

Dan God 651

[Chapter 651](#)

Chen Xiang used his full strength. In the shortest amount of time, he had left the City Lord's Mansion, and at this time, he was already close to the city gate. It was also at this time that he heard an earth-shattering roar coming from the direction of the City Lord's Mansion, it was from that old man.

No one would have thought that Chen Xiang would actually take action and snatch it, even Du Hai was stunned. He scolded in his heart, because he had long ago warned Chen Xiang to keep a low profile and not provoke the Chaotic Mountain again, but who would have known that in his heart, he would steal away two Chaos fire s from them right under his nose?

This was also the first time Du Hai had encountered this kind of thing. Forget about Chen Xiang, this kind of fellow with an ant's strength, even with his strength, he would not dare to do this. Yet, Chen Xiang had done it, and even managed to retreat safely.

"What an idiot, he's holding such a precious thing in front of my eyes. Serves him right!" Chen Xiang flew out of the Sacred Dan City, and continued to fly, he did not dare to change his form, afraid that the old man would sense his presence.

From the ambition the old man had just shown, there were clearly powers in Chaotic Mountain, the old man was unsatisfied with the person in charge, if he succeeded, he would naturally not care about the trade between Du Hai and the people in charge, and would come looking for him sooner or later.

Chen Xiang was not an idiot. He had let one of the sons of the traitors die, while the other was injured. He did not believe it, which was why he took action so decisively and snatched away the two Chaos fire s.

In this way, without the Chaos fire, the old man's prestige in the Chaotic Mountain would drop greatly, and he would not be able to easily usurp power and usurp the throne.

In the Immortal-poisoning Devil Forest, only after arriving here did he turn back into his human form. Only here did he feel safe, the Sacred Dan Meeting had already ended, and he had gotten what he wanted. He only needed to hide here for a while, and then go back to buy a batch of Ground level pills from Yan Zilan early, before returning to the Mortal Martial Realm.

It was because he did not plan to stay in Sacred Dan Realm that he did not have any qualms, and this also made him cry out loudly.

"This old guy is really grabbing to death!" Chen Xiang took out a broken arm, pulled off the two Chaos fire s from the old claws that were as thin as steel, and chuckled.

After playing with it for a while, Chen Xiang set fire to the broken arm and mumbled: "Now there are still three Chaos fire s left, which should be in Chaotic Mountain's hands. It seems like there's no way to take them."

Chen Xiang now had the pellets, the Dry Sun Holy Water, and the Dragon Pearl. What he needed to do was to quickly raise his strength and step into the peak of the Hundred refining realm as soon as possible so that he could deal with the incoming Great War between Three Realms.

However, after a few days, the entire first level of Sacred Dan Realm was covered in portraits of Chen Xiang, and there were even billions of bounty of money.

Chen Xiang had long gotten used to this kind of thing when he was at Mortal Martial Realm, and this made the name Chen Xiang extremely popular throughout the entire Sacred Dan Realm.

... ..

In the region of the eighteenth floor in Sacred Dan Realm, the huge mansion of the Du Family was located on the top of a huge mountain. A dense immortal aura surrounded it and the mansion was filled with noise, as if it was a small city.

"Grandfather!" The moment Du Yanyao saw Du Hai, she threw herself into Du Hai's embrace like a little girl. It had been many years since she had seen Du Hai, and although she knew that her grandfather was very strong, she was still extremely worried.

From what Chen Xiang was doing now, it could be seen that he had completely angered the Chaotic Mountain. Since she was young, she had heard quite a few things about the Chaotic Mountain, and Chen Xiang was currently opposing this enormous monster.

"Grandfather, can you help him?" Du Yanyao pleaded.

Du Hai lovingly caressed Du Yanyao's head and laughed: "Don't be afraid of that brat. Don't look at how he is, he's even craftier than an old cunning fox.

"Little girl, I got to know this kid back at Immortal-poisoning Devil Forest. If it wasn't for him, I wouldn't even know when I would be able to return." Du Hai laughed: "Your Fire Soul has evolved, the flames have increased by a lot, it's time to attack the Nirvana Realm. I, your grandfather, will do everything I can to help you, cultivate in peace!"

Du Yanyao nodded. She knew that Chen Xiang was the one who told her to return so quickly, and she knew that the relationship between Chen Xiang and herself was very good. This made her feel a lot more at ease.

"Damn it, have we reached a bottleneck?" Chen Xiang frowned. He had tried many times to circulate his Taiji Dragon-suppressed kungfu and other mystical techniques but to no avail. He was unable to compress the Innate Qi into the Zhenyuan granule.

Although he had Long Xueyi to imbue a large amount of Dragon Power, it was useless for him to be unable to compress the Dragon Power into the Zhenyuan granule.

"You are currently at the Soul Martial Realm, and your Congenital kungfu soul has not reached its limit yet, so you are obviously unable to advance any further. It seems like you have to first push your Congenital kungfu soul to its peak, and that will require your own effort." Su Meiyao said.

Chen Xiang knew that he had cultivated too fast, so he had to slow down and start concocting the pills, he had to master the high grade profound level and Nine quenching body Dan s that he had refined during the competition.

In the blink of an eye, Chen Xiang had stayed in the Immortal-poisoning Devil Forest for over a month, he was already familiar with refining Small shaping Dan, Dinghun Dan and Nine quenching body Dan.

He had only made ten batches of Nine quenching body Dan, but he had failed by only producing three pills each time. Right now, he had almost thirty of these Nine quenching body Dan, but he needed to ingest a lot of these pills to be able to replicate. As long as it was above Ground level, that was the case, so Chen Xiang had to condense even more creation divine liquid in order to be able to create even more high levelled herbs.

Of course, he would not forget to refine the Profound Beast Pill for Long Xueyi.

The difficulty of refining this Mysterious Beast Pill was much lower than that of the Nine quenching body Dan, he had only failed for three batches before succeeding.

"A pot of five pills isn't too little!" Chen Xiang said with a smile, but Long Xueyi had already started to eat. At the same time, he was praising the taste of the Profound Beast Pill, and at the same time, gave her a lot of energy.

"It's time to go out for a stroll!" Chen Xiang tried again, but still failed to think of a way to break through the bottleneck, and could only go out and relax.

After disguising himself, he went to the Sacred Dan City, but the City Lord here had already changed. Chen Xiang did not look for them, when he saw that the city was covered with his portraits, he could only shake his head and smile.

He wanted to look for Yan Zilan, but he couldn't find her. Yan Zilan had previously said that after the Sacred Dan Meeting was done, she would rest for a while.

"I'm really stupid, why didn't you let Yan Zilan leave a contact method for me?" Chen Xiang had also wanted to give it to him, but after he stole someone else's thing, it had disappeared, and Yan Zilan couldn't find him at all.

As Chen Xiang was walking on the main street, he suddenly saw a group of people running frantically towards the city gate. From their attire, he knew that they were City Lord's Mansion's city guards.

"Sigh, the fissure that sealed the Demon World's entrance is now in the Demon World again!" An old man sighed helplessly.

[Chapter 652](#)

He was getting closer and closer to the Great War between Three Realms. Therefore, there would be more and more spatial rifts, and most people in these worlds would not let these demons come in through these rifts, so they had to seal these rifts and let the demons hit them at the biggest entrance. When that time came, they would guard there and wait for the demons to come in and massacre them.

Chen Xiang had heard that because there were many worlds that did not seal those cracks, when Great War between Three Realms first started, they were filled with demons. There was no way to gather all of them together and deal with them.

"The eighteen floors of the Sacred Dan Realm have probably been invaded by the Evil Demon. Didn't they say that there's still some time before the Great War between Three Realms begins?" An old woman said worriedly. No one wanted a war, because there would be no one left alive.

"It's not that serious. It's just that a small number of them came over. However, what's coming has to come sooner or later."

There were thousands of city guards, all of them were of decent strength, all of them were at the ninth level of True Martial Realm, in this first level region which was like the Mortal Realm, it could already be considered not bad.

"The 18th level is where the strong are as common as the clouds. I really want to go there and take a look!" Chen Xiang looked into the distance. The Sacred Dan Realm was like a flight of stairs, divided into eighteen floors. The highest level area was where the wealthiest and most powerful people resided, as well as the locations of the famous forces in the Sacred Dan Realm.

"There are probably a lot of people from the Nirvana Stage there. If you walk on the streets and find out that the people around you are all from the Nirvana Stage, are you afraid?" Su Meiyao laughed.

Chen Xiang shook his head: "Looks like I should just go to the lower levels to take a look."

He actually wanted to go to the Du Family to take a look, but Du Yanyao had said before that on the eighteenth floor, if he were to go by himself, he would have to travel through mountains and rivers, and pass through layers and layers of danger in order to reach there. Under normal circumstances, it would be impossible to go from the first floor to the eighteenth floor without being led by strong people.

Now Chen Xiang understood why, because the closer he got to the second floor, the more he felt a strange power pressing down on him, causing his movements to slow down.

"The space here is very sturdy and has a strange gravity. It seems that if you were to continue flying, you would probably fall." Long Xueyi said.

Chen Xiang had originally planned to use the Luotian Gate s to jump in space, but who knew that he would use most of his energy to open the spatial door.

If not for his transformation technique, he would have already been caught by a few of the demon beasts in the forest.

"If I had the ability, I would definitely take out their beast cores!" Chen Xiang's journey there could be said to be filled with danger. All the demon beasts he met were all extremely powerful;

After going deeper into the Sacred Dan Realm, only then did Chen Xiang realize that, other than the cities that had people gathering, there were a large number of demon beasts in many mountain forests. Their strengths were different, but the places that those cities occupied seemed very small compared to the mountain forests.

He was now very convinced that Du Hai had told him before that the Sacred Dan Realm he saw was only the tip of the iceberg. He guessed that there might be more powerful transformational immortal beast than humans, right? It's just that they usually don't interact with humans, so no one knew about it.

Finally, he arrived at the tenth floor, where a city dweller lived. He had also heard Du Yanyao mention that most of the people on the tenth floor were at the peak of the Hundred refining realm.

Not only was the celestial spiritual energy here rich, there was also a huge pressure that allowed people to cultivate and strengthen their fleshly bodies.

In this city, his portrait was everywhere, and as long as they could capture him alive, they would be able to receive five billion Spar. In the eyes of many Hundred refining realm, this was an extremely huge amount of wealth.

Other than being able to purchase pills and some cultivation resources, Spar s could also create arrays, because non-Nirvana Stage warriors would need to use an array formation to convert their immortal energy into a type of energy that they could absorb. If there were more Spar s, the duration of the array formation would be longer, and the array formation would be better.

Chen Xiang ate in a hotel and ordered several dishes made from demonic beast meat. Not only could he enjoy delicious food, he could also replenish his energy.

Just then, a waiter suddenly rushed in and shouted: "The latest news is about the Chaotic Mountain!"

Seeing the waiter stop to speak, a few generous people immediately threw him a few Spar and let him continue.

The always mysterious Chaotic Mountain had been walking around outside very frequently recently, so everyone suspected that the Chaotic Mountain might be the main force to fight against the demons in the future.

Chaotic Mountain is on the 18th floor releasing a message, saying that they will be hosting a huge conference, and are anxious for the various powers in Sacred Dan City to join forces to discuss on how to fight Demon and Devil Realms. It seems that Chaotic Mountain is going to be the leader of the group. The waiter said.

"Right now, the Sacred Dan Realm is also a piece of loose sand. If all the major powers are unable to unite, then of course, they would need a strong force to organize them and lead them together. Only then would they be able to deal with those demons better." One of them said.

"The news released by the Chaotic Mountain also said that they will take out three Chaos fire and choose three people who can give out orders. They will give these three Chaos fire to these three."

The words of the waiter made Chen Xiang's heart move. There were only three pieces of the Chaos fire in the hands of the people from the Chaotic Mountain, and they were only trash in their hands.

However, Chen Xiang could, and he wanted to participate in the huge meeting, but he had to go to the 18th floor first.

"When will the Chaotic Mountain hold that convention?" Chen Xiang asked.

"Three months later!"

Chen Xiang secretly thought that he had to have enough power to go to the eighteenth floor, otherwise it would be difficult for him to find Yan Zilan.

"I should also go back. I wonder how is Mortal Martial Realm doing? How much time has passed? " Although Chen Xiang had not left the Mortal Martial Realm for long, he still missed them a little. However, he did not finish the last thing, which was to purchase a batch of Ground level Pills.

"Three months, I want to step into the Hundred refining realm!" After making up his mind, Chen Xiang ate all the dishes on the table and bought a quiet house in the city.

Right at this moment, many people wearing armor were quickly walking toward his residence from all directions.

After Long Xueyi found out, she immediately told him.

"My whereabouts have been discovered? "That's impossible!" Chen Xiang anxiously walked out from underground.

Then he saw that the armored men had also jumped in from the surrounding walls with black sabers in their hands, surrounding him in the middle.

[Chapter 653](#)

There were more than twenty people surrounding Chen Xiang. Looking at their attire, Chen Xiang knew they were from the City Lord's Mansion. He just did not expect the eyes of the guards at the city gate to be so vicious, to actually be able to see through his disguise, which was why he had secretly followed him, and took the chance to break through when he was not looking.

"Did your City Lord send you here? For a City Lord to use the power of a City Lord's Mansion to seek for his own personal gains, you should at least agree on a share with that City Lord. " Chen Xiang sneered, the city guards would normally not do such a thing, after all, he was not the criminal of the city.

"None of your business. Just surrender!" An old man said.

"This old fellow belongs to the Nirvana Stage, he should have just passed through the Nirvana Doom!" Long Xueyi warned her.

Nirvana Stage's! Chen Xiang's face became gloomy, and in his hand, a light blue ball suddenly appeared.

"Seems like you want to resist, give it to me..."

Just as the old guard spoke out, the light blue pill in Chen Xiang's hand was ejected out and shot into the old guard's mouth. Only a thunderous boom was heard, and the old guard's mouth was burst open, covered in blood, making him look extremely bloody.

This was the first time Chen Xiang had used something like a Heavenly Thunder Pill to bomb someone. A Heavenly Thunder Pill was an extremely terrifying offensive medicine, refined using medicinal ingredients combined with a large amount of lightning attribute Innate Qi s, it could increase its power along with the lightning attribute Innate Qi s that the refiner poured in.

Chen Xiang's Heavenly Thunder Pill was refined from using a large amount of lightning attribute Innate Qi. When it entered a person's mouth, it would have a terrifying killing power.

This was not the end, after Chen Xiang threw a Heavenly Thunder Pill, he waved his hand, and transparent powder floated around him. This type of powder was the God-eclipse powder that would cause anyone in Heaven Realm to tremble just by listening to it.

The powder was like air, enveloping the twenty city guards. In an instant, the muscles on their faces started to melt and rot, being slowly devoured by the God-eclipse powder, followed by their armor.

As for the old guard from Nirvana Stage, because of the injuries on his mouth, the God-eclipse powder s were able to quickly spread from his wounds into his weak body. In a few short moments, these people were all shockingly corroded by the God-eclipse powder, and their screams never stopped.

After a short moment, their screams had stopped, and a huge crater had appeared on the ground. Even the soil had been corroded, and those people had long since melted into nothingness.

This was the first time Chen Xiang saw someone being melted by a God-eclipse powder, but he could tell that his God-eclipse powder was still lacking a lot when it came to dealing with Nirvana Stage, because the old guard from Nirvana Stage was the last one to melt. If not for his wounds, it would not have been so easy.

Previously, the Broken Soul Tree's tree sap had soaked his body, so these God-eclipse powder were useless against him. Not even his clothes could corrode, because Chen Xiang's Innate Qi could also prevent the God-eclipse powder from corroding.

If you were to be discovered, the consequences would be very serious. At that time, it will not be as simple as Chaotic Mountain wanting you dead, the entire power of Sacred Dan Realm will be eliminated by you at all costs! " Bai Youyou said sternly.

After Chen Xiang cleaned up all the clues left behind by the God-eclipse powder, he messed up the place and set fire to the house. After changing his appearance again, he walked towards the City Lord's Mansion.

"You want to capture me to exchange for the bounty?" I want to let these guys know what the consequences will be! " Chen Xiang walked towards the City Lord's Mansion with a strong killing intent. The person who could make this group of city guards move was definitely the City Lord of this city.

"I've found it. This fellow is currently discussing how to receive your reward with a group of black-armored people!" Long Xueyi said, then gave Chen Xiang an accurate position, "The strongest should be that City Lord, the peak of the Hundred refining realm!"

Chen Xiang came to the wall next to the City Lord.

"This bunch of bastards, go to hell!" Chen Xiang sneered, and chanted an incantation.

Of course, Chen Xiang did not plan to face those people face-to-face, so he chose to use his sacred art outside, the Heavenly dragon seal!

As he released his mana, he formed a hand sign and chanted an incantation. The clouds in the sky suddenly surged and quickly gathered above City Lord's Mansion.

The stronger Chen Xiang's mana was, the faster he could gather energy when using this technique, and now that he was gathering dense immortal qi, the power would be even stronger and the speed would be faster, and the Heavenly dragon seal technique could only be used when using immortal power.

The people gathered in City Lord's Mansion looked up at the abnormal sign in the sky. They did not know what it was, although they felt a sense of danger, but they were still standing on guard, waiting for the huge immortal Qi vortex in the sky. "These idiots!"

secretly laughed in his heart, and then shouted in a low voice, only to see that a red light suddenly exploded in the sky. Upon closer inspection, it was actually a large expanse of flames, and a sea of fire was ignited in the sky.

"Wrath of the Fire Dragon!"

In the middle of the huge whirlpool of burning flames, a gigantic dragon head suddenly appeared. With a furious roar, the colossal dragon, whose entire body was burning with flames, plunged its head into the ground.

In that moment, all the people in the City Lord's Mansion were hit by the furious dragon and all of them fled from the City Lord's Mansion. The fire quickly spread and enveloped the entire City Lord's Mansion, turning the City Lord and the city guards who were hit by the dragon into ashes.

The huge City Lord was burnt for three days and three nights, which attracted the attention of the upper echelons of the various forces, because they found out that this City Lord had sent people to capture Chen Xiang before!

This matter quickly caused a huge uproar in the Sacred Dan Realm. Regarding the events that happened that day, many people had personally witnessed it.

Chen Xiang was already in a wasteland far away from the city.

"The immortal energy here is rather poor, so there shouldn't be anyone coming here. Let's take a look at how big that immortal estate is!" A ring suddenly appeared on Chen Xiang's finger. With a wave of his hand, the ring flew out and turned into a ray of light as it landed on the ground.

The Immortal palace flew very far, after landing on the ground, it suddenly shone with a white light. After the white light disappeared, Chen Xiang saw a gigantic palace that looked like it was carved out of white jade, it looked very majestic, it was the most imposing palace Chen Xiang had ever seen.

Seeing these four words, Chen Xiang was immediately overjoyed. However, when he took a closer look, this manor was not made of jade dragon bone.

[Chapter 654](#)

At the door. After entering, he saw a square in front of him. Passing through the square to the backyard, he saw many immortal fields that were filled with immortal energy, although there were nothing planted on them, a white mist was floating in the soil.

There were a lot of houses here: gardens, lakes, flowers, trees ... There were many of them, just like a palace.

What shocked Chen Xiang the most was that after he entered, he could feel that a few formations had appeared in his mind. These formations were extremely profound, and all of them were powerful immortal formations that required a large amount of energy to activate.

"I can finally go out for a stroll!" Chen Xiang's arm flashed, and a cute girl dressed in white appeared, floating down from the sky, watching with a dumbstruck expression.

"Little Naughty Dragon, when did you grow up?" The last time he met Long Xueyi, she was only a little girl around ten years old, but now, she looked to be thirteen or fourteen years old. What was most shocking was that her full and upright chest, was completely different from her outer appearance.

Chen Xiang only described this little dragon girl as a child's voice.

"You mean where did he grow up?" Long Xueyi laughed, raising her chest, then chuckled: "Now you know that I'm not young anymore!"

Su Meiyao and Bai Youyou also came out from the storage ring at this time, because this immortal estate was protected by a huge array, it was absolutely safe inside, so they didn't need to worry.

Looking at the lady dressed in the same noble purple dress, Chen Xiang's eyes grew a little dazed. Although he had chosen to wear these clothes himself, seeing them with his own eyes, Chen Xiang still felt astonished.

"It's really big. I don't need to hide in that little mansion anymore. Aiya, there's even a hot spring!" The moment Su Meiyao came out, he started walking around the enormous immortal estate with light footsteps. From time to time, he would hear her exclamations, and Bai Youyou would also be walking around everywhere to see if they could find a place to live for a long time in the future.

The two girls were very satisfied with this immortal estate. Bai Youyou also revealed a rare smile on his face, making Chen Xiang's heart itch.

"Little Scoundrel, you're really something!" Su Meiyao smiled as he floated in front of Chen Xiang and kissed his lips. When Chen Xiang wanted to hug her and give her a good kiss, she instead smiled and moved away.

"Give this ring back to me, I will take out the things inside. In the future, this Jade Dragon Immortal Palace will be renamed as the Youyao Yugong and it will belong to me and senior sister!" Su Meiyao chuckled, holding Bai Youyou's arm and dancing with joy.

Chen Xiang curled his lips. Then, he threw over the ring that Su Meiyao had given him previously, but he was actually very happy in his heart. The Jade Palace was a spoiled child, and it was even two great beauties.

He walked out of the Youyao Yugong and with a thought, the jade palace suddenly disappeared and returned to his finger.

"Little Naughty Dragon, where are you?" Chen Xiang looked at his left shoulder. The white dragon tattoo was still there, but he felt that something was missing. Furthermore, he did not see Long Xueyi returning to his arm just now.

Long Xueyi laughed heartily: "I'm inside the Youyao Yugong, I'm bathing in the hot spring with my two big sisters, do you want to come in?"

"What?" I want to join in the hot spring as well! " Chen Xiang said while grinding his teeth. Just as he was about to release the Youyao Yugong, he thought about the scene of the three women soaking in the hot spring without any blood, and his lower abdomen became extremely hot.

"Don't disturb me!" Hearing Bai Youyou's bone-chilling words, the fire in Chen Xiang's lower abdomen was immediately extinguished.

Long Xueyi and Su Meiyao immediately giggled. What was even worse was that this little dragon, Long Xueyi, was actually capable of saying many words that would make people think about them.

"Ah ..." "Sister You You You's Mimi is so cold. It feels really comfortable to touch, but not as big as mine ..."

"Little girl, I'll pinch you to death for you to grow so big ..." Su Meiyao giggled.

Chen Xiang clenched his fist: "You guys are so noisy, you big chested brainless woman, don't think that you can provoke me just like that, it's useless!"

"Little Scoundrel, don't worry. I won't pinch that white rabbit of theirs. If I pinch her, I'll pinch her for you from now on!" Long Xueyi's voice was filled with incomparable charm, causing Chen Xiang's mind to become tranquil and calm. He almost wanted to ruthlessly teach this little girl a lesson, and actually tease him again and again.

"Hmph, your Little Naughty Dragon Mimi is definitely fake. You created it yourself with the Seventy-two changes." Chen Xiang said in disdain.

Long Xueyi said in a pitiful voice: "sister Meiyao and Sister You You You can bear witness. They are squeezing me very comfortably now, so don't talk about me like that.

When he thought of the three women in the hot spring, playing and rubbing each other's chests, his blood started to boil once more.

"Little Scoundrel, my soul is still on your arm. If you need my help, I can lend you my strength at any time." Long Xueyi laughed.

Previously, due to the ring, Long Xueyi was unable to enter, but now, this ring was of the highest level, so Long Xueyi could act like Su Meiyao and Bai Youyou, and move inside the Youyao Yugong.

Chen Xiang found a place where there were very few beasts and carved out a cave. After setting up a formation, he started to cultivate inside.

If he wanted to break through his current bottleneck, he would have to first cultivate the Congenital kungfu soul to its limit and let the Congenital kungfu soul awaken for him to use. Only at that time would he be able to step past the Soul Martial Realm and enter the Hundred refining realm.

His Congenital kungfu soul was from the Fire Dragon kungfu soul, so he did not know how to make this Martial Spirit strong, because whether it was his spirit, body, or Innate Qi, he could not continue to improve, and had already reached a saturated state.

Long Xueyi still could not understand why Chen Xiang would have a Fire Dragon kungfu soul. It was because from what Chen Xiang had described, that was the strongest Fire God Dragon Soul in the Imperial Dragon Race.

What Chen Xiang needed to do now was to communicate with the Fire God Dragon Soul and obtain a way to strengthen this Martial Spirit.

"Even if it's my Imperial Dragon Race's Fire Dragon, it's still very difficult to have a Fire God Dragon Soul. But if it's possessed, it means that this dragon can become a Divine Dragon in the future, which means that I have a Divine Dragon Soul with great difficulty. You're not a dragon, so it's reasonable that you don't have one." When Long Xueyi talked about this issue, he was very puzzled.

Chen Xiang himself didn't have such a thin dragon's blood like Leng Youlan. He had obtained the dragon's blood after fusing with the Devil-suppressing blood, but that was after he obtained the martial spirit.

"Could it be because you cultivate the Nine-turn dragon god mantra that you have it?" Long Xueyi suddenly said: "A human who has never cultivated Nine-turn dragon god mantra before, it's very possible that it's like this!"

[Chapter 655](#)

The power of the Nine-turn dragon god mantra. Chen Xiang couldn't understand it now either, because he hadn't reached that level yet. Long Xueyi had mentioned it many times, that this was a noble cultivation method within the Imperial Dragon Race, and that some dragons that possessed the Imperial Dragon Bloodline didn't have the qualifications to cultivate.

"Your Fire Soul was originally very strong. With this Fire Soul as the foundation and your cultivation of the Nine-turn dragon god mantra, there is a high chance that the fire divine dragon martial spirit will be born from the fusion of the Earthly fire soul and the Tianyang fire soul." Long Xueyi continued, "Under normal circumstances, only the Fire Dragon God who has a great flame potential would be able to produce a Fire Dragon God Soul!"

While talking, Long Xueyi suddenly appeared in front of Chen Xiang. Looking at the cute girl dressed in white, with a huge chest, Chen Xiang sniffed and said: "Little Naughty Dragon, why are you so big? It's all because of the pills I gave you."

Long Xueyi scoffed, "This is all because I can eat it, stop looking at it, what's so nice about being separated by clothes?"

Chen Xiang curled his lips and said: "I'm just worried that you won't be able to support me if it's too heavy, do you want me to help you support yourself?"

"Bah!" Long Xueyi let out a lovable snort, and slowly stretched out her jade-like little hand. A burst of white light seeped out of it, and she placed her hand on Chen Xiang's forehead, then closed her eyes.

Chen Xiang was sitting on the ground, but Long Xueyi was standing. The large jade rabbit that was about to be revealed was right in front of him, causing him to feel extremely hot from watching it.

"You see anything?" Chen Xiang asked.

"No, but have you seen enough?" Although this Long Xueyi looked like a girl, her age was not young. In short, in Chen Xiang's eyes, she was a very mischievous little perverted dragon girl.

"What's so good about the clothes?" Chen Xiang curled his lips and said. Long Xueyi withdrew his hand, then said doubtfully: "I actually can't sense your Fire Dragon kungfu soul. No wonder you can't sense it yourself."

The Martial Spirit had fused into every part of Chen Xiang's body, tightly connecting him and his soul, and he also had Fire Soul and Thunder soul in his body. He suspected that it was caused by the complicated situation within his body.

"Your martial spirit is very weak, it's very likely that it's scared by your Fire Soul and other things to the point that it doesn't dare to come out. Try to retract your Fire Soul's aura, it might be afraid of this." Long Xueyi said.

Chen Xiang nodded and closed his eyes. He quickly entered the Obscure Realm, making himself seem as if he had fallen into a vast expanse of white space while he himself floated within, and this was his sea of consciousness. He was currently using the power of his divine soul to sense every part of his body, to search for the Fire Dragon kungfu soul.

After an unknown amount of time, Chen Xiang suddenly heard a very weak cry, and he immediately became excited, because that was a dragon's cry, he anxiously used his senses to feel the Fire Dragon kungfu soul.

Before long, he could completely sense the Fire Dragon kungfu soul. Just like Long Xueyi had said, because his Fire Soul was too strong, it caused the young and weak Fire Dragon kungfu soul to be suppressed, causing it to increase slowly in his body, and a large amount of energy to be absorbed by the Fire Soul.

"Little Naughty Dragon, use that dragon pearl and channel energy into me quickly. The more the better, I feel that it is very hungry, and it is very weak too, maybe it will disappear at any time!" Chen Xiang said.

After Long Xueyi heard Chen Xiang's words, she placed her hand on his abdomen, transforming the energy from the dragon pearl into Dragon Power, and channeled it into Chen Xiang's body.

Feeling the Dragon Power entering his body, Chen Xiang took the opportunity to pour the Dragon Power into the Fire Dragon kungfu soul, allowing it to absorb the energy of the dragon pearl and quickly strengthen itself. Only when the Fire Dragon kungfu soul had reached a certain level of strength, would he be able to enter the next realm.

The energy in the dragon pearl was extremely rich. Back then, the strength of the Boa dragon was comparable to that of a powerful immortal.

Right now, Chen Xiang knew just how weak his martial spirit was. No wonder he could not break through, he could only not feel the existence of the Congenital kungfu soul, it was because his Fire Soul was too strong.

After ten days, Chen Xiang could no longer feel the Fire Dragon kungfu soul with his strong divine sense, and his body was now emitting a faint heat.

Chen Xiang opened her eyes and saw Long Xueyi pouting while staring at her.

"What are you looking at? Have you never seen such a good-looking man?" Chen Xiang smiled.

"Pei, I've seen your entire body countless times. There really isn't anything to look at." When Long Xueyi said these words, his face did not redden at all.

On the other hand, Chen Xiang felt very unhappy in his heart. His handsome face flushed red, and he snorted: "Little pervert, that's not fair. You've seen me, I haven't seen you before!"

Long Xueyi chuckled: "So what? If you have the ability, you can look at me, right?"

Both of Chen Xiang's eyes burned with anger, he wanted to burn the little girl's clothes: If I don't lower myself to your level, you rogue dragon girl, don't bring sister Meiyao and elder sister You You You!

"Do you still need me to bring you around?" She channeled even more Dragon Power into Chen Xiang's body, "Concentrate on cultivating my martial spirit, I need to increase the amount of Dragon Power I can imbue in. Otherwise, you can't go to the eighteen level area of the Chaotic Mountain."

Chen Xiang immediately closed his eyes and started cultivating the Fire Dragon kungfu soul.

In the blink of an eye, more than a month had passed and Chen Xiang's entire body was enveloped by a layer of red light. His clothes had already been burnt to ashes, a powerful and domineering dragon head faintly appeared on his chest, while a layer of dragon scales seemed to emerge from his entire body, causing Long Xueyi to be secretly amazed.

The white dragon tattoo on Chen Xiang's left shoulder had already disappeared, as it had been taken away by Long Xueyi. She was worried that when the Fire Dragon kungfu soul grew stronger, it would resist against the white dragon's soul power that she had left on Chen Xiang's body, resulting in unnecessary trouble.

"Roar ..." Suddenly, Chen Xiang opened his mouth and roared, releasing a dragon roar, the skin on his chest had a tattoo of a burning dragon head, it looked very lifelike, his body was also flashing with pieces of crystal-like fiery-red scales, covering half of his body.

Long Xueyi retreated to the side, looked into Chen Xiang's flaming eyes and asked softly: "How are you feeling now?"

"The Fire Dragon kungfu soul is strengthening. It can already be in my body at the same time as the Heaven fire soul!" The red light around Chen Xiang's body suddenly disappeared and returned back to its original state. "After resolving this bottleneck, I can now continue to cultivate and transfer the Dragon Power over!"

"There is still a Dragon Soul inside the Dragon Pearl, so you need to cultivate your Soul. However, you should absorb the Dragon Soul inside the Dragon Pearl!" Long Xueyi spat out a Dragon Pearl. This Dragon Pearl was a little small, so it could be seen that in order to make the Fire Dragon kungfu soul grow, Chen Xiang had absorbed a lot of Dragon Qi.

[Chapter 656](#)

Not only did the dragon pearl contain the dragon's rich strength. was currently absorbing both of these powers at the same time, strengthening his soul, and strengthening his Innate Qi.

Long Xueyi was also helping Chen Xiang with her cultivation now. Chen Xiang held onto her delicate hand that was holding onto the dragon pearl, and absorbed the power of the dragon soul from within, while she absorbed a large amount of energy from the dragon pearl, turning it into Dragon Power. She then pressed one hand on Chen Xiang's abdomen, and poured it into Chen Xiang's body.

Dragons were born with the ability to use the Dragon Power, but humans could only use it through cultivation. Furthermore, the conditions to cultivate the Taiji Dragon-suppressed kungfu were extremely harsh, so humans with the ability to use the Dragon Power had terrifying strength.

The energy contained within the Dragon Power was extremely majestic. After entering Chen Xiang's dantian, it was refined by Chen Xiang and refined into a large amount of Genuine qi of five elements. He compressed all of the Innate Qi into the five Beast statue and lit them up.

At the same time, Long Xueyi also entered a state of half cultivation. The energy in the dragon pearl was so dense, that after entering her body, she would absorb some of it. The speed at which he absorbed the energy using the Dragon Power into his body made Chen Xiang exclaim in surprise, but he knew that this method was not common, and it would take a period of time.

Chen Xiang had been holding onto Long Xueyi's jade hand the entire time, and the dragon pearl was currently held in the middle of this big and small palm.

This caused Chen Xiang to turn pale in fright. He remembered that there was an extremely large amount of energy in the dragon pearl, it was not possible for it to be absorbed by him and Long Xueyi in such a short amount of time.

Very quickly, he discovered the reason. What he did not expect was that the Youyao Yugong inside the ring was absorbing the energy at a crazy rate, and it was actually not under his control.

"What's going on?" Chen Xiang was getting a little anxious, because the ring was absorbing energy at a very fast speed. Right now, he treated the dragon pearl as a treasure for his cultivation.

Long Xueyi who was cultivating also opened her eyes, because she could clearly feel that the dragon pearl in her palm was slowly shrinking. What made her feel serious was that both her and Chen Xiang's hands were stuck to the dragon pearl and were being sucked in by a bizarre suction force.

"The problem with the ring, hurry up and cultivate. Else, the dragon pearl will be lost. This is not a bad thing, there is no need to worry." Long Xueyi's eyes flickered with white light as he let out a sigh of relief. He gave Chen Xiang a sweet smile, then continued to close his eyes to increase the speed at which he transferred Dragon Power to Chen Xiang.

Chen Xiang was also at a loss at this moment, but he knew that if he was any slower, this dragon pearl would have dried up. What made him most depressed was that the ring actually absorbed the power of the dragon soul.

Not long after, Chen Xiang calmed himself down and entered a quiet cultivation state, crazily refining the Dragon Power that Chen Xiang had sent over to him. What made him a little surprised was that the speed at which he refined the Dragon Power was getting faster and faster, and his body was getting

hotter and hotter. The Refine Power that was released from the Raging Flames Dantian was even more tyrannical, and he could feel that his flames had actually become a lot more powerful.

Unknowingly, Chen Xiang's entire body was covered in flames, and he quickly found out the reason behind this. His Fire Dragon kungfu soul was actually quickly growing stronger, which surprised him a little, especially with such a speed.

As his Innate Qi and spirit continued to improve, everything within his body was being refined and becoming stronger. He felt that it wouldn't be long before he entered the Hundred refining realm.

"What is this?" Chen Xiang was suddenly shocked, he felt a white liquid gushing into his body. He could clearly feel that this was not energy, but a white blood liquid, and a large amount of it was currently appearing in his body. It seeped into his limbs and bones, and seeped into his blood, bones, and muscles ...

At this moment, he felt as if his body was a dried up piece of land that was continuously being irrigated by this white liquid, causing him to feel extremely comfortable.

"It's from the ring!" Chen Xiang felt it, the ring was frantically releasing the liquid, it allowed the white liquid to continuously enter his body and flood over his body. Although he did not feel his body strengthening, he felt a wonderful feeling.

"This is the Yulong blood, your Fire Dragon kungfu soul is currently excited, the Jade Dragon is called the Immortal Dragon among the Dragon race, as long as it is a Jade Dragon, it will never die." This is the Yulong blood, your Fire Dragon kungfu soul is currently excited, the Jade Dragon is called the Immortal God Dragon among the Dragon race, as long as it is a Jade Dragon, it will never die when it is born. Long Xueyi said.

The Jade Dragon had always been a mysterious existence, but they did not know that there was actually such an earth-shattering secret.

"Your current Yulong blood should have been pulled out by someone else and injected into this ring. Only by absorbing a large amount of Dragon Power and Dragon Soul can this blood be revived!" Long Xueyi continued, "The other Emperor Dragon Kings and some powerful humans require the Yulong blood because they have taken a fancy to the Jade Dragon's innate regeneration ability!"

Su Meiyao was shocked, and asked: "Is this the reason why the Jade Dragon's body and soul are indestructible and indestructible? If that's the case, once Little Scoundrel merged with his Yulong blood, wouldn't he be able to pass through the tribulation easily? "

"Logically speaking, it's like this, but it depends on how many Yulong blood s he fused with, these are all blood essence of the Jade Dragon. After the Jade Dragon is injured, it doesn't need to absorb energy or anything like that to recover quickly, so after capturing one Jade Dragon, we can extract a large amount of Jade Dragon blood essence and refine it into our bloodlines every once in awhile." Long Xueyi replied.

"A jade dragon is not immortal, but if it is you, no one can kill it. It is said that once a jade dragon is captured, it will choose to self-destruct, releasing flames that can even scare gods."

Chen Xiang was secretly excited, because the large amount of Yulong blood s that surged out from the ring still continued to enter his body, and did not reject him in the slightest. What made him extremely

happy was that there were even waves of white mist that surged out from his sea of consciousness and entered his soul.

After three days and three nights, the dragon pearl seemed to be as big as a grain of rice, and at this time, the Yulong blood had no longer flowed into his body.

"Enough, it has already fused into your body and soul. After you obtained the Devil-suppressing blood, you acquired the Bone soul's body, and now with this Yulong blood, I think you really won't die! However, if you are attacked by a powerful expert, I'm afraid you will need a long time to recover. " Long Xueyi said.

When Chen Xiang obtained the Devil-suppressing blood, his body was already exceptionally strong, reaching the Immortal Devil Body level 45. And in the Mortal Realm, the bodies of many strong warriors were at most 25%.

Although his physical body was stronger than some of the Nirvana Stage s, it did not mean that he was stronger than any of them, because the Innate Qi that he had trained in was extremely strong, and could injure him severely with just a finger, but in terms of comparing physical strength, he was invincible within the Mortal Realm.

"It seems like you will be able to cultivate the Godly Body Finger soon!" Bai Youyou's voice carried a trace of excitement.

[Chapter 657](#)

The dragon pearl had completely absorbed all of the energy. Chen Xiang's divine soul had also become stronger by quite a bit. After breaking through to the next stage, he had been stuck at the stage of transformation and had now cultivated his divine soul to the third stage of metamorphosis.

According to what Long Xueyi had said, his current soul was vastly different from his physical body and Innate Qi. Back then, cultivating his soul was extremely difficult, and even Chen Xiang had no choice.

In the cave, Long Xueyi leaned against the wall of the cave as she held a fruit in her hand. The fruit had been bitten a few times on it and she was currently watching Chen Xiang cultivate.

The dragon scales on Chen Xiang's body merely appeared for a few brief moments before disappearing. Then, his body once again released a fiery-red radiance, as if his body was surrounded by a layer of soft flames. The red crystal-like dragon scales suddenly appeared again, and then disappeared ...

was completely immersed in his cultivation now. He felt that he was standing on a dragon head that was carved out of fiery red crystals, riding this dragon, soaring about the Taiji yin and yang map in his dantian.

Of course, the Fire Dragon that was so huge in Chen Xiang's eyes, in comparison to the five Beast statue, still looked like an ant and a mountain, but Chen Xiang was even more so. Sooner or later, he knew that he would be able to drive the five Beast statue formed with Innate Qi!

"Xue Yi, what's the situation now?" When Su Meiyao came out of the ring, it was because it was meant for her and Bai Youyou to live in, so Chen Xiang gave it such a name.

He might be able to turn this Martial Spirit into a dragon that he can drive in the future, but he will probably have to wait a long time. He can use the power of the Fire Dragon now, and this little scoundrel is now a mutant dragon! Long Xueyi laughed: "That means he doesn't inherit the dragon's lineage all the time, but has used his own fortuitous encounter to give himself the power to fight against the dragon. This kind of person is what the Imperial Dragon Race fears the most."

Suddenly, Chen Xiang opened his eyes and a red light flashed, it looked just like a pair of fire dragon eyes, the terrifying flames ignited in his eyes, his body was ignited in flames, the faint fiery red dragon scales overflowed the surface of his body, but he did not look sinister at all, instead, he had a kind of strange beauty, just like the way he revealed his profoundwu diamond armour's domineering aura.

"We've entered the Hundred refining realm!" Long Xueyi laughed, her small face revealing an ambiguous look that did not match her outer appearance: "sister Meiyao, besides the title Immortal Dragon, does Jade Dragon have another title in Imperial Dragon Race?"

After knowing that Chen Xiang had entered the Hundred refining realm, Bai Youyou also came out from the ring. Looking at Chen Xiang's beautiful dragon scales, her eyes flashed with a strange light, and she couldn't help but take a few more glances.

Chen Xiang was focused on absorbing the Power of giving. After absorbing the Power of giving, he would be a Hundred refining realm warrior.

"What nickname?" Bai Youyou asked, but not long after she asked the question, she was already regretting it.

"This name is only limited to Gong Long, and is commonly known as Yin Dragons. Those powerful male dragons in the Imperial Dragon Race are indeed very perverted, which is why there are many demon beasts with dragon blood in their bodies, but male Jade Dragons are much more perverted." Long Xueyi chuckled: "Actually it's not like that either. It's just because there are too many female dragons trying to tempt the Jade Dragon, and because if I were to do that with the Jade Dragon, I can also obtain that kind of indestructible power!"

Su Meiyao scoffed, and used all her strength to pinch Long Xueyi's pill: "Little Dragon, what do you mean by that?"

Long Xueyi laughed tenderly: "As for whether there will be any benefits from doing that with Chen Xiang, I'll have to let the two sisters verify it!"

"Why didn't you personally verify it?" Bai Youyou blushed slightly and asked softly.

"I'm still young!" Long Xueyi stuck out his tongue.

Su Meiyao grabbed towards her chest, grabbed onto an imposing object, and snorted: "You're still young?"

Chen Xiang didn't know that these three beauties were playing with each other, otherwise he would definitely be distracted.

Long Xueyi played with Su Meiyao for a while before continuing. "Because the jade dragon was too hot going, it was driven out and killed by many royal dragons. Otherwise, these royal dragons would not have been able to find a good mother dragon to give birth to a pure descendant."

"sister Meiyao, so you have to look favorably on a little man. If the news of him possessing a Yulong blood spreads, let alone a woman, even a man ... "Hehe."

Chen Xiang suddenly heard it and almost choked to death on a mouthful of blood.

"Don't say anymore, it's not good to go berserk later." Bai Youyou looked at Chen Xiang with concern. If she wasn't a little afraid of the heat emitted from Chen Xiang's body, she would have definitely wiped off Chen Xiang's sweat.

Feeling Bai Youyou's tenderness, Chen Xiang's mood immediately improved, and he absorbed the Power of giving a little faster.

Su Meiyao pinched Long Xueyi's face, and laughed: "Little Milkman, do you also want to steal my little man?"

Long Xueyi pouted but did not reply.

The cave was silent for a moment, then Long Xueyi muttered: "I should be a big milk dragon"

This made Su Meiyao burst out in laughter, as he reached out and took this mischievous and sweet little dragon girl into his arms.

Five days had passed, Chen Xiang's body suddenly trembled, a dragon's roar came out from his body, causing the entire forest to shake slightly, and that dragon roar spread out along with the shock. Thinking back to the forest, the birds and beasts were startled, and they all started to flee.

When Chen Xiang opened his eyes, two streams of flames would frequently spurt out from his eyes, converging into what seemed to be a flaming dragon, bared its fangs and brandished its claws, and directly smashed apart the shattered rocks inside the cave.

"I've finally broken through!" Bai Youyou heaved a sigh of relief, looked at Chen Xiang gently, and returned to the ring.

Su Meiyao walked over, gave him a kiss on his lips, then petted him a little.

Long Xueyi pursed his lips, the little girl actually revealed a kind of flirtatious expression, startling Chen Xiang.

"What are you going to do now?" Chen Xiang looked at her chest where her clothes were about to burst, and asked with curled lips.

"You've broken through, but it's all thanks to me. Give me some rewards!" Long Xueyi stretched out his small hands and chuckled as he looked at Chen Xiang.

Chen Xiang took out a Nature fruit and placed it on her palm. "Eat it.

On the other hand, there was still a white dragon tattoo on Chen Xiang's left shoulder, which was left behind to allow Long Xueyi to quickly borrow strength to give it to him.

He walked out of the cave and fiercely stomped his feet. A burst of lightning and fire shot out, causing the ground to immediately crack and form a network of cracks with blazing with fire and lightning.

"Using the Seventy-two changes now should be much simpler!" Chen Xiang transformed into a small hawk and flapped his wings, instantly flying into the sky and gliding in the air.

[Chapter 658](#)

If this was before he had broken through. If he flew into the air, he would definitely be pressured by a strange pressure, making it hard for him to fly. But now, he could resist the pressure and fly into the air. Therefore, he didn't need to travel those dangerous, long distances like before.

"Little Naughty Dragon, how do I know if I possess the indestructible power of the Jade Dragon?" Chen Xiang asked. Even though he felt that his entire body, and even his soul, contained a strange power, he did not dare to be certain.

"It's very simple. Cut off your fingers. If you can grow them quickly, even if you have them, or cut off a piece of flesh from your body, you can see the flesh growing out." Long Xueyi said.

Chen Xiang's heart twitched, wasn't this masochistic? What if he didn't grow up? Wouldn't that be cutting himself off?

"Is there no other way?" Chen Xiang asked again as he landed beside a river.

"Other ways. Find a woman and do that with her, then she can feel that strange energy that is unique to Yulong blood fuse into your body, even if you have all the Yulong blood there. " Long Xueyi paused for a moment, then continued: "Right, if a woman wants to completely possess a Yulong blood, you might have to cultivate her many times."

"Cultivate?" Chen Xiang suddenly wanted to ruthlessly hit the little dragon's butt, and it actually became worse and worse. However, when he thought that she was not a little girl, he felt that it was better not to.

Chen Xiang released the Green dragon demon-slain broadsword, but at this time, the Green dragon demon-slain broadsword was following his control, transforming into a small green dagger. He was considering whether or not he should try and test if he really obtained the Yulong blood's inheritance.

"If you are unwilling, then let me do it!" Long Xueyi said excitedly.

"Bah!" Chen Xiang kept his blade properly, he still decided not to do it, because his body was extremely strong right now. If he lost a finger, or cut off a piece of flesh, he would need to use a large amount of precious pills in order to recover.

"It's better to wait until we return to the mortal kungfu realm and find Xianxian!" Chen Xiang chuckled, "Furthermore, that is a very happy method."

It was only on the sixteenth floor that Chen Xiang found it hard to fly, because the strange pressure here made it hard to continue flying in the air. However, after he landed on the ground, it became much easier.

This meant that he had to travel a more dangerous path.

"Motherf * cker, all I see are mutated immortal beast. If I see one, I'll die!" Chen Xiang took out his Luotian Gate. He planned to use up all his strength to travel through space here.

Although Long Xueyi could sense the immortal beast hiding in the surrounding area, once it was targeted by the fierce beasts, it would be very difficult to escape. There were even some immortal beast that had a strong concealed surname. When encountering this type, Chen Xiang would fall into extreme danger.

"Maybe you won't die. At most, you'll need some time to be reborn." Su Meiyao laughed.

He couldn't guarantee his safety even if Chen Xiang stayed at the place he was at right now. He told Long Xueyi to find the Heaven Sacred City on the eighteenth floor quickly and then teleport outside the city.

After Long Xueyi and her shared the power of the Dragon Pearl, her magic power had increased by a lot, and she and Chen Xiang also had some sort of strange connection.

Right now, she was using the Heaven tour method more quickly, and could even split herself into many divine intents to search.

"I found it..." Long Xueyi told Chen Xiang the location and said, "Your strength should be enough to travel across this distance. Leaping into space in this high level area will require more energy than if you were to return to the Mortal Martial Realm."

Chen Xiang activated the Luotian Gate, and felt the Innate Qi in his body suddenly rush out like a Luotian Gate, the extremely fast speed seemed to have sucked him dry, the Innate Qi instantly rushing out from his meridians, causing him to feel an endless amount of pain.

In an instant, the Luotian Gate had absorbed ninety percent of his power, and opened a spatial door. He immediately entered the spatial door, and arrived outside a field.

He quickly consumed a few medicinal pellets to recover his exhausted Innate Qi. With this, the thick and dense Innate Qi left him in a state of unease.

After recovering thirty percent of his Innate Qi, Chen Xiang ran back to the Heaven Sacred City. It would be better to be in the city than in the wilderness.

Coming to the eighteenth floor, the immortal energy here was indeed the densest. Although he could use the Devouring magic kungfu to absorb and refine it, it would still take a lot of time and would not work.

On this floor, Chen Xiang felt like he was an ant walking in a world full of giants, worried that he would be accidentally stepped on to death, especially after he entered the city, the Nirvana Stage that filled the streets shocked him. Although he had met a few Hundred refining realm s, most of them had followers from Nirvana Stage, and they were all from Wealthy Classes.

Fortunately, Chen Xiang's concealing ability was not bad, and others could not see through his strength.

The's Great Assembly was about to begin. There were only three days left, which caused a lot of people on this level, and Chen Xiang had also heard that a few of the larger cracks were being blocked, while the smaller cracks were being left to the younger generation to gain experience.

"I wonder if Yan Zilan will come. If I can't find her, I might have to return to the Mortal Martial Realm like this!" Chen Xiang had always planned to bring back a batch of Ground level Pills from here. Only through Yan Zilan could he get the most and the cheapest.

The Sacred Dan City had a lot of properties on every floor in the large cities, and it was very easy to find them in the Sacred Dan School. Yan Zilan was the person in charge of the business in the large cities on every floor, and she was the one in charge of the business in the Sacred Dan School.

He walked past a street and saw a wall filled with his portraits. The bounty was even being fought over because he had destroyed a City Lord's Mansion and infuriated a force. This made him even more careful.

Chen Xiang now felt like he had entered a tiger's den. He had to be wary of everyone, and if he was targeted like before and told the immortals, he would be in deep trouble.

I never thought that Chaotic Mountain, who usually stay away from cities, would start a business here, and even get a little girl to back him up. This little girl is not bad, her talent in alchemy is high, her looks are good, and her strength is not weak. Right now, a cauldron is placed outside their shop, where a group of young masters will fight for her!

Chen Xiang suddenly heard a conversation between an old man and something that he had heard before. It was inconceivable, Lin Xi Yi could at most refine a mid-grade Ground level, but she could actually create a shop in this city with many powerful people.

Chen Xiang did not want to go near at all, but he suddenly heard a laughter coming from afar: "Fan Yakun, you're a gravedigger, and you really do not do ordinary things. Instead, instead of helping your Fan Family's store, you came here to help recruit business, and I never expected that you would also kneel down in front of a woman's skirt."

Chen Xiang knew that the Chaotic Mountain's medicine shop was not far away and when he heard that Fan Yakun and Lin Xi Yi had gotten along, he secretly clicked his tongue and decided to go take a look as well. After he found Fan Yakun, he would also have a way to contact the Du Family.

[Chapter 659](#)

He arrived at the entrance of the shop. When Chen Xiang saw Fan Yakun taking care of the herbs, he could not help but laugh because Fan Yakun's pill furnace was actually a transparent pill furnace. Obviously, he had obtained some inspiration from's Magic method furnace.

But Chen Xiang knew, this kind of transparent and anti-burning ingredients were very rare, if not many Alchemist would have one of these pill furnaces, this way, they could let people or their own disciples see the changes in the furnace better and learn from it.

The pellet Fan Yakun refined was a Nine quenching body Dan, after the ingredients were placed into the furnace, it immediately released a dazzling gold light, attracting many people's attention, and very quickly, the five storefronts' entrance became bustling.

There were many people who did not attend the pill refining competition, so they did not mention anything about Chen Xiang using Magic method furnaces to concoct pills, but now that they saw it, they were all dumbstruck. They were all shocked, and some even clapped and applauded.

Chen Xiang shook his head and laughed, he realized that Fan Yakun's business knowledge was not bad, he looked inside the shop, and saw many people entering, and the shop's name was called Xi Yi Pavilion, which was actually named after Lin Xiyi. Through the shop, he could see a door that led to the back. From that door, he could see that there were many herbs growing inside.

"It's only been a few months, but this guy has already fallen in love with the Chaotic Mountain's woman. He really is a love expert!" Chen Xiang laughed in his heart, he remembered that Lin Xi Yi was a woman with very high standards.

Chen Xiang had to admit that Fan Yakun's talent in alchemy was very high. Now that he had a good pill furnace, refining the Nine quenching body Dan was very easy. What made many men jealous was, when he refined till they sweat profusely, Lin Xi Yi, that delicate beauty, would help him wipe his sweat with a gentle and moving expression.

Fan Yakun's current pill furnace looked like a transparent crystal pill furnace, and the material of the pill furnace also had a special type of strengthening light, which caused the light produced to be even more beautiful and resplendent. It was also the first time that Chen Xiang had seen someone else concoct pills with his own eyes, so he patiently admired the pill, waiting for Fan Yakun to finish refining.

"It's only one pill, this fellow probably isn't familiar with this cauldron!" Chen Xiang waited for more than two hours, and finally, he waited for Fan Yakun to finish. Although there was only one pill, this pill was still valuable, and it was of a high quality.

In Sacred Dan Realm, even though there were Heaven level Pills, they were still too expensive. There were many Ground level Pills, their prices were low, and they were suitable for many people.

Everyone also saw, I can refine Ground level Pills. When I have time in the future, I will refine a mid grade Ground level Pills for everyone to see, I will also be in charge of this shop from now on, and will be the Alchemist of this place. Fan Yakun laughed.

The business of the pill shop had become extremely hot. Chen Xiang looked at Fan Yakun and used his consciousness to send a sound transmission to him. "Brother Fan, good move!"

Just as Fan Yakun was about to put away the pill furnace and leave, he heard Chen Xiang's voice echo in his mind. His body trembled slightly, and when he turned his head to look, he saw a middle-aged man.

"Hehe, let's chat inside!" Fan Yakun was extremely shocked. He thought that Chen Xiang would hide himself, but he actually ran all the way to the eighteenth floor.

Chen Xiang followed Fan Yakun to a hall, and Lin Xi Yi followed.

"Chen Xiang?" Lin Xi Yi said with a frown, her charming face was full of surprise, and then she hastily closed the door to the hall.

Chen Xiang laughed, "I never thought that Miss Lin and Brother Fan would actually fall in love, I never expected that!"

"Chen Xiang, do you want to die? You actually came here, don't you know that it is time for all sorts of experts to gather here?" Fan Yakun said.

Chen Xiang laughed: "Have you seen when my life is on the line?"

Lin Xi Yi snorted: "Aren't you afraid that I'll tell Chaotic Mountain? You have four Chaos fire s in your hands, many old fellows in Chaotic Mountain are always thinking about them. "

"If you're afraid, then I'm not coming. Is this shop owned by the Chaotic Mountain?" Chen Xiang asked with a smile.

"No, it was my parents who secretly supported me. After that ..." Lin Xi Yi glanced at Fan Yakun, her charming face turning slightly red: "Then he came to help."

Chen Xiang nodded his head and said, "I suggest that you guys build a tall tower. After that, Brother Fan should refine pills in the tower from time to time, and use that cauldron.

Fan Yakun's eyes lit up: Not bad, if there's anything you need my help with, just say it. If there's nothing else, you won't come looking for me.

Lin Xi Yi glared at Chen Xiang: "Don't tell me you're here to take care of those three Chaos fire s? Those are the last three holy tokens of our Chaotic Mountain. "

Chen Xiang curled his lips and said: "Do you think it's possible for me to obtain it? I am here to look for Yan Zilan, do you know any way to contact her? "

Fan Yakun and Lin Xi Yi looked at each other. Last time, during the competition, Yan Zilan kissed Chen Xiang. From this, they could tell that Chen Xiang and Yan Zilan's relationship was not ordinary.

"What is your relationship with her?" Lin Xi Yi asked hastily.

"Yanyao followed her for cultivation, and because I've done some big business with her, her relationship with me is not too bad." Chen Xiang chuckled: "I even slept on her bed before."

She is an important figure of the Sacred Dan School, so she will definitely come to this meeting that the Chaotic Mountain is hosting. It would be best if you go to the Violet Orchid Valley next to the Sacred Dan School to look for her, and if she does not go into closed door cultivation, you can find her there. ""
Alright. Fan Yakun said.

After Chen Xiang heard this, he said, "Thank you!" Then, he turned around and quickly left.

"Hey, don't you dare participate in the convention hosted by the Chaotic Mountain. It was a trap set up for you ..."

Chen Xiang had already jumped over a wall, but he heard Lin Xi Yi's warning.

After leaving this shop, Chen Xiang walked around the street a few times, then entered a relatively low class and also a very large inn.

The Sacred Dan School was at the east side of the Heaven Sacred City, so Chen Xiang was walking towards the east gate. When he arrived at the entrance, he suddenly saw a notice posted, it said that there was something related to the competition.

"The Chaos fire contains divine power and will be used to communicate with the gods at the start of the conference. When that time comes, the Chaos fire will be placed in the middle of the plaza and used to summon the gods, no one can get close to them!"

Seeing this, Chen Xiang finally understood why Lin Xi Yi said that it was a trap.

[Chapter 660](#)

Chen Xiang now had four Chaos fire. With this much, he would definitely think of a way to get the other three pieces. Therefore, once he had the chance, he would definitely make his move.

Everyone could see that this was a trap set up for Chen Xiang, because Chaotic Mountain knew that it would be very difficult to capture Chen Xiang.

After exiting the city, Su Meiyao said: "Do you want to go?"

"You have to think carefully. This is not a joke. When the time comes, you will be surrounded by those immortals. If Junior Sister and I recover our peak strength, we might be able to snatch it away." Bai Youyou said.

Chen Xiang never thought that the two girls would be so strong. The Sacred Dan Realm had such abundant resources for pills, so the strong warriors would definitely be even stronger than them. However, Bai Youyou confidently said that they could get their hands on the pills. He felt that if he wanted to know their identities, he could only go to the Heaven Realm and inquire about them.

"Hehe, back then, I had done a lot of things like this with senior, so we made enemies everywhere. Those enemies still hate us even now." Su Meiyao laughed.

"I'll go take a look when the time comes." Chen Xiang sprinted all the way, and in just half a day's time, he saw the Sacred Dan School, who was built on top of a huge mountain. From the waist of the mountain to the top of the mountain, it was densely packed with buildings.

On the other side of the mountain, there was a mountain in full bloom with purple flowers. That was Chen Xiang's destination, the Zi Lan Mountain Valley.

Yan Zilan was extremely important to the Sacred Dan School, and that was not only because she looked as if she was a bane to the common people. At the same time, it was also because of her strength.

"Yan Zilan has mastered the divine way. If she continues her cultivation, she might become the strongest person in the Sacred Dan Realm. In the Heaven Realm, the strongest people all cultivate the divine way, which is to say, we are of the dragon race." Long Xueyi said.

Yan Zilan had stayed in the Sacred Dan School for a long time. In order to make things easier for her, she had her own territory.

Just as Chen Xiang stepped into the canyon, he heard a roar, and saw a giant wolf that was engulfed in flames and a giant snow-white tiger suddenly rushing out of the canyon.

This scared Chen Xiang one time, and the aura it exuded was even stronger than the dragon he encountered in the Super Old Sacred Land. He had encountered this kind of powerful immortal beast twice in the Immortal-poisoning Devil Forest, one of them was the one that took away the Purple dragon flower while the other was the one that swallowed the Devil-suppressing Heavenly Venerable's legacy.

When the two gigantic beasts arrived in front of Chen Xiang, their bodies shone with a light as they transformed into human beings. They were actually two tall and curvaceous women with abundant bodies, beautiful enough to look like the moon and flowers, and one of them wore a red robe.

"Who are you? This place is where the Zi Lan Immortal Fairy lives, and outsiders are not allowed to enter, especially men. " Although she said it like that, her voice was very gentle and pleasant to listen to, not fierce at all. She gave off a very nice and warm feeling, similar to Yan Zilan's tone.

"Friend, if there's anything important to you, we can help you pass on to the Zi Lan Immortal Fairy. Without her permission, no one is allowed to enter the Zi Lan Mountain Valley." The woman in red also said gently.

This made Chen Xiang find it difficult to associate them with the two ferocious immortal beast he just met. This was also the first time Chen Xiang had seen these kind of immortal beast in human form, and they were exceptionally beautiful.

"So that's how it is. Then I'll have to trouble you two older sisters to help me tell him that an old friend of mine who is a fugitive is looking for her to buy some medicinal pellets." Chen Xiang laughed, he was an old man with a long beard, although the two girls had told them about the bounty slip before, they did not recognize Chen Xiang.

However, the woman who had transformed into a white tiger always felt that Chen Xiang had a very amiable feeling, but at the same time, made her feel a little afraid. This was the first time she had ever experienced such a contradictory feeling, so she suspected that Chen Xiang was also a white tiger.

"Yun Zhu, you are faster than me. The white-dressed woman said in a low voice.

"Yes, sister!" After the girl called Yun Zhu left.

The lady in white asked softly, "Senior, are you also from my White Tiger Race? Junior Bai Xing! "

Saying that, Bai Xing bowed to Chen Xiang, causing his heart to beat faster, but he remained calm.

"Bai Xing, what a familiar name!" Su Meiyao immediately said.

Back then, Heaven Realm descended upon a very large white star. In order to prevent a continent from being destroyed, many of the old fellows in the Heaven Realm made their move, and succeeded in stopping it in the end. However, the white star suddenly exploded, and those old fellows were all heavily injured, but there was a small white tiger inside the white star. Bai Youyou said: "That nameless expert has some connections with our family. Because this White Tiger called Bai Xing is considered a star picker, no one would dare to accept it, and no one would dare to provoke it."

Chen Xiang did not expect this beautiful and tender lady in front of him to have such a background. She had even injured so many old men in Heaven Realm.

Chen Xiang coughed dryly, and pretended to be an expert, "I never thought that it would be the little girl Bai Xing who seriously injured a bunch of old guys from Heaven Realm, hehe!"

Bai Xing was shocked. He frowned slightly as he said with a sorrowful look on his face: "I didn't expect that there would still be people who know my past after coming here."

Chen Xiang saw that he had touched the heart of the beauty and anxiously said: "Don't worry, I won't tell anyone. Although I am not the White Tiger Race, but I have a duty to protect White Tiger Race, but this does not include those white tigers who commit many evil deeds. "

"In that case, senior, where did you come from?" Why do I feel that you have the aura of our White Tiger Race s! " Bai Xing asked doubtfully.

Both of Chen Xiang's hands flashed with a white light, revealing a pair of white gloves. Seeing this, Bai Xing was immediately frightened, and became dumbstruck.

"This ..." Bai Xing was shocked speechless, as long as it was a White Tiger, everyone would recognize this Slaughter God's Hand.

"Confidential, confidential!" Chen Xiang snickered.

Bai Xing nodded. She had been together with Yan Zilan for a long time and had told him about many people coming to find Yan Zilan. However, to her, Chen Xiang was the strongest one.

Yan Zilan and Yun Zhu flew over and landed in front of Chen Xiang. Seeing Chen Xiang and Bai Xing laughing and talking, Yan Zilan scolded them: "Don't give my sister any soup."

"Not at all." Chen Xiang laughed, while Yan Zilan shook her head and laughed. She pulled his hand and gently leaped, in the blink of an eye, they had arrived in a beautiful valley that was surrounded by purple flowers.

Chen Xiang looked around, and laughed: "This is really a good place, I should be safe hiding here!"
