

Dark Ages 141

Chapter 141 - 1 gangster

Da da da da da

There was a rush of gunfire in the fog, Gatlin roared wildly, and bullets shot in all directions. Many bullets even flew over to Qin Tiange.

“This bastard.” Qin Tiange cursed, then flashed into a huge rock, avoiding the madly-fired bullets there, and hid carefully.

There, a group of people were frightened, the boss was even more crazy, and he shot at Gatlin with a mad fire for four full minutes.

Finally, the machine gun no longer roared, and gradually stopped, the entire muzzle of the gun was red, and white smoke burst out.

“Boss, boss, is that thing dead?” A young man asked carefully, his eyes flashing with fear.

Their fear is normal, and unknown things always cause great shock and even cause people to fear.

The boss who took the lead didn’t speak, and looked around vigilantly. In fact, he knew in his heart that this was not the strange thing to hit.

“Keep going!”

After waiting for a long time, I did not see the dark shadow again, the burly inch-headed man immediately told the team to move on.

A group of people moved on, but a little more cautious and fearful, suspicious, walked carefully, for fear of rushing out of a terrible thing.

The farther you go, the denser the fog around you, and you can hardly see the scene ten meters away, and these people can’t tell the direction at a glance.

“Boss, we seem to be lost.”

At this point, the group of men began to panic again, and there was fog everywhere, and even the sky was completely blocked, and the sun was no longer visible.

This situation made these people anxious, one by one stopped refusing to move forward, that is, the burly inch-headed man all wanted to give up.

“Don’t talk nonsense, give me a spirit and walk a bit longer. If we still quit and don’t eat, rest assured, I have been marked along the way and will not get lost.”

Having said that, the team continued to move forward, but they were not sure that a figure was quietly following them in the fog ten meters away behind them.

“The magnetic field here is weird, and where does this fog come from?”

Hanging behind and following a group of people in front, Qin Tiango thought silently, where did the diffuse mist come from?

He carried a steel knife and was vigilant, because he felt something looming around him.

The front team stopped and stopped, and the time quickly passed twenty minutes, but instead of reducing the fog around, there were more trends.

“Boss, let’s go back. If you continue this way, you will really get lost.”

Ahead of the team, several men in the team went on strike and did not want to continue. This place is not only weird but dangerous, the fog is getting denser, and even the scene beyond eight meters is not visible.

This environment is very dangerous. It is not clear what ghosts are hidden in the surrounding fog. The experience just now is still vivid. The fear of death made them afraid to move on.

No matter what the boss said to threaten him, this group of men were unmoved and went on strike in a collective way.

“A bunch of goods!”

The old man was anxious and could not wait to cut a few people, but this group of younger brothers were already frightened. From the beginning all the way, there are more than thirty people in front of us. A few more died just now, and the number is even smaller. They are not surprised because they are not afraid.

“Grandma, do you want to give up?” The boss was very reconciled and always felt that there was a baby he didn’t know existed.

Unfortunately, the fear of his men refused to come forward, and he was also a little afraid, which caused some resignation.

“Walk for another five minutes, otherwise we will return.”

Finally, the boss spoke and continued to walk for five minutes. He evacuated without success and returned directly to the original route.

Hearing this, the younger brothers were relieved, and they could leave this ghost place for another five minutes.

Everyone walked cautiously, walking suspiciously, looking cautious step by step.

“what”

Suddenly a scream came, scaring everyone to hurry up and spread, and they were overly scared, causing their team to disperse.

The boss was shocked and looked up, only to find that the younger brother who was walking in front was actually in the mud.

“Oh, boss, save me, save me.” The little brother screamed in horror, holding his hands constantly on the ground, but unfortunately his body was still sinking a little bit.

This is not a swamp, but why does his body sink strangely?

Huh!

Suddenly, the younger brother opened his mouth and spurted blood, and the exposed upper body was trembling constantly, sinking a little bit into the soil, as if dragged by something under the ground.

The screams kept echoing in the fog, none of them dared to come forward to rescue, and watched the younger brother sink into the dirt like this, his head was submerged in the dirt, and then a blood spewed up and spilled around.

Grunt!

Some people swallowed their saliva and said in horror, "There is something underground that can eat people. Let's rush away."

"Escape!"

I don't know who suddenly shouted, and suddenly thundered, a group of people who had already been nervous, spread out instantly, turned and ran.

Fear, fear has completely destroyed the psychological defense of this group of people, and the invisible enemy is even more frightening.

Seeing the men running, the boss was very angry, but he had to turn and run away. It was too dangerous here.

"A bunch of scums, did they run away?"

At this moment, Qin Tiange, who was hiding in the fog, couldn't help cursing, watching the crowd who had suddenly escaped, feeling very upset.

This ran away, and he wanted to let this group of people explore the road, but unfortunately they were frightened now, afraid to stay half a minute, and escaped.

As the group of people were frightened and fled away, there was a dead silence again, and the heavy mist continued to steam, watching the strange people.

"What the **** is that?"

Out of the fog, Qin Tiange carefully walked to the place where the young man was devoured, and was surprised to find that the ground was intact. In addition to the blood scattered around, there was no special thing about the red stained sand. .

After picking up a stone, Qin Tiange lost it and clicked. The stone did not sink, leaving him cold and his neck cold.

Qguai Tiange, who was unbelieving, moved again, took out a steel spear, and pierced into the place fiercely.

With a flutter, the steel spear sank into it, and a burst of black blood spewed out instantly, scaring him to jump back immediately, his expression agitated.

boom

The next moment, there was a slight vibration on the ground, and then the soil squirmed, as if a big guy was rolling underground, but it soon subsided.

The soil there gradually subsided, and a large hole appeared, dark and black, which looked very scary and it was not clear what was inside.

Seeing this, Qin Tiange understood that the soil was camouflaged by a weird creature. The young man stepped on it was equivalent to stepping on the creature's mouth, and was sucked in and swallowed.

The thing was wounded by Qin Tiange with a spear, and he immediately got into the hole and escaped. Only then did he see a big hole appearing in front of his eyes Is it an alien creature? “

Looking at the black hole, Qin Tiange was lost in thought, thinking of some terrible and weird creatures that he had encountered in previous lives. That was not a species mutated on earth, but an alien creature from outside the sky.

In the land of heaven, the creatures brought are naturally celestial beings, their origins are unknown, terrifying and cunning. Think of the black gas that you just encountered may also be a kind of celestial beings.

“Oh? The fog has dispersed?”

Suddenly, Qin Tiange was surprised to find that the fog around him had gradually dispersed, which was amazing and caused his speculation.

Looking at the mist that was gradually dissipating around, Qin Tiange suddenly had an intuition. These mists must be related to the mysterious extraterrestrial creature just now.

However, he did not continue to think about it. As the fog gradually dispersed, Qin Tiange finally saw the surrounding environment, and as far as he could see, he was shocked by the sight in front of him.

“This is” Qin Tiange's pupils shrank, and he was taken aback by the sight he saw.

Chapter 142 - The corpse is a mountain, cast into Takarazuka

As you can see, huge mountains of bones stand in front of them, and they are all piled up and cast by huge skulls.

“There is a view of Beijing in the ancient times, and the dead body is the grave, which is a deterrent to the enemy's gall. Is it right now?”

Qin Tiange was stunned by what he saw. He couldn't help whispering to himself, looking at the mountains of bones up to hundreds of meters in height. They were made by stacking heads and skulls. This reminds me of the ancient Beijing view One said.

This is man-made, it is deliberately made by some kind of creature, and it looks daunting.

The most surprising thing is that these skulls are extremely large and look like human skulls, but with a horn growing on the frontal bone, not human.

And humans do n't have such a huge head. Looking from here, the smallest skull is two meters high, and I ca n't imagine how huge these creatures were before they died.

“This is a celestial creature. Who killed these giant creatures and cut off their heads and piled up into mountains? What do you want to warn about?”

Qin Tiange trembled in his heart, holding a knife, carefully approaching a bone mountain in front of him. The white bone is a mountain, which was cast into Takarazuka, to frighten the enemy.

He found that a bone mountain in front of it had collapsed more than half, many huge skulls had been weathered, but there were still some well-preserved, black eyes in the huge eyes.

when!

One of these huge skulls was hit lightly with a knife, and Jinger issued a sound of gold and iron clashes. It was extremely crisp, and it was hard to imagine that these skulls were comparable to steel.

Qin Tiange was amazed, and at the same time there was a trace of thrill in his heart. Who killed such a powerful creature?

In previous lives, he had never heard anyone say that a huge skull was cast into Takarazuka, that is, in fact, it was not found here, or someone found it and did not say it.

“What kind of creatures are these skulls, are they star giants?”

Walking under the high bone mounds of one bone after another, Qin Tiange looked up and couldn't help but pinch a cold sweat, thinking about the origin of these skulls secretly.

He can be sure that it is definitely an extraterrestrial creature, that is, a powerful species from outside the earth, who does not know who was killed.

In previous life, he had heard of some extraterrestrial species, such as the Star Giant.

However, he was only a small person in his previous life. He didn't have many secrets to contact. He also knew one-sidedly. He only heard that the human coalition had once had a ***** battle with an alien creature in a certain place.

Unfortunately, he was unable to participate, and he did not know where he fought, or what ethnic creatures he had. These were not clear in his previous life, and he only heard words and thought it was a rumor.

“It seems that there are many secrets in previous lives that I cannot reach. These huge skulls are likely to be the giants of the sky that came out at the time.”

Qin Tiange dragged his chin, his eyes stared at a five-meter-high skull in front of him, his horns bent, and his teeth were extremely sharp.

He slashed sharply at one of the sharp giant teeth with a steel knife, and issued a “ding-dong” crisp sound. It was even more amazing that there was a gap in the steel knife, incredible.

“Good hard teeth, even the ordinary steel knife cracked?” Qin Tiange held the steel knife in his hand and clearly saw a crack.

Look at that sharp giant tooth, intact, and made him feel hairy for a while, so strong when he died?

A tooth is so hard, doesn't it mean that these giant creatures can bite steel, how did they die?

Qin Tiange walked and stopped, looking very vigilant, walking all the way, observing these huge skulls Takarazuka, he found that all Takarazuka have a characteristic, much like a large character.

“Well, that's the wreckage of a helicopter?”

Around a bone mountain, Qin Tiange's gaze fixed and found something strange. He found the wreckage of a helicopter scattered on the top of a bone mountain.

Seeing this, Qin Tiange knew to himself that this was probably one of the three helicopters that had happened.

He looked around, then his body lightly jumped, and he jumped on a huge skull, and then jumped up and down, and stepped on this huge skull to climb up this Takarazuka.

Upon reaching the top of Takarazuka, Qin Tiange stood on a huge head, staring at the scattered arms in front of him, silent.

The helicopter was completely decomposed, the original shape was basically invisible, and it was broken into pieces. Only the larger piece could be seen as the wreckage of the helicopter.

Moreover, there is no corpse here. Some are only dark blood that is already thirsty, and some broken clothes and guns.

Even the missiles originally attached to the helicopter have disappeared. It seems that the helicopter fell down after launching the missile.

“What did they encounter?” This is what Qin Tiange wants to know most, but unfortunately there is no such thing in the recorder.

There is a mysterious magnetic field inside this heavenly land, which is strange and can affect all electronic devices, unable to shoot, and even satellites can be shielded.

Ok?

Qin Tiange was planning to continue, but as soon as he turned around, he found something wrong.

He looked from the top of this bone mountain, and stood high, and suddenly found that the neatly arranged bone mountains around it seemed like huge fonts.

Yes, he was not mistaken. If he looked down from a high altitude, he would clearly see that the shapes of these bones and mountains were stacked one by one.

“This Takarazuka really seems to be an ancient character.” Qin Tiange looked down, centered at his feet, and slowly he found that the whole bone mountain was an ancient character.

An ancient word reveals the horrific murderousness, which makes everyone feel cold, but unfortunately he doesn't know it.

Who is going to be frightened by casting characters on the skull and causing Takarazuka?

“one two three four”

Looking from here, Qin Tiange counts one by one and finds that there are nine huge bone mounds.

The nine Takarazukas are all piled up by huge skulls. How many giant creatures do you need to kill?

One thousand, ten thousand?

Qin Tiange only felt cold all over his body, and some cold sweat from his hands and feet overflowed, apparently he was shocked by all that he saw.

It's really impossible to imagine what it is. After killing these giant creatures, they cut off their heads and piled them into mountains, as if forming a font to warn them.

Soon, Qin Tiange found something in the middle of the nine bone mountains.

“It seems like a monument”

Looking down from here, you can vaguely see the center of nine bone mountains, and a huge white monument stands.

He stretched his body from the top to jump down quickly, down the bone mountain, came to the center of the nine bone mountains, in front of the white monument.

“His this is a monument made of bones”

At the first sight of this monument, Qin Tiange couldn't help but take a sigh of air conditioning. The entire monument is a hundred meters high and is a complete bone.

It turned out to be a monument made of bones, but this bone is too big, right? One hundred meters high, I dare not imagine, what bones are so big?

“It has words carved on it, these seem to be some kind of ancient writing”

Qin Tiange found that several ancient typefaces were engraved on the bone monument, revealing the vastness and mottled ages. It felt like a long time ago.

Especially these ancient typefaces, he did not know any of them, and he felt that they were some kind of ancient characters.

“What text is it?” He muttered to himself, raising one hand instinctively, and stroking it gently on the bone monument. At that moment, an extremely terrifying voice came from inside the bone monument and hit him instantly Brain consciousness sea.

Chapter 143 - Those who commit my tribe will be stubborn!

“Those who commit my tribe will be beaten!”

A murderous word rushed into the sea of consciousness, causing Qin Tiange's brain to faint, and his consciousness was in danger of collapse. Fortunately, he was a human being with great willpower, which was not shocked by this sudden sentence.

But even so, he was stunned and conscious, and the whole man stayed there, standing still for ten minutes.

"What a terrible killing intention!"

For a long time, Qin Tiange returned to his senses, and his consciousness gradually condensed and awakened. The whole man was shocked with cold sweat, and the armor was soaked.

His face was pale, sweat could not stop flowing down his forehead, and he was shaking with a steel knife in both hands, not because he was afraid, but was taken aback by the terrifying intention.

It was too sudden. As soon as I touched the bone tablet, I was immediately struck by the murderous words, and the brain was almost shaken into a paste.

call

After calming down, Qin Tiange took a sigh of sigh and took two steps back, staring at the huge bone monument in front of him.

He was still echoing the words of shocking words just now.

"Those who commit my tribe will be beaten!"

The nine large characters, combined into a single sentence, turned into a world-killing killer, and deterred the soul through consciousness, which was really frightening and appalling.

Qin Tiange has never heard of it in the past. Someone can dispel a person's consciousness in one sentence. The strong man may exceed the so-called first emperor level.

"Strong, this is the true strong. Together, we have kept the stele for countless years, and it can be used to kill the enemy. This is the powerful realm I am pursuing."

Instead of being afraid, Qin Tiange was heart-warming. He seemed to see a higher level of insight than in previous lives, and that was the real strong man.

The first emperor level, maybe not the limit, or the previous life he was too low, so he can not understand those higher secrets.

This life is different. His vision and mentality are different, not to mention his resurrection. If he can't surpass the powerful men in previous lives, he is really blind.

However, Qin Tiange suddenly realized that a sentence emanating from the bone monument echoed the meaning of that sentence, and he couldn't help setting off a rough sea.

"Those who commit my tribe must be stubborn?" Qin Tiange murmured unconsciously, still echoing that sentence in his mind, shocking the world, and shocking the world.

He seemed to see a strong human being, killing countless powerful extraterrestrial creatures, using their corpses to pile up into mountains, and deter the enemy.

Maybe he had glimpsed a little secret.

“Human race, is this done by human beings?” Qin Tiange startled, looked at the huge bone monument, and looked at the nine huge Takarazukas around him.

The huge creature skulls are transparent, some of them are perforated, some are split, and some are intact, only to realize that it may really be done by humans.

But who can be so capable?

After thinking about it, Qin Tiange looked up at several ancient fonts on the bone monument, and suddenly compared the sentence. The combination of the two suddenly understood the meaning of these fonts.

The nine ancient typefaces imprinted on the bone monument are exactly the sentence just said: “Those who commit my crimes will be stubborn!”

The typeface is ancient, exuding the ancient atmosphere of years, and it is shocking and horrifying. When you see these typefaces, you can make your body cold, and you may have fear unconsciously.

“So terrible killing intention” Qin Tiange muttered to himself, his pale face was full of excitement, and he had a little expectation and inquiry.

He was curious. Is there such a powerful existence among human beings, but has never heard of it, maybe other human beings living in aliens?

“Is it an ancient human, or a celestial being above the starry sky?” Qin Tiange felt his chin, thinking about this question.

He affirmed that this was done by humans, then it shows that not only Earth humans, but also other powerful humans are likely to exist.

The earth is just a drop of the sea in the boundless universe. Maybe some planet or some place outside the starry sky, there are surviving groups of powerful ancient humans.

When I think of it, Qin Tiange can't help simmering blood, especially the sentence “Those who commit my tribe, even if they are strong, they will die!”

These words can make people feel bloody, as if there is some resonance, the blood almost boils, it is incredible.

call!

Taking a deep breath, he calmed down the boiling blood, Qin Tiange was secretly shocked, and a single sentence could deter and kill the enemy, and even resonate with his blood, really had to horrify the powerful horror of this person.

Qin Tiange guessed that maybe he was not a human being, and the sentence just now shocked the sea of consciousness, it is likely to directly wipe his brain and shatter his brain.

He couldn't help but feel a cold sweat when he thought about it, and secretly squeezed it, it was too dangerous.

“Be careful in the future. The things that landed outside these days are extremely mysterious and dangerous, and you can’t easily touch them.” Qin Tiange warned himself secretly, so be careful in the future.

After walking around the bone monument, Qin Tiange couldn’t help but fascinate. This is how powerful people can be to kill and kill huge creatures.

Those huge skulls, at first glance, are powerful and horrifying creatures, perhaps a powerful race in the outer sky.

However, such a race was actually slaughtered by one person, piled up into Jingguan fonts, and deterred such powerful creatures. This is the style of the strong.

“Human race” Qin Tiange murmured, then stopped no longer, but bypassed the huge bone monument and walked out of the nine white bone Takarazuka.

He believes that this must have been a battlefield, perhaps a place where the Celestials fought against this huge race, and he did not know why it landed on the earth.

With one question after another, Qin Tiange has a mind to find out, and wants to find out whether there really is a Celestial Terran.

After finally getting out of the bone mountain, Qin Tiange came to a Gobi beach, where the wind and sand were diffused, the broken bones were everywhere, and many huge bones were buried in Sha Shuo.

This picture is the sporadic picture he saw in the recorder at that time.

“Sure enough, they are facing some kind of danger here.”

Qin Tiange looked dignified and stared at the Gobi Desert in front of him. A gunship was scattered about 100 meters in front of him. There were traces of bombs not far away.

Stepped forward and checked Qin Tiange determined that there had been fighting here, there was blood left, but no corpse remained.

“This place should have been bombed by missiles.” Soon, Qin Tiange came to a large pit and confirmed that it had been bombarded by a missile hanging from a helicopter.

What surprised him was that beside the pit, a little bit of strange liquid was still dripping, turquoise, and shining light, even though he was not thirsty.

Gently with your fingers, a snoring sound, a blue smoke from the fingers, the pain caused Qin Tiange to immediately shrink back, full of horror.

“Hiss, what kind of blood is it, it has such a strong corrosiveness that it can erode the body of a living body, but it does not corrode the surrounding soil and rocks?”

He took a sigh of cold air, his face full of suspicion, looking at his fingers looking out of a blood hole, and the bones were exposed a little. If he didn't remove it in time, maybe half of his fingers were gone.

Tapping

At this moment, there was a sound of inexplicable drums in the distance, getting stronger and stronger, as if someone was shaking the drums, shaking the earth.

Chapter 144 - Phantom of the Extraterrestrial Battlefield

The sound of the ancient drums of war came through the wild, sounded like a thunder, and penetrated deep into the soul.

The vigorous and ancient drum sound, with a strange rhythm, can make the blood boil, the war spirit, and can't help shouting.

“Kill! Kill! Kill!”

In the wind and sand, the drums of war were roaring, and the sound of shouts and kills came out, shaking the sky.

Qin Tiange's face was horrified, and his body continued to tremble. It was affected by the sound of ancient war drums, and passed through his soul, causing his blood to thrive.

As the shouting and killing sound became more and more intense, wave after wave, as if passing from a distant starry sky, reached into the soul and carved into the bone marrow.

“Where's the drum sound?”

He retreated in horror, feeling that he could not control the writhing blood, and he couldn't control the vigorous warfare in his heart, and was about to be called by the war drums to kill him.

Qin Tiange endured hard, suppressed the writhing blood in his body, and retreated quickly, which made him feel better.

Raise your eyes and look at the endless Gobi. The wind and sand are sweeping. Where are there any figures, and where are the drums and shouts of war?

“Weird!” Qin Tiange looked dignified, took out the electromagnetic light blade and held it in his hand.

He seemed very vigilant, his eyes constantly looked around, and he always felt a bit weird and had to guard against it.

Qin Tiange stepped forward step by step. At the next moment, the ancient drum sound came again. This time, it became more and more loud, which almost inspired the blood in his body.

Boom!

BOOM BOOM BOOM

The roar of the drums drove Qin Tiange's heart to beat faster and faster, heavier and heavier, as if revealing some magic.

puff!

With a spit of blood, Qin Tiange turned white, quickly retreated, and almost fell to the ground, looking at the Gobi with a look of horror.

There was no ghost in the air, but he could hear a drum of war inexplicably, and then shouted a killing shock, which directly hurt his mind.

“Terror” has to admit that there is something frightening here.

This inexplicable sound of drums of war is enough to make Qin Tiange defenseless and impossible to defend, because the ancient and desolate sound of drums of war can seduce his blood.

Although the war intentions soared due to the influence of the drums of war, Qin Tiange was afraid for a while. If he continued to choke, he would probably explode and die.

“Where did the drums of war come from?” Qin Tiange was helpless.

He frowned, standing on the edge of the sandy Gobi, not going forward, not going backward, a little awkward.

After thinking about it for a long time, Qin Tiange finally made a decision and wanted to go into it.

Boom!

As soon as I stepped in, there was a sound of drums of war, but this time it was much smaller and still within tolerance.

With surprise, Qin Tiange resisted that kind of drumming, suppressing the boiling blood in his body and fighting his whole body, and there was an impulse in his heart to scream.

He feels that if he releases that tumultuous warfare, he will inevitably kill him with a knife and kill him upside down.

“Resist!” Qin Tiange resisted as he walked, gritted his teeth, and refused to let go of the war that he suppressed, because once released, he is likely to be overwhelmed by the boiling war. No autonomy.

Step by step, finally, staring at the ancient drums of war, Qin Tiange came to the center of the Gobi and saw such a scene.

“Ancient battlefield?” As soon as he stepped into the center of Gobi, everything around him suddenly changed, as if suddenly entering another world.

Qin Tiange found in horror that he appeared in an ancient mottled battlefield. The four sides were filled with blood-red mist, **** and fierce, and scary.

The most amazing thing is that there is no sun in the sky, there are only two huge stars, it seems very close, and you can even see some huge things on that star.

Grunt!

Taking a spit of spit, Qin Tiange was stunned by the sight in front of him, and thought in shock: “I’m going, isn’t it going to the ancient battlefield of the alien planet?”

He had to be so suspicious that the surrounding scenes were too special, the two huge planets hanging high, the deserted and deserted surroundings, the wind and sand on the Gobi filled with scattered corpses and weapons everywhere.

“Those who commit my tribe will be beaten!”

Suddenly, a high-pitched voice came from a distance, and saw the fog of the Quartet burst suddenly, and the large black clouds floating in the sky were shaken away.

Qin Tiange looked up, and suddenly horrified the three souls and seven souls to jump out.

boom!

There was a loud noise in the sky, and then a huge corpse, three hundred meters high, opened a big hole in his head, and a blue halberd was inserted. He died on the spot.

“No, it’s not real, it’s a photo.” Finally, Qin Tiange understood that these pictures were not real, but images.

It’s like a video. As for why these images are retained, it is likely that they are affected by some kind of magnetic field, and they are copied and saved.

“kill!”

With an angry kill, the sky exploded, and saw a huge corpse falling down and smashing huge pits.

Blood, under the sky, as if the sky was crying.

That scene saw Qin Tiange’s blood boiling, his eyes staring at a figure who was bravely killed above the distant sky, hazy and unreal.

The man had a huge figure, and his three-meter-high body looked extremely powerful, but there was a layer of fog covering his body, and he could not see his face at all.

All I know is that it is an extremely powerful and terrible man. Qin Tiange felt faintly in his heart that it was the strong man outside of heaven that he was looking for.

Perhaps, the Bone Bone Jingguan here is the masterpiece of the strong man, who even beheaded and killed countless huge starry giants alone, and used their bones to build up Takarazuka to frighten the enemy.

“This is my generation!”

Looking at the giants that fell like dumplings, one by one was chopped and killed by the celebrity strongman, Qin Tiange couldn’t help but be fascinated, and was deeply shocked by the clan strongman.

Just when Qin Tiange wanted to see the appearance of the strong man, the picture flashed, and suddenly everything around him shattered and disappeared.

Gobi is still that Gobi, the wind and sand swept through the sky, and the dust was everywhere.

The drum sound was gone, the shouting and killing sound was gone, leaving Qin Tiange at a loss for a while, as if he hadn’t responded yet.

Hu sighed softly, Qin Tiange was completely awake, and murmured to himself: “He must be a human, it must be a human. I did not expect that there really are other alien peoples The thing is, the human strongman is so powerful, beyond imagination, as if he is an invincible God of War, killing the Quartet.

Ok?

Suddenly, Qin Tiange frowned, and Huer rushed forward, stopping before reaching a sandy beach.

He looked up, raised his brow slightly, his face gradually surprised, and then turned into shock, as if he did not believe what he saw.

In the wind and sand ahead, there is a huge bone buried, which is roughly estimated to be at least 300 meters, which looks extremely huge.

What Qin Tiange cares about most is that in the head of that huge skeleton, there is a piece of blue thing, which looks like a bronze pillar.

“It was the green halberd that I saw just now.” Qin Tiange looked startled, and immediately recognized that the thing was the green halberd that he saw when he fell into an ancient battlefield, and was inserted in a 300-meter-high Giant forehead.

Isn’t this skeleton the giant that was killed?

Chapter 145 - Emperor 1 of the 5th, Emperor Yan!

Most of the huge remains were buried in the sand, except that the head and most of the body were still exposed.

From the celestial cover of the skull of the remains, we can see a blue-gray halberd vaguely. Compared with this giant giant, it feels like a pin is inserted into a basketball.

But it was such a spear, but it broke through the giant’s heavenly spirit and killed such a powerful giant.

Euphorbia is blue-gray and a bit rusty. It looks like it has experienced long years of erosion. There are cracks spreading on Euphorbia, giving it a feeling of being broken at any time.

But if you are close to this euphorbia, you will feel a piercing sharpness coming through the body, the killing will be pervasive, and the cold will be pressing within a few hundred meters.

“A good spear is an old and powerful weapon!”

Qin Tiange showed surprise, and quickly stepped forward to remove this huge turquoise gray spear, needless to say that it must be a treasure.

Hum

But as soon as Qin Tiange was close to the huge bone ten meters, he felt a strong pressure coming suddenly, and he was directly crushed with a bang.

He was horrified and was taken aback by this pressure, only to find that there was a kind of mighty power on the huge bones, and the pressure around him was extremely great.

Qin Tian Gexing hurried over, and planted his head on the ground, the pressure came too suddenly, as if ten meters around the bone was a terrible gravity space.

“A lot of pressure. I have been dead for a long time. Is there still some power in the remains?” I had to be shocked by the strength of this bone.

They all died with only one skeleton left, and even Yu Wei was able to stun the living beings, and had to make him horrify the strength and horror of the other person.

Climbing up slowly, Qin Tiange gradually adapted to the pressure. He was just caught off guard just now. He never thought that a skeleton could spread its power to suppress others.

Seizing a cold sweat, Qin Tiange looked up at the huge bones in front of him, lying quietly in the sand and dust, on the exposed skull, the horns were completely broken, and the huge eyes were hollow, as if revealing a gloomy atmosphere.

“Be sure to get this euphorbia.” Staring at that cyan-grey euphorbia, Qin Tiange secretly resolved in his heart that he must obtain it.

The ancient weapons are extremely mysterious and powerful. In previous life, I heard that some people once obtained some treasures in some places outside the world, among them there are many ancient and powerful weapons.

These weapons did not decay after a long period of time, and powerful power remained in them. If they were obtained, they would be a killer.

Many people got their blockbuster after they acquired ancient weapons from a place outside the sky. Qin Tiange was no exception and naturally wanted to get such an opportunity.

There is no chance in the previous life, but this life is different, not to mention anything else, the blue-grey halberd in front of him is enough to make him salivate.

Huh!

One person jumped in, Qin Tiange jumped on the huge bone, and climbed up the skull along the breast bone of the giant.

When Qin Tiange came here, it was obvious that a deep cold was exuding from the euphorbia, and the chill was as if from the cold wind of **** blowing from Jiuyou.

“It’s so cold!” The cold invaded the body, and Qin Tiange’s current physique had to take a nap, and the heart of this spurge was more urgent.

Without hesitation, he stepped forward and raised his hand to grab the spear.

call!

At this critical moment, a scorching wind and waves came from behind, shocking Qin Tiange’s heart and he could not help but tremble, and an instinctual dodge avoided him.

This is thanks to the crisis instincts that have been honed for many years in previous lives to escape the sudden attacks behind.

With a bang, as soon as the flower opened, I saw a group of flames exploding in the original place, and the ignition star spattered, but disappeared strangely in front of the halberd.

Qin Tiange then turned around and looked in the direction of the flames. I do n't know when a figure came quietly.

“Is he?” At the first sight of this man, Qin Tiange's heart shrank, his pupils were slightly frozen, flashing the slightest surprise.

He knew the person who had just attacked him. It was a young man with a beautiful appearance and an honest and kind look, but as long as he saw a flame burning above the palm of his right hand, it was not easy for him to mess with him.

The palm of this young man's palm was agglomerated and burned with flames, fierce, and spontaneously ignited, it was unheard of.

“Past life, one of the five emperors, Yandi Yexuan?”

Qin Tiange squinted his eyes and looked at the young man who suddenly visited him. He was one of the five emperors of the previous life, Yandi Yexuan.

Just listening to the name shows that this young man came a long way. In previous lives, he was one of the five great emperors alive, Emperor Yan.

Looking at the burning flame on his palm again, it is not difficult to see why he was become Emperor Yan, because this person is a very rare gifted awakener.

The so-called talent awakening is the awakening of genetic talent in human beings, and suddenly acquires some kind of memory and ability from the genetic level.

Some people say that this is a memory of the previous life, but it is not the case. The real situation is the memory of the ancient ancestors in the gene.

According to Qin Tiange's information, few people in previous lives were able to awaken the memory and strength talents left by their ancestors in their genes.

However, there are often some pride in the sky, but after the advent of the end, they awakened the memories of the ancient ancestors in the genes, and gave birth to some abilities called natural awakening, or genetic awakening.

Yan Di Ye Xuan in front of him is one of them.

“Why did you attack me?” Qin Tiange Han faced down and looked down at the coming Yandi Yexuan.

He just sent out a blaze of flames. If it was not avoided, Qin Tiange would probably be burned by the flames.

Regardless of the identity of the other party in the past, now that he has attacked, he is an enemy. Treating the enemy, Qin Tiange has never relented.

“I want that halberd, you can go.” Ye Xuan, with a very light tone, showed a sense of arrogance, as if saying something very light.

After hearing what he said, Qin Tiange couldn't help laughing, exposing his white teeth, and he laughed.

"Ye Xuan, don't think you are invincible if you awaken a little genetic ability of your ancestors. Now you are still a one-star awakener, and dare to threaten me if the flames are not used?" Staring at Yandi below.

He wondered why this strong man, one of the previous five emperors, could be so confident that he could defeat himself?

Is it because of his one-star genetic ability at this time? Yexuan now is not one of the prestigious five emperors in the past, he is just a one-star talent who has just awakened.

"You know my name?" Ye Xuan was shocked at this time, looking at Qin Tiange's pupils could not help shrinking.

Ye Xuan was horrified and looked at Qin Tiange, but found that she was extremely strange. She didn't remember seeing each other and why she knew herself.

Moreover, what surprised him most was that this person knew that he had awakened his genetic talent. Only he himself knew that he had inexplicably acquired a long and ancient genetic memory, and thus awakened an ability to manipulate the flames.

"Who are you?" Ye Xuan was a little nervous. The flames of his palms were tumbling, burning around his arms, and the temperature was getting higher and higher. It can be seen that he was actually nervous at the moment.

The unknown enemy is the most terrible. The key is that he does not know the person in front of him, and even the details of the other person. Is he like him a genetically gifted awakener?

"You don't care who I am, leave now. I don't care about what you attacked me just now. This spear was discovered by me, and what's the use of your weapon as a gifted awakener?"

Qin Tiange looks like an idiot and rebukes one of the five emperors in the past. Indeed, he is also right. What is the use of Euphorbia?

Chapter 146 - Emperor Yan Lan

Natural gene awakening, the power of the flame is the best weapon of Emperor Yan, any weapon he uses is a chicken rib, there is no benefit at all, but the genetic ability of awakening will gradually fade.

"Don't talk nonsense, seers have a share, treasurers can live, you and I can see the true chapter under your hands!" Ye Xuan did not appreciate it, and went straight.

Qin Tiange looked at him like this, and shook his head secretly. He had just awakened his talent for firepower. He was agitated and impulsive.

At this time, Ye Xuan was not the Yan Emperor of the previous life, nor the powerful emperor who was light and unpretentious, but looked a little irritable.

In fact, this is a kind of sequelae of genetic ability awakening. Fire is the power of bursting. Once you can't control it, you hurt yourself.

Even the fire's irritability factor affected his emotions and became a violent and changeable person.

"Then let me see how powerful your gene awakening talent is." Since the other party was unwilling to leave, they played a game.

Qin Tian Geti knives walked down the bones and stood ten meters away from Ye Xuan. Both were looking at each other, the momentum was condensed, and they formed a confrontation.

Over there, the flames on Ye Xuan's arms boiled and jumped, as if a fire snake were flying around, very amazing.

These flames come from the genes in his body, and will not hurt himself, but have a kind and gentle feeling.

Talent awakenings are scarce. In the previous life, Huaxia was just a dozen or so people, but most of them fell midway, or some people could not grow up.

Genetic awakening, sounds good, is the pride of the sky, but there are many limitations and difficulties. To improve the ability of awakening in the body, you must rely on your own excavation and efforts.

Therefore, one of the most powerful gifted awakeners in previous lives is Yan Di Ye Xuan, one of the five emperors.

"My name is Ye Xuan, what is your name?" Ye Xuan said, raising her arms, and the flames rose into the sky, rushing up to more than three meters high.

The orange-red flame is very hot, the temperature is extremely high, and it is three points more violent than the ordinary flame, and its lethality is amazing.

Feeling the heat from the other side's flame, Qin Tiange's eyes were frozen and he said, "My name is Qin Tiange. Today I want to see how powerful your flame is."

"kill!"

Almost at the same time, the two yelled at each other and jumped into each other, each leaping and hitting each other in the air five meters high.

Bear!

A blast of flames blasted over, rushing to the face, the hot air billowing, burning through the armor of Qin Tiange.

However, he is not a weak man, holding up his steel knife, slamming Huashan on the flames that came on his face.

I saw the blade passing, cut the air, and the flames that swept away were separated by two halves.
boom!

The two bodies collided, each hitting a palm, and they were shot down on the ground.

At this point, Qin Tiange raised his left palm and looked at the palms of white smoke, his skin was blistering, and he had to marvel at the fierce flame of the other side.

Ye Xuan himself, with his right hand hidden behind him, was trembling slightly, the flame of his palm was beating, and the powerful shock brought by that palm was healed.

Shocked in his heart, he secretly confided: "A strong force, unless the talented flames have blocked most of it, I may have suffered a big loss on this palm."

The two eyes stared at each other, the breath condensed, their eyes collided with each other, as if there was electricity in the void, and bursts of unreal sparks.

This is an illusion, but it is a spectacle created by the air burning by the flames, not caused by the momentum of the two.

With the current levels of strength of Qin Tiange and Ye Xuan, it is not possible to press the air with the momentum, which is the ability of the truly strong.

"You are strong, but the power of fire cannot be used freely. You are not my opponent."

For a long time, Qin Tiange took the lead to speak, and this was the sentence, which angered Ye Xuan himself.

He was an arrogant person, and with his talented fire ability to wake up, he had a good temper. When he heard each other's words, he immediately turned his face.

"Look for death!" Ye Xuan sighed angrily, his body leaped up, and his hand was just a huge flame pounced on the opposite door.

Under the fury of Ye Xuan, the power of the flame in one hand was even more fierce. The flame, which originally only surrounded the arm, gradually spread to the upper body, as shocking as the same fireman.

The heat wave hit the face, but Qin Tiange was expressionless, holding a steel knife in his palm, chopping fiercely, chopping in the center of the group of flames.

The edge of the blade was so swift that a sharp blade could separate the flames, like drawing a knife to cut off the water, which shows how terrible Qin Tiange's power is at this moment.

Regardless of strength or speed, Ye Xuan is not as good as Qin Tiange. There is no other ability besides a talented fire ability.

"If you can do that, then lie down!"

After a few rounds of fighting between the two, Qin Tiange basically figured out the details of the other side. The talent flame had just awakened not long before, and it was impossible to really use its power.

Even Ye Xuan hasn't figured out other abilities of talent fire, such as compression, change, and other powerful abilities. He can't do it.

"Not good!" Ye Xuan heard the words secretly, and a burst of flames that had been raised by hands suddenly collapsed.

He didn't wait for a response before seeing a sharp steel knife screaming, the blade broke through the air and flame, and flew towards him.

The crisis, the unprecedented crisis, made Ye Xuan feel a little nervous, and at the same time more frightened the other party's speed, even so fast?

"you lose!"

The steel knife stopped at three centimeters of Ye Xuan's forehead. His sharp body and piercing cold made him afraid to move.

The Emperor Yan of the previous life lost to Qin Tiange in this life.

Ye Xuan's face changed, looking at the blade stopped at three centimeters of his forehead, and he felt a bit lost in his heart. He thought he was overwhelmed by the talent of the fire, but now he has been hit.

He lost, and he still lost on the opponent's speed and strength. No matter how his flame bombarded the opponent, he was split open with a knife, and he couldn't hit the opponent at all.

"I lost!" Ye Xuan also simply, dissipated the burning flame on his arm, admitted frankly that he had lost.

Man, if there is a responsibility, lose is lost, no big deal. Losing now does not mean that he will always lose. As long as his talent is more powerful, it will be enough to defeat the opponent.

Seeing Ye Xuan wake up from the failure so quickly, Qin Tiange was compelled to admire that he was worthy of being an emperor and had a good heart.

"Actually, you're not unjustly lost. If you can compress the talent of OR twice, or even condense into a weapon to attack the enemy, then I will not be your opponent now." Qin Tiange said is the truth.

If Ye Xuan can compress the talent fire twice, or achieve the level of condensed fire, it is him who loses now Of course, even if Ye Xuan grows to that step, he may not win. With Qin Tiange, you will improve as you progress.

"It's yours." Ye Xuan dispersed the flames and stepped aside, indicating that he no longer interfered with Qin Tiange's use of weapons.

Seeing that he was aware of current affairs, Qin Tiange didn't say much. He didn't hurt the emperor of the previous life just now. After all, he is still a worthy person. After hurting the other, it hurts kindness. It's true that he wants to be a friend It's impossible.

"Thank you very much!" Qin Tiange nodded gently, and after thanking him, turned back immediately, and jumped up on the huge remains again.

He came to the blue-gray halberd and looked at the halberd that was taller than him, even though half of the heavenly spirit inserted into the giant's bone was still higher than him.

"It depends on luck!"

Qin Tiange looked dignified, stretched out his right palm to slowly open a wound with a steel knife, and blood flowed out. Then, he quickly probed and held the green-grey spear.

Hum

Chapter 147 - Break through 0 people

Bloody hands took hold of the halberd, and a strange buzz came from the halberd.

Hum!

The halberd trembled, shaking the halberd lightly, the whole body flashed with a blue-gray light, and a little blood was diffused. The blood flowing from the palm of Qin Tiange's palm spread the halberd's body autonomously and was sucked into it through every small crack. .

Swallowing, this is the blood that Euphorbia is devouring Qin Tiange's blood, which is still very slow, but then the swallowing speed is getting faster and faster, like a bottomless pit, greedily sucking Qin Tiange's blood.

"Not good" Qin Tiange's complexion changed slightly, and he felt a little pale as he felt the blood flowing from his body frantically.

He wanted to use the blood sacrifice method to obtain this ancient halberd, because now he has only this method to obtain this halberd.

However, he underestimated the speed of the halberd's swallowing, and even took a third of his blood, and continued to swallow.

Seeing that he was about to lose too much blood, Qin Tiange finally realized that it was not good, and he took out a test tube, and opened his mouth to drink the green liquid in the test tube.

That was the fluid of life. You had to use this to supplement the lost blood and life energy. The pale face suddenly became ruddy and full of vitality, like a blowout, surging and sweeping all over the body.

A fluid of life, containing immense vitality, finally let Qin Tiange breathe a sigh of relief, but still did not see Euphorbia to stop absorbing, but became more and more fierce.

"It won't work like this. I've already been sucked by a conspiracy after confiscating this Euphorbia."

Qin Tiange looked a little dignified, holding the halberd in his hand, but he couldn't do it just because he wanted to release it, because once the blood sacrifice started, it couldn't be interrupted, otherwise he would be back bitten and die.

If someone is attacking him now, Qin Tiange can't do anything about it.

Under the bones, Ye Xuan's eyes flickered. Looking at Qin Tiange's appearance, it didn't seem very good. I guess he was in trouble.

If he attacked and attacked at this time, he could absolutely kill him, but he didn't do it, but he dismissed it.

"He's a strong man, but I'm not weak." Ye Xuan watched quietly, without going up for a surprise attack or disturbing.

A strong person has the dignity of the strong person. If he wants to be a real strong person, he must have the mentality of a strong person. As a strong person, he naturally disdains to attack others while he is in danger.

Only by beating the opponent directly is a means to show his true force, and also a mentality that should be a strong one.

Ok?

Suddenly, Ye Xuan frowned and turned to look in one direction.

Over there, a large group of people were faintly seen running towards this side, full of nine people, looking a little embarrassed.

At this time, Qin Tiange also noticed the emergence of the group of people, and when he saw the head of the group, he immediately seemed to be a group of people who had previously fled.

“It’s them, how come back?” Qin Tiange frowned secretly, running out of a group of people at this critical moment to have some trouble.

He can’t stop right now, otherwise he will give up all his achievements, or even be swallowed up by the halberd, and then the fun will burst out.

“Ye Xuan, help me look at the people.” At this moment, Qin Tiange looked at the group of people coming, and said something without looking back.

Under the bones, Ye Xuan rolled her eyes when she heard these words, and murmured in her heart, “Are we familiar? Why should I ask you to help you with disaster?”

Think about it this way, not overnight Xuan still directly flashed, blocking in front of the group of people.

“Stop coming!” Ye Xuan raised his right hand, and ignited a blaze of flames, and warned a group of people in front.

The group of people ran over in embarrassment, but when they suddenly ran out of the road to block one by one, they instinctively startled and saw that they were finally relieved.

“Brothers don’t get me wrong, we just ran here and didn’t mean to offend.”

The chief boss opened his mouth and explained, looking at the right hand of the opponent while talking, the burning flame made him extremely shocked.

“Power?” A group of people flashed such a word in their hearts, all surprised, looking at Yexuan in front of them like a monster, it was incredible.

At that moment, the boss found the huge bone in front of him, looked up, and immediately saw Qin Tiange, the head of the bone, standing there with a quaint Euphorbia in his hand.

“Baby!” At the first sight of Euphorbia, the man immediately realized that it was a baby, and there was a hint of greed in his heart.

However, seeing Ye Xuan blocking the way, the greed in his heart immediately pressed down, the other party was not easy to mess with, and there was something terrible behind him to catch up.

“Don’t worry, otherwise my flames will not recognize anyone.”

Ye Xuan caught the greed in the eyes of the place and immediately warned, saying that the flame on his arm suddenly rose three meters high, burning, emitting a hot breath, and warned a group of people in front not to act foolishly.

“Misunderstanding, misunderstanding!”

The boss secretly squeezed a sweat and explained with a smile: “We don’t have this mind, now we just want to escape, there is a terrible thing behind us, we go first.”

With that said, he ran directly with people, going around Ye Xuan and the huge remains in front of him, but unfortunately he didn’t wait for him to run away, and then a sudden wind rolled over the people.

call

The wind and sand were permeating, rolling around, wrapped in thick dust.

“Here it comes, run away!”

Seeing this weird wind and sand, the crowd panicked, turned around and ran away, regardless of Ye Xuan and Qin Tiange on the skeleton.

Moreover, the boss also expected Ye Xuan and Qin Tiange to stop the strange and horrible wind and sand.

“What’s that?” Ye Xuan didn’t feel right, his pupils contracted, and he stared at a large blast of wind and sand, which was covered with dark mist.

There was a breath that made him palpitated from the mist, and he had to be cautious. The fire of talent flew almost instantly and boiled.

boom!

At this moment, there was a slight roar from the bones. Qin Tiange looked pained, his body shivered, and blood poured into the halberd along the palm of his hand.

“Ah, stop me!”

At a critical moment, Qin Tiange once again drank a liquid of life, and suddenly opened his mouth to make a loud roar, full of violent emotions.

He lost patience, and swallowed the halberd endlessly, causing him to burst into an unknown fire and arrogantly uproot the halberd.

“Get me up!”

Using both hands, holding the halberd tightly, with a roar, Qin Tiange erupted his whole body strength and pulled up the halberd little by little.

If you go on like this, you won't need to be devoured by the halberd, it will be the weird wind and sand that can completely drown him here.

As a last resort, Qin Tiange used violence to pull out the halberd directly.

Kaka Kaka

The huge bones vibrated, and there was a rattling sound, and I was surprised that the original intact huge bones had somehow cracked, and then spread throughout the body.

Just listening to a loud noise, the huge bones burst into pieces, turned into a pile of white powder and dissipated in the wind.

Hum!

There was a sudden buzz in the flying bone meal, and a faint sight of a figure standing in the center of the ashes swept by the wind and sand, holding a simple blue-gray spear.

“My strength is increasing?”

At this moment, Qin Tiange, who was in the storm, was shocked. When he pulled out the halberd, he felt that the suction had disappeared. Instead, a huge mysterious energy poured into the body along the arm, and instantly transformed him. body of.

In just a moment, he clearly felt that he had directly increased the power of ten people at this moment, and this enhancement was not over yet.

The strength of fifty, sixty, and seventy people climbed all the way, and various impurities and toxins in the body were out of the body, exuding foul odor.

In the end, Qin Tiange's strength suddenly increased from the strength of forty-four people to a hundred people in an instant.

For a whole hundred people, this discovery made Qin Tiange stunned.

Chapter 148 - Extraterrestrial

“The power of a hundred people, is that done?”

Qin Tiange still didn't believe it. It felt like he was dreaming, but the surge of power in his body made him know that this was not dreaming, but real.

At this moment, he has really broken through the power of a hundred people, and has increased the power of fifty-six people on the spot, reaching the limit of the one-star rumor, the power of a hundred people.

How powerful is the strength of a hundred people? Just look at Qin Tiange's cracked face, it is quite perfect. Excitement cannot represent his mood at the moment. It can only be described by excitement.

“Hey, what are you doing, hurry up!”

Just as he was in a daze, in the wind and sand, Ye Xuan danced with both hands to the flame, and the fire took advantage of the wind to form a monstrous trend.

He was wrapped in flames, defending against the sand and stones that swept the surrounding area. All the gravels of Shashuo were blocked one by one, and the flames covering the body burned and melted at high temperature.

Ye Xuan's appearance at this moment, alive and detached is a vulcan ***** from below!

Qin Tiange was awakened, only to discover that the huge remains were shredded into powder, and there was a large storm sweeping over there, rumbling.

"I'm going, where's the storm?" He was startled when he saw this.

Seeing the rushing storm, Qin Tiange said nothing, waved a large bang with a halberd, and the wind and sand and gravel in front of him burst open.

One halberd cut off the sand and opened a channel. Qin Tiange himself was taken aback by his powerful power and strength.

However, he knew that this blow could only be achieved with the ancient and vast power that had not yet dissipated on Euphorbia.

I want to make such a powerful blow in the future. Unless he is promoted to five stars, he still can't do this with his current ability.

Rushing out along the approved passage, I just saw the stunned Ye Xuan, who was scared by Qin Tiange's blow.

"Would you like to hit people like this?" Ye Xuan rolled her eyes and almost did not vomit blood.

He looked at a huge gully that had been slashed from the ground, and couldn't imagine what the blow would have been if he had just slashed at him.

"Don't fret, hurry up, there is a big guy in the storm." Qin Tiange rushed out, screaming anxiously.

Sure enough, Ye Xuan's face changed when he heard this, and he said nothing, ran down and followed Qin Tiange all the way, rushing out of this sandstorm.

Rumbling

Behind it, the violent sand and dust were flying all over the sky, and the earth was roaring, producing a huge tremor, countless gravel and dust were rolled up, and a terrible sand storm was formed under the influence of an inexplicable force.

As he ran, Qin Tiange looked back, his expression gradually dignified.

His left eye flickered with a little silver light, looming through the sand and dust center, and there was a horrible thing hidden in the mist.

hiss

Suddenly, there was a scream of shouting from the sandstorm, full of anger, setting off a stormy sea, rolling the dust in all directions, and rumbling.

“Fuck, do you want to be so scary?” Ye Xuan was startled.

The hissing was too scary, and the eardrums were a little painful. Obviously there was a big guy hidden in it, which was very scary.

At this time, the nine people who ran in front were even more scared to hear the roar, and they were scared to choose the road, almost scared.

“Oh my god, it’s catching up, I said I can’t ask for that thing, you just don’t listen, now it’s all right.” A young boy screamed in horror with an incoherent expression.

And his words made the leading boss look so dull that he slapped him directly, then kicked him on the young man’s belly, and knocked him to the ground.

“Junk stuff, dare to talk nonsense, you just wait to die here!”

The boss looked grim and left a sentence fiercely, then turned and ran. He cursed inwardly: “This **** is talking wildly, and he has been warned not to say it.”

Thinking to himself, he also carefully looked at Qin Tiange and Ye Xuan, who were catching up. Their speed was too fast and they caught up.

At this time, Qin Tiange, who was less than twenty meters away from the group, was thinking on the face, looked at the young man who was trapped in the ground and was rolling in pain, remembering what he had just said.

“Did they not leave, but what treasure was found, and this was chased by the big guy behind?”

This is Qin Tiange’s conjecture. Maybe not leave ten, otherwise why did this group of people have already left here, why did they suddenly appear, and they were hunted down by a terrible thing?

“Brother Qin, there is something wrong with that group of people. Something must have been taken to anger the horrible guy behind.” Ye Xuan whispered his own guess.

He also saw that the group of people in front must have got something, maybe this was the reason for being hunted down.

Hiss!

Suddenly, a terrifying roar came from behind. Immediately, before everyone responded, a huge shock suddenly occurred on the ground.

“No, there is something underground.” Qin Tiange’s face changed slightly, he drank a little, his body jumped up and jumped away.

Ye Xuan was not slow. He jumped into the air and landed fifteen meters away. Standing next to Qin Tiange, he looked surprised.

The two quickly retreated, and soon came to a skeletal mountain and stopped, looking at the group of people who were fleeing wildly, thoughtfully.

“Ah boss save me”

Suddenly, a middle-aged man screamed and ran into the ground suddenly. The whole man was dragged into the ground inexplicably. He had no time to make a call for help, but saw a stream of blood spurting three feet high, and there was no sound.

Fear, everyone was afraid, and ran harder.

Unfortunately, the ground suddenly trembled under the feet of the people, and then the earth soared, the rubble penetrated, and huge shadows rushed out from under the ground, dancing in the wind.

“What kind of monster is that?” Ye Xuan’s pupils shrank, staring at the huge things dancing, her heart full of horror.

Too scary. They saw a huge tentacles bursting out of the ground and dancing in the air. Each tentacle gave birth to a **** mouth, full of fangs, and disgusting mucus, giving off a terrible stench.

These tentacles are swallowed one by one, and those who have escaped are swallowed up one by one, and the huge tentacles of the water tank are thick. It takes only one second to swallow a person.

“This is an extraterrestrial creature, a species from outside the earth.”

Qin Tiange stood on a huge skull, looking at the huge dancing tentacles, with a solemn expression of the origin of this thing.

It is a terrible alien species. It is extremely powerful and does not belong to the native species of the earth, but comes from the cosmic starry sky and outside the earth.

Ye Xuan was clearly shocked and said, “Do you mean, this thing is an alien species?”

“Do you think this kind of thing exists on our planet?” Qin Tiange asked in reverse and the other party stopped talking.

At this time, the nine people who had fled were the boss and two of the younger brothers. The others were all swallowed up by the huge tentacle.

“Brothers help, I am willing to pay you gold diamonds”

The boss suddenly ran towards this side, shouting as he ran, wanting Qin Tiange and Ye Xuan to help.

When he saw him running, Qin Tiange cursed, “This **** wants to drag us in, it’s really not a thing.”

“go!”

Without saying a word, Qin Tiange turned and ran, he didn’t even bother with the inch man behind him. As for the golden diamond he said, don’t be stupid, these things are of little value after the end of the day.

“Be careful, that thing is coming!”

As he was running, Ye Xuan suddenly exclaimed, Qin Tiange heard his voice, looked up, and was surprised to see a thick tentacle above him heading down at them.

Chapter 149 - Detonate a nuclear bomb

Bang!

With a loud noise, the Mountain of Skeletons immediately collapsed, and numerous huge skulls were scattered and scattered, falling to the ground and scattered into a pile of powder.

In the smoke of the sky, two figures rushed out in a panic, avoiding the sudden blow just now, very thrilling.

“I’ll go. The tentacle is so suffocated that even the Giant Skeleton Mountain is powdered.”

Qin Tiange flashed a dignity on his face, turned back to look at the mountain of bones that had collapsed into powder, and could not help fighting a cold war.

If it was shot, then the bodies of the two of them would definitely be finished. Because of his current ability, he couldn’t compete at all, but he avoided being in time, but the hearts of the two were extremely heavy.

“Trouble, that creature seems to be crazy.” Ye Xuan said with a look of horror.

He felt that the creature was going crazy, and he didn’t know what stimulation it was, but it was so crazy and terrifying that it was unexpected.

hiss...

A roar, earth-shattering, and the dust swirling all over the sky, making a terrible sound of rumble, there was a huge creature, encircled by the endless storm of sand and dust.

I saw, the ground suddenly cracked, huge tentacles rushed out, dancing madly in the air, hitting them in all directions.

Boom, boom boom ...

The entire land falling was trembling, mud and rocks were flying, giant rocks penetrated the air, making the surrounding area slamming, setting off endless smoke and dust to cover the sky.

The tentacles, each one thicker than the water tank, were up to 100 meters long, full of dense spikes and twinkling chills.

Especially the heads of those tentacles are born with a large mouth of blood basin, which can swallow a large buffalo when opened, and its mouth is full of tusks, and it looks horrifying.

“Ninai, this thing is too sturdy, let’s just flash it.” Ye Xuan was scared, left a sentence and turned to speed up and ran away.

Don’t run and wait for death, look at the eighteen huge tentacles dancing in the sky, each of them feels like an independent individual, screaming wildly with open mouth.

Qin Tiange’s complexion changed, he turned to speed up, and several flew up and fled. He had to run, and when he saw such a terrible beast, he might not run again.

And just as the two fled, the huge tentacle of a wild dance suddenly slammed hard at them.

Just listening to the loud sound of “Boom”, the ground roared, and the ground cracked, and the hard outer rocks were broken into pieces, smoke and dust raged, and rubble penetrated.

“Oh!”

Qin Tiange got up horribly from the sand pile, spit out a few spits of sand, his face was pale, and obviously he was hit lightly by a blow.

If he did not dodge in time, he was not directly hit, but was lifted out by a strong impact, and smashed into the sand to escape.

As for Ye Xuan, the same thing got up from a pile of sand not far away, covered with dust, and ate a few mouthfuls of sand.

“Asshole, so powerful, do you want anyone to live?” Ye Xuan cursed, but his movement was not slow, and he turned and leapt away.

The two fled forward, one after the other, at this time, Qin Tiange suddenly realized that the soil tens of meters away in front of them suddenly exploded, and a huge tentacle rose into the air, blocking their way.

“Damn!” Seeing this, both of them changed their faces and knew that it was terrible.

Sure enough, without their reflection, a tentacle rushing out of the ground slammed violently, and when the head came whistling, the air was bursting.

The waves of terror were rolling, Qin Tiange looked unprecedentedly dignified, and it was too late to run, only to fight hard.

“Drink!” He yelled, holding the halberd in both hands, and suddenly stabbed in the sky.

Just listening to the flutter, there was a sticky carcass spilling on the skin, which immediately produced a strong corrosive force and penetrated the bone marrow.

hiss!

Qin Tiange gritted his teeth, took a sip of air, and was irrigated by the carcasses on his body. As a result, a large wound was overlooked, and his bones were visible.

The halberd poked right under the tentacle’s mouth, and pierced a pair directly, but the next moment, Qin Tiange felt his body fly up.

boom!

The tentacles were thrown wildly, and Qin Tiange and his halberds were lifted out, smashing into a bone mountain not far away, and Xiang was embedded there.

Ye Xuan was blown off by a strong shock, and the whole person spit out blood, and the flames on both hands were swaying, seeming to tremble, as if to extinguish.

“Brother, ask for blessing, I’ll take a step first.”

At this point, Ye Xuan got up, shouted, and then slammed with his hands, two raging flames wrapped his body, and instantly turned into a fire and burst out far.

Qin Tiange just pulled his feet out of a skull, and immediately he couldn't help but cursed shortly after seeing him escape.

However, he didn't care about the other person running away alone, he would do it. After all, the two did not have any friendship, not even their friends, and they met once because of a spear.

hiss!

There was a roar from high altitude, and the tentacle came again, with a huge mouth, like a python, and threw at Qin Tiange. The speed was astonishing.

“Damn, I must kill the inch man when I go out.” Qin Tiange could not help but curse the inch man.

It's also not clear how the other party caused this terrible creature. It must be something that shouldn't have been taken to startle the terrible creature that has been hidden in this distant place.

Now, the inch-headed man ran away, and Qin Tiange and Ye Xuan were treated as enemies by this creature and directly tortured.

Ye Xuan just fled and left, and it's really unclear how he used the fire of talent to escape.

In the end, only Qin Tiange was left here to face this crazy alien creature, without even seeing the other side of the body, he was frightened and fled.

boom!

Another bone mountain collapsed, sweeping the tentacles, setting off a storm of sand and dust dozens of feet high, countless broken bones wrapped in a lot of crushed stones and scattered around.

hiss...

Can't find the culprit, the extraordinary anger of the extraterrestrial creature, the eighteen tentacles lifted up, roaring and roaring in the air.

The scene felt like a group of snakes dancing and looking creepy.

Qin Tiange got up, wiped the blood from the corner of his mouth, his eyes were endlessly cold, and his intention to kill could no longer be concealed.

“* I'm desperate, then you'll die!” Qin Tiange's tone was sharp, and there was a flash of violentness and fierceness in his eyes.

Finally decided to desperately, since he didn't run for him, then killed this alien creature.

“Come, let you taste the power of nuclear weapons from the earth.”

Qin Tiange took out a round sphere, which was the red mercury nuclear bomb from Zhuo Tianfan's hand. Now he will use this thing.

Originally, he thought about keeping it for self-defense, but he never thought he would use it now. It was a great killer that really distressed him.

“So I like to eat, then I will give you a nuclear bomb!” Then, Qin Tiange threw the red mercury nuclear bomb severely into the mouth of a huge tentacle that had been culled.

There, the dark mist was diffuse, and a behemoth was faintly seen. The whole body was smooth, and the three eyes were like three moons. They showed a faint light. With the body attached, the mouth is above the tentacles. As long as the prey is swallowed from there, it can be fed into the body through the internal esophagus of the tentacles and digested.

The nuclear bomb was swallowed by the tentacle and ignored nothing, anyway, as long as it entered its mouth, it was swallowed.

“Hey ...” Seeing this, Qin Tiange smiled, his body dodging quickly, avoiding the violent bombardment and the rubble from the surroundings.

He speeded up, and while running, holding the nuclear bomb detonator to check the distance, there was a number on it showing that the nuclear bomb was only 300 meters away from him.

hiss!

Originally I wanted to continue to distance and detonate the nuclear bomb, but the creature did not give him a chance at all, and the eighteen huge tentacles danced together, knocking down at him one after another, shaking the entire heavenly land.

“Explode me!”

Seeing that he couldn’t escape, Qin Tiange looked fierce, and after pressing an explosive button, he suddenly heard a thunderous sound coming from behind him.

Chapter 150 - 1 strange bead

boom!

A mushroom cloud soared into the sky, accompanied by a loud noise, and a powerful shock wave swept across several kilometers. [Full text reading]

“Wo-Yu, the nuclear bomb?”

Ye Xuan, who had just fled a few kilometers away, was horrified to death. He looked at the huge mushroom cloud rising in horror. The strong light exploded like a red sun, and then was lifted off by a powerful shock wave the next second. , Caught a surprise, and was instantly drowned in a mud of smoke and dust.

Smoke billows, rumbling!

The red mercury nuclear bomb exploded and swept across a few kilometers in an instant, completely tearing and crushing the storm, and the terrible high temperature melted the rock and sand into crystals.

At the center of the storm, that extra-terrestrial creature was smashed into fragments on the spot. The red mercury nuclear bomb exploded from its body, and it was impossible to stop it with great power.

“Nuclear bomb? Where did it come from?”

Outside the land outside, a powerful wind and waves swirled over the dust, sweeping away the inch-headed man who escaped in the morning dozens of meters before falling.

He got up quickly, staring at the huge mushroom cloud with a look of horror, full of horror, can't believe it was a nuclear explosion.

I never imagined that a nuclear bomb exploded. Where did this nuclear bomb come from?

Seeing the mushroom cloud rising from the sky, the strong heat can be clearly sensed here, and the scared-headed man turned away immediately and ran away, dare not stay for a moment.

He was frightened, first a terrifying alien creature, and then a nuclear bomb explosion, already scared.

“Hmm ...”

In a pile of sand and dust three kilometers away from the center of the explosion, a person suddenly crawled out, constantly spitting dust and gravel, and his mouth full of plaster covered his mouth, almost dying.

Ye Xuan got up terribly, eyes widened, and looked at the huge mushroom cloud that remained silent for a long time. At this moment, there was still a feeling of fear.

“That guy, there is a nuclear bomb?” Ye Xuan had to be shocked and muttered to himself.

What he thought of was Qin Tiange. This guy had a nuclear bomb in his body, it was incredible, and he felt cold all over.

Looking at the mushroom cloud rising from the center of the explosion, the intense fire light did not go out for a long time, the giant creature was completely silent, the huge tentacles were still twisting and struggling on the ground, and his mouth screamed hoarsely.

hiss...

Eighteen huge tentacles screamed and screamed, and eventually struggled and there was no movement. Many tentacles were blown into sections, and none of them were intact.

“It's wonderful to go first.” Ye Xuan turned pale, rolled up a flame and turned to run. He didn't want to stay here for a moment.

At this time, the center of the explosion, three kilometers in radius, was considered flat, and a large pit of several hundred meters in the center appeared there, strewn with dark green carcasses and some disgusting R blocks.

These R blocks, black lacquered, glowing with dark green light, exuding a certain stench, are just the body fragments of the smashed creature.

When the mushroom cloud gradually dissipated, the high temperature gradually disappeared, and the calmness was restored here. Only the wind and sand filled the sky, and the smoke and dust covered the high altitude.

boom!

At this time, a hand suddenly appeared on the flat ground, black and white, smoking white smoke, and was burned by the intense heat.

Immediately after that, another hand was stretched out, and slowly, a figure crawled under the thick mud, the steel armor was crushed and shed, blood R was blurred, his head was black, and escape was a escape. Refugees.

“Cough, cough ...” Qin Tiange’s face was dull, his ears were humming, and his head was shattered by the horrible sound of the nuclear explosion.

He vomited a few mouthfuls of mud and coughed for a while before he calmed down. Then he checked his physical condition and found it miserable.

There are scars on the chest, bones are deeply visible, and blood R is blurred behind the back. The entire face is almost invisible, and the hair is all black.

Only one pair of eyes can be kept intact, and the other hands and feet have been injured to varying degrees.

Goo Goo Goo Goo

Qin Tiange took out a puppet of life, drank it, and drank it, drank a tube of life puff, and finally recovered.

Huh ... Gently spit out a stale air, Qin Tiange looked grateful, looking at the hundreds of meters deep pit that was blown out in front of his heart.

There were huge blocks of R scattered around, and eighteen tentacles were blown into sections, lying quietly in the mud.

“Fortunately, the nuclear bomb exploded inside that creature. Its body blocked the explosive power of the nuclear bomb and it did not die. Otherwise, I will explain here today.”

Qin Tiange shook his head with a bitter smile, secretly thinking about the shocking scene just now. When the nuclear bomb exploded, he directly swallowed a whole life’s falcon, which saved his life.

Watching the body wound gradually recover, R’s eyes can see the recovery, Qin Tiange can be completely relieved, this time the disaster will not be blessed.

“Let me see, what is it?” After twisting his neck, feeling that there was no problem with his body, Qin Tiange walked to the edge of the big pit naked.

While observing the large pit in front of him, he took out a new set of steel armor and replaced it, and soon replaced the new steel armor.

“Is this an alien creature?”

Finally, Qin Tiange saw a huge body wreckage at the bottom of the big pit, completely beyond recognition, three huge eyeballs had completely burst, and half of his body was blown up.

What shocked him was that this huge creature had not been completely blown up, and still had a large half of its body, 300 meters in length.

It's hard to imagine how huge this extraterrestrial creature is, it's just a behemoth, and fortunately it was killed by a nuclear bomb from the inside.

"Fu S is very strong." Qin Tiange frowned secretly, raised his arms, and looked at the original dark skin, some gray spots began to appear.

This is the radial S, and there is still a strong temperature in the center of the explosion and the nuclear radial S remains. The ground and even the large pit are all sediments that have been burned into crystals.

Fortunately, Qin Tiange's physique has soared at this moment. The strength of a hundred people is on his body.

With a jump, Qin Tiange went down to the bottom of the pit and came to the dead creature. He looked silently and observed the creature.

He found that this alien creature was disgusting. The whole body was like a soft ball of R. There was no mouth on the body, and there were only eighteen terrifying giant tentacles.

Huh?

Suddenly, Qin Tiange's face moved, and he gave out a suspicion. He stepped forward two steps, his eyes staring at the middle of the creature's three huge eyes, where it had been blown up.

However, in the middle of the three eyeballs, there was a hint of light in that part of the wound I didn't notice it but thought it was an illusion.

"What's that?" Qin Tiange was curious, but watching the wreckage of this extraterrestrial creature flowing with terrible blood, dark green, could erode the body of the creature.

He thought for a moment, took out a spear, and gently opened the festering place, and saw a faint light.

"Is it a baby?" With questions and excitement, Qin Tiange cut the position of the monster's body with an electromagnetic light blade.

With a click, a strange sphere fell off and fell to the ground.

This is a strange bead, the size of a fist, the whole body is orange-red, looks like a fiery red bead, exuding a hot breath.

Here!

Qin Tiange just reached out to pick it up. As a result, his fingers were burned with a ray of green smoke. The beads were very hot, like a cluster of red magma condensing, very amazing.

"Absolutely a baby!" Instead of being shocked, Qin Tiange was very excited. He directly stored it in the space bracelet, and then continued to find the dead corpse of the extraterrestrial creature.
