

Dan God 541

[Chapter 541 Raging Inferno Dantian](#)

On his way to the medicine garden at the bottom of the lake, Chen Xiang spent one month understanding a small part of the Fire God Law. After reading the mantra in some early pages, he realized that the Fire God Law was very suitable for him. He had long been worried about not being able to fully exploit his Fire Soul Martial Arts. Although the Vermilion Bird Divine Art was powerful, it was only a type of offensive martial art that enabled him to perform his fire attribute a little better.

However, the Fire God Law was different. It was a mental cultivation method that allowed him to cultivate his fire soul to a deeper level and use it skillfully.

Chen Xiang felt that the most powerful part was that a person with a fire soul could cultivate a furnace in his dantian when cultivating this Fire God Law. It was a furnace in his body that could refine the tyrannical spiritual energy, dissolving the impurities and leaving only the pure parts. As long as he generated this Raging Inferno Dantian in his body which would produce mysterious flames as he absorbed spiritual energy in the future. The flame would flow to every part of his body and refine spiritual energy immediately once it touched the flame.

After spiritual energy was transformed into pure spiritual energy, he could then circulate it in his body with Tai Chi Dragon Subduing Technique to refine it into True Qi and strengthen himself.

"I heard it can refine anything. Is that true? Would it be even more formidable if I combine it with my Devouring Demonic Technique?" Chen Xiang gasped for breath. The downside of using the Devouring Demonic Technique laid on the insufficient purity of True Qi refined from it. As time passed, the accumulated impure True Qi would cause problems for his body.

However, with this Raging Inferno Dantian, no matter how tyrannical or turbid the True Qi was, once it was smelted, it would become extremely pure.

"If it really does work like what the Fire God Law says, then you don't have to worry too much when using the Devouring Demonic Technique." Bai Youyou said.

Now Chen Xiang understood why the middle-aged man from Fire God Shrine he killed proclaimed the power of Fire God Law. He said it was a treasure to those who possessed the fire souls. Now it seemed that even without the Devouring Demonic Technique, it could still be of great use in cultivation.

During a martial contest, the most dangerous thing was to have your enemy infilled some violent and turbid True Qi into your body to wreak havoc. Once he learned this Raging Inferno Dantian, he could release this that of strange flame which could melt all the energy that entered his body.

"Is there anything else that's amazing about it?" Su Meiyao asked curiously. Even though she did not have a fire soul, she knew that there would be plenty of opportunity for her to fuse with fire souls as long as she stayed with Chen Xiang, the person who possessed the Fire Soul King.

"The other thing is that you can use it to temper your body. In other words, you can make flames in Raging Inferno Dantian even stronger through some of the mental cultivation methods in the Fire God Law. You can also temper your body from the inside, which seems much better than cultivating your body from the outside." Chen Xiang's brows tightly knitted together, "but it consumes a lot of True Qi.

Because a person who trains in the flame is resistant to fire, he or she needs a lot of energy to produce a stronger flame!"

"Your body could bear even flames in the core of the earth, so which kind of flame can temper you?" Bai Youyou asked. Chen Xiang's body could bear fire not because he was excessively strong, but because he possessed a Heaven and Earth Fire Soul. There were pros and cons to this. For instance, flames, in this way, were unable to refine his body

It was the best way to refine a body with flame, and most times the Black Tortoise Body Strengthening Technique that Chen Xiang practiced required fire as stimulus. Of course, thunder was fine as well, but that energy was too tyrannical and one would be easily killed if not controlling it well.

"No, the Body Refinement Flame of Fire God Law can ignore the resistance of fire soul, and the heat it produces can make me feel pain. Who on earth created this Fire God Law? That guy must have been so distressed of having a fire soul that he created the Fire God Law." Chen Xiang was extremely excited at this moment.

Doubtlessly, the Fire God Law could resolve the problems generated as he cultivated too fast. This way, he didn't need to worry about his foundation being unstable when he cultivated it. When he cultivated it together with the Fire God Law, it was the same as having been tempered a thousand times, which could be both fast and stable.

"It's not that difficult. The basics are to train the Raging Inferno Dantian well. Many of the wondrous techniques of using fire souls are based on the Raging Inferno Dantian." Chen Xiang started to cultivate. He chanted the mantra so that Su Meiyao and Bai Youyou could remember it as well.

Even if they didn't cultivate, it would still benefit them greatly to understand and delve deeper into these martial arts. This was the same as reading a book, since they would still be idle anyway. They were certain that once they recovered their peak strength, their cultivation would improve substantially.

After comprehending the difficult points of Fire God Law, Chen Xiang's cultivation was extremely smooth. He had built a solid foundation after cultivating many powerful divine martial arts, so the moment he obtained a martial art, he could comprehend it in a very short period of time.

After a day passed, Chen Xiang had attempted for many times. Suddenly, the flames that had fused into his body moved. Chen Xiang could not tell that strange feeling. He only felt that his dantian was slightly hot, and the Tai Chi Yin Yang Diagram in his dantian suddenly began to spin at high speed. Five Elements Beast Statue was illuminated by a fiery light. The Tai Chi Yin Yang Diagram in his dantian was enveloped by a fireball, while five element True Qi continuously came out of the Five Elements Beast Statue and gathered into a wave of Heaven and Earth Force which then fused into a fireball.

Chen Xiang only felt that his entire body was hot right now. He suddenly opened his eyes and let out an angry bellow as flames spewed out from his body. These flames came from the Raging Inferno Furnace in his dantian and were different from other flames.

"I can't use True Qi here, but after cultivating the Fire God Law, I can control my fire soul and absorb the Five Elements Heaven and Earth Force with it, which allows me to release flames. Although it's also the Heaven and Earth Fire, there are some other mysterious powers within it. That should be the strange

power of smelting." Chen Xiang never thought that he would be able to master the Fire God Law in one day, and he could also use a powerful flames with it.

These flames were all Heaven and Earth Fire that had been ignited by absorbing the Heaven and Earth Force, similar to Chen Xiang's own True Qi, with an only difference that he was unable to use dragon force or other attribute True Qi.

"Haha ...I am invincible in here. Qin Ze Jun of Holy Light Sect, Wang Quan of Divine Martial Sect, the hall master of the Fire God Shrine, and many old fellows from the East Sea are all here. You better not appear in front of me or I won't be polite with you guys." Chen Xiang's heart boiled with excitement.

"I want to find them. This is a good opportunity. If I don't kill them, they would try to kill me in the future." Chen Xiang's heart skipped a beat as he hastily stood up.

"Calm down, you will kill him, but you'd better increase your True Qi first. The Raging Inferno Dantian consumes a lot of True Qi, doesn't it? It will be truly troublesome if you get attacked now. Besides, there are many powerful beasts hidden here." Bai Youyou said quietly.

Chen Xiang nodded his head. "That's right. Anyway, they will not leave soon. Time inside the top one profound realm is different from the time outside. I can also buy some time here!"

After learning that, he circulated Fire God Law and ignited the Raging Inferno Dantian, then swallowed a Black Stone Dragon Dan that he had obtained earlier. That Dan was instantly smelted into pure True Qi after entering the Raging Inferno Dantian, after which it was greedily absorbed by the five beast statues and compressed into a True Essence Pill.

[Chapter 542 Heaven Mending Stone](#)

Even in such an environment that one could not use True Qi, Chen Xiang could still cultivate. Moreover, he could also use powerful flames with Fire God Law.

He killed a total of thirty Black Stone Dragon. Now he got plenty of time, thus he planned to swallow them all to cultivate his True Qi.

Within a few breaths, the beast cores of the Black Stone Dragon entered his dantian and were all refined into pure True Qi, then automatically absorbed by the five beast statues and compressed into True Essence Pills.

When he entered the early stage of Spirit Martial Realm, a total of five thousands True Essence Pills within his Five Elements Beast Statues lit up, 1,000 for each statue. If he wanted to step into the middle stage of Spirit Martial Realm, he would have to light up another 500 of them, which was an increase of 100 pills per statue.

At this stage, it was very difficult for him to condense more True Qi to light up more True Essence Pills, but now that he had learned the Fire God Law and obtained a large amount of Pure Essence Golden Dan, he had great confidence in his speed of cultivation.

Those Black Stone Dragons were all profound beasts, thus their beast cores contained a considerable amount of energy. Even though Chen Xiang could only obtain a portion of the energy after devouring these beast cores, the total of thirty pellets accumulated to a substantial amount.

"This is troublesome. Right now, I can't control my True Qi as I wish. Although it can be smelted into True Qi, it is still very difficult to make the five beast statues compress these True Qi." Chen Xiang frowned. He initially thought that as long as he could control his True Qi, he could quickly condense it into True Essence Pills, then increase the density of his True Qi and lit up these pills.

Long Xueyi told him, "it's simple. Use your magic power. It's definitely better than when you were controlling True Qi. After you learn how to control True Qi with magic power, you will no longer be constrained by this environment!"

Chen Xiang hurriedly released his magic power into his dantian. After entrance, these magic power transformed into an invisible energy that enveloped True Qi that was unable to enter his dantian. Very quickly, the True Qi was gradually pressed into True Essence Pills following the control of Chen Xiang's magic power.

This was indeed much better than when he was training normally, because True Qi was not easy to compress, especially when it still had to be highly compressed.

Time slowly passed, and Chen Xiang progressed extremely fast. His Qi spewed out, and his body was emitting a scorching hot True Qi, accompanied by his True Qi which was increasing rapidly.

After half a day, Chen Xiang's body started to emit a rumbling sound. As he performed the Devouring Demonic Technique, dense Spirit Qi streamed into his body through the Spirit Gathering Array, and once it entered his meridians, the Spirit Qi was instantly refined by the fire from the Raging Inferno Dantian. A large amount of Spirit Qi was then purified and turned into True Qi, which was then compressed into True Essence Pill through Chen Xiang's magic power.

An unending stream of Spirit Qi flowed into his body, just like an endless stream of True Qi. His refining process only lasted for a short moment. Right now, he further realized that the Fire God Law was a good thing, and he didn't need to go through that long process of refining Spirit Qi into True Qi.

"I'm about to break through. The last one of the five hundred True Essence Pill is going to light up." Chen Xiang said excitedly. At this moment, his body was constantly emitting waves of air currents that passed through the array and charged towards the bottom of the lake, causing the lake to surge up and down.

He had been cultivating at the bottom of the lake for a month. If it wasn't for the thirty beast cores, his progress wouldn't have been so fast.

"Done." Chen Xiang's heart skipped a beat. One hundred more lit True Essence Pills were present in each beast statue.

"What's going on?" Chen Xiang was shocked because after he stopped cultivating, there was still a lot of energy that entered his body from nowhere and entered his dantian following with spontaneous compression.

Very quickly, he exclaimed out loud, "Just how much power does the Martial Path bestow upon me?!"

Huang Jintian had told him that those who cultivated the Martial Path would receive this sort of power every time they made a breakthrough. However, it wasn't obvious if a cultivator was below Extreme Martial Realm, while it would be extremely obvious after he or she entered Extreme Realm.

When he entered the Spiritual Martial Force, he received almost ten times the power as his own.

"Sister Meiyao, did you obtain the same power when you cultivated back then?" Chen Xiang asked.

"Yes. Enjoy it slowly. Right now, no one can understand why there is such a power." Su Meiyao giggled and said, "I got an eight-time improvement when I entered Spiritual Martial Realm; sister got a bit more than me!"

"When you entered the Spiritual Martial Realm, you only got 500 pills. After receiving the power of bestowal, you got five thousands pills, increasing by nine times. This is the basic standard for what you can get from bestowal in the future. You will definitely not get less than the standard." Bai Youyou said.

Chen Xiang sucked in a breath of cold air. He felt that the standard of bestowal had something to do with personal aptitude. However, he felt that he was more talented and qualified than those two beauties.

Last time when he entered the Spiritual Martial Realm, it took him more than twenty days to compress the power of bestowal. But now, it only took him 15 days.

It was still nine times, which rendered another 4,500 True Essence Pill for him. Thus there was a total of 10,000 True Essence Pills lit up in his Five Elementals Beast Statue and even he himself was shocked by how dense the True Qi was.

"Nine times is quite high. Many people get no more than five times. Therefore, sometimes you can't judge a person's strength by his cultivation, but you should also concern the thickness of his True Qi." Su Meiyao said.

Right now, his True Qi had been much thicker, which allowed him to use dragon force for a longer time. Moreover, as his True Qi became stronger, his dragon power would also become more terrifying.

He drilled out of the formation, turned into a fish, and rapidly swam towards the surface of the lake. Due to the Fire God Law, he was able to commit attack with with Heaven and Earth Fire. His Heaven and Earth Fire came out of the Heaven and Earth Force, and was even stronger.

Chen Xiang came to a mountaintop, waiting for Long Xueyi finding preys with her God Traveling in Nine Heavens Technique. He starred at his fist. Just with a thought, he activated the Fire God Law, after which raging flames immediately blazed in his Dantian, and a strong flame gushed out from his fist. The burning heat enveloped the entire mountain.

"Look likes there is a group of people over there, but there seems to be something there as well. My consciousness becomes very unstable as it gets close there." Long Xueyi claimed curiously.

"What direction?" Chen Xiang asked without hesitation. They were probably those Nirvana Realm folks. He wasn't afraid of them at all.

"Over there." Long Xueyi pointed out a direction. Chen Xiang immediately jumped down from the top of the mountain and started running towards that direction.

Not long later, Chen Xiang heard a faint sound coming from far ahead.

"Liu Menger, hand over the Heaven Mending Stone, or you will never leave alive!"

Hearing these words, Chen Xiang's heart skipped a beat. Raging flames of anger instantly rose in his heart. Liu Menger was sieged and attacked. He never thought that Liu Menger who was preparing for her tribulation, would come to the top one Profound Realm.

[Chapter 543 Carnage](#)

Chen Xiang turned into a small bird and quickly flew over. Liu Menger was surrounded and attacked, which was extremely dangerous. She could not use her True Qi or Frost Wind Divine Technique, which greatly compromised her strength and made Chen Xiang worried a lot.

"Heaven Mending Stone. That is a good item for refining spatial type magical equipment. It can refine immortal artifacts and is extremely rare, even in the Heavenly Realm." Su Meiyao suddenly said.

"Wherever there is a Heaven Mending Stone, there will be a Sumeru Stone. No wonder it affects my consciousness." At this time, Long Xueyi was also worried, "Chen Xiang, what are you planning to do?!"

"What should we do? All the guys who attacked Menger must die." Chen Xiang furiously said, "how many are they?!"

"About thirty!"

Chen Xiang had some knowledge about the Sumeru Stone and Heaven Mending Stone. Heaven Mending Stone was a magical stone that could fill up the cracks in space. According to the legends, once there was a crack between Heavenly Realm and Mortal Realm, the Heaven Mending Stone must be used to fill it up.

Whereas Sumeru Stone was a necessary ore to refine storage treasures. There was a small space inside each Sumeru Stone. Items such as storage bags and storage rings were all refined from it.

Sumeru Stone was very rare, but there were still many people who had found them in the Mortal World. When refining a storage bag, one only needed one Sumeru Stone to create a room. The larger the volume of a storage equipment, the more Sumeru Stones it required, and the harder it was to concoct.

"It seems like there is a Sumeru Stone vein here." Bai Youyou said.

Liu Menger held a White Jade Dragon Bone Spear in her hands. Her face was as cold as ice, and her white clothes fluttered in the wind. Anger filled up her beautiful eyes as she stared at the experts surrounding her. All of them were male.

"Hmph, you bunch of men are so shameless to deal with a woman like me." Liu Menger shouted coldly. She could not use True Qi but the strength of her flesh body, thus she could not win over them. However, she was not willing to hand over the Heaven Mending Stone, or gave up the Sumeru Stone vein she discovered.

"Those who see it will get a share. Even though it is used to say that the one who find it get it all..."

As an old man delivered his speech, a red light suddenly flashed over, following by a wave of overwhelming hot air suddenly enveloping the area, then a thick killing intent like countless vicious beasts swept over like a wave, causing everyone to shiver.

"Bullshit." Following Chen Xiang's angry roar, the old man who had just spoken was instantly chopped into pieces by Chen Xiang's blade aura replete in the sky.

Chen Xiang stood in front of Liu Menger and saw a few familiar faces. They were the hall master of Fire God Shrine, Wang Quan of Divine Martial Sect, Qin Zejun of Holy Light Sect, and Xiao Ziliang of the Free Immortal Sea.

"These guys are all hoodlums. No wonder they're shameless." Chen Xiang's voice was filled with killing intent as he held onto his Divine Saber to protect Liu Menger.

Chen Xiang's arrival with his majestic aura intimidated the surrounding people to involuntarily take a few steps back. They could all tell that Chen Xiang just used his True Qi, and his strength seemed to have increased by a lot, since he could kill a Nirvana Realm martial artist in an instant.

Since they weren't able to use their True Qi, all of these experts were unable to withstand Chen Xiang's berserk strength.

Seeing Chen Xiang arrive, Liu Meng'er breathed a sigh of relief. She looked at Chen Xiang with tender affection, wishing that she could hug him.

A middle-aged man angrily shouted at Chen Xiang, "Chen Xiang, how dare you kill an elder of our Flying Dragon Sect ... "

The middle-aged man was punctuated away by Chen Xiang's punch. A fire dragon bared its fangs and brandished its claws as it roared. It carried a threatening aura as it charged towards the middle-aged man like a bolt of lightning.

"Pa!" A loud explosion rang out. In the blink of an eye, the fire dragon pierced through the middle-aged man's body and exploded fiercely, turning him into charred flesh that scattered in all directions and landed on everyone's bodies.

The crowd trembled again because another Nirvana Realm warrior just died tragically in front of them.

"Fire God Law." A middle-aged man with an extraordinary bearing and a cold expression shouted in anger, "Chen Xiang, where did you learn this from?!"

It was Ying Jingkun, the hall master of the Fire God Shrine, a person who had passed the eighth Nirvana Tribulation.

Chen Xiang, who was filled with killing intent, did not say a word. He just chopped down his blade in the air. The blade flashed with a fiery light and threatening heat. It was as if the blazing sun was bursting with light. Blade wind condensed from scorching flames charged toward Ying Jingkun like a torpedo with fire.

Ying Jingkun was prepared. He quickly dodged as he saw Chen Xiang brandishing his blade. However, the two old men behind him were not as fast as him. They were hit by the hot blade wind from Chen Xiang's chop and instantly turned into ashes.

Although everyone was enveloped by a scorching heat, they couldn't help but feel cold shiver. Unlike Chen Xiang, they couldn't use True Qi, so they could only use their bodies to fight against him, which seemed to be a mission impossible, since Chen Xiang could kill them all.

Everyone quickly realized that they had no way to fight back Chen Xiang. They must run, otherwise they would definitely be killed by him.

This group of high and mighty Nirvana Realm warriors were all terrified. Their hearts were filled with intense fear. They only had one thought, and that was to run for their lives. Otherwise, Chen Xiang would take their lives.

After watching Chen Xiang's brutal methods, the crowd was convinced that as long as they were caught by Chen Xiang, they would die without a doubt.

"Don't try to escape. You'll all have to die." After Chen Xiang let out a furious roar, a scorching wave of air with formidable killing intent exploded out from his body and spread in all directions. It was like a tidal wave, sweeping away everything in its path in an extremely fast speed. In just an instant, many trees were burnt to ashes, and the people running in all directions all suddenly stopped, because their bodies were entangled by fire.

This made the over twenty experts feel despair. They could tell from Chen Xiang's incomparable killing intent that he wouldn't let them go.

"Chen Xiang, the Great War of Three Realms War is about to start. If you kill us, the strength of the Mortal Martial Realm will be compromised, which might result in its falling." Xiao Ziliang hurriedly said.

"You scum, you will only mess up the entire thing." Chen Xiang wielded his Azure Dragon Devil Slaughtering Slayer and suddenly arrived in front of Xiao Ziliang.

"Liu Menger, you are the person in charge of a faction. You must consider the overall situation. It is indeed our fault to attack you, and we will bring a huge gift to apologize and compensate you. Please say a word to Chen Xiang." Qin Zejun spoke in a hurry. He was extremely terrified. He had almost taken control of the East Sea, and had survived the eighth Nirvana tribulations, just one step away from ascending to the Heavenly Realm, thus he was definitely not willing to die here.

Liu Menger looked at Chen Xiang and sighed, "he will not listen to me!"

"You're his wife's master and his elder. How come he doesn't listen to you?" Qin Zejun was raging.

Death used to be something unreachable to these people. Perhaps this fear existed when they were young, but now that they stood on the peak of strength, they could control the lives and deaths of billions of people. As time passed, they forgot about this feeling.

But now, Chen Xiang let them recall this incomparable fear.

"Chen Xiang, if you let me go, I will ignore the matter of you learning the Fire God Law. Our Fire God Shrine will also apologize to Liu Menger. Please consider the big picture." Ying Jingkun's tone became softer. The stronger one was, the more afraid he would be of death, because it was extremely difficult for him to reach a high position.

"Cut the crap. I have decided to slaughter you bastards a month ago." Chen Xiang raised his blade and chopped off Xiao Ziliang's head. He didn't even blink when he made his move.

[Chapter 544 Fall of the Strong](#)

Xiao Ziliang had previously cooperated with Holy Light Sect and almost killed Chen Xiang. He had always remembered this grudge, and he also knew that Xiao Ziliang hated him.

"Don't you remember we have a grudge?" Chen Xiang had a sneer on his face as he walked towards Ying Jingkun, the hall master of Fire God Shrine. The fire vine he released was now even stronger than before. He definitely couldn't let anyone of the crowd escape.

Every time he killed a person, Chen Xiang's Heat of Slaughter would completely absorb that person's killing intent, causing his to become even stronger. Right now, his killing intent was the sum of that of several Nirvana Realm experts, and it was extremely intense. Anyone without sufficient strength could not even stand stably in front of him.

"Chen Xiang, aren't you afraid that the Fire God Shrine in the Heavenly Realm will know it? Don't think that no one will know what you're doing here." Ying Jingkun frowned as sweat dropped from his face. His body trembled even more when he saw Chen Xiang walk over. Although he was tangled by torching fire vines, he still felt as if he was inside an ice cave.

Chen Xiang laughed heartily, "I was not afraid of you when I killed the elder of your Fire God Shrine. From the time you come down to the Mortal Martial World, I have made up my mind to eliminate you guys! Now take it!"

His blade flashed like lightning and hacked down on Ying Jingkun's head. Seeing the haunted man's head falling off, the other Nirvana Realm warriors became even more desperate and terrified.

Among this group of people, Ying Jingkun was the strongest and the most powerful. They dared to siege Liu Menger also due to his presence.

Death of Ying Jingkun of Fire God Shrine indicated that Chen Xiang would not leave any survivors. Once the matter was exposed, no matter what they said, they would ultimately be killed by Chen Xiang.

"Let me take some job for you." Liu Menger's face was expressionless as she walked towards an old man. After she stabbed out her Jade Dragon's Kiss stabbed fiercely a few times in an instant into the old man's body, several bloody holes appeared on his throat.

Liu Menger, the empress of the Divine Weapon Heavenly Kingdom, aside from showing the coyness and tenderness of a woman in front of Chen Xiang, expressed an imposing aura of a ruler in front of everyone else. Her actions shew no mercy, and when faced with the pleas and pleas from many people, she completely ignored them and decisively took out her spear, stabbing them to death one by one.

Chen Xiang did not kill Qin Zejun and Wang Quan first, but killed the rest of them. He wanted Wang Quan and Qin Zejun to experience the incomparable fear of death, which was even worse than death.

Very quickly, the ground was filled with heads and corpses. The killing intent accumulated on Chen Xiang's body grew more and more intense, which made even Liu Menger extremely uncomfortable.

Now there were only Qin Zejun and Wang Quan left. When they saw the god-like Chen Xiang walking towards them, they were immediately frightened to the point that their faces turned pale and their bodies trembled.

"I've already said this before. Don't bully a poor youth. When you wanted to kill me back then, did you ever expect about this moment?" Chen Xiang looked at Wang Quan. Wang Quan never thought that after he lost to Huang Jintian, he would be killed by Huang Jintian's disciple.

What made him even more frustrated was that he, a Nirvana Realm warrior, would die at the hands of a kid who only had the strength of the Extreme Realm.

This was also the mood of many experts. In the instant before they died, they all regretted to enter this top one Profound Realm. Not only had they not found anything, they had even lost their lives here.

A black wave of killing intent gushed out from Chen Xiang's body and rushed into the sky like a pillar. As he slashed down his slayer which was replete of killing intent, Wang Quan and Qin Zejun were beheaded simultaneously and died reluctantly.

"Phew..." Chen Xiang closed his eyes and released his magic power to suppressing the unrestrained killing intent within his body.

Liu Menger walked over and hugged Chen Xiang from behind. She pressed her cheek against Chen Xiang's back and softly said, "thank you, you little rascal!"

Chen Xiang lightly held her hand and faintly smiled, "you do not need to be polite with me. Hurry and clean up. Seal all these corpses with forbidden seals. Don't let any energy leak out. The corpses will be useful for me in the future!"

After Chen Xiang claimed that the corpses were useful, Liu Menger frowned and asked, "what's the use?"

"For practice, of course. Haha ..." Chen Xiang smiled evilly as he recalled the last time he practiced with Liu Menger.

"Hmph." Liu Menger let out a soft snort and took out some materials for placing forbidden seals on the ground. She could not use True Qi right now, so she could only rely on these materials.

Thirty-two corpses were in the Nirvana Realm. Three of them were previously from Fire God Shrine and possessed fire souls.

After burning this place down, Chen Xiang held Liu Menger's hand and brought the beauty with him to a nearby mountain forest, then arrived at a quiet valley.

"Sister Menger, why are you here? Aren't you in seclusion with Hua Xiangyue in the forbidden site of Danxiang Taoyuan?" Chen Xiang carried Liu Menger in his arms and sat on a large tree.

"When I came out to get some fresh air, I heard the news about the top one Profound Realm. I knew that you would definitely come. I was worried about you, so I came here for you." Liu Menger pinched Chen Xiang's perverted hand, "you do have the gut to come here and slaughter all those fellows!"

"Heh heh, why wouldn't I?" Chen Xiang kissed her head, "they are so shameless to surround my sister Menger. That's the compensation."

"Haha, although it's a bit cruel, I like it." Liu Menger lay in Chen Xiang's arms, looking up at his handsome face.

"How did you get the Heaven Mending Stone? Quick, let me see. I've never seen something like that before!"

Liu Menger took out a huge colorful stone which was as tall as a person. Every inch of it was multicolored. Under the sunlight, it was extremely beautiful.

"No wonder those people sieged her shamelessly. The Heaven Mending Stone is too big. Those that are found in the Heavenly Realm are only as big as a person's head. Your Luotian Gate contains these stones, and that's why it can open a spatial gate." Su Meiyao sucked in a breath of cold air.

Chen Xiang stroked the Heaven Mending Stone and widened his eyes, "sister Menger, how did you manage to get this?!"

"After I came in, I looked for you everywhere. Then I mistakenly entered a dangerous place. After I killed the demon beasts there and entered a mountain range, I immediately sensed a Sumeru Stone mine, which is the site where you killed those people. There are a lot of Sumeru Stones there, about a size of a small mountain. I merely sensed it with my divine sense, then the Heaven Mending Stone just came out, raised up to the sky and bursted colorful lights!"

"I used a lot of power to collect it, but it attracted those guys. They signed me, and you already know what happened after that." Liu Menger helplessly said and then put away the Heaven Mending Stone.

Chen Xiang rubbed his chin and said, "so, let's go back and get the Sumeru Stone. That's a good item!"

"Let's go. When I have the time, I will refine a pretty spacious storage ring for you." Liu Menger intimately hugged Chen Xiang's arm and walked out of the valley with him.

[Chapter 545 Transformative Demonic Beas](#)

Chen Xiang and Liu Menger returned to the place where the experts were killed.

"Below there is a Sumeru Stone as big as a small hill. Dig it out." Liu Menger gently jumped onto a tree and sat down.

Chen Xiang shrugged his shoulders as he furiously blasted towards the ground. Soon, he saw a corner of the Sumeru Stone. It seemed to be an extremely dark rock, and the entire thing was even a whole piece.

At first, he thought to find some small fragments, but in fact it was a complete piece, so he could easily take it out. He placed one hand on the Sumeru Stone and instantly put it into his storage ring before throwing it to Liu Menger.

"Hurry up and get out of here. If others find out that you killed those guys, we'll be in trouble." Liu Menger said as she accepted the storage ring, then giggled and flew to Chen Xiang's side.

Chen Xiang kissed Liu Menger's face. "Let's leave this place. I'll give you something along the way!"

"What is it?" While Liu Menger was speaking, Chen Xiang had already wrapped his arms around her waist and they quickly flew through the forest. It did not take long for them to get far away from the place where the experts were killed.

After arriving at the foot of a small mountain, Chen Xiang put Liu Menger down and smiled, "the Fire God Law is very suitable for those with fire souls to cultivate. You should learn it, Menger!"

"So it is. The Fire God Shrine used to solicit me with this Fire God Law, but I rejected. How did you get it?" Liu Menger's beautiful eyes shone with a bright light.

Before she could receive Chen Xiang's reply, her small mouth was blocked by Chen Xiang. Her jade teeth were pried open by Chen Xiang's tongue. They hadn't kissed for a long time, so she actively responded to him. The two kissed with their tongues entangled.

While kissing, Chen Xiang extended a perverted hand into Liu Menger's clothes, gently massaging her delicate and round "jade peaks". This caused Liu Menger to gasp for breath, and her eyes became misty.

The two passionately embraced each other, then hugged. While Liu Menger tidied up her clothes with one hand, she humphed with a blush on her face, "you little rascal, you are getting more and more dishonest. It hurts to squeeze!"

"Sorry, allow me to help." Chen Xiang smiled mischievously. He was about to extend his hand over when Liu Menger slapped him away.

"Enough." Liu Menger rolled her eyes at him. "Then how exactly did you get the Fire God Law?!"

"I forced. I want to teach you the Fire God Law and another powerful martial art." Chen Xiang stroked Liu Menger's cheek as he laughed.

Bai Youyou once promised to have Chen Xiang teach the Ice Soul Devil Dominance to Liu Menger as an appreciation of her for Frost Wind Divine Technique.

When Chen Xiang was cultivating the Fire God Law, he asked Su Meiyao and Bai Youyou to make a copy. Now, he took out a few thick books.

"That's too much." Liu Menger couldn't help but ask in surprise as she stared at the six thick books.

After she opened the first book and saw the contents, she frowned slightly. "What a delicate character. It doesn't look like a man's handwriting at all!"

Chen Xiang coughed a few times but didn't say anything. Yes, this was Su Meiyao's calligraphy.

Last time when she was at the White Tiger Profound Realm, Liu Menger learned Tai Chi Divine Technique from Su Meiyao. Since that she knew that Chen Xiang had a mysterious and very powerful woman by his side.

"Also the Demon Subduing Force. I learnt it from Demon Subduing Academy. It's very powerful, especially if you cultivate to the tenth level." As Chen Xiang spoke, he threw a punch at a large tree in the distance. "Pa Pa Pa Pa ..." After ten consecutive explosions, the Demon Subduing Force flew out and hit the tree, turning the trunk into dust.

Liu Menger exclaimed. "That's so powerful. You didn't use True Qi on it, did you?"

"No, but it's hard to learn up to the tenth level. There are only two men within the Academy who have done it, the principal and me!"

"I heard that you killed a principal of the Demon Subduing Academy and are currently being pursued by people from the Heavenly Realm. Is that true?" Liu Menger asked worriedly.

Chen Xiang briefed the process to Liu Menger.

"I've already slaughtered that guy from the Heavenly Realm right here. That's fine, since no one knows I'm here except you. Besides, the hall master of Fire God Shrine and some other powerful sects have all died here. No one won't find it strange." Chen Xiang stroked Liu Menger's long hair as he lightly smiled.

Liu Menger let out a snort. Once the things that Chen Xiang did were revealed, he would completely offend two of the strongest powers in the Heavenly Realm. Fortunately, Chen Xiang did it in secret.

"Let's go. There are still a few months until the entrance closes. We can walk out slowly. I still have a powerful martial art to teach you along the way." Chen Xiang stretched lazily as he held onto Liu Menger's hand and walked towards a direction.

"Well, how can I learn so much?" Even though Liu Menger said this, her face was still filled with joy. She coyly stuck out her tongue, making Chen Xiang could not help but to bite it.

They walked slowly like normal times. Ice Soul Devil Dominance was not elaborate in content, but it was pretty abstruse, even Liu Menger had a hard time understanding it. Chen Xiang understood it fast only because Bai Youyou taught him via divine sense, so that he inherited both the knowledge and comprehension. At this time, he had to spend a lot of time explaining the Ice Soul Devil Dominance to Liu Menger.

"You used it to defeat Youlan last time. No wonder Youlan was unable to defend against it. That White Tiger also lost to you like this, right?"

After Liu Menger learned it from Chen Xiang for a couple of days, she was thoroughly stunned by this formidable devil art.

"You can learn it when you get back. By the way, you don't mind teaching Fire God Law to Xiangyue, do you?" Chen Xiang asked quietly.

"How could I? She's already your maid. Last time I went to find her at Danxiang Taoyuan, this little demoness always call me 'Ma'am'. I really can't stand her." Liu Menger protested coquettishly, "it seems that this little demoness is really willing to be your maid. When I get back, I will go find her and learn the Fire God Law together with her!"

Knowing that Hua Xiangyue was so obedient, Chen Xiang smiled mischievously.

Chen Xiang and Liu Menger were both very cautious as they walked through the forest, because they couldn't let others know that Chen Xiang was there. Along the way, Chen Xiang also told Liu Menger about the difficult points of Demon Subduing Force, which would be helpful for her to cultivate it later. Liu Menger never expected that she would need Chen Xiang the rascal to teach her martial arts.

"What is that sound?" Chen Xiang suddenly stopped and looked at the huge mountain that rose up from the ground in the forest in front of him.

"It's the aura of a demon beast called Transformative Demonic Beast." Liu Menger was surprised. Suddenly, a gust of wind blew over and a black shadow flew over.

Chen Xiang's reaction was extremely fast. He leaped out, then his fist that was spewing flames like a meteorite charged forward, dragging a red shadow behind it as it struck the black shadow that was flying towards him.

With a muffled bang, Chen Xiang's fist hit the black shadow and produced flames. The black shadow was wrapped in flames and flew out, then crashed a few large trees.

[Chapter 546 Sacred Dan Realm](#)

Shen Xiang didn't immediately give chase, but stood beside Liu Meng'er. The black shadow earlier wasn't charging towards him, but towards Liu Meng'er. Therefore, he wanted to protect Liu Meng'er here.

After the ball of fire was extinguished, Shen Xiang and Liu Meng'er saw a middle-aged man with wings on his back. He wore clothes made of animal skin and had an extremely ordinary appearance.

"He really is a beast in human form, but he can't use true qi. How in the world did he get past the Nirvana Doom?" Shen Xiang said, puzzled.

"His body is very strong. Your punch just now was not weak, but now he is completely fine." Liu Meng'er frowned and said.

Shen Xiang also realized that if his punch were to land on the bodies of other Nirvana Stage, it would be enough to make them vomit blood, causing flames to seep into their bodies and burn their internal organs.

"Bird Person, why did you attack us?" Shen Xiang asked loudly.

The middle-aged man with wings clearly did not like this form of address. He immediately let out an angry roar like a falcon and his body became like an arrow. Once again, Shen Xiang pounced over. Although his speed was very fast, it was very slow in Shen Xiang's eyes.

Although it was just a sound, it was extremely powerful. Furthermore, Shen Xiang did not only send out a punch this time, he had also sent out dozens of instantaneous punches, which were all produced by the berserk Devil Subduing Method. The fist shadows that covered the sky were like raging waves, and like a torrential storm, they submerged the 'birdman'.

In just a few seconds, the monster's body felt as if it had been struck by lightning a few hundred times. The scorching pain was like dripping chili onto a wound, causing it to cry out in pain.

The Devil Subduing Method that Shen Xiang used had a scorching heat to it, all the feathers on the wings of the materialized demon beast were burnt to ashes, the entire person was charred black.

Beasts that could change their form had to pass through the Nirvana Doom, and if there were Nirvana Doom in the first profound Realm, then that meant that the first profound Realm had already evolved into a small world.

With his last punch, Shen Xiang used the power of Devil Subduing Method Level 10, sending the beast in human form flying into the mountain wall not too far away with a splash of broken stones.

His hands were like dragon claws as he fiercely stabbed into the belly of the beast. He took out a golden beast core, and dense life essence and energy gushed out. This was a Nirvana beast core, after Shen Xiang escaped, the beast immediately died.

"The Devil Subduing Method is indeed powerful." Liu Meng'er lightly flew over. Seeing her man become so powerful, Liu Meng'er was very happy. Shen Xiang's rapid progress made her feel gratified.

Shen Xiang took the beast core and swallowed it directly. This scared Liu Meng'er to the point that her face turned pale. This was a beast core that contained a very strong energy. She was worried that Shen Xiang wouldn't be able to take it if Shen Xiang swallowed it like that.

"Don't worry, the energy in that beast core can't improve my zhen qi. It can strengthen my body and strengthen my soul." Shen Xiang waved his hand and said.

Boundless and bizarre energy rushed into Shen Xiang's limbs and bones, merging into his meridians, bones, muscles, and blood, strengthening his internal organs, merging into every part of his body, and strengthening his body.

After his physical body became stronger, his soul also became stronger. However, he needed a certain amount of time to digest that energy.

"There's a cave on top of it. I've checked, there seems to be a box inside." This made Shen Xiang immediately raise his head to look at the mountainside.

"Let's go up and take a look." Shen Xiang pulled Liu Meng'er and jumped fiercely into the cave halfway up the mountain. This cave was very dark. Shen Xiang took out a torch and lit it up.

Liu Meng'er asked, "How did you know there was a cave here?"

Shen Xiang said with a smile, "I just know. Let's go in and take a look. Maybe there's something good there!"

This mountain was very big, and it was located in the middle of the First profound Realm.

When they reached the end, Shen Xiang and Liu Meng'er saw a box placed on top of a stone table. It was a pitch black wooden box, but it looked like it was weathered.

"It seems like this box has been fought over by many people before." Liu Meng'er said as she opened the black box. There was only one animal skin inside.

Unfolding the beast skin, Shen Xiang held a torch and lit it up. He only saw a circular object on the beast skin with many patterns on it. With a single glance, he could tell that this was a spell.

Liu Meng'er was obsessed with arrays. When she saw the arrays, her face was filled with joy. She excitedly said, "This is a transmission array, a cross-border transmission array!"

Transboundary Teleportation Formations could allow one to travel to other worlds. It was no wonder that Liu Meng'er was so excited. Traveling to other worlds had always been something that she longed for. It was just that she couldn't find a good way.

Now that Shen Xiang knew why so many people stole the box, he guessed that Li Tianjun left it there.

"Sacred Dan Realm, the sacred ground of the legendary Alchemist." Liu Meng'er looked at the beast skin on its back. There were many small densely written words on it. With one look, Shen Xiang could tell that it was something that needed to be adjusted to move around when the Teleportation Formation was being set up.

"This is to be sent to the Sacred Dan Realm." Liu Meng'er said in surprise, "When I was very young, my parents told me about this Sacred Dan Realm. I heard that it was as powerful as the Heaven Realm, and even many immortals from the Heaven Realm go there to request for pills!"

Shen Xiang had also heard Su Meiyao say it before: "If there's a chance, you must go and take a look!"

He brought the beast skin over and memorized the position of the Sacred Dan Realm. He realized that the Allheaven Gate could also be used to adjust its position and teleport to the Sacred Dan Realm.

Although the spirit energy in the First profound Realm was dense, there was a certain power that restricted people from using their true qi. Shen Xiang himself did not know how Li Tianjun could have stayed here for so long.

The time inside was different from the time outside. They rarely met, and naturally have to spend some time together. On the way, Shen Xiang also gained a lot of benefits and spent all day together with Liu Meng'er.

Very quickly, Shen Xiang and Liu Meng'er walked out of the First profound Realm. It was still dark outside, and after walking over, Shen Xiang quickly took out the Allheaven Gate and opened a dimensional door, leaving the Sun Moon Island behind.

"Elder Sister Meng'er, I'm going back to the Demon Subduing Academy. Are you going to check up on the deities and Leng You Lan?" Shen Xiang said as soon as he finished kissing Liu Meng'er.

Liu Meng'er tidied up the white clothes that were messed up by Shen Xiang, and said while frowning: "If you really want to go back, then be careful, the Devil-suppressing Divine Palace will definitely send more people down, and the Fire Divine Palace's Palace Mistress will also take over, but there might be chaos in the Sacred Light Religious Sect!"

"Alright, once I've settled my matters, I'll go find Dan Fragrance Pure Land to look for you." Shen Xiang kissed Liu Meng'er's cherry lips, then stepped into the Space Gate and left.

Chapter 547 - Returning to the Magic Academy

The Big Eclipse lasted for a month. The land that was enveloped in darkness for a month was once again illuminated by the sun's rays. Many people were no longer surprised, but many forces were no longer calm.

Not a single one of the elders and hall masters who went to the first profound Realm were able to return, and this was also true for Divine Martial Palace's hall master, Wang Quan and the two elders.

At this time, many of the big shots of the various forces were discussing about this matter. Some of them were taking joy in Qin Zejun's misfortune, while some were worrying deeply, especially those forces of the Eastern Ocean.

Roughly eighty people went in but only forty of them could come out. Chen Xiang had killed more than thirty of them, and there were a few that could not come out due to other reasons.

In order to stabilize the situation, those powers who had lost their leader hurriedly picked out a suitable person, and Fire Divine Palace and the Demon Subduing Academy all contacted the upper echelons of Heaven Realm. Fire Divine Palace losing a powerful hall master and a few elders was the strongest power of the Fire Divine Palace, if not for these people acting as deterrents in the Fire Divine Palace, the Fire Divine Palace would have been annihilated easily.

After Zuo Zhen Xuan reported this to the Heaven Realm, he also began to investigate. He wanted to ask about the people who entered the First profound Realm that day, because he felt that this matter was very strange.

The First profound Realm was already closed. If they wanted to enter again, they would have to wait until the next Big Eclipse, so no one could enter to investigate.

When Liu Meng'er went in, it was a bit late, so no one knew that she had gone in, and Chen Xiang was also the first person in there, so his whereabouts were extremely secretive, and even more so, no one knew. After Liu Meng'er returned, he did not immediately start closed-door training, but asked about the situation.

Previously, Chen Xiang had given Liu Meng'er a few ingredients to refine the Life Recovery Pill, but Liu Meng'er had always given them to him to refine. Furthermore, the place Hua Xiangyue was at was very suitable for cultivation, so she stayed inside.

Arriving in the mountain forest outside of the Anti-Demon Academy, Chen Xiang stayed there for about ten days before suddenly slapping his head, "Dammit, I forgot to give the box containing the Heaven Grade Pills to Elder Sister Meng'er!"

Su Meiyao had gotten the box from Zheng Chu. Based on the faint aura left on the box, Su Meiyao could tell that it was a Heaven Rank pill, but he did not know what kind of Heaven Rank pill it was.

"There's plenty of opportunities. Even if it's a Heaven grade pill, you can't casually use it right now. Otherwise, your body will explode from the torment of that energy." Su Meiyao said.

Chen Xiang took out the Luo Tian Gate and opened a dimensional door, appearing inside the bathrooms inside Xue Xianxian's and Leng Youlan's house. However, there was no one inside the bathtub, causing Chen Xiang to be rather disappointed.

"Little Scoundrel, you were sent here on purpose." Last time, Chen Xiang suddenly appeared here, causing him to have a feast in his eyes. Leng Youlan's perfect body of a white haired beauty was still stuck in his mind.

Xue Xianxian and Leng Youlan were not here, but it was already evening, so it was generally their time to return.

Chen Xiang sat in the courtyard, waiting for the two girls to return. He did not wait long, before feeling a threatening aura approaching him, causing his expression to change greatly, but he quickly calmed down, because the aura was from Zuo Zhenxuan.

"Chen Xiang, you are so brave. You actually dared to come back." Zuo Zhen Xuan said while smiling. At this time, Zuo Zhen Xuan was already the dean, and he had returned to his former manner, unlike what Chen Xiang had seen in the dungeon.

That was why Zuo Zhenxuan was very grateful to Chen Xiang. Otherwise, he would still be in the underground prison, where the sun did not rise.

Hehe, Principal Zuo, I would like to borrow that Stellar Transposition realm. Chen Xiang laughed.

"Of course it's convenient, I've already arranged for your two little lovers to go in, but they only go in for five days each time, which is equivalent to five years. This is the fourth time they have gone in, you know, they can only go in for twenty days at most, and then there will be no effect." Zuo Zhen Xuan said.

Twenty days, twenty years. Chen Xiang felt that it was enough for him to learn how to refine many pills, and in addition, he could take this opportunity to create Divine Liquid, as well as create a large amount of precious medicinal herbs. By then, he would probably be the richest person in the entire mortal world.

Chen Xiang said: "I need to go in for twenty days, you should know that I am a Alchemist, these few days I have been increasing my strength, now I need to use this time to learn pill refining!"

Zuo Zhen Xuan nodded and said, "No problem, but you will definitely feel bored after staying in there for twenty years."

"Oh right, what kind of background does that Zheng Chu guy have? He can come down from the Heaven Realm, and he seems to be very strong, do you still want him to kill me?" Chen Xiang asked in a low voice.

Zuo Zhen Xuan frowned and sighed: "Don't worry, he won't pursue you anymore, because he hasn't come out from that First profound Realm yet, and it's still unknown whether he's dead or alive. I have already reported to the Heaven Realm, they plan to send the next group of people to investigate this!"

Chen Xiang pretended to be shocked. "It looks like my luck isn't bad!"

Zuo Zhen Xuan sighed: "Zheng Chu has quite a high position in Devil-suppressing Divine Palace, he was treated as a person to be groomed, and within five hundred years, he passed through the Nirvana Tribulation, which is a rare occurrence in this world. Now that he has gone missing, Devil-suppressing Divine Palace will send some people to investigate and find him, from this point alone can be seen!"

Chen Xiang now understood why Zheng Chu's storage ring had over ten thousand top quality Spiritual crystal and even Heaven Level Pills. It turned out that his status was so high.

"It seems that Devil-suppressing Divine Palace will send even more vicious people this time. I should finish borrowing the Dou Hualong Stellar Transposition as soon as possible." Chen Xiang said. He had originally planned to wait a few days for Xue Xianxian and Leng Youlan to gather, but now he had to hurry up.

Zuo Zhen Xuan said in a low voice: "Change your appearance and I'll bring you there again. It might take around a month for someone from the Devil-suppressing Divine Palace to come down!"

Chen Xiang immediately took out his tools and made it so that no one would be able to tell that he was Chen Xiang. Zuo Zhenxuan nodded in satisfaction.

"Principal Zuo, I heard that it was extremely difficult to get Devil-suppressing Divine Palace to bring him down from Heaven Realm." asked. Not only the Devil-suppressing Divine Palace, the Fire Divine Palace could also bring him down. Su Meiyao and Bai Youyou had told him before that this was extremely difficult.

"Using a transmission array, the current array formation is becoming more and more powerful, and can even break through the barrier of the Heavenly Mortal Realm. However, it can only send those under the Nine Tribulations down, and once they do, it will be difficult to go up. When they do, they will have to cross the Nine Tribulations and fly up, so when they come down, they all have their things with them!"

Zuo Zhen Xuan's words made Chen Xiang's eyes light up. If he was to specifically kill this kind of rich and powerful Half Immortal from the Heaven Realm, then he would earn big, but he would only be able to beat this kind of guy in environments where he couldn't use his Innate Qi.

[Chapter 548 Stellar Transposition Realm](#)

Chen Xiang followed Zuo Zhenxuan to the top of a tall building in the middle of the Demon Subduing Academy. This building was located in the middle of the other five high grounds and one could tell that it was a formation to create a formation.

In a huge stone room on the roof of the building, Zuo Zhenxuan was resting his hand on a giant pillar. He released waves of power from his body and poured it into the stone pillar. The stone pillar started to slowly rotate, emitting a white glow.

Zuo Zhen Xuan said, "This is the entrance to the Stellar Transposition Realm. After you enter, you will appear in a room, and everyone that enters will have a separate room. This is to avoid disturbing others!"

Chen Xiang said, "What if I want to come out!?"

"You can only stay inside for a maximum of twenty days, at that time I will release you. If you want to come out early, you can use the crystal ball inside it to send a message through your spiritual sense, and I will be able to receive it." Zuo Zhen Xuan said.

Chen Xiang walked through the stone pillar's door and stood inside a small room that was surrounded by white clouds and slowly closed the door. At this time, he felt that he was inside a small room that was quickly starting to spin, but not long later, the white light around him suddenly disappeared and he appeared in a stone room that was filled with warm yellow light. The stone room was quite large and had a clean bed, chairs, and a bathing pool filled with hot water.

"What a pity. If only the deities and orchids were here as well." Chen Xiang took off his clothes and jumped into the bath, soaking in the hot water.

"If you want to stay here for twenty years, I have already arranged a cultivation plan for you. Every day, you have to cultivate using the Fire god method, and at the same time, you also need to condense God's Liquid. Of course, most of your time is spent on refining pills!"

Su Meiyao suddenly flashed out and sat beside Chen Xiang. She lifted up the pants on her body and placed a pair of exquisite jade feet into the bath, causing Chen Xiang to be unable to resist grabbing onto her tender jade feet and gently pinching them.

"Hmph. Little Scoundrel, you're truly too daring." Bai Youyou scolded and pinched Chen Xiang's ears. At this time, Bai Youyou also came out from the ring, sat at Chen Xiang's other side and also soaked his beautiful jade sculpture-like feet in the bath.

But now, Chen Xiang was completely immersed in it. With these two beauties by his side, it made him involuntarily indulge in his imagination, wishing that he could strip them off and have them help rub his back.

Chen Xiang's current guts were indeed very big. He was originally touching Su Meiyao's jade feet, but now, slowly moving his hand from her calves up, up Su Meiyao's big white legs. However, it was still ruthlessly slapped away by Su Meiyao.

"Little Scoundrel, I'm not your Elder Sister Meng'er. Don't do anything bad to me." Su Meiyao scoffed.

"Since I've already kissed her and seen her, it's fine if I touch her." Chen Xiang said as she curled her lips, causing a touch of scarlet to surface on her charming face as she gently spat out.

At this time, Chen Xiang looked at Bai Youyou who was dressed in a pure white dress. Although she was a devil, she looked like a holy goddess at this moment, causing Chen Xiang to stare foolishly at her. Bai Youyou only wore her unique cold smile, undodging the fiery gaze of Chen Xiang.

Looking at it, Chen Xiang's hand also seemed to be controlled by some kind of power as she fearlessly reached out and grabbed that ice-cold tender jade foot of hers from the water. This made Bai Youyou slightly frown, and Su Meiyao, who was at the side, had a strange light flash in her eyes.

Bai Youyou did not object, but seeing this, Chen Xiang's hand also slowly slid up her leg. When it brushed past her smooth and firm calves, he could not help but pinch her.

Very quickly, Chen Xiang's large hand reached under Bai Youyou's snow-white skirt, and rested on her ice-cold thighs that were as exquisite as jade.

She didn't think that Bai Youyou would actually be more tolerant towards Chen Xiang than she was, letting Chen Xiang touch her white legs like this.

At the moment, Chen Xiang's heart was in turmoil, the Evil Fire was soaring, and there was something underwater that was already becoming sinister.

"Sister You You ... Come down and bathe together. " Chen Xiang said while laughing.

"Don't push yourself too far." Bai Youyou looked at him coldly, causing him to quickly withdraw his hand, but the feeling of touching Bai Youyou's thigh, had never left his mind.

Chen Xiang sighed in enjoyment, and laughed while looking at Su Meiyao: "Your senior sister is so much more generous than you, you miser!"

"Hmph, little scoundrel." Su Meiyao was very unhappy. She never thought that Bai Youyou would actually be so generous as to touch Chen Xiang's thighs.

and Bai Youyou dared to come out, and they stayed inside the storage ring for a long time. To be able to come out and chat with Chen Xiang, the little guy, was a very happy thing.

After he finished relaxing, Chen Xiang took out the Yanlong furnace. He already understood how to refine a middle grade Profound Rank pellet, Chunyuan gold Dan. Generally speaking, he would need to learn how to refine about three pellets of the same level, and only with a solid foundation would he be able to get another level up. Only then would he be able to refine higher tier pellets.

"Right now, I can still refine Sky Thunder Pills and God Eroding Powder. They are offensive pills, probably even that Dan King Li Tianjun from back then did not know how to refine them." Chen Xiang took out the materials for the Heaven Thunder Pill.

The Profound Thunder Grass Seeds and the Thunder Origin Fruit were the ingredients used to refine the Heavenly Thunder Pills, and also the first time Chen Xiang had refined such an aggressive pill. The difficulty of the pill's refinement was extremely high, because the power of the pill's explosion was extremely hard to control.

As Chen Xiang processed the ingredients, he listened to Su Meiyao explain the main points of refining the Heavenly Thunder Pills.

He recalled what Su Meiyao had told him before he started to put the herbs in the furnace. He used the Foreseeing Alchemy, and when he refined the Heaven Thunder Pill, it was just like the Chunyuan gold Dan that he refined last time.

Especially the Thunder Source Fruit, one needed to be extremely careful in controlling the flames and gently burn the fruit to dust, allowing the tyrannical power of thunder to be released. If the control was not good, the entire Thunder Origin Fruit would explode.

Now that he had the rich experience of refining Chunyuan gold Dan, it was relatively easy to control when dealing with the Thunder Origin Fruit. It was just that he did not expect the berserk lightning energy from the Thunder Origin Fruit, which resulted in the Foreseeing Alchemy making a huge mistake.

"You can only produce one Thunder Yuan Fruit at a time. Moreover, you will need to pour a large amount of thunder-attribute true essence into the fruit in order to produce even more violent energy. Therefore, condensing a pill is the key." Su Meiyao said.

[Chapter 549 Heavenly Thunder Pill](#)

At first, he thought that it would be easier to refine using the Foreseeing Alchemy because he had made some improvements in the Foreseeing Alchemy. He was able to slow down the process of the refining process, but now, when he was refining the Heavenly Thunder Pill, it was extremely tricky.

Just as Su Meiyao had said, it was very crucial to condense the core, and the progress was very slow, because he was not proficient in it yet, so he could only inject a bit of thunder-attribute true qi into it. However, his thunder-attribute true qi was in conflict with the thunder-attribute energy released by the Thunder Origin Fruit and the Profound Lightning Grass Seed.

One must know that this Heavenly Thunder Pill was a martial artist that could cause injuries to the Extreme realm, thus one could see how powerful it was. To suppress the tyrannical thunder attributed energy, it was truly not easy, and it had to be compressed into a small pellet.

Just like with his cultivation of Innate Qi, after being compressed by a high concentration, the energy would change and the quality would become very high. Once detonated, the power would be very strong, so Chen Xiang did not doubt the power of the Heavenly Thunder Pill at all.

With a "honglong" sound, the Yanlong furnace suddenly trembled, and Chen Xiang once again announced his failure by exploding the furnace.

Chen Xiang had already failed to enter for more than twenty batches. He frantically scratched his head, "It's only a middle grade Profound Rank pill, and I've already failed so many times. What if I fail to refine an Earth Stage pill or a Heaven Stage pill in the future?!"

He spent a lot of time concocting the Heavenly Thunder Pill because he needed to inject a large amount of thunder attributed true energy. The time he needed to inject the pill would be slow, and it would take him an entire day to recover from that.

"When Hua Xiangyue refined the Life Recovery Pill, I saw that when she used the Foreseeing Alchemy, she had basically succeeded in one furnace, that is because she has a solid foundation, and she understood all kinds of medicinal herbs very well. Even if she met some unfamiliar herbs, she could use the Foreseeing Alchemy to quickly become familiar with them, and in order for you to reach her realm, this kind of experience is necessary, it also means that you have to improve and perfect your Foreseeing Alchemy." Su Meiyao walked over, caressed Chen Xiang's cheeks and comforted her.

Bai Youyou said: "You have a lot of medicinal ingredients, you should be a bit patient!"

Chen Xiang took a deep breath. With these two beauties encouraging him, he would definitely work hard. He placed the medicinal ingredients that Su Meiyao had processed into the Yanlong furnace and continued refining the Heavenly Thunder Pill.

Su Meiyao had said that the medicinal ingredients for these Pure Yuan pills and the Heavenly Thunder Pill were rather special, they were both the type that could easily explode easily. If one could master these two types of pills well, then when they met this type of high levelled pills in the future, they wouldn't feel that it was difficult.

He could only concoct one batch a day, spending the rest of the time concocting God's Elixir. At the moment, he had a lot of herbs to concoct in bulk, and even though he did not need some, it looked very satisfying. For example, the Soaring Nine-Deadly Flower and various Earth Grade herbs ...

Using his Fa Li to suppress others made Chen Xiang feel at ease. At least, he didn't need to be like the other Alchemists, unable to continue suppressing Chen Xiang because his consciousness was not strong enough. His Fa Li was very strong and his use was much more efficient than his consciousness.

It was already the forty-seventh day. Chen Xiang looked at the electric pill inside the Yanlong furnace, and now, he had successfully mixed the thunder attribute true energy that he had poured into it with the thunder attribute energy from the medicinal ingredients into the pill, condensing it into a pill. What he needed to do now was to make this pill smaller.

Right now, the pill was the size of a thumb, but Chen Xiang had to compress it to be the size of a soybean, in order to make the thunder attributed energy inside have a higher density and quality, and a stronger power. It was the same with compressing his true energy into true essence particles.

When he cultivated, the final step of compressing true essence was about the same as this. So at this time, he could be considered very relaxed. After he continuously released all sorts of uniform pressure, that rapidly spinning pill slowly shrank until it was the size of a bean.

"Done." Chen Xiang heaved a sigh of relief and shouted in surprise.

Opening the lid of the pill furnace, Chen Xiang placed a light blue pill in his hands and sighed: "It's been so long, and it's only this little, and also just one pill. It's not worth it!"

"When you become proficient, it will be very easy for you to refine it. When that time comes, you can imbue it with even stronger thunder-attribute true qi, which will be even more powerful, and it will not be difficult to deal with people in the middle and late stages of the Spirit Martial Realm. Although you can't heavily injure them, it's still possible to affect them."

"This pellet of yours can only be considered to be of low quality. There is one benefit of this pellet of heavenly thunder, it can increase one's power, and when you become proficient in the future, you can use several batches of medicinal ingredients to refine it at the same time. The amount of thunder-attribute true energy that you can pour in is even more, and you can also compress it to such a large extent.

Chen Xiang did not dare to underestimate this Heavenly Thunder Pill anymore, but he was unable to test it now.

"If it was suddenly thrown into someone's mouth and detonated during a battle ..." Bai Youyou let out a cold laugh. That beautiful face was filled with cruelty, and couldn't help but shiver.

If someone else could swallow it and detonate it, then that person would definitely explode, causing their belly to bloom. The inside of a person was the weakest, and this kind of thing was truly sinister.

"Make another ten or so pills. After you get familiar with them, you can then refine something even more powerful, the Spirit Erosion Powder." Su Meiyao returned the Heavenly Thunder Pill to Chen Xiang.

This caused Chen Xiang to be secretly excited and he continued to refine the Heavenly Thunder Pills. Even though he had successfully refined one pill, it did not mean that he had become completely familiar with it.

After he finished condensing it, he gave it to Su Meiyao to create a large amount of medicinal ingredients. Of course, he would need to refine more Heavenly Thunder Pills, and when necessary, these would be good for his self-defense.

It only took him four hours to make one. In a month, he had managed to make fifty pills. At first, he had failed several times, but later on, he had improved a lot.

"There are so many materials for the Corrosive Divine Powder." Chen Xiang took a small breath.

The ingredients for the God Eroding Powder came from the Broken soul tree s, they needed to refine the flowers, fruits, leaves, roots and branches of the Broken soul tree into fine powder. When sprinkled on a person's body, it could quickly dissolve the person's flesh, it was extremely vicious, and belonged to a forbidden being.

Of course, if Chen Xiang wanted to use it, he had to be extremely careful.

[Chapter 550](#)

Broken soul tree's flowers, leaves, and fruits were all pure white without any impurities at all. They all looked extremely strange and huge, and the size of Chen Xiang's palm was no wonder it was so big.

A leaf, a flower, a drop of sap, a fruit, and a small chunk of tree root. This was the medicine used to refine the God Eroding Powder that would cause people to feel fear in their hearts. Whether it was in Heaven Realm or the Mortal Realm, as long as one talked about this kind of thing, as long as one knew of it, their faces would turn pale.

Refining the God Erosion Powder can be said to be not difficult, you have refined a White jade powder, it's basically the same as that one, maybe you will succeed in one attempt, the God Erosion Powder is a material that is very rare, for something like the Broken soul tree, once found, it will be destroyed by righteous people, and after a while, it will become extinct, and no one will dare to use it, because if they are found out, they will be faced with the endless pursuit of the Righteous Sects!

Su Meiyao said with a serious face: "I have never refined this kind of thing before, but my master told me about the refining process of the God Eroding Powder!"

The higher the quality of the Broken soul tree, the stronger the corrosive powder was, and it was impossible to guard against it. Even with an extremely strong protective armor and true qi, it was difficult to resist the corrosion of this heaven defying thing, even gods were afraid, let alone humans and immortals, so they were afraid of being held by the Alchemists to threaten them, and so they joined forces to stop this terrifying thing.

There is a way to prevent that. You just have to soak in the tree juice of the Broken soul tree for three days and three nights, and the God Eroding Powder won't be able to corrode you. It is said that it can prevent other kinds of energy from corroding you. Bai Youyou said.

Chen Xiang's eyes lit up, and he laughed: We will soak together, if I soak alone, it would be too wasteful, wouldn't it be difficult to grow this tree sap?

Su Meiyao laughed and scolded: "That's reasonable, but I can consider that." She looked at Chen Xiang lovingly, and even tousled her hair flirtatiously, causing Chen Xiang's heart to throb.

There were indeed very little tree sap in the Broken soul tree and it would have to wait a period of time before it could grow them. Furthermore, the storage time was limited, and once one of them had passed the required time limit, it would become ineffective.

He had to be very careful in making the God Eroding Powder. He had to wrap it with his soul consciousness to make it hang in the air. The things he stored had to be special or else they would be corroded.

"Looks like I need to soak in the tree juice of the Broken soul tree as soon as possible, in case I run into a little bit of trouble." This was Chen Xiang's first time concocting a pill with someone as if he was facing a great enemy, causing him to be extremely nervous.

He felt that he was not the only one who had to soak in it, even his own pill furnace had to soak in it to prevent it from being corroded. This Yanlong furnace would be considered a treasure even in the Heaven Realm, even if it was destroyed, he would not be able to cry.

The Broken soul tree's tree sap was transparent, it was used to prevent the God Eroding Powder from corroding each other, and the leaves, fruits, roots and flowers itself were nothing, but once combined together, they would possess an incomparably corrosive and dissolving force, Chen Xiang had to carefully refine them right now.

These things were all on top of the same tree. Other than it being extremely difficult to melt, it was very simple to fuse them. The thing that Chen Xiang found difficult was that the control of fire was very high and required very subtle control of fire, otherwise the medicinal ingredients would be destroyed.

Chen Xiang himself possessed the Heaven and Earth Flame Soul, and had also trained in the Fire god method, so his control over fire had already reached a superb level. Therefore, when he was burning the medicinal ingredients, he was very relaxed, refining pills together with the Foreseeing Alchemy was indeed as easy as Su Meiyao had said.

Now Chen Xiang knew why the people above Heaven Realm were all so afraid of this thing, because while refining was simple, its killing power was strong. If a crappy Alchemist obtained a high quality Broken soul tree, then some of the big heads above the Heaven Realm would not be able to sleep, because this type of colorless and tasteless god etching powder, if it was quietly scattered a little, it would cause one's body to be tormented, and it would slowly dissolve.

The corrosive power was very difficult to resist and it dissolved at an extremely fast speed.

Su Meiyao and Bai Youyou had already entered the storage ring and used the God Creation Liquid to create the tree sap, but it was very slow. From this, it could be seen how much energy Broken soul tree required.

In just four hours, Chen Xiang had refined a small box of God Erosion Powder. This powder was very exquisite, very small, and if it was just a little bit, it would simply be invisible, just like air, completely transparent.

Right now, Chen Xiang was trembling in fear, he did not dare to use it carelessly, because if his finger touched even a little bit of it, his entire hand might even be corroded in an instant.

"Actually, it's not that scary. His mana is still able to resist this sort of thing." Long Xueyi said.

Su Meiyao and Bai Youyou had used up all the God Creation Liquid that Chen Xiang had condensed over the past few days, but they still managed to get a pool of the Broken soul tree's sap.

Looking at the transparent liquid that was emitting a strange glow in the bathtub, Su Yun rubbed his hands as he looked at Su Meiyao and Bai Youyou with fiery eyes and said, "Am I supposed to soak in it first, then wait for you two!"

"You can soak in the sap for three days and three nights, and the sap will be useless." As Su Meiyao said this, he began to take off his clothes, causing Chen Xiang to laugh wickedly in his heart.

"Do you want to strip naked?" Chen Xiang asked seriously.

"Not only is it incomplete, it will also be absorbed by the clothes." Su Meiyao's back was facing Chen Xiang and he quickly took off all his clothes.

Seeing Su Meiyao's captivating jade body, Chen Xiang fiercely swallowed his saliva, his eyes went straight, and Su Meiyao quickly jumped into the water, but her slender snow-white breasts, her perky butt, and her slim waist were deeply imprinted in his mind.

Just as he was in a daze, he heard another "putong" sound. Bai Youyou had actually taken off his clothes and jumped into the water while Su Meiyao was still in a daze.

This made Chen Xiang extremely regretful in his heart, if not he could have seen Bai Youyou's jade body. Although he could only look at his back, it was enough.

When it came to him, he wasn't afraid at all. He knew that these two beauties were bored to death in the ring. It wasn't the first time they saw his body, but it was enough to count every single hair on his body.

He also jumped into the bath. The pool was not very big, so Chen Xiang and the two girls were very close. Originally, he could have used the clear Broken soul tree juice to block the two beauties' snow white and round proud breasts, but who would have known that they would actually cover it with their hands?
