

Dark Ages 201

Chapter 201 - Promote 2 stars

Domineering, a domineering and mysterious body technique, allowed Qin Tiange to break through the limit of the original strength of one hundred people and increase the strength of ten people. [Full text reading]

“With this mysterious and overbearing body technique, I don’t have to worry about cultivation after wanting to come to me.” Qin Tiange stood with a halberd and laughed a few times, feeling happy.

However, he knew that it was only the first time that he had realized the practice of cultivating the body of a tyrant to have the effect just now, and it would be impossible to have such an amazing effect.

Qin Tiange didn’t care about this either. Now he broke through the original limit and gained 110 people. It can be said to be great news.

Don’t underestimate the power of this small ten people, it depends on Qin Tiange’s current level, which is only one star. If the level is higher and higher in the future, the gap with other people will become larger and larger.

“It is no longer possible to make a breakthrough, and you must be promoted to two stars.” Qin Tiange secretly felt the situation in T, the strength soared, surging.

He has an intuition, knowing that he has reached the limit of one star, and may not stop here until he breaks through.

Thinking of this, Qin Tiange understands that at present he has reached the level of breaking the two stars, and can no longer hesitate.

As the heritage stele reappears, countless people all over the world and in Huaxia have begun to scramble to evolve themselves and become stronger.

It’s not just humans, those zombies and mutants are trying to evolve and mutate themselves to become more powerful and more adaptable to this dark world of sudden changes.

“There are two ways to advance to the two stars. One is to take drugs, and the other is to practice high-level physical training.” Standing in front of the stone stele, Qin Tiange thought quietly and quickly made a decision.

First of all, he came to the inheritance of the stele, and the lotus leaves entangled above it spontaneously separated, revealing a piece of the stele to let Qin Tiange reach out his hand.

“Two-star marrow washing agent: wash the muscles and cut the marrow, enhance the strength of bones and bones, speed up the hematopoietic function, exchange price: 1000 one-star crystal nuclei.”

Looking at this medicament, the two-star medullary lavage medicament is 100 times more expensive than the one-star quenched medicament, and the two cannot be compared.

It's a bit expensive, but Qin Tiange still didn't hesitate and bought two copies directly. Only 8,000 of the last 10,000 crystal cores were left.

Holding two two-star medicines, Qin Tiange opened them all, and drank up the two medicines, leaving no drop.

Drink two at a time, maybe only Qin Tiange dared to do so. In fact, he can't do it. The quantity of one is probably not enough. One star is enough for 110 people. Can the pulp washing agent break through?

Grunt!

Under the two spinal washing agents, Qin Tiange's complexion turned red. It was not won, but the body seemed to have a magma boiling, roaring constantly, and wanted to rush out.

That is the medicinal power of the medullary washing agent, which is extremely violent, and its role is to scrub the tendons and bones and improve the bone marrow's hematopoietic ability.

"Ah ..." Qin Tiange couldn't help but let out a low growl, his face flushed red, his forehead twitched blue, and his unhappy expression showed that he was suffering at this time.

It was really painful. The weight of two pill-washing potions, violent energy poured into the limbs and bones, the bones quarreled, and they were cracking.

The outrageous force not only scours the bones and muscles, constantly tears and stretches, or even brutal crushing and scrubbing, crushing and removing all impurities and undesirable factors.

If the bone is not strong enough, then brush it to be strong and the tendons are not strong enough, then stretch repair and then stretch repair until it is more tough.

The bone marrow is not rich enough, and the ability to make blood is not strong enough, everything is growing rapidly under the violent action of the medullary washing agent.

At the same time, Qin Tiange couldn't help but be surprised that the power to stop the entire picture was skyrocketing.

If you break through the two stars, you can get a great improvement. I just don't know how much improvement Qin Tiange can achieve with the power of one hundred and one hundred people.

"Ah ..." The intense pain made Qin Tiange hold on to the halberd, and the whole man did it according to the first form of the domineering body.

The medicament, combined with the physical skill to promote the promotion is more effective and obvious, and there are even unexpected gains.

Sure enough, as Qin Tiange made the first form of domineering, immediately, the violent energy in the body seemed to be guided and controlled in some way, and the pain was relieved.

Gradually, a series of star marks emerged from the body, and they continued to walk quickly under the purple and golden light. The light became brighter and brighter, and finally fused with each other.

Star trails merged and disappeared, leaving a little more bright spots, as if the stars were brilliant.

Yes, the star marks disappeared, the starlight emerged, and little by little, more and more, each additional person's power added a little bit of starlight.

Body surgery has driven the violent energy of the pill washing agent, forming a unique and mysterious operation in the body, wrapped in dense starlight, constantly transforming the body, strengthening the bones, improving the muscles, and the overall quality is rapidly improving.

Time passed by a little, when the sky was scorching sun, around 2 noon, the blue light around Qin Tiange gradually disappeared and submerged into the body.

"Huh ... so cool!"

For a long time, Qin Tiange slowly recovered, released the first movement of the domineering body, restored his freedom, moved his body, and felt unprecedentedly comfortable.

Power, he felt at this moment full of power, like a punch can hit a mountain, of course, this is an illusion.

But it is enough to show that Qin Tiange's power has soared to a horrible level at this moment, breaking through the limit of one star and gaining unimaginable benefits.

"Look at how much power is in my body now?" With curiosity, Qin Tiange looked directly at his body and felt it carefully.

Soon, he gradually felt the situation of his own power. Compared with the previous one-star star, he was too powerful, and he increased the strength of 110 people.

In other words, at the moment Qin Tiange has a force of 220 people, which is very scary. Two-star, 220 people, it is quite terrible, or just recently promoted, the power will continue to increase after a long time.

"Sure enough, a good starting point and solid foundation will play a vital role in future promotion. It seems that I bet right." Qin Tiange looked excited and excited.

He bet on the right The one-star promotion to the limit of a hundred people, even obtained the ultimate power of 110 people, broke through the two stars, doubled directly, with an amazing power of 220 people.

How terrible is that?

Click!

Qin Tiange suddenly waved his halberd and smashed it gently on the ground, only to hear a click, the concrete floor in front exploded immediately, and a large three-meter pit appeared, with cracks spreading around.

The strength of two hundred and twenty people hit the cement floor with a single blow. I have to say that Qin Tiange has not completely erupted. If this power is completely erupted, it will be even more terrifying.

Nodded in satisfaction, Qin Tiange's mouth slightly tilted and murmured: "Promoted to two stars, now it's time to step into Taolin."

"Little guy, go, go through Taolin with me!"

After saying that, Qin Tiange rushed to the goblin and beckoned, and immediately saw countless lotus leaves voluntarily turned into a tentacle shape, and then the root system was pulled out of the soil, and the tentacles interwoven by the cyan lotus leaves crawled quickly on the ground.

One person and one demon, soon came to Taolin.

Chapter 202 - Taolin

Ten miles of Taolin, shrouded in mist, that's peach blossoms!

Standing outside Taolin, Qin Tiange looked serious and looked at a peach tree in front of him. The hazy pink mist rose and filled with a charming fragrance. [No Popup Novel Network]

Uh ...

The appearance of Qin Tiange caused a lot of movement in the entire Taolin. Many peach trees trembled gently, rolling a cloud of pink clouds, as if warning.

Seeing this, Qin Tiange smiled inexplicably, he said: "You are also afraid, are you warning me not to approach?"

Huh!

Thousands of peach trees shook branches at the same time, and the peach blossoms were falling, with a pink mist, like a peach fairy dancing.

But if you look carefully, you will find that these falling peach petals don't fall to the ground, are lifted by the clouds of pink clouds, and constantly wafting and rolling in the peach forest, the fantastic scenery is like a fairyland.

boom!

Suddenly, Qin Tiange threw a dark object into several large trees outside Taolin, and exploded it into a terrifying yellow flame.

It was a white phosphorous flame, which was burning, and in a quarter of an hour, the trees were completely burned to ashes, and white eyes burst into the ground, which was terrifying.

"See, can you stop the burning of this thing?" Qin Tiange tilted his head, holding a white phosphorus incendiary bomb in his palm.

There was a strong threat in his words, and his consciousness was to tell the fine peach tree demon in Taolin. You better let me in, otherwise you won't mind burning you to ashes.

Snapped! Slap ...

As his voice fell, several peach trees in front of him swayed wildly, and several large peach branches hit the ground on the spot, making a bang.

It warned Qin Tiange that he was angry and irritable. Qin Tiange's threat made it feel dangerous, but did not compromise.

Seeing this, Qin Tiange frowned secretly, humming: “Toasting without eating and drinking, I just want to talk to you, this is my place after all.”

He froze and threatened, “If you don’t know how to stand up and refuse to cooperate, then I don’t mind completely destroying you as a fine peach tree demon and destroying the roots completely.”

These words came to Taolin, and when it was about a moment, the whole Taolin was quiet, and the rising mist produced a momentary pause.

Qin Tiange took the action. If this peach tree essence refused to cooperate, it would be destroyed, otherwise there might be some trouble in the future.

Although it was a pity that a fine peach tree was grown, he had to do so, otherwise, once the peach tree was promoted to a higher level, and it became a figure, it would be difficult.

Even though it is not yet a climate, Qin Tiange even resorted to the means to destroy the peach tree essence.

Huh!

There was silence for a long time. Suddenly, the fog in Taolin was dispersed. I saw that the fog separated on both sides, revealing a passage leading directly to the largest peach tree in the center of Taolin.

Looking through the channel, Qin Tiange marveled, and secretly said, “This peach tree essence has evolved so fast that it is about to reach four stars. It seems that the entire peach forest is the key to its energy extraction.”

In fact, Qin Tiange is not like destroying this peach tree essence, because it becomes a fine peach tree, and the peaches that are produced are the best and most perfect spiritual peaches.

Even when this peach tree became refined and became a real demon, at that time, the peaches on its body could be called immortal peaches.

It is for these things that Qin Tiange waited patiently. Today, I come to the door to talk to this peach tree fine and see if I can cooperate.

“Little guy, go, but you will get this peach tree sperm, look at it, it will dare to move, and directly draw its essence of life.”

Qin Tiange’s voice didn’t cover up, he directly instructed the quiet leprechaun next to him, and at the same time he warned the peach tree spirit, don’t play tricks, otherwise there is really no talk.

As if I heard this sentence, in the middle of Taolin, the huge peach tree that had grown to 20 meters in height trembled slightly, and each of the red peaches shook slightly.

With a smile, Qin Tiange walked into Taolin step by step along the channel exposed by Taolin, as if he was not worried about the peach trees on both sides attacking him.

The peach trees not only did not attack, and even the peach blossoms did not flutter towards him, instead they voluntarily backed away, constantly rising around them.

Soon, Qin Tiange passed through countless peach trees, came to the center of the peach forest, and stood in front of the largest peach tree.

The pink branches are extremely thick and the peach tree is as tall as twenty meters. The whole body is crystal clear, as if constructed from pink diamonds, which is very charming.

Especially those leaves, which are transparent and turquoise as jadeite, make people fall in love at first glance.

Even more attractive are those huge peaches with branches, the size of a baby's head, red peaches, glittering water drops, exuding a faint aroma, refreshing.

"It's time to talk." Looking at the pink peach tree in front of him, Qin Tiange said with a smile.

Then he looked at the rolling pink clouds and sighed, and smiled, "Don't threaten me with these, because I have something I don't fear."

"Have you seen it?" Then, pointing at a lotus flower of the little fairy, the crystal full and round lotus seeds exude a strange fragrance.

This is the lotus seed. The little fairy has matured for the first time after being promoted to four stars. The lotus seed is mature and can be picked.

Lotus seeds, which can cure a hundred poisons, especially the mutated lotus seeds, have a variety of magical effects.

Uh ...

The little fairy was proud, raised her roots and lotus leaves, and gently twirled Qin Tiange's arm, looking very cute.

The peach tree was silent, without saying a word, without even a single movement, as if it had not been heard.

Qin Tiange didn't care, and laughed: "I'm here, but it's not bad for you. I just want to cooperate with you. I want the fruit from your body, and you can get the nucleus from me to speed up your evolution. speed."

boom!

As soon as the voice fell, the huge peach tree suddenly trembled, and terrible vibrations came from the ground, as if there were countless terrible things tumbled underground.

The peach tree was so angry that the man wanted the peaches from it, although it was useless to it, but it stimulated its dignity.

Humph!

Seeing that Taoshujing was going to explode, Qin Tiange snorted and threatened: "You better stop, don't toast and not eat and punish. Peach is useless to you, but it will slow down your evolution speed. Not willing to exchange or cooperate? "

After talking about, he lifted the halberd and patted the ground gently, and slammed a large root system instantly, splashing a large sticky pink carcass.

“Listen well, my patience is limited. The entire Lianhua Mountain is my place. If you don’t cooperate, let alone survive here, I will immediately destroy you, at best, I will lose some spiritual peaches.”

Qin Tiange’s tone is overbearing and full of threats. If the peach essence does not cooperate, then he will really directly start and kill the peach essence. Although he will lose a lot of spirit peaches, at least there will be no unstable factor. In the center of your base.

The Lianhua Mountain is the center of Qin Tiange’s planning base. It is not only the peach tree, a refined monster tree, but also various other flower monsters.

For example, there is a large peony garden in the south, a large lily garden in the northwest, a rose garden in the southeast, and even a cherry blossom garden, and so on. These flowers have vaguely been born.

“Now, I will give you two ways to cooperate. I want to exchange your nectar with crystal cores, and I am all very happy. In the second way, I cut your body, burned your roots, and completely cut off your path of promotion.”

Qin Tiange stood on the ground holding the halberd, and quietly looked at the peach tree spirit in front of him. There was an ultimatum in his tone. If it failed, it would be destroyed.

Chapter 203 - Yielding

The peach forest was quiet, the air was condensed for a few minutes, and the pink clouds of mist that had soared were not moving. [No Popup Novel Network]

Qin Tiange gave an ultimatum, either cooperating and rejoicing, or slaughtering the peach tree essence, there are only two ways.

Lianhua Mountain has been regarded as the back garden of his base. How can he leave these fine flowers and trees alone?

If this is the case, it will be even more difficult to deal with these fine flowers and trees when the climate is reached.

“Thinking?” Qin Tiange’s face was calm, his heart was not panicked, as if he was not afraid that Tao Shujing would not agree to cooperate.

As long as it is not stupid, it will agree, otherwise, desperately fighting with Qin Tiange now is tantamount to seeking a dead end.

Uh ...

Finally, the peach tree essence made a decision, a huge branch slowly dropped down, hanging on it was a baby’s head-sized peach, which was crystal-clear and exuding a strong aroma.

It succumbed, and sent a Lingtao to show kindness. Finally, Qin Tiange was not disappointed, otherwise he could only kill it with pain.

“Happy cooperation!” Qin Tiange smiled, reached out and gently picked a Lingtao in front of him, and nodded his head to recognize each other’s preliminary cooperation agreement.

Next, we will discuss how to cooperate. In fact, there is nothing to say. Qin Tiange means to exchange the crystal core for Lingtao, which is his sole purpose.

He said with a smile: “Now that you have agreed to cooperate, let me talk about rules, which means that there is no rule without rules.”

“Here, I won’t let people approach, but you better not kill my people casually, otherwise I will have a hard time.” Qin Tiange’s first sentence was a warning.

This tells it explicitly that it won’t make people approach here easily, but don’t hurt his people, otherwise count as breaking the contract, then don’t blame him.

“Second, I used this crystal core to exchange Lingtao with you, one crystal core and one spiritual peach. This is my limit.” Qin Tiange took out two crystal cores and threw them to the peach in front of him. Tree spirit.

The latter extended two root systems to catch the crystal nucleus and got involved in the ground, and soon absorbed it. Seeing it had no opinion, Qin Tiange was more satisfied.

“Very good, working with you is a pleasure. Now that the agreement is reached, let’s trade.”

Qin Tiange waved his hand and spilled a large number of crystal nuclei, with a total number of 500, just as he roughly estimated that there were 500 or so peaches in this peach tree.

Wow!

The crystal nucleus fell to the ground, and numerous underground systems were immediately entangled in the ground, and then all became involved in the ground and disappeared.

I saw that on the huge peach tree, one by one, the peaches fell off automatically, and gently placed in front of Qin Tiange under the entanglement of numerous peach branches.

All the peaches were picked up, Qin Tiange did not count, waved into the space bracelet, his face was full of smiles, and his heart was beautiful.

The cooperation was successful this time, and five hundred spirit peaches were obtained. That was a big gain. As for the five hundred one-star crystal nuclei, in his opinion it is a small number, not even worth mentioning.

Compared with Wubailingtao, it is one heaven, one land. Qin Tiange knows that he is making a lot of money.

Hehe ...

Thinking of the benefits, Qin Tiange couldn’t help chuckling, it was too great a harvest this time. More than five hundred spirit peaches were a huge income for him, and the effect was great.

Lingtao, the peach produced by the essence of peach tree, contains extremely rich energy. It can improve physical fitness, improve talent, and even prolong life.

It is rumored that an ordinary spiritual peach can at least extend the life span of one to two years, increase the physical fitness of the two, and let alone improve their talent.

In short, Lingtao is a good thing. You can also use medicine to formulate powerful medicines, which will have better results.

“Well, the transaction is over, and the cooperation is happy!”

Qin Tiange greeted him with a smile, then turned around, brought the little fairy along the passage and walked out of Taolin, and soon disappeared here.

As he walked away, the originally quiet Taolin rushed into the waves, and a lot of pink radon kept boiling and rolling, like a sea of clouds roaring.

Bang bang bang ...

In the middle of Taolin, on the largest peach tree, two peach branches pounded on the ground frantically, making big holes, but they didn't stop.

As it beat, it made a faint sound.

“Bastard, **** bully me ... bully me ...”

Taoshujing was very angry, and Qin Tiange didn't dare to explode when he was there, but he flew violently as soon as he walked away, like a furious little guy, very scary.

Vaguely, from the trunk of the peach tree fine, a hazy petite figure can be seen, looming, very unreal.

That shadow, shrouded in pink mist, was petite and looked as small as a three-year-old child. His voice was immature and angry.

I want to come to Qin Tiange this time I must be angry with it, otherwise I won't be so angry, play temper here, lose my temper.

If Qin Tiange saw this scene, he would surely shake his head and say, “This child's temper has not yet grown up and needs to evolve.”

Qin Tiange didn't know about Peach Tree's temper, and even if he knew it, he didn't care.

At this moment, he came to a garden with a little fairy, and quietly looked at the three large characters written on the stone gate of the garden.

“Peony Garden!”

Yes, here is the Lotus Mountain Peony Garden, which is a garden dedicated to peony flowers. There are no other flower species.

He came here naturally to see if peony flowers in the peony garden had become conscious and became a fairy.

Peony, beautiful color, jade bead fragrance, known as the “king of flowers” reputation, but also the “national and heavenly fragrance” metaphor.

When you step into the Peony Garden, a scent of fragrance is blown into your eyes. You can see all kinds of precious and beautiful peony flowers.

There are hundreds of species of peony planted here, with different colors and magnificence. The real thing is the national color and heavenly fragrance, so the peony also has the national flower.

“Sure enough, there is a flower demon!”

Qin Tiange had just entered the peony garden and immediately felt a different breath. Looking from here, the entire peony garden was full of colorful peony flowers.

In the center of the garden, there is a peculiar peony, blooming in six colors, blossoming gorgeously, and a few emerald-like leaves arched around, to set off the natural fragrance of the country.

Beauty, never seen such a beautiful peony flower, strange, novel, as if in a peony garden in the Tiangong Garden, it feels unreal.

A peculiar scent of fragrance fluttered, a little bit of pollen flickered and glowed, and fluttered and fluttered back and forth over the garden, colorful and dreamlike.

Huh!

The moment the Qin Tiange arrived, the wafting pollen in the Peony Garden immediately paused, as if scared.

Seeing this, Qin Tiange knew that there was a peony plant that had become refined and turned into a flower demon.

“Want to come, that peach tree sperm has notified you, telling you my intention?” Qin Tiange suddenly asked a question I saw, in the middle of the Peony Garden, that six-color peony suddenly Gently swaying, the petals gradually closed, like a shy girl.

The peach tree accurately conveyed the information in a plant-specific way. Not only the Peony Garden, but also all the sperm-growing plants on the entire Lianhua Mountain, had received the news.

Seeing the shy look of the peony, Qin Tiange smiled and said, “Since you already know, I will not waste much of my tongue.”

“Talk about your choices, do you cooperate?”

Qin Tiange held his halberd in his hands, and quietly looked at the peony flower demon in the middle of the peony garden, waiting for its reply and choosing whether to cooperate.

It didn't take long, almost the next moment, the peony flower demon made a choice. All the peony flowers in the entire peony garden spit out drops of crystal water.

“Baihua Lingye?” Qin Tiange smiled immediately.

The peony flower demon chose to cooperate, and immediately spit out all the flowers in the peony flower hidden in the peony flower immediately, and it was a direct example.

Chapter 204 - 0Flower spirit, cherry blossom medicinal liquor

Baihua Lingpi, produced from mutated flowers, is an extremely precious pupa, known as being able to cure all diseases, relieve hundreds of poisons, and also be used as medicine. [No Popup Novel Network]

Unexpectedly, the peony fairy was so simple and directly expressed cooperation, and also actively vomited a drop of precious flowers.

“Very good, since they are willing to cooperate, they are all very happy.” Qin Tiange smiled, quickly took out a glass container, and quickly collected the peony flowers that were spit on the peony flower.

This thing can be used to prepare a variety of medicaments. Naturally, you can't let it go. One peony flower picks up a hundred flowers, and it is full of dozens of glass containers.

Looking at his harvest, Qin Tiange was very satisfied. He waved his hand and a large pile of crystal nucleus sprinkled in the peony garden.

“These crystal nuclei, as a transaction, remember to brew a little more flowers in the future.”

Leaving this sentence, Qin Tiange turned away from the Peony Garden, and led the goblin all the way to the Lily Garden not far away.

In the lily garden, white, pink, red, black, etc., all kinds of lilies are astounding, the garden is full of flowers, and the fragrance is ten miles.

Lily, elegant, pure, and slender, is known as the “cloud fairy”.

Moreover, lilies have a high medicinal value, especially now these mutated lilies are more noble and elegant, and have strong medicinal properties.

Qin Tiange stepped into the lily garden, and was immediately attracted by the thousands of lilies in front of him, especially the middle of the sea of flowers, which was a particularly bright and beautiful lily.

Uh ...

As soon as it arrived, tens of thousands of lilies swayed in unison, and a drop of crystal dew rose on the petals, as if exuding fairy dew.

It's a miracle of flowers, from the brewing of Lily X, which is very precious, the same as that obtained from Peony.

Seeing this, Qin Tiange didn't need to think about it, and he understood that the lily fairy had agreed to cooperate, perhaps the message conveyed by the peach tree spirit, or the news from the peony fairy.

In short, following the Peony Flower Demon, a Lily Flower Demon born here also chose to cooperate and did not resist.

Qin Tiange once again carefully collected those flowers with a large number, and also obtained dozens of full crystal glass containers.

“The current affairs expert is Junjie, this is your trading income.”

After collecting all the flowers and maggots, Qin Tiange smiled and threw out a pile of crystal nuclei, which numbered more than 300, which was considered as the completion of the transaction.

He then left the lily garden with the goblin and came to the rose garden.

Here, a single rose flower is strange and touching, with beautiful thorns, bright red, snow white, dark black, purple red and other roses quietly bloom.

In the middle of the sea of roses, a particularly huge rose is arrogant and independent. The branches are full of flowers of different colors, and each rose is surrounded by a hint of mist.

This is a mutant rose leprechaun, somewhat dangerous, with a hint of aggression.

Wow!

As soon as Qin Tiange stepped into the rose garden, he saw a bunch of roses gently swaying towards him, with sharp thorns flashing cold awns, as if they were telling about their aggressiveness.

“Interesting, hot and spiky, prickly roses, I like it the most.” Qin Tiange looked at the constantly swaying sea of roses and smiled and said such a sentence.

Suddenly, the sea of flowers paused, and the roses that originally showed their thorns immediately put away a single thorn, and the flowers slowly bloomed, and the aroma was fragrant.

Some roses even folded up the petals, hung the flowers down, and looked embarrassed and shocked.

As Qin Tiange walked by, all the roses closed their petals, shy and drooping, like little shy girls.

Maybe it was because of the sentence “I like the prickly rose!”, Which caused the rose in the garden to drop down shyly.

“Hah ... I didn’t expect the prickly rose demon to be shy?” Qin Tiange was surprised, feeling a sense of crying and laughing.

Immediately, in the center of the rose garden, the fine rose shook Qin Tiange’s flowers of different colors.

Soon, the roses in the garden opened one after another, puffing clouds, drops of crystal dew hanging on the petals, exuding fragrance.

It was Baihua Lingzhu again. This time, Qin Tiange was not polite and directly collected it. Soon, the Baihua Lingzhu in the garden was collected cleanly.

“Not bad. Get almost sixty. This is a deal for you.”

Qin Tiange couldn’t close his mouth with a smile, he waved a large crystal nucleus directly, and landed around the root of the rose fairy, with hundreds of them.

This is considered to be the completion of the transaction. The Rose Demon also did not resist, it seemed a bit arrogant, but it was a bit shy.

“How is the lyrics sung ... the shameful rose opens quietly ...”

Qin Tiange joked, then turned and left, leaving the shy roses in the garden, one after another drooping, closing the petals.

After leaving the Rose Garden, Qin Tiange was in a good mood, and smiled at the little goblin around him: “I’m sorry, the little guy didn’t let you show your skills.”

Alas ... the little fairy shakes the lotus leaf, and two lotus flowers are intimately kissing Qin Tiange’s cheek, and are coquettish.

Teasing the goblin all the way, Qin Tiange soon came to a garden, here is the cherry blossom garden, a cherry tree stands in the garden.

In the cherry blossom garden, the garden is full of fragrance, and the colors are gorgeous.

Walking on the cherry blossom trail, the petals falling around, with a fragrant fragrance, give a quiet, serene, elegant and noble atmosphere.

Qin Tiange followed a falling cherry blossom, sniffed softly, and murmured, “The mutated cherry blossom shows a certain magic power, and it seems that the petals are extremely rich in medicinal properties.”

Eight out of ten sentences don’t care about pharmacology, Qin Tiange is completely caught in the pharmacist’s inheritance knowledge and cannot extricate himself.

When he walked, he stopped in front of a largest cherry tree, and quietly looked at the cherry tree in front of him.

In fact, the cherry tree demon is dispensable for Qin Tiange, because the cherry blossoms are just for viewing. I don’t want the peach tree essence to produce a large number of spiritual peaches, not to mention those peony, lily, rose and other flower demon can gather. A hundred flowers linger.

But this time he was miscalculated. He originally thought that there was no gain here, but he never thought that the cherry tree demon in front of him actually protruded a few roots from the ground and wrapped them in ceramic tile jars.

“This is ...” Qin Tiange froze, looking suspicious, looking at the jar before him, which was well sealed and faintly scented with wine.

A snap, Qin Tiange opened one of the jars, and suddenly, a strong scent of wine smelt, making him dumbfounded.

“Sakura wine?”

This jar is a fine wine, and it is still cherry wine. He looked weird, looking at the cherry tree demon in front of him, and some did not understand where it came from.

Sakura wine, Qin Tiange just remembered that this wine has the peculiar effect of strengthening the body and extending life.

Especially the mutated cherry blossom now seems to be more medicinal and spiritual. Once this mutated cherry blossom is used to make wine, it must be a pure natural precious medicinal wine.

Grunt ... A mouthful of cherry blossom wine, as if drinking a flame, then the aroma spreads from the throat accompanied by a hot air, leaving the nose and mouth fragrance for a long time.

“Good wine!” Qin Tiange exclaimed loudly. He really likes this kind of wine, not only with strange wine and floral fragrance, but even more amazingly, this wine can actually improve his physique.

Although it is rare, if you drink this cherry blossom medicinal wine for many years, your body will gradually strengthen and your physique will become stronger and stronger. There is really no way to reject this good thing.

“I want this wine, I don’t know how much you have?” Qin Tiange was curious, and asked the question, wanting to see if the cherry tree demon had any more.

As a result, the ground tumbled like a tide, and soon one huge tree root penetrated out, wrapped around a wine jar, and there were hundreds of them, which made Qin Tiange laugh with a smile.

Chapter 205 - Turn back a Suzaku!

Qin Tiange smiled and collected hundreds of altar sakura medicinal liquors, and no matter where he got the cherry tree demon, as long as there were good things. [Full text reading]

“The transaction is completed and the cooperation is happy!”

Hundreds of crystal nuclei were left, Qin Tiange took the goblin away, left the cherry blossom garden, and left the cherry tree demon happy to count the crystal nuclei, full like a child.

After every transaction, Qin Tiange Du Le’s reluctance closed up, and he almost couldn’t find the North. However, he still remembers that there is a particularly large willow tree on the top of Lianhuashan Park, which is rumored to be 100 years old.

The century-old willow tree was a bit difficult to remember, reminding him of the hundred-year-old banyan tree that he had encountered in the town at first, and only a few days later, a terrible tree demon formed.

If it wasn’t for killing the other party with explosives, it is likely that Qin Tiange would not be able to take the other party. Now thinking that there is also a hundred-year-old willow tree here, you must go and see.

“A hundred-year-old willow tree is a bit troublesome.”

Standing half-waist on Lianhua Mountain, looking up, on the top of the mountain in the distance, a towering willow tree stands proudly and stands high like a lonely tree demon.

When Qin Tiange was going to the top of the mountain with a little fairy, and was going to meet this hundred-year-old willow tree for a while, a clear cry came from the sky in the distance.

cry...!

A cry, startled the entire Lianhua Mountain, caught Qin Tiange’s attention, looked up, and saw a colorful flash of light flying fast.

After seeing the colorful figure clearly, Qin Tiange cursed with a smile: “It turned out to be the dead parrot. I haven’t seen these days, and I don’t know where to die.”

But before he finished laughing, he saw a flaming figure flying behind the parrot. It was extremely fast and pulled out a long flame.

Seeing that fiery figure, Qin Tiange looked slightly startled, looked carefully, and captured the appearance of the red figure flying fast.

A fiery feather with blue-purple circles, nine feathers at the tail are particularly long, with a cloud of red ignition, coiling and transpiration, the two phoenix feathers on the head are extremely bright, as if a phoenix is reborn.

But Qin Tiange knew that it was not a phoenix, but a mutant peacock. The gene mutation awakened the ancient genetic memory and obtained some mysterious evolution.

“Awakened by the Suzaku gene?” Qin Tiange was surprised, looking at the huge Suzaku flying overhead.

Then, the colorful light flashed, and I saw that the parrot that had disappeared for many days came to the front and held her head upright, let alone the proudness.

“Boss, I’m back!”

The macaw landed and spoke like this, but before Qin Tiange spoke, he saw the fiery red figure coiled in the air and landed rapidly.

The three-meter-long body, half a meter high, looks exquisite and petite, and the feathers are smooth and bright, with a fiery red luster, like a burning flame.

“Boss, this is my girlfriend Suzaku!”

The macaw stretched out a wing to catch the flaming bird that landed, and said the first sentence that Qin Tiange did not vomit blood.

“Cough ...” Qin Tiange coughed twice and couldn’t help crying. “You are a dead chicken. I haven’t seen them these days. Where did I go? It worried me for a few days.”

The Macaw shrank and shrank his head when he heard it, but the next moment he stood up and looked very proud, which made Qin Tiange want to beat him.

Just listening to the macaw proudly saying, “Boss, I went out to find my girlfriend. Do you think this will bring you back a brother?”

“Suzaku, this is my boss, don’t be shy, say hello!” The macaw clamored at the fiery red peacock and crackled a lot.

Qin Tiange’s eyes widened and he looked at the flamingo, who called himself Suzaku, bowed his head shyly and hid under the macaw’s wings.

puff!

Seeing this, Qin Tiange didn’t hold back, almost smiled. This macaw is so good. Even after going out for a few days, he came back with a red peacock who called himself Suzaku.

He looked at the majestic look of the macaw, and he was extremely speechless. Some didn't know what to say, but he was still a little happy. He turned a peacock who awakened the genetic memory of his ancestors. It was amazing.

"A parrot with a peacock?" Qin Tiange pumped at the corners of his mouth, and secretly squeezed a cold sweat. This dead parrot really looked for it.

I saw the parrot proudly: "Boss, you don't know. I have been exhausted these days. I haven't seen a phoenix in many places, but I accidentally encountered Suzaku. We fell in love at first sight and went there yesterday. After a day of honeymoon on the south volcanic island, I brought you back to see the boss. "

"How? Is it a good match?" The parrot was so proud, as if to say that I was very good.

Qin Tiange couldn't cry. He secretly said that you are very powerful. You even know how to talk about love, and even went to the volcanic island for a honeymoon?

"I'm going, am I out of date? Even better than a parrot?" Qin Tiange was skeptical of life.

Looking at the shy peacock in front of him, and then looking at the proud parrot, Qin Tiange suddenly didn't know what to say.

At this moment, the dead parrot suddenly remembered something and hurriedly said, "Boss, when I came back with Suzaku, I found that a lot of bugs were coming here."

Ok?

Qin Tiange looked slightly condensed, looking at the parrot in front of him, that is, the Suzaku nodded gently, indicating that this was the case.

"A lot of bugs?" Qin Tiange was surprised.

The news that the macaw said caused his alarm, as if something bad was about to happen.

Sure enough, I just listened to the parrot saying, "Boss, there are too many worms, and the number is huge. They are all sent by the group. There are ants, cockroaches, flies, mosquitoes, and there seem to be many kinds of poisonous insects. I can't count them anyway."

Qin Tiange's heart was a little dignified and he thought things were big. He carefully recalled the memories of previous lives, and did not seem to have heard of a large number of insect surges.

"Little guy, I'm going back, and I'll leave it to you."

In the end, Qin Tiange gave up his plan to continue up the mountain, and directly explained the goblins around him and let it do the work for him.

He touched a lotus of the little fairy, and quietly commanded: "Little boy, there are many kinds of fairies on the mountain of lotus. I now give you a task to conquer all these fairies. If you disobey, you can swallow the other party. The essence of life Dead chicken, you act with the little ones. "

Qin Tiange hurriedly explained, and after getting the macaw's guarantee, he hurried back to Qinglian Apartment.

At the scene, only the colorful couple, the macaw and his girlfriend Suzaku, who were turned back, were quiet. Especially when Qin Tiange left, the macaw immediately persuaded.

“Auntie, don't look at me like this, okay, my girlfriend is beside me, can you give me some face?”

The macaw came forward cautiously and whispered to the seven-color lotus, and said this sentence. Where does that look like the majesty just now?

Uh ...

The little fairy wielded a rattan woven from lotus leaves, and patted the parrot's head symbolically. Then she dragged her roots and walked to various parts of Lianhua Mountain.

It is to complete the task of Qin Tiange, to conquer the spermatozoons on the entire Lianhua Mountain. As for the macaw, he honestly took his new girlfriend Suzaku, and started the journey to conquer the fairies on the Lianhua Mountain with the little fairy. .

Chapter 206 - Signs of great change

In the meeting room of Qinglian Apartment, Qin Tiange immediately urged all high-level personnel to meet as soon as he returned. [No Popup Novel Network]

Everyone was here, one by one, looking dignified, the atmosphere in the meeting room was a little heavy, and they all felt a sense of wind and rain.

“This time we called everyone to tell you a message.”

Qin Tiange glanced seriously at all the people present, he slowly said, “My little parrot came back and encountered a large number of bugs migrating here.”

“insect?”

Everyone was stunned, followed by a chill, and started to sweat coldly. Insects, horrible insects after mutation, swarm up and make your scalp numb.

Now that Qin Tiange has heard that a large number of bugs are migrating here, doesn't it mean that they are facing the attack of countless mutant insects?

“Although I don't know why there are so many types of insects migrating collectively, it is definitely not a good thing. We must be prepared.” Qin Tiange warned solemnly.

He waved his hand gently, took a huge thing out of the space bracelet, and looked curious and puzzled.

“This is a potent insecticide that I exchanged from the Heritage Stele. It can kill all insects below two stars.”

Qin Tiange tells the origin and role of this thing. It is exactly an insecticide. It is powerful and toxic. It can directly kill all kinds of insects below two stars.

To put it bluntly, pesticides are poisons, but don't think that they can kill insects, that is, humans accidentally drink poisoned and die.

Zhuo Tianfan wiped his forehead with cold sweat, and laughed: "Boss, since we have this insecticide, we should be able to resist those inexplicable insect waves."

"Yeah, as long as the amount is enough, how many insect waves come and die." Nie Teng also agreed, absolutely no big deal.

What if it mutates? The worm is still a worm, but it is much more powerful and huge, but it is still a worm in essence.

"I'm not worried about the bugs, but the inexplicable reasons behind this wave of insects." Qin Tiange quietly desktop, warning everyone present.

He felt vaguely that this time the insect tide was not so simple on the surface, there should be reasons he didn't know.

"Report emergency information!"

At this moment, there was a silhouette rushing outside the meeting room, panting heavily, rushing into the meeting room with a panic in his face, and let everyone's mind be a little bit confused.

Qin Tiange's face was slightly condensed, and he asked the person to drink a glass of water and breathe. Then he asked, "Slowly, carefully, what happened?"

The young man who came to report, after breathing a breath, said: "Brother Qin, our group was outside the base, and suddenly found that there were countless birds flying in the dense sky.

"birds?"

After listening to his dignified expression, Qin Tiange suddenly stood up and walked out of the conference room, suddenly feeling awkward in his heart.

Nie Teng, Li Zhi, Liu Ye and others followed one after another and ran to the top floor of the apartment one by one, looking at the sky in the distance.

I have just heard a large number of bugs migrating, and now I have heard countless mutant birds flying in groups in the sky. The situation is a bit unusual.

"Just look there."

Liu Ye pointed at the distant sky, and a large cloud of clouds wafted, and a dark cloud covered the sky.

It was not a dark cloud, but a large variety of mutant birds, sparrows, magpies, thrushes, owls, Swifts, and other mutant birds in groups, and the numbers were unclear.

There are too many of these birds, almost covering the sky, and the black clouds forming the top of the sky are coming towards the base.

"Why are there so many birds?" Qin Tiange gazed at the countless flocks of birds that gradually flew over the base.

There are many species, there are all kinds, and even some rare birds, such as albatross, red-crowned crane, and so on, all come together to fly here.

Surprisingly, there are also many huge eagles, which did not attack to catch other birds, but they were all right, which is really strange.

Aside, Long Xiaoya looked surprised and said, "Tiange, these birds seem to be migrating. Is there anything important to happen?"

"It's not just birds, you see, in the sewers in the base, and in the corners of the city, those mouse, cockroach, and toad came out."

Qin Tiange suddenly pointed at the parties of the base, and in the sewers, countless cockroaches and mutant mice spewed out, and a huge toad appeared.

"It's not right, it's not right!"

For a time, everyone looked dignified, watching these mutant creatures like crazy, as if they were collectively migrating, even if they encountered humans, they would not attack.

This kind of thing has aroused everyone's vigilance and attention. Everyone has a huge natural disaster, and all animals have unusual behavior.

Wow

At this point, the ant colony appeared, dense and endless, as if a black wave surged quickly from the base.

These ants do not stop at all, they are not targeting this base at all, but they are migrating. The speed is very fast and makes people scary.

Grunt!

Many people watched these huge groups of mutant creatures appear, one by one in horror and evasion, but the suspicious discovery did not attack them.

At this time, everyone realized that things were not going well, and something big would happen.

"The great migration of species will bring disasters!"

Qin Tiange walked around the rooftop, looking extremely dignified, feeling extremely depressed in his heart, and having a sense of irritability.

He was born again, and naturally knows some things from the previous life, but he has never heard of any natural disaster in Shenzhen or even at the beginning of the end of China.

The only thing that can be regarded as a huge disaster is the tenth year of the last days. The entire earth has entered the Little Ice Age, everything is depressed, the snow and ice, and the oceans have been frozen.

That was the biggest disaster that humanity has encountered, but it was only ten days after the last days, and now only a few days?

"Why the hell?" Qin Tiange's anxious cold sweat came down.

He looked at all kinds of mutant species and migrated in large numbers. He didn't need to know that there was a huge disaster coming soon.

After thinking about it, Qin Tiange finally decided to be prepared, otherwise if something happened, it would be too late.

“The base is ordered, and everyone is gathered in the center of the base to accelerate the establishment of the base's peripheral defense circle. We must be prepared for the disaster.”

Qin Tiange issued a mobilization order, watching the mad emergence of countless mutant species, moving rapidly in the tropical direction, and there was a speculation in his heart that made him tremble and fear.

“Does the wings of a butterfly really have such a great power to set off a great transformation of the whole earth?” Qin Tiange murmured silently to himself.

He faintly realized that his rebirth seemed to change something, and this little butterfly born again began to make an unprecedented change.

“The Butterfly Effect!”

This is the only answer Qin Tiange can think of, and that is the butterfly effect, because his rebirth caused the destiny of the entire world to deviate from the previous life, and even caused inexplicable and unknown changes.

boom...

A shock came from The buildings were shaken slightly, and everyone looked mad.

“earthquake?”

The inexplicable tremor made Qin Tiange's heart pound, his face changed dramatically, and he felt a slight tremor from under his feet, which became stronger and stronger, and he couldn't help horror.

“Boss run, run, the earthquake is here, the earthquake is here!”

Suddenly, a scream of anxiety came from the air, and a colorful light suddenly landed. It was the colorful parrot.

It looked anxiously, followed by the Suzaku, and the young couple flew in haste to tell Qin Tiange the news.

The earthquake is here!

Qin Tiange looked startled, and yelled, “Hurry up, everyone evacuates, and immediately evacuates to the open area.”

“Asshole, why didn't you say it earlier?”

Looking at the colorful parrot in front of him, Qin Tiange felt angry, weren't you a bird? He didn't say it earlier, but now he said that he was really angry with him.

Chapter 207 - Into ruins

A huge tremor came, the ground shook, and the vibration became stronger and stronger, as if something terrible was rolling beneath the ground. []

Boom

A building collapsed, a billowing smoke was set off, and a huge roar came out, alarming all survivors in the entire base and even in the city.

“Earthquake is coming, everyone!”

Suddenly, a scream came from all over the base, and many survivors fled the house in terror and ran to the open area.

Qin Tiange and others are on the top floor, and now it is too late to run. The only way is to jump from here.

“Asshole, I was killed by you.” Qin Tiange looked ironed, staring fiercely at a pair of macaws who had done something wrong.

It has a natural sense of instinct. It can know in advance that an earthquake is coming, but because it has just returned from a Suzaku, it is too excited and forgets it.

Now, Qin Tiange and a large group of high-rises are on the top floor, watching the building shake, and many buildings in the distance have collapsed.

boom!

The next moment, the building tilted suddenly, and a loud noise came, and the last thing you wanted to see happened.

The apartment building is tilting, Qin Tiange and others have changed their faces, and they will really be buried in the ruins if they don't jump.

“One drop per person, give me a drink and jump down.”

Qin Tiange was very simple, took out a liquid of life, drank a drop, and then let everyone in the scene drink a drop, and then he took the lead to jump down from the inclined roof.

At the height of thirty floors, ordinary people have absolutely no chance of surviving, but Qin Tiange and others have been strengthened and have strong physiques.

“jump!”

Nie Teng hugged his little daughter-in-law and jumped down without hesitation. Li Zhi also jumped down holding his daughter-in-law.

Yang Xiaolin, Wu Xiaoyu and others jumped one after the other, leaving Liu Yan and Long Xiaoya and others, looking hesitant, but in the end they jumped.

Bang bang bang

Just like dumplings, more than a dozen or twenty people jumped down from the thirty-story building and smashed large pits, especially Qin Tiange himself. The whole person fell into the ground and exploded a huge pit.

His complexion was flushed, and the powerful shock made him almost unbearable. Fortunately, his physical fitness was strong enough, and he used the parrot and Suzaku body to reduce the falling strength and speed in the air.

Everyone landed safely, and no one was injured. The key to both Macaw and Suzaku is to use their bodies to slow down everyone and finally land safely.

“go!”

Qin Tiange jumped out of the big pit, drank aloud, and led a group of people to an open area, which was originally cleared up to build a square.

A huge shock came from the feet of the crowd, and it became more and more violent. There were a large number of people in the back of Qinglian’s apartment, and they ran out in panic.

Bang!

Finally, when everyone ran out, all the buildings in the entire apartment collapsed cleanly, rumbling vibrations came, the sky was filled with dust, and rubble penetrated through.

The earthquake and natural disasters directly destroyed the base under construction, and all buildings collapsed and turned into ruins.

Many survivors who were too late to run were buried in the ruins on the spot, and many were crying, screaming, fearing, and flustered.

Even those who have strengthened are particularly vulnerable. Under the horrible earthquake, the feeling of high-rise buildings collapsing and sky falling apart makes people unable to find hope for survival.

“Do not save me, save me.”

In the distance, a woman was tripped over by a large rock, and she was lying there, the building rumbling down behind, and buried her instantly.

“Come on, those kids!”

Liu Yan’s face changed wildly, and he took no risk, and rushed directly to a school under construction, where all the children gathered around the base.

Long Xiaoya also rushed out. Seeing this, Qin Tiange’s face changed slightly, but he had to keep up with his scalp. All the helpless people had to grit their teeth and rush into the school.

“Save people!”

When I rushed into the school, I saw a large number of children crying, despairing and panicking. Qin Tiange had an impulse to swear, but he had to rescue others.

Everyone was strong and rescued the children who were under the stones. Then one person and a few picked up the children and ran.

There are hundreds of underage children in the entire base. They were originally studying in class, but the earthquake came too suddenly, causing the current chaotic situation.

Fortunately, the schools that have just been built are not high, or even just emptying some of the original factories to make schools, so the rescue is fast.

Hundreds of children were rescued, and almost all of them gathered in the open space, hugged one by one, looking pale, feeling the horror of the ground shaking, and panicked.

boom!

Boom Boom Boom

One building after another collapsed, high-rise buildings collapsed, the plant collapsed, and the reinforced concrete walls were completely broken.

Moreover, the one hundred huge engineering mechas were overturned to the ground by a huge shock, and they could not climb for a while, and were buried under tall buildings.

The earthquake was too violent. No one has ever experienced such a devastating feeling. The building collapsed, the ground cracked and sunken, and the rumbling fell down.

“Retreat, rewind!”

Seeing the ground falling around, Qin Tiange looked horrified, and had to scream and awaken all the survivors, one by one in fear.

At this time, the entire base and even the entire Shenzhen City area were experiencing this terrible earthquake. Not only were humans robbed, but zombies were also robbed.

There are also countless mutant species, madly fleeing, too late to migrate mutant creatures are buried in the ruins of the city, or swallowed by the collapsed ground.

Suddenly, Shenzhen City turned into ruins, and the buildings were gone. The only ones that did not collapse were only some particularly strong houses and some buildings.

The scattered and solitary buildings stood in ruins, and the bridges and highways were completely broken.

The rivers flow backwards, the lake soars into the sky, and the scenes are horrible, as if the Great Destruction is coming.

In front of Tianwei, in the face of natural disasters, no matter what race or mutation, it is equally fragile.

Roar

There was a roar of fierce beasts, but unfortunately it soon fell down with the ground depression, and the whole was buried under the ground.

Only birds flying in the sky were truly completely preserved, and they were not affected. Various mutant creatures on the ground were hit by the earthquake.

The number of zombies has decreased, countless zombies have been engulfed by the earthquake, and only a few mutated creatures have survived.

And human survivors are even rarer. An earthquake comes and goes fast The nystagmus gradually weakens, and eventually disappears.

In the center of the base, in the open field, tens of thousands of people gathered densely. These are all the survivors, all pale and frightened.

“It’s all in ruins.”

Qin Tiange stood up slowly, ignoring the thick dust on his face, and stared blankly at the base turned into ruins. The only towering stone was the assessment stone.

Everyone is around this stele to survive. The mysterious stele cannot shake even the earthquake.

However, other buildings were not spared. Almost all the houses in the entire base were completely turned into ruins, and the newly built city walls were completely gone.

“Quick, save people!”

Soon, Qin Tiange came to his senses. Now is not the time for sorrow. All the teams should be ordered to set off immediately to save people.

He believes that there are still many people buried in the ruins, and people must be saved, otherwise, people may be disheartened now, and it will be more difficult to establish a base at that time.

Chapter 208 - Build a Steel Fortress

In the ruins, a zombie was pressed halfway to the body by cement boards, his claws ran out of the ground, and he kept roaring. []

Click!

One foot stepped on the head of the zombie, and it was blown up on the spot. Qin Tiange walked expressionlessly, standing on a collapsed floor, looking up and looking extremely ugly.

The entire base is gone, completely in ruins, and the only intact one is the 99-meter-high mysterious monument in the center.

“Just to build a base, should you give me an earthquake?”

Qin Tiange looked at everything in ruins, and felt a shudder in his heart, as if it was aimed at him.

If you think about it, you have never heard of an earthquake in Shenzhen before. It is just a corpse city. It is just a few cities that China has lost.

But in this life, why did he encounter such a weird earthquake that directly destroyed half of the base he just built?

Such a situation makes Qin Tiange have to doubt whether his previous life is real or false. Is it just false?

“Destroyed and rebuilt!” Qin Tiange gritted his teeth and patted him on the huge cement board, cracking into a place with a click.

“Save me who will save me”

Under a piece of ruin, there was a faint sound of weak calls for help. Qin Tiange, who had just arrived here, stopped and discriminated carefully. It was quickly determined that someone was under the piece of ruin.

“Get up!”

Qin Tiange grabbed half of the house with both hands, sighed, slowly lifted the collapsed half of the house, and overturned it directly.

With a bang, half of the house was smashed and the smoke and dust spread apart. Finally, the fleshy figure that was originally underneath was exposed.

That was a middle-aged man, under the rubble, Qin Tiange saw that the other party was still alive, and immediately ordered a few people not far away to help carry away the treatment.

boom

Suddenly, a violent shaking came from the huge ruins not far away, and then burst into a bang, and a huge steel arm protruded from under the ruins.

Then, a fifty-meter-high engineering mech climbed up. This was an engineering mech buried under the ruins when the earthquake struck.

After the earthquake passed, they drove up their mechs one by one, stood up from the ruins, and looked at the bases that turned into ruins one by one.

“Everyone, clear the ruins, search for the survivors.”

Qin Tiange jumped up to the top of a semi-collapsed building, gave an order to everyone, cleared the ruins, and searched for and rescued people.

A tense long journey began. One hundred engineering mechas joined, setting off ruins, and digging through the ruins of survivors for search and rescue.

With the engineering mech, the rescue was reduced in difficulty and speeded up. Before dark, all the survivors in the entire base were rescued.

In the middle of the ruins, an empty field was densely packed with all the people who survived this time, one by one embarrassed, still looking with a hint of fear.

Many people suffered serious injuries, minor injuries, and even some were unconscious. Many corpses were placed in the corner of the ruins. There were hundreds and thousands of corpses.

“Boss, it's counted. This earthquake came suddenly, causing more than 3,000 survivors and 113 deaths in our base.”

Zhuo Tianfan approached Qin Tiange and reported this statistic in a whisper. More than 3,000 people were injured and 113 people died.

Qin Tiange said nothing and looked at the corpses silently. For a while, the atmosphere at the scene was a little dignified and depressed, and many people could not breathe smoothly.

Looking at the piled up corpses, one by one, incomplete, dead and miserable, were dug out from under the rubble.

“I ordered that starting today, all teams go out and collect all the steel for me, with particular emphasis on searching for large steel mills. I want to build a steel city.”

Qin Tiange turned around arrogantly, and gave such a command indifferently, making a decision in his heart to build an all-steel city.

He was stimulated. He just built a planned base, but didn't want an earthquake to make it all go away.

Looking at the ruins everywhere, and the corpses on the ground, Qin Tiange couldn't help the fire, secretly gritted his teeth, and decided to build a steel city.

“Creating a steel city?”

After hearing this, the tens of thousands of people who survived here were stunned, and looked at each other, all surprised by Qin Tiange's words.

The so-called steel city is actually a more accurate steel fortress, a war fortress made entirely of steel.

Qin Tiange was fierce. Since I was not allowed to build an ordinary base, I would build a more magnificent and stronger fortress.

“The engineering mech team will clear me all the ruins within the planning area of the base from tomorrow, and all the obstructions will be razed to the ground.”

“From now on, all survivors, including me, will contribute to the construction of the next steel fortress. Whoever is lazy and who does not contribute, then don't blame me for breaking his food.”

Qin Tiange's eyes glanced coldly across the tens of thousands of people present, one by one, his heart chilling, his back chilling, just as if he had been stared at by a fierce beast.

They are actually bitter in heart. Many people want to oppose it. However, their arms can't twist their thick thighs, and most of them agree with it. They must choose big stream, or they will be ruthlessly eliminated.

Most importantly, most people look forward to having a strong and large fortress for them to live in, so they don't have to worry about it all day.

“Tonight, the regiments are on duty on alert, and senior officials are following me.”

After Qin Tiange finished speaking, he turned and walked over a ruin. Behind him, Nie Teng, Liu Ye and other high-level officials followed in silence.

On the ruins, Qin Tiange took out a map and patted it with his big hand, pointing at one of the drawn circles.

“Li Weiwei, here is a mission to take your dead camp to this place, where there is a high-tech research institute.”

Qin Tiange pointed to a place on the map, and he commanded Li Weiwei in a very serious tone:

“You remember, no matter what, all the scientific and technical personnel in that high-tech research institute should be invited to me come back.”

When he said the word “please,” he deliberately stretched it, so that Li Weiwei grasped the implied meaning in it, and no matter what method was used, all the scientific and technological personnel there should be brought back.

“Understood, guaranteed to complete the task!” Li Weiwei directly promised.

Qin Tiange nodded, pointing to an area of the map again, and ordered: “Nie Teng, with your wasteland development team, evacuate all these steel markets, and all those who come across steel are moved back to me. . “

“Here and here and here are the largest building materials market in Shenzhen and several of the largest steel mills. Your task is to evacuate all steel building materials in these places.”

Qin Tiange ruthlessly called his team to go to those places, evacuated all the steel, and prepared to build a steel fortress.

“Li Zhi, your task is to search for survivors as far as possible in Shenzhen, and to gather them together, we need more human resources.”

“Anyway, you should lie to me if you lie to me.” Qin Tiange stared at Li Zhi, the head of the Second Wasteland Regiment.

The latter looked stunned and assured loudly: “The boss is assured that I will bring back all the survivors I met.”

This time, Qin Tiange was ruthless and wanted to build a steel fortress directly, but it required countless manpower and material resources, especially steel materials.

“Party!”

After explaining the matter, Qin Tiange left a sentence, regardless of a group of face-to-face high-rises, went directly through the ruins alone and came to Lianhua Mountain.

Chapter 209 - Unknown creature

When I came to Lianhua Mountain, I saw a lotus flower trembling, and the soil around it was sunken a lot. It was obviously frightened.

Rustled rustled

At the sight of Qin Tiange, the goblin immediately entangled him, shaking seven lotus flowers continuously, as if telling the terrible earthquake just now.

Qin Tiange froze and looked at the goblin. Although he didn’t understand what it said, he quickly saw all the lotus leaves of the goblin pointing at one place.

“This is” Qin Tiange stunned, looking at a huge pothole that collapsed in front, with a width of hundreds of meters, as if it were a tiankeng.

He looked in horror, came quickly to the tiankeng, stood silently on the edge and looked down.

On the Lianhua Mountain, a bottomless crater appeared hundreds of meters wide. Fortunately, it was not collapsed in Taolin or other gardens.

Didi tick

At this moment, a rush of sirens sounded from the wrist. When I looked down, I found that it was the wristwatch that contacted a hundred engineering robots.

Seeing this, Qin Tiange was shocked and immediately contacted the one hundred engineering robots.

Kakaka

Soon, a mud-covered figure quickly climbed under the tiankeng. It was the engineering robot No. 001, and it quickly climbed up.

“Report to the commander that we are in trouble and the project is forced to stop.”

No. 001 came up and reported this information directly. The red mud covered body looked like it had just been removed from the quagmire.

Qin Tiange looked stupidly at the engineering robot No. 001 in front of him. There was a kind of bad hunch in his heart. It seemed that the earthquake was related to these engineering robots.

“What trouble are you having?” He asked cautiously.

No. 001 didn’t speak, just a little chest, and then lased two eyes with two eyes, and put a video directly in front of Qin Tiange.

“His Commander, No. 086, 057, 048, and 099 encountered unknown biological attacks during the excavation and initiated the self-destruct procedure.”

With No. 001 saying this, Qin Tiange listened in horror, staring at a video released by it.

Above, it is the scene that the engineering robots are working, except that when drilling into the underground three kilometers deep, they accidentally opened up an underground river.

Roar

In the underground dark river, the water was surging and surging, and there was a vaguely roar, and then an engineering robot watched the underground dark river vigilantly.

After a rush, a huge black shadow rushed out of the river and swallowed the engineering robot in one gulp. It was lightning fast and fierce.

“Dragon?” Qin Tiange stunned, the picture freezes, he saw the true face of the black shadow, his huge head was full of cricket horns, and his eyes were full of cold and murderous.

From the picture, it looks like a dragon head, full of fangs, and a ten-meter huge head swallows an engineering robot.

Then look at the body that is sticking out of the river. It is densely covered with black scales, and there are fine features on the back. The two dragons must be swaying, and they look like a real dragon.

boom!

The next moment, several engineering robots rushed over in the picture, and just swallowed up by the unknown creature suspected of a true dragon, and swallowed four engineering robots.

However, the next scene scared Qin Tiange and frowned, and saw that the unknown creature that had swallowed the four engineering robots suddenly showed a painful expression.

Sound of wailing

It opened its mouth and screamed, and then a strong light burst, and the picture was completely lost. The entire underground river was lifted to the bottom and collapsed instantly.

Seeing this, Qin Tiange understood without guessing, it was the engineering robot that destroyed itself.

“You, can’t you fight?” Qin Tiange looked pale, as if asking something, asking in surprise.

And No. 001 honestly answered: “Hi Commander, we do not fight, but in danger we will start the self-destruct process.”

“Self-destructing procedure?” Qin Tiange said with a heartbeat, “that is, as long as you are in danger, you will explode?”

“Yes, Commander!” Binoculars No. 001 put down the projection and answered truthfully.

Qin Tiange’s face changed, looking at the engineering robot No. 001 in front of him, and he was a little speculative to the cause of the earthquake.

But he still refused to believe, so he asked directly: “How powerful is your self-destruction?”

Robot 001 tilted its head for a moment, thinking as if to make a comparison, and then said, “All self-destruct procedures exploded, equivalent to the power of a nuclear bomb of 100,000 tons. puff!

Without a breath, Qin Tiange was not strangled, and an engineering robot was equivalent to a nuclear bomb of 100,000 tons equivalent?

He stared in horror at No. 001 in front of him and asked, “Will I let you start the self-destruct process?”

“Her commander, no!” Answer 001 disappointed him.

But Qin Tiange immediately thought of the question, that the unknown creature hiding in the underground dark river was dead by the power of four engineering robots and died?

“Take me down and see, I’m going to the site to investigate!”

Qin Tiange’s face was so severe that he directly ordered No. 001 to take him to investigate, otherwise his heart would be disturbed, and he even had the urge to hit his own mouth.

Doesn’t it mean that the earthquake was caused by a huge explosion caused by the engineering robot’s self-destruct procedure when it encountered an accident?

Four 100,000-ton nuclear bombs exploded under the ground, and that terrible impact directly affected the ground and even caused an earthquake.

“Did I make a cocoon to restrain myself this time?” Qin Tiange faced bitter, sitting on Robot 001, and carried it down the tiankeng.

The hundreds of meters wide tiankeng was caused by the collapse of the engineering robot after it exploded. It went down the tiankeng.

Two kilometers deep, it was still drilled into it by other engineering robots, and then barely came to the area where the explosion occurred.

Going down to the ground, Qin Tiange saw some underground base facilities that had been excavated, but was destroyed by the bombing.

“It looks like the underground base can’t be engaged.” Qin Tiange sighed silently.

Soon, dozens of engineering robots exerted force at the same time, dug a huge channel and came to the scene of the explosion.

Here, the sediment and rocks of Jiecheng crystals are everywhere, and the original underground river has long been blasted and blocked.

“Lord Commander, this unknown creature.”

When he came to the explosion site, more than 2,000 meters deep, Qin Tiange stopped and looked at the unknown creature that was blown into pieces in front of him.

The only thing that could be seen clearly was that huge head, and the entire body was completely blown up.

What shocked him was that four 100,000 tons of nuclear bombs had exploded in it, but they had not been completely reduced to ashes?

How powerful is this creature? Qin Tiange couldn’t help the cold went forward, silently looking at the head of an unknown creature up to ten meters in height, like a terrible dragon head.

The long beard was burned out, the horns were completely broken, one of the eyes burst, and a large hole was opened in the head, which was obviously blown up terribly.

“Is it a dragon blood creature?” Qin Tiange remembered a message that there were rumors that a dragon blood creature had appeared in the previous life and awakened a certain creature with the gene memory ability of the ancestor. Because it looks like the legendary true dragon, it is called dragon blood biological.

In fact, the so-called dragon blood creatures are all extinct dinosaurs. Because of the mutation of dark energy, they awaken the ancient dragon blood genes and become stronger and scarier.

This is the dragon blood creature.

The creature in front of him is a creature awakened by the dragon's blood gene. No wonder four engineering robots were attacked and started the self-destruct process.

"Notify all robots and stop the underground base plan."

Qin Tiange was expressionless, gave this order to No. 001, and then stepped forward to collect the corpse of the creature one by one, so that No. 001 was brought back to the ground.

Chapter 210 - Dragon Blood, Dragon Ball

In front of Lianhua Mountain Tiankeng, Qin Tiange came up from the ground and looked silently at the huge Tiankeng in front of him.

"Can this crater be filled?"

As soon as the voice fell, No. 001 stood up and explained: "Her commander, this pit is not filled, but can be used to build an underground entrance."

"Don't you say that you have cancelled the plan for the underground base?" Qin Tiange frowned slightly, saying a little displeasedly.

No. 001 bowed his head slightly, explaining: "Her commander, although most of the base has been destroyed, a part of it remains intact. As long as it is rebuilt with special steel, it can become a new underground base."

Qin Tiange looked at Tiankeng and did not speak, silently thinking about this problem, in the end, he still agreed to this decision.

"Okay, you split up half of the engineering robots to do this. I will send you the steel. Be sure to build this underground base."

After Qin Tiange instructed, he divided half of the engineering robots to continue to build the underground base, but there was already a kind of worry in his heart.

Because engineering robots can self-destruct, and the power of self-destruct is as high as 100,000 tons of nuclear bomb equivalent power, it is simply appalling.

"By the way, in addition to the attack, under what circumstances will you start the self-destruct process?" Qin Tiange is most concerned about this issue.

Because these robots are time bombs, once the self-destruct procedure is triggered, it is a horror scene of nuclear bombs exploding, which makes people feel hairy.

"Honour Commander, we will start the emergency self-destruct procedure when we are in danger of our safety, and we will also start the self-destruct procedure when we are dismantled." The answer of No. 001 made Qin Tiange extremely depressed.

He originally thought that when the researchers arrived, he immediately dismantled these engineering robots to study, but he thought that the idea was broken.

"The damned Zhixing products are actually time bombs." Qin Tiange couldn't help cursing, angry.

In fact, it is nothing. If he manufactured these robots, he would also install a self-destruct program, which would not only prevent the leakage of information resources, but also ensure that the technology would not be stolen.

Once dismantled, a self-destruct process is initiated, which is enough to blow up all the information and technology of these robots themselves.

“Enough!” Qin Tiange sighed uncomfortably, and then said, “Separate half of the engineering robots and go down the mountain to help build the steel fortress. You design a plan for me.”

“Yes, Your Commander!”

No. 001 took the lead immediately, and shot two rays with both eyes, forming a projection, and soon calculated and planned on it.

Within a minute, a huge and complicated drawing appeared in front of Qin Tiange, making him unable to bear it.

“What is this?” Qin Tiange asked in amazement.

No. 001 answered truthfully: “Commander, this is a small starry sky fortress design.”

“Cough cough”

Qin Tiange didn’t cough and died, looking at the No. 001 in front of him with disbelief, he suddenly realized a problem.

This group of engineering robots will build all kinds of buildings. Doesn’t it mean that they have all kinds of building data and design information in their chips?

“You, can you give me a copy of the design drawings and architectural knowledge in the chip?” Qin Tiange asked carefully.

001 engineering robot with its head down and contemplation, eyes blinking red, as if comparing various regulations and taboos in its chip.

Soon, it looked up again and nodded. “Okay Commander, there is no such thing in my restrictions.”

“Very good, you make a copy right away, and other robots also make a copy for me!” Qin Tiange was so excited that he almost didn’t cheer.

In these engineering robot chips, there is a design drawing of the starry fortress, which is extremely accurate and incredible.

In other words, as long as all the knowledge of the chips of these engineering robots is copied, then there is likely to be a variety of building construction materials.

Developed!

This is Qin Tiange’s idea. I think these engineering robots are actually useful in addition to the self-destructive procedures that make people uncomfortable.

“Okay, you can do it yourself.” Qin Tian Gemei Zizi collected a copy of the chip, and drove away the group of engineering robots.

At the scene, Qin Tiange and the goblin were left. With a smile on his face, he didn't mind the destruction of the base.

“Let me see, is that creature a dragon blood creature?”

Soon, Qin Tiange, who calmed down, began to think about another thing, that is, the unknown creature that suddenly attacked the engineering robot under the ground. Is it a dragon blood creature?

He took out the huge dragon head left by the creature, and observed it carefully, thinking about some information from previous lives.

“It is rumored that a strange bead may condense inside the dragon's blood creature's brain, known as the dragon ball.” Qin Tiange whispered, touching his chin.

The next moment, I saw him take out the halberd and cut directly at the huge dragon head in front of him, and the halberd went straight without breaking the keel.

Qin Tiange looked at Euphorbia in surprise, only to find out that when he didn't know when, the sharpness of Euphorbia's sharpness became more terrible. One halberd broke the scale and keel of this powerful dragon blood creature.

Click!

Opening the skull of the dragon head, a drop of silver-red blood caught Qin Tiange's attention. A closer look revealed that it was the only drop of essence blood left by this creature.

“Dragon blood?” Qin Tiange squinted his eyes and revealed a white tooth, hehe smiled: “Good luck, there is still a drop of dragon blood.”

He quickly collected this drop of dragon blood, and then carefully searched the rumored dragon ball in the open dragon brain, but did not know if it was there.

Ding

Looking for it, Suddenly, Euphorbia bumped into something, sending out a clear argument, which caught his attention.

Digging through the brain, in the center of the brain, Qin Tiange really saw a crystal-clear bead, the size of a fist, emitting a glorious glow, very mysterious.

“This is the Dragon Ball?” Qin Tiange took up the bead, wondering if this is the rumored Dragon Ball?

He always tried it. He never thought that there was a Dragon Ball. He never thought it was real news, and thought it was a rumor.

Now he believes, looking at the fist-sized Dragon Ball in his hand, Qin Tiange can't help violently beating, so excited.

“Well, right, Dragon Ball is going to melt?” The next moment, Qin Tiange's face changed, and he realized that the bead grasped in his palm slowly melted away.

Yes, this Dragon Ball is going to melt. Seeing this, Qin Tiange's heart is suddenly anxious. If it melts, how can it be used?

“Eat or not?” Qin Tiange tangled his face. It's not clear whether Dragon Ball can eat it, and once he had a problem, he would be finished.

When he was so anxious, Huer remembered that he had two immature immortals?

“Yes, immortality!”

Qin Tiange brightened his eyes, and immediately took out two exquisite jade boxes, which contained two immortal pills.

Originally, the immortal medicine was not contained in a jade box, but these two jade boxes once contained a strange eyeball and a mysterious purple gas.

Now, each of the two jade boxes contained an immature immortal medicine, which he took out, opened one of the jade boxes directly, and put the melting dragon ball into it.

Huh!

Sound of wailing

A green smoke rose and turned into a misty dragon shadow, but Jinger screamed in the sky, making a slight dragon groan.
