

THE DARK AGES

Chapter 13 - exchange

“Just nine ...” Chen Xi quickly took out nine black-gray crystals, which was the result of her hunting nine zombies.

Qi Qin Tiange didn't talk nonsense. He didn't take over these brain crystals. Instead, he stretched out his hands and pressed down on the heritage stone tablet, looking for something quickly.

He is looking for a weapon, a one-star weapon, or he can't break the two-star mutant sow's full scale armor defense with the ordinary steel knife in his hand.

This heritage stele is just a one-star heritage, and the contents are all one-star. There is no higher-level thing at all. I want a higher-level one, unless it is a two-star heritage stele that appears one month later.

“It's you ...” Before long, Qin Tiange locked a knife.

Tangdao knife broken bone: level one star, sharpness can be broken armor, broken bone, exchange price ten ten-star brain crystal. “

For a moment, a star-shaped sword with a sharp handle appeared in his hand. The blade was straight, four fingers wide, and three feet eight inches long, like a strange Tang knife. The blade was extremely sharp.

“You take two one-star hardening fluids, find something to put together and then put the nine brain crystals in your hand into it to melt the medicinal properties of the stimulating potion, and by the way lead the litter of piglets.”

Quickly finished, Qin Tiange dropped the steel knife, stood in front of the stone stele with a more powerful one-star broken bone tang knife just redeemed, and stared quietly at the two-star mutant sow rushing towards him.

二 This two-star mutant sow has just completed her own mutation, and she is not very strong. Qin Tiange wants to come and rely on her excellent fighting instincts and skills, she should be able to kill each other.

Two-star mutant brain crystals are a thousand times more precious than one-star brain crystals, that is, one two-star mutant brain crystals can be used as one thousand one-star brain crystals.

This is a huge fortune. Qin Tiange has no reason to give up, but Chen Xi looks very cautious. Seeing the two-star mutant sow rushing to the ground, she turned around and ran away immediately.

Boom!

I heard only a dull and loud noise. The two-star mutant sow came to a sudden stop in front of the stone stele, and the ground sank three inches.

It is as strong as an adult buffalo. It is full of dark red scales, and a short horn grows in the center of the nose. The mouth is full of fangs. The domestic sow, who was originally a vegetarian, is now embarrassing.

“Dead!”

Qin Tiange, who had originally hid in a stone monument, suddenly flashed out and raised the knife two steps forward. The sharp, unbroken bone tang knife turned into a piercing piercing under the soft meat of the mutant sow’s neck.

A slamming noise, blood splattered, the two-star mutant sow was stabbed, and suddenly swung his head, and his teeth were fiercely pressed against his chest, quickly and accurately.

After all, Qin Tiange was conscious of fighting after all, his body was on one side, and as soon as he stepped on the ground, the person flew away and hid behind the stele.

The gigantic two-star sow made a roar, and rushed quickly, bypassing a two-meter-wide and three-meter-high stone tablet to attack Qin Tiange.

It is a pity that its body is too large. Although it is a two-star mutant sow, it cannot destroy the heritage stele.

As if instinctively knew that this stone could not be destroyed, he bypassed and attacked Qin Tiange, which allowed him to find a way to deal with this two-star mutant sow.

As for that one-star piglet, it was attracted to Chen Xi. A large group of little cowboy-like piglets hummed and ran after her, as if you were saying don't run and let the piglets We arched well.

Howling ...!

The two-star sow was so angry that Chen Xi looked back and was shocked to find that Qin Tiange didn't know when she jumped on its back, and the broken bone sword penetrated deeply into the two-star Variation of sow's neck.

Just now, Qin Tiange suddenly jumped up at the moment when the mutant sow came around. He stabbed the opponent's neck and neck sharply, and the sharp blade broke the defense of the two-star sow. When it met the bone, it was broken. This is the so-called broken bone. Knife.

After stabbing with a knife, the two-star mutant sow couldn't stand it. The body was sloppy, and the four-hoof slammed his body and threw Qin Tiange off his back.

Immediately afterwards, the two fangs flung fiercely, thrusting at Qin Tiange's falling body, and his edge was directly approaching the position of his chest and heart.

However, Qin Tiange people made a difficult movement in the air, his body suddenly twisted to the limit, and the whole person just avoided the sharp fangs.

Click!

At this time, Qin Tiange's binocular killing flashed, his wrist trembled, and he suddenly flashed a knife, and the bone-breaking tang knife Huer pierced the right side of Erxing sow's mouth with a knife.

Powerful injuries, broken bones and tendons caused the two-star mutant sow to make an extremely miserable sorrow, the huge body suddenly rolled on the spot, and the heavy body pressed down to Qin Tiange.

Suddenly the weight of at least ten tons was depressed, and Qin Tiange was caught off guard. I did not expect that this two-star mutant sow would actually press the body, which was too sudden.

Although he was not surprised, he quickly pulled out the bone-crushing tang, and pointed the knife at the throat of the two-star mutant sow.

扑哧!

Huh ... hmm!

A terrible scream screamed through the campus, scaring a lot of surviving students and teachers, one by one, in horror, for unknown reasons.

Huge trauma, still did not let the two-star mutant sow die, still struggling, four-hoof kicking, body rolling back and forth, want to crush Qin Tiange before death.

It is a pity that soon its power gradually weakened and even went out.

On the football field, the two-star mutant sow lay quietly in front of the heritage stele, twitching her body from time to time, and blood dripped from the throat, and soon stopped struggling and died completely.

“so close!”

Under the body of the two-star mutant sow, a figure crawled out, spitting out the blood of the mutant sow, and a look of joy on his face.

Qin Tiange felt very lucky. This two-star mutant sow has just finished metamorphosis and has not really grown up, otherwise he will be unlucky this time.

But now, looking at the dead two-star mutant sow carcass, his eyes lighted, and he quickly came forward and opened the forehead with a bone breaker, and took out a fist-sized dark red brain crystal inside.

This is a two-star mutant brain crystal, worth one thousand ordinary one-star brain crystals, but one thousand one-star brain crystals may not be exchanged for one two-star mutant brain crystals. UU Kanshu

“Hahahaha ... good thing!” Qin Tiange couldn’t help laughing.

He quickly pressed on the heritage stone tablet, and then the light curtain emerged, with a variety of items and things appearing one by one, quickly searching, and quickly found a treasure.

Space Bracelet: One star, high-tech product, gene binding, there are two hundred cubic meters of space inside, and the exchange price is one thousand one-star brain crystals.

Storage ring: one star, made by special forging methods, and recognizes the Lord by dripping blood. There is 300 cubic meters of space inside, and the exchange price is 1,500 one-star brain crystals.

Checked the cheapest one-star storage treasure, one is a high-tech space bracelet, and the other is a fancy storage ring forged by man, but the space size and price are not the same.

Two are already the lowest, and there are thousands of one-star brain crystal storage treasures. Although they are also one-star treasures, they are more than these two spaces.

“Forget it, temporarily use a space bracelet ...”

After frowning, Qin Tiange finally exchanged for the technology product space bracelet. He spent the newly acquired two-star mutant brain crystal, and saw a flash of light. A silver-white bracelet was put on the wrist like a double ring on.

Then a small thorn was exposed inside the space bracelet, plunged into the flesh of his wrist, and immediately extracted his gene for binding.

After was bound, Qin Tiange waved his hand gently at the dead two-star mutant sow, and saw that the two-star mutant sow's carcass suddenly disappeared and disappeared out of thin air.

I gathered everything, he quickly left the football stadium with excitement, and caught up with Chen Xi who was being chased by a large group of one-star piglets.

This is a bumper harvest. After redeeming the space bracelet, Qin Tiange's five-day goal has been completed.
