

Dan God 801

[Chapter 801](#)

Other powers might fear the Super Martial School, but that was not true for the Tong Tian Aristocratic Family, because they were extremely confident in their own strength and they were also from the ancient Tong Tian Aristocratic Family, so at this time, the matter had already spread throughout the entire New World. If the Feng Clan did not settle this well, they would definitely be mocked, so they had to take Chen Xiang down.

Inside the Super Martial profound Realm, Chen Xiang was currently eating barbecue with a slovenly, white-haired old man.

"Little bastard, your peerless tribulation is too satisfying. I want to give it a try too, haha ..." After Huang Jintian heard about Chen Xiang's tribulation, he laughed loudly.

"Master, if that wasn't the fire tribulation, I would have died a long time ago. You still have the heart to laugh here!" Chen Xiang said snappily.

"Hehe, if you weren't Alchemist, you might not have been struck by fire tribulation." Huang Jintian laughed.

When an Alchemist transcends tribulation, their power will become even stronger. However, even in the midst of the tribulation of two thousand people, Chen Xiang still could not feel if his Nirvana Doom was stronger than others.

"Master, what is the background of the Tong Tian Aristocratic Family? Damn it, they actually said that the Taiji Dragon-suppressed kungfu was created by their ancestors, and they even wanted to snatch my blade, saying that my blade is related to their Tong Tian Aristocratic Family's ancestors." As Chen Xiang spoke of this matter, his face was still filled with anger.

"Motherf*cker, if it wasn't for the fact that they were hiding somewhere in profound Realm with an old guy, I would have almost killed a Tong Tian Aristocratic Family all those years ago!" Huang Jintian was instantly enraged, and smashed a piece of meat in his hands onto the ground fiercely. "This group of fellows appeared? Back then, when I was travelling across borders, I was hunted down by a group of bastards who wanted to snatch my Taiji Dragon-suppressed kungfu!"

Chen Xiang was stunned, these Tong Tian Aristocratic Families were truly too shameless, as long as they had powerful martial arts, he would just say it was theirs.

"Kid, let me tell you, if someone is interested in stealing your Taiji Dragon-suppressed kungfu, even if he's the god of the heavens, we can talk after we kill him." Huang Jintian warned him with a serious expression: "We must not let the Taiji Dragon-suppressed kungfu land in the hands of Tong Tian Aristocratic Family."

Chen Xiang nodded: "I understand!"

"Tong Tian Aristocratic Family, they are indeed not weak. The reason they are called Tong Tian Aristocratic Family is because their path to heaven is unimpeded and unimpeded, is because they will not encounter Nirvana Doom, and when they break through Nirvana, it is equivalent to the cultivation of

other realms. I think this is related to their cultivation, or perhaps it is related to their bloodline." Huang Jintian said as if he was thinking about something.

Chen Xiang was shocked. If they did not encounter Nirvana Doom, then wouldn't the road of ascension for these Tong Tian Aristocratic Family be extremely easy?

"But, because they do not have Nirvana Doom, and have not experienced any tribulations, their strength is much weaker than those of the same level, so they would search for large amounts of bodies to make up for it. However, if one of them could awaken a Heavenly Bloodline, then there would not be such a drawback." Huang Jintian continued.

Chen Xiang never thought that Huang Jintian had come into contact with the Tong Tian Aristocratic Family before, and following that, he told Huang Jintian about how the various continents of this new world would collide with each other.

"It's very likely that this happened during the evolution of the world. If it really becomes like this, I can leave now, and I'm also waiting for this day to come. The Tong Tian Aristocratic Family has already made their move, and they are paving the way for their great cause of ruling this new world."

"Once this new world's evolution is completed and it becomes a more stable and powerful world, the old ones in Tong Tian Aristocratic Family will be able to leave profound Realm and their Tong Tian Aristocratic Family will be able to do whatever they want."

Chen Xiang took a deep breath with a serious face.

"Aren't those old guys planning to ascend?" Chen Xiang asked curiously.

Flying is not a good thing, if you do not fly, you are the strongest existence here, but if you fly to Heaven Realm, you are just an ant, if you cultivate well, with sufficient resources, most people would hide in profound Realm and cultivate successfully, then fly to Heaven Realm. Huang Jintian explained.

"Even the Tong Tian Aristocratic Family is tyrannical, you killed a lot of them, and slapped their faces, they will definitely not let you go."

Chen Xiang laughed: "I'm not afraid of them. If they have the guts, then come at me!"

Huang Jintian and Chen Xiang fought for a few rounds, after inspecting Chen Xiang's strength, he let Chen Xiang go out and prepare to deal with Tong Tian Aristocratic Family.

The moment Chen Xiang came out, Gu Dongchen came to look for him. He had long heard of this extremely important matter.

"Junior Martial Uncle, those guys will be knocking on my door soon. When the time comes, let's see how I'll teach them a lesson!" Gu Dongchen sneered.

This surprised Chen Xiang, and he anxiously asked: "a lad, don't you blame us for causing such a disaster?"

"What's there to blame? This Feng Clan is extremely arrogant, he actually wants us Chen Martial Continent to submit to them, and even said that we will not submit to them, we will only be able to walk the road of destruction in the future.

"Say it again, those people who just made a move on the Super Martial School, immediately kowtow and admit their wrongs, or else, I will pin your corpses on the Super Martial School's gate and bask them in the sun for three days!" Gu Dongchen clenched his fist and said loudly.

A Leader from a small sect dares to spout nonsense? Don't you know that our Feng Clan is a Tong Tian Aristocratic Family? This is good too, we'll send you on your way now! " An old man shouted in anger.

The disciples of the Super Martial School were all dumbfounded. The people of the Feng Clan were too arrogant, even if they were people of the Tong Tian Aristocratic Family s, they should not be so wild!

Gu Dongchen laughed coldly: "I haven't lived enough yet, but you old bastards, it seems like you want me to send you to your deaths!"

After he finished speaking, Gu Dongchen waved his hand, and a ray of white light flickered out, forming a very large Innate Qi palm. Although the aura did not burst out, it still made people feel fear, causing one's legs to go soft.

Gu Dongchen's palm came smashing down, enveloping the four elders of the Feng Clan. The earth shook, and let out a loud boom as his energy surged like a dragon, and he shot into the air like a dragon. Such a terrifying palm strike showed that Gu Dongchen had exhausted all of his strength, and the most shocking thing was that the ground did not have the slightest hint of damage.

The four elders did not expect Gu Dongchen to make a sudden move, and that one was so terrifying, it far exceeded their expectations. Gu Dongchen's strength was much stronger than the average person who had endured the eight Nirvana Tribulations.

"Ahh ..."

After being hit by Gu Dongchen's huge palm, all of the bones in their bodies were shattered, their dantian was invaded by Gu Dongchen's terrifying Innate Qi and ignited, causing the bodies of the four elders to be destroyed and destroyed by the exploding Innate Qi.

"You all..." A young man turned pale with fright when he saw it.

At this time, Chen Xiang had already made his move. He leaped into the air and struck the ground with his palm, releasing all the Innate Qi within the two million Zhenyuan granule and formed it into a Dragon Power, condensing into a gigantic mountain filled with Thunder power. Then, he used the Innate Qi to form a pair of gigantic hands, which embraced the gigantic mountain formed from lightning and Innate Qi and wildly smashed the young disciples of the Feng Clan below.

That gigantic mountain was also formed from the Innate Qi, and was as heavy as a real mountain. Furthermore, it carried a berserk Thunder power.

The treasures in their hands were not weak. Twenty odd people had used powerful treasures to block them, which had an effect in the beginning, but after Chen Xiang crazily smashed them for more than a hundred times, they started to crumble one after another. Even people who had experienced four Nirvana tribulations and five tribulations could not be calm while facing such a terrifying attack from Chen Xiang, let alone these little brats who were still Hundred refining realm s.

Without any treasures, these disciples of Feng Clan were like ants. They were smashed into pieces by the gigantic mountain of lightning and mixed with the stones on the ground until they were charred black by the lightning.

The surrounding people were completely stunned, because they could see that this madman Chen Xiang was even more powerful than before. The powerful disciples of Feng Clan held onto high grade treasures, but was easily killed by Chen Xiang!

"A bunch of trash like you actually dared to come to the Super Martial School to make a ruckus. Do you really think we are some weaklings that you can pinch so easily? Hang the bodies of these four old fellows at the city gate and bask them in the sun for three days. If anyone dares to take them down, inform me immediately. Gu Dongchen waved his sleeves, turned and walked back into the door, killing people without bloodshed, such power, was truly admirable.

Although he did not know the strength of the four elders of the Feng Clan, they should be pretty strong if they dared to come and clamor. However, four of them were actually killed with just a single palm from Gu Dongchen, which showed just how strong the Super Martial School was!

Of course, Chen Xiang's methods were even more shocking. Using the vast Innate Qi to turn into a terrifying lightning mountain, he forcefully smashed apart the bodies of the young disciples of the Feng Clan and his high levelled treasures!

Seeing that the Super Martial School people had all retreated, everyone rushed to the city gate to see how the Super Martial School Elders had hung the Feng Clan Elders at the city gate.

The Super Martial School has completely angered the Feng Clan, and even the Leader has made his move. It's no wonder, just now, these few old fellows were too arrogant, they actually got the Super Martial School to kowtow and admit their wrongs, and even got the Super Martial School to compensate them with ten billion Spar, there's something wrong with their heads!

"That's right, if you don't look at how long the Super Martial School has been passed down for, how can you just casually pinch a soft persimmon?"

"Feng Clan is going to take action now. I wonder if it will be Feng Clan taking action or Super Martial School taking action?"

The news spread through the various continents and within half a day, the entire new world found out. What shocked the various forces was, it was actually Gu Dongchen himself!

The Super Martial School was able to distribute simple cultivation versions of the Demon Subduing Martial Arts, so he was very famous in the new world. Gu Dongchen had been to many large continents to impart his skills to them, and when he was in the Great War between Three Realms, he was able to impart to them the Demon Subduing Martial Arts.

It had to be known that even the Devil-subduing College did not have such a simple and easy to understand cultivation method, so the people from the Devil-subduing College would often go there to seek advice. At this time, the relationship between the Super Martial School and the Super Martial School was extremely good.

If Tong Tian Aristocratic Family were to fight with him, it would be hard to judge who would win.

Because Chen Xiang had contributed a large amount of Relive Dan's medicinal herbs, many elders in the Super Martial School could peacefully pass their tribulations. Most of them were successful, and their overall strength had increased by a lot.

Through the creation divine liquid, Chen Xiang was able to quickly create a large number of Relive Dan, and then pass it to the Dan Fragrance Pure Land to refine. In the end, he would sell it at a suitable price to other Chen Martial Continent's sects.

The power of the pellets were indeed strong, especially the higher ranked pellets. At this moment, even the Dan Alliance was extremely envious of the Chen Martial Continent, to actually have a large number of Relive Dan.

As for the Dan Alliance, he was also being controlled by the Tong Tian Aristocratic Family now. The price of the pills were outrageously high, to the point of being insulted by the warriors of the new world. However, there was nothing he could do, because only the Dan Alliance's Pill City had the most complete set of pills.

The Feng Clan could no longer stay calm, the elders that were sent to the Super Martial School were actually killed, and all the young disciples were beaten into meat paste. What made them lose face the most was that their elders were left at the city gate to demonstrate their might!

In order to allow the Feng Clan Elder's corpses to last for three days, Gu Dongchen ordered all of the Transmission array to be closed and the City Barrier Formation to be activated.

What was unexpected was that the Feng Clan was so calm, he did not even send anyone, but they had actually convened a convention for the Tong Tian Aristocratic Family!

[Chapter 803](#)

The Feng Clan was holding a convention in his own territory, inviting those powers and Leader that were flattering them, as well as the other nine Tong Tian Aristocratic Family s!

No one knew what exactly they were going to do, but they were sure that no one in the Chen Martial Continent would be invited.

"The ten great Tong Tian Aristocratic Family s and the ten great sage realms. Impressive. It seems that the new world will be dominated by these great realms in the future." A person sighed.

The Ten Saint Realms were powers like the Peach Blossom Fairyland, who were hidden away in the world. They had a strong background and strong strength, and their profound Realm had a lot of resources.

At this time, Peach Blossom Fairyland had also changed his name to Peach Blossom Imperial Land, and this disciple often came out to visit.

Inside the Super Martial School, Gu Dongchen and the elders were having a meeting, and Chen Xiang was also present.

"Leader, do you think that Tong Tian Aristocratic Family is planning to join hands to attack us? There are quite a few powers who are trying to get close to them. " Chen Xiang said: "I have the Taiji Dragon-suppressed kungfu and that treasured blade, they are most likely thinking about this."

"What are you afraid of? Come at me, annihilate all these bullshit Tong Tian Aristocratic Family s here! "

An old man sneered.

"Elder Wang, you've passed the eighth tribulation. Is your hand itchy? "Heh heh ..." Chen Xiang laughed.

Tong Tian Aristocratic Family is too arrogant, he actually got them to kneel down and admit their wrongs. Heh heh, I really want to go and attack them. Elder Wang laughed.

Everyone was speechless, after that they discussed how to guard against the Tong Tian Aristocratic Family, and then the Great Devil Mountains. They knew that the Demonic Qi channels of the three realms would not close anymore, and they would even merge together in the end. This was definitely not the way, it would only cause the three sides to be annihilated, and they felt that there was a need to negotiate!

----- In the future, they would all become heavyweights of these powers. On the other hand, the Feng Clan had even instigated these powerful forces to catch Chen Xiang and force Chen Xiang to hand over the Taiji Dragon-suppressed kungfu and the Divine Weapon level treasure blade. Of course, they didn't know that it was actually a Divine Blade, otherwise they would have already killed their way over.

Chen Xiang's Taiji Dragon-suppressed kungfu and the blade were indeed very important, but the older generation would never take action to snatch them, it would only be a joke, but the girls and the Son of Heaven all thought that if they could obtain these things, then they would become even stronger, and they would be the strongest amongst the young generation, confident that they could defeat Chen Xiang.

Many years ago, there were people in the Mortal Martial Realm who wanted to snatch Huang Jintian's Taiji Dragon-suppressed kungfu, but in the end, Huang Jintian personally went to find those people, and challenged them one by one, and almost all the strong warriors in the Mortal Martial Realm died.

Now, Chen Xiang was also facing such a situation, and it wasn't just a world situation, but an entire enormous new world!

After Gu Dongchen killed the elder of the Feng Clan, the Feng Clan was already so quiet. However, it made people even more uneasy.

At the same time, shocking news spread out. All the continents were moving quickly. Some of them had already collided with each other, and the legend had finally come true!

The passageway between the Demon and Devil Realms and the human world was completely opened. The three worlds were actually merged together, and all the continents seemed to have a suction force that sucked them in. Soon, all the continents would merge together into a large piece of land!

This was a true new world, but there would definitely be endless wars, because it was much easier for the demon realm and demon realm to come. Furthermore, they lacked resources, so they would definitely launch an even fiercer attack on the human world!

Chen Xiang had said before, that once the entire world evolved, space would become even more stable, and Huang Jintian could come out. The old fellows that were hidden by other forces would also come out, and when the time came, it would definitely be a world-shocking war!

"Don't worry, if these old fellows do not enter the Heaven Realm, they won't be able to live for long. Their lifespan is limited!" Su Meiyao said.

"Hmph, this group of reckless bastards actually had plans for the Taiji Dragon-suppressed kungfu. If I can recover my strength, I will definitely destroy all of these Tong Tian Aristocratic Family." Bai Youyou said angrily.

"Please don't be angry, Sister You You You." Chen Xiang anxiously said, he knew that although Su Meiyao and Bai Youyou were still severely injured, they were still slightly stronger, but he did not know the specifics.

"When three worlds merge together, the earth's core will become even more terrifying. I wonder what will happen? It seems like it is even more stable than the Sacred Dan Realm. At that time, you might not be able to use your Luotian Gate. " Long Xueyi said worriedly.

The invisible changes in the world, anyone could feel it, the spirit energy was increasing, becoming denser, this was the most obvious, and a part of the Transmission array was also slowly losing effectiveness, if they wanted to teleport, they could only do so by using those ancient methods.

In Continent of the King, Chen Xiang aimlessly walked on the streets and blended into the mundane world. He felt this feeling he had not felt in a long time and listened to the hawkers on the streets shouting.

Where did that vanished mortal world go? There must be a big secret inside, but Su Meiyao and Bai Youyou didn't tell him about it.

In a bustling and luxurious hotel, there were all nobles and nobles present. Chen Xiang entered and ordered some wine and drinks by himself.

As a result, they have appeared in many dangerous areas, but there are many treasures inside. I heard that there are also some mysterious ancient palaces, but I did not expect that so many profound Realm would be exposed to the world! "An ancient voice suddenly rang out.

"Tong Tian Aristocratic Family and Sheng Domain have made their move and taken over many good profound Realm s. Truly a bandit.

"There's no other way. Who let him be strong? However, there must be someone who will not compromise. Let's see how these savage powers will deal with them, we'll find a chance to sneak into the Great profound Realm s ... "

After hearing this news, Chen Xiang's eyes lit up. He was missing some medicinal herbs to concoct pills, he wanted to go to these profound Realm s to look for if there were any medicinal herbs that he needed.

Chen Xiang made a trip to the Divine Weapons Heavenly Country, where Liu Meng'er and Dongfang Xinyue were still focused on refining the array discard that would create the profound Realm, but Chen Xiang did not disturb them, instead going to the Continent of the King, preparing to head to the largest profound Realm.

These profound Realm were all fused with the world and turned into a piece of land. Without the obstruction of space, there were countless treasures inside, but they were all divided and occupied by a few unreasonable forces.

[Chapter 804](#)

After each continent merged, they would be separated into three main regions. The Human Realm s, Demon Realm s, and Devil Realm s, the forces near the border would all go there to negotiate and try their best to compromise.

The Human Realm was the largest and also the largest in number of people. Furthermore, the Human Realm was divided into five large regions, East, West and West. If one did not rely on the Transmission array, to fly from the south to the east would take twenty to thirty years.

The Chen Martial Continent was located in the south, and there were two Tong Tian Aristocratic Family s and two ancient sage realms here. Currently, they were both like the sun in the sky, controlling a large portion of the large and small sects and clans.

In just a short span of a month, the situation had already been set. Right now, there was no strong power that could dominate the Human Realm, let alone the entire Human Realm, even a region could not match up to it. For example, in the south, there was an ancient sect that wanted to dominate them and become the emperor of the south.

The emperors of the south were not that easy to deal with, unless they were very strong. However, that was not realistic, because right now, all the great powers were evenly matched, able to balance each other out. If they were to break the balance, they would be annihilated by the combined forces of the other powers.

Chen Xiang looked at the Transmission array from amongst the Continent of the King s and sighed and shook his head. This place was also packed full of people, because all the Transmission array s had lost their effectiveness, making it difficult to travel through space.

It was just as the rumors said, the space had become firmer. It was difficult for ordinary Transmission array to open a door to the void, and only the big sects and ancient clans had a method to teleport to the Primordial Era.

Because in ancient times, space was also very strong.

Many people were trapped here, and these people were traveling everywhere. They all came from other regions, and the central region had the most people here because it was the center of the world. It was the most prosperous place, and also the most powerful.

"My Luotian Gate has been destroyed as well. Is it still a Mortal Realm? Something that even the Sacred Dan Realm can use, can't do it anymore!" Chen Xiang sat on the ground in displeasure, drooping his head and sighing.

"I can't use it in the Heaven Realm, otherwise Wu Canghong would not leave it for you. Although the Sacred Dan Realm is a high level world, it is very special there, you can view it as a special super large profound Realm, somewhere between the Heaven Realm and the human world, but it is filled with dense immortal qi." Long Xueyi said.

Luotian Gate can only be a collector's item now, but they can still be used in the Sacred Dan Realm in the future.

"Damn it, if I go back to the Super Martial School now, won't I have to fly back by myself?" When Chen Xiang thought about that long road, he felt a headache.

The rest of them were also like that. Fortunately, they were in the most prosperous city in Continent of the King, so if they were in a place that was full of birds pooping or the heavens should not scream, they would also want to cry.

"Go look for Dongfang Xinyue and Liu Meng'er. They have an ancient array in their hands, they might even come up with a treasure to travel to another place." Long Xueyi said.

Chen Xiang laughed bitterly: "We still have to go to Divine Weapons Heavenly Country. I don't know how long we'll have to fly."

A few old men with white hair suddenly descended from the sky. It had to be said that flying was forbidden in City of the King, so the fact that they could fly freely meant that their status was not low.

"The formation master is here. There's hope!" A person shouted excitedly.

"Great! I was planning to buy a few pairs of shoes and run back home, but I don't need them anymore."

"Will a few pairs of shoes suffice? Although your place is also in the south, it is the northernmost area. From here to that place, there's at least a hundred pairs ..."

Everyone wanted to laugh, but they couldn't. This was only the south. If they had to cross over a large region, then that distance would truly be terrifying.

"Kids, take advantage of young age and walk a bit more paths. Although we are array masters, it will take at least half a year to set up an ancient transmission array." An old man used an unknown stone to check the toughness of the space.

Another old man said: "In this half a year, there will be enough time for some people to walk back. Even if the Transmission array Great Formation is established, the price would be very expensive, because the energy required to open it is huge. You all should go and earn the Spar first."

"Don't wait anymore. Go back and train yourself more."

These young men were extremely unhappy. These old men were standing and speaking without feeling any pain in their backs. If they had the strength, then that was fine too. But if they were weak, then they would have met with a formidable beast in the form of a human, and they would be dead for sure.

If they accidentally stumbled into some dangerous areas, even a giant would fall into them.

At this time, someone from the Transmitting Square shouted, "Whether or not you have friends from the Chen Martial Continent, who can unite with us, we can still be considered close to the Chen Martial Continent from here. It should at most be around a year!"

Chen Xiang almost vomited blood.

After all the large and small worlds were merged together, the large and small continents merged together to form a huge land mass. It was a mixed game, at least for those who liked to travel, this was a good thing.

Some of the warriors at the bottom level also thought that it was a good thing because the spirit energy had become very rich. For those like them who lacked resources, the cost of cultivation could be reduced.

"Is there anyone who would like to go to Rough and Random profound Land?" A grey robed man around twenty years old shouted. Everyone quieted down.

Isn't the Rough and Random profound Land the Great Forbidden Land that suddenly appeared in the south? This was originally a profound Realm. However, due to the great change in the world, it suddenly jumped out. This was because there were many huge ancient beasts inside, hence the name "profound Realm".

Even the Tong Tian Aristocratic Family and the top ten sage realm experts were only moving around in the outer regions.

"I'll go!" Chen Xiang immediately replied, and then walked towards that person.

"Are you crazy? An elder of the Tong Tian Aristocratic Family has just died in that place." An old man hurriedly shouted.

"You are afraid of death, but we are not!" The grey robed man snorted and continued to shout: Go to Rough and Random profound Land, you're not afraid of death

A well-dressed man disdainfully said, "Two brainless idiots who overestimate their capabilities. Do you think you're some kind of immortals?"

The gray-robed man was instantly enraged. Although his clothes were simple, his Innate Qi was not weak. Anyone near him could feel the vigorous aura that he was emitting, as if he was a flaming bull.

"Did that bastard say that? You're scolding us, hurry up and get out of here. Even if you don't have the ability to go, it doesn't mean that others don't." The grey robed man shouted angrily.

There was no reply as the man continued, "Even a dog dares to bark in front of a man, yet you only put a snub on the back of others. You're worse than a dog!"

[Chapter 805](#)

Chen Xiang clenched his fists and looked at the others. He had changed his appearance so no one would recognize him.

The grey robed man was originally very handsome, but his appearance was sloppy, his beard was all over his face and his hair was all messed up, but no one dared to look down on him.

"He really is a coward. He only dares to speak behind others' backs, but he doesn't dare to stand out. Pah! This sort of guy doesn't have any ability at all. His mouth is just on his butt. Don't spout nonsense." The grey robed man curled his lips and said.

The well-dressed man finally could no longer hold it in and walked up to the gray-clothed man. "I didn't want to lower myself to the same level as a boor like you, but you've insulted me time and time again. Hurry up and apologize!"

"Who are you? The gods, or the gods? Do you have any other skills than farting?" When the grey-clothed man saw that fellow jump out, he secretly rejoiced in his heart. He had long since disliked this kind of person. As long as he had the opportunity, he would ruthlessly teach him a lesson.

"Hmph, do you know who I am? My name is Feng Yaoming, I am the younger brother of the Feng Clan's Tian Zi, Feng Guang. My father is the patriarch of the Feng Clan, my grandfather is ... "

"Your grandfather is me!" The grey robed man slapped over with his palm. His hand moved like lightning and fiercely slapped Feng Yaoming, in that moment, Feng Yaoming's handsome face turned green.

Furthermore, he was the son of the Feng Clan's Patriarch, the younger brother of the Feng Clan's Son. It had to be said that the ten great families and the ten great sage realm heavenly daughters were all talented people, and at such a young age, their strength was already comparable to that of the old generation.

But now, a little brother of the Son of Heaven had been beaten by someone else!

"You ... "Who are you, how dare you ..."

Chen Xiang laughed: "Didn't he just say that he's your grandfather."

Everyone did not dare laugh, offending the Feng Clan would not end up well.

But Chen Xiang was not afraid, he was the first person in this new world that dared to provoke Feng Clan.

"Brat, remember this grandpa's name. My name is Duan Sanchang. If you don't accept, you can bring your men to the Duan Clan in the Heavenly Sealing Grounds to find me." Duan Sanchang sneered.

"Duan Clan" Your Duan Clan actually broke through the seal of heaven! " Feng Yaoming was greatly shocked and did not say anymore. It was clear that he had some misgivings about the Duan Clan in the Heavenly Sealing Grounds.

Everyone looked at each other. The Duan Clan that could cause fear in the people of Feng Clan was truly extraordinary!

He took out a long sword and thought that Chen Xiang was a soft persimmon. He pointed at Chen Xiang and said, "You just insulted my grandfather, so I must kill you today!"

Duan Sanchang frowned: "The one who insulted your grandfather seemed to be me! What does it have to do with him? "

"People of the Duan Clan, this is between him and me, don't get involved!" Feng Yaoming did not dare to touch Duan Sanchang, because he knew that Duan Sanchang was stronger than him, but he had lost so much face here, he must regain some of his dignity, so Chen Xiang had become his target.

Chen Xiang shook his head and smiled at Duan Sanchang: "Brother Duan, I can solve this. He was scolding me just now, and I haven't taught him a lesson yet!"

Duan Sanchang shrugged his shoulders, he knew that those who dared to go to Rough and Random profound Land were no ordinary people.

"Kneel down and admit your wrongs, or else I'll stab your throat!" Seeing that Duan Sanchang did not interfere, Feng Yaoming became even more confident.

This Feng Yaoming was indeed not weak, to think that he had already reached the Nirvana Realm. However, just now, he was still sent flying by Duan Sanchang's palm, which showed that Duan Sanchang's strength was not simple at all.

"I think you were the one who scolded us first, right? Why should I apologize to you?" Chen Xiang said indifferently: "The one who should be apologizing, I won't make you kneel down, just apologise."

"You're delusional. You're not going to kneel, are you? I will make you kneel! "

Feng Yaoming was furious. He was the dignified brother of the Son of Heaven, the son of the Feng Clan's Patriarch, and his strength was not weak in the Feng Clan. Now that he had come out to train, he only spoke a few words before getting slapped.

However, he was very afraid of Duan Sanchang, so he could only vent his anger on him.

Everyone retreated, leaving a large space, while Feng Yaoming rushed towards Chen Xiang, with his sword fingers pointing at Chen Xiang's throat. His footwork was extremely fast and strange, his figure flashed back and forth, Chen Xiang had met Chen Xiang before when he was fighting with Feng Zhenyun.

It was just that Feng Yaoming's was a bit more powerful.

"It's the Feng Clan's 'Changing Wind Steps'. Even the sword techniques 'Gale' are top-notch. Brother, you should be careful." Duan Sanchang anxiously warned.

Although Feng Clan's footwork technique was not bad, Chen Xiang was not an ordinary person. His eyes were terrifying, being tempered by flames in the center of the earth and also being trained by his powerful consciousness. Anything more, would be slowed down in his eyes.

The sword stabbed over, coming from the left side of Chen Xiang, aimed at Chen Xiang's neck. The sword qi was oppressive, as it emitted a sound of something tearing through the air, as though it could pierce through space.

Everyone felt their hairs stand on end. In that moment, everyone believed that Chen Xiang's neck was definitely going to be pierced, but at the same time, Chen Xiang raised his head and dodged the tip of the sword. At the same time, he struck the blade with his palm.

What was shocking was that after the sword was struck, it did not shatter, but turned into powder!

Chen Xiang's palm had condensed an extremely strong flame, and was pouring it all into the sword.

Feng Yaoming was startled, he knew that he had kicked an iron board, that sword of his was no ordinary weapon, it was a treasure, but was smashed into powder by Chen Xiang's palm!

"I've given you a chance, but you don't know how to be rare!" Chen Xiang shouted coldly, his palm flashed with a gold light, transforming into a huge golden palm, rushing down towards Feng Yaoming.

Feng Yaoming's body flashed, and a golden armor appeared, enveloping his body, but he was still suppressed by Chen Xiang's huge palm.

The ground trembled, leaving behind a gigantic palm print. Feng Yaoming was trapped under the palm, a trickle of blood flowing from the corner of his mouth, if not for the powerful armor protecting him, he might have already been covered in meat sauce.

"You ..." Feng Yaoming didn't think that Chen Xiang would actually want to kill him, but he had also wanted to stab through Chen Xiang's throat.

"Die!" Chen Xiang struck out with his palm in the air, the power of the Heaven Blasting Palm condensed into one point and condensed over, striking Feng Yaoming's body, it caused a strong shock wave, causing Feng Yaoming to vomit blood.

Everyone thought that Chen Xiang had used all of his strength to launch this strike, but now, Chen Xiang had released palm after palm, causing the entire plaza to tremble continuously.

At this time, Feng Yaoming had no way of escaping, because the energy of Chen Xiang's palm was flowing in an unending stream, causing's entire body to be in intense pain every single time. If he did not have the protection of the armor, who knows how many times Chen Xiang would have died.

"It's the Heaven Blasting Palm ... Seems like only Chen Xiang can use it this way! " A few Chen Martial Continent felt that it was familiar and said anxiously.

Everyone was looking at Chen Xiang's face now, as if they wanted to skin him alive and look at him carefully.

He was very clear about Chen Xiang's methods. Many of his own Feng Clan s had already died in Chen Xiang's hands, and Chen Xiang and his Feng Clan had already formed a huge enmity so he wasn't afraid of killing him again.

[Chapter 806](#)

To think that someone would see through his disguise, Chen Xiang did not hide his true face and continued to attack Feng Yaoming's armor with his Heaven Blasting Palm.

Seeing that it was really Chen Xiang, the entire plaza exclaimed, everyone could see what happened to Feng Yaoming!

"Kacha!" Feng Yaoming's armor suddenly cracked, causing him to tremble with fear.

"Don't kill me... Otherwise Feng Clan will not let you go! " Feng Yaoming shouted loudly, at the same time, the golden armor on his body suddenly cracked, Chen Xiang released two blazing Heaven Blasting Palm s consecutively, turning Feng Yaoming into ashes and dissipating along with the wind from his palm.

This Feng Yaoming was the son of the Feng Clan's Patriarch, and his grandfather seemed to be very powerful as well. Chen Xiang actually just killed him like that, not even leaving his corpse behind, it had completely infuriated Feng Clan.

"Humph, everyone just saw it. He was the one who wanted to kill me first. If I didn't have the strength, I would be the one who died." Chen Xiang said lightly.

Duan Sanchang was also startled, at most, he dared to teach Feng Yaoming a lesson, but Chen Xiang had turned him into ashes!

"Brother Shen, let's go now!" Duan Sanchang brought Chen Xiang and quickly flew towards the city gate. If there was an old man from Feng Clan here, then Chen Xiang would be in deep trouble.

Duan Sanchang brought Chen Xiang into a forest and changed his appearance before daring to take the main road.

"Brother Shen, you don't have to worry about the Feng Clan chasing after you. Without the Transmission array technique, the news will spread very slowly." Duan Sanchang laughed: "That Feng Yaoming is far inferior to his brother, but compared to the disciples of the large sects, he's still very strong. I never expected him to kill him!"

Chen Xiang shook his head: "Feng Clan has always wanted to steal my treasured blade and Taiji Dragon-suppressed kungfu, I'm not afraid of them."

"These Tong Tian Aristocratic Family are all like this. Back then, when our Duan Clan was on the verge of collapse, they also robbed us a few times. This group of bastards." Anger surfaced on Duan Sanchang's face.

"Brother Duan, what's a Heavenly Sealing Grounds?" Chen Xiang asked curiously.

Duan Sanchang sighed: "It's a place that is sealed by the heavens, this isn't a coincidence, rather, it's sealed once in awhile, but now it's completely over, in the future, we won't be sealed anymore."

"Your Duan Clan has appeared as well?" That Feng Yaoming is so afraid of your Duan Clan, you guys should be very powerful. " Chen Xiang laughed.

"Actually... However, we specialized in digging the Tong Tian Aristocratic Family, so they are afraid that we would hate me too. If they offend our Duan Clan, we would do everything we can to dig out all of their ancestral graves!" Duan Sanchang's words stunned Chen Xiang.

Our Duan Clan's goal is not only to find the Tong Tian Aristocratic Family, but also the graves of some of the powers within the Demon and Devil Realms. The reason why I came out this time is because I want to go to the Rough and Random profound Land to have a look. My father said that there might be a big clan there.

Chen Xiang secretly exclaimed in his heart. Now he understood why the Duan Clan was sealed so often.

Duan Sanchang saw Chen Xiang's look of disdain, and anxiously said: "Don't look at me like that, we tombs robbers also have morals, we will definitely not send our ancestors out, we will only let them die with us."

Chen Xiang curled his lips and said: "Looks like it's very easy for your Duan Clan to be hunted down!"

"Of course, in the ancient times, our Duan Clan was called a street rat by everyone, but it was precisely because of this that many old fellows brought coffins and cultivated their experiences to see the light of day once again. Without our Duan Clan, this world might not have been as prosperous as it is today." Duan Sanchang said shamelessly.

"Brother Duan, how long will it take to get to the Rough and Random profound Land from here?" Chen Xiang asked.

"Rough and Random profound Land is in the south. If we were to travel at full speed, it would take about eight to nine months." Duan Sanchang could not help but sigh, "If only we had left a few days earlier."

A few days ago, the Transmission array was still usable.

"Brother Duan, you should know those Tong Tian Aristocratic Family s very well, right? Can you tell me something?" Chen Xiang was very curious about these Tong Tian Aristocratic Family, because they had those ancient Spirit grain that even Long Xueyi did not understand.

It is said that there were many races at that time, and the human race was the weakest of them all. But after a period of time, many experts of the human race appeared, flourishing at the peak, suppressing the other foreign races and occupying a large piece of land. It is said that they received the blessing of the heavens, and would not encounter Nirvana Doom while going against the heavens.

"Then somehow, the Tong Tian Aristocratic Family suddenly disappeared and all of them hid inside the profound Realm. Furthermore, they have a secret method to find other profound Realm and then merge these profound Realm into their Great profound Realm, so they have a lot of resources and are very powerful!" Duan Sanchang slowly said.

"Of course, our Duan Clan has been around for a long time, and we have the ability to travel back and forth between profound Realm s. In order to figure out what happened before the Primordial Era, we started this business ... I have risked my life to visit those old fellows' mausoleum. "

Brother Shen, don't look at me like that. You must know that tomb robbing is extremely dangerous, and our Duan Clan has suffered the deaths of many outstanding talents over the generations, and they have even been sealed off from time to time. The longest time, it was sealed for a full thirty thousand years.

Chen Xiang was convinced by the Duan Clan that even after being sealed up by the Heavens, they could still come out and dig graves.

The Duan Clan continued to talk about the Tong Tian Aristocratic Family, "Let's talk about the Feng Clan, there are a few old fellows hiding in their profound Realm, all of them have transcended the nine levels of tribulation and can ascend. However, even if they were to ascend to Heaven Realm, they would not be able to break through, and would eventually die of old age in the Heaven Realm.

"The Heavenly Maiden and the Heavenly Son, they will enter the Heaven Realm sooner or later, because they have the so called unparalleled potential, they can fly to the Heaven Realm at a very young age. Furthermore, after going to the Heaven Realm, they will be groomed by the Tong Tian Aristocratic Family above, and they will enjoy limitless glory."

More than two hours after Chen Xiang and the rest left the City of the King, a wave of spatial ripples appeared in the sky above the City of the King. A few elders actually traveled through the void to the City of the King, and from the clothes they wore, one could tell that they were from the Feng Clan.

Not long after the death of one of the sons of the Feng Clan's Patriarch, these old fellows sensed it. After the people saw it, they all hid away to prevent the old fellows from getting angry and destroying the entire city.

[Chapter 807](#)

The Feng Clan sent people to the Super Martial School to cause trouble, none of them were able to return, and all of them were killed. However, Feng Clan didn't do anything immediately, as if he had something important to do. But now that Chen Xiang had killed their Patriarch's son, if Feng Clan didn't do anything, he would be mocked by the people of the world.

Within the City of the King, when the elders from the Feng Clan arrived, they immediately released a bounty on the spot. After cutting off Chen Xiang's head, they would be able to obtain five Relive Dan s, and by capturing Chen Xiang alive, they could get ten, and by providing effective clues, they could get two.

This bounty was very tempting, because Relive Dan were high quality Ground level pills, they were all sold in the market, the price was very high, and ten Relive Dan were expensive, it was enough to make many old fellows go all out.

----- As a rich pill owner, Chen Xiang did not know that he had been offered a pill as a reward, but even if he knew that he was not afraid, he wished for more people to come and find him.

"I say, San Chang, your Duan Clan is so good at digging graves, but do you not have any powerful methods to cross space?" Chen Xiang followed behind Duan Sanchang, and after walking for three days, Duan Sanchang slowly took his time. He passed by a few places, and liked to climb up the mountain to take a look, and while he was rushing, he was actually searching for a grave.

Chen Xiang was a little worried that he would be sealed by the heavens if he stayed with this guy for too long.

"To be honest, this is the first time I've left the Duan Clan to gain experience. Although I've dug other people's tombs before, their scale is still too small, and this Continent of the King is also a very ancient place. I want to see if I can find a large tombstone here." Duan Sanchang laughed.

Chen Xiang went to the Rough and Random profound Land mainly to look for some Spirit Medicines, the middle grade Ground level s were considered very rare Spirit Medicines, even if he went to the Pill City to look, he might not be able to find them.

"Perhaps we can try using the Luotian Gate and Spatial Elemental Bead. However, it will affect the lifespan of the Luotian Gate and the Spatial Elemental Bead. Perhaps before too many times, the Luotian Gate will break." Long Xueyi said.

Chen Xiang anxiously took out the Luotian Gate and Spatial Elemental Bead, and said: "Whatever, if we continue to follow this guy, I will definitely dig quite a few graves, I don't know when I will be able to get to the Rough and Random profound Land."

Luotian Gate needed to absorb a large amount of energy to transform it into Spatial Force and open a Space Gate. However, the Spatial Force inside the Spatial Orb was pure and vast, so it was much more convenient to use with Spatial Magic Treasures.

Chen Xiang activated his Luotian Gate, allowing it to absorb a large amount of energy from the spatial orbs. Chen Xiang controlled the Luotian Gate to frantically absorb energy, and then moved it to the closest continent in the Rough and Random profound Land.

Seeing a dimensional door slowly forming, Duan Sanchang was so shocked that his mouth dropped open.

"I say, Brother Shen, this magical treasure of yours is too heaven defying. However, it seems that you won't be able to withstand it too many times!" Duan Sanchang anxiously walked over, and saw that the Luotian Gate disk in Chen Xiang's hand was trembling, obviously because he had poured too much energy into it.

Duan Sanchang was a descendant of a tomb robbing family and was an knowledgeable person. When he saw Chen Xiang's spatial origin orbs and Luotian Gate, his eyes immediately lit up, as if he had discovered the tomb of an emperor.

"Hurry up and go in, there should be more tombs in Rough and Random profound Land, don't waste your time here." Chen Xiang said.

Duan Sanchang chuckled and stepped into the spatial gate with Chen Xiang.

Bang.

From behind the Space Gate, Chen Xiang and Duan Sanchang fell into a large swamp.

"Crap, all the continents are merged together. That means those coordinates were moved. This is trouble." Chen Xiang slapped his head and shouted.

"We are in trouble, there is something here that makes me uneasy. Brother Shen, look at the ground ..." This should be the mark left by a very, very venomous snake, and there's more than one of it... " Duan Sanchang's face instantly turned green and filled with fear.

Chen Xiang curled his lips and said: "Isn't it just a snake? What is there to be afraid of? "

"You don't understand. These snakes are all extremely terrifying creatures. They are all at the edge of the Flood Dragon's transformation. Their bodies are extremely terrifying, and they are also extremely poisonous." Duan Sanchang looked around vigilantly. He could sense the Qi left behind by the giant snakes and he could judge their strength.

Long Xueyi suddenly spoke out from inside the ring: "This is a poisonous snake nest. According to its aura, there should be at least ten Zijin poison boa here!"

Zijin poison boa! It was said that this kind of poisonous python was the easiest way to evolve into a dragon. It had a lot of sharp teeth the moment it was born, and a mature Zijin poison boa would be able to easily crush a Nirvana Tribulation Ranker.

"It's the Zijin poison boa!" Duan Sanchang's face turned green, he fiercely swallowed his saliva, and his entire body shivered as he pointed to a stone: "Look, that is a piece of skin that has been shed, the purple gold was originally even brighter, and is about to turn into a dragon!"

Chen Xiang anxiously took out the Luotian Gate, but realised that the Luotian Gate was not absorbing the energy from the spatial orb, obviously there was a problem with it being forced to use it.

"Then why aren't you leaving yet!" Chen Xiang anxiously ran, with Duan Sanchang following closely behind.

"I say, Brother Shen, the teleportation spot you set up is really too good. It's actually the nest of Zijin poison boa." Duan Sanchang said as he ran. He had been together with Chen Xiang for three days, the two of them were very opportunistic, because Duan Sanchang was also the type of person that was always chased by people. After all, he specially dug the grave of their ancestor.

An hour later, they arrived in a forest, panting heavily. Not a single Zijin poison boa appeared, so they could be considered to have escaped danger.

At this moment, a group of people wearing a white robe suddenly appeared around them. Most of them were young men, a few were middle-aged, and the leading two were old men.

Who are you? You dare to come to our White Sea Imperial Land's territory, and hand over your Storage magic treasure for us to inspect? If you have anything else that you want to take away from us, then you must return to our White Sea Imperial Land and capture you. One of the old man looked gloomy, and shouted at Chen Xiang and the rest.

The White Sea Imperial Land and the Peach Blossom Imperial Land are the two great saints of the south, and this is actually their territory?

"Is this the profound Realm of Bai Hai?" Duan Sanchang looked at his surroundings and felt that it didn't look like it at all.

"Of course not, how can you bunch of trash enter the White Sea Imperial Land? This is the closest region to Rough and Random profound Land, and belongs to our White Sea Imperial Land. Cut the crap and quickly hand over the Storage magic treasure." the old man said angrily.

Chen Xiang and Duan Sanchang were both a little angry in their hearts. Why did your White Sea Imperial Land occupy this place? I have to give you all the Storage magic treasure after I enter this place?

However, the two leading old men were not weak, judging from their Qi, they had at least passed the five tribulations and six tribulations, the middle-aged men had also just passed through the Nirvana Doom, as for the young people, most of them were like the Extreme realm, with dozens of them altogether.

Chen Xiang and Duan Sanchang looked at each other, and the corners of their mouths slightly raised.

"Old bastard, old turtle, the name of the guy from the White Sea Imperial Land should be Bai Hai, stupid bastard." Duan Sanchang immediately scolded.

"They don't look like turtles, but they have rather long faces and look like two horses. No, they look like two donkeys!" Chen Xiang laughed.

The two elders from the White Sea Imperial Land were immediately shocked, and then they flew into a rage, their rage soaring to the sky. Someone actually dared to scold them like that in front of everyone, this was something they had never encountered before.

The youngsters also turned pale with fright. These two elders were high and mighty, but now they were being humiliated like this by someone else!

"Catch them! I want to skin them alive!" An old man roared.

Chen Xiang and Duan Sanchang immediately ran towards the Zijin poison boa's nest.

[Chapter 808](#)

Chen Xiang and Duan Sanchang were going to lure all of these White Sea Imperial Land's people to the Zijin poison boa's lair. They were extremely confident in their own speed, they were people that ran for their lives all year round. If their skills were insufficient, they would have been captured long ago.

"You two little bastards, don't run!" an old man shouted. He did not expect the two cursing people to run so fast.

"Old Turtle, don't even try to chase us! Just look at your speed! In our eyes, you're slower than a turtle!" Chen Xiang mocked.

"I'll cripple you!" An old man shouted in anger, his expression extremely ugly.

Very quickly, the two White Sea Imperial Land elders felt that something was amiss and immediately stopped.

"Stop chasing, don't fall for the trap!" The old man's expression changed, and he said: "In front of us is the Zijin poison boa's nest, if we were to be discovered by the Zijin poison boa, it would be troublesome!"

"That's right, Zijin poison boa are known as the Lightning Poison Dragon, they are very fast, these two little trash actually want to kill us!" The other old man was even angrier, but he was covered in cold sweat, if he was stared at by a large group of Zijin poison boa ...

Chen Xiang and Duan Sanchang were both rather disappointed, because their plan had been seen through. They couldn't beat those two old fellows, but they were confident in their own speed, so they weren't afraid of entering the den of snakes.

"What should we do?" Duan San stopped.

"Chang Zi, go deal with them. Don't get too far away from here. I'll go lure the Zijin poison boa out." Chen Xiang smiled slightly.

"What?" As long as you get close to the snake nest, don't go in. The poisonous gas that the Zijin poison boa spew out is not a joke. " Duan Sanchang did not agree with Chen Xiang's suggestion.

"I am a Alchemist, I am not afraid of poison." Chen Xiang chuckled.

Duan Sanchang had heard about Chen Xiang's achievements a long time ago, and now that he suddenly recalled that Chen Xiang had another heaven-defying identity, he laughed.

"Alright, be careful."

Duan Sanchang went to stall the fellows of the White Sea Imperial Land and lead them in going around in circles.

However, Chen Xiang instead entered the Zijin poison boa's nest and took out a Small shaping Dan to attract its attention.

Not long after, Long Xueyi shouted in shock: "There are too many, around ten of them, each of them are as thick as a water jar, take the Small shaping Dan and run!"

Chen Xiang immediately flew up, and just moments after he ran, a purple gold poisonous miasma floated over, 12 of them appeared, their bodies were filled with purple gold scales, the water vats were thick, and their eyes were also purple gold. It was extremely scary.

The twelve Zijin poison boa swam like bolts of lightning and followed closely behind Chen Xiang. Although none of the Zijin poison boa could catch up to him, he was overwhelmed with shock, all his hair standing on end.

He couldn't help but increase his speed by a lot, and he quickly pulled some distance away from the Zijin poison boa.

"Chang Zi, you're here!" When Chen Xiang saw Duan Sanchang, he quickly called Duan Sanchang.

Duan Sanchang also felt that this was very exciting.

Chen Xiang's mind suddenly flashed, and anxiously said: "Seniors and seniors of the White Sea Imperial Land, I think there is a misunderstanding between us, we have indeed obtained some things in this area, we have picked up a few Small shaping Dan s, if you need them, take them out!"

Chen Xiang threw the Small shaping Dan out. The two old men were immediately shocked, it was indeed a high quality Small shaping Dan, their White Sea Imperial Land also had a few profound beasts in captivity, and these Small shaping Dan were pretty useful to them, especially those of such high quality.

The two elders anxiously picked it up, while Chen Xiang pulled Duan Sanchang and ran frantically. At the same time, 10 purple gold light rays flashed, it was the Zijin poison boa.

Seeing that, the two old men from White Sea Imperial Land immediately started cursing. They thought that the Zijin poison boas were here for the Small shaping Dan, and furthermore, it was Chen Xiang who had deliberately lured the Zijin poison boa over.

"Little bastard, you've killed us!" "Everyone, quickly run..." Even without the elder's explanation, those young and middle-aged men had already started to run away. At this time, the elder was also unwilling to part with the Small shaping Dan, so he could only run away.

What made Chen Xiang depressed was that the twelve Zijin poison boas were actually chasing after him.

"It's troublesome, your aura has been remembered by them, and you have also been to his den, it seems that the Small shaping Dan technique will not work!" Duan Sanchang said.

Chen Xiang anxiously said: "Chang Zi, follow those old fellows!" With that, he changed his direction and ran in the direction of White Sea Imperial Land's group.

The two old men were secretly happy that Chen Xiang had not been able to steal a single grain of rice, but seeing that Chen Xiang and Duan Sanchang had suddenly caught up to them, they wanted to curse him out of anger.

"Seniors, I will do as you say. After luring these fellows over, how can you just abandon us and run? You guys are not nice!" Chen Xiang shouted. He was naturally saying this to the Zijin poison boa, these Zijin poison boa all had their senses opened, so they naturally knew what this meant.

"Don't speak nonsense..." An old man hastily shouted.

Seeing that the Zijin poison boa behind them were even faster, Chen Xiang knew that his words were effective, and Chen Xiang and Duan Sanchang was running in front of them.

"Damn it, why are these two f * cking bastards running faster than rabbits!" One of the elderly men scolded, but the slower young men groaned in their hearts, using all of their strength to run for their lives, but a few of them were still melted by the poison qi from the Zijin poison boa.

If it weren't for the fact that they wanted to save their lives, the two old men would have already killed the two laughing guys.

Isn't this the territory of your White Sea Imperial Land? These Zijin poison boa are also yours, you guys take care of them properly, we won't be accompanying you guys." Duan Sanchang laughed.

Although Zijin poison boas were fast, Chen Xiang and Duan Sanchang could escape from them. People like them did not have the ability to escape, nor did they dare to cause trouble.

In the blink of an eye, only the Nirvana Stage remained. They were still running for their lives and the others were all dead.

Chen Xiang and Duan Sanchang had long since escaped far away, although the dimensional door had deviated a little, it was just right. Originally, Chen Xiang had only planned to go to the city closest to Rough and Random profound Land, but he did not expect to come to the outskirts of Rough and Random profound Land.

"The overall strength of this White Sea Imperial Land is not to be underestimated. Their profound Realm Bai Hai has a large white ocean inside that is filled with extremely dense spirit energy." Duan Sanchang said.

The White Sea Imperial Land was the same as the Peach Blossom Imperial Land. They both had a very good profound Realm and had inherited it for many years. They established a sect inside with a very solid foundation.

The sound of battle came from ahead of them. The aura made their hearts tremble, it was actually the experts of the Nirvana Stage fighting.

"White Sea Imperial Land's White Sea Innate Qi is as vast and pure as water! This is a battle between disciples of the White Sea Imperial Land." Duan Sanchang said as he furrowed his brows, "The other person ... This seems to be the Qin Clan's Burning Immortal Innate Qi. When cultivated to mastery, the

Innate Qi would not emit any sound, but it can produce terrifying flames. When the immortal came across this kind of Innate Qi, he would be burnt! "

"It's the White Sea Imperial Land and Qin family's people who are fighting."

Duan Sanchang said with certainty, then walked over: "Let's go take a look, it seems that these two guys are experts."

Chen Xiang nodded and walked forward with Duan Sanchang.

In front of him, a burst of white light flashed and waves of violent auras surged over like a rushing sea, accompanied by a wave of scalding hot air. It was just as Duan Sanchang had said before, one wave of auras was as vast as the ocean while the other was as fierce as a raging inferno.

[Chapter 809](#)

Chen Xiang and Duan Sanchang saw that in front of them were two handsome young men fighting. Even though it was an intense battle, they were still graceful and their movements were extremely unrestrained.

"It's White Sea Imperial Land and the Son of the Qin family exchanging pointers!" Duan Sanchang's expression became serious. The two Heavenly Sons of the two families were actually so powerful, which made him feel apprehensive.

Chen Xiang was also very shocked, he knew that the Heavenly Sons chosen by the ancient powers were very young, but their strength were terrifying. It seemed like they were Nirvana Stage s who had undergone four or five tribulations, and they were strong existences at the same level, even if it was the seniors with the same cultivation as them, they would easily be killed in an instant.

"Is this the power of the Son of Heaven?" Chen Xiang's face was solemn, his eyes full of shock.

White Sea Prince's hands seemed to be wrapped by two silver white full moons, emitting a silver white light aura, his aura churned, the Innate Qi was as vast as the ocean.

The son of the Qin family had fists as bright as the sun, with flames spewing out and multicolored light shooting in all directions. He was fighting against White Sea Prince head on, and although every move was extremely tyrannical, it was clear that they were just sparring.

"Canghai Rushing Dragon!" White Sea Prince shouted loudly, and a sea full of multicolored light suddenly appeared behind him, surging up and down, the wind was blowing loudly, and there were still many dragons dancing frantically in the white sea, causing many streaks of white lightning, and the sound of thunder was resonating, it was a very shocking scene.

As if it was real, he spread out his arms, and Bai Hai's Dragon Soaring Art rushed towards the son of the Qin family. The water dragons above appeared even more berserk, releasing waves of dragon roars, accompanied with the reverberations of thunder in the sky.

Chen Xiang and Duan Sanchang who were not far away, were also trembling in fear. If it was them, it would not be easy to receive this attack, the Tian Zi was just too strong.

The son of the Qin family had a solemn expression on his face. He raised his hands into the air and let out a muffled cry. His palms emitted fiery red mist. A huge scorching sun suddenly appeared, looking exactly the same as the one hanging in the sky.

"Do you want to use fire to suppress the water?" Duan Sanchang exclaimed.

The son of the Qin family controlled the blazing sun he had created to fall down, bombarding the picture of a dragon dashing through the blue sea.

The two families' martial arts competition was extremely intense, with Innate Qi being a battle of fire and water. As the two sides reassembled, it was as if the sun had fallen into the sea as waves of mist rose. The violent mist was extremely strong, it blew on the ground, gushing out in all directions, and a thick layer of mud was lifted wherever it went.

The great battle had not ended, and was still intensely progressing. Both sides still had extremely robust Innate Qi s, and from the looks of it, they were going to fight for a period of time.

White Sea Imperial Land and the Qin family's son of the Qin family were fighting earnestly, Chen Xiang and Duan Sanchang was also watching seriously, but at this time, Long Xueyi suddenly reminded him, there were a few people walking towards them.

"Who are you people?" The one who spoke was a middle-aged man.

"We're just passing by, so we might as well take a look." Duan Sanchang hastily replied with a smile.

Behind the middle aged man, there were a few young people as well as an old man. They seemed to be the disciples of White Sea Imperial Land who were quite strong.

"They have all disguised themselves... This big bearded man is a young man, he looks like the Feng Clan's wanted Chen Xiang. " A man's eyes flashed with white light as he spoke.

Chen Xiang was shocked, he never thought that he would meet someone with this ability, who could actually see through his transformation technique!

"That fellow has a Spirit Eyes, this is natural!" Long Xueyi said: "So he can see through your transformation technique!"

Upon hearing the two words "Chen Xiang," the White Sea Prince and the son of the Qin family who were battling stopped in their tracks.

"Capture Chen Xiang and have him hand over the Immortal Saber and Taiji Dragon-suppressed kungfu." The son of the White Sea Imperial Land said indifferently, and continued his fight with the son of the Qin.

Hearing this, Chen Xiang immediately ran. The middle-aged man and the other old fellows were all very strong, it was obvious that he could not win against them.

Chang Zi, you should leave by yourself. Don't worry about me, you can come and find me in the Super Martial School in the future. After Chen Xiang sent the sound transmission to Duan Sanchang, he immediately ran.

"Brother Shen, we are friends at first sight. See you in the future!" As long as I have the chance, I will definitely pull out all of Feng Clan's tombs. " Of course, Duan Sanchang also wanted to follow Chen Xiang, but neither he nor Chen Xiang were those type of people who liked words.

"Chase, we must take down Chen Xiang, no matter what methods, we must make him hand over his immortal blade and Taiji Dragon-suppressed kungfu!" White Sea Prince shouted in the midst of the battle.

Chen Xiang secretly clenched his teeth in his heart. From the words of the White Sea Prince, he hated the White Sea Imperial Land, and swore in his heart that in the future, he would definitely exterminate the White Sea Prince.

"One day, I will destroy the entire White Sea Imperial Land! He ...!" Chen Xiang became even more furious in his heart, it was fine for the Feng Clan to think about his divine blade, since there was some conflict between them.

However, White Sea Imperial Land had given such an order the moment he heard his name. This caused him to feel incomparable rage.

"Chen Xiang, you can't escape. These are all members of our White Sea Imperial Land, hand over the divine blade and Taiji Dragon-suppressed kungfu and we will let you live!" An old man shouted.

"I have no enmity with you, I didn't offend you, why did you steal my blade and art?" Chen Xiang increased his speed and asked.

"Humph, that celestial blade will only cost you money, leave it for us White Sea Prince to use, only he is worthy, you are not worthy!" The old man said indifferently. He spoke with a confident and confident tone, as if it was a matter that should be taken for granted.

No matter what, the Green dragon demon-slain broadsword was obtained by Chen Xiang, and it was something that he recognized as its master. He even added a dragon soul onto the dragon soul that was added later on, but these ancient powers all thought that he was not worthy, and wanted to snatch it away!

He never thought that these powerful and ancient factions would not even blush when they tried to snatch things from him. This made him extremely angry.

"Even if I am not worthy, I will not give you bastards my sword. I will tell you all, from today onwards, your White Sea Imperial Land and I will not rest until we are dead. I will make your White Sea Prince bleed with my treasured blade to prove that I am not worthy!" Chen Xiang shouted in anger.

"Wishful thinking! Based on your words alone, you won't live past today!" An old man sneered. The spectators had actually all caught up to him.

Chen Xiang ran very fast, causing the people of White Sea Imperial Land to have a headache. However, they felt that Chen Xiang was running at full speed using his Innate Qi, and would not be able to hold on for long.

"Let's see who can't live past today!" snorted, at the moment, he hated White Sea Imperial Land to the core, and he was not afraid of the people chasing from behind.

[Chapter 810](#)

Far away from the place where the two Heavenly Sons fought, Chen Xiang entered a wasteland, running at a moderate pace on top of it, purposely not losing out to the people who were chasing after him.

There were so many experts from the White Sea Imperial Land in this area, it was obvious that there were quite a few of them, so it was obvious that this place was very important to the White Sea Imperial Land.

Chen Xiang suddenly stopped, and the people chasing him, were all middle-aged big size man, 5 white haired old man, 10 young people, all of them were powerful, and when they saw Chen Xiang stop to catch his breath, they suddenly flew up, and surrounded Chen Xiang.

Under the scorching sun, the desolate plains were shrouded in hot air. This place was completely deserted, and no one could save Chen Xiang, as the people of White Sea Imperial Land all thought that it would be hard for Chen Xiang to escape even if he had wings.

"No more strength? You sure are capable, to be able to run for so long, you truly are worthy of being called a person who offended Feng Clan. " An old man sneered.

The leading middle-aged man said, "We just received news that Feng Clan is offering a bounty to you. As long as you capture them alive, you will be able to obtain ten Relive Dan. It seems that we are lucky, haha."

Chen Xiang frowned, the Feng Clan had actually started to place a bounty on him, and it was even using Relive Dan s. His heart turned cold, since that was the case, he also planned to use Relive Dan s to place bounty on the Tian Zi.

He secretly urged the large number of Magical corruption gas s inside his dantian to float out from his body. They were colorless and tasteless and quickly spread out to their surroundings, enveloping those who were surrounding him.

At this moment, a smile appeared on his face.

"What are you laughing at? Death is at hand! " The big guy disdainfully said, "Obediently hand over the immortal blade and divine arts."

Chen Xiang laughed: Who doesn't know when they're about to die? You can forget about obtaining the Immortal Saber, but I can let you see me and I can also let you die under my treasured Saber. "

Just as Chen Xiang finished speaking, the 10 young men suddenly shouted out, their bodies started to rot, and very quickly, they became a pile of black rotten meat, only two of the young men managed to react and sat down, revolving Innate Qi to control the poison gas.

Very soon, the middle-aged man and the five elders also discovered that their faces had turned ashen. They hurriedly used their powers to resist the poison from spreading through their bodies. Otherwise, when it reached a certain point, they would die from the poison.

He immediately flew into a rage and threw a palm towards Chen Xiang. He activated the Innate Qi, at the same time, he increased the spread of the poison, and at the same time, nourished the Magical

corruption gas, causing it to become stronger after absorbing the Innate Qi. In an instant, the old man who was about to attack Chen Xiang became a pool of purplish black liquid!

When the others saw this, their expressions became incomparably ugly. They immediately guessed what poison it was!

"Chen Xiang, this is a Super Old poison. A Magical corruption gas, do you know what the consequences would be if you use this poison?" The leader, a middle-aged man, had a face full of fear. He was very surprised that Chen Xiang could use this poison as he wished.

"Of course I know, but I believe you will keep it a secret for me!" Chen Xiang held the Green dragon demon-slain broadsword high up in the sky, and under the shine of the sunlight, it shone with an ice-cold green light.

The faces of the people from the White Sea Imperial Land were ashen, they could not move at all. Furthermore, when they saw Chen Xiang's treasured blade, they realized that it was even more powerful than in the legends.

Chen Xiang pressed his hand on the middle aged man's head, wanting to search his memories, but just as he was activating the Soul Absorbing Devil Spell, the middle aged man suddenly fainted, and then, his body turned purple black.

"There are imprints in the Sea of Consciousness of these bastards to prevent their souls from being searched!" Bai Youyou said.

"Hmph, you're lucky!" Chen Xiang snorted, he waved his blade and cut down an old man's head: "Didn't you guys just say that my death was imminent?"

With that, he chopped down another old man with his blade. He was going to ask some questions from the other old men, but none of them were willing to say anything. In a few seconds, he had beheaded all of them.

In the end, he had asked the two young men forcefully, and the reason they were occupying this large area was because there was a large expanse of Fire phoenix purple gold ore. If Chen Xiang was not mistaken, these Fire phoenix purple gold were the top ingredients to be used in refining array discs.

The last two young men's heads were also chopped off by Chen Xiang.

Chen Xiang installed all these heads well, because these heads were not stained with Magical corruption gas, so they did not rot, and he wanted to hang them in the most eye-catching place, so that others would know the consequences of provoking him, Chen Xiang!

After cleaning up the scene, not only did he not leave any trace of Magical corruption gas behind, he had even destroyed the remaining souls to prevent them from being summoned by the White Sea Imperial Land. If the news of him possessing a Magical corruption gas were to spread, even the Super Martial School would not be able to protect him.

"Fire phoenix purple gold are high-grade ores. They contain special energy, and without high-grade Storage magic treasure, they can't be stored inside. There should be a warehouse of Fire phoenix purple gold nearby, I'll go look for them first, then you can go to the nearby cities to hang up those heads."

Long Xueyi said: "We must let them know what happens when they snatch the Taiji Dragon-suppressed kungfu and Green dragon demon-slain broadsword!"

When it was near dawn, Chen Xiang had nailed the heads of all the elders from the White Sea Imperial Land onto the city walls. Furthermore, he had sealed them with an array, so no one without any strength would be able to take them off.

"This is the result of stealing my blade and Taiji Dragon-suppressed kungfu!"

Chen Xiang even left these words on the city wall, before turning into a bird and entering the forest.

Because there were so many treasures in Rough and Random profound Land, the nearby cities were all crowded with people, the matter quickly spread, Chen Xiang did not expect the people he killed to have status in White Sea Imperial Land.

That middle-aged man was actually the Son of Heaven's uncle. Those few elders were all elders and had very high statuses in the White Sea Imperial Land. Now, their heads were actually nailed to the wall by someone else!

After seeing that line of words, everyone immediately thought of Chen Xiang, because Chen Xiang had the Immortal Saber and Taiji Dragon-suppressed kungfu, so many big powers were staring at him, wanting to snatch it away!

On top of the city wall, the crowd stood still and watched, discussing amongst themselves.

"These people are all experts from the White Sea Imperial Land, they have all passed through the fourth level of Nirvana Tribulation. That uncle of the White Sea Prince passed the fifth level, yet he fell to such a state. It seems like they were all decapitated by a single blade strike!"

"Yeah, how much strength does it take to cut off their heads? These are all experts and not ordinary people. Cutting their heads is like slicing radishes, it's too shocking! "

"You deserve it. You stole someone else's celestial blade and godly technique. Your death was considered a bargain." Duan Sanchang was shocked when he saw these heads, he never thought that Chen Xiang had hidden his strength so deeply, that he would actually have the ability to chop off their heads.
