

Dark Ages 211

Chapter 211 - Transformation, immortality

Long Yin burst, a mini-dragon transformed into a green mist is taking off, and Chang Yin is rising to the sky, like a real dragon soaring for nine days.

surprise!

Qin Tiange looked at the little dragon turned into a mist, and looked surprised, almost thinking that he saw a real dragon, but knew in his heart that it was just an illusion.

But despite the illusion, it is still amazing. It can be seen that the dragon ball has a magical power and can even transform into a small mist of green mist.

Yin ...

A slight dragon murmur kept coming from the jade box, and the indestructible medicine in it also had an inexplicable change, and the color was more crystal clear, as if a real dragon was swimming inside.

“Dragon blood ...” Suddenly, Qin Tiange remembered something, immediately took out that drop of dragon blood and poured it directly into it.

Suddenly, a ray of silver-red gas erupted and merged into the blue misty dragon shadow, which suddenly produced a mysterious change, and the shape of the dragon shadow became clearer.

Pieces of green and black scales were constantly flashing some strange light, the dragon shadow soared, and circled and danced in the box, which was very amazing.

Qin Tiange looked astounded. The immortal medicine has evolved. Under the powerful effects of Dragon Ball and a drop of dragon blood, it has gradually developed a real immortality.

An immortal drug must evolve to precipitate its immortality to be considered truly immortal. This is exactly the case at this time.

As the dragon ball completely melted and was gradually absorbed by the immortal liquid, the dragon's blood melted into it, and the liquid became more and more transparent, turning into a liquid little dragon coiled back and forth in the box.

“It's still not enough. There isn't enough energy to promote the maturity of the immortal medicine.” Qin Tiange frowned slightly, looking at the sloshing liquid dragon, knowing that the immortality medicine had not matured yet.

Next, Qin Tiange took out another piece of red peach, directly crushed it into a box, put it one by one, and more than three hundred peaches were absorbed by the immortal medicine.

Seeing that there was still a bit of Lingtao, Qin Tiange frowned, thinking about it, and suddenly remembered that he had obtained an imperial blood in the death mission.

“Emperor blood has huge energy and more irreplaceable medicinal properties. Does it flow to promote the evolution of immortal medicine?” Qin Tiange thought to himself, whether to use emperor blood?

The blood of the emperor is extremely precious, and only one drop of it will be used up. However, he thought that if he wanted to use the blood of the emperor, he would have to wait until he became a real ten-star pharmacist.

It is really difficult to deploy king-level drugs. It is better to use emperor blood to promote the evolution and maturity of immortal drugs. This is the effective use.

“Just do it!” Finally, Qin Tiange gritted his teeth and decided to use the emperor’s blood to promote the evolution of this immortal medicine and thoroughly urge the immortal medicine to mature in advance.

Thinking of him taking out the jade bottle, gently opening the bottle, and pouring a drop of emperor blood into the jade box.

Tick!

A drop of purple-gold blood dripped slowly, and a crisp sound came out. Suddenly, the little liquid dragon that was lingering stopped, turned his head suddenly, opened his mouth and swallowed the drop of emperor blood.

The dragon’s mouth contains that drop of dazzling emperor’s blood, as if the real dragon spit out the beads, more amazing.

Groan!

Immediately after a high-pitched dragon yin came, the mini dragon soared suddenly, bursting with a burst of purple-gold light, with a strong majestic king, as if a dragon king came to life.

The true dragon soared, and the power involuntarily emanated. As the blood of the emperor merged into the dragon’s shadow, it instantly caused terrible changes.

Uh ...

Qin Tiange stepped back three times, and was shocked by the sudden outburst of the magnificent king, looking astounded, looking at the dragon shadow.

At this point, the dragon’s shadow swallowed the emperor’s blood, the whole body was more realistic, the scale armor was sharp, the dragon horns were sloppy, and a pair of purple-golden dragon eyes glared at the sky and growled loudly.

Howl ...!

Accompanied by an extremely high-pitched dragon groan, revealing the vastness of Wang Wei, the momentum was like a rainbow, and it gave Qin Tiange a real sense of facing the Dragon King, which was terrible.

However, this change came and went quickly, and in a blink of an eye, everything disappeared, and Long Ying dived into the jade box.

No, it should be said that the jade box exudes an inexplicable light, covering the dragon’s shadow that soared for nine days, directly pulled it down and imprisoned in the box.

Amazing, amazing!

Qin Tiange then hurried forward, picked up the jade box, and watched that the liquid became more ordinary and ordinary, and the dragon shadow was constantly hovering in it.

Immortal, mature!

“Surely mature?” Qin Tiange still did not believe, feeling a bit unreal.

In previous lives, I haven’t heard of anyone who can actually formulate an immortal medicine. I only heard that two pharmacists had made an immortal medicine, but one was poisoned by taking it on the spot.

The other one was not fully mature halfway through, and was robbed by several kings, eventually destroying the immortal medicine before death.

Now, looking at the immortal pill in his hand, Qin Tiange couldn’t help raising doubts, was he dreaming?

“I practiced it as an elixir, and it was bred from dragon blood, dragon balls, a lot of spirit peaches, and emperor blood. It should be called a true dragon elixir!”

Qin Tiange’s face was flushed, his face flushed, and his trembling hands proved how excited he was at the moment.

Undead, rumors say that as long as you drink the undead, you can grow back even if your hands and feet are broken, and the skull is broken for less than ten minutes, and you can recover immediately after connecting.

“Hahaha ... the first elixir, I trained it.”

Qin Tiange laughed, then held up the jade box, opened his mouth and drank the thoroughly mature true dragon immortal medicine.

Grunt!

Suddenly, he drank the immortal medicine, and Qin Tiange looked ***** as if he had not swallowed the immortal medicine, but swallowed a real dragon.

Yin ...

There were rumblings of high-pitched dragons in the body, and the mini true dragon ran into Qin Tiange’s body back and forth, destroying and crushing the body’s internal organs and skin, all the bones and skins were crushed one by one.

The cruel, horrible elixir turned into a dragon, directly destroying everything inside Qin Tiange’s body.

Click ... Click!

A few crunches came, Qin Tiange’s face cracked, his eyes were lost, and he was as empty as consciousness and soul.

At this moment, his body was cracking, as if cracked like a stone, but surprisingly no blood flowed out, and dense cracks covered the whole body.

Uh ...

At this time, the little demon not far away was anxious, and felt that Qin Tiange's breath suddenly disappeared, as if he had lost important people, and he was about to pounce.

As a result, at this moment, those cracked muscles suddenly fell down piece by piece, exposing the perfect body re-growing inside.

An inch by an inch, re-growing one by one, Qin Tiange awakened from the confusion, only to find that his armor and clothes were all broken, and even the ground with the old skin and even the gray shattered bones and a pile The fragments of the internal organs and even the half of the brain are exactly what he looks like.

Metamorphosis, this is real metamorphosis, carrying out some magical metamorphosis from the inside out, just like a true dragon molt.

Taking undead medicine, Qin Tiange felt that his body had become different, without any added strength, but he felt a hundred times stronger than before.

This is not an illusion, but a real feeling. It comes from the transformation of the body, the kind of body that has decayed and decayed before, and a perfect body is brewed again.

"It feels ..." Qin Tiange murmured to himself, looking at his flawless body, and for a while he didn't know what words to use to express it.

He quickly took out a brand new armor, and when he was neatly dressed, he took the halberd and made a deep wound on his arm.

With a slap, the arm was turned into a wound, and bone was deeply visible, but it was amazing that no blood was flowing out of the wound, but healed again in the next moment.

Yes, healed in a flash, Qin Tiange looked ecstatic, and almost didn't scream.

Qin Tiange couldn't hide his joy murmured: "True dragon immortal medicine, known as a magical transformation of the human body, gaining incredible power and possessing an immortal body."

There are several types of immortal medicine. Depending on what is used to cultivate and mature, the effects are different.

For example, the immortal medicine taken by Qin Tiange now is an immortal medicine cultivated with dragon balls, dragon blood, and even emperor blood, which is equivalent to a true dragon immortal medicine. Immortal.

"Little guy, thank you for your protection."

Qin Tiange was in a good mood. He put away another jade box containing immortal medicine, gently stroked the colorful lotus swaying in front of him, and gave him a lot of crystal nuclei as a thanks.

"Yes, where is that dead parrot?"

Soon, Qin Tiange remembered that the dead parrot disappeared after the earthquake. Is it because he was afraid of being punished before he ran out?

Shaking his head secretly, Qin Tiange, in a good mood, ignored the dead parrot, explained some things about the goblin, and turned away from Lianhua Mountain.

Chapter 212 - Commander visit

Three days passed, and in the early morning of that day, Qin Tiange came to the edge of the base to check the construction of the steel city wall as usual.

In the past three days, as Nie Teng, Li Zhi and others led their teams to search for a large amount of steel, the steel wall of the base was finally constructed quickly.

With forty-three engineering robots joining, the construction progress has been greatly accelerated. Accompanying one hundred engineering mechas, the structure of the entire city's steel wall is being completed at a speed visible to the naked eye.

Everyone was stunned because the sudden appearance of more than forty five-meter-high engineering robots stunned a large number of survivors gathered throughout the base, and was full of shock and awe at Qin Tiange, the leader.

There is no way, one hundred huge engineering mechs are enough to shock people, plus 43-five-meter-high robots, it is shocking to see.

Even the internal high-level personnel were shocked. It was incredible that Qin Tiange still had a team of engineering robots.

Zhuo Tianfan also joked that Qin Tiange was still hiding some big killer? Nie Teng, Liu Yan, and others were full of curiosity, but unfortunately the latter just smiled and did not respond, and they could only guess in secret.

The more they guessed, the more they felt that Qin Tiange was too mysterious, as if he knew a lot, and there were many things they could not imagine.

If they let them know that Qin Tiange has formulated two immortal medicines, and also successfully cultivated a mature immortal medicine that has completed evolution, then he must be shocked.

“Accelerate the speed and guarantee the quality, everyone will work harder!”

On the construction site, groups of survivors were organized to work together, and everyone worked together to build a huge steel protective wall.

This wall was all constructed of steel, and a trench of 30 meters deep was dug out. All the steel bars were used to dry in the ground, and then a 50-meter-high steel city wall was cast.

Qin Tiange has been working hard, and hesitate to promise that all those who help the work can get extra subsidies and rewards, and even select ten people who work hardest, and directly reward one person with one star-level quenching medicine.

At present, these one-star potions are not much pressure for Qin Tiange, and it will be sooner or later to distribute them, but it is still not enough now that he has insufficient information.

It can only be used as a reward to stimulate the members of all bases, so that everyone is full of enthusiasm and hot work.

“Today's meal, there is barbecue!”

Qin Tiange came to the construction site, yelled directly, then picked up a ten-meter-long, one-meter-thick steel pillar and came to the side of the steel city wall.

As he arrived, an additional meal aroused many survivors cheering because they had not eaten meat for a long time.

“The boss is mighty!”

“Plus meals, plus meals!”

A cheer came, many people flushed with excitement, and some saliva came out. I really wanted to eat meat.

Now when I heard there was barbecue, I was immediately excited and worked harder. I didn’t see Qin Tiange. The boss came to work in person and came every day, never lazy.

He said he would do it. Everyone, including himself, must contribute his strength to the base.

“Boss, people’s hearts have slowly condensed. As long as you don’t go wrong, the base will basically grow and develop without too many twists and turns.”

Zhuo Tianfan walked up with a steel pipe, and spoke softly in his ear. He felt more impressed by Qin Tiange’s boss.

After a major earthquake at the base, people’s hearts have been scattered and disturbed, but with Qin Tiange’s series of action rewards and personal examples, he gradually gathered these scattered hearts.

Zhuo Tianfan, who was once the president of a large group, couldn’t see it. Qin Tiange took the opportunity to gather people’s hearts and gather everyone’s strength in his hands.

“Okay, two days later, this city wall is about to be completed. After the city wall is completed, it will be the construction of the internal facilities of the base.” The city walls, in my mind, have a few days to complete.

哐 Dang!

Putting down the huge steel pillar, Qin Tiange was about to continue carrying, but suddenly saw a fighter rushing over.

“Qin Brother, three kilometers away from the base, there are a lot of troops coming here!”

When this person came, he reported the news directly.

Qin Tiange frowned slightly, and didn’t say much. Let this young man go down, and he was lost in thought here, guessing the origin and intention of this army.

“Boss, it seems that someone is coming from the guard area.” Zhuo Tianfan knew it a little.

There can be a large number of troops nearby, and only the guard zone can pull out a real army there, and it has dealt with the guard zone once before.

“Up the wall, let’s see, what is this army doing here?”

Qin Tiange turned directly and climbed up a section of the constructed steel city wall, looking down from the base, where he could faintly see a huge convoy going here.

Leading by three or two main battle tanks, followed by eighty-two armored vehicles, and a large modified personnel carrier.

The huge convoy opened the road with three or two main battle tanks, and soon came to a thousand meters in front of the base to stop.

“Oh my God!”

On the three tanks, the three machine gunners were stunned, staring at the steel city wall 50 meters high in front of them, dull and dumbfounded.

Especially when I saw a 50-meter-high engineering mech and a huge steel body, it was full of shock and impact.

This newly arrived army was stunned by the scene in front of it, that is, a group of soldiers who just got off the train were stunned by this scene.

“This is the base you said?”

Among the crowd, an officer in his fifties, with a surprised expression, tilted his head and looked at a special police officer around him.

She was Hu Yan. At this moment, her eyes widened, she stared blankly at the steel walls up to 50 meters in height, and looked at those giant steel mechs, thinking for a moment that she had gone wrong.

“Return to the commander, as if, as if it were.” Hu Yan was stupid, looking at everything in front of him at a loss.

She only went back for a few days, and when she came again, it turned out to be like this. It was almost judged that, except for the ruins that came along all the way, it was normal to have just experienced an earthquake.

But everything in front of him was abnormal, and all the soldiers were surprised. They were silent for a while, and they did not speak.

The officer in his fifties, who was the highest commander in the security zone, frowned at this moment, and looked at the iron and steel wall that was being built in front of him.

“The engineering mech, and the robot, the people here are not simple.” The commander muttered to himself, looking dignified.

Originally, he heard Hu Yan go back and report that there were a large number of survivors and many powerful evolutionaries. He wanted to come and talk to see if he could persuade them to go to the guard area.

At a glance now, this idea came to an end, let alone persuasion. At this moment, he feels a little embarrassed to ride a tiger. He hastily arrived with an army, but he doesn’t want to enter the base.

“Xiao Hu, how much do you know about that Qin Tiange?” The commander slowly opened his eyes, staring at one of the two figures on the city wall.

That man, was Qin Tiange, who was looking down at the army that he had suddenly visited, and specifically locked the commander among a group of soldiers.

“Commander, I don’t know him well. I only know that he has a lot of powerful teams in his hands. As for this person’s style and character, I don’t know.” Hu Yan answered honestly, and did not understand Qin Tiange’s person.

But from his point of view of saving himself, it should not be considered a bad person, at least there is not much malice and opinion on the soldiers, at least he can talk.

“Brother Qin, three or two main battle tanks, eight armored vehicles, and three thousand elite soldiers. It seems that the main battle force of the guard zone has arrived. Is the commander of the guard zone coming?” Zhuo Tianfan blinked, gently Speak your guesses and judgments.

Qin Tiange smiled slightly and nodded, “It should be. The sudden visit of the commander of the security zone made me feel uneasy.”

“Let’s go and meet the commander of the guard zone.”

Qin Tiange walked down the city wall with an inexplicable smile, came to the yet-to-be-established gate, walked towards the army that was suddenly visited, and greeted the commander of the security zone.

Chapter 213 - Talk, cooperate

“Commander Chen, please here!”

Inside the base, Qin Tiange led a group of soldiers to a huge tent on a paved foundation.

This is a temporary dwelling that is set up for living and office. The entire house has been temporarily collapsed due to the earthquake.

In the tent, everyone fell down and sat down. Qin Tiange then laughed: “Because of the earthquake just now, the houses have collapsed and the place is a little rough. Please ask the commander not to be surprised.”

“It doesn’t matter, but I didn’t expect your houses here to have collapsed. The last earthquake we sensed in our guard area, and no houses have collapsed.” Commander Chen said with a confused expression.

His name was Chen Wu, the commander of the security zone. He knew the last earthquake, and the sensation was not strong, but he did not expect that the houses would collapse because of the earthquake.

Chen Wu didn’t doubt it, because just now he saw a large area of ruins along the way, and the engineering mech was clearing up. It should be true.

Qin Tiange’s eyes flashed a bit of light, naturally it is clear why, because the source of the earthquake was underground on their side, because of the self-detonation of the engineering robot.

“We just regretted the earthquake just now. We didn’t come to the rescue the first time, but if there is anything we need, we will support you in rebuilding the base.” Chen Wu suddenly said to everyone in this room. Come in surprise.

Not to mention that Qin Tiange and a group of high-level men were surprised, that was, a group of high-ranking military officers who were following Commander Chen Wu showed suspicion.

They were puzzled. Why did the commander say so, didn’t he tell them that the guard zone supported and acknowledged the construction and existence of their base?

This is unbelievable, so that many senior military officers want to talk and don’t dare to speak.

Chen Wu ignored these officers. This was a temporary decision he made. After seeing the situation at the base, his mind changed immediately.

Apart from that, there are a hundred huge engineering mechas and dozens of robots that are building steel city walls. These are the ones they do not have. It is not difficult to see from this that the survivors here are not simple.

Qin Tiange’s mind turned sharply, thinking about the meaning of this commander’s sentence, and soon realized the meaning.

He smiled and waved his hand. Liu Yan immediately approached him, took out a set of wine glasses, and distributed them to everyone present.

Next, Liu Yan took out a jar, opened the seal, and filled everyone with a pink medicinal wine, which was cherry wine.

Qin Tiange raised his wine glass and signaled, “Commander Chen, this is cherry blossom wine. It has strong medicinal effects, can strengthen bones, and prolong life.”

Oh?

Chen Wu was surprised. He raised his glass and looked at the pink transparent liquid, revealing the strange aroma of medicine and wine, and couldn’t help swallowing his throat.

He didn’t hesitate, took a sip, and suddenly his face relaxed, feeling as if he was drinking not an alcohol but a kind of syrup.

It is precisely this kind of medicinal liquor, which contains the mutated sakura medicinal properties, and has a unique effect. It is still a small body, it is refreshing and refreshing, and the longevity of life is the ultimate thing.

“Good wine!” Chen Wudu had to admire.

Others tasted it, and were immediately conquered by this magical medicinal wine, especially a group of soldiers, who rarely drank. At this moment, they drank a glass and fell in love with this wine.

They are soldiers, bold and straightforward, like just like, without any hidden. Looking at their eyes, Qin Tiange laughed inwardly and waved his hands gently, a large number of wine jars appeared in front of the crowd, a hundred altars.

“These wines were given as a gift to the commander and all of you here. I hope not to quit.” Qin Tiange smiled and spoke decently.

Commander Chen wanted to refuse, but looked at the look of a group of officers under the eyes, and finally nodded and smiled.

“That being the case, then Chen has a smile on his face.” Chen Wu simply accepted it and did not reject the batch of medicinal wine.

Next, the faces of the personnel on both sides were relaxed, and the atmosphere at the scene was relaxed. There was no tension like that just now.

After three visits, Qin Tiange began to ask, “Commander Chen, I don’t know what guidance you have for our privately-built gathering places?”

Chen Wu put down his glass and said seriously: “Now the world has changed a lot. Our guard zone is a base established by all individuals to resist zombies and mutants, and we will never oppose or restrict it.”

He can see very clearly that now that the end is coming, countless zombies are wandering, mutant creatures are swarming and dominating, and the whole of China is already in hot water.

Not to mention that their guard area, even the Guangcheng Military Region, will not refuse to establish bases for individuals, resist these monsters, and even support those who are capable to establish survivor bases.

In fact, this is to relieve their pressure. As soldiers, they have to rescue the people, but once too many survivors gather, food is a big problem.

Now, seeing that someone can establish a base, Chen Wu is very recognizable. After all, you can’t deny and restrict them now. Otherwise, civil and military disagreement is extremely dangerous in this doomsday background.

“Thank you, Commander Chen for your understanding and support. On behalf of all survivors in the base, I thank Commander Chen, and everyone respects Commander.”

Talking, Qin Tiange took the lead to stand up, Nie Teng, Li Zhi and others raised their glasses and stood up. Everyone paid tribute to Commander Chen Wu and expressed their thanks.

Speaking of this, Qin Tiange already knew that Commander Chen Wu was not here to seize their fruits, let alone restrict them.

“In this way, we still have a lot of weapons stocks. As a support, I can provide you with these weapons and equipment for free on behalf of the police area.”

Chen Wu put down his glass and pondered for a while, then suddenly said such an amazing sentence.

As soon as his words fell, a group of officers changed their faces, and Hu Yan was even more surprised, and quietly whispered, “Commander, we don’t have a lot of weapons reserves, and we don’t even have enough guard areas. This decision will be too hasty.”

In fact, their weapons reserve is really insufficient, even not enough for internal use. How could it be as easy as Commander Chen said, where can there be inventory?

He said that he simply decided to use the existing weapons and equipment to give them to Qin Tiange. This decision was opposed by almost all officers.

“The commander cannot ...”

A group of officers wanted to persuade, but were stopped by Chen Wu one by one. He looked firm and said, “This is my order, and I will bear all the consequences.”

He made a decision, and that resolute look was that Qin Tiange had to be surprised.

Looking at the 50-year-old commander of the security zone, Qin Tiange felt a little admiration for the other’s decision and vision, and he was willing to give up his blood.

“The commander laughed and laughed!” Qin Tiange blinked his eyes and laughed: “How can we accept the assistance of the security zone impermanence?”

“In this way, commander, can we both talk separately?” Qin Tiange thought for a while, and finally said this decision, and he had to talk to the commander Chen Wu separately.

“commander!”

A group of senior officers wanted to stop, but who was Chen Wu? The commander of his dignified police district, how could he retreat and dare not meet with Qin Tiange alone?

“Okay, it’s up to you, brother Qin.” Chen Wu agreed.

“You go out, not close to the twenty-meter range of the camp.” Chen Wu waved and ordered a group of soldiers to go out.

Qin Tiange looked serious commanded: “Nie Teng, go out, everyone must not approach the twenty-meter range, intruders, kill!”

“Yes!”

When Nie Teng and others were thinking for a while, they went out immediately, even though the officers were secretly unaware that they had issued such a fierce order that the trespassers killed directly.

Chen Wu’s eyes flashed, looking at the young man in front of him, he had to lament in his heart that he was old, the times had changed, and he was really a hero out of trouble.

“Chen, do you mind if you are called like this?” Qin Tiange asked with a smile, and doubled Chen Wu’s medicated liquor.

A smile appeared on the latter’s face, and he joked: “Your boy called me and asked me, okay, your boy has an appetite for me, but unfortunately you are not a soldier, otherwise you will achieve better than me.”

Qin Tiange smiled and didn't answer. He raised his glass and took a sip before he gradually became serious and began to talk to the commander of the security zone seriously.

The conversation lasted three hours, and outsiders didn't know what was being discussed between the two.

Chapter 214 - emergency

Outside the camp, a group of officers looked serious, and they were so anxious that they couldn't understand why the commander would talk to Qin Tiange alone.

“Why did the commander suddenly change his decision?”

A young lieutenant did not look well and whispered his dissatisfaction, because he had made a decision before the meeting and came to persuade the survivors here to go to the guard area.

But when he came here, Chen Wu directly dispelled his original thoughts and made a decision directly, which was to change his strategy.

Hu Yan thought a little, looked at the huge mech that was busy in the distance of the base, and suddenly understood the intention of Commander Chen Wu's move.

Now the world is different. You cannot overpower others in your original identity, and you cannot arbitrarily veto some people who have risen in the last days. That will lead to bad consequences.

Chen Wu has a clear and unambiguous understanding and has a long-term vision. It is clear that the current security zone is unable to take care of these rising forces outside.

Not to mention just one guard zone, perhaps all major military regions in China are facing such problems. After the end of the day, everything is different.

The wait was three hours. Finally, two people walked out of the camp, talking and laughing, and seemed to be harmonious.

“Old, happy cooperation!”

Qin Tiange smiled and stretched out his hand, shaking hands with Chen Wu, saying that this time the conversation was very pleasant, and each other had become some agreement and cooperation.

Chen Wu said with a smile: “Your boy, I can speak so well. I can't talk to you about this old bone, just do what you say.”

“Xiao Hu, come here.” Chen Wu said, calling Hu Yan.

The latter trot up, saluted, did not speak, and waited for Chen Wu's order.

With a serious face, Chen Wu ordered: “Hu Rong, immediately call the guard area and mobilize a gunship to come over, you stay as a teacher.”

“Yes!” Hu Yan lived, but saluted the command.

The soldier, called obedience by obedience, now that Chen Wu orders, no matter how confused she is, she will still take the lead.

Then, Chen Wu called another young lieutenant and ordered: “Immediately order outside troops, drive in five armored vehicles, and the driver stays as an instructor.”

“Also, Lieutenant Shao Feng also stayed with you, the most special instructor, teaching the people here to train and master all skills.” Chen Wu issued orders one after another, which surprised a group of officers.

One gunship, five armored vehicles, two special instructors, this is to fully support the performance of this base.

Although they were shocked, no one objected, but only obeyed.

“Chen Chen is generous, then I’m welcome.”

Qin Tiange smiled, and invited Zhuo Tianfan, commanded: “Go and tell the captain of the Mech Squad, tell him to send five people to drive the mech to follow Commander Chen, leave the mech and then return by helicopter. come back.”

“Yes!”

Zhuo Tianfan went down, and notified the order, which surprised a group of officers who were uneasy in their hearts. They looked at Qin Tiange one by one, and then looked at the huge engineering mechas. They stopped talking for a while, and lost their opinions.

“Chen Lao, this preliminary cooperation, I hope we can have more cooperation in the future.” Qin Tiange held out his hand with a smile.

Like Chen Wu, they shook hands with each other. At the end, he said, “I need the potions you said, and hope to complete the order as soon as possible.”

This is the key point. During the three-hour negotiation between the two, the most important point was that Qin Tiange promised to exchange medicine for a large number of crystal nuclei accumulated in their guard area.

Because, through the conversation with Qin Tiange, I learned that there was no stone stele in the guard area, only a temporary one appeared in the previous time, and got something.

Now, there is a huge number of nuclei accumulating on the side of the guard area, so I wanted to exchange the huge number of nuclei on their side with potions.

“Okay, I’ll call someone back.” Chen Wu agreed happily.

The crystal nucleus is also kept, but it is extremely important for the entire guard area to be able to exchange for the medicine that is urgently needed.

In this way, the two have become a lot of cooperation agreements. At the first meeting, both Qin Tiange and Chen Wu, the commander, understood the principle of win-win cooperation and common progress.

If there is no cooperation, there will even be conflict between the two parties, which is not good for anyone. Qin Tiange least wants to match the national military system.

Don’t think that the national army is useless after the end. If you think about how many huge killers the country has before the end, the number of light nuclear weapons is a mystery.

Not to mention the myriad of high-tech products that are not open for secret research. Those things will gradually be displayed after the end of the day. The previous life is an example.

As a rebirth, Qin Tiange naturally knows the power and terribility of the state machine. At present, no private force is the opponent of the state machine.

“Fortunately, Commander Chen has a long-term vision, otherwise, I can only confront the police zone.” Qin Tiange looked at Commander Chen and others leaving, thinking secretly.

This meeting, in fact, has serious risks. Once Chen Wu could not let go of his face and identity as the commander of the security zone, it was impossible to complete negotiations and cooperation between the two.

“Lieutenant Shao Feng, the major battle groups in our base will trouble you.” Qin Tiange turned and smiled at the young lieutenant.

The latter barely squeezed a smile. He was a meticulous soldier. Since the commander made the order, he would seriously implement it.

“Rest assured, I will do my best, I just hope you don’t interfere with my training.” Shao Feng only had this condition and could not interfere with his training.

Qin Tiange naturally understands, so there is no objection. It is naturally a good thing to have these special officers train their teams. How can they interfere?

Qin Tiange turned his head again, watching the special policewoman with a smile: “Lieutenant Hu Yan, wait for the helicopter to come, you take me a trip, I’m going to pick up people.”

“Yes!” Hu Yan was neat and clear, without any clutter.

Since Commander Chen wants her to stay, then do it well, or not only will not only undermine the cooperation between Qin Tiange and Chen Wu, but also undermine the good start of cooperation between each other.

Soon, five armored vehicles entered the base, which was requested by Qin Tiange. It was exactly these armored vehicles and a helicopter that were going to go to the Changsheng Group and bring back all the research teams there.

He was going to go in person, but before the gunship arrived, he saw a ***** soldier rushing forward.

“Brother Qin, advance to intelligence.”

The soldier was very young, blood stained, and ran up with bruises, panting, his pale complexion seemed to collapse.

Qin Tiange felt a little guilty, secretly something happened, and sure enough, as the soldier slowly told him the news.

“You mean, your land reclamation team is in trouble?” Qin Tiange frowned deeply. The soldier said that he was trapped in a large steel plant and the situation was critical.

Waving his hand to let the soldier go to rest for treatment, Qin Tiange lowered his head to think, knowing that the situation was urgent and must go to support.

“Hu Yan This is the map. You go to this place and pick up all the people there. This is my token. Du Jing knew what to do when she saw it.”

Qin Tiange immediately took out the map, pointed out the place where the Changsheng Group was located, and told Hu Yan the female special police to let her pick up.

And he himself has no time left, and must go to support Nie Teng as soon as possible, otherwise the wasteland development team may suffer heavy losses.

“Brother Zhuo, the security of the base will be left to you.” Zhuo Tianfan, who came back from Qin Tiangola, was not far away and whispered in his ear: “If you have trouble that cannot be resolved, you will go to Lianhua Mountain Ask a group of goblin helpers, they won’t refuse. “

Uh!

Zhuo Tianfan was dumbfounded, without waiting to understand, Qin Tiange turned and left in a hurry. Leaving a group of people with different minds and looking at each other, especially Zhuo Tianfan, always echoed in his mind, ask a group of fairies on the Lotus Hill to help?

“Fairy?” Zhuo Tianfan remembered the situation he had encountered in Taolin and immediately woke up. The fairies Qin Tiange said were the flowers and trees that mutated into fines.

Chapter 215 - Spooky spirit

Around a large steel plant, the original lush plantation was turned into dead wood, and the black lacquered trees seemed to be burned, with a hint of coldness and horror.

In the steel mill, a team of thousands gathered together, everyone looked nervous, clenched his sword and looked around.

But quietly, there were no enemies at all, no zombies, no mutants, but this group of people was extremely nervous.

“Head Nie, what shall we do now?”

One of the members whispered quietly, asking this sentence, looking very anxious, his heart was going crazy.

This team is the first land reclamation group led by Nie Teng. This team came to this large steel mill to search for steel products, but never wanted to run into trouble, it was still a terrible trouble.

“What the **** is that?” Someone couldn’t help panic, his face pale, his hands shaking with a knife, showing his uneasiness at the moment.

Many people are the same. Feeling flustered, they can hardly hold back their inner fear.

“Can’t see, can’t fight, have we encountered a ghost?” Someone said such a sentence.

Suddenly, the surrounding temperature suddenly dropped, everyone’s heart was cold, and his back was cold, and he couldn’t help shivering.

“Ghost?” The crowd was frightened, completely shocked by the idea, and suddenly remembered that it really looked like this.

They couldn’t see the enemy, but some members were attacked inexplicably, as if there was nothing invisible to attack.

“All quiet!”

Nie Teng scolded, looking blue and angry, a little ugly. He was in a hurry, but there was no way. Since walking into the dark woods outside, they have encountered weird attacks again and again. The invisible force of the team members was caught in the air by inexplicable forces. Then somehow died.

There were no scars on the dead team members, except for a scratch on the neck, which seemed to be stung by something.

call...

At this moment, a shady wind blew over, shocked everyone’s complexion, and raised a knife to be vigilant.

“Ah ...” A sudden scream came, and everyone looked around in shock, and saw a member fly up somehow, slamming it on the wall, and hanging on it.

The young player’s body was hung on the wall, his hands were slap on his chest, and he kept clutching his neck, trying to pull something from his neck, suffocation made him look blue, his eyes rolled.

“Damn!” Nie Teng was instantly furious when he saw this, and the knife leaped up in several steps.

With a whimper, the blade broke, but unfortunately it was cut in the air. Nothing was hit at all, and Nie Teng’s body fell from a high altitude.

boom!

Immediately after that, the young player’s body fell down, his body was already stiff, his face was purple and green, his eyes widened, and his eyes were about to pop out.

His death was terrible, there were no scars at all, but he died somehow. Nie Teng could not help raising a chill in his heart, but felt that his hands and feet were cold and his scalp was numb.

Another one died, and in addition, three hundred people were killed inexplicably in front of me. How could this not make Nie Teng angry?

“Asshole, have the ability to come out!”

Nie Teng was furious, forgetting his fear, waving his sword, and constantly chopping the surrounding air, but unfortunately nothing.

Members of the team over there looked horrified. If they were not afraid of running away and being attacked, it is likely that they had all huddled away.

“A group of five people, all back-to-back vigilance.” Nie Teng quickly withdrew, his face complexed.

The team is divided into groups of five and back-to-back defense. The only thing that can be done is passive defense, otherwise the enemy is not visible at all, let alone counterattack.

You can't see it, you can't beat it, but for a while, everyone panicked and felt like they really met a ghost.

“It's a ghost, it must be a ghost, we can't beat a ghost.”

Finally, someone couldn't help the erosion of the fear in his heart, and suddenly screamed, leaving the sword and running away.

He was crazy and was driven crazy, and left the sword and ran away. Seeing the actions made by this team member, Nie Teng was extremely angry, and the killing flashed.

“Stupid things, come back to me!” Nie Teng rebuked loudly, but it was too late.

I saw that the escaping man had just rushed to the door, his body suddenly flew up, and he was mentioned to the air by an invisible force, and he couldn't escape without constant struggle.

“Arrow your crossbow, shoot me!”

Nie Teng was furious and took out the crossbow. All the members in the back raised the steel crossbow and drew the arrow, aiming at the person caught in the air and pulling the trigger.

Uh ...

Hundreds of thousands of steel arrows whistled, and the young man caught in the air shot the hedgehog on the spot, and the whole was filled with arrow rain.

The sound of a steel arrow came from the flesh, and the blood splashed and fell around.

“Huh? That's ...”

Nie Teng's gaze fixed, staring at the corpse still floating in the sky, but as the steel arrow pierced into his body, splashing a little blood, he even saw a blurry shadow.

As more and more blood splattered, a faint shadow gradually appeared in front of the dead team member, and it was not real, but was stained with a little blood.

“ghost?”

Seeing this faint shadow, everyone's face turned wild, and the collective was cold, and his back could not help but overflow with a cold sweat, his scalp was numb, and his heart was frightened.

What they saw turned out to be a weird shadow, a little blood stained on the shadow, causing it to appear in front of everyone.

“Woohoo ...” The shadow slowly turned around and opened his mouth with a deep, terrifying whine, as if someone was crying, as if screaming and screaming.

The sound was extremely unpleasant, and everyone couldn’t help turning his face pale, feeling dizzy, and frightened by the inexplicable sobbing and screaming.

“Ghost, is it really a ghost?” Someone was terrified and couldn’t help screaming.

At this moment, the team was panicked and completely messed up. Many people stepped back directly and did not dare to step forward, looking at the shadows floating in the air one by one, holding the corpse.

Nie Teng looked irritated and angry, and shouted, “What kind of monsters and monsters, I don’t believe that you can’t be killed.”

“What’s panic, people are afraid of ghosts being three-pointers, ghosts are afraid of seven-pointers, seeing me kill it.” Nie Teng screamed angrily, erupted with anger, emptied, and slashed the sword on that shadow body.

With a click, the air was split, but the sword slashed past from the shadow body, without any hindrance, as if chopped on the air, and did not work.

Oh oh ...

Just then The ghost in the air sent out a sharp howl, like a cry of ghosts from hell, which was extremely ridiculous.

With this cry of ghosts spreading in all directions, suddenly a cold wind rolled up, blowing everyone in a panic and looking terrified.

“Ghosts, so many ghosts.”

Someone looked pale and fainted and fainted directly. It turned out that he saw a strange mist floating around him, as if the shadows were floating and empty.

The most frightening thing is that the faces of these figures are gradually emerging. Although they are vague, they can still faintly see Zhang Zhang’s horrible faces and a pair of empty eyes staring at them, very scary.

Are there really ghosts in this world?

“Are you going to die for me?”

Nie Teng couldn’t help despairing, looking at the dense and weird shadows floating around, one passed through the wall and appeared in front of everyone, looking particularly sultry.

Chapter 216 - The sword is stained with blood, and the evil spirit is ridiculed!

Oh oh ...

In the iron and steel factory, the blue sky was swaying, and a weird spirit was hissing, as if the screams of evil spirits from ***** were creepy.

Suddenly, a huge cloud of turquoise smoke whistled, and Nie Teng, the leader of the team, rolled over in lightning.

“kill!”

Nie Teng roared and waved his sword, but unfortunately the blade passed through the blue and black smoke, which could not hurt the other side. Instead, he was swept into the air by an inexplicable force.

“Head!”

Dozens of people exclaimed, watching Nie Teng be swept up into the air by the bluish-black smoke, and pressing it against the wall, as if being held by the weird spirit body around his neck.

Everyone panicked, Nie Teng was taken into the air, struggling on the wall, and even chopped the blue and black mist in front of himself, but unfortunately it was useless, but he felt asphyxia was getting worse.

“Hurry ... run ... they will **** our souls ...” Nie Teng’s face flushed, and his teeth roared out in such a few words, feeling that his conscious soul was being drawn out by a powerful suction, a little Pulled out of the body.

No matter whether it was chopped or grasped by hand, they couldn’t slam each other. Instead, they were strangled by the blue and black mist, and their breathing became more and more difficult, and they were choking.

What’s more shocking to him is that these strange spirits can absorb the soul. At this moment, he is being pulled out of his body by his dark black mist.

Woo!

When Nie Teng’s consciousness was blurred and he was about to be devoured, a sharp whistling came from outside the steel plant.

I was surprised to see that a spear of halberds whistled and broke into the air, and the tip of the halberd turned out to be a touch of bright red blood. Wherever it passed, all the strange mists were penetrated relentlessly and turned into smoke.

Flutter!

With a soft sound, Euphorbia passed in front of Nie Teng, pierced the black and black smoke, nailed it to the wall, and rescued him.

“His ... hmm!”

On the wall, Euphorbia pinned the strange black and black mist, and the strange black gas continued to evaporate and dissipate, gradually revealing a horrible mouth and face, and sent out a sorrowful sorrow.

Nie Teng stood up slowly, panting heavily, feeling like the rest of his life after the calamity, he was almost swallowed up.

“Brother Qin!”

Turning his head, he saw a figure rushing forward, his body leaping up, his hands pulled out the halberd nailed to the wall and smashed it.

With a bang, the bluish-black mist spread away, and it turned into a green smoke, dissipating, completely disappearing.

“This is an evil spirit. Everyone is stabbed with blood and killed the evil spirit!”

Qin Tiange’s face was cold and he shouted, which awakened the feared team members, and also awakened Nie Teng, the land reclamation leader.

He suddenly realized that it was no wonder that when blood splattered on these spooky spirits, they would show up, and blood could hurt them.

“Everybody’s blade was bloody, and they cut them!”

Nie Teng was angry and roared. He took the lead with his sword and wiped it with his sword. The bright red blood stained the sword, and the hot air erupted.

“kill!”

He rushed forward with a swift stride, leaped high, aimed at a wandering evil spirit, and immediately fell down with a stab, snoring, blue smoke, and disappearing after the scream came out.

If they can really kill evil spirits and dye their blades with blood, they can really kill these weird looking evil spirits.

“Brothers, kill!”

“revenge!”

The original panic and fear team saw Nie Teng successfully kill an evil spirit, and suddenly the spirit was shocked. One by one, he wiped his knife over his palm, rendered the blade with blood, and rushed up one by one with a scream of anger.

At this moment, they turned their internal fears into anger and vented their anger on these evil spirits.

Originally I could n’t fight, I could n’t kill, I felt terrible, but now I find that evil spirits can actually kill, so there is nothing to be afraid of.

Flutter ...

Each spirit body was chopped with blood-stained swords, and immediately caused huge trauma, and a sound of horrible sounds spread, and the green smoke dissipated.

I saw that weird and evil spirits were chopped or chopped to death. In fact, it is nothing great. As long as you find a method, you don’t have to be afraid.

“Kill, take revenge for the dead brother!”

Nie Teng yelled, his anger burst, and he slashed with a knife. One evil spirit was killed by his anger. His body was separated in two halves. He couldn’t heal under the influence of some kind of blood, and eventually turned into smoke.

A number of evil spirits, originally densely packed, have now been killed, and Qin Tiange's arrival has rescued the nearly burial team and found a way to counterattack.

Woo ...

A giant spirit flew, and the target pointed directly at Qin Tiange, and the horrible coldness made people feel hairy.

Humph! Qin Tiange gave a cold hum, and Euphorbia flipped dexterously, stabbed at a spirit body that was about to stab, and snorted, the green smoke evaporating and disappearing.

“Ah ...” The evil spirit screamed, was smashed by Euphorbia, and died.

Qin Tiange knows about these weird spirits. In the past life, he didn't deal with these things, and he was called evil spirits.

Seriously speaking, these evil spirits are not the products of the earth, but the extraterrestrial species that came with the land and land, an evil spirit body wandering in the void of the universe and become evil spirits.

This evil spirit does not have a real body shape, nor does it have a fixed appearance. It gains change and strength by devouring the soul consciousness of humans or creatures.

Evil spirits are not afraid of ordinary attacks, but they are afraid of blood, especially the blood of human beings, which is a fatal injury to evil spirits.

Oh oh ...

In the iron and steel factory, a group of wandering evil spirits made ghost sounds, but the original frightening ghost sounds can no longer scare the members of the wasteland.

They have regained their confidence one by one, rendered their blades with their own blood, and slashed a demonic spirit that only fell down, killing more and more smoothly.

“Stop these evil spirits!”

Qin Tiange drank coldly, his heart murderous flashed, just rushed all the way just now, and saw a tragic death of a corpse, all died of devouring the soul, it is impossible to save.

If the soul is swallowed, it is equivalent to disappearing completely. This person cannot be saved when he dies. This is the terror of evil spirits.

The large group of evil spirits flying in front of them is still only one-star and two-star evil spirits. If they encounter more powerful evil spirits, it will be over.

Whoo ...

Along with the counterattack, the evil spirits were slain, and each one screamed before his death, mourning everywhere, and spread to the iron and steel plant.

Outside, the sky was densely covered with smoke, strange and unpredictable, all terrible spirits As everyone killed the evil spirits in the steel plant, finally, in Qin Under the leadership of Tian Ge, he killed the steel plant and came outside the steel plant.

As far as I can see, the dark woods, every tree seems to have been burned, revealing the eerie weirdness, all turned into the cold and dark atmosphere carried by those evil spirits.

“Qin Brother, there are too many evil spirits, what should we do?”

As soon as he came out of the gate, Nie Teng’s complexion changed. He looked at the countless smokes that emerged from the sky. The clusters, one by one, represented countless evil spirits.

The dense number of evil spirits, at least thousands, looked horrible and horrible.

“All killed!”

Qin Tiange Han replied, very simply, waving the halberd directly, rushed into the evil spirit group flying and screaming in front, and killed the Quartet.

Evil spirits look terrible, but they can be defeated in the same way. Once people encounter evil spirits, they should not be flustered, they should have the courage to face them. With a senseless heart and boiling blood, they can pick up evil spirits and cut down evil spirits

Chapter 217 - Soul bead

The evil spirits fluttered in the sky, roared and screamed, and Zhang Yawu’s claws were shot down. Look at

It is a pity that in the face of a group of people who have thrown out their fear and anger, their blades are stained with blood, and they constantly hack and kill these weird spirits.

hiss!

A spirit body was chopped on the body, mourning and mourning, rolling on the ground, and the smoke was rising, but not dead.

At the scene, a thousand people faced thousands of evil spirits to kill, and they were too dense.

“Ah ... give me death!”

Some team members were accidentally caught up in the air by the evil spirit, and the **** palm grabbed the evil spirit in front of them, and the blade of the right hand passed across the neck of the opponent fiercely.

With a click, the evil spirits moved their heads, and after a scream, it turned into blue smoke and disappeared, and the team member fell from a high altitude.

However, when he fell to the ground, he was swarmed by a large group of evil spirits, biting his body densely, and soon blood flew across the ground, scattered pieces of flesh, and died in the air.

“Damn!” Qin Tiange was furious and shouted: “Everyone is in triad, killing evil spirits back to back!”

In an instant, the teams separated, and the trio were back-to-back, fighting the countless evil spirits culled from the sky, and the sound of the killing shook the sky for a while.

A fierce battle between people and spirits officially kicked off. This is the first time that Nie Teng and others have faced these strange and changeable spirits.

“Hmm ...”

Surprised, a roar came from above, like a roar of a beast, and a huge spirit turned into a beast and slaughtered it.

Qin Tiange's eyes were cold, and the halberd pierced the spirit body severely, and it was pierced by a halberd. He pierced the spirit body's mouth, transpired the smoke, and was eventually stranded in the air.

Slap!

As the evil spirit dissipated, an inexplicable bead fell down and grunted to the bottom of Qin Tiange's feet.

When I looked down, I found that it was a turquoise bead, exuding an inexplicable coldness, giving an extremely eerie horror.

"Soul Pearl?" Qin Tiange froze for a moment, but didn't care, and didn't pick it up. Instead, he waved the halberd to kill the evil spirits that were culled around him.

He naturally knew what it was, so he thought about waiting for these spirits to be killed, and then slowly looking for these strange and strange beads.

"Nie Teng, use a plasma bomb!"

After killing several evil spirits, Qin Tiange saw that the team could not support it, and immediately reminded Nie Teng not far away to use the plasma bomb directly.

Plasma bombs contain a high concentration of electromagnetic plasma, which can effectively kill these spirits.

boom!

A plasma bomb exploded in the air, the evil spirits screamed, and one body was blown apart by the terrible plasma current, and hundreds of evil spirits were killed.

Evil spirits, plainly speaking, are an evil spirit body. Whether it is human blood, electromagnetic light energy, or thunder, they can kill these spirit bodies.

Qin Tiange took out three plasma bombs and threw them one at a time and exploded, finally killing a large number of evil spirits.

boom!

There, Nie Teng took out several plasma bombs that the two kept in urgent use, and tore up dozens of hundreds of evil spirits in an instant.

Finally, with the efforts of the people, the dense spirits in the sky were quickly killed and none escaped.

The evil spirit has no wisdom, only knows the instinct to attack, devours the soul's conscious energy and strengthens itself, so it will not run away.

nail!

Qin Tiange's halberd stabbed fiercely, nailed the last evil spirit, and watched the evil spirit constantly struggling on the ground, constantly changing, like a beast for a while, and a human like it for a while.

"They will change into the engulfed creature." Qin Tiange stared indifferently at this constantly changing evil spirit.

In the end, the evil spirit also turned into a dead team member. It should be the force that consumed the soul of that team member.

boom!

The halberd smashed and crushed the evil spirit, completely dissipated in front of everyone, leaving only a round strange bead lying quietly on the ground, emitting a strange light.

When he saw the bead, Nie Teng was horrified and picked it up and looked closely. Holding it in the palm of your hand, I felt the coldness coming from me, very cold, like holding an ice cube.

"Brother Qin, what is this?" Nie Teng was curious and kept looking at the bead.

Qin Tiange also picked up a bead on the ground and explained: "This is the soul bead. It is the soul bead produced in the body of this extraterrestrial spirit. It contains the power of the soul."

"Soul Pearl?"

Everyone froze, and then chilled, thinking of the dead players in the team, they all died of devouring their souls.

For a while, the atmosphere at the scene was a little sad, and many people felt down, feeling a kind of grief and indignation. The team members were devoured by the soul, and they could not die anymore.

"Brother Qin, this is my responsibility. I didn't lead the team, but the team suffered heavy losses. I am willing to accept the punishment." Nie Teng came up, lowered his head, and took painful blame to take over this heavy loss responsibility. .

As the head of the group, he failed to lead the team, and did not immediately discover the weaknesses of the evil spirits. His blood could make these evil spirits appear and be injured, and caused unnecessary damage.

Qin Tiange looked at the self-blame Nie Teng and patted him on the shoulder to comfort him:

"Okay, everyone doesn't have to be sad, and you don't have to blame yourself. No one can predict the sudden situation."

"Gathering these soul beads, I'm useful."

Soon, Qin Tiange ordered the team to collect these soul beads. This kind of thing is very rare, because it can only be produced in the evil spirits outside the sky, and the beads contain the power of pure soul.

Soul beads can improve the quality of a person's soul consciousness. It is rumored that as long as the soul consciousness reaches a certain level, even if the body is completely destroyed, the soul can still survive.

In addition, the soul beads have many functions, such as dispensing medicine. Qin Tiange did not expect that Nie Teng encountered so many evil spirits, which is strange.

These soul beads are just the key to the preparation of brain-domain development medicaments. With this strange soul-bead, it can be combined with other main medicines and pharmaceuticals to formulate real brain-domain development medicaments.

“Qin Brother, all soul beads are here.”

Soon, the people in the team collected all the soul beads and gave them to Qin Tiange. There were a lot of them, and there were thousands of soul beads.

Not every evil spirit can produce soul beads. Only some relatively powerful evil spirits can generate soul beads. Therefore, there are only more than 1,000 soul beads collected on the spot, but it is enough.

Qin Tiange collected these soul beads, and then asked, “Nie Teng, tell me, how did you encounter so many evil spirits?”

“Theoretically, no evil spirit can exist here.” Qin Tiange looked at Nie Teng with a puzzled look.

He is very clear that evil spirits are not ordinary things. They come from evil spirits floating in the sky outside the sky, and they have only heard of them in a forbidden place in previous lives.

How did Nie Teng find and encounter such a large number of evil spirits?

“Brother Qin, come with me.”

Nie Teng didn't speak, but took Qin Tiange to bypass the steel plant and came to a small wood in the back. It was originally a planted forest. At this moment, it was completely withered, and the dark trees were exuding the cold evil spirit.

A group of people came here, and Qin Tiange looked at a dark hole in front of him in a daze, a little hard to believe.

“Look at Brother Qin, that's where all the evil spirits come from.” Nie Teng looked dignifiedly at a dark hole in front.

It was a black hole like a black hole, slowly rotating in the air, like a black hole, but without engorgement, it was more like a passage.

“Mystery?”

Qin Tiange's face moved Looking at the dark hole in suspicion, his mouth spit out the word “secret”.

Yes, the mysterious world, a strange world that landed outside the sky, was called the mysterious world by previous people.

Moreover, the secret realm is very dangerous, but it also contains great opportunities. Many people in previous lives are buried in these secret realms, and some people get opportunities from the secret realms, so they become a master in one side.

In front of me, that dark passage is the passage to a secret place.

“What is it?” Qin Tiange frowned secretly, thinking quickly.

It is a pity that he has no impression, and he has never heard of the existence of a large number of evil spirits in the previous life. The only existence of evil spirits is a human forbidden zone in the previous life. There is no evil spirit in the world. There is no doubt that creatures will die when they enter.

Now, looking at this dark secret passage, Qin Tiange seems a little emotional.

He was thinking now, would you like to enter the mystery and take a look?

Chapter 218 - Locked shadow

The endless empty world, there is an indescribable silence, sullen, as if stepping into death.

In the air, there is a faint black vapor transpiration, bitter and cold, and the cloudy wind hits the heart.

“This is the secret?” A group of people came out of the dark channel, and the first one was Qin Tiange, looking at the dead and empty world around him, dark and heavy, with an indescribable depression.

He has not stepped into a mystery in the previous life, he only heard about the existence of a mystery, but never entered it. Now it is the first time to enter a mystery.

There is no sun in the mystery, but there is an inexplicable light and mist floating at high altitude, dripping the dim light, lighting up the mysterious world.

Qin Tiange found that the place where they were was a dark, bare forest, looking at it with a glance, green and looming, as if a ghost fire was floating.

Whimpering in all directions, from time to time came a terrible whine, sharp and piercing, eerie horror, much like a ghost crying from Hell.

A group of people became nervous. They each put fresh blood on the sword, and looked around vigilantly to guard against possible evil spirits.

“Brother Qin, here's gloomy. Those green and gloomy glances at the tartars must have a huge number of evil spirits.”

Nie Teng's solemn reminder.

In fact, without his reminder, Qin Tiange has already faintly captured the strange and fuzzy shadows in the woods, which looks extremely gloomy under the hazy luster.

Evil spirits, but also a huge number of evil spirits, and even he saw that some huge incomparable evil spirits wandered back and forth, hissing openly.

“Everyone be careful, we may come to a secret place full of evil spirits. If there is something wrong, we will immediately withdraw from this secret place.”

Qin Tiange warned everyone here seriously.

He looked at the back of the crowd. The dark passage was still there, and he felt relieved. If something was wrong, he evacuated immediately.

With his current strength, as well as the strength of the team, it is simply not enough to explore the mystery of these days.

Many powerful men in previous lives have fallen into secret realms. It is not difficult to see the dangers and terribles of secret realms. Now that he comes in, he makes a great deal of determination.

“Let’s go and see first.”

Qin Tiange thought about it, and decided to walk over to see it.

In the woods, the thick trunks are as dark as ink, revealing a sense of gloom, and the air is filled with some piercing yin, which is very scary.

Especially in the dark, bare woods, from time to time, a strange ray of light wandered, looking like a ghost fire burning in the air.

“Look at that” Suddenly, Nie Teng looked startled, pointing at the end of the wood in front of him. It was a huge building that had collapsed more than half.

The rest of the general outline can still see the grandeur of this building complex. I don’t know who built these buildings. They are very grand.

It is still hundreds of meters high when it is half collapsed, and it is shocking. What is more horrifying is that there are numerous green and black air masses densely over the huge building complex.

There was a sound of wailing whine, like the roar of ghosts, the roar of fierce spirits, shocked everyone, shocked everyone with a pale face, and panic in their hearts.

“Evil spirits, a lot of evil spirits!” There was a riot in the team, and seeing the dense and endless evil spirits over there, everyone was trembling.

It’s too much, layer upon layer, covering almost the entire sky, all evil spirits howling and roaring, wandering back and forth in the air.

There was a murky atmosphere, and many people couldn’t help but took a nap, looked pale, and their legs shivered unconsciously.

terror! Qin Tiange’s face was dignified, his eyes flickered, and he stared at the countless evil spirits on the distant buildings, especially the middle of a particularly huge evil spirit, which looked like some kind of terrible unknown creature.

“We broke into the evil spirit nest.”

Qin Tiange suddenly spoke, saying this chilling word.

They are likely to break into the evil spirit nest, otherwise, look at the countless evil spirits that are densely packed, at least as many as hundreds of millions, maybe even more.

“Retreat!” One word, retreat, Qin Tiange directly ordered the retreat, so powerful that he couldn’t bear the cold, let alone the other players.

These evil spirits are not something that they can deal with, not to mention the huge number of one-star and two-star evil spirits, but to say that among the countless evil spirits, those extremely large and horrible evil spirits that emit the cold and cold breath must freeze the mind.

That is more than two-star three-star or even four-star fierce spirit. It is very scary. If you do n’t retreat now, it will probably alarm countless evil spirits.

Alas, just as Qin Tiange and others backed away, countless evil spirits in the distance suddenly issued a horrible roar, and the sound of wailing was shocking.

A blast of sound waves swept through, instantly shaking Qin Tiange and others with a trembling, pale face, one by one scared, and his hands and feet cold.

“Go!” Qin Tiange glanced at the countless evil spirits behind the sudden riot, his face changed greatly, he drank loudly, turned around and led the team to flee.

Behind it, countless evil spirits rioted, as if being intruded by Qin Tiange and others, rushing directly to this side.

Evil spirits are spreading all over the sky, and endless evil spirits are coming up. The scene is like a torrent of heaven and earth sweeping in, and the air extremely freezes the air.

There is a huge evil spirit in “嗷” that breaks into countless weak and small evil spirits. Its huge body covers a large area of high altitude, and its huge mouth is full of fangs.

With a bang, the woods were blown up on the spot, and countless black gas spread and spread. Everywhere they passed, they were frozen into black ice cubes.

“Ah,” some team members were unable to dodge, and their bodies froze into a black ice sculpture, exuding black gas, and the whole frame was completely fixed there.

Seeing this, let alone the other players, even Qin Tiange couldn’t help horrified.

“Come on!” Qin Tiange drank angrily, took out three plasma bombs and threw them out fiercely. Three explosions came from the blast. Endless plasma raged, blocking the countless evil spirits coming from behind.

The team took the opportunity to accelerate through the gloomy black forest, came to the passage when they came in, and just saw a scary picture.

“The passage is going to disappear, quickly, quickly, and retreat!” Seeing that the passage in front was gradually shrinking, Qin Tiange’s complexion changed greatly, and he couldn’t help a lot, and yelled and ordered the team to speed out.

Suddenly, an extremely terrifying roar came from the huge building in the distance. The sound shook for nine days, and it was fierce and fierce, showing endless violence.

Seeing a loud noise of “Boom”, a huge building crashed into the sky, a huge ghost slowly stood up, rumbling and shaking the sky fiercely.

“That’s it?” Qin Tiange looked back before leaving, and his eyes suddenly turned black, his consciousness felt a kind of electric shock, and he almost fell to the ground on the spot.

He saw that a huge fierce shadow rumbling upright, with thick purple chains around him, pulling its large and fierce body, and locking it there.

“Roar!” Another extremely terrifying roar came, a thunder, and Qin Tiange was too late to be hit by the terrible sound of the waves into the back channel. Instantly, even the channel and the woods collapsed and dissipated. For powder.

In the secret realm, a locked shadow and an endless number of evil spirits impressed Qin Tiange and others with an indelible impression.

Chapter 219 - Blood lesson, taking soul beads

Behind the iron and steel factory, a group of people rushed out of the aisle, looking pale and vomiting blood on the ground, and looked particularly miserable. Some people even fainted unconsciously, but fortunately ran out to coma. If they were unconscious in a secret place, they would be completely miserable. puff! Nie Teng ran a few steps and turned white. He opened his mouth and spit out blood, and he couldn’t help falling to his knees on the ground, remembering the scene that he was still worried. That terrible image was too horrible. With a roar, almost all of them were left in it. If it weren’t for running fast, it would be likely that all of them would be killed.

“What the **** is that?” “What a terrible thing!” Many people lay on the ground, their faces still scared with fear, remembering that the horrible shadow couldn’t help trembling, and their hearts were frightened. It was really terrifying. It wasn’t clear what it was. Just knowing a roar almost made them all account for it. Running out now is already a blessing in all luck, one by one has the feeling of the rest of the life after the calamity, and I can never forget the scene I saw in the mystery just now. “Where’s Brother Qin?” Suddenly, someone found that Qin Tiange didn’t come out. Nie Teng’s complexion changed slightly. When he turned around and looked, he saw a ripple appeared in the original channel location. Someone rushed out from the inside. It was Qin Tiange who walked in the end. He was so embarrassed that his steps seemed a bit futile. “It’s terrible, what level of that creature is that?” Qin Tiange looked at the channel disappearing behind him with a guilty conscience, and the whole person was relaxed. This time exploring the mystery, they encountered such terrible things. Fortunately, they ran fast, otherwise they would really stay in the mystery. Kacha was in Qin Tiangesong’s breath for a moment. A crisp crackling sound suddenly came from the position of the passage in front of him. “Beware of Brother Qin!” At the back, a large group of people exclaimed, and Nie Teng even looked terrified and exclaimed. They saw that the location of the passage that had disappeared was broken inexplicably, like a lens. Immediately afterwards, a

dark ghost claw protruded out of it and grabbed Qin Tiange fiercely. Devil's claws are endlessly cold and bravely black, giving people a terrible claw that sticks out of hell. "Drink!" At a critical moment, Qin Tiange gave a violent drink, and his strength suddenly lifted. Under the crisis instinct, he lifted his halberd with his hands and stabbed at the ghost's claw. There was a gurgling sound, the sparks splattered, and Euphorbia topped the palm of the ghost's claw, but the next moment came a wailing cry. The humming of the halberd groaned, and the originally faded crack actually reappeared, spreading the entire halberd, and finally cracked from the top of the halberd. The ghost claws smashed the ancient halberd one inch by one inch, and stamped it on Qin Tiange's chest fiercely, smashing the body armor on the spot, invading the body, corroding a terrible ghost claw mark. As Zizi's claws approached the body, the chest muscles were burned through, and black gas erupted, as if a black ghost's claw burned out by flames, with bones deeply visible. boom! Qin Tiange's body flew high, and he fell tens of meters away, motionless, as if he had lost his life, making everyone present stupid. "Brother Qin!" Nie Teng woke up first, exclaimed, quickly got up and ran over, gently lifted up Qin Tiange lying there, his body shivered, and his armor was completely broken. At this time, the talents reacted and ran forward, watching Qin Tiange, who was vomiting blood, but he was not dead. "Qin Brother, how are you?" Nie Teng asked anxiously, worried. At this time, Qin Tiange slowly supported his body, vomiting blood in a large mouth, and the black blood carried a strong force, and the blood was frozen into black scum. Wow! It was another spit of black scum, and Qin Tiange's pale complexion was much better. He stood up with a stunned face, shaking, without a strand, and came to the channel naked. On the ground, scattered pieces of metal fragments, just the quaint halberd just crushed by every inch, were broken. This spooky and simple halberd was bursting under the ghost claw just now, completely ruined, and Qin Tiange was furious. "Abominable!" He squeezed his fists and looked down at his chest, the dark ghost claws scorching black smoke, corroding his body. On the prints of ghost claws, black air coiled around, the scars were visible deep in the bones, it was really miserable that almost a claw would penetrate him through the body. Fortunately, at the time, Euphorbia erupted autonomously, blocking most of the terrorist power of ghost claws, which saved Qin Tiange from a calamity. That is to say, it was the quaint halberd that saved Qin Tiange's life, but he was crushed and destroyed completely by the slapping of ghost claws. The black gas of Zizi's chest sprang up, and the immortality of the body quickly poured in. The black gas on the wound was quickly cleared, and gradually recovered, as if he had never been injured. Qin Tiange watched the injury recover, quickly took out a new set of armor, and dressed neatly. Then he crouched down in grief, picking up pieces of debris. The halberd was broken and completely destroyed. This simple and amazing halberd had just followed him for less than a month, and was thus broken. "You wait for me. One day, I will let you return a thousand times." Qin Tiange stood up, holding a pile of war halberd fragments in his hands, staring staringly at the broken space that was restored to normal, There was a faint trace of cold black gas left there. That ghost claw is the horrific shadow locked in the secret realm It can penetrate the channel to be closed through the secret realm and wound Qin Tiange. That fierce mighty power caused Nie Teng and others to feel a palpitation. If it were not for Qin Tiange being strong enough and having an immortal body, and Euphorbia blocked most of the power, it is likely that he would fall this time. The doomsday is dangerous. The **** and dark curtain has just begun. Qin Tiange wants to grow all the way. He doesn't know how many calamities and crises will go through before he can become a true Xeon. "Clean up, everyone, take a rest in the iron and steel plant." Qin Tiange turned expressionless, turned to leave a sentence, walked directly into the steel plant in front, leaving Nie Teng and others down their heads, feeling down. This time the blow was too big. For them, it was definitely a profound lesson. There are still many dangers they don't know

in the last days. "I want to become stronger and stronger!" In the steel factory, Qin Tiange looked cold, took out a metal box, and then took out strange and cold beads. This is the soul bead. He was stimulated. At this moment, he intends to take these soul beads to enhance his spirit will. Soul bead, the shell is hard, but the inside is like an egg. Click! I saw that Qin Tiange picked up a soul bead and knocked it lightly like an egg, and a peculiar liquid was flowing out, which was the liquid of the soul. This soul fluid is extremely pure, can be taken directly, enhances the soul level, scrubs the impurities in the soul, and makes the entire soul and even a thought completely flawless. Grunt! After smashing ten soul beads in a row, Qin Tiange lifted his head and drank the liquid of the soul poured out in one breath. Suddenly, an endless sting came out from the soul consciousness, like a flood and a tsunami that drowned Qin Tiange's sea of consciousness.

Chapter 220 - Soul becomes stronger

After shame and bravery, suffering from the blood lesson and blow, Qin Tiange realized that he was still weak and had a long way to go. "Ah" There was a deep roar from the office of the factory, which seemed very painful. It was Qin Tiange's voice, hoarse and painful, like an injured beast. Outside, Nie Teng and others listened to the low-pitched roar, couldn't help pinching a sweat in their hearts, and secretly guessed what Qin Tiange was doing? "Will Brother Qin be too injured, should we go and see?" Someone asked in fear and wanted to go in, but was quickly stopped by Nie Teng. Just kidding, Qin Tiange has explained before, no one should bother him. Now that he enters the window, it's okay. If something happens, it's really hard to say. In the office of "I forbear", Qin Tiange supported the ground with both hands, bent down, and knelt on the ground. He drank the soul fluid in the ten soul beads, and suffered the pain from the soul, the kind of burning pain that people who do not experience will not understand. How painful is the pain of the soul? Qin Tiange did not know before, but now he knows that he deeply understands the pain caused by the soul, which exceeds the body hundreds of times. Qin Tiange Steel's teeth were almost bitten, his lips were bleeding, his eyes were red, but he still endured the burning pain of his soul. Although taking soul fluid can increase the strength of the soul and cleanse the soul impurities, it is a very painful thing. Nothing will be smooth, and you must experience pain and suffering in order to truly grow and transform, both physically and mentally. Zizi was surprised to see that a trace of burning traces began to appear in Qin Tiange's eyebrows, and a stream of black smoke escaped from the inside, which was a soul impurity. Finally, under the washing and burning of the soul fluid, Qin Tiange's soul began to change. Although he could not see it, he could clearly sense that his consciousness and thoughts were more clear and accessible. A feeling of fullness and fullness came from the depths of the soul. It was clear and very pleasant. It was a reaction in which the soul was washed and ascended. At this point, more and more black smoke was rising at the position of the eyebrows, rising and floating in the air, which was weird. What's even more surprising is that with more and more smoke, the pain on Qin Tiange's face is getting lighter and lighter, and finally the painful face begins to slowly unfold. After the pain, it was soothing, and that kind of cheerful and invigorating feeling made Qin Tiange can't help but utter a brisk moan, his face bright and clean. At the heart of the eyebrow, the black smoke disappeared, replacing a ray of pure and immaculate light, very faint, but very clear, that is the pure light from the depths of the soul. The soul was cleared again, as if the trees washed by rain had a clear and transparent feeling, it was very magical. "The call is finally finished." Qin Tiange opened his mouth gently, exhaling a black breath, and that was the last bite of soul impurities this time. As the soul finishes scrubbing, Qin Tiange feels that the world around him has become different, as if the air is lighter, and even a faint trace of strange energy can be sensed, unfortunately, he cannot really capture it. "Maybe, that's the so-called dark energy." Qin Tiange

thought thoughtfully, feeling a moment ago, feeling a brand new energy breath. That should be the dark energy of the universe, but he has no ability to capture it now, let alone absorb this dark energy. Qin Tiange didn't care. He moved his body for a while and felt unprecedentedly comfortable. The effect brought by the promotion of the soul was extremely huge. The idea is stronger, the will is stronger, the idea is more open, and the speed of thinking is faster. It seems that only one thought can come up with a solution. This is change. In fact, the biggest change comes from the body. A strong soul can control a strong body. If the soul is weak, then it is impossible to control a strong body. Judging from the current feeling, although the physical strength has not increased, Qin Tiange believes that his fighting power is about twice as strong as his previous one. "Soul, will, maybe this is the key to the king." Qin Tiange thought secretly, and suddenly thought like this. Unfortunately, he didn't understand. He felt faintly that if he wanted to be king, he must have a strong soul will, otherwise he could not talk about it. Without thinking much, Qin Tiange cleared his mood, regained confidence, opened the door and went out. "Brother Qin!" Seeing him come out, Nie Teng and a thousand others came forward, looking at him with a worried look, afraid that the leader would suddenly lose his will. In fact, their worry was superfluous. Who was Qin Tiange, and how could he be depressed with a single blow? After fifteen years of fighting in the previous life, he will not be easily defeated. Instead of not, he will be ashamed and brave and forge ahead, and one day he will regain his lost dignity. "Don't worry, I'm fine." Qin Tiange smiled and patted Nie Teng's shoulder to signal that he was fine. Then, he took out two soul beads and gave them to Nie Teng, saying, "You hold these two soul beads. When you go back, they are broken like eggs. Drinking the soul fluid inside can wash your soul impurities and increase soul strength. "" As for you, if you can't take it for the time being, there will be danger. After everyone is promoted to the two-star level, you can redeem it according to their respective merits. "Qin Tiange made a promise to a group of men. They can't take it yet. Once the soul will can't bear the burning pain, it will immediately collapse, and it will really die. "Thank you, Brother Qin!" Nie Teng was so excited carefully closed, so I looked at Qin Tiange, who seemed to have something to explain to him. Sure enough, Qin Tiange thought about it and made a decision. He said, "Nie Teng, go back immediately after you searched here. I still have things to do." "Yes!" Nie Teng led the team and began to The ground was searched in the iron and steel factory, and every inch of steel was spared. Looking at the busy team, Qin Tiange nodded slightly, walked out of the steel plant with a ray of depression, and disappeared here. "Euphorbia is broken. It seems that I must build a brand new weapon." On the way, Qin Tiange looked at a small crescent on the palm of his hand, silently, and a hint of sadness flashed in his heart. The euphorbia helped him Great. Not only did he understand the domineering style of combat skills, but also a mysterious and domineering body technique. It can be said that Euphorbia was the main weapon he would look at in the future. It's a pity that this time he broke into the secret realm and suffered such a huge loss. As the saying goes, curiosity kills people. If they were not curious about the secret realm, Qin Tiange would not step into it. But you can't blame him. After all, after seeing a secret entrance, and encountering a large number of extraterrestrial evil spirits raging here, I naturally want to enter. Now regret is useless, Qin Tiange gathered those pieces, thinking about preparing to rebuild a new weapon. Huh! As for now, Qin Tiange has drawn out a simple bronze sword, which is the three-star bronze ancient sword that was won by lottery. "Use this ancient bronze sword for the time being." Qin Tiange murmured, then crossed the street in front, and ran across the neck of a zombie with a sword, cut off the head of the zombie, and dug out his brain. crystal. He held the ancient bronze sword and disappeared step by step on the street corner.
