

## Dark Ages 191

### Chapter 191 - Cheating

Qin Tiange glanced at the mysterious lottery project and immediately stared. [No Popup Novel Network]

“I’m going, how has it changed?”

Qin Tiange was so horrified that he looked at the mysterious lottery option and found that it had changed.

Yes, he found that the mysterious lottery option has changed. It was originally a large roulette with ten metal boxes, but the one in front of it was not.

The top is still a metal roulette, but there are only three boxes, and the main thing is that a lottery requires 10,000 crystal cores.

In other words, if you open a box with 10,000 crystal nuclei, it used to be only one hundred crystal nuclei at a time. If you double the number, you now need 10,000 crystal nuclei to open a box.

“It has changed. One of the three choices must be empty, and even three of them are empty. This draws a lot of money.” Qin Tiange’s face was not good.

He found that there were more than 500,000 in his remaining crystal nuclei, but in fact he could only draw more than fifty rewards. If he missed or could not get good things, he would really lose money.

Seeing this, he seemed hesitant. If there was a lottery, there might be good things. If not, there would be nothing.

“Why did it change?”

Qin Tiange was puzzled. Looking at the mysterious lottery options, he suddenly found a problem.

He saw that there are actually two small options above the mysterious lottery options. One is the current lottery method and the other is the previous lottery method.

“Mysterious raffle draw 1: Can the lottery be worth more than 1,000 crystal nuclei and less than 100,000 crystal nuclei?”

He looked at the first lottery method that he could not enter. It showed a line like this, so he did not vomit blood.

“Mysterious lottery draw 2: Only a total of over 100,000 crystal cores, and less than one million crystal cores can be drawn.”

After seeing these words, Qin Tiange took a bite of old blood in his throat and couldn’t vomit or swallow. Your sister, isn’t this discrimination of Chiguoguo?

“I’m going, is this OK?”

Qin Tiange rolled his eyes fiercely, and finally shook his head helplessly, grinning bitterly for a while, and his heart felt itchy, which is obviously to distinguish the number of crystal nuclei on the lottery.

He shook his head and sighed: “Forget it, ten thousand is ten thousand, and I don’t believe I can’t get good things out.”

Thinking of it, Qin Tiange gritted his teeth and directly opened the mysterious lottery. Three iron boxes, one with 10,000 crystal cores, and three with 30,000 crystal cores together.

He didn’t believe that he was too lucky to draw good things, so he went directly to the mysterious lottery option.

“That’s it!” Qin Tiange reached out a little, selected one of the three boxes, and spent 10,000 crystal nuclei to open the box.

“Mid-middle-middle, be sure to win ...”

After choosing, Qin Tiange looked tense, staring at the iron box that slowly opened, and only heard a click, the fog spread out, revealing the situation inside.

“Oh yeah!” Qin Tiange waved his fists, his expression was excited, and the first lottery really hit, with good luck.

There was a thing lying quietly in the box, but when I picked it up, Qin Tiange almost had the urge to blow up the stone stele.

“A box of plasma bullets?” A bite of old blood spewed far away, and Qin Tiange sighed in regret, 10,000 crystal nuclei, in exchange for a box of plasma nuclei with only hundreds of crystal nuclei. This was a big loss.

To clear up the mood, Qin Tiange continued to draw and did not open continuously, but changed it once and reappeared three boxes.

“Open three boxes this time!” He gritted his teeth and directly spent 30,000 crystal nuclei, opening three boxes in a row.

Click! Click! Click!

The three metal boxes opened, and the mist was gradually dissipating, finally revealing the situation inside, one was empty, and two things were lying quietly in the two boxes.

Huh!

Picking up the first one, it was a simple sword with a simple style, slowly pulled out the scabbard, and a sharp attack came, chattering.

“Good sword ...” Qin Tiange praised it. This is a bronze sword with a simple style and sharp body. It is definitely a sword that cuts iron like mud.

Finally, a good thing was found, and it was identified on the stone tablet, and the information of the sword was immediately displayed: “Bronze ancient sword: three stars, cast from heavenly bronze and black copper, iron cut like mud, exchange price: three thousand crystal nuclei . “

Lost, ten thousand for three thousand, naturally a big loss. Qin Tiange smiled bitterly and put away the bronze ancient sword, picked up the second thing and looked up.

It was a bracelet. It looked like it was made of some strange metal, exquisite style and simple atmosphere.

“Space bracelet: three stars, with 10,000 cubic meters of storage space, exchange price: 13 thousand crystal cores.”

Finally, I got a good thing. The storage space is ten times larger than his. Qin Tiange laments that it is not easy, but the two things add up.

Shaking his head, Qin Tiange continued to draw. This time, he opened three boxes again and completely opened them.

“Be sure to win!”

Qin Tiange’s expression was tense, he looked at the three metal boxes that were slowly opened, and the mist disappeared, revealing the scene inside.

The three boxes were empty and empty.

“Calm, calm, impulse is the devil!” Qin Tiange rubbed his face out, admonishing himself to be calm, impulse is the devil.

After calming down, Qin Tiange continued to draw. This time he also opened three boxes, but his mentality was different.

“No, um, I can’t bear it, don’t get excited!” Looking at the three empty boxes, Qin Tiange murmured indifferently.

However, if you look closely, his clenched fists are shaking, and the urge to endure the outburst in his heart still continues to draw.

Three times in a row, all three boxes were empty, and it took 100,000 crystal nuclei.

“Where’s the daddy, I’m so lucky?” Qin Tiange rubbed his face, calmed himself, took a deep breath, and started the draw again.

The three metal boxes were opened by him one by one, and the mist was gradually exposing the conditions in the boxes.

The first box, empty, disappointed him. Looking at the second box, it was still empty. I couldn’t help despairing, and finally looked at the third box.

“Eh? There’s something!” Qin Tiange was surprised, his heart tightened, and immediately picked up the thing and looked it up.

Soon, Tieqing’s face started to smile, and the introduction of this thing made him laugh into a flower.

“Large electromagnetic energy cannon: It can destroy a steel fortress 300 kilometers away. It is powerful and cannot be exchanged ...”

Such an introduction made Qin Tiange laugh, and finally came a good thing, finally no pit father.

“carry on!”

I put away the disposable space box in my hand, which contained a large electromagnetic energy cannon, and I couldn't exchange it, so I was naturally excited.

Soon, Qin Tiange continued to draw, also opened three boxes, and spent 30,000 crystal nuclei.

"Oh yeah, luck finally came back!"

When the fog dispersed, Qin Tiange almost jumped up in excitement. Three things were lying quietly in the three boxes, all of which were hit, but I do n't know if it was a good thing.

Picking up the first one, Qin Tiange couldn't help turning his eyes and cursing: "J Shang, do you like to put such a thing in the lottery?"

It was a stone, black and black, and there was no introduction. It was like a stone that was too ordinary to be ordinary, round and round, and the size of a human head.

Take a look at it and look at it again. Qin Tiange is entangled without any information or introduction. Would you like to throw it away?

"Forget it, since the stones can be drawn, I recognize even ordinary stones." Qin Tiange could not see any information and put away.

Then he looked at the second thing, and he died without vomiting blood.

"Gold rice seeds: After planting, gold rice can be cultivated to prevent insects and diseases, and the yield is eight kilograms per acre."

This is a small bag of golden-yellow rice seeds, yielding up to eight thousand kilograms. Qin Tiange, who was about to vomit blood, turned his head and laughed.

Especially the insect and disease prevention, the output is eight kilograms per acre, right?

Whether it's true or not, just take it back to test the planting and know it, Qin Tiange gathered it with a smile, and then picked up the third thing to check.

"Garbage!" This time it was really a rubbish. It turned out to be an arrow, just one, purple-gold all over, flashing some kind of black light, looking at the simple and ordinary.

Lazy to watch, Qin Tiange was thrown directly into the corner of the space bracelet, ready to start the lottery.

"I went there, why are there 40,000 crystal nuclei left?" Qin Tiange stared at the next moment and found that he had 40,000 crystal nuclei finally.

There were more than half a million crystal nuclei that were already full, but all of a sudden disappeared, leaving only a little bit left.

Forty thousand crystal nuclei, we can continue to draw four times. After thinking about it, Qin Tiange shook his head secretly, thinking that he would draw three boxes at a time, and leave a ten thousand crystal nuclei to see the emergency.

"Last time, Blessed by the ancestors and ancestors, be sure to hit!"

Qin Tiange murmured to himself, then opened three iron chests in succession, consuming 30,000 crystal nuclei, and finally 10,000 crystal nuclei were left. He did not intend to continue to draw.

He cried without tears in his heart. With more than half a million crystal nuclei, he pumped so few things, which was really a loss.

This is the last time, and as the three boxes slowly open, the mist inside dissipates, revealing the inside.

“Hack father, empty?” Qin Tiange was dumbfounded, and saw that the first and second boxes were empty. The third box was a bit strange, but it seemed to be empty. However, there was a strange light floating inside.

“Did I get a light?”

Qin Tiange stared at his eyes and stared at the contents of the third box. It was a dim light, dim, purple and golden.

After looking at it, Qin Tiange held out his hand curiously, and gently held the purple-golden light. As a result, he just held it in the palm of his hand. The light was strangely integrated into the palm of his hand and disappeared.

“I ...” Qin Tiange opened his mouth and was about to yell, but eventually he resisted, his face flushed red, and he almost bleed.

A big loss, this lottery is that the electromagnetic energy cannon looks a bit mighty, the rest is garbage, and the last time a lot of light was drawn.

“Hack father, what a heir to you, what is a heritage stele, you might as well call it a black heart stele.”

Scolding a few words, Qin Tiange murmured a few times before he reluctantly withdrew, because his crystal nucleus was gone.

Chapter 192 - Fengwang Ancient Monument

After losing hundreds of thousands of crystal nuclei, Qin Tiange left unhappily, and called the little fairy to guard in front of the stone stele before leaving. []

Now, it is not the time to open this stone monument, because his power is not big enough, his strength is not strong enough, and the internal is not stable, he must wait for an opportunity.

“Notify all seniors to come to the meeting!”

Returning to the apartment, Qin Tiange dropped his face with a stretch of his face and went straight into the conference room, waiting quietly for everyone to arrive.

Not long, Liu Ye and Long Xiaoya arrived first, but as soon as they entered the meeting room, they saw Qin Tiange’s stretched face, and they suddenly jumped in their hearts, afraid to speak.

They sat quietly in their positions, eyes and noses and hearts, but Yu Guang drifted to Qin Tiange from time to time, guessing who made him angry?

Neither of them knew that Qin Tiange was actually doing something. The lottery was originally based on luck, no wonder who didn’t care about it.

Next, Nie Teng came, Li Zhi came, Yang Xiaolin, Zhuo Tianfan, Li Jiajia also came, and even Li Weiwei, who was in charge of the death squad outside, was notified to rush back.

“Brother Qin!”

“boss!”

When all the personnel arrived, they all stood up, quietly watching Qin Tiange who called them back, guessing what was going on?

Qin Tiange didn’t make nonsense. He pressed his hands to let everyone sit down, and then said, “This time I call you back, there is something to announce.”

“Lee Wick orders!”

The next moment, Li Weiwei, who was curious, pulled his heart and immediately stood up, his face was a bit unnatural, thinking that he wouldn’t let me brush it?

But he was worried that it was superfluous. I saw Qin Tiange directly throwing the dark armor, a faint sharp sword, and a small storage ring.

It contained Qin Tiange’s exchange for the dead camp, and the storage ring was exchanged for the deputy commander Li Weiwei, which was an encouragement to him.

“It’s a reward for you. Take it back and train the gang well. Don’t let me down.” Qin Tiange looked at him calmly, and Li Weiwei was sweating coldly.

He heard the meaning of the words. If he did well, he rewarded him, and if he did not do well, Qin Tiange would make him disappear completely.

“Yes, Brother Qin!”

Li Weiwei returned the two words neatly, without any guarantee, turned around and left.

He knew that Qin Tiange was rushing people, and he had to go back to take the training of dead men when he took something. Being able to come back to the conference room once as a high-level executive can be said to be a great improvement.

“Li Zhi, I heard you like using swords?” Qin Tiange turned his head and looked at Li Zhi, a young man who had just joined the team.

In previous lives, the early fallen kings sat in front of him and became his men.

“This is for you.” Qin Tiange took out a two-star ancient sword with a sheath, a set of two-star armor, and also a storage ring.

“Thank Brother Qin!” Li Zhi took it excitedly, his face flushed, and his expression seemed to be holding his little lover. If he saw it to his daughter-in-law, he would definitely let him kneel and scrub the floor.

Qin Tiange also distributed some benefits. He was not stingy for the high-levels, and he exchanged a whole set of weapon armors, all of which were two-stars, and those who had no storage ring exchanged them one, which was secretive. .

“Liu Ying, Long Xiaoya, this is what I found for you.”

At this time, Qin Tiange took out a simple war bow and a thin sword to Liu Ye, and a storage ring, which was regarded as a reward for high-level followers all the way.

Long Xiaoya, got a sharp seedling knife, folded a tie to shoot seven star crossbow, the power is good, all are two-star, with a storage ring.

“Thank God!”

The two looked rosy, as if floating two clouds, looking particularly charming. They took these things, and they were so happy in their hearts that they almost didn’t tell others. I was very happy and very happy.

“Kiki, this is for you!”

In the end, Qin Tiange gave Kiki, who was standing next to her, a ring, which was also a storage ring, which contained Qin Tiange’s dress for her.

The latter lowered his head and blushed to pick it up. He said like a mosquito, thank you.

“Brother Zhuo, this is for you.” Qin Tiange finally gave Zhuo Tianfan a space bracelet, the one he had used before.

Seeing that everyone got something, Qin Tiange clapped and said, “I’m going to change your team’s dress inside the ring, so get out of here.”

Qin Tiange looked so embarrassed that he rushed directly, a group of people smiled and thanked him, and left one by one to go and dress up for his team.

As for Liu Yan and Long Xiaoya, in fact, there is nothing in their ring. There is only one basic body technique. There are notes and plans written by Qin Tiange himself. As long as they execute according to their own plans, the future will definitely not wrong.

As the crowd was about to leave, a person hurried in from outside the meeting room door, and it was a man who specialized in exploring the news among a large number of survivors.

“Qin Brother Qin Brother, we found a huge stone monument in the planning area of the base, and there is already an engineering mech guarding it.”

As soon as this person came, he opened his mouth and said such a news, which made all the high-level officials present.

Only Qin Tiange’s face was as usual, as if it had been expected, but it was really expected, so it was not as fussful as others.

“In that case, everyone will follow me.”

Qin Tiange stood up, went out of the meeting room, and took the lead to follow the reporting person out of Qinglian Apartment.

Soon, a group of people came to a huge empty area that had been cleared, and it was originally planned to build a large square.

From a distance, Qin Tiange and others saw that a stone monument stood there, and a 50-meter-high engineering mech stood next to it.

It is shocking that the height of this mech reached only the normal level of the stele. The entire stele is ninety-nine meters high, simple and vicissitudes, revealing endless mystery.

“Oh my God, when did this stele appear?”

Nie Teng and others were dumbfounded Looking at the towering stone monument in front of it, ninety-nine meters, close to a hundred meters in height, eighteen meters wide, it was unbearable to watch.

This mysterious stele suddenly appeared here, and it scared a mech who was cleaning up the ruins of the house here.

There are many people here, densely packed, one by one pointing at the stele, whispering curiously.

None of them knows that the origin of this stele is still useful. Among the people here, perhaps only Qin Tiange knows the role of this stele.

It is different from the heritage stele, where there is nothing to exchange, but Qin Tiange knows that this stele is extremely important.

“In the future, as long as you can leave a name on this stone monument, it can be said to be a true strongman.”

Pointing at the ancient stele in front, Qin Tiange said this inexplicable word to his group of people, which is unclear.

They don't know, but Qin Tiange knows that this stele is called an assessment stele, and it was also called by many people in the past: Fengwang Ancient Stele!

Chapter 193 - Earth, purgatory, abyss, death

“Tian Ge, is this stele a heritage stele?”

Liu Ye, surprised, couldn't help asking, and she felt that Qin Tiange seemed to know something, such as the stone stele that was passed on in the school. [No Popup Novel Network]

Everyone else came to see it and wondered what the stele did.

Qin Tiange did not hide it, but did not say much. He explained: “This huge stele is not a heritage stele, but an assessment stele.”

“Assess the stele?”

Nie Teng and others were surprised. Some of them have seen the stele, and they have exchanged things. So when they heard this, they immediately believed.

“Good!” Qin Tiange nodded, looking up at the ninety-nine-meter-tall monument, he said: “There are assessments on the stele, from one to ten stars.”

He did not say one, that is the level after ten stars, the king, the emperor, and the first emperor. These three levels were not mentioned, because it is too early.

The so-called king, is to accept the promotion assessment on this stone monument, the ten-star strong person enters the assessment task, pass the king, and leave a name on the monument.

The assessment is divided into four levels: human, purgatory, abyss, and death. The lowest level is the difficulty of the human level assessment, and the most difficult is the difficulty of death.

The first three difficulties will not die, and the failure of the assessment can still survive, but if you choose the last death difficulty, it is okay to succeed, if it fails, the only end is death.

Someone in previous lives once joked that the world is peaceful, the purgatory is easy to break through, the abyss is sad, and death is empty. “

However, although the assessment is difficult, once the assessment is passed, the corresponding reward will be obtained, and the higher the difficulty, the better the reward.

In the previous life, he heard that someone passed the examination of the king on the difficulty of the abyss, and finally obtained an emperor-level physical skill, and eventually he was promoted to the emperor and became one of the five emperors.

This has caused countless people to choose the difficulty below death for assessment, but unfortunately, not everyone can pass the assessment, and it is just that three first emperors and five emperors have passed the abyss assessment.

As for the death level? Don't be kidding, the three first emperors did not dare to enter easily, because if they fail, everything will be empty.

Someone who did not believe tried it, but the result was self-evident, he fell directly from the monument, and no one exists in the world.

The king who left the name on the stele will disappear as soon as it falls. Once many names appeared on this stele, but many kings have fallen in succession and have been removed.

The kings who can stay on the monument are all 36 in the previous life, Huaxia in the emperor class, five in the emperor class, and three in the emperor class. Huaxia is the most powerful in the entire earth.

“How do you assess that?” Long Xiaoya asked.

Everyone was very curious, looking at Qin Tiange one by one with anticipation, no matter how he knew it, he knew it anyway.

Qin Tiange smiled and pointed at the monument. “It is actually very simple to want to be assessed. After you touch the stele, there will be a message coming into your mind. You just need to choose the level you want to assess. . “

“That ...” Liu Yan originally wanted to ask, what form of assessment was, but suddenly he couldn't ask what he said.

“Okay!” Qin Tiange waved his hand and interrupted everyone's questions. He said, “You want to know, just go and see for yourself.”

Also, why bother asking? The stele is right in front of you, as long as you go up and try, you can clearly understand that everything is clear.

With this in mind, Long Xiaoya and Liu Yan approached directly to the stone monument and touched it with their hands.

“It’s true ...” Liu Yan looked dull and muttered to himself.

She saw a virtual light curtain option, only she could see it, with a one-star assessment reminder on it, accept it.

Long Xiaoya had similar feelings, except that they did not choose to be assessed, but retreated, staring silently at the stone monument and not speaking.

“Let’s go and see.” Nie Teng, Li Zhi, and others couldn’t help it, and immediately stepped forward.

Soon, they all came back with a hint of astonishment, and they all felt the mystery on the stele and felt a heavy feeling in their hearts.

“According to what I mean, everyone should increase their strength to the strength of fifty people, and then choose the assessment. It should be able to survive the abyss difficulty.”

Qin Tiange thought about it, and finally uttered this message, which made Nie Teng and others’ hearts tremble, their complexions changed.

They didn’t ask, but just kept in mind, thinking how much their respective strengths are now, reaching 50 people.

As for the power of a hundred people? Qin Tiange did not say, because he still relies on the promotion of the ancient spear, and it is really difficult for these younger brothers to want to be promoted.

Qin Tiange thought for a while, and then said, “If you want to successfully improve to 50 people, you may be able to take the enhanced version of the hardening agent and the basic body exercises from Liu Yan.”

“Basic body surgery?”

This remark attracted everyone’s attention, and Nie Teng and others looked at him in horror, especially Liu Ye’s face was stunned and he didn’t understand him at all.

She thought to herself, do I have this thing in my hand? Liu Ye really didn’t know. It was Qin Tiange who explained to them that he had just obtained it.

Seeing the weird expression of the crowd, Qin Tiange sighed in his heart, thinking about it, and finally decided to announce the position of the inheritance stele in the high-level.

“Listen to you, there is a heritage stele in the north area of Lianhua Mountain. If you want anything, you can go there and exchange it. It will be kept secret for the time being, only our senior executives know.”

Qin Tiange said, his eyes sharply swept through all high-level personnel, and the hidden warnings and threats made them understand that once leaked out, Qin Tiange's plan was broken, then don't blame him for being cruel.

“Brother Qin, we understand that we won't go there for the time being, let's go when the time is right.”

“Am I right?”

Zhuo Tianfan stated directly that he would not go now. One was that there was no crystal nucleus, and the other was that he did not want to leave something bad.

Nie Teng and others have said that they do n't go back now, and what they want, Qin Tiange is enough for the time being.

Moreover, all the crystal nuclei are handed over to Qin Tiange here.

Looking at them like this, Qin Tiange knew that it was time for him to make a salary plan. Otherwise, once it was opened, the senior executives would not have a crystal core. How can they exchange it?

“Okay, I will draw up a salary plan in the near future. By then, every month, everyone can follow this form and get different numbers of nuclei according to their respective positions and performance.

After hearing this sentence, everyone was relieved, and then there was some joy, this time it was completely tied to Qin Tiange's chariot.

What's more, everyone who heard these secrets here understood one thing, that is, everyone has been on a boat since then All glory and glory.

“Brother Zhuo, it's up to you, and a square that can accommodate 300,000 people at the same time will be built here.”

“Go ahead and get busy.”

Qin Tiange explained good things and watched a group of high-level leaders leave to deal with their own affairs, while he himself walked through the crowd and came to the assessment stone monument.

He was ready to enter the assessment, and he was a little excited, because he had only entered two or three times in the previous life, and it took a lot of crystal nuclei to get the qualification.

In the previous life, these assessment steles were semi-open, but there was a fee for entry, and they were occupied by the major forces, and a small fee was charged for each person who passed the assessment.

“It's time for assessment!”

Qin Tiange came to the stone monument with a touch of excitement, slowly reached out and touched the huge ancient monument, and a light curtain appeared in his consciousness instantly.

He didn't even have a moment of hesitation, and directly chose the death level. The whole person disappeared in front of the stone monument, attracting the attention and exclaim of a large number of survivors.

Chapter 194 - Kill or not?

Ding!

**“Death assessment, mission requirements: Kill a thousand number of one-star creatures within three hours. [No Popup Novel Network]”**

In the mist, Qin Tiange heard this inexplicable voice as a reminder, revealing a coldness and ruthlessness, and immediately woke up.

He carried his halberd across his chest, and looked around vigilantly. Here he had come to the world of assessment of the mission copy.

This is a jungle, towering giant trees, towering into the clouds, and the mist on the four sides is rising, and you can only see the scene ten meters away.

**“This is the mission copy world. Once again, I don't know if it is real or false?”**

Looking at the surrounding scenery, Qin Tiange couldn't help frowning. He couldn't tell whether it was real or false.

However, he believes that the possibility of fantasy is greater, otherwise it would be a bit shocking if it were a real space.

**“Kill a thousand one-star creatures in three hours?”**

He checked his task list, could not help but be surprised, the task of death difficulty turned out to kill a thousand number of one-star creatures within three hours.

Despite the psychological preparation, I was unavoidably shocked. I felt that my back was cold, and the secret road was indeed the difficulty of death.

Now that you know the difficulty of death, why did Qin Tiange choose this difficulty?

In fact, it is precisely because he knows that the one-star assessment is the simplest and the difficulties faced are all one-star. With his current one-star limit of one hundred people, he is naturally confident to complete this difficulty of death.

He would like to know, once the task of death difficulty assessment is completed, what will be the reward?

**“Life requires constant hard work and constant adventure, and the stagnation will be eliminated ruthlessly.”**

Muttering this sentence, Qin Tiange's eyes were sharp and he swept across the jungle, slowly walking in the jungle with the halberd, and started his killing task.

In the fog, Qin Tiange kept walking, slow, and very alert. But this walk took half an hour, and there was no creature or even a worm.

**“Damn, how big is this jungle, are there any creatures?”**

Half an hour passed, Qin Tiange began to feel a little irritable. After walking for so long, he couldn't see a ghost shadow.

If there is no creature in this jungle, then three hours later, it means that the mission failed, the assessment failed, and the end is death.

**“A little Alexander!”**

Qin Tiange sneered, murmured to himself, and then speeded up, running fast in the jungle, he didn't care.

He did this in order to create movement to attract possible creatures in the jungle. At that time, he could come across the creatures and kill 1,000 thousand one-star creatures.

Unfortunately, his idea is good, but the truth is that after another half an hour, he still did not encounter that little bug.

The mission started from the beginning, an hour passed, and there were still two hours before the end of the time, but Qin Tiange didn't even see a creature, so he was in a hurry.

**“Damn, is there really no creature in this jungle?”**

Qin Tiange stopped in front of a towering tree and frowned deeply, thinking quickly about the key of this mission.

Soon, he thought of something, put away the Euphorbia, and immediately climbed up to the towering giant tree that needed five people to embrace.

He wants to see how big this jungle is.

Soon, he got to the top of the tree, and found that the fog on the top was not so dense, he could see the scene from a distance, and looked from the top of the tree.

**“There seems to be a village there?”**

On the treetop, Qin Tiange quietly looked into the distance, and under a big mountain, a small village appeared in his sight.

Faintly, he saw some smoke rising up, and it should be that there was a wise life gathering there.

Seeing this, without any delay, Qin Tiange stepped directly down the treetop and ran all the way along the recorded direction. He finally reached the mountain 15 minutes later.

**“It's a tribe ...”** Looking out of the woods, Qin Tiange was surprised to find that there was a tribe in front.

At the foot of that mountain, there was a tribe, fenced with huge trees, and several people in the gate, wearing animal skins, looked extremely burly, holding bone spears, stone axes and other tools.

**“They are all one-star, and there are a lot of them. There are at least a thousand of them in the entire tribe.”** Qin Tiange quickly guessed that the tribe was not small, and the number was about one thousand or more.

Moreover, the few gatekeepers, judging from the breath, should be about one star, which made him see the hope of completing the task.

“Kill, or not?”

Qin Tiange’s complexion changed, his eyes flickered, and for a while, he looked very hesitant. The death mission requires that one thousand star-level creatures are killed within three hours, otherwise the assessment fails.

“Kill, otherwise how can I complete the task?”

At this moment, there was a voice in his heart reminding him to kill, otherwise he would not be able to complete the task, and failure would be his own death.

Moreover, the voice told him that everything here was false, it was a fantasy, and killing and killing had no effect at all.

However, there is a consciousness in his heart that has been reminding him that he cannot kill, otherwise bad things will happen.

Hiding in the woods, Qin Tiange was fighting between heaven and man, one to kill and one to kill, making his head big at the moment.

“Calm, I want to calm!”

Qin Tiange sat on the root of the tree, holding the halberd in both hands, his expression constantly changed, his chest undulating, and he was panting hard.

He took a few deep breaths and forced himself to calm down before he began to think about his death mission request this time.

“In three hours, kill a thousand number of one-star creatures ...”

This is a mission requirement. Qin Tiange thinks carefully, thinking that the assessment is not as simple as that. Can he pass all the one-star creatures in the previous tribe?

Moreover, Qin Tiange quietly looked at the probe, and faintly saw the small figures running around in the tribe. There was no difference between them and human beings. The only difference was that they were dressed like a group of ancient primitive people.

Except for the females with beast skirts and skins, and for the upper and lower bodies, the males are all bare-chested, and the children are finished holding two leaves.

These people, living away, are a group of primitive people. Seeing this, Qin Tiange couldn’t help entangled, killing creatures or killing people.

Man, is it a creature? Of course it is, but the mission requirement is killing creatures, not killing, which makes a difference.

Qin Tiange felt that the mission statement must have very strict requirements. He did not say whether killing the primitive people could complete the mission, let alone killing the mission failed.

This made him tangled, hesitated, and time just passed.

“It’s the last hour. If you don’t make a decision, it’s really over.”

Finally, Qin Tiange suddenly stood up from the ground, his face flashed a deciding moment, and he had made a decision in his heart.

He raised the halberd, walked out of the woods with a cold face, and walked step by step towards the primitive tribe in front, already making a decision in his heart Huh?

Suddenly, walking and walking, Qin Tiange found something wrong. He stared at him, staring at the tribe in the distance, where people gathered and hurried over the tribal wooden wall.

Those primitive people, one burly man with a bone spear and a stone axe, went up to the wooden wall with a tense and dignified expression. They seemed to be preparing for a battle.

“Did they find me?” Qin Tiange squatted down, hid in the grass, and stared at the tribe in front.

He didn’t feel right. The primitive people seemed to be very nervous. They seemed to know that an enemy was coming. Did he know that he was going to destroy their tribe?

Rumble ...

As Qin Tiange was thinking, there was a slight vibration on the ground, which became more and more intense, as if thousands of horses were rushing.

“wrong!”

When Qin Tiange’s complexion changed, Huo Ran turned and stared at the primitive jungle when he came, from where the vibrations and sounds came.

Chapter 195 - Beasts Roar

boom!

There was a giant tree falling, a rumbling came, and the sky was filled with smoke!

“An animal tide is coming, prepare for battle!”

A high-pitched roar came, shocked through the wild, also awoke Qin Tiange in a daze, Huo Ran turned and looked.

Above the tribal gable, an extremely burly figure, three meters high, held a huge bone spear in his hand and walked up the wooden wall.

He is extremely powerful, walking like the wind, and he can see at a glance that this is a one-star powerhouse, with at least a hundred people on his body.

“Master!”

Qin Tiange’s pupils shrank, and when he saw this burly man, at least a hundred people, it was incredible, just like his current strength.

The limit of one star is the power of one hundred people. The limit of two stars is theoretically the power of three hundred people. It is definitely a master who can have the power of two hundred people.

After two stars, each ascension is extremely difficult. What can be ascended is good luck, only when encountering good spirits and opportunities.

Ordinary people, it is already very good to have a hundred people in the two-star rating, and the general people are not fifty people in the promotion to the two-star rating.

It's not difficult to upgrade from one star to nine stars. What's difficult is to improve its combat effectiveness. This is the key.

Roar!

At this moment, a fierce roar came from the woods, shaking the ground, the roar came rolling, shaking Qin Tiange's complexion.

He turned to look around, only to find out, I don't know when, a large crowd of giant monsters emerged from the woods.

The giant beasts are huge and horrible. They have sickly mucus in their mouths, and they have a foul smell.

"Animal tide?" Qin Tiange suddenly understood why he didn't encounter any beast or even a bug in the jungle.

It turned out to be a tide of beasts, and a large number of fierce beasts gathered together, which caused the creatures in the forest to be invisible, even the insects, not to hide or run away.

Roar!

Uh ...

The beasts roared, the beasts roared, and that scene was Qin Tiange's inevitable shock. Although he has seen such grand scenes in previous lives, even scenes that are even more terrifying, but now he is only one star if you think about it.

In front of the densely packed monsters, each one was at least one star, and even he faintly saw that there were a lot of particularly huge figures in the herd, and the breath revealed was more than two stars.

These monsters are not comparable to the mutated creatures on the outside. They seem to be inherently powerful. One-star monsters have the power of dozens of people and are very scary.

Two-star beasts, some with a terrible power of a hundred people, Qin Tiange must be careful and careful when facing.

Like the outside mutants, because they have just mutated, even two-star and even three-star mutant beasts can actually explode with only a few dozen people.

Whether it is humans, zombies, or mutants, it takes time to precipitate, to stimulate genes in the body, to precipitate an increasingly large and fierce force, and to become truly powerful.

Roar!

Suddenly, a terrible roar came from deep in the jungle, showing a solitary height, as if a high king was giving orders.

With the roaring sound just now, the beasts went mad, with red eyes, rushed away with their limbs, and rushed towards the tribe.

Qin Tiange's location is sandwiched between the tribe and the beast, which is extremely embarrassing and even more dangerous. First, he must face the trample of the beast.

“Damn, wrong judgment!”

Qin Tiange looked ugly, scolded himself, and made a wrong judgment. He had already decided to enter the tribe to kill, but the beast tide came, proving that he had made a wrong judgment just now.

Now the position is very dangerous. As a last resort, Qin Tiange can only turn around and speed up, rushing towards the tribal wooden wall.

Unfortunately, at this time, the beasts have rioted, and the speed is not slow. Some monsters are even faster than him.

Soon after, he was chased by a three-meter-high beast, and opened his mouth and swallowed at him.

Roar!

Qin Tiange turned around, feeling only a nasty smell, and saw a fishy mouth swallowing directly at him.

“Look for death!” Qin Tiange drank violently, and Euphorbia hummed upright, stabbed directly into the huge mouth.

Just listening to the thump, the huge impact force Qin Tiange rushed a dozen meters away before it stopped.

Take a look at the giant beast again. A spear is bitten in his mouth. Unfortunately, he was pierced through his throat by his halberd and died here on the spot.

Killed a one-star monster, the task prompt completion degree: 1/1000, completed one.

“Sure enough!” Qin Tiange wanted to cry without tears. He had just gone the wrong way just now. If he was foolish to enter the tribe, he would not only face the primitive people in the tribe, but also face the numerous beasts outside. Threat.

In that case, it is basically impossible to complete the task. Now it is okay. I haven't reached that point, but the situation is not good.

Bang!

Suddenly, a five-meter-tall beast swooped up with a loud noise, and the ground was set off by a cloud of smoke and dust, and the waves rolled away.

Qin Tiange had a grim face, and he carried the halberd quickly to avoid the flutter. Then he turned around and stabbed himself with a single click, and the halberd stabbed into the beast's soft neck.

Uh ...

The beast was wounded and issued a ferocious roar, and his huge body rushed towards Qin Tiange, trying to step on this little ant.

However, it underestimated Qin Tiange's strength, and the power of a hundred people broke out.

I saw a bang, and the giant fell slowly, and a spear was inserted around his neck, which killed the terrible monster with a single hit.

“Clan, kill!”

At this moment, the most powerful primitive man on the tribe's mountain wall waved a huge bone spear, roared, and took all the tribal warriors to fight.

The beasts surged and rushed wildly towards the tribe. Although it was blocked by a dozen meters high wooden wall, it still couldn't stop the beast's impact.

With a bang, a large wooden wall collapsed on the spot, and a dozen tribal warriors above were submerged by the herd on the spot.

“kill!”

In the herd, Qin Tiange shot his eyes red, waved the halberd, and set off a \*\*\*\* wind, beheading and killing one monster after another.

Around him, under his feet, were densely packed monster bodies. Leaning against a tribal wooden wall a hundred meters away, Qin Tiange Shengsheng stood here and chopped the rushed beast.

He had nowhere to go, he would die if he didn't kill, so his whole body erupted, and the power of a hundred people wielded the heavy quaint halberd, killing one monster after another.

Roar!

Among the herd, nine particularly huge beasts, surrounded by a larger beast, walked out of the jungle and appeared behind the herd.

“The Beastmaster?” Qin Tiange's pupils shrank, and he saw the beast up to nine meters in height. The nine beasts around him were like guards, arch protectors.

That is the Beastmaster, the culprit responsible for this beast tide, leading the beasts to attack. What surprised Qin Tiange the most was that this Beastmaster had only a two-star level.

But the breath emanating from it, UU reading [www.uukanshu.com](http://www.uukanshu.com) is definitely beyond imagination, and the power that can burst out is definitely more than two hundred people.

The Beastmaster appeared, Qin Tiange's action was slow, and a giant beast fell on the body of a giant beast.

Roar!

The beast looks ridiculous, has fangs in its mouth, horns on its head, twin wings on its back, and a tail full of dense spikes, its scales crackling.

Clicking and biting it down, the flesh flew horizontally, but did not bite Qin Tiange, but fortunately it was the giant carcass under him.

“roll!”

Qin Tiange roared, his forehead was leaping with blue muscles, and the power of a hundred people exploded, and he suddenly pushed away the beast that was pressing on him and stood up.

At this time, the behemoths were rushing around at the same time, watching him about to be divided by the beasts.

Oh oh ...

At this critical moment, a sharp whistling came from the tribe, and sharp bone spears burst into the air.

Chapter 196 - Beastmaster!

Puff puff...

The bone spear penetrated the body, pierced through the body of a giant beast, nailed them to the ground, and rescued Qin Tiange, who was in danger. [Read the latest chapter]

The latter was afraid after a while, grateful and guilty, because he had just made the decision to kill the tribe, but he did not do it, otherwise it would be miserable.

“kill!”

Qin Tiange roared and poured out his heart's intentions on the surging giants, and the halberds flew, bringing up a burst of smoke and dust, slashing the giants that came up.

The power of a hundred people waved the ancient halberd, and the lethality that erupted was more than that of a hundred people.

The quaint Euphorbia is heavy and unmatched, with at least a thousand pounds of weight. When it is dropped, the monster's head will bloom and its bones will burst.

Although the halberd cut off a halberd's edge, it was still sharp, and the piercing of the giant scale armor was as crisp as breaking open tofu.

flutter!

When a halberd stabbed a giant that rushed in front of him, Qin Tiange could not pull out the halberd, and saw a giant leap leaping, his huge mouth biting on his head.

Just hearing a click, the body of the beast paused, and the entire jaw was pierced by a bone spear that fell from the sky. It penetrated the ground and was crucified in front of Qin Tiange.

The monster's mouth fangs were only a few millimeters from Qin Tiange's head and face door, and he was almost bitten in the head. The scene was really thrilling.

“It's dangerous!” Qin Tiange burst into a cold sweat and looked back, only to find that it was the burly man who led the tribal warrior to save him just now.

He wore a beast robe, wielded a huge bone spear, and slashed a giant that only rushed into the gap of the tribe, very brave.

“Thank you!” Thanks secretly, Qin Tiange turned back, pulled out the halberd, and even pulled out the sharp bone spear with his left hand. He was surprised to find that it was a one-star weapon.

He couldn't be surprised, because there were too many beasts in all directions, and one died and dozens of them came up, very terrifying.

**"I knew I would redeem a combat technique!"**

While fighting, Qin Tiange regretted secretly that he had forgotten the exchange of combat skills, otherwise he would not be so passive now.

He retreated while fighting, retreating to the tribe's wooden walls ten meters before stopping, and then he was assured to slay and kill the giant beasts coming ahead.

Roar!

The beasts were crazy, and they did not fear death, as if they had received some kind of death order, and they ignored the charge.

Qin Tiange roared, wielded the halberd in one hand, and pierced through the bone spear in one hand, killing mania, forgetting the time, it is not clear how many monsters he killed.

Had it not been for the clans of warriors behind him to kill the beasts around him with ancient arrows and bone spears, he would probably not be able to support him anymore.

The corpses were piled up like a mountain. Around Qin Tiange's feet, a small mountain of corpses piled up densely, all over the wall of the tribe.

**"This warrior is amazing!"**

In the tribe, many warriors marveled and were quite shocked at Qin Tiange's performance. They were strong men comparable to their patriarch.

Look at the corpse of giant monsters beneath his feet, which have already risen above the gable. He stared at countless beasts by himself, killing hundreds of terrible beasts, shocking all the warriors of the tribe and morale.

**"Clan, kill!"**

The burly man, also the tribe chief, took advantage of Qin Tiange's morale, immediately raised his arms and shouted, and led a group of tribal warriors. Hundreds of lives killed the beasts who stormed into the tribe.

Seeing this, the women and old people and even the children in the tribe who were frightened showed a relaxed smile, and they were relieved to see the beasts that had been repelled.

But Qin Tiange was not relaxed, but felt more and more heavy, and his breathing was sad.

Roar...

Seeing that the beast was smashed out, behind the herd of beasts, the beastmaster who had been motionless suddenly roared to the sky.

That roar shook the ground, and numerous beasts roared to the sky. Even the giant beasts in front of Qin Tiange stopped and roared.

“Dead!” Qin Tiange drank angrily, throwing his left bone spear directly, plopping through the throat of a giant monster roaring in the sky, killing him on the spot.

Immediately after, he waved his halberd in his right hand, and slammed into the jaw of another roaring giant with a bang, flesh flew, and half of his mouth was broken.

Taking advantage of this opportunity, Qin Tiange stepped forward in two steps, slamming his halberd, and smashing down the behemoth that had been hit hard.

Between lightning and flint, he directly killed two beasts. It can be said that the roar of the beast king caused many beasts to die.

But it didn’t care the slightest, and there was a cruel and bloodthirsty in his eyes.

“The herd retreated ...”

Suddenly, Qin Tiange’s pupils shrank, and he saw that the beasts around him were backing out. The situation was too sudden, which made him stagger.

Immediately after, Qin Tiange’s face turned wild and he realized that it was not good. Once these beasts retreated, how would he complete the task?

“kill!”

Thinking of this, Qin Tiange sighed angrily, and rushed forward with the halberd straight forward, his body leaping from the corpse mountain high, and waved the halberd down to hit a receding monster head.

boom!

With a loud noise, the beast wailed, and his head was smashed by a halberd, and the red and white brain burst into pieces.

He was extremely fast, rushing forward a few steps, waving the halberd, rolling up a wave of wind and driving the dust to slash on a retreating beast.

I saw a blood flower burst, and after a click of bone fragmentation, the beast groaned and fell to the ground, struggling a few times and died.

Qin Tiange’s relentless killing of several retreating beasts seemed to not want to let these beasts leave and retreat, leaving the warriors in the tribe behind stunned.

They were cheering, but Qin Tiange was still hunting down the monster, it was crazy.

“This warrior is a real man!”

The burly patriarch was amazed, his face was absolutely deciduous, he took a bone spear and leaped quickly, rushing towards Qin Tiange.

His three-meter-high body, like an iron tower, rushed all the way, and the beasts he blocked were smashed by him.

“Warriors beware, Beastmaster is about to shoot.”

The patriarch rushed and shouted at Qin Tiange, awakened Qin Tiange, who was frantically pursuing the monster, and looked up, only to find that he had killed only a few kilometers away from the Beastmaster.

Roar...

At this moment, the Beastmaster issued a low growl, fangs gnawed, his eyes stared at Qin Tiange, showing a murderous look, eyes fierce.

**“Beastmaster!”**

Qin Tiange’s scalp was numb and he was stared at by the Beastmaster, but instead of regretting it, he secretly hated that he was slow to kill, so he could almost complete the task.

**“Task completion progress: 999/1000 ...”**

Just one short, one short star beast, Qin Tiange can complete the task, but unfortunately, all the herds have retreated to the edge of the jungle behind the Beastmaster.

At this point, there are only Beastmaster and nine giant monster guards staying here. If you want to kill a giant beast, you can only choose the beastmaster in front of you, or nine giant monster guards.

However, Qin Tiange knew that the Beastmaster was going to take a shot.

Roar!

Sure enough, the Beastmaster roared, opened his limbs, and walked out with arrogance, the nine-meter-high body was full of oppression.

A bright red horn on top of his head was shining with blood, his eyes were green, and a flash of violent killings flashed, locking Qin Tiange.

**“Warriors be careful Beastmaster this is going to be singled out!”**

Not far away, the tribal chief carefully warned, looking dignified, holding a bone spear and staring vigilantly at the giant beastmaster.

His words made Qin Tiange stagger, and looked strangely at the Beastmaster in front of him, and even he wondered whether the assessment task had already been set.

The last one, it is difficult to face the terrible fighting power of at least two hundred people against this terrible beastmaster.

**“Single-headed?”** Soon, Qin Tiange showed a smirk on his face, blood on his face, and with that white tooth, a bloodthirsty demon was alive.

boom!

Euphorbia smashed fiercely, and a large pit appeared on the ground in front of him. Qin Tiange stretched out a finger and hooked his fingers towards the Beastmaster with a look of contempt.

**“Animals, come on, if you want to challenge me, I will complete you, and use your bones to pave the first step in my growth!”**

The provocative action and contemptuous tone deeply stimulated the proud heart of the Beastmaster in front of him, and he burst out, opening his mouth with a roar.

Chapter 197 - Ghost God 1 style, halberd!

Roar!

The Beastmaster roared fiercely, his limbs slammed, the ground collapsed, and his huge body smashed up at a speed that was not as fast as Lei Xun. [No Popup Novel Network]

Quick, too fast, the sharp claws shot down in the air, Qin Tiange had no time to turn around and escaped with a lazy donkey.

Listening only to the loud noise of “Boom”, the original area exploded on the spot, and was shot with a claw, one by one, and the mud and stones splashed.

“The power of two hundred people is very strong!” Qin Tiange quickly rolled up, raised his halberd, and his expression gradually dignified.

The beastmaster’s blow brought great pressure to him, which contained the power of two hundred people. If he hit his body, he would be seriously injured if he died.

“Damn, if the space bracelet is still there, then maybe I can use plasma bombs or incendiary bombs to subsidize it.” Qin Tiange cursed, his wrists were empty, and out of this spear, the space bracelet was inexplicable. Already.

In other words, he could not use the other weapons in the bracelet to help the battle, he could only face the powerful Beastmaster.

What made him even more speechless was that the burly man, three meters high, not far away, the tribal patriarch was so immobile that he could not stand still, and could have frustrated Qin Tiange.

However, he did not ask others to help, and his face was not so thick. Since the other party did not want to intervene, it was impossible for Qin Tiange’s pride to ask the other party for help.

“Come on, a fake beast king, but the two-star wants to block my way forward, so how can I seal the emperor in the future?”

Qin Tiange cut off the last trace of fluke and irritability, calmed down, his whole mind was completely air-defense, and he wholeheartedly opposed the enemy.

Since you can’t use external forces, let it go, a fake beastmaster, but if you are a two-star monster, can you be stumped?

“kill!”

Suddenly, Qin Tiange drank violently, his body rushed ten meters high, and he slammed his halberd with his hands and slammed his halberd.

The wind and waves roar, and the dust on the ground is rolled up!

The beastmaster’s deep roar, green eyes suddenly bloomed with two beams of red mansions, revealing cruel bloodthirsty and cruelty, the body jumped up, and met Qin Tiange at high altitude.

I only heard the sound of “铿锵”, the scarlet horns withstood the fallen halberd, the two collided, the sparks splattered, and they were evenly divided.

However, on closer inspection, it was Qin Tian Gexun who had a clue, his strength was not as good as that of the Beastmaster, and his body was hit by flying in the air and backed up more than ten meters.

Qin Tiange's feet fell to the ground, and he stood firmly on the ground. The hands of the hand-held Euphorbia trembled slightly, and the shock of that blow was very strong.

He glanced behind and almost vomited blood. It turned out that he saw the tribe chief retreat 30 meters away and watched quietly.

“Asshole, at least help, right?” Qin Tiange wanted to cry without tears, and some could not laugh or cry. Was this clan intentional?

But he didn't have time to think about it anymore. The Beastmaster had launched a fierce attack the moment he landed, his body leaped into the air, his claws shone sharply, and he came straight to the door.

Huge beast claws rushed towards him with a strong wind, and Qin Tiange became calmer with a strong sense of crisis.

In his eyes, the flicker of silver and silver awns flickered, and the swift Beastmaster actually slowed down gradually.

“It is now!” Seizing the momentary fighter, Qin Tiange suddenly bullied him, holding his halberd, and stabbed at the Beast King's belly from above.

I saw a thump, the belly was pierced, and the hard scale armor could not stop the assassination of Euphorbia. It was directly pierced through the belly and blood poured on him.

Roar!

The Beastmaster fell to the ground and issued a roar, but with a trace of pain, his belly was pierced, and the blood was flowing wildly. Obviously, this blow was very severe.

Once the beast is injured, it will be stimulated into madness, not to mention the powerful Beastmaster, the more it is injured, the more cruel and fierce it will be.

Shout out, the Beastmaster is attacking, and if it is lightning fast, ordinary people can't catch it at all.

Unfortunately, in the eyes of Qin Tiange, the Beastmaster's figure slowed down many times. Although it seemed fast, he could easily avoid it.

Qin Tiange's heart flickered, and he secretly said awkwardly.

Roar!

Sure enough, the flutter of the Beastmaster turned out to be camouflage. The real killer was the tail with a dense, spiny tail.

With a bang, Qin Tiange flew out of his body and hit the ground severely. The steel armor on his chest shattered into dozens of pieces on the spot, a deep scar, dozens of blood holes flowing out of black blood.

“Poisonous?” Qin Tiange’s complexion changed slightly, looking at the wound from the chest that was injured by the tail. The black blood flowed out, which proved poisonous.

Thinking of this, he was frightened and angry, and what made him even more worried was that there were only about ten minutes left in the task. If he couldn’t complete it, it would be a death.

“Every side is dead, fight!”

Qin Tiange quickly got up, despite the severe pain in his chest, waving the euphorbia, bursting out the greatest strength, the force of a hundred people quickly poured into the euphorbia, and took the initiative to attack.

Roar!

The Beastmaster was roaring, full of brutality and cruelty, and the tusks of his mouth were exposed in the cracked mouth, as if he saw the process of killing and shredding his prey.

It leaped quickly and met Qin Tiange, both of which were extremely fast and collided together instantly.

boom!

The earth was roaring, smoke was raging, and there was rubble passing through the air and hitting the four sides, accompanied by a stream of sand and spreading around.

In the middle of the smoke and dust, a huge giant stood up, motionless. On the other hand, Qin Tiange was hit by dozens of meters before stopping, the corners of his mouth overflowed with black blood, and his chest ribs were broken.

At this time, the toxins in the body are getting more and more violent, and the body feels weaker and weaker.

“kill!”

Qin Tiange’s eyes were red, and the murderous intentions and fierce suffocation accumulated in the previous life after fifteen years of fighting had erupted completely at this moment.

A thunderous momentum exploded into the sky, erupting from Qin Tiange’s body, cruel, violent, and full of terror, as if this was not a person, but a terrible demon struggling to kill in hell.

Qin Tiange waved his halberd and rushed around, surrounded by a trace of blood and mist, as if a demon crawled out of hell.

Roar!

The pupil of the Beastmaster flashed a little shock, and his instinct took a step back, but his pride as a Beastmaster did not allow him to fear and retreat. After it fiercely roared, it rushed towards Qin Tiange and launched the fiercest offensive.

Huh?

At this moment, the patriarch who had been watching moved with a look of suspicion, staring at Qin Tiange’s figure as if he had discovered something that surprised him.

I saw that Qin Tiange's entire portrait had lost his soul, his expression was dull, his eyes were empty, and he fell into some wonderful state.

A peculiar light burst suddenly on the quaint halberd in his hand, becoming stronger and stronger, like a cyan flame burning.

“Ghost-like, halberd!”

Suddenly, the sluggish Qin Tiange murmured unconsciously. The empty words seemed to come from the depths of time and space, becoming louder and louder, and finally turned into a roar, revealing the boundless and powerful spirit.

As soon as the voice fell, I was surprised to see that Euphorbia turned into a blue light enveloping Qin Tiange's figure, and instantly emptied, pressing down from the top of the Beastmaster's head.

Chapter 198 - Spike, mission completed

The vast expanse of blue light, like Mount Tai, topped, with the repressive spirit of repression, banged on the head of the Beastmaster. [No Popup Novel Network]

With a click, in the blue light, the Euphorbia was pressed down like a heavy ancient mountain, and it was the first to smash the \*\*\*\* horns of the Beastmaster, and then “Boom”, the Beastmaster's huge head burst immediately, and the blood mixed with his brain collapsed and flew for several meters .

Ghost and god-like, halberd, invincible, crowning the world, killing the Beastmaster in one shot. Its mighty power and power are simply appalling.

Horried!

Under the beast of this hegemony, the beastmaster couldn't even send out a scream, it was over his life and completely ended.

Quiet all around, all beasts died silently, none of the beasts made sounds, one was stupidly there, as if they could not believe it, their supremely powerful king was killed.

With just one hit, the Beastmaster died in the hands of that human, and for a while, the scene was quiet.

In the dust, a huge corpse lay there quietly, and the entire head was completely beaten and smashed like a watermelon, and his brain was sprinkled for dozens of meters.

On the corpse, a figure stood proudly standing, the broken armor was swaying gently in the breeze, tingling with blood and mist.

Immediately after that, the figure embraced the halberd with both hands, and slowly made a strange and weird movement. With one foot off the ground, the body slowly lay down, showing a ninety degree lying on his back.

Qin Tiange's face was dull and his eyes were empty, as if he had lost his soul, his body instinctively fell backwards, and stopped suddenly half a foot away from the ground.

This action is very weird, and it is puzzling to see it. What is even more surprising is that there are blue and silver gases on his body that come out of the body, and then penetrate into the body, coiling back and forth, it seems even more mysterious. .

At this time, in Qin Tiange's body, a group of purple-gold light gradually emerged, and constantly walked around the body, leading to a rapid accumulation of star marks hidden in the body, forming a torrent, constantly roaring in the body.

With the inexplicable emergence of this energy, impurities in the body, genetically aging cells, and even the toxins hidden in the medication have been squeezed out of the body.

The body was soon covered with a thick layer of black matter, and it tickled off, giving off a terrible stench.

Ding

“Death mission: Kill a thousand one-star creatures within three hours, progress:, complete!”

At this moment, in the mist, a clear reminder came, and gradually awakened Qin Tiange's addicted consciousness.

At the same time, countless behemoths awakened from stagnation one after another, looking at the dead beast king, each beast revealed a kind of chaos and violent emotion.

Howl!

The beasts roared, full of anger and pain, and a touch of fear. Each of the giant beasts seemed crazy, losing its previous neatness, and looked extra chaotic.

Many monsters turned and fled. They ran into the jungle and lost their tracks. Most of the monsters lost the leader of the Beastmaster and ran away.

Only some of the beasts whistled and roared in place, as if mourning their king.

The king is defeated, and the dead beastmaster is no longer a king.

Sound of wailing

Nine giant guards roared in the sky, and the long roar shook the jungle. It never stopped for a long time, which made people saddened.

They soon stopped screaming, staring at the scarlet beast and staring at Qin Tiange, grinning their teeth, and pawling on the ground as if to attack.

But in fact, the guards of the nine monsters had a feeling of fear. After grinning and groaning for a while, they ran straight into the jungle with their tails and disappeared.

All the giant beasts scattered after the death of the Beastmaster, and all ran out of light. When Qin Tiange woke up completely, he found that none of the beasts around him.

“I ... this Beastmaster is dead?” Qin Tiange froze, watching his strange action now lying on his back, immediately stood up, and then found the dead Beastmaster's body at his feet, dumbfounded, and some scratched his head.

Soon, he remembered the situation at the time, and in retrospect, it seemed that it was all caused by the simple quake in his hand.

He remembered that at that time, an ancient and vast force suddenly emerged from the halberd, full of domineering, revealing an indomitable atmosphere that crowned the sky.

This power almost exploded him, that is, under this power, his vague halberd blasted the head of the Beastmaster, killing him instantly.

“Ghost-like, halberd ...”

Finally, an inexplicable piece of information came out of my mind, which is an ancient and powerful combat technique, called: ghost-god style, halberd!

Seeing this, Qin Tiange was shocked, and at the same time he understood that the Beastmaster died under the blow of this shocking ghost and god.

Sure enough, it is a self-proclaimed, ghost-like, powerful power, and the killing power is that Qin Tiange can't help getting hairy, which is too scary.

The powerful Beastmaster will be completely reimbursed without a single blow, humming!

“The dead beastmaster is not the king, and the king is defeated. You are dead, but I just walked on the road of my king following your bones.”

Qin Tiange whispered to himself suddenly, a thought flashed naturally in his heart, there were many bones on the road of the king, and I don't know how many powerful flesh and blood corpses would have to step on to step on the throne of God.

The king was destined to kill, and destined to step on the corpses of countless creatures, and the bones paved a avenue to the throne of the emperor, full of blood and death.

The scene of the tragic death of the Beast King in front of him reminded Qin Tiange that he would have to pay the price to become a king.

Just like the Beastmaster in front of him, it is not yet the real Beastmaster, but it has the capital and talent to become a king. Unfortunately, the king was robbed on the road and was killed by Qin Tiange.

“Dear warrior, thank you for helping our tribe resist the beast tide attacks. At the same time, thank the warriors for killing the beast king and driving away the beast tide. Thank you on behalf of all members of the tribe.”

As soon as he woke up, Qin Tiange was startled by these words. He looked up and realized that he didn't know when he was standing in front of the crowd.

Big, one by one, the old man, the woman, the child, and the burly man from the tribe all gathered together, gathered in front of Qin Tiange, and led Qi Qi to thank Qin Tiange.

“Warrior, this is the treasure of my tribe. It has been passed down from generation to generation. Today, in order to thank the warrior for his help, on behalf of the entire tribe, I will give it to the warrior as a gift we appreciate!”

The burly patriarch had a sincere tone, holding an quaint jade box in his hands, and took it directly to Qin Tiange.

Looking at the jade box in front of him, Qin Tiange's complexion kept changing, and he was ashamed, embarrassed, bitterly smiling, and glad.

Fortunately, he did n't have time to kill the tribe, otherwise he would n't just want to complete the task, let alone the task reward.

Looking at the thousands of people gathered in front of him, young and old, all looked at him gratefully, Qin Tiange felt a little hot even with his thick skin.

“Thank you Patriarch!”

Qin Tiange took the jade box with a scrupulous scrutiny, what he just wanted, and then his eyes became dark, and he lost a sense of consciousness.

When he woke up again, he found himself in a void space, surrounded by no color and no sound.

“Congratulations, you successfully completed the death mission. Please claim your reward.”

In the nothingness, a light curtain suddenly appeared, an ethereal voice came from the nothingness, and then three things appeared on the light curtain.

The first one was a jade box. Qin Tiange looked stunned and looked down, only to find that there was nothing left in his hands. The broken armor on the original itself was intact.

“It turned out to be a fantasy.”

Qin Tiange had to sigh, and then he was shocked and looked into the light curtain. The three things displayed were just rewards for passing the death difficulty assessment this time.

With excitement, he took the lead in ignoring the first jade box and looked at the second reward.

Chapter 199 - Emperor blood, other shore flowers, purple gas!

I passed the first jade box that was originally obtained, which was given to him by the tribal chief in the assessment illusion. [Read the latest chapter]

In retrospect at the moment, Qin Tiange was holding out strangely, and he was even a bit unclear. What he just experienced was real or illusory.

“Forget it, look at the reward first.” Qin Tiange shook his head, directly dispelled his thoughts, and locked his eyes on the second reward item.

Looking closely, it was a jade bottle with beautiful carvings and detailed patterns, as if it were natural, but didn't know what was inside.

“Imperial blood: A drop of blood essence of a king-level creature, containing huge energy, can temper the physique, improve talent, can be used as medicine, and can be made into a king-level potion.”

The second jade bottle introduces information. It shows that it is a drop of emperor blood, a drop of blood essence of some kind of king-level creatures. It contains a huge amount of energy, which can be used to temper the body and increase a person's physique. It is used for medicine and making king-level potions.

“Developed!” Seeing Qin Tiange’s calmness here, he couldn’t help but have a touch of excitement, his heart beating fiercely and getting rich.

How precious is a drop of emperor blood? You know, some emperor-level powerhouses or creatures in previous lives are rumored. Who would be willing to condense a drop of blood to give it to others?

Don’t even think about it, if you ask for it, you will be slapped to death. Once there is a drop of emperor blood condensed from the king-level strong, he must be weak for a month.

In previous lives, many strong men were eager to obtain the blood of the emperor. Therefore, ten-star strong men often traveled to the mountains and mountains, and wanted to slay king-level creatures to obtain the blood of the king.

It’s a pity that all of them ended in fiasco. There are no more people who dare to pay attention to king-level creatures when there are more dead people. That is taboo.

Now that Qin Tiange has obtained the blood of an emperor, how can he not be surprised and ecstatic? He took the drop of emperor blood without hesitation and hid it carefully.

Then he moved his gaze and looked at the third reward item. His heart was full of expectations. What was it?

“This is it?” Qin Tiange looked at the third prize and couldn’t help it.

This is a flower, strange and beautiful, with delicate drops of water droplets on the delicate petals, as if just picked.

“Another Flower: The rumored flower of death has a mysterious effect that can enhance one’s spiritual will and can be used as medicine.”

A flower is exactly the other side flower, let Qin Tiange hold back. Because he knew this flower naturally, it was recorded from the knowledge of the pharmacist.

This kind of flower is rumored to be only in the place full of death and evil spirits. It is extremely difficult to grow, and even it is rare and precious.

The most important thing is that the other side of the flower is the only main medicine to make a medicine, that is, the main development of the medicine in the brain domain.

Qin Tiange looked excited and murmured: “It turned out to be the other side of the flower, it seems that my brain domain development medicine is expected to be successfully formulated.”

The other shore flower is the only main medicine for the preparation of brain-domain development medicines. Without this precious and rare thing, it is impossible to formulate.

Unexpectedly, it is worthwhile to complete such an assessment task with one-star death difficulty, and it is worth it, it is worth it.

Endured with excitement, Qin Tiange carefully collected the other flower, known as the flower of death, before looking at the first prize.

It was that jade box that Qin Tiange murmured in his heart. It was from the mission space that the tribal chief gave him.

“What is it?” With a question, Qin Tiange took a closer look, and was surprised that there was no introduction to Jade Box and no information.

This is strange. In principle, the rewards should have a detailed introduction. At least what the prizes are and what they are useful for, but there is no jade box.

Qin Tiange thought to himself, did he not open the jade box? Thinking, he opened the jade box directly, and clicked, and the box opened.

Huh!

Suddenly, a purple light flashed and went straight to Qin Tiange’s eyebrows, and instantly disappeared into it.

“This?” Qin Tiange’s complexion changed so much that his heart stopped beating, and he was all out of cold sweat, too fast.

The purple awn just now was so fast that he couldn’t respond, so the purple awn fell into his brows and disappeared.

Qin Tiange’s face was ugly. He just caught a little shadow just now, and faintly saw a purple gas quickly penetrate into his eyebrow.

“What the hell, I encountered this kind of weird thing once or twice, not purple light or purple gas, which didn’t let me live well?” Qin Tiange could not help yelling.

There is no information and no introduction. I don’t know the origin and role of the purple gas. Just rushing into his body like this is to give him a time bomb.

No one will be in a good mood when facing such a situation. First, the first lottery was drawn, and a strange silver-white eyeball settled in his left eye.

In the second lottery, a strange purple-golden light was drawn, and then he ran into his body and disappeared.

Well now, in the mission space, he got another mysterious purple gas, which went straight into his eyebrows and disappeared.

Thinking of his own experience, how did Qin Tiange feel like he was being stared at? He had a chill in his heart. He examined his body carefully, but found that it couldn’t be better.

“What the \*\*\*\* ...” Qin Tiange looked ugly, somewhat iron, and was at a loss as he stood here.

It took a long time for him to calm down, his teeth tickling, and he retreated indignantly to exit this void space and return to the world outside the stone monument.

.....

Outside, in front of the huge stone monument, countless people watched, they marveled and talked.

Wow!

Suddenly, a ray of light emerged, revealed from the inside of the stele, and then a figure emerged from the light, which was the disappeared Qin Tiange.

“what...”

“He came out, came out!”

“Oh my God, how did he get inside the stele?”

Qin Tiange’s sudden disappearance and sudden appearance aroused the exclamation of countless survivors around. Many people’s eyes flickered, looking at the stone monument, and a change of heart occurred.

Stepping out of the light, looking back at the huge stone monument, Qin Tiange was in a mixed mood, both excited and helpless, and a little bitter smile.

This time the death mission assessment, he gained a lot. Not only did he somehow comprehend a powerful combat technique during the mission, but he also passed the assessment and received an amazing reward.

But there was also depression, because the inexplicable purple gas made him uncomfortable.

Fortunately, there was no problem for the time being. He looked at more and more people around him, shook his head, and ignored the weird expression of them, and walked out of the crowd.

“Is there something weird in the stele?”

Looking at Qin Tiange who left, a large number of survivors who were afraid to come forward moved. Qin Tiange, the leader of the base, was here, and they were afraid to go up.

Now the other party is gone immediately rushing up, surrounded by a huge stone monument, you push me, I look very confused to squeeze you.

Soon, these people knew the secret of the stele, and understood some of the functions of the stele, that is, assessment.

Some people couldn’t help getting excited and chose to enter the assessment directly, but unfortunately, they did not become one-star evolutionaries, so they could not enter the assessment.

“That’s it!”

“One-Star Evolution?”

“Potion?”

It is this stone that many ordinary survivors have learned about. There was originally an evolutionary saying, and then there was news. As long as you join the base’s combat team and work, you can get that magical evolutionary potion.

This time, all the survivors of the entire base are crazy. As Qingyu’s zombies get faster and faster, more and more survivors are brought here. Gradually, the entire base begins to form a scale.

For these, Qin Tiange didn't care. After returning from the assessment stone tablet, he didn't return to the apartment, but went directly to the Lotus Mountain.

## Chapter 200 - Mysticism

In the north area of Lianhua Mountain, before passing on the stele, Qin Tiange quietly looked at the stele surrounded by lotus leaves, completely covered. []

From a distance, the seven lotus flowers swayed in the wind, exuding a faint fragrance.

“Weird, why do I understand some weird movements somehow?”

Qin Tiange held his chin and thought secretly, remembering that when he killed the Beastmaster at the time, he woke up at first glance and saw that he was standing on one foot in a weird posture.

Now think about it, there are some pictures in my head inexplicably. In addition to that type of ghost and halberd, there seem to be a lot of inexplicable things.

For example, Qin Tiange slowly raised one foot, recalling the situation at the time, and made a difficult and weird action according to the picture in his mind.

He held the halberd in both hands, leaned back slowly, and fell to the ground with a bang, unable to maintain the posture at that time.

“Weird thing ...” Qin Tiange got up, frowned secretly, always felt that these things seemed to have a huge effect and help to him.

After thinking about it, Qin Tiange seemed to think of something, exclaimed: “Are these movements the so-called exercise method in body surgery?”

It's really quite possible. Qin Tiange was horrified. He constantly recalled the pictures in his mind. One by one, weird movements were difficult, and ordinary people's bodies couldn't do it.

But Qin Tiange did it at the time, but he can't do it now, which is unusual.

“Where did these physical movements come from? I realized it myself?” Qin Tiange had another doubt.

Where did these weird body movements come from? Could it be his own creation that he realized?

Not to mention comprehension, Qin Tiange himself didn't believe it. Perhaps it had something to do with the ghost and halberd. At that time, his inexplicable blow to the ghost and wolf was related to the simple halberd.

“Is it because of you?” Qin Tiange raised the halberd in his hand and muttered to himself, constantly touching the cracked halberd.

He vaguely understood that everything is due to the euphoria. Perhaps the ghost and \*\*\*\*\* halberd he understood and these mysterious body movements were related to the euphoria.

Buzz!

Euphorbia squeaked and gave a slight shock, as if responding to Qin Tiange, but the latter could not understand the meaning at all, and could only shake his head with a bitter smile, indicating that he could not communicate.

He himself felt funny, with a spear and a weapon, even thinking about communicating with a weapon?

“Forget it, if you are really spiritual, it won’t hurt me, the current master, I believe you this time.” Qin Tiange smiled softly.

Immediately afterwards, he held the halberd in his hands and imitated it again in accordance with that mysterious body movement, but unfortunately, he failed again and again.

Repeated failures allowed Qin Tiange to gradually find out the mystery of the silk body technique, which made him feel a sense of awakening.

In previous lives, he had not practiced any physical technique, because there was no crystal nucleus exchange. But now, he has just come into contact with body surgery for the first time, so he still knows nothing about it.

After repeated attempts, Qin Tiange finally touched the mysterious point of physical technique, and soon understood the key to practicing physical technique.

“I’m here, I’m aware, I’m so powerful ...”

Qin Tiange muttered to himself, his tone was ethereal, as if he had fallen into some kind of comprehension. In his consciousness, scenes were inexplicable, and mysterious actions were strange and unpredictable.

He got stuck in it and couldn’t help himself. Gradually, as if he were the person in the picture, he started to do all kinds of strange actions.

This is a physical operation, a mysterious physical operation, the level of which is unknown, but you can feel the mystery contained in it.

Each action has a certain mystery, revealing the rhyme of the Tao, as if it complies with the laws of heaven and earth and implies the mystery of the universe.

Gradually, Qin Tiange’s consciousness began to be a little unclear, like a chaos, awake, and drowsy, very weird.

call!

Suddenly, the still-moving Qin Tiange leaned back, stopped three feet from the ground, and just supported his leaning body without falling down.

He embraced the halberd with both hands, and the simple halberd exuded a hint of greenness. It penetrated into Qin Tiange’s body, spurring a series of star marks in the body, intertwined and coiled into one, slowly driven by the mysterious purple-golden light. Flowed all over the body.

The inexplicable physical operation is done!

Qin Tiange didn’t know it. He just felt comfortable. There was a warm current flowing through his limbs and bones, and his internal organs flowing through the five internal organs. He moved quickly in a certain line, as if it were a small universe running, which is wonderful.

“The first form of the domineering, the sky!”

Huo Ran, Qin Tiange’s instinctively opened mouth in the misty murmured such a sentence.

Then, an extremely overbearing breath emptied out of the body, trembling rumblingly, raising a wave of flowers and dust around.

The momentum is like a rainbow, unrivalled, as if a mighty warrior is fighting the world, staring at the sky.

Yes, that’s the feeling!

Qin Tiange’s consciousness gradually awakened, but he could not control himself, as if he had become another person, and he had an involuntary will.

Originally D’s eyes gradually raised his eyelids, and for a moment, two beams of divine light went straight into the sky, his eyes glowing like a torch.

He looked at the sky with a halberd in his eyes, a sense of domineering in his eyes, a world of freedom, and the glory of the heavens revealed that the little demon lotus leaf trembled beside him and shivered.

The mysterious body technique was gradually realized by Qin Tiange for its essence and divine will, and understood the mystery and power of this body technique.

Uh ...

At this time, the body shone brightly, and the silver awns continued to come out from the body and flow back, and so on and on, a trace of black carcasses came out from the body, full of stench.

That is the toxin in the body Qin Tiange, as he realized the mysterious body technique, got deeper and deeper, and even eliminated the stubborn toxins hidden in the body one by one.

The power of the original hundred people has grown surprisingly. A little bit of growth has finally broken the ultimate barrier of the power of one hundred people.

One hundred and ten, one hundred and two, one hundred and thirty-three, the limit power in the body is breaking through, although it is very slow, it is really growing.

When Qin Tiange woke up from practice, he was suddenly shocked that his body and the ground around him were covered with a layer of dark blood and mud, exuding an amazing stench.

“Very good physical skills, even increased the strength of ten people, one star broke through the limit of one hundred people, and gained the strength of one hundred and ten people, it is incredible.” Qin Tiange woke up with a shock in his face.

He did not expect that practicing a mysterious body technique would have such an effect, not only expelling the stubborn garbage and toxins accumulated in the body, but also breaking the original limit.

“Domineering, yeah, really domineering!” Qin Tiange smiled, yelling surprised.

He understood that the body technique he had learned called for the domineering body!
