

Dan God 941

[Chapter 941](#)

The fake Lan Lan had a few powerful senior women by his side, they were worried that the little girl would run away.

After a while, she was about to start paying her respects, as long as she was willing, Lan Lan would be Wu Jingsheng's wife. Now, Chen Xiang started to suspect, that the Flying Immortal School marrying Lan Lan would be because of the blue blood bead, if not the dignified Flying Immortal School would not use the power of the entire sect just to get a woman.

"First bow to the heavens and the earth!"

"Second bow to the high hall."

"Husband and wife bow to each other."

After the couple finished bowing, Lan Lan urged them: "Big Brother Scoundrel, quickly change, quickly change ..."

Chen Xiang laughed, controlling the God Power inside the fake Lan Lan to dissipate, just as everyone was celebrating, the fake Lan Lan's body suddenly grew larger, and broke his clothes, only to see a black wild boar suddenly appearing in front of them.

Seeing that, everyone was stunned, but Wu Jingsheng seemed to have been struck by lightning, he retreated a few steps and his body swayed, almost falling down, following that, a mouthful of blood surged out from his throat, the blood in his mouth was like a fountain, and he fell down.

"This... This is actually a pig, could this be a product of the Blue Blood Race's special Inherent skill? "

"What a misfortune for a family. This brat actually went and paid respects to a pig. From the looks of it, that pig is still a male."

"Cough, cough." Some people were already on the verge of bursting into laughter.

"Isn't this a black skinned pig for eating? It's quite big."

"..."

Many people in the great hall were gloating in their hearts. Those who dared to speak were all relatively powerful.

Wu Xu's entire body trembled, the muscles on his face twitched, and his veins popped, as though he would explode at any time. Sensing the cold killing intent from his body, many people shut their mouths.

Lan Lan, who was still holding onto her stomach, started laughing maniacally in the room, to the point that she couldn't even breathe.

No one present didn't know that two days ago, Lan Lan was saved by someone, and then easily chased back. Now that they thought about it, it turned out that this person had actually sent a pig out on purpose.

Everyone was guessing who exactly was coming to save Lan Lan. To think that there would be such a powerful method to turn a big black pig into a cute little girl, and to even deceive many people.

Many of the Blue Blood Warriors had their abilities kept a secret. Everyone started to suspect if Lan Lan's grandfather had come out of closed door cultivation.

The great formation of the Flying Immortal School was completely closed. Chen Xiang easily left the Flying Immortal School, and many people who came from the Flying Immortal School could not wait to spread the news of the great event that happened inside.

In just a few short hours, everyone in the cities surrounding Flying Immortal School knew that Wu Jingsheng had married a pig.

As the Leader, although Wu Xu's son's strength was not bad, he still acted so tyrannically, causing the people in the nearby cities to feel disgust. Everyone was happy to see such a thing happen, and the entire Flying Immortal School became a laughing stock.

In the Dragon Subduing Dan Hall, Lan Lan and Yan Yanran were hugging each other tightly. then narrated what happened on the spot with his mouth full of foam, causing him to giggle continuously.

"This move of yours is too poisonous, but I like it," Li Baojun walked over and said while laughing.

"Who asked them to bully my Dragon Subduing School. Although my Dragon Subduing School isn't very strong now, I can still retaliate." Chen Xiang laughed.

With Yan Yanran's agile movements and the mysterious Nine Lives Demon Cat, both of them would definitely become experts assassins. Of course, to investigate the mystery behind the matter, it wasn't much of a big deal.

Chen Xiang had even planned to refine some powerful poisonous hidden weapons for them. Even if they had to face some powerful warriors, they would have the ability to protect themselves.

"I will let you guys suffer for a while, so don't show your faces for now, when the Dragon Subduing School becomes stronger, you will definitely be able to hold your heads up high," Chen Xiang said to Yan Yanran and Lan Lan in a serious tone.

"It's alright, as long as everyone is fine," Yan Yanran gently caressed Lan Lan's hair, with a charming and gentle smile on her face, it could be seen that she had a very good relationship with Lan Lan, and their relationship was like that of sisters.

Lan Lan also nodded. In this past year, she had been worried all day whether Yan Yanran would be bullied by the Flying Immortal School, but now that she saw that Yan Yanran was alright, she was very happy.

"Yanran, Lan Lan, in the future, the two of you will be responsible for finding all sorts of useful information for the Dragon Subduing School. Think about the details and direction first, figure out the situation of the pill stores in Pill City, what kind of pills are they selling the most, how much are they priced at, what kind of stock they have, and who are the Alchemist's users in refining these pills. You two must produce a detailed list at regular intervals and hand it over to the Elder Li," Chen Xiang said.

"No problem, I can sneak in and steal their bills," Lan Lan laughed, "I have done this many times before."

Chen Xiang nodded his head: "You need a large number of Spar to go to Elder Li to get them, you can also develop your network, and you can use Spar to buy information, but you have to remember, do not reveal your identity, and do not reveal the affairs of Dragon Subduing School."

Li Baojun said: "If you need any elixirs in cultivation, I will do my best to satisfy your requirements."

Lan Lan laughed, "From now on, I will be Elder Blue, and Big Sister Yanya will be Elder Yan. Haha ..."

The number of people in Dragon Subduing School was still too little, and he had to trust the people who recruited them. Chen Xiang felt that it was time to go and poach in Super Martial School, although he would definitely be scolded to death by Gu Dongchen and the others when the time came.

Just as the news of Wu Jingsheng and the big black pig paying their respects had spread to the entire south, another shocking news had arrived. The Flying Immortal School's ancestral tombs had actually been dug up, and after the great formation of the ancestral tombs had been broken, many treasures and gems were scattered all over the cities near the Flying Immortal School. The most precious thing in the ancestral tombs did not appear, and with a thought, one could tell that it had been taken away by the people who stole the tombs.

Flying Immortal School was truly unlucky in eight lifetimes. When these two things were combined together, it made many of the old fellows in Flying Immortal School mad with anger, because they were unable to vent out their anger.

Without even thinking, it was obvious that the matter of the tomb robbing was done by members of the Duan Clan. Their Flying Immortal School's tomb had long since been visited by the Duan Clan.

What angered Flying Immortal School the most was that many of the tombs of various sizes had been dug up. This way, the Leader would have no choice but to gather the disciples outside to prepare to attack the Duan Clan.

When Chen Xiang heard about this, he thought to himself, "Chang Zi is really too ruthless. He dug everything up so hard that not even a single strand of hair remains. He must have obtained a lot of good stuff."

"Leader, there's a guy outside seeking an audience. He said that he had cheated with you before, and he specifically called for you, it looks like he knows you're here," Li Baojun said as he furrowed his brows. Only a few of them knew about the matter between Chen Xiang and Dragon Subduing Dan Hall.

"Quick, let him in, this brat is the one who dug up the tombs of the Flying Immortal School," Chen Xiang laughed.

[Chapter 942](#)

Duan Sanchang looked to be in a very sorry state, he had disguised himself to look like a hunchbacked old man with white hair, looking at him, he looked like he was about to burp. Although he did not know how to change his appearance, he had used a disguise technique to change his appearance, which made Chen Xiang admire him a lot.

"Little guy, what did you dig out at the ancestral grave of the Flying Immortal School? It's said that tens of thousands of ancient treasures flew out of that large tomb, and all the good treasures are in your

hands," Li Baojun said as he rubbed his hands and laughed. He knew that the people Chen Xiang knew were not ordinary people, and Duan Sanchang, for example, was in front of him.

Duan Sanchang took a sip of tea and scolded: "I couldn't even get a hair, those magic treasures that were sent flying are all trash, that tomb was dug up to the point where there wasn't even a fart left. I was killed this time, the tomb robber was too clever with his methods earlier and took away the good stuff inside without touching the restrictions on the outside, so no one in Flying Immortal School knew that their tomb was dug out."

In the end, all of those trash treasures flew out. Although the tomb is like a palace, but after I searched for a long time inside, I found nothing good. Furthermore, my identity was exposed, and the old fellow from Flying Immortal School found out that I was Duan Sanchang.

Chen Xiang laughed: "At that time, you threatened to dig up all of the ancestors' graves in Flying Immortal School, who doesn't know?"

Li Baojun sighed: "It really isn't worth it, you took the blame for nothing, many people are now suspecting that you have the good stuff in your hands."

Duan Sanchang sighed to the sky, "That's right, you must know that the tombs of the Flying Immortal School have powerful restrictions, and even the old fellows of the Flying Immortal School do not dare to move. I worked hard to break those restrictions, and I didn't even get a fart, and I was even chased down by the entire world.

Chen Xiang curled his lips and said: "Do you plan to rely on me?"

"Nonsense, if I don't want to rely on you, why would I look for you? Chen Xiang, I'm determined to stay in your Dragon Subduing School, don't chase me away," Duan Sanchang shamelessly said, "With my tomb robbing abilities, I might have to become an elder or something."

Li Baojun shook his head: "Elder isn't worth much in the Dragon Subduing School, up till now, the only people I know who are willing to join the Dragon Subduing School, other than him, are elders. For example, Lan Lan and Yan Yanran, the two girls, one is Elder Blue, the other is Elder Yan, I am the Elder Li, and now there's this Elder Duan."

"And I, this Dragon Elder," Long Xueyi muttered to himself in the Serene Jade Ring.

Chen Xiang laughed: "What's there to be surprised about, with so many elders, there will be more disciples in the future."

Duan Sanchang rubbed his chin and said: "Chen Xiang, you let Wu Jingsheng and Zhu Qitong play with each other thoroughly, although I went through that tomb for nothing, but I have still found some things. I suspect that my grandfather dug that grave away because as long as we can find my grandfather, he might be able to bring us to find even more ancient tombs, and dig even better things."

"Then do you have any clues about your grandfather?" Chen Xiang asked.

"Do you agree that I should join the Dragon Subduing School?" Duan Sanchang asked.

"Elder Li is in charge of concocting pills, while Elder Blue and Elder Yan are in charge of gathering information. May I ask what happened to you, Superintendent?" Chen Xiang asked with a smile.

"I'm in charge of robbing other people's tombs. I will not take all the good stuff I find, and I can also impart some appearance changing techniques, formation breaking techniques, etc. Don't doubt the abilities of my Duan Clan, our Duan Clan only has a few people left, but no ancient power would dare to touch us," Duan Sanchang said proudly.

"Okay, I will let you join, but this matter cannot be spread out for now, wait until after Three Realms Talk," Chen Xiang said.

Duan Sanchang stood up immediately, and said respectfully to Li Baojun: "Please take care of me, Elder Li."

Li Baojun smiled. He was extremely interested in the Duan Clan's matter, especially that method of stealing tombs. One must know that many ancient powers couldn't even find their own ancestral tombs, but this Duan Clan could.

"Leader, will our Dragon Subduing School be full of elders in the future?" Duan Sanchang laughed.

"Definitely not, but it's normal for a large power to have many elders."

Duan Sanchang nodded his head: "My grandfather had disappeared since I was very young, and he once visited the ancestral tombs of Flying Immortal School. However, at that time, he only went there, and did not dig anything, even the Flying Immortal School were certain of this point, but in reality, the place was already dug up empty, and only some trash treasures were left to confuse others."

"My grandfather left some traces inside, it was left behind by a tomb guarding restriction. That restriction was a star map, but it was modified by someone, and that method is something only our Duan Clan has. Although it has been modified, that restriction did not lose its effectiveness, but became stronger instead."

Chen Xiang and Li Baojun were also very suspicious, "Why did he do it?"

"I think that my grandfather was coerced into stealing the tomb by someone else and that he might have deliberately changed the restriction, leaving a clue for me to go find him. After that time, my grandfather disappeared, and my grandfather knows a lot of people from that history, so I think that someone must have followed his disappearance."

"According to that star map, I found a general location. It's in the southeast region. It's said that the Three Realms Talk is also held there. Other than that, there's also a dangerous place there that accompanied the rebirth of Di Tian, just like the Rough and Random profound Land."

Chen Xiang and Li Baojun frowned. They did know that place, it was called Heaven Thunder Purgatory, a huge whirlpool that appeared in the sky, the whirlpool was extremely huge, enveloping an area of 1000 Li. At the same time, it would spin slowly, releasing terrifying amounts of lightning, and sometimes it would even send out terrifying, concentrated heavenly lightning.

However, at night, the airflow of the whirlpool would emit light. From afar, it looked like a beautiful rainbow disc that was slowly rotating.

Duan Sanchang continued: "I have investigated this place. At night, the center of the Heaven Thunder Purgatory ... "In other words, the black domain in the center of the whirlpool has a strong suction force.

It might be hiding something, and I've asked my great-uncle and some of the old guys from the Duan Clan for help. They actually know what kind of place this is, but they didn't tell me ..."

"I feel that when the time comes, the Three Realms Talk will be related to this Heaven Thunder Purgatory and we might all go in together. The clue my grandfather left would be pointing towards this damned place."

If Ji Meixian didn't know, then he would go to the Dragon Subduing School to find Zuo Zhenxuan. If the Three Realms Talk's goal was the Heaven Thunder Purgatory, then he might have to change his plans.

[Chapter 943](#)

Rather, he taught Yan Yanran and Lan Lan some of the techniques needed to break through the array. Seeing him diligently guide Yan Yanran and Lan Lan, Chen Xiang wondered if this little grave robber wanted to train these two women to be female grave robbers.

Chen Xiang had been refining creation divine liquid or cultivating Innate Qi all day in Dragon Subduing Dan Hall. He had only gone through the second stage of Nirvana Tribulation, so he was still far from being able to reach the top.

If the Dragon Subduing School wanted to become stronger, Li Baojun would need to hold on to it alone, and even have a group of strong young warriors as the foundation. Thus, he had to provide a large number of high levelled pills, so that Lan Lan and the others could quickly raise their strength.

In these two months, Chen Xiang condensed many creation divine liquid, and his Innate Qi had also increased by a lot, since he had only refined Five Elements Profound Dan. In order to speed up his cultivation, he had no choice but to use this pill.

Chen Xiang would look for Li Baojun every once in a while. Knowing that the best medicine to sell was in Pill City, he asked Su Meiyao and Bai Youyou to duplicate a large amount of medicinal herbs inside.

The most expensive one was of course, the Zhuji Dan s. Although the Human Realm had become very big, the Zhuji Dan s still lacked the necessary ingredients, and even though they could be bought from the market, they were extremely expensive. The Zhuji Dan s were lower graded profound level pills, but their prices were higher than middle ranked profound level pills.

"The high quality Zhuji Dan have already risen to two million and a hundred fifty thousand. If they were to sell for two million and a half, there would still be people fighting for them," Yan Yanran said. These were all things that she and Lan Lan needed to find, and they were things that could only be bought by people who had a good relationship with these pill shops.

"The majority of medicinal ingredients come from purchases, and because Qingprofound fruit are not easy to grow, and also mature over a long period of time, that's why the price of Zhuji Dan is so high," Lan Lan said.

The more powerful Alchemist could at most refine two pieces of Zhuji Dan, and the quality couldn't be guaranteed yet, but Chen Xiang, this monster, could at least refine four of them of high quality in one furnace.

"Elder Li, I have a lot of Zhuji Dan s here. If you refine your own ingredients, can you make four of them in one furnace?" Chen Xiang asked.

Elder Li frowned slightly. "Three high quality pills in a pot is my limit."

Everyone present knew that Chen Xiang's pill refining skills were very high, they knew it just by looking at Li Baojun's expression. When Li Baojun compared the number of pills, they all felt that they were inferior.

Then, it will be selling for about two million each. Then, it will be selling for about four million each of the middle grade profound level s, and then it will be selling for about seven to eight million Spar s of upper grade. The sales volume of the Ground level Pellets are not high either, "Yan Yanran said.

The reason why the Ground level s were not sold was because there were too few of them, and not many could afford to buy them. Chen Xiang also planned to place emphasis on the profound level pills, because the difficulty of this level of the pill production was not high, it spread through the entire population, and there were not many creation divine liquid that were needed.

"We do not lack Spar now, we only lack a reputation. If we make the name of the Dragon Subduing School resounding, then in the future, many things will become very convenient. This will allow us to quickly strengthen our forces and rope in more powerful warriors," Chen Xiang said.

Yan Yanran, Lan Lan and the others knew that Chen Xiang had already obtained a dragon vein, so he didn't lack Spar s.

Chen Xiang laughed, "Of course, I will also be in charge of refining a few pills, I hope that Elder Li can recruit a few higher levelled Alchemist."

Although the Dan Fragrance Pure Land provided many medicinal ingredients, most of them were of lower quality and were unable to take over the market.

After Li Baojun received Chen Xiang's storage ring and saw the herbs inside, he was so shocked that he almost lost his balance. If he could refine them all, there would be more than ten thousand pills for each pellet.

"I say, Leader, after I finished refining these, even my old bones are going to fall apart," Li Baojun said as he laughed bitterly.

"Relax, it's not like I'm letting you finish refining all of them in one go, this is a very good selling pellet, release twenty of each every day, and if possible, try the method of bidding. Elder Li, you will be in charge of refining this pellet, but the other low levelled pellets will be left to the other Alchemist to refine," Chen Xiang said, "There are already a hundred Zhuji Dan, five hundred Chunyuan gold Dan, two hundred profoundyang fire Dan, a thousand Five elements Zhenyuan Dan, and five hundred Longevity Pellets inside.

Duan Sanchang, Lan Lan and Yan Yanran were all very surprised at where Chen Xiang had gotten these medicinal herbs from, and had even concocted so many pills. They could imagine that Chen Xiang normally eating medicinal pellets was like eating a meal.

He had eaten some of these previously refined by Chen Xiang himself, but he had only eaten them as candy. These low levelled pills did not have much effect on him, but to many low levelled warriors, they were treasures, things that the big sects were willing to spend a large number of Spar s to buy.

"Longevity Pills are relatively easy to sell and can be used for auction because a single pill can extend a person's life by three to fifty years. To many people, these are immortal pills," Yan Yanran said.

Chen Xiang nodded, and said to Li Baojun: "Elder Li, take this opportunity to consolidate your foundation, so that each furnace can produce even more pills."

Li Baojun was a dignified Dan King, and being warned by Chen Xiang like this made Lan Lan and the other two feel that it was a little bad. After all, they were all from Dan King, so they had to give them some face.

Li Baojun had once lost to Chen Xiang in pill refining, so he was completely convinced of Chen Xiang's capabilities. He nodded continuously, making Duan Sanchang and the others feel that it was hard to understand.

Chen Xiang looked at Duan Sanchang and the others, and laughed: "You guys are suspecting my pill refining skills, right?"

Lan Lan pouted her small mouth: "This Elder Li is a Dan King after all, he definitely won't be that much worse than you."

Duan Sanchang nodded, "That's right, and he is the true successor of Li Tianjun."

"Leader, I admit that I lost to you before, but in these few years, I have also improved, so I want to compete with you again. Although my cultivation and age is at a great disadvantage against you, but when the time comes, we should be clear about the outcome," Li Baojun thought about this matter and felt that this was a very good opportunity for a competition.

"Elder Li, I feel that you will still lose to me. How about I show my skills, this is something I just learnt," Chen Xiang laughed. Although he had only learnt a little of the Great Thousand Refinements Art inside the Heavenly Alchemy and could refine ten times, it was still quite shocking.

Yan Yanran suddenly thought about the scene of Chen Xiang refining the City Lord into a pill. She suspected that Chen Xiang was planning to reveal this move.

"If you can force me to concede with just a move, then I want to see," Li Baojun said with a smile. "Then let's begin, let me broaden my horizons."

[Chapter 944](#)

No one knew what stage Chen Xiang's alchemy level had risen to, because the people who were currently being chased down by the whole world, would never show up to participate in the alchemy competitions, nor would they go to the Dan Alliance to undergo the Alchemist level examination. Otherwise, if he appeared, he would have attracted the attention of many old fellows.

With regards to Chen Xiang's pill refining level, everyone only waited until he impersonated Li Renshan to be able to concoct a few types of mid-ranked Ground level pills. According to the Dan Alliance's rank, he could be considered a Great Alchemist.

In order for Chen Xiang to refine high grade Ground level pills, he would need to raise his Foreseeing Alchemy to the next three stages, and learning how to use the Heavenly Alchemy would allow him to strengthen his soul more quickly. This would be of great help to him in refining pills.

"You guys better watch carefully, don't blink," Chen Xiang waved his hand, and ten batches of Zhuji Dan's medicinal ingredients flew out, all of them floating in the air.

The following ten Magic method furnace were formed, but others could not see them.

Ten batches of processed medicinal ingredients all entered the Magic method furnaces, Chen Xiang waved his hands, and countless balls of fire floated into the Magic method furnaces.

Seeing this scene, Li Baojun's mouth dropped. He knew what Chen Xiang was doing, he actually wanted to refine ten batches of Zhuji Dan at the same time.

Lan Lan and Yan Yanran also took a deep breath. Chen Xiang's unique skill of not using the pill furnace to refine pills had reappeared, and they were always this shocked when they saw it.

Duan Sanchang was so scared that he did not even dare to breathe.

After the Zhuji Dan's medicine was burned by the flames, it quickly melted. The green and gold light enveloped the room and turned into a sea of light, drowning everyone inside.

Li Baojun and the others did not feel any unbearably hot air, although they could see the flames dancing around, and could tell how ruthless Chen Xiang's attack was, not to mention that it was ten batches long. What shocked Li Baojun the most was that all of this was too brief, and after they saw the beautiful multicolored light, Chen Xiang had already entered the stage of condensing a core.

"It's actually ten pills! Ten batches of pills at the same time, and four pills at the same time ..." Li Baojun screamed crazily in his heart, he could not believe it.

Now he understood why Chen Xiang wanted him to work so hard. He could only produce three pills in one furnace, but Chen Xiang could only concoct 40 pills, the difference was not even a little bit. He firmly believed that Chen Xiang could do the same thing in the future with high level pills, and he even had an even more shocking method.

Soon enough, the forty balls of azure-gold Qi started to revolve rapidly, slowly searching and pressing, condensing into forty pellets in a sea of light. The light in the room also slowly went up, a rich medicinal fragrance filled the entire room, and Chen Xiang kept the forty pellets into a jade box.

Li Baojun's eyeballs almost popped out of their sockets. He took the jade box and looked carefully, these Zhuji Dan were all of high quality.

"I also just learned this a while ago," Chen Xiang smirked.

Duan Sanchang gulped down his saliva. Forget about Chen Xiang having a large amount of medicinal ingredients, he could actually make them in batches during pill refining. He had already seen how the Dragon Subduing Dan Hall would shake the entire Pill City in the future.

"Elder Li, do you still want to compete with me?"

Li Baojun shook his head. Chen Xiang's control over pill refining had already far surpassed his own. Moreover, Chen Xiang's pursuit for perfection in pill refining was extremely difficult for him to compare to.

"Yanran, Lan Lan, you guys can rest for a while and cultivate in peace. Young people like us, we must increase our strength quickly, or else with our current strength, as elders and Leaders, it would be hard for us to convince the masses."

did not have to worry too much about their cultivation. As for Duan Sanchang, he had his own cultivation method too.

In the next period of time, Chen Xiang spent all his time meditating on the God slain method, the technique of using "Spirit" to attack was extremely profound, it was extremely difficult for him to comprehend it, he could only rely on a little to comprehend it.

There was some news regarding the You Ming Deep Abyss that spread to Dan City. On that day, Chen Xiang had a play with Duan Sanchang and tricked many people to go to the You Ming Deep Abyss to look for the Black Tortoise Divine Weapon. However, many experts did not come up after they went down, Chen Xiang knew very well that there were some powerful people down there that no profound diamond armour would be able to go down to.

Every time the Dragon Subduing Dan Hall released a rare pill, they would sell it at a different pill shop, causing the business in the Dragon Subduing Dan Hall to become better and better. Many sects would send people to guard here, and sometimes Li Baojun would even lower the price a lot in order to seize the market.

The large pill stores that were bustling with business before had now become deserted, because not only were the Dragon Subduing Dan Hall's pills cheap, they were many in quantity, of good quality, and extremely attractive. As long as a person had a Spar, they would always come here a second time to buy pills.

Chen Xiang's pills were not worth much, but the ones in those large pill stores were extremely valuable. They were all pills that they had spent a lot of effort to grow, so if they were to lower the price, they would definitely lose out.

The Dragon Subduing Dan Hall messed up the market price, which made many large pill shops extremely dissatisfied. These pill shops had already secretly joined together, planning to punish the Dragon Subduing Dan Hall.

Chen Xiang did it on purpose, because those good trading pill shops were all established by the ancient powers, and one of them was the Alliance Master's. He hated this group of people the most, if he had the chance to deal with this group of people, he would definitely not let them go.

This street of the Dragon Subduing Dan Hall had become very lively. The originally remote area had become a lively district due to the help of the Dragon Subduing Dan Hall. If this continued, the central region would be banned.

The most infuriating thing was that a large portion of shops and streets in this remote area had been bought by Dragon Subduing Dan Hall at a very low price.

The land bought by the Dragon Subduing Dan Hall was extremely vast, with the Dragon Subduing Dan Hall as the center, the hundred streets around were all occupied by the Dragon Subduing Dan Hall.

This was something that Chen Xiang and Li Baojun had planned. They did not lack Spar s, their goal was to expand their area of influence. If this continued, the location of the Pill City's bustling area would have to change.

The Dan Alliance's headquarters was originally the central area, and the large amount of shops around were controlled by the ancient powers. If there was no more commotion, those shops would naturally turn into a ghost shop, which many forces were not willing to see, and they had to prevent the Dragon Subduing Dan Hall from developing like this.

Chen Xiang was concocting pills in the secret room, while Li Baojun was standing outside. After Chen Xiang sensed his presence, he opened the door of the secret room.

"Those guys are here," Chen Xiang asked.

Li Baojun nodded his head, "There are a total of thirteen shops in the Dan King, as well as the chief of the Dan Alliance and some elders from various powers.

[Chapter 945](#)

Chen Xiang already knew that these people would come and find trouble with him, so he smiled and said: "Let them wait outside for a few days first. If they dare to do anything out of bounds, I will return it tenfold."

"It seems like they are planning to buy our low-priced pills, but I'm afraid they won't succeed, we can only buy them, and all those precious pills are for auction or by the sect, they won't go to them, even if they are bought at a high price, we will not be the ones to lose them," Li Baojun said.

Duan Sanchang suddenly ran over and shouted: "Our shopkeeper has been beaten up, the puncher is very arrogant, I heard he is a Dan King."

Li Baojun immediately became furious, "So what if you're a Dan King? I'll beat my shopkeeper and call him back so that he can burn down all of their Feng Clan's stores.

Chen Xiang's face was calm, but his heart was full of anger. He changed his appearance and followed behind Li Baojun, at the same time using the sound transmission to tell Yan Yanran to sneak into Feng Clan's shop and burn her again.

Because of Zhao Yiprofound's words, White Sea Imperial Land had become more obedient and didn't dare to offend anyone anymore. She was steadily developing, that was why Ji Meixian sat in the position of her Heavenly Girl in White Sea Imperial Land.

In the past few days, the Feng Clan and the Flying Immortal School were the most snobbish, followed by Qian Xuan Mountain and the Dan Alliance's chief alliance.

Amongst those people who came to cause trouble, there was actually a Flying Immortal School. They had just suffered a double blow and now they were this arrogant.

The owner of the Dragon Subduing Dan Hall was a simple and honest little old man. Now that he was beaten up until his nose was blue and his face swollen, this made Li Baojun angry to the point that his face turned green.

Li Baojun's angry voice was like a shockwave, shaking many people's blood and Qi. The entire Pill City was shaken to the point that it even slightly trembled. It was obvious that he was truly angry.

Many of the young people in the hall were extremely upset by the sound wave. Fortunately, the Dan King released their powers to protect them, otherwise, they would all vomit blood.

Duan Sanchang pointed at an old man with long eyebrows and said: "It's this guy. He claims to be Feng Clan."

The long-browed old man was still very arrogant after beating someone up. Originally, Chen Xiang and Li Baojun thought that they would cause a commotion for them, at most, they would just cause some trouble, but they did not expect to beat him up.

Li Baojun's face sunk. He was the pavilion master, he had to take responsibility for the safety of all the employees of Dragon Subduing Dan Hall. He was so arrogant that he had been bullied by others, how could he not be angry?

"I will give you two choices, either you kneel down and kowtow to my shopkeeper, or you die. You have no other choice," Li Baojun's voice was ice-cold and carried a dense killing intent, his angry face was terrifying, and even Chen Xiang was frightened.

If Li Baojun did this, perhaps many powers in Dan City would surround Dragon Subduing Dan Hall, but Chen Xiang was very supportive of it. No matter what, people from Dragon Subduing School must not be bullied.

"You ... "Hmph, I am a dignified Dan King, wanting me to kneel and kowtow to this fellow, what a delusion," the old man with long eyebrows sneered.

Li Baojun swept a glance over the other Dan King who had followed along, and his gaze finally landed on the Alliance Master.

When he said that, a ball of multicolored flame suddenly appeared in Li Baojun's hair. Seeing that flame, many Alchemists were stunned.

Legend has it that the depths of Earth's Core Fire Realm was filled with multicolored flames. Li Baojun was actually able to control this kind of flame, and if it was ignited, it would be difficult to resist.

Li Baojun roared, he waved his hand and struck out with his palm, five different colored interweaving flames that formed a palm blade, sweeping towards the long-browed old man.

Bang.

The fire palm landed on the long-browed old man's face. The speed was so fast that many people were unable to stop it. After the fire palm landed on the old man's face, a burst of hot air came out, followed by the long-browed old man's head exploding into white ashes.

A sliver of Five elements heavenly fire landed on the old man's body, and in the blink of an eye, the headless body was turned into ashes.

Li Baojun's power was similar to many of the giants of the ancient powers. They were all immortals who had just passed through the Nine Nirvana Tribulations, but since Li Baojun had such a terrifying flame like the Five elements heavenly fire and was also a Alchemist, his power was naturally much stronger than many other people.

"I am just a Alchemist, I do not wish to kill anyone, you better not force me to do it," Li Baojun said in a gloomy voice. When his eyes that contained killing intent swept across the crowd, it caused everyone's hearts to fiercely beat, as though they were afraid that he would smack them to death with one palm.

At first, these people thought that Li Baojun was easy to bully, and that they just wanted to find Li Baojun to ask him about the matters of the Dragon Subduing School to get that dragon vein, but now that Li Baojun had revealed such a terrifying strength, they were definitely not people they could deal with.

"If you don't want to die, hurry up and scram, you are already big and strong, yet you still dare to do such a thing that will only lower your status? You are only fit to be weaklings," Li Baojun completely detested this group of people, he finally understood why Chen Xiang would take the risk of being hunted down by the entire world in order to be hostile to these powers.

They left the Dragon Subduing Dan Hall in a panic. All these people were Dan King, or were of decent strength, but compared to Li Baojun, they were far too lacking. Li Baojun could kill them with a single slap, and Li Baojun had kept his promise.

"So boring, these bunch of cowards," Duan Sanchang ridiculed.

"They will be back before long, and when the time comes, they will bring even stronger people with them. At that time, I will definitely let them see how powerful I, Li Baojun, am," The hand Li Baojun revealed just now also surprised Chen Xiang. That Five elements heavenly fire was definitely stronger than his own Heaven fire.

Unless his Heaven fire could evolve into a Heavenly Flame, it would be impossible to defeat Li Baojun in terms of flames.

Lan Lan and Yan Yanran returned very quickly, and thick smoke covered the sky above Pill City. Lan Lan and Yan Yanran were supposed to be responsible for the things that were done in the dark, including assassinations.

"Seems like Pill City has let us go. From their postures today, they want to chase us out of the city," said Yan Yanran. She had changed into a normal looking girl.

"We had thought about it long ago. If they wanted to chase us away, they would have to take back the premises first, according to the contract, if they wanted to take them back, they would have to pay a hundred times their current value. Since the price has risen a lot, if they wanted to take back the goods, they would definitely suffer a huge loss.

Lan Lan asked: "What if they do not follow the agreement?"

Li Baojun snorted gloomily, flapping her sleeves and sending a gust of wind, blowing away the white ashes on the ground, "The fish dies and the net breaks, at that time, it won't be a problem for me to destroy this Pill City by myself, but our Dragon Subduing School has Spar s, or pills, we can afford to play with them."

[Chapter 946](#)

Although there were a dozen or so Dan King in each force, these were all carefully nurtured by them over the years. Once one was lost, it would be difficult to cultivate them in a short period of time.

The three words "Dragon Subduing School" would once again engulf the entire Pill City, even the entire southern region, and actually dare to blatantly kill the Dan King of another power. Even if there were conflicts between different powers and the Dan King, it would all be resolved in secret, so even if that power lost the Dan King and did not seek revenge, it would still be reasonable in terms of face, because no one knew who did it.

Now that the Dragon Subduing School had brazenly killed the Dan King, it was like a declaration of war on the part of the Feng Clan!

Other than Chen Xiang and the others, no one knew the strength of the Dragon Subduing School, because the Dragon Subduing School had suddenly appeared. It occupied the entire dragon vein and even had a Dragon Subduing Dan Hall that was comparable to a large medicine shop.

The Dragon Subduing School gave off a mysterious feeling. It was very powerful, because this Dragon Subduing School had one dragon vein, and was hidden inside the Evil Dragon Graveyard. No one knew what kind of experts were inside, but many people didn't think that the Evil Dragon Graveyard was weak.

Chen Xiang and Li Baojun wanted others to think that the Dragon Subduing School was very strong. Now that they were this strong, many people thought that it was true.

The Dragon Subduing Dan Hall had become very cold and cheerless. Those who dared to come here to buy pills all had some ability, in fact, the entire Pill City had suddenly become very quiet, like a ghost city, shrouded in a solemn aura.

The Dan King was killed in the afternoon, but after just over two hours, a dozen white haired old men in blue robes appeared in the Transmission array Plaza in Dan City. These ten old men came with expressionless faces, their bodies overflowing with waves of cold wind, causing their blue robes to flutter as they walked, their steps slow and steady, a formless killing intent that was accompanied by the cold wind that silently covered the cold streets.

The war was about to begin! Many of the people hiding in front of the houses were extremely nervous. Some of them had already started to run out of the city!

Although it was prohibited to start wars in Pill City, the Feng Clan was still one of the people who did. Since the Dan Alliance did not stop him, it meant that the Feng Clan had obtained his tacit approval to go against him!

The Dan Alliance was formed by a group of powerful Dan King s, and it affected the business of many shops. It meant that they were challenging the entire Dan Alliance, and now that the Dragon Subduing

Dan Hall had killed the Dan King, the Feng Clan had sent their experts to take revenge. They were happy to see that.

Inside the Dragon Subduing Dan Hall, Li Baojun's expression was cold, his eyebrows knitted together slightly, he walked out of the Dragon Subduing Dan Hall, and saw the ten elders walking towards him, his body releasing a burst of blazing fire, after that, the fire turned into a vaguely visible Qilin, flying towards the street corner.

When the ten Feng Clan Rankers released that biting cold wind, they suffered a fierce impact from the Fire Qilin, and it exploded with a loud bang.

"Are you here to die?" Li Baojun's voice was calm, but the sound wave had reverberated in every street and carried a kind of oppressive might.

Chen Xiang had long ago sent Duan Sanchang, Lan Lan and Yan Yanran away, telling them to temporarily stay far away from the Dragon Subduing Dan Hall. Inside the Dragon Subduing Dan Hall, he was the only one looking for him.

Li Baojun had said before that he could handle it alone and fight against the heroes of Feng Clan alone.

"We are here to send you to your death, to kill the Dan King of my Feng Clan. You have guts, even if you obtain the dragon fountain, our Feng Clan will not be afraid of you!" An old man from the Feng Clan shouted. Standing at the street corner, he was over a hundred meters away as he waved his hand and released a palm strike. A black Qi vortex roared out like a devil, roaring towards Li Baojun.

The black wind attacked and swept away all the doors and stores on both sides of the street. The stone tiles on the ground were all lifted up, and after they came in contact with that terrifying black astral wind, they were all smashed into smithereens!

Li Baojun laughed coldly, what Feng Clan was best at was using all kinds of wind to attack, and what Li Baojun was best at dealing with was precisely this type of wind attributed attack. A fan covered in red crystal scales suddenly appeared in his hand!

The Kylin fan was a Holy level Artifact, it was as powerful as a Holy level Dragon Equipment. Chen Xiang had seen him use this fan to instantly exterminate a few strong warriors before.

Li Baojun held the Kylin fan in his hand, and his entire arm overflowed with multicolored light. One could tell that he was using the Five elements heavenly fire, and just as the terrifying black astral wind was about to hit him, he waved the Kylin fan with great force. The multicolored light suddenly exploded, and the light shot up to the sky as a huge Rainbow Qilin beast appeared in front of Li Baojun!

The Qilin was tall, powerful, robust and full of power. Its scales were shining with a rainbow light, looking extremely lifelike, as if Li Baojun had suddenly summoned it!

Whoosh! Whoosh! Whoosh!

The black astral wind collided with the Rainbow Qilin's body, causing it to let out a furious roar. Then, with four robust and powerful legs stepping on top of its body, it rumbled as it madly rushed towards the street corner!

Not long ago, a few experts from the Feng Clan were killed by someone using a similar method outside the city. Now, many of the experts who were hiding at the side to watch immediately thought of this and were sure that it was Li Baojun and the other experts from the Feng Clan who killed them.

The Kylin fan in Li Baojun's hands made the eyes of many practitioners who were watching the battle blaze with passion, causing them to wish that they could snatch it away. There were even some who recognized that it was the famous Kylin fan of Heaven Realm!

The ten old men did not dodge. Instead, they all began to circulate their powerful Innate Qi, letting out deep and low growls. The ten people all released their palms at the same time, releasing waves of roaring blue wind dragons.

The ten wind dragons blended together and covered the entire street as they charged towards the Rainbow Qilin. Although the two powers were extremely powerful, both sides were extremely skilled at controlling their strength and were unable to shatter the shops on both sides of the street.

"A bunch of idiots!" The moment he threw out the Rainbow Qilin beast, he had instantly flashed behind the ten elders. Just as the blue wind dragon and the Rainbow Qilin were about to collide, he sent out another wave of Five elements heavenly fire.

At the same time, the Rainbow Qilin and the blue wind dragon collided, but no one expected that they would be stimulated to such an earth-shattering degree. The blue wind dragon was swallowed by the rainbow colored Qilin, turning the rainbow colored Qilin into a surging wave of five-colored flames that rushed towards the ten old men.

The ten elders of the Feng Clan were attacked from two sides, drowned by Five elements heavenly fire s. Everyone was unsure whether they should live or die, but everyone could hear the waves of berserk roars coming out from inside!

"This guy actually knows Blink Steps. This is a mysterious footwork that consumes a huge amount of energy and traverses the void. Rumor has it that it can only be compared to the legendary Shrinking step!" The eyes of the Demon Empress, who was standing on top of a tall tower, shone, and she let out a faint smile. "This Dragon Subduing School is impressive indeed.

"Kylin fan, Instantaneous Steps, these things can cause quite a sensation even in the Heaven Realm!" Yao Shumei said in a low voice.

"Haha, Feng Clan has kicked an iron board! No Dan Alliance has kicked an iron plate! " Duan Kong did not even try to conceal his laughter, so that the entire Pill City could hear him.

[Chapter 947](#)

Li Baojun placed his hands behind his back and stood there leisurely, looking at the Five-coloured Heaven Flames burning fiercely at the end of the street. He had also controlled the ball of Heaven Flames to turn into a tall tower, adding to the ten elders of the Feng Clan, and used the Heaven Flames to refine them.

"Pavilion master, please show mercy. After all, it isn't easy for them to cultivate to this level!" A Middle-aged Man in Black Robe flew over from the sky and landed beside Li Baojun.

This man was Dan Alliance's Alliance Master, Ye Heng!

When Li Baojun saw that Ye Heng had arrived, he immediately held onto the Kylin fan tightly and glanced at him, "I don't care, whoever's at fault is the first. I won't be merciful. "

Li Baojun took out a green three-legged, giant cauldron, and shouted. The giant cauldron floating in the air suddenly flipped, and the huge mouth of the cauldron smashed towards the Five elements heavenly fire that was on the ground.

"You ..." Ye Heng panicked, because the small cauldron suddenly shrunk and was taken away by Li Baojun.

"I will not kill them, their lives will be decided by my Dragon Subduing School's Leader!" Li Baojun glanced at Ye Heng coldly, "You are the Alliance Master. You have witnessed this group of people oppressing my Dragon Subduing Dan Hall several times. Are you with them? As the chief, not only did he not lead his chief to stop this group of people who violate the rules of the Pill City, he even helped the evildoers. "

Seeing Li Baojun holding onto the Kylin fan, Ye Heng took a few steps back. With the fan and Li Baojun's Five elements heavenly fire, the power was obvious.

"Hmph, didn't I just beat up one of your shopkeepers? You just killed a Dan King cultivator, what is your shopkeeper? If you take a bit of humiliation, you can take the life of a Dan King! " Ye Heng's face darkened, his voice was laced with killing intent.

They thought that the Dragon Subduing Dan Hall was done for today, but they did not expect Li Baojun to have a powerful being like the Kylin fan, and knew how to teleport. After killing the ten experts of the Feng Clan in a few breaths, not only did they not suppress the anger in the Dragon Subduing School, but the Dragon Subduing School had an opportunity to create momentum, they could not let the Dragon Subduing School's arrogance continue to grow.

Li Baojun's body shook, and released a burst of oppressive fire: "I gave that guy an almost, telling him to apologize to our manager, he didn't cherish it properly, who can you blame? To humiliate my Dragon Subduing School's disciple, is like humiliating my Dragon Subduing School. If my Leader were to do it again, he would definitely annihilate his entire family and return it a hundred times! "This is considered light!"

"I advise Feng Clan to quickly hide. When my Dragon Subduing School comes back, our clan will be exterminated!"

Li Baojun's words were filled with killing intent, the news spread throughout Dan City, causing many people in Feng Clan to panic. The ten experts of their Feng Clan were already sealed and burned in a cauldron, Li Baojun's strength had already deeply shocked them!

"You also have part in what happened today, but I'm not going to argue with you. Hurry up and leave, otherwise I will kill you too!" If you dare to harass my Dragon Subduing School again, I will burn the entire Pill City! " Li Baojun said coldly.

Chen Xiang secretly sighed in his heart: "Didn't this guy say that he was only a pill refiner? "He doesn't know how to fight, and even told me to not cause trouble. But now, he's the one who's fighting the most fiercely, and the one who's causing the most trouble is also him. But, that suits my taste!"

"Dragon Subduing School should have such an imposing aura. Otherwise, how could they have descended the dragon? Just wait a few more years for this Dragon Emperor to level with that Feng Clan. If anyone dares to insult my Dragon Subduing School's disciples, annihilate their entire family! " Long Xueyi clamored.

He was just a Dan King who had just passed through the nine Nirvana Tribulations. Li Baojun's one slap from his fan was enough to kill him, so he didn't dare to stay any longer. A few days ago, Li Baojun had killed a few experts from the Feng Clan, and today, Li Baojun had killed another Dan King.

Just like that, Ye Heng, the alliance head of the Dan Alliance, left, causing many powers who hated the Dan Alliance to feel relieved. Duan Kong's bold laughter had even spread throughout the entire Pill City.

"If you really have the ability, then go attack the Dragon Subduing School's headquarters? What kind of hero was beating someone's shop? Furthermore, they have not even fought yet and their heads have already been chopped off! " Duan Kong laughed. As long as he had the chance, he would never give up ridiculing these traitors.

"Duan Kong, where is your grandnephew? Your Duan Clan has always only been a tomb robber, but you will never destroy the tombs of others. However, not only did your grandson Duan Sanchang dig out all of our ancestor's tombs, he even allowed the entire mausoleum to destroy them! " This was the voice of the Flying Immortal School s, Wu Xu.

Duan Sanchang who was inside the Pill City cursed in his heart. He did not even get a hair on his head, it was all because of his grandfather.

"This kid really broke our Duan Clan's rules. He was missing in terms of theft, so we've decided to kick him out of the Duan Clan. If you catch him in the future, we'll deal with him this way!" Duan Kong let out a long sigh. Although Duan Sanchang had done a good job, he had to follow the teachings of his ancestors, and the Duan Clan had dealt with many outstanding grave robbing eccentrics in this manner over the years. However, he was not worried about Duan Sanchang.

Duan Kong chuckled: "Oh right, Wu Xu, have you found the one who was teasing your son? "Although your son went to worship with the big black pig, it's fortunate that your son hasn't gotten married to that big black pig. Otherwise ..."

"Shut up!" Wu Xu was furious, her voice was like thunder, shaking the entire Pill City.

This kind of gossip was something many people loved to hear. There were even rumors that Wu Xu's son had already gone into bed with the big black pig ...

Ye Heng, who had just left not long ago, had returned with many Dan King following behind him.

Li Baojun had just kept the Kylin fan and now he took it out immediately. "Are you tired of living? Didn't you hear what I just said? "

"We are here to collect the land ..."

"You can recycle the land that we bought. You should know the price of the land that we bought. Don't mess with me, I don't have time to play with you!" Li Baojun and Chen Xiang had predicted that something like this would happen.

"Here is the one trillion Spar ..." Just as Ye Heng finished speaking, Li Baojun snorted in anger.

"Just Dragon Subduing Dan Hall alone is not enough, and furthermore, we have bought a large piece of land, haven't you heard it clearly? A hundred times the current value!" Li Baojun said loudly.

It was only because the Dragon Subduing Dan Hall was here that it was expensive, what was the value of this place if the Dragon Subduing Dan Hall moved away!

"This piece of land is at least worth a hundred billion. If our Dragon Subduing Dan Hall continues to stay here, if we buy land, we can definitely sell it for this price. If you take it back, it will be worth at least a trillion, or else don't even think about it!" Li Baojun held onto the Kylin fan tightly, his face was filled with anger.

[Chapter 948](#)

If Dragon Subduing Dan Hall continued to stay here, then there would be no hope of making any more money from Dan Alliance's large scale medicine store. Therefore, they were all communicating with their consciousness right now, discussing whether or not to give Li Baojun ten billion.

A trillion was a large number, but if all the forces were to gather all of them, it wouldn't put a huge amount of pressure on them.

After a short while, another group of people arrived. These people were the representatives of the powers in the Dan Alliance, and many of the pill shops here wished to expel the Dragon Subduing Dan Hall, so they were willing to offer a set of Spar.

After waiting for no longer, Li Baojun collected a hundred thousand Spar. What surprised everyone was that he remained calm, as if being chased away was not a big deal.

They were not afraid of Dragon Subduing School setting up a city on the side. It was because there was a rule that other people could not build a city near other people's city, otherwise, they would be jointly sanctioned by many great powers.

The Evil Dragon Graveyard was not far from here, where they could build a city. However, the Dan Alliance was not worried, they felt that the attraction of the Dragon Subduing School was only for a small portion of people, and they felt that the Dragon Subduing School could not support a large amount of cheap pills with his own strength. Of course the other forces would not open their shops in Dragon Subduing School, because Dan Alliance did not allow this to happen.

Dan Alliance was only in a hurry to recover because he was worried that Dragon Subduing Dan Hall would change the central region of Pill City. It was because it was a very humiliating thing, they thought that Dragon Subduing Dan Hall's pills would only be able to sustain him for a short period of time, and during this period of time, it was possible that Dragon Subduing Dan Hall would become the most prosperous place in Pill City.

Li Baojun packed up the things inside the Dragon Subduing Dan Hall and left, while Duan Sanchang, Yan Yanran and Lan Lan continued to hide within Pill City.

Chen Xiang had already made a plan long ago, he was currently returning to the Evil Dragon Graveyard to see what those Earth's Core Race people had done to create the Dragon Subduing School.

The Evil Dragon Graveyard was enveloped by a giant black dragon and because of that, the entire dragon vein was protected, making it difficult for other people to take a step into it. Even if one wanted to use their consciousness to explore, they would be counterattacked by this giant black dragon's mysterious and powerful strength.

Chen Xiang entered the black mist and arrived at the center of the Evil Dragon Graveyard. What surprised him was that in just a few months, this central region had undergone a tremendous change!

Here, a city was built, the walls of the entire city were actually two huge black dragons, the dragon's height was two hundred meters, the black scales shone, and a strange power circulated around them. Two domineering dragon heads opened their huge mouths, facing the front of the city gate, one could see that there was something inside the dragon's mouth, as if it could condense a strong power and then shoot it out.

The city gate was shut tight, but when Chen Xiang walked to the bottom of the city gate, the black door opened, and all the simple and elegant houses entered his eyes. Standing at the entrance to the city, he looked out into the distance along a straight stone path, and a majestic aura immediately assaulted his senses. In front of the palace was a towering, enormous palace, and in front of the palace were two huge stone pillars with a golden dragon coiled around it.

At that time, Chen Xiang did not say how the construction was planned, because he knew that the ancestors of the Earth's Core Race were actually the subordinates of the Ten Heavens Supreme Lord, responsible for mining Spar s and constructing houses. He did not expect them to be so powerful, he guessed that the entire Earth's Core Race had already been mobilized, and was rushing the work at night!

Chen Xiang did not find anyone from the Earth's Core Race here. He came to the grand and majestic building, and found a relatively large palace. There was a hole in the middle of the spacious hall, which could be used to open up the dragon vein below.

In a large hall at the side, there was also a Transmission array that could be used to teleport people to the bottom!

When Chen Xiang arrived at the bottom of the dragon vein, he saw that the people of Earth's Core Race were very relaxed in mining the Spar. To them, this was as simple as playing with sand.

Seeing Chen Xiang coming over, Tie Li walked over with a smile.

"Leader, I remember that you mentioned that you want to establish a sect called Dragon Subduing School, so we did it like this, it's basically done, but it's a bit less lively here, you have to get some flowers, plants, and trees in, there are still many places to plant them, when that time comes, we don't need to use black fog to cover the entire place."

Chen Xiang praised, "Elder Tie, your Earth's Core Race is so awesome that it gave me a big shock!"

Tie Li laughed: This is nothing, we have been staying downstairs for a long time, and it is rare for us to have something to do, so everyone is working hard! The Dragon Subduing School above can hold around 200,000-300,000 people, and the elite soldiers of the Ten Heavens Supreme Lord back then were around this number. "

Chen Xiang asked: "Did you all do this? How long has it been? And the materials used are all very good! "

"The building materials were all taken from the earth's core. The rocks underneath were very strong, and we've dug many tunnels over the years to store the rocks into bricks, so it's very convenient to use them when needed." Tie Li brought Chen Xiang to his residence.

Chen Xiang realised that the Earth's Core Race was not only good at mining, they also had some attainments in construction, forging and setting up arrays. For example, they knew how to set up Transmission array s, which was very ancient in nature.

When the Earth's Core Race followed the Ten Heavens Supreme Lord back then, it was extremely important. It could be said that the Ten Heavens Supreme Lord didn't have this group of people, and wouldn't have become an Emperor. That was why the Earth's Core Race was cursed, just like the Duan Clan.

As loyal subordinates of the Ten Heavens Supreme Lord, they were still able to pass on their legacy. From this, it could be seen that their strength was extraordinary, and there were even quite a few people in the Earth's Core Race.

Tie Li had long ago said that he would serve Chen Xiang, and now he also called Chen Xiang Leader, Master Elder of Dragon Subduing School, and Earth's Core Race was considered the first batch of disciples since the creation of Chen Xiang's Dragon Subduing School.

"Elder Iron, is there any way to rid your Earth's Core Race of its curse?" Chen Xiang couldn't help but sigh for the Earth's Core Race whenever he thought of the curses they had suffered for all these years.

"Only by reaching the Ten Heavens Supreme Lord can we do that, but we firmly believe that you can do it. We tenaciously survived because we were waiting for that rule!" Tie Li said.

Chen Xiang nodded his head, "One day, I will bring you all back to see the light of day!"

Afterwards, Chen Xiang and Tie Li discussed about creating a Dragon Subduing City near the Evil Dragon Graveyard. Tie Li wasn't happy if he heard this, because they felt bored mining Spar s all day, and didn't even need to go to these Spar s for now, so they couldn't eat that much. Furthermore, some of the buildings that they had planned for so many years could appear in the sunlight.

[Chapter 949](#)

After Chen Xiang left the Evil Dragon Graveyard, he went to find Li Baojun and the others, and brought them outside the Evil Dragon Graveyard.

"Leader, are you sure that nothing will happen if we enter?" Duan Sanchang asked because Chen Xiang wanted to take them to see the Dragon Subduing School inside.

Lan Lan saw the terrifying gigantic black dragon from afar and couldn't help but to shake Yan Yanran's hand. Yan Yanran did the same as well, feeling the terrifying Evil Qi that the black dragon released, and feeling a chill down their spines.

Let alone them, even an expert like Li Baojun was scared witless by the black dragon's eyes, so when they heard that they needed to enter this terrifying place, they were a little nervous. It was not that they did not trust Chen Xiang, but the Evil Dragon Graveyard was too terrifying.

"Don't worry, although I am not able to completely control the power of this Evil Dragon Graveyard, there is no problem at all when I bring you all in safely!" Chen Xiang laughed, and touched Lan Lan's delicate face, which was filled with fear.

Just like that, the four of them followed behind Chen Xiang, fearfully walking towards the Evil Dragon Graveyard. They mustered up their courage and stepped into the black houses, but upon entering, they realized that the dense and black Evil Qi was like a door that opened, revealing a bright path. This made the four of them feel more at ease.

When they walked out of the tunnel, they immediately saw the shocking city walls, two gigantic black dragons were crawling on the ground surrounding a city, two gigantic dragon heads that were over two hundred feet tall were facing them, their mouths were wide open, baring their fangs that were like small hills, four huge eyes that were like blood suns, flickering with an evil red light, it made people's hearts tremble.

The door opened automatically, and Li Baojun and the other three were so shocked that they couldn't speak. They walked forward stiffly, following closely behind Chen Xiang, until they arrived in front of the door.

The door automatically opened, and when Yan Yanran and Lan Lan saw the countless of buildings inside, they covered their mouths at the same time, and exclaimed in shock.

Duan Sanchang shouted loudly!

"This was originally there, or was it built by you recently?" Duan Sanchang felt that it was impossible to ask. How could they build such a city in such a short period of time? Although the city was big, there were many places that were not used for living, such as training, teaching, martial arts competition, etc.

"Hehe, this was just recently built. I was also shocked when I first saw it! This is directly above the dragon vein, and deep below us, is a huge dragon made of Spar. Because there are a few friends below us that do not want to accept too many strangers for the time being, we'll introduce you guys to them next time. " Chen Xiang said.

Duan Sanchang's eyes suddenly became round, and he exclaimed: "Could it be that Iron-Lion Army?"

The Iron-Lion Army? Just thinking about it, Chen Xiang could already guess that Duan Sanchang was talking about Earth's Core Race, and that Ten Heavens Supreme Lord was a lion. That kind of address he had given Earth's Core Race at that time wasn't anything unusual, it was indeed a very domineering name!

"I didn't expect them to have inherited it, and it's still under here!" If it's them, then it's not surprising at all! " Duan Sanchang clearly understood the situation in the Earth's Core Race very well.

Chen Xiang nodded his head, "They have received a curse, they cannot be exposed to the sunlight!"

"Ai!" Duan Sanchang just let out a long sigh, and didn't say anything more.

"What is the Iron-Lion Army?" Lan Lan asked curiously.

"Back then, the army of the Ten Heavens Supreme Lord and the various major cities were turned into an iron strike by the Army of God, and they were the hidden main force of the Ten Heavens Supreme Lord in their campaign against the Nine Heavens and Ten Earth." Duan Sanchang said with a face full of worship. He had heard of these legends since he was young.

Bathing in the sunlight, the central Dragon Subduing School of the Evil Dragon Graveyard appeared even more vigorous and magnificent. It was just that she lacked a bit of life force, there would definitely be something in the future.

"There's only us few elders in such a big place? We'll have to put in a lot of effort to make this place more lively. " As an elder of the Dragon Subduing School, she had to work hard or else she would not be able to follow Chen Xiang's footsteps in the future.

At this time, everyone had such a feeling, which made them make a painful decision. They had to work hard to improve themselves, otherwise, they would not be able to match this Dragon Subduing School Elder's identity!

"I will have them build a city in the vicinity. That will be the Dragon Subduing City, and then we will use the Dragon Subduing City to recruit disciples. This will take a long time, and it's not urgent at all! This place will definitely become the most flourishing place in the Nine Heavens and Ten Hells! " Chen Xiang's voice was filled with confidence.

Walking out of the Evil Dragon Graveyard, Li Baojun and the others saw Chen Xiang controlling some of the black qi to leak out of the Evil Dragon Graveyard, enveloping a large area. The black qi was leaked from the Evil Dragon Graveyard, but it was still terrifying.

"We want to liven up the entire Dragon Subduing City before the Three Realms Talk, and then participate in the Three Realms Talk, and show off our strength! Yanran and Lan Lan, you two must make the best use of your time to raise your strength. If you have time, go and investigate the powers in the Dan Alliance, investigate the factions that are extremely dissatisfied with them, investigate the enemies of the ancient powers, and investigate the important figures of the Feng Clan ... "

"Chang Zi, if it's possible" Contact your great-uncle to see if they have any thoughts of joining us! "

"Elder Li, try your best to recruit as many s as possible. It's fine even if the conditions are higher. I will let the people from Dan Fragrance Pure Land contact you and let them exchange their experiences in managing the medicine industry."

Chen Xiang looked into the distance and continued, "I will make a trip back to the Chen Martial Continent, we have simply too few people!"

After that, everyone went to do their own stuff, while Chen Xiang went to the bottom of the dragon vein to tell them that he had already drawn up the area, giving them the detailed directions. He even made a

path for them in the black mist inside the Evil Dragon Graveyard, telling them to go to the place where he wanted to establish the Dragon Subduing City.

There were many major events that happened in Pill City and most of them were related to Chen Xiang. The matters concerning Dragon Subduing Dan Hall was also the same, but many people did not know about it.

The Dan Alliance once again took control of Pill City's business, controlling the rise in the price of the pills to a steady pace. Furthermore, the price of the pills had generally risen, all for the sake of replenishing the one trillion Spar s. Although Pill City was full of complaints, there was no helping it, the pill shops in Pill City had all united together to raise the price.

It was difficult for the small medicine shop to compete against those large forces for the same high price. However, for the sake of quickly getting back that ten billion yuan, many small medicine stores had to raise the price, and many businesses had to be concentrated in the hands of these large forces.

This was his chance. If the Dragon Subduing City was successfully constructed, he had the confidence to attract many people to the city, and even to the small forces that had joined the Dan Alliance to withdraw from the alliance!

He used the Transmission array of Pill City to come to Super Martial School! Yun Xiaodao and the others were all good seedlings, after joining the Dragon Subduing School, they had the cultivation method of the medicinal pellets that Li Baojun provided them.

The most important thing was that Yun Xiaodao was worthy of his trust. Given his current situation, it would be difficult for him to find anyone that was worthy of his trust, so he had no choice but to take the risk of being scolded by Gu Dongchen and dig his own grave.

Chen Xiang realized that it would not be easy for him to infiltrate the Super Martial School. The protection of the Super Martial School was extremely tight, he had no choice but to change into the appearance of a Super Martial School disciple and use his previous jade tablet to enter.

Now that he had been expelled by the Super Martial School, if he were to appear here, the ancient powers would definitely make things difficult for him. Right now, the Super Martial School was developing very quickly, and had already become a thorn in the eye of the ancient powers.

Chen Xiang made some inquiries in the Super Martial School, and after finding out that Yun Xiaodao and the others were not here, he was brought away by Gu Dongchen!

Ten days ago, Gu Dongchen brought fifty disciples with him. It was unknown where he went, Yun Xiaodao, Zhu Rong and the others were among them.

Chen Xiang released his divine power and probed the experts in the Super Martial School. He needed to find either Wu Kaiming or Huang Jintian as soon as possible.

Most of the Super Martial School's Rankers were inside the Super Martial profound Realm, so it was not easy for Chen Xiang to enter, but he had to go inside, for Wu Kaiming and Huang Jintian were not outside.

He came to a place where there was no one around, took out his Luotian Gate and opened a door. He entered the Super Martial profound Realm through a spatial door and arrived at Wu Kaiming's residence.

Chen Xiang had just appeared in the small courtyard of Wu Kaiming's house, releasing a terrifying aura.

The person who came was really his master, Huang Jintian!

Huang Jintian wore a white robe and had a beard. His pale white hair was combed extremely neatly, and he seemed to be brimming with vitality, giving off the vibe of an expert.

"Master!" Chen Xiang growled, and immediately transformed into his own appearance.

"Ouch!"

Chen Xiang was even hit on the head heavily by Huang Jintian, but Huang Jintian was still smiling as he patted his head, "You little brat, you actually know how to come back and see me!"

Chen Xiang did not come back to look at this madman. Every time he saw Huang Jintian, he would most likely be beaten up.

"I have a lot of conscience to begin with. If I wasn't in such a terrible situation, I would come back to see you!" Chen Xiang laughed.

Huang Jintian brought Chen Xiang into the house and looked at him indifferently, "Kid, what are you thinking about in your heart, I don't know. "Don't even think about lying to me. Why are you looking for me?"

Chen Xiang curled his lips: "I am indeed not here to look for you, you are an old man that doesn't die, what is there to worry about! I am here to look for Yun Xiaodao and the others. "

"I knew it, you are too unfilial!" Huang Jintian purposely got angry and arrived in front of Chen Xiang in a flash, smashing his fist ruthlessly onto Chen Xiang's head, causing Chen Xiang to scream like a pig being butchered.

Chen Xiang had an unhappy look on his face, "Master, you old man kicked me out of Super Martial School and didn't even greet me. I didn't say anything!"

"Hmph, after you were expelled by me, didn't you have quite a good time? "His reputation is even greater than mine." Huang Jintian smiled lightly: "However, having a disciple like you is quite satisfying! You haven't done anything bad in the past few days, so I thought you were dead! "

"The limelight has been stolen by that Dragon Subduing School and Li Baojun, how boring!"

He still did not plan to tell Huang Jintian about the Dragon Subduing School, as he wanted to find a suitable opportunity. Now that he said that he was the Leader of the Dragon Subduing School, it was not enough to scare Huang Jintian to death.

a lad and the little baldy led a team to the east, which is the place where Three Realms Talk is gathered. There is a place called Heaven Thunder Purgatory there, and nearby, there is a Heaven Thunder City. Huang Jintian said.

"Why are they bringing so many disciples there?" Chen Xiang asked in surprise.

"Three Realms Talk! But before that, they have to send all of those disciples into the Heaven Thunder Purgatory!" Huang Jintian looked at Chen Xiang in shock: "Don't you know about the Heaven Thunder Purgatory?"

Of course Chen Xiang knew, that Heaven Thunder Purgatory was still the place his grandfather had pointed to.

"The Three Realms Talk is being held in the Heaven Thunder City. That city was just established!" Huang Jintian took a sip of tea and said: Heaven Thunder Purgatory was originally a very dangerous place to die, but in this period of time, there was a sudden change. In the center of the Heavenly Thunder Whirlpool, there was a large amount of spatial energy fluctuations. However, when we enter, we will need the protection of some experts to avoid being struck by lightning. "

"The Heaven Thunder Purgatory is a lot quieter now. I'm not sure what kind of things are inside, but I do know that it is related to the Ten Heavens Supreme Lord. It should have been created by the Ten Heavens Supreme Lord!"

Chen Xiang frowned. The Heaven Thunder Purgatory was a huge vortex of lightning that floated high up in the sky, covering a large area of the sky. If it was really a place that was built by the Ten Heavens Supreme Lord, then maybe the Celestial Slain Method was hidden inside!

He did not expect to find Celestial Slain Method in the Heaven Thunder Purgatory, because he had yet to grasp the God slain method and it was only around the corner. In order to obtain the Celestial Slain Method, one might need to master God's Kill and Earth's Kill!

"They brought their disciples in to gain experience. It is said that there is another competition. The Demon and Devil Realms went as well as a large group of rogue cultivators. "It would be a pity if you did not attend such a lively event!"

Chen Xiang laughed: "Now that I know, of course I'll go!"

"Then why don't you hurry up, but you have to be careful, there are many people gathering there to join the Three Realms Talk." Huang Jintian warned.

"Master, will Super Martial School participate in that competition?" Chen Xiang asked.

"Of course, I'll have to attend it myself when the time comes!" There are many sects in Chen Martial Continent that can go there, such as Dan Fragrance Pure Land, Lotus Island and the Divine Weapon Sect.

"So that's how it is. No wonder I couldn't find them." Chen Xiang had contacted some of the higher-ups in the Dan Fragrance Pure Land, but Hua Xiangyue was not in the Dan Fragrance Pure Land.

"They? Little brat, you got those two female Leader s?" Huang Jintian laughed and asked.

"Nope!" Chen Xiang waved and turned towards the door.

Huang Jintian saw that he had left just like that, so he immediately rushed forward and kicked his butt fiercely: "If you don't say goodbye to me, then where did your manners go?"

Chen Xiang was kicked flying, smashing a door and a wall, his entire person was covered in dust and dirt. He cursed a few times in his heart, then respectfully said: "Master, disciple will take his leave!"

Seeing Chen Xiang leave through the dimensional door, Huang Jintian muttered: "This guy has a lot of good stuff. No wonder he lives even more carefree than me!"

Chen Xiang hurried back to Pill City to find Li Baojun and the others. He wanted to take Lan Lan and Yan Yanran to visit the Heaven Thunder Purgatory. Of course, for safety's sake, he felt that he should invite God White Tiger out in advance.
