

## Dark Ages 21

### Chapter 21 - Obedient rewards

Wu Chenxi was very tangled, Meimu kept staring at Qin Tiange, hesitated on his face, and wanted to ask what he was afraid to say.

She really wants to ask Qin Tiange, how do you understand everything, as if you knew it early in the end of the world, and also know the internal conditions of mutant mosquitoes, zombies and so on.

“Moda, this is a reward for you!” Qin Tiange took out a one-star quench body potion and said, passed it.

He patted the boy who had talked to him from the beginning, and laughed: “You are very good and did not let me down. This is a reward for you. In addition, there are two boys who are brave to kill zombies. These two are For them. “

“Thank you, Boss!” Moda was excited. She took the three quenching medicaments with trembling hands.

Good things, this is definitely a good thing. Listening to Boss Qin saying that going down this one can at least increase the overall human quality by three to five times, which is absolutely shocking.

I now have it. Moda is so excited and excited, and the group of boys who are paying attention to it is just as excited, and they are all flexing their muscles. Up to two boys who killed the zombies the last time were flushed with excitement.

The other boys were jealous and envious. In the approval of Qin Tiange, Moda returned with three quenching body potions, leaving Chen Xi and Liu Yan.

“Liu Yan ...” Qin Tiange turned his head, looked at the beautiful teacher in front of him, and saw the other side’s heart beating, his face red with red ears, and his head bowed shyly.

Qin Tiange looked at her with amusement, and then said with a stern face: “Liu Ye, thankfully you haven’t done anything to disappoint me, otherwise, let alone rewards, you won’t want to see my punishment. “

“Sorry, I’m sorry, I, I ...” Liu Yan Qiao’s face turned white, and the redness faded immediately, turning to pale, and there were some six gods in the eyes.

Gently waved to interrupt her to continue, Qin Tiange chuckled: “Well, this is a reward for you. Obedience is the only reward.”

Yes, obedience can only be rewarded. This is a half-warning and a reward for Liu Ye. The carrot stick is smashed together. I believe that Liu Ye, the beautiful teacher, should know what to do next.

I gave her a quenching medicament. It was because she had been carrying a group of girls digging her brains without any private possession.

Yan Liuxuan was excited, took her hands with a trembling hand, a hardened potion, and saw a lot of girls envy, envy and hatred, so she almost ran up to dedicate herself to Qin Tiange.

“Okay, as long as you don’t interfere with me, in fact, I am a very good person to talk to.” Qin Tiange rare smile.

But this smile is definitely a demon-like smile in Liu Yan’s eyes, and he couldn’t help fighting a cold war in his heart. Just kidding, this guy is so good at talking? Take a look at what happened to the former vice-principal, and see how many students and teachers in the panic were shot and killed by accident last night.

Hitting him is an outright devil. If you have to, Liu Yan feels that he definitely won’t want to be close to this devil-like young man.

“Go, wait to convene all the girls, and distribute the collected blood sacs Qizhen according to the proportion I gave you, I am useful.” Qin Tiange explained such a sentence.

Qi Liuyan went back with a complicated mood, leaving Qin Tiange and Chen Xi with big eyes and small eyes, without speaking.

Wu Chenxi has remained silent, his eyes never moved, as if he could not wait to cut Qin Tiange to study.

“Am I handsome? If you look at me like this, I will be embarrassed.” Qin Tiange said without a word.

The result attracted Chen Xi’s eyes for a while and scorned: “You are really narcissistic, are you handsome like this? I think you are ugly to the soul.”

In fact, seriously, Qin Tiange’s looks are still very handsome, tall and straight, unique and attractive temperament, his face looks young, but his eyes have a sense of vicissitudes that do not meet the age.

He smiled slightly, not paying attention to her sarcasm, but smiled: “Beauty, this is for you, and I will hunt some zombies and take brain crystals to enhance the effect by myself.”

Throw two hardened potions, and then throw a set of silver-white steel armor in front of her. Qin Tiange turned around and walked away, saying: “Hurry up and kill the zombies, don’t die, Otherwise, my investment will be lost. “

“Asshole, wouldn’t you tell me more?” Chen Xi looked at Qin Tiange’s back, secretly gritted his teeth, and scolded him for his lack of manners.

However, she picked up the silver-white steel armor with pleasure, turned around and walked out of the classroom happily, looking for a neat place to dress neatly, and then went out to hunt a few zombies and dig the brain crystals, preparing to enhance the efficacy of the lower quenching agent. Take it again to strengthen yourself.

As for Qin Tiange, he came to Moda and others, and this group of boys who were excitedly talking stopped immediately, one by one, standing upright.

“Boss!”

Say hello neatly, so that Qin Tiange didn't spit it out, his face turned dark, and he cursed, "You guys have itchy skin? They said don't shout the boss, it's so terrible to die, if you want to shout, call my boss Or does Brother Qin know? "

"Yes, boss! Brother Qin!" A group of boys immediately changed over and shouted at the boss.

Qi Qin Tiange was satisfied, and laughed: "Very well, your performance makes me very satisfied, I generally do not treat him as an obedient person."

Huh, huh!

Suddenly, Qin Tiange waved his hand gently, and a large number of bundled steel knives and steel shields, or even spears appeared on the ground, and then there was a set of black steel armor.

Yes, it is steel armor. Originally, they saw Qin Tiange wearing black steel armor and mighty faces. Just now he saw Chen Xi got a set of steel armor.

Now when he sees these steel armors, the boys have red ears, red ears, and shortness of breath. If Qin Tiange were not in front of them, they would have rushed to \*\*\*\*\* them.

"People without weapons, half with sword shields, led by Moda."

In a word, a group of boys without weapons were assigned. Most of them were directly led by Moda. In addition to the original twelve people, Moda is now leading a thirty-man sword and shield hand. Do n't mention the excitement in my heart. .

Subsequently, Qin Tiange assigned a dozen boys born into the rifle team, and finally made up a team of thirty rifles.

A group of boys excitedly began to change weapons and armor, not even shy away, and put on armor in front of many girls, attracting a large group of girls' envy.

"You don't need to be envious!" At this time, when he came to a group of girls, Qin Tiange's first sentence made them full of expectations.

Liu Ye got serious and just listened to him saying, "Among you, there are new girls who join you, this time I will advance to you, but I said ugly that people who have benefited but do not help me, I Let her know how to get things done without work. "

"Be obedient, you can have sugar ... Um, wrong, reward is obedient!" Qin Tiange said as usual.

As a result, Liu Ye and a group of girls in front of them immediately flushed their faces, and it was not until Qin Tiange put down forty sets of light iron armor that a group of girls burst out laughing.

Huh!

Qiu Liuxian covered his mouth and smiled slightly, a flash of light flashed on her flushing face, and suddenly felt that Qin Tiange was actually not as terrible as imagined, but still a bit grounded.

Turning around, Qin Tiange heard the laughter of the girls behind her, and unconsciously tilted the corners of her mouth. Then she began to process the excavated blood sacs, and blended them with the quenching agent one by one. .

This is the method he obtained in the previous life. He was born again at this moment. I didn't expect to use it now, and I was naturally excited to see a lot of seventy-five blood sacs.

There are fifteen blood sacs, with thirty one one-star quenching agents, blending fifteen enhanced quenching agents.

Then, Qin Tiange called for several large washbasins, which were filled with water, and then poured fifteen enhanced hardened potions into several water-filled washbasins, and immediately blended the sharp potions. .

“One cup per person, drink up all these potions.”

Qi Qin Tiange only left a sentence, and let Liu Yan and Moda and others distribute these potentiating potions.

He himself found an empty office, closed the door, and prepared to blend the enhanced version of the hardening potion for himself.
