

## Dark Ages 23

### Chapter 23 - Mutant Ant

In the early morning, the fog is very heavy, and the dense fog rises everywhere. You can't see the scene ten meters away, and you are hazy as if you were in another country.

Downstairs of the teaching building, the zombies were swaying in twos and threes, aimless, and staring blankly, as if looking for fresh flesh that might exist.

Upstairs, Qin Tiange took the 100th person down, but saw such a scene.

"Oh my God!"

"Where is this?"

A group of students were shocked and dazed, and looked downstairs at the teaching building stupidly. Around them, the trees were soaring. The original flowers and trees had already become different.

They saw that the entire campus was shrouded in trees, as if they had entered the primitive jungle.

All the students present were shocked by the sight in front of them. The only thing that didn't feel was Qin Tiange himself. He already knew.

On the second day of the end of the world, as the dark energy of the universe becomes richer, the flowers and trees on the earth start to grow vigorously after they have absorbed enough dark energy. The grass has become a tall weed, and the flowers in the flowerbed have already become lush colorful, a huge flower is as tall as a person, it is incredible.

What's even more incredible is that the trees that were originally planted on the campus grew wildly under the stimulation of dark energy, as if they had become towering giant trees overnight.

"Everyone pay attention!"

Qin Tiange suddenly warned, so that everyone in the daze was awake, his expression was still shocked by the changes in front of him.

Wu Chenxi looked horrified and asked softly, "God, what's going on? Why suddenly everything seems to have changed."

"That's the dark energy of the universe, and you'll understand it later." Qin Tiange didn't explain much, in fact he didn't quite understand.

I only know that on the second day of the last days, the flowers and trees on the earth have ushered in a crazy growth period, and the plants on the entire earth are lush and full of vitality.

There is also a huge crisis hidden in it. For example, in this campus, flowers and trees flooded into disasters, which has changed the campus.

The original lawn turned into a dense grass. When one was tall, one couldn't see his head when he walked in.

"Everyone's attention, clean up the zombies on the first floor immediately!" Qin Tiange suddenly ordered to clean up the zombies on the first floor.

Under his order, Moda and others held up their steel knives and began to clear the swaying zombies on the first floor. Thirty sword shield hands immediately topped up, and thirty people behind them grabbed and assassinated them.

“Go up, kill them all!”

Moda shouted and waved the steel shield forward to go down. He smashed a zombie’s body and fell forward. Before the zombie reacted to the attack, a steel gun pierced through it, and he stabbed into the head of the zombie. Kill.

The sword shield, long-sought, and crossbowmen, the three teams cooperated, cleared the wandering zombies a little bit, and soon saw all the zombies downstairs in the two teaching buildings cleaned up.

This is the effect of perfect personnel and strength, and it is very powerful. It does not take much effort to clean up hundreds of swaying zombies on the first floor.

“Keep your formation and step back immediately!”

As the crowd was excited, Qin Tiange’s voice came from the team, showing their solemnity and solemnity, which made people’s hearts jump.

Although he was puzzled, Moda and others reacted quickly and immediately contracted the team. Thirty sword shields immediately surrounded the team.

Yongchang looked desperately in desperation, clenched his steel gun in both hands, and looked around vigilantly. In the center, Liu Ye took forty girls with everyone holding a steel crossbow and alerting him at any time.

“What’s wrong?” Chen Xi asked softly.

She felt something was wrong, her eyes kept blinking, staring at the grass in front of her, where a large lawn stood tall when she looked at it.

Qi Qin Tiange didn’t speak, but stared at the grass, his hands unconsciously clenched the broken bone tang, his heart was worried.

In the last days, what is most terrible? Some people say that they are zombies. In fact, the most terrible thing is not the zombies, but the huge numbers of creatures, such as insects.

Last night everyone had seen the horrible and terrible nature of the tiger mosquito after the mutation. Now Qin Tiange is most worried about a creature, which is a terrible thing in groups.

Rustling

Suddenly, a rustle came from the grass, and a tall grass suddenly made a shake, as if something was crawling inside.

Everyone was shocked, and before they guessed what was inside, they saw a black thing about the size of a bowl quickly crawling out.

When the first look at this thing, Qin Tiange’s heart fluttered, his face changed drastically, and his worry still appeared.

“That’s ... an ant?” A student exclaimed, his face terrified.

They stared at the crawling thing. It was a burgundy ant, whose body was as thick as a bowl, half a meter long, and two tentacles were shaking around.

This ant is a mutant ant after mutation. Its body has expanded dozens of times compared to the original, and it is just a huge cricket monster.

Ants, the most terrible mutant creature, because the power of ants is too powerful, it is terrifying.

A small ant can lift something four hundred times his own weight, that is four hundred times instead of forty times.

Now, this mutated ant has absolutely ten kilograms and four hundred times the power on his body, which is four thousand kilograms of power.

Is it very scary to scare an ant with four thousand pounds of power? This is not the most scary, the most terrifying thing is that this ant is only one star.

Yixing mutant ants, the most common can have four kilograms of power, if some larger, higher-level mutant ants, what would it be like?

The most terrifying thing is that the ants are social, and Qin Tiange is the most vigilant of this kind of mutants no matter the past or present.

“Ready to crossbow, shoot it!”

Suddenly ordered, Qin Tiange issued a shooting order. Suddenly, a group of girls standing in the middle of the encirclement instinctively lifted up the steel crossbow and aimed at the ant that came out.

Ding Ding Ding Ding ...

The arrow rain poured down, and dozens of steel arrows were in the center of the ant, but it was frightening that it could not penetrate the hard armor of the ant.

That mutant ant, covered with armor all over his body, flashes a burgundy luster, even if the steel arrow shoots up, it cannot break the defense.

Hiss!

Seeing this, everyone took a sigh of air conditioning, and it was incredible. That ant, their steel arrows could not break the defense of the other side, it was really frightening.

“Everyone is optimistic. This is the end of the world. Not only are zombies raging, but even more terrible is that the entire earth has become a paradise for this kind of mutant creatures.” Qin Tiange explained with a solemn expression.

He said: “This is just a one-star mutant ant, and there will be many terrible species in the future, more advanced mutant beasts, the earth, plainly, has become a paradise for these beasts.”

“You listen, if you want to live, you must be strong, then kill these mutant beasts.”

“Now, following my orders, Sword Shield stepped forward, followed quickly, and chopped this mutant ant with me.”

After Qin Tiange finished speaking, he took the lead in rushing forward. This is to set an example for the group of junior high school students to adapt to the next-generation killing, so that his next plan to clear the town of zombies and mutant beasts can be carried out smoothly.

“kill!”

“Chopped it!”

Maybe it was stimulated by Qin Tiange’s words, or he was surprised by the horror of this mutant ant, and everyone screamed as if venting his fear.
