

## Dan God 821

### [Chapter 821](#)

Right now, they could only speculate, but what was certain was that the ancient treasures that the Tong Tian Aristocratic Family had grasped were even older than the Imperial Dragon Race. It was also because the civilization had disappeared for a long time before the Imperial Dragon Race appeared.

Chen Xiang finally arrived outside the group of Lion Mountain s. There, a stone tablet the height of a person had four words written on it, but Chen Xiang was unable to understand it, because it was an ancient character!

There were many Spirit grain carved on the monument. These Spirit grain were the same as the ones on the treasures in Tong Tian Aristocratic Family. Long Xueyi had also said that they, the Imperial Dragon Race, only knew a little about this ancient Spirit grain.

It was precisely because the stone tablet had these Spirit grain s that it would not disappear in the span of countless years.

The stone tablet emanated an extremely ancient aura, as though it had gone through millions of years.

"What are these four words?" Chen Xiang asked her about it many times but Long Xueyi didn't reply. It was clear that he was looking through her inherited memories.

"I only recognize two words." The inherited memories in Long Xueyi's mind were as vast as the sea. Even with her powerful spiritual sense, it would take her a while to finish flipping through all of them.

"The first one is the word 'ten', and the last one is the word 'mountain'." Long Xueyi said.

"A hundred thousand Lion Mountain s?" Chen Xiang immediately thought of the two words.

"Who knows? It could also be an immortal mountain, a demon mountain, a holy mountain, or a billion ..."

Chen Xiang flew high up in the sky. As far as he could see, there were rows and rows of organized gigantic green-colored Lion Mountain, like countless lions crawling on the ground. Countless Lion Mountain formed an endless sea. Chen Xiang's vision was good, but he could not see the end of these Lion Mountain, even with a hundred thousand of them, he would not be surprised.

Every single Lion Mountain was emitting an extremely dense amount of spirit energy, so the area with the densest amount of spirit energy was just like the rest of the group. However, Chen Xiang did not see any huge beasts here.

"Maybe that Duan brat knows how to find that tomb in the Lion Mountain." Long Xueyi said.

Su Meiyao and Bai Youyou were also discussing, but they couldn't come to a conclusion. At this point in time, they felt that what Long Xueyi said might be true, and that this so called Mortal Realm might actually have a shocking history that no one knew about!

Long Xueyi used Heaven tour method to investigate the Lion Mountain s. He turned into a bird and stood on top of the monument waiting quietly. He did not dare change his shape, he was worried that he would be surrounded by countless beasts.

----- Outside of Rough and Random profound Land, there were originally only two Tong Tian Aristocratic Family s and two Sheng Domain Elders coming out from the south. Now, even the eastern, western, northern and central regions had all come.

As for the major powers who had attacked and attacked earlier, they still did not stop. They also dispatched many old fellows who had been in closed-door training for many years.

"An Immortal level old fellow has finally come out! There's going to be a show!" An old man from the Duan Clan chuckled.

"Come, come. But why are there no Devil Realm s here? In the past, demons and beasts were from the same sect, so there should be an integration now. If demons and beasts join hands, Human Realm can only join forces with Devil Realm. " A middle-aged man from the Duan Clan said.

Tong Tian Aristocratic Family and Sheng Domain both sent out those old fellows who could fly to Heaven Realm. Previously, they were worried that they would be taken in by Heaven Realm, so they hid inside profound Realm.

At their level, they could almost do as they pleased, but this made people even more convinced that there was definitely something extremely precious in the depths of Rough and Random profound Land!

In the Green Summit City, two extremely dazzling figures had appeared. One was Gu Dongchen, and the other was the yellow-haired old man that Gu Dongchen had to be subservient to.

"Huang Jintian, this crazy old man actually came out, and even came to Green Summit City! His disciple has already left Ancient Wasteland Devil Sect half dead, and this old madman has been sealed for over ten thousand years, and is still so energetic. What is he trying to do? " Some of the elders said in fear.

Huang Jintian's reputation was not just for show. Even in the past, when the world had not merged with one another, his name had already been spread out, and he had crossed swords with the Tong Tian Aristocratic Family before!

Although the current Huang Jintian wasn't wearing gorgeous clothes, he was dressed neatly and his hair had already been combed. He looked to be full of energy and vitality, but he didn't exude any aura.

"Old fogeys from the Feng Clan and the White Sea Imperial Land, get the hell out here. You actually dare to lay your hands on my disciple again and again, I'm here for an explanation." Let me tell you, if anything happens to my disciple, I, Huang Jintian, will definitely wipe out all of you dog Tong Tian Aristocratic Family and Sheng Domain disciples! " Huang Jintian stood in the plaza of Green Summit City and roared.

"Didn't you guys always want the Taiji Dragon-suppressed kungfu? If you dare to ask me for it, what's wrong with bullying a little kid like my disciple? "

The entire city was engulfed by Huang Jintian's angry roars, causing everyone to be shocked. As expected, after this crazy old man, Huang Jintian, came out, he couldn't calm down.

Some people had already left the Green Summit City. If they were to fight with such old fellows, it would cause the world to perish and the seas to overturn. This kind of a city was impossible to defend against.

"Huang Jintian came quickly, looks like Feng Clan and White Sea Imperial Land are in trouble, who asked them to touch other people's disciples!" The old man from the Duan Clan laughed.

"Let's leave first, in case the war over things gets affected." A middle-aged man suggested.

"Alright, it's about time. We should enter the Rough and Random profound Land to take a look and see if it's really the same as in the legends." The old man nodded.

Huang Jintian had trained in the Taiji Dragon-suppressed kungfu and had been hiding in it for many years. The dense Dragon Power was unfathomable, only three people knew of it, and Chen Xiang was the weakest among them, making it the easiest to capture. Therefore, if one wanted to obtain the Taiji Dragon-suppressed kungfu, they would definitely think of Chen Xiang.

In a short moment, the Green Summit City became an empty city, with only a few experts in the plaza.

The Feng Clan and the White Sea Imperial Land's immortals had all come, an old man with white hair said indifferently: "This is a grudge between the younger generation, Huang Jintian, you're making too much of a fuss, no matter what they want, we, the older generation, should not ask too much about it!"

Huang Jintian laughed coldly: "I told my disciple to kill all of your juniors, and you won't do anything? You guys better take care of your little demon, don't think of making excuses to kill him just because of his blade and godly technique, if not I'll make my Super Martial School's young generation kill all of your little bastards! "

The White Sea Imperial Land's immortal was an old lady. Her face was full of wrinkles and she looked as if she could get into a coffin with a single slap. At this moment, she was extremely angry.

"Hmph, from what I know, not only did your disciple steal our White Sea Imperial Land's Fire phoenix purple gold, many elders and young disciples have their whereabouts unknown. I think he should already be dead!" The old lady from White Sea Imperial Land said angrily.

"Bullshit, if you guys didn't attack him first, would he attack you guys? That whatever Fire phoenix purple gold you are talking about, on what basis are they from your White Sea Imperial Land? Could it be that these Fire phoenix purple gold were born for your White Sea Imperial Land, and had branded your White Sea Imperial Land's name on them the moment they were formed? This kind of thing is born from heaven and earth, whoever has the ability to obtain it will get it. " Huang Jintian rolled up his sleeves, looking like he was prepared to go all out.

## [Chapter 822](#)

Outside of Green Summit City, everyone stood far away from the city walls. They stood on top of some tall mountains and watched the elders fighting in the plaza. If they were to fight, they would be fortunate to be able to witness the great battle between these extraordinary experts.

"Huang Jintian, after your disciple snatched the Fire phoenix purple gold away, he fled far away. Your Super Martial School had such a great advantage, what else do you want? Other people are afraid of your Super Martial School, but my White Sea Imperial Land is not! " The old lady from White Sea

Imperial Land said coldly, her entire body had an aura as vast as the ocean. Her eyes were as deep as the ocean, and at this moment, she was enraged.

Huang Jintian sneered: "I've been feeling uneasy these past few days, and I knew that something had happened to this brat. I used the Heaven extended method to calculate and I still didn't know where he was.

His angry voice came out from outside the city. Although the crowd did not know what the Heaven extended method was, they felt that it was definitely not ordinary.

Heaven extended method! Only the Tong Tian Aristocratic Family s knew how powerful this technique was. They did not expect that someone would learn this lost forbidden technique.

When the immortals of the White Sea Imperial Land and the Feng Clan heard this, their expressions changed and they could not help but take a step back. They did not know much about the Heaven extended method, but they knew that it was a secret technique that could sense danger in the future.

"Since he entered the Rough and Random profound Land, of course you wouldn't be able to deduce his location. Senior, you should be very clear about what kind of place the Rough and Random profound Land is." A gentle and spirited voice sounded. The one who spoke was unexpectedly the Heavenly Girl of the White Sea Imperial Land, Ji Meixian!

She flew over from the distance. Her snow-white clothes fluttered in the wind, and her hair lightly danced as it gently fell down like falling leaves.

Ji Meixian's identity was extremely mysterious, he came from the Heaven Realm, only that he had lost all his cultivation and started training anew.

Huang Jintian immediately frowned. Although the name Rough and Random profound Land had only appeared recently, he already knew what that region represented.

"You saw that kid run in there with your own eyes?" Huang Jintian glared at Ji Meixian.

Ji Meixian was slightly shocked, she did not expect that Huang Jintian's strength was stronger than she had imagined. She was once one of the strong warriors in the Heaven Realm, and some things happened later on that caused her to fall into the Mortal Realm. After his soul fell asleep, he joined the White Sea Imperial Land and learned some ancient secrets.

"That's right, we bumped into each other outside the Rough and Random profound Land. Originally, I wanted to stop him from entering the Rough and Random profound Land, but he stubbornly insisted on his decision." Ji Meixian purposely sighed softly.

Although she did not see Chen Xiang enter the Rough and Random profound Land, but she could guess that Chen Xiang had entered using the Water Escape Technique.

Huang Jintian laughed coldly, "You met him by chance? Was there no conflict? Didn't you act to snatch his immortal blade and divine arts? "

"No!" Ji Meixian's gaze did not waver as he replied indifferently.

Huang Jintian squinted his eyes and said with a fake smile: "That's true, if you clash with him, you definitely cannot stand here, but if you can still return alive after fighting with him, you must have suffered a lot!"

Ji Meixian's heart skipped a beat, and she was secretly angered. She had indeed suffered a lot at Chen Xiang's hands, and her storage ring was taken by Chen Xiang, and her jade body was even sullied by Chen Xiang.

"If you Tong Tian Aristocratic Family and Sheng Domain continue to provoke that brat, you will bear the consequences yourselves. Of course, the matters of the younger generation can be left to them, but if you old fellows were to make a move, I will definitely not remain indifferent. Huang Jintian left behind some harsh words. With a wave of his sleeve, he released a ray of multicolored light that tore through the air and brought Gu Dongchen away.

After returning to the Super Martial School, Gu Dongchen asked: "Master Ancestor, what kind of place is the Rough and Random profound Land? Don't we need to go in and get Junior Master back? "

"No need, even if I go in, I won't be able to find him, but he won't die in there!" That is a very dangerous place. Even if you and I were to enter and encounter some powerful things, I'm afraid we would die inside. Huang Jintian said with a serious expression, but his face was still full of worry, "You should return to the Ancient Spirit Clan to take a look, leave the Super Martial School to me. With me here, no matter how many fellows from Demon and Devil Realms come, I'll let them die! "

---- The people from the Green Summit City all heaved a sigh of relief, especially the people from the shops. They all felt lucky, if Huang Jintian and the others had started fighting, the entire city would definitely have been destroyed.

"This old madman has a powerful magic treasure that can shatter space." This old madman has a powerful magic treasure that can break space. When the Duan Clan members saw this from afar, they were filled with admiration and admiration.

"It actually did not fight, but after saying it again, this old madman Huang Jintian did not dare enter the Rough and Random profound Land, it seems like he knows a lot of things! If he has grasped Heaven extended method, it is very likely that he is from the Undead Race. " The leading old man of the Duan Clan had a thoughtful expression.

Undead Race! When the other Duan Clan members heard this, they were extremely shocked. Undead Race had an unlimited lifespan, and was also one of those that would easily be sealed by the heavens. But when using Heaven extended method, one had to lose their lifespan.

"Let's go, we can't go in with the Tong Tian Aristocratic Family, it would only be dangerous if we go in with them."

The people of the Duan Clan were the first to leave and were walking at the front. After that, the experts of Tong Tian Aristocratic Family and Sheng Domain started their journey as well, led by mostly elderly people who were reaching the end of their lifespan.

At this time, Chen Xiang was still on the stone tablet in front of the group of Lion Mountain.

"Little Naughty Dragon, how is your exploration?" Chen Xiang asked, he had already asked many times.

"There's really a lot of these Lion Mountain. There must be at least a hundred thousand of them, and every single one of them is the same. However, there are some auras in some of the Lion Mountain that seem to be sealed with ancient beasts." Long Xueyi said with a voice filled with shock. This mysterious Lion Mountain appearing within the Mortal Realm immediately made it impossible for her to, because this power was something that was rarely seen even in Heaven Realm.

This made her feel that a long, long time ago, this Mortal Realm might have been a prosperous and powerful high class world. However, something unexpected happened later on and it became like this.

"Will there be any danger if we go in?" Chen Xiang was most worried about this, and only by going in there personally would he be able to find out where the tomb was.

"I don't know, I just entered with my mind consciousness. But you have a profoundwu diamond armour, you shouldn't be killed." Long Xueyi replied: "I'm already here, so I'll just go in and take a look. I won't die anyway, I'm very curious about that tomb."

Chen Xiang clenched his teeth, turned back into his human form, and entered the land behind the monument, walking towards the Lion Mountain that was closest to him.

### [Chapter 823](#)

Just as Chen Xiang changed back into his human form, low growls suddenly came out from the forest. It was creepy and terrifying, causing Chen Xiang to immediately run forward.

"These beasts don't seem to dare to cross that stone tablet. You should be safe now." Long Xueyi heaved a sigh of relief. She initially wanted to mix with these strange beasts, but she was afraid of alerting them.

At this time, she released her divine sense to see if she could communicate with these strange beasts. However, she was disappointed to find that these strange beasts became even angrier. She didn't know why.

Once he entered the group of Lion Mountain, Chen Xiang immediately felt countless killing intent being emitted from the group of Lion Mountain, causing him to stop in his tracks.

"How terrifying, why do I feel like every Lion Mountain is a devil brimming with killing intent!" Chen Xiang's face was filled with shock and horror, especially when he got close to a Lion Mountain. He felt that the mountain seemed to be alive, and was constantly releasing immense pressure, making him feel as if he were carrying ten thousand kilograms of weight.

"This place is terrifying indeed. It seems like this is the most dangerous place you have ever encountered." Long Xueyi said vigilantly.

What Chen Xiang found strange was that although the ground was filled with mud, it was extremely sturdy. Even though every step he took was very heavy, there weren't any deep footprints left on the ground.

He squatted down and used his hands to dig away the dirt on the ground. When he was about five inches deep, he suddenly discovered some green stone bricks.

After making the discovery, he expanded his field of work to dig out more green stone bricks. Very quickly, he confirmed that there were many complex Spirit grain s underneath the mud, but he did not understand them. Although he was a formation master, he did not recognize any of these Spirit grain s.

However, from those markings, he could tell that these Spirit grain were the same as the ones on the ancient treasures in the Tong Tian Aristocratic Family!

"These stone bricks have been here for a long time, yet they still exist. It can be seen how powerful these Spirit grain are!" Long Xueyi exclaimed: "The countless Lion Mountain s down there, could it be all these stone bricks?!"

Chen Xiang continued to walk forward, towards the Lion Mountain closest to him. He knew that there was definitely something inside these huge Lion Mountain s, and the trees planted on them and the soil wrapped outside.

Every step he took was extremely difficult, even with all his strength, it was extremely difficult. Just as he was ten meters away from Lion Mountain, a ray of light suddenly flashed under his feet!

"This is ..." The power of space, I touched the Transmission array ... " Just as Chen Xiang finished speaking, a light flashed before his eyes.

When he opened his eyes, he saw a vast grassland, which he was very familiar with. He had actually arrived outside the Rough and Random profound Land, and was currently high up in the sky.

Duan Sanchang was still the same as before, dressed in simple and unadorned clothes, with a full beard on his face. With a blade of grass in his mouth, he followed behind the Duan Clan elders.

"This guy ..." It looks very familiar! " Duan Sanchang's eyes widened as he clearly saw Chen Xiang's face, and the grass in his mouth instantly fell.

"It's this bastard who destroyed the tomb of the son of the Demon God. I want to beat him up." Duan Sanchang muttered.

The Duan Clan elder also discovered that there was someone falling from above. It was the Chen Xiang who just came out, he had accidentally touched the Transmission array.

"Chen Xiang." Duan Sanchang shouted.

Chen Xiang immediately circulated his power, allowed himself to float, and then slowly descended to the ground.

"Chang Zi, why are you here?" Chen Xiang laughed.

"Don't forget that back then, I was the one who formed a team and said that I wanted to come to the Rough and Random profound Land, so of course I want to go in now." Duan Sanchang walked over and grabbed his clothes, "Bastard, did you destroy the tomb of the Demon God's son?"

The Duan Clan's elders also had peculiar expressions on their faces at this time, as they secretly lamented in their hearts. Today, they had finally seen Chen Xiang, for Duan Sanchang to be able to befriend such a person, they were extremely happy.

"It's not completely destroyed. If you want to dig something out of it, then hurry up and let me go."  
Chen Xiang laughed.

Sure enough, Duan Sanchang immediately let go of Chen Xiang. Furthermore, he even introduced his Duan Clan's seniors, who were those old tomb robbers.

The leading old man's name was Duan Kong, he was the Duan Clan's Patriarch, Duan Sanchang's great-uncle, and the middle-aged man who looked more like Duan Sanchang was called Duan Anyu. He was Duan Sanchang's father.

Chen Xiang learned from the Duan Clan that Huang Jintian had actually come out to find him, which surprised him, and then he found out that the big powers had attacked the Rough and Random profound Land, but in the end, they had suffered heavy casualties, and now, they had launched a second round of attacks, and even sent out some immortals.

"Little friend Shen, did you just come out from inside?" Duan Kong asked.

"Yes, I saw a lot of Lion Mountain inside ..." Chen Xiang told his experiences inside, and the Duan Clan members were wild with joy when they heard it.

The people of Duan Clan did not continue moving forward, but sat on the plains, and listened to Chen Xiang talk about the things inside.

"Chen Xiang, write out the four ancient characters on the stone tablet, maybe we can recognize it. Just like you said, there's a very powerful grave inside, we will tell you later." Duan Sanchang asked excitedly. At this time, he had already forgotten about the tomb of the Ancient Devil God.

Chen Xiang's memory was extremely good. He took out a piece of paper and drew on it.

"What do these four words mean?" Chen Xiang asked. Long Xueyi only recognized two words.

"Ten Heavenly Sacred Mountain!" Duan Kong took a deep breath, his old face was full of excitement, and the old hands holding the piece of paper, were trembling.

Chen Xiang originally thought that it would be a hundred thousand or a billion Lion Mountain s, but it wasn't, but some kind of Ten Heavenly Sacred Mountain!

"What is this?" Chen Xiang still did not understand, and all of the Duan Clan members were extremely excited. It was clear that they clearly knew what this meant.

"Legend has it that there's a Nine Layered Heavens in the Heaven Realm, but that's not it. There were ten days, but after some unknown period of time, the Tenth Heaven disappeared. This Tenth Heaven is the most ancient world." Duan Kong explained.

Chen Xiang immediately understood, this was just as Long Xueyi had guessed, there was indeed a very ancient place inside!

"So this Mortal Realm we are in is the tenth day?" Chen Xiang was dumbstruck.

"We're not sure right now, but our ancestors didn't leave much behind for us. However, if we dig out the tombs of many ancient powers, we might be able to find out more. However, understanding that

piece of history will only bring about divine retribution, so our Duan Clan has been sealed many times over the years." Duan Kong sighed: "But in order for the true history to surface, our Duan Clan will definitely carry out the tomb robbery to the end!"

Chen Xiang secretly curled his lips, the reason for robbing this tomb was just too strong, no one could refute it.

"Whose tomb exactly was that in the group of Lion Mountain? Why are they all Lion Mountain? What about those strange beasts? Even at that level of strength, he still has not turned into a human." Chen Xiang asked again.

#### [Chapter 824](#)

The people of the Duan Clan were all looking at Chen Xiang with strange expressions. Only now did they recall that Chen Xiang being able to enter that place by himself was truly a miracle, he actually knew that those strange beasts had reached that realm, and even dared to run around inside!

However, he is not a human, but a very ordinary lion. It can be said that he is a late blooming lion, and he always breaks through at the end of his lifespan, killing in every direction, removing all obstructions that obstruct the unity of the heaven and earth, becoming a Ten Heavens Supreme Lord. Kong said.

Long Xueyi's Imperial Dragon Race only appeared many years after his death, so it was normal for them to not know about this piece of history. However, the Tong Tian Aristocratic Family and Sheng Domain both knew that there were related records of ancient families in this land.

To unite all the families of heaven and earth and become a Ten Heavens Supreme Lord, that was truly admirable. What kind of strength was needed to do that?

"However, he was still unable to make it in time and was buried in the Ten Heavenly Sacred Mountain. That was a tomb that was constructed for him by a group of saints that spanned over ten days. There are definitely dangers, but if he walked the right path, he would be able to enter the Ten Heavens Supreme Lord's tomb." Duan Kong's eyes flickered, he was also not sure if they could smoothly reach that place.

"The strange beast inside was alive for so long, it must have been asleep for so many years, and now it has awoken. After the death of the Ten Heavens Supreme Lord, many other great events must have occurred, causing it to collapse within ten days and turn into countless Mortal Realm.

Chen Xiang didn't want to go in now. He already knew what kind of place it was and he had even been in it before.

"Duan San, we have confirmed it now, the tomb of the Ten Heavens Supreme Lord is inside, don't go in, if old fellows like us can't come out, then we will need someone to pass on the Duan Clan's legacy." Duan Kong patted Duan Sanchang's shoulder, and then, a very old man of the Duan Clan walked into the Rough and Random profound Land with heavy footsteps.

Duan Sanchang seemed to be already used to this kind of thing, because whenever these old fellows went to find those dangerous tombs, they would always tell them, the young ones of the Duan Clan, this.

"Brother Shen, tell me where the tomb of that son of the Demon God is. My hands are itching." Duan Sanchang laughed, he was not worried about his family, he had a carefree look on his face.

"I'm not accompanying you anymore. I don't want to go to that place a second time ..." Chen Xiang told them about the Ancient Desolation Forbidden Land, telling Duan Sanchang to be especially careful of the Black Water Poison Pool.

After Duan Sanchang found out about Ancient Wasteland Devil Sect's tomb, he ran away like a rabbit, not even bothering to say a word of thanks.

Chen Xiang walked on the prairie by himself. Although he did not find any spirit medicine in the Rough and Random profound Land s, he still obtained some, and Fire phoenix purple gold were very precious.

Inside the Green Summit City, everyone was discussing about the things that happened inside the Rough and Random profound Land, there were some secrets that only the ancient powers knew, Chen Xiang did not plan to reveal either, otherwise, it would definitely cause many people to be curious.

Chen Xiang had changed his appearance when he entered the city. His master had almost destroyed this city previously, and now there were still many people who brought him up, so he did not dare to be careless.

He had promised Duan Sanchang that he would wait here for him to return from the demon realm. Duan Sanchang seemed to have a method to teleport there as well and he would be back very soon.

He rented a house at the back of an inn. He planned to study the Spirit grain and formations within the "Divine Book". The Divine Book was a very ancient item and it was hidden in the Super Old Sacred Land.

Just as he finished tidying his room, a peerlessly beautiful woman appeared at his door, dressed in snow-white clothes. Her beautiful, jade-like face was filled with frost.

"Chen Xiang, I never thought that you would be able to come out alive." Ji Meixian had an extremely strong spiritual sense, she could sense him the moment he entered the city.

Chen Xiang could not think of a way to avoid this strange spiritual sense for the time being, otherwise Su Meiyao and Bai Youyou would not have been chased by her for such a long time.

"I just made the bed and you're already here. You really know how to choose time." Chen Xiang smiled ambiguously, he was not the least bit nervous, he had information on the Yu Yi Immortal Fairy in his hands.

"You ..." Ji Meixian thought about how Chen Xiang had touched her body randomly, and couldn't help wanting to cut off the skin on her body that Chen Xiang had touched before. Of course, she wanted to cut off Chen Xiang's hand and dig out his eyes.

"However, you are not qualified to warm my bed. If you wash your feet well, you might be able to advance." Chen Xiang laughed and said, without holding back, he ridiculed the high and mighty Heavenly Girl.

Ji Meixian had once dominated the Heaven Realm before, so she was exceptionally calm now.

"Return the things to me and we'll write them off." Ji Meixian glared at Chen Xiang fiercely and said.

Chen Xiang had taken away a portion of her immortal clothes, and it was in her apron, which was a very important part of her clothes.

"What's written off? I don't owe you anything, but when you attacked me first, I just took something when I was retaliating." Chen Xiang crossed his chest, and said with a smile.

"Humph!" Ji Meixian was furious in her heart, Chen Xiang had not only taken something away from her, but she had also recorded down the image of her body being tainted. If it were to be spread, her reputation would be completely ruined.

Chen Xiang shook his head and sighed, "Your apron was lost by me and you should also know that I escaped into the Rough and Random profound Land at that time.

"Where did you fall?" Ji Meixian raised her eyebrows and asked involuntarily. She looked anxious and her expression turned ugly.

Landing outside a mountain shaped like a lion, the inside of the Rough and Random profound Land is truly scary. There are many kinds of lion mountains inside the Rough and Random profound Land, and when I am near a Lion Mountain, I am attacked by a large group of strange beasts, and at that time, I will throw out your undergarment to defend myself. Then, I will take this opportunity and run towards a Lion Mountain. Chen Xiang said. Of course he was lying to Ji Meixian because he wanted Ji Meixian to lose that heart of his.

After Ji Meixian heard it, her body trembled and she almost lost her balance. She was the Heavenly Daughter of the Sheng Domain and also an expert of the Heaven Realm. She naturally knew that those Lion Mountain inside the Rough and Random profound Land were the tombs of the Ten Heavens Supreme Lord.

"Little bastard, how dare you run to that place! I'll kill you!" Ji Meixian could no longer endure, he threw a slap at Chen Xiang, the speed of the attack was extremely fast, and the strike contained a powerful force, the power was actually not White Sea Imperial Land's vast Innate Qi!

Fortunately, Chen Xiang had already prepared himself and avoided the attack. Otherwise, a few of his teeth would have definitely been broken by the slap.

"Don't be angry, if you kill me, you will never be able to find your apron again. Only I remember what kind of place it is. When we have enough strength, we can go in and we'll definitely find it!" Chen Xiang forced a smile.

Ji Meixian had a strong spiritual sense, which meant that she was no longer able to feel her apron, which meant that it was no longer in Chen Xiang's hands. If she went deep into the Rough and Random profound Land, she could feel it through her spiritual sense.

"You won't be able to exchange with my things even if you had ten lives. Hurry up and give me back my ring and the crystal." When Ji Meixian talked about the Image Crystal, his cheeks flushed red slightly.

"Isn't it just a bellyband? I'll compensate you a hundred." Chen Xiang laughed and returned the storage ring back to her, but he didn't have the intention to take out the crystal.

"Where's the crystal?" Ji Meixian snatched the storage ring away and asked coldly.

Chen Xiang curled his lips and said: "Relax, I am only leaving it as a souvenir, I will definitely not bring it out to see, my female slave is much more beautiful than you."

"I... "You better remember, one day, I will let you know how foolish it is for you to offend me." Ji Meixian gasped for breath, suppressing the anger in his heart, he waved his sleeves and left.

## [Chapter 825](#)

After Ji Meixian left, she did not tell anyone that Chen Xiang was in Green Summit City, because Chen Xiang was like a treasure to her. Although she was still threatened by Chen Xiang, she would be able to turn the tables on him once she becomes stronger. She did not want Chen Xiang to fall into other people's hands.

The seniors of the big powers started to move, attacking Rough and Random profound Land together and started to fight with the strong beasts outside. They were certain that the legendary Ten Heavens Supreme Lord's tomb was inside, and the people who had come out were all immortals.

The people who went were all seniors, the people from the previous year were all waiting in the city. Even the young and powerful heavenly daughters could only obediently stay in the city.

When the experts attacked the Rough and Random profound Land, they spread to the nearby cities, causing the entire Green Summit City to shake slightly.

Chen Xiang laid a sound-insulating array inside the secret room, and at the same time, made his secret room float in the air, so that it wouldn't be affected. He had to concoct pills now, and he couldn't be disturbed.

"Sigh, it's too difficult to refine a high grade Ground level pill. It looks like it's very difficult to succeed without the experience of refining a middle grade Ground level." Chen Xiang failed four batches of Relive Dan in a single day.

"Of course, no matter how talented you are, you will have to take it step by step. Now that you have passed the Nirvana Tribulation, you can easily defeat the second and third tribulations. However, concocting pills is different from this, you only need to know the difficulty." Su Meiyao scolded sternly.

It was because Chen Xiang had many Relive Dan's medicine, otherwise he would not dare to try it. However, if those Dan King s knew about it, they would definitely be so angry that they would vomit blood.

The difficulty of the Relive Dan's refinement was still very high, so right now, Chen Xiang could only sincerely refine a middle grade Ground level pill, Congenital Jiuyuan Dan!

The Congenital Jiuyuan Dan's medicine was obtained when he went to look for the Dan King's Li Tianjun's medicine garden. This was the only medium-grade Ground level medicine he had, its main function was to cause a strange energy to sprout from all over his body, then condense nine air cyclones in his dantian that could crazily absorb spirit energy. Its speed was extremely shocking.

If he added in a better spirit vein, all the spirit energy within a radius of several miles would be extracted and entered into the nine cyclones without any obstruction. However, he needed a very powerful body to work with it to quickly refine the spirit energy that rushed into his body.

If it was someone who possessed an extremely good spirit vein, such as a multi-sky meridian, multi-profound veins, and a very good body, using a Congenital Jiuyuan Dan would achieve the same effect as a low-grade Heaven level pill. However, if the user did not have a good aptitude, the result would be even worse than a low-grade Ground level pill.

Chen Xiang owned a few Five Elements Profound Dan, but he did not plan to use these pills to increase his cultivation, he felt that it would be a waste, because his cultivation method was a bottomless pit, and the high grade Ground level pills would not be able to satisfy him, so he planned to keep them for when he was in urgent need, for example, to recover his Innate Qi.

The Congenital Jiuyuan Dan were there to help a person absorb the Spiritual Qi of Heaven and Earth, and the Spiritual Qi of Heaven and Earth could be said to be endless. The five Beast statue in Chen Xiang's Dantian needed the energy of the world to fill it up.

He took out three main materials, Purple True Mystical Ginseng, Nine Fruit Flower, and Golden Ginseng!

Purple True Profound Ginseng, a deep purple, palm-sized humanoid Profound Ginseng, its entire body was circulating with a light, bizarre Innate Qi. Nine Fruit Flower. Within a small white flower that was the size of a bowl, there were nine thumb-sized, baby colored fruits. They looked very magical.

Golden Ginseng Grass was a bright golden herb. It looked like a ginseng, but in reality, it was actually a stalk of grass. As a result, it was named as such.

The three main ingredients were all emitting a very unique aura, one that was unique in the world.

The special Innate Qi and spirit energy within the body of a spirit medicine were both unique and unique. Therefore, if one was missing a main material, it was almost impossible to find a replacement. There were some medicinal herbs that had to be consumed in conjunction with other medicinal herbs in order for it to be effective. If consumed alone, it would instead be harmful.

These pill formulas were formed from the various attempts of the first batch of Alchemists and had been spread throughout the world. However, they were only left as the tip of the iceberg, which was a pity just thinking about it.

"I have already dealt with the supplementary ingredients. Although the supplementary ingredients are easy to find, they are still essential when refining some medicinal pills." Su Meiyao said.

Chen Xiang nodded his head and started to organize the three main ingredients. At this time, he was not only clearing away the missing parts of the ingredients, but he was also releasing his consciousness to enter the ingredients, allowing him to become more familiar with the ingredients. This was the essential step of using the Foreseeing Alchemy.

"I wonder if this kind of pill that can allow people to quickly absorb the Spiritual Qi of Heaven and Earth can be carved with Spirit grain to enhance its effects?" mumbled. Inscribing Spirit grains on top of the pellets, this kind of thought was not only limited to him, many Alchemists had it. But in the end, it still failed.

Because after consuming it, the pellet would melt and the Spirit grain on it would lose its effectiveness, so it was not of much use.

After the Congenital Jiuyuan Dan eats it, it will not melt immediately because the medicinal power will be able to sustain it for a period of time. However, for you to fuse the Spirit grain and the medicinal pellet is very difficult, and also not realistic. Su Meiyao said.

The Spirit grain was not carved on the surface of the pellet, but when he was condensing the pellet, he used his strong consciousness to condense it into a Spirit grain and brand it on the outside and inside of the pellet. Chen Xiang did not have any specific concepts, he only thought that by doing so, he would be able to make the pellet more effective, but the prerequisite was that there was the cooperation of a special Spirit grain.

The Yanlong furnace was no longer as red as before. After being treated by his special technique, it would not emit red light on the surface, and he was worried that people would see it in this new world. At that time, a group of Alchemist would definitely snatch it away.

When the herbs were thrown into the furnace, the Foreseeing Alchemy began to operate. Based on the various scenarios in the furnace, it was like a prediction of the future. This would allow the Alchemist to discover errors in time to refine pills, in order to correct them and reduce the number of failures.

The difficulty of refining Congenital Jiuyuan Dan was quite high, when the medicinal ingredients were used, a strange power would be generated. It was able to absorb the Spiritual Qi of Heaven and Earth, so right now, the Yanlong furnace was shrouded in a white mist.

This white mist was all spiritual energy and it was all very pure. The misty spiritual energy was very dense and was completely absorbed by Chen Xiang.

Within the furnace, purplish golden mist permeated the air as they 'struggled' against each other. The more the various medicinal herbs rejected, the more it meant that these pills were of a higher tier.

"Three pills!" Chen Xiang's forehead was filled with sweat. After a long time, he had already reached the later stages. From the Qi Vortex, he judged that he could condense three pellets!

He had only refined the first batch, and had already reached this step. This made him secretly heave a sigh of relief, but he did not immediately condense the pellet. Instead, he planned on branding these three Congenital Jiuyuan Dan s with the Spirit grain!

## [Chapter 826](#)

Chen Xiang had originally planned to refine another batch of Congenital Jiuyuan Dan successfully, but now that he was close to success, it meant that he had mastered a certain level of experience, so it would be easier for him to reach this level in the future when refining Congenital Jiuyuan Dan.

Immediately, a few Spirit grain s appeared in his mind. He had swallowed the memories of the four formation masters before and laid a solid foundation for the formation.

Although the array formation was not all set up by Spirit grain, Spirit grain s were still essential.

The Congenital Jiuyuan Dan was a pill used to gather spirit energy. Chen Xiang wanted to use the pill as the base and inscribe the Spirit grain s on it. From the very beginning, it would be the most basic Spirit Convergence Array.

His consciousness followed his will and turned into tiny golden Spirit grain, like a strand of hair, that he placed into the air whirled at the edge of the congealing pills.

The Medicine aura itself was a huge source of energy, but as long as the formation had energy supporting it, it could be activated, and the Spirit grain would be very effective.

There were only thirty-two Spirit grain in the simple Spirit Convergence Array. As long as one remembered the patterns of these Spirit grain, they could be enlarged or shrunk according to the ratio and the Spirit grain could be activated. The hardest thing was to connect these thirty-two Spirit grain together, making it possible to produce a miraculous effect.

The golden Spirit grain was formed by Chen Xiang using his strong consciousness. Right now, he could already condense his consciousness into an energy form.

Three pellets were all needed to be carved into the Spirit grain, which increased Chen Xiang's workload. He could have completed this already, but in order to inscribe the Spirit grain, he had spent more than half a day, which used up a lot of his divine sense and Innate Qi.

In order to set up a formation or to refine equipment, Spirit grain would usually use special energy to form something, but they couldn't use that energy inside the spirit pellet. They could only use the purest kind of consciousness and Innate Qi to construct the skeleton of the Spirit grain, while the Innate Qi was made from the flesh and blood of the Spirit grain.

One day and one night passed. Ever since he possessed the Heaven fire soul and knew how to use mana to concoct pills, it was rare for him to use such a long time to concoct a batch of pills.

Around the Yanlong furnace, the surrounding Innate Qi were all fiery red. It was possible that they were affected by the Congenital Jiuyuan Dan inside, and because the furnace was fire attributed, they could absorb spirit energy from it.

Before even taking them, the three Congenital Jiuyuan Dan s would be able to condense their spirit energy into mist forms. This meant that the potential of the Yanlong furnace itself was great.

Seeing Chen Xiang being so serious, Su Meiyao did not disturb him, she wanted to see how the Spirit grain and the pill combination looked like, so she naturally hoped that Chen Xiang would succeed. At that time, Chen Xiang might even be able to create a unique pill refining path!

In the morning, Chen Xiang finally opened his eyes. He did not expect that concocting a batch of pills would cause him to consume most of his spirit power and Innate Qi.

Opening the lid, three light purple pellets were surrounded by white Qi, and after the white Qi dispersed, Chen Xiang smiled slightly: "Seems like it's a success!"

He took out these three Congenital Jiuyuan Dan s, and these kind of pellets usually came out with one pellet. The powerful Alchemist could give two of them to reach the middle grade Ground level, and most of the pellets that came out weren't high quality.

However, he maintained his consistent style of doing things and wanted to achieve perfection!

The three Congenital Jiuyuan Dan s were all of high quality, but the only difference was that the surface of the pill was covered with spirited golden-white lines that were flickering with a weak glow.

Chen Xiang succeeded in merging the Spirit grain and spirit pellet together, but he did not know how effective it would be.

The Congenital Jiuyuan Dan were carved with Spirit grain, so it was very beautiful. The Spirit grain were filled with vitality, as if they were alive, as if they were nature's nurtured heavenly treasures, and were not refined by humans at all.

Spirit grains and spirit pellets were one and the same, it looked very beautiful, making people unable to resist taking a closer look. Even the powerful Alchemist Su Meiyao was exclaiming in admiration, and laymen like Long Xueyi and Bai Youyou were able to see through it.

"Little Scoundrel, you're really amazing!" Long Xueyi praised from the bottom of his heart.

"Of course, I've put in a lot of effort." Chen Xiang also loved them dearly.

Long Xueyi laughed, "Then let me try to see how effective it is!"

"No way, the energy in the ring can't be absorbed by you!" Su Meiyao anxiously stopped him.

The Serene Jade Ring was completely unrelated to the outside, even Ji Meixian's spirit sense could not sense the world inside. If Long Xueyi were to eat inside the ring, he would only absorb its energy.

Long Xueyi playfully stuck out her tongue and said: "This pill is like a treasure, why not call it a treasure pill? I feel that this pill does not have a specific rank, if there are more Spirit grains, its effects might be even stronger."

Chen Xiang nodded his head: "Yes, I will try to see how the effects are. If the effects are good, I will put more effort into learning Spirit grain and refine a suitable precious pill for you to eat."

He swallowed a piece of Congenital Jiuyuan Dan, but the moment it entered his body, it completely turned into mist. This was different from what the records stated, if a normal Congenital Jiuyuan Dan ate it, the medicinal effects would not dissipate completely.

Just as Chen Xiang was sighing, something surprising happened. After the Congenital Jiuyuan Dan melted, there was a round shaped Qi ball in his dantian.

This ball of air was a light purple color and was as big as a walnut. The Spirit grain on top of it were flickering, and the entire ball of air was still rotating.

He was a rich alchemist, this was the first time he encountered such a situation!

The energy within the Congenital Jiuyuan Dan had already completely fused with those Spirit grain, and it was difficult to dissipate!

At this time, the Congenital Jiuyuan Dan's special energy was stimulating the Spirit grain's energy. After he channeled his energy, the heaven and earth spirit energy surged towards him like a tsunami.

The Congenital Jiuyuan Dan's medicinal strength could allow people to absorb Spiritual Qi quickly. If the person who consumed it had a good aptitude and a strong body, he could display a medicinal strength that was not inferior to a low-grade Heaven level pill.

But now that he had added a Spirit Convergence Array, the effect was even better, surpassing Chen Xiang's imagination!

Chen Xiang was overjoyed, for the sake of testing the effects, he had no choice but to enter a state of cultivation.

If it was in the past when he was absorbing spiritual energy, it would be best if he was only in the gaseous state, but now that the rich spiritual energy had entered his body, it turned into a liquid and water state. Luckily he had the two divine arts, Taiji Dragon-suppressed kungfu and the Fire god method, to assist him in cultivating, otherwise he wouldn't be able to refine so much spiritual energy in one go.

If it was not fast, he felt that the spirit energy might crystallize in his body and turn into a Spar!

At the same time, many people who were cultivating in the Green Summit City were cursing. They could not absorb any spiritual energy and were all snatched away.

Above Chen Xiang's house, the surrounding spirit energy appeared like a tornado, constantly seeping into his secret room for him to absorb. This scared many people silly, they had never seen anyone absorb spirit energy like a cow drinking water!

### [Chapter 827](#)

Ji Meixian had always been inside the Green Summit City, so when she saw the phenomenon, she was sure that it was Chen Xiang who made it. Even though she was once an expert of the Heaven Realm, this was the first time she had seen such an earthshaking scene of absorbing spirit energy.

All the Rankers in the city flew towards where Chen Xiang was, especially those Heavenly Sons and Heavenly Sisters. They wanted to see who the person was and what method they had to devour the large amount of Spiritual Qi.

Chen Xiang's secret room had already been completely destroyed by the boundless spirit energy. He was wrapped in a purple ball of energy, and outside the purple ball flowed the Spirit grain of the Spirit Gathering Formation.

His body was like a bottomless whirlpool, absorbing the spiritual energy in the surrounding miles around him. The white mist of spiritual energy revolved around his body and entered his body. His small house was already shrouded in dense fog, the density of the spiritual energy was greater than any Tong Tian Aristocratic Family or Sheng Domain warrior!

"This... Isn't this guy Chen Xiang?" His fair and handsome face was filled with surprise, but at the same time, it revealed a look of greed. He believed that this was caused by the Taiji Dragon-suppressed kungfu.

Chen Xiang possessed a celestial blade and Taiji Dragon-suppressed kungfu, and had always been coveted by many great powers, but now that he possessed a Fire phoenix purple gold, it made them even more jealous, and made him a living treasure trove.

"Chen Xiang, you stole my White Sea Imperial Land's Fire phoenix purple gold, you better hand it over obediently. You killed many of my White Sea Imperial Land's elders, today I will take you down!" Hai

Weidong's expression was indifferent, at this time, Chen Xiang was being surrounded by many genius disciples from big powers, and could not escape even if he had wings.

Huang Jintian had said before, the matters of the younger generation should be handled by the younger generation, the older generation couldn't interfere, if not Huang Jintian would make his move too, so the old fellow could only watch from the side. If they were to make a move, not only them, but the entire power would be annihilated by Huang Jintian's group.

"I found the Fire phoenix purple gold outside of Rough and Random profound Land. I worked hard to dig it out of the ground. Why don't you go and obtain the mines of the various great powers?" Chen Xiang opened his eyes and sneered.

Chen Xiang was still crazily absorbing spiritual energy, he was very calm, worthy of respect. Everyone wanted to know what kind of method he used to be able to drink so much spiritual energy.

"Hmph, no matter what, I can't let you escape today!" Just as Hai Weidong wanted to go up, he was stopped by a handsome man with an arrogant aura.

"Chen Xiang and our Feng Clan have irreconcilable enmity, he has killed many people from the Feng Clan, please do not snatch it away from me!" This tall and sturdy handsome man was the son of the Feng Clan, Feng Wu Jun!

Everyone wanted the treasures on Chen Xiang's body, but the young experts from the other big powers were just watching by the side. They didn't want to provoke Chen Xiang right now, because White Sea Imperial Land and Feng Clan were just the examples.

Of course, if they had the chance, they would not hesitate to attack Chen Xiang.

Chen Xiang laughed coldly: "You must be here for my treasured blade and divine arts right? Or do we attack together?"

He was frantically devouring the spirit energy, thinking that the Congenital Jiuyuan Dan could still sustain itself for a period of time.

A lady from Peach Blossom Imperial Land wearing a luxurious pink dress with a pink veil said softly, "Young Master Shen should be in a state of cultivation right now, do you want to take advantage of me?"

The one who spoke was the Heavenly Girl of the Peach Blossom Imperial Land. When Chen Xiang was at Ancient Spirit Great Land, he had helped Yao Shumei out before.

Taking advantage of a situation like this, was indeed a very shameless thing to do. Furthermore, the current Tian Zi was extremely shameless, so they didn't take action right now. They could only watch as Chen Xiang finished cultivating.

This state had lasted for a full day and night, and Chen Xiang had only dispersed part of the medicinal power. Otherwise, he would have been able to sustain this state for three days and three nights.

Everyone had actually been waiting at the side for an entire day and night. Other than jealousy in their hearts, this kind of crazy method of devouring spiritual energy was many times better than those in the profound Realm that were rich in spiritual energy.

"Haha ..." Chen Xiang laughed. He was truly happy, because he could take the road of combining Spirit grain and pills. The effect was very good, but the process of refining was extremely difficult.

At this time, he had lit up quite a few Zhenyuan granule, but to make a breakthrough, he would need to light up a lot of them.

"Young Master Shen is indeed an influential figure in the younger generation. I wonder if the astonishing phenomenon from before was caused because of the Taiji Dragon-suppressed kungfu?" The Peach Blossom Heavenly Lady asked from afar. Although her face couldn't be seen, her eyes were extremely beautiful, emitting a gentle light. Her voice was light and gentle, causing others to feel a sense of familiarity towards her.

Chen Xiang laughed: "Of course not, this is caused by me consuming a pill that I had just refined. I also did not think that it would cause such a commotion and attract these people."

It was actually created by consuming pills. What kind of pill was this? It was only now that many people remembered that Chen Xiang was one of the most talented person in the younger generation in terms of alchemy, and he also knew a lot of Relive Dan s.

When the heavenly sons and daughters thought of this, they couldn't help but break out in cold sweat, especially the people from the Feng Clan. They actually used Relive Dan as a bounty to offer rewards to Chen Xiang, they were a little worried that he would use it to offer rewards to them.

The Peach Blossom Sky Lady's eyes flashed and asked again, "May I know what kind of pill it is? This little girl has never heard of such a pill. "

Chen Xiang laughed proudly, and said: "Of course you haven't heard of it, even if those old pill refiners of your Peach Blossom Fairyland came, they would definitely not have heard of it, because the cultivation method for this kind of pill is something that I have created myself. If your Peach Blossom Fairyland wants it, I can sell you a few pills, but the prerequisite is that you all are capable of producing Spar!"

The crowd was shocked again. He actually created such a powerful pill? This was definitely enough to stir the entire alchemy world!

They definitely could not let Chen Xiang live, otherwise, the threat would be even greater. For a Alchemist, if they could refine a Heaven level Pellet and become a Dan King, then even if they were the oldest powers, they would still be in danger.

"Finished speaking. Quickly come and understand our grudges." Feng Wu Jun shouted.

He definitely could not allow the Feng Clan, the Son of Heaven, to seize the opportunity. If Chen Xiang fell into the Feng Clan, then the Feng Clan would have really profited greatly.

"Feng Wu Jun, you must be clear that Chen Xiang stole our White Sea Imperial Land's Fire phoenix purple gold and killed many elders. The hatred between us is much greater than your Feng Clan's!" Hai Weidong's voice became colder and colder.

Everyone knew what the two Heavenly Sons were planning. As long as they could take down Chen Xiang, they could get his Divine Blade.

Chen Xiang laughed, "Hey, hey, who's the first to go? Why don't you guys fight me first, whoever wins will fight me again. "

### [Chapter 828](#)

The people from the other big powers also wanted to take action, but they would offend Chen Xiang and the other Tong Tian Aristocratic Family s, so they just stood to the side and watched.

"Hurry up and decide who will come first, I don't have the time to mess around with you." Although there was a huge difference in strength between him and the Son of Heaven, he still wanted to fight with them. Furthermore, he had already thought of a series of battle methods.

Feng Wu Jun and Hai Weidong were still arguing and neither one of them was willing to back off. This was because whoever made the first move would have the possibility of taking Chen Xiang down, which was equivalent to obtaining a treasury.

Chen Xiang looked at Ji Meixian. He could tell that Ji Meixian did not have any intentions to make a move.

Ji Meixian had threatened Ji Meixian. If Chen Xiang released the contents of the Image Crystal, she would have destroyed it, but she did not dare to take the risk.

"If you want to fight, just fight. Don't think that I'm afraid of you!" Feng Wu Jun was enraged, and said to Hai Weidong.

Without saying a word, Hai Weidong punched out, the power of the punch was like a surging ocean wave, bringing up waves after waves of berserk waves, ripping apart a large building on the ground.

The first attack he made was White Sea Imperial Land's Hahai Fist. Its power was extremely terrifying, and the aura it released was comparable to the power of the sea.

At this point, Feng Wu Jun did not hold back, he struck his palm towards the force that was like an attack from a berserk attack, causing winds to instantly blow and waves to surge, creating an enormous pressure as he attacked Hai Weidong's vast sea fist force.

It could be said that the strength of both Feng Yun and Hai Yang were equal.

Right now, the two of them were activating their strongest Innate Qi, their fists and palms facing each other like two fierce beasts fighting each other, neither of them willing to give in.

The Innate Qi of the two Heavenly Sons were both very strong, causing huge waves of commotion. The entire city was enveloped in a heavy atmosphere, it was all because of Chen Xiang.

Suddenly, Chen Xiang laughed out loud, the green light in his hand flickered, and an extremely large green blade appeared. As though it could split apart a mountain, Chen Xiang raised it up high, and slashed down towards the two palms that were facing the sky.

"Why don't I take care of all of you together!" While he was speaking, the Green dragon demon-slain broadsword had already chopped down. The Dragon Power roared like a dragon and its power was like the sky itself.

The divine blade weighing millions of kilograms came crashing down. Accompanied by the strong pressure of the Dragon Power, it tore the ground apart.

What was unbearable was Chen Xiang's incomparably boundless killing intent, as if an Evil God had crawled out from hell, and this killing intent, came from Chen Xiang's Killing heart and Slaughter God's Hand, causing his strength to increase by several fold.

The Green dragon demon-slain broadsword became smaller and smaller in accordance to Chen Xiang's will, and then became more than ten meters long, chopping at the two prodigies.

The faces of the White Sea Prince and the Heavenly Sons of the Feng Clan changed, they immediately stopped their training, wanting to stop Chen Xiang's sudden attack with his divine blade.

However, when they finished their work, they suffered a backlash from their powers because they had used up all their strength in the battle just now!

When the Divine Blade descended, the ground had cracked open, and it was Chen Xiang's full power. Although the two Heavenly Sons reacted, it was hard to defend themselves. The Divine Blade was just above their heads, and when it came down to it, they were pressed down to the ground by the force of the blade.

Of course, if they were prepared, it would not be so easy for Chen Xiang to succeed, after all, the cultivation levels of the two were much higher than his, and in a situation where the two were unprepared, barely being able to stop his blade, was already very powerful.

Everyone secretly looked down on Chen Xiang, and he actually made his move, but they were still shocked by the strange divine blade. It had actually changed so much, and the power that had been produced was truly terrifying.

Chen Xiang withdrew his divine blade and bellowed in his heart, "Earth Dragon, hold them down tightly!"

The scattered soil on the ground suddenly moved, and two huge water vines appeared out of nowhere. The soil mixed with the water vines and turned into a dragon, wrapping around the two Son of Heaven.

"Chen Xiang, stop!" A clear and cold shout came out, this was the voice of the Feng Clan's Heavenly Girl.

However, Chen Xiang had already dived down, and two gigantic tiger heads with overflowing killing intent appeared above his two palms. These were formed by the Slaughter God's Hand, and one of the Four Symbols Divine Weapons, Slaughter God's Hand, was also extremely terrifying.

The two tiger heads bit onto the two Heaven Children who were entangled by the Earth Dragon, tightly biting onto one of their arms. Chen Xiang roared, grabbed onto the two arms, and flew up into the sky!

"Ahh ..." The two Son of Heaven shrieked. One of their arms was actually ripped off by Chen Xiang.

Chen Xiang's face was filled with killing intent, both of his arms had turned into a ball of flame, and were burning!

"I've said it before, whoever tries to steal my blade will bear the consequences!" Chen Xiang's blade-like voice echoed, and he suddenly dove down.

After Ji Meixian and the Feng Clan saw this, they also rushed down. They couldn't let the Son of Heaven be killed before them, otherwise they would be blamed.

However, Chen Xiang's speed was surprisingly fast, as if he had teleported, and instantly arrived beside the two Heavenly Sons who were entangled by Dragon Slaying, his hands flashed with purple lightning. Clenching his fists, he punched towards the two of them, transforming into two roaring huge tigers, pouncing towards the two Heavenly Sons.

At the same time, Ji Meixian and the Feng Clan Sky Girl also rushed forward, striking the two gigantic tigers condensed with berserk lightning and killing intent. They used all of their power to attack, although they managed to destroy the two gigantic tigers, they still managed to kill the two Son of Heaven.

Suddenly, a dragon roar came out, Chen Xiang took out his Green dragon demon-slain broadsword again, and slashed at the two Heavenly Ladies and the Heavenly Son.

"Cang Lang Slash!"

Tens of thousands of dragons shot down from the sky and wrapped around each other, forming a giant wave that covered the sky. They attacked the two heavenly girls and the two injured heavenly sons.

Everyone held their breath as they watched the shocking scene unfold in front of them. Chen Xiang actually wanted to kill two Heavenly Sons and Heavenly Ladies in one go!

These were all attacks that Chen Xiang had used his full strength with, after he had unleashed the Cang Lang Slash, he had already used up most of his Innate Qi, and only the earth attribute and fire attribute could be used.

But he couldn't kill these two heavenly sons!

Although Chen Xiang had attacked unexpectedly, his strength was extremely shocking. If not for the two Heavenly Sisters blocking his attack just now, the two Heavenly Sons would have already been dead.

But in the eyes of these two heavenly sons, it was a humiliation. They had always despised these heavenly girls, but now they had to rely on them to survive!

From afar, there were already and his clan elders flying over. Although they all had the strength of Nirvana Tribulation, if they were to attack together, the power would still be great!

"This is a good opportunity. Even if I can't kill them, I will still pay them back!" Chen Xiang held onto the Green dragon demon-slain broadsword tightly, flames burning in his eyes. Then, he ate one of the Five Elements Profound Dan!

Seeing Chen Xiang's body surging with a strong Qi, the crowd was shocked, Chen Xiang actually still wanted to attack.

## [Chapter 829](#)

"Chen Xiang, stop! "If you do this, you will only become enemies with us two."

shouted loudly. The two Heavenly Sons were already heavily injured, so she and the Feng Clan must ensure their safety. If the two Heavenly Sons were to die here, the both of them would lose a lot of face.

"Little bastard, stop!" The clan elder who was flying over from Feng Clan roared, he released his treasure sword and thrust at Chen Xiang.

"Chen Xiang, you have to die today. You actually injured our Son of Heaven." The elder from the White Sea Imperial Land said in a cold voice.

"You won't be able to escape even if you have wings. Just surrender and surrender."

Chen Xiang looked at Ji Meixian and laughed: "You want me to stop? Don't even think about it, look at the people from White Sea Imperial Land and Feng Clan, no matter what, I will slaughter those two Heavenly Sons today! "

His body trembled, and a visible fiery aura gushed out from his body like a tidal wave. The scorching aura appeared, and the surrounding temperature rose up rapidly. Many people felt like they were far away, fearing that they would be caught up in it.

A pair of extremely large Suzaku fire wing condensed behind Chen Xiang, and when it opened, it was already more than thirty meters long.

Suzaku fire wing! Ji Meixian was shocked. This was extremely familiar, and her mind suddenly remembered Su Meiyao's charming and beautiful figure. She had seen Su Meiyao use this before!

"Purgatory Tornado!" Chen Xiang's body suddenly spun, and a raging inferno ignited around his body as countless dragon-like flames spewed out.

The giant fiery wings started to rotate, releasing countless long fiery dragons. The long dragons rotated with the fiery wings, forming a huge ball of air formed from countless fire dragons twisting around it.

At this moment, the Purgatory Tornado Chen Xiang was using was even more powerful, every gust of wind had turned into a roaring flaming dragon. The fiery tornado that stood tall on the ground looked like countless raging dragons circling and roaring.

The elders of the White Sea Imperial Land and Feng Clan, the weapons and weapons that they used to attack Chen Xiang were all sucked in. The powerful suction force that it produced right now even caused the elders to feel terror in their hearts, but they were too late to regret it. They were all sucked into the tornado!

The two heavenly sons and two heavenly girls were in the eye of the storm. At this moment, the two heavenly girls released their strongest powers to protect themselves and the two heavenly sons.

If it were not to protect the two heavenly sons, they would have already charged towards Chen Xiang to kill him!

Chen Xiang took out the Green dragon demon-slain broadsword, causing the divine blade to be around a hundred feet long. Along with the crazy rotation of the Suzaku fire wing, it also released waves of lightning and blade silhouettes.

Two of the Elders had been twisted into two pieces, and then completely melted into the fire dragon!

If they had not left in time, they would have died by now. There were many disciples of great powers present, and when they saw Chen Xiang's strength, their expressions changed greatly, because they had always thought that Chen Xiang was only so-so, but now, it seemed that he was simply a monster, domineering to the extreme. Whoever angered him, they would kill him without a care for anything else.

The dozen or so elders from the Feng Clans and White Sea Imperial Lands were already torn to pieces by Chen Xiang's Green dragon demon-slain broadsword. Some parts of them that were not burned by the flames were all flung out, causing people's scalps to go numb.

Right now, there were only two Heavenly Sisters struggling to survive inside. They really wanted to ignore the two Heavenly Sons and attack Chen Xiang first, but they were worried that Chen Xiang would kill the two Heavenly Sons later on.

"Humph, if you want to die, then don't blame me!" Both of Chen Xiang's fists flashed, the golden light released from his body, Slaughter God's Hand released a ray of golden light, causing countless of white tigers to fly out from the White Tiger Gloves. Tens of thousands of tigers charged forth, spiralling downwards from the sky, straight towards the Wind Eye!

With the protection of the Celestial Cloth, it was much easier for Ji Meixian to enter the tornado. However, the Feng Clan Heavenly Lady was no longer able to do so, she could only feel the pressure now, as she had to split half of her power to protect the son of the Feng Clan or else the son of the Feng Clan would be killed by Chen Xiang.

"God Slaughtering Purgatory, enjoy yourself!" Chen Xiang sneered, the white tiger formed from his killing intent and the white tiger Innate Qi continued to attack the four people from the Wind Eyes.

The two heavenly girls could only bite the bullet and use all their strength to attack the white tigers that were brimming with killing intent. When each white tiger was killed, a burst of golden energy would burst out, causing their blood to churn.

At this time, it seemed as if a heavy rain was brewing in the sky. Lightning flashed and thunder roared, thunder rumbled, and lightning flashed like a dragon.

Under the dark sky, the Purgatory Fire Dragon Scroll seemed so bright. The fiery red glow illuminated the sky, and line after line of fire dragons seemed lifelike as they roared angrily, making the tornado seem even more frightening, trapping the Son of Heaven and the Heavenly Maiden inside!

As a threatening pressure descended, everyone suddenly felt that this was not a heavy rain, but a very powerful energy. Seeing a huge black vortex suddenly appear in the sky above the Purgatory Flame Dragon Scroll, everyone was shocked, and their hairs started to stand on end. This was because the situation was too terrifying, making them feel as if the huge vortex in the sky was about to produce a fierce beast!

Ji Meixian's jade face became extremely solemn, and her heart was filled with astonishment, "This is the Imperial Dragon Race's Heavenly dragon seal! If I remember correctly, this move should be called the punishment of the dragon's fury! What was the background of this kid? Not only did you receive the Taiji Dragon-suppressed kungfu, you even received the inheritance of the Imperial Dragon Race! "

Her face turned cold, looking at Hai Weidong who had one of his arm torn off, seeing him half dead, with a face full of fear, she steeled her heart.

"Chen Xiang, the White Sea Imperial Land is not finished with you!" Ji Meixian threw those words down, used all his strength, and opened a path, leaving this terrifying Purgatory Flame Dragon Scroll!

Right now, the pressure on Feng Clan was even more intense, she did not expect Ji Meixian to leave without even calling out to her, so right now, she was having difficulty resisting the endless killing of War Tigers as she pounced forward. Clenching her jade teeth, she spat out a few fierce words, then ignored Feng Wu Jun and opened up a path.

"You want to leave?" Chen Xiang laughed out loud, only to see that the black vortex in the sky had suddenly been torn apart, and a gigantic white dragon, covered with gigantic white lightning, had fiercely charged into the ground.

The furious dragon's roar shook the world, shaking the heavens. The dragon descended like rain, and the largest white lightning dragon crashed head first into the eye of the wind. Everyone could hear two miserable shrieks resounding through the thunder!

The two heavenly girls who had just escaped were also locked on by the Dragon's Fury. Lightning continued to strike at them. As they resisted, they also distanced themselves from the area where the lightning struck.

Hai Weidong and Feng Wu Jun, the two half-dead Son of Heaven, actually did not die after being struck, but they were sucked into the fire dragon scroll and their bodies were chopped into pieces by the Green dragon demon-slain broadsword s. Only two heads were left flying out and embedded into the city walls!

This was something that Chen Xiang had purposely released. After killing the two Heavenly Sons, he had used up all his energy, and only the Earth Attribute was not used.

"Little bastard, give me your life!" An angry, old shout came from afar.

"Old man, I will send you on your way sooner or later. You can teach them a lesson below!" Chen Xiang dropped to the ground, burrowed into the ground and used the Earth Escape Technique.

The distance he had to escape through the earth was limited, but it was enough for him to avoid being chased by the seniors of the Feng Clan and the White Sea Imperial Land. However, Ji Meixian could still sense where Chen Xiang was at this time.

### [Chapter 830](#)

The entire Green Summit City was shaken. The two high and mighty Son of Heaven that had appeared in the Green Summit City before, their heads were sent flying and embedded into the city walls. They died a miserable death!

It could be said that they would have boundless prospects in the future. With such a powerful force backing them up, they would be able to get through the tribulation without any worries, and could ascend without any hindrances. But now, they had fallen.

Although Chen Xiang had only launched a sneak attack before, the power that he had displayed was still great, actually suppressing the two Heavenly Ladies and the Son of Heaven. This made the other Heavenly Sons, who were spectating the battle, to secretly be wary of Chen Xiang, and they had initially wanted to snatch Chen Xiang's divine blade, but now, if they wanted to make a move, they had to consider it carefully.

"We miscalculated, if we did not protect those two trash, we would definitely be able to kill Chen Xiang!"

Although she was covered by a veil, and was also rumored to be an extremely beautiful woman, at the moment, she appeared to be in a slightly sorry state, but she did not lose her refined charm.

Ji Meixian did not think like that. She definitely could not let Chen Xiang die, and only if Chen Xiang was still alive would she be able to get back at him.

"It's useless to regret!" Ji Meixian used the great earth to escape to the outskirts of the city and she could clearly feel Chen Xiang's aura coming from that direction.

It was because Chen Xiang had predicted that these two heavenly girls would not attack him, that he dared to attack without holding back. Even if the Feng Clan heavenly woman wanted to kill him, Ji Meixian would not let him die.

When the Feng Clan and his seniors came back, they would definitely vomit blood. The two arrogant Heavenly Sons had actually been killed by someone, moreover, they died in a very sullen manner. They did not even have the chance to retaliate before they were beaten to death.

"Grand Elder, I've done my best!" Feng Clan came to an old man's side and sighed.

The Great Clan Elder of the Feng Clan sighed, "I know, you should rest up properly. Leave this matter to me!"

Inside the Tong Tian Aristocratic Family and Sheng Domain, there was a portion of Heavenly Sisters and Heavenly Sons who were at odds with each other. This was because they were the most outstanding young men in their power and would have a fight in the future.

This matter had spread and shocked the entire Human Realm, at the same time, it was treated as a joke by others, because when these two Heavenly Sons were going to fight with Chen Xiang, they had first fought with them internally, and then were taken advantage of by Chen Xiang, and were annihilated by him in one go.

---- "Master Ancestor, if the old guy from Feng Clan wants to make a move on Junior Martial Uncle, shouldn't we make a move?" Wu Kaiming said. He heard that Chen Xiang was scared away by a Feng Clan Great Clan Elder, if not he would have had to kill those two heavenly girls.

Gu Dongchen returned to the Ancient Spirit Great Land, he had been carried away a long time ago, and that was where his clan was now.

Huang Jintian snickered and touched Wu Kaiming's head: "Little baldy, send people to kill these two old fellows from Feng Clan. Beautifully do it, don't leave any traces behind, but let them know that it was our Super Martial School who did it."

"Chen Xiang, you little brat, you sure did a good job. You ran out from that place so quickly and even killed two of the Son of Heaven. Let's see who dares to provoke him in the future."

Wu Kaiming laughed bitterly, the Master and disciple were crazy, he replied and left.

In the Icy Wind Valley, Xue Xianxian and Leng Youlan were also exclaiming in surprise when they heard about this matter. They had gone through the first Nirvana Tribulation, and all of them were people who possessed Divine Veins and trained in divine arts. Leng Youlan possessed a powerful and mysterious White Dragon Vein, but they were still unable to leave the Icy Wind Valley.

"Damn it, Master, what is so important?" I want to go out and see a new world. I want to find those heavenly women and challenge them to snatch away my brother's things! " Leng Youlan's white hair danced in the wind as a bizarre energy coiled around her hair, as if she contained a very strong power within.

Xue Xianxian was dressed in plain clothes, although it was not the most luxurious clothes, but it was filled with an Immortal Qi.

Her beautiful eyes were gentle as she smiled sweetly, "Youlan, you have to keep calm. Master must be doing us good by letting us do this. Who knows, maybe there really is something important?"

The Icy Wind Valley was very mysterious, very few people could enter, and the forbidden grounds in the Icy Wind Valley was even rarer. However, the two girls stayed there all year round, making their strength increase very quickly. Furthermore, there was the natural Time Formation here, even the heavenly women did not have such a good cultivation environment.

The matter of Chen Xiang killing the two Heavenly Sons, the matter of Lei Zhentian, had already spread far and wide. At this time, the ancient powers had also completed their construction of the Ancient Transmission array, and the news spread even faster.

Feng Clan and White Sea Imperial Land both raised the bounty on Chen Xiang, killing their Son of Heaven. This was as serious a matter as digging out their ancestors' graves.

"Only twenty Relive Dan?" Chen Xiang looked at his own portrait, and said unhappily: "I'm not really worth it, looks like I have to kill a few more of their important figures!"

Chen Xiang was now in the Continent of the King's Pill City. Here, he had the Feng Clan's and White Sea Imperial Land's medicine industry, and these two powers had completely infuriated him, attacking him time and time again.

"This Dan Alliance is definitely under the control of those sage realm and sage realm cultivators. There must be a lot of ancient powers in the Dan King." Su Meiyao said.

"This is for the best, I have long disliked this dog-shit Dan Alliance, he actually took in someone like Dongfang Lingyun. Since I have come here, I will let them suffer a great loss." Chen Xiang sneered in his heart. Dan Alliance was the biggest pill organization in Human Realm, if he could ruthlessly slap their faces here, it would definitely cause a sensation in the entire Human Realm.

After Chen Xiang strolled around the bustling Pill City, he realized that many great powers all had very decent shops here, and even some very interesting activities.

Right now, Chen Xiang was in Thunder Heaven School's medicine store. He came to a place that was specially placed with many black boxes.

"What are these boxes?" Chen Xiang asked.

A woman with a professional smile immediately walked over and smiled: "These are called Destiny boxes. Each box has some medicinal herbs inside, and the price is marked on it. You can try your luck, if you are lucky, you can buy some precious herbs!"

"If you are an Alchemist, you can choose to refine the herbs in the box into a pill after you open it. If you successfully refine the pill, not only will we not accept the Spar, we will also give you the same herbs as the Destiny box! But, if you are unable to make it, you have to give our shop Spar s that are on the same level as the Destiny boxes. "

"Oh? Isn't this equivalent to betting with your shop? " Chen Xiang laughed.

"That's right, he is betting with our shop. There are often Alchemists here to try their luck, there are even winners or losers." The girl smiled sweetly.
