

Dan God 531

Chapter 531 Supreme Treasure Profound Realm

Inside the Demon Subduing Academy, raged Zheng Chu was blaming Zuo Zhenxuan fiercely. Actually, he couldn't punish Zuo Zhenxuan because Zuo had trained his Demon Subduing Force to the tenth level. This was something that even Zheng Chu himself couldn't do, neither were many people in the Heavenly Realm.

Moreover, the Academy needed a powerful person to guard it, and Zuo Zhenxuan was the best candidate. Although he killed a few powerful elders, this proved that he alone could match up to those elders and Liu Yufang.

"I must kill this kid called Chen Xiang. How dare he provoke me?! He doesn't put me in his eyes at all!" Zheng Chu said angrily. He never thought that Chen Xiang would actually slip away from under his nose. This was also a great insult to him.

Zuo Zhenxuan shook his head with a sigh and asked, "elder, you don't come down the Demon Subduing Academy to deal with such a trifling matter, do you? I remember that you have a high position in the Demon Suppression God Shrine. You have control over the immortals. How could such a small matter disturb you!"

Zheng Chu frowned. "You really know a lot of me. No wonder. You've been a principle for so long and have communicated with the Demon Suppression God Shrine many times. You've also come into contact with a lot of people from the Heavenly Realm, but I want to know who mentioned me to you?"

"Haha, Elder Zheng is so young. He only spent five hundred years to pass the eighth Nirvana Tribulations. When people from the Demon Suppression God Shrine came and chatted with them, most of them talked about this matter." Zuo Zhenxuan laughed. His flattery didn't hurt at all, and it was pretty effective.

It was precisely because Zheng Chu had a high position in the Demon Suppression God Shrine that he was provoked by Chen Xiang over and over again when he came to the Mortal Realm. This made him extremely angry.

Zheng Chu looked out the window and said, "do you know why the sky is suddenly dark now?"

Zuo Zhenxuan's brows furrowed as he looked out of the dark window, "as the eclipse occurs, the Supreme Treasure Profound Realm would open. It's said that even the Heavenly Realm is interested in this mysterious Supreme Treasure Profound Realm. It seems like the tale is true!"

"There's nothing we can do about this either. The Great War of the Three Realms is about to begin, and there is a shortage of resources. The rich resources contained within this Supreme Treasure Profound Realm can alleviate the embarrassing environment of martial artists in the bottom level of the Heavenly Realm." Zheng Chu nodded.

Zuo Zhenxuan was a little dissatisfied, "this is a profound realm in the mortal realm, how can you send the resources inside there to the Heavenly Realm?"

“Hmph, it’s not just us who are watching on it. The Fire God Shrine and other forces of the Mortal Realm that have people in the Heavenly Realm also know about the Supreme Treasure Profound Realm! You’re not in the Heavenly Realm, so you don’t know that the map of the Supreme Treasure Profound Realm is everywhere. If we don’t go, others will go as well.” Zheng Chu said.

Really? Is there really a map?" Zuo Zhenxuan had stayed in the Mortal Realm for many years, but he had only heard of the top on Profound Realm, but he didn’t know the exact location.

“Why else do you think the upper levels would take efforts to send you here?” Zheng Chu took out a map and said, “it is right here. this island is called Sun Moon Island. The eclipse will last for at least a month, so we still have a month!”

....

An old man suddenly appeared in the lobby of the Divine Martial Hall on the King’s continent. “This is a map. We need to find the Sun Moon Island. At that time, many forces will surely rush into the Supreme Treasure Profound Realm. I want to prepare for the worst!”

Similarly on the King’s Continent, the hall master of the Fire God Shrine had urgently gathered all the experts of the hall. He had a map in his hands as well!

Not only the ancient powers on the King’s Continent, all people who had ascended into the Heavenly Realm had also obtain the map. Many of the outstanding individuals from the sects in the mortal world would be attracted by the Heavenly Realm when they ascended. They did so for the benefit of their original sects.

Of course, there were only a few forces that could transport goods from the Mortal Realm to the Heavenly Realm.

“Master, I received news from above about the top on Profound Realm under the heavens. I obtained a map of it, and now is also the time for the eclipse, thus the upper level sent me to take a look at the Supreme Treasure Profound Realm.” Gu Dongchen said from beside the huge crater.

“Then go for it. Be careful. The situation in the Mortal Martial Realm is getting more and more complicated. It seems that no one with sufficient strength will come after me to intimidate us.” Huang Jintian said.

Many sects had existed for tens of thousands of years, or even more than a hundred thousand years, and there were some headmasters who had ascended into the Heavenly Realm. At this moment, they were all using their greatest strength to spread the news of the top one Profound Realm.

But now, Chen Xiang was complacent and thought that he could take the entire Profound Realm for his own, but he didn’t know that there were many powerful old fellows rushing towards Sun Moon Island, nor did he know that the profound realm like was called the Supreme Treasure Profound Realm in the Heavenly Realm!

“It’s really far away. I cannot arrive at the Sun Moon island in one go with my current strength, but need to take ten steps.” Chen Xiang held onto the Luotian Gate and found the location of the Sun Moon Island. This meant that Wu Canghong had also been to the Sun Moon Island.

It was completely dark, and such a state would last for a month, so Chen Xiang only had a month of time. Otherwise, the top one Profound Realm would close, and he would have to wait until the next time to open it.

Chen Xiang used Luotian Gate to open up a spatial gate. After entering it, he went to the sea and then continued opening the spatial gate ...

After thirteen consecutive times, he finally arrived at the Sun Moon Island!

The Sun Moon Island was a humongous round island. At this moment, there was a layer of white light surrounding the it. The center of the island was gushing with an extremely dense wave of Yin Qi, causing people to feel incomparably cold after entering.

“This is indeed a strange place. The Profound Realm deserves the name, so as every other Profound Realms!” Chen Xiang looked in disbelief at the huge spatial rift that was slowly opening in the middle of the Sun Moon Island. From afar, it looked like a huge door that emitted a white glow as it slowly opened up.

“This is the legendary top one Profound Realm in the world! Who would have thought that I am the person who obtains it after Li Junji, the King of Dan!” Chen Xiang laughed and ran towards the center of Sun Moon Island.

“What a powerful spatial power. This Profound Realm isn’t simple. It’s very solid. If your strength isn’t enough, then you must use your Luotian Gate to get into it!” Long Xueyi said.

From afar, the huge crevice in the middle of the Sun Moon Island looked like a white light shooting up into the sky. However, when he walked in and took a look, the entrance was shockingly large, causing Chen Xiang to feel as if it was a gate of heaven from within waves of dense Spirit Qi came out but was quickly absorbed back.

What he didn’t know was that there were already many top Mortal Martial Realm martial artists rushing over fast. Moreover, he was very familiar with these old fellows!

“I have something good to eat!” Long Xueyi giggled. Chen Xiang was very generous to her right now because he could quickly create a large amount of elixirs with the divine liquid, so he had a rich reservation.

Chen Xiang walked into the huge crevice then stepped into a passage filled with white light. After he stepped out of the passageway, he heard the crisp roar of beasts and an incomparably dense Spirit Qi rushed out.

“What is going on with this Profound Realm? I remember that the days and nights in the Profound Realm should be the same as they are outside. It’s in an eclipse right now in outside world!” Chen Xiang looked at the countless green mountains before him in bewilderment. At this moment, he felt that it wasn’t a Profound realm, but a great world.

Chapter 532 The Sun Moon Island

After taking a few steps forward in a plateau, Chen Xiang's expression suddenly changed, because he suddenly felt not able to circulate his True Qi as if it had been cut off from him. He could feel the True Qi in his body, but could not to use it!

It was the same situation when he was in the Profound Martial Realm. Even Long Xueyi, who had a large amount of memory inheritance, did not know how the Profound Realm was formed. However, it could be confirmed that some of the Profound Realm had been modified by some powerful martial artist by adding some powerful formations and restrictions.

"It's too unsettling that I cannot use my True Qi!" Chen Xiang took out the Azure Demon Subduing Slayer. The weight of this divine saber was still there and increased as his strength elevated.

"I can also use Black Tortoise Armament Armor." Chen Xiang released his Black Tortoise Armament Armor, wrapping it around his body, which made him extremely majestic and handsome.

Even after confirming that these life-saving items were usable, Chen Xiang still couldn't feel at ease. He took out the Luotian Gate and activated with his divine sense, but Luotian Gate could not extract the True Qi within his body. Such a formidable spatial weapon was also constrained.

"We got some trouble." Luotian Gate was the thing that Chen Xiang used to flee. He was in the top one Profound Realm in the world, while no one knew the dangers within. Thus he had to be considerate with his actions.

Right now, he could only use his magic power and divine sense. He easily transformed into a bird by performing the Seventy-Two Transformation Technique, which was a method he used to conceal himself, especially in the forest.

After switching back to human force, he began to spell the chant and released out his magic power, then Spirit Qi raised up in the sky far away and crazily gathered together. That was the Heavenly Dragon Magic Seal. Although it was unable to extract the True Qi in his body, the technique could condense the Spirit Qi in the sky for him to take attack. However, the process would take some time.

Hearing the gloomy howls coming from all directions, Chen Xiang lightly took a breath, "I'm going all out!"

The further away he got from the entrance, the heavier he felt, as if his body was pressed down by a thousand pounds.

"It seems like I've truly entered the top one Profound Realm now! There was actually such a strong pressure! If the demon beasts and plants here are also affected by this pressure, then they must be strong." Chen Xiang was slightly excited in his heart, since the magical flowers and grass that were able to survive in this environment must have a supreme quality.

Of course, the beasts would also be stronger!

"It's about twenty times gravity here, which means the gravity you are currently bearing is as heavy as twenty of your weight!" Long Xueyi's voice was somewhat surprised. "The time is also different from the outside. Ten days inside only count for one day outside. This is a world of high quality."

The better the quality of a world, the harder it would be to collapse. For example, the Heavenly Realm was much more stable than the Mortal Realm and had a dense amount of Spirit Qi.

“Twenty times gravity? I feel nothing different.” Chen Xiang faintly smiled. He felt excited as he thought of finding rare elixirs here.

Walking into the depths of the forest, Chen Xiang discovered that all the plants here had very strong vitality, and their recovery ability was also formidable. He hacked a knife into the tree trunk, but it only took a moment for it to recover. Beside, the trunk was very solid, that he could only cut in a little bit of it.

“What a pity. If only I could absorb the vital Spirit Qi here.” Chen Xiang circulated his Tai chi Dragon Subduing Technique, but he was unable to absorb anything.

“Try Devouring Demonic Art!” Bai Youyou said. Although the Devouring Demonic Art was not an offensive technique, for Bai Youyou it was a technique that was even more powerful than many divine and demonic arts, since it devoured. In fact, Chen Xiang took a lot of advantages of learning the Devouring Demonic Art.

What surprised Chen Xiang was that the moment he used the Devouring Demonic Art, a large amount of Spirit Qi suddenly entered his body to his Dantian, then began to refine itself, but he still could not use it.

“These Spirit Qi contains a very rich vitality that can accelerate the growth of the elixir! While you have not found even a single useful elixir after walking for half a day. It seems like the elixir should be planted in a designated place.” Su Meiyao said. She was very familiar with spiritual medicines, and she observed that no elixir was present among the large amount of plants along the way.

Once again, Chen Xiang took out the map of the top one Profound Realm. The map merely shew nothing but a route to the Sun Moon Island, while Chen Xiang had watched it for many times.

But now that he had taken out the map, the map suddenly floated out and spread out horizontally. On it slowly appeared a few golden spirit patterns, after which the surrounding Spirit Qi flowed into the map, causing Chen Xiang to be dumbstruck.

“Li Tianjun is indeed a mythical person. Even the map he drew is so magical.” Chen Xiang sighed in admiration. Right now, the map had already turned gold, and on it was a simple map of this top one Profound Realm. One of the locations was marked with a red dot, which Chen Xiang guessed was the location of the elixir.

“This Profound Realm is really huge! It’s actually even bigger than the King’s Continent!” Chen Xiang looked at the map and deduced the size of the Profound Realm. The place he was currently at was the edge of it. Even though he had walked for more than half a day, he was still at the edge, whereas the red dot located on the northeastern edge of the Realm.

He was at the southernmost point, while he could not use the Vermillion Bird Fire Wings nor True Qi. This way it would take him a very long time to get there, at least half a year for the round trip. Fortunately the rate of time elapsing here was different than outside, otherwise it would be impossible for him to arrive at the red dot within a month.

Half a day after Chen Xiang entered the realm, a large group of people had gathered in Sun Moon Island that was illuminated by white light. These people were bustling, talking, laughing, and also mocking each other. They were the powerful martial artists from numerous continents, in a total of seventy to eight individuals.

Gu Dongchen, Lian Mingdong, and Xiao Ziliang were the only ones who came from the Chen-Wu Continent. The remaining people were all quite surprised at the time, especially not seeing Liu Menger, the female emperor, and Hua Xiangyue from the Dan Garden.

Liu Menger's Heavenly Kingdom of Divine Weapon had a very long history, while Hua Xiangyue was a famous alchemist grandmaster of the Mortal Martial Realm, but none of them were coming.

They didn't know that Liu Menger and Hua Xiangyue were both preparing for the eighth Nirvana Tribulation.

The hall master of Fire God Shrine snorted coldly as he saw Gu Dongchen, "the kid from your Extreme Martial Sect does not come? This is really unexpected!"

"I wish to bring him here as well, but I couldn't find him." Gu Dongchen smiled lightly.

"You're talking about Chen Xiang, ain't you? This brat offended an impressive fellow." An imposing aura suddenly enveloped them, causing the seventy or eighty experts to be shocked.

This level of aura was something that they had only seen when facing Huang Jintian!

However, this person wasn't Huang Jintian, but someone else.

Zuo Zhenxuan and Zheng Chu had arrived. Their two auras were released at the same time, which intimidated many people.

"I am Zuo Zhenxuan, the principle of Demon Subduing Academy!" Zuo Zhenxuan smiled.

"I am Zheng Chu, a temporary elder of the Demon Subduing Academy! I just came down from the Heavenly Realm and saw Chen Xiang killing the former principle of the Academy. If any of you have a trace of Chen Xiang, please let me know. I will pay a great award for it." Zheng Chu could not conceal the anger on his face when he mentioned talked about Chen Xiang.

It was pretty stunning for those people to see a person coming down from the Heavenly Realm. Immediately, all of their shew reverence as they looked at Zheng Chu.

Chapter 533 Black-Stone Dragon

Seeing the expressions of the crowd, Zheng Chu was full of pride showing on his face. From his perspective, those who born in the Mortal Realm would definitely be inferior to him, thus he looked down on them from the bottom of his heart.

Of course, no one thought that Chen Xiang would offend such a fellow.

Everyone was just reminiscing with old friends and flew towards that huge white crevice. They went inside to get those elixir, and if necessary, they might even fight with their old friends.

After the experts entered the top one Profound Realm, they immediately felt that something wasn't right. Their expressions changed greatly, and they were all shocked because they couldn't use their True Qi. If that was the case, then they could only rely on their own physical body to deal with the danger.

Moreover, there was a certain amount of gravity in this place. Many people were considering whether or not to leave this place, because the occasional beast roar carried a lot of power, whereas it would be extremely dangerous if they got sieged by demons and beasts while not able to use True Qi.

Soon enough, someone made the decision to retreat, then quite a few people followed out. However, there were still fifty experts that didn't fear at all.

The top one Profound Realm was huge. The crowd dispersed and chose their own paths and search for the rich resources. They knew that they didn't have much time here, so they immediately scattered.

...

At this moment, Chen Xiang was walking through a canyon which was rather gloomy and dark. Beside, there were some caves in the walls of the canyon, as if there were something powerful hidden inside.

His pace suddenly became very slow, and he didn't make any sound as he walked. His aura was also restrained, because he felt that the danger was right in front of him in the huge caves on both sides of the mountain wall.

"This aura ...seems to be the Black-Stone Dragon." Long Xueyi suddenly exclaimed.

"Black-Stone Dragon? You mean the creature evolving from the Black-Stone Python?" Chen Xiang's heart skipped a beat. This sort of thing was extremely powerful.

"Exactly." Long Xueyi reminded him. "Be careful. Kill them if you could, then take out their beast cores. You can eat their beast cores."

Just as Long Xueyi finished her words, Chen Xiang observed a black shadow suddenly flying out from a cave and came over.

Chen Xiang had been on alert the entire time. When he saw something attacking him, he evaded and simultaneously took out the Azure Dragon Devil Slaughtering Slayer. On the other hand, the Black-Stone Dragon did not run into Chen Xiang, but plunged into the rocky ground.

Without a python's body, black stone-like scales covering its body, horns on its head, and claws, the creature looked like a small dragon. However, it was very different from a dragon, but it had a domineering aura that the python did not possess. Even Chen Xiang could clearly feel its physical strength from the side.

The Black-Stone Dragon let out a roar and swept its tail towards Chen Xiang. Not only did Chen Xiang not dodge, he even slashed down with great speed. Even though he did not use True Qi, the speed of his blade was still as fast as before. The blade sliced through the air as if it wanted to split a space crack. It ruthlessly smashed against the huge tail that was sweeping over.

The edge of the blade hacked down on the stiff tail, causing the Azure Dragon Devil Slaughtering Slayer to let out a dragon's roar and a black clump of soil. Chen Xiang was also blowed away by the impact and crashed into the wall, but the Black-Stone Dragon also let out a painful cry.

The enraged creature roared and opened its bloody mouth to swallow Chen Xiang. Its speed was as fast as the wind, and the burst of energy caused the stones on the ground to be reduced to dust.

"That's it! You can't use True Qi either! "

Chen Xiang suddenly waved his arm fiercely and steadily, just like waves of wind of saber. with an invincible power as he rushed towards the Black-Stone Dragon's bloody mouth. The fierce power exploded from the Azure Dragon Devil Slaughtering Slayer and entered the Black-Stone Dragon's mouth, instantly shattering its teeth, pouring into its throat, and then rushing back to its tail!

Although the Black-Stone Dragon had a sturdy skin, it was extremely weak inside. After its long body was thoroughly attacked by such a wave of formidable force, everything inside got destroyed. The Black-Stone Dragon suffered a lot as it let out waves of mournful cries and rolled around.

Thanks to Long Xueyi's sense, Chen Xiang found the location of the Black Rock Dragon's beast core. He raised his divine blade high up in the air and chopped the beast down to two halves. Extremely hot blood was flooding out with very dense sense of life, then a fist-sized round crystal shivering green light came out along with its blood and organs. .

"Such small?" Chen Xiang frowned. However, when he held it in his hand, he discovered that the beast core of the Black-Stone Dragon contained very pure energy, which made him surprised, since such a power should be in the level of Soul Martial Realm, hence the creature that carried it must be a profound beast.

"Be careful!" Long Xueyi suddenly reminded him.

Chen Xiang also felt a wave of air currents coming over. He leaped a hundred feet away and saw another Black-Stone Dragon flying out of a cave. What made him amazed was that these Black-Stone Dragons were all fighting one-on-one.

However, he would not be afraid even if all of them came out together. Currently, he already understood the strength of these creatures. They could not use True Qi, so their strength would be greatly reduced. They could only rely on a powerful physical body to attack, but Chen Xiang had the Azure Dragon Devil Slaughtering Slayer which could cut through diamonds, not to mention these rock-like scales.

"Roar ..."

The Black-Stone Dragon let out a roar as its thick body suddenly became extremely nimble. Its speed was as fast as lightning as it pounced towards Chen Xiang.

Chen Xiang only let out a sneer. He didn't use the Azure Dragon Demon Slaughtering Slayer. Instead, he threw a palm at the huge bloody mouth, following by five consecutive explosions.

Even though he couldn't use True Qi, a surge of energy had been generated in Chen Xiang's body. One could only possess such kind of energy flow after he trained his body for thousands of times. At that moment, Chen Xiang utilized this sort of energy to perform Demon Subduing Force.

At the same time the sound of Demon Subduing Force was heard, it pierced through the Black-Stone Dragon's throat. After that, waves of blood mist bursted forth from its throat to tail. It was totally blown by the Demon Subduing Force.

Before Chen Xiang could take out the beast core, another black shadow flashed over.

"Perfect timing!" Chen Xiang took a step forward and unleashed another palm. The Demon Subduing Force exploded again and pierced through the Black-Stone Dragon's rigid rock scales, knocking out its beast core. After losing its beast core, the Black-Stone Dragon died instantly.

One after another, these Black-Stone Dragons were so stupid that Chen Xiang could not believe. In just a short period of time, there had been thirty of them coming to their deaths.

Chen Xiang used either his Demon Subduing Force or his divine saber to slaughter those huge Black-Stone Dragons one by one.

After killing them, Chen Xiang took out their beast cores and conceal their corpses properly.

"Someone's coming! It's Zuo Zhenxuan and Zheng Chu!" Long Xueyi suddenly shouted with a surprised voice.

Chapter 534 Reversion

Although this canyon was not a necessary passageway, it was the shortest route. It was obvious that Zuo Zhenxuan and Zheng Chu had the map of the top one Profound Realm for them to come.

It surprised Chen Xiang a lot that there were other people entering this top one Profound Realm through exactly the same path he took!

"We'll be arriving very soon. These two guys seem to be riding on some sort of powerful magical equipment, so they move very fast." Long Xueyi said.

Chen Xiang hurriedly jumped into the cave of a Black Rock Dragon and hid within.

"Xueyi, can you please delay Zuo Zhenxuan, or lure him away which would be the best. Although I'm this guy's savior, I'm worried that he will stop me from killing Zheng Chu later!" Chen Xiang said as he clenched his fist tightly. He must make use of this opportunity to slaughter Zheng Chu.

"No problem!" As Long Xueyi spoke, she turned into a ray of white light and flew out of Chen Xiang's body. At this moment, Chen Xiang saw Long Xueyi rushing towards a rapidly approaching object and accurately striking Zuo Zhenxuan, knocking him off his feet.

Following that, a huge tornado with a white glow suddenly appeared. Zuo Zhenxuan was sucked into the tornado before he was flung far away.

"That's all I can do!" Long Xueyi did it aptly, causing Chen Xiang to click his tongue. In just a short moment, she had taken Zuo Zhenxuan away.

Zheng Chu came down from the Heavenly Realm. Chen Xiang was worried that Zuo Zhenxuan would join forces with Zheng Chu to attack him in order to secure his position as principal. At that time, it would be difficult for Chen Xiang to make a move.

Zheng Chu stopped. Only then did Chen Xiang see that Zheng Chu was riding a huge rune which was glowing and flying very fast. This was the first time Chen Xiang had seen something like this.

"Is that Black-Stone Dragon. It stinks down there." Zheng Chu noticed that there were many traces of blood on the Black Rock Dragon. He frowned slightly.

"Who is it? Don't be so sneaky." Zheng Chu quickly came to the conclusion that someone killed many Black-Stone Dragons here before.

This canyon led to the place where the spiritual medicines were planted. Zheng Chu and the others had to ride powerful spiritual talismans in order to arrive here fast, but now there were individuals that had arrived earlier than them and ambushed them, which turned him surprised.

"It's me!" Chen Xiang laughed sinisterly as he summoned the Hands of God of Slaughter and the Azure Dragon Devil Slaughtering Slayer, power of the former became even stronger as it was released by the tiger-skin gloves.

A cold killing intent accompanied by a sharp saber energy covered the sky and rushed towards Zheng Chu. Although this blade was not chopped with Chen Xiang's horribly dense True Qi, the aura it released was still majestic and shocking. Its speed was as fast as lightning as it violently chopped down from Zheng Chu's head, giving rise to waves of tornado-like energy.

"Chen Xiang!" Zheng Chu was extremely shocked. In that short moment, he hastily dodged and let Chen Xiang hack the flying talisman into pieces.

Although he missed the first attack, Chen Xiang did not feel that it was a pity. He reversed his hand and chopped once again brought forth a swift and fierce slash that carried with it an explosive "pa pa pa pa" sound. It shook the air and swept everything in its path, condensing an extremely terrifying force that was as fast as lightning, as if it could pierce through everything in the world and stab towards Zheng Chu.

With a "sou" sound, the powerful force passed through and pierced through Zheng Chu's left shoulder, hitting the mountain wall and leaving a fist-sized hole on it. The hole was so deep that one couldn't see the bottom!

Zheng Chu had passed the eighth Nirvana Tribulation, thus his reaction and speed far surpassed those of the Extreme Realm cultivators. Hence Chen Xiang's two quick and violent attacks were unable to kill him.

Chen Xiang had gathered all of his aura and strength into those two strikes. Now that he hasn't been hit, his aura has also receded quite a bit. He had to start from the beginning.

Both of their feet touched the ground at the same time. Chen Xiang's previous two strikes were completed when they fell. It was clear how fast he was.

Chen Xiang expressed rich killing intent on his face. His entire body surged with killing intent like a dragon. His firm and cold eyes clearly showed his determination to kill Zheng Chu.

Seeing his expression, Zheng Chu was pretty terrified. An unprecedented fear rose up in his heart. He had just witnessed Chen Xiang's strength as well as that monstrous killing aura.

"You...want to kill me?" Zheng Chu suddenly became so angry unconsciously. He let out a load roared. He was an elite who dominated immortals in the Heavenly Realm, but now a man merely at the Extreme Realm intended to kill him. This caused him to feel that his dignity was being trampled upon.

Chen Xiang brandished his divine saber, then a series of crackling sounds could be heard. As Chen Xiang chopped down his weapon, a wave of incomparably tyrannical Demon Subduing Force condensed into a point and shot towards Zheng Chu.

"Of course I can kill you since you want to kill me!" Following his words, Chen Xiang once again used his Demon Subduing Force to pierce through Zheng Chu's body. This time, it was on his right shoulder.

Even not using True Qi, the strength that Chen Xiang displayed was beyond Zheng Chu's imagination, especially the terrifying force flow. It was something as powerful as True Qi, and could only be produced after the body had been repeatedly tempered and smelted in a furnace. Only a very diligent cultivator could make it.

"You ..." Just as Zheng Chu said this word, a burst of energy rushed out from under Chen Xiang's feet. His entire body was like an arrow shot out of the mystery as he flew towards Zheng Chu.

"Hmph!" Chen Xiang used his blade to slap Zheng Chu's face, sending him flying into the mountain wall.

With the Hand of God of Slaughter and Azure Dragon Devil Slaughtering Slayer, Chen Xiang was extremely formidable in an environment where no one could use True Qi, causing Zheng Chu to be incomparably afraid. Seeing Chen Xiang attack him one after another without any scruples, Zheng Chu realized that Chen Xiang would really kill him, while he had not even the chance to retaliate.

Zheng Chu, who laid on the ground, was just about to get up when he saw Chen Xiang leaping high into the sky then suddenly fell down like a steel plate, after which his foot trampled on Zheng Chu's left button.

"Crack!" Zheng Chu's Nirvana Realm flesh body and his bones that he had refined with powerful True Qi for many years were both crushed. His flesh and blood splattering everywhere, and he let out a mournful roar. At that moment, Zheng Chu was miserably fragile.

"Your body is too rotten!" Chen Xiang's eyes flashed with a hint of coldness. Demon Subduing Force gushed out from his feet as he ferociously stomped on Zheng Chu's right shoulder and crushed his bones, which caused Zheng Chu to be in excruciating pain.

"So what if you came down from the Heavenly Realm? I can still trample you to death!" Chen Xiang's expression was malevolent and his eyes were vicious. He crazily stomped on Zheng Chu's body. He precisely controlled the strength of his attack that did not crush Zheng Chu into meat, but caused blood to spurt out from his mouth like a fountain.

The incomparable humiliation and pain made Zheng Chu feel like an ant. Even though he had monstrous hatred in his heart, he could do nothing about it. He never imagined that a genius like him who was even famous in the Heavenly Realm would be ruthlessly trampled upon by a kid who wasn't even in the Nirvana Realm.

Chapter 535 Faerie Goods

Chen Xiang picked up Zheng Chu's lapel and ferociously punched his face with his Demon Subduing Force again and again. Although it was only one sound of the Demon Subduing Force, it was enough to make Zheng Chu dizzy and swollen.

"Chen Xiang, why don't you kill me?!" Zheng Chu's anger reached its peak.

"You want to die? It's not that easy!" Chen Xiang sneered as he crazily waved his fists, which brought along a strong wind. The explosion of his fists caused the demonic energy to explode, mercilessly smashing into Zheng Chu's body, breaking his bones and shattering his meridians inch by inch. Zheng Chu wished nothing but death.

In the canyon, the fist wind were howling miserably like tigers roaring. Thunders rumbled incessantly. Indeed, Zheng Chu's body was strong, that he survived under the devastation caused by Chen Xiang's explosive fists.

"Don't be complacent... haha I am gonna die with you." Zheng Chu suddenly let out a sinister laugh that made Chen Xiang's hair stand on end.

Suddenly, an intense wave of divine sense rushed over. Chen Xiang only saw Zheng Chu suddenly faint and a ray of white light surged out from Zheng Chu's head. The light carried an extremely powerful spiritual suppression that made Chen Xiang feel a sharp pain in his head and almost explode.

"His soul left his body, seems like this guy is going to use his soul to die with you." Long Xueyi screamed.

"Devouring Demonic Art, quick!" Bai Youyou hurriedly shouted.

Chen Xiang hurriedly operated his Devouring Demonic Art, after which the soul force that was trying to penetrate his body was suddenly refined into an extremely pure soul force which then entered his Sea of Consciousness, fusing with his soul and strengthening his divine soul!

A sharp pain suddenly transmitted from Zheng Chu's soul. He felt his soul being torn apart by a powerful force, which intimidated him extremely, since this soul was his only hope. If Zheng Chu could use his soul to kill Chen Xiang, then he could wait until Zuo Zhenxuan arrived and save him.

But now, Chen Xiang was using a terrifying evil art to devour his soul!

"It's out of my prediction that this kid has cultivated his soul to such a level. It seems he wants to cultivate a divine soul, but no matter how strong his soul is, it is inferior to yours!" Bai Youyou said faintly, "this seems to be a soul technique from the Immortal Path, able to cause the soul to leave the body. However, it is very dangerous."

Chen Xiang let out a light sigh as he slowly circulated the Devouring Demonic Art and slowly devoured Zheng Chu's powerful soul.

"Is that the Devouring Demonic Art... You evildoer!" Zheng Chu sneery yelled. Both Chen Xiang and Bai Youyou were surprised that Zheng Chu could recognize this Devouring Demonic Art.

"So what? My demonic art is specifically designed to devour guys like you. Haha!" Chen Xiang laughed. Bai Youyou once said that very few people could recognize this Devouring Demonic Technique even in the Heavenly Realm. It was rigidly inherited and only a dozen of people could ever learn it.

Chen Xiang could not devour Zheng Chu's power, but it would be more than includable for him to devour his soul!

A divine soul could produce powerful magic power that contained an extremely mystical power. It allowed a person to change his or her forms and unleash divine abilities ...One could see how extraordinary it was. Normal souls simply couldn't compare to it.

Very quickly, Zheng Chu's soul was painstakingly devoured and refined by Chen Xiang, becoming a part of his soul.

Long Xueyi had said that the first big stage of divine soul was divided into six phases: infant, young child, growth, transformation, maturity, and perfection. Each phase was further divided into ten levels. Chen Xiang was previous at the tenth level of growth phase. After devouring Zheng Chu's soul, he jumped into the first level of transformation phase.

The divine soul within his Sea of Consciousness was currently being enveloped by a faint white barrier of air. As long as he reached the tenth level, his soul would form a complete cocoon, while he had already begin to transform. After transformation, he would reach the perfect stage, at which his magic power would even be stronger.

"As expected of a soul that survived the eighth Nirvana Tribulation!" Long Xueyi exclaimed in surprise. Although it was a powerful soul that survived the eighth Nirvana Tribulation, it only raised Chen Xiang's soul by one stage, which showed just how powerful a divine soul was.

"Don't waste this body. Seal it up first, and don't let the power in his body run out. When you have the chance, swallow this power, or use an indirect method to devour it for Liu Menger." Bai Youyou said that those who successfully devoured the eighth Nirvana Tribulation were all from the Heavenly Realm. Thus their body would definitely increase his power. Hearing that, Chen Xiang quickly stopped beating the body. He then froze it with rocks that released ice, placed it into a sarcophagus and sealed it inside his storage ring.

"Hurry up and leave, Zuo Zhenxuan is coming back!" Long Xueyi hurriedly called out.

Chen Xiang planned to check up Zheng Chu's storage ring, but he must leave now. He did not want to have any conflicts with Zuo Zhenxuan, because Zuo Zhenxuan was the principle of Demon Subduing Academy. He could take care of Xue Xianxian and Leng Youlan in the Academy, especially with the help of the Stellar Transposition Realm that would save him a lot of time.

Now that he had finished with Zheng Chu, he could still quietly return to the Demon Subduing Academy in the future.

"This guy must have a very high position in the Heavenly Realm to actually have such rare items, thousands of them. That's amazing!" Su Meiyao couldn't help but suck in a breath of cold air. Bai Youyou also had an expression of surprise on his face.

Chen Xiang didn't have the time to check the storage ring, so he could leave it to Su Meiyao and Bai Youyou to examine it.

Hearing the two girls exclaim in surprise, Chen Xiang knew that the top quality crystal must be very valuable.

"Is there any Dan or anything like that?" Chen Xiang hurriedly asked.

"Let me take a look. There's a box inside. Although I can feel the elixir and Spirit Qi inside, I can't open it. There's a restriction or something. Judging from the Dan's aura, it must be at the Heavenly Grade!" Su Meiyao said.

Heavenly Grade Dan! Chen Xiang was shocked. This kind of Dan was rarely seen in the mortal world. Su Meiyao and Bai Youyou had also said it was extremely expensive even in the Heavenly Realm.

"What else?" At this moment, Chen Xiang was overjoyed.

"There are also a few flying talismans, a low-quality immortal sword, and two maps." Su Meiyao said with some surprise, "one map shows the Sun Moon Island; the other shows this top one Profound Realm. It seems like Zheng Chu came down primarily for this Profound Realm."

At that moment, Chen Xiang had turned into a bird. He had to leave the canyon before he could stop. However, he really wished to stop immediately and took a look after learning that there were a lot of good items within Zheng Chu's storage ring.

"An immortal sword? That is a good item! But it's no use to me." Chen Xiang said. He already had the Azure Dragon Devil Slaughtering Slayer, which was a divine weapon that was even more powerful than an immortal tool.

Chapter 536 Stele

Zuo Zhenxuan felt extremely helpless in this Profound Realm where he couldn't control his True Qi. After being thrown out by the tornado released by Long Xueyi, he had no way to control his body. He could only allow that huge force to fly him out.

Although he didn't know what happened at that time, he was certain that someone had deliberately released that power to separate him and Zheng Chu.

Zuo Zhenxuan quickly returned to the canyon, but he only saw some blood stains on the ground. It was Zheng Chu's blood, and he guessed that someone had kidnapped Zheng Chu and had ordered him to lead the way to the place where the rare plants were hidden. Zheng Chu had said that only he had a detailed map of the top one Profound Realm.

Chen Xiang turned into a bird and quickly left the canyon, hiding deep in the mountains.

"This box is really hard to open. It's small and full of powerful restrictions. If I forcibly destroy it, I will activate those restrictions and cause the box to explode." Chen Xiang frowned. Inside the box was a Heavenly Grade Dan, but right now it was very difficult to open it, which made him extremely anxious.

"I should have used the Soul Taking Incantation to search that guy's memories. With my current understanding of formations, I am simply unable to open it." Chen Xiang shook his head and sighed. He could only temporarily put away the box containing Heavenly Grade Dan, and waited for Liu Menger to open it for him.

To avoid meeting Zuo Zhenxuan, Chen Xiang didn't follow the map. He was worried that Zuo Zhenxuan also had a map. Besides, even though Zuo Zhenxuan knew he killed Zheng Chu, Chen Xiang didn't want to

do anything to him. He wanted to build a good relationship with Zuo Zhenxuan so that he could benefit from Demon Subduing Academy.

At this moment, Chen Xiang turned into a bird and rapidly flew towards his target. He knew that those sect headmasters would soon know what happened in Sun Moon Island, especially in this unique period, so he had to hurry to the place where the elixir plants was hidden.

Although Chen Xiang had become a bird, due to his True Qi which was affected as well as the pressure down there, his speed became very slow. He continuously flew for more than two months before finally getting close to his destination. However, he was surprised as he saw the entire land he was standing on was extremely futile with all plants withered.

"It's really far. Fortunately, the time here is different from the outside. Otherwise, the entrance would have been closed by now. I need to quickly go to that place and obtain more spiritual medicines." Chen Xiang looked around, "however, this place doesn't seem to be a place with a large amount of exilic plants."

The Spirit Qi here was pitifully thin, and this place was also at the border of the top one Profound Realm. Chen Xiang guessed that the Spirit Qi of this Profound Realm was all concentrated in the central region, so after arriving here, he was very puzzled, because according to common sense, this place couldn't possibly allow a large amount of rare flowers and plants to grow for many years.

"It seems like the marking on the map is not the place where the elixirs grew. It should only be a hint!" Su Meiyao said. If precious elixirs could still grow in such a place, there could only be one possibility, that there must be a powerful Spirit Gathering Formation there, but Long Xueyi didn't sense it.

An hour later, Chen Xiang climbed over a desolate mountain. In front of him was a desolate plain with a stele erected on top of it.

The stele wasn't big, only as tall as a person. Although it was still very far away, it was very eye-catching on this plain.

"Damned Li Tianjun!" Chen Xiang cursed as he continued to run. On the way here, if it wasn't for him quickly arriving here, he would have already killed many powerful demon beasts and obtained many demon cores which should be a huge amount of wealth.

But as he continued on his journey, he arrived at a place where even birds never shit.

The words on the stele were written by Li Tianjun. It didn't contain much information, but was extremely infuriating.

"The one who comes here, do you feel angry? Do you think it's all for nothing? Don't be angry, I only wish you to experience the beauty of the interior of this top one profound realm! Back then, I was trapped here for many years, so I got bored and wandered around here."

"Hah, there were precious elixirs everywhere, but I've already harvested all of them. Most of them were reduced to ashes when I was refining pills, and only a small portion was moved to a place close to this top one profound realm. Below it is a map!"

Chen Xiang wanted to smash this stele into ashes with his palm. He came here with so much effort, but it was only a joke by Li Tianjun. Luckily, there were still some elixirs inside, otherwise he would have vomited blood.

"Don't worry, the elixirs Li Tianjun planted in the past have definitely grown!" Su Meiyao said.

Chen Xiang also hoped so as he started to memorize the map engraved on the stele.

"Haha ...The precious elixirs in this top one Profound Realm all belong to our Fire God Shrine." A loud and excited voice rang with laughter.

"The Demon Subduing Academy is too naïve. They definitely didn't expect us to have a map of this Profound Realm!" Another gentle voice spoke in a mocking tone.

When Chen Xiang heard these two sounds coming from afar, he hurriedly turned into a rock and hid nearby the stele.

"Dammit, what is going on here? It's not strange that these guys can enter the top one Profound Realm, but how could they all got maps! " Chen Xiang asked doubtfully in his heart.

Very quickly, Chen Xiang saw a middle-aged man and a young man dashing over from the distance. They were wearing the customs of Fire God Shrine

Sure enough, it was as Chen Xiang had expected. All of them went into a rage after seeing the contents on the stele.

"I've checked around. There are no signs of anyone else coming here. It seems that we were the first to find this place." The youth said.

At this moment, a burst of laughter came from afar, "that's right, but what if you found it first?"

As they spoke, two old men wearing white robes flew over and appeared on top of the stone monument. With a glance, they saw the contents on it, then furrowed their brows.

"They are elders of the Divine Martial Sect. I have seen them before! People from the Divine Martial Sect are all bad guys. Back then, they also planned to kill me." Chen Xiang thought.

He suddenly discovered that there were many powers that had entered the top one Profound Realm, including the elders of the Divine Martial Sect and the Fire God Shrine.

"Where are the hall master of the Divine Martial Sect and Fire God Shrine? They should be the first to arrive! " Chen Xiang was puzzled and continued to observe. It would be the best if the Divine Martial Sect and Fire God Shrine had a conflict. At that time, he would just wait to reap the benefits.

At the same time, both the two powers learned that there was only one treasure in this place. In order to obtain it, there was only one choice, and that was to exterminate the other party and take the treasure for themselves.

Chapter 537 Benefit From A Conflict

Seeing the people from the other factions arrive, face of the Fire God Shrine's middle-aged man became extremely dark.

"Are you guys sent by the newly risen King's Shrine? You are just ants in the Heavenly Realm." The middle-aged man sneered.

"No, we are from the Divine Martial Sect. I think it will not take for us to have a place in the Heavenly Realm. Of course, you have to be alive until you ascend to the Heavenly Realm to see it." An old man from the Divine Martial Sect lightly smiled, but his eyes were filled with killing intent.

Chen Xiang was shocked. He knew that the Divine Martial Sect was a branch of the King's Shrine in the Mortal Realm, but now they intended to be independent. This meant that behind the Divine Martial Sect there was someone with strength comparable to a human king supporting them.

Conflicts between sects were by their nature extremely cruel. Now Chen Xiang gained a higher level of understanding of the Divine Martial Sect. "I admit that your Human King bloodline is a bit arrogant, but our Fire God Shrine is not a pushover either. Furthermore, both of us can't use True Qi right now, so don't forget what our Fire God Shrine elders have!" The Fire God Shrine's middle-aged man clenched his fists, and a scorching aura began to emanate from his body.

This caused Chen Xiang to be slightly surprised. Under the circumstances where he couldn't use his True Qi, the man from Fire God Shrine was actually able to release heat, which meant that he could use fire.

As for Chen Xiang who possessed the Heaven and Earth Fire Soul, he couldn't do this!

"Fire Soul! It seems the stories are true. We've heard long ago that all men from Fire God Shrine are demons that specialize in stealing fire soul then fuse them with your bodies with evil techniques!" The old man from the Divine Martial Sect tightly clenched his fist. The bones in his body started to crackle as energy crazily surged in his body.

The strength of both sides were about the same, but both of them were restricted of using True Qi, thus their battles were not that fierce.

These four people with equal strength no longer bickered and launched fierce attacks at the same time. All of them were engaged in close quarters combat.

Even though they couldn't use his True Qi, the power they exerted through their bodies was also extremely powerful, and Chen Xiang was also waiting for an opportunity to make his move. The Fire God Shrine was an evil sect. It specialized in robbing fire souls, so Chen Xiang would not miss such an opportunity. Moreover, the Divine Martial Sect also wanted him die, hence he would show no mercy at all.

Since he couldn't use his True Qi, the battle between the four Nirvana Realm warriors didn't cause much of a commotion and wouldn't attract anyone else.

Most people didn't put too much energy into their bodies when they could cultivate True Qi, unless they reached the peak of the Hundred Cultivation Realm which required them to do so. However, once they stepped into the Nirvana Realm, many people would put aside their bodies and focus on training their thick True Qi.

In this sort of gravitational environment that was 20 times more than normal, they had consumed a great deal of their physical strength. After only about two hours, all four of them had fought to the point of being hard to bear. They had used up over half of their strength and sweated continuously.

At this moment, the Fire God Shrine took the advantage because they had fire souls that allowed them to release an oppressive heat when attacking. It was a type of torture to others as well.

"It's about time. Little dragon, focus on the timing to cooperate with me." Chen Xiang said. Long Xueyi would not be affected in this kind of environment because she was using magic power. She could gather the spiritual energy of the world anytime, and use it as her own power to attack.

"Find those elixirs and share some with me." Long Xueyi said very obediently.

Chen Xiang was not surprised by this old woman who always acted like a little girl.

"Just a moment ago, you guys were still so stubborn. It seems like you all are only mediocre at this level! It is a great crime if your Divine Martial Sect wants to betray the King's Shrine. If you can't kill us, haha ..."

"The Fire God Shrine's middle-aged man panted as he spoke. Both sides stopped fighting. They knew that if they continued, both sides would suffer losses. At that time, neither side would gain anything.

This was all because they were too confident. Otherwise, they wouldn't have spouted nonsense from the start.

"Rest assured, none of you will escape today!" Hearing this voice, the elders of the Fire God Shrine and Divine Martial Sect trembled. They were very familiar with Chen Xiang. How could they not recognize this voice?

Following the sound of Chen Xiang's voice, a green light flashed and Chen Xiang suddenly appeared. The Azure Dragon Devil Slaughtering Slayer in his hand had already been raised high into the air. He suddenly chopped down towards the head of a young man from the Fire God Shrine.

Since the four of them had gone through a long battle of endurance. Now, their strength and speed had been greatly reduced. In front of Chen Xiang's violent and fast attacks, they simply had no way of defending against them. At the same time that the azure light flashed, red blood splashed out. It was like a red flower blooming, splattering in the air and splattering onto the faces of the other three, causing them to quiver involuntarily.

"Chen Xiang!" The Fire God Shrine's middle-aged man roared and threw a fierce punch at the sudden appearance of him. However, when his fist struck towards Chen Xiang, Chen Xiang's body flashed and dodge to the back of the two elders from the Divine Martial Sect in a light movement. "Pa, pa, pa, pa ..."

A series of explosions rang out as the echoes reverberated through the silent wasteland. At the same time that Chen Xiang's broadsword slashed across the wasteland, he unleashed his invincible Demon Subduing Force. His speed was as fast as lightning, breaking the waists of the two elders who were trying to escape.

In the blink of an eye, Chen Xiang had killed three powerful experts who had passed the seven Nirvana Tribulations! However, Chen Xiang was not touched by that at all. He had done such kind of job for a long time ago.

At this moment, Chen Xiang was extremely calm and had a smile on his face. The Fire God Shrine's middle-aged man only had one thought in his mind, and that was to escape for his life!

He didn't know what abilities Chen Xiang had for him to hide in the surroundings and appear when they were exhausted then use his lightning fast attack to kill the three of them! Thus, he was certain that his

current strength was inferior to Chen Xiang the freak. If he continued to linger, then he would be the next to die.

Chen Xiang had no choice but to admit that the Fire God Shrine's middle-aged man was using all his might to escape. His speed was shockingly fast as he left behind a long afterimage. Only after a blink of eye that he had flew to a top of a high mountain far away.

However, Long Xueyi was even faster than him. She shot out like a ray of light, turning into a white belt of light and coiling around the escaping middle-aged man.

Observing that Long Xueyi had succeeded, Chen Xiang slowly put away the storage rings on the hands of the three dead men. However, as he was about to open them, he discovered that the storage rings were already damaged.

"They are truly a bunch of sly old foxes. They had done some protection." Chen Xiang sighed. Some storage rings were equipped with profound formations. If the owners died, the storage rings would self-destruct.

The escaping Fire God Shrine's middle-aged man was bundled up by Long Xueyi and brought to Chen Xiang.

"Fire God Shrine? Well, you guys are the evil forces that specialize in robbing fire souls. You do make me tremble with fear." Chen Xiang lightly said as he stepped on the middle-aged man's face.

[Chapter 538 Fire God Law](#)

Right now, Chen Xiang could do whatever he wanted. For him, those in the Nirvana Realm were all the same. He could kill whoever he wanted, not to mention the headmaster of such vicious powers.

"Chen Xiang, you can't kill me." the middle-aged man said through clenched teeth.

"Well, why?" Chen Xiang stomped on his abdomen and a "pa" sound rang out. Under the attack of Demon Subduing Force, the middle-aged man felt as if his abdomen was being struck by lightning. He was in so much pain that blood flowed out from his mouth.

"I just killed those three guys. Do you think I will let you go?" Chen Xiang laughed loudly as he stomped on his abdomen and chest, shattering his bones and organs. Horrifying howls reverberated in the air, giving people goosebumps.

The middle-aged man knew that if he wanted to live, he had to take out some things to exchange, otherwise he would be killed by Chen Xiang. In this short period of time, he completely recognized what kind of person Chen Xiang was. Chen Xiang would not even hesitate as he killed Nirvana Realm martial artists, for which the middle-aged man himself would do some consideration.

"I know you have a fire soul, one that is larger than our imagination. If I'm not wrong, yours should be the Heaven and Earth Fire Soul, isn't it!" The middle-aged man gritted his teeth and said while enduring the pain.

Chen Xiang slightly frowned. He didn't think that the man would be seen through it. He stepped on the middle-aged man's leg and increased his strength. "Then what action are you planning to take against me?"

"Our Fire God Shrine has a secret technique to extract fire souls. Normally, the people whose fire souls get extracted are mostly disabled, delirious, and die! Our Fire God Shrine is spreading throughout the world to collect the scattered fire souls. Anyone works for the Fire God Shrine will be rewarded with low level fire souls." The middle-aged man knew that he must tell the truth for living, "we really do want to take your fire soul, but we still have some scruples. However, we've already decided that we will take advantage of the chaos to capture you when the Great War of the Three Realms breaks out!"

"You guys are too naive. Do you really think I'm that easy to deal with?" Chen Xiang sneered.

"That's right. Although you're not powerful, it's very difficult to capture you. However, after my investigation, your friend and your women ..."

After hearing his words, Chen Xiang was filled with fury. With an explosive sound, the Demon Subduing Force surged forth with killing intent, making a bloody hole in the middle-aged man's abdomen.

"Ah ..." The man yelled painstakingly. He, a grand elder of the Fire God Shrine, a worrier who had survived the seventh Nirvana Tribulation, was now being ravaged by a little kid at the Spiritual Martial Realm. This made him extremely angry, but it was of no use. It was not on him even to commit suicide.

"As long as you let me go, I will teach you a martial art, a secret technique of the Fire God Shrine. It is only suitable for those who possess a fire soul to cultivate. The stronger the fire soul is, the more powerful the technique is." The middle-aged man said.

Chen Xiang gave a cruel smile, "there's no need!" With that, he slapped the middle-aged man's head and chanted an incantation as he searched through the middle-aged man's memories.

This man had lived for a very long time and had a lot of memories. If he absorbed them all in one go, it would only give Chen Xiang a headache. Thus he only looked for what he wanted. However, it did hurt the man a lot.

"These guys are really despicable. They included sister Menger, Xiangyue and Elder Dan on the kill list ..." Chen Xiang found a list of names. The people on it were all outstanding with fire.

"Fire God Law?" Chen Xiang murmured. He found a book with a lot of content. It was instantly absorbed into his mind and became his memory. What he needed to do now was to properly understand the Fire God Law and see how powerful it was.

"It is indeed the Fire God Law. It is a famous marital art even in the Heavenly Realm, also the key of the power of Fire God Shrine. Many of the disciples in the Fire God Shrine were created using this Fire God Law, and only those who possess fire souls and are loyal to the Fire God Shrine can learn it! You probably don't have all of it in your hands!" Su Meiyao said in surprise.

The middle-aged man's face was deathly pale. He was in the Nirvana Realm, and even though Chen Xiang had tortured him multiple times, he still hadn't fainted yet.

"You ...What did you do to me?" the middle-aged man said angrily.

"I've searched through your memories!" Chen Xiang smiled faintly.

"What? How could you know such a forbidden demonic art, you ...you ..."

Before he could finish his words, Chen Xiang's broadsword carried a deep killing intent as it mercilessly slashed down and killed the middle-aged man.

"He's dead. There are many good stuffs. Keep them properly." Chen Xiang used a restriction to seal up the corpse. Corpse of a man from Fire God Shrine was precious because it contained a fire soul and a powerful fire attribute True Qi. If he had the chance in the future, he could slowly devour that power and figure out a way to extract the fire soul.

"If only I could encounter more people from Fire God Shrine. If they can extract fire souls from someone else, I can also do it!" After Chen Xiang finished dealing with the four corpses, he adjusted his condition and shattered the stone tablet. After that, he ran towards the place where the real elixirs were hidden.

He just learned from the middle-aged man's memories that many maps were scattered across the Heavenly Realm the day before the eclipse. That's why many major powers came here. While Fire God Shrine and Demon Suppression God Shrine obtained the maps earlier. They also got a detailed map of the top one Profound Realm.

"It must come from Li Tianjun. This guy really likes chaos!" Chen Xiang cursed inwardly.

"There were a lot of people trying to kill him back then. I think he probably harbored some hatred in his heart and wanted these people to kill each other within the top one Profound Realm. Perhaps he even raised many powerful things inside of it!" Su Meiyao said.

Thinking of this, Chen Xiang's expression turned heavy. Luckily, he knew from the memories of the Fire God Shrine that Liu Menger hadn't come. Otherwise, he would be worried of her.

This was because no one dared to claim himself invincible in such an environment. If he got surrounded and unable to escape, then death would be inevitable.

"In the future when I get to the Heavenly Realm, I must meet Li Tianjun!" Chen Xiang said.

"There will be a chance. Defeat him when you concoct Dan." Su Meiyao smiled satisfactorily. She had a lot of confidence in Chen Xiang. After all, she was the one who taught him.

After a month of traveling, Chen Xiang finally arrived near the location engraved on the stele and saw many mountain peaks marked on the map. This time, he was not as excited as he previously did, because this could be a farce set by Li Tianjun, or a trap with lots of powerful sects inside. Chen Xiang had to keep alert.

[Chapter 539 Treasure Under The Lake](#)

Chen Xiang observed his surroundings for around an hour, but did not find anyone nearby. At this moment, he was slightly excited. However, considering Li Tianjun's little trick, he was worried that he would be disappointed.

"Sister Meiyao, do you think Li Tianjun has any intention of spreading information about this top one Profound Realm all over the Heavenly Realm?" Chen Xiang asked, "this doesn't seem to be good for him. Could it be that he merely did this for revenge? If that's the case, then his enemy will very likely be able to obtain the medicinal herbs inside!"

Chen Xiang continued on the road while discussing with Su Meiyao.

"If it was me, I would definitely not leave behind a large amount of medicinal ingredients in this top one Profound Realm; at most I would only leave some that have yet to mature. Li Tianjun definitely know that Earth Level Dan is extremely useful even in the Heavenly Realm. We could learn from the two medicinal fields you obtained earlier that medicinal ingredients for Earth Rank Dan are extremely rare, so as that of Upper Grade Profound Rank Dan, thus there should not be lots of high level medicinal ingredient in this Profound Realm." Bai Youyou said.

Not all of the people in the Heavenly Realm were immortals. Many of them were just born with better aptitudes than mortals and cultivated faster. Zheng Chu was a good demonstration showing that most people in the Heavenly Realm were below Nirvana Realms, though there were indeed immortals up there.

"Perhaps there really is some kind of resource in here that can cause people to fight over it. I guess he is worried that no one will ever find out about the top one Profound Realm which would then be wasted. The top one Profound Realm is like a small world, rich in Spirit Qi, and has existed for a long time, so it can definitely nurture many mines." Su Meiyao said.

"Maybe. If I had known earlier, I would have used the Emperor Crystal to check it out. Maybe I would have discovered some mines." Chen Xiang said regretfully.

Climbing up a mountain, Chen Xiang looked down at a huge lake. This lake was filled with dense Spirit Qi, and above it was smoke condensing from Spirit Qi.

The medicinal field Li Tianjun built here was under the lake.

"Find out what's down there. This kind of lake is enough to give birth to a monster as big as a mountain. I don't want to be eaten down there." Chen Xiang said with fear.

"We didn't find any big guys, but we did find a formation at the bottom of the lake. Water can't enter that place; it's the same as the island under the sea in the White Tiger Profound Realm." Long Xueyi said.

Chen Xiang jumped up from the mountain and jumped towards the lake. When he almost reached the water surface, he turned into a small fish and dived into the water, quickly swimming towards the bottom.

This lake was very deep, but what surprised him was that the deeper he went, the denser the Spirit Qi was, which was indeed very helpful for the growth of precious plants.

Soon, he saw a flash of white light at the bottom of the lake. When he got closer, he discovered that there was a small garden in a size of a small house. It had many lush flowers, grass, and trees. Although Chen Xiang was in a distance to the bottom, he could tell from a glance that there were lots of familiar spiritual fruit trees.

He easily passed through the formation and entered the medicine garden. There was a large formation that absorbed spiritual energy as fuels to run the formation. It could also be used to grow spiritual medicines, allowing them to grow very well.

"Just as we expected, there is not much of them." Even so, Chen Xiang was not disappointed. His eyes were filled with excitement because he saw some precious spiritual medicines.

"Is this the Soul Breaking Tree?" Chen Xiang gently touched a pure white tree. This tree was around three people tall, and its branches looked like human bones. The leaves were like a palm, and from afar, it looked a little terrifying, like a ghost baring its fangs and claws.

"This sort of thing is rare even in the Heavenly Realm." Su Meiyao said with a bit of surprise.

The flowers, fruits, leaves, branches, roots and skins of Soul Breaking Tree all had different characteristics. When combined, they could be used to refine a very vicious thing called the God Corrosion Powder.

As long as one touched a little bit of this powder, his or her body would be corroded. Not to mention human body, even weapons, stones, diamonds and other things would be corroded. It was extremely terrifying. If it was sprayed on a person with insufficiently strong flesh body, then he or she would be eroded instantly.

God Corrosion Powder was prohibited both in Mortal and Heavenly Realm. Once it was discovered, the owner would definitely be wanted for the righteous path.

"It is said that this tree will first grow to nine feet first, then suddenly grow smaller and smaller, and the smaller it is, the more powerful the God Corrosion Powder refined from it will be. When it is only the size of a finger, even an Immortal's body will be corroded, but according to legends, it will take tens of thousands of years to reach that stage." When Su Meiyao said that, she couldn't help but become excited because those things knew how to evolve.

While other elixirs, no matter how powerful they were, could only be used to refine Heaven Level Dan. However, Soul Breaking Trees knew how to evolve, so the strength of the God Corrosion Powder refined from them were different in strength. Such elixirs were extremely scarce; it was even harder to observe one.

"It takes thirty thousand years to mature." Chen Xiang sighed, "I didn't expect to find one. Right now, it seems like it has just matured!"

"Yep, when it matures, it could only generate God Corrosion Powder in the rank of Medial Grade Profound Rank Dan!"

Looking at the plants around him, Chen Xiang immediately started laughing, "those guys are coming for nothing!"

"The medicinal ingredients for the Soul Stabilizing Dan must be Upper Grade Profound Rank Dan. After a person dies, his soul will dissipate, but if he swallows a Soul Stabilizing Dan in time, his soul can gather together. If you need to stabilize your soul while cultivating, you can also take it. Any Dan that is beneficial to souls is extremely rare." Chen Xiang looked at the small white grass and flowers. They were Soul Stabilizing Grass and Spirit Calming Flower.

The medicinal plants in this medicinal field were all very inclusive. In other words, most of them could gather a Dan formula. It was obvious that someone had done this on purpose.

"Transfiguration Dan, Upper Grade Profound Rank; profound beasts that take it could probably turn into humans. It is also rare. Face Preserving Dan, Upper Grade Earth Rank; it is the legendary pellet that can make a person's face stay unchanged forever, ladies' favorite. Longevity Dan, Upper Grade Profound

Rank; it can increase a person's lifespan by fifty years, the most desirable thing of those old fellows. Superior Longevity Dan, Lower Grade Earth Rank; it can increase a person's lifespan by five hundred years, also the old men's favorite. Nine Apertures Body Strengthening Dan, Lower Grade Earth Rank; it can strengthen a person's physical body; Life Recovery Dan, Foundation Building Dan, Five Elements True Essence Dan, Profound Sun Fire Dan, and Primordial Spirit Dan ..."

Chen Xiang had obtained many of these medicinal ingredients, but he was not bothered of having more.

"What is this? It's so strange." Chen Xiang stroked a black flower that was only the size of a pinky. What made he curious was that there was no living plants within three feet from this small black flower, which illustrated how extraordinary the small flower was.

"Flying Nine Death Flower." Su Meiyao let out a delicate cry and shouted.

[Chapter 540 Legends of Mysterious Dan](#)

Chen Xiang trembled thoroughly as he heard the words 'Flying Nine Death Flowers'. Incomparable ecstasy welled up from his heart, causing him to nearly go insane with excitement.

This was because Flying Nine Death Flowers were used to concoct the Flying Dan, which was at Lower Grade Heaven Rank. Even though it was called the Flying Nine Death Dan, it was something that people who had passed the eighth Nirvana Tribulations dreamed of.

After consuming a Flying Dan, one could directly transcend the ninth Nirvana Tribulations, obtain incredible strength, and then ascend into the sky without experiencing the most powerful Ninth Nirvana Tribulations.

No one knew what kind of energy such a formidable Dan could have to make someone avoid Nirvana Tribulations and obtain energy that was even more powerful than a worrier who passed Ninth Nirvana Tribulation, but it was clear that one who took it would either succeed or die.

Although it was called the Flying Nine Death Flower, one who took a Dan concocted from it had 50% chance of successfully ascending, while the chance was only 10% if he or she took the flower directly.

"Don't celebrate too early. This kind of flower is only useful when the ninth Nirvana Tribulations comes. After you eat it, there is a fifty percent chance that the Nirvana Tribulations will not come. If it comes anyway, then you must deal with it, otherwise you would die." Su Meiyao said.

"Well, it doesn't seem to be the same as what's written in the books." Chen Xiang thought that one could eat it no matter which level of Nirvana Tribulations he or she was.

"That's reasonable. Very few people have eaten the Flying Dan, but I've refined two of them before. One of the trier successfully avoided and passed the ninth Nirvana Tribulations, but the other one still did not and died miserably after that." Su Meiyao said.

Bai Youyou added, "junior master said that if we take ten Flying Dan, the Nirvana Tribulation will definitely not come!"

"Junior master?" Chen Xiang asked doubtfully. It was against the law if one who took ten Flying Dan could avoid the most terrifying ninth Nirvana Tribulations. Moreover, Chen Xiang had the God Liquid of Creation, thus as long as he had enough time, he would made more of this kind of thing than beans.

"He was the one who taught me how to refine Dan. He said so, but he has never tried. Whether it is in the Heavenly Realm or the Mortal Realm, no one has ever collected ten Flying Dan together, so it cannot be verified. But now, there is a chance for us." Su Meiyao smiled seductively. She was very interested in this area, and Chen Xiang was also carefully moving this flower in.

"Little dragon, come out and help out. Just don't eat it unchecked. Pick and eat the stuff I already have." Chen Xiang asked Long Xueyi to come out and help. This place wasn't safe, so Chen Xiang didn't want the two beauties in the ring to take the risk.

"Leave nothing behind us! Take them all!"

Now that Chen Xiang had obtained this batch of elixirs which was enough for him to refine Lower Grade Earth Rank Dan. However, he only had two years left, which was definitely insufficient. He was aware that there was no way for him to reach that level no matter how talented he was.

Therefore, he needed to enter the Star Transposition Realm in Demon Subduing Academy to win some time.

Now, he could only concoct Pure Essence Golden Pill which was at Medial Grade Profound Rank. He needed to concoct at least two different types of Dan before he could ascend another level.

"An Upper Grade Profound Rank Dan is a big challenge for me, let alone an Earth Rank Dan. The test that Elder Dan gave me is really difficult." Chen Xiang sighed hopelessly. Elder Dan was about to undergo his Nirvana Tribulations, but it was hard to tell whether she could succeed or not. If she failed, then this lady would perish.

Chen Xiang had always wanted to remove the veil of this mysterious woman. Ever since he entered the Extreme Martial Sect, he had felt that this woman knew him and slightly hated him.

"Maybe she's ugly. Then it would be troublesome if she stuck on me after I win against her." Chen Xiang shook his head and smiled. Elder Dan had once said that Chen Xiang could take her as his woman and do whatever he wanted on her as long as he won over and obtained her recognition.

"I could easily tell from her skin, hair, and figure that she is a beautiful woman, but it's hard to say about her face." Su Meiyao said with a smile.

Very quickly, all the remaining elixirs in the top one Profound Realm were collected by Chen Xiang. These elixirs could be made into two doses of Dan, or one at least. However, Chen Xiang could make as many as he wanted with them.

The batch of elixirs he obtained this time were very useful. They were all rare and popular. Chen Xiang was certain that if he brought them to auction, he would definitely be able to sell them for a high price.

"Face Preserving Dan. With this kind of thing, I can have as many women as I want. I feel that there will be many Hundred Cultivation Realm women who are willing to take off their clothes and sleep with me." At this moment, he couldn't help but recall the erotic events that happened in the cave with Xue Xianxian. It made him nostalgic.

This was because some people would encounter bottlenecks in their cultivation process, and their fleshly body would age after a long period of time. Some people broke through before their body

became old, then they could stay young forever, therefore there were both young and old Nirvana Realm marital artists, while those with young looking were pretty gifted.

However, if one had a Face Preserving Pill, he or she could avoid aging. Thus it attracted many beautiful female martial artists. Therefore, if Chen Xiang grasped this kind of thing, he would definitely be able to establish a huge harem, because a woman could only stay young appearance by taking Face Preserving Dan consistently, not only one.

"Hmph, you little rascal. I am going to kill you if you dare to use Face Preserving Dan on bad things." Su Meiyao threatened him.

"Haha, can I take this as you being jealous?" Chen Xiang laughed.

"You'll get more women if you have a Rejuvenation Dan, those who turn back young from old." Bai Youyou's words caused Chen Xiang to feel goosebumps all over his body.

Long Xueyi giggled and said, "If there's a sort of Dan that makes men into women, then this little rascal will have even more women!"

"There is, indeed, that kind of thing, called Gender Reversion Dan, but they are used only on beasts, because some rare demon beasts are very hard to find. If you have two males or females of them, you can use this Dan to change one of them, and that way, you can match them up to make offsprings." Su Meiyao laughed exuberantly, "of course, you can use it on a person!"

Chen Xiang suddenly felt disgusted. "Stop talking, I want to vomit!"

"Haha ...Thus you better not flirting around everywhere in the future. There are some men who take Gender Reversion Dan in order to obtain large amounts of cultivation resources from other men..."

"Stop saying that, Sister Meiyao. By the way, is there truly a Rejuvenation Dan? I guess many old guys should be interested in it" Chen Xiang asked. There must be a lot of very old martial artists who wished to take it and turn young. After all, no one wanted to have the appearance of an old man.

"Of course there is, but it's a Lower Grade Heaven Rank Dan, and ingredients are hard to find." Su Meiyao said.

Chen Xiang did not leave this place because of the dense spiritual energy here. The lake was itself rich of spiritual energy, and the Spirit Gathering Array underneath it made it an extremely good environment of cultivation. Thus, Chen Xiang decided to cultivate the Fire God Law here.
