

Dan God 991

[Chapter 991](#)

Chen Xiang arrived in a flash and appeared behind the few panicking elders. The violent and violent Innate Qi turned into a Dragon Power and formed a huge dragon claw, enveloping them in the air. At the same time, a Tai Chi Dragon Formation appeared on the ground, sucking in all the escaping elders.

Bang!

Lightning flashed wildly as the green dragon claw struck down. The few elders were torn apart by the berserk Dragon Power, and a bloody claw print that was a mix of flesh and stone appeared on the ground!

"Chen Xiang, it's you again! I will definitely kill you today!" A violent hurricane blew out from the sturdy city, carrying with it an angry sound.

"Silent Wind, who knows, you might be the one dying today. Haha, come out if you dare!" Chen Xiang laughed.

That voice was the soundless voice of the Feng Clan's Patriarch.

"He doesn't dare, the Heaven Devil King outside are all waiting for him." Duan Chong laughed heartily, then sent a sound transmission to Chen Xiang: "Kill those few Heaven Devil King s, I'll watch over those few brats, there's no need to worry."

"Heaven Devil King is very important to the Sky Demon Army. Killing those few Heaven Devil King might be able to lure the stronger guys out!"

Long Xueyi used the Heaven tour method to enter that city and made a shocking discovery, "Hurry and go, the Purple Moon Imperial Land, Flying Immortal School and the Qian Xuan Gate are inside. There are also many ancient powers and their disciples are quickly coming out from underground.

"What?" Chen Xiang immediately passed down the news to Duan Chong, Yun Xiaodao and the others. If there was only one Feng Clan, then Feng Clan would definitely suffer a great loss today.

Duan Chong did not expect it to turn out like this, and anxiously said: "I will lead the rest of them to retreat, you will deal with the Demonic Beasts faster than me, you block the Heaven Devil King."

"Un, let's go quickly!" Leave this place to me. " With Duan Chong protecting Yun Xiaodao and the others, even if they were ambushed by the Heaven Devil King, they need not worry.

Right now, many Sky Demons had already started their assault on the city. They were frantically reinstalling the large formation of the city, and if they did not know that there were many forces gathering inside, Duan Chong might have even destroyed the large formation of the city.

Long Xueyi eavesdropped on the conversation of the people inside and told Chen Xiang: "They do not plan to come out immediately, their formation can hold out for a period of time, they know that there are a few Heaven Devil King s outside, and they will only go out when you are attacked by them."

Chen Xiang released an invisible divine power, keeping an eye on the Heaven Devil King s, ensuring that Duan Chong and the others could safely leave.

Suddenly, a human bird shaped Heaven Devil King with wings discovered Duan Chong's group. He swooped down towards the sky and Chen Xiang immediately flew over as well, the Holy Devil-suppressing seal's character of "Zhen" floated onto his palm. The Holy seal had become very small, and had fused into his palm, so no one would be able to discover it.

The Heaven Devil King was very tall, about the height of three people, his entire body was covered in black muscles and he had two pairs of powerful black wings on his back. In his hands was a sharp red spear and his eyes shone with a cold green light.

Chen Xiang suddenly appeared in front of the Heaven Devil King, which was something the Heaven Devil King did not expect.

Just by being a little bit slow in resisting, his head had been struck by a palm from Chen Xiang, and on his forehead, there was even a palm sized golden "Zhen" character!

"What is this?" The Heaven Devil King howled in fear, following that, the word "Zhen" on his forehead flickered with a holy and holy golden multicolored light, which instantly spread to his entire body, and this Heaven Devil King's huge body immediately turned into golden powder!

Chen Xiang took a few deep breaths. Although the Holy Devil-suppressing seal had not grown any larger, it had consumed quite a bit of his power, and had absorbed quite a bit of his power. Fortunately he had just broken through and condensed another fifteen Heaven Pellets in his body.

"What kind of move is this?" Defeating a Heaven Devil King with just one palm? " Duan Chong was extremely shocked. He was currently leading Yun Xiaodao and the others to use a concealed method to escape.

In the blink of an eye, they had been killed by Chen Xiang. Not only was this kind of power shocking to Duan Chong, even the remaining three Heaven Devil King s felt that it was unbelievable, their strengths were strong, it had to be known that they had cultivated their soul fragments with strong grudges for many years, and had stood out amongst the countless Sky Demons, becoming their emperor. The human experts also knew what kind of strength they had and they were not afraid of the and the Demon Empress who were previously at their level.

Chen Xiang didn't understand what was going on now, but he admired the Devil-suppressing Heavenly Venerable a lot. He could actually create such a powerful thing, and when the Holy Devil-suppressing seal was used with the Devil-suppressing Golden Body and the Devil-suppressing holy power to fight against the demons, its power was astonishing.

"Let's take a look at the fusion of Holy Devil-suppressing seal and Green dragon demon-slain broadsword!" Long Xueyi suggested.

Just as Chen Xiang thought this, he immediately took out the Green dragon demon-slain broadsword! Both the Green dragon demon-slain broadsword and the Holy Devil-suppressing seal had fused into his body. He could use them however he wanted, and naturally, he could also integrate their powers.

He stared at a Heaven Devil King that was the head of the beastmen army. The Heaven Devil King was staring at him from high up in the sky.

"Eat my knife!" Chen Xiang stood on the ground and poured the power of the Holy Devil-suppressing seal into the Green dragon demon-slain broadsword, and then slashed at Heaven Devil King in the air, the blade releasing a gold light, and at the center of the gold light, one could vaguely see a dragon working hard to draw the word "Zhen", but before the "Zhen" was completely formed, it had already struck the Heaven Devil King!

Although he did not become a character, the Heaven Devil King was left with nothing as a result of the terrifying ray of golden light!

"This guy is too strange, he actually made a move on such a powerful Heaven Devil King!" Duan Chong exclaimed.

"We did not succeed just now! There are two more Heaven Devil King s! " Chen Xiang was very clear that during the slash just now, the Holy Devil-suppressing seal and the Green dragon demon-slain broadsword did not perfectly fuse. Otherwise, the power would have been even greater.

But using it like this, he consumed even more of his Innate Qi, several times faster than using the Holy Devil-suppressing seal alone.

He felt that just "Holy seal Palm" would be enough to deal with all these Heaven Devil King.

The remaining two Heaven Devil King s were the same size as usual, except their skin was purplish black, looking sinister and evil. They held sharp black spears in their hands!

"Let's attack together!" A red haired Heaven Devil King said, holding onto his spear, his body turned into a black shadow as he dashed towards Chen Xiang.

The two Heaven Devil King s suddenly appeared in front of Chen Xiang, using the pikes in their hands to quickly stab Chen Xiang, only to see Chen Xiang's body being pierced by two pikes, causing him to bleed profusely, but losing a bit of blood Qi, this was Chen Xiang's illusion!

Just when the two Heaven Devil King s sensed that something was amiss, Chen Xiang, who was above them, clapped his hand down. A small town appeared in his palm, and released a blinding golden light that made it difficult for people to make out what a word it was. They only felt that it was that intense ball of golden light, releasing that golden light that turned a large portion of the Sky Demons into dust!

With the word "suppress" pressed down, the two Heaven Devil King s instantly died, and forever disappeared!

A loud laughter came from inside the city, "Haha, it was easy for you to kill the Heaven Devil King, but it wasn't so easy for you to deal with us!"

This was the patriarch of the Feng Clan, Feng Xian laughed sinisterly!

[Chapter 992](#)

"Those Heaven Devil King s are dead. Attack from all angles, and try to capture as many fellows who were attracted by the Sky Demons as possible!"

The city gates opened, and a large group of people rushed out, letting out roars filled with energy. It was a magnificent sight.

Duan Chong anxiously said to Chen Xiang: Leave these guys to me, you guys go first!

It was fine to deal with the Demonic Chen Xiang, but he could not deal with the experts of the ancient powers.

Yun Xiaodao and the others were already fighting with the Sky Demons.

"You bunch of hypocritical demons, don't think that no one can restrain you!" Duan Chong fiercely leaped into the air, his palm like a dragon, striking towards an elder who was charging at him. The formless but very powerful force instantly turned the elder into a large piece of flesh.

Duan Chong flashed again, appearing in front of a group of elders who were rushing towards Chen Xiang, one of them stepping on the ground, suddenly there was an extremely strong suction force from the ground, in the blink of an eye, half of the bodies of the elders and the Sky Demons were buried in the soil!

Purgatory's Purgatory, that was a very powerful skill from Duan Chong!

"Hell's Blade, Wild Flower Dance!" Duan Chong opened up both of his arms, his chest suddenly expanded out, his body fiercely shook, a burst of tyrannical power surged out, forming countless condensed energy blades, like a wave, they swept towards the elders and Sky Demons in front of him who were stuck in the ground, unable to move at all.

The countless blades of air formed from energy crazily danced, turning the areas they passed into mincemeat. At that moment, waves of blood mist gushed out, and the Sky Demons and people who were trapped on the ground were unable to move, unable to use their powers!

In just an instant, all the seniors of the ancient powers and a portion of the Sky Demons had been wiped clean, leaving only half of their bodies buried in the ground. That scene could be said to be extremely bloody, and even Chen Xiang felt chills down his spine.

"This old man, such a bloody move, his name is actually so elegant!" When Zhu Rong saw the ground filled with flesh, he immediately vomited. "Thanks to him, I don't want to eat meat anymore for at least a few months!"

The upper echelons of the ancient powers were witnessing this scene, the muscles on their faces twitched frantically. Duan Chong's appearance was beyond their imagination, his strength was so strong, only the Purple Moon could resist, but the Purple Moon had mysteriously died in Chen Xiang's hands.

The Holy Light on Chen Xiang's body shone brightly, the surrounding Sky Demons did not dare to approach him, while Yun Xiaodao and the rest followed beside him. They did not even need to attack, as they could easily walk amongst the Sky Demons.

"Heh heh ..." I'm actually late for such a big event. " An eerie laughter echoed in the world. As the voice sounded, the world seemed to turn colder. The demonic clouds in the sky began to churn even more violently as gusts of wind began to blow across the bloody land.

Chen Xiang did not show any weakness as he fiercely slashed with his blade. A wave of golden light gushed out from the blade and turned into a roaring golden dragon, which appeared and bit onto Ghost Sage, pushing the's hunchbacked body behind. Soon after, the golden dragon turned into an ancient "Zhen" character!

This "Zhen" character was an ancient character and seemed to be formed from a dragon. Although it looked different from the original one, this "Zhen" character was the same as before, natural and full of spirituality.

The Ghost Sage howled and flew out, while Chen Xiang's blade had used up all of its energy, causing the hundreds of thousands of heavenly demons around to be purified by the divine light!

Chen Xiang was already extremely weak, but his Ghost Sage had not been completely defeated. Duan Chong was still restrained by a few experts, unable to go and save him.

"Haha ..." The Ghost Sage's eerie laughter once again sounded out. "Good kid, you're quite strong, but you're still too inexperienced. If I had given you a few hundred more years, I might have finished playing just now. Now you're dead for sure!"

Ghost Sage turned into a blood red shadow, pouncing towards Chen Xiang. Yun Xiaodao, Zhu Rong and the others immediately retreated, wanting to use all their strength to save Chen Xiang!

The sky suddenly shook with a rumbling sound, and a giant black hand with a threatening force slammed down, pressing onto Ghost Sage's body!

"Demon Lord ... "Spare me lightly!" Ghost Sage let out a roar like a pig being butchered, and was immediately destroyed by the huge black hand that descended from the sky.

Chen Xiang was stunned. The Demon Lord's strength was too terrifying!

"It's over, it's the master of the Sky Demon Army. I never thought I'd wake him up!" Duan Chong's voice was filled with despair and fear.

[Chapter 993](#)

- Formidable Ones

Ghost Sage was instantly killed, and the person who made a move was actually the master of the Sky Demon Army! The strength that Chen Xiang was currently facing made him lose any will to resist. This kind of powerful existence caused everyone to sink into a deep state of fear.

"It is said that the Ten Heavens Supreme Lord was injured by the Demon Lord, and the Demon Lord is the master of the entire Heaven Thunder Purgatory. His name is Heaven Thunder Devil Lord and I don't know where he came from, but in short, he suddenly appeared and attracted the Ten Heavens Supreme Lord over here to fight a great battle! I thought that he had died a long time ago, but who would have known that he was still alive! " Duan Chong's voice trembled, his forehead was already covered with perspiration.

"I never thought that I would see the Green dragon demon-slain broadsword again. You should all be descendants of the Slaughter Heavenly Alliance. If these few stay, the rest leave immediately and the

Heaven Thunder Purgatory will become a true purgatory!" Heaven Thunder Devil Lord's deep voice came from the sky.

Slaughter the Heavens Alliance? Furthermore, he had even destroyed Di Tian. Chen Xiang suddenly felt that he was bound by a force and was unable to move. It was the same for Duan Chong, Yun Xiaodao and the rest.

Other than Chen Xiang and the rest of the eight, the rest were also enveloped by a strong force, but that was also to send them out. In that instant, the rest of the people were teleported out of the Heaven Thunder Purgatory, and appeared outside of the Heaven Thunder City!

Those people who had been teleported out didn't understand what was going on. The gigantic lightning whirlpool in the distance suddenly started to spin at a high speed, causing streams of lightning and astral winds to surge over from that direction.

"Chen Xiang is still inside. I need to save him!" Liu Meng'er flew out, followed by Hua Xiangyue, Dongfang Xinyue, Gu Dongchen, Wu Kaiming, and Lian Mingdong all flew towards the gigantic Heavenly Thunder Vortex.

Just as the other powerhouses were gloating, a grey robed elder dressed in plain clothes appeared, releasing a burst of powerful yet very gentle power to block Gu Dongchen and the others.

Seeing that the old man had appeared, many of the old people from various powers could not remain calm, the old man in grey was Huang Jintian!

"Are you guys looking to die?" Huang Jintian bellowed, his face was stern.

"Martial Ancestor, my uncle and those little ghosts are still inside ..."

"Senior, I'm going to save my son!" Lian Yingxiao's face was full of worry.

Huang Jintian said: "Go back, they won't die! I used Heaven extended method to calculate it for them, although the result is very vague ... If you go now, you'll be dead before you get close. "

An old man from the Purple Moon Imperial Land said coldly, "Those are demons that have taken the initiative to attack. Those who were able to fight against the Ten Heavens Supreme Lord back then have no chance of survival!"

"You traitors, don't you know that most of your ancestors were killed by those Demon Lords? You guys are truly a tragic bunch of fellows. Your own ancestors were used by the Demon Master to rebel against the Ten Heavens Supreme Lord, but in the end, they died a miserable death, and you, your descendants, are actually proud of the Demon Lord! " Huang Jintian laughed sinisterly: "But this is also your retribution!"

"Bullsh * t..." The old man from the Purple Moon Imperial Land was speechless. It was obvious that he knew some things as well.

"Hmph, that Heaven Thunder Devil Lord still has 10% of his power back then, you think that he is a pushover? When I fought alone against the ten great demon lords and killed nine of them, there was still one left who was half dead. Moreover, that fellow used the ancestors of your traitors to block the Ten Heavens Supreme Lord's attack to survive until now, what do you have to be proud of? " Huang Jintian

had revealed astonishing inside information, which was something that many powers wanted to know about.

There were many reasons why that piece of history was covered up. Even the ancient powers of that era were not aware of it.

Those people did not speak, they were worried that they would enrage Huang Jintian, and when Huang Jintian took out some iron evidence and made it known to the world, their reputation would not be good, at least in the eyes of many people, it would be very lowly.

Huang Jintian's origin was also very mysterious. He knew so many secrets, his strength was deeply hidden, and he also knew about the heaven defying Heaven extended method.

Gu Dongchen and the others were still a little worried for Chen Xiang, because what Huang Jintian had said just now was just a blurry reflection of what was going on inside!

Heaven Thunder Purgatory and Heaven Thunder Devil Lord are closely intertwined, and Heaven Thunder Devil Lord will not consume his own energy to deal with Chen Xiang and the others. He will only open the Heaven Thunder Purgatory, and with their abilities, it will not be difficult for them to preserve their lives! Huang Jintian looked at Hua Xiangyue and the others, and said: "You all should calm down. Chen Xiang is no longer a child, and even I am unable to accomplish some of the things that he had done. His strength is far more terrifying than you all imagine."

Huang Jintian suddenly looked at the sarcastic and mocking man from the Purple Moon Imperial Land, rolled up his sleeves and shouted: "What are you looking at? Do you want to fight? I was just worrying that no one was training my hands. "

"Feng Clan, you lured a group of Sky Demons into my Peach Blossom Imperial Land's territory, and wanted to use this opportunity to kill us. I will let this debt go to you, disciples of Peach Blossom Imperial Land, no matter the cost, you have to make my Feng Clan pay!" Seeing that the peerless beauty was angered, everyone secretly started to worry for the Feng Clan.

"My Demon Charming Association has already allied with the Peach Blossom Imperial Land. We will definitely help Madam Peach Blossom!" The Demon Empress walked in midair. Her figure was graceful and her voice was light, her words made the faces of the people from the Feng Clan all the more unsightly.

"My Super Martial School is also allied with the Peach Blossom Imperial Land. I believe that from now on, Madam Peach Blossom will definitely help us in this way. For the matter of suppressing the Feng Clan today, my Super Martial School will join!" Gu Dongchen's voice was loud and clear, allowing everyone to hear it. Then, and everyone else moved in a flash to surround Feng Clan.

Hua Xiangyue, Liu Meng'er and Dongfang Xinyue all knew of the hatred between Feng Clan and Chen Xiang, and right now, they only wanted to do a few more things for Chen Xiang.

"Dan Fragrance Pure Land has joined!" Hua Xiangyue said. As her purple skirt fluttered in the wind, a layer of purple flames surged, surrounding her body. One look was enough to tell that this was a person possessing a purple Fire Soul.

"Divine Weapons Heavenly Country has joined!" Liu Meng'er took out her Jade Dragon's Kiss. The White Jade Dragon Bone Spear had released the famous Ice Wind Cold Energy of the Three Realms. This beauty's strength also made some strong warriors feel a lot of pressure.

Although Dongfang Xinyue did not agree to join, but if they were to fight, she would definitely cooperate with Liu Meng'er. Soon after, some of the powers in the Chen Martial Continent expressed their agreement to ally with the Peach Blossom Imperial Land.

In the Heaven Thunder Purgatory, a portion of their experts had been turned into minced meat by Duan Chong's Flower. They had suffered heavy losses and were on par with Peach Blossom Imperial Land, but right now, the Peach Blossom Imperial Land had many powers helping them, especially the Demon Empress!

Feng Clan had already been completely surrounded. What made Feng Clan angry was that the Purple Moon Imperial Land, Flying Immortal School, Qian Xuan Sect and other ancient powers that were hiding in the city with them had all hidden away into the distance.

The powers of Devil Realm and Demon Realm were also watching the show from the side. The Three Realms Talk was only a few months away from the start, they never thought that the Feng Clan would face such a situation, but they knew that it was caused by the Feng Clan.

"Kill!" The beautiful Yao Shumei shouted out a word filled with killing intent, only to see Wu Kaiming, Gu Dongchen, Huang Jintian and the rest of them taking action together, heading straight for their target!

At that moment, the screams of the people from the Feng Clan were filled with hatred as they thought back to the time in the sky ...

[Chapter 994](#)

The upper echelons of the Feng Clan that noiseless Wind had led over was killed in unison. Their strength was considered top-notch in the Human Realm, but they were helpless to face the encirclement of multiple powerhouses. With the help of experts like the Demon Empress and Huang Jintian, they did not even have the chance to escape!

The Feng Clan would not disappear because of this, because the higher ups would still send people to maintain the Heaven Realm. This area was being reorganized by Di Tian, no matter what, the Feng Clan could not afford to lose their power here!

This was because no one could stop Di Tian from being reborn. Not long later, this sky would once again dominate the Nine Heavens. This was also why many ancient powers did not care about the price and allowed a large number of strong warriors to descend to help consolidate their power!

This kind of big event quickly spread to all three regions of the Human Demon Realm, and it was considered very shocking news. It was rare for many powers to join hands to annihilate a high ranking expert from an ancient and powerful force, but what was funny was, Purple Moon Imperial Land and the rest of them actually abandoned the Feng Clan at the most crucial moment!

The Peach Blossom Imperial Land was only trying to seek revenge on the Feng Clan, so the other forces naturally did not want to get involved. After all, with the Demon Empress and the many powerhouses of

the Chen Martial Continent intervening, as well as the mysterious and old lunatics like Huang Jintian, if they were to help the Feng Clan, they would suffer greatly!

What made people happy was that one of the big shots of the Demon Realm, the Demon Charming Association, had actually allied with the Human Realm, which was what many people hoped to appear after the Three Realms Talk, because that represented peace. However, many people knew that there was no true peace, let alone this Di Tian, who had experienced many legends before.

Of course, the fact that Chen Xiang and his group of good friends were trapped inside the Heaven Thunder Purgatory was a huge matter, and Chen Xiang had even killed the Saint Child of Zi Yue, the Purple Moon. This was also a very explosive huge matter, and there were even rumors that Chen Xiang was trapped inside the Ten Heavenly Sacred Mountain.

Chen Xiang's actions in the Heaven Thunder Purgatory were all done to help the itinerant cultivators, and at the moment, everyone was hating the forces that tricked and enslaved the rogue cultivators, and unknowingly, many of the rogue cultivators were allied with them, and were dealing with the "evil sect" like the Purple Moon Imperial Land in secret!

The entire Sky Demon Army had disappeared, and here, the sky was filled with blood clouds, lightning flashed and thunder rumbled. Occasionally, a large boulder would be smashed down, and the ground would become extremely hot, with every step he took, he would be struck by intense lightning.

Fortunately Yun Xiaodao and the others had cultivated in the Thunder Pond before, otherwise, they would have long been lying on the ground.

"This Heaven Thunder Devil Lord was injured back then. Is he still not fully recovered?" Duan Chong said softly. The illusions in the Heaven Thunder Purgatory were very bad, but it did not affect him much.

"So he's a half-assed guy?" Xiao Chou said.

Chen Xiang had tried to use the Luotian Gate before, but it had no effect and he had almost broken the Luotian Gate.

"The only way to get out is to kill this Demon Lord!" Chen Xiang looked at the sky and clenched his fists. The Demon Lord's strength was terrifying, even with Holy Devil-suppressing seals, it was difficult for him to fight against him.

The demon's deep voice sounded, "You won't be able to leave this life, I am indeed injured, but if I want to kill you enough, I won't let you slowly die. I will slowly torture you to death, haha ..."

"What is this?" Xu Weilong saw that his body suddenly flashed with red light and anxiously shouted.

"I also have it on me!" Teng Ying's expression changed, "It's a very strong power of lightning and fire, ah ..."

Teng Ying roared out, transforming into the body of the Kylin thunder eagle, his body was wrapped in blood mist, his gigantic body rolled around on the ground, releasing wave after wave of roars.

"Teng Ying!" Chen Xiang shouted and was about to rush over, but the blood mist lifted up the Kylin thunder eagle's body and disappeared in a flash.

"Chen Xiang..." Xv Weilong screamed in shock, and was immediately carried away by the blood mist.

At this moment, every one of them was covered in a bloody mist. They could feel a powerful thunder and fire energy drilling into their bodies, causing them to feel pain.

"Looks like we have to separate. Take care, everyone. We must survive!" After Duan Chong finished speaking, he was also carried away by the blood mist. Even someone at his level had no way to fight against the Heaven Thunder Devil Lord.

After that, Yun Xiaodao, Zhu Rong and the rest were all brought away by the blood mist. Only Chen Xiang was still standing at his original position, but the blood mist released a violent thunder and fire energy that drilled into his body, wanting to destroy his body. However, the Demon Lord had obviously underestimated Chen Xiang's resistance.

Chen Xiang's entire body was ignited with black devil fire, his entire body was surrounded by purplish black lightning bolts, in order to resist the devil fire and devil lightning, he unreservedly used the Devil-suppressing holy power, expelling this kind of evil energy that could cause pain to him and invade his body!

Chen Xiang was merely an ant in front of him, and only six hours had passed before all the energy in his body was used up.

Seeing that there were cracks on Chen Xiang's body and all sorts of turbid and evil energies pouring into his body, the Demon Lord immediately laughed out loud. "Enjoy it, I won't let you die in a short period of time!"

Duan Chong, Yun Xiaodao and the others were all spread out. Like Chen Xiang, they were being ravaged by the Demon Master's evil energy, making them feel so much pain that they wished they were dead.

Accompanied by Chen Xiang and the others' cries of madness, a pit filled with black lava appeared under their feet once more. They were sucked in by a force, their scarred bodies submerged in the black lava.

"Heaven Thunder Devil Lord, I must kill you!" Chen Xiang roared, they were being tortured inside by the Heaven Thunder Devil Lord, as if they were suffering from the punishment of hell.

In the blink of an eye, there were only two months left to the Three Realms Talk. Chen Xiang did not remember how long he had been soaking in the black lava, but he already did not feel any pain, and he still had unexpected gains. Because he had the energy to quickly recover from his injuries, repeating this kind of torture was equivalent to helping him refine his body!

He didn't know why the Demon Lord would put them together to torture. However, the Demon Lord rarely spoke these days. He didn't know who did all of this.

Chen Xiang, Yun Xiaodao and the others were finally together again. Duan Chong and the others weren't dead yet! Especially Yun Xiaodao and the others, they had experienced such a cruel torture and had become more steady and steady. However, when they saw Chen Xiang, they were still the same as before.

To Chen Xiang and Duan Chong, this kind of tormenting pain wasn't really anything. They had experienced it before.

"I suspect that the Heaven Thunder Devil Lord is running out of power. Maybe something is drawing his power out and he doesn't have time to watch us being tortured!" Duan Chong guessed that at this moment, they were all being suppressed by a force and their bodies were being immersed in the black lava.

[Chapter 995](#)

Chen Xiang knew that Duan Chong had a deep understanding of the lost history, and anxiously asked: "Elder Duan, how much do you know about this Heaven Thunder Purgatory?"

"I don't know much, this is the control area of the Heavenly Thunder Demon Clan, Heaven Thunder Devil Lord was considered the strongest amongst the ten great demon lords back then, so he invited the other nine Demon Masters to ambush here. In the end, the other nine Demon Masters died, and only Heaven Thunder Devil Lord survived. What Duan Chong said that he knew was about the same as what Huang Jintian had said before.

What Duan Chong knew was the same as what Duan Chong had known. After hearing everything, Yun Xiaodao and the others clapped their hands and cheered because the ancient powers that had helped the Heaven Thunder Devil Lord back then were actually used as shields by the Heaven Thunder Devil Lord in the end.

"So you're saying, these devils have a plan to massacre the heavens? Didn't they establish the Slaughter Heavens Alliance? In the end, they really did succeed." Chen Xiang sighed. Not only did he kill the Heavenly Emperor, he also destroyed the Tenth Heaven.

Duan Chong shook his head: "I'm not too sure about this, Di Tian isn't so easily exterminated. Also, after Ten Heavens Supreme Lord is heavily injured, it doesn't mean that he's at his beck and call, he still has the power to build a Emperor's Tomb for himself. As for how Di Tian broke down, by whom? What other major event happened during that period of time? This is the answer that our Duan Clan has been looking for."

Chen Xiang looked around at the surrounding mountains. Originally, it was a lush green, but now it had withered and died. The spirit energy here was no longer as dense as it was before. The feeling he got was that the Heaven Thunder Purgatory's power was gradually weakening.

"I feel that there is a connection between Heaven Thunder Purgatory and himself, and that Heaven Thunder Devil Lord must have been in deep sleep to recover from his injuries, but he was awakened by us. He used a lot of energy to torture us in his anger, but who knew that it would cause him to consume a lot of energy. Chen Xiang's conjecture also received Long Xueyi's approval. Both her and Chen Xiang's perception were very sharp, and they could clearly feel that the Heaven Thunder Purgatory's strength was declining.

"What do you mean we have a chance to get out?" These past few days, it had been a nightmare for him, but it had indeed made him stronger. It was all thanks to the mental cultivation methods that Duan Chong had taught them previously that he was able to use pain to cultivate when he was being tortured.

Chen Xiang nodded his head, "But it will take a long time, and we also have to increase our power. When necessary, we have to go up against Heaven Thunder Devil Lord!"

Duan Chong saw that Chen Xiang's eyes were shining with wisdom and asked anxiously: "Does that mean you have a plan?"

Now that they had all been forced to soak in the black lava, although it was not enough for them to let out wails, the pain still made them uncomfortable. They did not have enough strength to escape this black lava pool.

"Of course there is. We will start to raise our strength now and weaken the Heaven Thunder Devil Lord's power at the same time. This guy is probably asleep, when the time comes, we will definitely be able to break out of here!" Chen Xiang was full of confidence, and if necessary: "We still have to face Nirvana Doom! This place is very strange, it isn't like the profound Realm where Nirvana Doom can be avoided. If we are together right now, if anyone tried to break through, they would definitely affect us! "

When they thought about Nirvana Doom, the faces of Yun Xiaodao and the others turned green, especially when they were with this kind of monster like Chen Xiang. They knew that Chen Xiang's cultivation was slightly higher than theirs, and furthermore, was itself so heaven opposing, so his Nirvana Doom must be scary.

"What are you afraid of? Weren't you afraid of him?" Chen Xiang was very optimistic.

Xiao Chou smiled bitterly with a bitter green face: "Master, you are an Alchemist, and yet you have changed so much ... Abnormal, our Nirvana Doom is definitely not weak, with Elder Duan's strength being so strong, he would only be able to attract stronger Nirvana Doom.

"Don't worry, I was able to pass through it. Didn't you say so already?" I am the Alchemist, and I have enough pills to help you all recover from your injuries. Chen Xiang did not take this to heart at all. Instead, he hoped that the Nirvana Doom would be stronger so that they could use it to increase their strength.

"Then hurry up and give us some cultivation enhancing pellets, such as Five Elements Profound Dan s, or even two or three hundred of them." Zhu Rong anxiously said.

"Two or three hundred Heaven level Pills? You think it's soy! I don't have a single Heaven level Pill. " Chen Xiang looked at him with disdain. Of course he had it, he just didn't want to be targeted by the little fatty.

"Chen Xiang, are you not far from Three Realms Talk yet? With your personality, you have to participate in the Three Realms Talk, and that's the reason why you brought him out, right? " Lian Mingdong laughed.

"Damn scholar, are you thinking about my high level pills?" Chen Xiang also laughed.

"Chen Xiang, didn't you say you wanted us to quickly raise our strength? Take it out now, I haven't eaten a Heaven level Pill before! " Teng Ying said.

Chen Xiang looked at Teng Ying as he silently cursed Long Xueyi in his heart. White Dragons and Kylin thunder eagle were both part of the Primordial Beast, and both of them had the habit of being greedy for food!

Zhu Rong, Yun Xiaodao, Xv Weilong, Xiao Chou and Lian Mingdong all looked at Chen Xiang with shining eyes, hoping that he would take out a basket of Heaven level Pills and eat it like eating beans, in order to increase their strength.

"Don't worry, I can help you all increase your strength faster even if you don't need to eat the Heaven level Pills. But you all need to eat something else." The corner of Chen Xiang's mouth rose slightly as he smiled sinisterly.

Zhu Rong swallowed his saliva when he saw Chen Xiang's crafty expression. "Chen Xiang, my appetite has just started to rise, please don't ruin it. What kind of crazy dancing was Elder Duan doing previously that made me want to vomit when I saw your meat!"

"Little fatty, I'll show you something even more amazing if I get the chance!" Duan Chong laughed, which made Zhu Rong and the others feel nauseous. There was actually something even more powerful!

Chen Xiang looked at a mountain not far away. At this time, Duan Chong had already guessed what kind of mountain he was going to give Zhu Rong and the others.

"Just use that move. Although it is not a good thing to cultivate, it is still edible. Furthermore, the effect is at least the same as a Superior Grade Ground level Pellet, or even close to a Heaven level Pellet." Duan Chong laughed.

Chen Xiang released a vast amount of divine power that enveloped the mountain. The powerful divine power gathered together, revealing a golden multicolored light that turned into a gigantic pill furnace that could fit inside a mountain!

Seeing the half transparent golden pill furnace putting in a mountain, although Zhu Rong and the others were shocked, but they immediately understood what Chen Xiang wanted to give them to eat!

He actually wanted to give them rocks and mud!

Chen Xiang wanted to use the Heavenly Alchemy to refine the mountains and earth here into pills that contained pure energy. Not only for Zhu Rong and the others, he wanted to eat them too!

[Chapter 996](#)

The beautiful scenery of the Heaven Thunder Purgatory was completely destroyed, the green mountains were completely barren, but the mountains still contained dense spirit energy. If it was as Chen Xiang had speculated, the Heaven Thunder Purgatory was connected to the Heaven Thunder Devil Lord, as long as the energy was consumed, it would be equivalent to consuming the Demon Lord's energy. However, the Heaven Thunder Purgatory was crazily absorbing the energy from the outside world, as the sky was filled with an endless amount of energy, the Heaven Thunder Purgatory could absorb at a very fast speed, and it wouldn't take long for the energy to make up for the fact that the Heaven Thunder Purgatory was in Di Tian.

"Looks like I have to speed up the process of refining more pills!" Chen Xiang's eyes shone as he looked at the gigantic mountain that was wrapped in the Magic method furnace. The mountain had already been refined by him, but there wasn't much spirit energy inside, and the pills that were refined, weren't high in quality either!

Seeing Chen Xiang use such a huge Magic method furnace to refine the high mountain, Yun Xiaodao and the others exclaimed in their hearts. If Chen Xiang used this method frequently to refine pills, he wouldn't need any materials at all!

After Chen Xiang refined a mountain, he felt that it was not enough. A Magic method furnace that was controlled to teleport to a nearby mountain shrouded it and then incinerated it into pure energy, fusing it with the energy that was refined into a mountain from before.

"Elder Brother Shen, how did you send the flame over?" Yun Xiaodao felt that it was extremely mysterious. Beside Chen Xiang, he did not feel the temperature rising at all, but rather, the Magic method furnace in the distance burned with an extremely exuberant flame that could burn a tall mountain!

Chen Xiang was not using his own fire now, he was only refining it roughly, and from a distance, he could use his own fire, but it would consume a lot of energy. Using the power of god to control the fire was very simple, but according to the method in the Heavenly Alchemy, he could extract the fire attribute spirit energy from it, turning it into a pure flame, and injecting it into the Magic method furnace.

The reason why God slain method was placed together with the Heavenly Alchemy was because the consciousness requirement of the Heavenly Alchemy was very high, and the God slain method was something that allowed a person to cultivate a divine soul!

According to Duan Chong, the Heavenly Alchemy was much more powerful than the Heaven Earth Killing Method, and the God slain method could only be considered a basic technique of the Heavenly Alchemy.

Before, Duan Chong had warned Chen Xiang that he should not use the Heavenly Alchemy in front of others, but it was absolutely necessary now. Otherwise, Chen Xiang would never use this heaven opposing divine art in the Demon Lord's territory.

The Magic method furnace was tens of thousands of meters tall, and looked like a semi-transparent golden crystal. It stood tall on the ground, looking down from the sky above its head. It was grand and shocking! The lowest level of Magic method furnace was burning with raging fire, and in the middle was a mountain that had been burnt and refined. Under Chen Xiang's refinement, the originally several thousand meters tall mountain turned into pure energy, and all of the impurities were smacked out, leaving behind the best!

On the top level of the Magic method furnace, there was a mist that could be used to condense pellets. However, Chen Xiang felt that it was not sufficient to condense a high quality pellet, so he temporarily stored it there.

It was fortunate that he had devoured a Heaven Devil King with a powerful divine sense previously, allowing his soul to step into the superb realm. Otherwise, it would have been difficult for him to do all of this now!

In just six hours, he had refined over a hundred mountains, and the energy contained in these mountains was much more than he had expected.

It was the first time he used the Heavenly Alchemy to refine a huge mountain into a pill, but it was not difficult for him at all. It only required him to release a large amount of divine power, which was a little easier than when he was refining a Unreal ghost eagle.

The reason he was able to refine one Unreal ghost eagle after another so smoothly was because of the experience he had accumulated while refining Unreal ghost eagle.

"Elder Brother Shen, how are you? A hundred mountains." Yun Xiaodao and the others had been immersed in the black lava pool for a period of time, and were already used to the kind of torture. Although it was not painful to the point of crying like ghosts and howling like wolves, it was very boring and boring.

"It's still early, do you all think these mountains are treasures? Without much spiritual energy, the quality of the pills refined would not be high!" Chen Xiang said: "If you want to use this method to refine high quality pills, then you need to compress the energy at a high level and refine it repeatedly! Just like forging iron, you have to fold and hammer a very big piece of iron to remove the impurities, and at the same time compress the essences to create the best quality iron. This is also the principle of refining pills!"

"For example, while you guys are cultivating, you will need to repeatedly compress the Innate Qi to allow the quality to increase. Then, you can use these high quality Innate Qi to open up your dantian and turn it into a good container, able to hold even more powerful Innate Qi."

Zhu Rong said: "If this goes on, it won't be long before all the surrounding mountains are gone. When that time comes, what are you going to cultivate for?"

Chen Xiang laughed: "When the time comes, you will know. I estimate that only pills refined from at least ten thousand mountains would be of great use. They should be considered low grade Heaven level pills!"

A low grade Heaven level pill! Chen Xiang being able to refine a low grade Heaven level pill at the moment made Zhu Rong and the others extremely shocked. This was equivalent to the strength of the Dan King, they were very clear about the progress Chen Xiang had made on the road of pill refining, it was simply too fast!

Seeing their expressions, Chen Xiang shook his head and laughed: "If I used a normal method to refine a normal pill, at most, I would be able to refine a middle Ground level. I am still a distance away from high grade Ground level! "The pills I am refining now are not normal pills!"

For example, the super Iron bone Dan that he refined was not a normal method of refinement, but it could be considered to be a low-grade Heaven level pill.

Duan Chong secretly gasped in surprise at the side. According to Chen Xiang's current alchemy standards, he would be a great pill refiner and would soon become a Pill Sect. He would be a powerful warrior by himself, but at the same time, he would be a Alchemist of this level.

"Ten thousand mountains" There are at most a thousand seats around here! " Even if Xiao Chou cracked his brain, he wouldn't be able to think of a way to solve this problem, and everyone else would be the same.

After half a day, the sky turned dark red, and it was already close to night. The stars were covered by red halos, and the place where Chen Xiang and the others were at, the surrounding mountains were all gone.

"Two thousand three hundred and twenty-one! No more, I can't see any more mountains in the distance!" Yun Xiaodao said.

Chen Xiang was refining the mountain at a faster and faster rate. The Magic method furnace was compressing more and more energy, and now he was continuously using his divine power to use the Heavenly Alchemy.

"All of you, open your eyes wide and look!" Chen Xiang smiled, releasing a large amount of divine power, then let out a low roar, only to see a large expanse of golden mist suddenly appearing on the bare ground, enveloping everything, as though it had covered the entire Heaven Thunder Purgatory.

When the pale golden mist dispersed, the surroundings were suddenly filled with dense tall mountains, causing Duan Chong and the others to be tongue-tied!

[Chapter 997](#)

Chen Xiang's forehead was perspiring profusely. In order to get more mountains, he had long ago told Long Xueyi to use the Heaven tour method to look for them. Just now, he had placed his divine power far away and used Form Displacement Shadow to move a large mountain over.

"As long as I can refine this furnace, I will be able to rest for a while. This furnace should be able to refine many grains!" Chen Xiang said, he had to persevere on, if he could not do it, he would have to borrow Long Xueyi's divine power. 13800100.

"So, 10,000 mountains were refined into a few. I thought I would only refine one!" Teng Ying said.

"Of course not, I now plan to refine 30,000 mountains in one go. This might be my current limit, which would take me around ten days. If I were to compress a large amount of energy at a high level, the quality would be even higher, and at that time, I would be able to get more of them." Chen Xiang thought about the huge project that he was about to face, and couldn't help but sigh.

"If that's not the case, Heaven Thunder Purgatory will wake up very quickly since he can't consume any of his energy. He should be recuperating from his injuries right now." Chen Xiang now began to discuss with Long Xueyi. They planned to borrow Long Xueyi's power and get to the point in one move!

Chen Xiang consumed a few pellets that could replenish his spirit energy, but he did not recover much because his Divine Sense Sea was extremely huge, and his spirit energy was of a much higher quality than his spirit sense. The pellets on his body that could recover spirit energy could not satisfy him at all.

"Little Naughty Dragon, lend your God Power to me, I want to release three Magic method furnace and speed up the refinement process. I am worried that the Heaven Thunder Devil Lord will wake up during this period, and only by continuously exhausting the Heaven Thunder Purgatory's energy will he be able to slow down his recovery." Now, Chen Xiang was even more certain that there was a very important connection between the Heaven Thunder Purgatory and himself.

"Mn, I'll help you find the Sparite vein as well. Refining a large number of Spar is the fastest and best." Long Xueyi said.

Chen Xiang's body suddenly released a white light, he immediately felt Long Xueyi's Divine Sense Sea, the divine power there was white, the divine power was stronger than his, the Divine Sense Sea was stronger than his, this made him very surprised, he could use Long Xueyi's divine power anytime!

It was extremely easy for him to borrow Long Xueyi's power. According to common sense, this should be very difficult to do, but he had asked Long Xueyi, but Long Xueyi had only said that she had signed some sort of contract with him before, and had even possessed his body for many years before being able to do it.

Yun Xiaodao and the others were currently counting the number of mountains that the Magic method furnace had swallowed. Suddenly, two gigantic mountains were enveloped in white light, and another two gigantic Magic method furnaces appeared.

Simultaneously performing three refinements! This caused Duan Chong to be extremely shocked. According to his knowledge, the requirement to be able to achieve this step was very high, he originally thought that Chen Xiang wouldn't be able to handle it, but who knew that the God Power was actually stronger and thicker than before, as if he had suddenly swallowed an elixir.

"Before, I was only familiar with this divine technique, but now, I am more or less done. However, I am still far from the level of Ten Heavens Supreme Lord! My guess is that the Ten Heavens Supreme Lord can engrave different Spirit grains onto each one, making the quality of these 'medicinal ingredients' higher. When refining, they use even more powerful refining methods, which will be faster, more effective, and can even refine more!" Chen Xiang said, the Heavenly Alchemy that he was now in control was only skin deep, if he could study more, with stronger god power, refining tens of thousands of mountains would just be a piece of cake.

It had been ten days already, and Chen Xiang had already used Shadow Shift many times, teleporting to even more gigantic mountains. Fortunately, Long Xueyi's divine strength was very profound, allowing him to endure until now.

At this moment, the Magic method furnace had already shrunk. It was at the side of the black lava pool, about the same size as a normal pill furnace, with a seemingly blazing golden fog inside. The glow it emitted made it feel like several suns had fused together!

This ball of light was formed from Chen Xiang's several tens of thousands of mountains that were condensed and refined by the mysterious method. During the process, he had also absorbed a large amount of spirit energy and was being refined by Chen Xiang using his Heaven fire.

"Elder Duan, do you want it?" Chen Xiang asked.

"No need, just eat it. It's useless for me to eat a pill of this grade right now." Duan Chong shook his head.

Chen Xiang split the ball of gold mist that was emitting a blinding multicolored light into six balls. These six balls were given to Yun Xiaodao and the others, and contained a lot of energy, which was enough for them to refine for a very long time.

"Elder Brother Shen, are you not going to eat them?" Yun Xiaodao watched as the golden pellet slowly took shape. These six pellets were obviously for them.

Chen Xiang said: "Eat, but now is not the time, I need to speed up and let the Heaven Thunder Purgatory's power be consumed, otherwise when the Demon Lord wakes up, we won't have another chance."

Six golden pellets had already been formed, and were of extremely high quality. After leaving the Magic method furnace, they shot out streaks of golden rainbow, their auras were extremely heavy!

"Hurry up and eat it, hurry up and refine it. After your strength increases, we can try again, and see if we can break the seal set up for us by the Heaven Thunder Devil Lord." Chen Xiang said: "Right now, the sealing power is a little weaker!"

It was precisely because of this that Chen Xiang believed that as long as the energy inside the Heaven Thunder Purgatory was refined away, the power of the Heaven Thunder Devil Lord would be weakened.

Yun Xiaodao and the others quickly ate it, their body was covered by a layer of golden mist, and at the same time, they were soaking in the black lava pool, receiving the purification of the lightning fire. At the same time, they were also being pressured by the huge pressure of the sealed power, which could more easily help them digest the pill.

Chen Xiang named this pill the "Ten Thousand Moons Pill", and could only be used when it was used for large-scale destruction. If it was used outside, it would only cause a large number of mountains to disappear, which was not a good thing at all.

"Chen Xiang, what about you?" Duan Chong saw that Yun Xiaodao and the rest were already training and asked.

"I need to recover my energy first. I can already feel the Sparite vein in the distance, the spirit energy in the mine is disappearing fast, Heaven Thunder Devil Lord is probably absorbing this spirit energy to recover." Chen Xiang said.

"You refined a Sparite vein?" Duan Chong asked in shock.

"Hehe, we'll talk about it after I get some rest. I'm going to absorb the spiritual energy from the mine to recover right now!" Chen Xiang smiled mysteriously, and suddenly a white mist that was emitting white light appeared in the sky, looking extremely conspicuous in the dark red sky!

This white miasma was like a column of water that gushed over from a certain direction, shuttling over from afar before landing on Chen Xiang's head.

This was an extremely pure Qi that Long Xueyi had used her dragon clan's secret technique, "Dragon's Absorbing Water", and was able to at the same time replenish her energy consumption.

[Chapter 998](#)

Long Xueyi could absorb a large amount of spirit energy from the Sparite vein in the distance, but it was not a lot, and was unable to keep up with his speed of refinement.

Yun Xiaodao and the others were all in a state of cultivation. The environment they were in was extremely harsh, but it did not affect them.

Although Chen Xiang had mastered many high level spirit herbs, he did not have the ability to refine any of them. If he were to burn them in the furnace, it would be a waste of spirit herbs! The spirit energy contained within high grade spirit medicines was extremely peculiar and irritable. The higher the quality, the harder it was to tame and the harder it was to fuse with the other irritable Medicine aura.

His current God Power had already reached the stage where he could control low-grade Heaven level medicinal ingredients, but he was still unable to master the alchemy skills to that stage, unless he could master the fourth stage of Foreseeing Alchemy, which would allow him to refine high-grade Ground level pills.

Chen Xiang absorbed a large amount of spiritual energy and used Nine-turn dragon god mantra to refine the spiritual energy into divine power to fill the Divine Sense Sea.

Three days had passed and he was in high spirits, but Long Xueyi had only used one day to recover, she only needed to eat some Spirit Fruits to recover quickly, in this point Chen Xiang could not compare to her.

"Is it time to start training the mountain again?" Duan Chong joked, he was no longer surprised, because he was already numb to it.

"Of course not, I'm tired of refining. Now I want to refine the land!" After consuming so much energy, Chen Xiang felt his Divine Soul Realm increase a little. Even though it was extremely small, this kind of obvious improvement could be said to be extremely huge.

He cultivated the divine way was not as fast as the Emperor Dragon, so it was very difficult to raise his current realm. Unless he went to devour the divine souls that had cultivated the divine way for a period of time, or search for higher level Spirit Refinement Pills, he would need to work hard to improve. In this regard, he was not too worried, because he felt that if he could comprehend the God slain method further, he might be able to progress by leaps and bounds.

"Refinement?" Although Duan Chong did not know how to refine it, he still took a light breath as he knew that he could broaden his horizons very soon.

Chen Xiang released his divine power and only saw a gigantic golden white light Magic method furnace appearing a hundred meters in front of him. This Magic method furnace was still as huge as the mountains, but this time, it was alternating between gold and white light. It was translucent and could be seen inside the pill furnace.

This time, he would still borrow Long Xueyi's power. This would make his divine power even stronger.

"Come here!" Chen Xiang controlled the Magic method furnace to envelop them within the black lava pool. The Magic method furnace's three kicks were not able to pressure them at all. Furthermore, the power released by the Heaven Thunder Devil Lord was still suppressing them, preventing them from leaving the lava pool.

"Earth Swallowing Art!" The God Power inside Chen Xiang's Divine Sense Sea suddenly rushed out, the pale golden God Power turned into mist, and like ripples in the water, it started to surge out in all directions.

Duan Chong saw that although the ripples on the surface of the golden fog were spreading outwards, they were shrinking!

Duan Chong could see many pits on the ground that were quickly moving over from the distance. Now, he understood the reason behind the Earth Swallowing Art!

The ground was engulfed by the mysterious golden mist released by Chen Xiang, and then it flowed into the Magic method furnaces. After going through the refinement method of the Heavenly Alchemy, it could refine a pill, and the energy that it absorbed was many times better than before.

If that was the case, then Chen Xiang did not need to move the mountains from afar, as long as he was the center and swallowed the earth, the mountains in all directions would quickly move over, at that time, not only the mountains, but also the large number of Sparite vein, Chen Xiang's move would be too terrifying!

This Earth Swallowing Art was one of the methods in the Ground killing, similar to the Shrinking step, but it required a strong power and divine power that combined together to form a strange power that could instantly melt the earth!

The Innate Qi in his body had already reached the standard, but his divine power was insufficient. If not for Long Xueyi's divine power fusing with him, he would not be able to use this move!

This was also because after he and Long Xueyi's divine power fused for a few days, they could perfectly get along with each other, allowing him to completely control this powerful divine power. Right now, he could do it, but it was extremely difficult.

Using the Earth Swallowing Art to devour the Heaven Thunder Purgatory's land would very quickly consume the Heaven Thunder Purgatory's power. It would make it difficult for the Heaven Thunder Devil Lord to wake up in a short period of time and would even refine higher quality pills. Chen Xiang reckoned that he would be able to refine these pills before Yun Xiaodao and the others digest them.

Duan Chong said: "This kind of thing must be kept a secret from these little ghosts!"

Chen Xiang nodded his head: "Right now, I am only devouring a depth of fifteen kilometers of ground. If it is a shallow level Sparite vein, I can also refine them immediately.

In just two days, Chen Xiang had devoured many lands, and he had even bumped into a Sparite vein. At this time, he had already expended most of his divine power, and if not for Long Xueyi eating many spirit medicines inside, it would have been impossible to make up for.

"It looks like I can only use that move to help you quickly recover your divine power. You can use pills to quickly recover your energy, but not your divine power!" Long Xueyi's face suddenly became serious.

"What move?" Chen Xiang saw Long Xueyi's serious expression and was extremely curious.

"Divine Fusion technique, my soul is stronger than yours, my recovery speed is faster than yours. If my soul is together with yours, I can help you quickly recover," Long Xueyi said.

"Then why aren't you using it! If you have this move, why didn't you use it earlier?" He hadn't tried to fuse with Long Xueyi's soul yet, so at most, Long Xueyi could only lend him the God Power from the deep seas.

"Hmph, I just haven't thought about whether I should do that or not!" Long Xueyi scoffed.

"What else do you want to consider? Hurry, that medium sized Sparite vein is right in front of my eyes, I need a large amount of divine power to use the Earth Swallowing Technique to swallow the Sparite vein." Chen Xiang urged.

"The Gods join method is the combination of our souls, you idiot!" Long Xueyi pouted and said: "When the time comes, I'll enter your deep sea. My soul will strip naked and do that with you! "Although it's not for real, she's still a girl. We have to think carefully about this life event!"

After Chen Xiang heard these words, something on his body tilted a little! Especially when she thought about how she did it with Long Xueyi, the big milk dragon. Although it was only her soul doing it, she was extremely excited!

"Xue Yi, this kind of thing really needs careful consideration. If the situation wasn't grim, I would consider it. Now, I will let you take advantage of me and make myself feel wronged. Mother Dragon, come quickly!" Chen Xiang's naughty laughter sounded in Long Xueyi's mind.

[Chapter 999](#)

Chen Xiang and Long Xueyi were communicating using their divine souls, so no one heard what they were saying.

"Your brother should be the one who took advantage of me, hmph," Long Xueyi said as she entered Chen Xiang's Divine Sense Sea.

The Divine Sense Sea of Chen Xiang had already been exhausted, and in the middle was his somewhat dispirited soul. He looked to be about the same size as, and there was even a mischievous smile on his face as he looked at the young lady's complexion and the devilish figure of the White Dragon Lady.

Long Xueyi pouted her lips and came to Chen Xiang's side, then said in a tender voice, "What, do you need this Dragon Emperor to take the initiative and go up to you? I've already sent myself over, but you still want me to do it myself?"

Chen Xiang immediately flew over and took off Long Xueyi's clothes. However, Long Xueyi's body was covered in a layer of white light, causing him to be unable to see those beautiful and alluring things. However, he was able to touch them with his hands, causing him to feel that it was not so good.

"Hehe, this is just the divine soul, it doesn't mean that you can do anything. Moreover, my divine soul is stronger than yours, do you really think you can do whatever you want to me?" Long Xueyi said while laughing.

"Don't be so arrogant," Chen Xiang threw Long Xueyi onto the ground, rubbed two of Long Xueyi's body, and then directly entered his body. It's just that the fusion of his soul was different from what he had imagined.

"Stop playing around, you have to hurry up and recover your divine power, this is only the contact of the soul, the sense of reality will decrease a lot. I'll teach you how to integrate the spirit right now, so that you can achieve the goal you want," Long Xueyi saw the look of loss on his face and couldn't help but to giggle.

At this moment, he had already felt his own spirit and Long Xueyi's divine soul fuse together. At this moment, he and Long Xueyi both had a very strange feeling, it was hard to describe, but in short, it made them feel that it was very strange.

"It's about to start, hug me tight," Although Long Xueyi had matured quite a bit, her body was still extremely tender to Xiao Linglong. Just as she finished speaking, Chen Xiang lowered his head and grabbed onto her tender, red lips, before he somewhat roughly stuck his tongue in.

"Wu," Long Xueyi immediately resisted, and lightly bit Chen Xiang's tongue, wanting to let Chen Xiang know the difficulties in retreating. But who knew that this would cause her tongue to be entangled by Chen Xiang?

Under Chen Xiang's provocation, she gradually stopped resisting, and could only retreat, avoiding Chen Xiang. As Chen Xiang's tongue went in deeper, she no longer had any room to dodge, so she had no choice but to follow Chen Xiang's lead. Her little tongue and Chen Xiang's intertwined together.

Although it was his soul, Chen Xiang was especially excited when he saw this. The delicate little beauty that was pressed into the ground by him had turned into a dragon, and her figure was also fiery hot. Although her sense of reality was a bit lacking, this still made him have a very strong desire to conquer her.

"Little Scoundrel, be careful that I might bite you to death," Long Xueyi panted as she pinched the flesh on Chen Xiang's back.

"Where do you want to bite me?" Chen Xiang looked at Long Xueyi who was slightly angry and bashful, and laughed sinisterly.

Unknowingly, a large amount of golden divine power suddenly surged out from within the dried up Divine Sense Sea. The divine power was quickly recovering, and he did not feel that he had done anything.

Long Xueyi pouted: "I've let you take big advantage of me. Next time, I'll definitely get my revenge."

Chen Xiang hugged this soft and exquisite jade body, and rolled around in the ocean of divine power, laughing: "Anytime you are welcome to use this kind of method to get revenge, and kiss again. In any case, you have no losses, we already have"

Long Xueyi gritted his teeth and snorted, then took the initiative to move his lips closer to Chen Xiang. His tongue was wrapped around Chen Xiang's, and from time to time, he would even bite Chen Xiang's tongue.

Chen Xiang's body was still in the black lava pool, and it was in a room inside the ring. The only difference was that her main body was frantically eating some spirit medicine flowers, using them to recover her divine power, and also using the Gods join method to help Chen Xiang quickly recover his

divine power. No one knew that their spirit had already affected her main body, causing their flesh and blood to change emotionally.

In only an hour, Chen Xiang's Divine Sense Sea was already filled with golden colored divine power. Long Xueyi amicably rolled her eyes at Chen Xiang, let out a light snort, and left his Divine Sense Sea.

Chen Xiang woke up and opened his eyes. He discovered that he was still in the black lava pool, and everything he had done with Long Xueyi just now seemed like a dream, ethereal yet very real. That kind of feeling made him think back, and it also made him feel extremely spirited.

"You're not allowed to tell others about this," Long Xueyi said to Chen Xiang through sound transmission. His tone of voice was filled with hidden bitterness, reminding Chen Xiang of this White Dragon Lady's previous charms.

"Can you come often?" Chen Xiang asked in anticipation.

"I don't even want to, don't think about it like I usually am, but I'm not a casual dragon," Long Xueyi softly snorted, but her delicate face started to turn slightly red.

"Hehe," Chen Xiang only laughed, at the moment, the Earth Swallowing Technique was still in progress, he had already refined a large part of the Sparite vein.

The gigantic furnace above Chen Xiang's head started to shake, proving that the power inside had reached the limits of what he could control. Now he had no choice but to stop swallowing the earth, and use all of his power to condense the core.

With his previous experience refining the Myriad Yue Pill, Chen Xiang's progress this time was extremely smooth, and very quickly he produced six snow-white pellets. He named these pellets Earth Profound Pills Earth Profound Pills.

Next, he would have to continue refining. Furthermore, he would have to increase his speed, devour a large amount of land in a short period of time, and refine an extremely high quality Earth Mystical Pill for himself.

Following his crazy swallowing motion from before, the earth started to flow like water from all directions towards where he was standing, so all the Sparite vein that came out of the surface layer came towards him, and before, he had already swallowed half of them, and there was still more than half that, and next, there were still a few that he had swallowed.

Yun Xiaodao and the others had already refined the Myriad Yue Pill that they had eaten previously, and now they were all trying to break through a bottleneck. If they succeeded, at that time, they would just have to go through the Nirvana Doom again.

Chen Xiang quickly sent the remaining half of the Sparite vein all into the huge Magic method furnace above his head, and received its incineration inside. At the same time, he continued to use the Earth Swallowing Art, swallowing the earth, and turning it into energy, he poured it into the Magic method furnace and used it as medicine to refine pills.

Not long later, his spirit power was used up again, and Long Xueyi had been lending the Dragon Power to him the entire time. She had used up a lot of her spirit power, so she could only use the Gods join method to help Chen Xiang recover.

Long Xueyi once again came to Chen Xiang's Divine Sense Sea.

"Be more honest..." Even though Long Xueyi said that, in the end, both she and Chen Xiang became very dishonest. The two were infatuated with the miraculous feeling from before, and very quickly, they started to entangle themselves ...

[Chapter 1000](#)

The first two batches Chen Xiang refined were for Yun Xiaodao and the rest were also based on their true strength. The one he refined for himself was now much stronger than the previous two batches, and it was just a single pellet, and he had even refined two Sparite vein s. He predicted that if he ate it, he would be able to enter the fourth level of the Nirvana Doom.

Previously, after he had comprehended the Celestial Slain Method and swallowed a white star, he had confusingly stepped into the third Nirvana Tribulation. Thus, if he wanted to enter the fourth calamity now, he would need a very strong energy to replenish it.

"Heaven Thunder Devil Lord, you shouldn't be trapping us here the most, I will slowly devour your energy. If it is possible, I will take advantage of your weakest moment to give you a fatal strike," Chen Xiang said as he sensed the burning power within the Magic method furnace, and the heroic spirit in his heart surged. If he could break through, he might really be able to deliver a fatal blow to the weakened Heaven Thunder Devil Lord.

This meant that the energy inside was even stronger, as if ten thousand mountains had been crumpled into a small bead, but its weight would not change. And the energy inside would change after being compressed, becoming even stronger.

There were still forty days until the Three Realms Talk began, and many people had already gathered in the Heaven Thunder City, because it was agreed that the event would be held here. There were many powerhouses from the third region, and they were all big shots in terms of power, there were even some very low-key but powerful forces that appeared, and these powers were especially eye-catching.

Originally, the Green dragon demon-slain broadsword and Chen Xiang were one of the most important parts of the Three Realms Talk, but now that Chen Xiang was trapped inside the Heaven Thunder Purgatory, according to the legends from the ancient powers, there were only two consequences for Chen Xiang.

So right now, their main topic was to divide up the benefits, to distribute the territory under their control, and to establish their own nation. At the same time, they had to get some resources from the Demon and Devil Realms.

Right now, there were still rumors saying that the Three Realms Talk might discuss about taking down the Evil Dragon Graveyard, because the Evil Dragon Graveyard's Dragon Vein was regarded as the place where most of Di Tian's resources were gathered. It was said that this Dragon Vein would become the most important thing to Di Tian in the future, and it was the key to supporting Di Tian's progress.

When the Dragon Subduing Dan Hall was expelled by Pill City and compensated with the ten billion Spar s, he disappeared without a trace. Everyone suspected that he was hiding in the Evil Dragon Graveyard and the demonic mist in the Evil Dragon Graveyard had expanded by a bit, which was very worrisome.

The side of the Evil Dragon Graveyard was shrouded in a black mist, because the Iron Lion Army was currently constructing a city, which was used by Chen Xiang to suppress the city. However, Chen Xiang had never gone back, and Li Baojun had not dealt with the matter either, since Li Baojun was only responsible for using the large amount of Spar s he had in his hands and the large amount of pellets Chen Xiang had given him, to attract many reliable Alchemist s to refine large amounts of pellets.

They were worried that someone could extract a Magical corruption gas from it, which would be a terrifying matter for them. When the time came, they would discuss how to deal with it, and, the Demon Empress, was being closely watched during this period. She should have been in the Sky Demon Realm, but she seemed to have decided to not leave and it gave off the feeling that she had evil intentions and wanted to extract a Magical corruption gas.

Although Chen Xiang was being watched by the Heaven Thunder Devil Lord in the Heaven Thunder Purgatory, but his life and death was unknown, so people were still very worried.

Inside Heaven Thunder Purgatory, Chen Xiang was gasping for breath. He had used up all his energy to finally condense an Earth Profound Core, and this Earth Profound Core contained a lot of energy, and the quality was also very high. It could allow him to quickly refine the Innate Qi.

Yun Xiaodao, Xiao Chou, Zhu Rong, Teng Ying, Xv Weilong and Lian Mingdong immediately opened their eyes. Their expressions were serious and somewhat ugly as they stared at the rainbow cloud that floated over.

This thick cloud that was emitting a multicolored light drifted over. The black lava that they were soaking in suddenly began to boil. Following which, a wave of oppressive hot air enveloped the area.

"This is ..." "The Five elements heavenly fire Tribulation, huh." Duan Chong's eyes opened wide, and a trace of fear flashed past his eyes.

"It's the Five elements heavenly fire's lightning tribulation," Long Xueyi said. "Hurry up and drop to your original state. There's still time until the great tribulation begins. This tribulation is not a joke."

"If we pass it, our strength will definitely increase a lot. If we can't pass it, this Smelly Black Pond will be our grave," Lian Mingdong was extremely perturbed, but he could only try his best to remain calm.

"The Five elements heavenly fire Lightning, I never thought that this kind of thing would actually appear," Duan Chong said as he saw the multicolored lightning appearing amidst the rainbow clouds.

"We will have to brew for at least five days and five nights. Everyone should take advantage of this time to properly enjoy ourselves," Duan Chong laughed.

"Enjoy my ass. I won't be able to go anywhere in this black pool, so I might as well just wait for my death," Zhu Rong said as he gave a bitter smile.

Chen Xiang handed one Earth Profound Core to each of them. "Eat it. What I have previously refined, I will use five days to refine to increase my power even more."

"We have already reached our limits. If we do not cross Nirvana Doom, our dantian will not be able to hold so many Innate Qi s," Yun Xiaodao said as he shook his head.

"If you can't handle it, you can just squeeze all of the Innate Qi down. This is what I did, you must do it, otherwise you will very likely die," Seeing how serious Chen Xiang was, Zhu Rong and the others all took the Earth Profound Pills.

Chen Xiang continued to speak: "Because we have Elder Duan here, so the Five elements heavenly fire thunder is very scary. Now that the Robbery power has been decided, if we can still increase our strength a little more, then we will have enough strength to consume the Robbery power, and we can pass through then."

He also took out an Earth Profound Pill. This was the pill he had concocted later, and it contained a lot of energy.

"If I'm not mistaken, these Robbery power s were formed using the energy of the Heaven Thunder Purgatory. This will help us weaken the Heaven Thunder Devil Lord's power and make our Nirvana Doom even more violent," Chen Xiang laughed loudly as he ate the Earth Profound Core.

At this point, Yun Xiaodao and the others knew that it was useless to be worried. They all swallowed the Earth Profound Pills and calmed their hearts to cultivate.

On this day, Heaven Thunder City also saw the sky blotting out the sky and the heavenly thunder cyclone suddenly changing into a rainbow color, causing everyone to guess what it was.

Ever since the people inside were teleported out of the Heaven Thunder Devil Lord, the entire vortex became abnormally violent, and those who got close to it all had to die. They could only watch from afar, some suspected that the Heaven Thunder Devil Lord used his power to kill Chen Xiang, while some suspected that Chen Xiang and the others were fighting against the Heaven Thunder Devil Lord.
