

Dark Ages 19

Chapter 19 - Mutant tiger mosquito

Buzz buzz ...

Under the night, there were awful humming sounds constantly on campus, as if there were countless scary flying insects flapping their wings and shaking the air.

On the eighth floor, in an empty classroom, Qin Tiange's face changed suddenly, and he suddenly turned his head, staring out of the doors and windows of the classroom, his expression was extremely solemn.

The first thing he noticed was that something was wrong. As soon as he heard the sound of buzzing, he immediately made a secret noise.

In the fifteen years of the previous life, I struggled in the last days, and I should not have been so careless, as if I had forgotten to forget something, that was because my mind was relaxed after being born again.

听到 As soon as I heard this terrible voice, I immediately realized that it was not good, and naturally I thought of something extremely terrible in the last days.

Cricket creatures include small insects, such as flies, mosquitoes, insects, and so on.

“Close the doors and windows!”

Qin Tiange's face was ugly, and he scolded himself for ignoring these things. Suddenly, he opened his mouth and screamed. Most of the people hadn't awakened yet. Chen Xi's face changed slightly. As soon as the figure broke out, he closed one of the classrooms. The door was locked with a click.

A few minutes later, Moda was the fastest. Although it wasn't clear what was going on, at least Qin Tiange's boss screamed and let them act instinctively, and immediately closed the windows in the classroom.

Suddenly, there is still a door that is not closed, because the group of students and several teachers on the opposite side are unknown, so they dare not move one by one.

“Morda, take a few people and immediately put on your shield and steel knife.”

Qin Tiange didn't have any nonsense, and never rushed to close the door, because he saw a large crowd of dark shadows outside the classroom, the buzzing voice became stronger and stronger, and he had already seen the terrible things he didn't want to see.

After a few clicks, he threw a lot of steel knives and shields, and a bunch of steel guns, even bows and crossbows, and he was thrown directly.

Moda and others were shocked, and then excited, one after another excitedly stepped forward to pick up the steel knife and steel shield, of which 12 burly boys replaced the steel shield and steel knife under the leadership of Moda.

The remaining eleven boys were replaced with steel guns under Qin Tiange's order. Everyone was excited, but did not know that they would face something terrible next.

“Liu Yan, you immediately put on a steel crossbow ...” There was no time to explain, Qin Tiange ordered out loud, without giving them any meaning of interrogation and resistance.

Qiu Liuxuan originally wanted to speak, but shut down with interest in the pull of Chen Xi, and took a group of excited girls to pick up a steel crossbow and a bundle of steel arrows.

Qi Qin Tiange did not remove the armor, because time was running out and a group of people had finished changing clothes. Even Chen Xi took a brand-new steel knife, a steel crossbow, and two bundles of steel arrows.

“The sword and shield are in front, forming a circle of defense, and whoever breaks through the formation, no matter who it is, there is no pardon to kill!”

Qi Qin Tiange froze coldly and issued such an order. The cold and killing tone finally made a large group of students across the street realize that it was wrong.

Moda and others looked dignified, knowing that the situation was not right, and the twelve Sword Shielders immediately retreated to a corner of the classroom with Qin Tiange and others, forming a circle and erecting a steel shield.

The outer layer is Twelve Sword Shielders such as Moda, and the middle layer is eleven long-sought men with steel guns. Each one is nervous and excited. Changing new weapons is enthusiastic for these junior high school students.

Even the girls were no exception. The eighteen rehabilitated girls immediately replaced the steel crossbow. At the back, Liu Ye and a group of girls fiddled with the new steel crossbow one by one. Under Qin Tiange’s quick and simple explanation I knew a little bit about how to use a crossbow, all of them pointed diagonally across the heads of everyone.

“Ready to fight, they are coming!”

Qi Qin Tiange suddenly spoke, and said solemnly, he stood at the center of the team, staring at the door of the classroom.

Buzz buzz ...

At this moment, a terrible buzz came from outside the classroom, and then, a bowl-sized thing flew into the classroom, and suddenly awakened a large group of people in a daze and unknown.

“what...”

“what is this?”

There was a scream in the classroom, and the crowd on the ground was chaotic. A large group of students screamed in horror, looking at the large black thing that flew in from the gate, which was a huge mosquito.

This is a very fierce mosquito, called the Asian tiger mosquito. The mutant Asian tiger mosquito is more aggressive.

One of the boys was too late to escape, and a bowl-sized mutant tiger mosquito swooped down from the top of his head stung on his neck, and his body spasm. He fell to the ground within two seconds and spit with foam.

The mutated tiger mosquito carried enough virus to instantly paralyze an adult, and it took a mere two seconds to pass out.

Buzzing ...

As the boy passed out, he was immediately dived down by several bowl-sized Asian mutant tiger mosquitoes flying around his head and biting him to **** blood.

Grumbling a few times, the boy was absorbed in all the blood from his body in a coma, and his healthy and fat body dried up immediately, like a dead body.

“Oh my God ... it’s a mutant mosquito. Let’s run!”

“Run!”

“Help!”

In the classroom, it was completely chaotic. As a boy was killed by sucking blood alive, all the students were terrified, panicked and rattled, and screamed.

Teacher Yun was frightened and fled directly. Dozens of people seemed extremely crowded in this classroom. You pushed me and I stepped on you, and I was quickly killed by the mutant mosquitoes.

“Ten Ge, don’t we save them?”

Sui Chenxi suddenly said, asking this sentence, she went on to explain: “You should need someone to help you do things. It is a pity that these people are dead. If they can be saved, they will be better.”

She had to explain, because when she saw Qin Tiange’s cold gaze, she explained her sentence and looked better.

However, Qin Tiange stared at the people in the chaos on the opposite side, and many people ran directly, seeing that the formation here would be disrupted.

“Everyone, let me lie down if you don’t want to die, and shoot me!”

Suddenly, Qin Tiange made a decision to save these people. Is it a large group of labor? At least it was okay to rescue him to help him kill the zombies, but there is absolutely no benefit in dying here, it is better to use them to help him complete that plan.

In the classroom, everyone heard Qin Tiange’s huge roar. Although they were sore from the ears, they seemed to grab the last straw. Most of them immediately responded correctly and lay their heads directly on the ground. .

As for those who are not obedient, and those who are fleeing wildly, Qin Tiange has no mercy at all, and directly waves his hand to shoot and kill the order.

“Arrow arrows!”

With a single order, there were twenty steel arrows screaming away on the spot, and the sound of groaning came. Eighteen crazy girls took the lead in shooting, and Chen Xi also simply shot.

As for Liu Yan and others, they did not move, their faces were pale, and they were afraid to shoot. Because there was a large group of frightened people screaming and running away, wouldn't it be a killing to shoot out?

“Yu Yan, if you don't listen to the order next time, then you will get away with me.”

Qi Qin Tiange was furious, staring at Liu Ye and the girls fiercely. The killings in his eyes were extremely intense, and he was really angry.

情况 In the present situation, if those mosquitoes are not killed early, more people will be killed, and even they will face the endless mutated tiger mosquitoes.

“Shoot!”

There was another anger, Qin Tiange himself took out a steel crossbow and shot an arrow at a bowl-sized mutant tiger mosquito that flew over. He fluttered, the steel arrow penetrated the tiger mosquito and shot it on the spot. .

At this time, Liu Yan and others finally gritted their teeth, raised the steel crossbow, and aimed at the mutant tiger mosquito flying over the classroom for a crazy design.

“Blade shield forward, giant shield protection, long-attack attack!”

Qi Qin Tiange gave an orderly operation order. During his fifteen-year fighting career, he joined many forces and led many teams to fight. He has extremely rich experience.

As he calmly gave each order, the sword shield stepped forward, raised the shield to defend, and stabbed the gun fiercely in the back, piercing through one giant mutant tiger mosquito.

The slaughter is being staged. The team here obviously maintains a little integrity, and the opposite side is completely messed up. Many people are bitten and sucked by mutant tiger mosquitoes, and they become dry bodies in the blink of an eye.

Those obedient people lie on the ground and escaped, because the mutant mosquitoes were being shot and killed by Qin Tiange and others, advancing layer by layer, killing the mutant tiger mosquitoes that broke into the classroom one by one.
