

Dark Ages 25

Chapter 25 - 2 Star Mutant

Huge shadow, half a meter in height, with thick limbs, sharp claws struck the boy who fell to the ground. Fortunately, the opponent instinctively resisted with a steel shield and was not killed on the spot.

“Boss help!” The boy was terrified, and issued a panic for help.

Everyone looked wild, looking at the creature the size of the ox, turned out to be a dog, huge in size, and several times bigger.

“Everyone be careful, this is a two-star mutant dog.” Qin Tiange’s expression changed slightly, and the whole body rushed up after a loud voice.

The two-star mutant dog was originally a human-raised pet, but now it has been stimulated by the dark energy of the universe to evolve into this terrible beast. The whole body has yellow hair like steel needles, full mouth with sharp fangs, and there is disgusting mucus.

At this time, the team is still small and can not cause much loss, otherwise his plan will be affected as a result, so Qin Tiange moved.

“Beast, be dead!”

Qin Tiange sighed angrily, took three steps and made two steps, raised his sword and slashed sharply, the broken bone tang sword exudes a sharp edge, and whistled at the two-star mutant dog.

When the two-star mutant dog felt the threat from Qin Tiange, he immediately stepped back, gave up the prey that was about to come to his mouth, and stared at Qin Tiange, who was savagely staring at him. This person was the biggest threat to it.

Alas!

The two-star mutant dog whistled, as if howling, and howling like other beasts. The sound was extremely loud and creepy.

I was shocked to see that its limbs suddenly kicked, and the whole jumped up high, the speed was extremely fast, most people absolutely did not respond, but it was facing Qin Tiange.

Qin Tiange’s Tang knife was raised slightly, and the tip of the knife aimed at the two-star mutant dog that rushed over, and stabbed him severely.

There was a splash of blood, and the two-star mutant dog twisted and dodged a fatal stab in the air, but his left leg was still stabbed.

As soon as he fell to the ground, the two-star mutant dog roared and was about to pounce, but was surrounded by a group of boys who responded with swords and shields. The long-awaited rushed forward immediately, and the anger was very angry.

They took the initiative to attack and cooperated with the team, which actually blocked the two-star mutant dog in the middle of the team and couldn’t come out.

“Yes, don’t bother me to save people.” Seeing the crowd attacking, Qin Tiange’s mouth turned up a faint arc.

Moda and others surrounded the two-star mutant dog, blocked by a shield, and a sharp steel gun in the back gap was assassinated severely. Even if the two-star mutant dog was fast and powerful, it still could not stand the fierce besieger of dozens of people.

Perhaps, after seeing Qin Tiange's initiative to save people, they settled down and broke out with the enemy's temperament, and instinctively attacked.

This group of junior high school students is at a very plastic age. It was necessary to follow Qin Tiange at the beginning, and he was forced or afraid to listen to him from the stream.

Now, seeing this mysterious and powerful boss, who actually rescued the distressed person, had to excite and inspire these hot-blooded teenagers. The boss was not as cold and ruthless as imagined.

"Blade shield goes up, stabs his belly, eyes and other weak points with a long hand, and the steel crossbow prevents it from jumping out of the circle." Qin Tiange calmly commanded the team to fight.

The sword shield was pushed forward to reduce the range of motion of the two-star mutant dog, and then pierced by a spear, pierced on the weak part of the mutant dog's body, and the blood flew for a while.

Alas!

The fierce two-star mutant dog growled, his limbs leaped suddenly, and he wanted to jump out of this encirclement, but unfortunately a group of girls outside had already prepared, and a steel arrow immediately whistled away.

Yan Gang's arrows penetrated the body, stared into the mutant dog's body, and some even pierced its eyeballs. They fell down on the spot and were severely hit in the battle circle.

The guillotine screamed, the spear pierced, and a few times, the powerful two-star mutant dog was slaughtered by a group of students in the war circle.

"Very good, you are doing well, and I am more and more satisfied."

At the end of the battle, Qin Tiange looked at the excited group of students in front of him with a smile, and gave a few words of praise and encouragement. After promising that they would have a reward, everyone cheered with excitement and the cohesion in the team for a while. Stronger.

The corners of Qin Tiange's mouth turned dark. It was still this group of students who flickered. If those old fritters have been rolling in the society for many years, it would not be easy for Huyou to help him.

学生 These students are different. No matter whether they are men or women, they are in a metamorphic stage. They are at the best age for their personality and mentality.

"Everyone keeps the formation and clear all the zombies and mutants encountered."

Qin Tiange put away the dead two-star mutant dog, and immediately ordered the team to go forward, clearing all the zombies and mutants he encountered in the school.

For more than a hundred people, the danger of sweeping the campus was sweepingly. When encountering zombies, it took almost no effort to kill and clean them. As for the mutant creatures, there was some trouble.

Mutant creatures, after all, are much more powerful than zombies, so they are in great danger. Then the team started to get into trouble, and many people were injured.

A group of zombies were beheaded and the brain crystals dug out in the aisle in front of the campus. It was a victory, but soon Qin Tiange and they were in trouble, and suddenly a large group of things made a humming sound.

It was flies, flocks, bowl-sized flies, letting people watch their scalp explode.

Buzz buzz!

A large swarm of black flies fluttered and flew around, hovering in the air, crashing down like a bomber, and being bitten was absolutely miserable.

“Back!”

Xu decisively ordered to retreat, Qin Tiange and his team immediately hid in a small dormitory building next to it, which is the teacher’s dormitory building of this middle school.

Everyone closed the iron door, and after entering the teacher’s dormitory building, the team went to the dormitory in batches to avoid it, and closed the doors and windows.

“Tiange, are those flies outside really?” Chen Xi asked in a whitish face in a dormitory.

Liu Yan next to the cricket had an ugly face, and she was sick because she wanted to vomit. Flies, she hated flies. She didn’t feel anything before. Now it’s different. Have you ever seen a bowl-sized fly?

Groups of flies, buzzing and flying, smelt a foul odor all over them, and even a sick nausea larva in the stomach of the flies.

“Nausea is dead!” Liu Yan slapped the nauseous mucus on his body. The strips of larvae were squirming, and the larvae of the thickness of the little finger seemed white and tender, but it caused the goose bumps to rise.

Qin Tiange pinched a larva splashing on his body, his tone was very flat, he said: “These flies are huge in number the breeding speed is super fast, but it is not without defeat.”

In the past life, one of the most annoying mutants of human beings was flies. This kind of huge and extremely fast breeding mutant flies was the most annoying.

Fortunately, there are a variety of pesticides in the heritage stele. That pesticide can prevent this disgusting fly, or the mutant bird is also a bug killer.

The maggot flies, even if mutated, have nothing good in them, only the nausea larvae in the stomach, and a venom, the saliva of the flies.

The saliva of maggots carries countless kinds of mutated viruses. Once someone is injured and bitten by these flies, they will definitely be infected with those super mutated viruses. They will soon rot and die, and eventually they will be covered with that kind of sick larva.

“Everyone wait for peace, I’ll find something to prevent these disgusting flies.”

At this time, Qin Tiange looked out of the window and saw the buzzing flies gradually dispersed, and immediately decided to go to the heritage stele of the football stadium to exchange a little medicine to restrain these flies and insects.

Otherwise, it is enough to face these disgusting things in the future. There is no need to hunt and kill zombies and mutants, and it is not necessary to complete his plan.

Wu Chenxi looked at the back of his departure, his eyes flickered, and he knew naturally what he was doing.

Suddenly, Liu Yan also had some guesses. Looking at the back of his departure, he looked thoughtfully, holding his glasses from time to time, and those beautiful eyes flashed again and again.

As a teacher, she is not a fool. Every time Qin Tiange goes out, she will bring back a large number of good things, such as weapons and equipment, such as medicines that can improve their physical fitness. These things have always been their most wanted to know.

Now, when I saw Qin Tiange going out alone again, he naturally guessed.
