

## Dark Ages 1021

### Chapter 1021 - Devouring the Universe

Hum!

Three strange forces are interwoven, the only fusion is a ray of chaos, which reveals an endless mysterious atmosphere.

The three books of heaven and earth and man are united, the origins are merged, and the universe is transformed into a big mystery. What is the mystery of the universe?

Qin Tiange's pupils shrank, and a fragment of the picture appeared in his eyes. The power of the three books converged to reveal the secrets of the universe.

In his eyes, he saw the other side of the universe through endless nothingness, even reaching the deepest side of the other side, and finally came to the edge of the universe.

"This is ..." Qin Tiange's pupils trembled, and there was a picture flashing inside, with blurred figures standing outside the universe.

What is outside the big universe? Qin Tiange was unclear before, but now he saw such a scene and suddenly realized it.

Outside the big universe is the universe sea. That dim figure stands outside the big universe and looks down at the whole big universe.

"Three books in one, running through the universe, it turned out to be this way."

Qin Tiange was stunned, his eyes stared at two astonishing rays of light, seeing through the other side, seeing the true diaphragm of the big universe, a barrier.

A dark figure was locked in front of the dark barrier, and the man was shrunk there by two forces, unable to move.

Seeing this, Qin Tiange understands, walks step by step, walks through the heavy mist, and blows out the endless force of the universe in one breath.

Soon, he stood in front of the diaphragm of the universe and stared quietly at the shadowed figure in the dark, blurred.

It is said that the person is a bit overdone. It looks less like a person, more like a weird thing, and is locked in the universe diaphragm.

"This is the external power?" Qin Tiange blinked his eyes, staring at the dark piece in front of him. Without the power of the three books in one, he would not see the locked figure at all.

He stood here, silently looking at the weird mass that did not belong to the universe, but a mass of material from outside the universe.

It is eroding the universe and wants to devour the entire universe. Its power is extremely strange, as if it existed exclusively as a universe.

"Pan Zun's power locked it, why not destroy it?" Qin Tiange thought in his mind.

He thought, since Pan Zun had the ability to suppress and lock it in the past, why didn't he directly kill this weird thing?

Its power is eroding the entire universe. If you look closely, you will find that the dense and endless silk threads extending from that force have penetrated into every corner of the universe.

In other words, the entire universe has been completely eroded by it. Perhaps, when it wakes up, it is when it is swallowed up.

call...

Suddenly, a strange sound of breathing came from that weird substance, as if it drove the entire universe to breathe and swallow the boundless energy of the universe sea.

Seeing this, Qin Tiange's pupils shrank again, and he was shocked to himself, this is that he has already completed the fusion and has become a part of the universe.

In other words, it has become the big universe, and the whole big universe has completely become its body, which makes people feel very scared.

“What is it?”

Qin Tiange looked serious, wanted to see clearly, to explore the root of this external force, and to peek into the details of this force.

As he approached that power, his eyes looked desperately, trying to see through the mystery and root of that power, but suddenly felt a blur in his eyes.

“Well, the strength of the three books is weakening.” Qin Tiange was startled, and immediately realized that the strength of the three books of the heavens and earth people was weakening rapidly.

Thinking of this, Qin Tiange gritted his teeth and made a decision, that is, to use the power of heavenly books to pave the way, paving a road to the edge of the universe.

“Tianshu paving, open!”

With a loud shout, an endless light emerged from Qin Tiange's body, which was the power of the Tianshu, the powerful power of the Tianshu, flowing quickly.

Suddenly, a strange heavenly road emerged from the other side, a mysterious road paved directly with heavenly books, extending to the deepest side of the other side of the universe, the edge of the universe.

boom!

The paved road caused a shock of power within the universe, and that locked power suddenly awakened.

For a moment, two horrible eyes swept over, faint eyes, staring up and down at Qin Tiange.

The two eyes collided, across the big universe diaphragm, staring at each other quietly, without saying a word or moving.

Qin Tiange felt a pair of invisible eyes, watching him, watching him with a kind of surprise and inspection.

And he saw that unknown force and was awake, and those eyes came from this force, facing each other quietly.

“This side of the universe has another Panzun?”

An ethereal, weird-colored word came out, and instantly caused the entire universe to fall into a dead silence.

Suddenly, Qin Tiange felt only an unprecedented crisis, covering his body, letting his heart beat, as if he would die next moment.

“Foreign power, it is devouring the other side of the universe, strengthening itself, breaking through the blockade!” Qin Tiange muttered to himself, his eyes were a little blurred, and that strange figure was gradually lost.

Soon, Qin Tiange lost the figure of the other party and disappeared. There was still a dark nothingness on the other side, and no figure existed at all.

Everything just now seems to be an illusion, but Qin Tiange believes that it is not an illusion, but it is real. He saw the power blocked by Pan Zun.

A force that erodes the big universe has already swallowed the whole big universe. Once it is fully awakened, the whole big universe will cease to exist and become a dim sum for others.

That’s right, it’s snacks. How terrible are the things that feed on the big universe. If it wasn’t for the disciple’s blockade of the other party, this force might have swallowed the big universe.

“It is eating, eating across the universe, breaking through the blockade power of Panzun.”

Qin Tiange’s eyes were so sharp that he had just seen such a scene, that force was devouring the universe on the other side, and he wanted to break the blockade under Panzun.

Thinking of this, Qin Tiange couldn’t sit still, his woman Chen Xi, and Xi Xi, as the river of epoch and river of life, were working together to suppress the awakening power.

If the other side had swallowed the opposite universe and finished breaking the seal, then Chen Xi and Xi Xi would disappear instantly.

“Another bank, drive!”

Qin Tiange shouted, smashed the other bank with one palm, hit it directly, and stepped into the universe on the other side in an instant.

He stepped into the opposite universe one step and instantly caught the attention of the powerful men from all sides, watching the emperor who suddenly killed himself in person.

“Men, what do you want?”

“Well, is that going through the universe?”

Soon, some Xeons in the two universes were surprised to discover that Qin Tiange was cutting through the nothingness of the universe. He seemed to penetrate the entire universe.

Seeing this, many Xeons instinctively stopped, not fighting fiercely, but quietly watching what Qin Tiange did.

boom!

On the other side of the universe, Qin Tiange fisted his arm, punched through the core of the universe, and blasted out a huge hole.

Inside, there is a breath that has never been seen before, mysterious and unpredictable, revealing an unparalleled temptation.

The origin of the universe!

“hiss!”

“That’s the origin of the universe?”

“My God, the Emperor penetrated the core of the universe?”

For a time, the Xeons from all sides were shocked and looked at the huge cave. The breath revealed inside was the origin of the universe.

Inside the cave penetrated by Qin Tiange, the dense and strange lines are intertwined, invading the core of the universe, drawing on the origin of the universe.

Seeing this, Qin Tiange sneered: “Sure enough, you are swallowing the core of the origin of the opposite universe. It is not easy to swallow it completely!”

Qin Tiange looked at the huge hole in front of him, which contained a vast and endless source of power boiling.

That is the origin of the big universe. Generally speaking, it is impossible to penetrate the core of the big universe and find the origin of the big universe.

But there is an external force that erodes the core of the universe and draws its roots. Naturally, Qin Tiange easily found the core position.

Looking at the densely intertwined lines and absorbing the original energy of the universe, Qin Tiange knew that he could not wait anymore, otherwise, once the other side swallowed up the opposite universe, everything would be finished.

boom!

Qin Tiange flicked his arm and punched straight into the core of the universe. With a loud noise, the entire universe was violently turbulent.

That punch smashed the endless weird thread and broke the erosion and absorption of that inexplicable force, but the broken force was restored once again and could not be eradicated at all.

“Can’t destroy?” Qin Tiange frowned, stepping into it step by step, watching the core of the opposite universe, completely eroded by the strange and dense energy.

This force, which is from the cosmic sea outside the big universe, is eroding the core origins of the big universe and wants to swallow the big universe.

The opposite universe has begun to be swallowed, and the speed is getting faster and faster, Qin Tiange clearly felt that the origin of the big universe here is rapidly decreasing.

Seeing that he couldn’t stop the other from swallowing, Qin Tiange’s eyes flickered, and a ray of horror was shining through his pupils.

“Since you can’t stop it, grab it!”

Qin Tiange’s eyes were scorching, the voice just fell, the original chaos in the body was suddenly released, and a horrendous force burst out in the 999 baby universe.

Bang!

The entire universe is boiling The core origin is being devoured by two forces, one from outside the universe, and one from the inside of the universe, Qin Tiange’s power.

He is robbing the origin of the opposite universe and robbing with that external force. The two are absorbing and devouring madly, and they are engaged in a fierce battle.

boom!

An invisible force struck up, trying to blast Qin Tiange out, but was shattered easily by his palm.

“See who swallows fast!”

Qin Tiange drank, showing his strength, 60 trillion small chaos suddenly burned together, directly burning all cell small chaos.

Suddenly, the core of the universe, endless energy was swallowed up by Qin Tiange, one of the three of them, and was even devoured.

The two forces are madly devouring the core origins of the universe, causing the opposite universe to fall directly into turbulence and collapse.

The core of the source was damaged, and the large universe on the other side fell into an instant collapse. An unknown and terrible force swept the entire universe on the other side, and began a large cleansing.

Chapter 1022 - It woke up

The other side of the universe suddenly fell into a big shock, endless forces raged, and an unknown and terrible force swept the entire universe.

boom!

The universe crumbled, as if there were sounds of wailing, the core of the source was being devoured by two forces.

One of them came from outside the universe, eroding the core of the universe and absorbing the core of the universe, while the other belonged to Qin Tiange.

When he saw that external force, he was trying to devour the universe on the other side, breaking the power of Panzun, so he couldn't ignore it.

However, seeing that he could not stop the other side from engulfing, Qin Tiange directly and simply joined the ranks of engulfing, even more terrifying than the other side.

“swallow!”

With a loud shout, Qin Tiange burned 60 trillion cells of small chaos, and the power erupted was unparalleled, directly engulfing a third of the core of the universe.

Suddenly, feeling the threatened foreign force's rage, he launched a counterattack and wanted to knock Qin Tiange out of the core of the universe.

It's a pity that it couldn't do it at all. Any force that came over was refined by Qin Tiange and turned into his own source.

He is like a horrible bottomless pit, devouring the core origin of the universe here and robbing each other's energy.

“Jack!”

A roaring sound came, and the consciousness of that strength was awake and seemed extremely angry, and was robbed by Qin Tiange.

Originally, the beings inside the universe could not see or even sense the core of the origin of the universe, let alone devour the origin of the universe.

But now it is different. An external force has eroded the core of the universe, resulting in a weak self-defense force of the universe, which was easily found by Qin Tiange and entered.

As it happens, he seized the opportunity and devoured the core of the universe's origins. There was no sympathy for his subordinates, and it was more mad and brutal than that external force.

In fact, the immortality of the other side of the universe has nothing to do with Qin Tiange, even if he is in the big universe, once he finds that he can't stop the other party, he will not hesitate to devour.

Rather than letting the other person swallow it, it is better to let it be swallowed, as it is now, Qin Tiange Shengsheng has snatched two-thirds of the core of the universe.

“You, fine ...”

The power gathered and turned into a dim figure, pale eyes stared at Qin Tiange, revealing endless slaughter.

It has never been so resentful to a person, even the former disciple has not made him so resentful.

Qin Tiange even snatched food from it, directly grabbing two-thirds of the core of the opposite side of the universe.

boom!

As the core of the universe was swallowed up, the entire universe on the other side was empty, and the energy seemed to be depleted, and the source was directly depleted.

What happens to a universe once its origins are exhausted?

Just as now, the inexplicable universe on the other side suddenly has turbulence, and fissures crisscross each other, spreading in all corners of the universe, pouring out the force of destruction.

The entire universe fell into destruction in an instant, causing panic among the countless souls across the shore. Many strong men realized that this universe would be destroyed.

“Do not....”

“Damn Emperor, you swallowed the core origins of our universe?”

“what...”

Some strong men were awakened and saw Qin Tiange confronting a terrible figure, his body exuding horror.

That is the core origin of the other side of the universe. Two-thirds of it was swallowed by Qin Tiange, and one-third was in the body of the dim figure opposite.

The unknown external force directly manifested itself under the fury, and the hazy body exuded a terrifying atmosphere, crushing the surrounding core area of the universe.

Boom boom ...

The two people collided with each other's breath, instantly shattering the deep space of the universe, the core barriers collapsed and disappeared on the spot, and turned into a wave of destruction energy.

“Great cleansing, destruction!”

Suddenly, the dim shadow, with a little finger pointing out, suddenly collapsed the universe that was already on the verge of destruction.

Like a mirror, the entire universe is shattered directly from the central core, and under the radiance of an invisible force, countless creatures are tragically cleansed.

Wherever that invisible power radiates, any living thing or even material completely disappears, and it becomes an invisible power that is swallowed and absorbed.

“Big cleansing, it turns out that you are absorbing the power that devours the universe. The origin of all things and the origin of the universe are nothing but your food.”

Qin Tiange was shocked, and he realized what was in his heart. The external force in front of him was devoted to eating the origins of the universe, and finally eating up the entire universe and even the core of the origin.

“Off!”

Pointing out, endless power came, invisible and intangible, invisible, and intangible power swept across.

Qin Tiange felt as if the entire universe had suddenly been crushed into a force, and there was an unstoppable feeling.

“Nothing, no force can suppress and destroy me!”

Suddenly a low roar came, a repressive force suddenly burst out, and a thunder rang through the invisible and intangible force.

Suddenly, Qin Tiange struck his arm with a punch, pierced through the vast force of cleansing, and directly punched the body of the shadowy figure opposite him.

He only heard a clatter, and the man collapsed on the spot and was blown with a punch, turning into a weird power and disappearing.

“Huh!” Qin Tiange snorted, watching the disappearing figure, and the power returned.

He watched the entire universe collapse, the endless terrible power, from the unknown, gushing from all corners of the universe, sweeping the entire universe and destroying all beings.

That came from an unknown great purge. In fact, seriously, it was the external force that eroded the great universe to form such a purge.

boom!

With one palm smashing the obstacles in front, Qin Tiange stepped across nothingness and came to the wasteland of the universe, watching the people and the universe who are struggling to kill.

The creatures and the Xeons of the two sides of the universe are struggling to kill. Except for a few Xeons, the rest of the universe is still not aware that the other side of the universe is sinking into mass destruction.

“Human race, back off!”

At this moment, Qin Tiange waved his hand gently, splitting a passage to the big universe with one palm, and the words spread, awakening the human race and even the tens of thousands of living beings who were in a \*\*\*\*\* battle.

Everyone, when he saw Qin Tiange’s arrival, his heart shuddered, because there was a bad feeling.

Sure enough, with the arrival of Qin Tiange, the universe on the other side fell into a complete collapse, a wave of extinction storm swept across, and the entire universe collapsed in an instant, creating a big explosion.

“what...”

“The universe is over!”

“escape...”

Seeing this, the creatures on the other side of the universe are frightened, regardless of the human race or even the ten thousand people, and turned directly to flee into the wasteland, wanting to run across the large universe on the other side.

Seeing this, Qin Tiange did not stop, but silently watching the collapse of the universe on the other side, suddenly there was a wonderful feeling in his heart.

The human race retreated, and the megacosm of the universe fled madly. The entire universe across the coast, countless creatures fled madly.

They want to escape into the big universe where Qin Tiange is located. No one stops it, but very few can really escape.

Because the destruction of the universe is a short time, and the time is short, all who can successfully escape are strong, and the creatures that cannot escape can only follow the universe into destruction.

boom!

The entire universe suddenly collapsed, as if a huge universe entered its old age, fell into exhaustion and destruction, collapsed by itself, and produced a big explosion.

“The Big Bang?” Qin Tiange stared at his eyes, watching the collapse of the opposite universe, as if a horrifying big universe was entering the final stage of the Big Bang.

The universe is born to nurture and grow up, and finally enters old age, just like a person born and sick.

The opposite universe collapsed directly, being pulled by a mysterious force, and the entire universe collapsed directly toward the central core, constantly shrinking.

Qin Tiange’s pupils did not blink, staring at the terrible abnormality of the universe on the other side, and witnessing a big universe stepping into destruction.

There is also his credit for this, and it is inevitable that there is something weird in his heart, and he seems to hear a sadness from the universe on the other side.

That was the result of the failure of the evolution of the universe, which directly led to the destruction of the Big Bang, as if the wailing from a universe was full of unwillingness.

“Destruction is a new life ...” Qin Tiange muttered to himself, looking blankly, watching the central core of the universe on the other side, collapsed into a terrifying point.

Over time, the devastating impact of the entire opposite universe has shaken the big universe here.

Qin Tiange stared at his eyes, looking at the edge of the wasteland, two cosmic diaphragm regions, and two Guanghe rivers were being eroded by the destroying force.

“Suppression!”

With a loud shout, Qin Tiange's strength broke out, directly suppressing the two destructive forces outside the Guanghe River, blocking the influence of the universe on the shore.

However, at this moment, a violent light came from the opposite universe, and an endless light burst from the central core of the universe.

The entire universe suddenly shrank into a point, turning the region where the universe was originally into an endless emptiness, and then that point exploded.

boom!

With a loud noise, the big universe exploded, and the energy produced was simply super horrible. Qin Tiange could not bear it, and was physically damaged on the spot.

But he didn't care, but watched the big bang dully. The whole process of the big bang made all the inner universe in Qin Tiange Dantian have a strange resonance.

“The universe breeds, regenerates, grows, matures, ages, destroys ...”

Qin Tiange was torn down, but his eyes were dumb, he was staring at the light of the explosion of the big universe.

In his eyes, it is completely a universe from incubation to growth, and finally into exhaustion, and then the Big Bang is destroyed.

As if this is the ultimate course of the universe, every universe will follow a course, the big universe is no exception, the inner universe is no exception.

Seeing the Big Bang on the other side, Qin Tiange saw a high-level scene, as if witnessing a higher existence above the universe level.

“What is above the universe level?” Qin Tiange murmured to himself, his eyes were flowing with two thick lines of blood and tears, and he was stabbed by the light of the big bang.

With the explosion and destruction of the universe on the other side, the other side was strongly impacted, and endless energy shattered countless barriers.

The barriers of the entire universe were hit by terror at this moment, shattering a huge crack.

“Big universe cracks, barriers torn!”

Qin Tiange suddenly woke up, looking at the torn big universe crack, which was torn apart by the force of the big bang on the other side.

Looking at the crack, countless Xeon trembled fiercely, their eyes were burning, and an endless light bloomed.

“The cosmic barrier is broken. Is there a cosmic sea outside the big universe?”

All the Xeon had shortness of breath, all with red ears and red eyes, staring at the torn big cosmic crack, which belongs to the barriers of the big universe, and was torn apart.

“It, wake up!”

Suddenly, Qin Tiange looked up fiercely, looking into that huge fissure, and there was a breath of extreme depression in it.

That external force, following the big bang on the other side, tore the big cosmic barriers and shattered the blockade power of Pan Zun, it woke up.

## Chapter 1023 - Big Universe Xeon 1

Kaka ...

There was a burst of crisp sounds outside the diaphragm of the universe, as if something broke, and a terrifying and terrifying sound came.

In the big universe, the Xeons of all sides breathed fast, and looked at the torn cosmic crack with red eyes.

They feel the breath outside the big universe, that unique breath, it can't be wrong, that is the breath outside the big universe.

However, at this moment, none of the Xeons dared to move, because there was a horror in the crack.

The fluctuation was terrible, and the countless Xeons were frightened and felt the pressure of death sweeping their minds.

“Yes, that power, wake up?”

The Xeon was terrified, his face horrified, his pupils staring at the cosmic crack, full of the light of fear.

Many Xeons are afraid of the power from outside the universe. One by one, it is not clear how many Xeons died.

Now that power is awake, waiting for them will be the collapse of the universe, the darkest era is coming.

Hum!

With a buzz, the entire universe suddenly shivered, and a deep unknown force was sweeping and spreading.

That was the power of the Great Cleansing. The universe was directly plunged into the Great Cleansing. The inbound sea poured in, from the edge of the wasteland, descended from the other bank, like a river pouring back into the Great Universe.

“Roar...”

“Here comes the cleaning!”

A roar ran through the entire universe, thousands of creatures, the Xeons roared, watching the big universe suddenly fall into a big purge, and all the creatures were afraid.

That is from the wake of the unknown force, the great cleansing, to put it plainly is a force of great annihilation, devouring the origins of the universe.

“Light of the Era!”

“The river of life!”

Suddenly, two coquettish drinks spread throughout the deep space of the universe. All the Xeons moved with horror. Looking up, they saw the edge of nothingness. In the barriers of the universe, two vast rivers suddenly broke away from the \*\*\*\* of the universe.

With a click, the two Guanghe trembled together, freed from the original big universe barrier.

But at this moment, an astonishing wave suddenly broke out in the fissures of the cosmic barriers, the unknown force suddenly hit, and the target was exactly two Guanghe.

boom!

A nihilistic hand grasped the two long rivers, the river of epoch, and the river of life.

It is a pity that the nihilistic hand is too strong and the power contained is too horrible.

“God!”

A dim figure appeared in the river of epochs, Chen Xi drank in anxiety, full of light, burning the river of epochs, trying to desperately.

The figure of Xun Xi emerged, wrapped in a vast river, the power of life was boiling, and Chen Xi was constantly supported.

Click! Click!

Seeing that he could not stop the nihilistic hand, and could not compete with the unknown force, Chen Xi and Yun Xi both had a death threat.

The very strong death threat made them understand that the end of suppressing that external force is destruction.

As the external force awakens, the river of epochs and rivers of life will all collapse and be instantly destroyed.

Huh!

Suddenly, an ancient stone bridge traverses nothingness, penetrates the obscurity, and hits the hand of nothingness fiercely.

The powerful blow caused terrible movement. Although it was unable to defeat the nimble hand, it was blocked for a while.

“Nye Heqiao, retreat!”

Chen Xi drank anxiously, watching the ancient stone bridge directly blocking the hand, but she was in a crisis of fragmentation.

Looking at this scene, Chen Xi and Yun Xi have understood that most of them will fall here this time.

Huh!

At the critical moment, a gray hand crossed the barriers of the universe, and slammed into that nimble hand.

Suddenly, the two hands collided fiercely, and both of them blew up and disappeared, annihilating each other.

“God!”

“Brother Qin?”

Chen Xi and Xun Xi were surprised. They looked at their annihilated hands. Then, a wave of ripples emerged from the inside. It was Qin Tiange.

His face was cold, his eyes were full of astonishing killing intentions, and he was staring at the increasingly powerful energy breath, unable to suppress the boiling killing intentions in his heart.

He came over before, but was bewildered by the power blocking, and almost let Chen Xi, Xi Xi and even Shi Qiao fall here.

“Go back and take care of the human race. I will personally resolve this power.”  
Qin Tiange did not return, saying this sentence.

As he waved gently, the power that had locked the river of epochs, the river that limited life suddenly collapsed.

The big universe barrier cracked, and two rivers flew into Chen Xi and Xun Xi’s body instantly, and both of them recovered to normal.

“God, be careful!”

“Brother Qin, watch out for yourself!”

Chen Xi and Xun Xi quickly retreated, set foot on the ancient simple stone bridge, rushed into the barriers of the universe, and disappeared.

They returned to the universe to take care of the human race. As for Qin Tiange himself, he had to deal with the awakening external force himself.

“For countless years, I have planned two cores of the universe. I have waited for this day for countless years, even at the seal of the disk.”

Suddenly, a faint word came from the rift, full of coldness and evil, as if there were a pair of horror eyes looking down at the entire universe.

Hearing this voice, Qin Tiange’s eyes flashed intently, saying word by word: “It really is you. It was you who crushed the book of my own.”

“Well? It turns out to be the spirit of human books, hasn’t it been completely extinct?” The voice was startled, and then seemed to be relieved.

Qin Tiange only felt that the fluctuations became more and more intense, and suddenly a loud noise suddenly broke through the cracks in the entire universe.

I saw a horrible figure coming out of it, step by step, shattering the universe’s nothingness, wherever the barriers of the universe could not bear its existence.

boom!

As the man appeared, the two breaths suddenly collided, and with a bang, the big cosmic barriers were torn apart, and the void in both sides appeared to collapse and collapse.

Qin Tiange's breath was heavy, and a monstrous force broke out in his body to counter that horrible figure.

It comes from outside the universe and belongs to the terrible creatures outside the universe. It has been seeking the core origins of the two universes.

Even at the cost of being sealed by the disk, the origin of these two universes must be planned, but Qin Tiange had previously snatched a full two-thirds of the core of the other side of the universe, which was simply bombed by gas.

“At the beginning, Pan Zun said before leaving that the three books of heaven and earth had enough power to destroy me. At the time, I didn't believe it.”

The man was hazy and indistinct, as if he had no fixed body shape, and looked like a human figure, but it was ever-changing.

His eyes opened slowly, his eyes resembling two big universes, blooming with horrible light, illuminating the darkness of the entire universe.

“Tianshu was stunned by my control, and became a cricket. The ground book was shattered, and you as a human book were crushed by me.” It slowly opened, explaining the secret lines of the past.

Pan Zun said that the Three Books of Heaven and Earth can destroy this creature, so that the book of Heaven and Earth was directly deterred by the other party into a puppet.

The ground books were completely shattered in the battle that struck the other side, and the human books were even worse. They were directly betrayed by Tianshu, and were crushed by this creature.

“The enemies of the past, the obscurity of one generation, the true spirit cannot be restored, all this is thanks to you.”

Qin Tiange lowered his head, thinking of his countless reincarnations, and the true spirit was obscured, and he could not get the real arousal.

It's like a fool who has done countless times. Without the true spirit, he can't get real consciousness. He can only understand how silly he has lived countless times and reborn countless times.

This hatred is so big that Qin Tiange himself can't be destroyed. The only way is to swallow the source of this hatred.

“I never thought that the spirit of the human book could still return, and that Ru had the power of the disc. It seemed that there was a force left before the discarded.”

The figure was hazy and suddenly shocked, and the whole illusory body became solid, and the real body suddenly appeared.

He slowly raised his head, his handsome and strange face, very strange, with the burning universe glow in his eyes, as if the two universes were burning.

“I, finally entered this universe completely, you can’t stop my footsteps, here is destined to be a part of me.”

The creature suddenly laughed, and his body became real, because his true body was completely squeezed into the universe.

A terrible breath swept across the universe.

Click!

Rumble ...

The entire universe produced terrible turbulence, countless creatures and strong thrillers, watching the mighty force of the great cleansing drowned the deep space of the universe.

Every corner is overwhelmed by this great cleansing power of unknown origin, just like the power from the big universe itself, to clean the internal creatures.

In fact, this is the alien creature that eroded and controlled the core of the universe and was about to be devoured by him.

“You can die!”

The creature suddenly looked up, his eyes stunned out two beams of cosmic skylight, and lased, tearing the cosmic diaphragm.

The two beams of tears came to tears, but Qin Tiange was expressionless, and his intention of killing himself had almost become a substance.

In his eyes, two beams of horror are brewing It seems that the two universes are suddenly burning.  
boom!

Qin Tiange’s body suddenly burst into an incomparable breath, as if the inner universe had suddenly been promoted.

That’s right, in fact, he has just been smelting the two thirds of the universe’s core origins snatched from the opposite universe.

How strong the origin is, intuitively speaking, the core of the universe has been refined, and Qin Tiange had just given birth to a small baby universe.

A total of 999 baby universes have been promoted to the first level and evolved into true childhood universes.

“Who doesn’t die, kill!”

Qin Tiange drank, and after finishing the promotion, he lost all his patience, and simply went straight, stepped into the air, and thumped his arm up.

With a buzz, Qin Tiange twitched his arm with a strong punch, which instantly penetrated the barriers of the universe and broke through the barrier of the universe.

The Great Universe Xeon battle is on!

## Chapter 1024 - Into the universe

boom!

The two Xeon figures slammed into each other's body, and suddenly, the cosmic barriers cracked and cracked.

Xeon's strength even tore the big cosmic barriers and penetrated the universe's diaphragm, it was hard to believe.

Huh!

Qin Tiange slammed the opposite side with a fist, terrible fist raging, hit a dent, but did not see any scars.

Seeing this, Qin Tiange's pupils shrank, and he felt the terrible power from his fist, and was unable to penetrate the opponent's body defense.

Before he could continue, one hand was in front of his eyes, and a slamming noise, Qin Tiange felt like countless universes hit the door.

The pain was so intense that he almost felt his left eye burst, and silver blood was flowing out.

"Huh?" The alien creature on the other side narrowed his eyes and looked at Qin Tiange in surprise, staring at his left eye exactly.

After Qin Tiange's left eye was hit with a slap, he suddenly became a little scary, and the silvery arcs were intertwined.

That eye, gradually burning a horrible silver flame, as if a universe was lighting.

"Your eye does not belong to you. Where did it come from?" The creature exclaimed, staring at Qin Tiange's left eye and looking straight.

He can see that Qin Tiange's left eye does not belong to him, and, in his opinion, this eye does not belong to this big universe.

"It doesn't belong to this universe. Where did you come from?" The creature was horrified, as if knowing the origin of the eye.

Qin Tiange looked stunned, because he felt a vast force from the left eye, mysterious and unpredictable, which belonged to a cosmic force.

"This eye leads to another universe?" Qin Tiange said to himself, suddenly waking up.

This eye is exactly the eye that leads to another big universe, or the eye of the universe.

"kill!"

There was a sudden roar, the creature was in a hurry, and went straight to the lore, banging on Qin Tiange's face.

He eagerly wanted to punch out Qin Tiange's eye, because it knew the origin of this eye, which did not belong to this big universe, but came from the universe sea.

This alien creature is more aware of the horror of this eye, which contains a force beyond imagination, but Qin Tiange has not been able to exert it yet.

Bang bang ...

The fists fought each other, and the two men fought fiercely. You and I came and went, and it was a tie.

Qin Tiange exploded with a thousand inner universe forces, struggling to kill, still unable to suppress the other side, shocking him.

This foreign powerhouse is so powerful. How strong is he and what level does it exist?

In fact, he was shocked. The alien creature was more frightening. The more he fought, the more he felt scared. Qin Tiange felt like a bottomless pit with infinite strength.

“It’s impossible, a universe-level, even the big universe hasn’t been broken. Why can you fight against me to become a tie?” The creature yelled, looking very irritable.

Qin Tiange can fight with him fiercely and remain undefeated, that is a shocking discovery, we must know that its cultivation has surpassed the universe level.

boom!

When they hit another punch, the two quickly retreated, their breaths boiled, and they intertwined with each other, tearing the cosmic barriers around them.

In the battlefield between the two men, Yu Bo was controlled in this area in the marginal diaphragm region of the Borderlands.

However, Qin Tiange felt that his power could not be exerted to the fullest, as if there was a repression, the kind of restraint from the universe.

“This one died after the destruction of the inner and outer universe. Why can you fight with me undefeated?”

The creature finally couldn’t help it, and the chilling voice came, which thrilled the Xeon of all parties in the entire universe.

Existing after the destruction of the universe, what an existence it is, it is definitely a super terrible powerful creature, above the universe level.

“It turns out that you are above the cosmic level. It is no wonder that the existence of the universe that has exploded without dying is so strong.” Qin Tiange’s expression was stunned and clear.

The other party is not cosmic level, but above the cosmic level, has been cultivated to the destruction of the inner universe and has withstood the power of the destruction of the inner universe without dying.

This is the transcendence of the cosmic class, and the existence of the inner universe after the destruction of immortality is a powerful creature beyond the cosmic class.

Above the cosmic level, that is the indestructible class. What is immortal? Those who have died after the destruction of the universe at home and abroad are immortal.

“Indestructible, it’s true!”

Qin Tiange drank, his eyes bloomed with infinite light, and suddenly he realized that the powerful existence above the universe level was immortal.

The kind of creature that has not died after the destruction of the inner and outer universe is indestructible. Although all the inner universe is destroyed in the body, it has a stronger power.

The destruction of the universe is a new life. This is not without reason. Once the shock of the destruction of the universe is withstood, the creatures will not die, then they will not die.

“kill!”

Rumble ...

The two most powerful men, a universe-level emperor, challenged a powerful and immortal creature from the universe.

This creature, wandering between the cosmic seas, wants to find a weaker universe to devour and obtain a kind of big universe mystery.

But there is a Pan Zun in this big universe. In the past, Pan Zun hit the universe and sealed this creature before leaving.

As a result, he was awake now, but he met Qin Tiange, a monster who could resist the invincible level and be undefeated.

boom!

With a punch, the creature’s body clicked and cracked, and it cracked, and there was a faint strand of strong blood in it.

The creature that has not died after the internal and external universe destroys, the owner does not destroy the body, does not destroy the blood, does not destroy the soul, as if the universe destroyed him and is still immortal.

This is a powerful creature above the universe level. Once it breaks through, it is a super terrible existence.

Faced with such an immortal creature that surpassed the universe, Qin Tiange’s expression was calm, and he fisted to the top with one punch and one palm.

However, the more fierce the battle, the more Qin Tiange felt a bondage, uncomfortable, as if the universe had a layer of restraint, making him unable to fully play.

“open!”

Feeling depressed, Qin Tiange was furious, and punched directly to the other side, the fist thrust was pushed straight through the depths of the other side, and the big wall of the universe burst into pieces.

He actually broke through the barriers of the universe, blasted the diaphragm of the universe with one punch, and made a hole in the life, together with the universe sea outside the universe.

“Cosmic sea?”

A loud shout came, and there was an excitement in the Xeon, watching Qin Tiange, the emperor, actually broke through the barriers of the universe.

Inside the huge cave is outside the big universe, the mysterious and unpredictable sea of the universe. Once you step into it, you can escape the shackles of the big universe.

“kill!”

Qin Tiange drank violently, his fists burned, and the one-on-one punch struck the immortal creature in a hurry, and the two fought out from the cave.

The two most powerful men killed themselves from the universe and into the universe.

boom!

A powerful force erupted, and a terrible riot came from outside the universe, as if endless energy was boiling, pouring out of the cave.

That vast endless energy, with a tide of destruction, swept the universe and almost caused the entire universe to collapse.

Fortunately, there is a force outside to block it. The power of the cosmic sea can destroy all the peoples in the universe. Once it is not strong enough, it will disappear when it is unstoppable.

Seeing this, many Xeons realize that they are below the cosmic level and cannot step into the cosmic sea, because once they step inside, they will be annihilated.

“kill!”

“war!”

There was a burst of rage from outside the big universe. Qin Tiange broke through the shackles of the big universe barriers and broke into the sea of the universe, truly breaking away from the shackles of the universe.

A feeling of freedom pervaded the whole body, and a thousand inner universes boiled and burned all over him, bursting into an unprecedented force.

boom!

With just one punch, the immortal creature was beaten with flesh and blood, and was hit hard for the first time, as if it couldn't bear Qin Tiange's sudden blow.

The powerful, invincible power was released from the body, and one thousand inner universes were completely free of restraint power and obtained endless release.

One hundred percent of the power erupted, and a thousand juvenile inner universe exploded all at once, and that power was unbearable for indestructible creatures.

The two fought hard, and both retreated.

“This is the Cosmic Sea?”

Qin Tiange glanced at all directions. Outside the big universe, the greyness of nothingness, an invisible imagination, like the endless waves surging, there was an invisible force roaring.

This is the mysterious sea of the universe beyond the big universe, which breeds the mysterious sea of the universe.

Looking back, Qin Tiange suddenly stopped because he saw the true face of the universe for the first time, a colorful ball.

That's right, a colorful ball floats in the emptiness of the universe sea, quietly emitting a hazy light.

The cosmic sea is silent and colorless, without any sound, except for a colorful ball in front of which exudes a bright color.

That is the color of the big universe. The opposite universe, which was originally connected, has completely disappeared.

“Roar ... how many inner universes do you have?”

Finally, the immortal creature across the road came to his senses, screamed in horror, his eyes widened, and two rays of light penetrated through nothingness, looking at Qin Tiange's Dantian.

There, the cosmic rays are burning, endless power bursts out, and a thousand universes are burning.

“One, a thousand inner universes?” The immortal stared at him, almost scared to death.

What he saw was that Qin Tiange had bred a thousand inner universes, one of which was a primitive, great chaotic universe.

The remaining 999 truly young inner universe, the power that erupted, was simply shocking and beyond imagination.

“You, how exactly did you do that?” The immortal froze.

He couldn't believe what he saw. Qin Tiange really gave birth to a thousand inner universes, a whole thousand.

Moreover, in his eyes, he saw Qin Tiange's densely packed 60 trillion small cells in his body, and suddenly there was an urge to syncope.

“Pan Zun, is this what you said can kill me?”

Immortal creature suddenly awakened, and said this to himself, because he remembered the thought before saying that Pan Zun left before.

In the past, Pan Zun said that an existence will be born in the future universe, and it can kill the indestructible terrible creature.

“kill!”

Thinking of the horror, the indestructible creature was furious and drank directly, and a large universe destroying power broke out in the body.

It is an indestructible force. After the destruction of the universe inside and outside without dying, it has gained a new life in the destruction and embarked on immortality.

In the face of this power, Qin Tiange turned his back on it, and a thousand inner universes in his body lost the \*\*\*\* of the big universe and immediately burned together.

“war!”

Qin Tiange roared, and the whole person bloomed an infinite amount of light. It seemed like a thousand inner universes were burning and exploding.

Chapter 1025 - The eyes of the Creator?

Dang!

The cosmic sea was boiling and roaring, and a violent collision came, just like the horrible sound of a big cosmic collision.

I saw that the two Xeon figures were killing each other, and you came to me to kill me completely. boom!

A punch in the head, the immortal skeleton was sunken, but recovered in a blink, as if it were truly immortal.

He turned his hands and struck Qin Tiange's noodle door with a single palm, crackled and cracked, his bones broke, and his flesh healed instantly.

Both of them are extremely strong, and they can be recovered instantaneously after being cracked again and again, as if they can't kill each other at all.

Huh!

Qin Tiange waved his arm with his fist. Two punches struck the chest of the immortal creature instantly. Two deep marks appeared, the bones were broken and the flesh was blurred.

But the other party recovered in a blink of an eye, with a sneer: “You can't kill me, because I have been through the destruction of the universe inside and outside without immortality, no force can kill me.”

“And you have just set foot in the universe, but I can kill you.” The immortal said sternly.

As soon as the words fell, Qin Tiange felt only a crisis coming from his face, and stabbed a hand in front of his eyes, watching as he was about to be penetrated through his eyes.

Hum!

Cunningly, the left eye glowed a scorching light, like a universe burning, releasing an endless energy.

This energy came too suddenly, directly immobilizing the immortal creatures in front of it, and stopped momentarily, as if the entire universe had fallen into silence.

“Kill!” Qin Tiange Li Xiao shook his arm and punched the face of the immortal creature, and the bridge of his nose collapsed with a click.

The Xeon punched the opponent out, and his head was almost blasted. If it were not strong enough, he might have died under this punch.

“Damn, this eye doesn’t belong to you. That’s the creator’s eye. Where did you get it from?”

Immortal thriller, the collapsed face door quickly repaired, his eyes glowed with horror, and he stared at Qin Tiange’s eye.

That is not Qin Tiange’s eyes, not this big universe, a terrible eye from the universe overseas.

“Creator?” Qin Tiange’s pupils shrank, his left eye beating violently a few times, the silver light was shining, as if there was a universe burning inside.

That vast mysterious force emerges, which can lead the endless emptiness of the universe and even suppress the immortal creatures in front of it.

The other said, this is the eyes of the Creator. What is the Creator?

Qin Tiange looked strangely and asked, “What does the creator you say exist?”

“Hahaha, the frog at the bottom is the frog at the bottom.”

The immortal laughed, with a mockery on his face, his eyes showing a disdainful light, as if looking down on Qin Tiange.

He believes that these people of Qin Tiange are frogs at the bottom of the well. As long as the universe is not out, they will never know the outside world.

It’s like being trapped inside this huge well in the big universe, never seeing the endless world outside, even the Creator doesn’t know what it is.

“Creator, that is transcending the universe, transcending immortality, and everything in the universe is born and destroyed, all in one thought of the great Creator.” The immortal creature murmured the news with a glance of hope.

The creator is the void creator. With one thought, the universe is born and died, and all things rise and fall. This is the omnipotent creator.

That kind of existence that transcends immortality makes people unable to guess and understand. What kind of invincible existence is in the end?

“Is the Creator?” Qin Tiange muttered to himself, lowering his head and thinking, his left eye turned out to be the Creator’s eye?

How terrifying is the eye of a Creator?

He believes that the alien creature in front of the universe is indestructible, and it has been destroyed by the internal and external universe without immortality.

Above that indestructible level, what is it, and what level is the Creator at? He doesn’t understand it at all, because he has not yet set foot in the universe.

However, now is not the time to think about it, Qin Tiange knows that the most important thing at present is to kill the immortal creatures in front of him.

At this moment, the body of the opposite immortal trembled, suddenly emitting an infinite amount of light, the breath was extremely heavy and depressed, causing the turbulence of the universe.

His face was fanatical, one word at a time: “Your eyes are like the eyes of the creator in the rumor. It contains the power of creation. All life and death are in one thought, and kill you. This eye is mine . “

“Really, it depends on whether you have the ability to take it away.” Qin Tiange Lengheng, regardless of whether his left eye is the creator’s eye.

If the other party wants it, then you need to see if you have the ability, and you want to take it away, kill Qin Tiange first, otherwise don’t even think about it.

“kill!”

The strength accumulated by the two exploded again, colliding with each other, defeating the ignorance of the universe sea.

The power of the Xeon, a full-blown infancy of the inner universe, Qin Tiange carried every move with unparalleled strength.

That power surpassed the opponent’s immortal creature, and gradually formed a repression, as if the thousand inner universe had just excited its due energy.

boom!

In one collision, the body of the immortal was wounded and Qiqiao spurted blood. The whole person was almost punched with a punch, his chest burst, and his flesh was blurred.

Just a blow, it was really dangerous. Qin Tiange’s sudden burst of power directly shattered his physical body that could not be shattered by the destruction of the universe.

“Undead through the destruction of the universe inside and outside, it is just another evolutionary form of the universe, and destruction is a new life.”

Qin Tiange came step by step, his words were flat, his eyes revealed a clear realization, as if he had realized the mystery of the level above the universe level.

The universe, once it has decayed and destroyed, and produced a big bang, it is the end of it, and it has withstood the impact of the destruction of the inner universe.

The so-called immortality comes from this. An immortal force derived from the destruction of the universe can make creatures stronger.

The inner universe has been destroyed, but it has not disappeared. Instead, it is undergoing a death transformation. Once the destroyed destruction universe recovers, it is not far from the Creator.

Bang Bang!

Qin Tiange launched a powerful killing with one punch and one palm, with the best efforts of the universe within a thousand, to make that immortal scream.

He was startled, panicked, and realized for the first time that he might be killed by a cosmic low-level creature.

“Impossible, absolutely impossible!”

He growled frantically and seemed very nervous. He couldn't help but have a hint of fear. Immortality is just a form, not really immortality.

With a bang, Qin Tiange smashed into each other's eyes with one palm, the powerful force tore the bones, split his brain with one palm, and the eyes flew out on the spot.

“Ah ...” For the first time, the immortal moaned with wailing, especially painful, because the eyes were hit.

Qin Tiange had no expression on his face, punched one palm, and innumerable punches banged on each other's body, as if a thousand terrible forces produced by the explosion of the inner universe.

This force shattered the indestructible body of the other party, fractured the bones and flew flesh, and Qin Tiange gave birth to half of the flesh with one punch and one palm.

“Immortal, see how I can kill you!” Qin Tiange drank coldly, twitched his arm and punched him in the heart's position.

A hole was opened in the heart, and a heart inside was clearly visible, surrounded by a mass of destruction.

That is the destructive force generated after the destruction of the inner universe. It can also be said to be an indestructible force that is undergoing transformation.

It is a pity that this power has been beaten out, and with his heart exposed, Qin Tiange saw the mystery of this power.

“The power from the destruction of the inner universe, so it is!”

Qin Tiange's eyes were burning, and he stared at the opponent's beaten heart. The power was unreservedly revealed, and there was no secret.

He realized the mystery of it. The strange power that came from the destruction of the inner universe had a force of destruction and immortality.

Destruction is the force of the universe's death. Immortality is the vitality in the end. The destruction of the universe is the new life.

This power is the power of new life. Once it grows, the previously destroyed universe can instantly recover and reshape.

At that time, it will be another level. It is like the reincarnation of the universe. It is born during destruction, it is exhausted in the process of gestation, and finally it dies and is born again.

puff!

With a crisp sound, Qin Tiange pierced the other's heart with both hands, clasped his fingers, and held the beating heart.

“No no no, even if you dig my heart, you can't kill me.” The immortal was terrified, but angrily roared.

He felt ashamed that he was severely wounded by a low-level cosmic creature, and even dug his heart, which was simply a disgrace.

Click!

The next moment, Qin Tiange dug out that beating heart, which contained an immortal life, letting his eyes shine.

He looked at this power and wanted to understand the mystery, but unfortunately, the heart he had just dug out withered quickly.

“Huh?” Qin Tiange frowned, watching the dug heart dry up quickly, and then a new heart grew out of the immortal heart.

“I said, you can’t kill me!” The immortal roared the immortal, and waved a punch in Qin Tiange’s body.

He was furious, but was caught by Qin Tiange. The powerful force only made him tremble slightly and it was okay.

“Can’t kill you? Then swallow you.” Qin Tiange sneered, his eyes suddenly became a little cold and shy, and his hands suddenly burst into a gray flame.

He directly burned the great chaos, combined with 999 internal cosmic forces, and evolved a primitive chaotic fire, which was to smelt the immortal creatures in front of him.

“Ah ... do you want to devour me?” The immortal glared at and screamed in horror, terrified.

It has always been the core of the universe, the origin of all things, when has it been consumed by others, and it is also a universe-level lower creature?

“Smelt, devour!”

Qin Tiange drank low, endless primitive chaotic fire boiling, directly burning the immortal creature, powerful force poured into the other’s body, imprisoned the other.

In addition, Qin Tiange shoved his opponent’s two arms with his arms and cut off the immortal’s legs.

Destroyed, Qin Tiange is violently destroying the opponent’s body, breaking the immortal balance of power, and smelting a little bit of its origin.

“what....”

There were screams of sorrow in the universe. After the immortal creature was destroyed by Qin Tiange over and over again, the body gradually melted into a powerful immortal source.

This immortal source is exactly what Qin Tiange is thinking.

Chapter 1026 - Emperor, dead?

“You want to devour me, dream!”

Seeing that his body was destroyed by Qin Tiange and smelted a little, the immortal creature finally went mad.

He was forced to this position. It can be said that even in the past when facing the Pan Zun, this was not the case. Qin Tiange was too scary.

And he is just a monster, and he wants to swallow whatever he sees, and sees that there is an immortal root in this immortal creature, and immediately swallows to the smelt.

“Refining!” Qin Tiange screamed, erupting throughout a thousand inner universes, lighting a horrible primitive chaotic fire.

This flame was able to smelt the other side, smelting a little bit to the origin, that immortal origin.

“The destruction of the universe!”

When a roar came, I saw an immense amount of light blooming inside the immortal creature, and the strong energy fluctuation was shaking.

As a result, the cosmic sea was turbulent, as if being affected by this wave of power, which produced a terrible vision.

“The destruction of the inner universe?” Qin Tiange’s pupils shrank, and they felt the terrible power produced by the explosion of the universe.

This immortal creature, once again transformed into the Big Bang, has already been exploded and destroyed once. Immortality is immortal.

But now another big bang is tantamount to taking risks and fighting Qin Tiange for the danger of falling like himself.

boom!

With a roar, the cosmic sea was boiling, and a large swath of nothingness was wiped out, as if a large universe exploded directly and fell into destruction.

Originally, there was a big bang before the big universe, and the destruction energy produced made the sea of the universe in this area extremely unstable.

But now he has suffered a self-destructive blow from this immortal creature, tearing up a barrier of the cosmic sea on the spot, and crisscrossing nothingness.

“Ah ... is it a crack in nothingness?”

Suddenly a scream came, and inside the endless rays of the explosion, the immortal creature was rotten, and the horrible explosive power that erupted from the body almost destroyed the world.

This power really looks like a big universe explosion, and even he has been blasted indestructively, and Qin Tiange’s body is even more dilapidated, with skeletal bones and a trace of flesh.

“Look for death!” Qin Tiange was furious, and a thousand juvenile universe erupted in his body, and boundless force emerged, flesh and blood, and he recovered in a blink of an eye.

He squeezed the immortal's neck with one hand, raised it, his eyes were cold, and he looked directly into the other's eyes.

“This is what you call the destruction of the universe?” Qin Tiange snorted, stabbing into the opponent's neck with a touch of coldness and five fingers.

Qin Tiange's five fingers pierced into the neck of that unattractive creature and locked the opponent's head firmly. As for the violent force of destruction in the body, it was extinguished a little bit.

“Engulf!” Qin Tiange was furious, and started smelting madly, refining this immortal creature a little bit.

The powerful force smelted the body of the immortal, and was smelted out a little bit, and then Qin Tiange devoured it, and he could not even recover.

“Roar ... no, let go, the void crack will swallow you and me together.” The immortal creature was terrified, struggling and roaring.

His eyes were horrified, and he saw that he was smelted by Qin Tiange's brutality and devoured a little bit. Moreover, the force of the destruction of the big universe just tore up some kind of diaphragm of this universe.

The cosmic sea splits apart, revealing that terrible void of fissures, and fictitious fissures swept towards here.

The horrible rift, with which everything can be swallowed, can even be swallowed directly by the universe, which is simply a terrible power.

Nothingness can engulf the big universe. Once swept by those fissures, the big universe diaphragm will be cut into several points and finally swallowed into nothingness.

The cosmic sea is not as calm as it appears, but it is hidden with countless unknown and terrible dangers.

“Swallow!” Qin Tiange Li Xiao, burning with raging flames, a thousand inner universes burst out in the body, flowing out endless power.

He ventured and devoured this immortal creature directly, and in the end only one head was left.

But at this time, Qin Tiange already felt a terrible crisis behind him, that is, the cracks in the universe that were ripped apart.

That kind of barrier was torn, and there was a force of nothingness in it that swallowed everything, even the big universe.

“Ah ... you kill me, let's die together!”

There was only one immortal creature in his head, and suddenly he opened his mouth and roared, and saw a colorful force in the colorful cosmic light sphere.

That was a force that he gained after eroding the universe, and suddenly it emerged, turning into a horrible force in Qin Tiange's body.

Click!

With a crisp sound, Qin Tiange's body was directly penetrated, penetrating from behind, making a hole, transparent on both sides.

Looking at the severely wounded Qin Tiange, the immortal creature laughed wildly: "Hahaha, let's die together, let's die together. I won't die, I will soon recover from the universe again, and you will be buried forever Universe sea. "

"You want to recover, you were dreaming!" Qin Tiange sneered, a towering will burst into his heart, and rushed directly into the head of the other party.

Then, Qin Tiange raised his palm and gave a clatter, splitting the immortal's head instantly and shattering it on the spot.

The Xeon blow blew up the opponent's only remaining head, and the mighty will was involved, engulfing the vast spirit.

"Roar, how dare you?" A ray of light soared into the sky, trying to escape into the universe, but unfortunately was suppressed by Qin Tiange's deadly suppression, and he could not move at all.

Even if it was an immortal creature, the true spirit was locked by Qin Tiange, and he could not escape. He could only watch Qin Tiange crush his true spirit and devour it.

"No ... " Along with the last scream of sorrow, the alien creature that was sealed by Pan Zun for countless years, an immortal creature, was swallowed up by Qin Tiange Sheng.

Originally it was able to plan the core of the two universes, but a monster like Qin Tiange appeared in the larger universe.

This has to be said to be a kind of sorrow, a cycle of cause and effect, and Qin Tiange, who used to be a human being, does not have that kind of power.

But the bad thing is that this immortal creature has shattered people's books, causing the reincarnation of the spirit of people's books, and finally created Qin Tiange's glory.

puff!

At this moment, there was an imaginary fissure in the cosmic sea behind, and it was cut straight from Qin Tiange's body.

With a flutter, Qin Tiange's body was stiff, and it was cut into pieces, and then quickly engulfed in by those fissures.

"I'm going to die?" Qin Tiange thought instinctively, his spirit boiled, and he felt that he would die next.

His heart shook, and the severed arm suddenly flew away, hitting the cosmic sea with a single blow, breaking the colorful cosmic light film in front.

Hearing only a bang, the broken hand pierced into the universe and shocked countless creatures inside the universe.

“Husband!”

“Brother Qin?”

“The Emperor?”

Seeing that broken hand pierced into the diaphragm of the universe and pierced from the outer surface of the universe, Chen Xi, Xi Xi, and others faced each other with fear, because it was Qin Tiange’s hand.

His breath was dissipating. The broken hand penetrated the barriers of the cosmic universe and rushed in directly, breaking off beyond the barriers of the universe.

“I’m having some trouble, you guys ...” Qin Tiange’s words came from outside the universe, spreading in the void of the universe.

boom!

But before this sentence was finished, the broken hand suddenly exploded, turned into countless flesh and flew, and even burned autonomously, leaving only a smoky plume in the end.

Qin Tiange disappeared, was cut by various fissures, and was swallowed up instantly. The whole person lost his trace and had no breath, as if directly swallowed by the universe.

“Husband!”

Chen Xi yelled in horror, turned into a river of light across the universe, and thundered through the barriers of the universe, directly out of the universe.

When he came outside the diaphragm of the universe, Chen Xi stayed still, staring blindly at the fissures that crossed the sea of the universe.

It was those fissures that cut and engulfed Qin Tiange, leaving nothing left to make her whole person collapse, and her sky collapsed.

“Brother Qin!”

Yan Xi incarnation rushed out of the river of life, stood beside Chen Xi, and watched this scene blankly, Qin Tiange’s flesh dissipated and was engulfed and strangled by those imaginary fissures.

“No ...” Chen Xi and Ji Xi were frightened, roaring like crazy, their brains roared, and felt that the pillars of the entire spiritual world had collapsed, and Qin Tiange had died?

Outside and out of the universe, there was a little bit of breath left by Qin Tiange, and the wave of life gradually extinguished and disappeared.

He might really be dead, cut and engulfed by the weird fissure in the universe sea, and turned into fly ash.

“You’re dead, what’s the point of my being alive?” Chen Xi’s eyes were dumb, her soul collapsed, and a belief in her soul collapsed.

She was full of fog and mist, and suddenly stepped out of the cosmic diaphragm, into the cosmic sea, and transformed into a stream of light and crashed into those fissures that did not disappear.

“Don’t!” Yue Xi screamed in horror, turning into a river of life, instantly blocking Chen Xi’s river of epochs.

The two rivers intersected and collided rapidly, fighting each other fiercely, and entangled with each other in the universe, Chen Xi was as dead as a heart, trying to follow Qin Tiange.

But Xi Xi was desperately blocking it, watching the two Guanghe rivers be about to crash into the void, and they were about to die.

“Sister Chen Xi, stop now, you are crazy, don’t you want the little life in your body, that is the only bone blood between Brother Qin and you.” Xi Xi screamed anxiously.

Suddenly, the river of epochs paused, gradually being engulfed by the river of life transformed by Xi Xi, and brought into the diaphragm of the universe.

The two recovered, Chen Xi’s eyes were dull, and he muttered to himself: “I, my blood is really born in my body?”

Yan Xi’s face was complicated and bitter: “Sister Chen Xi, did you not feel it yourself? You should be clear that you and my body can’t conceive life offspring at all, but you reborn as adults, the next day after your marriage, in fact, I have faintly felt the new life in you. “

Chen Xi’s brain was roaring, she stayed completely, she touched her belly unconsciously, there was no sign of bulging, and she had been pregnant for many years, even though it hadn’t taken shape, but her body was really gestating a mass of life.

That’s right, Chen Xi has Qin Tiange’s blood and blood, and has already given birth to a small life, but there is no sign of birth, as if it takes a long time to form.

“Sister Chen Xi, don’t do stupid things anymore, I believe that Brother Qin was not dead.” Xi Xi was firm and comforted Chen Xi, but in fact she almost collapsed.

“father!”

“Dad?”

Suddenly, in the cracks of the universe, a series of silhouettes rushed out, led by a girl with purple hair and a girl with a strange atmosphere.

The two are Ziyi and Qinglian. Looking at Chen Xi and Xi Xi, and then looking at the flesh and blood that is gradually dissipating overseas, Qin Tiange belongs.

“Father, dead?”

Ziyi and Qinglian stayed. The omnipotent and invincible father died in their eyes?

“He is dead?”

“The Emperor has fallen?”

Inside the entire universe, there is a dead silence. No matter whether it is a million people or a human race, some taboo creatures, the Xeons, are silent.

Qin Tiange's success in resolving the crisis in the universe against that awakened foreign force was tantamount to saving the entire universe.

Now, he has fallen. Natural creatures have a sad feeling, especially some ancient Xeon creatures, all silent.

"The cosmic barrier has been opened. Outside, the cosmic sea, we are free!"

"The emperor is the best, breaking the barrier of the universe for us and eliminating that threatening force. It should be respected by all nations!"

The big universe, the spontaneous worship of the nations, lifted the supreme credit for the crisis of the universe to the emperor Qin Tiange, and gave recognition to the nations.

No matter whether it is a human race or a million races, the Xeons of all parties are thinking about a question. Is the emperor Qin Tiange really dead?

#### Chapter 1027 - Multiverse

The cosmic sea is mysterious and unpredictable. It bears a multi-dimensional universe, forming a vast cosmic sea.

How to describe the sea of the universe, a big universe here is like a bubble floating in the void of the universe sea, and in the universe sea, the big universe is just a part of a huge multiverse universe, every universe is like It's a soap bubble.

Some of these soap bubbles are very far away, some are very close, and they stick to each other, as if relying on each other.

How many big universes exist in such a vast and mysterious universe, that is endless, no one can understand this.

Even the Xeon creatures who stepped out of the shackles of the universe and stepped into the cosmic sea are not clear, and even the immortal creatures that have died after being destroyed by the explosion of the inner universe have never known.

It is rumored that perhaps only the Creator can know how big the universe is.

In the vast universe, in the deep void, a large piece of colored bubbles are sticking to each other, and thousands of bubbles are entangled with each other to form a vast scene.

Look closely, these bubbles, colorful, emit a hazy light to each other, revealing the breath of a big universe.

It was one big universe, thousands of big universes connected to each other, floating in the corner of the cosmic sea, it was particularly shocking.

These cosmic bubbles seem to be devouring each other and growing together a little bit. Looking at it is incredible, some big universes have released an unparalleled horror.

Zizi ...

In this large cosmic bubble group, there are two huge bubbles, which are colliding and swallowing each other, creating a trace of horrible arcs, causing great turbulence in the universe sea.

These two universes collided, causing the void in the middle area to create an illusion of fissures, constantly interweaving, forming a terrible scene.

I saw, in those weird and terrible emptiness cracks, there was a trace of material gathering hard.

A powerful substance, like a living substance, is more like a cell, emitting a bit of light, continually converging and then converging.

Inside those materials, there was a thousand strong radiances, giving out endless power, resisting the power of nothingness and tearing.

In the process of self-repair, this strange cell gradually became stronger and stronger, exuding a strong breath of life.

As the repair of those cellular materials accelerates, a huge mass of meat slowly forms, and the huge mass of gray meat floats there.

Even the cutting of nihilism can't hurt the slightest. This cell has been forged into a more powerful form in the destruction, and nothing can be broken.

The meatballs are quaint and gray, with a strong chaotic atmosphere, constantly rolling and boiling, sending out a burst of violent atmosphere.

Click!

Suddenly, there was a crack in that gray fleshball, and a fascinating light overflowed from the crack.

These fissures are growing more and more, the light comes out through the body, as if to light up the dark universe and the void.

boom!

With an explosion, the meatball burst instantly, turned into numerous fragments and scattered, causing turbulence in the voids and cracks around it.

When the meatball exploded, a hazy figure appeared in its original location, curled up silently like a baby.

It was a young man, curled up naked, the perfect body, with a faint sound of crickets, the fissure of fissures torn apart, causing no harm.

Huh!

With that young man's eyes suddenly opened, two beams of gray light shattered the two empty cracks in front of him and burst instantly.

"I'm not dead yet ... " The young man muttered to himself, his eyes were a bit apathetic, and his consciousness gradually recovered, and countless memories poured in.

When he slowly got up and stood in this chaotic void of emptiness and cracks, he looked up and found out that this man turned out to be Qin Tiange who was swallowed and strangled by the cracks of emptiness before.

Qin Tiange's eyes glowed, and he said to himself: "I thought I was going to die, but I didn't expect to die, but was blessed by disaster, completely transformed the body and completed the immortal sublimation of cells.

It turned out that before Qin Tiange felt that he was really dying, but because there were 60 trillion small chaotic cells in his body, plus a thousand inner universes, and he had devoured the origin of an immortal.

Adding such details, really made Qin Tiange crawl back from the edge of death, and stubbornly carried it from the strangulation of the void.

As a result, a real metamorphosis was obtained. The 1,000 inner universes were completely consolidated, steadily growing, and entering the growth stage. The next step was the maturity period.

And the body's 60 trillion cells of small chaos, because they were smashed by the force of nothingness, had to fuse and devour the immortal origin, thus obtaining a new type of transformation.

He has transformed and returned from countless deaths, and has been reborn. The cells have truly immortal power and can withstand the strangulation of nothingness.

In the end, Qin Tiange survived and recovered successfully. There was inevitably some emotions in his heart, and it almost turned into fly ash.

"Here it is ..." Qin Tiange frowned, his eyes glanced around, and he was amazed to see the sparkling bubbles that were floating in the deep space of this universe.

These bubbles, he can see at a glance that there are big universes, there are so many big universes here?

Qin Tiange was shocked, because in the previous universe, he only found two universes, but he did not see a third universe nearby.

Now he saw how suddenly he came to this area, and there were 3,000 large cosmic bubbles floating here, which made him wonder.

"How did I come here?" Qin Tiange began to meditate, looking at the fissures that were constantly passing by.

He knew in his heart that everything might be related to these nihilistic cracks, and that the two huge cosmic bubbles here collided with each other to produce this nihilistic crack.

Strangely, the diaphragm between the two universes has a force to block the cutting and approaching of these void cracks, which cannot hurt the two big universes.

"No, my left eye!"

Soon, Qin Tiange felt something wrong, and there was a strong feeling on his left eye, as if he came here with this eye.

Moreover, as long as he saw the thousands of cosmic bubbles here, there was a strong feeling immediately after that silver bubble, and his left eye was stinging.

“His, is this eye related to the silver universe?” Qin Tiange covered his left eye and looked at the silver cosmic bubble in wonder.

It is hidden in many cosmic bubbles, colorful cosmic bubbles, red orange yellow green blue blue purple, and that silver cosmic bubble is related to his left eye.

Zizi!

The left eye was a little boiling, as if there was a flame burning inside, beating a trace of strange silver flames, arcs intertwined, extremely terrifying.

Qin Tiange endured the pain, thinking about it, waved his hand to break through this chaotic void of nothingness, and passed through the dense voids of nothingness.

He was flying fast, flashing in one step, disappearing in the blink of an eye in the horror zone between the two universes, and came to this cosmic bubble group.

Walking outside these bubble groups, Qin Tiange felt weird, as if these bubbles were living things one by one, and his heart was weird.

Huh!

Suddenly, there was a light and shadow flashing in front of him, which surprised Qin Tiange’s heart, and he looked up, and immediately saw a human figure crossing the nothingness from one cosmic bubble and entering another big cosmic bubble.

“That is, a cosmic powerhouse can cross the cosmic diaphragm at will?” Qin Tiange was startled, watching the fleeting light and shadow.

It was rushing out of a red cosmic bubble in front, penetrating through the void space of the universe, all the way through the diaphragm of the opposite cosmic bubble and entering it.

Seeing this, Qin Tiange was surprised and somewhat curious. What kind of cosmic group is this?

There are 3,000 cosmic bubbles here. Can they cross each other and form contacts?

Qin Tiange stood in the cosmic bubble group, silent, and suddenly observed the thousand inner universes in his body.

Looking at it, he felt as if something was missing. His inner universe seemed to have a defect, which was very different from the cosmic bubbles in the universe sea.

Hum!

Thinking about it, the original chaos in the body suddenly trembled, suddenly unfolding, filling up the entire Dantian, enclosing 999 inner universes, forming a wrapping gesture.

Sudden changes caused Qin Tiange's heart to tremble, there was a sprout of Mingwu, and a powerful aura flashed through, letting him capture something.

In the body, the primitive chaos seemed to turn into a primitive universe sea, which contained 999 inner universes, and gradually formed a close support.

boom!

Immediately afterwards, a myriad of light burst into the original chaos, turning it into gray threads, spreading and interlacing in every cell of Qin Tiange's body.

These threads seem to form bridges, together with cells, forming a mysterious shape.

When Qin Tiange woke up the whole person was silent, his eyes flickered violently, and he stared scorchingly at the deep and cosmic sea ahead.

Suddenly he felt a coolness rising from the soles of his feet, straight into the heavenly spirit, could not help but shivered, his face trembling.

**"Forget it!"**

Qin Tiange laughed bitterly, directly annihilating the thought, and turned to look at a huge silver cosmic bubble in front of him.

This is the big universe that caused his left eye to change. What kind of big universe world is in it, and what does it have to do with his left eye?

**"open!"**

Qin Tiange's expression was clear, and he raised his hand and waved it with a bang, and the silver diaphragm in front of it cracked.

With a bang, the silver cosmic bubble, the outer universe diaphragm, was penetrated by Qin Tiange, and a hole was hit.

He took a deep breath, stepped into this silver cosmic bubble, and blinked out of the universe overseas.

Chapter 1028 - Disk, killed 1 creator?

Huh!

With a crisp sound, the diaphragm of the universe cracked, and a hole was penetrated from the outside, and a person came from outside the hole.

Qin Tiange had just stepped into this universe, and before he had time to observe, he felt a strong edge locked him.

**"not good!"**

There was a murmur in his heart, his body suddenly broke out, and he thumped his arm and punched on the grey nothingness in front of him.

Hearing only a bang, Qin Tiange only felt terrible pain from his fist, his body crossed nothingness, and he broke through the layers of the universe.

He was horrified, looking at a huge axe in front of him, crossing the back, crushing all the way, so that he couldn't stop him.

"Tan?" Qin Tiange stunned, watching this horrifying axe, showing his boundless will, as if he was going to split the universe.

But what scared him most was that this inexplicable axe suddenly burst out, and it had the same breath and strength as the former Panzun.

Qin Tiange is very familiar with the power of Pan Zun, and it is natural that the axe light in front of him is the power of Pan.

But why is Pan Zun's power here?

boom!

When Qin Tiange was horrified and confused, the horror axe light seemed to turn into a delicate little axe, and struck his left eye with a single blow.

Seeing this, Qin Tiange screamed: "Great chaos, drive me!"

In a critical moment, the power of the blood in his body burst out suddenly, forming a breath of supremacy and supremacy, and forcibly stopped the condensed small axe light.

The delicate small axe stopped at Qin Tiange's left eye three inches, and was so sharp that he almost penetrated the left eye with a single blow.

Qin Tiange looked dignified, staring at a delicate axe in front of him, couldn't believe it. Is this the power that Pan Zun left in the past?

Hum!

Suddenly, Qin Tiange's left eye boiled, and a silver flame burned, turning into endless energy, bursting into a small axe with a bang.

Suddenly, as the two forces collided and annihilated each other, a wonderful change occurred, and an ancient picture appeared in Qin Tiange's eyes.

Wow!

Qin Tiange's consciousness was vague, and he felt a shocking scene with a glance.

In front of the universe, the two horrible figures confronted each other, the breath was not obvious, but it made the whole universe turbulent.

Two people, one with a stature, are very familiar with Qin Tiange's back. It is the strongest man in the old universe. The first strong man who broke through the universe.

"Dan, you've crossed the border!"

A sentence just fell off. On the opposite side of the plate, there was a horrible existence, full of silver hair spreading, piercing the barriers of the universe at all levels, horrifying silver light through the eyes, powerful and horrifying.

As if in his eyes, there are countless new births to the universe, one thought, the universe is born, everything is born, one thought is lost, the universe is destroyed, everything is collapsed.

That's the thought of the Supreme Being, Creator!

“Creator?” Qin Tiange was shocked, looking at that powerful existence, turned out to be a legendary creator.

Moreover, it seems that the disk seems to be having a holiday with the Creator. The two eyes collided and the universe vanished and nothingness was born.

“This eye ...” Qin Tiange had a pain in his left eye and couldn't help looking at the horrible creator. His left eye looked exactly like his own.

This is terrifying. Qin Tiange's complexion has changed greatly. Does his left eye really come from a creator, the one in front of him?

boom!

There was a sudden bang, and the entire universe was boiling. The endless silver river runs through the universe, breaking through the diaphragm.

The two superpowers killed the outside of the universe and fought fiercely in the universe. A supreme creator was thinking of everything.

One is the Supreme Strong from Qin Tiange's big universe. The first one who penetrated the universe and stepped into the sea of the universe, Supreme Supreme.

He was so powerful that he held a gray axe and broke all obstacles, even pressing the Creator.

Qin Tiange froze, looking at the fierce and invincible appearance of the pan, splitting the creator with an axe and axe.

The powerful fighting force exceeded imagination, and Qin Tiange now felt that he could not compete with the Creator at all.

Then, a creator can only be parried by being beaten. How strong and terrifying is he?

哐 Dang!

Looking at it, suddenly a violent collision came, Qin Tiange woke up and saw that the mysterious creator was chopped in the brain by an axe.

This axe just split the brain on the left side of the opponent, and the left eye flew out with the brain.

“Ah ... disk, you're looking for death!” The creator, mournful and mournful, looked very pained, revealing a force that created and destroyed the universe of all things.

However, they were still unable to fight against Pan Zun's mighty power, and the two battled escalated into the silver cosmic bubble again.

Suddenly, there was a horrible explosion in the universe, and then the universe was beaten with holes, and the two great terrorists killed the universe again.

Qin Tiange saw that the creator was chased to the depths of the universe and disappeared in a blink of an eye, leaving only a blurry scene.

“That eye ...”

Soon, Qin Tiange saw the half-brain of the creator that had been split off, and the eyes flew out, just engulfed by a void of the universe that was split by an axe.

Seeing this, Qin Tiange faintly realized that his left eye really came from a powerful and mysterious creator.

And this creator is likely to be killed by Pan Zun, which is a bit horrifying.

Panzun, killed a creator?

Qin Tiange was chilling, looking at the deep universe beyond the universe, thinking of the picture just now.

In the past, Panzun has been here, but also had a conflict with one of the creators here. The two fight, it seems that Panzun is a bit more powerful.

The creator was chopped off half of his brain, and his left eye flew out, perhaps, Qin Tiange's left eye now.

“The creator's eyes, no wonder they almost attracted a horrific axe slash from the old days.” Qin Tiange looked complex and looked at the broken universe in front of him.

This silver universe, fought fiercely with the Creator, was battered and wounded, and it was about to be destroyed.

Qin Tiange was a little amazed, looking at the universe's diaphragm area from time to time, flashes of terrible axe light and silver energy.

These are the legacy of the old disk and the mysterious creator. The two battled fiercely here and ended up fighting into the depths of the universe.

Qin Tiange didn't know what the creator was, he didn't die, but depending on the scene, he wasn't the opponent of the plate, maybe he might have been killed.

“what?”

With a suspicion, Qin Tiange turned suddenly and looked in one direction of the universe, where terrible waves came.

Huh!

Just hearing a loud noise, a powerful breath came from outside the barriers of the universe, and then broke through the universe diaphragm and rushed in.

Qin Tiange saw that there was a hazy figure wrapped in that power, exuding the strong breath.

It was a cosmic powerhouse, and, from the breath, it seemed to be infinitely close to the immortal class, and the universe inside it was about to be destroyed.

“It's not easy to finally find a big universe to be destroyed ...”

As soon as that creature came in, looking at this big universe that was about to be destroyed, my heart was full of excitement and emotions. It was not easy to find a big universe that was about to be about to be destroyed.

It's great luck to find one, because the universe wants to break through, except that the inner universe must step into old age, and it will be destroyed as frequently.

Then find a big universe in the cosmic sea that will also be destroyed, enter it, directly detonate the inner and outer universe, and survive under the impact of the destruction of the inner and outer universe to break through the universe and become indestructible.

This creature is at this stage. It was only after searching for a long time in the Cosmic Sea that it was finally found here, naturally a little excited.

“Well, someone?” The creature turned around suddenly, with a suspicious expression, and looked at Qin Tiange over here, only to find that someone had come here first.

In all the universe that is about to be destroyed, all the creatures in it have become extinct, or they have already migrated out of this big universe and left here.

In this universe, there is almost no life, and there is destruction and energy everywhere, and it is impossible to survive and nurture life.

“You came here to break through?” The creature stared at Qin Tiange, feeling a crisis, if anything, in his heart, he asked.

Qin Tiange thought for a moment, slightly bowed his head and said, “Yes, I just want to use this cosmic destruction power to temper my body.”

The creature was thoughtful, and the fog was all over, revealing its true body, and he nodded: “My name is Fenyi, from the Fentian Universe.”

Qin Tiange froze with his eyes and looked at the creature named Fang Yi, which was not much different from human beings, except that there was a strange mark on his forehead.

This imprint has a quaint font on it, which is the word “burn”.

“Pan?” Fen frowned suddenly, looked at Qin Tiange in suspicion, and stared at the position of his brows.

There is an ancient imprint there, a gray Mongolian character looming above it is the word “pan”, which Qin Tiange himself did not notice.

He saw Fenyi's face, his heart slumped, and his thoughts swept over the position of his eyebrows, and finally realized that there was a chaotic mark on his forehead.

This imprint may have appeared from his resurrection this time. Although strange, Qin Tiange didn't care.

“Okay This universe is still a long time from destruction, but I can't wait. I plan to directly connect my inner universe and detonate together. What do you think?”

Fen suddenly opened her mouth solemnly, looking at Qin Tiange as if asking about him.

“can!”

Qin Tiange didn't think much, nodded and agreed directly. The other party came here to break through this big universe, but he also wanted to use the big universe to destroy, so as to temper the physical body.

He felt that he could become a little stronger, provided that energy was used to temper it, and the energy generated by the destruction of a large universe was the only choice.

“burn!”

Suddenly, he screamed, and saw a burst of blazing light burst, and the self-immolation exploded inside, and that was the inner universe from his body. There were 388 inner universes, and the destruction forces erupted. Shocking.

Suddenly, the entire universe was exploded directly, forming a chain reaction, which was detonated along with the burning of the inner universe.

Chapter 1029 - Breakthrough in destruction

With a click, the cosmic barrier ruptured, and a strong light emerged from it, lighting the darkness of the cosmic sea.

Immediately after that, a silver cosmic bubble suddenly burst out with a horrible light, revealing a sense of destruction from the inside.

This breath comes from the silver cosmic bubble, and there is a force in it that caused the core explosion of the universe.

Hum!

With a strong buzz, the silver cosmic bubble suddenly trembled, contracted instantly, turned into an amazing point, and burst into an endless light.

Just listening to the roar, the cosmic sea was boiling, dozens of nearby cosmic bubbles were lifted far away on the spot, and the large universe diaphragm shook slightly.

In those universes, a natural disaster was formed like this, the sky was falling, everything was crying, as if the end of the world.

“That universe is destroyed.”

In some big universes, there are Xeon creatures looking at the universe sea, seeing the fiery light, they know that this is the destruction of the universe explosion.

The destruction of the big universe has a great impact, and it can be said to be very small. Just like now, a big universe is destroyed, and it is impossible to shake the universe sea.

The entire universe exploded, as if it were setting off a larger firecracker, which is not worth mentioning to the vast universe.

But the destructive force produced by that big universe explosion is truly terrible. Once a creature is inside that big universe, it must bear this terrible shock.

At this moment, in the exploding universe, two people are at the center of the explosion, and they are torn and crushed by the endless force of destruction.

“Roar ... Boom!”

There was a roar, and the strongest man who claimed to have burned a burst of light burst into his body.

The inner universe exploded as much as this big universe was detonated at the same time. The powerful destroying power generated by it, acting internally and externally, instantly shredded his body.

This is the practice of cosmic class. It must go through the destructive impact of the internal and external cosmic explosions and withstand it in order to obtain a kind of sublimation.

“This is the new life in the destruction, get immortal?” Qin Tiange said to himself, watching the burning of the universe and the force of the explosion of the universe outside the impact of each other directly into endless powder.

The intense explosion even made Qin Tiange feel a threat. The blazing rays of light were explosions within the universe, and they were directly destroyed.

Uh ...

Qin Tiange’s body shook, his armor shattered, revealing his perfect body, and he was being strangled by a force of destruction, making a loud noise.

His body has undergone a metamorphosis, stubbornly surviving and becoming stronger under the strangulation of the nihilistic power of the universe.

Even the destructive force of the big universe explosion could not cause him a scar, but it had a powerful tempering effect.

In Qin Tiange’s body, 60 trillion cells are devouring boundless destruction power, tempering the body and becoming stronger.

Hum!

I don’t know how long in the past, Qin Tiange just felt shocked, countless cells trembled, and burst of joy.

Immediately afterwards, all the cells in the body fell into a kind of amazing metamorphosis. The original small chaos of the cells turned out to have a powerful force in many places.

That is the power of destruction from the universe. A universe is destroyed, and the power produced is extremely terrible and weird.

However, there is also a new life in the destruction. The force of the new life was captured by Qin Tiange, absorbed into the cells one by one, tempered and strengthened, and stepped into the true immortality.

boom!

At this moment, a violent energy boiled in the distance, Qin Tiange looked for a surprise, and was surprised to find that a strange energy substance suddenly appeared in the area where he originally burned.

This energetic material, fast intertwined and flying, bears the strong tear and impact of the inner and outer universe in that area.

Seeing this, Qin Tiange basically understood that it was the mental will of Fen Yi, as well as the cellular material of the body, and he was tenaciously insisting on it.

“Burning the universe group, burning one?” Qin Tiange said to himself, watching the continuous accumulation of life matter.

There was a ray of indestructible force that had withstood the destruction of the internal and external universe, and a new ray of indestructible force generated after the internal universe exploded was slowly allowing the burning to recover.

Soon, a blurry figure gradually emerged, hazy, and the breath became heavier and heavier, surpassing dozens of times and hundreds of times before.

Click!

A crunching sound came, if any, and Qin Tiange knew that the burning broke through, successfully breaking the universe level, and stepping into the indestructible level.

The immortal class of living things is how to practice breakthroughs in this way, and there is great danger, because if the breakthrough fails and cannot withstand the impact of the destruction of the internal and external universe, it will disappear with the destruction of the universe.

“I, it’s successful!” Burning muttered to himself, opened his eyes, and two beams of godly energy tore the chaotic energy.

His body quickly developed a suit of armor, and then he turned and looked at Qin Tiange. His pupils suddenly shrank, and he almost thought he was wrong.

“Have you succeeded?” Fen was surprised and taken for granted.

He felt that Qin Tiange was very dangerous. He thought he had made a breakthrough, and the other party might not be able to break through, but he did not expect Qin Tiange to stand there intact.

The impact of the big universe explosion could not pose a threat to him at all, but what puzzled him was that Qin Tiange didn’t seem to break through the indestructible level.

“I’m just tempering my body, and I haven’t broken through the indestructible level.” Qin Tiange said lightly, as if he was not afraid of exposing himself.

However, this made Fen horrified, her pupils contracted, and Qin Tiange was looked up and down. The more she looked at her, the more she trembled in her heart.

“I haven’t broken the indestructible level yet? Why can’t I see him through?” Fen was shocked, some couldn’t understand, the only explanation was that the other side was far more arrogant than him.

A cosmic powerhouse who has never broken through is so immortal to a powerhouse that is indestructible. It is extremely dangerous.

“Yes, how do you call you?” Suddenly remembered, Qin Tiange did not know the origin and some information.

“My name is Qin Tiange, I am from Pangu Universe ...” Qin Tiange thought for a while, and suddenly said such a sentence.

“Pangu Universe?” After burning, he frowned slightly, watching the mark on Qin Tiange’s eyebrow, and the simple “pan” word flashed. Seeing this, he thought, as if he understood something.

At this time, Qin Tiange was looking at the surrounding collapse of the collapsed universe, and the core of the universe that could not be sensed was exposed.

“The core of the big universe ...” Qin Tiange blinked his eyes. For the origin of the core of the big universe, he definitely coveted it.

Now that this big universe is destroyed, the core origin of the universe is immediately exposed, naturally attracting Qin Tiange’s attention and eyes.

“The core origins of the universe seem to be another fierce battle.”

Burning oneself to himself, looking at the core of the exposed big universe, where the origin of this big universe, began to fall into an explosion.

If you want to capture the core origins of the Big Universe, you must take advantage of it now, and once you miss it, there will be no chance, and this origin will directly dissipate.

boom!

Sure enough, outside of the explosion torrent, there was a sudden violent sound, a powerful force shattered the barrier of the destruction of the universe and rushed here.

It was an immortal creature, which directly penetrated the cosmic diaphragm and rushed in. The huge body pressed the force of the cosmic explosion to a standstill.

“The core source, the deity is here, the two of you will leave immediately!”

The immortal creature, the head of a human bird, spoke such a threatening word, his eyes revealing an astonishing fierce light.

It turned out to be threatening Qin Tiange and Fen Yi or two, not to mention that Fen Yi had just broken through the indestructible level and was not afraid of the other side, he said that Qin Tiange himself was looking at each other with a strange look.

“Immortal bird, you want to swallow it alone?”

At this moment, another powerful force penetrated the barrier of destruction energy of the universe, came in from the outside, and the words were gloomy and indifferent.

Qin Tiange looked for a look, and saw a powerful creature with four eyes appearing here, exuding a powerful breath.

This creature has two pairs of eyes, a pair of scarlet and a pair of pale, giving an extremely eerie feeling.

“Four eyes, do you want to die?” The immortal creature in front of the human bird roared, eyes staring at the coming four-eye creature.

It is also an immortal creature, and it is here to rob the core of the universe.

“interesting!”

Burning a sneer, a flash of a sudden, the whole person disappeared. As soon as he moved, someone was faster than him, Qin Tiange stepped into the core origin area of the universe.

He raised his hand and grabbed, a strong suction came, and separated a large number of core sources on the spot, suppressing the seal.

“presumptuous!”

“You look for death!”

Immortal birds, four-eyed creatures were angry, watching Qin Tiange and Fenyi went straight to action, it was furious.

Two immortal creatures came together to kill each other, and one of them struck Qin Tiange in the strongest blow.

The other one, the fierce dynasty annihilated the past, and began to kill.

boom!

A violent explosion came, Qin Tiange fisted out, and instantly knocked out the four-eyed creature, unmatched.

He suppresses the origin of the universe with one hand, robs the core, while raising his arms, he punches at the four-eyed creature.

“Roar ... I want you to die!”

The four-eyed creature roared The two eyes were burning together, and a vast force emerged from the body, turning into a strong blow to Qin Tiange.

That terrible blow contained the full power of the immortal, and even the rays of light emanating from both eyes were full of evil and death.

Faced with such a powerful method, Qin Tiange finally took it seriously, a thousand internal cosmic forces in his body burned together, punched and punched through nothingness.

With a squeaking noise, the power was directly blasted, the punch was soaring, and it penetrated through nothingness, creating a terrible void of nothingness.

Huh!

When I saw my fist hit, I heard a scream from the four-eyed creature, his head sunken, and one of his eyes was blown with a punch.

“what...”

With a scream of screaming and screaming, I was awakened by the fierce battle of the burning and immortal birds, both looked over and saw an extremely scary scene.

## Chapter 1030 - 1 drop of blood, the mind of the Creator

At the center of the big bang, Qin Tiange was waving his fist, punching one punch in the body of the four-eyed creature, and each punch contained an unparalleled power.

There is a thousand universe explosions inside, and the body's 60 trillion cells are indestructible, erupting into a super-horror force.

Under Qin Tiange's fist and four palms, the four-eyed creature was beaten into a flowered head, his body was broken, his arms were broken, and his entire body was dismantled.

boom!

With the final punch, the four-eye creature's body was completely shattered, and turned into countless flesh and blood flew apart.

The immortal force made these fragments want to aggregate and repair, but was ruthlessly crushed by Qin Tiange and smelted into a mass of immortal origin.

Soon, the four-eyed creature was killed by Qin Tiange in this way, and then smelted and devoured. The whole process was crisp and clear, as if it had been done countless times.

“Mum!”

The immortal bird swallowed, his eyes widened, and looking at Qin Tiange over there, he was a little scared and covered with hair.

It was terrified. With four eyes, it could be said that it was a strong man of one rank, but it was killed by Qin Tiange when he said he was slaughtered.

Moreover, it was directly smelted and devoured, which was shocking and horrifying. They dare to swallow it, aren't they afraid that the power inside them will run away?

“Damn, how come the monster?” The immortal bird was a little horrified, stepped back a little, grabbed a core source, and immediately turned away.

It wanted to compete, but Qin Tiange's performance was too scary, and he killed an immortal within a few seconds.

That's indestructible. Although there are strengths and weaknesses, you are too horrible, killing and devouring directly, like killing chickens.

“Running fast ...” Qin Tiange watched the fleeing indelible bird and shook his head secretly, naturally he didn't have the heart to hunt.

He just swallowed the four-eyed creature. The immortal source needs careful refining. The next thing to do is to constantly break down the cell level.

Qin Tiange wants to break down the level of his own cells and transform all cells in the body into one real universe.

That's right, his idea is to upgrade all the cells in the body to the universe.

A cell is a universe. Such a scene makes people feel as if they are in the cosmic sea, facing an endless universe of bubbles.

Hum!

At this time, a mysterious light burst out in the core of the universe, which caught Qin Tiange and Fenyi's attention.

The two looked at each other together, and they saw a silver mang running through, tearing the core barriers in an instant, trying to escape into the universe.

“Suppression!”

At the close of the moment, Qin Tiange pressed down with a palm cover, and his palm was full of gray chaos, directly suppressing that light.

He was horrified because the appearance of that light caused the vibration and boiling of his left eye, so that he suppressed the silver mang without hesitation.

“This is ...” Over there, Fen saw Qin Tiange's suppression of this mysterious light, and did not care and came to snatch.

One is Qin Tiange's mighty, who just killed an immortal creature and dares to come up to it.

However, when he saw Qin Tiange's squash of silver light on his palm, the whole person was stunned.

Qin Tiange grasped a strong light, shining brilliantly, revealing a supreme ancient charm, overwhelming.

He stared at the silver light in his palm, his pupils contracted again and again, and he couldn't help but be surprised when he saw the origin of this thing.

“It's impossible for the creator's breath ...” Qin Tiange was surprised, watching this group of things that were constantly boiling and glowing.

If you look closely, it's a fist-sized liquid, crystal clear, silver-white, as amazing as a ball of mercury.

What's more shocking is that this mysterious liquid exudes the breath of the creator, making Qin Tiange's heart beating.

From this breath, he felt the creator who had a holiday with Panzun in the old pictures he saw before.

Buzz!

Qin Tiange's left eye was beating, a scorching silver flame bloomed, and he even caught the silver blood directly.

It was a drop of blood from the Creator, containing the supreme power of the Creator, and the understanding that belongs to the Creator.

What is the Creator, the Creator of the Void, the thought of all beings born of the universe, the thought of everything, the universe falling, this is the Creator.

The Creator, who can create everything in the universe, is the true Creator. Qin Tiange can't do anything in the inner universe to create the universe.

This is the gap, the means belonging to the creator, will not be not, so Qin Tiange has a strong curiosity about the creator.

"A drop of blood from the Creator is exactly the same. Let me peek into the mystery of the Creator." Qin Tiange said to himself, quickly collecting the blood of the Creator.

Over there, Fen Yi awakened from shock, and looked at Qin Tiange's eyes differently, whether it was his left eye or just the drop of horror blood.

"Creator, that's the breath of the Creator." Fen was horrified, convinced that there was nothing wrong with her induction.

The breath that belongs to the Creator is extremely unique. As soon as any creature sees it, there is an instinctual induction, that is, the Creator.

"Qin Zun, this time to complete the breakthrough, I should also leave!"

Fen Yi directly and simply said goodbye, and did not have the idea of robbing Qin Tiange, and he did not dare.

He is not stupid. Qin Tiange's strength was witnessed by his own eyes. He slaughtered an immortal four-eye creature and swallowed it directly.

But now, Qin Tiange has some connection with a creator, which can be seen from his left eye, as well as a word from his brows.

These, in the universe, can be said to have absolute identity and background representation.

"If Qin Zun arrives at the Celestial Universe one day, he can always look for me." Ci Yi smiled and nodded, turned and shattered the barrier, stepped into the universe and disappeared.

Watching him leave, Qin Tiange's silent contemplation has a lot of curiosity about this sky-burning universe.

The so-called universe group is like the cosmic bubble here. Many large universes are gathered in one area, which is the universe group.

"The universe group is interesting!" Qin Tiange smiled gently, watching the core of the big universe completely destroyed, everything disappeared.

When all the energy was dissipated, Qin Tiange also appeared in the cosmic sea, in a hollow, empty void.

This is the void created by the destruction of the universe, standing here, as if to be assimilated into nothingness.

Qin Tiange did not leave, but stayed in the void of nothingness. Looking at the cosmic bubbles in this cosmic sea area, he did not rush into one of the big universes.

Instead, he stayed in this void of nothingness, sitting cross-legged, leaving nothing to entangle his body around him, completely covering his tracks.

**“What secret is in the blood of the Creator?”**

Qin Tiange’s eyes flooded, staring into the palm of his hand with a violent burning boiling blood, a drop of essence blood from the former creator.

At that time, the creator was severed by Pan Zun, and one of the eyeballs fell into a void and disappeared.

And there was a drop of essence blood that fell into the big universe, which was hidden in the core of that big universe, because the supply of core origins did not annihilate.

Now, this drop of essence blood belonging to the Creator has been obtained by Qin Tiange. It is precisely to glimpse the Supreme Mystery of the Creator.

**“Refine!”**

Qin Tiange drank, and a raging flame burst into the primitive chaos in the body. The primitive chaotic fire boiled and burned, directly enclosing the droplet of the creator’s essence.

The powerful essence contains the supreme power of the Creator. Even if it is just a drop of essence, it still causes great trouble to Qin Tiange.

Qin Tiange was shocked that the power belonged to the Creator and could not be suppressed or even refined.

Could n’t the Creator eat it? Qin Tiange was weird, but he didn’t believe it, even if he was the creator, he could devour it.

**“Left eye!”** Soon, Qin Tiange thought of the key, this drop of blood was being protected by a mysterious force wrapped in the left eye.

Thinking of this, Qin Tiange understood that if he wanted to smelt the essence of the creator, he must solve the energy of the left eye.

**“It didn’t belong to my eyes, but now it has become a part of me and belongs to my Qin Tiange.”**

Qin Tiange murmured to himself, his eyes glowed with scorching light, and a blast of flames burst into his left eye, boiling and burning.

He firmly believed that his left eye had already been integrated into his own eyes and became a part of his body, naturally unhappy and unable to control.

**“Open!”** With a low drink, Qin Tiange gritted his teeth and dissolved his left eye directly on the spot, instantly turning into a silvery substance.

This substance is exactly like the blood of the creator, as if it contained the blood of the creator.

The two strands of silver matter suddenly pulled towards each other, and a mass of the blood of the Creator floating outside poured directly into Qin Tiange’s left eye.

boom!

Suddenly, Qin Tiange felt only an endless majesty, and the power of terror was surging and suddenly burst into his head.

In the sea, a dim shadow emerged, powerful and supreme, exuding a great breath of the Creator Ru ... “That figure, just about to speak, but just spit out a word, just The true spirit of Qin Tiange was severely punched.

With a loud bang, the creator’s phantom caused Qin Tiange’s true spirit to pierce, the body flickered and flickered, and then quickly recovered.

“It’s just the will of a creator, watch me kill you.” Qin Tiange drank, the spirit was shining, and suddenly turned into a towering giant.

Behind him is a vast and primitive chaos, with endless primitive power and endless will from all cells of the body.

“kill!”

With a loud shout, Qin Tiange launched a killing to kill a will remaining in the blood of the creator.

The will that belongs to the Creator, although only one, possesses unparalleled strength and power.

The next moment, Qin Tiange knew the chaotic battlefield of the sea, and the two Xeon had a fierce battle. What was shocking was that the idea of the Creator had such a terrible power?
