

Dark Ages 22

Chapter 22 - Thrilling 1

“Hey Hey...”

There was a horrible laughter in the office. The laughter was creepy. Many students were scared and pale, and they were afraid to approach the office from a distance.

I, especially those girls, are wondering if Qin Tiange is crazy?

In fact, Qin Tiange was not crazy, but he was too excited at the moment, so he couldn't hold back the smirk.

At this moment, in the office, Qin Tiange was smirking at dozens of one-star hardening medicaments and a pile of blood sacs.

He was born again. This life really allowed him to seize the opportunity. From the first day of the end of the last day to the present day, only one day has passed. Can he be so happy?

This is where his rising spirit lies. Except for two of Chen Xi, three of Moda, and one of Liu Yan, and thirty more are combined, now there are sixty-four one-star hardening potions.

After all, after fifteen years of hard work in the last days, Qin Tiange quickly calmed down, calmed down, and began to blend carefully to improve the medicinal properties.

First, two quenching agents are poured together, and two blood sacs are added to the fusion to stimulate and enhance the drug's medicinal properties to form an enhanced version of the quenching agent.

Then someone said, you might as well drink it directly, two potions are better than one.

That's not the same. The ordinary one-star quenching medicament has basically lost its efficacy when it is drunk. The two medicaments are merged into one, and the medicine is definitely much stronger, and some rare treasures are added, such as blood sacs. one of them.

Two enhanced versions of the potions were blended out and reloaded into the stick management. The remaining sixty one-star ordinary hardened potions were not moved, and only two enhanced versions of the potions were blended.

加强 This enhanced version of the medicament is stronger than the previous ordinary enhanced version, and even greater than the fusion effect of the mutant crystals previously taken by Qin Tiange.

The students are taking a blood sacrifice with two quenching medicaments. This version is the initial version, and Qin Tiange now has an extra blood sacrifice.

This kind of thing contains powerful blood color energy. This blood is absolutely powerful and terrifying. Once it is added to the quenching agent, it will inevitably bring a huge improvement.

“There are still nine mutant crystal nuclei, should you try?” Qin Tiange seemed hesitant at this moment.

He remembered that he still had nine mutated crystal nuclei. Did he venture to join the enhanced version of the potion to see if it could enhance its medicinal properties?

I thought for a while, but in the end he still didn't hold back. Although no one in the past said whether he could continue to add other things, now he wants to try it.

He took out a one-star mutated crystal nucleus, then took an enhanced version of the potion, Qin Tiange looked hesitant, and finally gritted his teeth into a stainless steel bowl.

Murmur murmur ...

The mutant crystal nuclei have just been put into the liquid medicine, and at once, the liquid seems to boil immediately like boiling oil.

Seeing this scene, Qin Tiange's face turned wild, his body jumped quickly, and the whole man retreated into the corner to hide.

Boom!

I saw that a bowl of enhanced medicament Jinger burst into a horrific explosion, and then a powerful energy shock nearly dismantled the entire office.

一切 When everything was gone, a one-meter-sized cave appeared in the concrete floor of the reinforced concrete in the center of the office.

Murmur!

I swallowed a little and smeared, Qin Tiange twitched his face wildly, his heart was cold, and he secretly regretted that he had tried rashly, and almost did not blow himself up.

The power of the explosion is really scary. A bowl of enhanced potion actually produced such a mutation at the moment when the mutant crystal nucleus was added?

I can't think of it, I can't help but make Qin Tiange secretly chill. He may be killed by himself.

If people know that a rebirth is actually killed by their own experiments, wouldn't it make people laugh?

"Safety is paramount!" Qin Tiange secretly wiped a cold sweat and grinned twice, fortunately he had put everything into the space bracelet earlier, otherwise the loss would be great.

He did not dare to try this time, and wasted a potent version of the potion. It was a huge loss. His heart was hurting. How dare he continue to try?

I took out an enhanced version of the potion, Qin Tiange was upset, swallowed up and swallowed it, and the next moment he changed his face.

Within the body, two energy bursts out, one cold and one hot. The body strengthened twenty-five times appears to be somewhat unsustainable and wants to explode.

The powerful energy raged in the body, and the internal organs were smashed by severe impacts, and a dark smelly liquid flowed from the pores and even the cracked skin.

This is ascension, a violent ascension that has brought unimaginable pain to Qin Tiange.

At this moment, his body was cracking, cracks spread and quickly repaired. It looked very horrible, and a foul-smelling liquid quickly flowed out and squeezed out.

Ascension from the inside out brings great pain, but it also has a strong pleasure. Strength, speed, and overall quality of the body, both inside and out, are increasing rapidly.

The 25-fold physical fitness immediately rose, 26-fold, 27-fold, and 30-fold, and finally, when the violent medicinal effect weakened and eventually extinguished.

“Thirty times?” Qin Tiange froze for a moment, feeling the powerful force brought by his body, it felt as if a punch could break a house.

This time strengthening, it has only improved five times. In addition, there are 25 times the physical fitness of an adult man, 30 times the physical fitness of an adult man, and 30 people.

What is that concept? For example, an ordinary adult man has a strength of about 130 kilograms, so multiplying by 30 times is a powerful force of 3900 kilograms. Of course, Qin Tiange’s current physical strength is close to 4,000.

Powerful and scary!

Although Qin Tiange was amazed, he was still dissatisfied, because the efficacy had lost its effect. However, at present he is only in the one-star stage, and it is really much more powerful than the previous life. This is the great advantage of the rebirth.

“Boss, what happened?”

At this moment, outside the office door, a group of people stared nervously at the door, and Moda stepped forward and asked carefully.

Hearing what he said, Qin Tiange woke up from the shock, took a deep breath, and calmed down in a blink of an eye. He quickly blended an enhanced version of the potion that had been amplified with mutant nuclei.

With a click, the door opened, and Qin Tiange stepped out, watching the group of people gathered with care. He was secretly satisfied, and smiled on his face: “Don’t worry, everyone, I’m fine, a little accident happened.”

He said that no matter what everyone thought, he turned away, and the rest of Moda, Liu Ye, and others looked at the one-meter hole on the central floor of the office and froze.

“This is what he did?” Liu Yan asked stupidly.

No one answered her, because they were also stunned. I can’t imagine how people have so much power to break the ground of reinforced concrete?

Think of themselves. Although they have just taken the weakened version of the quenching agent, although it is water-based, the effect is very strong. Almost everyone has at least doubled their physique, and some people have improved about 1.5 times. .

The overall improvement has made this group of junior high school students, who were already fragile, immediately make a big change, one by one, and become strong men, even girls are no exception.

After strengthening, the boys are obviously taller and their muscles are raised. Many people are showing their strong muscles. Girls are just the opposite. They are taller and slimmer, and their skin is better. Looking sideways.

“Everyone gather!”

When Chen Xi returned, Qin Tiange finally ordered the assembly. All of them quickly and consciously gathered together. The boys and girls separated, and Moda waited for thirty swords and shields.

Thirty long-selling, plus forty girls, a team of one hundred people, crowded in the classroom, and could hardly fit in.

I watched the team grow stronger and stronger, Qin Tiange was in a good mood, and directly took out a test tube that was red and black and held it up.

“Did you see this thing? This thing is an enhanced version of the hardening body medicine. It will definitely improve ten times by drinking it alone.”

Howl!

As soon as this word came out, there was an uproar at the scene. Everyone regardless of the boys and girls stared wildly at the transparent test tube, blooming an extremely hot light.

Qi Qin Tiange’s mouth slightly tilted, and then he said an exhilarating words: “Listen, this time, all the threats to the campus, the brave battle, and the three people who kill the most enemies will get this enhanced version of the pharmaceutical reward.

Boom ...

His words seemed like a thunder, which made all students dizzy, and there was only one thought in their minds: killing zombies, killing mutants, and getting the top three.

Wu Chenxi’s eyes flickered, staring at Qin Tiange’s face and looking straight, she had to sigh that this man would really flicker.

Tamarix was complex, and looking at a group of students, both men and women showed an extremely crazy look, and immediately knew that this group of students was desperate.

Sometimes she really hates Qin Tiange. A good group of students are taken by him like this. In the future, she may become a group of killing lunatics.

In fact, at this moment, she has an insatiable desire for the enhanced version of the medicament, which is stronger than anyone. After taking the ordinary one-star quenching medicine, Liu Ye knows the power of this kind of thing.

“I must get it!”

At last, there was only one thought in Liu Ye’s heart, and he secretly squeezed the powder fist and gave himself such an oath that he must get it.

All of this was under Qin Tiange's control. When he saw the expression of the crowd, he smiled with satisfaction, turned around, and his lips were instantly curved.

“set off!”

With an order, a hundred people set off in a mighty manner. All men and women, all dressed in neat iron armor and holding brand-new weapons, exuded a trace of killing only in the army. Although weak, at least With a little look.

Another round of campus clearing has begun!
