

## Dark Ages 110

### Chapter 110 - Spider sperm?

On the platform, Liu Yan and others were here to defend, but suddenly they saw Qin Tiange and others rushing down, and they were instinctively shocked.

“Spider?”

Soon after, they saw a large crowd of spiders crawling down the elevator entrance of the first floor of the subway, one after another, the scene was extremely scary.

Tamarix was so white that she was so scared that she screamed, “Get in, get in!”

As the voice just came down, the guards who had gotten out of the car immediately moved, quickly turned and rushed into the compartment, and didn’t want to stay for a moment.

At this time, Qin Tiange and others rushed over, but the spiders behind were not slow, swarming up in groups, and continuously blasted with spider silk, sticking many people.

“Go ...” Qin Tiange screamed angrily, took out a white phosphorus incendiary bomb, turned and pulled the ring severely.

He listened to the loud noise of “Boom”, and the yellow-and-white flame instantly rose several meters high, and then spread out in all directions, forming a massive fire.

Suddenly the white phosphorus fire burst out, causing a large number of spiders to be burned, sternly mourning and struggling, blocking their pursuit.

White phosphorus incendiary bomb, the explosive force is not strong, but the flames are particularly horrible and the water cannot be extinguished. Many of the huge spiders that caught up were burned on the spot.

Hiss!

When Qin Tiange and others took the opportunity to step on the train, a horrible hissing sound came from the inclined elevator leading to the subway, extremely sharp.

Qi Qin Tiange turned and looked, his face changed, and he saw a huge spider crawling down the elevator.

“That’s ...” Moda and others turned around and looked scared, frightened.

Huh!

The huge spider leaped down, and with a loud noise, there was a slight vibration on the ground. One can imagine how huge the spider was.

Eight giant furry feet, four meters long, with sharp and hard claws, five feet long and three meters long, tusks valgus, eight huge eyes staring at this People on the edge.

“Ga, scared the baby!” In the car, the mutant parrot widened his eyes and stared at the huge spider, apparently frightened.

“Wo ㄣ, is this a spider?”

On the train, the crowd panicked, staring at the horrible spider one by one in horror, couldn't believe his eyes.

Someone was scared and exclaimed, “Oh my god, what kind of monster is this?”

“Spider Essence? What about filming?”

With a loud scream, with endless horror and fear, it is not difficult to imagine how amazing and terrible the spiders they saw.

What they couldn't believe was that behind the spider's eight eyes, a head, a human head, grew.

Nothing wrong, it is a human head with a pale face, white eyes and no pupils, but it can be seen that it is a woman's skull.

Murmur!

Nie Teng secretly swallowed and spit, horrified: “Wo Ri, are there really spider spirits?”

“Help ... Help ...”

Over there, the head that grew on the spider's forehead opened his mouth and unconsciously uttered a cry for help, chilling.

It turned out that the cry for help came from the woman's head, but how could this be possible?

“Qin Qin Qin Qin, isn't this really a spider's essence?” Moda was stunned, and he couldn't help it.

Qin Tiange, who was walking aside, woke up with a slap and slap him, and drank, “What else are you going to do? Hurry up the car and run away. Can you wait for that spider to catch you as a spouse?”

“Wo-Yi, spouse?” When Moda heard it, she felt cold and couldn't help but glance at the huge spider, two heads, a stingy spider's head, and a human woman's head.

When Guang Guang thought about Qin Tiange, would that spider really catch a man as a spouse?

Hiss ...

At this moment, the woman who asked for help suddenly raised her head, opened her mouth wide, and then issued an extremely sharp and terrifying cry.

A powerful sound wave slammed in, the sound was rolling, making the ears blast, and the glass of the train compartment had cracks, which was very scary.

“Run!” Qin Tiange horrified, yelled, and ran away.

At the same time, Moda and others were sober at the same time, and they could not care about ear and nose bleeding.

Alas ... another sharp cry came, and I saw countless huge spiders going crazy, rushing towards the starting train.

The scariest thing is that spider with a woman's head, Sen Bai's eyes bloomed with a gleam of green light. Then, it lifted the huge rear tail and shot a thick white silk.

With a click, the train was stuck.

"Your sister ..." Qin Tiange looked at the stuck car door and cursed, as he was about to cut off the thick spider silk of this arm, but saw more white silk blasting and sticking. On the train.

The moving train was stuck by these spider silk, and the speed slowed down.

"Oops, the train is stuck!"

"It's over, it's over!"

The crowd on the train was extremely frightened, one by one panicked, watching more and more spider silk coming out of the windows around them, stuck the train, and everyone couldn't help panic.

boom!

Suddenly, a loud noise came, waking up the crowd in panic, and then, they saw Qin Tiange carrying a huge sniper rifle and firing three consecutive shots at the largest spider.

Plasma bullets exploded and exploded in the spider's forehead, causing huge damage, directly blasting a huge wound, and a large stream of dark green liquid flowed out.

Hiss!

I was hit, the spider spewed a roar, and the woman's head was facing this way, making a terrible roar to Qin Tiange.

"Hum!" Qin Tiange snorted coldly, raised his gun and aimed at the head, and the plasma bullet burst out, blasting one of the eight eyes on the spider's forehead.

"Train conductor, the car is stuck, what should I do?"

At this moment, in the cab, Wu Xinlan's forehead was sweating a little, and her heart was extremely nervous.

The train captain was still calm, operating the train to accelerate, and drove out of the subway station a little bit into the tunnel ahead.

"Damn ... \*\*\*\* ... hiss ..."

A loud roar came, and the spider's head spoke, and she stared at the white eyes and stared at Qin Tiange.

"You, hurt me ... I'm going to die!" Word by word, the words are not very clear, but it can make people understand her meaning vaguely.

This is a true mutant spider essence, but why grow a human head?

As soon as I heard the words, I saw the head opened his mouth and burst into a dark green liquid towards Qin Tiange.

This dark green liquid, accompanied by a thick poisonous silk, was extremely fast, and penetrated the closed car door.

I saw a click, Qin Tiange ducked to avoid, and as a result, the train was punctured, the dark green gas rose, and the steel was corroded and burned.

“So fierce toxicity.” Qin Tiange looked at the door of the train through the corrosion, his face was slightly cold, and his heart was cold.

Although he is not sure what level this mutant spider is, at least he feels that he is definitely not the opponent of thousands of mutant spiders, let alone a terrible spider spirit.

“Ah ... save me ...”

Suddenly, a man in the train screamed, and everyone turned around and looked at each other in fright, and watched as the man was stuck by a thick spider silk and pulled out of the train.

At the same time, thousands of huge spiders are constantly spinning, entangled with the moving train, entangled layer by layer, pulling the train to keep it from leaving.

A large piece of spider silk stuck to a carriage on the back of the train, which caused the train to not enter the tunnel, and the situation was extremely critical.

“Ten Ge, what should I do?”

On the car, Liu Yan and others looked anxiously, looking at the last car being wrapped in dense cobwebs, and watching the train was about to enter the tunnel, then it was safe, but now it made everyone in the car nervous , Terrified.

Faced with the critical situation at hand, what should they do?

“Unhook, take off the last compartment.”

After Qin Tiange said slowly, he took out the electromagnetic light blade and hurried forward, and came to the place where the last carriage hook was connected.

His eyes were cold, staring at the carriage stuck by the spider silk, holding up the electromagnetic light blade, and chopping fiercely towards the successive parts of the carriage hook.
