tortoise Divine Weapon, and the Vermillion Bird Divine Weapon had already appeared in the world. However, the Vermillion Bird Divine Weapon was with Liu Menger. Last time, when Chen Xiang and Liu Menger had brought the three divine weapons together, they had sensed the location of White Tiger Divine Weapon.

In order to confirm the location of the White Tiger Divine Weapon, he needed to find Liu Menger.

The last time when he came to the Divine Weapon Heavenly Empire was two months ago. If he didn’t find Liu Menger her again, he would be left with no choice but to take a trip to Icewind Valley.

After having entered the Divine Weapon Palace, Chen Xiang, by relying on the token given to him by Liu Menger, flamboyantly made his way to the Liu Menger palace.

After entering the door, Chen Xiang immediately saw a woman dressed in a white palace dress* sitting on the lawn, looking at a sheet spread on the ground. The sheet was crowded with spirit patterns. The woman was none other than Liu Menger. Last time when Chen Xiang had come here, Liu Menger was still studying these spirit patterns.

[TLN: 宫装, I didn't have a proper translation for it, I went with whatever I can think of, but if you have some Chinese shows related to royalty, you might have seen the harem members or princess wearing these dresses. For a clear picture, [click here](#).]

Seeing this striking empress with such grace and elegance, Chen Xiang's corners of rose slightly, revealing a strange yet evil smile.

"Little Rascal, what's the matter, speak quickly! Don't you know that the entire mortal world is in a state of alert now? Why are you still running around?" Liu Menger turned around and said. Her face filled with jealousy as she wrinkled that lovely nose of hers and said, "I can smell that enchantress, Hua Xiangyue's fragrance on you."

Chen Xiang also took a few whiffs before he spoke with a mischievous smile on his face, "But why am I smelling a sour smell, good gracious, have you broken a jar of vinegar!"

[TLN: Breaking a jar of vinegar, meaning burning with jealousy]

"Hmph, Hateful Little Rascal, did you go looking for that enchantress when you didn't find me," Liu Menger rolled her eyes at Chen Xiang as she put away that sheet on the ground.

Making his way next to her, Chen Xiang sat down. Then, he took out a book and waved before her as he said with a smile, "Guess what is this? The complete Refiners' Scroll, hei hei!"

Liu Menger's eyes immediately lit up. She had always been wanting to ask Chen Xiang about it. However, whenever she was with Chen Xiang, Chen Xiang would always make her angry. She simply did not think about it.

Liu Menger immediately reached out. However, Chen Xiang hastily put it away and looked at her with a wicked intention.

Liu Menger pouted her lips in anger before she let out a soft harrumph. With her mature charm in action, she looked extremely cute, infatuating the onlooking Chen Xiang completely. He could not help but rush over and tightly hug Liu Menger's soft body.

Liu Menger had already figured that Chen Xiang would surely harass her first. However, she too had no other way. She herself could not bear to retain her bearing of an empress before Chen Xiang. Very soon, she and Chen Xiang were rolling on the lawn, kissing fervently.

Chen Xiang hadn't been intimate with Liu Menger for a long time. And the same was true for Liu Menger as well. At this moment, she was like a delicate flower, accepting Chen Xiang's irrigation and caring. Sweet butterflies were flying in her heart.

"Tell me the truth, have you ever cross this line with that enchantress!" Liu Menger, lying on Chen Xiang's body, looked at Chen Xiang with a skeptical gaze.

"Not yet, but I have seen her big rabbits... hei hei, she is but my maid now," caressing Liu Menger's face, Chen Xiang replied with a mischievous laughter.

When he spoke of big rabbits, Liu Menger let out a tender snort as she punched Chen Xiang's chest, "What did you do to her?"

Chen Xiang sat up, letting Liu Menger lie in his arm. On one side, he was caressing her smooth and supple hands, while on the other, he was stroking her jet black hair. Slowly, he narrated Liu Menger about the time when he went to the Sacred Ancient Land with Hua Xiangyue.

"At that time, I had no choice, otherwise, your dear sister would have ended up dead. I have but saved her life." Chen Xiang heaved a sigh as he continued, "To tell you the truth, I was so embarrassed at that time!"

"You were embarrassed!" Liu Menger looked at him with contempt. She also had no idea as to what were Hua Xiangyue's intentions were, however, she knew that Hua Xiangyue wasn't someone sinister. Over many years, Hua Xiangyue had helped her many times. Had it not been for Hua Xiangyue, perhaps she would not have been able to cross so many nirvana tribulations.

Caressing those slim and slender legs of Liu Menger over the chiffon, Chen Xiang smiled. "I want to look for the White Tiger Divine Weapon, aren't you curious what that thing look like?"

"Of course, I am curious! It's just that you, Little Rascal have been busier than me, I never found the opportunity to travel with you together." Liu Menger picked herself up from Chen Xiang's embrace. As the topmost refiner of the Chenwu Mainland, she was most interested in these divine weapon.

Chen Xiang broke into a smile and said, "When we return, I will give you that Refiners' Scroll! If I give it to you now, I am worried that you will be completely engrossed in it and would not even think about leaving."

Liu Menger gave a fierce look to Chen Xiang before she rushed into a room, where she started dressing, preparing to depart with Chen Xiang.

Chapter 466 Fire God Shrine

Hua Xiangyue quickly changed into a more convenient white tights. Chen Xiang noticed that he was just like Hua Xiangyue who liked to hold chest tightly when wearing a tight, which made him feel very distressed.

"Xiangyue also likes that. Arn't you afraid of being tightened too much to get hurt?" Chen Xiang curiously asked, but the reply he received was indeed a blank eye from Liu Menger.

"It can't hurt, you can rest assured!" Liu Menger snapped.

Chen Xiang chuckled, "Where did you hide Xianxian and Youlan? I miss them so much! "

"They're all focused on cultivation now, especially Youlan. She said that she will compete with you once she leaves the seclusion. This girl really wants to beat you." Liu Menger sighed and said.

Chen Xiang shrugged his shoulders. "Let's go."

The location of the White Tiger Divine Weapon was in the direction of Carefree Immortal Sea. After Chen Xiang and Liu Menger confirmed their direction, they guessed that the divine weapon was within a large whirlpool of the ocean. However, it was merely their guess, and they could only confirm it when they got there.

Liu Menger took out the Jade Lotus Frisbee and carried Chen Xiang away from the Divine Weapon Palace.

After leaving the Divine Weapon Palace, Liu Menger quickened the speed of the Jade Lotus Frisbee, while Chen Xiang felt comfortable lying on top of it and sucked the charming fragrance of Liu Menger's body.

After two hours, the Jade Lotus Frisbee flew up to the clouds, and Chen Xiang began to become unsure of his honesty.

Just as Chen Xiang's hand was about to reach out, Liu Menger abruptly stood up. She stopped her flying plate and looked in a certain direction with an extremely solemn expression.

"What's wrong?" Chen Xiang hurriedly asked. When he saw Liu Menger's reaction, he knew that something important must have happened.

"It's an urgent message from Gu Dongchen, which is usually used to gather the sects' headmasters. He mentioned the Fire God Shrine in his message! It seems like the people of the Fire God Shrine have arrived at the Mortal Martial World." Liu Menger's voice was icy cold. She knew that the Fire God Shrine was specifically looking for people who possessed fire spirits, but she wasn't afraid.

From Elder Dan, Chen Xiang learned that this group was extremely abominable and powerful, but why would they come to the Mortal Martial World?

"You go first on yourself. You shouldn't have any problems with your current strength, do you?" Liu Meng'er said.

"I'd like to see the people from the Fire God Shrine too!"

Liu Menger firmly rejected, "No, you're too weak now; you can't hide your fire soul. It'll be very troublesome. If those people observe it. You should escape this in Carefree Immortal Sea first.

Seeing that Liu Menger was so serious, Chen Xiang couldn't help it. Elder Dan was originally from the Violet Moon World, and he came to Mortal Martial World to escape from Fire God Shrine. Strength of Elder Dan was strong then, and Fire God Shrine was very powerful for him. However, the strongest guy in Mortal Martial World is Huang Jintian from the True Martial Realm.

To keep in a low profile, Chen Xiang didn't fly with the Vermilion Bird Flame Wings, but jumping up from the mountain forest below, while Liu Menger also took the fastest speed she could get to reach the Divine Martial Palace.

Elder Dan had said that the hands of the Fire God Shrine wouldn't reach here, but they did, which would probably bring a lot of disasters to the Mortal Martial World, whereas Su Meiyao and Bai Youyou must know something about the Fire God Shrine.

"Sister Meiyao, Sis Youyou, you must know something. Now that they're here, so it's fine to tell me!" Chen Xiang stated.

"The Fire God Shrine is a large force on the Heavenly Realm, as well as the only medicine giant in the Heavenly Realm. We only know that this Fire God Shrine has a very positive image! We are still not sure that if they are the organization that especially plunder the fire spirit!" Bai Youyou said.

"Elder Dan fled to this place to escape from them, but now Elder Dan is very strong, so he shouldn't have to fear them, not to mention my master is here!" Chen Xiang was extremely worried about this, because Elder Dan, Liu Menger and himself all had fire spirit.

Su Meiyao said, "The Fire God Shrine is indeed very strong. However, in the Heavenly Realm, the strongest is merely the one who is able to pass the Nirvana Tribulation. But don't forget that all the Fire God Shrine in the mortal world can communicate with the Heavenly Realm. They have many powerful martial arts and knowledge."

"Just like the King's Shrine that has started cultivating its influence sphere in the Mortal Martial World. However, the King's Shrine has just begun, but the Fire God Shrine has been existing since very ancient time. It spreads throughout the world. Now that they've arrived here, they probably got sent from other worlds."

This was the strength of the Fire God Shrine, because behind him was a powerful force of Heavenly Realm. Although the resources needed to be sought in mortal world, they could definitely make many outstanding martial artists and dan refiners with the knowledge and martial arts they mastered...

"Liu Menger, I stop you from going for your own wellness. If that Fire God Shrine really is that kind of powerful appearance, I'm sure they will do something against the True Martial Sect once they know that you have Tai Chi Subduing Dragon Exercise. Such a power that spreads over multiple worlds don't even dare to attack the whole world, not mention a single sect." Bai Youyou said in cold.

Fight against a world! The Mortal Martial World was a very large realm! However, Chen Xiang didn't doubt what Bai Youyou has said.

"It seems like I have to hide for a while," Chen Xiang sucked in a deep breath.

If he wanted to hide, he could guarantee that no one in the world would ever be able to find him. It was a bird task for him with help of Long Xueyi and the divine techniques he has cultivated. He used to escape from hundreds of Divine Path worriers.

Of course, he had an Luo Tian Door, which was also a perfect weapon to escape!

Chen Xiang didn't know why Gu Dongchen was calling on giants of these sects, but he was certain that the Fire God Shrine would come. Otherwise, Gu Dongchen would not know anything about the Fire God Shrine.

He hadn't been running for long in the forest when he heard a faint dragon's roar. Although it was faint, it was still quite frightening.

"It is a dragon!" Long Xueyi screamed and scrambled out of the left arm of Chen Xiang.

"The voice came from far away! The dragon is not in its senses, and its voice does have even the slightest bit of vitality. It should be controlled, but this is just a low-grade dragon! " Long Xueyi frowned and said, with displeasure full of her face, "This guy lost all the face of us dragons. He even gets itself controlled!"

Chen Xiang said, "Could it be one in the Primordial Holy Land?"

Long Xueyi shook her head and said, "Absolutely not. I remember the sound! The dragon's voice was made under stimulation. Seems like it has been controlled by someone with a hard approach. "

"Could it be brought here by the Fire God Shrine?" Chen Xiang immediately thought of this, which surprised him internally.

"It's quite possible. The Fire God Shrine is in conflicts with dragons in the Heavenly Realm. If they find those dragons that have just evolved in the mortal world, they would definitely attack them! Although the dragons are powerful, humans can still defeat them by using formations or siege" Su Meiyao said.

Chapter 467 Mysterious Whirlpool

"If that Fire God Shrine really came from another world, it must have a very powerful transmission array that could move the entire Fire God Shrine along with a dragon."

Chen Xiang took out the Luo Tian Door and asked Long Xuyi to perform the "God Travelling in the Nine Heavens" technique to determine a target point near Carefree Immortal Sea. Then, he began to rotate the rings on the disc.

After the Space Gate opened, Chen Xiang entered it and arrived at place where he heard sound of ocean waves and smell the ocean's aura, after which his suppressed heart earlier became much relaxed.

He arrived at the sea, where there were rocks all over the place. He sat on a rock and looked at the endless sea and blue sky, with sea breeze blowing on his face. He didn't go to the Carefree Immortal Sea, but waited for Liu Menger. He wondered whether she could catch on him.

"Did the Fire God Shrine exist one hundred thousand years ago?" Chen Xiang asked. If the Fire God Shrine in the Mortal Realm specifically engaged on plundering other people's fire souls, Chen Xiang would not allow such a power remain in the Mortal Realm, otherwise he would be targeted by this Fire God Shrine soon or later.

For example, if the Fire God Shrine knew that he had the Tai Chi Subduing Dragon Exercise, he would be in a big trouble.

"No, the Fire God Shrine was established after the Great War of the Three Realms. However, its headquarters is in the Heavenly Realm, so no matter how ancient the forces of mortals are, they can't defeat it." Bai Youyou said.

Chen Xiang picked up a rock and threw it towards the surging ocean. "If the Fire God Shrine dares to come find me, I won't let him get through it!"

As Su Meiyao saw Chen Xiang having such a resolution, she was slightly shocked. "Oh? Do you dare to attack the Fire God Shrine? If the branch of Fire God Shrine here is destroyed, other Fire God Shrines will be sent here. "

Bai Youyou also said in astonishment, "If you truly destroy a Fire God Shrine in the mortal world. If the news spread to the Heavenly Realm, then you will be against the Fire God Shrine on the heaven, which means you will encounter a lot of troubles when you go to the Heavenly Realm."

Chen Xiang smiled faintly, "there is nothing to worry about. Since the Great War of the Three Realms is about to breaking out, the more Fire God Shrine coming here, the better it is!"

The Great War of the Three Realms would be a huge mess in the future. If too much Fire God Shrine were to gather in this world, it would only be a target for attack, and that would be our chance to get rid of it.

"I'm just talking now. You will know it when the time comes." Chen Xiang pulled off his clothes and jumped into the sea, waiting for Liu Menger to come.

He waited until dawn the next day, but Liu Menger didn't come, so he had to go to Carefree Immortal Sea alone.

The Carefree Immortal Sea was comprised of numerous large and small islands. It relied on the sea to develop, which means it also had a ability to explore the oceans.

Chen Xiang turned into a fish and quickly headed towards Carefree Immortal Sea. He had long since become familiar with the terrain before he came this time.

"The whirlpool appears every once in a while; could it be an entrance to a Profound Realm? I wonder if anyone has been inside before. " Chen Xiang was a bit worried. He was afraid that the White Tiger Divine Weapon would be taken away.

In just three days that he swam to the islands of Carefree Immortal Sea. He casually boarded an island and asked about the time of the whirlpool.

There were many small islands here, each one of which would be another one at a distance not far from here. It was spread throughout a large area. Chen Xiang estimated that there was at least one of the size of the King's Mainland, while there was one city in each of the small island.

There were quite a number of outsiders arriving every day at Carefree Immortal Sea. Moreover, all the people in the Carefree Immortal Sea migrated from the Chenwu Continent. Chen Xiang speculated that those people were appealed by Xiao Ziliang through some methods, and it became a highly flourishing area after thousands of years of construction.

Carefree Immortal Sea must have some very unique resources. Otherwise, it wouldn't be able to cultivate such a powerful force in a short amount of time.

After a long time of asking about the small island, Chen Xiang inquired about the matter of the whirlpool. The locals met with fear, and most of them did not answer him.

"Could it be that the terrifying whirlpool concealed some secrets? Why do they all seems to see a ghost when I ask them about it? Chen Xiang felt hopeless in his mind. He casually found a hotel and asked for a room.

After the waiter led Chen Xiang into the room and was about to leave, Chen Xiang hurriedly stopped him. "Wait."

The waiter was delighted. He knew that some people were very generous and always gave him some tips. He hastily turned around with a smile on his face and bent over Chen Xiang in the air.

"Sir, can I help you?" The waiter asked in a smile.

Chen Xiang first took out ten crystal stones and played them in his hand. Then, he whispered, "I want to ask you something. If you can tell me, then it's yours!"

The waiter nodded quickly, "I'm going to tell you everything I know!"

"Then firstly, I want to know something about the nearby whirlpool. Why were others so scared when I asked them?" Chen Xiang abruptly grabbed the waiter's hand, because when he spoke of the whirlpool, the waiter's face was completely pale.

"I ... I..." The waiter wanted to shout out, but he knew that Chen Xiang must be a powerful martial artist.

Chen Xiang took out a large pile of crystal stones. There were hundreds of them. He placed them on the bed and said in a deep voice, "Don't worry, I just want to know about that big whirlpool. Tell me, then it's yours, and there's absolutely no one who would know what you've told me!"

The waiter looked at the crystal stones and nodded his head.

After Chen Xiang let go of him, he said in a low voice, "King Carefree doesn't allow us to talk about this matter. It was forbidden to talk for a few years. Once the Carefree Palace knows about it, they will send people to conduct a massacre. There was one time that many people in a city talking about it in public place, then the entire city was slaughtered!"

When Chen Xiang heard this, he immediately understood why nobody answered him and avoided him away when he asked.

It turned out that talking of that would caused the entire city to be butchered! King Carefree was naturally Xiao Ziliang, and Carefree Palace was the core of the Carefree Immortal Sea. The whirlpool must contain a huge secrete, that Xiao Ziliang had to use such a brutal method to prohibit stories of the whirlpool from being leaked.

"Where is the big whirlpool?" Chen Xiang hastily said.

"It's next to a small island, but the whirlpool hasn't appeared yet. It occurs every other month, and every time it's going to appear, the small island will be under strict regulation and no one is allowed to go to the sea!"

The waiter told Chen Xiang the name and location of the island, and he hurriedly left the hotel after he knew the location of the big whirlpool.

It took him several days to reach the island. There were quite a few people on it, and it was very prosperous. There were many martial artists on it, all of which were strong.

Of course, Chen Xiang wouldn't wait to get there until the whirlpool appeared. Otherwise, he would encounter those Nirvana Realm martial artist. Now, he transformed into a fish and swam towards the location of the whirlpool.

Chapter 468 Fighting Below the Sea

Chen Xiang swam in the sea for a long time, then the sea suddenly became rough and turbulent. Thunder roared in the sky as gusts of wind blew up, creating fierce waves.

“Is that the prelude of a big whirlpool?” At this moment, Chen Xiang felt a suction force that sucked all the seawater around him into a certain place.

Not willing to get in the big whirlpool right now, he hurriedly jumped out of the sea and turned back to a human figure. A stream of air gushed out from his feet, propelling his body into the air. In order to stabilize his body in the wind, he released the wind force of Azure Dragon True Qi, which allowed him to fuse with the wind and fly forward.

Suddenly, Chen Xiang realized that a gravitational force suddenly erupted from the front, causing the clouds and the wind in the sky to be pulled over.

At this moment, the sky was dark, while flashes that erupted from time to time illuminated the sea that was turbulent and terrifying. Suddenly, Chen Xiang saw a whirlpool on the surface of the sea, not far from him.

The whirlpool was small in the beginning, only about hundreds of meters wide, but it gradually expanded to thousands and the thousands meters.

“Is that the big whirlpool?” Chen Xiang could see that the dark clouds in the sky suddenly turned into a pillar of lightning that carried a stream of air and was dragged into the middle of whirlpool along with the waves.

Long Xueyi said, “The big whirlpool is absorbing the surrounding Spirit Qi. It is gathering a very strong energy under the sea. I think that the entrance to the White Tiger Profound Realm should be at the bottom of the sea, and it is necessary to absorb such a huge amount of Spirit Qi to make enough energy to open the passageway to the Profound Realm.”

Chen Xiang used all his force to keep himself floating in the air and not being sucked into the whirlpool. At the same time, he approached to the whirlpool slowly. He intended to know how to enter the seabed.

After the whirlpool devoured Spirit Qi for a while, it suddenly stopped sucking, but the whirlpool still kept spinning frantically. Just at that time, Chen Xiang saw a black hole in the middle of the whirlpool in the air, from which a light occasionally appeared up.

“Get in it, quickly!” Long Xueyi shouted.

Chen Xiang also knew that it was a chance to get in. Suddenly, a burst of flames erupted from his feet, following by a wave of explosion, blasting out a burst of flames. Chen Xiang took advantage of the power of explosion to fly from the air and directly get into the black hole in the middle of the whirlpool.

After he got in with his head down. He only saw that a barren wasteland below. It was more like an uninhabited island, because it was surrounded by seawater. However, this island was surrounded by a force that prevented sea water from flowing in.

Chen Xiang quickly landed on the island at the seabed. The island was huge and covered by a powerful protective barrier that could stop the water from entering, while the bottom of the whirlpool was just above the island.

Suddenly, Chen Xiang sensed a tremendous amount of tyrannical Spirit Qi coming from above, which caused him to hurriedly fly in a certain direction. His speed had reached a limit, and not after a while that he got far away from the area where the tyrannical Spirit Qi was striking down.

Although the island was under the sea, it was not dark, but just a bit dim. Chen Xiang could see the tyrannical Spirit Qi striking through the opening of the island, along with waves of flashes, after which the Spirit Qi immediately dispersed.

"It seems like a few more days are needed to gather enough energy to open the game of Profound Realm." Bai Youyou said.

Now that they'd been certain that there was indeed a Profound Realm on the island below the sea. It was quite likely that it was the White Tiger Profound Realm.

Previously, when Chen Xiang and Liu Menger gathered the three Divine Weapons together, they could clearly sense that there was something around the Carefree Immortal Sea that was calling them. It was a very delicate feeling, which made Liu Menger and him to be sure that the White Tiger Divine Weapon must be in that direction.

"We got company. There are three humans!" Long Xueyi warned Chen Xiang.

There were humans down there. Chen Xiang was astonished.

He knew that he had been discovered by someone when he came down from above, and those people were rushing over here.

It was a plain ground down there, without hills or forest, therefore Chen Xiang had no place to hide himself.

"How about their strength?" Just as Chen Xiang asked it, three people appeared around him and sieged him inside.

Chen Xiang knew the strength of these three people without response from Long Xueyi. Judging from their True Qi, Chen Xiang guessed that they were at the middle or late stage of the Spirit Martial Realm.

What shocked Chen Xiang even more was that all the three people were wearing golden robes. Two of them were middle-aged and one was old. From their adornment, Chen Xiang was certain that they were from the Holy Light Sect.

Men of The Holy Light Sect had arrived here early, which made Chen Xiang speculating that the Holy Light Sect and Carefree Immortal Sea were in a collusion!

Although Carefree Immortal Sea refused to join the Holy Light Sect at previous time of the Hero Assembly, no one knew what was in Xiao Ziliang's mind. He almost became the headmaster of the Divine Martial Palace, and now, he established the Carefree Immortal Sea only to experience the feeling as a headmaster. The difference was that he wanted to make the Carefree Immortal Sea even more

powerful and becoming the biggest sect in the King's Mainland, so it was not out of expectation that he would align with the Holy Light Sect.

"I didn't expect that the well-known Chen Xiang, the number one youth martial artist and alchemist of the Mortal Martial Realm would be here!" The old man from the Holy Light Sect expressed a stiff, cold smile, with his eyes filling with killing intent.

So as the other two Holy Light Sect martial artists. They all knew that the headmaster of Holy Light Sect hated Divine Martial Palace badly, and Chen Xiang was also a thorn in the light of the Holy Light Sect. They would obtain a big reward from the sect if they killed him.

At this moment, Chen Xiang was under a huge pressure, because the three of them were all very strong. He would not be afraid if engaging in a one-on-one fight, but he did not even have a chance of winning if the three came together.

Moreover, it was the bottom of the sea. They killed Chen Xiang and cleaned it up, so that no one would ever know what happened. Staring at those eyes with killing intent, Chen Xiang also grew up an intention of killing within his mind.

If someone wanted to kill him, he must not leave him alive!

"Now!" The old man shouted. The three martial artists attacked at the same time. Each of them had a sharp longsword in hands, and a strong True Qi was infilled into the sword, causing the longswords to emit a buzzing sound that pierced through the air and stroke towards Chen Xiang with fierce killing intent, just like a bolt of lightning.

When the three martial practitioners of the Holy Light Sect started attacking, waves of intense killing intent erupted from their bodies, which indicated that they were vicious and merciless killers, and they would never be lenient.

Chen Xiang had long since been ready. As he saw the three men attacking simultaneously, his body trembled and conjured a Black Tortoise Luotian Cover. However, the True Qi condensing on the three swords was extremely ferocious. As the swords stabbed into his Black Tortoise Luotian Cover together, a strong vibration was generated and broke up the armor.

All of these three people were stronger than Chen Xiang, they were attacking at the same time. Chen Xiang had no way but to retreat!

The three martial practitioners of the Holy Light Sect were secretly delighted when they saw the cover of Chen Xiang being pierced. They originally thought that they could penetrate through Chen Xiang's body, but they suddenly felt that the sword tip touched something very hard and preventing them from achieving it.

Although Chen Xiang's Black Tortoise Adamant Armor protected him from being pierced through by the three swords, the power still infilled into his body, which caused his internal organs to constrict and he spitted out a mouthful of blood.

"I will be back!" Chen Xiang roared furiously. His voice was like a blade carrying a penetrative killing intent!

Suddenly, a burst of white light erupted out from his body, tyrannical and furious dragon force exploded out of his body and formed an extremely strong energy wave that shook the three of them apart.

To use the dragon force in a serious injury made Chen Xiang spitting out another mouthful of blood. However, now he got the chance to flee.

“Leave it to me!” Long Xueyi sighed and turned into a white light enveloping Chen Xiang’s body, then fled towards the exit of the island.

Chapter 469 Making a Hard Decision

After the three apprentices of the Holy Light Sect were shocked out to fly, the blood and Qi within Chen Xiang’s body also surged. After all, Chen Xiang tried his best to unleash the True Qi of his entire body as dragon force. That was directly infused into their bodies and made his mouth dripping with blood.

While they were exclaiming about Chen Xiang’s strength, they looked at the white light that was flying towards the exit. Just as they were about to catching up, the white light flashed past and flew out. At the same time, a tyrannical Spirit Qi surged in and sealed the exit temporarily, preventing them catching on.

Right now Chen Xiang has not even a little bit of strength. He was heavily injured and risked his life to unleash all of his strength to repel the three people. Otherwise Long Xueyi would not have the chance to bring him away.

“If Holy Light Sect could send three of such strong people here, then there must be a lot of good items inside the White Tiger Profound Realm!” Bai Youyou said.

“There should be some good items, but I do not think that the Carefree Immortal Sea is able to hold all of it. Inside the Profound Realm is very dangerous, there the Carefree Immortal Sea sold it to the Holy Light Church to exchange something else.” Su Meiyao said.

Now that Chen Xiang was able to escape safely, they all let out a sigh of relief. Long Xueyi was currently carrying Chen Xiang to fly to the distant area of the sea. They could not return to the islands in Carefree Immortal Sea because Chen Xiang was exposed and both the Carefree Immortal Sea and Holy Light Sect would chase him.

“The Nirvana Realm!” Long Xueyi was shocked and quickly ran into the water.

Although Chen Xiang’s physical body was seriously wounded, he still had very good consciousness and magic power, with which he controlled his immobile hand to take out a piece of Hell Ganoderma and swallowed it.

Fortunately, he had the Holy Medicine such as Hell Ganoderma that could heal injuries quickly. Otherwise, he wouldn’t be able to recover from numerous injuries quickly over the course of years.

“Xiao Ziliang is an expert of talisman manufacture, so the people from Holy Light Sect must have a messenger talisman. Seems like if I must take Liu Menger along with me if want to enter the White Tiger Profound Realm again.” Chen Xiang was able to speak. He was wrapped in the light that Long Xueyi released and advanced stealthily in the deep ocean. The sea water couldn’t penetrate in and his speed of progress was very fast.

Su Meiyao laughed, "Don't forget that only you can obtain the White Tiger Divine Weapon. The hiding place will definitely be very safe. Otherwise, the Carefree Immortal Sea would have long since taken it away."

This was something that caused Chen Xiang to relax as well. He clenched his fists tightly. The people from Holy Light Sect wanted to kill him, and he would definitely make them to pay!

"This bastard Xiao Ziliang even dares to unite with the Holy Light Sect!" Chen Xiang fiercely said.

"That's a Profound Realm, so there must be treasures inside. You can announce it to the outside world. That might even draw the Fire God Shrine." Bai Youyou said.

A light flashed through Chen Xiang's eyes. That was indeed a good idea. He needed to recuperate for a period of time, and Liu Menger would definitely enter the White Tiger Profound Realm at the very first moment then.

Long Xueyi chuckled. "Leave it to me!"

Chen Xiang was brought to a deserted island by Long Xueyi. The island was far away from Carefree Immortal Sea and no one would come in a short run.

Long Xueyi waved her beautiful hand in a direction. A ray of white light flight out from her hand and vanished.

"What is that?" Chen Xiang asked in curiosity.

"One of the Seventy-Two Transformations, I can quickly move my magic power across to Chenwu Continent. Once I get there, my magic power will turn me into a person, then I could control the person to spread the news of White Tiger Profound Realm." Long Xueyi smiled.

Chen Xiang, Su Meiyao, and Bai Youyou all sighed in amazement. This technique was indeed very mysterious.

"Fantastic, right? This is the wondrous use of divine abilities. It's even more powerful that you can create a dragon, then let it to destroy a continent." Long Xuyi smirked and said.

Chen Xiang previously thought that only Seventy-Two Transformations and Furious Dragon Strike were too few for him, but now he knew that there were many things within these two abilities. Without Long Xueyi's guidance, he would have no way of learning the power of his magic power, or cultivating divine force .

"The Nine Dragon Divine Technique is also a powerful divine ability, and it's enough for you to cultivate for the rest of your life. All of the things I gave you right now are just superficial. You would know the formidable powers of those divine abilities one your learn them all." Long Xueyi laughed out loud.

Chen Xiang sat on the beach and ate another piece of Hell Ganoderma. However, this didn't allow him to recover in a short period of time. Only now did he realize that his injuries were severe, and his internal tibia was in a heavy wound.

"These three bastards, I must let them to die. I must make the Holy Light Sect to pay!" Chen Xiang said in a low voice.

"It's impossible for you to raise your cultivation now, but you can increase your physical body and magic power!" Long Xueyi could feel the anger in Chen Xiang's heart, "After increasing your physical body, you will have a carrier to keep a large amount of divine sense, then the magic power would naturally dissipate."

"I know that both my body and my divine sense must be improved in balance. However, these two are the hardest to increase." Chen Xiang heaved a sigh of relief.

Long Xueyi flashed her eyes as she smiled, "I know a way to make you improving quickly. You should know the pain that you need to endure in a short period of time in order to raise your physical body."

Of course, Chen Xiang knew, but he wasn't scared at all. As long as he could make him go out of his way, he would like to take anything.

"How?" Chen Xiang hastily inquired.

"You have the Black Tortoise Strengthening Technique, don't you? You elevated three levels when you entered the sect, now you should think about how to cultivate next?" Long Xueyi asked.

Chen Xiang hurriedly took out the Black Tortoise Body Strengthening Technique and read through it. He was now in the fourteenth level of the Immortal Devil Body. If he wanted to cultivate to higher levels, then he would encounter even more demanding requirements.

It didn't take long for Chen Xiang to find a method to cultivate between the tenth and twentieth levels.

"During the process of refining the body with fire, circulate True Qi in the body in a specific manner according to the formula. After a long period of cultivating, the physical body will be strengthened."

This is the syllabus from the tenth to twenty levels. The next was the formula.

"The problem is that the method requires a very strong flame that could burn me to die cause. But there would be less troubles since we do not need fused iron." Chen Xiang felt a headache. Liu Menger helped him the last time he cultivated, and it would be difficult for her to burn his body for a long time.

"You can't stop when you burn, and the fire must be increased gradually based on your endurance. Your sister Menger must not have the heart to do this, and she fused with the purple fire soul which would definitely conflict with your Heavenly Fire Soul. The only one that can help you in Chenwu Continent is the Primordial Fire Beast under the Youming Abyss!" Long Xueyi said. She already knew the content of Black Tortoise Strengthening Technique.

Chen Xiang was startled. His Heavenly Fire Soul was given to him by the Primordial Fire Beast. The ancient beast was indeed very strong, while Chen Xiang had an agreement with it to save it out.

Chapter 470 Guidance of the Divine Weapon

Chen Xiang shook his head, "there should be a formation technique that prevented him from gaining his power, isn't it?"

"You have powerful items like Luotian Door, don't you?" Long Xueyi smiled and asked, "You're so dumb!"

Chen Xiang's eyes lit up. He laughed out loud and said, "I really didn't expect it."

The Luotian Door could open a Space Gate, which wouldn't be constrained by formations. Chen Xiang used that technique to pass across a powerful formation in the Primordial Holy Land and entered the ruins in which the dragon was imprisoned.

Long Xueyi waited for Chen Xiang to regain some of his True Qi. Only after he could open the Luotian Door did she attach herself to Chen Xiang. Besides, she had long since used the "God Traveling in Nine Heavens" technique to confirm the location of Youming Abyss.

The God Traveling in Nine Heavens Technique allowed his divine sense to fly very fast to a distance place or even through a world. However, Chen Xiang did not have enough magic power right now to use this move.

After the Space Gate opened, Chen Xiang stepped through it and arrived at the bottom of the Youming Abyss. Moreover, it was in front of the mountain cave that imprisoned the Primordial Fire Beast.

This caused the Primordial Fire Beast to let out a roar, and then, a voice rang out from within Chen Xiang's mind, "do you finally get the strength to let me out?"

When Chen Xiang reached the bottom of the cave, he once again saw this colossus. He still felt extremely shocked and terrified.

"Not right now." Chen Xiang said while spreading his hands.

"Hmph, you wasted my pleasure!" The Primordial Flame Beast roared again, with enormous, fire blazing around it, which made it furious.

Chen Xiang hurriedly said, "I know a few Nirvana Realm martial artists. I can let you to save you, but I don't know if that works."

"No, I need the Heavenly Fire Soul or a fire soul stronger than it to save me. Otherwise, no one from the Heavenly Realm could save me." The Primordial Fire Beast said.

Chen Xiang sighed and said, "I came to find you for a favor."

Long Xueyi also came out of Chen Xiang's body at that moment. She looked at a small tree behind the Primordial Fire Beast. That was the Earth's Core Divine Tree. Chen Xiang still had quite a few of the fruits, though being cut it into pieces.

Because cultivating an Earth's Core Divine Tree wasn't a simple matter, Chen Xiang kept the fruit nuclei and waited for planting it in a suitable place.

After that, Chen Xiang explained the matter to the Primordial Fire Beasts that he wished to get a hand.

"I can help you, but I got a better plan!" The Primordial Fire Beast looked at Long Xueyi and snorted coldly. He really disliked the people from the Royal Dragon Family, but now, Long Xueyi, a little girl, was considering of acquiring its Earth's Core Divine Fruit.

"Do you got a better way? I just thought of that method!" Long Xueyi said in disgust.

"Little bullshit dragon, my methods is much better than your!" The Primordial Fire Beast sneered.

Chen Xiang was slightly excited as he hastily asked, "then tell us!"

The Primordial Fire Beast said, "one side of this Youming Abyss directs to the Earth's Core Divine Tree, which is my place, but do you know where the other side direct?"

Chen Xiang and Long Xueyi shook their heads. They had always been curious about this matter.

"I don't know either, but I feel it should be a road leading to the core of the earth. Probably the path is too small for me to notice it back then."

Into the Earth's Core! This made Chen Xiang and Long Xueyi to be slightly excited. That was the core of a world, and the most mysterious place of it. Chen Xiang heard that Earth's Core was the key for a world to maintain its operation.

However, even someone like Huang Jintian couldn't find the core of the earth, and Huang Jintian had always been regretting about it.

Not everyone could come to the bottom of Youming, even including Huang Jintian. Only Chen Xiang who had the Black Tortoise Armament Armor was able to come, so this place was very safe.

After Chen Xiang arrived here, he made a mark on Luotian Door, so that he could hide here the next time he dodged.

"It's hard for humans to come to this place. The reason you're able to come is because you have Black Tortoise Armament Armor. This is absolutely not a coincidence!" The Primordial Fire Beast said.

The Black Tortoise Profound Realm must be nearby, and now Chen Xiang knew about it.

"The Earth's Core must be very hot. Even the strongest humans in the mortal world will be melted there. But you have Black Tortoise Armament Armor, so you should go there. There might be something waiting for you."

Chen Xiang nodded his head. After saying farewell to Primordial Fire Beast, he hurriedly ran towards the other end of the abyss.

"Little fart dragon, pay attention to the surroundings. My injuries are not healed yet!" Chen Xiang exhorted, and Long Xueyi gave him a response.

Last time, Long Xueyi discovered that there was a large amount of living organisms underneath. However, she did not fly to the other direction as Chen Xiang was attracted by the roar of the Primordial Fire Beast.

There might be something strange at the place where he was going.

"There's a large group of them ahead of us. It should be some beasts, and their strength is at Stage Two or Three of the True Martial Realm." Long Xueyi said.

Stage Two or Three of True Martial Realm! If it was the first time Chen Xiang arrived, he would not be able to handle them. But now, beasts in such levels were nothing but ants to him.

With a thought coming out of his mind, a green light bursted out from his right hand, and the Azure Dragon Subduing Devil Saber suddenly appeared in his hand and emitted a green light. After he infilled

True Qi to the saber, its blade lightly vibrated and emitted a humming sound. As the beating of Chen Xiang's intention of kill, waves of fierce killing intent dissipated from the blade.

A series of low and deep roars came out of bottom of dark abyss. All sorts of sounds were heard, making listeners scared, while Chen Xiang did not slow down, but rushing straight through it.

Suddenly, a red light flashed out, and Chen Xiang saw a beast with red eyes coming over. Entire body of the beast was covered in hard armor, and it looked like a crocodile. Its body was large and its limbs were thick, with its entire mouth full of sharp fangs. It seems like that big mouth could crunch everything.

"You ignoble beast!" Chen Xiang shouted coldly as he swung his saber towards the creature. The enormous energy surged through the air, and the ferocious True Qi surged out. Just like breaking bamboo, the blade easily broke the hard armor of the beast apart like breaking a chunk of tofu.

In the blink of an eye, the aggressive beast was cut in half by Chen Xiang, and green blood gushed out from it.

After he slashed one, another beast flew over. These beasts all looked the same. Chen Xiang certainly wasn't afraid. He hurriedly chopped off with the sharps saber in his hand. The azure light formed Saber Qi, like countless threads, constituting a net with green lights and advancing forward. As it passed through, the beasts were cut into chunks by the green made of Saber Qi.

Within a very short period, the strange beast on the road had turned into chunks of flesh!

There were quite a few of these strange beasts along the way. Chen Xiang was thankful that he hadn't come this far when he came, but now, these strange beasts had been slashed into several pieced by him very easily and were unable to pose a threat on him.

Killing these strange beasts only improved some killing intent of Chen Xiang's intention to kill.
