

Dan God 831

[Chapter 831](#)

Chen Xiang stared at the black boxes, these boxes did not mention what kind of ingredients were inside, but there was a price marked on them, and Chen Xiang saw a box that was worth five hundred million Spar!

"This box is worth 500 million. Does it mean that the elixirs inside are worth 500 million?" Chen Xiang asked. Some of the boxes were ridiculously expensive.

These are all part of the same set of medicinal herbs, for many Alchemist, the spirit herbs inside are all worth their money, our shop will not let you down, open the box, I guarantee that you will be satisfied with the spirit herbs inside, but right now, I cannot tell you what kind of spirit herbs are inside, this is a kind of game, you have to keep it fun, and it can even bring you a pleasant surprise. The woman explained in detail.

Chen Xiang told Long Xueyi to take a look at what was inside the box. His consciousness could not enter, but Long Xueyi could.

"They are two types of spiritual medicines. However, judging from their luster, they are the kind that are half dead and half alive. However, they are very rare, so they are also worth that price." Long Xueyi said, then carefully told Su Meiyao the appearances of the two spirit medicines.

"It's the God-refining Dan's medicine, one of them is called the Golden Roc Fruit, the other is called the Spirit Ginseng. Although they are about to die, they are still very precious, they shouldn't be able to live anymore, but you have the creation divine liquid, you can definitely live." Su Meiyao said. From her tone of voice, it seemed like she wanted Chen Xiang to take down the box.

Chen Xiang carried the box, and just as he was about to pay the bill, a man in blue suddenly barged in and rudely snatched the box.

"What are you doing?" Chen Xiang frowned, he kicked towards the man's abdomen, and kicked it away.

The blue clothed man immediately became furious, "Are you courting death? I want this box, hand it over quickly! "

Without saying a word, Chen Xiang walked over to the counter and handed over the five hundred million Spar s to the shopkeeper.

"I've already bought it." Chen Xiang said lightly.

"Do you know who I am? In the Pill City, there are few people who dare to offend me. I had taken a fancy to this box before, but at that time, I was not strong enough to be a Spar, if you know what's good for you, you can just obediently give it to me. " The blue clothed man's sword-like eyebrows slanted inwards and he had a fierce expression on his face.

This blue-clothed man had a rather noble aura, had delicate skin and tender flesh, and was also very rude and unreasonable. It was clear that he came from an extraordinary background, but this was the kind of guy that Chen Xiang was least afraid of.

"I really don't know who you are. Even if I do, I will not give it to you." Chen Xiang did not say much and placed the box into the ring.

"My father is the Dan King from the Dan Alliance." The blue-clothed man flew into a rage and brought his father out.

Chen Xiang came to Dan City with the intention of slapping the faces of the group of Dan Kings in Dan Alliance, so of course he wasn't afraid.

"If you don't move away, then I'll make my move. Even if your father is the leader, I won't let you have it." Chen Xiang's expression turned cold, the Spirit Refinement Pellet was also known as the God-refining Dan, it was able to strengthen a person's spiritual sense, if not for the fact that he was growing it, the Thunder Heaven School would not sell it.

He, who was secretly training in the Dao of the Gods, needed this sort of pill the most.

If you offend me, Tan Zhongsen, you definitely won't get anything good out of it. Let me ask you again, are you going to give it to me? " Tan Zhongsen was furious, he grabbed onto Chen Xiang's sleeves.

Chen Xiang was enraged, without much words, he immediately sent out a slap. The power of the Heaven Blasting Palm's palm brought about a great impact as it struck onto Tan Zhongsen's face, causing the stone tiles on the entire street to jump up in shock. Tan Zhongsen's face was even shattered by the palm, and his entire body sank into the ground.

"Motherf * cker, you want to force me to take action?!" Chen Xiang groaned, turned, and left, while Tan Zhongsen was completely stunned.

He was the son of the Dan King, yet he was casually slapped like a fly. Moreover, after hitting him, the other party did not take him seriously at all, it was as if he was swatting an annoying fly.

"Stop him! Stop him!" Tan Zhongsen reacted, ignoring his own mouth pain, as he shouted loudly.

was indeed very domineering in the Pill City, but he was only for those who did not have any strength, a guy who only dared to bully the weak and fear the strong.

"Right, what's your father's name?" Chen Xiang suddenly turned his head and asked: "Dan King Tan Sheng, if you have the guts to leave your name, I will definitely repay you in the future." Tan Zhongsen struggled to get up.

"Me? I am from Super Martial School, my name is Chen Xiang, you must remember to come to Super Martial School to find me for revenge in the future. " Chen Xiang waved and turned to leave.

The Chen Xiang of Super Martial School! The people on the street were all stunned. However, upon closer inspection, they felt that the portrait on the bounty notice was very similar to the one on the bounty notice. It was just that the real person had become much younger!

Although Super Martial School did not have a rank, nor did he have a rank in Dan Alliance, but he was still very famous. This was all because of Huang Jintian and Chen Xiang.

"Even if it's Chen Xiang, I will make him pay the price. You have the guts to come here and seek death after offending Feng Clan!" Tan Zhongsen shouted, but Chen Xiang had already disappeared at the end of the street.

Chen Xiang was not afraid of exposing his identity, so he quickly changed his appearance and went to investigate the background of this Dan King Tan Sheng.

After some investigation, he found out that Tan Sheng was a new member of the Dan Alliance. Because his strength was relatively strong, he had a lot of prestige in the Dan Alliance.

"Dan King Tan Sheng, if you want to blame something, you can only blame your son for it. I will quickly go and find trouble with you." Chen Xiang calculated in his heart. He planned to go to the Ding Sheng pill shop to pick out Destiny boxes, and then use the items there to refine pills.

If one could use the spirit medicine inside the Destiny box to successfully refine a pellet, not only would they be able to return to the Spar that bought the box, they would also be able to get the same kind of spirit medicine as the Destiny box.

The spirit medicine in the Destiny boxes were all dying, it was very difficult to refine them into pills. If they failed, a large amount of Spar would be lost.

"I will first refine three mid-grade Ground level pills, then we will talk about it later. I must properly wash this Pill City!" Chen Xiang decided to stay here for a while, to extinguish's Breeze.

He had the ingredients for high grade Ground level pills. If he could master a middle grade Ground level pill, he would be able to try to refine a high grade Ground level pill. At that time, he would have to take the examination and become a Pill Sect!

Right now, the world was not as simple as Great War between Three Realms, there were still many secrets hidden inside. The Demon Realm and the other Devil Realms were relatively calm, but this was just an illusion.

Pill City was very big. It was established in the Continent of the King and was one of the biggest cities in the south. Because the Continent of the King had the Devil-subduing College and the Fire Divine Palace, there were a lot of people present on this huge piece of land.

When this matter spread, many people came to Pill City. If they caught Chen Xiang, they would be able to get twenty Relive Dan, and both White Sea Imperial Land and Feng Clan would have a bounty of twenty pills!

"Perhaps I can use the Seventy-two changes to transform myself, and then I can use it to claim the bounty, haha ..." Chen Xiang secretly laughed.

[Chapter 832](#)

There were a lot of people from all over the Continent of the King. There were many demonic cultivators from all over the Devil Realm, but none of them were discovered.

Now that they knew Chen Xiang had appeared in Pill City, they all rushed to the city from different parts of the Continent of the King. However, as if he had evaporated into thin air, after beating up Dan King's son, he disappeared without a trace.

Chen Xiang was still in Pill City, but his concealing ability was extremely strong and he had grasped a technique that could change his appearance. Only someone like Ji Meixian who had a natural instinct would be able to find him.

In the backyard of a middle levelled inn in Pill City, Chen Xiang found a room where he concocted pills. This room was filled with all sorts of array formations, preventing the Qi from leaking out while concocting pills.

Although the God-refining Dan was only a middle Ground level, it was extremely precious. This was because there were no high grade Ground level s or pellets that could help with spiritual sense, and the effects of the God-refining Dan were extremely strong, especially for cultivators, many old fellows would need to rely on this pellet to cultivate their spiritual sense.

"Thunder Heaven School is really not a person who specializes in handling pills. Even a good Golden Roc Fruit was turned into this by them!" On Chen Xiang's palm was a fruit that looked like a golden rocs. However, its color was now dim and it did not have any signs of life.

The Golden Roc Fruit was a type of Spirit Fruit with a strong soul and a strong soul. Because it looked like a Golden Roc, it received a name that could be directly eaten to enhance one's Spiritual Sense and strengthen one's soul.

"The soul ginseng is about to die, it's all because of the lack of spirit energy. It seems like the person taking care of these spirit medicines was very careless. They actually cultivated at the place where they were planted and absorbed all the spirit energy, not even sparing the spirit energy in the spirit medicines." Su Meiyao snorted.

A soul parameter was a thumb-sized ginseng. It was very small, but it was wrapped in a layer of faint mist. This sort of soul parameter could give birth to a special kind of soul power that could help a person strengthen their soul consciousness.

Chen Xiang was not willing to let go of these two bizarre spirit medicines, and dripped creation divine liquid s on top of them.

Not long after, the Golden Roc Fruit started to emit a dazzling golden light, just like a small golden Roc. It was lifelike, making people praise the supernatural arts of the heaven and earth, unexpectedly giving birth to such a beautiful fruit.

The thumb sized spirit ginseng had a faint layer of multicolored light surrounding it, about the size of a fist. The two stalks of spirit herbs that were on the verge of death, once again regained their vitality, and then, Chen Xiang was going to cut them open, and then use the creation divine liquid s to duplicate them in large amounts.

He cut the Golden Roc Fruit into two halves, and dripped a certain number of creation divine liquid s onto it. The Golden Roc Fruit that was split into two halves quickly grew out the missing half, and turned into two Golden Roc Fruits.

Now that he had entered the Nirvana Stage, the number of creation divine liquid he condensed every day was even more.

After half a day, he used a big bottle of creation divine liquid to duplicate ten sets of main ingredients for the Spirit Refinement Pellet.

When he was refining the God-refining Dan, Chen Xiang was already thinking of carving some of the Spirit grain into this pill and refining it into a treasured pellet. However, before he could think too much about it, he failed in the first batch!

This made him very surprised, because when he was refining, the change inside the furnace was different from when he was practising it. Originally, he had been able to refine it smoothly based on his own experience, but after adjusting it even further in the Foreseeing Alchemy, it caused the furnace to explode.

This was the first time he had encountered such a situation. Even if he had failed when using the Foreseeing Alchemy in the past, the majority of it was not a problem with the Foreseeing Alchemy.

His foundation of Foreseeing Alchemy could be said to be very solid, more solid than when most Alchemists started using it. He had a large number of high level pellets, and used the Foreseeing Alchemy to refine them, thus laying a very solid foundation.

But now, he had actually made a very big mistake in his practice!

"What's going on?" Chen Xiang frowned, and then, he refined another set of new creation divine liquids. He still had a lot of them, so Su Meiyao, Bai Youyou and the others could copy a lot of new ingredients inside.

This time, it was the same as last time; after melting all the main supporting ingredients, in order to get all the Medicine aura and medicinal powders together, an error had occurred and the furnace had exploded!

"It doesn't make sense. It's fine if it's wrong once, but can't God-refining Dan use Foreseeing Alchemy to deduce?" Chen Xiang muttered.

Su Meiyao knew where the problem was, but she did not explain it to Chen Xiang. Instead, she said, "If you want to learn to discover the problem yourself, I can teach you for a while, but I can't teach you for a lifetime. Your path of alchemy is still very long, and will surpass mine sooner or later!"

It was always Su Meiyao who reminded him that if he made mistakes in the past, he would be able to quickly discover the problem, but not train his ability to discover the problem. It would also cause him to gradually lose his ability in this area, or even weaken his ability in this area.

Su Meiyao wanted to make Chen Xiang's reliance on her weaken, and it would be a bad thing for him to continue to develop in the long run. On the other hand, there wasn't any problems with the early stage, because Chen Xiang's current foundation was already very solid.

Chen Xiang was currently refining his God-refining Dan silently, and he was even more serious than before. He had been together with Su Meiyao for so long, so he naturally knew what Su Meiyao was thinking right now.

The third attempt had failed! During the explosion of the furnace, he seemed to have caught something, but it was still very vague, so he tried again to confirm what he was thinking.

"I understand, God-refining Dan are different from other pills. When refining this kind of pill, there are too many variables, and it is impossible to deduce the mistake simply by using Foreseeing Alchemy." Chen Xiang's eyes shone with a red glow.

Su Meiyao was so shocked that she couldn't speak. Back then, she was also stuck refining God-refining Dan, and that could be said to be the first great obstacle in her life in pill refining. She had been trapped for a whole few years, and now, thinking about it, she couldn't help but sigh.

However, a freak like Chen Xiang was able to comprehend the difficulty in just a short half a day.

"Do you really understand?" Su Meiyao asked with an astonished tone.

"En, I feel that one scenario in my mind is not enough. I feel that I need to simulate at least three scenarios before I can successfully refine this God-refining Dan!" Chen Xiang said seriously: "I now understand why I failed so miserably before in refining the Relive Dan. So it was in this area."

Su Meiyao was once again shocked by Chen Xiang's monstrous talent. Back then, it took her several years to comprehend this point, and the master who taught her alchemy was the same as her now. He wouldn't give her any hints, so she would personally find out the problem.

However, Chen Xiang had only failed four batches, and was able to determine the root of the problem. Furthermore, he was even able to think of a way to solve it.

"That's right, in the world of the high-level Alchemist, this is known as the Foreseeing Alchemy. It is said that Alchemists that are at the level of the Dan Immortal are able to undergo a hundred repetitions, and they have to fuse the hundred repetitions together before distinguishing the most accurate mistakes within, in order to be able to correct the mistakes in reality." Su Meiyao explained.

[Chapter 833](#)

Hundred Repeating Refinement! Chen Xiang felt a headache just thinking about it. Even the most basic of repetitions and refinements would sometimes make him unable to endure it, much less the Hundred Layered Waves. That spiritual requirement was very high, and one had to be able to determine the most precise one.

"Seems like it's hard to control!" Chen Xiang sighed.

"Of course, God-refining Dan only needs to be refined twice and once again, it can be successfully refined. If it's refined three times, it would be within the range of a Superior Grade Ground level Pellet. If you were to use the third stage of Foreseeing Alchemy to refine God-refining Dan, you would see even more mistakes. Su Meiyao said.

Chen Xiang thought for a while, then said: "I'll use the pill that I'm most familiar with to try out the second stage of Foreseeing Alchemy, and try the God-refining Dan after I'm familiar with it!"

"If you can master the second stage of Foreseeing Alchemy, it will be even easier for you to refine pills in the future." Su Meiyao said.

Chen Xiang began to try to refine it, he had refined Nine quenching body Dan, he had concocted many of these pills, the majority of them were sold to Gu Dongchen for his Spar.

Ever since Ji Meixian appeared, Su Meiyao did not dare to leave the Youyao Ring. If Ji Meixian found out that she and Bai Youyou were secretly helping him, then he would be in even more danger in the future.

Second stage Foreseeing Alchemy was extremely difficult to control, especially at the start. Even if someone were to offer guidance, it would be very difficult to learn, and one would have to rely on their own comprehension to understand it.

Originally, Chen Xiang had planned to learn the third round of Refinement three times in one go, but after trying it out with the Nine quenching body Dan, he knew that the difficulty level was beyond his imagination.

The first attempt would take three days, and it was only until he tried using the low rank profound level Pill did he manage to touch a hair on it, and only then was he able to practice it to a great extent.

The hardest thing to do was to repeat the refining scene in one's mind and see it as just one time. From this, one could be sure of the correct deduction.

When refining God-refining Dan, there were unexpected variables that required a lot of practice before one could overcome. Therefore, there was a huge difference between low grade profound level pills and God-refining Dan pills used to practice.

After Chen Xiang slowly grasped it, he realised that it was much easier to refine it, as if he could see any changes that would happen in the future, of course, this was because the pill itself did not change.

Five days had passed and Chen Xiang had already successfully refined a middle grade Ground level s Congenital Jiuyuan Dan with the second layer of Foreseeing Alchemy.

"If you master the second and third times, you would be able to handle any mid-grade Ground level pills. If you want to level up, you will have to learn the third and third time." Su Meiyao said.

Although the third round of Refinement was one stage higher than the second stage, Chen Xiang had tried it before and he felt that it was more than ten times more difficult than the second round. After all, that was a High Rank Ground level Pellet.

"Alright, I'll start refining the God-refining Dan now. If I succeed, I'll be able to stir up trouble in Dan City!"

Chen Xiang was still worried about the Destiny box. If Long Xueyi could see what the Destiny box had, he would go to the Feng Clan and the White Sea Imperial Land to pick the best Destiny box and gamble on the scene. He would refine the dying herbs in the Destiny box into spirit pellets and let these two powers bleed for it!

Right now, he felt that he did not have enough spiritual sense, especially when he needed to undergo the third round of Refinement. It was no wonder that many high level Alchemists were old geezers.

On the other hand, consuming God-refining Dan would allow his consciousness to rapidly grow stronger!

Once again refining the God-refining Dan, his confidence increased exponentially as two simulations of refining another pellet appeared in his mind. Although there were two of them, in his mind, there was only one: to combine the two, see through two different scenarios, and grasp onto the variables within. This way, he would be able to perform the most correct refinement.

Previously, when he was refining the pills without any variables, it was already difficult for him to do it twice. Now that there were variables, it was even more difficult. His spiritual sense was already strong to begin with, so there was no need to mention others.

It was no wonder that Alchemist at his age would mostly stop at Earth Grade Low Rank Dan. Even if they died trying, they would only be able to refine medium-grade, and that was only a small minority. At the very least, Dan Alliance who were known to have at most produced Alchemist, none had such a character.

With a "peng" sound, the Yanlong furnace shook. Although it had exploded, it had improved a lot this time. To be able to enter the second half, he had made a mistake when splitting the pellets.

He thought that it was definitely possible, but the difficulty would be much higher. However, if he succeeded, he would be able to use one portion of the ingredients to concoct a cauldron, but he could use three portions to concoct three batches of herbs. It was obvious to see who was stronger, this was also the path he had been persevering on, it was a type of spirit!

Su Meiyao muttered to himself inside the Serene Demon Ring, "Not mentioning him, he even wanted to refine two pellets, did he really think he was growing cabbages?"

A high level pellet could only give two, and this was only the limit of the top Alchemist s. Under normal circumstances, a Alchemist would only be able to give one pellet to someone else.

"I must succeed this time!" Chen Xiang took a few deep breaths, adjusted his breathing, and calmed himself down before recovering to peak condition.

As time passed, with Chen Xiang gradually entering a perfect state, and very quickly reaching the final moment, he had to decide how many pills to concoct, and the key to success or failure in concocting the pellet!

Inside the pill furnace, the turbid golden cyclone was extremely sturdy, but it was still torn apart by Chen Xiang's spiritual sense, becoming three parts. If he did not separate them, then when he condensed the pills, it would only be the internal orders of the cyclone, and when the dense Medicine aura outside dispersed, it would be equivalent to spending money on it.

This time, he successfully divided the pills into three parts, and even used his mana to compress the three cyclones into pills!

"It's a success!" Chen Xiang's face was covered in sweat. His complexion was haggard, but he felt extremely accomplished. This was because he had successfully refined three God-refining Dan s!

A portion of God-refining Dan s medicine could produce three pills in a single furnace, and with such a high quality pill, it would definitely be enough to scare those old Dan King s silly.

"Heart of Dan Golden Roc Dance!" Chen Xiang looked at the thumb-sized white pellet, and surprisingly, there was a very small golden Roc in it, which seemed to dance happily around.

"Monster!" Su Meiyao muttered. Although this was not the first time she had seen Chen Xiang display such monstrous talent, she was still shocked.

Chen Xiang laughed, and then threw the three God-refining Dan s into his mouth and chewed them up, like he was eating peanut, and swallowed them down in a few bites.

If three God-refining Dan were to eat it together, the medicinal power would be immense and ordinary people would not be able to endure it. However, since Chen Xiang had the Spirit Cultivating Stage of the Imperial Dragon Race, the Nine-turn dragon god mantra, he was naturally able to bear it.

As the medicinal power spread, it drew upon the Innate Qi within his body and fused with it, turning into a kind of strange power. It nourished his soul and shot straight into the spirit, entering into the divine soul within his sea of consciousness.

[Chapter 834](#)

The God-refining Dan's effect was extremely good, and Chen Xiang was very satisfied. At this time, his Innate Qi had been turned into a strange power by the medicinal power and was refining his soul. From time to time, the clear cry of a golden roc would come from his sea of consciousness, making him feel as if a divine power had suddenly poured into him, causing him to feel incomparably comfortable.

Of course, three God-refining Dan s was still too little for someone like him who cultivated the divine way. Fortunately, he had the Dragon cohesion kungfu s which allowed him to condense creation divine liquid s, otherwise it would be difficult to fill up the bottomless hole in his soul.

His soul was now at the mature stage. According to Long Xueyi, the first stage of cultivation for the soul were: Infant, Infant, Growth, Transformation, Maturation, and Perfection. These stages were close to perfection in the later stages, and once the soul was perfect, one could enter a higher realm!

The Nine-turn dragon god mantra now displayed extraordinary strength, and quickly displayed the perfect amount of power of the three God-refining Dan s' medicine, causing Chen Xiang's soul to strengthen a little.

"Looks like I'll need to refine a few more God-refining Dan to break through. I'll have to at least enter the mature fifth level!" Chen Xiang was in an extremely good condition. He took out the God-refining Dan's medicinal ingredients and started to refine the pills.

Because God-refining Dan were different, when he did not have the solid second try to refine the foundation, he would not try to inscribe the Spirit grain. Although he did not lack spiritual herbs, it did not mean that he would waste money.

A month had passed, and ever since Chen Xiang had slapped Dan King, Tan Sheng's son, he had not appeared again. Every time someone brought up this matter, they would bring it up, making him feel extremely unhappy. However, this was a grudge between the younger generation, so naturally, he could not go to the Super Martial School to look for Chen Xiang on his own.

Those people who came for the sake of capturing Chen Xiang all thought that their trip here was a waste. They searched the entire Pill City almost everywhere but were unable to find Chen Xiang.

It was normal that Ji Meixian would come to find Chen Xiang. Back then, she and the Feng Clan Sky Maiden had been forced to flee in every direction due to Chen Xiang's punishment from the Dragon Rage, causing them to lose a lot of face. They had come to take revenge on Chen Xiang. She absolutely

could not let Chen Xiang fall into the hands of others, and even more so, she could not let Chen Xiang die.

Huang Jintian had previously said that those who made a move on Chen Xiang would need to be conceited about the consequences. Now that two of the Heavenly Sons had died, the Heavenly Sons of the ancient powers would not dare to act rashly.

She stood on top of a tall building, and from the window, she looked down at the courtyard Chen Xiang was in. She muttered with her brows knit together, "Wuqing's little disciple is indeed a powerful Dan Immortal, and this brat has displayed such high talent in alchemy at such a young age. Could it be that he has a deep relationship with the little disciple of the heartless old demon?"

But she wasn't sure.

"Wuqing's whereabouts are unknown. According to the legends, his two disciples are already dead. How did a Mortal World appear?" Ji Meixian shook his head.

What she did not know was that Chen Xiang and Su Meiyao's relationship was indeed very good. It could even be said that Chen Xiang's master was him, and he even had a very deep relationship with Chen Xiang.

Chen Xiang did not know that Su Meiyao had hidden his strength so deeply, yet he was actually a Dan Immortal.

Ji Meixian would not attack Chen Xiang because she did not have the confidence to take Chen Xiang down. Especially after seeing Chen Xiang's terrifying Four-phase Magic Kungfu last time, she had felt that he was even stronger than when she fought Su Meiyao. This was also because Chen Xiang had trained in the Taiji Dragon-suppressed kungfu and used a portion of the Four Symbols Divine Weapons.

"No matter what, this boy is my great enemy. He actually did that sort of thing to me." Ji Meixian was the first to do the evil thing that Chen Xiang had done to her, and she could not help but become embarrassed and angry, wishing that she could fly down and give Chen Xiang a fatal blow.

On the other hand, all of the seniors who entered Rough and Random profound Land were out, including the group of grave robbers from the Duan Clan. They had all suffered different degrees of injuries, and now that they were inside the Pill City, the Alchemists of the big powers were usually amongst them.

This matter caused quite a big commotion in Pill City. With so many powerful old fellows working together, they actually were unable to defeat the Rough and Random profound Land. This showed just how terrifying the interior of the Rough and Random profound Land was.

"Ten Heavens Supreme Lord, the first Heavenly Emperor to unite the various races of heaven and earth, how could his grave be moved by these mere mortals? On the other hand, that damnable little bastard actually managed to see the Lion Mountain, and even took my ... " Ji Meixian fiercely stomped her foot, and stopped thinking about it, if not she would really be unable to resist and attack Chen Xiang.

When she thought of this, she almost gave up. After all, that was a very dangerous place. Even when she was at her peak, she didn't dare to barge into that place.

Chen Xiang had been concocting pills in his room for more than a month, and many people outside were frantically searching for him.

"That woman is watching you. Her spiritual sense is truly amazing." Long Xueyi said, she was not lacking either, she had used the Heaven tour method to monitor Ji Meixian, and had not been discovered by him.

"She suspects that you are related to sister Meiyao. It looks like you need to be more careful in the future."

Ji Meixian was the number one enemy amongst her enemies. With his powerful strength, it would be hard for them to deal with him even if they joined forces. Normally, they would choose to escape when they saw Ji Meixian.

"Don't worry, sooner or later, I will make her my female slave and let her obediently wash sister Meiyao and Sister You You's feet." If Ji Meixian heard Chen Xiang's words, Ji Meixian would definitely come down like a demon god.

"Letting the Yu Yi Immortal Fairy help us wash our feet is not a bad idea." Bai Youyou's jade face that was as cold as frost, yet without losing its charm, revealed a trace of a beautiful smile. It was a pity that Chen Xiang did not see that.

"Little scoundrel, if the people from Heaven Realm who are chasing after Yu Yi Tian Ji hear about it, you will suffer!" Su Meiyao giggled.

Chen Xiang laughed: "Relax, I will not let them hear it, I will let them see!"

"I can finally go out and stretch my muscles and bones. My soul has reached the mature sixth level!" After Chen Xiang ate over a hundred God-refining Dan, he released his consciousness and floated towards a tall tower. Entering a window, he saw a noble and elegant Ji Meixian seated on a soft chair with her eyes closed, meditating.

But very quickly, she discovered something, and quickly opened her eyes, only to hear Chen Xiang's loud laughter sounding by her ear.

"Heavenly Maiden Bai Hai, it's been a long time since we last met, but you're still as gorgeous as ever! I say, why is your nose so much more powerful than a dog's? You always know where I am and you're watching me from the side." Chen Xiang used his divine sense to send a sound transmission to them from a distance.

Hearing this, Ji Meixian's delicate body trembled, but she quickly calmed down. "Little bastard, sooner or later you'll know the consequences of offending me!"

"Hehe, don't forget, your Image Crystal is still in my hands. We don't even know the consequences! If I am not happy, I might take it out to have a look and take a look at Bai Hai's heavenly beauty!" Chen Xiang laughed sinisterly: "Although it is a little worse than my slave, it is still barely enough to see!"

Ji Meixian no longer talked with Chen Xiang. She was purely asking for trouble, she was just curious how Chen Xiang found out about her, and how his consciousness was so strong!

[Chapter 835](#)

Ji Meixian could not make a move against Chen Xiang right now, and she would not reveal Chen Xiang's whereabouts either. Otherwise, she would cause Chen Xiang to be captured, so she could only wait until her strength was sufficient before finding Chen Xiang, and have Chen Xiang bring her to that undergarment.

Ji Meixian was a very powerful enemy. Last time he borrowed Long Xueyi's power, he almost couldn't beat her, but now that Ji Meixian had awoken her soul memories, her strength had become even stronger.

"Time to go out for a walk!"

Chen Xiang walked to the center of the courtyard. Just as he was about to open the door and leave, Ji Meixian immediately sent a sound transmission to him while moaning in a stern voice, "What are you doing outside now? Don't you know that a lot of people are looking for you outside? "

"Why are you so concerned about me?" Chen Xiang laughed: "I don't think there will be many people like you here, and no one will discover me unless you inform people."

Ji Meixian thought that Chen Xiang hid for a month in order to avoid the limelight, and now that the limelight was about to pass, Chen Xiang came out at this time. She hoped that Chen Xiang could wait a while longer.

When Chen Xiang left the tavern, he looked like a delicate and pretty teenager. He had a harmless smile on his face, just like those innocent young masters that came out from the influential families just now. When Ji Meixian saw that Chen Xiang had ignored her warning, he became extremely angry in his heart, saying that she was also a great beauty and that normally, many people wouldn't even have a chance to curry favor with her.

"Oh yeah, you have to protect a man who has touched your body before, right?" Chen Xiang asked with his divine sense.

Ji Meixian's delicate body trembled slightly, and instantly emitted a killing intent that was as cold as frost, causing Chen Xiang's entire body to turn cold. When it reached the bottom of his feet, he no longer touched Ji Meixian's bottom line, but Ji Meixian still followed him instead.

After Chen Xiang walked around the area, he heard a lot of big news. What made him more surprised was that the old people from the ancient powers had all come to Pill City, which made him rather afraid.

What made him laugh was that Dan King's son, Tan Zhongsen, who was given a fierce slap, was actually offering a bounty on his whereabouts, as if he wanted to take revenge.

"What a coward. He was told to go to Super Martial School to find me, but he actually didn't dare to leave Pill City." Chen Xiang shook his head and laughed. He had also heard the fierce words said by Dan King Tan Sheng, saying that she wanted to teach him a lesson.

Therefore, he first went to Dan King Tan Sheng's pill shop. This pill shop was named Ding Sheng, and was considered quite famous in Pill City. After all, Tan Sheng was one of the stronger Dan King here, even the experts of the ancient powers would have to pay their respects to him.

As Chen Xiang walked on the street, a beautiful lady in a white dress suddenly appeared behind him. She was wearing a silver mask and her long hair was fluttering in the wind.

Chen Xiang was able to recognize her based on her fragrance. She was the Heavenly Daughter of the White Sea Imperial Land, Ji Meixian.

Ji Meixian had once been an expert from the Heaven Realm, and was a person of the same generation as Su Meiyao's master. She had a lot of knowledge, but this was the first time she had seen Chen Xiang's ability to change his appearance at will, which made her extremely curious.

"What do you want? Right now, there are many experts gathered in Pill City. Moreover, you are on top of it, so you better keep living." Ji Meixian sent a sound transmission to Chen Xiang. It was filled with dignity and authority, as if giving an order.

"I'm not even afraid, what are you afraid of?" Chen Xiang was speechless. He wasn't even worried for himself, but this woman was.

"Stop pretending. If you hand over the crystal and tell me the location of my undergarment, I can kill you immediately." Ji Meixian said angrily.

Chen Xiang shrugged his shoulders, no longer paying any attention to her. He walked into the flourishing pill shop, gritting his teeth, and cursed in his heart a few times before following her in.

"Bai Hai, I came here to stir up trouble. Aren't you afraid of exposing your identity and getting accused of being in cahoots with me? I am the murderer who killed White Sea Prince, and yet you ignore me. Are you not afraid that White Sea Imperial Land will find out?" Chen Xiang's voice carried a playful smile.

"No one but you will recognize me." Ji Meixian was very confident in this.

The Ding Sheng Pill Shop was indeed a place guarded by the Dan King, its interior decorations were magnificent, and there were a lot of people, most of them were wealthy or white-haired old men.

There were also a lot of Destiny boxes here, and they were all placed on a long corridor with a few elders guarding them. Chen Xiang walked over and looked carefully at these Destiny boxes, the most expensive one actually had several billion Spar, and the cheapest one was actually at the price of ten million Spar.

"The spirit medicines in these Destiny boxes are all almost withered, if used to refine pills, the failure rate would be even higher. These pill stores used this method to let the various Alchemists try their luck in order to reduce the risk while at the same time wanting to sell them for a good price." Ji Meixian sent a sound transmission to Chen Xiang: "Although many Alchemists have successfully used the Destiny box's spirit medicine to refine precious medicinal pellets, but it is only a minority, you wouldn't be here to do such a foolish thing right?"

Chen Xiang rolled his eyes at her: "I say, are you done yet? Even my wife wouldn't nag around like you, but you are like a follower who has a good relationship with master, and will always be responsible to remind master."

Ji Meixian angrily snorted, she wanted to slap Chen Xiang to death. If not for Chen Xiang's threat, she would not care about Chen Xiang's life.

"Little brother, you look pretty good. You look like an important person. You'll definitely be lucky today." Choose a Destiny box, maybe you can spend a small amount of Spar to buy rare and precious medicinal herbs, and then you can even successfully refine a pill. " An old man walked over with a smile.

Ji Meixian also wanted to see how Chen Xiang was going to cause trouble here. She guessed that Chen Xiang was probably here to cause trouble or something.

But who would have thought that Chen Xiang would actually ask the old man with a smile: "Old sir, I only have one billion Spar on me. Which Destiny box or Destiny box do you have that are around a billion? "

A billion Spar s! This was a huge transaction, and very soon, a small gust of wind blew across the medicine store, causing everyone to gather around.

The old man was just trying to sell the Destiny box according to usual practice, but he never thought that this little idiot in front of him was actually such a big spendthrift.

"Mei-jie, you're here too?" Oh right, I just heard that someone wants to buy the Destiny box s worth one billion, I wonder who it is? " Her voice was beautiful, she was the Heavenly Girl of the Peach Blossom Imperial Land, the only Heavenly Girl of the Sheng Domain whom Chen Xiang had expressed good will to her, her name was Mu Jialan.

Mu Jialan still had a pink silk cloth covering her face and wore a pink peach dress. She looked dignified and elegant with every movement she made, giving off an elegant and graceful aura.

This made Chen Xiang think of the Sacred Dan Realm's Yan Zilan.

Ji Meixian only nodded her head. If she wasn't wearing a mask, everyone would have been able to see her blushing face, because she had said just now that other than Chen Xiang, no one would have recognized her.

Inside the Dingsheng pill shop, there were actually many young experts present, all invited by Tan Zhongsen.

[Chapter 836](#)

"Presumably, the Peach Blossom Sky Maiden came here for Chen Xiang. I really don't understand why the two Heavenly Sons would be killed by him so many times." If I were to meet him, I will personally kill him and take away his immortal blade. Although I have a pretty good treasured blade, it's still not enough! "

The one who spoke was a thin man with fair skin who looked refined and refined. When he spoke, his eyes shined with a terrifying light, and his body inexplicably emitted a proud aura. He also walked to the hallway. Everyone wanted to see what kind of person was willing to use a billion Spar to buy a Destiny box.

"Peach Blossom Prince, you should just hide in your good spot. When you see Chen Xiang's strength with your own eyes, I'll definitely scare you to the point that you pee." The ridiculing laughter was very annoying, but Chen Xiang liked to hear it, and the person who spoke was his good friend the grave robber, Duan Sanchang!

Duan Sanchang could be considered the representative of the young elites of the Duan Clan. In the eyes of these ancient powers, he was a scourge that was growing up, who knew when this guy would dig up their ancestors' graves.

"I just returned from the Demon God's son's mausoleum. This was all thanks to Brother Chen telling me the location of the mausoleum, which allowed me to reap a lot of rewards. Hehe, whoever is disrespectful to him, is disrespectful to me. Peach Blossom Prince, you better not think about my brother Shen's things." Duan Sanchang's voice was ice-cold and filled with warning.

The Peach Blossom Prince was slightly angered, and just as he was about to say something, he was glared at by Mu Jialan by the side, and no longer spoke. Chen Xiang had done him a favor, and this Peach Blossom Prince actually had thoughts about him.

Only Ji Meixian knew that the white and tender youth in front of her was Chen Xiang. She only laughed coldly in her heart, Chen Xiang's strength was indeed terrifying, but if those heavenly sons and daughters were to fight with Chen Xiang with all their might, it was hard to say whether they would win or lose.

"Little brother, these are all Destiny boxes between eight hundred million and a billion. Choose properly, our medicinal shop will not cheat anyone, and the spirit medicine inside will be priceless treasures that cannot be found in the market. No matter which Destiny box you buy, you will not be disappointed." The old man pulled Chen Xiang in front of the boxes.

At this time, Tan Zhongsen, who had been slapped by Chen Xiang, also walked over. If Chen Xiang bought a Destiny box, their medicine shop would obviously make a huge profit, because even though those dying spiritual medicines were rare and precious, they were very difficult to use for pill refining. Unless it was a very talented Alchemist, but even Dan King would not bother to refine them, because he could not guarantee their success.

Long Xueyi's Divine Sense could infiltrate those specially made Destiny boxes, and then, he would tell Su Meiyao all of the spirit medicines inside. Every single Destiny box had a set of medicinal ingredients for concocting pills, and there were quite a few that were required.

"Iron bone Dan, middle grade Ground level, specially used to temper bones, is a good pill used to forge bones. The main ingredients were the Golden Iron Tree Root and the heart of the Golden Iron Tree! It's that nine hundred and fifty million box, take it!" Su Meiyao said.

The Iron bone Dan was sold on the market, especially for Hundred refining realms. Because they could strengthen the body, Chen Xiang's body was already very strong, and this level of pill was not of any help to him.

"Although Iron bone Dan have no obvious effects on you, but you can do multiple smelting. Even if you can refine a hundred sets of a thousand medicinal ingredients into a pill, the effect would still be extremely terrifying." Su Meiyao said.

Everyone looked at Chen Xiang as if he were an idiot. If it was an old man buying it, then it might be different, because it was very likely that he was a powerful Alchemist.

Ji Meixian's beautiful eyes flickered, she did not know what Chen Xiang was planning.

"This is it, I want it!" Chen Xiang carried a wooden box excitedly, and then eagerly walked to the counter. The old man immediately revealed a very happy smile, and his old face bloomed like a chrysanthemum.

"Why did he buy it? Should he take it back to refine pills? A Destiny box with a billion or so is at the very least a high-grade Ground level medicinal ingredient. " Mu Jialan was completely puzzled.

After Chen Xiang paid the bill, he asked: "If I use the medicinal ingredients here to refine a batch of pills, would you guys return the nine hundred and fifty million Spar to me, and then give me another set of medicinal ingredients that are as good as the one in the box?"

When everyone heard this, their faces were filled with surprise. This young brat actually wanted to gamble in pills!

"That's right, but if you fail to concoct the pill, you will have to give us another 950 million Spar. This is the rule for gambling pills." The shopkeeper stared blankly, then replied.

Ji Meixian had already faintly guessed what Chen Xiang was planning, he actually wanted to use such a method to destroy a medicine shop. However, she did not believe that Chen Xiang was able to refine the Destiny box's medicinal ingredients into pills.

No one believed it either.

"Brat, you should go back home and play with the mud. Your family doesn't have Spar s like this!" A well-dressed man mocked.

"This kid is really prodigal. Is there something wrong with his head?" Using about a billion Spar to buy a broken box, you actually still want to bet pellets. " A jade-masked man mocked.

Chen Xiang was overjoyed. He liked these kinds of guys the most. He smiled and said, "You two, would you like to bet with me? But, if you do not have that many Spar s, you should not participate, I have always played the big game. "

In terms of wealth, all the old guys in the Pill City had to kneel before Chen Xiang. All the Heaven level medicinal herbs he knew of, the Immortal Grade medicinal herbs, the Holy level medicinal herbs, if they were brought to the Heaven Realm, would definitely make him rich, let alone this Mortal Realm?

Chen Xiang looked at the Heavenly Son and Heavenly Girl of the Peach Blossom Imperial Land, and laughed: "I see that all of you are from famous sects, so it is fate that we meet each other. Do you want to participate as well?"

Duan Sanchang was a very vigilant person. When he felt that there was something fishy going on, he immediately rejected her.

Ji Meixian laughed coldly: "You just spent about a billion Spar and bought a Destiny box, and you still have to pay a billion Spar s and a flourishing medicine store as stakes. Now you want to play big with us again? Can you afford it? "

Chen Xiang laughed: "I'm worried that you guys won't be able to keep up, isn't that just a mere one billion?"

He did not have many Spar on him, but he had a large pile of high level medicinal ingredients as collateral. Those rare and precious medicinal ingredients were even more valuable than Spar!

The ingredients in the Destiny box were all dying, no one believed that this brat could refine those ingredients into pills, not to mention the one billion worth of Destiny box. That was a high leveled pellet, and the difficulty of refining it was extremely high.

"What bet?" I'll go with you! " Peach Blossom Prince Jing Xingliang said lightly.

"Me too!" His name was Chu Quan Fei, and he was the son of the Pill City's City Lord, and his relationship with Tan Zhongsen was very good.

The man beside him also shouted, "I want to see how he will die!" He was the son of the Dan Alliance's Alliance Master, Ye He.

Chen Xiang looked at Ji Meixian and Mu Jialan. He actually wanted to pull the two heavenly girls into the water, and he was even winking at the old man who had laid out the Destiny box.

"I have ten White jade lotus seed here, and these are the most important main ingredient to refine a Relive Dan. They're worth a billion pills, and there's no market for them!" Chen Xiang took out ten white jade-like lotus seeds. Upon sensing the spirit aura, he knew that these were genuine White jade lotus seed s!

Everyone took a deep breath. Previously, they had been mocking him for not being able to afford it, but now, it was one thing!

[Chapter 837](#)

Ji Meixian and Mu Jialan looked at the ten pieces of White jade lotus seed s that were flickering with light in Chen Xiang's hands and sucked in a small breath of air. It was fortunate that they were not on Chen Xiang's boat.

Chen Xiang looked at Peach Blossom Prince Jing Xingliang, Pill City's City Lord's son Chu Quanfei, Alliance Master's son Ye He, and Tan Zhongsen, and laughed: "You all do not need medicinal herbs of equal value, as long as you are able to produce one billion Spar."

Although these people had very robust backgrounds, a billion Spar s was still a heavy burden to them.

"No problem." Jing Xingliang was expressionless. If he won, obtaining a White jade lotus seed would also be good.

Chu Quan and Ye He were the sons of City Lord and the Alliance Master, they secretly calculated their total wealth, barely worth a billion, and also painfully nodded their heads, although they might not lose, but they were afraid of something happening, at that time, they would go bankrupt.

At this time, a few elders walked over. White jade lotus seed s were also precious to them, but now that someone dared to take them out to gamble, how could they let them go? They all took out one billion Spar.

There were a total of nine people betting with Chen Xiang. If Chen Xiang won, he would be able to get ten billion, but in his eyes, it was not enough.

Of course, he was confident enough to refine the Iron bone Dan, so everyone did not understand why he was so confident even before opening the box, hence everyone thought that Chen Xiang had a high chance of losing. They wanted to bet, but they could not follow him.

Chen Xiang sent a sound transmission to Duan Sanchang, and said: "Chang Zi, I am Chen Xiang. I want to win a little more in one go.

Duan Sanchang, who was watching from the side, was instantly stunned. The young and tender person in front of him, was actually Chen Xiang! He had successfully stolen the grave of the son of the Demon God, and he wanted to thank Chen Xiang. However, after he went to the Green Summit City, he found out that Chen Xiang had slaughtered two geniuses there.

He understood Chen Xiang, and he knew that Chen Xiang would definitely come to look for trouble with the golden pill shop, so he had been waiting here the entire time.

Duan Sanchang asked Chen Xiang: "Brother Shen, do you really think you can refine that Destiny box's broken medicinal ingredients into pills?"

"Yes!" Chen Xiang replied with a voice.

"Alright, I believe you!"

Duan Sanchang suddenly said: "Little brother, we also want to bet, but we cannot keep up with you, I only have three hundred million Spar, if you win, I will give you three hundred million, if you lose, you can give me three hundred million."

"Sure!" Chen Xiang said lightly. At this time, the spectators were no longer calm, and all of them placed their bets.

Chen Xiang still felt that it was not enough. He looked at Ji Meixian and Mu Jialan, and smiled: "Heavenly Sisters, everyone here has participated, you can't lose your interest. What if you win?"

Ji Meixian secretly clenched his teeth, and ruthlessly stepped on Chen Xiang's smiling face. He actually wanted to drag her down with him, why didn't he say that he would lose?

"Forget it, little brother. Women are just like this. Ignore them. This is a game played by men. It might be very unlucky if a woman participates." Duan Sanchang mocked from the side.

The more it was like this, the less Ji Meixian would play around with it. Mu Jialan remained indifferent and ignored Chen Xiang and Duan Sanchang's words. They just wanted to see the results here.

"Quickly open the box and take a look, stop wasting your breath." Tan Zhongsen could not wait any longer.

Chen Xiang opened the Destiny box. There was a piece of tree root that looked like iron inside, and a rock that looked like black charcoal.

The tree roots were the Golden Iron Root and the stone was the heart of the Golden Iron Tree, which were used to refine Iron bone Dan.

"If I successfully refine the Iron bone Dan's medicinal ingredients, will you guys give me a portion of the Iron bone Dan's best medicinal ingredients? What if you guys don't have any?" Chen Xiang asked.

"We do. Don't worry." Tan Zhongsen urged: "Let's begin."

Chen Xiang was a little worried, she secretly took down a little root and gave it to Su Meiyao, telling her to cultivate it.

The refining rule was very simple. One just needed to use the Destiny box's medicine to refine the pill. There was no requirement for the furnace.

Chen Xiang took out his Yanlong furnace. This pill furnace had been changed in shape and colour by him, no one would be able to recognize it.

When they found out that someone was gambling at the Zenith Medicine Shop and even took out ten White jade lotus seeds, the disciples of the famous sects nearby quickly rushed over to watch the show because the Peach Blossom Prince had also come to gamble.

Seeing that another group of people were coming over, Chen Xiang laughed: "My friends who have just arrived, would you like to come over and play as well? Right now, the atmosphere is very good. Of course, we can still understand those words that are lacking in money. "

He was short on money? Which one of these disciples from a famous sect wasn't a little tycoon? They were extremely dissatisfied with Chen Xiang's words.

"Brat, since you want to die a little miserably, then let me help you. Five hundred million Spar s!"

"I'll give him a kick to make him die more happily. Six hundred million Spar!"

I hope you can afford it, I four hundred million Spar s! "

The group of people who had just arrived numbered around twenty to thirty, and adding the people from just now, their total was already around twenty billion. Moreover, these Spar were the possessions of many of the disciples from famous sects, so they naturally thought that Chen Xiang would lose for sure.

There were no supplementary medicine inside the Destiny box, so all the supplementary medicine had to be prepared by himself. Furthermore, Chen Xiang's supplementary medicine was bred by the creation divine liquid, the dense Qi was enough to make up for the metal-iron tree root and the heart of the metal tree.

Of course, even if he lost, he would at most be displeased. To a rich pill refiner like him, this was nothing.

There were more and more people spectating, and the old people from the other famous pill shops were also using it as a form of witness. After the old people finished inspecting Chen Xiang's pill furnace, they indicated for him to start.

Duan Sanchang was a little perturbed, twenty billion Spar was a huge sum of wealth to him.

Chen Xiang was someone who had been to Sacred Dan Realm before, he had killed immortals, killed dragons and fought against some of the big powers there. This kind of scene did not affect him at all.

When all the ingredients were thrown into the furnace, everyone started to patiently wait. Refining the pills required time, but the Iron bone Dan was a middle grade Ground level pill, so it was relatively difficult to refine. If they did not see it with their own eyes, it would be hard to imagine that the brat in front of them actually knew how to concoct such a high level pill, causing them to suspect that Chen Xiang was an old fellow who had eaten a Rejuvenation Pill.

Chen Xiang's fire aura was extremely unique. Under his control, it was no different from normal flames, but if used in battle, it would become incomparably tyrannical and full of destructive properties. This was the power of Heaven fire soul.

"Iron bone Dan, once it is refined again, it is enough to deal with it. You can use the second time to refine hundreds of God-refining Dan. If you use the second time to refine Iron bone Dan, it will be even easier." Su Meiyao said.

After Chen Xiang had eaten more than a hundred God-refining Dan, his soul had become much stronger, his divine sense had become even more powerful than before, and the second stage of the Foreseeing Alchemy was even more adept.

[Chapter 838](#)

Amongst the people present to watch Chen Xiang refine pills, many of them were Alchemist and some were high ranking Alchemist. Even if they weren't from the Alchemist s, they were from influential families and had some understanding of pill refining.

"This guy's flames are very ordinary. He doesn't have a Fire Soul, nor do he have many Fire Vein, but the flames are very strong. What exactly is going on?" An old man mumbled puzzledly.

Although Chen Xiang tried his best to conceal the aura of the flames, a few experts, who were extremely sensitive to flames, still felt that something was amiss.

"Elder Wang, is this flame very powerful? I think he is still using all his strength to burn the Golden Iron Root and the heart of the Golden Iron Tree. Although these two medicinal herbs are about to die, they are not something that anyone can easily refine." Tan Zhongsen said. He was the son of the Dan King, also a Alchemist.

Elder Wang shook his head. "This little brother is an expert in alchemy, he clearly has a solid foundation. He is much stronger than you! The powerful Alchemist s, when concocting pills, were precisely controlled by the Alchemist. They all held their fire and burned the medicinal ingredients with all their might, forming a force!

"Even some of the Alchemist s of the ninth rank find it hard to make the flames possess an invisible power."

There were a few ninth grade Alchemist present, and all of them were capable of refining three high grade Ground level pills. They were all just one step away from Dan King and two of them were present at the scene. Elder Wang was one of them.

"At least I can't do it!" The other hunchbacked yellow haired old man sighed softly.

"So you're saying, he's a ninth level Alchemist?" Ever since she started to fight with Chen Xiang, she had investigated a lot of things related to Chen Xiang. She knew that Chen Xiang was still young, and not over a hundred years old.

The old man shook his head: "I'm not sure, he did not take the examination, it's hard to say, but if he can concoct a difficult to refine middle Ground level pill like the Iron bone Dan, he would at least be a Alchemist of the eighth level!"

Level eight Alchemist, after hearing the words of authority, Tan Zhongsen's face turned a little ugly. Fire controlling ability was very important to Alchemist, it was the key to successfully condensing a core. However, this little brat's fire controlling ability was even better than that of a ninth level Alchemist!

The faces of those who had placed big bets didn't look any better. Those who were able to refine medicinal ingredients into pills, were usually Alchemist s who had strong fire control abilities.

Chen Xiang's control of the flames could be said to be as smooth and as simple as controlling his own hands and feet. This was related to him cultivating the divine way, cultivating the Fire god method, and having a Heaven fire soul.

It was hard to burn the metal tree roots and the heart of the metal tree, but it was easy to burn them inside the Yanlong furnace.

But right at this moment, the Yanlong furnace suddenly started to shake, it was shaking intensely and Chen Xiang was sweating profusely. When the people who had placed bets saw this, they were ecstatic, and wished for nothing more than to laugh out loud, because they knew that Chen Xiang was about to be done for.

"Chang Zi, do you still have more Spar on you?" Chen Xiang suddenly used his divine sense to send a sound transmission to Duan Sanchang.

After Duan Sanchang saw his furnace shake, his back was sweating. If Chen Xiang lost, it would be more than 20 billion Spar s!

"There are still some more. What do you want to do?" Duan Sanchang suddenly felt that something was amiss.

"Hurry up and bet, I'm doing it on purpose for others to see, let them think I'm going to lose." Chen Xiang whispered to Duan Sanchang.

Duan Sanchang sighed in his heart. He was really too sinister as he laughed to himself and immediately said: "Little brother, do you still accept your bet? "Since it's a gamble, the more dangerous it is, the more exciting it is. Although I am not a gambler, I have experienced that kind of feeling before."

Everyone secretly despised Duan Sanchang. He was about to fail, yet he still bet. Wasn't he trying to make Chen Xiang lose even more miserably?

Chen Xiang opened his eyes and sneered: "Do you really think I will lose? "Fine, you can bet as much as you want. Let's see who will be the final winner!"

The crowd immediately burst into an uproar. The cauldron was about to explode from the shaking, yet they still accepted the bet.

Duan Sanchang laughed: "This little brother is indeed straightforward, there are five hundred million Spar here!"

Duan Sanchang threw out a Storage bag, and threw it on the ground. All of these Storage bag had Spar, with a sweep of his spirit sense, he could see that the Spar were stored inside.

Just as Duan Sanchang raised the stakes, a few of them also began to throw their goods out.

"I still have a hundred million Spar here. If this little brother wants to suffer, I'll grant him that wish."

"I'm coming too. I still have 200 million. This is the last one!"

"300 million, go all out and kill this brat!"

"..."

There was no lack of old fellows among them, there were even some who threw out their treasured swords and such.

At this time, all of them added together had already accumulated to thirty billion Spar!

Chen Xiang laughed out loud in his heart. He had indeed made the furnace shake on purpose, in order to squeeze out all of the group of people's wealth.

Originally, she was moved by Duan Sanchang's offer, because she also wanted to make it difficult for Chen Xiang to win. However, she knew Chen Xiang's identity and knew that he was Chen Xiang's friend.

The Peach Blossom Heaven Lady Mu Jialan had a leisurely expression. Her beautiful eyes were clear as she quietly looked at what was happening in front of her. She was not a gambler in the first place, and did not compete for fame or profit, thus she was not tempted by Chen Xiang.

The cauldron shook more and more violently, as if it could explode at any moment. Everyone also hid far away, worried that they might be hit by the cauldron shards.

's news had spread across the entire street in a short period of time. A few disciples from famous sects that liked to gamble had rushed over and surrounded the spacious hall.

They had asked Chen Xiang and upon knowing that they could still bet, they threw away their Spar s without hesitation.

Very quickly, everyone's wager had already accumulated to forty billion Spar!

"It's been so long since the Dingsheng pill shop opened, but this is the first time it's been so lively. I had thought that some Dan King would come over to praise me, but who would've thought that there would be people here to gamble." An aged voice slowly sounded.

"Father!" Tan Zhongsen anxiously walked over, and the person who came was Dan King.

Everyone was secretly surprised to see that the Dan King was here, some of them did not expect to be able to witness the glory of the Dan King.

Dan King Tan Sheng, was a very pleasing looking old man. Although he already had the appearance of an old man, his voice had a certain aura, his clothes were not luxurious, but he was extremely refined, with a sense of immortality.

"Little brother, you started off with ten White jade lotus seed, and bought such a precious Destiny box, I believe you have some background, I wonder if you'll accept the wager right now?" Tan Sheng said clearly.

To be able to trap a Dan King, Chen Xiang was overjoyed in his heart. He smiled and said: "Of course I accept it, with Dan King's appreciation for me, even if I lose, I will still be very happy!"

[Chapter 839](#)

"As expected, bold and straightforward. I trust you, this place is five billion Spar. I also want to make a small bet. It's rare to see a medicine store with such a bustling atmosphere!" Tan Sheng laughed, he waved his hand and threw out a Storage bag. Everyone scanned it with their senses and found that there were five billion Spar inside, piled up like a small mountain.

Five billion was just a small bet? What if it was a big bet? As expected of the Dan King, any casual move could scare a large group of gamblers to death.

In Chen Xiang's opinion, this Dan King was still too stingy, only five billion? He felt that it would cost him at least fifty billion yuan!

Dan King Tan Sheng had already placed his bet, and it was so big, everyone was already certain that Chen Xiang would definitely lose, even if they had to sell it for money, they would still have to place their bet. At this moment, there were many good treasures and weapons on the ground, bringing the total to 50 billion!

Duan Sanchang's heart kept on beating wildly. If Chen Xiang won, then many people would die from the scam, and even Dan King would be beaten with his black stick.

Tan Sheng was naturally not optimistic about Chen Xiang, at this moment he saw Chen Xiang's serious face, the pill was shaking non-stop, showing signs of exploding, the success rate was extremely low, furthermore the rest of the ingredients were already rotten, he did not have full confidence in refining them, let alone a little brat.

Chen Xiang laughed sinisterly, he felt that he had more or less played the role, when he saw the shaking pill furnace suddenly stabilise, like a mountain that was firmly fixed in place.

Those people who were originally happy in their hearts were fantasizing about what they would do after winning this round, but currently, their expressions were extremely ugly. As long as they weren't stupid, they could guess that Chen Xiang had done it on purpose!

Ji Meixian had always seen it, she knew that Chen Xiang and Duan Sanchang were cooperating, and scolded in her heart. One was a grave robber who was struck by lightning, the other was a little bastard who she hated to the bones. With the two of them working together, even Dan King jumped into the fiery pit that they dug while grinning.

Dan King's face was also very ugly. He did not expect that after living for so long, he would be fooled for a moment by a little kid. Of course, he could not say anything, because Chen Xiang had not violated the rules.

And some of the Alchemists admired Chen Xiang a lot, because he actually refined a Iron bone Dan!

Chen Xiang had already been refining for more than two hours, and had been using the dual Foreseeing Alchemy's the entire time. At this time, he had already condensed the pellets, and if not for the poor quality of the ingredients, he would definitely have refined two of them.

However, the spirit herbs were already on the verge of death, the Medicine aura had disappeared for a long time. It was considered not bad that he was able to successfully refine one, after all, the Iron bone Dan was only producing one pill.

After a moment, Chen Xiang laughed: 'I've let everyone down!

The expressions of most of the people present were the same, gloomy as water. They wanted nothing more than to tear Chen Xiang into pieces, and actually allowed them to jump into the trap one after another.

In order to not arouse anyone's suspicions, Duan Sanchang snorted: "Damned little bastard, I will definitely remember this debt!"

Chen Xiang smiled slightly and opened the lid. A gold and black fog emerged and formed into a smooth black pellet.

Just from the golden aura covering it, one could tell that it was a Iron bone Dan, and a high quality one at that!

Seeing this high quality Iron bone Dan, all the Alchemists present, including the Dan King, were moved.

Dan King took a step forward and waved his hand, allowing the Iron bone Dan to hover above his palm.

"It is indeed a Iron bone Dan, of high quality!" At this moment, Tan Sheng couldn't help but praise Chen Xiang's high skill in refining pellets. He actually managed to concoct a high quality pellet out of waste medicine.

The other Alchemists all gathered around to watch!

Chen Xiang laughed: "Then these things are all mine!"

Just like this, under the burning gazes of the lot, Chen Xiang smiled as he kept all the Storage bags and magic treasures into the ring, allowing Su Meiyao and the others to count them.

Many people's heart was bleeding, and some people even wanted to cry. They had accumulated this much wealth for a long time, and even though they were from a famous clan, they had spent a lot of effort to save so many Sparrows, but now, they had all lost to a little ghost!

Only those old fellows were relatively open-minded, and those young people, on the other hand, had basically lost to nothing, even losing to the magical equipment and weapons given to them by their sects and clans!

Many people were secretly cursing Dan King Tan Sheng. If Tan Sheng did not come out and casually throw in five billion Spar s, they would not have suppressed all of their wealth!

"Damned little bastard, my Spar, my sword, my armor ..."

"This is all over. When I go back, I will definitely be scolded to death by my father. I will lose everything!"
How do I get back? The cost of transferring it right now is outrageously high! "

"I really want to kill this kid!"

"God damn little bastard, he ate more than five billion all by himself, isn't he afraid of holding on?"

and Mu Jialan were the only ones who had survived the disaster, and in their hearts, they were rejoicing at the misfortune of others!

Although Peach Blossom Prince was expressionless, in his heart, he hated the little demon in front of him!

City Lord and the chief's son were also in the same boat. Not only had they lost their Spar, they had also lost face.

"Father, is this really a Iron bone Dan?" Tan Zhongsen found it hard to accept the reality in front of him, he had also lost one billion Spar, and it was no small amount of money to him. Although his father was the Dan King, he would not casually give him the Spar.

"A high quality Iron bone Dan!" Dan King Tan Sheng said in a serious tone, making everyone even more disappointed.

"Haha ..." Everyone, I'm sorry. This is all due to luck. I am sorry that you lost a little, Spar. Next time, when there's a chance, we will have a good time! " Chen Xiang's words were especially ear-piercing, making everyone want to beat him up.

"Luck? Fuck my luck! " One of the big sized men said, "Sorry, but give us back the Spar!"

Chen Xiang laughed: "Everyone is a hero who is willing to admit defeat, if I return the Spar to everyone, it would be equivalent to insulting everyone's dignity, trampling on everyone's dignity, little brother must not do such an unrighteous thing!"

"How many Spar s are they worth?" Everyone cursed in their hearts.

Chen Xiang smiled as he came to the counter: "I refined the medicine inside the Destiny box into a Iron bone Dan. According to the rules, you guys have to return to buy the Destiny box for me, and even give me a portion of the Iron bone Dan's medicine. This was previously agreed upon!"

Tan Sheng nodded to the shopkeeper, then walked over and returned the Iron bone Dan back to Chen Xiang.

"Little brother, who is your master? To be able to teach a disciple like you, your master should not be a nobody! " Tan Sheng asked, many people present also wanted to know who the old bastard was to have taught such a sinister brat.

Chen Xiang laughed: "My master is indeed a nameless person, but my ancestor is not, my ancestor's name is Li Tianjun."

Dan King Li Tianjun! This was a person who had become famous many years ago. Hearing the three words Li Tianjun, all the Alchemist present were dumbfounded.

"That little brother's name is..." Tan Sheng's heart was filled with mixed feelings, Li Tianjun actually had a successor!

"Li Renshan, you are benevolent and righteous, and kind and good!" Chen Xiang smiled as he received the Iron bone Dan medicine and the nine hundred and fifty million Spar from the shopkeeper.

Everyone cursed in their hearts. How was this benevolence? They felt that he should be called Li Xie Xie, even Duan Sanchang felt that Chen Xiang had gone blind with this name.

[Chapter 840](#)

On one hand, Chen Xiang pretended to be Li Tianjun's grand disciple so that no one would doubt his White jade lotus seed and his superior pill refining skills, and on the other hand, they would fear him and not be harassed by the people who tried to rope him in.

Although Chen Xiang had never seen Li Tianjun before, he was still very grateful to him, because the medicinal garden that Li Tianjun had left behind had benefited him greatly. Furthermore, he had obtained that mysterious divine book from Li Tianjun's Refining treasure book.

"I wonder if little brother is willing to become my Alchemist? As for the treatment, it will definitely be easy." Tan Sheng actually wanted to recruit Li Tianjun's grand disciple.

"No need, I like to travel alone. I won't stay in Dan City for long. I came out to travel, do good deeds, expand my vision, and improve my mental state." Chen Xiang smiled and shook his head.

Tan Sheng was obviously very unhappy about the five billion Spar being tricked by a little kid. Now that he saw that Chen Xiang was determined to not join his Zenith Magnificent Pellet Shop, he was determined to make Chen Xiang spit out the victory he had just won.

It had to be known that Li Tianjun was a famous Dan King. Even though the number one profound Realm he left behind had already been discovered and was famous throughout the entire Human Realm, very few people could find anything inside. Even those who came down from the Heaven Realm had died inside, so that place had become a dangerous place.

As for Li Tianjun's descendants, they took out ten White jade lotus seeds as soon as they came out. It could be seen that they had brought a lot of rare and precious herbs with them.

"Little brother is indeed a free and easy person. I wonder if you would be willing to bet with this old man? I just had a little fun a moment ago, and I haven't had my fill yet!" Tan Sheng also said with a smile.

Chen Xiang laughed boldly: Of course I'm accompanying you, but if you want to play then go big!

Everyone was shocked, this Li Yao actually wanted to finish an even bigger gamble, and Dan King was also getting serious, this was definitely Pill City's biggest gamble!

Duan Sanchang intentionally smiled sinisterly: "Little brother, you are bold and straightforward enough, to think that you want to play big time. How about you wait for an hour while I spread the news to Dan City, allowing more people to participate, but the premise is that you have to be able to afford it."

All the big guys in Pill City were real tycoons. If they were brought here all of them, this would probably be the biggest gamble in the history of the new world. If Chen Xiang lost, he would also lose really badly.

"There is no need to alarm the entire city. If little brother wants to have a good time, then this old man will accompany you." Tan Sheng remained calm and collected, waved his hand, and said: "Little brother, let's bet using the method we used just now. You can choose Destiny boxes, but you have to choose more than a billion Spars."

Chen Xiang was determined to make this old fellow vomit blood, then he walked over to the Destiny box and started picking.

Of course, Tan Sheng couldn't use secret methods, so he also planned to test his luck. He bet that Chen Xiang wouldn't be able to successfully refine another pill.

The herbs in the Destiny box in front of him were mostly middle-grade Ground level s. There were even some that were unorthodox and difficult to refine, requiring one to be at least at the second level of Foreseeing Alchemy.

Chen Xiang tried his best to choose the least amount of main ingredients he had and the more useful ones he could. Only with the cooperation of Long Xueyi and Su Meiyao could he make the best choice for him.

"After eating the Beauty Dan, it can reduce the wrinkles on some old fellows. It can make the old people's skin become as young as the young ones, but it needs to be eaten a lot. For those people who care a lot about appearance, this type of pill is very important." Su Meiyao said.

"There's only one main ingredient, and that's the Snow muscle jade grass. The harder to make is that it's very difficult to melt, but once it melts, it'll evaporate like water."

One billion Spar, and only one medicinal ingredient was so precious. This showed how popular the Beauty Dan was, even if they were to take it to the auction, it would still go up to two billion Spar. However, there was no use in eating even one pellet, and one would have to eat many in order for it to be effective.

Many old fellows could still maintain their youthful appearance because of this pill.

Chen Xiang bought the Destiny box. After he opened it and took a look, many of the Alchemists shook their heads.

"Little brother's luck is not bad, you actually picked a Snow muscle jade grass!" Tan Sheng laughed.

"Sigh, even a level nine Alchemist would have to refine this pill ten times to refine it nine times. It requires a second stage Foreseeing Alchemy to refine." An old man sighed.

The Dan King was very clear about what was inside the Destiny box. It was a Snow muscle jade grass, even he himself was not completely confident in being able to refine it, let alone a little brat.

"Since the Dan King wants to play the big game with me, then for the sake of making everyone happy, I won't hide that thing any longer."

Chen Xiang did not care how difficult it was to refine the Beauty Dan.

He took out a golden fruit that looked like a golden apple. However, it flickered with a golden light that caused one's eyes to ache. It was obvious that this fruit was not ordinary, and there was even a faint trace of an immortal artifact within it.

"Diamond fruit!" Ji Meixian and Dan King Tan Sheng shouted out at the same time. This fruit was an existence close to an immortal fruit, it was the main ingredient used to refine Mixed diamond Dan.

Even if it was the Heaven Realm, it was hard to find, but Chen Xiang actually had such a thing, Ji Meixian was secretly surprised, Chen Xiang was even more mysterious than what she had imagined.

"You two have good eyesight. Since you know, then I won't say anymore." Chen Xiang chuckled, even he did not dare to eat this kind of Diamond fruit carelessly. This was a high-grade Heaven level medicinal ingredient used for body tempering, and his current physical body could not even withstand the strength of a Diamond fruit.

High-grade Heaven level medicinal ingredients could be used to refine high-grade Heaven level pills, and even the Dan King might not be able to refine it.

As a Dan King, if Tan Sheng could have something like this, his prestige would definitely rise by a lot. Right now, no one dared to view Chen Xiang as an idiot.

"Fifty Relive Dan s..."

"Dan King, stop joking around!" Chen Xiang laughed and kept the Diamond fruit.

Dan King naturally knew that he was a little shabby, and he wanted to make Chen Xiang make the bet as soon as possible. Otherwise, if the other old fellows knew about it, it would be troublesome.

"Speak!" Tan Sheng said.

"One hundred Relive Dan s, two hundred billion Spar s, plus your flourishing medicine store, including all the pills in the medicine store!" Chen Xiang laughed.

Everyone was shocked, this evil demon youth in front of them actually wanted them to lose all their family assets.

"You're asking for it!" Tan Zhongsen immediately shouted.

Chen Xiang smiled and said to Duan Sanchang: "Brother, I'll have to trouble you to get the Dan King s in the city to come over. I think they might even put on their underpants!"

"As expected of Li Tianjun's successor. Since you dare to take out something like the Diamond fruit to bet, then this old man will naturally accompany you to the end! There's no need to call anyone else over. I'll make a bet with you! " Tan Sheng took a deep breath and shouted resolutely and decisively. "A hundred Relive Dan s, two hundred billion Spar s, and my medicine store!"

The entire audience was tongue-tied. They were betting all of their wealth!

High-grade Heaven level's medicinal ingredients, rarely seen in tens of thousands of years. Although there are many low-grade Heaven level's, in the end, there is still a difference of two levels!

If you want to play, then do it big. One of us is betting on high-grade Heaven level fruits, the other one is obviously going to have to pay the same price!
