

Dark Ages 111

Chapter 111 - The body is hollowed out?

A loud noise!

The last compartment suddenly disconnected, was wound by numerous spider silks, and then collapsed and flew up, hitting the platform heavily, crushing a lot of spiders.

Hiss!

The pupa mother screamed angrily, and the eight giant feet madly drove away, chasing after the train that disconnected the carriage, and the human head made a terrifying howl.

“No” A high-decibel screamed and rolled down the tunnel, shaking Qin Tiange, who was standing at the tail of the train, with a pale complexion and buzzing.

“Finally got rid of ...” Qin Tiange watched the spider mother howling madly in front of the tunnel, and felt relieved, but fortunately got rid of the spider silk entanglement, otherwise they would face the crazy hunt of countless mutant spiders .

Creak ...

Stuck on the top of the car, a few crawling sounds came and saw a fist-sized spider crawling in from the back of the car.

Although got rid of those spider silk entanglements, a large number of spiders just climbed the train just now, the size of fist and the size of the washbasin are all looking, it looks hairy.

“Ah ... save me, save me ...”

Inside the train, suddenly someone screamed in panic, everyone turned and looked around, and was shocked to find that a middle-aged man was actually hugged the door by a basin-sized spider, sharp fangs bite wildly, and fangs poured in. Got venom.

Suddenly, the tall middle-aged man fell down on the spot, his body twitched and there was no movement, and shock passed.

“Spiders, lots of spiders, run away!”

Someone was frightened and screamed, but before he ran away, he was slammed with a foot, and he slammed directly into the corner of the train, passing out on the spot.

“Clean up the spiders on the train. Whoever dares to scream and run around will break me.”

Qi Qin Tian Gehan came up with a face, his eyes sharply swept through the crowd who were disturbed in the presence, one by one the horrible glance, immediately lowered his head, did not dare to look at each other.

Just now the man was kicked by him and stunned directly. This kind of person who only knows the panic and fear can easily cause the team to panic.

“Troop, follow me!”

Xie Nieteng had the fastest speed, and led the 100th person in the trapped camp to disperse immediately, and began to clean up the crawling spiders on the train.

As for the ordinary people, their fears were shrunk together, and no one dared to scream and fumble easily, which would cause Qin Tiange’s anger.

At this time, Liu Ye took a group of girls, holding steel crossbow, to clean up a basin-sized spider.

As for the fist-sized larvae, they were eaten by a fat parrot, yes, they were eaten.

“Quack, delicious, delicious ...” At the end of the train, a colorful parrot cheerfully eats a fist-sized small spider.

I swallowed it bit by bit, and didn’t care if the spiders were poisonous. I even saw basin-sized spiders swooping on them. Two sharp claws were pressed hard, and finally they were pecked to death with a steel-like beak.

Soon, the spiders who climbed the train were cleaned up, and the panic crowd finally quieted down. Everyone knows that it is safe for the time being.

“Brother Qin, the spiders on the train have been cleaned up!”

Xie Nieteng, Moda, Liu Ye, etc. came to report that the spiders on the entire train had been cleaned up, and none of them remained.

I watched the mess in the carriage, there were spider silk everywhere, and the disgusting mucus spilled all around, on the seats, on the floor, on the windows, everywhere.

蜘蛛 The body of one spider after another, some still squirming, as big as a washbasin, and as small as a fist, people can’t believe it.

I looked around and Qin Tiange instructed: “Liu Yan, wait for you to dig out the silk sac and poisonous sac inside the spider, and throw it away.”

“I see!” Liu Yan responded and took a group of girls directly to clear the silk sac and poison sac of the spider’s body.

When Qin Tiange was about to go to the train cab, Long Xiaoya hurried up and whispered.

“Tian Ge, there is a person over there ...” Long Xiaoya took Qin Tian Ge to one of the carriages.

There are more than forty people here, all pale and frightened, all looking at someone in the corner of the carriage.

“啊 ... save, save me ...” That man, in his twenties, was crying and rolling on the ground, his face wrinkled into a ball.

“What happened to him?” Seeing this, Qin Tiange frowned slightly, feeling a little strange.

Xiao Long Xiaoya explained softly: “We don’t know, he was not bitten by a spider, but just yelled suddenly, and then rolled back and forth on the ground, very painful.”

“Look at him, there seems to be blood leaking out, is there any poison?” Long Xiaoya said, puzzled.

Qi Qin Tiange walked up quickly, squatting slightly, his eyes twinkling, staring at the man who was rolling in pain in front of him.

“He was not poisoned, but his body was hollowed out.”

I looked at it carefully, Qin Tiange suddenly said such a sentence, it was astounding, unknown, and even looked at each other.

“What did he say? His body was hollowed out?”

The people in the carriage were stunned and thundered by these words. They couldn’t help voicing in their hearts, and looking at the man’s pain, it didn’t look like his body was empty.

Xiao Long Xiaoya stunned, and asked unclearly, “Tian Ge, what do you mean that his body was hollowed out?”

“Ah ... it hurts, it hurts ... save me, please save me.”

At this moment, the man suddenly became manic, with an expression of horror, looking extremely terrifying.

Qin Tiange took a step back, shook his head gently, and regretfully said, “I’m sorry, I can’t save you, I can’t save your body. I have no way to save you.”

“No ... you lied to me, you will not die if you die.” The man growled wildly, his body rolled a few times, his head hit the train’s seat in pain, the blood was dazzling.

“what...”

Suddenly, a terrified scream came, and he was surprised to see that the man suddenly burst a blood flower on his chest, and then something inexplicably moved under the skin of the body.

看 “Look, it’s coming out!”

Qin Tiange’s eyes narrowed, and there was a certain kind of affirmation in his words, as if he knew what would happen next, which was very puzzling.

Long Xiaoya next to her sister wanted to ask, but the next scene scared her.

boom!

Inexplicably, the man trembled, his chest suddenly ran away from a blood hole, and he faintly saw something moving inside.

“Uh ... uh ...” The man’s body continued to tremble, his mouth grew, and black blood spit out with a guts of his internal organs, which was terrifying.

After that, a white shadow burst out of his mouth dancing wildly, scaring many people in the compartment to scream on the spot.

“This is ...” Long Xiaoya was shocked, and stepped back instinctively.

She saw that a horrible thing crawled out of the man’s mouth, white and slimy, and his head was full of dense teeth.

“This is a parasite!”

Qi Qin Tiange said the origin of this thing expressionlessly. It turned out to be a parasite, a tapeworm.

When Xiaolong Xiaoya heard it, she became cold all of a sudden, and said coldly, “You mean, this thing with a thin arm is actually a maggot parasitic in the human body?”

“No, no, no more than one!” Qin Tiange shook his head slightly, raised his finger to the dead man’s body and said, “Look carefully, there are at least ten such parasites in his body. You’re short. “

Murmur murmur ...

As soon as the chanting voice came down, a cooing came, and saw the man’s body suddenly dig out a huge number of things, count them, there were as many as ten.

These are parasites. They are extremely thick. The smallest one has the thickness of an arm, five meters long, with its head high, an open mouth, and sharp teeth with bright colors.

Terror!

Everyone was stunned, watching the ten huge parasites crawling out of the man’s body, one by one with incredible faces, wondering how a person’s body could parasite the thickness of ten arms, five meters long insect?

Hiss!

The thickest parasite suddenly raised its head, opened its mouth wide, and made a terrible hissing noise at Qin Tiange and Long Xiaoya, then swooped up.

“Look for death!” Qin Tiange snorted, his feet didn’t move, and he raised his hand to cut it across.

Chapter 112 - Coming soon

I saw the blade of light flashing, a snake-like head “dropped”, gushing out a disgusting mucus.

The mutant parasite was chopped off its head and twisted wildly, but it soon disappeared.

Humph!

Qi Qin Tiange snorted softly, watching nine huge parasites crawling out, raising his head, opening his mouth wide, and fangs chilling.

Although it seemed terrifying, these parasites were quickly chopped and killed by Qin Tiange one by one.

“Ten parasites, how long has this person not been worming?” Turning off the electromagnetic light blade gently, Qin Tiange muttered with a crooked head.

Long Xiaoya looked pale and yelled, “God ... God, do you think these parasites will actually mutate?”

She is worried that it is not unreasonable. In modern society, who has no parasites in her body? Especially those who like to eat raw meat have the most parasites in their body.

Now seeing this scene, doesn't it mean that as long as people with parasites in their bodies will encounter such a horrible situation?

“In fact, you don't need to worry.” Qin Tiange saw her worry, and then explained: “Our human body has a mysterious magnetic field, which can block the dark energy floating around and not be absorbed and mutated by parasites in the body.”

“That was the case.” Long Xiaoya was relieved after hearing what he said, “But what about this man?”

Her question is that all the people in the car are most concerned about. Why is this man suddenly eaten by the parasite and eaten all the internal organs?

Even Moda and others who came to hear the sound of shock were so shocked that they couldn't speak, almost wondering if there was a mutation of this horrible parasite in their body.

Qi Qin Tiange groaned, explaining: “In general, as long as the parasite does not absorb the dark energy of the universe, it will not mutate like those animals, but once it has absorbed it, it will look like this.”

Qin Tiange said, while observing the deceased man, he faintly guessed what he knew and why the man's internal parasites mutated.

He thought for a while, then said: “I guess this man is likely to eat something with dark energy ...”

“Yes, I saw him eating a strange crystal.”

At this moment, a middle-aged woman affirmed in the seat not far away, her words confirmed Qin Tiange's guess.

He took out a brain crystal and asked, “Are you talking about this crystal?”

“Yes, yes, that's it, I saw him eat it.” The middle-aged woman nodded as soon as she saw the brain crystal, admitting that the man just ate it.

“I can really think ...” Qin Tiange shook his head gently, looked at the brain crystal on the palm of his hand and said, “This thing is rich in dark energy, but it must not be eaten.”

Brain crystal is a kind of crystal nucleus produced in zombies or mutated organisms. It contains rich dark energy in the universe, but humans can never eat it.

“Why can’t we all eat?” Liu Yan came up and asked curiously.

She was curious, why Qin Tiange said that she could not eat, but she seemed to remember that she seemed to use this brain crystal to blend the enhanced version of the hardened medicine.

Qi Qin Tiange looked at the curious crowd around him, but didn’t say much, just explained briefly.

“Dark energy in brain crystals cannot be normally absorbed by our bodies, and must be neutralized and melted before being absorbed.”

He said a sneer appeared at the corner of his mouth, and said, “If you swallow it directly, your body has not absorbed it, it will be absorbed by the parasites in your body, and then you know.”

“What should we do, who doesn’t have a few parasites in the body now?”

Someone panicked and began to feel uneasy.

In this era, due to diet, almost everyone has more or less parasites in their bodies. Isn’t this a time bomb every day?

“You have taken the hardening agent, there will be no parasites, so you don’t need to worry.” Qin Tiange waved his hand and did not want to say more.

Then he turned to Morda and instructed: “Everyone is gone, what should you do, and you should always be vigilant.”

After speaking, Qin Tiange stopped paying attention to the crowd and instead came to the cab of the train, just seeing Wu Xinlan going out.

“Tiange, you are here just right, I was just looking for you.” Wu Xinlan saw his face look happy.

“Find me something?” Qin Tiange asked as he walked into the cab.

Wu Wulan looked up at him and said, “It’s not that I’m looking for you, it’s the train conductor who’s looking for you.”

哦 “Oh, train conductor, do you have anything to do with me?”

Stepping into the cab, Qin Tiange came to the long side of the train, watching his skilled operation, and thinking about the destination of the trip.

At this time, the train conductor turned around and said, “Tian Ge, you can reach the city center in forty minutes, but ...”

He paused while talking, and didn’t continue, it seemed to be a little hesitant. Upon seeing his face, Qin Tiange understood that he must have encountered a problem.

Sure enough, the train conductor next stated the reason: “There is a big problem. At present, the power supply of the track grid is getting weaker and weaker, and it is likely that it will not be able to drive to its destination.”

“Electricity ...” Qin Tiange sighed inwardly, but helpless, this is a problem. The subway needs electricity to drive it, but now the seventh day has passed, and some power grids have been completely cut off.

The subway still has an independent power supply, which can maintain it to the present, but the situation is still not good at present.

In the cab the three were silent, and no one spoke.

Qin Tiangom silently thought, and then made a decision in his heart, he said: "The train captain, speed up, no matter what we encounter, we can't stop next, give me all the way, how fast to drive."

"it is good!"

The train conductor should come down without much thought. He also knows that the situation is a bit subtle. Once the power is completely stopped, the train cannot start.

There are a dozen stops in the next journey, but parking is impossible. Even if there are survivors at these sites, it is impossible to stop and rescue them.

Time passed little by little, the train was speeding rapidly on the track, the speed was astonishingly fast, and it has reached the maximum speed that the subway can reach.

By the window of the car, Qin Tiangoe silently looked at a subway station passing by, and roared in hordes.

Some sites do not have zombies, but there are a large number of mutant mice, or in the long dark tunnel, there are mutant cockroaches everywhere.

Even when passing a station, Qin Tiange saw a group of survivors, but unfortunately the train could not stop.

"Tian Ge, after this Shenzhen City North Station, two more stops ahead will be Lianhua Mountain ..."

Looking at the electronic map, Wu Xinlan, the beautiful flight attendant, whispered, telling him to reach the destination in two more stops.

Yes, Qin Tiange's destination is a large park in the center of Shenzhen, Lianhuashan Park.

Lianhua Mountain is the final destination of Qin Tiange's trip. It was a plan he had set a long time ago, and he is about to arrive now.

"Are you finally here?"

Looking at the speeding things out of the car window, Qin Tiange could not help showing a touch of excitement.

Chapter 113 - Worm.gecko

At Lianhua North Station, a group of zombies swayed on the platform, and several of them were walking back and forth on the subway tracks in search of possible live food.

At this moment, a subway line entered the platform, which alarmed a large number of zombies in the station.

Roar...

On the puppet track, several zombies suddenly turned around, roaring at the incoming train, and rushed towards the train.

Bang bang ...

I saw the train rushing past, crushed the zombies on the spot, and then stopped slowly.

“Everyone is ready to get off!”

The train stopped, and saw Qin Tiange fully armed, holding a sharp sword in front of the door, with a serious expression, followed by Moda and others.

At this time, a large number of zombies heard on the platform, and saw the train door open immediately and madly smashed.

“kill!”

There was a roar, and as a group of people rushed out, wielding a steel knife, slashing the rushing zombies.

Qi Moda took the sword shield hand, Nie Teng led the dead, and the two teams took the lead. In the back Liu Ye brought a large group of girls and arrows on the steel crossbow, whistling again and again.

boom!

He struck a zombie rushing up, Qin Tiange swept around, his limbs were broken, his arms were scattered, and there was a smell of rancidity, with black and red blood everywhere.

Even he saw a few heads that had been eaten. Some zombies were madly culled up, but unfortunately they were either shot and killed by steel arrows or moda, Nie Teng and others.

大家 “Everyone pay attention, we have arrived at the destination, all get off!”

Behind me, the train conductor came down with a group of people. He came to Qin Tiange and said, “Tiange, the subway power network has been cut off.”

Wu Qin Tiange nodded and said, “Don’t bother, we have already arrived here, and the subway is not used.”

“Muda, Nie Teng, clear all threats.” After that, Qin Tiangeti leaped quickly, and the steel knife whistled down, splitting a zombie brain with a click, and even his body was cut in half.

Those ordinary people saw that all zombies rushed up were beheaded and killed one by one, and none could only rush into the line.

Dealing with these ordinary zombies is a trivial matter for those reinforced by Moda. Except for some particularly powerful mutant zombies, none of them are a problem.

Soon, there was no more zombies on the platform, and the team started to the ground floor along the stopped elevator.

Roar...

Tier one floor, the corpses flutter, and growls!

These are the zombies in the subway station. When they saw the crowd coming up from the second floor, the zombies rioted immediately.

In the whole floor, there are hundreds of zombies, black blood on the ground, and a lot of broken bones scattered.

“kill!”

Qi Qin Tiange didn't have nonsense. He came forward with a knife and slashed a zombie first. Then the figure flickered, and the sword light brought up a sloppy head.

“Brothers, cut them!”

Xie Nieteng yelled, wielding a steel knife, slashing wildly and slashing, and the hundred dead men in the back, with red eyes, issued a beast-like roar and slashed the zombies.

This group of people are crazy, like a group of tigers coming out of the cage, once released, it is sharply aggressive, full of danger and violence.

I watched the performance of the 100th dead man, Qin Tiange nodded secretly, at least it was useful, maybe he could train into a terrible team.

Seeing the crazy performance of the dead men, Moda was upset and yelled, “Brothers, don't be compared with this group of people.”

“Kill!”

The sword and shield hands led by Mo Moda were also crazy, as if stimulated by the group of dead men, aroused their young and competitive heart, and did not want to be compared.

Young is good, full of energy, motivation, and passion. It is easy to excite the winning factor in my heart.

“Nice!” Qin Tiange nodded with satisfaction, smiled, and watched the two teams compete with each other. This was a good sign.

Only when there is competition can we make progress, otherwise, as time goes by, the young people of Moda will feel arrogant and easily go the wrong way.

Now, with Nie Teng's stimulus from a hundred trapped dead men, Moda will be chasing all the way, after all, no one will lose.

In the past, only Moda's Sword Shield, except for a spear team and a steel crossbow team, was a forward for his team, but now it is different.

With the outbreak of competition between the two teams, soon, the zombies in the subway station were emptied, and stepping on the ground full of corpses, Qin Tiange walked out of the subway station.

Outside, the sky was a bit murky, the dark fog was low, and visibility was very low.

“God, where are we going now?”

At the side of Liu, Liu Yan asked with some curiosity. When he arrived at Lianhua North Station, there was Lianhua Mountain Park in front.

“Of course I’m looking for a place to live.” Qin Tiange touched his nose, looked at the distance, and thought: “The main thing at present is to find a place to settle down. There is a large apartment in front of it, living in the thousands No problem. “

“You mean Qinglian Apartment?”

At this moment, Wu Xinlan, the beautiful flight attendant, came up and looked at him in surprise, thinking that he had been here?

Qin Tiange glanced at her, nodded, and looked up into the distance. Perhaps you can see through the low black fog. There is a large apartment, which is the Qinglian apartment.

对 “Yes, who of you see that fat parrot?”

Suddenly, Qin Tiange thought of something, turned around and asked the crowd, only to realize that the parrot seemed to be missing.

From the station to the train, the mutated colorful parrot disappeared, and it was unclear where to go.

“Will you run away?”

“We didn’t notice.”

Moda and others looked at each other, did not really notice this detail, a huge mutant colorful parrot was gone, and no one saw it?

Qi Qin Tiange secretly annoyed and hummed, “This fat chicken dared to run, but it still doesn’t seem to be completely loyal.”

“Quack ... boss help, boss help ...”

此时 At this moment, there were screams of sharp screams in the distance.

The crowd looked up and froze for a moment, because they saw a fat parrot leaping wildly on the roof of a street building in the distance.

It has no wings, can’t fly, and can only run wild. It looks funny.

“That’s it?” Liu Yan and others shrank their pupils, looking behind the running colorful parrot, and a huge thing was chasing it.

That is a creature, a mutant, a long body, full of scales, looks like a huge lizard, but it is not a lizard.

“Mutant gecko?” Qin Tiange’s eyes narrowed, and he was surprised and ecstatic, and turned out to be a mutant gecko.

Hiss ...

Across the street from the entrance of the station, a large vine-covered building is chasing the colorful parrot.

壁 These geckos, five meters long, are as thick as buckets, with gray scales covering the whole body, and their limbs are crawling quickly on the wall, such as flat ground.

Gecko, and after the mutant gecko, very scary.

“Oh my God, this is a gecko?”

“Is there anything wrong?”

There was a commotion among the crowd behind me, and everyone panicked when they saw the huge variety of geckos appearing densely.

变 Variants of geckos appeared one after another, crawling out along the wall, staring directly at the crowd here, as if thinking whether they could eat.

“Ready to fight!”

“Steel Crossbowmen are ready to hunt as many mutant geckos as possible.”

There was a touch of excitement on Qin Tiange’s face. Yes, it was excitement. Instead of panic and fear, he saw a large number of mutant geckos, but instead showed an expression of excitement, making everyone unable to help but vomit.

Chapter 114 - Regenerative substance

Huh!

There were waves of arrow rain rushing around, covering the building in front, some nailed to the wall, and some pierced the mutant gecko.

The sudden arrow rain caused many geckos to panic. Two huge mutant geckos fell down, screamed and screamed, and rolled on the spot.

boom!

Suddenly a gunshot sounded, a gecko’s head burst into an electromagnetic spark, flesh flew, and it fell on the spot, rolling a few times on the ground and wheezing.

Qin Tiange held the electromagnetic sniper rifle in his hand, clicked the bullet into the load, quickly aimed at a mutant gecko in front, and pulled the trigger.

I only heard a bang, the gecko’s head blossomed, and the huge power of the plasma bullet directly blew up the other half of the head, killing him instantly.

Hiss ...

The group of geckos panicked and was frightened by the sudden blow. They immediately gave up chasing the parrots and fled.

However, many geckos were still pierced by steel arrows and shot into hedgehogs.

The most amazing thing is the electromagnetic sniper rifle in Qin Tiange’s hand. One shot hit the head of the mutant gecko. The power was really shocking.

“God, what kind of sniper gun is this?”

“Isn’t Bamlet so strong?”

The crowd behind me exclaimed, one by one with wide eyes, looking at the huge sniper rifle in Qin Tiange’s hand, shocked, dared not imagine that the power is stronger than Bamlet.

In fact, it is also very normal. This electromagnetic sniper rifle uses plasma bullets, which is enough to kill a star-level mutant.

变异 Although these mutant geckos look terrible, they are actually one star, most of them are of this level, and only a few of them have reached two stars.

Under the plasma bullet fired by the sniper rifle, it was directly killed without any chance of survival. This is a powerful electromagnetic sniper rifle.

Bang bang ...

Qi Qin Tiange was cold and stern, firing three more shots, killing three fleeing mutant geckos and hitting them off the wall.

Soon, the mutant geckos spread out, and in a blink of an eye there was no trace. They ran out of light, and they were scared by Qin Tiange.

In fact, the gecko is very timid. Although it absorbs the dark energy of the universe and mutates, it is still very timid. It is scared to be so scared that it may not dare to run out.

快 “Hurry up, lift up the corpse of the mutant gecko.”

I saw Gecko groups dispersed, Qin Tiange gave this order, Moda and others rushed away, and three or two ran back with the corpses of mutant geckos.

As for some undead geckos, they were brought back by killing them with a knife, and the bodies were placed in front of Qin Tiange.

“Qin Brother, kill a total of eighteen geckos.”

Moda made a report. This time he encountered mutant geckos. After only a few minutes of face-to-face encounter, only 18 mutant geckos were killed, and the others ran away.

It was a pity that Qin Tiange secretly killed such a point, but there was no way. The gecko was fast, and he would climb the wall and run away normally.

I can’t kill these. It’s pretty good. Think about it. In the previous life, he hadn’t killed these mutant geckos. He even ran away from sight.

“Hey ...” Looking at the bodies of eighteen huge mutant geckos, Qin Tiange couldn’t help but laugh.

He knows how rare and precious these geckos are. After a previous life, I heard that a gecko mutant, regardless of its level, will become rich if someone kills it.

The mutant gecko does not have any crystals in its body, but it has a rare treasure.

Huh!

I wondered, Qin Tiange held back a laugh, pulled out a dagger around his waist, and directly picked up a gecko's tail.

Hearing only a "click", the gecko's tail broke off voluntarily, and the broken tail turned and twisted fiercely, as if still alive.

This is a talent of gecko. It is an inherent ability to seduce the enemy to escape. It cuts its tail to attract the enemy and escapes by itself.

He threw away the twisted tail on his hands, and under the curious eyes of everyone, Qin Tiange squatted down and carefully looked for something with a dagger at the gecko's tail.

"What is he looking for?" Someone leaned forward curiously.

Many people don't know. So only the talents who have followed Qin Tiange in the beginning, such as Moda and Liu Ye, understand that he is looking for the treasure in the mutant gecko.

Sure enough, it didn't take long to see Qin Tiange ecstatic, took out an empty potion bottle, and carefully filled a bottle of transparent liquid at the gecko's tail.

液体 This liquid is transparent and exuding a scent of fragrant smell. It can make you feel soothed and have large pores when you smell it.

"What a weird fragrance, what is this?" Liu Yan stared with wide eyes, gathered up curiously, and stared at a bottle of transparent liquid collected by Qin Tiange's hands.

A large group of people gathered around, like curious babies, the people behind them extended their necks to watch Qin Tiange's hands.

"Ga ... Boss, can you give me a little bit, just a little bit."

At this time, a fat parrot came down from the sky, slammed to the ground, appeared in front of Qin Tiange, looked pitiful, stared at the bottle in his hand, and almost drooled.

The mutant parrot doesn't know what it is, but feels it is a good thing. Absolute baby. The genetic instinct tells it that eating this thing will be of great benefit to it.

"You stay with me and wait for you to settle accounts!"

What a pity, Qin Tiange ushered in cold eyes. This fat parrot just ran away and hadn't found it yet. Now he still has a face running to ask him for a baby?

"Tiange You haven't said what treasure this is, what's the use of it." Liu Ye was so anxious that he asked directly.

At this time, Qin Tiange explained with a smile: "This kind of liquid, you already have some speculation in your heart."

"Shouldn't it be the mystery of gecko tail rebirth?" Long Xiaoya exclaimed, looking particularly shocked.

Qi Qin Tiange nodded, and he admitted that he was excited, and said, "This thing is called regenerative material. It is a unique treasure produced in the mutant gecko."

Regeneration material, which comes from somewhere in the flesh of the mutant gecko's tail, or in some animals' bodies that can regenerate themselves.

The so-called regeneration means that the hands, feet and tails are broken, and a whole new, complete hands, feet and tail can continue to grow. This is the regeneration material.

This kind of material is very rare, very precious, and generally difficult to obtain. If it wasn't for Qin Tiange's luck that they encountered a group of mutant geckos, he would probably not remember it.

“Brother Qin, there are a lot of zombies coming near here.”

At this time, Nie Teng hurried over and hurriedly told the news. There were many zombies heard in the nearby streets.

I heard this, many people were panicked, but Qin Tiange was not panic, Mali found this regenerative substance from the body of eighteen dead mutant geckos and collected it.

体内 Each mutant gecko has only one small bottle of recycled material, not much, eighteen bottles in full, so Qin Tiange, who has always been calm, can't help but be excited and smiles.

“Hey, I got eighteen bottles of regenerative substances. It's not bad. It seems that my elixir has fallen.” Qin Tiange was excited, carefully stored these precious regenerative substances, and was thinking about how to make the elixir.

Chapter 115 - The best revenge is "success"

Qi Qinglian Apartment, covering a total area of 28,000 square meters, four 18-storey buildings near the north gate of Lianhua Mountain, is a modern high-level apartment.

The apartment is surrounded by a two-meter-high wall surrounded by lush greenery, shaded by trees, and flowers and grass. From a distance, it is a beautiful landscape.

Of course, if there are no swaying zombies, abandoned cars, messy streets, it must be a good place.

Roar!

Outside the apartment, a zombies swayed aimlessly, and from time to time they ate some broken bones and carrion, making a cheerful roar, shocking.

But in the apartment, it was very quiet. Except for some scattered bloodstains, no zombie was seen, but a lot of protective nets were added.

Needless to say, there are survivors here.

“Wife, don't leave, don't leave me.”

Suddenly, one or two people came out of the apartment. Among them, a handsome young man rushing out from behind, pulled a young girl in front, with a heartbroken look on his face, which made people feel sorry.

“Let's go, we can't.”

The girl shook off the youth's hand, and there was a hint of intolerance on her fair complexion, but she ran away with his heart.

She looks eighteen or nineteen years old, a young girl in the flower season, with a good-looking face, fair skin, and a pretty figure.

“Why?” The young man growled sadly, emotionally unstable.

The girl looked at him and shook her head gently, “Li Zhi, we are impossible. You can't give me the life I want.”

Li Zhi, a young man who has just graduated from university, is full of vitality. Many students in the school envy him that he has a school girlfriend.

However, after graduating from work, the two separated the two places, and the relationship between them began to fade over time.

Especially now that the end is coming, when the relationship between the two has broken down, Li Zhi is very sad, looking at the girl she loves deeply, there is an impulse to explode.

“Xinxin, give me another chance, and I will prove it to you, what others can give you, I can certainly give you, others can't give you, I can give you the same.” Li Zhi solemnly, stretched out her hand and held the woman Friend's hand promises.

What a pity, this girl named Xinxin shook him away and said coldly, “Wake up and see what you have now?”

“If you want a car, you do n't have a car, you have no room, you have been working for almost a year, and you ca n't give me anything, let alone now that the end of the world is here. There are man-eating zombies and monsters everywhere, and you have not protected me. Ability, what do you use to love me? “

Li Zhi stepped forward and once again took Xinxin's hand and said in his mouth, “But I have a heart that loves you to be old, no car, no house, I can work hard to make money to buy it for you, you do n't want to Go well, give me another chance, I will prove to you that I am no worse than others. “

Wu Xinxin turned his face away, and there was a slight contempt in the corner of his eyes, which stabbed Li Zhi's heart that had collapsed at the moment. He was wounded and wounded, and he shook his hand again.

“Okay!” Xinxin said impatiently, “You can't give me anything, don't bother me anymore, just get together and let's go, let's just do that.”

After saying that, she walked away without looking back, and in spite of Li Zhi's sad and crying retention behind, she let go of the other's hand again and again, completely breaking his heart.

“Why, why didn’t you give me a chance at one time, aren’t your three-year feelings fake?” Li Zhi sat paralyzed, staring blankly at the departing confidence, murmuring, even outside the apartment A large group of people came in without notice.

Hit him, he was completely broken!

“Love is fragile, but it is not enough to destroy the money and material in reality.”

As soon as I entered the apartment, I saw such a scene. Qin Tiange shook his head secretly, whispering to himself, and seemed to remember his past.

In modern material society, everyone is corrupted by money. There is no pure emotion, no pure love, only eternal interest.

He is like the young man named Li Zhi in front of him. His girlfriend still thinks that he is poor and cannot give her the life she wants.

“Brother, cheer up, a woman, why torture yourself for this?” Qin Tiange slowly walked to Li Zhi and slowly extended his hand.

志 Li Zhi’s head was a mess, and even Qin Tiange who came to him didn’t notice. His eyes were dull and he was hit hard.

Seeing him like this, Qin Tiange shook his head secretly, then squatted down, and patted his shoulder, comforting: “I said, isn’t it just a woman? There are more women in the world, why not cherish you for this Sad? “

“Yes brother, where is there no fragrant grass in the world, why bother with a single flower?” Nie Teng also came up and smiled comfortably.

“You are?”

Until this time, Li Zhi was sober from the, and saw Qin Tiange, Nie Teng and others, a huge team of hundreds of people, which scared him.

He knew, however, that there was absolutely no such group of people in Qinglian’s apartment. They looked at each other and wore armor, one by one, looking like a group of ancient people.

“We have just arrived. Seriously, you don’t have to shed tears for such a woman. It is so-called that a man has no tears, and that woman is not worth it.”

Qin Tiange patted him on the shoulder, pointed at Liu Ye and a large group of girls and laughed: “Women, look at them, there are beautiful and disgusting people. There is never a shortage of women in this world, So, I want to open. “

“Thank you, I know all of this, but I don’t feel energetic in my heart.” Li Zhi said a little bit distressed.

Qin Tiange pulled him up, and then laughed: “It’s good to be unconvinced, there is a saying well, the best revenge is success.”

“Think about it!”

After he finished speaking, Qin Tiange patted his arm, turned away with a smile, and a large group of people quickly followed and poured into this apartment, leaving Li Zhi alone in a daze.

“The best revenge is success ...”

He murmured to himself, remembering Qin Tiange’s words, there was a sudden and cheerful feeling, and the haze in his heart was more than half.

I watched Qin Tiange and others enter the apartment, Li Zhi was surprised, then shocked, and suddenly realized that this group of people was not simple.

You can see at a glance that a group of people led by Qin Tiange are almost wearing steel armor and holding weapons. Although they are cold weapons, their sharp edges are chilling.

“This group of people is not easy. If I want to succeed, it seems that I have to rely on them, maybe this is an opportunity for me ...” Li Zhi was sober, thinking quickly about his own things.

Li’s breakup almost made him depressed, but the appearance of Qin Tiange and his consolation just made Li Zhi see a bright light, a light of opportunity.

“Xinxin, I swear, Li Zhi, I will one day be a strong admirer, and I will make you regret everything you do today!”

In the end, Li Zhi regained his conviction, secretly vowed, turned around and finally glanced at his girlfriend’s direction of departure, which was an 18-story residential building.

He turned directly and left without looking back, and followed Qin Tiange’s people into the same 18-storey apartment building in front.

Chapter 116 - Biopharmaceutical engineer

On the tenth floor of Building A, Li Jiaxin went to the lobby of a room by himself. There were eight people. A young man headed by him sat on the sofa with seven burly middle-aged bodyguards.

“I have done as you said, and now my sister is about to be released.” As soon as Li Jiaxin came in, she opened the door to see the mountain and said this to the young man.

Her, just abandoned her boyfriend Li Zhi, it seems that there is something hidden, not what she said at the time.

“Oh?” The young man looked up slightly, glanced at her, and smiled: **“You have broken up with your boyfriend? It seems that there is no such thing as love in this world.”**

“Zhao Wenbin, I have done what you said, let my sister go.” Li Jiaxin looked angry and stared at the young man in front of him.

His name is Zhao Wenbin. I do n’t know his identity. I only heard that it is very big. There are more than ten or twenty bodyguards, all of whom are elites.

文 Zhao Wenbin stood up slowly, reached in front of her, raised her delicate chin, and said, "It's really a ruthless chick. Forsistering her husband for her sister, this is so-called love."

"Don't worry!" Seeing Li Jiaxin's angry expression, Zhao Wenbin laughed: "You can rest assured, I don't intend to hurt your sister, she is the talent I value."

"You ..." Li Jiaxin was anxious and was about to say something, but was interrupted by the other party.

Zhao Wenbin gently lifted a finger and shook it, "Don't panic. I heard that your sister is a genius, a biomedicine development engineer, and has developed a medicine that can speed up the recovery of human injuries. No? "

"No, that's just a rumor." Li Jiaxin was shocked and immediately denied it.

It's a pity that Zhao Wenbin didn't move at all. She sat back on the sofa, her fingers constantly stroking an exquisite old ring on her ring finger, and her eyes looked a little cold.

"Huh!" Zhao Wenbin snorted softly, flipped his palm, and a small transparent test tube appeared with some liquid inside. If Qin Tiange and others were here, we could definitely see that this was a one-star quenched body. Elixir, and this young man also had a storage ring, which was shocking.

"Did you see this thing?" Zhao Wenbin said in a light tone, but with a touch of magnetism.

嘉 Li Jiaxin was shocked when she saw this. She certainly knew what it was because she had taken it with her boyfriend.

Don't look at her tenderness and weakness, in fact, her body has already been improved twice. If her sister is not controlled by the other party, she cannot compromise.

文 Zhao Wenbin chuckled and said without a doubt: "This is a magic medicinal solution that can strengthen the human body. Since your sister is a genius engineer in biomedicine, ask her to help me develop this thing."

"Rest assured, you and your sister are absolutely safe. I won't touch you even if there is a piece of hair. As long as your sister can help me make this potion, I can give you freedom." Zhao Wenbin finally stated his plan.

"You bastard, you can't even talk, let my sister go." Li Jiaxin was furious immediately, rushed forward in two steps, and swept towards Zhao Wenbin's neck.

终于 She finally realized that the other party didn't want to release her sister at all, but wanted to imprison him to help him develop a hardening potion, and even she wanted to control her sister.

boom!

I saw a figure flashing quickly, blocking Zhao Wenbin, raising his hand was an inch punch in her calf, blocking the blow.

“You’d better be honest, otherwise I don’t mind killing your boyfriend first, don’t think that the two of you have taken the medicine and evolved it would be great.”

“Dare you?” Li Jiaxin was furious.

文 Zhao Wenbin stood up, pushed away the bodyguard and walked up, staring at Li Jiaxin in his eyes.

He said one word at a time: “Li Jiaxin, you’d better be honest, and next time, not only your boyfriend, I won’t let your sister down.”

“With my sister, I can make medicine for you.”

At this moment, a figure rushed in at the door, a girl, up to sixteen years old, with a pair of glasses, but the body development was beyond imagination, forward and backward, proud twin peaks, fairy-tale appearance It’s direct.

She is Li Jiaxin’s sister, Li Jiajia, a genius girl, and a biopharmaceutical engineer, who once rumored to have developed a drug that can speed up recovery from injuries.

“Jia Jia ...” Li Jiaxin was shocked and happy, and was relieved to see that his sister was okay.

佳 Li Jiajia ignored her sister, came to Zhao Wenbin in diameter, looked up, and looked at him seriously.

“I can help you develop medicine, but only if you release my sister first, don’t try to use her to stab me. In that case, I would rather die and not help you.” She is small, but not at all.

文 Zhao Wenbin’s eyes flickered, and his fingers kept rubbing, and his heart was measuring the gain and loss. All he wanted was Li Jiajia to work for him and develop drugs, but Li Jiaxin was just a weight to beat her.

Now it’s alright. The party appeared and asked her sister to be released directly. This had to be carefully considered. This kind of genius girl has a weird temperament and she is likely to be true.

“Okay, I let go of your sister.” Without thinking for a long time, Zhao Wenbin smiled and directly agreed to her request.

He turned his head and looked at Li Jiaxin and said, “You can go now. What are you doing here?”

“Jia Jia, don’t promise him.” Li Jiaxin panicked, clutching her sister’s hand, anxiously trying to persuade.

But Li Jiajia shook her head gently, hugged her sister, and said something quietly in her ear.

姐 “Sister, go to Building C to find your brother-in-law. I just saw a team coming out, trying to get the group to conflict with Zhao Wenbin.”

She didn't talk much. She used a local dialect in her hometown. It was difficult for outsiders to understand. Her sister naturally understood.

Zhao Wenbin frowned, and after improving his physical fitness, he naturally heard the two whispering, but he didn't understand the meaning and could only be blind.

“Little maiden's skin, playing tricks in front of me, waiting for you to develop the ingredients of the medicament, to see how I can clean up you.” Zhao Wenbin expressionless, but began to think about how to play with this maiden's skin afterwards.

“Jiajia, be careful!” Li Jiaxin touched her sister's messy short hair, helped her straighten her glasses, and then raised her head to Zhao Wenbin.

She didn't say anything She just turned around and left here without leaving a word, and did not threaten Zhao Wenbin not to hurt her sister or anything, because she knew that it was useless.

When Li Jiaxin left, a person hurriedly walked in outside.

“Master, there is a group of people outside, living in Building C.”

When this man came, he directly said the news, and it was exactly when he saw the arrival of Qin Tiange and others, and he immediately came to report.

“Foreign team?” Zhao Wenbin frowned after hearing, and asked, “How many people do they have, and what weapons do they have?”

“Master, they have more than 300 people, most of them with weapons and equipment, wearing steel armor, it seems to be a trouble.” The bodyguard said the news directly.

Zhao Wenbin stood up, walked to the window, and looked at a building not far away, which is the C building of the apartment, and his side is A building.

“Three hundred people?” He looked at it, and suddenly sneered, muttering to himself: “Three hundred people, if they can be used for me, then if not, then feed the zombies.”

He said he pinched the steel bars of the window with his five fingers and clicked, but he was broken.

Then, he turned around and instructed the bodyguard: “Send someone to investigate the situation and report to me at any time, and, quickly, subdue the group of diehards in Block B and kill the disobedient.”

文 Zhao Wenbin suddenly whispered to the bodyguard's ear and said quietly: "Also, find a chance to kill Li Jiaxin's boyfriend Li Zhi, tie her to a secret prisoner and do it cleanly."

"Yes, master!" A bodyguard quickly took the lead.

Looking at his performance, Li Jiajia was shocked in the back. Although he couldn't hear it, his instinct didn't feel good. His complexion remained constant. The eyes under his glasses kept flashing with some strange light, and he didn't know what he was thinking.

Chapter 117 - Early Falling King

At this time, Qin Tiange was sitting on the sofa in the lobby of the apartment in the third floor of the apartment, building C, on the eighth floor.

"Qin Brother, it has been checked clearly that there are only a dozen survivors in the whole building, and the zombies in some houses have been cleaned up."

In front of the uncle, Moda was stained with a little bit of black blood, apparently just clearing all the threats in Building C, some of the zombies that had been locked in the room were cleared.

Except for them, the whole building has only a dozen survivors.

"Very good, send a few more people to find out the situation in the other three buildings. I want specific information in the entire apartment." Qin Tiange tapped the tempered glass table with his fingers and gave the order.

The whole apartment is definitely not just these people. There must be a large number of survivors in the other three buildings. This is clear information.

Moda went down, ready to find out what was going on in the apartment. Only Liu Yan and a few Sword Shields were left in the hall to protect the place, and others were resting.

Seeing Moda going out, Liu Ye asked his doubts: "Tian Ge, the young man seemed to have strengthened his body just like us."

"Nice!" Qin Tiange nodded, stood up and walked to the balcony, looking out at the entire community, three buildings, looking down, and seeing the Lotus Mountain Park not far away.

There are lush, lush trees, lush plants, and it looks like a virgin forest. After the end of the day, the dark energy of the universe is washing away, and the animals and plants on the earth have an inexplicable mutation, which accelerates growth.

Wu Qin Tiange thought of the young man who was thrown by his girlfriend when he entered the apartment, but he had some memories of his past life in his heart.

The young man named Li Zhi had the good fortune to see it a few times in his previous life and heard a lot of rumors about him, so he kindly stepped forward to comfort him, otherwise he was so boring to the point of comforting a stranger ?

That's because at the first glance of the young man, he knew the identity of the other person, exactly the identity of the other person's previous life.

Li Zhi, a king-level master in previous lives, but a fallen king.

It is this level of identity that is why Qin Tiange did this. That is to see that the other party is valuable, otherwise he would not be able to comfort a stranger.

“The king who fell early in the previous life, I seem to have good luck.” Qin Tiange looked at the direction of Lianhua Mountain, but thought about some previous life.

He vaguely remembered that most of the first powerful men in the early days of the monarchy had fallen midway, and Li Zhi was one of them.

The fallen king is a pity!

Li Zhi, the earliest batch of powerful kings of Huaxia, but unfortunately, he was unlucky. It didn't take long for Fengwang to hear him fall into the restricted area, which made many people feel sorry.

The fallen king is not the true king. Only the strong who survive will be the true king. Those who die will not be counted.

Xun Zheng's so-called “leftover is king” is actually this truth. Under such a dangerous end, what can survive is true, everything is empty when dead.

Wu Qin Tiange knew that in the early days of Huaxia, many king-level powerhouses had fallen, and many of them had the potential to preach, and then they became emperors, but they finally fell.

In the previous life, Huaxia had a total of thirty-six kings. They were talking about a living king-level strongman, and those who fell were not included.

In the forbidden zone, a word that everyone talks about is full of crisis and horror, that is, a king-level strong person will fall into it.

In the past, there was an emperor-level strong man who had entered a restricted area by himself, and was seriously injured. Since then, he has truly become a “restricted area” for human beings.

“It's not just Li Zhi, even his girlfriend, who has also been strengthened, should have taken the body medicine.” Qin Tiange said affirmatively.

Liu Yan, who was behind him, was surprised, a little puzzled: “I feel that the woman doesn't seem to not love her boyfriend, why did she break up hard?”

“Oh ... who knows?” Qin Tiange smiled and didn't answer.

He didn't want to bother with this, he just wanted to complete his next plan as soon as possible, and the key to the plan was the Lotus Hill Park outside.

公园 This park is the real reason why he came here. In previous life, I heard that there is a permanent inheritance stele here.

“It seems that there are many people in this apartment who have been lucky to be strengthened and should have found a temporary heritage stone.”

This is Qin Tiange's guess. As soon as I entered this apartment, I met two strengthened people. It is not difficult to see that there must be many such people in the entire apartment.

He even suspected that most of the survivors of the entire apartment had been controlled and led by a strong man. In fact, this speculation is inseparable.

"The fallen king is also a king. At least he has been the king. Don't let me down, at least let me see the value in you." Qin Tiange muttered to himself, thinking about how to squeeze out the once queen. The value of a former monarch-level power that soon fell.

While he was thinking about the future and planning the blueprint, Moda hurriedly came back from the outside with a young man behind him, Li Zhi, the king who had fallen in previous lives.

"Say Cao Cao, Cao Cao arrives!" Seeing this, Qin Tiange couldn't help laughing.

Moda walked in and reported directly: "Brother Qin, he said he knew the condition of the entire apartment, so I brought it over."

"You go down and rest first." Qin Tiange nodded, let Moda go to rest first, leaving Li Zhi, the sad king of previous lives.

迹 His deeds were once included in textbooks by Huaxia as a teaching material to educate the next generation of the danger of the restricted area, alerting everyone not to break into the restricted area at will.

"Laffy in 1982, have a drink?" Qin Tiange sat on the sofa and took the goblet handed down by Liu Ye to signal to the other side to sit down and have a drink.

志 Li Zhi is not in custody, he sits down generously, raises the glass to give a gesture, and tastes a little, it feels really different.

Qi Qin Tiange praised him for being worthy of the previous monarch-level powerhouse. Although he had fallen a few days after he became the king, at least he had this demeanor.

"My name is Qin Tiange, Brother Li, can you tell me about the apartment?" Qin Tiange asked casually while tasting the fine wine.

Li Zhi looked right and said, "Just call me Li Zhi, Li Brother Li Brother listens awkwardly."

"Okay, just call me Tian Ge, just tell me, the situation in the whole apartment, I want to know about it." Qin Tian Ge did not refuse, since there is an opportunity to draw closer to each other, you can't miss it.

Li Zhi sorted out his thoughts, and then slowly said, "Qin Brother, this is the situation ..."

Next, the two listened one by one, and said that Liu Ye poured wine for the two of them, without saying a word, without disturbing the conversation between the two.

With Li Zhi's explanation, Qin Tiange now knew the situation in the apartment, and he was a little surprised.

“Look, Brother Qin, that’s Apartment A. There are about a thousand people in it, headed by a guy named Zhao Wenbin. He is an intensifier. He also has a large number of intensifiers. He is very strong.”

In front of the balcony, Li Zhi pointed to a building in the apartment and talked about the situation there. There were a thousand people living there, headed by Zhao Wenbin.

When I talked about Zhao Wenbin, Li Zhi couldn’t help it, and when I remembered what his girlfriend said just now, he couldn’t help stinging.

Seeing a trace of pain and anger flashing on his face, Qin Tiange didn’t speak, and he shook his head secretly. The once-fallen king was still a bit immature.

“Are there any?” Qin Tiange asked.

Li Zhi suppressed the irritability in his heart and continued: “Look at Qin, there is a building B next to Building A. There are also a large number of survivors, a smaller number, but also close to a thousand people.”

“Led by a middle-aged man named Zhuo Tianfan, I heard that he is the president of a pharmaceutical company, and he has a group of evolutionaries who are not weak.” Li Zhi couldn’t help frowning when talking about this.

He explained: “Most of the survivors here have escaped from Lotus Hill, and most of the original residents here have become zombies.”

It turned out that he had been visiting Lotus Hill with his girlfriend, but he never wanted to encounter the end of the world. Fortunately, when they escaped, they saw a strange stone monument near the Qinglian apartment.

It was the appearance of this stele that only allowed these people to know the secret of inheriting the stele and why they could be strengthened.

However, the survivors in the apartment were divided into two groups, one led by Zhao Wenbin, one led by Zhuo Tianfan, and some scattered individuals who did not want to join these groups. For example, Li Zhi was one of them. .

Both forces want to swallow each other, occupy the entire apartment, and lead this area, but the difference in strength between the two is not large, and the losses are huge, and no one has really torn his face.

Listening to Li Zhi’s explanation, Qin Tiange thought quietly, and murmured: “That is to say, there is competition between the two groups, and they both want to swallow each other to make themselves bigger, and we both want to know if we are there . “

“I already knew it.” Li Zhi nodded, feeling very right, the two forces must know the arrival of Qin Tiange.

— As soon as they come, it is likely to break the balance between the two forces. With the emergence of third-party forces, disputes will inevitably be caused.

“It’s interesting!” Qin Tiange’s mouth slightly tilted, and he smiled: “It seems that we are here at the right time, maybe the leaders of the two forces are talking about how to treat us.”

What he said is not unreasonable. In fact, it is exactly the same. Among the two forces, Zhao Wenbin was already prepared to investigate the details of Qin Tiange.

On the other side, Zhuo Tianfan also made the same decision. First, look at the details of the group of people who suddenly visited before making a plan.

“Brother Qin, be careful of Zhao Wenbin. He is cruel and masquerading, and he will pretend to be inadvertently.” He said suddenly, saying this.

Qi Qin Tiange didn’t answer, but didn’t answer, but asked: “Are there any news other than these?”

志 Li Zhi shook his head gently and said, “That’s all I know, but I heard that Zhao Wenbin and Zhuo Tianfan knew each other very early, and they are still competitors.”

“I see, thank you for the news.” Qin Tiange smiled and turned into a room.

“Brother Qin, I’ll go now.” Li Zhi smiled with interest, greeted and turned to leave, and went back to where he lived.

Outside the yamen, several knife and shield hands guarded the place. After seeing Li Zhi leaving, Liu Ye dropped the bottle in his hand and came to Qin Tiange.

“Tian Ge, why don’t you tell his girlfriend something else hidden?” Liu Ye couldn’t figure out why Qin Tian Ge didn’t wake the other person up.

The latter shook his head after listening, and glanced at her before he said, “Emotion is a matter between the two of them, and it is difficult for outsiders to intervene. It is also a vain word.”

Qin Tiange gently tapped his goblet with his fingers, his tone was very light, he said, “He doesn’t even know his lover, and he doesn’t even believe it. It is so easy to get angry. Seeing the surface, both mentality and experience need to be improved. “

“If so, it may cause greater misunderstandings and even cause trouble. I can see that you seem to appreciate him. Although I do n’t know what special abilities he has, at least help him out of this hurdle. ? “Liu Yan still felt the need to wake up the other party.

“Okay!” Qin Tiange waved his hand, put down his glass and said, “You don’t have to do anything else, it’s a matter between the young couple, what are you mixing in?”

“Only when he wakes up, can he understand his deficiencies, otherwise, even if he is good, it will not be of much use.”

After saying this, Qin Tiange stopped talking and did not want to mention the matter between Li Zhi and his girlfriend. He saw that there was a misunderstanding between the two people. The key is that the party Li Zhi did not know.

Qin Tiange, an outsider, could not be involved, and he felt that Li Zhi seemed to want to use him to deal with Zhao Wenbin, maybe his girlfriend was there.

“Li Zhi said just now that Zhao Wenbin was ruthless and ruthless. Be careful, what do you think of this sentence?” Qin Tiange suddenly turned and looked at Liu Yan and asked.

The latter hesitated for a moment, carefully aftertaste, and gradually realized a little. She said suddenly: “He wanted to arouse our vigilance against Zhao Wenbin and even made us preconceived to think that the other party is an extremely wicked villain.”

“This man is not pure in mind!” Liu Ye looked upset.

Qin Tiange smiled and knocked on her head and said, “You are not stupid. You can still think of this, at least it is not easy to be fooled, lest I sell you some day and help me count money.”

“Ouch!” Liu Yan frowned straightly, annoyed secretly: “Abominable guy, don’t you know that knocking on the head will be silly? And, even if you sell it, I’m willing.”

“咦?” Qin Tiange smiled. He didn’t know that Liu Ye was moving at the moment. He was about to turn away, but he accidentally looked out of the balcony and saw a distant anomaly.

Uncle noticed his strangeness, Liu Min gathered his thoughts and looked down his gaze, a little surprise appeared on his face gradually.

She opened her mouth in surprise and stared at the distant sky. There seemed to be a long black smoke approaching quickly.

“What’s that?” She was obviously curious.

Qi Qin Tiange looked at the long black smoke, touched his chin, and a faint flash of silvery white light flashed in his eyes, seeing the scene of distant sky.

“Guitar helicopter?” Qin Tiange was quite surprised.

That was a gunship, and he was even more surprised that this gunship was still one of the three helicopters he saw at the Wiener Hotel.

Buzz buzz ...

Soon, the helicopter came, but it was a bit unusual. The crooked fuselage felt as if it had suffered huge damage. The tail of the aircraft had been seriously damaged, and heavy smoke was coming out, and it was about to fall.

“It’s about to fall ...” Qin Tiange looked at the flying helicopter, and suddenly said, “Helicopter is about to fall.”

Chapter 119 - Three parties meet, each with their own thoughts

A gunship flew over Lianhua Mountain in a buzzing, billowing thick smoke, and the huge movement attracted the attention of various mutant creatures on Lianhua Mountain.

I saw a sudden dive of the helicopter, plunging directly into the corner of Lianhuashan Park, and crashing into a wood.

Boom!

A huge sound came, accompanied by heavy smoke, the fire rushed up, shocked the entire Lianhuashan Park and even nearby zombies, and looked at the direction of the fall.

Although there was a lot of movement, the nearby zombies seemed to have some scruples and didn't dare to step inside the Lotus Mountain Park, so they only wandered outside the park, screaming, and none dared to step inside.

"Tian Ge, why did that helicopter fall?" Liu Ye stood on the balcony and looked at him, his face shocked and puzzled.

In her opinion, the gunship was very powerful, but why did this one fly back and even crashed in the end.

I looked at the thick smoke rising in the direction of Lianhua Mountain. Qin Tiange didn't say anything. In fact, I was guessing what happened to the three gunships.

Perhaps, all three gunships were finished, and only this one was recovered, but unfortunately it fell down over Lianhua Mountain.

The movement over there naturally attracted the attention of everyone in the apartment, especially Zhao Wenbin and Zhuo Tianfan, who were looking at the direction of Lianhua Mountain.

"Mr. Zhuo, that's an armed helicopter in the Shenzhen city security zone. It may have encountered a dangerous crash during its mission."

On the top floor of B building, on the balcony of a luxurious three-bedroom and three-living room, a group of people gathered here, watching the thick smoke emerging from the direction of Lianhua Mountain.

He is headed by a middle-aged man with a Chinese character face that looks very decent, but in fact a man who is very camouflaged. He is the president of a large pharmaceutical company.

"This has nothing to do with us, did the group of people who just arrived in the apartment find out the details?"

After a few glances, Zhuo Tianfan stopped paying attention, but turned to a group of men and asked this question.

He cares most about Qin Tiange's group who just entered the apartment. He wants to find out their origin and details. The appearance of third-party forces has caused him to attach great importance.

One of his men came out and made a report: “General Zhuo, we have basically figured out the details of each other. There are more than 300 people in that group, most of them are intensifiers, there are a few hot weapons, and the others are cold weapons. “

“Who is headed?” Zhuo Tianfan looked at Building C and asked again.

The subordinates thought for a while before they said, “It’s not clear. I only know that the group of people called each other Brother Qin, and they are a young man.”

“Look at Mr. Zhuo, those people are out.”

Suddenly, one of his men exclaimed, pointing at Building C, which attracted everyone’s attention.

They watched one after another, and really saw a group of eighteen people walking out of Building C, all wearing steel armor, holding weapons, a young man headed by a steel helmet, unable to see his face clearly.

“it’s him!”

Someone pointed at the young man, so Zhuo Tianfan noticed the other party, and it was Qin Tiange himself who took the lead, followed by Moda and 17 sword shields.

Qi Zhuo Tianfan was surprised: “Where are they going?”

These people saw Qin Tiange walking out of the apartment with eighteen people, and he was going out. It was really unexpected, guessing what he was going to do.

Some people under Wu Zhuo Tianfan speculated: “General Zhuo, are they going out to find food?”

“I can’t see it!” Zhuo Tianfan frowned, lit a cigarette, and stared closely at the direction of Qin Tiange and his party, where the crash site of Lotus Mountain Park was.

When they saw this, they understood that Qin Tiange was leading people to enter the Lotus Mountain, but they were shocked because most of these people had escaped from the Lotus Mountain, and naturally knew the terror on the mountain.

On the other side, Zhao Wenbin also looked down from high, staring at Qin Tiange and his party, watching them heading for Lianhua Mountain, with a surprised expression on his face.

“This group of people want to die?” Zhao Wenbin was surprised, staring at Qin Tiange and others, thinking quickly in his heart.

He soon understood that the other party was going to the crash site, but why did they venture out?

“Is there something in the helicopter that attracts them ...” Zhao Wenbin made this guess, and couldn’t sit still.

He walked back and forth in the room, and quickly made a decision. He immediately ordered twenty elite men and immediately went downstairs, and hurried to the crash site of Lotus Hill.

As soon as Zhao Wenbin moved, Zhuo Tianfan immediately became vigilant, and when he saw that he was also led, he couldn’t sit still.

“Even Zhao Wenbin has gone out. Is there a treasure I don’t know?”

Wu Zhuo Tianfan couldn’t help but murmured in his heart, and finally gritted his teeth and took people out. Although he knew the danger on Lianhua Mountain, he saw that Qin Tiange and Zhao Wenbin had taken people out. Could he not move?

The three parties in the apartment, Ma Qiqi, all ran in the direction of Lianhua Mountain, the crash site where the armed helicopter was located.

At this time, Qin Tiange and others walking in front noticed the movement behind them and found the arrival of the two groups.

“Qin Brother, those two forces really followed?” Moda made a sound in surprise.

He was quite surprised. Qin Tiange originally said that the other party would follow and believe it, but he believed it.

Qi Qin Tiange looked at the two teams behind him, who were eagerly chasing each other. Each team had 20 people. The leaders were the two power minds Zhao Wenbin and Zhuo Tianfan, whom he had never seen before.

“I knew they couldn’t help keeping up. Everyone speeded up. We had to get to the crash site as soon as possible.” Qin Tiange smiled and didn’t care, and then ordered the team to speed up and get to the crash the first time. Machine location.

The puppet team speeded up, the sword shield opened the way, slashed all blocking zombies, and quickly killed in front of the north gate of Lianhuashan Park.

At the same time, the following two teams rushed to the three teams converged in front of the north gate of Lianhua Mountain at the same time, looking at each other at a distance.

In fact, the two parties looked at Qin Tiange and his party, because he is a third party who just arrived, naturally attracted the special attention of Zhao Wenbin and Zhuo Tianfan.

“I haven’t seen it before ...”

Qin Tiange looked at the two teams opposite each other, especially the two leaders who focused on observing each other. They were the two powerful talkers and secretly remembered that they had never seen it in their previous lives.

Even so, he did not underestimate the two. There are really not many people who can be strengthened at the beginning of the last days, and there are relatively few forces other than the army.

“Let’s go!” After looking at it, Qin Tiange turned directly and led someone into the north gate of Lianhua Mountain, heading directly to the corner of the crashed park.

In the back, Zhao Wenbin and Zhuo Tianfan looked at each other, hummed each other, and quickly followed their team, while secretly surprised, they had a most intuitive understanding of Qin Tiange’s group. Contacted.

“That kid is not simple, it is dangerous!” This is the intuitive feeling in Zhuo Tianfan’s heart. When he saw Qin Tiange, he felt very dangerous at first sight.

Zhao Wenbin is different. Although he noticed that Qin Tiange gave him a sense of danger, there was an unspeakable annoyance in his heart.

“Abominable, this group of people is not here at the right time.” Zhao Wenbin secretly hated Qin Tiange this group of people was not here at the time, disrupting his plans and deployment.

For the first time, the three parties met, and they finally knew a lot about Qin Tiange, a third-party force. They could not help but start their own wishful thinking.

Each of them had their own thoughts, and soon the three teams arrived at the crash site, which was a forest.

Chapter 120 - Only 1 survivor

In front of a small forest, three teams gathered, all of them looking dignified, one by one out of their arms and looking around vigilantly.

“Brother Qin, look over there ...” Moda reached out to the grove in front and looked through the thick bushes, faintly seeing the smoke of a helicopter wreckage.

There is the crash site. Several nearby trees have collapsed, there are burned traces, a little sparkle sparkles, and the pungent scorch smell is unbearable.

Qi Qin Tiange saw that many corpses were scattered near the helicopter, and there was even a corpse hanging on a tree branch, which was motionless, apparently out of breath.

He didn’t hesitate, holding a sharp sword, he lifted his feet into the woods in front of him, and came to the crashed helicopter.

“This man is dead.” He walked to a male body wearing a bullet-proof vest and just a glance knew that the other was dead.

This is a special police officer with multiple scars on his body, the most deadly of which is an iron bar inserted into the heart and dying through his chest.

“Mut it out, put your gun away and see what else is useful?”

Later, as soon as Zhao Wenbin came, he told the order directly to his opponent, asking them to collect the firearms and ammunition scattered here to see what else could be used.

As for saving people? Zhao Wenbin had no idea at all. One came here to see Qin Tiange, the leader of the third force that just appeared, and one to see what else could be used on the crashed helicopter.

“Zhao Wenbin, you are too unkind, do you want to swallow it alone?” Zhuo Tianfan brought people here, and saw this directly and satirically.

He looked at Qin Tiange's side and said with a hint: "It's not just you Zhao Wenbin who found it, but I also found this little brother. It's what the so-called seers have, the little brother came first. Here, naturally, it is up to him to speak. Is it true? "

"Brother Qin, this person has no good intentions." Moda flashed a little anger on her face, and whispered something, apparently she had an opinion on Zhuo Tianfan.

Qin Tiange glanced at the guy and scolded him that he wasn't a thing. When he came, he directly hated him. On the surface, it sounded good. In fact, he didn't have good intentions.

"Zhuo Tianfan, you still haven't changed, but you still have a knife in your smile. Don't think that you can stir up my hatred with them by saying two sentences. Do you think we are too stupid or are you stupid?" Bloom two amazing chills.

The two of them confronted each other, confronting each other, but Qin Tiange ignored it, but came to the wreckage of the helicopter, looking at the broken body that was constantly sparking, and there was still a person lying inside.

That was a special policewoman with a pale face, her clothes had been stained with blood, and she even had burnt marks on her face. She was lying motionless in the wreckage of the body and was unconscious.

However, Qin Tiange was keenly aware that the other party was not dead. He was surprised, and immediately whispered to Moda beside him and ordered it in his ear.

"Morda, this person is still angry, you take her down and take it back for treatment, don't give it to death, this person is of some use to us."

After hearing this sentence, Moda was shocked and secretly surprised. He did not see that the special policewoman lying there was still alive and felt like a dead body.

However, he did not doubt Qin Tiange's words, and Mali stepped forward, breaking open the blocked cabin fragments, and carefully holding the unconscious policewoman.

尽管 Although the special policewoman was unconscious, she was holding a sniper rifle with both hands, making people have to admire each other's luck, because she was the only survivor alive on the helicopter.

I saw Moda holding a female special police officer away. Zhao Wenbin and Zhuo Tianfan, who were facing each other, couldn't sit still. They took people directly, quickly rummaged through the body wreckage, and found scattered guns and ammunition.

"Hi this brother, my name is Zhuo Tianfan, I don't know how to call it?"

At this time, Zhuo Tianfan first came to Qin Tiange and greeted him kindly, introduced himself, and looked very friendly.

Xun Zheng's so-called stretch out his hand not to smile at people, people smile, Qin Tiange naturally will not ignore it, so that he looks rude.

“My name is Qin Tiange, you are older than me, just call me Tian Ge.” He smiled and replied, then buried his head in the corner of the helicopter cabin to disassemble something.

Seeing him dismantling things, Zhuo Tianfan couldn't help but ask, “Tiange brothers, what did you do to dismantle this thing? Is it going to be used for filming?”

这么 He asked, in fact, Qin Tiange's approach was already faintly understood in his heart. That thing was the aviation hyperspectral recorder equipped on the helicopter, which was a record of the image recorded during the voyage.

Qin Tiange demolished, naturally want to understand what happened to the next three armed helicopters, why when they went there were only one, and they also crashed.

Around the wreckage of the body, there was a special police body, eight bodies in total, all of which had a common feature, that is, the scars on their bodies were unusual and did not appear to be caused by the crash, but they had already suffered Seriously injured.

Suddenly, the helicopter crashed, causing another serious injury to them, and they were killed directly, which is regrettable.

“Brother Qin, we found three rifles, but there are no more bullets.”

Soon, a knife and shield trot came over and reported the news. They only got three rifles, but there were no bullets.

There was no one at the scene. There was no bullet. The only one with a bullet was the sniper rifle in the hand of the female special police officer. There were two bullets inside.

“It seems that they have managed a fierce battle.” Qin Tiange looked at it and made a secret guess.

没有 He ignored it, grabbed a rifle and looked at it, shook his head and threw it to the ground sadly, but didn't put it away.

These guns have no bullets, that is a decoration, it is useless to hold them, it is a waste to keep them, and they are directly discarded by him.

Seeing him thrown away, Zhuo Tianfan was surprised and asked, “I said Brother Tian Ge, don't you want these guns? If it is because there are no bullets, then it doesn't matter. There is still a lot of stock at the brother and me side and I can supply you some How do you look? “

It was a bit intriguing to talk about him. Qin Tiange couldn't help turning his head and looked up and down the middle-aged man. He couldn't help whispering.

“Thank you for your kindness We don't need these, if Zhuo Xiong can see it.” Qin Tiange smiled and threw the three empty shell rifles collected to the other party, not at all Distressed.

The scene here was just seen by Zhao Wenbin, and he was a little bit stunned in his heart.

“Damn, these two people will not join forces to deal with me, right?” Zhao Wenbin could not help but had this idea, how could he not be driven away.

I can't help it. Anyone who sees the two heads of power talking and laughing, and also gives each other weapons, wouldn't it mean that a joint situation has been opened, and two to one is desired.

不 “No, I must destroy the possibility of the two of them. Even if they cannot join us, they must not be allowed to join forces.”

Finally, Zhao Wenbin made a decision in his heart that Qin Tiange and Zhuo Tianfan could not be united, otherwise he would be sad.

In fact, he thinks too much, whether Qin Tiange or Zhuo Tianfan, will not unite, because they are thinking the same idea in mind, that is to defeat the other party, annex and grow.

“Brother, Zhuo, I will leave first.”

Qi Qin Tiange said hello and was about to take someone away, but after taking a few steps, he suddenly stopped, turned with a suspicious expression, and stared at the corner of the woods.

“Boss, it's bad, it's bad!”

Suddenly, a young man ran out in a panic, his face was pale, and there was endless fear in his eyes, as if he had encountered something terrible.

As soon as he appeared, Zhao Wenbin immediately hesitated. It was his subordinates sent out to warn him, and trouble came.

Sure enough, before everyone could react, there was a sound of gurgling sounds in the bushes of the woods, getting denser and denser, listening to the scalp.

“That's it?” Qin Tiange's pupils shrank, and they saw an amazing scene.
