

## Dan God 641

### [Chapter 641](#)

The pill refining competition was held in the middle of a square. There was a circle around, allowing all the Alchemist to sit inside to refine pills, while everyone could watch from the side.

There were a lot of Alchemist s, even if they were not Alchemist s themselves, they would still be very interested in the pill refining competition. Many warriors, in order to obtain a good Alchemist, would have a very good understanding of pill refining knowledge, this not only allowed them to differentiate the pill refining level of a Alchemist, but also allowed them to discuss it with a Alchemist.

When everyone saw Chen Xiang handling those medicinal herbs so quickly, they knew that Chen Xiang's foundation was extremely solid.

The second person who started the fire was a unlucky descendant from the Fan Family. This little guy just dug the ancestral grave and obtained the Fan Family's famous Fire Soul, in order to atone for his sins, the clan let him go and sent him to participate in the pill refining competition, but even if he does not take first place, the Fan Family will not be able to do anything to him. The old man's loud voice echoed in the plaza, making Fan Yakun go crazy, he wanted to fill the old man's mouth with cow dung.

"Only those who start a fire for the first time get a reward? No, everyone else will have a share, but the prize for first place will be a little better! " After the old man laughed, he shouted, "Chen Xiang's reward is here!"

Everyone immediately let out exclamations of surprise, because they saw a graceful purple figure floating down from the top of the auction place. Looking at the noble and dignified purple attire, everyone knew that it was Zi Lan Immortal Fairy.

Yan Zilan smiled charmingly, her refined temperament seemed to have become completely natural, as if a purple orchid was slowly falling from the sky onto the arena.

"Zi Lan Immortal Fairy, you should have seen that little ghost before. Go encourage him and have him refine pills properly!" This was not to encourage them, but to harm them so that they could focus on refining pills. Of course, many people were extremely envious of Chen Xiang, to be harmed by such a peerless goddess, even death would be worth it.

Chen Xiang was also cursing the old man in his heart, but he was not worried at all. He thought that the mysterious "reward" would bring him trouble, but now, even if Yan Zilan took off all his clothes by his side, he could still appreciate it and concoct pills at the same time.

The gentle smile on Yan Zilan's face suddenly became mesmerizing. Twisting her willow like waist, she slowly walked to Chen Xiang's side and elegantly sat on the empty cushion.

When Yan Zilan and Chen Xiang were so close together, some of the male animals gritted their teeth as hatred surged in their hearts. They wanted nothing more than to beat Chen Xiang up into a pig's head, yet he was able to stay so close to their goddess.

Chen Xiang had no choice but to turn his head and look at the charming and beautiful woman. At the same time, Yan Zilan also looked at him.

"Young Master Shen, you have to refine pills well!"

Yan Zilan's mouth was emitting an orchid like fragrance, looking at that alluring and delicious mouth, Chen Xiang wanted to stick his head in and suck on it, but he knew that if he did that, the males watching the competition would definitely throw smelly shoes at him.

The relationship between Chen Xiang and Yan Zilan had always been good, and Chen Xiang had even carried her before. He had been together with her on her bed for a while, and with Chen Xiang's strong self-control, this was only a good thing for him.

However, he didn't expect that the usually noble and dignified mature beauty would be so fatally afraid of such a coquettish posture. It made people want to give up and wish that they could subdue her.

What was hateful was that not only did Chen Xiang not explode his furnace, but he actually started to chat happily with Yan Zilan, and Yan Zilan even occasionally let out a flattering, sweet laugh.

Chen Xiang did not explode, but the 10 or so guys around Chen Xiang were all flustered by his flirtatious attitude, as the pill furnaces exploded one after another, causing Chen Xiang to burst out laughing.

"I never thought that Chen Xiang's self-control would be so astonishing, and that he would even have such an impeccable tongue, to actually make the number one beauty of the Sacred Dan Realm smile brilliantly, but the ten people beside him did not have his self-control, and were completely distracted by the Zi Lan Immortal Fairy, unable to calmly concoct pills, and finally quitting the competition like a furnace exploding ... ..." As the old man loudly narrated the situation of the match, he was secretly surprised.

"Now, all of the Alchemists have started a fire. Your big gifts have arrived. Enjoy it, youngsters!"

Yan Zilan said with a low laugh, "Did Elder sister not have enough skill to make a furnace out of you?"

Chen Xiang laughed: "If you strip naked, it might be able to affect me a little!"

Yan Zilan smiled sweetly, "You wish. But you have to be careful, there are still even more powerful people coming.

Yan Zilan stood up, and with a light leap, he flew away. The people around were suddenly spirited, because they saw many women dressed in transparent clothes, young and beautiful, with skin as white as snow, their figures graceful as snow flying over.

When the 30 plus women's jade feet stepped onto the arena stage, the entire arena was silent, and then the sound of gulping could be heard!

The thirty women were extremely beautiful. They were tall, had curves in the air, and the most frightening thing was that they were all wearing clothes as thin as cicada's wings. Their snow-white, jade-like bodies could clearly be seen.

Her snow-white, slender, beautiful legs, slender jade waist, and smooth as jade, they were all separated by a thin dress and revealed in front of the crowd. There were thirty beauties with the surname of 'Xie', and all the men present were burning with passion, causing the temperature of the entire plaza to suddenly soar, it was even higher than the fire produced by the Alchemist.

They were originally here to watch the competition, but now, everyone's attention was on these girls. Moreover, they were all staring at the chests and legs of those young girls.

The most terrifying thing was that these women actually had smiles on their faces. They let out flirtatious moans and began to dance about in a very coquettish manner. The entire martial field also emitted a series of explosions. In just a short moment, dozens of pill furnaces exploded.

"This Sacred Dan School, is too reckless!" Chen Xiang's ears resonated with that soul-snatching moan, as his mind rippled.

Su Meiyao scoffed, "Too shameless, he actually used such a bewitching technique to confuse others' minds!"

The jade body was faintly discernible under the gauze dress, and it was even more captivating. The seductive dance was accompanied by a series of high-pitched and low-pitched groans, causing many pill furnaces on the stage to explode one after another.

### [Chapter 642](#)

There were only fifty or sixty people still competing on the stage. The young beauties who were dancing had already retreated. The males who were watching the competition were already full of eyes, and they hoped to see a little more.

However, this made it difficult for the Alchemists who had insufficient mental fortitude, because they had been eliminated hatefully.

"Originally, we only wanted some beauties to cheer everyone up and ease this boring pill refining competition. However, we never expected that so many little fellows would feel so regretful. As for the remaining people, you should thank me for helping you eliminate a large number of your competitors ..." The old man laughed sinisterly, causing the eliminated Alchemists to grit their teeth in anger. They wanted nothing more than to throw a brick at him and smash apart all of his remaining teeth.

To most of the Alchemists present, refining a Five elements Zhenyuan Dan was not difficult, but right now, they were all using very inferior quality medicinal ingredients. Furthermore, they were not very satisfied with the quality of the furnace, as it was very inconvenient for them to use, affecting their performance.

This was the rule for his refining, but he had already refined it very smoothly, and had already reached the middle stage. All the medicinal ingredients were incinerated, and after the medicinal ingredients were incinerated, he separated the unique Medicine aura s and the medicinal powders that did not contain any impurities. As long as he combined them together, he could enter the final stage of pill condensation.

In this regard, he was far ahead of the others. In the [Charm Storm], only Chen Xiang and that Lin Xiyi were not affected. Although the others had not exploded, they had more or less been affected.

In the Sacred Dan Realm, there were very few girls who could refine pills, so these kind of girls were the targets of the disciples from famous sects.

When he was in the Mortal Martial Realm, Chen Xiang had already known about the two famous female Alchemists, Hua Xiangyue and Elder Dan. However, after he had been in the Sacred Dan Realm for a while, he had yet to hear about any famous female alchemist master.

Only Du Yanyao was famous, but she only received attention, and did not reach the stage where she was respected, so she could not be considered as one.

Yan Zilan suddenly appeared again, flying over from afar. Only someone of her level would dare to casually fly about in the Sacred Dan City.

"The next competition will be hosted by Purple Orchid. Everyone, please cooperate and remain quiet so that Alchemists can refine pills quietly." Yan Zilan laughed indifferently, attracting the gazes of many people.

Seeing that the old man who owed a beating had left, the Alchemists that were participating in the tournament all sent him off with the most malicious curses in their hearts, especially those Alchemists that were eliminated.

Originally, they still had some hope of obtaining the Holy Water of Qianyang, but after being disrupted by that damned great gift, many people were eliminated. However, this was a test for them, so they could only blame themselves for not being strong enough.

The entire arena fell into silence as everyone waited for the results.

"Something's wrong, be careful!" Long Xueyi suddenly shouted, at the same time, Yan Zilan turned into a purple shadow, flying straight towards Chen Xiang like lightning, she waved her hand, releasing a purple Innate Qi, dispersing the Qi that was attacking Chen Xiang.

Although Yan Zilan blocked the powerful force, Chen Xiang still felt a wave of Innate Qi that was mixed with lightning and flames heading towards him. His pill furnace was also affected and had a few cracks on it.

"How dare you!" Yan Zilan stood behind him and shouted loudly.

A middle-aged man suddenly appeared in the middle of the arena and coldly said, "He let my son die, one injured. Today, I will definitely kill him and take revenge!"

Just a moment ago, Chen Xiang and the Chaotic Mountain's people had clashed, causing one person to die and one person to be injured, this was something that everyone knew, but now that someone had come looking for them, it was obvious that they were from the Chaotic Mountain.

Yan Zilan had done her a great favor, even if Sacred Dan School didn't care, she would still take it over.

"This is a pill refining competition organized by our Sacred Dan School, no one is allowed to disrupt the competition, your two sons were the first to fight, they were the ones who were weaker, one died and one was injured. As their father, you are very powerful, yet you dare to do this to someone of the younger generation, do you think that your Chaotic Mountain is shameless?" Yan Zilan's sharp words made the middle-aged man unable to refute him for a moment.

However, the middle-aged man was still furious, "No matter what, I have to take revenge!"

If you insist on taking Chen Xiang down right now, then our Sacred Dan School will definitely not sit by and do nothing. Xie Shilong appeared, and stood on the high platform of the arena. Looking at the few people in the crowd, he could tell with a single glance that all of them were strong Rankers from the Chaotic Mountain, with their strength being on par with him.

Sacred Dan School's Leader had already appeared, and even said something like that, Chaotic Mountain couldn't afford to clash with Sacred Dan School right now, so he could only endure.

"Alright, after the competition, it will be time for Chen Xiang to die!" The middle-aged man threw down those harsh words, then leaped up and left the arena.

Chen Xiang heaved a sigh of relief, and everyone was impressed by his calmness. When he was burning his eyebrows, he was actually able to focus on concocting pills, and stabilize the pill furnace that was about to be destroyed.

The cracks on top of the pill furnace were clearly visible, and there were some cracks on the floor beneath the furnace. It was obvious that the cracks were caused by the attack of the Chaotic Mountain.

Just then, Lin Xiyi shouted, "I've completed it!"

Chen Xiang noted that she had successfully refined five Five elements Zhenyuan Dan, and those were of high quality. This meant that she could enter the next round, and only twenty people could enter the next round.

"Chen Xiang, your furnace is damaged because of what happened just now. We couldn't protect you well, so the only thing we can do is to give you a new furnace and a new set of high-quality herbs so that you can start concocting again. However, we might not make it in time." Xie Shilong said. He saw that Chen Xiang was still able to refine pills as calm as a mountain, and had the demeanor of a great family. He sighed inwardly.

Chen Xiang said indifferently: "No need!"

Even if he tried again, it would be too late. As long as more than twenty people refined a Five elements Zhenyuan Dan, he would not be able to enter the next round.

"Looks like I can only use the furnace exchange!" Chen Xiang thought in his heart. Last time he fought with Fan Yakun, he had succeeded in this exact same method.

Now, another person had finished refining it, if not for the effect from just now, Chen Xiang would have already completed it. And now, in order to stabilize the furnace, he had no choice but to slow down.

Fan Yakun was the second to complete it after Lin Xiyi, so he was not the least bit worried about Chen Xiang. Furthermore, he was looking forward to Chen Xiang's shocking consummate skill, and when he saw that more and more cracks appeared on Chen Xiang's pill furnace, he became slightly excited, because he knew that he would soon be able to see that ultimate skill!

### [Chapter 643](#)

Chen Xiang's Pill Refining Furnace shook violently. More and more cracks appeared, and flames were spewing out of them. The energy within was extremely tyrannical, and everyone was on tenterhooks, waiting for the moment he would explode.

Yan Zilan frowned, gritted her teeth, and sent a sound transmission to Chen Xiang: "I'll take you away later, there's no need to worry!"

Once Chen Xiang failed, it would mean that he had to withdraw from the competition. At that time, the people from Chaotic Mountain would also take action, so Yan Zilan had to stand by his side the entire time just to protect Chen Xiang.

With regards to the matter of the Chaotic Mountain's people suddenly hating him, Chen Xiang only kept it in his heart. Right now, he did not have the mind to bother about it, he was calculating the time, making good use of the time to change the furnace.

Yan Zilan suddenly felt a wave of spirit power, because she was also a cultivator of the divine way, and Chen Xiang was unrestrainedly releasing it, she knew that it was spirit power, and it was extremely dense, she never expected Chen Xiang to have such a strong spirit power with his strength.

But she was very suspicious, she didn't know what Chen Xiang wanted to do.

Chen Xiang had obviously released his Fa Li in order to condense it into a Magic method furnace!

Just as Yan Zilan felt the Fa Li, a weak gust of hot air suddenly attacked him, causing a "boom" sound. Chen Xiang's pill furnace suddenly exploded, stirring up a cloud of dust.

Looking at the pile of dust in front of Chen Xiang, everyone let out a sigh of regret, and the people from the Chaotic Mountain were also waiting for Chen Xiang to leave the venue.

Just as everyone was feeling sorry for Chen Xiang, an incomparably dazzling multicolored light shot out from the dust. As long as it was a Alchemist, they all knew very well what this multicolored light was.

Seeing this, Fan Yakun heaved a sigh of relief, but he secretly exclaimed in his heart, although he had already seen it once, he was already stunned.

Chen Xiang blew away the dust, the piercing five colored light became even brighter, enveloping the entire competition grounds.

Five types of multicolored light twined inside Chen Xiang's Magic method furnace, and like glue, they formed into a ball of rainbow colored air, shooting out five types of glaring red light, as if they were miniature suns that could release five types of light.

Chen Xiang had already reached the stage of fusing all of the Medicine aura and medicinal powders together, and this was also the most crucial moment. During the fusing period, all sorts of Medicine aura, due to their mutual repulsion, appeared extremely tyrannical, causing the light they emitted to become even more intense.

Seeing this scene, no one even blinked their eyes, appreciating this peerlessly beautiful scene. At the same time, they were also secretly surprised in their hearts, just what did Chen Xiang do?

Amongst the people present, only Yan Zilan knew that Chen Xiang had used the spatial transformation within the Seventy-two changes to create a transparent pill furnace and concoct pills inside. Although she could see this, she was still shocked by it and was captivated by it.

As for the Alchemists, they were all staring at the ball of air inside the transparent pill furnace. Because this ball of air was very big, it meant that Chen Xiang had a lot of pills.

When suppressing the multicolored ball of air, Chen Xiang felt very relaxed, because he had used his mana. Very quickly, he fused the five Medicine aura s and the medicinal powder together, and in that instant, they released an even more dazzling multicolored light, which was then quickly split by Chen Xiang into seven small balls of air.

It was actually seven pills. If he had used undamaged medicinal ingredients to refine, Chen Xiang could refine ten pills, but the majority of the other Alchemists only had eight. In the eyes of the Alchemists, Chen Xiang had neared the perfect number of pills he would produce!

Very quickly, Chen Xiang's transparent pill concocting furnace condensed seven transparent pills, their final form after the fusion of the five types of light.

Xie Shilong and Yan Zilan were both here. The Five elements Zhenyuan Dan that Chen Xiang had refined were all of high quality that they had appraised!

Especially those people from the Chaotic Mountain, they didn't only want to capture Chen Xiang, they also wanted to force Chen Xiang to hand over the Chaos fire.

heaved a sigh of relief. Just now, she was already prepared to take Chen Xiang and escape, but she did not expect Chen Xiang to actually use such a miraculous consummate skill.

Chen Xiang was the fifteenth person to refine a Five elements Zhenyuan Dan, and he had already successfully entered the next round. At this time, he was also secretly cursing Du Hai as well, as he still hadn't helped him settle those Chaotic Mountain people after so many days, causing him to almost lose his life just now.

"Are these guys forcing me to use that second Chaos fire?" Chen Xiang was furious in his heart. If the competition ended and the people from the Chaotic Mountain surrounded him, he would definitely use the second Chaos fire.

Now, everyone knew that not only was Chen Xiang's strength ferocious, his pill refining skills were also exceptional. They also understood why he was able to become Du Yanyao's fiancé.

Chen Xiang took out another pill furnace. This was a little better than the Magic method furnace, after all, he did not know what kind of cruel competition would follow after.

"I never thought that there would be someone in the Sacred Dan Realm with a Dragon Fire Soul. This guy is very shrewd, he is still concocting pills, but he must be slowing down on purpose." As Long Xueyi said this, Chen Xiang immediately looked towards the person she was referring to. It was a handsome man who somewhat resembled Xie Shilong.

Fan Yakun was also looking at the man. Chen Xiang nudged him and asked: "Who is that?"

"One of Xie Shilong's most prized grandson, Xie Nanfeng, although the Fire Soul is mysterious, it is very strong and normally keeps a low profile and rarely comes out to travel. He has a high talent for alchemy and I heard that he is one of the few people who can compete against the geniuses in Chaotic Mountain." Fan Yakun said.

Chen Xiang also noticed that both Lin Xiyi and the other man from the Chaotic Mountain were ranked at the top of the rankings for the third round. He had previously heard that the people from the Chaotic Mountain were very good at refining pills, so Du Hai had learned from them before.

"There should be a Pill Sage within the Chaotic Mountain. It is the birthplace of the alchemy civilization, so for the people that came from, it is not surprising that their alchemy skills are powerful. That Lin Xiyi is very powerful." Fan Yakun continued.

The round had ended. Xie Nanfeng had entered the next round as the 20th place, and seeing his calm expression, he knew that he had done it on purpose. Such a person was truly not bad, and Xie Shilong also nodded with satisfaction and smiled towards his grandson.

"Next is the third round. This third round can be said to be linked with the fourth round, which is to ask everyone to use the fastest speed to refine three high grade profound level pills. As long as you refine these three high grade profound level pills, you will be able to exchange them for the ingredients for the Earth Grade Low Rank Dan s from me."

Yan Zilan smiled lightly: "And I only have three sets of Nine quenching body Dan's medicinal ingredients here. Which is to say, out of the twenty of you, only three of you can obtain the fourth round's medicinal ingredients from me."

#### [Chapter 644](#)

After Chen Xiang found out about the pill refining competition. He felt quite a bit of pressure, but he wasn't afraid of it at all. This was a good opportunity for him to level up, as it would allow him to gain experience in using Foreseeing Alchemy.

"The victory of the best refined Nine quenching body Dan is determined by the quality and the number of pills produced, and the time limit is only today!" Yan Zilan continued to explain the rules.

Out of the twenty, only three of them were qualified to refine Nine quenching body Dan, which made everyone feel quite a bit of pressure.

In order to let everyone understand the rules, Yan Zilan said again, among these people, the one with the greatest pressure was probably Chen Xiang, because until now, he only knew how to refine a high grade profound level pill. If he wanted to obtain the final victory in the competition, he would have to concoct many different kinds of pills that he had never refined before, and he had to succeed for sure.

The Foreseeing Alchemy was created to allow Alchemist to succeed in refining a rare medicinal ingredient. In order to use the Foreseeing Alchemy well, one had to refine many different kinds of pills that had never been refined before.

"The three high-grade profound level pills that you are refining are Dinghun Dan s, Small shaping Dan s, and profound yang fire Dan s. We will provide the medicinal ingredients, and in order to better test your alchemy standards, the quality of the medicinal ingredients will be slightly lower." Even though Yan Zilan said this, everyone could guess that it was definitely as bad as the Five elements Zhenyuan Dan's medicinal herbs that were just now.

In the Sacred Dan School's eyes, these rotten herbs had no value at all. Even if they were Nine quenching body Dan s, they could still be used for auction if they were in the Mortal Martial Realm.

Not long after, it confirmed everyone's thoughts. Those medicinal ingredients were indeed very rotten, to the point of making people curse the Sacred Dan School, but it was indeed a very challenging method. If he were to refine the perfect medicinal ingredients, wouldn't the competition be boring?

The moment Yan Zilan announced the start of the process, Chen Xiang immediately began to process the profound yang fire Dan's medicinal ingredients. His movements were crisp and smooth, he had refined profound yang fire Dan quite a few times before, thus it was extremely easy for him.

However, there was someone who was faster than him. That was Xie Shilong's grandson, Xie Nanfeng, and the Lin Xiyi who came out of Chaotic Mountain, they had all started a fire at the same time and started refining pills.

There were only three spots available, and only the three people who concocted pills the fastest would be able to obtain one. Therefore, everyone had to make the best use of their time, not asking for quality nor quantity of pills, but only for speed and success!

At noon, the sun was scorching and the land was steaming, but in Alchemist's eyes, this kind of heat was nothing.

The first person to refine the pill was Chen Xiang, and what was unexpected was that Chen Xiang actually refined four profound yang fire Dan!

Under normal circumstances, four pellets being refined was already the limit for many Alchemists, but Chen Xiang could still use rotten medicine to refine them, and everyone could see, if Chen Xiang used perfect medicine, then he could probably concoct five pellets. Although the difference was one pellet, when it came to high levelled pellets, one more pellet would bring about an additional, and the benefits could be imagined.

In this kind of competition, Chen Xiang still treated the ingredients like they would normally, and did not waste any medicinal ingredients, ensuring the quality of the medicinal pellets. This fact made many Alchemists secretly admire, this kind of attitude was very precious, it was the kind of respect Alchemists had for the medicinal ingredients, giving them the best home!

Looking at the four glittering pills, some of the old Alchemists on the stage felt deep veneration for Chen Xiang. This was because this was the spirit that Alchemists should have, at least it was forgotten in the end.

"Look at them, they are all concocting pills for the sake of obtaining the Holy Water of Qianyang, but Chen Xiang is concocting pills for the sake of concocting pills, he has already blended himself into the realm of concocting pills, I'm afraid that he is not thinking of winning right now, but only thinking of using the best ingredients to the best of his abilities!" Yan Zilan said unhurriedly, staring at the fully focused Chen Xiang.

Xie Shilong nodded his head: "That's right, this is a pill refining competition, and our rules do not set a requirement for the quantity of quality, so not many people would follow this requirement. They only thought that these are all rotten herbs, as long as they can concoct pills and win, it would be urgent."

Yan Zilan smiled and said: "It seems like in terms of pill refining skills, many of the old Alchemists cannot compare!"

Xie Shilong self-deprecatingly laughed, "When Alchemist was young, he was always eager for quick success and quick wins. But when he gets old, he actually pursued a pill refining attitude like Chen Xiang did, but by then, it was already a little too late."

Many of the participating Alchemist s secretly mocked Chen Xiang, who was actually so focused on refining such a high-quality pellet, and even so many of them. But in the eyes of some of the younger Alchemist s, Chen Xiang viewed this process as a form of experiential learning.

Fan Yakun had only refined a profound yang fire Dan. Compared to Chen Xiang, he felt that he was inferior, because Chen Xiang had guaranteed his speed, quantity and quality!

To be able to do this, it meant that Chen Xiang had always done this for pill refining. This was already a type of habit, but for Alchemist, this was a good habit.

"Small shaping Dan, the difficulty isn't too high, you should be able to deal with them. At that time, the Dinghun Dan will be more difficult to deal with." Su Meiyao said.

Chen Xiang had already dealt with the Small shaping Dan. Even though it was a medicinal ingredient that was already rotten, he still had to do his best to refine it. Even in a nervous atmosphere, he still maintained a calm heart.

"The Ginseng Spirit Fruit is rather weak and a little rotten. When you refine it, you must believe that the Muscle Bone Grass and the Human Blood Mystical Ginseng are rather difficult to deal with. The fire force needs to be raised a little." Su Meiyao warned.

These three were the main ingredients, so there were no problems with the other tattered supplementary ingredients. Chen Xiang could easily deal with them.

The Spirit Ginseng Spirit Fruit was like a small baby, just that one of its legs was gone, and the Muscle Bone Grass could not only refine a Small shaping Dan, but it could also make a human's bones, and the Human Blood Ginseng, this kind of ginseng, contained a large amount of blood essence. It was the same with the humans, Chen Xiang had all three types of medicinal herbs, and they were all obtained in the First profound Realm.

Chen Xiang had already put the ingredients in the pill furnace, and only a small number of people had just finished concocting the first batch. During Chen Xiang's second batch, he was still in the lead.

Of course, Chen Xiang had only wanted to buy more time before this, to give himself more time to concoct the two unfamiliar high-grade profound level pills.

The pill furnaces used to participate in the competition were all the same, the ingredients used were all also terrible, and right now, he was refining a high grade profound level pill, which took a bit more time. After four hours, there was finally someone who managed to concoct a second batch, and that person was Xie Nanfeng.

Immediately after, Fan Yakun and Lin Xiyi also opened the lid, and each took out a Small shaping Dan.

Normally, Small shaping Dan would produce only one pellet. Although it was easy to refine, it was extremely difficult to refine one pellet using broken ingredients.

[Chapter 645](#)

These Alchemist s were easy to refine. From the aspect of difficulty, profoundyang fire Dan s were harder to refine than Small shaping Dan s, but because of the medicinal ingredients, Small shaping Dan s were harder to refine than profoundyang fire Dan s.

Chen Xiang, who had always been leading the way, was actually lagging behind many others. This made people suspicious, but when they saw his sweating face, many of the old Alchemist could see something!

"Looking at his appearance, could it be that this is his first time refining such a pill and using the Foreseeing Alchemy to such an extent?" An old man said. As long as one used the Foreseeing Alchemy to refine a stranger's pill, it would usually be extremely strenuous, because it would consume a lot of energy.

Right now, Chen Xiang's mind was concocting a Congealed Pellet. And the moment an error occurred, the furnace would explode in his mind, and he would discover the mistake in time to correct it before continuing the concoction ... This was often repeated many times, and one had to be extremely fast. If one didn't correct their mistakes in time, the furnace would explode.

"The difficulty of refining this Small shaping Dan is not difficult at all!" Chen Xiang opened his eyes and let out a long sigh. He opened the lid of the pill furnace and took out two pills that were as red as blood.

It was actually two pills! Seeing that color, many people could tell that it was of high quality. Many people could not understand why Chen Xiang was still pursuing his limits in this situation, and why he was so serious about it even though it was his first time refining it.

What they didn't know was that Chen Xiang's subconscious would never allow him to refine pills carelessly. Furthermore, in his eyes, concocting pills with low quality or quantity was the same as concocting pills perfectly.

Chen Xiang took his time to process the Dinghun Dan's medicinal herbs. Looking at him, he did not care about winning or losing at all, but viewed refining pills as a matter of great pleasure, one that was completely immersed in the process of refining pills, and one that received happiness from it.

This was a kind of realm, only those who wholeheartedly refined pills would be able to reach this realm, and it was also a realm that many old Alchemist only started chasing after when they were old, and this realm would greatly increase for the Alchemist.

The more it was like this, the more terrifying it was. Although Fan Yakun, Lin Xiyi and Xie Nanfeng, the three geniuses were far ahead of them, they still felt a strange pressure, and this pressure was all coming from Chen Xiang.

When they saw Chen Xiang handling the Dinghun Dan's medicinal ingredients, his movements were very rough, and everyone could see that Chen Xiang had never refined a Dinghun Dan before!

Anyone who knew about pill refining, would know that Chen Xiang was challenging his limits and was constantly surpassing it. He actually treated this competition as his own experience, which was why he was willing to wholeheartedly refine pills. This was because this kind of extreme result was far more important than the Holy Water of Qianyang.

For example, that Nine quenching body Dan, if they lost to Chen Xiang in this competition, then that would not be a normal loss, but a complete loss, because Chen Xiang had never refined these pills before.

That was why Fan Yakun and the others felt an inexplicable sense of pressure. If they lost here, then it would be extremely embarrassing for them if they lost, and even if Chen Xiang lost, no one would laugh at him.

After a person dies, their soul will dissipate and leave their body. But after eating the Dinghun Dan, he can stabilize his soul for a period of time, and after using the Soul Resurrection Technique, he can resurrect a person, or he can consume a pill that can bring a person back to life and revive them.

This kind of pill could also be considered a life-saving pill, especially for some people when they were cultivating, their souls would be affected, making it easy for one's cultivation to go berserk, causing their soul to suffer injuries. However, if one consumed a Dinghun Dan, they would live in peace for a long time.

"The main ingredients are only the Soul-Lock Grass and the Calming Flower. As long as you can overcome this difficulty, the most difficult part of the two ingredients are the backlash and being able to follow his consciousness to attack your soul. Especially when it's being burned by the flames, it can even affect your Fire Soul."

With Su Meiyao's guidance, it made it easier for Chen Xiang to refine pills, but it was just experience. If he wanted to succeed, he had to experience it for himself.

Long Xueyi said: "If your spirit power is insufficient, I can use that dragon pearl to channel some energy for you. That dragon pearl still has a lot of energy."

"We'll talk about it later." Chen Xiang threw all the ingredients into the pill furnace. He was the slowest one in the third furnace.

However, everyone knew that the Dinghun Dan was not easy to refine, so even for someone with some experience, if they were slightly careless while refining it, their soul would be attacked. The pain was something that many old Alchemist were afraid of, so once they were affected by the backlash of the two main ingredients, it would basically mean that they had failed.

Not long after it started, Chen Xiang heard a scream. One of the pill furnaces had exploded, and the person was rolling and howling on the ground, when an old man suddenly came to his side, fed him a pill, and then left the competition grounds.

"As long as it's the first time, even the soul can't avoid being attacked. It seems like Chen Xiang is going to fail here." Xie Shilong said, and thought back to the first time he refined it, which still left a lingering fear in his heart.

Chen Xiang had already set fire to the medicinal herbs, but he could already feel a strange and tyrannical power wreaking havoc on the pill furnace, causing it to shake.

"I'm afraid that it would be difficult to practice the soul attacking power changes with the Foreseeing Alchemy. In order to refine Dinghun Dan, one has to rely on experience." Xie Shilong laughed, he felt that he would see Chen Xiang rolling and howling on the ground very soon.

Just as Xie Shilong had said, the power released by the Soul Calming Grass and the Calming Flower was extremely hard to fathom. If one did not have a fixed pattern of power, it would be difficult to use the Foreseeing Alchemy.

However, Chen Xiang's Foreseeing Alchemy had already achieved a breakthrough long ago, so he could observe the changes in the energy at a very careful rate. Although there was no pattern to the changes, but when the changes were extremely slow in Chen Xiang's eyes, he had a way to merge the energy into the purple red Foreseeing Alchemy, and correct the mistakes that would occur.

In just an hour, five people had their souls attacked by the medicinal herbs and had no choice but to withdraw. What made many Alchemist surprised was that Chen Xiang's first time refining a Dinghun Dan bird was actually longer than others, and had completely overturned the knowledge of many Alchemist. One must know that most people were tortured to death the first time they refined it.

"Crap!" Chen Xiang could not help but shout out, following that he let out a low roar, and his Pill Refining Furnace started shaking frantically.

The thing that everyone was looking forward to finally happened. Seeing Chen Xiang act this way, they were sure that Chen Xiang had failed, but the shaking pill furnace suddenly stabilized!

Seeing Chen Xiang's pain, he knew that he was enduring it from the inside of his soul. Even so, he was unwilling to give up, and he stabilized his pill furnace, preventing it from exploding!

#### [Chapter 646](#)

Chen Xiang did not fail. But on the edge of failure, towards his kind of endurance, the Dinghun Dan Alchemist who had refined before, they were incomparably impressed. It was because they knew that if they had to endure the pain while stabilizing the furnace, it was impossible for them to continue concocting pills.

But now, someone had done it. After walking over the years, the pain that Chen Xiang had endured, was something that he could endure with astonishing endurance and also something that he had endured from the pain of his soul. And the pain of being counterattacked by the power of medicinal herbs, was simply nothing compared to the pain he had endured in the past.

"A mere plant wants to steal my soul? You're courting death!" Chen Xiang was infuriated as the soul in his sea of consciousness suddenly opened his eyes. A bizarre soul force flowed through his entire body, devouring all of the soul attack energy that entered his body.

Seeing Chen Xiang's expression soften, everyone was shocked, because without pills, it was difficult to dispel the pain.

However, Yan Zilan was able to do it after being separated by a short while, which made people puzzled. However, Yan Zilan was able to guess something, she knew that Chen Xiang was the same as her, he had a powerful divine soul, and Chen Xiang knew the Spirit Cultivation Method, so the soul attacks of the flowers and plants could not do anything to him.

"Humph, not much!" Chen Xiang released his power and poured it into the pill furnace, suppressing all of the power that wanted to attack his soul. As long as he could deal with all of the power that knew how to counterattack and attack his soul, it would be much easier.

Fan Yakun suddenly said: "I'm finally done."

He held three High Rank profound level pills and walked in front of Yan Zilan, exchanging them for the Nine quenching body Dan's medicinal ingredients. These were the perfect ingredients, so when judging victory or defeat, it would depend on the quality and the amount of pills that came out.

There were only two out of the three Nine quenching body Dan's left, but Lin Xiyi and Xie Nanfeng were slightly ahead of him. Although they did not manage to refine any Dinghun Dan, everyone thought that the two ingredients were theirs, was it too late for Chen Xiang?

After overcoming the backlash of the Soul-Fixation Grass and the Calming Flower, Chen Xiang's speed suddenly increased. Right now, he felt that it was as easy as refining the pills he knew best.

"Completed!" Xie Nanfeng's voice was filled with excitement, he anxiously took the pill and went to Yan Zilan to exchange it for the Nine quenching body Dan's ingredients.

There was only one portion left, and everyone was holding their breath as they waited for the last owner of the Nine quenching body Dan's medicinal ingredients.

The entire arena fell into silence as an extremely tense and oppressive atmosphere enveloped the entire plaza. Of course, the person who everyone had the most hope of obtaining the last set of Nine quenching body Dan medicinal ingredients was Lin Xiyi and another Chaotic Mountain.

Moments later, two voices sounded at the same time.

"Alright!" Lin Xiyi shouted.

"Finally done!" Chen Xiang also opened his pill furnace.

and Lin Xiyi looked at each other, then hurriedly picked up the three high-grade profound level pills, and arrived in front of Yan Zilan in a flash. Their speed was extremely fast, and they had even arrived at the same time.

Yan Zilan was also caught off guard. He looked towards Xie Shilong, and asked for help.

"If it wasn't because of the circumstances, you all should have had a good fight. Being able to survive is a competition of flames, but this has a great impact on your time. Moreover, if you were to be injured, it will also affect your performance." Xie Shilong also felt that it was difficult, it was already dark, it was only about six hours from the end of the day.

Lin Xiyi rolled his eyes and said: "Thank you Leader, I have a way to draw a circle or two on the ground, and let one of you do one thing, if the other person can't do it with you, it would count as a loss. If not, then even if I win, I have to make it simple and fast, and I can't walk out of this circle."

"Even if you say that if I do something, if he can do it, even if I win, give me the Nine quenching body Dan's medicinal ingredients. If he can do it, even if I lose, the Nine quenching body Dan will be his."

Chen Xiang curled his lips and said: "Your thoughts aren't bad, but if you had thought of something, you would have definitely thought of something long ago to stop me from following you. If you let me do it first, that's more like it."

Although Xie Shilong felt that it was childish, if the two of them agreed, then it would be up to them. Everyone found it interesting too, wanting to see what Chen Xiang would do in a group that Lin Xiyi would not follow.

Lin Xiyi scoffed disdainfully, "You're a man, and you actually want me to let you go? Fine, I'll let you go first!"

There were two circles on the ground, and both Chen Xiang and Lin Xiyi were standing in the circle when they were around three meters apart.

"Begin!" Xie Shilong never thought that at his age, he would have to play such a childish game with these little ghosts.

Chen Xiang laughed, and quickly took off all his clothes.

"Hehe, Miss Lin, if you can strip naked like me, then I'll consider it your win!" Chen Xiang laughed out loud, and the men all started laughing out loud. It was normal for men to be naked, but for women to take off their clothes, everyone would have a feast for their eyes.

Lin Xiyi cursed in her heart as she blushed red and looked miserable.

"Wow!" With a sound, this charming beauty suddenly burst into tears. Her delicate and touching look made Chen Xiang feel that she was a bit shameless.

When a woman cried, many men would have a headache. Chen Xiang also felt that it was a headache and quickly comforted her: "Forget it, that did not count, this time I'll let you go first!"

Hearing Chen Xiang's words, Lin Xiyi's crying stopped, but it still continued to lightly sob, causing Chen Xiang to suddenly curse that he was being too merciful, if he was more ruthless, he would have received the Nine quenching body Dan's medicinal ingredients already.

"That's what you said!" Lin Xiyi dried his eyes.

"That's right, everyone heard it. Even if I lose, I won't cry, and I won't act shamelessly either." Chen Xiang curled his lips and said: "Even if I wanted to cry, I would hide and cry."

This caused everyone to laugh out loud, they wanted to see Chen Xiang crying, and Lin Xiyi feeling ashamed.

"Zi Lan Immortal Fairy, can you come over and kiss my cheek?" Lin Xiyi said gently as he looked at Yan Zilan with his watery eyes.

Chen Xiang secretly cursed in his heart. If Yan Zilan really went over and kissed Lin Xiyi, then he might lose. Although Yan Zilan had a good relationship with him, letting her kiss a man in front of everyone was something very easy.

But Lin Xiyi was a beautiful woman, there was no harm in kissing her face. If Yan Zilan was not close to her, there would be people who would say that she was not a compassionate person. Furthermore, everyone understood Yan Zilan very well, and knew that she was an extremely kind and gentle woman.

The lady was obviously helping the woman, so Yan Zilan walked over, and her red lips lightly touched Lin Xiyi's cheek.

Lin Xiyi was very happy as he laughed, "Thank you, Zi Lan Immortal Fairy."

Then, she mischievously looked at Chen Xiang: "It's your turn!"

#### [Chapter 647](#)

Yan Zilan kissed Lin Xiyi's cheeks. And Chen Xiang also had to do the same thing in order to win against Lin Xiyi.

The corner of Chen Xiang's mouth twitched, he glanced at the people on stage, all of them had fierce expressions, as though if Yan Zilan just kissed him, the people would immediately rush over and beat him up.

Chen Xiang took a deep breath, and looked at Yan Zilan who had an embarrassed smile on his face, Yan Zilan's heart was thumping hard. She secretly regretted kissing Lin Xiyi, because if this happened, if Chen Xiang was going to win, he could only ask her for help.

"Zi Lan Immortal Fairy, can you kiss me?" Chen Xiang mustered up his courage and said, but at the moment, he felt countless pairs of eyes filled with killing intent staring straight at him.

Only they knew the relationship between Yan Zilan and Chen Xiang. In Yan Zilan's eyes, Chen Xiang was her kind, and he thought that they cultivated the divine way. Furthermore, Chen Xiang had helped her greatly, giving her many precious cultivation methods.

Right now, Chen Xiang needed her help urgently, and this sort of help was nothing to her. She only considered for a moment, and slowly walked towards Chen Xiang.

When they saw Yan Zilan's cherry red lips lightly tap on Chen Xiang's face, everyone felt as if they were struck by lightning. After wiping their eyes, they could not believe that Yan Zilan would kiss a man's face in front of so many people.

She found it even more hard to believe. Originally, she thought that she had won, but she did not expect Yan Zilan to so straightforwardly agree to Chen Xiang's request.

Yan Zilan did not kiss Lin Xiyi so straightforwardly just now. This was something that was difficult for people to understand, and they did not believe it was because of Chen Xiang's good looks.

Chen Xiang said while grinning: "Thank you, Sister Zi Lan."

Yan Zilan's face reddened slightly as she smiled sweetly: "If it wasn't on behalf of Yanyao, I wouldn't even be bothered, don't lose!"

After saying that, Yan Zilan took out the portion of Nine quenching body Dan s' medicinal ingredients and passed it to Chen Xiang. Everyone suddenly realized, and guessed that Du Yanyao and him were friends, that was why Chen Xiang was so close to him.

Lin Xiyi looked at Yan Zilan with a hidden bitterness, then looked at Chen Xiang. Sighing lightly, he walked out of the arena.

When Chen Xiang got the Nine quenching body Dan's medicinal ingredients, he immediately started to process the medicinal ingredients. These were perfect ingredients and he had them too, so he had a certain understanding of the medicinal ingredients, and now he was even more serious, because these were Ground level pills.

If he were to refine the Earth Grade Low Rank Dan now, it would be very difficult. But until now, he could only try his best to refine them, no matter if he failed or succeeded, because in this competition, his gains were the greatest.

When Fan Yakun and Xie Nanfeng found out that it was Chen Xiang who had obtained the set of ingredients, their expressions became even more solemn. If it was Lin Xiyi, even if they lost, they would be fine.

However, losing to Chen Xiang who had concocted pills on the way here made them lose face. To them, this was a huge blow.

There were only three people left on the stage, but Lin Xiyi and the other person from the Chaotic Mountain had not reached the end. This made many Alchemist s feel that it was a little unexpected, because the Chaotic Mountain's pill refining techniques were all very strong, far surpassing the other forces in the Sacred Dan Realm.

Chen Xiang never thought that Fan Yakun, who had always mocked himself, would actually be able to fight till the end, and he already knew that Fan Yakun was not simple. Last time, during the competition with Fan Yakun, it was only because of a problem with the pill furnace that caused Fan Yakun to lose, but now, being able to compete again made both of them feel excited.

There were three types of Nine quenching body Dan's medicine, the Lava Fruit, Yellow Jade Lotus Seed and the Vajra Spirit Ganoderma. The Lava Fruit, on the other hand, produced a kind of strange body tempering power, after fusing it with the medicinal power of the Vajra Lingzhi, it could strengthen the body, but during the body tempering process, it would also damage the body, so he needed the medicinal ingredients, the Yellow Jade Lotus Seed, to fuse the three types of medicine together and refine them into a pill.

For example, the Lava Fruit can easily damage the efficacy of the Yellow Jade Lotus Seed. However, the Diamond Ganoderma and the Lava Fruit are opposed to each other, especially when fusing with the Medicine aura. Su Meiyao explained the difficulty and main points of the refinement.

Chen Xiang remembered it all. He placed a big pile of herbs into the pill furnace and started a fire to refine it.

Under the night sky, Xie Shilong threw a white pillar into the air. It emitted a white and gentle light that illuminated the entire plaza, allowing people to clearly see what the three had done while they were refining the pills.

The furnace released waves of heat. If one were to pay close attention, they would notice that the heat was changing. Although it was very subtle, many Alchemist in the competition grounds could feel it.

When Chen Xiang started the fire and refined the pills, he used the Foreseeing Alchemy. The medicinal ingredients for the Ground level Pill were surprisingly hard to refine, the fire power would destroy the

spiritual energy in the ingredients too quickly, it was too small, the speed of burning would be slow, and the quality of the Medicine aura would also be affected. However, after being refined and corrected hundreds of times by the Foreseeing Alchemy in his mind, he finally managed to grasp the appropriate fire power.

Moreover, the firepower required for these three types of medicinal herbs was different. When he burned them, he still had to use his mana to isolate the three medicinal herbs and to burn these three main medicinal herbs separately.

Therefore, the times he needed to practice and correct would only be a short period of time. He suddenly realised that the fastest speed in the world was the speed at which his brain worked.

As time trickled by, the day was about to end. Although Chen Xiang's furnace was shaking non-stop, and beads of perspiration were rolling down his face, he did not explode.

The advantage of Foreseeing Alchemy was that it allowed people to successfully refine pills that they had never refined before, but that was only because of the fact that he had a very good grasp of the Foreseeing Alchemy, and Chen Xiang had been successful a few times already, so it could be seen that his Foreseeing Alchemy foundation was extremely solid.

Chen Xiang frowned slightly as he opened his eyes. In front of Fan Yakun was a pair of pill furnace fragments, which were still burning with flames, and a rich medicinal aroma wafted across the plaza, causing him to feel refreshed after smelling it.

Fan Yakun had actually failed, seeing his unreconciled look, everyone secretly felt pity, because they had almost succeeded.

#### [Chapter 648](#)

Fan Yakun dejectedly left the arena. Right now, he had also become a spectator. Looking at Chen Xiang and Xie Nanfeng who were in the arena, he realized that there was still a huge gap between him and Chen Xiang.

"It's already not easy for these low grade pill furnaces to be refined to the end. Nine quenching body Dan is a Earth Grade Low Rank Dan. The tyrannical power generated during the process of condensing the pill can easily destroy these low grade pill furnaces." An old man patted Fan Yakun's shoulder, and laughed: "Boy, you have done a good job. If you return it to me, I'm afraid that I will not even be able to forge a high grade profound level with this pill furnace."

Fan Yakun shook his head and laughed: "But they can do it, especially Chen Xiang, it's his first time refining this kind of pill, and he's even using this kind of broken pill furnace."

The old man stopped talking and lowered his head in thought.

To Chen Xiang, no pill furnace was important anymore, and the mana he used could easily suppress those tyrannical Medicine aura. This allowed him to walk a much smoother path of alchemy, and right now, when fighting against the tyrannical Medicine aura, he was not as thorny as Su Meiyao said he would be.

"There's only two hours before this day ends!" Yan Zilan said.

Chen Xiang was only at the middle stage. He had already completely incinerated all the medicinal ingredients, turning them into medicinal powder and Medicine aura. What he was going to do next was to fuse a variety of Medicine aura and medicinal powder together, and condense them into a pill.

"The latter stage is the most difficult, you have to be careful!" Su Meiyao said.

Chen Xiang's brows trembled, because the furnace had already exploded during his training, and that was because there was a major problem.

"It really is difficult!" Chen Xiang sweated profusely as he continuously trained in his mind, continuously discovering major mistakes. Even when he was about to correct himself, and when he corrected his mistakes just now, his mind would once again practice, allowing him to quickly discover his mistakes.

Chen Xiang's furnace shook even more, and so did Xie Nanfeng's. However, Xie Nanfeng's expression was much more relaxed than Chen Xiang's, while Chen Xiang's seemed to be on the verge of exploding.

If Chen Xiang did not place a layer of mana on the furnace walls of the furnace to create a furnace, the furnace would have probably exploded long ago. This was because when the Medicine aura fused with each other, they became extremely tyrannical, like a volcano erupting violently or a meteorite colliding.

"I'm done refining!" Xie Nanfeng suddenly shouted.

Xie Nanfeng leisurely wiped the sweat off his forehead, but suddenly the Pill Refining Furnace burst open, a gold light shot out from within, the golden mist surged out in all directions, and a golden pill the size of a peanut floated in the midst of the golden mist.

Chen Xiang frowned, because that golden mist was an extremely dense Medicine aura and medicine, but Xie Nanfeng did not use it completely. After spending so much, he felt a bit of heartache, if it was him, he could definitely condense two pills.

Many people had seen Nine quenching body Dan before, but normally only the old Alchemist could refine one. Seeing that such a young Alchemist could refine one, many old Alchemist were shocked, feeling that living this age was a waste.

With a single glance, one could tell that the glittering Nine quenching body Dan was of high quality. Many Alchemist were impressed by the fact that it was able to refine such a good Nine quenching body Dan in such a short period of time and in such a low quality pill furnace.

"If a Nine quenching body Dan can only produce one in a single furnace, with his speed being so fast, and furthermore, it's of high quality, then even if Chen Xiang could also refine a Nine quenching body Dan of the same quality, I think the final victor would still be Xie Nanfeng, because his speed is much faster than Chen Xiang's." An old man said as he stroked his beard.

After Fan Yakun heard this, he let out a bland laugh. "That's not necessarily true, everyone has witnessed the amount of pills that Chen Xiang has produced. If he could refine two Nine quenching body Dan s, then he would definitely be the winner, even if it's two pellets of inferior quality, in terms of value and alchemy skills, Chen Xiang would definitely be the victor."

Eating two quality high quality pills together was far better than one. Even if Chen Xiang was a little slower, he would still win at the same time.

"It's hard, it's his first time refining it, and Nine quenching body Dan are very strong, it's difficult to split them into two, so he can only give up a portion of them, so since ancient times, when Nine quenching body Dan came out, it's also known as the Golden Mist." The old man shook his head: "The reason why this Nine quenching body Dan is expensive is that here, giving out one pellet is extremely difficult to refine. In the Earth Grade Low Rank Dan, it is the most difficult to make, and if it is more useful, it can be given out more, and it is considered a middle Ground level pellet."

Chen Xiang's furnace was shaking violently, but now that everyone was used to it, even after shaking for so long, it did not explode, causing everyone to be disappointed.

"When I refined this Nine quenching body Dan, I could only produce one pellet, and if it was you, I think I could give you two, but you have to think carefully, because this Medicine aura has already been fused into a ball, and if you want to separate from it, the resulting explosion would be very loud, and could very likely cause you to fail." Su Meiyao said.

Chen Xiang had already merged all of the medicinal powder and Medicine aura into a ball of golden mist, and this ball of mist was very big, so he felt that it could be divided into three parts.

"Three pills!" Chen Xiang made up his mind. He released all his Fa Li and started to tear off the gentle air fog in the pill furnace. During the process, the incomparably violent Medicine aura started to surge and actually caused the furnace to jump high into the sky.

Seeing Chen Xiang's pill furnace suddenly shoot up, everyone felt that Chen Xiang was done for, but Chen Xiang remained calm, because his mana was still inside the pill furnace.

The pill furnace quickly fell down again. Just as it was about to touch the ground, it suddenly slowed down and then gently landed on the ground. The pill furnace quickly fell back down and suddenly slowed down when it was about to touch the ground.

"There's only an hour left!" Xie Nanfeng was actually a little nervous at this moment, because Chen Xiang had yet to fail and had persevered on. If Chen Xiang could refine a Nine quenching body Dan as well, even if its quality was not as good as his, he would still feel unhappy winning because this was Chen Xiang's first time refining it.

Chen Xiang's starting point was much lower than others, yet he was able to reach the final step. It could be seen that his foundation and potential was extremely huge.

The fiercely shaking pill furnace suddenly quieted down, Chen Xiang exhaled, and opened his eyes. His face was pale white, because he had exhausted too much of his mental energy, and seeing that, everyone knew that he had succeeded!

The first time he refined a Nine quenching body Dan, he successfully completed it using his Foreseeing Alchemy. This made Xu Alchemist exclaim in shock, because he believed that he was incapable of refining a Nine quenching body Dan like Chen Xiang.

Chen Xiang opened the lid and took out three black pellets, causing the entire audience to be in an uproar. Because the good Nine quenching body Dan s were gold in color, but Chen Xiang's was black;

[Chapter 649](#)

He saw the three black pills. Xie Nanfeng heaved a sigh of relief. Although Chen Xiang had failed in refining the pill, he couldn't help but admire Chen Xiang for being able to condense three pills.

"The competition is over, the victor is Xie Nanfeng, you have obtained the reward of the Holy Water of Qianyang!" Xie Shilong's hanging heart was finally relieved, his face was full of joy, because his grandson was the one who obtained the victory in this competition, and their Sacred Dan School was the one who obtained the victory in this secret bet.

Of course, even if Chen Xiang won, their Sacred Dan School would still win the secret gambling house.

Chen Xiang looked at the three pills in his hand, and just as he was about to speak, he felt a few auras approaching him. The Chaotic Mountain man made his move, and a few people suddenly jumped out from the crowd and stood behind Chen Xiang.

Seeing that, Xie Shilong and Yan Zilan anxiously walked over to Chen Xiang's side and looked at the people from Chaotic Mountain.

"What are you guys doing?" The man from the Chaotic Mountain asked coldly: "Now that the competition is over, we are going to bring Chen Xiang away. If you stop us, you will be going against the Chaotic Mountain."

"Whoever dares to obstruct us, we will destroy him no matter what!" The man roared angrily. His roiling voice reverberated in the square, causing everyone's ears to ring.

Just as Yan Zilan was about to escape with Chen Xiang, an aged voice suddenly sounded. "This old one will stop you, see what you can do to me? "If you have the guts, then kill this daddy here!"

Hearing this voice, Chen Xiang wanted to scold him, because this was Du Hai's voice. Back then, Du Hai had promised him that she would help him take care of the Chaotic Mountain.

Could it be that the voice came out,? Everyone only saw a white light suddenly shot down from the sky, and an old man with a child's face and crane hair, who looked like an immortal, suddenly appeared beside Chen Xiang. He looked at the people from Chaotic Mountain with a pair of disdainful eyes.

"He's Dan Immortal! Look at his waist!" One of them screeched. Dan Immortal was an existence at the top of Sacred Dan Realm, an existence that was as rare as phoenix feathers and qilin horns. Although he was not more powerful than the Pill Saint, the Dan Immortal was an actual existence.

A fist-like transparent pearl hung around Du Hai's waist, inside of it was a white pellet, and outside this pellet, there were two small dragons circling around.

"Roaming Dragon Pill, top grade immortal pill, and it's a Dual Dragon Protection Pill!" Su Meiyao said in shock.

Seeing that Du Hai had appeared, the people from the Chaotic Mountain were all stunned. This kind of Dan Immortal was not someone they could offend, and they had already guessed the identity of this old man, the Du Hai who had been missing for so many years.

He did not know the use of this kind of pill, but he knew that after the pill was successfully refined, a small dragon would appear outside the pill to roam about, and also undergo the heavenly tribulation. That small dragon would be able to protect this pill from being destroyed.

"This is what your Chaotic Mountain's King Mountain King gave you. Take it and take a good look. Luckily you didn't bring this kid away, otherwise, you would have been in big trouble." Du Hai threw a piece of paper over.

Because Chen Xiang had caused one of his two sons to die and one was injured, so he was unable to participate in the pill refining competition. He wished that he could tear Chen Xiang into pieces, but right now, he had received the order from the Chaotic Mountain, telling them to immediately return, and not to pursue the matter with Chen Xiang.

Although the middle-aged man was furious, he still gave in to the order in the end and shouted angrily, "Let's go!"

Chen Xiang shouted, "You want to leave? "Catch!"

The middle aged man turned his head and saw Chen Xiang taking out the Chaos fire and throwing it at him. He seemed to have realized something, but it was too late, because the Chaos fire was flying at a very fast speed, and in the blink of an eye, it had entered his body.

The middle-aged man's body was immediately set on fire. He could only hear the middle-aged man crazily howling. The screams were heart-tearing and lung-splitting. It made one's hair stand on end, and sent chills down their spines.

Seeing that, all the Rankers in Chaotic Mountain were terrified, and anxiously dodged aside, because they were worried that Chen Xiang would attack them. They did not know how Chen Xiang did it, but they guessed that it was because the Chaos fire was not ordinary and had god-like strength.

Today, Chen Xiang, a tiny Extreme realm, was able to use a Chaos fire to attack a powerful deity to such an extent. This caused many people to be shocked by this kind of power.

The silver flames vanished from the middle-aged man's body. The middle-aged man was still standing there, as if he was a statue, his face filled with pain. His arms were wrapped around his body, and his expression was frozen; it was eerie to the point of making one's hair stand on end.

A gust of wind blew past, and the middle-aged man turned into a cloud of white powder that scattered with the wind, but the spectators couldn't help but shiver. Especially the people from the Chaotic Mountain, they only had fear in their hearts and immediately left as fast as they could.

"Brat, your attacks are too ruthless!" Du Hai tugged at Chen Xiang's hair, then saw the three black pellets on the center of Chen Xiang's palm. You refined it pretty well, I didn't expect you to have such high talent for alchemy, and even managed to refine three pellets at once. Even when I refined it tens of thousands of times, I only produced one or two pellets of the highest quality Nine quenching body Dan.

"

Hearing Du Hai's words, Xie Shilong was stunned, Xie Nanfeng also had a face full of shock, they had never heard of high quality Nine quenching body Dan.

Yan Zilan was also very surprised, she never thought that Chen Xiang would actually know a strange old man like Du Hai, their relationship was very good, she could tell that this was not because of Du Yanyao.

Du Hai was a Dan Immortal, an influential figure in the Sacred Dan Realm. Even Xie Shilong, the Leader s, had to respect him somewhat.

Chen Xiang shrugged his shoulders, and self-deprecatingly said: "But in the eyes of others, this is a trash pill, not even comparable to that golden Nine quenching body Dan!"

"Bullshit, they haven't touched it yet!" Du Hai looked at Xie Shilong, then looked at Xie Nanfeng, and quickly understood what was going on.

"Old Man Xie, you still have such bad eyes. Take a good look and see if your grandson has refined it well!" Du Hai took one from Chen Xiang and threw it to Xie Shilong, then continued: "This is the Peak quality among the Nine quenching body Dan. If my teacher hadn't mentioned it, I wouldn't have known about this either.

After Xie Shilong caught it, he took a whiff of it, and his body shivered, his face flushed red, because the quality was indeed good, and he actually made a mistake in front of so many people.

Xie Nanfeng naturally did not dare to say anything, as that was what the Dan Immortal had appraised. Even if the relationship between Du Hai and Chen Xiang was good, they would not carelessly appraise and favor Chen Xiang in front of so many people.

"That's right, the quality is indeed good, I was careless, the final victory should be Chen Xiang's!" Xie Shilong received the Dry Sun Holy Water from Xie Nanfeng and passed it to him. Xie Shilong even apologized to him.

Du Hai patted Chen Xiang's shoulder, and laughed: "Kid, how many times did you cultivate before you succeeded?"

Chen Xiang scratched his head: "This is my first time refining a Nine quenching body Dan, do you believe me?"

Du Hai was shocked, he looked at Chen Xiang, and thinking of Chen Xiang's background, he nodded: "I believe you!"

## [Chapter 650](#)

The pill refining competition ended. The Sacred Dan Meeting that happened once every hundred years had also finished, so Chen Xiang and Du Hai were now secretly chatting with each other inside the City Lord's Mansion.

"Why did you get settled so late? I was almost killed by the people from Chaotic Mountain! If I knew earlier, I wouldn't have believed you had the guts to come and join this Sacred Dan Meeting!" Chen Xiang complained, it was this Du Hai who gave him the guarantee, that was why he came.

Du Hai laughed and scolded: "You little brat, acting good after getting lucky, do you know how much pressure those old fellows in Chaotic Mountain will feel after you get recognized by the Chaos fire? And now you even used this Chaos fire to kill a fellow with decent strength. "

Chen Xiang curled his lips: "These guys asked for it, don't blame me!"

Du Hai stroked his beard, and laughed: "Although this boy gives the people of Chaotic Mountain a great sense of danger, they will still let you off after seeing the martial arts you gave them. However, you still have to keep a low profile."

"Could it be that not a single person in Chaotic Mountain is afraid of this Chaos fire?" Chen Xiang thoughtfully asked. If it was really like that, he would not be afraid of Bird Chaotic Mountain in the future.

Seeing that Chen Xiang was thinking about something, Du Hai hit him on his head fiercely and said: "Be more honest, that Chaotic Mountain is not a joke. I guarantee that even if you have my strength now and are able to enter with a Chaos fire, if you are able to exit, you will definitely be thrown out by them."

"That Chaos fire indeed brought them quite a bit of pressure, but it does not mean that they have no way of dealing with it. Don't think that this Sacred Dan Realm is too simple, the Sacred Dan Realm that you are seeing right now is just the tip of the iceberg."

Chen Xiang rubbed his head that was hurting, and muttered a few words.

"You are my grandson-in-law after all, so of course I have to watch over you a little. Hehe, I didn't think that you would actually be able to grab hold of this girl, Yanyao." Du Hai had just received the news too, he did not care if Chen Xiang and Du Yanyao were real or fake, in short, he had his eyes on Chen Xiang, as long as Chen Xiang was in Sacred Dan Realm, he would admit to it.

Chen Xiang's apothecary talent surprised Du Hai. It was enough for Du Hai to be proud of his achievements in the Sacred Dan Realm, but back then, he wasn't even as heaven-defying as Chen Xiang. Now that Chen Xiang had gotten along well with his proud granddaughter, he was obviously happy.

"Father, someone from the Chaotic Mountain requests an audience!" Du Kangsheng seemed to be extremely careful in front of Du Hai, as he was worried that he would anger Du Hai to such an extent. Only now did he realise just how formidable Chen Xiang was, to think that he could actually get along so well with his temperamental father.

Du Hai frowned, "Could it be that the fellow from the Chaotic Mountain is still here for your sake? Back then, they had promised me that they would temporarily not pursue the matter of you taking away the Chaos fire and killing Guo Huaqing. "

Chen Xiang asked: Do not pursue the matter for now? So when are they going to start? "

"Don't worry about this. They are currently engrossed in training their Demon Suppressing Technique. If it wasn't for that, I would have come looking for you when they were in a hurry to deal with the demon ..." "Cough, cough, at that time, I even discussed martial arts with them for a few days and nights."

"Let's go and see what the people from the Chaotic Mountain have come to find me for!"

After walking out of the secret room, he went into the City Lord's Mansion's hall. There were six or seven people sitting in the hall, among them were the experts who had besieged Chen Xiang previously, and also two new faces.

"If you have something to say, just say it!" The moment Du Hai arrived at this place, he did not bother to be polite and spoke straightforwardly.

An old man with wrinkles all over his face stood up and said, "We already know why the higher-ups told us not to pursue this matter. This deal can indeed be let go of the higher-ups."

When Chen Xiang saw these seven Chaotic Mountains, he knew that they were not weak. However, from their words, they had to listen to other people's orders, and now he knew why Du Hai did not underestimate the seven Chaotic Mountains. Indeed, what he saw was just the tip of the iceberg.

"If you have something to say, just say it!" Du Hai said.

The old man looked at Chen Xiang. That pair of deep old eyes were like an unfathomably deep ocean, causing Chen Xiang to feel a chill in his heart.

"Chen Xiang, you have two Chaos fire in your hands. This Chaos fire has no other uses other than being able to deal with our Primal Chaos tribe. It's useless for you to keep it, so please return it to us!" The old man's tone was extremely unyielding, which made Chen Xiang extremely disgusted.

Chen Xiang sneered: "I didn't even think about it!"

However, according to the ancient records of our Imperial Dragon Race, the people of this Primal Chaos clan are all very strong. I don't know about the specifics, but looking at the fear they have towards the Chaos fire, they should have been sent here from the Primal Chaos Realm, or perhaps escaped from here. "

The old man was a little angry. Chen Xiang actually rejected him so stubbornly.

"Then what do you want the Chaos fire for?" the old man asked.

"Nothing. I only feel that this will allow me to keep my life, so I must keep it." Chen Xiang said: "I can let this Chaos fire recognize me as its master, I cannot use its power right now, but maybe in the future."

The old man's expression became gloomy: "Looks like you definitely know some of the Chaos fire's secrets, but from what I know, with seven Chaos fire, only two of them are completely useless to you."

"That's none of your business." Chen Xiang's heart trembled as he said this calmly. He thought that the people of Chaotic Mountain did not know the heaven-shaking secret of the Chaos fire.

It was obvious that no one would recognize him as master. "I have two Chaos fire in my possession, I know that if you recognize me as their master, you might be able to obtain benefits from that big secret, but as long as I destroy these two, you can forget about me for the rest of your life."

Chen Xiang's heart moved. Looking at the wrinkled old man, he suddenly felt that this old man's identity was definitely not ordinary. Otherwise, he would not have possessed two Chaos fire.

"What benefits do you have from having a Chaos fire?" Chen Xiang had also taken out his Chaos fire, causing fear to instantly appear on the faces of those from the Chaotic Mountain.

"As long as I have enough Chaos fire, I will be the master of the Chaotic Mountain. I can promise you that if you don't pursue the matter regarding the past, I will give you a lot of benefits." The old man's voice was full of excitement, and his eyes burned with a wild fire.

Chen Xiang held a piece of Chaos fire that did not recognize its master, and forced a drop of blood from his finger, and merged with the Chaos fire.

After the Chaos fire absorbed Chen Xiang's blood, it immediately shot out a burst of silvery-white light that filled the entire hall. This was the protective divine light that was released when the Chaos fire recognized it as its master.

Right now, Chen Xiang's hand swept out like lightning, and a huge cyan colored monster appeared with a flash, hacking into the old man's arm, chopping off the arm that was holding the two Chaos fire s tightly.

Chen Xiang picked up the arm and quickly left the hall. He transformed into a small worm and flew away from the City Lord's Mansion.
