

Dark Ages 161

Chapter 161 - Big niece, be obedient

When Qin Tiange conquered a group of exiles, a tense atmosphere was set off in the industrial park.

“Dongxing Pharmaceutical is about to start.”

In the industrial area, a large number of survivors rushed to report, and a message spread to the survivors in the entire industrial area.

Dongxing Pharmaceutical, it's time to start!

“I'm afraid Changsheng Group can't hold on this time.”

Under a residential area, the crowd gathered, many people were talking, many people shook their heads and sighed, feeling nervous about Dongxing Pharmaceutical's action this time, and stormy.

However, they are all ordinary people, and it's not bad to survive. Now how can I control the power of others to annex it?

A youth-like survivor shook his head and regretted: “Changsheng Group, originally the leader of this industrial area, has the largest number.”

“Yeah, it's a pity that the president is not there. How could a woman Du Duan prop up such a large group, most of them went to Dongxing.”

“Look, they're out.”

These people were discussing here, and suddenly someone was exclaiming, pointing at the high-rise building in the center of the industrial zone, and seeing a large crowd of people, at least hundreds or thousands.

Seeing these people, all the survivors were a little nervous, clenching their fists one by one, avoiding from a distance, afraid to approach, for fear of causing trouble.

In fact, they are all sad. Most of the survivors are scattered, and no power can be formed at all. Only the big groups here can become power.

Dongxing Pharmaceutical is one of them. After the end of the day, Wang Dong took his men and annexed the surviving staff of all the companies in this industrial zone. Those who disobeyed all fed the zombies.

The only thing that can be countered is Changsheng Group, but unfortunately several times of confrontation, all of them suffered losses. Over time, many people quietly fled and joined Dongxing Pharmaceutical.

“Wang Dong is going to do it?”

At this moment, when he heard the moving Qin Tiange bring people out, he just saw such a scene. The scene where thousands of people gathered was extremely spectacular.

Most of them are scattered, some are factory employees here, some are people who have escaped from the outside, mixed with each other.

Even Wang Dong didn't have time to bother with these people, but instead set his sights on Changsheng Pharmaceutical, which is also a big group. Only this is the thorn in the eyes.

In his view, as long as the Changsheng Group was annexed, these scattered survivors would not be a big deal, and they could eat it at once.

“Sister Jingjing, big things are bad, big things are bad!”

Chang'an Group Headquarters, outside the high-rise office, An An, the dead shemale, rushed into the office in a frenzy like Tian Gao crazy, her face panicked.

Du Jing looked displeased and scolded: “Big call, isn't it for you to arrange the diet of those girls? Why panic?”

An An breathed, panicking, “No, my sister, there are a lot of people from the outside. It is from Dongxing Pharmaceutical. The head is Wang Dong's bastard.”

“What?” Du Jing stood up suddenly, his expression dignified.

She walked back and forth with anxiety on her face, realizing that today was trouble. Changsheng Pharmaceutical may not be able to keep it. This time, Wang Dong was so determined to swallow them.

“How to do how to do?”

An Anxi turned around and said nonsense: “Sister Jing Jing, let's run away, and now they haven't arrived yet, hurry up and escape.”

“To shut up!”

Du Jing scolded, chuckled, and snorted. He walked out of the office and saw the panicking employees running around.

These are the employees of Changsheng Pharmaceuticals. They have run a large part since the beginning. Now in Changsheng Pharmaceuticals, apart from her secret test team, only a few hundred people have remained.

But now, depending on the situation, they are also panicked, because people from Dongxing Pharmaceutical come to the door again, this time they may not be able to stand up.

“Go, follow me.”

Du Jing's calmness and depression of his heart led people out of the company's door, just to see Wang Dong who came up on his face, as well as his densely packed men behind him.

These people are all armed with weapons, guns, ammunition, swords, guns, and sticks. Compared to the Changsheng Group, hundreds of people seem to be quite a lot, but their weapons and equipment are inferior.

“Jie Jing, I'm missing in a few days, you are more beautiful and charming.”

As Wang Dong walked in, he greeted with a smile, but it was uncomfortable for outsiders to listen to it. It didn't seem that the elders cared for the younger ones, but there was a bit of chills.

Du Jingyi looked at him, his face suddenly chilled, humming: “Wang Dong, don’t be close to me, you and I are not familiar.”

“Look, where’s your elder niece, why do I and your father have been in friendship for decades, and you should call me” Uncle “rightly.” Wang Dong smiled, eyes constantly. Looking at the opposite Du Jing, especially staring at the two giant peaks on her chest.

Du Jing looked down on her face: “I don’t have an uncle like you. I miss you, I can’t afford it. You still know where you are. If you want us to trust you, that’s a dream.”

“Big niece, you’re wrong.” Wang Dong didn’t care, shook his head and smiled: “You see, I’m not only an old friend with your father, but also a confidant with your mother for many years, how can you rebel What about the elders? “

“Don’t mention Zhuo Tianfan, he’s not my father, and you better not insult my mother, otherwise I’ll fight with you.” Du Jing was furious, apparently her mother was a taboo in her heart, someone insulted her mother, That’s tantamount to working hard with her.

“It works, I don’t mention it.” Wang Dong smiled and didn’t care.

But his smile suddenly converged, and he said coldly, “Big niece, don’t blame your uncle for not reminding you that today you have to surrender and you have to surrender, you have to surrender.”

“Big niece, obediently, your uncle can still protect you from glory and wealth. Isn’t it better to be a wife of yours? If you are not obedient, do you know what Uncle Wannu is going to do?” Wang Dongyue’s tone became colder.

His eyes flashed fiercely, and he swept across hundreds of people behind Du Jing fiercely, saying, “You listen, now I will not blame you for being sincere, and you will be indispensable if you are fragrant and spicy. If you resist, then don’t blame me. Cruel. “

“Disgusting, I am!”

Du Jing had a disgusted expression, and spit on the ground directly with a spit, the more disgusting she was, the more disgusting she was. For a person like Wang Dong, she felt nauseated by taking a closer look.

“Unlucky, then don’t blame my uncle for being rough.” Wang Dong finished coldly and waved his hand gently, and the hundreds behind him stepped forward.

Hehe hehe

Wang Dong made a loud noise and said, “Big niece, finally give you another chance. Obediently, your uncle will treat you well. Otherwise, you will be like a fierce mother.”

“What are you?”

The next moment, Du Jing was angry and almost growled, “My mother, did you kill?”

By this time, she finally understood that her mother had been killed by this crowned beast, and her mother must have felt pain before she died.

“Yes, your mother refuses to serve me, then I’ll go hard and let her happily enter the kingdom of heaven. You should thank me.”

Wang Dong laughed with a smile. The smile was so chilling that many people couldn’t help fighting a cold war.

“I killed you!” Du Jing’s inner anger erupted and she lost her mind completely, so she rushed up to kill the person.

“General Manager Du, calm down, he is trying to excite you, don’t be fooled!”

Beside, a middle-aged security guard immediately stopped Du Jing, who had lost his mind, and shouted loudly, finally waking up Du Jing who was crazy.

In the crowd, Qin Tiange watched the beauty boss so easily stimulated to lose his mind. He shook his head secretly in his heart, still a little too tender.

A few words were irritated. Obviously, Wang Dong deliberately came out to stimulate her in this way. Regardless of true and false, she must be calm, even if revenge must be considered from the long run.

This impulse will not work.

“Let ’s all go. Today, I am going to co-exist with the Changsheng Group. You do n’t need to be buried with me.”

Suddenly, Du Jing calmed down and made an unexpected statement, which directly dispelled the employees behind her She had decided to fight the dead, but she did not want the employees who trusted her to follow her. .

“General Du, no!”

“A big deal with them!”

“Yes, we are bullied on us, everyone is fighting.”

When hundreds of employees in the Changsheng Group heard it, the emotions immediately surged, and they were stimulated by the blood in their hearts, their eyes were red and they were desperately desperate.

Seeing this scene, Wang Dong couldn’t help frowning, something unexpectedly happened. He wanted to deter this group of people and make them lose their courage and become a climate.

But don’t want Du Jing to say a word, it directly aroused the courage of this group of employees, and aroused their blood, which made it more troublesome.

“Interesting, this girl is not stupid yet.”

Looking at Du Jing with a calm face, Qin Tiange secretly sighed, this girl’s method is good, at least in danger, and it can also inspire the kind of determination to fight hard.

Chapter 162 - Beauties

As Du Jing's words aroused the indignation of all employees, the atmosphere at the scene once condensed and reached the highest point of the explosion. [No Popup Novel Network]

The two sides confronted each other with a strong smell of gunpowder, that is, the crowd watching from a short distance could clearly feel that the atmosphere was heavy and the air was almost condensed.

“Big niece, it seems that you are just like your mother, and they like others to use strong ones, then I will complete you.” Wang Dong said with a grim expression, word by word.

As he said, he stepped up, step by step, and suddenly walked on the air like this.

“what?”

“Oh my god!”

Seeing this scene, everyone was stunned, and the people on both sides were wide-eyed, staring at Wang Dong who stood in the air with horror, couldn't believe his eyes.

Even thousands of onlookers on the periphery felt a heart pumping, eyes widened, and stared blankly at the figure standing in the void.

“He, he can fly?” Someone was taken aback and exclaimed.

The crowd then came to their senses, looking at Wang Dong's eyes differently. This guy can fly, stand in the sky, what can he do if he can fly?

Huh?

Qin Tiange, who was watching the show, was horrified, his eyes twinkled with silvery awns, staring at Wang Dong who was standing in the air, surprised.

He didn't expect that this Wang Dong would come in such a hand, it can be said that the deterrent effect is really not ordinary, and the person who can fly is somewhat shocking.

However, Qin Tiange would not easily believe that Wang Dong flew by his own ability, it should be with some kind of treasure.

“Is it the treasure he got in the land of heaven? Otherwise, it won't make sense.” Qin Tiange thought about his chin.

He couldn't guess more than ten. Wang Dong did bring out a treasure from the land of heaven, a mysterious stone, which could make people float in the air.

At that time they wanted to exit the misty sky, but somehow they lost their way, and then broke into a weird area, where there was nothing, just a strange stone floating three meters high in the air.

It was this stone that led to the terrible killing of the alien creature.

“Sister Jingjing, it's over, this **** can fly, what should we do?” An An was so anxious that he completely messed up.

As for Du Jing, his face was dignified, his heart was extremely heavy, and he felt great pressure. Can he inevitably fail today?

“Big niece, what about surrendering or not?” Wang Dong looked down, looking down at Du Jing and others not far away.

With a smile on his face and cold light in his eyes, he swept over everyone behind Du Jing one by one. He went on to say: “Now, I will give you one last chance to stand up and surrender. I have no blame before. If you stubbornly fight to the end, there is only a dead end.”

“Don’t be fooled, don’t listen to his confusion!” A middle-aged security guard yelled and warned everyone not to be fooled.

At this point, Du Jing suddenly stood up, looking calmly at the three meters high Wang Dong floating in the air in front, the two just looked at each other.

“Wang Dong, you wolf ambition, want to annex my Changsheng Group, and then annex the survivors in the entire industrial park, am I right?” Du Jing suddenly said this sentence.

Immediately after waiting for Wang Dong to speak, she suddenly shouted at the surrounding crowd: “I believe everyone saw it, Wang Dong swallowed up my Changsheng Group, and the next one will be everyone.”

“Yes, Wang Dong wants to dominate the king and do not give us a way to live. Everyone said it?”

The security guard shouted and cooperated with the tacit understanding, which immediately resonated with many people around him, one by one, his face was not good.

Because they were a little worried and speculative, they just didn’t want to admit it. Now they are pointed out in person, and everyone feels a little bit heavy.

Who is Wang Dong who is cruel and ruthless. Once he disobeys, he is dead. If he swallows the Changsheng Group, Wang Dong will have no worries, and he can swallow those scattered survivors directly.

“Chick, I want to pull everyone into the water.” Qin Tiange watched Du Jing’s performance with a smile, and there was really a little heroic beauty in the female general.

However, Wang Dong wouldn’t give her this opportunity. Sure enough, when she saw that she wanted to encourage the people around him to fight him, let alone the fire in her heart.

“Little maiden’s skin, no tears without seeing the coffin.”

Wang Dong was furious, and the floating body flew to Du Jing in front of him, reaching out and quickly pinching her neck, too late to escape.

Du Jing was shocked. Wang Dong didn’t expect such a fast speed, and the same person who has evolved physical fitness, but the gap is different.

Originally, the gap between the two was half a catty, but now Wang Dong has obtained a treasure, which can not only let people take off and float, but also increase his original speed.

Seeing the flash of the figure, Wang Dong had pinched Du Jing's neck and slowly raised it. As he slowly lifted off, he lifted Du Jing in the air.

“Release President Du!”

“Let her go!”

The people at Changsheng Pharmaceutical were suddenly frightened. I never expected that they would be captured by President Du. What should we do?

An An was panic-stricken and screamed again and again. There was a huge riot in the team.

Without Du Jing's support, this group of people was scattered.

“Big niece, you lost.” Wang Dong leaned closer to Du Jing's face and grinned, “Look, what do you fight with me? Now that you lose, you must obey your uncle obediently, so you can leave one Life.”

“Well, kill if you want to kill!” Du Jing was pinching her neck, her face flushed, but she still spit a sputum on his face with all her strength.

Wang Dongyin's face was somber, wiped off the saliva on his face, and licked his tongue out. Hehe laughed, and it was as disgusting as it was disgusting.

“You guys, surrender or die?”

At this time, Wang Dongju looked down at the crowd of Du Jing's employees, his words were extremely cold, and the killing had already begun.

When the crowd was nervous and fearful, and they were about to make a vote, a voice suddenly came from the crowd around them.

“Beauty, call Uncle, I'll save you.”

A word came out, everyone at the scene heard it clearly, and many people looked at it in unison, trying to see who actually dared to jump out at this time.

What's more, the first sentence of the opening sentence was surprising, which did not mean that Du Jing called him an uncle?

Du Jing heard this, and she was so ashamed that she heard this voice, and somehow suddenly raised a hope in her heart, and looked hard in the past.

“It's him!” Du Jing saw that person, and it was Qin Tiange looking at her with a smile in the crowd.

“Is he?” Wang Dong's pupils shrank, his heart horrified, and he naturally recognized Qin Tiange's appearance, just one of the two people he saw in the land of heaven, but he did not expect to be alive.

“Uncle, save me!”

At that moment, Du Jing’s hand holding her neck was obviously loose, and she screamed immediately after taking a breath.

She actually called the young man’s uncle, and everyone petrified on the spot.

“I’m going, this chick is really screaming.” Qin Tiange was aggressive, never thinking she actually called, it was just a way to play, just a joke, I didn’t expect Du Jing to take it seriously, Shouted “Uncle” directly for help.

Well, people take it seriously, then his cheap uncle will rescue the big niece in danger.

call!

Suddenly, a figure flashed quickly, rising violently, and suddenly appeared in front of Wang Dong, holding a spear of halberds with a whistle to break open the air, and flew straight to his face to kill.

Chapter 163 - You fly one more and let me see?

When Qin Tiange was in the air, Euphorbia screamed and rushed away. The speed was too fast, and Wang Dong couldn’t help but be shocked. []

Fortunately, he was blessed by the mysterious stone at this moment, and his speed was so fast that his body moved back and forth a lot, and his head was sideways, avoiding the blow.

Although his speed of avoidance was not uncomfortable, after all, one ear was cut by the sharp crescent of the halberd and blood dripped.

“Dead!” Without waiting for Wang Dong’s screaming, Qin Tiange gave a low drink, and the halberd was spinning, smashing into the head with Taishan’s pressure.

The heavy wind pressure shakes Wang Dong’s heart, and at a critical moment, he directly raises Du Jing’s rung in front of him. If Euphorbia is still smashed, then the first person to die is Du Jing.

The fierce Wang Dong, despite wanting to play with the girl Du Jing, he was even more reluctant to trade his life for Du Jing.

Seeing that Euphorbia was about to hit Du Jing’s Tian Ling Gai, what was unexpected was that the action of Euphorbia’s smashing suddenly came to an end, deftly avoided Du Jing, and stabbed at the pinch of her neck at a tricky angle. On the arm.

If this stab is hit, it is the result of a broken arm. Wang Dong is horrified, and now it is too late to dodge. The only way is to let go of Du Jing.

Or let go, or break your hand!

Between electric light and flint, Qin Tiange even pushed Wang Dong to this step. It can be said that his fighting consciousness and skills are far beyond Wang Dong’s imagination.

In the end, Wang Dong chose to give up and continue to hold Du Jing, struck her belly directly, and ran into Qin Tiange in exchange for the opportunity to escape.

“Hey ...” Qin Tiange saw this, secretly sneered, stretched out his hand, hugged Du Jing flying over, holding her small waist quickly to land.

Qin Tiange held his feet firmly on the ground, Qin Tiange held the halberd in his right hand, and held Du Jing's waistline with his left hand. Looking down, the young girl was pale and bleeding from the corners of his mouth. Not light.

"Is it okay?" Qin Tiange asked softly, but Du Jing's pale face turned red immediately.

"I'm okay, thank you Uncle .. Uncle saved the niece's life!" She said with gritted teeth, especially the word "Uncle" bite particularly heavily.

She hated her teeth itchingly, and this ***** took advantage of her. Du Jing cursed fiercely in her heart: "Bastard, stink man, since you want to be my elder so much, it's my uncle's truth to let you sit down. . "

"Uh ... " Qin Tiange stunned, letting go of her awkwardly, then explained: "Actually, I was just a joke, don't take it seriously."

"No, I take it seriously!" Who knew, Du Jing was serious, staring at him, flashing a hint of slyness.

She said, "You are my uncle, my uncle."

"Uncle, hit him, and your niece shook the flag for you." With that, Du Jing turned back and returned to the team, leaving only a dull look at Qin Tiange and a gloomy face at the opposite Wang Dong.

"It's a big loss!" At this time, Qin Tiange felt a little bit embarrassed. He made a big loss this time. He was originally a joke, but the little girl actually climbed up and decided directly.

Well, with an inexplicable extra niece and an extra junior, how did Qin Tiange feel a little lost in his heart?

"Cut, a wily chick, wait for Wang Dong to be solved and see how I can pack you." Qin Tiange put away his thoughts and looked up at the opposite side.

Wang Dong's somber face was dripping water, covering his ears, the blood ticking down, and half of his face was red.

Don't mention the anger in his heart, can't wait to eat Qin Tiange's meat, chop his skin, and pump his bones to relieve the hate.

"Boy, you are fine, I will make you unable to survive, not to die." Wang Dong was angry, and could no longer suppress the anger of anger in his heart.

With his beast-like growl, the whole person's eyes turned red, hatred had blinded his eyes, and he was about to lose his mind.

“Go to death!” Wang Dong’s body leapt, and the whole man floated at a height of ten meters, suddenly one dived down, and held up a steel knife severely at Qin Tiange’s head.

That speed was too fast, and almost everyone around me couldn’t see clearly, only a faint feeling of a shadow flashing down.

Huh!

I saw a gurgling sound coming, sparks splashing, Wang Dong struck hard, and Qin Tiange easily blocked it.

speed? Qin Tiange shook his head secretly. In the eyes of others, Wang Dong, who was extremely fast, was so slow that he looked like a turtle.

“Slow, too slow!” Qin Tiange held up the opponent’s steel knife and shook his head, saying something that made Wang Dong crazy.

Humph!

Instead, Wang Dong calmed down a lot at that moment, suddenly turned over and flew up again, floating high above him, with a smirk on his face.

He put away the steel knife, but took out a huge thing, and several black muzzles aimed at Qin Tiange. This was Gatlin’s strong.

“Boy, you’re crazy, so I’ll see if you can keep going crazy?” Wang Dong sneered, holding Gatlin at Qin Tiange for a burst of fire.

Da da da da da ...

“Danger!”

“Let’s run!”

Du Jing turned wild, screamed, took the lead to spread out, and hid in the door of the company.

The power of the Gatling machine gun is absolutely terrifying, even a one-star intensifier will be screened.

She was standing in front of the company’s door, and could not help showing a hint of worry on her face. Although she hated the cheap uncle Qin Tiange, now she had raised a lot of worries.

On the ground, with machine guns passing by, gravel flying, bullets whistling, and the scene was extremely hot.

The crowd around them spread out, all of Wang Dong’s younger brothers ran away, one by one, looking for a place to hide, for fear of being hit by bullets that didn’t have long eyes.

For a while, smoke and dust raged on the ground, rubble flew, and the concrete floor was beaten up. After 10 minutes of firing, Wang Dong finally stopped.

“Huh, huh ... are you dead?” Wang Dong gasped, muttering to himself.

He looked desperately, but besides the concrete ground that was shot apart, where was Qin Tiange's figure?

“Wang Dong, are you flying enough?”

Suddenly, a cold voice came from behind, shocking Wang Dong with his hair full of hair, and he turned to look at him.

It turned out that Qin Tiange leaped from behind him, and Euphorbia smashed his chest fiercely. boom!

With a muffled sound, the floating Wang Dong was photographed on the ground, smashing a pit, and the Gatling used to stop it was bent and scrapped.

“Not an opponent It is better to go first.”

Wang Dong was horrified, spit out his mouth, immediately turned over, his body leaped up, and once again floated in the air, flying quickly, trying to escape.

Unfortunately, Qin Tiange accelerated in three steps, and the whole person shouted into the air, holding the halberd and slap on the back of Wang Dong again.

Just hearing a loud noise, Wang Dong was photographed again, facing the loess and facing the sky, and the whole person was motionless there.

“Fly, please fly again and let me see?” Qin Tiange steadily landed, came up with the halberd, stood beside Wang Dong, the corner of his mouth could not help but raise a cold arc.

Wang Dong was indignant, turned over hard, his face was blurred, his back spine was broken a few sections, his chest ribs were broken, and the whole thing was miserable.

puff!

“I ... oh!”

When Wang Dong opened his mouth, he spit out a big blood, and wanted to talk, but unfortunately it was a spit of blood again.

Chapter 164 - Floating stone

“I, I have no injustice with you ...”

Wang Dong laboriously uttered this sentence, meaning that he had no injustice with Qin Tiange, why did he run out to destroy his plan, and even go with him?

This is the most unwilling thing in Wang Dongxin's heart. It seems that he has met Qin Tiange and it is not a festival at all.

“You and I haven't had a festival.” Qin Tiange leaned down and said quietly: “In fact, I didn't intend to kill you, even if it didn't matter to me, no wonder that you shouldn't hit the secret laboratory of Changsheng Group. note.”

Wang Dong understood, and his heart was bitter. Why Qin Tiange shot, one of them is that he shouldn't call the attention of Changsheng Group's Drug Research Office.

That research team was what Qin Tiange regarded as something in his pocket, how could he allow outsiders to get involved in it, wouldn't he be having trouble with him?

“The research room is just one of them. The most important thing is ...” Qin Tiange suddenly grabbed Wang Dong's collar and raised it, whispering, “You took something you shouldn't take, so you will die.”

puff!

“My **** ...” Wang Dong spit out blood, trembling with anger, twitching a few times on the ground, his face was purple and green, and soon his eyes were raised and his breath was broken.

He was killed alive and angry. Qin Tiange's last sentence was very clear. He got what he shouldn't get. That treasure was exactly what Qin Tiange wanted, so he had to die.

Looking at the dead Wang Dong, Qin Tiange had no expression at all, groped in the clothes in front of Wang Dong's chest, and quickly caught a strange black stone.

When holding this stone, Qin Tiange felt a kind of body without weight, as if he could take off at any time, he couldn't help being surprised.

“It was this thing, no wonder.” Qin Tiange was stunned, a little excited, because he knew this dark stone.

This kind of stone has a long history and is extremely rare. There is no such stone on earth. I have heard of its origin and role in previous lives.

The dark stone, the size of two people's fists, the whole body is dark, there is no trace of luster, as if it can devour the light, it is weird.

“Floating stone, I didn't expect me to get a floating stone?”

Qin Tiange was excited, thinking about the role of the floating stone in his mind. It was not used to make people fly, but was used to build the floating city treasures, priceless treasures.

Floating stones can be used to build a floating city. As long as the mysterious magnetic energy inside the floating stones is stimulated, a large steel city can float above the sky.

As for flying, don't be stupid. The real function of this type of floating stone is not to let people float and fly, but to build a huge city in the sky.

Even by studying the mysterious magnetic energy inside the floating stone, it can also create a new concept of levitation technology. By that time, levitation cars, levitation combat vehicles, and even air-to-air motherships can be manufactured one by one.

“Good stuff, put it away first!” Qin Tiange carefully stored this floating stone, feeling excited and unable to calm down for a long time.

The reason is that this floating stone is not small, it looks like the size of two adult fists, and the weight can hardly be felt.

It should be understood that just a small piece of floating rock the size of half a fist can make a steel city that can accommodate millions of people float a hundred meters high.

This floating stone can at least support the construction of three floating cities with a population of one million. Doesn't it mean that Qin Tiange has now mastered the three floating cities in the future?

If I think about it, I feel bloody, if Qin Tiange is not excited, then I really doubt whether he is human.

“Wang Dong is dead, he will not surrender!”

Suddenly, at the moment when Wang Dong died, Du Jing seized the moment and directly raised his gun to fire a few shots at Tian Lian. Then he aimed at Wang Dong's men and issued a warning.

Seeing this, the team on the Changsheng Group immediately responded, one after another with guns and guns, and they were forced to go up one by one with weapons.

“Everyone, Wang Dong is dead. Let's beat the water dog.”

Such a shout came suddenly from the crowd, and as a result, it caused a lot of chain reactions. Immediately, dozens or hundreds of people in the crowd began to reconcile.

“Beat them, kill them!”

Dozens of burly men shook their throats and screamed loudly in the crowd. Some even raised their guns and fired at Wang Dong's men.

Bang bang ...

With the sound of a gunshot, thousands of people who were dumbfounded by Wang Dong's killing were immediately awakened, and saw a few gunmen falling down on the spot and dying.

“Don't shoot, we surrender!”

“We surrender!”

Finally, in a panic, someone dropped his weapon and surrendered. Wang Dong was dead, and he was desperate to resist what to do. No one wanted to die, so he surrendered naturally.

One was two, and sure enough, with the surrender of the first person, immediately, a large group of people threw away their weapons and squatted on the ground with their heads in a panic.

Thousands of people were in a mess, shouting and killing, begging for mercy, and many of Wang Dong's men who saw the opportunity were not good and had fled for a long time.

Soon, the scene was under control, and Du Jing took hundreds of people to hand over each other's weapons and guarded them one by one.

“Uncle, what about these people?”

Du Jing stepped on high heels and walked in front of Qin Tiange, with a serious and serious expression, as if the person in front of her was her uncle, which made Qin Tiange's heart awkward.

“Control it first ...” Qin Tiange said, looking towards the bustling crowd, dozens of thousands of survivors who were watching, hiding among them.

Those people were Fei Long, Li Xiaodao, and others who Qin Tiange just conquered. Just now they encouraged everyone in the crowd to beat the water dog.

Qin Tiange winked a secret look at the group, and soon saw the group quietly back away.

“Does Wang Dong have an underground laboratory in his hands?” Qin Tiange then looked at Du Jing, who was pretty and touching, and asked this question.

The latter touched her glasses, she nodded and said, “Yes, Wang Dong did have a huge research institution, which was formed by annexing other pharmaceutical company research teams.”

“Very good, take me to see.”

Qin Tiange showed a hint of excitement, and immediately heard that Wang Dong had a huge research institute, he immediately came to spirit.

Du Jing had no choice but to honestly take him to the headquarters of Wang Dong Company and led people to break in directly, only to find that the scene had been controlled by dozens of people.

“Boss, this place has been completely controlled, and the resistance has been dealt with.”

When seeing Qin Tiange and others coming in, a burly man stepped up immediately and made a report with Qin Tiange, which surprised Jing Du.

“Very good, you are doing well.” Qin Tiange gave a praise, and then came down to the entrance of the underground laboratory under the guidance of Fei Long.

This entrance is very secretive. If it wasn't for the fat dragon who asked people here, he might not know it, but he was hiding in a very ordinary room.

Opening the underground entrance, a steel staircase appeared, and I have to say that Wang Dong had really spent a lot to establish this secret research institution.

“Boss, I'll take someone first.”

Fei Long volunteered and went straight to the dozens of brothers to take the first step down the stairs and open the way for Qin Tiange in the front, so that the latter was quite satisfied with him.

Several people walked down the stairs one after another and came to this so-called underground research institution, all stunned by the scene in front of them.

Chapter 165 - Inhumane experiment

In the underground laboratory, the lights are bright and extremely huge, and there is a huge space where you can see the densely packed instruments and research materials. []

In a glass container, filled with various liquids, colorful, each baby is stored inside.

That's right, babies, babies who were born just a short time ago, were soaked in various liquids, which made them feel chilling.

hiss!

Spicy as fat dragons, when they saw this scene, they couldn't help pulling down the air conditioner, and the cold air was blowing, which scared the scene in front of them.

“Who are you? Don't you know you can't just run around here?”

Suddenly, an old man in a white coat walked up ahead, staring angrily at the intruders Qin Tiange.

On his body, a white coat was stained with a little bit of red blood, and he was holding a scalpel in his hand, which seemed to have just completed a surgery.

Qin Tiange narrowed his eyes and looked at the old man in front of him. Then he moved his eyes behind him and saw a room with an operating table on which a little girl was lying. She was only about eight years old and her chest was completely broken. Open, the intestines, internal organs, etc. have been completely removed, and have been stored in containers.

That is, the brain was opened and taken out completely, looking at the horrible, the little girl opened her eyes wide, and her expression was extremely painful before death.

Qin Tiange was writhing in his heart, and he didn't need to look to know that the little girl had been killed alive, very painful and terrifying.

“killed!”

A fluttering sentence, but the temperature of the scene suddenly dropped sharply, as if to drop to freezing point, with a depressing killing power.

As the voice fell, Fat Long took the lead in responding, raised his gun at the old man, and banged his head with a bang.

“Abominable, even doing such inhuman things.” Du Jing couldn't help getting angry when she saw this scene.

She never expected that Wang Dong would conduct such a cruel and inhumane experiment. He would use a living person to do the experiment, or a child.

Qin Tiange expressionless, transnational the dead old man's body, came to that room, and quietly looked at the dead girl.

Everyone was silent, with a chill in their hearts. When they came in, they saw such a scene, and no one could keep calm.

“This group of people should be killed!” Du Jing was full of anger, complexion, and his fists rattled.

Qin Tiange slowly reached out his hand, stroked the little girl's eyes, closed it gently, and murmured, “Repose, that old man was killed by me. May your soul be freed.”

After speaking, he did not look back out of this room, looked up at the underground laboratory, densely packed rooms and passages, and couldn't help raising a cold chill.

Qin Tiange took the lead and walked towards one room after another. In each room, there was a planing table. There were more or less one or two people in the room.

The objects of planing are all young children, boys, and girls. They are tied to the planing table, and they open their stomachs and take out the internal organs and brains for research.

This inhumane scene stimulated the nerves of everyone present. Du Jing could not help but turned pale, and vomited on the spot.

She studied medicine and studied medicine, but she has never seen such a scene. She has solved many animals, but she has never seen a living person.

“you guys...”

In that room, two young researchers in white coats, seeing Qin Tiange and others coming in, were about to speak out.

As a result, a spear of swine swept across, two heads soared up and smashed into the corner.

Qin Tiange was expressionless. When he came to the planing platform, a little boy lying on it was out of breath. He was pulled out of his internal organs and died tragically.

“go!”

Turning around, holding the halberd, Qin Tiange went out, and looking at the rooms one by one, all the scenes he saw were shocking.

This is anti-human, demon!

“Kill! Kill! Kill!”

Going all the way, killing all the way, Qin Tiange swelled with blood and mist, and his eyes continued to flash a strange silver light, which was very scary.

As long as he saw someone solving the problem, Qin Tiange cut off their heads without any further mention.

Du Jing and others who followed were a little scared because they saw too much, one by one the heart and brain were contained in a container, even a complete baby.

Finally, walking past the end of a corridor, Qin Tiange and others came to a large iron gate and saw a group of children, men and women, detained inside, frightened and helpless.

They are all being held here for experiments.

“Feilong, grab me all the researchers here, the one left over.”

Looking at dozens or hundreds of children, Qin Tiange was silent for a long time, and suddenly gave this order.

Hearing nothing, Fei Long left with dozens of brothers, and there was still a chill feeling on his face.

With his fierceness, he was frightened by the pictures he saw, and it is not difficult to see how terrible this underground research institute is.

“Why catch us, we still have to do important research.”

“Yes, disturbing our research process, Mr. Wang will not let you go.”

“Where is President Wang?”

Soon, groups of researchers were brought over, and all of them were very angry, they were forcibly pulled out, and even rushed over.

These people, in large numbers, are a large group of researchers gathered by Wang Dong, doing secretly inhumane experiments here.

Hundreds of researchers were brought over, and Qin Tiange looked at the places where the children were detained one by one and found that there were thousands of children detained here.

This discovery was chilling, and he could not imagine how many children were killed. It is not difficult to see just how many children were being held.

Wang Dong, a full devil, dare to do this? Does he think that the end is enough to do whatever he wants?

“Boss, they’re all here, none left.”

The Fat Dragon walked up carefully and gave a soft report, and a look of astonishment flashed from his face from time to time.

At this moment he had a slight fear of Qin Tiange, because his breath was too terrifying, like a terrible beast.

Especially those eyes, full of coldness and weirdness, have no trace of emotion, once they look at each other, they have a kind of creepy feeling, terrible.

Qin Tiange was motionless, watching the children who were locked up without saying a word. The atmosphere at the scene began to condense, and his breathing was heavy.

It took a long time for Qin Tiange to turn around slowly, brushing this group of researchers blankly, full of hundreds.

“No one!”

Suddenly, a cold word came out, Qin Tiange directly ordered the execution of this group of people, one who did not stay, a faint tone revealed the murderous murder.

He wanted to take this group of researchers for his own use, but when he saw this scene, he had to make a choice, but he still did it despite some pity because of the thousands The detained children looked at them with their eyes. If Qin Tiange let these people go, he still used them, unless he killed all the children or killed Du Jing, Feilong and other talents.

Otherwise, there will be many troubles waiting for him in the future. In order not to ask for trouble, Qin Tiange only ordered the execution of this group of people.

“No, you can’t kill us, we are just researchers ...”

“I still have important research. I have discovered the secret of human gene cloning. I can’t kill me. I can help you clone a perfect body.”

Researchers one by one heard that they were going to be killed, and immediately panicked, screaming and growling, not wanting to die.

“kill!”

Gently waving, Qin Tiange was unmoved and directly ordered the killing. As soon as the words fell, people such as Feilong and Du Jing raised their guns and opened fire on hundreds of researchers.

The rain of guns and bullets screamed, screamed, cursed, and growled, and soon calmed down.

Chapter 166 - Gene cloning?

As the gunfire ceased, there was a corpse lying on the scene, as many as hundreds of people, blood and blood stained the entire underground research room. [Full text reading]

All the researchers were killed, and one did not stay. Qin Tiange did it, and he killed him all.

He didn't dare to keep a lot of people, although there were some top talents in it, but unfortunately he couldn't use it, otherwise it would cause a lot of trouble in the future.

As for taking the risk of killing thousands of children here, killing Feilong, Du Jing and others to take in these people, it was only a fool's job. Qin Tiange was not stupid.

“Du Jing, save these children, settle them down, enlighten them, and help these poor guys get out of their psychological shadow as soon as possible.”

Looking at the corpse all over the ground, Qin Tiange said lightly, and instructed Du Jing around him to rescue the children who were detained immediately.

Du Jing's face was complicated. In fact, she didn't know that hundreds of researchers were a valuable asset and were all research talents, but Qin Tiange did not hesitate to kill them.

This made her start to change Qin Tiange's view. This person is not as annoying as it seems, at least his heart is still hot.

“These people have been killed by me. I hope your team will not let me down.”
Qin Tiange muttered to himself, sighing.

When Du Jing heard this, his face was straightened and he promised: “Uncle, you can rest assured that my team is definitely not worse than these people. As long as you don't want me to do things that are against my conscience and morals, I will definitely help you.

Qin Tiange twitched, especially when he heard the uncle, shouting in his heart awkwardly.

“Can you not call your uncle, I'll make a joke, are you serious?” He looked at the former pharmacist helplessly in front of him.

Never thought, Du Jing said with a serious face: “Uncle, I'm serious, you are my elder Du Jing, and the etiquette cannot be abolished.”

Well, Qin Tiange had to roll his eyes and looked at the graceful shadows of thousands of innocent children to be rescued. There was an urge to draw his own mouth and make your mouth cheap.

Alright now, a great beauty has become her own generation, and you can't even eat it with your heart.

“Self-injustice.” Qin Tiange smiled and didn’t care.

At this time, a brother of Feilong ran quickly and quietly reported a message in his ear.

“Oh?” Qin Tiange listened, squinting his eyes, secretly surprised, and quickly followed the younger brother to the most secret laboratory.

This laboratory is very secretive. If this brother accidentally touched a switch, it would have been undiscovered.

When I walked in, I found that the room was large and full of densely packed instruments, especially one of the huge glass containers attracted Qin Tiange’s attention.

“Boss, I’m going out first.” The younger brother stared at Qin Tiange heartily and voluntarily quit.

He is very interesting, knowing that the secrets here are very important. Once leaked, his name will be lost, and his heart will inevitably be a little embarrassed. How did he secretly hate that he found this place?

“You go out and forget everything you see here, otherwise, you know the consequences.” Qin Tiange didn’t turn his head back, and there was a heartbreaking breath in the faint tone.

“Yes, the boss is assured, I haven’t seen anything.” The brother gave a shock, immediately promised, and then quickly exited and closed the door.

Outside, the brother was sweating coldly, and his body was wet with sweat. He had a feeling of fear in the whole person, but he was not dead, but he knew that his life was temporarily saved, but if he accidentally leaked it, it would be a death.

In the room, Qin Tiange’s eyes locked the huge glass container, and he saw a person through the turquoise liquid inside.

This man, floating barely in the container, closed his eyes tightly, and remained motionless, and his appearance was similar to that of the dead Wang Dong.

However, the person in front of him has a more perfect face and a more perfect figure, and looks like a more perfect Wang Dong.

“Twin? Or?” Qin Tiange frowned, looked carefully in the room, and soon understood.

This person is not Wang Dong’s twin brother, but a clone.

“Gene cloning?” Qin Tiange was startled, squinting and looking at the figure in the container, the flawless Wang Dong turned out to be a clone.

There is nothing wrong, it is the clone, the “Wang Dong” in front of it is cloned.

He picked up a stack of information on the instrument and looked at it carefully. The more he looked, the more shocked he was.

Wang Dong, already did this step, cloned his own body, no wonder that before the death of the previous researchers, some people shouted madly to clone a perfect body.

It turned out not to be crazy, but true, and this step has been done, no wonder.

“Gene cloning technology, Wang Dong, Wang Dong, you are still a bit valuable when you die.”

Qin Tiange looked at it, suddenly sneered, then looked up, looking at the clone in the glass container.

With a click, Qin Tiange raised his hand and a halberd stabbed in severely, pierced the glass container on the spot, and pierced the Wang Dong clone.

Uh

The clone was shaken, his body trembled, his mouth spurted a bright red blood, and his closed eyes opened with a narrow piercing, full of anger.

Qin Tiange sneered, and Euphorbia smashed fiercely, completely smashing his heart, and even the internal organs were called a slump, and the life of this clone was completely born.

Humph!

After killing this clone, Qin Tiange hummed and recovered the halberd, and looked carefully in the room uneasily, and even stepped on the corpse's head completely to rest assured.

After doing this, Qin Tiange took the entire room's data, and even took out all the research data from the computer, which were all about gene cloning technology.

The instruments here, Qin Tiange also took most of them, all of them into the space bracelet, and then left the secret room with satisfaction.

When I first went out, I saw the young man still waiting outside with a sullen expression. When Qin Tiange came out, he immediately hit a stimulus Don't be afraid, as long as you do n't, I wo n't make a kill Things come. Qin Tiange smiled comfortably.

But this sentence, on the contrary, almost scared the younger brother. Fortunately, Qin Tiange really did not intend to kill this younger brother, otherwise he would be useless to cry.

“thank you boss!”

The brother thanked him with all his thanks, and immediately followed Qin Tiange behind him, anxious to faint himself and forget everything he saw today.

At this point, Du Jing and others have rescued all the children and have taken them away in one step. Here, Feilong and others are waiting for Qin Tiange.

“Feilong, pack all the research materials here. I want to take them with me. I can take as much as I can with the instruments. The rest are burned with gasoline.”

After telling this sentence, Qin Tiange walked out of the underground laboratory directly, leaving only Feilong and a group of brothers busy here, collecting all the materials and packing them, and the instruments could be moved away.

In the end, Fat Long and others poured gasoline in the laboratory and directly burned this sinister underground research institute.

Chapter 167 - Make big money

Returning to the Changsheng Group, I saw Du Jing busy and busy, placing more than a thousand rescued children.

“Uncle!” Seeing Qin Tiange’s return, Du Jing greeted him politely, causing Qin Tiange to roll his eyes wildly, and secretly could not bear this chick.

“General Manager Du, everyone has been integrated. Most of them are willing to join our Changsheng Group and become one of us. Only a small number of them are unwilling. What should we do?”

At this moment, the middle-aged security guard came hurriedly and reported the news. Among Wang Dong’s original staff, most of them were willing to join, including those scattered survivors of more than 2,000, who expressed their willingness to join the Changsheng Group.

However, there are still many people who are unwilling, thinking about freedom and not being restrained and controlled. These people do not know what to do.

“Don’t ask me, my uncle is the master here, you ask him.” Du Jing directly dumped this matter to Qin Tiange, his name is Mei, this is my uncle, he is the master, you ask him.

That middle-aged security guard was stupid, looked at Du Jing sternly, and then looked at Qin Tiange. Finally, he dared up and paid a standard military salute.

Soldiers, habits become natural, salute has become a habit of life.

Qin Tiange had to return to a standard military salute and shook his head with tears of laughter: “I said, can you stop burying me, just make a joke.”

“Okay, since those people are unwilling, let them live on their own and be free. That also requires a price. Food is not sold, exchanged, or even supplied to them. Let them think of a way.”

Qin Tiange directly determines the fate of those people. Since he is unwilling, he has no need to say that he will not be treated if he is not his own.

The middle-aged security went down, leaving Qin Tiange and Du Jing with big eyes and small eyes, and the atmosphere was a little weird.

“Good niece, take it to see your research team.” For a long time, Qin Tiange rolled his eyes and took the lead to break the silence between the two.

Du Jing just smiled and said, “Uncle, please.”

Then, she took Qin Tiange into a small elevator, which was very secretive, but she didn’t really see it as an elevator.

This elevator is not up, but down, needless to say, it is the elevator leading to the underground secret laboratory.

“It is more advanced than Wang Dong’s side. It seems that your team is much more formal than I imagined.” Qin Tiange praised with an exclamation.

Du Jing looked up proudly and said proudly: “That’s right, of course, this research group has been formed since my grandfather’s generation, and it has been 80 years now.”

“I’m going!” Qin Tiange was startled.

Even after forming such a long time, it ’s been 80 years. My God, does n’t it mean that this team is beyond his imagination?

Du Jing was proud. She said, “My grandpa was a famous businessman when he was young. Later, his family became wealthy and his money became more and more. But one day my grandma got a strange disease. How to cure it was not good. Finally left us. “

Talking, her face was a little dim, and she quickly hurriedly introduced: “From then on, my grandfather vowed that he must develop better drugs, and since then he has established this drug research institute, which has continued. To this day. “

“In the beginning, my grandpa just wanted to study better medicines to save people, but over time, he got older and he started to think about extending his life.”

When Du Jing talked about this, a flash of helplessness flashed on her face, and she smiled bitterly: “My grandfather said that money is not brought to life, not to die. In this case, why do n’t you use the money to research drugs, and maybe develop it What about the legendary elixir? “

“In this way, three generations of our family have invested countless funds to continuously expand this research institution, and it has been a full 80 years to this day.”

Qin Tiange has not spoken, listening quietly, while feeling the speed of the elevator descending, began to silently calculate in his heart how many meters they have dropped at this moment.

For a long time, when the elevator stopped, Qin Tiange was surprised to find that they had dropped at least 30 meters deep, which was very scary.

“Originally, I had already planned to hand over this laboratory to the country, but I didn’t expect the end to come, and that’s how it is now.”

Du Jing said, and also glanced at Qin Tiange, a look that you made a lot of money.

Qin Tiange touched his nose and laughed in his heart, because her meaning was correct, Qin Tiange did make a lot of money.

How huge a research institution that has been for 80 years has been able to obtain such a large research team, which is definitely a big gain.

Ding...

The elevator door opened, revealing an all-metallic aisle. Looking at some science fiction, it was very unreal.

The two walked out of the elevator and saw many people wearing special protective clothing walking along the way. After seeing Du Jing, they stopped and nodded without exception.

“I am the highest person in charge here. The total number of researchers here is 1,385, and all of them are related to drugs, and do not involve any other fields.” Du Jing began to introduce the situation of the entire research team.

The entire research team, with more than 1,300 people, were all studying drugs and did not involve other fields. According to her, it was the death order given by her grandfather.

“Fortunately, you are not involved in other fields. If Wang Dong is involved in the study of the human genetic level, it will become more and more crooked and eventually become Wang Dong’s situation.” Qin Tiange’s light tone made Du Jing unavoidable. Some later afraid.

She knew very well that the horror scene she saw in Wang Dong’s Secret Institute now has a creepy feeling in retrospect.

“Dr. Du!”

“Dr. Du!”

Along the way, everyone respected Du Jing and called her a doctor. This made Qin Tiange even more convinced that the ten-star pharmacist of the previous life had real talents.

The huge underground research institute is very huge, and it is more than enough to accommodate thousands of people. There are countless medicines stored in each room, and some are unheard of and unseen.

“Great!”

Looking at all this, Qin Tiange had to say something terribly, and really admired it. Such a large research institution is rare, and it is extremely scarce, even at home or abroad.

Except for the country, it has been amazing to see that institution of this size.

“This time, I’m making a lot of money!” Qin Tiange couldn’t help laughing, and this time he came out and made a lot of money.

Not only did I get an ancient Euphorbia, but even my quality soared to the limit of one star and a hundred people, I also got a floating stone. Now that I want to completely control this huge research team, it is naturally exciting.

“Uncle, how about it? Are you surprised It’s incredible?”

Looking at Qin Tiange’s expression of astonishment and excitement, the eyes under Du Jing’s glasses flashed a pride and pride from time to time, seeming a bit cunning.

“How come all the dried herbs, is there no fresh herbs?”

Looking at a closet where the medicinal materials were stored, Qin Tiange couldn't help frowning, because he didn't have the fresh medicinal materials he wanted, all of them were dried.

“Uncle, what do you want fresh medicinal herbs?” Du Jing was curious.

Along the way, as soon as Qin Tiange saw the medicinal materials, he immediately went up to check, as if looking for some medicinal materials. Unfortunately, he was disappointed when he saw the dry goods.

Although Du Jing was puzzled, he still said, “We originally delivered fresh herbs here every day, but because of the last days, the fresh herbs are gone.”

“If you want to, you can only pick them at the Dabie Mountain Wild Medicinal Materials Base, where our company has opened a 10,000-acre wild medicinal materials base.”

Hearing this news, Qin Tiange's eyes suddenly lightened, and his heart suddenly had plans.

Chapter 168 - Pharmacy Program

“Dabie Mountain is in Anwei Province?”

Qin Tiange Mulu thoughtfully, and then said, “It is not only a long journey, but also dangerous to want to go to the Anwei Dabie Mountain from here.”

It's true that it didn't take long to fly from Shenzhen to Anwei, but where can I find a plane to fly for you during the last days?

“No way, we don't have fresh medicinal materials at the moment.” Du Jing spread his hands and said that he could not do anything.

At this time Qin Tiange was thinking not about the Dabieshan medicinal planting base, but whether he could open a medicinal planting base here.

“Do you have any medicinal seeds here?” Qin Tiange asked suddenly.

Du Jing hesitated for a moment, but still replied: “The seeds of medicinal materials naturally exist. We do drug research, and seeds are also one of the research.”

“How many? Are there all kinds?” This is Qin Tiange's biggest concern.

After hearing such questions, Du Jing was a little puzzled, but still answered truthfully. According to her, a large number of seeds of Chinese medicinal materials are stored in the entire research institution for research.

These seeds are enough to cultivate a large medicinal planting base, but only if they can be grown.

After all, many medicinal materials are divided into regions, climates, etc., and their survival requirements are high, but Qin Tiange is not worried about this.

He thought for a while and said, “Du Jing, you immediately organized people to try to open a fully enclosed medicinal planting base in the industrial zone.”

“What?” Du Jing was dumbfounded, this is to grow herbs?

However, all of them are industrial zones. Where can I open up a medicinal planting base?

Qin Tiange wasn't worried. He laughed: "Don't worry about planting, as long as there is mud, any plant can survive. Don't forget that the dark air from the dark side of the universe is permeated everywhere."

Yes, the end is coming, dark energy is sweeping the earth, and the animals and plants on the earth have mutated. As long as they are planted, no matter what, they will mutate and survive.

Thinking of this, Du Jing also has a faint urge to try. There is no way. Researching pharmaceuticals requires a lot of medicinal materials, and now there is no way to get supplies from the original medicinal material base.

The only way now, as Qin Tiange said, is to reopen a medicinal planting base.

"I can try, I'll tell someone to start right away." Du Jing smiled, her heart filled with hope.

She recruited several researchers who are particularly familiar with medicinal seeds, and asked them to organize their staff to start looking at the industrial park's plant to see how to build a new medicinal planting base.

After doing this, Qin Tiange finally felt relieved. He now really needed the fresh and mutated medicinal materials, because the two main drugs for the preparation of immortal medicine were already complete, and the only thing left was a large number of subsidized drugs.

"Uncle, look, this is our latest drug that can repair wounds within a day."

Soon, Du Jing took Qin Tiange to a pharmaceutical site, took out a bottle, and stored some medicine powder, which was the latest medicine powder developed for trauma.

Qin Tiange took a surprise look at it, and distinguished by the knowledge he acquired from the ten-star pharmacist, this medicine powder can really repair the wound in one day and let the wound stutter.

"Great, it is worthy to have established a research institute for nearly a century." Qin Tiange had to admire.

He put down the bottle of powder, and then asked, "Did you already start to study the one-star quench body medicine?"

When Du Jingpu heard this, he was shocked, and then he answered seriously and seriously: "Uncle, we are already studying that magical medicine. Currently, only 30% of the ingredients have been analyzed. The other ingredients are unknown. , Unheard of, unseen. "

"I can analyze 30% of the ingredients, I really want to say that I admire it." Qin Tiange looked at her in surprise, unavoidably a little surprised.

The composition of the quenching agent is completely clear, and the pharmacist's inheritance knowledge has detailed records, analysis and explanation, and even a detailed production process.

Without these circumstances, Du Jing and her team can analyze 30% of the composition is already great.

Qin Tiange thought about it for a while and then said seriously: “Since this, then I will help you. I can give you about the manufacturing process and process of that kind of medicine, but you must overcome and successfully formulate that Here comes the potion. “

“What?” Du Jing was startled, staring at him with wide eyes, with an incredible look: “You said you have the process and process of making that kind of medicine, how do you understand this?”

“Where do you say those medicaments come from, then where do I know these things, no need to make a fuss.” Qin Tiange did not care, but explained.

Later, he brought in a pen and paper, and began to write on it the detailed process of making the hardening agent. The required drugs and composition of the ingredients were listed clearly.

Du Jing stood aside and didn’t speak. The more she looked, the more she was surprised. From time to time, a sudden realization came out, and her expression was so excited.

Can she not be agitated? Looking at such a detailed formula, as long as it is formulated strictly according to the above requirements, then that magical potion can be made.

“Take it, eat it thoroughly, and then make it. I don’t ask the process, only the result.” Qin Tiange threw to Du Jing with excitement after writing, and gave a dead order.

He looked serious: “Remember, don’t leak this thing, give me a lot of production, how much can be produced and how much.”

Then, Qin Tiange whispered in her ear and said, “If you perform well, I have other kinds of pharmaceutical formulas and production methods, depending on whether you can gain my trust and affirm your own value.”

“Also?” Du Jing’s pupils shrank, staring in horror at the young man who hadn’t figured out his origins, and his uncle who was cheap.

She didn’t expect that Qin Tiange had other such magical potions on her body, it was incredible, but he didn’t doubt it.

“Uncle, rest assured, I won’t let you down.” Du Jing raised her waist and patted the two mountains on the chest to guarantee.

Next, Du Jing and Qin Tiange walked through the entire underground research institute, and even anxious all researchers introduced the new power-holder.

Everyone had a doubt in their hearts. Why did they come out of power? What is the origin of this young man who calls himself Qin Tiange?

“You said, was that person sent by the state?”

Some people raised this question, speculating whether Qin Tiange was sent by the state to receive this institute. After all, Du Jing had mentioned to them several times before the last day, and he had the intention to give the team to the country.

Unfortunately, they guessed wrong. Qin Tiange did not have the ability to represent the country. He was only representing an individual, receiving all the human, material, and financial resources of the institute on his own behalf.

From now on, this research team belongs to Qin Tiange himself. Du Jing can only help him.

“Sister Jingjing, are you willing to give him a great team like this?”

In a secret room underground, Du Jing was carefully examining the production materials written by Qin Tiange without raising her head.

An Anke on the side was anxious and kept persuading that Qin Tiange was so bad, it was not a good thing.

“Okay, I have my own size!” Du Jing glared at him before looking at the information in his hand, he didn’t know how long he thought about it.

She tapped her finger on the table and murmured, “There are many secrets in this man, no matter what his origins are. In short, our team wants to survive, and we need to rely on his strength.”

Du Jing can see very clearly that their team looks very big, but the strength is very small, it is difficult to survive. If it were not for Qin Tiange to take the lead, it is likely that she and the entire team have now been renamed and changed names, and captured by Wang Dong.

“By the way, how’s the medicinal planting program going?”

Suddenly Du Jing turned around, and seriously asked An An, who was looking in the mirror, in front of him.

Chapter 169 - This unscientific!

Thousands of people are busy in the industrial area, in several huge factories. [Full text reading]

They removed all the equipment in the original factory, and then completely shattered the concrete floor inside, exposing the original dirt.

With the busyness of thousands of people, finally, flat and flat medicine fields were reclaimed.

“Uncle, you see, there were some mechatronics factories here. Now you have turned them into medicine fields according to your requirements. But can they really be planted?”

In a factory building, Du Jing and Qin Tiange took a look at the medicine fields that had been opened. There was some suspicion in her heart. Can it really grow new medicine?

She had to doubt, even everyone doubted, that it was impossible to grow medicinal herbs here.

However, Qin Tiange was not worried at all. He inspected dozens of medicine fields, nodded with satisfaction, and then ordered people to get various kinds of medicinal seeds.

“Boss, these are the seeds of ginseng, codonopsis, white ginseng, black ginseng, red ginseng, and salvia.”

A young researcher trot up quickly, holding a sealed box containing various ginseng seeds.

Qin Tiange nodded slightly and signaled: “Divided by species, plant first.”

After hearing what he said, the dozen or so researchers nearby acted immediately and began to plant the ginseng seeds according to the proportion and type in the medicine field.

These people are a little muttering, can ginseng be grown here? None of them believed that it would be strange that ginseng could be grown in such a place.

However, whoever told them to be the new boss, Du Jing had to listen to him, so this group of people still planted honestly.

Soon, the planting of ten medicine fields was completed, and everyone stopped and looked at Qin Tiange, waiting for his next order.

“Du Jing, did I bring what you brought?” Qin Tiange turned to ask Du Jing around him.

The latter nodded and clapped his hands, and immediately a few big men arrived carrying heavy boxes, headed by several security personnel.

They lowered the box and opened it, revealing what was inside. It was strange crystals. It was brain crystals, which were collected by Du Jing before.

“Divide these crystal nuclei into the southeast and northwest, and bury twenty each medicine field.” Qin Tiange ordered again.

Although the group was puzzled, they still did, and buried these strange crystals in the medicine field.

Du Jinge frowned slightly and asked, “Uncle, do you want these magical crystals to make these medicinal materials take root?”

“No, no, without these crystals, the medicinal materials can take root and sprout, you see, haven’t they sprouted?” Qin Tiange suddenly pointed at the ten medicine fields with a smile.

Suddenly, everyone looked at him, suddenly stunned, stunned by the magic scene in front of them.

“This is impossible!”

Some researchers are dumbfounded, widen their eyes, and keep rubbing their eyes, but the fact is the fact that the seeds of the medicinal herbs just planted have actually sprouted.

Moreover, the most horrifying and creepy thing is that those buds emerging from the ground are still growing crazy.

“It’s not scientific!”

Many people mutter, this is not scientific, it is really not scientific. How can a newly planted seed immediately take root and sprout, and even grow up frantically.

From the beginning of the buds, it grew at a rate that is visible to the naked eye. Soon, all the planted ginseng grew green leaves and even bloomed flowers.

Grunt!

Many people secretly swallowed their saliva, terrified, and completely overturned their previous ideas, so that was planted?

“Is it true or false?”

Many people still don't believe it, but Qin Tiange has the old ***** in his heart, and he had long expected it, don't forget that there is rich dark energy in the air.

These things can make animals and plants grow wildly, and generate brand-new genetic mutations, and evolve into better things.

“A miracle, a miracle ...”

An old researcher with tears on his face and wept with joy, was completely stunned by the miracle scene in front of him.

He trembled his hands, and carefully stroked a branch of ginseng, and opened three branches and five leaves in full. The flowers were small but crystal clear.

This is real ginseng, not fake.

At this time, Qin Tiange stepped forward and looked closely at a ginseng, and found that it could not meet his needs, and these ginseng had insufficient drug properties.

“Double the nucleus and bury it.”

With his order, the weight of each medicine field of another twenty crystals began to bury, and soon, the ginseng, which slowly stopped growing, was madly elevated again.

This time, it was even more brutal. Five leaves gave out six or even seven leaves, and many ginsengs gave birth to nine leaves, which produced fine red fruits.

Nine-leaf ginseng, which blooms and bears fruit, represents the completion of growth of an old ginseng which has been in the vintage, and the whole process is ten minutes.

“It should be okay ...” Qin Tiange murmured to himself, carefully began to dig a nine-leaf ginseng, and soon he dug out a huge ginseng that was as thick as a child's arm, stunned at the scene Everyone.

“Am I dreaming?”

“Is there such a large ginseng?”

Everyone was dumbfounded, looking at the ginseng he had dug out, the thickness of children's arms, the ginseng must be lush, the roots were crystal clear, and the whole ginseng was shining through the light of white jade.

“Millennium ginseng?” The old researcher widened his eyes and couldn't believe it.

Just after planting it, it has grown into a thousand-year-old ginseng. It is simply incredible and cannot be described by miracles.

Du Jing was equally shocked, completely subverting her previous concepts, and suddenly realized that some of the previous concepts could not be applied in such a doomsday.

“Unfortunately, it was a little bit worse.” Qin Tiange shook his head helplessly, indicating that it was a little bit worse, and almost did not let everyone present.

Such thick ginseng can grow up for at least a thousand years, and you planted it by tens of minutes, then not satisfied?

In fact, they misunderstood Qin Tiange. He said that it almost means that this ginseng looks very big, but the medicine is not so good, deformed and incomplete.

This is a deformed ginseng that grows with crystal nuclei, and it does not grow naturally.

However, ginseng still contains a lot of medicinal properties, at least enough for Qin Tiange to use.

“From now on, everyone will open up more medicinal fields as soon as possible and plant all medicinal herbs for me. I need to use them in the past few days.”

After receiving this ginseng, Qin Tiange gave another order. In order to open more planting medicine fields here, he needed more precious medicinal materials.

A group of people left stupidly, still in a sluggish state, blankly reclaiming a new medicine field from time to time looking at the ten ginseng planted medicine fields, one ginseng plant was still slowly Grow, accumulate medicinal properties in the body, precipitate longer and more violent medicinal properties.

“Doomsday is a brand new world. You must adapt and discover the mysteries as soon as possible, and use them to survive better.” Outside the factory, Qin Tiange gently enlightened Du Jing with a look of humour.

The latter came to his senses, restored the calmness of the past, and planted medicines. There is nothing to be surprised about. The end is coming. What else can be strange?

“Thank you uncle!” Du Jing said sincerely, thank you.

Qin Tiange didn't care, and then said solemnly: “Du Jing, you immediately find me a secret room, no one except you can come near, prepare all kinds of pharmaceutical equipment, and wait for all kinds of medicinal herbs to be planted Send it to me later, I will use it. “

“it is good!”

Du Jing was shocked, and suddenly realized that Qin Tiange urgently needed fresh medicinal materials, and even spent crystal nuclei to grow medicinal materials. He needed these medicinal materials.

No one knows that the world's first immortal medicine is coming soon!

Chapter 170 - Solitary boy and widow in 1 room

In the underground laboratory of Changsheng Group, in the most secret room, Qin Tiange is playing with dense pharmaceutical equipment.

“Uncle, the medicine you want is already here.”

At this time, Du Jing walked in from the outside and handed a ring to Qin Tiange. This was the storage ring and the one obtained by killing Wang Dong.

Qin Tiange checked the contents of the ring. In addition to the grain, other things such as crystal nuclei were selected by him and taken away.

The storage ring was exactly what Qin Tiange handed over to Du Jing, which filled her with all the newly planted medicinal materials, amounting to more than a thousand Chinese herbs.

“Very good!” Qin Tiange took a look at the storage ring, and densely packed medicinal materials in the ring space, thousands of kinds.

Du Jing looked at him suspiciously, and was about to turn around, but was stopped by Qin Tiange.

“Wait!” Qin Tiange shouted at her who was about to leave, and said, “There are thousands of medicinal herbs here. I can’t refine them alone, so you stay and help me.”

“This ... isn’t it?” Du Jing was very emotional, but felt a bit wrong.

She faintly guessed that Qin Tiange must be making some secret medicine, otherwise not so many medicinal materials will be used, or all kinds of medicinal materials will come.

“It’s okay. If you can see it or learn it, then congratulations.” Qin Tiange smiled and didn’t care.

He made the decision after careful consideration. The preparation of immortal medicine is a huge project, which is difficult to achieve by himself. Refining the essence of more than 1,200 herbs is a very troublesome project.

If he did it alone, it would take a long time, so he decided to ask Du Jing, a former ten-star pharmacist to help, which also meant to train her.

“Close the door, let’s get started!”

With the door closed, Qin Tiange and Du Jing, lonely men and widows, were in the same room, and had to make people doubt and want to be wrong.

Seeing the closed door of the closed room, the door of metal structure cannot be opened from the outside, only from the inside.

“Dr. Du and the boss are in there, shouldn’t ...”

A young researcher looked bad, staring at the closed metal door, his heart was empty, and his mind could not help showing the lingering scene in the back room.

Du Jing, in the Changsheng Group, but many young employees are the lover of dreams, and they are the object of crazy fantasies for everyone.

Unfortunately, they are just fantasies after all, it is impossible at all.

Now I see Du Jing and Qin Tiange both entering the secret room and closing the door, one by one, young employees are about to bleed blood.

“My goddess!” Someone wailed in anger.

What’s more, standing in front of the door stupidly, this station is a whole day, without even seeing personal pictures, the door is still closed.

Throughout the day, the group of young employees sighed and sighed, doing nothing mentally.

“It’s over, it’s been a whole day, and the goddess is going to be the wife of others.” A handsome young employee was full of grief and indignation, looking eager to wear.

He was bleeding, sorrowing, and extremely miserable. The goddess in his heart was spending the whole day with their new boss, the lone man and the widow.

In the closet, Qin Tiange didn’t even know that he had provoked the young men to be mournful for a long time and had a strong grudge against him.

At this moment, he is concentrating on refining a kind of herbal essence, a mutant variety just cultivated, Huang Jing.

The whole Huang Jing thickened across the sea bowl, like a small umbrella, blood red throughout, showing a little golden brilliance, extremely gorgeous.

Through a complete set of precision instruments for cutting and pulverizing, he carefully refined them, and soon he extracted the complete essence.

On the other side, Du Jing was extremely serious and almost entered a state of total ecstasy. Around her were dozens of hundreds of test tubes packed with various carcasses, all of which were refined essences.

All day long, the two people refined the essence of medicinal materials for a whole day, they forgot the time and forgot to eat.

If it wasn’t for Du Jing’s cooing, and she was dizzy and hungry, she would probably continue to refine.

“No, I can’t hold it.”

For a long time, Du Jing was slumped to the ground, sweating all over, and shivering, feeling the emptiness in her body, very hungry.

Seeing her collapse, Qin Tiange stunned for a moment before waking up. The two have been busy all day, not even a meal or a drink of water.

“Take a break and eat something.”

Qin Tiange came over, opened a bottle of water, poured a drop of life’s puppet, and then handed it to Du Jing who collapsed.

The latter took the bottle of water and murmured it, drank half of it in one breath, and then ate it with the food handed over by Qin Tiange.

This is the food prepared early in the morning. It is cooked food, all stored in the space bracelet and waiting to eat.

He knew that it would take a long time to formulate the immortal medicine, so he had been prepared long ago and was naturally not afraid of starvation.

“My uncle, can you tell me what you are going to tinker with?” Du Jing asked vaguely as he ate.

She couldn't help it, she was busy all day, and the two people only extracted one third of the essence of the drug. To finish the refinement, she had to keep busy for two days.

The thought of two people who were alone and widows locked in the back room for three days, what do the people outside think?

“I really want to know?” Qin Tiange ate her meal and glanced at her, then told her with a little thought.

Sooner or later she knew it, and she needed her help, and it was okay to tell her.

Du Jing suddenly became energetic when he heard it, his eyes were shining, and he stared at him momentarily, waiting for his next answer.

“I'm refining an elixir!” A fluttering sentence, as if to say something very light.

However, it was this sentence that made Du Jing spit out.

puff!

“Ahem ... what did you just say?” Du Jing looked astonished, her eyes widened, her mouth slightly open, and she looked very dumb.

Seeing her dumb appearance, Qin Tiange couldn't help but reach out and squeezed her fair-skinned and tender cheeks, causing a glow of red glow.

“I said, I'm refining and formulating immortal medicine.” Qin Tiange said clearly again.

This time Du Jing understood, the whole person was shocked, and she even heard someone say that it was preparing and refining immortal medicine. It was incredible and incredible.

“Oh my god, is he crazy or am I crazy?” Du Jing had some doubts about her life.

Even Qin Tiange pinched her face without paying attention, the whole person was immersed in those three words, immortality!

Yes, immortal medicine, Qin Tiange is refining and formulating immortality medicine.

“Is there a medicine for immortality?” Du Jing muttered to himself.

But Qin Tiange corrected her, saying, “It's not elixir, but immortal. There is an essential difference between the two.”

“Is there a difference between immortality and immortality?” Du Jing paused again, completely unaware, what is the difference between immortality and immortality?

Qin Tiange, eating, shook his head and explained: “Longevity is to extend life, but not to die is to die.”

“Make an analogy, if you take real immortal medicine, then this person will have an ability to immortalize, he will automatically heal the injured, and he can grow out by breaking his hands and feet, and even his head is broken, as long as not more than ten minutes , You can still survive when you put it back. “

This sentence deeply shocked Du Jing’s heart, and looked at the confident young man in front of him, the cheap uncle.

He was actually refining and formulating such terrible medicines, immortal medicine, which can recover from injuries by himself, broken hands and feet can re-grow themselves, and beheaded can be retrieved again.

How could it sound like she was listening to a myth? It was so untrue that she wondered whether Qin Tiange’s mind was broken?

“OK, go ahead, there are still many herbs to be refined.”

After eating and drinking, Qin Tiange stood up and continued to work, Du Jing packed up his writhing thoughts, and started to refine the medicinal materials.

The two of them stayed for three days and three nights. This time, they drove a group of young people crazy.
