

Dan God 741

[Chapter 741](#)

If you wanted to buy a pill that would suit you, you couldn't send it out in a new world. Just the transportation fee itself was a large sum, and if you gathered the best pill shops in this new world, then it would be very good. You wouldn't have to travel to too many places to look for pills.

However, those Alchemists who were not invited to the Dan Alliance felt extremely unhappy, feeling that they had been underestimated. When Chen Xiang and Wu Kaiming walked on the streets, he could hear many of the Alchemists complaining.

The new world was so big, there were definitely a lot of Alchemists. The reason why the Dan Alliance had only invited a portion of Alchemists was so that the other Alchemists could train hard and improve their alchemy skills.

"I heard that after the Dan Alliance is established, the levels of the Alchemists will be divided evenly. When that time comes, you will probably have to take the Alchemist's assessment to gain a better reputation. So it turns out that it is no longer feasible at the Dan Fragrance Pure Land's place." Wu Kaiming said.

Chen Xiang felt that it was necessary. A new world was formed from a combination of many different worlds, and each world had their own Alchemist's level system. In order to come up with a general level title, they had to harmonize it.

"These Dan Kings are pretty good. They had tidied up the chaotic world of pills in this new world, but unfortunately, both Elder Dan and Hua Xiangyue did not join this Dan Alliance." Chen Xiang regretted that he did not have a powerful Alchemist in the Dan Alliance.

"It's not that they didn't join, it's just that we couldn't find them. They're all dealing with the Tribulation!" Wu Kaiming sighed: "Alchemist's Nirvana Doom is even stronger, I hope they can successfully pass through."

Chen Xiang and Wu Kaiming had arrived disguised themselves, so no one would be able to recognize them. They seemed to be extremely low-key, but there were some people who came to Dan City in a completely different way, with a very high profile.

A wave of hot air engulfed the area and Chen Xiang knew who it was: Fire Divine Palace's Palace Chief Han Lie!

Chen Xiang and Wu Kaiming turned their heads to look, only to see a tall and sturdy old man who was much taller than ordinary people. He had a upper body that was covered in muscles and a fiery red cape.

The hall master of the Fire Divine Palace was now a famous figure in this new world. After all, he came from the top of the Heaven Realm, which many warriors yearned for.

"Han Lie was invited as a guest. The few elders behind him all seem to be Alchemists, and the few young brats seem to be the same." Wu Kaiming said.

"He was invited to the Dan Alliance?" Chen Xiang frowned and asked.

"Of course, there are many powerful Alchemist in the Dan Alliance." Wu Kaiming shrugged his shoulders, "Although Fire Divine Palace's reputation isn't very good, but his strength is indeed very strong."

Chen Xiang gave the purple Fire Soul to Dongfang Xinyue, because he wanted to get one back. Right now, he was staring at the few elders.

This kind of archaic devilish poison was something that even Han Lie was afraid of, and when Chen Xiang used that Death-haunting arrow, with the addition of a few Magical corruption gas, he might be able to kill those people with the eight tribulations of Nirvana Stage. It was just that this had to be extremely secretive, and if others discovered that he was using Super Old poison, then it would not be a matter of a single force chasing after him, but rather those of the Three Realms!

If even a place like the Devil Realm could not tolerate Magical corruption gas, what about the Worldly Immortal World?

Chen Xiang only had the corpses of two elders from the Fire Divine Palace in his hands, both of them being green Fire Soul.

This was the first time Chen Xiang had heard of such a thing, and it looked like there were quite a few of them.

"These little imps from the Fire Divine Palace were invited to join. There's no reason why you, the number one young Alchemist, weren't invited. Is this old guy from the Dan Alliance jealous that you have too many Relive Dan?" Wu Kaiming laughed.

"It's probably because I'm the Dongfang family's ten billion Spar, they're worried that I would bring trouble to the Dan Alliance." Chen Xiang curled his lips and said. If Dongfang Chaoqun and Dongfang Xinyue were to successfully take back the Dongfang family, then the bounty of ten billion Spar would definitely be withdrawn.

"Isn't that the little demon Xiao Chou?" Wu Kaiming suddenly pointed to the side of the street.

"This brat's bald head is scared by me, haha ..." Sure enough, Chen Xiang saw that Xiao Chou was standing on the side of the street, wearing a hat and looking around.

"Junior Martial Uncle, you are bullying our Baldy Clan. How unkind!" Wu Kaiming looked at him in disdain, then walked towards Xiao Chou. Wu Kaiming was still wearing his hat, otherwise, his shiny head would be very eye-catching in the crowd.

Xiao Chou saw two people walking over, he took a closer look and recognized them as Chen Xiang and Wu Kaiming. He immediately waved his hand.

"Are you looking for someone?" Chen Xiang looked around, but did not see any special people.

"Master, Senior Brother, I'm waiting for an elder of my Great Strength Race. All the Great Strength Race in this new world must gather now, I might not be able to return to Super Martial School for a period of time." Xiao Chou said in a depressed tone: "Going back is too boring, it's just a bunch of people with low strength who don't know their place. When the time comes, they will challenge me to a fight without knowing their place."

Chen Xiang laughed: "Aren't all of your Great Strength Race the same?"

"I'm leaving. That elder called me over." Xiao Chou pointed to a very disheveled old man in the distance, but that old man had a pair of extremely sharp eyes, and no one around him dared to approach him, so both Chen Xiang and Wu Kaiming could feel that strange yet powerful aura from far away.

Xiao Chou ran over, and the old man brought Xiao Chou and a few other young people to walk onto a carriage, and walked towards Transmission array.

Wu Kaiming and Chen Xiang arrived at a hotel where the Dan Alliance was hosting the distinguished guests. Chen Xiang rested for a while, letting Su Meiyao see if there were sufficient spirit medicines in the Youyao Yugong, especially those that were of high, middle, and low quality. The medicine market for these types of pills was the widest, and most people needed to buy them.

The next morning, the sunlight that shined on Dan City was extremely warm, this newly built huge city started to get lively even before the sky started to brighten, Chen Xiang and Wu Kaiming headed towards the 50 story tall stone tower, which was the Dan Alliance Headquarters, called the Dan King Tower.

"Invitation letter!" Outside the door, the security was tight, there were many Hundred refining realms, some Nirvana Stages, and they were all extremely strict when entering.

Anyone without an invitation letter was not allowed to enter. If they were an ally of the Dan Alliance, they could freely enter and exit using the Dan Alliance's medallion.

Chen Xiang did not send any invitation letters, but Wu Kaiming did. Furthermore, Wu Kaiming could bring two people in, and this was done by the Dan Alliance for the guests and juniors invited to broaden their horizons.

"It's not the VIP room. Little baldy, you do not have a high position in their eyes!" Chen Xiang laughed, they were currently sitting in a gigantic hall, with many chairs and tens of thousands of them, and at the top of the hall there was a gigantic stage covered with a red carpet, which was where the Dan King competition was held later.

[Chapter 742](#)

There were many rooms in the VIP rooms, and the people inside were all people who were part of the leaders of the big clans in the New World, while in the Main Hall, many people were complaining that they did not have a room, after all, the majority of people who were invited thought that they had decent strength, being looked down upon by the Dan Alliance, made them feel very satisfied.

There were many warriors that had experienced the Eight Tribulations, but that did not mean that they were the strongest. The ones sitting in the private box were not necessarily the strongest, it was just that their relationship with the Dan Alliance was good, or their powers had powerful Alchemists that had joined the Dan Alliance.

"The Fire Divine Palace has a private room. If the Elder Dan or Hua Xiangyue comes, there might be one too." Chen Xiang looked at the rooms above the hall and muttered.

"Dongfang Lingyun is here, he is our Super Martial School's enemy, the last time he came to the Super Martial School to clamor, he has not avenged himself yet!" snorted coldly. He and Gu Dongchen had already started planning out how to capture Dongfang Lingyun, or else their Super Martial School would definitely be laughed at.

Chen Xiang felt that it was somewhat inconceivable. This Dongfang Lingyun still had the mood to run over here right now, so the scheme between him and Dongfang profoundlong should have already been spread out.

Just as Chen Xiang was feeling suspicious, amongst the thousands of people in the hall, some were already discussing softly, talking about Dongfang profoundlong colluding with Dongfang Lingyun to murder the patriarch of the Dong Fang Clan for the sake of the Patriarch's Blood Soul.

Wu Kaiming also heard of this news very quickly, and this happened inside the Bloody Thunder Mountain Sea yesterday, and all of this was forced out by Chen Xiang.

"Junior Martial Uncle, you're amazing!" Wu Kaiming gave Chen Xiang a big thumbs up.

"If nothing unexpected happens, this Dongfang Lingyun is going to fall. Did he come here to seek protection?" Chen Xiang suddenly started to worry, all of the Dan King s dared to say anything to save Dongfang Lingyun.

After Dongfang Xinyue had merged with the purple Fire Soul and eaten Chen Xiang's Eternal Dan, his strength had become even stronger than before.

Everyone came one after another, and when they were waiting for the start of the competition, everyone started to discuss about Dongfang Lingyun.

When the hall was almost full, a middle-aged man with an ordinary appearance suddenly walked up the high platform.

The founding meeting of the Dan Alliance will begin now. I am one of the ten elders of the Dan Alliance, Ling Chen! All ten of us elders are from Dan King and are capable of refining Heaven level Pills. Six of the Dan King s have given up on fighting for the position of Alliance Master, including me. "

Under the influence of many people, Dan King were mostly old fellows with white beards, but this Ling Chen, who looked like a middle-aged man, caused an uproar at the side of the hall.

"Once again, our Dan Alliance thanks our old friend Dongfang Lingyun for giving us the ten Nature fruit as gifts ..."

Chen Xiang cursed in his heart, these Dan King s were too careless, each of them bought one Nature fruit.

Those who were invited, were all well-informed, and there were even a few thousand members of the Dan Alliance s among them, were all shocked upon hearing the Heaven level spirit medicine, Nature fruit. After a moment of silence, a buzzing sound of discussion could be heard.

Now, it would be even harder to kill Dongfang Lingyun. With the protection of the Dan Alliance, who would dare to offend him?

"Damn it, when will I also bring out some Nature fruit to bribe some stronger Dan King s? I'll piss this Dan Alliance off." Chen Xiang suddenly felt very unhappy. The ten Dan King s were still too little in comparison to the fusion of multiple worlds into a new world.

"Now, let's talk about the division of Alchemist levels that the ten of us elders have discussed. Everyone, listen carefully ..."

After Chen Xiang finished listening, he cursed loudly. In this new world, the Alchemist s were divided into Level 1 to 9 Alchemist s.

Alchemists needed to know how to refine three mid-grade Ground level pills, while the Pill Sect needed to know how to refine three high-grade Ground level pills. As for Dan King, what about Alchemists? As long as they knew how to refine Heaven level Pills, they would be considered Dan King!

This level was much easier to differentiate, especially the Dan King. According to this standard, Chen Xiang felt that there would definitely be a lot of them.

"Junior Martial Uncle, now that you know how to refine three high grade profound level pills, you should be a Level Eight Alchemist. You can be considered to be very high!" Wu Kaiming laughed.

Chen Xiang groaned. In fact, he was about to become a level nine Alchemist. With his current age, to be able to reach this level was already an incredible feat in this new world.

"Among us Dan Alliance, the youngest one is a Level 9 Alchemist who is only 100 years old. He looks young now, so he should be the strongest young Alchemist in this new world." Ling Chen shouted.

To be able to refine three kinds of Earth Grade Low Rank Dan s and become a ninth level Alchemist before the age of a hundred, this was indeed shocking.

"The youngest Alchemist is at the eighth level, most likely his martial uncle!" Wu Kaiming said.

"I don't care, if you want to be, then be the youngest Dan King." Chen Xiang chuckled, "As long as I can refine a Heaven level Pill, I can become a darned Dan King, haha ..."

After the crowd quieted down, Ling Chen said with a laugh, "I know that everyone wants to see the appearance of a level nine Alchemist refining Earth Grade Low Rank Dan. However, everyone knows that although it is not easy to obtain medicinal herbs from the Earth Grade Low Rank Dan, the youngest level eight Alchemist is willing to come up and make a fool of himself."

"All the Alchemist s that our Dan Alliance has invited to join are publicly acknowledged to be the most outstanding Alchemist s. We will definitely not disappoint anyone!"

The youngest level eight Alchemist went up on stage. He was actually one of the Fire Divine Palace.

"At the age of sixty, he will be able to refine three high grade profound level pills and become a Alchemist of the eighth level. As long as we continue to work hard, we will soon be able to become a Alchemist of the ninth level." Ling Chen smiled and said: "This young friend here is Fang Sheng from Fire Divine Palace."

Wu Kaiming really wanted to shout "bullshit" once, because Chen Xiang was the youngest Alchemist of the eighth level, even though he didn't participate in the Dan Alliance's assessment.

He looked like a young man in his twenties. However, because his cultivation rose quickly and he took pills all year round, he could maintain his young appearance and not age, so Chen Xiang guessed that Fang Sheng was at least a late stage Hundred refining realm warrior.

"Are you refining the Three Purities Pill?" Wasn't refining such a simple high grade profound level pill just to fool people? " Chen Xiang secretly despised him in his heart.

Many Alchemist could tell that Fang Sheng was concocting the Three Cleansing Pills. Some people were straightforward, and had already made sounds of ridicule, this was the least difficult of the high grade profound level pills, although it was used to cure poisons, the detoxification effect was not very good. One would need to recuperate for many days before being able to completely cure the poison.

[Chapter 743](#)

Amidst the hissing of the crowd, Fang Sheng had no choice but to collect the medicinal ingredients for the Three Purities Pill and take out a portion of the medicinal ingredients needed to refine the Small shaping Dan. Only then did the hall become quiet.

The moment the Small shaping Dan s' medicinal herbs appeared, some of the sects that specialized in relying on demonic beasts widened their eyes. This Small shaping Dan s had a certain chance of comprehending the profound beasts' transformation technique, and could change into the shape of a profound beast.

Goblin beasts could only take form in Nirvana Stage, but many Goblin Beasts could only block them by blocking their way to the profound beasts. If they take human form and cultivate human martial arts, they would become stronger.

Those sects and demon beasts that raise demon beasts, once they transform, will become their most loyal friends because they have the Master-servant Contract s.

Although Small shaping Dan only had a certain chance of being transformed by a mystical beast, they were still very popular. If this cauldron was completed, there might even be a chance of an auction at the scene.

Under the patient wait of the crowd, the nervous Fang Sheng heaved a sigh of relief. Opening the blue pill furnace, he saw a pill that was not completely red.

"It's a success!" Ling Chen also heaved a sigh of relief, "For our little friend to be able to refine a lower quality Small shaping Dan at this age is already an extremely difficult task."

Chen Xiang sneered in his heart, the quality of those medicinal herbs was not bad, if he was the one refining them, then they would at least be two of the highest quality medicinal herbs. The last time he was in Sacred Dan Realm's pill refining competition, he used rotten medicinal herbs, which allowed him to refine two of the highest quality Small shaping Dan.

Although the inferior quality had disappointed everyone, it was not bad. After all, he was still very young.

"I think there are quite a few friends here who want to buy this pill. Why don't we do an auction?" Ling Chen saw that everyone's expression was much better, and anxiously smiled.

Wu Kaiming looked at Chen Xiang. He had always been looking forward to Chen Xiang doing something, but Chen Xiang's expression was still calm.

"This brat is not talented. He was only able to refine this low quality Small shaping Dan, he is just showing his disgrace." Fang Sheng stood up with a hint of a proud smile on his face, because he saw that many people wanted to buy the Small shaping Dan he had refined.

Ling Chen laughed and patted Fang Sheng's shoulder, "I know there are many old Alchemist who are disappointed, but after all, Fang Sheng is just a young man, it's already not bad that he can do this. Among the younger generation, he is considered outstanding, otherwise he would not have been able to become an ally of our Dan Alliance."

"The number one young Alchemist of the eighth level, this title shouldn't be too excessive for him, right?"

The Dan Alliance was simply bragging about how powerful his own Dan Alliance Alliance members were. Since the other party had extended his face out for someone to slap, Chen Xiang could not sit still either.

"Isn't that saying a little too arrogantly?" Chen Xiang suddenly said indifferently, his voice was neither loud nor harsh, but it could be heard by the people around him. It could be seen that he had used the Innate Qi skillfully, causing many of the experts to exclaim in admiration.

"Oh? Could it be that this brother is able to find a Alchemist of the eighth level that is even more powerful than little friend Fang? " Ling Chen frowned, to think that there would be someone trying to mess things up. Of course, to deal with this kind of person, he had to make them submit wholeheartedly.

"It's Chen Xiang!" someone shouted.

Although Chen Xiang was dressed up slightly, people with good eyesight could still recognize him. Wu Kaiming was happy in his heart, he knew that a good show was happening.

Those people in the private rooms, who were more familiar with Chen Xiang, all smiled slightly. This brat Chen Xiang, was always present, and was specifically aimed at opposing the strong powers. It was already a miracle for this kind of person to be able to live for so long.

"Heh heh, this kid is untalented and is only recognized as the youngest of the Mortal Martial Realm's top Alchemist s." Chen Xiang's voice was filled with ridicule, and he did not feel like this was arrogance, because this name was publicly accepted by the Mortal Martial Realm.

"Please advise me!" Naturally, Fang Sheng had heard of Chen Xiang's affairs. He also wanted to see what capabilities Chen Xiang had to actually dare to clamor here.

The other nine Dan King s in the box were all secretly furious in their hearts. There was actually someone who was so bold as to try and ruin the stand of them ten Dan King s, but what could they do? If he kicked them out, wouldn't that be a joke to the guests that were invited?

"I wonder how many batches of Small shaping Dan that you have refined, Brother Fang?" Chen Xiang stood at his position and asked.

Since it was Chen Xiang, everyone knew that there would definitely be hope, especially those who were slightly dissatisfied with the Dan Alliance. They all waited silently for Chen Xiang to do something.

"I can't remember, but I can still refine it in the end!" Fang Sheng was still extremely confident, because at his age, it was really rare for him to reach the eighth level of Alchemist.

Chen Xiang laughed: "This means that Brother Fang has refined quite a few, but how can the quality be so poor? Furthermore, the pills produced are still too few! "

"Chen Xiang, all of the Alchemist here know that Small shaping Dan only produced one pellet, and the difficulty of refining it is extremely high. Ling Chen immediately sneered.

All of the Alchemist nodded.

Chen Xiang laughed: "My luck is good, I have also refined several batches of Small shaping Dan, I only produced two pellets, and its quality is high, I am not trying to steal from the wrong point of view, from my perspective, Brother Fang's pellets are only a waste of medicinal ingredients."

"Everyone can say that, but if you want to convince people, you have to show your true abilities, no? You can produce two Small shaping Dan, do you think that my Dan King came from nowhere? " Ling Chen laughed, his laugh was filled with contempt, with a trace of anger.

"If you want to cause trouble, then kick him out!" An elderly voice came from the private box. One could tell that it was a Dan King with a lot of power.

"What if I can refine it? In my opinion, you Dan King are just sitting in the well and watching the sky. " Chen Xiang shook his head and sighed, then turned and left: "This Dan Alliance's standards, are truly disappointing.

Chen Xiang had been to the Sacred Dan Realm before, so he truly had the qualifications to speak these words to them.

"Wait a minute, if you can refine two high quality Small shaping Dan, I will give you the one that Brother Dongfang gave me. If you can't, then why don't you stay in the Dan Alliance for a hundred years?" The old man said disdainfully, he thought that Chen Xiang was just bluffing.

At first, Wu Kaiming was a little worried, but when he saw Chen Xiang's calm face, he knew that the old fellow was about to suffer.

"Nature fruit? I have quite a few of these things, but they're too lowly in my eyes. A single Nature fruit is enough to win over the hearts of others. "Let's trade for something else." Chen Xiang shook his head and laughed.

Everyone was shocked, Chen Xiang was not trying to mess things up right now, but was trying to provoke the Dan King to reach their bottom line by mocking them for being bribed by Dongfang Lingyun, but what he said was too empty words, Nature fruit s were still very precious, how could Chen Xiang have many of them?

[Chapter 744](#)

Chen Xiang's words had angered the ten Dan King s, but they could not not not admit it. They accepted Dongfang Lingyun's Nature fruit, of course they had to help Dongfang Lingyun, as for what it was, they did not know.

Dongfang Lingyun gritted his teeth, because it was Chen Xiang who revealed his scheme, causing his reputation in the Dongfang family to decline, and the matter spread very quickly. He knew that it wouldn't be long before the news regarding this matter would spread throughout the entire New World, and at that time, he might even be punished by the Dongfang family.

"Chen Xiang, since you claim that you can produce two high quality Small shaping Dan, I believe you truly have the ability. Why not let everyone see for themselves, firstly, let everyone from far away see clearly, and secondly, you can also obtain a Nature fruit, why not?" Ling Chen calmed down and said indifferently.

One Nature fruit was already his bottom line. If he increased the bet again, if Chen Xiang really refined it, then it would be a huge loss.

Chen Xiang smiled slightly: "I am not here to cause trouble, I just feel that the establishment of the Dan Alliance is a good thing for the new world. To be able to let many famous alchemist communicate and spread the word of alchemy, this brat is able to refine two Small shaping Dan s in one go, that's only because I view them seriously, I definitely cannot sacrifice a large amount of medicinal ingredients for the sake of success.

"Then I would like to ask little friend Shen to enlighten us." Although Ling Chen agreed with Chen Xiang, he didn't care too much about concocting pills. As long as they could sell the pills, they would definitely sell anyway, no matter how much or how high the quality was. It wouldn't be easy to concoct pills by itself.

Chen Xiang walked up and took out a portion of Small shaping Dan's medicinal ingredients. For Alchemist s to be able to bring medicinal ingredients of this level with them, it meant that he had a certain amount of resources.

Since most of the people present wanted to see the results, Chen Xiang also took out his Yanlong furnace, with this Holy level Dragon Tool's furnace, his speed of refining pills would be even faster.

"Please check." After Chen Xiang took out the pill furnace, he gestured to have Ling Chen take a look inside.

If one was not a proficient in smithing, it would be impossible to see the strangeness of this Yanlong furnace. Yanlong furnace are very famous in both the Heaven Realm and the Sacred Dan Realm, but very few could recognize it so far, even in the Sacred Dan Realm.

After Ling Chen checked it and confirmed that there were no cheating mechanisms inside, he nodded his head.

After that, Chen Xiang quickly started to process the medicinal ingredients. His movements were extremely smooth, causing Fang Sheng, who was beside, to exclaim in his heart.

In the process of processing medicinal ingredients, not only would it be necessary to evenly distribute and remove the unnecessary parts of the medicinal ingredients, it would also allow the user to

understand the special characteristics of the medicinal ingredients and familiarize himself with the quality of the various medicinal ingredients. This allowed the Alchemist to accurately judge the quality of the medicinal ingredients when concocting pills.

After the Small shaping Dan s' medicinal ingredients entered the Yanlong furnace, Chen Xiang focused entirely on refining the pill. At the same time, he also operated the Foreseeing Alchemy, seemingly very serious.

Everyone was only looking forward to the results. They originally thought that they would have to wait a bit longer, because most people thought that it would take longer to refine a pill of a higher quality, not to mention producing pills.

But now, they did not have to wait for too long. Not even an hour, Chen Xiang had already opened the lid of the pill furnace and saw two bright red pellets shrouded by a light red mist. Chen Xiang blew lightly, and the mist dissipated, and the two Small shaping Dan released a bright red glow, as if they were spirits brimming with vitality.

It was clear to the quality that these were definitely high quality Small shaping Dan s, and two of them at that! The people in the great hall all took in a deep breath. While they were shocked by Chen Xiang's refining level, they were also envious of the Good Fortune Pill that Chen Xiang had obtained.

He was the closest to Chen Xiang. When Chen Xiang was refining the fire, the temperature of the weak flames changed endlessly, and he could feel that Chen Xiang did not cheat, using his true ability to refine two Small shaping Dan s in such a short period of time. No wonder he could not help but scold Fang Sheng for spending the medicine, and even said that Dan King like them sat in the well while observing the sky, because he had the qualifications!

The Dan King s kept saying that no one could refine two Small shaping Dan in one go, but Chen Xiang had actually refined one in front of tens of thousands of people.

In terms of strength, Chen Xiang could not compare to those Dan King s, and he could not compare to those who were refining high level pellets, but he was extremely confident in his basics.

Previously, when he refined the lower quality Small shaping Dan, he was complacent and thought himself to be very powerful. Adding that to Ling Chen's bragging, he truly thought that he was invincible, but now, he was severely shocked by Chen Xiang.

"What a pity, someone like him was not invited by the Dan Alliance."

"No wonder. The Dan Alliance s of these people have taken the ten Nature fruit of the Dongfang family, and Chen Xiang is a ten billion bounty person for the Dongfang family. How could they let Chen Xiang join their Dan Alliance?"

"Hehe, it seems that Dan Alliance is not that clean either!"

"As long as there are people in the area, it won't be clean."

Discussions were rife in the hall as the Dan Alliance's reputation was immediately affected. One must know that the majority of the people invited to be guests were people with a high position in the various powers, thus the Dan Alliance had lost a lot of face.

Of course, if those ten Dan King s knew what kind of trash Dongfang Lingyun was, they wouldn't have accepted the ten Nature fruit.

The Dan Alliance's Great Assembly was not that smooth. Originally, they had wanted to raise the profile of their Dan Alliance, let some young members with decent standards go up on stage to refine pills, and then properly brag about themselves. If they weren't exaggerating too much, Chen Xiang would not have gone up the stage.

Right now, not only was his image destroyed, there was also an old guy who lost a Nature fruit. After Chen Xiang obtained that Nature fruit, he only smiled slightly and kept it, then returned back to his seat.

The Nature fruit had not even gotten hot, yet it was already taken away by Chen Xiang just like that. This made the Dan King's heart bleed, but this kind of person who valued his face more than his life would definitely not go back on his words.

Of course, Chen Xiang's pill refining skills not only allowed the audience to broaden their horizons, it also allowed the Dan King s to have a deeper understanding of his pill refining skills.

The Dan Alliance's Great Assembly would continue on, today they were going to elect an Alliance Master. Although the start of the competition was not too good, Chen Xiang's appearance made everyone feel that it was worth it.

"Brother Shen's pill refining skills truly make me feel inferior. If you wish to join the Dan Alliance, you can make an application after the conclusion of this conference. We welcome Alchemist like you." Ling Chen laughed, his attitude not bad.

"Next up, the most critical time for us to begin this year's Congress is to elect the Dan Alliance's Alliance Master."

[Chapter 745](#)

The Dan Alliance's Alliance Master was the representative of the Dan Alliance, he held the highest authority in the Dan Alliance, and if one wanted to sit in this position, they would have to display their own strength. This was something that had already been said long ago, and these high ranking Alchemist from different worlds all wanted to participate in this competition.

"They definitely won't refine a Heaven level Pill, they should be refining a high grade Ground level Pellet. If they were to refine a Heaven level Pellet, the people here would have to wait a long time before seeing the results." Su Meiyao said.

It was not easy to concoct the Heaven level pills, it would take a lot of time. Furthermore, the materials were very limited and the environment was very demanding. If he was watched by everyone, it would affect his performance.

"Four Dan King s are invited. Next, they will use alchemy to display their strength and select an alliance master that we wholeheartedly admire." Ling Chen said.

They were all a few old geezers with white hair and beards, who looked as if they were only half-step into a coffin. However, it was these old geezers who caused many people to respect them and fawn over them, because they knew how to refine pills with extraordinary strength.

Normally, Alchemist would not fight to the death like warriors, if the other party was really powerful in pill refining, they would respect the other party. Just like Chen Xiang, even the other Dan King s secretly admired him, which was why they allowed Chen Xiang to join the Dan Alliance.

These four Dan King s gave off a scorching aura that caused people to feel suppressed. It was obvious that they wished to fight to the death right now.

"They will refine the Relive Dan. The first one they refine will be considered their victory." Ling Chen said.

Not many people present had ever seen a high grade Ground level like the Relive Dan, and only warriors who had cultivated in Nirvana Doom had ever eaten such a pill.

Chen Xiang also wanted to see the process of the Dan King refining Relive Dan. He naturally did not think much of the Relive Dan right now, because he had a lot of them, but he had never refined them before and they were not up to that level.

The four Dan King s took out their pill furnaces and their covetous medicinal ingredients. Even if the Relive Dan's medicinal ingredients were to be auctioned separately, it would still be extremely expensive.

"I feel that only by using the standard of first refining Relive Dan would it be difficult to determine the level of a Alchemist, because different Alchemist s will have different training methods when refining pills. Some Alchemist s will indeed have a much slower speed, but this does not mean that their quality will be bad.

Chen Xiang's voice suddenly sounded, causing the four Alchemist s to stop.

"Pill refining is not a competition, it should be a competition of quality. The difference between quality pills and superior quality pills is extremely important. I think it should be decided by quality rather than time." If we pass through speed, Alchemist would not care about quality and would only care about speed.

"I could have refined a high-quality pill, but for the sake of speed, I have refined a high-quality pill. What a waste of money!"

What Chen Xiang said was logical, how could the Dan King not know of it?

"But the result is hard to assess. What if all four Dan King are able to refine high quality ones?" Ling Chen said. Actually, the reason for this competition was to rush the time, because the time needed to refine a high grade Ground level pill was endless. If it was too long, it would definitely cause people to become bored.

"If this pill is of high quality, then whoever concocts it first wins. In short, regardless of how slow a pill is, the quality of the pill is still better than the quality of the pill. Making full use of the ingredients to concoct pills is much harder than quickly concocting pills." Chen Xiang said.

The pill refiners all knew that this evaluation was fair. If used well, one could be fast and have high quality, allowing the Alchemist to take into account two aspects during the competition.

Ling Chen could only modify the rules now, because the Alliance Master wanted to convince them wholeheartedly, and the Dan King s had no objections. After all, Relive Dan were very precious, and they did not want to create an inferior quality just because of this.

"If it was a powerful Alchemist, how long would it take to refine a Relive Dan?" Chen Xiang asked Su Meiyao.

"I need at least one day and one night. If it's of low quality, then it can be solved in half a day. Of course, I only refined two pills. They should only be able to refine one pill at their level, which should be enough for one day and one night." Su Meiyao said.

"So that's how it is. I thought it would have been used for a long time!" Chen Xiang curled his lips. The shorter the time, the less complicated the Relive Dan was, unlike the previous time used to refine those Heaven level s, which made Chen Xiang a little afraid.

"Earth Grade Low Rank Dan, it's only been an hour since you used a Yanlong furnace. As your Alchemist's level increases, the refining speed will be even faster, and the Alchemist with Fire Soul will be even faster. I don't have a Fire Soul, so it can be considered slow." Su Meiyao said.

Therefore, he could bear with it for the next two days. On the other hand, Chen Xiang was able to use the Heaven tour method and go out to play, to ask around about some things.

As long as they were famous, it would spread very quickly. Dongfang Lingyun's dirty news had already spread to Dan City, and most of them were spread from Heavenly Emperor City, and the people who heard of Dongfang profoundlong's confession all came from many different places in the new world.

It seemed that all of them were at a critical moment, and that most of the people who could come here were Alchemist and some of the big shots, and they were all very patient, so the creation of the Alliance Master was very important to them, because every force needed pills. If they could establish a good relationship with the Alliance Master at the first possible moment, then it would be easier for them to obtain high level pills in the future.

In the next hour, the lid of the furnace was opened by the four Dan King s one by one. The fastest and slowest difference in concocting time was not big, and the levels were about the same. Furthermore, they could be refined within the time that Su Meiyao had expected, which meant that they had a certain level of skill, and were Dan King s who could refine Heaven level Pills.

The Relive Dan that the four of them refined were all of high quality. If they wanted to refine the lower quality Relive Dan, they would take a few hours. If not for Chen Xiang, they would waste all four batches of precious Relive Dan medicine in order to refine the lower quality pills.

"They are all high quality Relive Dan, and the result can now be seen by everyone. I think this should be the peak level for refining Relive Dan. Of course, if our little friend Shen can reach this level, you might be able to refine two pellets in one furnace. " Ling Chen said with a smile.

Yeah, if Chen Xiang can make two small transformations, could this Relive Dan also do the same? This reminded everyone of the fact that Chen Xiang had a large number of Relive Dan, and they all secretly suspected that Chen Xiang knew how to refine Relive Dan!

I, Qin Han, can become the alliance master of the Dan Alliance. I will definitely let the Dan Alliance prosper, and will unite the Alchemist to benefit the new world. " An old man with yellow hair said.

Hearing this voice, Chen Xiang secretly laughed, because this old man was the one who lost the Nature fruit to him.

To benefit from the new world, you have to have wealth and power to be able to benefit from the Dan Alliance.

After the leader of the Dan Alliance was chosen, the news spread throughout the entire New World. The Dan Alliance was also viewed as the center of the new world's unity now, because the members of the Dan Alliance were all from many forces.

The higher the level, the more Spar there was required. But all the medicinal ingredients came from the Dan Alliance, so the Dan Alliance had to gather a lot of s, which made it a bit more rich in medicinal ingredients, and only higher level tests required a lot of medicinal ingredients that were above average for the middle grade Ground level.

After returning from the Dan Alliance s, Chen Xiang felt an indescribable excitement in his heart. This was because he was preparing to compete with the Elder Dan s and refine two types of Earth Grade Low Rank Dan s.

Although he was confident, he definitely would not underestimate his opponent. Elder Dan was a mysterious woman who was unfathomable.

Inside the Super Dan Imperial College, Chen Xiang did not see the Elder Dan. He sat in the middle of the courtyard and waited for the Elder Dan.

The Super Dan Imperial College's door suddenly opened, and a few people walked in. This was the first time Chen Xiang saw so many people appearing inside the Super Dan Imperial College, and he recognized all of them.

Gu Dongchen, Wu Kaiming, Liu Meng'er and Dongfang Xinyue were all invited by the Elder Dan, so they were naturally here to make the competition more formal.

"Why did you invite so many people? Isn't it good for us to compete in secret?" Chen Xiang curled his lips.

"Are you afraid that you will lose in an unsightly manner and won't be seen by others?" Elder Dan said coldly: "Don't underestimate the competition between you and I, we are not simply refining two kinds of Earth Grade Low Rank Dan."

Chen Xiang didn't know the rules, so of course he would think that way. In his mind, no matter how difficult it was, wouldn't it be refining pills?

Chen Xiang glanced at Dongfang Xinyue, the beautiful female slave, and sighed in his heart. If he didn't become stronger, he wouldn't be able to take her in.

"With my cultivation and pill refining experience, I've taken advantage of you. In order to be fair, we have to go somewhere." The Elder Dan said.

"It's up to you!" Chen Xiang spread out his hands. Initially, he thought that the Elder Dan would keep this competition a secret, but they had actually invited four people over.

"Junior Martial Uncle, you should be more serious. You will know how terrifying that place is. In my opinion, you can match up against that crazy old man's dog nest." Gu Dongchen laughed bitterly.

Chen Xiang's heart skipped a beat, this Gu Dongchen actually knew of that place, he looked at Liu Meng'er and Wu Kaiming, they also knew of it.

"That is a dangerous place in our Chen Martial Continent, there is a very powerful force that can confuse other people's minds, but it will not let them die, at most, it will only make them go crazy, let alone you, even if we, with our strength, go there, it will be easy for us to go crazy from all the commotion." When Wu Kaiming said this, his face was filled with fear.

Chen Xiang now understood that concocting pills was not as easy as it usually was. He actually had to be in this kind of environment.

"In there, no matter who it is, it will have the same effect. If your mental strength is not bad, you will be able to endure it." Elder Dan's voice carried a hint of a cold, disdainful laugh. She felt that a pervert like Chen Xiang would fall down very easily.

Chen Xiang groaned. "If I lose, what benefits do I get to you?"

Elder Dan laughed out loud. "If you lose, I will be very happy.

"That's true. Even if you win, that's only to show me my face. There won't be much loss. We'll just end it here." Chen Xiang shrugged his shoulders.

"That's not right. Even if I lose, I still have to fulfill my promise to be your slave!" Elder Dan's voice was firm.

Chen Xiang glanced at Liu Meng'er, his eyes filled with helplessness.

"Actually, Senior Sister just can't take it anymore, because no one has ever resisted her. When you just entered the sect, you had a conflict with her ..." Wu Kaiming sighed.

"Hmph, I'm her martial uncle now, is she going to suffer even more from this? "If you have the guts, go and scold that old lunatic." Chen Xiang curled his lips.

"Cut the crap, let's go." Even the Elder Dan was extremely afraid of Huang Jintian, the crazy old man. It was obvious that Huang Jintian was even ruthless to women.

Chen Xiang and Wu Kaiming sat on Gu Dongchen's hexagonal flying disc, Dongfang Xinyue and Elder Dan sat on Liu Meng'er's jade lotus flying disc. Elder Dan and Liu Meng'er's relationship had always been good, even though they didn't meet each other often.

"Sister Warm Moon, has the matter with the Dongfang family been resolved?" Chen Xiang suddenly asked. Seeing Chen Xiang shout so sweetly, Wu Kaiming and Gu Dongchen could not help but think about it, secretly looking down on him in their hearts. He actually wanted to seduce Dongfang Xinyue.

Elder Dan started to groan coldly in his heart.

"Hehe, I will take care of it. My brother has been sulking for so long, and now that the chance has come, he will definitely seize it. When the time comes, I will also go and help him." Dongfang Xinyue said with a light smile. The gentle and sweet expression in her eyes when she looked at Chen Xiang, was very dubious.

Chen Xiang laughed: "If we need help at that time, my Super Martial School will definitely do his best to help. Right, a lad, little baldy!"

It was not like Chen Xiang was the one fighting, of course he would be relaxed talking about it. With a single sentence, he had sold both Wu Kaiming and Gu Dongchen out, it was impossible for them to reject him now, so they could only force a smile and nod in agreement.

"Warm Moon, I will help when the time comes. The return of the Dongfang family to the hands of your siblings will allow the entire new world to become more stable." Liu Meng'er said.

"Since Dongfang Lingyun has used such despicable methods to seize power and even wanted to kill our Super Martial School, at that time, we will not be lenient." Gu Dongchen said: "I'll see if I can call the people from the Alliance over."

He had never heard of the dangerous place that Gu Dongchen and the others were talking about. The place that could cause strong warriors like them to feel fear was definitely not an ordinary place, especially one that possessed the confused power of mind.

Gu Dongchen and Wu Kaiming seemed to be extremely familiar with this place. This place should be very famous, but he had never heard of it before.

[Chapter 747](#)

In the air above the beautiful mountain forest, Chen Xiang was currently looking around and did not discover any dangerous situations. Even though the spirit energy here was sparse, because of this, very few people came here.

"There is a profound Realm nearby!" Long Xueyi seemed to have sensed something, "The dangerous place that can confuse the mind may very well be within that profound Realm."

The Elder Dan saw Chen Xiang's confused face and said: "Only a few of us Rankers know about this dangerous situation, and it's even in a profound Realm, I don't know how this profound Realm was formed, it's just like that profound Marital profound Realm, who can make people unable to use the Innate Qi, and at the same time, has a kind of extremely powerful bewitching energy."

Cannot use Innate Qi? Chen Xiang was extremely confused, "Then how do we use fire to refine pills?"

It was not the first time Gu Dongchen, Wu Kaiming and Liu Meng'er had entered a profound Realm that could not use the Innate Qi.

"I use this method to cultivate as often as I can." Elder Dan passed Chen Xiang a pearl. This was Fire Accumulation Bead, it could store a large amount of flames inside, and in Liu Meng'er and Dongfang Xinyue's hands, there was one of Chen Xiang's Fire Accumulation Beads.

Suddenly, Chen Xiang felt that the difficulty of the pill refining had become great, because this was the first time he was using this method to refine pills. If he could not use Innate Qi, he would not be able to directly release the flames inside the fire bead.

Chen Xiang held onto the Fire Storage Bead and began to pour his Heaven fire into it, and then asked: "After entering, anyone would be confused by that kind of power, what about them?"

"Don't worry about us, all of us have formations protecting us from those powers." Liu Meng'er said, then looked at Gu Dongchen with a smile.

The hexagonal flying disc beneath Gu Dongchen's feet was created by Liu Meng'er. Back then, Liu Meng'er had killed him with one slash, and this was still unforgettable for him. However, the treasures that Liu Meng'er had refined were indeed good stuff.

"So you're saying that when the time comes, we'll be in an environment that's filled with the power of gods, and then use the fire from the Fire Storage Pearl to concoct pills?" Chen Xiang suddenly felt a lot of pressure, because he only knew how to refine a type of Earth Grade Low Rank Dan. Using the Foreseeing Alchemy to refine an unfamiliar pill in that kind of environment was not easy at all.

"That's right, this is fair to you, when the time comes, I will refine a Earth Grade Low Rank Dan that I have never refined before." The Elder Dan said.

What Elder Dan had never refined before were definitely those pills that were rarely used. These pills either had little uses or were extremely difficult to refine, so no one cared about them.

"For a truly powerful Alchemist to be able to concoct pills in such a terrible situation, you probably haven't tried it yet, right?" Elder Dan laughed coldly: "I always refine pills in this kind of environment."

Chen Xiang's brows twitched. Alchemist needed a very strong consciousness. In that environment, it could indeed make his consciousness even stronger.

The entrance to the profound Realm was extremely secretive, and was at the bottom of a lake. After entering the profound Realm, Chen Xiang immediately saw an empty piece of land.

"This is a pill furnace!" Elder Dan waved her hand and threw a pill furnace that was of decent quality to Chen Xiang. He had the same pill furnace as Elder Dan.

Gu Dongchen warned him, "Junior master, if you stay here for twelve hours, you will become a lunatic. Some of the old guys who managed to get past the Nirvana Tribulations once went crazy by exploring this place."

Liu Meng'er also had a serious look on his face, "We are currently protected by the formation, so we are fine. The moment you step out of the flying discs, you will immediately be disturbed, so it would be best for you to obediently stay in your original spot to concoct the pills, because the energy in the deepest parts of your body will be even more powerful.

"Take it. Inside the black box is the medicinal ingredients for the God Power Pill. The red box is the Spirit Returning Pill!" To open the red box, you need a lot of energy. You need to consume a God Strength Pill in order to open it easily, and the Spirit Returning Pill is mainly used to allow you to stay unaffected for a short period of time. " Elder Dan tossed two large boxes to Chen Xiang and continued to speak: "Inside

these two boxes, there are medicinal ingredients for the Profound Soul Refining Pill. The victor will depend on the quality of the Profound Soul Refining Pill."

Chen Xiang took the two boxes and carefully examined the competition rules. These rules could be said to be extremely dangerous, but it made him a little unhappy, because previously, the Elder Dan said that he was only refining two types of Earth Grade Low Rank Dan s through a competition, but now, there were three types of pills that were extremely difficult to refine.

As matters stood, he could not say anything. He only treated this as a form of training and he could tell that this was something that the Elder Dan had meticulously prepared. It was beneficial to him because he had never experienced this kind of competition before.

"If you are ready, step out of the Frisbee. If you want to cheat, they can see it clearly." The Elder Dan said.

Chen Xiang held onto the pill furnace and checked it. Then, he jumped out of the hexagonal flying disc that Gu Dongchen was on, the moment he jumped out, he suddenly heard a loud sound of ocean waves, and he was on a deserted island. He was standing on the beach, and the ocean water was rushing slowly, the cool and refreshing water was extremely real.

Chen Xiang found it hard to believe that this was happening because his mind was confused, because all of this was very real. He immediately looked around him, only to find that Gu Dongchen, Liu Meng'er and the rest's Frisbee had already disappeared.

However, Gu Dongchen and the others could see that Chen Xiang was like an idiot, spinning on the spot, while Elder Dan was already concocting pills on the spot.

Chen Xiang quickly understood that his five senses had been confused. This was similar to the illusion in the Seventy-two changes, but what frightened him the most was that he actually lost contact with Su Meiyao and the others. He called out to Long Xueyi a few times in his heart, but he did not reply.

When Liu Meng'er saw Chen Xiang's frightened look, he could not help but chuckle. "This idiot, he's so scared he doesn't know we're looking at him."

"Is that bewitching power really that powerful?" Dongfang Xinyue asked, she had never tried it before.

"Hmm, staying long can definitely make a person go crazy." Liu Meng'er said.

Of course, Chen Xiang could hear their conversation, but he could also hear the sound of the sea and the long hissing of the eagles in the blue sky.

"Little Scoundrel, hurry up and refine the pill. There are quite a few people staring at you in a daze." Long Xueyi's voice suddenly came out.

Chen Xiang was overjoyed, and asked anxiously: "Where is sister Meiyao?"

"I'm here, I didn't expect this kind of bewitching power to be so strong. What I saw was the same as what you saw, and Xue Yi's Heaven tour method was also useless. No matter how far I flew, what I saw was the sea." Su Meiyao exclaimed.

[Chapter 748](#)

Su Meiyao and Bai Youyou's consciousness were strong. Although they could not go far like the Heaven tour method, they could clearly see the voices, smell, aura and sights around Chen Xiang. At this time, their divine senses would also be affected, and what they saw would be the same as what Chen Xiang saw.

Being able to connect with these three women also made Chen Xiang heave a sigh of relief. "Then, will you be affected within the Youyao Yugong?"

"As long as we release our consciousness, I will also see whatever you see! But Gu Dongchen and the rest are still beside you, I think that Elder Dan must have started to refine pills too! She's already familiar with this kind of environment, so she has a huge advantage. No wonder her hidden energy is so powerful, it's because she's cultivating in this kind of environment." Su Meiyao said.

Thinking that he was seen as an idiot by others, Chen Xiang felt very unhappy, he quickly put down the furnace and opened the red box, he then started to process the ingredients needed to concoct the God Power Pill.

There weren't many medicinal ingredients in the God Power Pill, nor were there any supplementary medicinal ingredients. There were only a few stone-like fruits, dark and unassuming. They were ice-cold to the touch, and one could tell at a glance that they were very difficult to burn.

"I've only made this God Power Pill twice, and it's a failure every time. It's a type of cold core that doesn't have much use. The ingredients are rare, and the difficulty is high." Su Meiyao sighed softly, "This Elder Dan has really put a lot of thought into this! "If you can't concoct this divine strength pill, you will lose the competition for sure."

Lose? Although he had lost nothing, Chen Xiang did not want to lose at all. He knew that his level of refining the Ground level Pellet was limited and he had only refined Nine quenching body Dan s before.

"What's the main problem?" Chen Xiang followed the records and started to polish the stone-like medicinal ingredients. It had to be polished until it was smooth before the flames could penetrate it.

It's very difficult to burn, but once you burn it too much, the herbs will be broken. This kind of fruit with great strength, usually two of them can refine one furnace. There are four of them here, and they can allow you to refine two of them.

"You only have three chances of failure. I think you should be able to succeed." Su Meiyao encouraged her: "Don't ever lose to Elder Dan, she will laugh you to death."

"We can't lose!" Chen Xiang was extremely determined, he increased his speed to grind the strong fruit.

"That's right, it's the same as the Chunyuan fruit. If it explodes, then it will generate a lot of power. Be careful not to cause your pill furnace to explode." Su Meiyao warned.

Chen Xiang placed the Fire Accumulation Pearl on the lower level of the pill furnace and used his consciousness to control the flame inside to release, then placed the fruit into the yellow pill furnace. The quality of the pill furnace was not bad, but it was only not bad, and once there was an explosion, it would be easy to damage.

Of course, Chen Xiang had always used the Holy level Dragon Tool like the Yanlong furnace to refine pills, even if he had to concoct an immortal pill to explode, it would be difficult for the Yanlong furnace to damage it.

"Does he only use this little amount of medicinal herbs?" Gu Dongchen said, even a few Alchemists did not know much about these cold core, let alone an amateur like him.

Inside the box, not only were there ingredients to refine Energetic Pills, there were also ingredients for half of the Nine quenching body Dances.

When Chen Xiang first started refining the pellet, he used up a lot of his spirit power. Because the fire was not released by his body, he could not control it as he wanted, and could only use his spirit power.

In the beginning, Chen Xiang's progress had been rather smooth, he had mastered the Foreseeing Alchemy well, even though he had consumed a lot of spiritual sense.

During the training, he had made numerous mistakes, but he was able to correct them in time so as to avoid making mistakes. Just when he felt that the training had calmed down, a roar rang out.

"Motherf*cker, will these hallucinations affect me? That's easy my ass!" Chen Xiang was suddenly worried.

"I don't know, I don't think so. This is just affecting your mind!" Long Xueyi said.

A giant beast suddenly jumped out of the sea, its body was full of long black thorns, it was shaped like a cow, and its body was huge. When it landed on the ground, the entire island shook violently, and the sea became turbulent.

The huge beast looked at Chen Xiang and roared, and then pounced towards Chen Xiang. Chen Xiang was startled, and subconsciously dodged, and even hugged onto the pill furnace.

After dodging, the array sea suddenly swept over, causing Chen Xiang to be unable to dodge and get hit by the array sea head. However, his body did not feel anything and it was only an illusion.

Gu Dongchen and the others who were watching from the side also felt that it was extremely funny.

Suddenly, the pill furnace started to shake, Chen Xiang was shocked, he anxiously opened the lid of the furnace, letting the energy from the fruit to gush out, to prevent the pill furnace from being destroyed. In that case, if he used the Magic method furnace, the pressure on his mind would be even greater.

After the sea passed, Chen Xiang realised that the scenery around him had disappeared. It had become a gloomy and gloomy wasteland, and corpses could be seen everywhere. Some of the corpses were rotting, and a stench was being emitted.

"In your last hallucination, you were probably dead. That's why you came to this other illusion." Long Xueyi said in a serious tone: "If you die in this illusion, the following illusion will be even worse."

"So what? This is all an illusion. As long as I don't see it, I will not be affected by it." Chen Xiang continued to place the Great Strength Fruit in it. This new refining process was indeed easy to drive people crazy, but he was confident that he would not be turned into a madman.

Elder Dan was very quiet from the beginning to end, she did not make a fuss like Chen Xiang did. After all, she was cultivating here.

Chen Xiang closed his eyes and quietly refined the pills, but suddenly heard a "Kacha" sound, as well as a series of low and sinister howls, the cold wind blew, causing him to feel cold. When he opened his eyes, he could not help but exclaim in shock, because he saw a person eating the rotten corpses in the distance.

"It's just an illusion!" Chen Xiang took a deep breath, his mental fortitude was not bad, and quickly threw all of these to the back of his mind.

The most unbearable thing was the chewing sounds. Moreover, there was a certain kind of power that guided him to imagine that disgusting scene. Combined with that stench, it almost caused him to shatter the pill furnace.

A series of footsteps could be heard, and his twitching eyelashes suddenly lifted. An extremely sinister looking old man crawled towards him. His eyes had already been dug out, and some green stuff was left in his mouth.

If this was not an illusion, Chen Xiang would definitely throw the pill furnace at him without any hesitation, affecting his mood.

[Chapter 749](#)

Chen Xiang now understood why this place could make people turn into madmen. This kind of illusion was extremely unbearable, whether it was real or fake, he couldn't do anything, and furthermore, he was still concocting pills, not to mention concocting pills that he was unfamiliar with, even if he tried to concoct pills, it would be difficult to concoct them in this kind of environment.

He felt that even if all the girls he knew were stripped away, he would still be able to calm down and concoct pills. But now, this disgusting thing that was half dead ... But he walked closer and closer.

The worst part was that there were more and more of them. He was not afraid, but he felt disgusted.

"They're coming over, what should we do?" Long Xueyi asked.

If it was real, Chen Xiang could kill one with a single punch, but it was all an illusion. If he made a move, he would be tricked, but he would not make a move, and these disgusting things might even climb onto his body.

"F * ck off." Chen Xiang couldn't help but take action, his palm struck the old man who came over first, and after hitting the head, a thick green substance exploded out, splattering all over his body.

"Is this true?" Chen Xiang's eyes were wide open. He could clearly feel that thing that was like sauce stuck to his body, and it had even slowly stayed behind.

"Illusion, your five senses have been affected by the illusion. That's why you think that it's really true. Endure it, and don't attack again." Long Xueyi said.

Chen Xiang's body trembled, he closed his eyes and roared out in his heart, "Endure it ..."

Just as he was determined to endure whatever happened, something crawled up behind him, and when he turned to look, he saw a very disgusting woman with half a head, kissing his handsome face with that mouth.

"I can't take it anymore." Chen Xiang roared out explosively, grabbed onto the half of the head and flung it with great force. At this time, the half dead corpses all crawled over, and many of them crawled onto his body to bite him.

"All of you, scram." Chen Xiang held the pill furnace in one hand, waved his fist around, opening up all the things on his body.

Dongfang Xinyue giggled when she saw that, "The power that can confuse one's mind is so powerful, I really want to give it a try."

"If you are not like the Elder Dan who is trying to gain experience, it would be best if you did not try." Liu Meng'er's face was also covered in a mischievous smile.

Of course, Chen Xiang didn't know that others were laughing at him, but he knew that if this continued, he wouldn't be able to concoct any pills.

"You can only seal your five senses and enter a state where only you and the furnace can do so. Do you still remember when you accidentally entered the best condition for your cultivation?" Su Meiyao said.

Chen Xiang immediately replied, "I remember. At that time, I felt that even the time had changed!"

"That's right. Pill forging can also mean that you have reached such a level. Try it yourself, otherwise, you will lose for sure." Su Meiyao said.

Chen Xiang started to feel that the reason Elder Dan came here to cultivate was perhaps to pursue that realm, and perhaps she had already achieved it. Even though he and Elder Dan did not interact often, he felt that there was a very intimate feeling between them, and always felt that Elder Dan was very familiar.

He suddenly felt that the Elder Dan had purposely placed her here for him to comprehend that realm. It was for his own good.

Chen Xiang slightly sighed, he breathed with a rhythm, and did not care about the rotten corpses pulling his hair or chewing his flesh, he was completely focused on refining the pills.

Elder Dan had already finished refining the God Power Pill. After consuming the God Power Pill, her power had increased by a lot, so she opened the black box. Inside the box were the ingredients to refine the Spirit Recovery Pill and the other half of the Nine quenching body Dan.

However, Elder Dan did not refine the Spirit Returning Pill, and had even directly refined the Nine quenching body Dan. If Chen Xiang were to see it now, he would understand why Elder Dan had said before that there were only two kinds of Earth Grade Low Rank Dan s to refine during the competition.

But she felt that Chen Xiang might need it, so she made the arrangements for Chen Xiang. After consuming the Spirit Returning Pill, it would allow a person to not be distracted for a short period of time, so they would be able to calmly refine the Nine quenching body Dan.

Being pressed down by a group of disgusting corpses was indeed very uncomfortable, but Chen Xiang was able to calm his heart and isolate the illusions that were affecting him.

In this kind of suffering, Chen Xiang had finally burned away the Energetic Fruit and turned it into medicinal powder and Medicine aura. After seeing some results, he was secretly happy in his heart.

The flames he used were from the Fire Accumulation Pearl, and he had suffered greatly from the effects of the mental confusion that had caused him to progress to this point. Thus, he was quite satisfied with his own performance.

At this point, the effects of the hallucinations were gradually weakening. At least, when he ate his body, he would not feel any pain. After closing his eyes, he could not even hear any sounds, and the stench gradually disappeared as well.

He, who had gradually entered the higher realms, had increased his speed by a lot. When he reached the Core Formation stage, only with his rich pill refining experience could he compete with the Elder Dan in such a harsh environment.

Consuming the God Power Pill would increase the strength of the body, and for most of the powerful Innate Qi warriors, the power of the body would not be of any use at all, so it was a type of pill that was rarely used.

But in this environment where he couldn't use the Innate Qi, this God Power Pill was extremely useful.

Looking at the grey pellet in the furnace, Chen Xiang waved his hand and slapped away a person who climbed to the side of the furnace.

Chen Xiang did not eat the God Power Pill, but instead tried to see if he could open the black box. It was difficult to open no matter how much strength he used, so after consuming the God Power Pill, his body's strength suddenly increased by a lot, allowing him to open the black box very easily.

"The difficulty of refining the Spirit Returning Pill isn't too high. Under normal circumstances, you should be able to deal with it easily. However, now ..."

Chen Xiang interrupted Su Meiyao and said: "Elder Dan said before that the final result would be the quality of the Nine quenching body Dan. If I were to start refining the Nine quenching body Dan now, I can skip over the Divine Restoration Pellet."

"You're right, but there is only one set of Nine quenching body Dan's ingredients. If you fail, you will lose, and if you concoct the Spirit-Returning Pill first and eat the Divine Returning Pill, you can easily concoct the Nine quenching body Dan." Su Meiyao said.

"However, I don't have much flame in the Fire Accumulation Pearl anymore. If I were to concoct the Spirit-Returning Pill, I might not have enough flame." Chen Xiang said. The fire stored in the Fire Storage Pearl was limited, but he had failed once in refining the God Power Pill, which was why he had consumed so much energy.

The Nine quenching body Dan was something that Chen Xiang had successfully refined and had even refined a Peak quality, so he was confident that he would succeed on his first try!

[Chapter 750](#)

In the eyes of the spectators like Gu Dongchen, Elder Dan was way ahead of Chen Xiang. Although Chen Xiang had refined a God Power Pill later on, but compared to Elder Dan, it was really a far cry from it. It was because Elder Dan was not affected by the confused mind and energy, while Chen Xiang was tormented like an idiot.

Even now, Chen Xiang would wave his hands from time to time to open up the corpses on his body. Of course, this was all an illusion, to others, Chen Xiang's body was completely empty.

Chen Xiang was still unable to enter that state to concoct pills, he could successfully concoct God Power Pills, but in the process of concocting, he was still disturbed. He could only rely on his extremely strong mental strength to persevere through, if he was disturbed from concocting Nine quenching body Dan, if he failed, there would be no chance at all.

"It seems like the amount of fire stored in this Fire Storage Pearl was carefully planned by Elder Dan. If the fire is not enough, refining the Nine quenching body Dan will fail as well." Su Meiyao said. The pill refining dilemma Chen Xiang was facing was unprecedented.

"Just refine the Nine quenching body Dan!" Chen Xiang frowned, his face was disgusted as he looked at the Corrupt Corpses approaching him, and with a tremble, he pushed them away, making him feel better.

However, right at that moment, a gloomy and gloomy roar suddenly came out, the ground slightly trembled, and a rotten beast came out from the ground, rushing straight at Chen Xiang.

Although it was just an illusion, Chen Xiang knew that too. Thus, he did not plan to dodge it, but in his heart, he could not help but feel an unusual stimulation. The huge beast rushed over and swallowed Chen Xiang whole.

Chen Xiang had died in that illusion just now, and had arrived at an area with an even worse environment. The entire place was filled with thick red blood, and as far as the eye could see, a sea of blood, and the stench of blood that drifted about, made people feel nauseous. At the same time, waves of a dark wind was blowing, causing Chen Xiang to feel extremely cold.

Although there weren't any disgusting rotting corpses this time, there were all sorts of wails and hisses coming from all directions. That kind of sound was as if the evil spirits of hell were being tortured.

Chen Xiang suddenly felt that this place was like hell. If he died under this illusion, he would go to an even more terrifying place.

The deeper he went, the more felt that everything around him was real. At this moment, that roar filled with endless hatred made him feel extremely uncomfortable, his heart felt like it was being pierced by needles, and his head felt waves of pain, making him unable to concentrate on concocting pills.

In this state, not to mention concocting pills, it was difficult even for him to process the medicinal herbs because under the noise, he became restless.

Even though Chen Xiang had covered his ears, he could still hear them clearly. The voices did not come from the outside world, but had come from his brain, which had already been deceived by the mysterious power, and could allow him to hear these nonexistent sounds.

"I must overcome this!" Chen Xiang clenched his fists tightly, closed his eyes, and tried his best not to be affected by the sound. Then, he slowly relaxed and thought about nothing ...

Time trickled by, and Chen Xiang's tightly knitted eyebrows loosened up. Right now, he felt much better, and when he opened his eyes, he suddenly saw that his surroundings were empty, as if there was nothing between heaven and earth, just him and the pill furnace. This was his own world, a world of consciousness that would not be affected by any outsiders.

Chen Xiang had finally entered this spiritual world that belonged to him. At this moment, he had completely lost all contact with the outside world and the three women inside the Youyao Yugong were unable to talk to him.

Elder Dan had already finished refining the Nine quenching body Dan, and were two high quality Nine quenching body Dan. Elder Dan was very satisfied with his result, but seeing that Elder Dan had succeeded, Liu Meng'er immediately controlled his flying disc to fly over, pulling the jade face flying disc over.

"This kid hasn't started to forge pills yet?" She had high expectations for Chen Xiang. The reason she brought Chen Xiang here was so that Chen Xiang could master a power that many Alchemist didn't have, and that was to enter his own Spiritual World.

"He just finished refining the God Power Pill, and then he became like this." Gu Dongchen said: "Junior Sister, Junior Martial Uncle's level is much lower than yours. It looks like you have victory in your hands, you don't need to marry him."

Dongfang Xinyue was a little surprised. This Elder Dan had such a high level of alchemy, after all, he could be considered a Dan King. He actually had this sort of agreement with Chen Xiang.

When Elder Dan saw Chen Xiang's calm face, she secretly sighed with emotion. She could tell that Chen Xiang had already submitted to her with great difficulty, and it had taken her a very long time to reach this realm. It was just as she had imagined, Chen Xiang's potential was extremely terrifying.

"Not necessarily!" Elder Dan said in a deep voice.

Gu Dongchen was startled, and a look of worry actually appeared on his face: "Junior Sister, if you were to become his woman, then wouldn't your seniority be a generation higher than me?"

"Humph!" The Elder Dan snorted and quickly shut Gu Dongchen up.

Chen Xiang took out the Nine quenching body Dan's medicinal ingredients and started to carefully process them. Right now, he did not think too much about it, the competition with the Elder Dan had been thrown to the back of his mind. The current him only wanted to refine this Nine quenching body Dan well, even if the sky were to fall on him, it would not affect him.

"The flames are not enough!" Chen Xiang held the Fire Accumulation Orb and was able to accurately determine it, but he was not the least bit worried.

Because Chen Xiang was disturbed earlier, he slowed down his refining speed and used his flames to slowly burn them little by little, causing the flames to consume too much energy.

However, Elder Dan saw that Chen Xiang did not have a single trace of worry, which meant that Chen Xiang had a way to fix it, which made her feel extremely surprised.

"If he doesn't have enough flame power, how will he deal with it?" The Elder Dan muttered.

Suddenly, Chen Xiang smashed the pill furnace with his palm, causing everyone to open their eyes wide in shock, Chen Xiang actually destroyed the pill furnace!

Especially Dongfang Xinyue, she immediately shouted: "Is he admitting defeat now? "If he doesn't have a pill furnace, how is he going to concoct pills?"

However, Liu Meng'er and the people who were familiar with Chen Xiang knew that he still had a mystical Magic method furnace. It was just that they couldn't understand why Chen Xiang destroyed that perfectly fine pill furnace.
