

Dark Ages 181

Chapter 181 - Take control of the dead

“Gene cloning?” Li Jiajia gave him a surprised look, but he didn’t expect him to ask. []

However, she stroked her glasses and said, “The biological gene has some ancient memory. This is very dangerous. Once cloned, it will have bad results.”

Li Jiajia paused and continued: “Because of the gene cloning technology, the organism cloned seriously has no memory. If the ancient memory hidden in the gene fragment of the organism awakens, it is likely that the clone is not the organism itself, but the creature’s ancestor. Memory wakes up. “

“That is, can’t clones become that ontology again?” Qin Tiange asked gently.

Li Jiajia nodded and explained: “Theoretically, the cloning technology is not perfect. Our human genes have some ancient genetic memory. Some people have this memory of previous lives, but I think it is the memory of ancestors. Without the original memory, once the memory of this ancient ancestor awakens, it is not that person. “

“Wouldn’t it be that once humans are cloned, it is likely that our ancestors were cloned?” Nie Teng and others looked at each other and were very horrified. When they first heard such a law, weren’t clones all clones?

Now listening to Li Jiajia, everyone feels a bitter chill. The cloned person is not himself, it is likely that the genetic memory of an ancestor has been revived.

Qin Tiange thought quietly and finally announced: “I decided to set up a biological gene research laboratory, led by Li Jiajia.”

“Let’s do this for the time being, what else do you have to do?” Qin Tiange looked at everyone present.

At this time, Liu Ye, who had been lowering her head, suddenly raised her head. She said, “Tian Ge, the injured female special policeman left a day ago. She insisted on going back to the Shenzhen city police district, and Wang Feng and the two of them. The soldiers also followed the guard zone. “

Hearing this, Qin Tiange was silent for a while, and it was expected that the woman special policeman Hu left was going to go back and report.

As for Wang Feng and his comrades-in-arms, the two young soldiers left, he was also prepared, and now it’s okay to hear them go.

Qin Tiange took out a **** photo, looked it up, and put it away. He tapped his finger on the desktop, and then said, “Go and leave, don’t bother, is there anything else for you?”

“Since there aren’t, go to a meeting and familiarize yourself with your new job.”

After that, Qin Tiange stood up and went out first, ignoring Liu Yan and Long Ya’s lingering expressions.

However, after Qin Tiange Building, Qiqi followed quickly from behind.

“Are you okay?” Qin Tiange looked at Qi Qi who followed and couldn’t help asking.

Qiqi hesitated, looked at Qin Tiange, she was very conflicted, and finally she gritted her teeth: “Brother Qin, I, I’m afraid I can’t bring that bow and cross camp.”

It turned out to be this, Qi Qi was worried that he could not bring a bow and crossbow battalion, so he caught up with him and wanted to follow Qin Tiange and ask him to take back the order.

However, the spilled water could not be recovered. Qin Tiange shook his head gently, knowing that she was in love.

“Calm point, is not just a crossbow battalion. There is nothing you can’t do. I believe you can do it. As for Liu Ye and Long Ya, you don’t have to be affectionate for them. I arrange them to free my intentions. “

After that, Qin Tiange patted her shoulder, nodded with a smile and turned away, leaving Qiqi alone at a loss.

After he left, two people came out of the building. They were Liu Yan and Long Ya. They stood next to Qi Qi, looking at the back with a complex look.

“Mr. Liu, Ms. Long, me” Qi Qi just thought about it but was interrupted by Liu Yan.

Liu Yan smiled bitterly: “Kiki, you don’t have to blame yourself, he has his ideas, and we’ll just do what he wants.”

“Yeah, we were teachers in the past, but now we are just returning to our jobs.” Long Ya also wanted to start.

The two of them were teachers in the past. Now Qin Tiange asked them to set up a school to take care of and teach the minors. This is actually true.

Qin Tiange didn’t pay much attention to the thoughts of the two, and removed their positions. In fact, this time he came back to see the warning issued by the high-level confusion in the team.

He wanted to rectify the team at first, but now he sees that it is exactly rectifying together. By the way, he knocks on these people and gives them a warning.

Soon, Qin Tiange came to the dead camp and saw that three hundred people had already gathered and waited there, one by one expressionless, and his eyes were full of fierce light.

These deceased people are all those who are fierce, have no relatives, and are struggling with death all day, or the most adventurous and exciting group.

“boss!”

Three hundred people screamed in unison, as terrifying as the three thousand people brought to Qin Tiange.

Qin Tiange looked at the three hundred dead men in front of him, and was slightly satisfied. The original dead men's camp was composed of one hundred people who had eaten human flesh from the hotel. All the way, this dead men's camp suffered the most damage. serious.

He saw that the original one hundred dead were almost dead. There were only a dozen people left. He still remembered the original people, and the rest were recently recruited.

These people all passed the assessment. If they want to join the dead camp, they must write a death contract, that is, they completely sold their lives to Qin Tiange.

Although the death squad is full of meaning of death and the highest death rate, the treatment here is also the best among several teams.

If you want the horse to run, you must feed the horse enough, otherwise, don't let the people in the dead camp give you desperate work, that is, leadership is a problem.

"You are all good!" Qin Tiange glanced over the 300 dead men, especially noting the dozen or so people who have survived to the present.

Feeling Qin Tiange's gaze, Li Weiwei's heart was dark. He was one of the 100 people who survived.

The big man has always been honest, he has worked hard and hesitated. The battle rushed to the front line, and he acted with scrutiny, so that he can live to this day, thanks to his desperate energy.

There was only one reward in Qin Tiange's establishment at that time, that is, the top ten had a hardening potion reward, which caused a hundred dead men to be extremely crazy in each battle, but only the top ten who killed the most were the most people.

Li Weiwei is one of them. He has always maintained the second place. As for the first, it is Nie Teng, the commander of the dead camp.

"From today on, the death squad will be led by me directly. Without my order, no one can be transferred. Do you understand?" Qin Tiange Han sighed loudly.

Ahead, the three hundred dead men stunned, but still answered loudly.

"understand!"

Li Weiwei and others were taken aback by surprise, but did not expect Qin Tiange to lead the death squad himself. This was somewhat surprising, and it was a matter of course.

"Li Wiki, get out!"

Suddenly, Qin Tiange ordered a name, and immediately, the burly man came out with a sorrowful heart.

Qin Tiange took a look at him before he said solemnly: "From today on, you are the deputy leader of the death squad. You will be led by the team during my absence."

"Yes, boss!" Li Weiwei was excited, but his expression was expressionless, and he did not dare to reveal anything.

“This is the training course that I have set for you. From today, you will not be stationed here, and all will be moved outside the base wall.”

As a result, Qin Tiange lost a piece of information to Li Weiwei, his tone was extremely serious, and his eyes swept across everyone.

He swept everyone one by one before warning: “Remember, you have to fight with zombies every day. If you run away, don’t think that I can’t see it is all right, I will let you know what it means to die.”

“Yes, you are guaranteed to complete the task!”

Li Weiwei immediately promised loudly, made a promise, and was a little surprised in his heart’s fierceness and determination. They even wanted them to fight and grind with the zombies every day.

“Departure in the evening, from then on, your death squad will only be able to swim the edge of life and death, whether it is life or death will be up to you.”

“Also, the number of dead men’s camps will be set at 1,000, which is not enough for you to slowly find ways to expand.”

After that, Qin Tiange left a copy and turned around and left here. Looking at what he left, Li Weiwei couldn’t help but be excited, it was a quenching potion, a reward that Qin Tiange gave him.

After Qin Tiange walked out of the dead camp, he came to the place where Moda’s Sword Shield was located, and just saw the two teams being integrated.

“Moda, come here.”

Qin Tiange called Moda, and gently commanded in his ear: “You send a few people to stare at the dead camp day and night, and use the video to see what is recorded completely.”

“Yes!”

Moda hit a spirit in his heart and looked at Qin Tiange who left after the explanation. There was a kind of sweaty feeling in her heart, and it was cold.

Chapter 182 - Underground City Plan

Coming out of Moda, Qin Tiange keeps frowning, thinking in his heart the defects in the team, as if something is missing. [Full text reading]

“There is one team secretly spying on intelligence and killing the enemy.”

Soon, Qin Tiange realized that he still lacked such a team, and secretly regretted that the female killer should not be left on the train.

However, he did not regret it. He let the female assassin leave. He has bigger plans and arrangements, so at present he can only look at how to form such a team.

“If only there is a talent who is good at assassination.” Qin Tiange shook his head and smiled secretly as he walked, where are there so many talents for him?

Out of the Qinglian apartment all the way, Qin Tiange came to the north gate of Lianhuashan Park, where two people are guarding here.

“Brother Qin!”

At the sight of Qin Tiange’s arrival, the two youths immediately fluttered their hearts and greeted them with excitement, but they were actually a little bit nervous because they had just smoked and chatted here.

“You don’t have to be nervous. It’s normal to smoke, but you have to take responsibility for your own life. If you think about the dangers in the world today, if you lose your heart, it is your own responsibility.” Seeing the two nervous, but not reprimanded, it was just this sentence.

After that, he walked into the north gate of the park, leaving two young men dazed and thinking about his words.

Qin Tiange is right. People are responsible for their lives, especially in a dangerous environment like the last days. Once you are not alert and unconscious, you may not know how to die.

The two youths burst into cold sweat and lost their cigarette butts, honestly, guarding the door seriously and dare not to care.

Seeing this, Qin Tiange was secretly satisfied, and he knew how to wake up, otherwise he would be a pity.

After entering the park, Qin Tiange came to Qi Seren again, looking at the lotus lotus leaves that darted at him, and couldn’t stop smiling.

“Okay, I’m here to have important things to do.” Qin Tiange stopped after playing with Qi Selian for a while.

Seeing that he was in trouble, Qi Selian calmed down and stopped disturbing him. Qin Tiange smiled, then took out a delicate box, a space box, a disposable space equipment.

Click!

Opening the box gently, a cloud of smoke erupted, and the space box turned into a pile of powder and disappeared on the spot.

However, at the moment the box was broken, the contents stored in it had already appeared on the ground in front of Qin Tiange.

In front of him, a hundred engineering robots appeared, standing neatly on the lawn, looking strangely motionless.

These robots, five meters high, will not fight, and will only build bridges, houses, cities, and even large space stations, space fortresses and other facilities.

With a hundred engineering robots in full, Qin Tiange couldn’t help getting excited when watching these five-meter-high robots.

Ugh!

However, as if thinking of something, Qin Tiange suddenly sighed, thinking about it, remembering that these things were exchanged for Ling Sha's life.

"Lingsha" murmured, Qin Tiange shook his head soberly, immediately approached a robot.

He looked closely, these robots look like the steel robots in science fiction movies, but they can not fight.

Because in these robots' smart chips, there is no information about the battle, and some are countless building materials.

"Activating" Qin Tiange pressed a button in front of the chest of the first robot, and immediately the robot's eyes lit up with two beams.

It opened its eyes, two green rays glanced at Qin Tiange's body, and soon a sound came out.

"No, report to the host!"

The robot, self-titled, was the first robot to start and bent down to salute directly to Qin Tiange.

Looking at this robot, Qin Tiange thought to himself that it would be nice if he could produce a combat robot, but now that he lacks this talent, he can't do it if he wants to.

"No.1, start all robots." Qin Tiange gave an order, and sure enough, he saw No.1's eyes shoot two green awns and swept all the robots.

Suddenly, ninety-nine robots slowly awakened, opened their eyes, and all the green lights swept over, all of which locked Qin Tiange's figure.

"No, no, report to the host!"

One hundred robots salute together, neatly and uniformly, and they are not as clumsy as robots, but more flexible and surprising.

Qin Tiange looked at these robots, and he couldn't help wondering about the so-called wisdom star who produced them. What kind of creature produced such a high-performance robot?

"Pass me instructions, and I will be your supreme commander, and you will only accept my personal sole instructions." Qin Tiange directly issued the order.

Suddenly, a hundred robots stood up, the green light in their eyes flickered, and the robot rang out a sound.

"The instructions have been revised, dear commander!"

Seeing this, Qin Tiange was satisfied. Since then, the one hundred engineering robots can only be instructed by him, and the instructions of other people will not work at all.

However, he didn't know whether the creatures that made these robots could control them. Qin Tiange had no idea, so he didn't want to make combat robots.

After all, there are always robot rebellions in sci-fi movies, which has some shadows in his heart. In previous lives, he only listened to the large number of combat robots made in the United States.

“No, figure out a model of an underground base for me.”

Suddenly, Qin Tiange gave an order to No. 1, and saw No. 1 robot's chest crack, revealing a light curtain.

On the light curtain, countless data flashed and flowed. Then, a huge base model appeared in front of Qin Tiange in this way.

Qin Tiange froze. He couldn't help but have a bit of suspicion about these robots. Is it really that powerful?

On the light screen in front of me, there was a huge underground base, 300 meters deep, and the entire base covered a radius of 300 kilometers. How big was that?

Seeing this underground base, Qin Tiange couldn't help squeezing his sweat and getting too big?

“Okay, that's it. If you take Lotus Mountain as the center, you can dig and build according to this base model. I don't look at the process, I just look at the results.”

The story of Qin Tiange, waving his hands directly, sent this group of robots. The base model sketched by No. 1 was too huge.

As soon as his voice fell, he saw a hundred robots suddenly change, one by one with both hands and feet disappearing, turning into huge drills.

Rumbling

A hundred drill bits spun quickly and drilled directly from here into the ground. Qin Tiange was stunned. Is this all right?

“Let me go. Is this a robot or a Transformer?”

Qin Tiange was surprised. But there was an ecstasy in my heart. With these engineering robots, maybe he could really build a huge underground base.

When I came to a hole, I looked at the dark hole the day before yesterday, and I didn't know how deep it was. The one-meter wide hole was a little too conspicuous.

“No. 1, block all the holes.”

Soon, Qin Tiange raised his hand, and a wristwatch-like controller on the wrist gave the command. Then, within a few seconds, he saw that the big holes were immediately flooded with mud and sand, completely blocking the openings.

Looking at Qin Tiange here, he was relieved. After looking at it, after no more attention was needed, he played with Qiselian for a while before leaving the Lotus Mountain with a happy mood.

“Brother Qin, you just came back. The guard area is here.”

As soon as he returned to Qinglian's apartment, Qin Tiange saw Moda running hurriedly, and the news came out loud.

“Guard zone?” Qin Tiange narrowed his eyes, secretly surprised, even this time.

Chapter 183 - Are you satisfied with this land?

In the hall, a group of people gathered here and no one spoke. [Read the latest chapter]

Nie Teng and others quietly looked at a group of people wearing military uniforms sitting opposite. It was a group of soldiers who suddenly visited, claiming to be from the Shenzhen City Security District.

There were a total of eight people. Among them, Hu Yan was standing next to a young officer. She was expressionless. It seems that this time she brought someone over.

“Who has the final say in your gathering place?”

The young officer spoke, breaking the atmosphere of silence at the scene, but unfortunately, no one answered him, because Nie Teng, Liu Ye and others did not know how to answer, let alone whether they should answer.

At this moment, two people walked into the door, led by Qin Tiange who had just returned, followed by Moda, holding a sword shield.

“Here, I have the final say. I don’t know what the young and promising major general advises?”

Qin Tiange said as he walked, came to the main seat, sat down directly, glanced at the opposite group of soldiers, stopped for a second on Hu Yan’s face, and finally looked at the young major general.

He is an officer with the rank of major general, which is rare. As soon as Qin Tiange appeared, he immediately caught the attention of these soldiers, and looked at the young leader of the gathering place one by one.

“You are Qin Tiange?” The major general squinted his eyes and looked at Qin Tiange in front of him.

The latter did not care. The other party knew that his information was normal. Needless to say, it must be Hu Shu, the special policewoman.

Qin Tiange glanced at her lightly before he said, “I’m Qin Tiange. I don’t know how many people came to teach me?”

“What’s your attitude?”

The major general did not speak, and a guard standing beside him immediately scolded him out, almost not shooting the table.

Of the eight people, except Hu Yan and the young major general, the rest were equipped with assault rifles and looked like guards.

But what Qin Tiange thinks, the young major general is unwilling to come, always feels that his eyes flashed coldly intentionally or unintentionally.

“My surname is Gong, you can call me Major-General Gong Fan.” Gong Fan said, setting off his entire military uniform, his face showing a hint of pride.

I was promoted to Major General at a young age, and naturally has his pride. This is reasonable, but what makes Qin Tiange unhappy is that you don't have to look at him like I am higher than you?

“Major General Gong, I don't know if you brought food rescue to our surviving citizens this time?” Qin Tiange's mouth slightly flickered and asked a little.

On the opposite side, Gong Fan's eyes narrowed, and his heart was furious: “This **** thing, a young man treats me like this and still wants food?”

On the side, Hu Yan blinked his eyes, watching Qin Tiange not talking, she didn't know what she was thinking. If she looked closely, her finger made a few secret moves against Qin Tiange. The beautiful special police officer seemed to want to tell Qin What information Tian Ge.

“No, no, I think you misunderstood. This time, on behalf of the headquarters of the security zone, I came to convey the order of the security zone.” Gong Fan said this sentence.

After hearing what he said, Qin Tiange ignored it, but glanced at Hu Yan thoughtfully, thinking about the meaning of her actions.

At this time, nearby Nie Teng, Moda, Li Zhi and others were uncomfortable.

This person is obviously a bad comer, which means that he definitely wants to receive their power, which has provoked the anger of Moda and others and looked at them a little badly.

Qin Tiange didn't speak, and sat there watching Gong Fan quietly. The young major general's words were very clear, and there was a faint meaning to control this power.

“What order? You know, we are just a group of flat-headed people, not soldiers.” Qin Tian Gormans said in an orderly manner.

Gong Fan suddenly turned back and reached out, took an information file from Hu Yan, and threw it directly in front of Qin Tiange.

The latter glanced at it, covered with a scarlet steel seal, which represented the large seal of the Shenzhen City Security District Command, proving that this was not fake.

However, he did not look, but looked up at Gong Fan, and suddenly smiled: “Major General Gong Fan, you directly explain your purpose, I read less, I do not understand.”

“You ... presumptuous!” A soldier snapped.

Unfortunately, Qin Tiange didn't look at him at all, but just stared at Gong Fan. He had lost his patience in his heart. How many people would dare to receive his power?

When Qin Tiange has no temper and is so bullied, he wants to accept the fruit and accept it?

“Communicate the command of the Security Zone Command to set up a temporary military control gathering place in Lianhua Mountain, and I will preside over everything in the gathering place.”

Gong Fan said, smiling, "Just right, you have a large number of survivors here, and you have also built a fence, which has saved us a lot of effort."

"Asshole!" Moda was furious, and his fists squealed, apparently annoyed by the words.

Nie Teng, Li Zhi, and others all showed their anger, pinching their fists, holding their swords, and eagerly rushed to chop the man into meat.

The team they managed to gather together finally made some achievements, but suddenly they ran out alone, and they were going to pick peaches, and everyone would be angry.

Even Liu Ye and other women couldn't help getting angry, but because of their identity, everyone dared not be angry.

"A group of earthworms, dare to be angry, this is the difference in status, even if you are their leader?" Gong Fan looked at the angry expression of Moda and others, daring to anger and secretly sneer .

For ordinary people, his major general is heaven. How desperately the people can fight him, his identity is one heaven and one earth, it is impossible to compare them.

"Are you a major general?" Qin Tiange asked suddenly.

He was very skeptical that this young general was a major general. He had never heard of such a young major general before the end of the day. It really was, and it was because of relationships.

After hearing this, Gong Fan looked cold and hummed, "I am the newly-appointed major general in the security zone. Do you dare to doubt and question the command of the headquarters?"

"Oh ... I see." Qin Tiange felt astonished that the boy had just been promoted to major general recently and should be an evolutionary.

Sure enough, looking closely at each other, Qin Tiange found that the breath emanating from Gong Fan was extremely strong. He must have been taking a hardened body medicine. It is estimated that there are about five to six people.

Thinking of this, Qin Tiange smiled, exposing a guilty white tooth, which made people unable to bear the chill in his heart, and felt like he was being stared at by a demon beast.

"Come to receive our group of survivors, is it the command of the commander of the security zone, or the order of your major general?" Qin Tiange asked this sentence softly, his eyes staring at each other.

As soon as Gong Fan heard this, his pupils shrank for a moment, but soon returned to normal, but Qin Tiange caught his abnormality.

"There is a problem!" Qin Tiange immediately felt that this person had a problem. It was probably not the so-called order issued by the commander of the security zone, or the commander of the security zone was not the order at all, but was altered by the current Gong Fan .

Perhaps, there is another possibility. Gong Fan directly faked the order of the commander of the security zone and wanted to secretly receive the leadership of the survivor gathering place.

“Heart is very big, unfortunately, you missed the attention, you shouldn’t come to me.” Qin Tiange sneered secretly.

Gong Fan assembled his uniform and said solemnly: “Naturally it is the command of the headquarters. You can enjoy a safe life in the military control zone we have established, and you can also get free food, but you must obey the order.”

Speaking of this, Qin Tiange has basically understood that this group of people came here not for the purpose of the Security Zone Command, but for the personal admiral of Major General Gong Fan.

No wonder, Qin Tiange felt weird. Why did eight people dared to run from the guard zone, even if commanded by the command, at least one company would have to come.

The most important thing is that the secret gestures of the female special policeman Hu Hu made Qin Tiange faintly feel that there was something wrong with this Gong Fan.

“Well, since Major General Gong said so, if I don’t know how to raise someone, then I can’t justify it.”

Qin Tiange suddenly stood up and said with a smile: “Major General, please come with me, I will take you to see the situation inside the base, and I will introduce you in detail to the entire situation of the entire Lianhua Mountain base.”

“The current affairs person is Junjie It’s not bad, I’m very optimistic about you!”

Gong Fan laughed and blossomed in his heart. This time he left the guard area without permission. He came here to take over the gathering place of the survivors who had just gathered recently.

I would also like to thank Hu Yan. Before returning to the headquarters, I met Gong Fan and others who went out to perform tasks. As a result, he got the news, which directly ordered her to come here.

“As long as all the survivors here are accepted, my plan can be realized, and the whole guard area is my final decision.” Gong Fan went out with Qin Tiange, and couldn’t help thinking.

Qin Tiange, who was walking in front of him, was sneered, thinking, “This boy thought that he could eat us with a rank of major general?”

Both had their own thoughts, followed by their respective men, all with different minds and extremely strange looks.

A group of people walked out of the conference room and quickly came to the gate of the city wall.

“Major Gong, please. The birds and flowers here are a treasure of feng shui. Are you dissatisfied?” Qin Tiange asked, grinning at a lawn in front of him.

Chapter 184 - Dig a few graves and bury a few people!

“Well, yes, birds and flowers are a good place. [Read the latest chapter]” Gong Fan instinctively nodded in response to this sentence.

In front, there is a lawn, green grass, clusters of rockery, lush trees, and a scent of flowers permeating the air.

“Just satisfied!” Qin Tiange smiled, showing a white tooth.

At this moment, Gong Fan felt something wrong, frowned, “Did you mean to take me to see the whole base? What do you mean by taking me here to see the ground?”

At the scene, everyone was in a weird mood, looking at Qin Tiange with strange eyes, especially the faces of Moda and others were extremely weird.

The female special police officer Hu Yan changed his face slightly, and seemed to think of something. Looking at Qin Tiange’s eyes was full of suspicion, but she didn’t speak because she had been controlled by Gong Fan for a long time.

As for the six guards with guns that Gong Fan and he brought, although they were faintly aware of the inappropriateness, they still couldn’t think of the key, but they were a little annoyed.

“What do you mean?” Gong Fan thought more and more wrong, and quietly held the gun handle around his waist.

At this time, Moda and others leaned in with tacit understanding, and surrounded Gong Fan and others in the center, with a sword and shield in their hands.

The atmosphere at the scene was instantly depressed, and the dignity was so great that the fools could see it. Qin Tiange was uneasy.

They took Gong Fan to the park to look at the ground. What they saw was a guise. This is because drunkards don’t mean to drink, but want to solve this group of people.

“Nothing!” Qin Tiange groaned with a smile, showing his white teeth. He pointed to the land in front of him and said, “This is a treasure of Feng Shui. What about Major General Gong? “

Dig a few graves and bury a few people!

As soon as this word came out, everyone felt chills, only felt the soles of his feet cold, his back cold, and his scalp tingling.

In particular, when Gong Fan and others heard these words, their complexions changed, and Qi Qin’s guns were aimed at Qin Tiange.

Gong Fan, with a somber face, threatened: “Boy, what do you mean by this, it is best to say clearly, otherwise my gun will not have eyes.”

“What do you mean?” Qin Tiange narrowed his eyes and sneered: “I mean, since you are satisfied with this land, help you dig a few graves.”

“Look for death!” Gong Fan was frightened, and suddenly realized that the other party never wanted him to accept the whole force, let alone take him to see the situation of the base.

Qin Tiange brought them here because there is no one here and it is easy to do things. As for what to do, the fools saw it, dug a few graves and buried them.

“kill!”

A faint word spit out, revealing an icy murderousness, freezing the heart.

Suddenly, Moda and others moved and slashed quickly at Gong Fan and others with a knife. The speed was beyond imagination, and they could not escape or even capture their blades.

The sudden change made Gong Fan and others startled. The guns were loaded, but unfortunately they had their heads cut off with a knife.

“what...”

One head after another soared, blood and water sprayed all over the ground, which stained the grass with a strong smell of blood.

The six guards were killed on the spot. Qin Tiange secretly shook his head, and could not help guessing that these people should not be real soldiers.

Otherwise, it will definitely not be so uncomfortable in such a critical situation, at least it can counterattack and hurt talents such as Moda, but unfortunately none of them.

Soon, all six guards brought by Gong Fan died except Hu Yan. He was left alone with Hu Yan standing alone, pale and terrified.

“You, do you dare to kill us?” Gong Fan was full of horror, completely without the pride of being Major General just now.

At this moment, he looks like a dog falling into the water, losing his soul, and feeling uneasy. It is just like judging two people, which makes people hard to believe. Is this a major?

Qin Tiange went expressionless, walked to Gong Fan step by step, reached out and squeezed, crushed the opponent’s wrist, and seized the gun.

“You shouldn’t hit my mind.” Qin Tiange’s words were very light, but he showed a chill, hesitant, straight through his heart.

He was right, Gong Fan shouldn’t have paid his attention, and, in the first place, he had to receive the whole force, shouldn’t he take everything from him?

Not to mention that he is not a real soldier, even if it is, Qin Tiange will not yield. What’s more, Gong Fan in front of him is just a major general who has just been sealed off by the guard zone, not a member of the real military system.

He is a peripheral member, not a real soldier.

“Say, how many people did you bring this time?” Qin Tiange asked lightly, playing with the gun in his hand.

At this point, Gong Fan was already frightened and begged for mercy: “I beg you, kill me, I, I, but I was sent by the Security Zone Command. If you kill me, the security zone will not let you go. . “

“He is lying!”

Who knew Hu Hu, who had been silent, spoke and directly exposed his words.

I saw Hu Yi showing a slight scorn, humming: “He is only a peripheral formation that the guard area has just recently expanded and accepted. The rank of major general is only temporary.”

Qin Tiange said nothing, looked at Hu Yan, and asked, “Then you talk about this time, was it ordered by the Command of the Security Zone to send him?”

“No!” Hu Yan shook his head slightly, and sighed, “This person I met on the way back. I was going to report to the commander the whole process of our mission failure, but I don’t know why he knew what happened here. , So abducted me halfway and asked me to bring him here. “

“How many people did he bring?” Qin Tiange asked again, but he did not believe that Gong Fan dared to come here by virtue of eight people.

“Smelly bitch, dare you say that? Commander beware of your crime!” Gong Fan was taken aback and immediately scolded.

Snapped!

Who knew that as soon as his words fell, Hu Yan slapped him to the ground with a slap, making his face swollen and bleeding from the corners of his mouth.

Hu Yan wiped his hands and sneered coldly, “You can fake the command of the Command without authorization, oppress the people, and discredit our soldiers. No one can save you today.”

“He brought a thousand people over, and the team was on the east side. There were two armored vehicles, and other weapons were fully equipped.” Hu Yan directly said the number brought by Gong Fan this time.

Hu Yan said with a serious face: “I can use my personality and military honor to guarantee that the Security Command will not do such a thing.”

This time it was Gong Fan’s behavior of bringing soldiers out of his own hands. There were a thousand people, two armored vehicles, and fully equipped weapons. It can be said that it is currently the most powerful formation in the outer police zone of Shenzhen City.

“Is that so?” Qin Tiange felt his chin and fell into thinking, and soon made a decision.

He looked at Gong Fan with horror and anger, and sneered: “It seems that you have great ambitions. If you want to annex and strengthen your strength outside, do you want to be your own commander?”

“No, no, you listen to me ...” Gong Fan looked panicked and wanted to explain, but Qin Tiange was already impatient.

He gently waved his hand, and Qi Qi next to him suddenly lifted the crossbow, and a stern steel arrow shot out, piercing through Gong Fan's forehead and being nailed here on the spot.

Looking at the seven dead people, Qin Tiange said blankly, "Dug a few graves and bury them."

Moda and others acted immediately, dug several large pits in the grass, and threw the body directly into the ground.

At this time, Qin Tiange came to Hu Yan, staring coldly at her.

"You said, shall I kill you?"

Qin Tiange's words, revealing endless cold, deliberately chilling.

Chapter 185 - Dark plan

Outside the gate of the base's wall, a group of people stood here silently watching a figure walking away. [Full text reading] "Ten Ge, is it really okay to let her go this way?"

There was a hint of worry on Liu Ye's face. Looking at the Qianying who was walking away, he was a little worried about what happened next.

Qin Tiange did not kill the woman special policeman Hu Hu, let alone the so-called extinction, but let her go, which was a little worrying.

"What if you don't let it go?" Qin Tiange asked rhetorically, looking at the distant Hu Yan, he said: "How can she say that she is a person in the real military system, if you kill her, you really can't justify it."

"It's nothing that we killed Gong Fan's group. After all, they are not real soldiers. Once we move Hu Yan, we must really face the entire Shenzhen city security zone."

This is why Qin Tiange can't move the other side. Don't think that the state machine won't work after the end. If you think so, it's silly.

In just one Shenzhen police zone, there are thousands of elite soldiers, all kinds of weapons and equipment, tanks, armored vehicles, guns and ammunition, and even various artillery.

I really want to work with the army. Qin Tiange hasn't been stupid because he can't afford the conflict. It's not good for each other.

If it weren't for Gong Fan's coming, they would have eaten their power and captured the fruits cultivated by Qin Tiange, and that would not have killed the other party.

It's a pity that the guy had a bad heart, and he forged the Command of the Security Zone and pretended to pass the order. I'm sorry not to kill him.

In the distance, Hu Yan stopped and looked at it from a distance. She looked at Qin Tiange, who stood out from the crowd, with a hint of complexity in her face.

"This person ..." Hu Ming murmured, and finally did not continue.

She finally glanced at Qin Tiange from afar and turned to leave. Soon, there was a roar from the east, and she saw two armored vehicles driving away.

Following the armored vehicle, there were more than a dozen troop trucks, all of which were a team of 1,000 people brought out by Gong Fan this time. Unfortunately, he died.

The team was naturally brought back by Hu Yan. As for how to meet, Qin Tiange could not manage it.

He did not choose to kill Hu Yan and annex the team, but left it.

“You go back first, Moda stays.” Qin Tiange said lightly as he looked at the armored convoy.

Everyone glanced at each other and left each other, leaving Moda alone behind Qin Tiange, guessing what was going on with him?

“Moda, what is your brother doing to you?” Qin Tiange turned and asked gently.

Moda looked shocked, and said very solemnly: “Brother Qin, you are my beneficiary, regenerate my parents. Without Brother Qin, I would not have Moda today.”

“Mada’s life is from Brother Qin. Brother said what I want to do and who to kill?” Moda spoke directly without hesitation.

From the moment he stepped out of school, he identified Qin Tiange as the boss, so at this moment there is nothing different, just do whatever he wants.

“With your words, I feel relieved.” Qin Tiange patted him on the shoulder and smiled: “Do you know why I left you alone?”

Moda shook his head and said that he didn’t know. In fact, he had a faint guess in his heart that there must be something to explain to him, a very important thing, and he did not let others know.

Qin Tiange looked at the faintly visible convoy, and suddenly said, “I want to give you a task. I wonder if you would like to help me?”

“Brother Qin, let me do nothing, nothing more.” Moda promised neatly.

Looking at Moda’s solemn expression, Qin Tiange thought for a while and said, “I want you to leave the team, go to the guard area, and take control of an external force.”

Upon hearing this, Moda was shocked, and a look of shock appeared on her face. However, he recovered quickly and said calmly: “Brother rest assured, Moda is awake and must complete the task.”

He didn’t ask, and he didn’t hesitate any more, so he promised. This makes Qin Tiange most satisfied and assured of Moda.

“Muda, this mission may be dangerous. The only one who has seen you is that Hu Yan. Be careful yourself, I don’t want you to have any problems.” Qin Tiange looked at the sky and muttered.

Who knows, when Moda heard this, there was a flash of utterance on his face, and he suddenly raised his steel knife and drew three strokes at his face, blood dripping.

His movements were so fast that Qin Tiange did not respond. When he came to his senses, Moda had scratched his face and completely disfigured him.

“Moda, you ...” Qin Tiange was startled, never thinking that Moda would do the same.

He just reminded Moda to be careful of Hu Hu, don't be recognized, but never thought he scratched his face silly and broke his face.

Moda didn't even care, and said firmly, “Brother has the grace of knowing me and the grace of rebirth. This is very clear to Moda. What's so good for this mission?”

“Good brother, you, my brother!”

Touched inexplicably by Qin Tiange, he couldn't help but give Moda a hug and patted him on the back fiercely, this brother he recognized.

Immediately, Qin Tiange immediately took out a liquid of life, this was the last one. He handed it to Moda without hesitation, applied it directly to his injured face, and immediately recovered.

However, three faint scars appeared on the original white face, which cannot be repaired unless it is a regenerating substance.

Qin Tiange regrets, both heartache and touching, can't help but curse: “You idiot, you will hurt yourself every now and then, when Xiaoyu comes to me to settle accounts?”

Hehe ...

Moda smiled awkwardly, and said with a smirk: “Elder Qin rest assured, Xiaoyu is not the kind of person, and she will not dislike me.”

“Okay, you'll clean up later, take Xiaoyu away.” Qin Tiange laughed and cursed, and was about to catch someone.

However, Moda shook his head with a serious expression. He said, “Brother Qin, Xiaoyu can't go with me. I can go alone.”

Qin Tiange thought about it, and finally respected Moda's choice: “Okay, then you should prepare for it without having to say goodbye to others, and see you again in the future.”

“Brother Qin, I'm gone!”

Moda bid farewell seriously, not even his daughter-in-law left farewell, left the door directly, gradually drifted away, and finally disappeared here.

Looking at Moda, Qin Tiange didn't leave for a long time. UU reading www.uukanshu.com was somewhat sneered and complicated. This decision was made temporarily by him.

At that time, when I heard Gong Fan brought a thousand people and two armored vehicles, the first thought was to die, but in the end he changed his mind.

It was because of a word from Hu Yan that Qin Tiange learned that there were peripheral formations in the guard area, which led to this idea and decision.

He sent Moda out and went to the guard area, which was decided based on this consideration.

Every single Gong Fan can become a major general and even lead a team of 1,000 people. This is a great temptation. The strength of Moda is definitely not bad.

“Dark plan starts, Moda, take care, don’t let brother down ...” Qin Tiange looked at Moda’s back and muttered to himself.

In the distance, as if feeling something, Moda stopped suddenly and turned to look over.

“Brother Qin, Moda must complete your task!”

Moda murmured, turned decisively, disappeared in the far corner of the street, to complete the task entrusted to him by Qin Tiange, the road ahead was full of unknowns and variables, and nothing was known.

Chapter 186 - Create a great career

This morning, Qin Tiange was discussing the next arrangement and development of the base with Zhuo Tianfan, and a figure hurried in. [No Popup Novel Network]

“Qin Brother, Moda? I haven’t seen him for a day.”

Wu Xiaoyu, a girl who came in, rushed in, with anxiety and worry, because she hadn’t seen Moda since last night.

“Boss, I’m going out now.”

Seeing her in, Zhuo Tianfan stood up quietly and was about to go out, but was stopped by Qin Tiange. He still had a lot of things to explain, and had a big plan to discuss with him.

“Don’t worry, Moda is all right!” Shouted at him, Qin Tiange then looked at Wu Xiaoyu, and let her sit down and explain slowly.

Qin Tiange thought for a while, instead of concealing it, he said, “Moda has sent me out for a long-term task. You may not see him for a long time.”

“It turned out to be a mission, it scared me!” Wu Xiaoyu was relieved after hearing it, causing her to worry about the whole night, thinking that something had happened.

Qin Tiange smiled and asked, “If you miss him so much, then I’ll send you out too, so how about reunifying your young couple?”

“Brother Qin, forget it!” Then, Xiaoyu Wu refused directly: “My man has his own career to do, and I should not interfere with him as a woman. I’ll just wait for him here, and the school formation work recently Tedor, a large group of children to manage, I know he’s fine. “

“I have to go back and take care of the little ghosts, Brother Qin, I’ll go first.”

After Wu Xiaoyu said, he hurriedly got up and left. He really came and hurried. He was really a hot little girl.

After watching her leave, Zhuo Tianfan smiled and praised: “This little girl is good, Moda is blessed, and she found such a good girl to be a daughter-in-law.”

Qin Tiange rolled his eyes and joked: “Your daughter is so old and not serious, do you want to have a second spring and also want to find a good woman?”

“Don’t bury me!” Zhuo Tianfan couldn’t help crying and sighing, “Du Jing still hates me, because my mother’s death is also my responsibility ...”

Ugh...

Talking about it, even referring to these sad things, Qin Tiange knew that he couldn’t talk about it, and immediately shifted the topic.

“By the way, I have a plan. Can you hear if it is feasible?” Qin Tiange said the plan that was already prepared in his heart.

Zhuo Tianfan was shocked. He cast aside those worries and listened carefully. I was curious. Qin Tiange, a young poster child, what are the big plans?

Qin Tiange thought a little before he slowly said, “I plan to prepare for a large construction, and speed up the construction of the entire base. The construction will be completed within a month. Can you see if this plan is feasible?”

“One month?” Zhuo Tianfan frowned secretly and shook his head. “This is simply impossible. Judging from the plan of the base you have planned, it is almost impossible to complete the construction plan in one month.”

Zhuo Tianfan was not optimistic and persuaded: “You see, even before the end, if you want to build such a huge base, you have to spend countless manpower, material and financial resources, not to mention that we have more than 20,000 people now, there is no material And machines. “

He is also right. If he wants to complete the base construction plan within one month, this is nothing but a nightmare. Even if there are 20,000 people working together, it cannot be done.

But Qin Tiange felt able to do it, because he had an engineering mech unit in his hand, a hundred engineering mechas, and as long as he used it well, one month was enough.

“Have you heard of Engineering Mecha?” Qin Tiange suddenly asked this question.

When Zhuo Tianfan listened, he thought he had heard it wrong, wondering: “Is the engineering mech you are talking about the kind of steel mech dedicated to the fortress construction?”

“That’s right, it’s this kind of thing.” Qin Tiange acknowledged, nodded in approval.

Ke Zhuo Tianfan shook his head, crying and laughing: “I said, boss, you are too whimsical, the mecha only exists in the legend, that is, in the large machinery and equipment manufactured by current technology, no one has heard of it. Out of this engineering mech. “

“We can’t do it, it doesn’t mean that others can’t do it.”

Qin Tiange stood up slowly, walking around the conference room, as if thinking or making a decision.

Zhuo Tianfan saw quietly after seeing it, thinking about the implied meaning of his words in his heart, and said deeper, didn't he imply that he had such things in his hands?

Shock!

Zhuo Tianfan was stunned by his own thoughts and speculations, and soon realized that what Qin Tiange said was probably true, because he naturally had seen the magic of the inheritance stele. Is it the mecha obtained from it?

Soon, Qin Tiange sat down again and said earnestly and seriously: "Brother Zhuo, I'll tell you the whole thing. I have a hundred engineering mechas here."

puff!

"Cough cough ..." Zhuo Tianfan spit out water and almost choked to death. Obviously, this sentence is too amazing.

With his determination, it was unavoidable to shock, and it is not difficult to imagine how shocking Qin Tiange's words were.

One hundred engineering mechas, what is that concept?

Zhuo Tianfan shook his hands a little, his face twitched, and stared at Qin Tiange with all eyes. I really hope this is true.

Qin Tiange did not let him down, and admitted directly: "I do have a hundred engineering mechas in my hand, so do n't ask where they come from. In short, you and I combined, how to use this resource to speed up the construction of the base . "

"So it's really possible to accomplish this great miracle in a month."

Zhuo Tianfan stood up with a look of excitement and couldn't stop walking around. He was so excited. The news was absolutely inspiring and made him see a miracle.

A hundred engineering mechas, if used well, will definitely build the base within a month.

Even if it does n't work, at least the perimeter defensive circle can be completely completed. At that time, the internal facility structure will be gradually improved. Zhuo brother, you immediately start to select personnel, ready to learn to drive engineering A. Priority is given to those who have driven construction machinery. Qin Tiange made this suggestion.

Zhuo Tianfan felt that it was feasible and immediately left, and went to select personnel. This time, Qin Tiange is going to make a big construction to completely build the entire base defense circle, which is better.

As long as the defense circle around the base is completed, the entire base will accelerate its development, and more and more people will come together, and then it will become a veritable base.

"It's man-made. In this life, let me start a great cause!"

Standing in front of the balcony, Qin Tiange looked into the distance, and seemed to see a huge base towering in this area. Countless people cheered and yelled loudly.

He has done nothing in his previous life. In this life, he feels that he cannot follow the old path of the previous life, or he will not do it. Once he has done it, he will start a career, at least lively and vigorously.

In this way, a big construction wave started slowly in the dark. Not many people knew that in the near future, a solid and huge survivor base would appear here.

Chapter 187 - Engineering mecha shocking debut

“Old foreman, can you really find work?”

In front of a spacious construction site, there were a group of people, at least hundreds of people, talking about each other with their heads bowed. [Full text reading]

They are all migrant workers and tall buildings. These people are people who have driven construction machinery, some have used cranes, some have hook machines, bulldozers, and so on.

These people are the people Zhuo Tianfan picked and recruited. They are all people who have driven machinery, especially one of a large group of migrant workers.

All excavators, hook cranes, and cranes are on the line, and there are even a group of people who were originally workers of a road and bridge company and have experience in road and bridge construction.

At this moment, a hundred people were gathered in front of this empty construction site, one by one, so they wondered whether there was really a job this time.

They have been here for several days. Although they helped the base to eat and eat, they were not stable because the base construction was too slow and often had insufficient materials to stop work.

The most important thing for these people is to work, because as long as they work, they can eat and drink immediately. Qin Tiange gave orders that he would not be hungry for those who help the work.

“Everyone seems to have been a mechanical person. I think there will be good things this time.”

The foreman looked at the people who came together all around, and felt that there must be something good this time, because before he came, Zhuo Tianfan personally asked if these people had real materials.

“Foreman, are they going to turn on the machinery?” A migrant worker scratched his head and asked a little puzzled.

“Don’t worry about it. Since we are all called, there must be something wrong, right.”

Foreman said, many people were convinced, and immediately waited quietly, soon they saw two people coming in front.

One is Zhuo Tianfan, who is the person in charge who selected them, and the other is a young man.

“Is he?” Seeing Qin Tiange’s arrival, the old foreman and a group of migrant workers all looked surprised and recognized him.

Wasn’t this the guy who wrote on the wall of the gate of the construction site?

Seeing this, they suddenly understood that when they saw him, they were both surprised and curious, and looked at the two people who came up.

“Boss, these 100 people are all carefully selected by me, and I even personally evaluated the selected 100 moving engineering machinery.”

Zhuo Tianfan arrived with Qin Tiange and introduced the first 100 people directly, which was the result of his selection.

Qin Tiange nodded and said nothing, sweeping the crowd one by one, and he said for a long time: “I think everyone here is very confused. Why did we pick you out and what do you want to do?”

“Don’t worry about it, you will know after the meeting. If you can pass the final assessment, then you will not have a problem eating here, and you can even get the reward guarantee you didn’t expect.” It is very attractive.

But his voice turned and he said, “But the ugly words come first. If you can’t meet the requirements, then I can only regret firing you.”

“Of course, the dismissed person does not mean that they will lose the opportunity. There will be something for everyone for a long time to come. Food is not a problem. It depends on everyone’s willingness to do it.”

After that, Qin Tiange stopped talking, and the opposite group looked at each other. You look at me, I look at you.

“I’m not afraid of suffering or tired, I’m afraid of no food!”

“Yes, as long as you do things for us, we will never be lazy.”

Several migrant workers immediately spoke and wanted to find something to do. After all, they had food to work, so they were more at ease.

In this world, in order to survive, they are not afraid of suffering or being tired. The hardest, most tiring and dirtiest work will be done, just to survive.

“Well, in this case, today I will tell you, as long as anyone can drive an engineering mech, I promise that not only will there be enough food control, I will also reward you with something that can make you stronger and younger.”

After Qin Tiange finished, he walked directly to the open space. When everyone took out a box, it was the space box containing one hundred engineering mechas.

With only a bang, the box opened to powder, and then a huge steel mech appeared before everyone.

Shock! sluggish!

A hundred engineering mechas suddenly appeared and slammed to the ground. The heavy steel mechas caused the ground to sink a lot.

The fifty-meter-high engineering mech, shining with metallic light and showing some peculiar charm, deeply attracted everyone present, including Qin Tiange.

“Perfect, shock!” Zhuo Tianfan muttered to himself, looking up at a huge engineering mech in front of him, couldn’t believe it.

Fifty meters high, how majestic it is, very spectacular, as if you are not seeing real scenes, but scenes in science fiction movies.

One hundred engineering mechas are really shocking!

Look, the 100 people were completely aggressive, staring sillyly at the one hundred engineering mechas that suddenly appeared in front of them, losing their speech ability.

Although Qin Tiange was prepared, he was stunned by the scene in front of him, and suddenly realized that as long as this kind of thing was born, it would not be long before everyone knew it.

He frowned suddenly, thinking of the Shenzhen city security zone. If these mechas appeared, they must have been informed by the people over there, and trouble would follow.

“Forget it, the boat is naturally straight to the bridgehead. Since it is exposed, build the base as soon as possible, so that there can be capital.”

In the end, Qin Tiange put aside these thoughts, and since he was determined to do it, he would not regret it, as long as the base was completely constructed, it would not be a big deal.

Poppy!

Qin Tiange clapped his hands, awakened the crowd, and said, “Now listen, one person, one engineering mech, and those who are proficient in these engineering mechas will become the core personnel inside our base, and their treatment rewards are equivalent to combatants . “

“This, let me drive these big guys?” A migrant worker asked stupidly, still a little dizzy.

The steel mech was too big, and the 50-meter-high steel giant shocked them with these simple migrant workers.

At this moment, when Qin Tiange told them to drive these huge steel monsters, it was incredible that they heard it wrong.

They heard it right, Qin Tiange was going to use these people to drive the engineering mech to help the base speed up the construction and complete the preliminary plan.

Engineering mechas, unlike engineering robots, have intelligent chips that can only be operated by humans, otherwise they are simply a pile of scrap iron.

As a last resort, Qin Tiange only came to this hundred people who had driven machinery, and wanted to see if they could be qualified to drive engineering mechas.

“Boss, I don’t think they can complete this task.” Zhuo Tianfan shook his head and was not optimistic about these people.

The engineering mech appeared for the first time, and these people from other places, even Zhuo Tianfan, felt that it was impossible to drive.

“Try it. People always learn to grow and adapt.” Qin Tiange didn’t care, and looked at the people who were at a loss standing under the huge engineering mech, a little speechless.

“Foreman, why are we up?”

A migrant worker asked stupidly, looking up at the 50-meter-high engineering mech in front of him, not knowing where to start, because he couldn’t climb, let alone how to start.

Everyone was dumbfounded and turned to look at Qin Tiange, all looking ashamed.

Chapter 188 - Lateral push

Bang ...

A huge 50-meter-high mech collapsed, set off a billowing smoke, and the ground was smashed out of huge pits. [Read the latest chapter]

Watching these huge machinery collapse, looking far away, one hundred mechs crookedly walked, and occasionally the organic armors fell to the ground, sending a rumbling sound.

“Well, it fell down again.” Zhuo Tianfan held his forehead and shook his head and sighed.

He couldn’t bear to look straight at it. From the beginning, he didn’t know how to get up. Until now, the group of people driving the mech either fell a step or fell before they left.

The entire huge and empty construction site was messed up, and even the several buildings originally built were crushed.

Qin Tiange didn’t speak, watching quietly, one after another, the mechas fell to the ground, couldn’t get up, and struggled to get up, unfortunately it seemed like they had no strength.

In the mech cockpit, the pilots blushed and tried to drive the mech, but they couldn’t.

“Oh my god, how do you operate this big guy?”

A migrant worker rushed around, sweating, holding two joysticks with both hands, not sure what to do.

This engineering mech is not controlled by holographic equipment, but is manually operated by humans, just like a large machine.

Unfamiliar people really can’t move. These people are like this from the beginning. If they are not familiar, they will not operate the mech at all.

These engineering mechas don’t actually look like human figures in appearance, they are just a large-scale mechanical assembly that integrates various mechanical functions into one such huge mech.

“The first person who succeeded fully in mech, I rewarded him with ten pounds of snake meat.”

Suddenly, Qin Tiange opened his mouth and shouted, his voice was far into the ears of a hundred people, and everyone snorted.

Ten catties of snake meat, that’s green snake meat. Everyone can’t help drooling at this, how many days haven’t eaten meat?

They don’t remember, just know that they can eat enough. Now when I hear that there is meat to eat, or ten pounds of snake meat, it is simply the temptation of red fruit.

“Mother, I have a mother-in-law to raise, ten pounds of snake meat, I must get.”

The anxious migrant worker’s eyes lighted up, his spirits fluttered, and he seemed to calm down suddenly, and began to think about his feeling of opening the crane.

Click ... Boom ...

I was surprised that the mecha that had been lying there moved, slowly extended a huge mechanical arm to support the body and stood up.

Immediately after that, the other robot arm moved and really stood up completely. Seeing this, everyone was stimulated, perhaps under the temptation of the reward, or perhaps stimulated by someone’s success, and many people successfully manipulated the mecha and mastered a little bit of skill.

“Hey, it’s successful!”

The migrant worker who was the first to get up was screaming with excitement in several houses. He drove the mech, unfolded two mechanical arms, and kept waving, looking extremely excited.

Seeing this, Qin Tiange nodded with satisfaction. Sometimes, a little reward was needed to stimulate their potential.

No, ten pounds of snake meat stimulated this group of people. Someone succeeded immediately, set an example, and immediately acted as a driving force. Soon, one huge machine after another stood up.

Boom! Uh ...

The ground shook, and even a large number of survivors in the Qinglian apartment felt a slight tremor, one by one skeptical, thinking that the earthquake had come.

“What’s going on, is there an earthquake?”

Some people ran out, appearing particularly panic, and many survivors were a little confused. Fortunately, Nie Teng and others took the lead in identifying the problem and immediately organized staff to maintain order.

As everyone panicked, the vibrations from afar grew more and more violent, as if something huge was walking.

“Oh my God, look, what’s that?”

Finally, someone saw that there were huge things in the distance. Looking up, I was stunned by the scene in front of me, completely dumbfounded.

Everyone looked dumb, and looked at a huge steel monster in the distance in shock, step by step, shaking the ground.

“Is that ... Mecha?” A few people in Nie Teng were shocked and almost jumped in shock.

Because what he saw was so amazing, one hundred huge mechas, one after the other, came along and the scene was too shocking.

However, a caring person still saw a figure standing quietly on the shoulder of the front mech, that is, Qin Tiange.

“It’s Brother Qin, oh my god, where did he find these huge steel machinery?”

Yang Xiaolin and others were so shocked that it was difficult to express their feelings at the moment. When they saw the huge steel giants, they were speechless.

Liu Yan, Long Xiaoya, Nie Teng, Li Zhi and others, all foolish, stared at the approaching steel giant.

These engineering mechas did not enter the base, but instead walked along the base walls towards the outer city streets.

boom!

In front of it, a building blocking the road was swept to the side by the mech walking in the forefront, the smoke was rolling and the rubble penetrated.

The scene was as hot as it was hot, slamming a building with a slap, and the people in the base were shocked and foolish.

“Ha ha ha ha, cool, so cool!”

In the cab, the peasant man named Da Kui laughed and seemed extremely excited.

He was proud, because he was the first person to successfully drive a mech and got the ten pounds of snake meat promised by Qin Tiange. Finally, he let Qin Tiange stand on the shoulder of the mech he was driving and let others Envious.

Roar...

On the streets in the distance, crowds of zombies surged and were attracted by huge movements. However, in the face of these huge engineering mechs, these zombies were unlucky.

What an egg touches a stone is what it looks like.

boom!

With a giant steel foot of Mech, dozens of zombies surging on the street were trampled on the spot and died.

This is crushing. Real crushing. Engineering mechs, although not for combat, are definitely not without combat effectiveness.

If you look at the scene in front of you, you know that it is completely crushed on one side. Wherever the mech stepped on, there must be a zombie that turned into meat sauce and was blown alive.

“Yes, don’t worry about the safety of the engineering mech for the time being, but it will be difficult to say later.”

Qin Tiange stood on the mech, looking at the numerous zombies that had been trampled below, nodded with satisfaction, and secretly no longer had to worry about the safety of the engineering mech.

However, it will be difficult to say in the future. Zombies and mutants are still very weak. When they have evolved to a more powerful level, these engineering mechas are a pile of scrap iron.

“Pass me the order Each combat team cooperates fully with the engineering mech, smashes all the zombies and mutants in the plan, collects all construction materials, and accelerates the construction of the base.”

When Qin Tiange returned to the base and directly issued the order, the entire base boiled and countless people cheered.

“Mecha, we are organic, great.”

“It turned out to be mech, I thought I was dreaming.”

In the base, in the apartment, and in various residential areas, countless people ran out to cheer, and more than 20,000 survivors one by one excited cheers.

They saw a huge steel mech, although it was only used to build the base, but it definitely brought them a shock and impact on the soul, and they had a strong sense of security.

With the development of the major combat teams, they began to cooperate fully with the engineering mech to push them past, razing some useless buildings to the ground and clearing all the zombies and mutants within the scope of the base plan drawing.

This is a large construction. In the Qing Dynasty, driven by a hundred engineering mechas, it has been accelerated by dozens of times to complete the cleaning task.

Chapter 189 - The stone monument reappears, the curtain opens

More than half a month has passed

With the two phases of the engineering mech, with all major combat teams clearing up all the zombies and dangerous sources in the blueprint plan of the base, the effect was remarkable in just 20 days and the results were outstanding. []

“Qin Brother, this is the result of today. In two days, we can fully understand all the areas in the base plan.”

In the apartment, Nie Teng dyed blood, returned with a storage ring, and handed it to Qin Tiange, which contained the clear-cut battle results of the day.

Crystal nucleus, full of crystal nucleus stored in the storage ring, is only a day's success. From this, it is not difficult to see that the engineering mech cooperates with the major battle groups to clear the battle.

“Very good!” Qin Tiange smiled as he looked at a ring of crystal nuclei. Needless to say, at least roughly 100,000 zombies were killed on this day.

From the area around Lianhua Mountain, within a radius of ten kilometers, all the zombies in the plan of the base were cleared and the mech passed, and nothing could resist it.

This is the advantage of the early stage. As long as it is well played, it will be able to fly into the sky in the future and really work hard to make a big cause.

In just twenty days, Qin Tiange gathered almost a million crystal nuclei here, which is a huge amount of data.

He was all a bit surprised, which was too easy, but he knew that this was the only chance. After a while, the zombies became more and more powerful, and the mutant creatures became more and more powerful. The engineering mech was useless. .

This is not the case. Engineering mechas were not originally used for fighting, but now they are only cooperating with the fighting team to clear the zombies, collect all construction materials, and prepare to build a base defense circle around the base.

“In two more days, all designated areas will be cleared, and the engineering mech will not be able to help you clear them.”

Qin Tiange stood up and patted Nie Teng's **** shoulder. He said: “The most important thing is to build a base defense circle. The construction must be completed within half a month.”

“understand!”

Nie Teng took the empty storage ring, turned and left, and proceeded with his wasteland group.

Watching him leave, Qin Tiange stood on the balcony and looked out at a huge steel machine in the distance. A huge arm pushed across the building to clear a huge empty area.

The huge engineering mech has a variety of mechanical arms, which can be replaced at any time, and can flexibly perform a variety of building demolition tasks.

As those 100 drivers gradually mastered the mecha operation process, the technology became more and more proficient, the cleaning speed became faster, and the task of clearing obstacles was almost completed.

Next, Qin Tiange must use this hundred construction machinery to build the base, the first is the outer defensive city wall.

In the planning drawings he outlined, the base's defensive walls were 35 meters high and 20 meters wide, and were constructed entirely of reinforced concrete.

If it is built by manpower, it is a nightmare, but now with the engineering mech, everything is unlikely to become a reality.

“Quick, up to half a month, you can see a huge base standing here.”

Quietly looking at the huge, busy mech in the distance, Qin Tiange couldn't help feeling excited, as if he saw a huge and majestic base born in his hands.

However, with the passage of half a month, Qin Tiange always had a thought in his mind to remind him that today is the time when he left the town from the spot to the present, for 29 days and 18 hours.

“Permanent heritage stele is about to appear.”

Qin Tiange murmured, feeling a little excited, looking at the time, it is estimated that there are a few more than 30 days.

It has been thirty days since I came out of town, exactly one month. Why he is so excited, because he knows that the heritage stele is about to appear again soon.

But this time is different. This is a permanent appearance. Some heritage stones will not disappear when they appear, while others will have a time limit and disappear when the time comes.

It was a temporary heritage stele, and many of the steles that appeared this time were permanent heritage steles.

Qin Tiange just knew that there was a place where a permanent heritage stele appeared. It was in Lianhuashan Park that this was why he came here.

At the same time, it is also a major factor for him to build a base here to gather survivors. A permanent heritage stele represents extraordinary significance.

“It's time to check it out.”

After packing up, Qin Tiange went out with the halberd, went directly to Lianhuashan Park, entered from the north gate, and came to the place where the fairy was planted.

When he first came here, Qin Tiange saw that the color lotus was even more charming and charming, and the lotus leaves were much more numerous, filling up the tens of meters.

Six lotus flowers of different colors, with buds to be released, have a scent that is irresistibly intoxicating.

Rustled

Qin Tiange's arrival immediately caused all lotus leaves to shake, opening a passage for him and directing him to the big colorful lotus flower.

“Why haven't you seen the dead parrot these days?” Qin Tiange came to the colorful lotus, and frowned.

Rustled rustled

The lotus leaves around constantly tangled, tangled towards Qin Tiange's arm, coquettish, as if typing a report.

Qin Tiange smiled, and then said, “Okay, guys will stop for a while, and today there are important things to do.”

After that, the surrounding lotus leaves stopped, no longer shaken, and slowly withdrew. Qin Tiange quietly accompanied here to wait.

In the past 20 days, the fairy has absorbed a large number of crystal nuclei, but still failed to meet the criteria for promotion to four stars, which disappointed Qin Tiange.

However, he was not too disappointed, but continued to bury a large number of crystal nuclei, supporting the fairy to absorb the dark energy accumulation and wait for the impact of the four stars.

“Continue to work hard to break through the four stars, the crystal tube is enough.”

While burying a large number of crystal nuclei, Qin Tiange comforted the fairy, hoping that it could break through the checkpoints as soon as possible and successfully advance to the four-star level, and that was the time for him to step into Taolin.

There is a four-star goblin here. It would not be too dangerous to enter Taolin, and there may be unexpected gains.

Ok?

Qin Tiange, who was originally buried in a crystal nucleus, looked upright, and looked upset, faintly feeling that the air around him was a little different.

The fairy felt the same, the lotus leaves were shaking constantly, and the seven lotus flowers trembled as if sensing something.

Rustled

I saw A ray of light suddenly appeared in the lotus leaves, expanding from below the soil, that is, those lotus leaves were inexplicably squeezed apart.

“Yeah”

If there was a scream of ignorance, it was seen that the fairy was so scared that it rose up from the soil, and the entire lotus root system ran out by itself, hiding behind Qin Tiange.

It was frightened. The place where it had taken root was covered by a strange light, shining brightly.

“Inheriting the stele, it has appeared again!”

Qin Tiange was not surprised and anti-happy. Looking at the strange and brilliant light in front of him, he faintly saw that a huge stone monument was gradually emerging, and it was exactly a heritage stone monument.

At the same time, such changes occurred simultaneously in Huaxia and even across the globe. The heritage stele appeared again and attracted the attention of countless people.

“The chaos is about to begin”

Qin Tiange knows that with the reincarnation of the stele, the world will no longer be peaceful. In a dark and disorderly era of chaotic killings, a **** troubled world slowly opened the curtain.

Chapter 190 - Redeem again

The heritage stele reappears, and the dark curtain slowly opens. [No Popup Novel Network]

Lianhua Mountain, before the heritage stone monument, Qin Tiange quietly watched the heritage stone surface, the light gradually disappeared, and finally disappeared, leaving only an ancient stone monument, showing the vicissitudes of time and long-lasting breath.

“Inheriting the stele, it finally appeared again.” Qin Tiange restrained his excitement, slowly stepped forward, and reached out and gently stroked the stele containing the big secret.

Suddenly, a light flashed, and a virtual light curtain appeared in front of him.

At the beginning of the doomsday, only one-star things appeared on the temporary inheritance stele that came for the first time, and now this time, various things appear on the stele.

From one star to nine stars, there are many types and everything. The most amazing thing is that there is one thing finally unblocked on the stele.

“Sports, Gongfa”

Looking at the exchange list above, Qin Tiange murmured to himself that it was the kind of crazy things that everyone in the past had begun to do, which could be called the exercises.

In fact, this is not a practice, but a physical exercise.

The so-called physical technique is to achieve a kind of physical exercise and strong function with a certain action. This is physical technique.

“Basic body surgery: two stars, you can exercise through 108 body movements, theoretically you can reach two stars, the exchange price is 551 stars.”

This is the most basic form of physical skill. As long as ordinary people continue to exercise their bodies in accordance with the above method, they can gradually step into the two-star loop.

Looking at this most basic body technique, Qin Tiange thought a little, and murmured, “The most basic things are most suitable for the public, and more suitable for children to lay the foundation and buy.”

He spent 5,000 celestial nuclei and directly exchanged for a basic body surgery, ready to be thrown to Liu Yan and others to teach the underage children in those bases.

This is the most suitable thing to lay the foundation. As long as you exercise according to the above, your body is getting stronger and stronger, and finally you can theoretically become a two-star powerhouse.

Of course, this is just a theory. As for whether it is true, Qin Tiange does not know that he has not cultivated this thing in previous lives.

After the exchange, Qin Tiange continued to check. There were a large number of physical skills listed on it, ranging from low to high, the lowest two stars, and the highest nine stars.

“Five elements: nine stars, a total of 1,898 movements, can be practiced in accordance with the method, reaching nine stars, five star cores can be generated in the body, exchange price: one million one star core.”

Seeing this exchange price, Qin Tiange was so dangerous that he did not spit out any blood, and he almost yelled, really angered him.

“Traitor, treacherous trader, it’s so dark. Nine astral body surgery is going to be one million crystal nuclei. I have just over a million in my body right now.”

Qin Tiange was dark-faced, his eyes stared at the copy of Jiuxingshu, and his heart moved. Unfortunately, the price is too expensive. Now he will exchange it and return to liberation overnight.

In the end, Qin Tiange gritted his teeth and looked away, and gave up the exchange. He continued to check that nine-star sports are basically at this price, and there is a more outrageous price.

“Seven-star technique: nine stars, half steps and ten stars, a total of 1,999 styles, cyclical and gradual cultivation according to the method, can reach nine stars, and theoretically can break through half steps and ten stars, and seven star cores can be generated in the body. , Exchange price: two million one star crystal core. “

Seeing this, Qin Tiange has the urge to faint, your sister, should it be so dark, and these things are only one copy.

That is, as long as someone redeems these physical skills, no matter where they are, which heritage stone is redeemed, the other stone will completely lose this thing.

All nine-stars are the highest-level physical skills on the stone stele, and they are the only ones.

Ugh!

Qin Tiange slightly shook his head and sighed, and smiled bitterly: “I’m still very poor, and the crystal nucleus in his early a million can’t really buy anything.”

He has been very hesitant, hesitating whether to buy a nine-star sports for himself, so that he might be able to practice directly to the nine-star.

Think about it, he was only eight-star in the previous life, he still had a lot of hard work, and the accumulation of medicines was not his own cultivation.

There is a big difference between the two. After all, the medicament is a drug. The old Chinese ancestors are good. It is a drug that is poisonous. If you take more medicaments, the more toxic drugs accumulate in the body, the more you want to be promoted again at the end It’s getting harder.

However, Qin Tiange knew that once he bought the nine-star sports, his power would develop slowly, and a trade-off must be made between the two.

“You can’t have both fish and bear’s paw. I don’t need these myself, but the development of forces must rely on the accumulation of material resources.”

After thinking about it for a while, Qin Tiange realized that the most important thing for him at present is to develop the power. Otherwise, once you have redeemed the nine-star sports, unless you are willing to practice the sports for the entire power. But even so, it is impossible for everyone to be promoted to Jiuxing. Cultivation requires resources. Medicament is only a part of it, and there are various cherished herbs and spiritual materials.

These things are indispensable. In the end, Qin Tiange feels that the development force is the most important.

“Technology is our primary productive force for human beings. I have a ten-star science and technology inheritance ball. There should be complete knowledge of science and technology. What I lack is the human and material resources to turn this knowledge into strength.”

Qin Tiange thinks quietly, while the fairy is guarding by his side, covering up the entire inheritance stele, and the lotus leaves completely cover it.

Soon, Qin Tiange understood what he needed. Talent was essential to develop technology, but where did he go to find talent?

Therefore, the current development of scientific and technological ideas is unrealistic. The only thing that can quickly increase the strength of power is to start with potions and other weapons and equipment.

“A cold weapon is needed, a hot weapon is also needed.” Qin Tiange thought for a while, and finally saw a high-tech weapon.

High magnetic energy sniper rifle: three-star, adopting high-intensity magnetic principle, launching special plasma magnetic energy bomb, great power, theoretically can penetrate 50 cm alloy steel three kilometers away, the exchange price: three thousand one star crystal . “

This weapon is three-star, but the price is much less than basic body surgery, but it is too expensive. Because this is a weapon, only one person could buy it, and at that time, a good thing that could be used by countless people.

The two are incomparable. Qin Tiange thought about it and bought ten high-magnetism sniper rifles, which are even more powerful than his electromagnetic sniper rifles.

Qin Tiange bought ten at a time, gave away 300 rounds of high-energy plasma bullets, and continued to buy 3,000 rounds of high-quality plasma plasma.

“Armed a few combat teams first.”

Suddenly, Qin Tiange thought of several combat teams and immediately understood what to exchange next.

“Death camp, to charge the battle, first of all, you need five hundred sets of one-star armor and one-star sword.”

“The two wasteland groups need ordinary steel armor and steel knives to cope with the current situation.”

Bow and Crossbow Battalion, and the combined Sword Shield and Long Gun Battalion, the total of zero and zero, Qin Tiange exchanged it, and even spent up to 580,000 crystal nuclei, and finally had to stop because he had to consider one thing .

“At present, the weapons and equipment are complete, so it is necessary to improve the combat effectiveness of the members of each clan by sending a medicament.”

Qin Tiange is thinking that he has passed on the pharmacy. As long as there are enough materials, he can prepare a one-star or even two-star pharmacy. There is no need to exchange it at all.

So what do you want to exchange for the remaining 500 thousand crystal cores?

Looking at the remaining crystal nuclei, Qin Tiange does not intend to keep them, and they must be thoroughly transformed into the background and strength to truly use them effectively.

“Unfortunately, the powerful weapons have not been exchanged at all. The only way to get them is the mysterious lottery, such as a nuclear bomb.”

Soon, Qin Tiange found that he wanted these things, and there wasn't any weapon in the exchange list that could reach the equivalent of 10,000 tons of nuclear bombs.

The only way to get it is through a mysterious lottery. If you are lucky, you can get a nuclear bomb. For example, Zhuo Tianfan got an equivalent red mercury bomb.

“Then draw!”

Qin Tiange's eyes were constantly flashing with brilliance. Looking at an option on the stele, it was the mysterious lottery. At the beginning, he inherited the ten-star pharmacist inheritance, and even a strange eyeball.

He has now decided to use the remaining nuclei to draw another lottery and see what good things can be obtained this time, which is really exciting.
