

## Dan God 921

### [Chapter 921](#)

Li Baojun and Chen Xiang also stopped walking, and waited for the people who were following them out of the city.

Chen Xiang was only very curious why these people were targeting them! After he obtained the Caomu heavenly Dan, it was able to merge with nature. Even Ji Meixian's spirit sense could not sense him, and the Human Searching Immortal Equipment that Zhao Yiprofound took from the Heaven Realm was also ineffective.

The person who came was very strong, causing Chen Xiang to feel uneasy. Furthermore, from the Qi he could tell that they were immortals from ancient powers, who could pass through the Nine Nirvana Tribulations.

"Elder Li, can you withstand it?" Chen Xiang asked in a low voice.

"No problem, as an elder, how can I not have the strength?" Li Baojun was extremely confident. He, who had obtained the Longevity fruit, was so happy that he wanted to hit others.

There were five people here. Chen Xiang only saw a few figures jump out from the city gate and then surround them.

The five of them were all elderly men. Although their heads were full of white hair, there were no wrinkles on their faces. They had taken great care of themselves.

The five elderly men surrounded Chen Xiang and his group in the middle, looking at Chen Xiang and Li Baojun with an unfriendly gaze.

Li Baojun looked at a grey-robed elder, and laughed coldly: "So it's you, I never thought that I would actually see the wrong person!"

Chen Xiang immediately understood that it wasn't because he was recognized, but because Li Baojun had been betrayed by a friend of his.

"The Longevity fruit is in your hands?" Although the grey robed elder had sold Li Baojun out, he did not reveal any sign of guilt.

"That's right, the Longevity fruit is in my hands. If you have the guts, come and take it!" Although Li Baojun's face was rarely seen with tranquility, he was furious in his heart. He never thought that he would actually be blind enough to befriend such a person.

On the picture of Chen Xiang's bounty, Li Baojun was an old man. Now that he had turned middle-aged, it meant that he had consumed a lot of Beauty Dan, which made the other five old men jealous, because they also wanted to regain their youthful appearance. It was just that they did not have enough Beauty Dan.

"Elder Li, other than this guy, the other four old turtles are all from Feng Clan!" Chen Xiang's voice was loud, purposely provoking these people.

Li Baojun laughed coldly: "I had long heard that these ancient powers were all bandits and traitors. I didn't expect it to be like this, haha ... "I didn't expect that you would dare to steal from me today."

"Li Baojun, hand over the Longevity fruit and cut off that brat's head, and we'll let you go." An old man from the Feng Clan said indifferently. His expression was as if he was the god of heaven.

Chen Xiang could feel Li Baojun's anger. He, who had a powerful soul, could now see Li Baojun's strength with his divine sense, so he was not afraid at all, because Li Baojun's strength was stronger than he had imagined. More importantly, Li Baojun's body contained a very strange flame power.

"Old Turtle, kneel down and kowtow to me. I can spare your life." Li Baojun shouted in anger.

"Hmph, don't think that being able to refine two batches of Heaven level Pills is unrivalled in the world. Since you refuse a toast and eat a forfeit, don't blame me for this." The old man from Feng Clan sneered, he opened his palm into a wolf claw, that grabbed towards Li Baojun, causing the air to tremble.

The power of this grab was terrifying, and even the ground was shaking.

"Is there even any reason for us to steal something from him? Feng Clan, you all better remember this, I, Li Baojun will trample all over your Feng Clan sooner or later. "

His voice spread throughout Dan City, and a fan appeared in his hand. The fan was not simple, the place where he grabbed it looked like fiery red crystals, and the leaves were scattered with red scales, although the red phosphorus was small, it emitted a very terrifying pressure.

"Old Turtle, go to hell." Li Baojun now understood why Chen Xiang would always provoke these ancient powers, because these ancient powers would go overboard.

Li Baojun viciously waved his hand, and the temperature of the world suddenly rose sharply. The area within ten kilometers became shrouded in a wave of terrifying heat, causing people to feel as if they were nearing that terrifying domain of fire.

After Li Baojun fanned it, flames burst out from the fan, and unexpectedly turned out to be a Fire unicorn the size of a bull. When the Fire unicorn appeared, the Feng Clan Ranker's wolf claws had already dug into the Fire unicorn.

"Ahh ..." The Feng Clan Ranker cried out in pain. His entire arm was burnt, while the Fire unicorn flew out, transforming into a red light that engulfed the Feng Clan Old Man.

In just an instant, that overweeningly proud Feng Clan Ranker had turned into ashes. Chen Xiang, who was standing beside Li Baojun, could even feel the terror of that fan.

Li Baojun looked at the other four old men whose faces were filled with fear and greed, and sneered: "Are you guys trying to steal my fan? Haha, you all don't have the chance anymore, go and accompany that old turtle just now! "

Li Baojun waved his fan, and the few elders immediately ran away, but the Fire unicorn that ran out from the fan was extremely powerful, locking onto the four elders, and chasing after them with the fastest speed possible. In the blink of an eye, the four elders were submerged by the Fire unicorn and turned into white ashes.

Every time he killed a person, the Fire unicorn that was created would disappear. Chen Xiang could feel that the Fire unicorn that was formed from the terrifying flames had returned back into the fan.

Chen Xiang secretly cursed in his heart. Previously, he said that he was only a pill refiner, and did not know how to fight.

"This is a Kylin fan, he is very famous in the Heaven Realm, I never thought it would be in his hands! This is a Holy level. " Bai Youyou said.

Chen Xiang guessed that this must have been left behind for him by Li Tianjun. He dragged Li Baojun and stepped on the Shrinking step, quickly leaving the Pill City.

"Is this the legendary Shrinking step? "Kid, how did you learn it?" Li Baojun was shocked by Chen Xiang's footwork.

"I learned it by coincidence! Right, you and the Kylin fan, right? " Chen Xiang asked as they arrived beside a large river.

Li Baojun immediately put away the Kylin fan and laughed: "This broken fan is only used to fan the furnace when I am refining pills, it cannot be compared with your Green dragon demon-slain broadsword!"

"If those dead old guys knew that you called this thing a lousy fan, I wonder what they would have thought?" Chen Xiang curled his lips and said.

"Dead people have no feelings. No wonder you want to go against those fellows with your life on the line. You are indeed an infuriating bunch of bastards! If you have something like the Green dragon demon-slain broadsword or the Heaven Earth Killing Method, you can imagine! " Li Baojun sighed.

Chen Xiang shrugged his shoulders, "I'm already used to it."

Back then, Chen Xiang had killed a hundred strong warriors in Pill City overnight. Now that his identity had been exposed, there were many ancient powers with reason to chase after him.

"Elder Li, there aren't many people who know you, right?" Chen Xiang asked.

"Not much. Even if I return to Pill City now, there won't be any problems." Li Tianjun was not worried about this problem at all.

"That's good. You'd better think of a way to get a large pill shop in Pill City. I'll go find some large mines now and we'll act separately." Chen Xiang said, he wanted to quickly settle this matter and invite the White Tiger out.

## [Chapter 922](#)

Li Baojun was a little surprised to hear that Chen Xiang was going to look for a large scale mine.

"That's not easy to find, right? Many large sects might even search for one or two years." Li Baojun said: "Large scale pill shop is no problem, how can large scale mines be so easy to find?"

Chen Xiang had told him before that the Three Realms Talk would begin in a year.

"Don't worry, it won't be difficult for me."

He had Imperial Crystal, so it was obviously not difficult. Moreover, with the Tenth Heaven's reconstruction, he was confident that he would be able to find them within a year.

"I will go to the Pill City to get a pill shop now. With my strength, I should be fine."

Chen Xiang was very confident with Li Baojun, he was not afraid that Li Baojun would run away with the Longevity fruit, so he bid farewell to Li Baojun and ran in the direction of the Earth's Core Fire Realm.

The area that Earth's Core Fire Realm covered was very wide, the earth was always burning, it was caused by the eruption of the earth's core. He had been to the earth's core before, and knew that the stones in the earth's core were not simple, so he felt that he could try his luck near the Earth's Core Fire Realm.

The Earth's Core Fire Realm was very close to the Pill City. If it was night time, as long as they were at a high place in the Pill City, they would be able to see the light of the Earth's Core Fire Realm's fire.

There was a large forest near the Earth's Core Fire Realm. Last time, Chen Xiang killed the Five Sons of Wolf King here, and after he came here, he took out the Imperial Crystal and wandered around randomly, expanding the scope of the Imperial Crystal.

Right now, he wanted to create a sect not just for participating in Three Realms Talks.

This was the Tenth Heaven, and there might be a day when he could make a comeback. He would be able to build a solid foundation here, and by the end of the day, there would be many benefits, not to mention that he was at odds with many ancient powers. There were no powerful forces, and it would be hard for him to fight them all by himself, unless he had the power of the Ten Heavens Supreme Lord to destroy the heavens with a lift of his hand.

Chen Xiang did not enter the Earth's Core Fire Realm to search for it. Even if he had found a vein deep within the Earth's Core Fire Realm, it would not be easy to mine it.

He had circled around the mountains outside of the Earth's Core Fire Realm to search for the mines. He felt that this was better than aimlessly searching for the mines.

After several days, he did not have any harvest at all. He had met many families that specialized in finding mines in these mountains. These families all specialized in finding mines, and they had a lot of experience.

Chen Xiang also understood that these families had indeed found a few medium-sized mines. They did not want these small and medium-sized mines, and they sold them to some small and medium-sized sects.

"Seems like there really are a lot of mineral resources around Earth's Core Fire Realm!"

Chen Xiang held onto the Imperial Crystal, and stood at the top of a tall mountain. Although he did not obtain anything, he was still very calm and collected, as he knew that it was not the first or second day searching for a large scale mine, and he did not have the vast knowledge of the prospectors, but he did have the Imperial Crystal, so as long as they were near the vein, he could feel them.

"Someone is coming? It seems to be that group of prospectors again. " Chen Xiang immediately turned into a rock and hid himself.

Five of them had the highest status, and the middle-aged men who had followed them should have been there to protect them, as well as to learn their mining skills.

"Uncle, the Xia Clan has found another medium grade vein, but we only found a few smaller ones. They are much weaker than us! What are we doing in a land of great desolation like this? There are no mines in this kind of terrain. " A middle-aged man said in a low voice to the old man leading the group.

The old man laughed coldly, "What do you know? Those few exploration families have sent out those old fellows, and they are still looking for the Emperor in the mines?" There are so many small and medium-sized mines around here, and they are not formed naturally, but are affected by external forces! "

"What?" The Emperor of the Mine? " A middle-aged man was extremely surprised. He looked at the serious expressions on their faces and immediately understood why the clan had invited these few old fellows out.

"This is real. Moreover, we have confirmed where the super great mine is, but it is a dangerous place. The Mine Emperor has comprehended the natural way and used the power he has to draw out a super great formation under the earth. There is only death in there."

"Therefore, we prospectors found many small and medium-sized mines to destroy that formation, but it was to no avail."

Chen Xiang was stunned, for the past few days he had been eavesdropping on the conversations of these families, he only knew that many of the smaller and smaller mines were being discovered nearby the Earth's Core Fire Realm, but he had not heard anything about these super mines.

"That dangerous place... Could it be the Earth's Core Fire Realm?!" The middle-aged man cried out in shock.

Chen Xiang also thought so, the center of Earth's Core Fire Realm was really a place of great danger, he felt that it was necessary to investigate.

"It's not the Earth's Core Fire Realm, but we believe that if we want to enter the heart of the super mine, we have to go through the center of the Earth's Core Fire Realm."

"Uncle, who is so powerful as to penetrate Earth's Core Fire Realm?" The middle-aged man sucked in a breath of cold air.

"No matter who it is, he will definitely die. Therefore, this method will not work. We can only choose to break through the formation, but our chances are slim. "

Chen Xiang was secretly happy, he had the profoundwu diamond armour, maybe he could go through the passage below the Earth's Core Fire Realm to take a look at the super mine.

"Where is the super mine vein?" The middle-aged man asked again, which was what Chen Xiang wanted to ask.

"A thousand miles east of Pill City ..."

The name of a dangerous place immediately surfaced in Chen Xiang's mind!

"Evil Dragon Graveyard!" The middle-aged man exclaimed.

Chen Xiang also did not expect that the super mine would actually be at that damned place.

It was indeed a ghastly place, devoid of any resources. There was a large piece of broken bones of strange beasts outside, and the surroundings were deathly still. The interior was shrouded in a thick fog all year round.

It was hard to imagine that it was a super mine!

"A while ago, a few immortals joined hands to throw a few giant mountains in, but after touching that formation, they all disappeared without a trace!"

"They even jointly attacked the dragon head formed by the black mist in the air. In the end, they infuriated the formation, so none of these old fellows came back! In the past, it could fly over Evil Dragon Graveyard, but now, it can't.

The Fire Region and the Evil Dragon Graveyard were three thousand kilometers apart but these people were searching for a way to break the formation. This was one way out.

"Could it be that we can go to the Evil Dragon Graveyard from the Earth's core? I wonder what the heart of that super mine will be like? We must go and take a look. " After this group of people left, Chen Xiang immediately headed to the Fire Region.

### [Chapter 923](#)

Chen Xiang stepped on the Shrinking step, and in only three days, he arrived at the area covered in white flames. The last time he was here, he had spent a lot of time.

Previously, when he was undergoing his tribulation here, he killed a few important old fellows and caused the death of a Dan King.

Thus, he guessed that the white colored fire domain's next level would be the golden fire domain. He had cultivated until his Immortal Devil Body had reached large success, so entering the golden fire domain wouldn't be too difficult for him.

Right now, he was only relying on his body's defensive power, he did not use the profoundwu diamond armours.

With Shrinking step, he traversed the white domain of fire within two hours and arrived at an area that was fiercely burning with golden fire. The temperature here was more than a hundred times hotter than the white domain from before.

Someone had done a Earth's Core Fire Realm survey and discovered that the Earth's Core Fire Realm's area was very large, equivalent to more than two Continent of the King s. Luckily, this fiery domain appeared at the side of Continent of the King, otherwise, the entire Continent of the King would have been destroyed. Even so, the Continent of the King still suffered heavy losses.

This Earth's Core Fire Realm was circular, and different colored flames revolved around it. Outside, the low level flames occupied the most land, while the center occupied the least land, but the temperature was the highest.

Chen Xiang had already arrived at the region of the Golden Fire Domain and the immortal could endure it. He estimated the distance he had traveled and guessed his position, discovering that he still had a long way to go before reaching the center.

The golden flames here were already so terrifying. Moreover, he felt that there were several layers behind them.

That kind of flame was like black and red blood, and when it came to this place his skin would even burn painfully. He immediately released his profoundwu diamond armour to defend, and if he was any slower, he might have been burned to death.

"What a terrifying black flame!" Su Meiyao exclaimed.

Chen Xiang continued to walk and found out that the flames in this area were black. Previously, it was because he was near the region of the Golden Fire Region that made his beard red.

"Could it be that the Core of the Earth is the strongest source of power for Di Tian? This black flame can easily burn those little immortals to death. " Long Xueyi's voice carried a trace of fear, her consciousness did not even dare to run around, as if she would be burnt the moment she went out.

Although he was in a very hot place, Chen Xiang felt a chill down his spine. Within the black fiery domain, he couldn't even see his five fingers in front of him.

"What's the next fire domain?" Chen Xiang felt that even if he had profoundwu diamond armour s, he wouldn't dare to stay here for too long. Otherwise, his mind would collapse from that invisible pressure.

The flames in the depths of Earth's Core Fire Realm could actually attack the mind!

Chen Xiang knew that the current Core of the Earth was completely different from the one he had gone to before. The Core of the Earth now was the complete Core of the Earth.

It was very possible that the power that allowed Di Tian to reconstruct and be reborn came from the earth's core.

"I can actually feel the heat now? From the soul, or from the flesh? Could it be that even profoundwu diamond armour are unable to withstand this flame? " Chen Xiang exclaimed in his heart.

The three women inside the ring didn't dare to use their soul consciousness now, otherwise they would be attacked.

Chen Xiang's soul was currently very strong. Previously, when he was still trying to shake off the influence of the illusion array in the Lion Mountain, he was actually under attack here!

In his sea of consciousness, his soul shone with a golden light, resisting the incoming Flame power s made him feel better, and he could continue forward.

Since he was already here, he definitely couldn't give up halfway, he wanted to seize the super mineral vein earlier!

Chen Xiang knew that all of the Mining Clan Clans worked hard for those ancient powers. If those large powers obtained them, it would be very disadvantageous to him in the future.

"If it really is a super large mine, as long as I have this one, I can match up to ten or even a hundred of them!" Chen Xiang gritted his teeth as he stepped on his Shrinking step and advanced quickly.

After a difficult day, he finally passed through the black fiery domain and arrived at an even more terrifying fiery domain.

"This is ..." The Five elements heavenly fire! " Long Xueyi said in shock, "Even though you can create the Five Elements Flame, it's just an ordinary flame. It's very different from Sky Fire!"

Chen Xiang was now standing in the middle of a fiery domain composed of green, white, red, yellow and black flames!

"If this continues, I'm guessing that it will be the seven-colored heavenly fire. The one behind the seven-colored heavenly fire is definitely the Heaven and Earth Sacred Flame, and the one behind the Heaven and Earth Sacred Flame is probably the Chaos Flame. If this continues, the profoundwu diamond armour will not be able to hold on. " Currently, only Long Xueyi was able to communicate with him. As long as Su Meiyao and his consciousness left the Serene Jade Ring, it would instantly burn.

"He ... I've painstakingly made it here, but I still haven't reached the center!" Chen Xiang's body was very warm, causing him great discomfort.

"According to what you said, I'm afraid that the chaos fire isn't the end!" When Long Xueyi said the names of all those flames, it was because of the inherited memories. She didn't know that much in the past.

"So what's the end? What other flame is more powerful than the primal chaos fire? " Chen Xiang took one step at a time, he did not dare use Shrinking step now, if he suddenly went to the terrifying place in front of him, he was dead for sure.

"I don't know, but there's one more layer!" Long Xueyi said, "It looks like you won't be able to get there. Rainbow Heaven Fire is your limit."

After a few days, Chen Xiang finally arrived at the next fire domain. It was indeed a seven-colored heavenly fire, the colors of the fire interweaving together, giving Chen Xiang a dazzling, burning pain all over his body.

"Isn't profoundwu diamond armour divine armor? Why is it so weak! " Chen Xiang said with his voice.

"It's true that it's a divine armor, but that depends on who uses it. Your current strength cannot be displayed." Long Xueyi said.

Chen Xiang looked at the ground and realized that the ground was the most powerful one, to actually be able to endure this kind of incineration. Long Xueyi had also said before, these stiff floors were all melted, then mutated after being tempered by the flames before solidifying.

After walking for a long time, Chen Xiang suddenly felt that his vision blurred. In front of him, there was actually a lake, the water was multicolored and emitted a gentle multicolored light.

The Colorful Heaven Fire Realm did not have any flames, only endless multicolored light, but that was its most terrifying firepower.

"How beautiful, I really want to jump in and cool off!" Chen Xiang stood by the side of the Rainbow Lake. Although he said it like this, he knew that these water-like things all spouted out from the center of the earth.

This was equivalent to the density of spiritual energy turning into water.

"Maybe by infiltrating into the core of the earth and then entering the bottom of the Evil Dragon Graveyard, it is possible that the Evil Dragon Graveyard's super mineral vein is formed by absorbing the energy of the core of the earth. Maybe there will be a natural passage." Long Xueyi said.

### [Chapter 924](#)

Down? Chen Xiang shivered. He was about to die from the heat, and if he continued standing at the side, he might even burn all his hair.

Right now, his entire body was wrapped in profoundwu diamond armour s, the shining golden armor looked dim in the Colorful Heaven Fire Realm, but his defense was still very strong.

"If the strongest flame was inside, could it be that this place is the center of Di Tian and is very close to here?" Chen Xiang was suspicious. Legend has it that the Super Old Sacred Land was near the center.

"Not necessarily. The center is very difficult to determine. Moreover, Di Tian has just reorganized himself, so the change is huge." Long Xueyi said: "Jump down, it might be painful in the beginning, but if you find a path down there, you can quickly head to Evil Dragon Graveyard."

Chen Xiang gritted his teeth as he screamed and jumped into the Rainbow Lake. The moment he fell into the lake, the terrifying fire energy penetrated through the profoundwu diamond armour and burned his flesh, making him feel as if he was about to disappear.

In just a split-second, he was severely injured. His bones, meridians, flesh, and vital organs were all burned, making his injuries extremely severe.

In the blink of an eye, he had recovered by half, and this was all thanks to his powerful Bone soul and Yulong blood.

His body was repeatedly ravaged for nearly half a day. The intense pain almost made him faint several times. He couldn't even cultivate.

Underneath the earth's core was the same as the deep sea. As he struggled in the hot liquid, his consciousness became fuzzy, let alone searching for a tunnel.

"I have to hurry up or I'm dead for sure!" Chen Xiang hurriedly swam upstream, but his speed was extremely slow.

"Is this the end? Darn you Little Naughty Dragon, you have truly caused my death!" Chen Xiang thought.

"Quick... Use the Chaos fire. " Long Xueyi suddenly shouted.

Chen Xiang used all of his strength to summon out the two Chaos fire s that he had fused with. Holding them in his palms, the Chaos fire immediately released a silver white sacred flame which wrapped around his body, causing him to suddenly feel much better.

"This thing is really powerful!" Chen Xiang let out a long sigh: "I still have five Chaos fire that I haven't mixed with. I wonder what will happen after I fuse them?"

This Chaos fire was very mysterious and required a bit of dragon blood to fuse with. Chen Xiang only had that little bit of dragon blood on him, and that was enough to fuse it.

Fortunately, Long Xueyi was able to discern the direction, and allowed him to swim towards the direction of the Evil Dragon Graveyard.

The color of the Flame Essence below was the same, but the temperature was many times hotter. As he was swimming towards the back, and was far from the center, Chen Xiang became more and more relaxed. He never thought that the ground below was actually this wide.

As Chen Xiang swam, Long Xueyi calculated the distance between them. After seven or eight days, Long Xueyi shouted, "It should be up here, take a look and see if there are any passages."

The Fire Essence here was the most ordinary red color, but the temperature was still very high. If he did not have a profoundwu diamond armour, he would definitely turn into mist.

If Chen Xiang were to head upwards now, he would run into a very hard boulder. It would be very difficult to find a tunnel below.

"You search while we think of a solution." Long Xueyi said: "I hope there really is a path up there."

Chen Xiang said: "If there isn't anything, I will cut it open!"

"There has to be. If you want to form a super large vein, there must be a hole that will leak out energy. Countless years later, by chance, the soil on it will turn into mineral ores that you can mine." Long Xueyi said with certainty.

In order to form a mine, one had to have an innate advantage in terms of terrain. For example, a mountain in a mountain range could form a natural Spirit grain and form a formation to absorb the power of the sun, moon, and stars, triggering a formation to absorb the spiritual energy from the earth and earth, causing a large area of land to crystallize and form a Spar mine, or some other precious ores.

Those exploration aristocratic families combined the terrain and the star formations in the sky to search for the vein of mines. This required a very profound knowledge, and they also needed Spirit grain s that were proficient in natural stars to be able to see through the spirit of the mountains.

Chen Xiang took out the Imperial Crystal, but the Imperial Crystal still did not have any reaction, which made him suspicious.

The space in the Core of the Earth was extremely firm. Even if Chen Xiang used the Luotian Gate s, he still wouldn't be able to open up the space, not to mention that he was inside the Flame Essence.

"Calm down. Use your divine power to sense it and see if there are any weak changes." Long Xueyi said.

It was very easy for Chen Xiang to release his divine power here. The divine power he released was only to sense the changes in his surroundings, so he couldn't see it. If he used it to attack, it would turn golden.

He had been planning to give up for a few days, but he suddenly realized that there was a very weak change in one place. He felt that the fire essence in that direction would suddenly weaken a little bit, but it quickly recovered because there was an endless amount of fire essence in the earth's core.

If he had not tried it for a few days, he would not have noticed it and would have immediately swam towards that direction. However, he only knew the direction, it did not represent the exact location.

He was moving very slowly, keeping an eye on the subtle changes in order to find the place.

----- Chen Xiang had already been in the Fire Domain for a month, but the area around the Fire Domain was bustling with noise and excitement. More and more Mining Clan Clans came, because the few Mining Clan Clans that had just arrived were discovering more and more small and medium-sized mines.

Even many people came here to try their luck and see if they could dig up some very rare ores.

Only those great ancient powers knew the true inner workings of this place. Those exploration families were not searching for the vein of the mine, but for a natural divine formation. However, the hope was very slim.

In the beginning, the prospectors thought that it was only a part of the formation, but now that the mines had been broken, the Evil Dragon Graveyard was still unbreakable and looked even more powerful than the Ten Heavenly Holy Mountains.

The countless terrifying Lion Mountain in the Ten Heavenly Sacred Mountain could at least get a point in entry, but Evil Dragon Graveyard would be in danger as long as they got close to it. However, the Ten Heavenly Sacred Mountain was not the real tomb of the Ten Heavens Supreme Lord. If it was the place where the Ten Heavens Supreme Lord was buried, then maybe it would be just as terrifying as the place he was buried.

In a mountain outside the Evil Dragon Graveyard, an elder stood on top of a mountain, looking at the raised black dragon head in the distance.

"Dad, is Evil Dragon Graveyard really the tomb of an evil dragon?" Duan Sanchang asked Duan Kong.

Duan Kong was Duan Sanchang's great-uncle, and also the Duan Clan's great-uncle. Duan Sanchang's grandfather's whereabouts were unknown a long time ago, and Duan Sanchang had only met his grandfather once when he was young. He was originally his grandfather's Patriarch, but now Duan Kong had replaced him.

Duan Kong also liked Duan Sanchang a lot, so he often brought Duan Sanchang on trips to the north and south.

Duan Kong looked at the black dragon formed by the black energy, and shook his head: "That is not the Evil Dragon's tomb, it is just a dragon shaped Sparite vein under the ground, and it is very large too!"

## [Chapter 925](#)

As the patriarch of the Duan Clan, Duan Kong could obviously see how terrifying the ore deposit was.

"Dragon-transformed Sparite vein!" Duan Sanchang was shocked: "According to the ancient books of our Duan Clan, Ten Heavens Supreme Lord also obtained such a vein in the past! Was history going to repeat itself? Is the new earth coming into being? "

Duan Kong nodded. "That's right, the Dragon Transformation lode that Ten Heavens Supreme Lord obtained is located inside the Ten Heavenly Sacred Mountain. However, it has already shattered and was buried under the Ten Heavenly Sacred Mountain to contain the large formations."

"Di Tian was reborn, the dragon vein reappears, and the Three Realms Talk is filled with traitors. Where is the new emperor?" Duan Kong looked at the black dragon and muttered.

"Granduncle, how can I acquire this dragon fountain?" Duan Sanchang asked.

"I don't know. Only the future Ten Heavens Supreme Lord can obtain it, the dragon vein is born for the Emperor." As Duan Kong said this, his eyes flashed with killing intent. "It's impossible for those traitors to obtain it. Even if they have the chance to do so, I must stop them!"

Duan Sanchang suddenly thought of the black-hearted Chen Xiang, and felt that Chen Xiang was very similar to the dragon that was made of black gas.

"Brother Shen might be able to obtain it. This fellow has a Green dragon demon-slain broadsword, a Heaven Earth Killing Method and even made an enemy of a traitor. However, this fellow is too treacherous and does not have the appearance of an Emperor. It's a pity that he went missing in the Ten Heavenly Sacred Mountain." Duan Sanchang sighed.

"He does not have an Emperor's Dignity, but he does have an Emperor's Luck and Emperor's Might. If he really is able to obtain this dragon's vein, then in the future, his Ten Heavens Supreme Lord will definitely be close." A graceful voice was heard.

Duan Sanchang snorted: "Madam Peach Blossom, you eavesdropped on our conversation, this doesn't seem to be your style."

Yao Shumei's face was covered by a veil, and she was dressed in a peach blossom dress. Standing on a lotus cloud, with a smile in her eyes, she brought along a daughter who was somewhat similar to her, riding on a cloud.

Mu Jialan's attire and dressing were exactly the same as her mother's. It was just that the two of them had their own charisma and temperament, yet they seemed to be in complete harmony. Although they were both covering up her flawless beautiful face, it still made people feel pleased and exclaim in their hearts.

"Little grave robber, your voice is so loud, you came to my ears by yourself! If you say it's so loud when you steal a tomb, it will definitely be very troublesome." Yao Shumei smiled sweetly, with a myriad of graces, causing Duan Sanchang to not dare to look straight at her.

Mu Jialan snorted lightly, "The little grave robber and the little devil have teamed up to cheat in Pill City, even I fell in."

Duan Sanchang curled his lips and said: "How could we have cheated? If it wasn't for your greed, how could you have fallen for it? "You're still too inexperienced!"

The Peach Blossom Imperial Land had always been neutral, but this was also because Yao Shumei was in charge. Otherwise, the Peach Blossom Imperial Land would probably suffer endless amounts of revenge from Chen Xiang, just like the other two.

"The Peach Blossom Leader should be very lively right now. I'm saying that all of you were not traitors back then, why are all of you following Feng Clan's group of idiots blindly? Even if Chen Xiang is not able to become a Ten Heavens Supreme Lord in the future and play dirty tricks on you guys, it will still make your life chaotic. " Duan Kong shook his head.

"All those old fellows were instigated by the Feng Clan. Who doesn't want to obtain the Green dragon demon-slain broadsword and the Heaven Earth Killing Method? I don't believe that your Duan Clan has not thought of this. " Yao Shumei faintly sighed.

"We have indeed thought about it, but you know that those things did not belong to the Ten Heavens Supreme Lord in the first place. Although the Heaven Earth Killing Method was created by the Great Emperor, it was also created by him based on that. " Duan Kong said.

Duan Sanchang and Mu Jialan were shocked at the same time, they did not know about this matter, the Heaven Earth Killing Method was actually created by the Ten Heavens Supreme Lord based on reference, but it was still so powerful!

"Do you have any news of Chen Xiang?" Yao Shumei looked at Duan Sanchang and asked. Because she knew that Duan Sanchang and Chen Xiang's relationship was very good.

"You've been looking for us for so long just to ask us this question?" Duan Kong laughed: "It can't be that you want to avenge your Son of Heaven, right?"

"Of course not!" Yao Shumei said.

"Hehe, you can't be thinking of marrying your daughter to Brother Shen, right? If that's the case, you guys don't have to find him. Just go to the Divine Weapons Heavenly Country to find that female emperor and then find her disciple Xue Xianxian. Duan Sanchang chuckled, causing Mu Jialan to be extremely embarrassed and angry, as she glared at him with her beautiful eyes.

"Little grave robber, don't talk nonsense." Mu Jialan said.

"Could it be that your mother wants to marry, or is it that you two ...?" Just as Duan Sanchang spoke up to this point, his head was ruthlessly smashed by Duan Kong.

Duan Kong smiled apologetically: "This brat has been wild since young, he doesn't have any manners. I will teach him a lesson when I get back, please forgive me."

Yao Shumei's jade face reddened, and she chuckled: "It's alright, I just want to talk to Chen Xiang. I'm worried that I might misunderstand my Peach Blossom Imperial Land, and that Jing Xingliang might be a Peach Blossom Prince, but what he's doing does not represent the entire Peach Blossom Imperial Land."

Duan Sanchang held onto his swollen head and muttered: "They called me little grave robber. Uncle, you are an old grave robber in their hearts, but they didn't call me that.

Duan Kong laughed: "We are tomb robbers after all, there is no harm in being called that."

Mu Jialan glared at Duan Sanchang with her beautiful eyes: "Little thief, you better not speak nonsense in front of Chen Xiang."

"What can I say in front of him? At that time, I will definitely tell him honestly that the mother and daughter of the Peach Blossom Leader are always in low spirits due to not being able to eat or eat at all. They have been searching for him for thousands of miles just for ... "

"Aiyo, Granduncle, stop hitting me, I'm already very cultured when I speak!" Duan Sanchang shouted.

Duan Sanchang had never been humble in the Duan Clan and had gotten used to it after a while. It was the same even when facing the Peach Blossom Leader.

Yao Shumei smiled faintly, and was not angry at all. "How does he usually contact you?"

"I don't have any way to contact him. If I stay in Dan City often, I might be able to meet him!" Don't forget, he is a very powerful Alchemist. This black-hearted fellow has been thinking of ways to empty all the pill shops all day, if you want to find him, you should pay more attention to whatever major event happened in Pill City. " This time Duan Sanchang answered honestly.

Yao Shumei nodded his head, "Something big has indeed happened in the past few days in Pill City. I wonder if it has anything to do with Chen Xiang?"

Duan Kong shook his head: "It shouldn't be a problem. That method of killing doesn't seem like it was Chen Xiang's arm, but more like he's a powerful immortal who used a strong flame."

The news of Li Baojun using Kylin fans to kill a few experts spread throughout Dan City, but when the guards at the city gates recounted what happened, they only saw the transformed Fire unicorn, and did not clearly see who made the move.

Just as they were conversing, a sky-shaking dragon roar came out from the Evil Dragon Graveyard, resounding across the sky, causing the mountains where Duan Kong and the rest were at to crumble!

## [Chapter 926](#)

Chen Xiang was wandering around the core of the earth in search of the entrance to the Evil Dragon Graveyard. He had already made some progress and could clearly sense the place where things had changed.

However, at this time, a deafening dragon's roar shook the area and caused the Flame Essence to churn, causing it to become even hotter.

"What's the matter? Little Naughty Dragon, is this your royal dragon? "This dragon roar is too terrifying." Chen Xiang seemed to be in a violent undulating pool of water, finding it difficult to stabilize his body.

"This is not a normal dragon, but it is definitely a dragon's voice." Long Xueyi was also puzzled, and began to search through her vast inherited memories for relevant information.

"What do you mean not a normal dragon?" Chen Xiang asked, using his divine power to lock onto the confirmed location.

"An abnormal dragon?"

"You have no explanation." The fire had already stabilized, and he began to head upstream.

"Ordinary dragons are made of flesh and blood. Abnormally, they don't have flesh and blood, but they do have dragon souls. However, the dragon souls do not have consciousness! "Since there is a dragon soul, there must be a dragon body. However, the dragon body is not made of flesh and blood, it can be a mass of energy, it can be a river, it can be a mountain range ..."

The dragon form is one of the perfect forms of all kinds of beasts that exist in this world. If the conditions allow, then this abnormal dragon will be born. These dragons do not have a living body, they cannot reproduce, and they will not exist forever. Long Xueyi explained in detail: "For the same reason, other forms of divine beasts will have them as well, but the number of dragons is relatively more."

"So there is such a dragon? Could it be a mine vein dragon? " Chen Xiang suddenly exclaimed. Although he did not know about the legend of becoming the Celestial Emperor, he knew that this vein was not ordinary.

"This is very possible. If it's really like this, then this mine will be very terrifying!" Even though Long Xueyi was from the Imperial Dragon Race, this form of a dragon was rarely seen. Even many of the old fellows in the Imperial Dragon Race had only heard of it.

"This dragon has already comprehended the great Dao and is evolving into a peerless ominous array on the great earth. Using this method to protect itself is certainly extraordinary!" Bai Youyou said, "Our Bai Family was built on the life vein of an immortal in the shape of a tiger. No one in the Heavenly Demon Realm can break it."

Chen Xiang swam to the top and bumped into solid rocks. These stones had all been tempered and were extremely stiff, but they had no value in refining.

"There are many small holes!" Chen Xiang realized that there were many hair-sized holes on these stones, they were scattered widely, and the fire energy had come from these holes.

"Seems like that is the main reason for the formation of the Sparite vein. How do I go up?" Chen Xiang was in a difficult situation. He had initially planned to use the Green dragon demon-slain broadsword to cut a hole, but he was worried that it would cause the Flame Essence to spew out and destroy the Sparite vein.

Chen Xiang searched for an entire day before finally finding a relatively large hole that he could insert a nail into.

"Looks like I can only become a tiny ant." Ever since Chen Xiang's soul had reached perfection, he had not tried any new techniques.

It was very difficult to become larger in the Art of Transformation, and it was the same for smaller ones as well. Fortunately, he was able to cultivate his godly strength, so he was able to do this.

Chen Xiang became a very small ant and drilled into the hole. Only now did he realise how difficult it was to become an ant, as his spirit energy was drained really quickly.

The hot air gushed out from the small hole, forming a pushing force that pushed his ant-like body up and made him move forward rapidly through the small tunnel.

The center of the earth was very deep, and Chen Xiang was currently moving towards the surface. There was a very long distance between them, so he followed the force of the thrust straight up, and his speed was extremely fast. It took him no less than three days to arrive at an underground tunnel filled with hot water.

This underground passage was naturally formed, it was as tall as two people, and when the two carriages traveled together, they did not feel crowded. Chen Xiang had reverted back to his human form, immersing himself in the warm water. He finally left the core of the earth, and in addition, turned into an ant and left.

"All of this water is formed from spiritual energy!" Chen Xiang stood in the passage, and the warm and comfortable white water reached his waist. He carefully looked at the two sides of the passage, and discovered many small holes in the wall.

"The fire energy in the earth's core has been transformed into rich spiritual energy from those hair-sized holes! It is very likely that the tunnel that led to this place is a Spirit grain's path, which allows the fire energy to turn into spirit energy and then condense it into liquid." Chen Xiang guessed.

"There must be a lot of tunnels like this here. If we follow the flow of the water, the spiritual energy here is not rich enough. We still have to purify it before it will flow into a certain place." Su Meiyao said. If this Spirit Liquid was very pure, she would definitely let Chen Xiang get more.

However, even if they were to enter it, it would be of no use. The quality of the spirit liquid would slowly decline if it left the dragon's vein.

Moreover, this dragon vein was still constantly growing. Perhaps in the future, it might even become stronger!

"sister Meiyao, come out and wash up together with us." Chen Xiang said with an evil smile.

"It's not safe here. I can't be at ease." Su Meiyao's voice was charming and intoxicating, "Little scoundrel, big sister also wants to wash up with you a little."

Chen Xiang bathed in the water and allowed the water to carry him. This feeling made him feel good.

"I am finally here at Evil Dragon Graveyard. I wonder how I can start mining here!" Chen Xiang did not completely relax his guard, because when he was in the center of the earth, a dragon's roar came from there.

After six hours, Chen Xiang suddenly realised that the spirit liquid in the path was not going straight ahead, but was spiralling upwards.

"Listen, this sounds like a waterfall. Is it coming to an end?" Chen Xiang was shocked, he immediately used his divine power to allow himself to float, and then followed the flow of the water.

He quickly arrived at the entrance of the tunnel, and saw countless of such tunnels gushed out large amounts of white spirit liquid, falling into a deep pit filled with white mist. This pit was very big, and on the circular walls of the pit, there were circles after circles of the passage.

It was hard to imagine that it was all formed naturally, the spirit liquid had flowed through the twisted tunnels and flowed into here, which was equivalent to flowing through a few Spirit grains, and there were already changes occurring in the tunnels. Now that he had fallen into this bottomless pit, Chen Xiang felt that the paths were the meridians of a human body, and this deep pit was the dantian!

"Why can't I see the Sparite vein? Is this not the place?" Chen Xiang was suspicious.

"This place is still quite a distance away from the ground. If it were a normal person, they would have to dig for many years before they could reach here. The dragon's vein might not even be at this location. Maybe this is just a place to refine spirit liquids, so the situation here is too complicated." Long Xueyi said.

Chen Xiang was floating at the entrance of the tunnel, when he suddenly saw a gold light flashing over. An old man appeared in front of him with a black hammer in his hand.

"Where did you come from?" The only entrance that can allow us to enter here is us. Could it be that you have been staying here all this time?" The old man's voice trembled.

### [Chapter 927](#)

Suddenly, a very strong old man appeared in this place, causing Chen Xiang to jump in fright. This was the bottom of Evil Dragon Graveyard, there was actually someone here, and there was more than one of them!

"I am..." "How did you get up here, sir?" Chen Xiang replied politely, because he saw that there was no hostility in the place.

"Next? Wasn't that the core of the earth? You actually came up from below!" The old man was even more surprised.

"It's a long story, I entered the earth's core from a place, to be able to come here would be a narrow escape." Chen Xiang did not explain it too clearly.

"I am the patriarch of the Earth's Core Race, although we are Earth's Core Race, we have never been there. We have been living in the depths of the Earth's Core Race all year round, and we cannot be exposed to the sunlight, so we moved here many years ago. As time passed, this place slowly became like this, and we even formed a Transmission array, Dragon Transformation Sparite vein!"

"We were happy in the beginning, it was beneficial for our survival. Our Earth's Core Race relied on eating Spar to grow stronger, but later on, when the dragon veins formed, we knew that it was not a good thing, because the dragon veins knew how to protect themselves!"

As he said this, the old man sighed: "The great formation created by the dragon veins also trapped us here. Fortunately, there are still many Spar here, and we don't have to use the dragon veins to survive.

In the Earth's Core Race, there actually existed such a strange race. Long Xueyi did not know of such a race.

Chen Xiang came here to find the dragon vein. If he failed to excavate it, then wouldn't his journey here have been in vain? Moreover, it wouldn't be easy for him to leave as well.

"Sir, can you take me to see the dragon vein? has it really become a dragon? " Chen Xiang said.

"This place is still far from where the dragon fountain is. Follow me!" The old man nodded.

Chen Xiang followed the old man into a hole behind. The white liquid did not come out from the hole, but the old man told him that it was dug out by the Earth's Core Race.

The old man's name was Tie Li, Earth's Core Race was originally also a normal human, but after that, they didn't know what happened to their ancestors and couldn't shine under the sun, so they hid inside the cave, only daring to come out at night, only able to survive by eating rocks that contain energy.

Many years later, they called themselves Earth's Core Race and specially hid underground to mine ores to survive. Only after they finished eating all the mines would they move in the night.

The migration was very difficult. When dawn approached, they had to hide, so they hated migration. After learning that the dragon vein would be born here, they were so happy that they wouldn't be able to sleep for a few days. This was enough for them to eat for a long time.

They had lived here for a very long time, and they could not remember how long. In short, they had waited generations for the formation of the dragon vein, but when it came to their generation, something like this happened.

Earth's Core Race was an expert at digging, he only needed to eat three meals a day, as long as one Spar was enough for him to survive, he would need to eat one or two more like that if he was strong. They had quite a number of people, to think that there would be nearly twenty thousand of them, and every one of them was born with great strength, lived a long time, and their strength would increase very quickly, so they did not need to cultivate, as long as they ate the Spar, they would become stronger.

Chen Xiang found it hard to imagine that this was a race that had evolved from normal humans. The reason why Tie Li came here was also to see if he could find other Spar.

According to Tie Li's description, when they dug up an underground world from underneath the Evil Dragon Graveyard, they found out that there were a few cities around the size of them. However, the dragon fountain took up a large amount of space, and the dragon fountain was like a gigantic mountain, formed by Best spar.

Earth's Core Race never had the intention to touch the dragon vein, he only wanted to dig the stone soil beside the dragon vein. They believed that if they kept digging, they would be able to reveal the entire dragon, and in the future, they would be able to gather even more stones that contained pure energy.

The dragon heads released a bizarre force, forming a protective shield to protect the surrounding Spar s, and here, only the area near the dragon vein had Spar s, Earth's Core Race could only use a few Spar s to maintain, so they were unable to dig a way out, because there was a very terrifying force up there.

If they still did not think of a way, these twenty thousand people would have starved to death, so Tie Li was in a rush. Fortunately, the Earth's Core Race was very united, every single person in the Earth's Core

Race was gentle, and they would not cause any trouble inside, so they worked together to dig a path to the source of the spirit liquid. It was the tunnel that Chen Xiang saw just now.

Chen Xiang followed Tie Li to the place where the dragon's head was. It was the equivalent of an underground city, with a raised head and a Spar dragon head in the middle.

Standing below the dragon's head was like an ant. It was hard to imagine how big the dragon's vein was, since it was shocked by its magnificent might.

This was the naturally formed Spar dragon vein. The dragon head had a huge Spar pillar wrapped around it, so this dragon vein was not only a part of the dragon's body, but also the pillar.

"The dragon vein can't be used, and neither can we. Therefore, we only plan to mine the Spar around the dragon vein, but right now we have received a lot of help." Tie Li sighed: "There are Spar s everywhere within a 100 mile radius of this dragon head, but it cannot move a single piece, if not the dragon would get angry and shout!"

Within a hundred miles! Furthermore, it could be dug very deep. This was indeed an extremely large vein!

"According to the deductions of the few seniors in the Earth's Core Race, the vein of the mine that became a dragon and became a vein emperor, this is its territory, and the vein of the dragon needs to continue growing, so it is very protective of itself. As long as it comes close to the dragon head, it will be ejected." Tie Li said, "Unless... We can enter through the dragon mouth and see what method we have to communicate with the dragon soul, and let it handle this. "

"Is this dragon hollow?" Chen Xiang asked. If that was the case, then maybe there would be something even more powerful growing out of the dragon's body.

"Yes, but it's very difficult to enter, unless you have Imperial Crystal!"

He already had Imperial Crystal. Previously, he was rather pessimistic and worried that it would be a waste, but now, the flames of hope had started burning in his heart.

"The person who holds the Imperial Crystal has obtained the Imperial Crystal's approval, and the dragon's vein definitely has a large piece of the Imperial Crystal as well, so the dragon's vein will not reject them." Tie Li said.

### [Chapter 928](#)

The world below the ground was illuminated brightly by the huge dragon head made of spirit energy. Chen Xiang saw many houses made of stone on top of the ground in front of you, which should be the Earth's Core Race's village.

Chen Xiang had the Imperial Crystal in his hands, but he still did not fully understand the Earth's Core Race, so he decided to first check the strength of the Earth's Core Race.

"Old mister, if you were to bring the Imperial Crystal from the dragon's mouth into the inner parts of the dragon vein, what would happen?" Chen Xiang wanted to ask because he had to enter the dragon vein.

"We have to ask the old people in Earth's Core Race." said. Earth's Core Race was very hospitable, even though they needed Spar s a lot, they did not ask Chen Xiang for them.

Tie Li knew that for Chen Xiang to be able to come to this kind of place by himself, he must be someone with decent strength. At the beginning, he was also very cautious, but later he saw that Chen Xiang was aiming for the dragon vein.

For many years, Tie Li and the others had been waiting for an external Ranker to obtain the dragon fountain. This way, their Earth's Core Race would be free, which was why Chen Xiang had become their Earth's Core Race's hope.

When Chen Xiang entered the village, he was looked at with curious eyes. The people of Earth's Core Race were all very polite, and when they saw Chen Xiang, they all smiled.

The clothes that the people here wore were all black, and were all made from a kind of silk called the Black Crystal Silkworm. Chen Xiang saw a small portion of the people from Earth's Core Race, and realised that these people were all simple and honest.

The Earth's Core Race had been isolated from the world for many years, and it was a place that was completely free of pollution. There weren't many schemes, tricks, and struggles inside, which made Chen Xiang sigh in his heart.

Chen Xiang brought Chen Xiang into a stone house, and after entering, Chen Xiang saw three old men with withered bodies. Their faces were covered in layers of wrinkles, and they sat on the ground peacefully.

When Chen Xiang walked in, they all opened their eyes abruptly. Being stared by these six pairs of eyes, Chen Xiang felt that he was enveloped by an extremely strong mental pressure.

The three elders looked like they were about to run out of oil and oil, but when they released their powerful auras, Chen Xiang could not help but think that these three elders were three beasts with strong vitality, "Finally, outsiders have come." An old man said. Although his voice was low, it was filled with a power that could make people tremble.

Chen Xiang's heart trembled. The three elders in front of him were so old that they were unable to speak, and the elder's voice just now was completely produced from the energy in his body.

"Junior Chen Xiang greets the three seniors." Chen Xiang saluted. The three elders in front of him were like living fossils, who knows how long they had been alive, and were extremely powerful, making it difficult for Chen Xiang to see through them.

"If there's anything you need to ask, if you can save the Earth's Core Race, we will definitely follow you!" One of the elders didn't say anything, but his body was trembling slightly as his voice came out from the trembling of his body.

"Follow?" said in confusion. Previously, he had thought of working together with the Earth's Core Race after controlling the dragon veins and having them help him mine the Spar. Then, he would give them a safe living environment and a large amount of food.

"Di Tian was reborn. The person who obtained the dragon bloodline can become a great Emperor in the future. Our Earth's Core Race had once followed the Ten Heavens Supreme Lord, and was thus cursed." An old man said.

Chen Xiang opened his eyes wide and sucked in a deep breath, "About that ... I do have a Imperial Crystal, but I don't know how to do it! "

Hearing about the Imperial Crystal, Tie Li became excited, and the eyes of the three elder lit up as if they were on fire.

"The Imperial Crystal will guide you forward. Whether or not you can subdue the dragon's vein, will depend on yourself!" An old man said.

"Subdue the dragon fountain, I can become a great Emperor in the future?" Chen Xiang asked because the old man was very sure about what he said.

"Of course. Back then, the Ten Heavens Supreme Lord obtained a dragon vein, and at that time, it was our Earth's Core Race that was in charge of mining it. Later on, the heavens changed and all the clans that followed the Emperor were cursed, and from now on, we are truly the Earth's Core Race." The old man said.

"Even if you don't want to become the emperor, it is still impossible. The moment you obtain the dragon fountain, you will be surrounded and annihilated by the strong forces of the Nine Heavens and Ten Territories. If the dragon fountain continues to grow and the Spar transforms into a Spiritual crystal, then history might repeat itself."

Not to mention obtaining this dragon vein, Chen Xiang had even made enemies with many ancient powers before, and these ancient powers were the same ones that had betrayed the Ten Heavens Supreme Lord back then.

"I'll give it a try now. Chief Iron, please lead the way." Chen Xiang nodded his head, although he still had time to get to Three Realms Talk, he wanted to make sufficient preparations.

was extremely respectful to Chen Xiang now. Imperial Crystal s were something that was very hard to tame, and it wasn't that they belonged to whoever got them, it had to be seen whether the Imperial Crystal recognized you or not. Whether it was in Heaven Realm or the Heaven Realm, the Imperial Crystal was a legend, and very few people had ever seen it.

Other than being able to search for mines, Imperial Crystal s were actually also able to have the approval of the dragon vein. This was something that Chen Xiang and the others had never thought of before.

Tie Li brought Chen Xiang along on the road in the village, and when many people saw that Tie Li was bringing Chen Xiang to the dragon head, they all stopped what they were doing and went back to the main street, chanting some ancient language, but no one knew what they were talking about.

Very quickly, the twenty thousand people of Earth's Core Race stood at the two sides of the road, and stood up to chant some ancient language. These ancient language made Chen Xiang feel that it was similar to the incantations used by Heavenly dragon seal.

Ten thousand people were chanting in unison. Although they could not understand the ancient language, they were still filled with energy. They did not desperately shout out, but they only lightly chanted. They appeared to be brimming with energy, causing their blood to boil.

"Chief Iron, what are they reciting?" Chen Xiang asked in a low voice.

"They are sending you off. This is a war song. Whenever a brave warrior from the tribe goes out to fight, his clansmen will do the same." Tie Li said.

As they moved further away from the village, they got closer and closer to the gigantic dragon head. It was as if a huge mountain was standing there. The dragon's head was raised, and the imposing aura it gave off made people's souls tremble.

"Ahh ..." Tie Li suddenly shouted out, his entire being was flung away by a powerful force.

While Chen Xiang was fine, he could feel that there was a very powerful, formless barrier here.

Seeing that Chen Xiang could cross the barrier, although Tie Li fell to the ground, his face was full of excitement, because he knew that Earth's Core Race could be saved!

"It's all up to you!" Tie Li said in a heavy tone.

Chen Xiang nodded, stepping on the Shrinking step, he quickly entered the light haze released by the dragon head.

"If I can control this dragon vein, then I must build the Dragon Subduing School on top of it." Chen Xiang stood under the dragon head and with a fierce leap, he jumped into the dragon's mouth that was slightly open, and stood inside a large set of teeth.

## [Chapter 929](#)

The dragon that the Spar turned into coiled around a huge pillar, so the tunnel inside the dragon's body spiraled downwards.

Chen Xiang guessed that the place he was going should be at Dragon Heart's location.

Although the dragon's mouth was huge, after Chen Xiang passed through a curtain of light around the dragon's mouth, the passage he saw was extremely small.

It was the equivalent of a small cave in a massive mountain.

This passage was too small compared to the dragon's head, but it was very big for humans. Chen Xiang felt that it was enough for an elephant to pass through.

"Is this place really formed naturally? I always felt it was man-made. " Chen Xiang walked along the passage, where Spar were all around. It was unbelievable.

Although it was surrounded by Spar, he could not absorb the energy inside.

"It must have been formed naturally. Who could create such a place? Ten days in the Great Yan Jing was not enough! In the future, these Spar might even evolve into Spiritual crystal or immortal jades, and then they will become even more powerful. " Long Xueyi praised: "No wonder Ten Heavens Supreme

Lord, this lion, has such great abilities. His luck has always been good! Since a lion can become an emperor, so can I. "

"I always feel that the death of the Ten Heavens Supreme Lord was persecuted by an even stronger power. Maybe the White Tiger's reincarnation also died during that mysterious period! That power is really strong, to be able to erase a large portion of the history of the nine heavens and ten earth, what exactly is it hiding?" Chen Xiang thought.

"It's easy, as long as you become the new Ten Heavens Supreme Lord, those guys might come looking for you. At that time, you'll know why! However, you don't have to worry about being like that lion, because with me, this Heavenly Dragon Supreme Lord, I will definitely work hand in hand with you to kill that group of bastards. " Long Xueyi laughed.

"I'll forget about it. With a Heavenly Dragon Supreme Lord like you here, how could I dare to be the emperor?" Chen Xiang shook his head and laughed.

After carefully entering this passage for more than two hours, Chen Xiang determined that there was nothing else, and then bravely stepped on his Shrinking step, quickly advancing.

At this moment, he was already in the enormous dragon body. According to Long Xueyi's estimation, he would very soon reach the location of Dragon Heart.

Although this dragon was formed from Spar, it was very similar to a living dragon.

"There is suddenly a large space ahead. Could it be that the dragon's pearl was formed by the Imperial Crystal?" Long Xueyi discovered the result after he used Heaven tour method.

"As long as there's no danger." Chen Xiang was worried that a powerful guy would suddenly appear from the inside.

Chen Xiang arrived at the place where Long Xueyi had explored to be the largest. It was an extremely spacious area, like a gigantic belly of the mountain that could hold up to a million people.

Above the center, there was a snow-white bead that floated in the air. Compared to this incomparably massive dragon vein, this bead wasn't too big; it was something that a single person could carry.

Seeing this pearl, Chen Xiang was sure that it was the Imperial Crystal. However, it was much larger than the one he had obtained last time, and it was still growing.

"Could it be that when the Imperial Crystal grows in the future, it will occupy this place?" Chen Xiang looked around. At that time, the Imperial Crystal would definitely be as big as a mountain.

"Quickly take out your Imperial Crystal and see what happens." Long Xueyi urged, she really wanted to see what kind of benefits taking this dragon vein would bring.

Chen Xiang took out the small piece of Imperial Crystal. The moment he took it out in his hand, the dragon pearl that was floating in the air shot out a beam of white light, illuminating him.

After being illuminated by the white light, his body was lifted up by a gentle force, allowing him to slowly float towards the dragon pearl. At the same time, the Imperial Crystal in his hand shot out a ray of multicolored light, taking a picture of the dragon pearl.

The Imperial Crystal in Chen Xiang's hands suddenly struggled free, flying towards the dragon pearl and fusing into it. The dragon pearl that could have been carried by one person, suddenly became taller by two people!

This dragon pearl could indeed evolve!

The moment the dragon pearl grew larger, the depths of the Evil Dragon Graveyard began to shake. Following that, a dragon's roar could be heard, shaking the mountains and rivers!

"Huh?" After Long Xueyi heard the dragon's roar, he said, "It seems to carry a trace of life!"

Chen Xiang was even more surprised: "My Imperial Crystal ... It was swallowed up, but luckily, this dragon pearl was built up to practice, but unfortunately, the dragon pearl can only stay here in the future! "

felt that even though he had lost his Imperial Crystal, he could still control this super mine. Moreover, when his strength reached a certain level, he would be able to take away this dragon pearl!

"Could it be that Imperial Crystal can condense dragons into pearls in the future and turn ordinary veins into dragons?" Long Xueyi said: "Your Imperial Crystal is only a little bit larger, but it actually made this dragon pearl grow several times larger!"

"Let's not worry about this first. Let me break free from these clouds of light first!" Chen Xiang was now locked on by the multicolored light emitted by the dragon pearl, preventing him from moving.

Chen Xiang could feel the connection between him and the dragon pearl now, but he was unable to control it.

Suddenly, the dragon pearl released a burst of force that sucked him in, causing Chen Xiang to turn pale in shock, but he was unable to resist. In front of that force, he was like an ant.

"What is he doing?" Do you want to swallow me up? " Chen Xiang was startled, half of his body had already merged with the dragon pearl.

Following that, his entire body entered the dragon pearl, and what made him more at ease was that he felt more comfortable inside the dragon pearl. However, his body could not control itself, and various gentle powers entered his body, as if entering into a contract with him.

"This is recognition, don't panic." Long Xueyi said in pleasant surprise: "Maybe you can control this Evil Dragon Graveyard in the future! There are many naturally formed super arrays in Evil Dragon Graveyard, it would be the best if we could place the Dragon Subduing School as a reward. "

The Evil Dragon Graveyard was very big, equivalent to half of a small continent. It was enough to build a sect.

A strange power seeped into Chen Xiang's body, causing him to feel extremely comfortable, as though there was a sudden gust of cool wind on a hot summer day.

----- Duan Kong, Duan Sanchang, Yao Shumei, Mu Jialan ... Ever since they heard the first dragon roar a few days ago, the four of them did not intend to leave.

Duan Kong and Yao Shumei both took out their communication treasures, without hesitation, they used up a large amount of Innate Qi and activated their treasures to send the news back.

Yao Shumei had told the experts of the Peach Blossom Imperial Land to come. With the abnormal movement of the Evil Dragon Graveyard, with such an earth-shattering roar, it would definitely spread to Dan City. At that time, there would be a lot of people coming.

Even if she did not obtain the dragon's vein, she could still obtain a large number of Spar from it. As the Leader's Leader, she naturally had to seek benefits for the Peach Blossom Imperial Land.

But Duan Kong did not hesitate at all to stop these traitors from obtaining the dragon's vein, because this was something that only the new Sky Emperor had the right to obtain, and he must not let these traitors be tainted.

After the first dragon roar sounded out, a few days later, there was finally movement. And at this time, the mountains far away from Evil Dragon Graveyard were filled with people, and among them, the most were the ancient powers!

### [Chapter 930](#)

There were very few people in the Duan Clan, only about ten or so people. However, no one present dared to touch the Duan Clan, and only the Peach Blossom Imperial Land's Yao Shumei and Mu Jialan dared to come close. They were neither enemies nor friends, so a few words were fine.

Duan Kong really wanted to destroy Dan City's batch of Ancient Transmission array, because so many people had come now, and many powers were traitors back then. Their Duan Clan was loyal to the Ten Heavens Supreme Lord at that time, and was then cursed by a mysterious power, causing their Duan Clan members to wither and be sealed forever.

Currently, there were only a dozen of them, so it was impossible to stop this group of people from seizing the dragon fountain!

"Dammit, the fellow from Devil Realm is here, isn't that the Devil Race? And there's also the Ancient Wasteland Devil Sect!" Duan Sanchang avoided the eyes of the people from the Ancient Wasteland Devil Sect and hid behind a sturdy man. This was because many people knew that he was the one who dug up the tomb of the Demon God's son.

All the major forces here had their own thoughts. They were waiting for the black fog surrounding the Evil Dragon Graveyard to dissipate, as they thought that the dragon roars might be a signal for the birth of the dragon vein.

Although they all had the same goal, these cold-looking giants were all scheming against each other. They couldn't wait to strangle all the other forces so that they could take the dragon fountain for themselves.

A faint fragrance accompanied by a gentle breeze blew across every mountain. This kind of intoxicating fragrance would normally make people happy, allowing them to relax the tense atmosphere.

However, after many of the old fellows caught a whiff of this fragrance, they were all emotionally moved, causing the atmosphere outside Evil Dragon Graveyard to become even more gloomy.

"The Spirit Demon of Demon Charming Association is here!" Duan Sanchang scolded in a low voice: "This group of demons usually gambles very low-key, I never thought that they would want to snatch the dragon vein right now."

Mu Jialan said indifferently, "What? Have you ever disregarded anyone from the Demon Charming Association? "

Duan Sanchang curled his lips and said: "In the entire world, I'm afraid only Chen Xiang would dare to tease that group of Spirit Demons. If I really were to molest them, I wouldn't even have a speck of dust left."

The Demon Charming Association was an ancient power of the Demon Realm, and their members were all beautiful and seductive devils. Their overall strength was extremely strong, and they were righteous and evil as well, and the ancient powers of the three realms all respected and distanced themselves from this clan. Whoever provoked them would not live past three days, and even if their words were frivolous, if they were light, they would be crippled, and if they lived, it would be worse than death.

There were a lot of people coming from Demon Realm in the winter, all of them were tall and slender, their bodies were beautiful, and their appearances were enchanting and charming. They wore different colored dresses, and although they covered their bodies tightly, they did not lose their beauty.

Although this was a force that would make people tremble with fear, many of the people present were mostly men. At this moment, they couldn't help but take a few more glances.

The arrival of this group of Spirit Demons caused every force to be on high alert, and the thing that Demon Charming Association was most afraid of was their poison. Back then, when the Ten Heavens Supreme Lord and the Demon Charming Association's generation of Demon Empress fought, they almost lost because of the poison.

Right now, everyone was feeling uneasy. Just now, they had smelled an intoxicating fragrance, and were afraid that it was an extremely toxic poison!

"Please go back, this dragon vein belongs to our Demon Charming Association, you do not wish to suffer physical pain, leave quickly." A beautiful woman wearing a purple dress with picturesque features lightly said with a smile on her face.

This peerless beauty who looked to be a little over twenty was actually the Demon Empress of the Demon Charming Association. No one knew her true strength, and she had even come down from the Sky Demon Realm.

Many of the experts from the various major powers had already returned to Heaven Realm. If the space was strengthened, it would be difficult to return by then.

"Uncle, how can the dragon fountain fall into the hands of this woman?" Duan Sanchang said.

"Don't worry, it's impossible. The dragon fountain is not that easy to obtain." Duan Kong was currently very calm as he looked at the Demon Empress.

When many people heard that the Demon Empress allowed them to leave, they all felt extremely unhappy in their hearts.

"I think those who came down from the Heaven Realm should not interfere. This is a matter of the New Imperial Heaven World." The one who spoke was an old man from White Sea Imperial Land, probably a very strong elder.

"Your Demon Charming Association's poison arts are unrivalled, but you guys don't seem to have been surrounded by dozens of ancient powers before." A member of the Qin family said.

There were also people who were not afraid of the Demon Charming Association. With such a large dragon vein in front of them, they definitely could not let the Demon Charming Association demoness own it.

Duan Kong laughed: "I say, why are you guys blabbering so much? If you have the guts, go in and take your share. Evil Dragon Graveyard is so big, every person has a lot of Spar s."

"Duan Clan, I didn't expect that all of you would remain loyal for all these years, but unfortunately, your Ten Heavens Supreme Lord won't be able to return. Could it be that all of you want to fight for the dragon fountain for the future Ten Heavens Supreme Lord?" An old man said. No one knew which power he was from.

"There's no need for that. If it's someone with the Emperor's Luck, then this dragon fountain must belong to him. Moreover, he can definitely monopolize it. You traitors will no longer have the chance to use the New Emperor to strengthen yourselves." Duan Kong sneered.

The Little Demon Empress looked at the gigantic black dragon that had not dispersed for a long time, and her eyes shot out two purple beams of light that penetrated in. Her face suddenly turned deathly pale, and traces of blood seeped out of the corners of her mouth.

"Let's go!" The Demon Empress said softly.

Everyone was shocked that this Demon Empress, who was extremely powerful, was injured just like that. However, everyone was secretly gloating, because the Black Dragon hadn't dispersed yet, but it would be asking for trouble if it were attacked rashly.

"Yo, isn't this the Demon Empress? What's going on with you guys leaving as soon as we arrived?" A burly man laughed. His voice was like thunder, scaring everyone present.

This burly man had a beard and fur all over his body, but he looked very strong. Moreover, behind him, there were a group of big men. All of them were very scary.

"It's actually this bear!" Duan Kong coldly snorted, "One of the ancient demon race in Demon Realm, Black Fiend Mountain."

"That dragon vein is not fated to be with our Demon Charming Association, so we have no choice but to return." The Demon Empress chuckled. Her jade face was devoid of color, but it did not lose its beauty.

At this time, the dragon's roar rang out again. Everyone was shocked, because the black dragon that was formed from the black qi had moved!

"Look up!" Everyone looked up to the sky and only saw a ray of white light shooting out from the center of the Evil Dragon Graveyard. It looked like a white line in the blue sky.

Those with good eyesight could see that there was a black dot in the white light. It was a person!

There was actually someone that came out of Evil Dragon Graveyard. Everyone was shocked, but no one could clearly see who that was, because that person was covered in a golden fog and was currently flying around in the sky.

The one shooting up from the middle of the Evil Dragon Graveyard was Chen Xiang!
