

Dark Ages 251

Chapter 251 - Heavy hit white tiger

On the empty street, a shadow flashed, and the sound of a thumping came, and a cricket's head soared and rolled down.

Qin Tiange carried a bronze sword and dug up the crystal core of the zombie to collect it. He looked around to observe that many zombies were loitering nearby.

Since the quaint Euphorbia was broken, Qin Tiange realized that he must master the combat skills of other weapons.

Otherwise, what should you do if your weapon breaks sometime in the future? In other words, is it impossible to fight without weapons?

Therefore, he began to apply bronze swords, sharpening his sword skills all the way, even thinking about boxing and archery in his heart.

As the so-called Yiduo does not suppress himself, a powerful man must have many killing skills, and will not be limited to a single shot.

“Euphorbia can charge and fall into battle. Swords can be used as the bottom of the box. Archery can remotely destroy the enemy. Boxing can defend itself.

One sword wiped out a zombie head pounced in front of him, Qin Tiange lowered his head in thought, muttered to himself, thinking about his own future path.

He thought that it was indispensable for Euphorbia to charge into battle, and that it was domineering, heavy in gravity, sweeping the wasteland, and having the power of overlords.

Swords, gentlemen, have the style of a king, can attack and defend, naturally can not be discarded, but also hard to sharpen their swordsmanship in case of accident.

As for archery, Qin Tiange decided to strengthen his practice, so he had already prepared a three-star strong bow, and was about to go out to practice various skills.

Boxing is the last resort. When no weapons are available, or even the weapons cannot function, or all weapons are broken, that pair of fists is their best weapon.

This has to be sharpened, or it will be bad if something unexpected happens.

“The sword art has arrived at the moment of fire, so it is time to sharpen the archery.” As he said, Qin Tiange took a sword flower and snorted, the bronze sword returned to its sheath.

He carried the bronze sword behind him, and then took a large bow, black all over his body, engraved with dense lines, which looked extremely simple and mysterious.

Samsung strong bow, huge power, lack of strength can not pull this strong bow, Qin Tiange's current strength, barely pulled, but it can not reach the level of a full moon.

Ga!

Surprised, Qin Tiange bent his bow and arrow, aimed at a zombie swaying a thousand kilometers away, and loosened his arrow feathers.

The steel arrow whistled, but unfortunately the sight was a little bit worse, and it should have been aimed at the brows of the head, but inserted into the zombies' chest.

“Archery relies on constant practice and proficiency.” Qin Tiange was not disappointed, murmured, and bowed his arrow again.

Over there, the zombie pierced his chest yelled, and found Qin Tiange's trace, and immediately ran up.

It's a pity that an arrow shadow cut through the air and pierced through its head with a flutter. It was instantly killed on the spot. The power of an arrow was amazing.

Even Qin Tiange had to admit that archery can sometimes bring him unexpected results and gains.

In this way, Qin Tiange walked all the way, looking for zombies and teaming up, constantly mastering the skills of battle bows, and archery was improving at a rapid speed.

The super brain is good. No matter what you learn, if you take it seriously, you will gain something, and even that kind of improvement will surprise him even.

Uh ...

On the street corner, two shadows passed through the air, tearing the air and sticking directly on the bodies of the two zombies, there was a piercing eyebrow and killed on the spot.

The other stabbed into the body, but did not die. Instead, he flung wildly in the direction of the arrow feathers, where there was a shadow-bending bow and arrow.

call out!

Another arrow broke through the air. This time, he hit the zombie's brain directly, punctured it, and fell down and died.

“It's still a little difficult to shoot two arrows together.” Digging out his brain crystal, Qin Tiange frowned, couldn't help sighing.

Just now, he learned to shoot two arrows in succession, but he missed me on the right, killing one, and the other stabbed in the body without killing the opponent at all.

This improvement in archery made him feel a bit difficult. It is impossible to learn archery overnight. It takes time to learn to master superb archery.

Uh ...

Suddenly, there was a terrible tiger howling in the distance, and the sound was shocking in all directions. The momentum was rolling, revealing the power of a king of beasts.

As soon as he heard this tiger howl, Qin Tiange moved his face and looked up in that direction. He could faintly see a burst of smoke rising from the sky.

“The tiger howl came from there, look over it.” After thinking about it, Qin Tiange jumped up and dropped a few zombies that were supposed to kill and rushed there.

He was curious about this tiger howl, and felt a little familiar. He seemed to have heard it before, so he thought to take a look.

Moreover, in Shenzhen, tigers are rare, especially the special tigers after genetic mutation and evolution.

hiss!

On the way, there was a terrible roar again, showing the coldness and fierceness, giving an endless sense of coldness, murderous.

This roar, the momentum did not lose the tiger scream just a moment ago, and even surpassed, Qin Tiange felt that the roar was more powerful.

“Is it a snake?” Thinking of this, Qin Tiange was faster, and a few ups and downs climbed to the top of the floor and jumped to hurry.

Soon, he came to the top of a building, looking far ahead, a modern square.

“White tiger?” At first glance, Qin Tiange saw a touch of white, a huge white tiger stood upright in the center of the square, staring at the world.

It was dancing with hair all over it, with its eyes full of violent murder, staring at a behemoth that was in the square, black all over, and its scale armor as thick as a sea bowl.

It was a snake, a variant of the King Cobra, with a huge head raised, spitting its core, and making a horrible roar from time to time.

“It was these two again.” Seeing this, Qin Tiange understood and saw this scene again.

I had seen these two mutant creatures when I was in the village of Taoyuan, a huge, white-haired tiger, and a black, cold and bloodthirsty king cobra.

Both are extremely terrifying things, facing each other, making low growls and growls.

“The white tiger was hurt ...” Soon, Qin Tiange noticed something strange. There was a huge scar on the hind leg of the white tiger, the blood was flowing, and the fur was red.

On the other hand, the eyes of the king snake, intact, coiled into a punch, a huge head raised, looking down at the white tiger on the opposite side, with a bloodthirsty and cruel murderous power in the cold eyes.

hiss!

Suddenly, the King Cobra launched a surprise attack, suddenly swooping, a huge mouth opened, and a wave of green liquid was ejected, like a high-pressure water gun lasing towards the white tiger.

It was venom. Once it was shot, even the thick and thick white tiger skin would be poisoned, but the white tiger is indeed the king of the forest, and his limbs leaped fiercely, and the whole body smartly escaped the attack of the king cobra.

Roar!

The white tiger snarled with his mouth open, and leaped abruptly after landing, with his claws slamming **** the king cobra's head, and a dull sound came out.

Slamming his head, the King Cobra's head was cracked open, but it instantly rose up, smashed down like lightning, his mouth full of fangs, flashing poisonous light.

I saw a gurgling sound, the fangs pierced the white tiger's thigh and injected it instantly, causing the white tiger to be badly hit.

Howl!

The white tiger was fierce, roaring and launching a fierce attack, and the tiger's claws slapped, and the tiger's mouth immediately bit the king cobra's neck fiercely, shaking it vigorously.

Unfortunately, the king cobra's body was too long, and the white tiger was entangled in his body. One of them bit his neck tightly, and the other entangled him tightly.

boom!

The white tiger rolls on the ground and struggles constantly. The tiger's mouth is still biting the King Cobra's neck and it is not loose, even if the body is getting tighter and tighter, it is still not loose.

A battle of dragons and snakes saw Qin Tiange's admiration, the white tiger was powerful, and the snake king was not weak. Finally, a situation was formed between the two.

hiss...

The king snake opened his mouth and snarled and looked very painful. He was entangled in the white tiger's body. He wanted to hang the white tiger, but his neck was bitten by the other side, and the blood continued to flow out. It gradually looked weak and weak.

"The white tiger is poisoned, it's over." Qin Tiange whispered suddenly.

He saw that Bai Hu did his best, but it was poisoned, his blood began to solidify, his strength was getting smaller and smaller, and his body was even entangled by the king snake, and he couldn't move at all.

Uh ...

In the end, the White Tiger let go of the King Cobra, let go of the tiger's mouth, and roared loudly, full of a kind of twilight and unwillingness of the king, and it lost.

When Bai Hu defeated, King Cobra opened his mouth and hissed, as if proclaiming its strength, but at this moment, an accident happened.

Uh, uh ...

Suddenly, a giant crocodile slowly crawled out from the back of a building. The body was three meters high and eighteen meters long, and the hard leather was covered with dense spikes.

hiss!

The King Cobra turned his head abruptly, his eyes widened, his hissing angrily, and a trace of anger and terror flashed in his eyes.

The giant crocodile has been dormant in the vicinity, just waiting for both of them to get hurt, so as to take advantage of the fishermen.

Chapter 252 - Insidious Giant

“Good insidious crocodile ...” Qin Tiange had to be surprised, this crocodile was so insidious.

He also didn’t notice just now that there was a giant crocodile crouching nearby, and he couldn’t help squeezing a sweat, the crocodile’s hiding ability was really amazing.

It was hiding behind a building, motionless, not even breathing, and even Qin Tiange did not sense the presence of breath.

It is indeed a generation of hunting hegemons. It has been dormant until now. The white tiger was defeated. The king cobra also suffered severe damage, and the blood on his neck kept flowing down.

If it had swallowed the White Tiger, it would have been able to recover its injuries, but unfortunately, now the sinister and terrifying giant came out.

hiss!

The King Cobra was extremely reluctant, and his head, which was several meters thick, kept rising, his mouth opened and growled, as if to warn the giant crocodile.

Unfortunately, the giant crocodile was unmoved and didn’t even cry, his limbs crawled over slowly, his eyes staring at the king snake, revealing a cold and cruel killing.

The eye king snake is scared. If it was in its heyday, it wouldn’t be stingy with this giant crocodile. Everyone is a powerful killer.

Hiss ... Eventually, the King Cobra retreated, let go of the entangled white tiger, and his body slowly backed away, his eyes full of unwillingness and anger.

boom!

Suddenly, the giant crocodile slammed, hurried across a distance of tens of meters, opened his mouth wide and bit down at the king cobra.

If it is bitten, the King Cobra is definitely bitten into two sections. The crocodile’s biting force is extremely horrible. If it is bitten, it will not die or hurt.

Fortunately, the King Cobra had taken precautions and retreated very far, so he avoided a blow and turned to speed up and crawl away.

When the King Cobra left, the giant crocodile’s eyes clearly flashed a bit of disappointment, but it didn’t care, and there was a white tiger in a poisoned coma at the scene, just for a meal.

The giant crocodile has a huge appetite. It has long been out of suitable food in the safari park. It has been hungry for several days. When looking for prey, it happened to see the white tiger and the king cobra fighting, and immediately crouched quietly.

Roar ... The giant crocodile opened his mouth excitedly, snarled for a while, slowly turned around, and opened his mouth to bite the unconscious white tiger.

But at this moment, a sharp whistling came from not far away, and the sound of the air burst caused the giant crocodile's attention and suddenly turned his head.

Ding!

A steel arrow whistled, and it slammed next to its eyes, but was bounced open, leaving only a few white marks, and the entire steel arrow was broken and broken.

“So hard leather!” Qin Tiange marveled, and that arrow was shot by him just now, but he couldn't think of it.

It is not that the bow is not good, but that the steel arrow is not enough to pierce the crocodile's leather armor, the defense is too strong, and the huge body is full of sharp spikes.

Roar! The crocodile was very angry and roared with his mouth open, and issued a strong warning sound to Qin Tiange on the top of the building.

Seeing the warning issued by the crocodile, Qin Tiange snorted, bowed an arrow, and a steel arrow whistled away, pointing directly at the crocodile's eyes.

Because the arrow speed is too fast, and the giant crocodile is too large, the eyeballs are too large, it is a target, a blood flower burst in the blink of an eye, and the steel arrow penetrated into the eyeball smoothly.

Huh!

The pain in the eyes made the crocodile make a scream, but it was even more brutal. He stared at Qin Tiange with ***** eyes, slowly turned around, and rushed forward.

There was a rumbling sound, and the concrete floor was stepped on one by one. The giant crocodile was extremely fast, as if a train was rushing.

Hearing only a loud noise, the building was knocked down by it, setting off billowing smoke, crushed stones flying across, and crackling came out.

At the moment the building collapsed, Qin Tiange had already jumped dexterously and jumped up to another building to escape.

In the smoke, a huge crocodile roared, full of anger.

“Ordinary steel arrows can't break the defense of giant crocodiles, and even the Samsung bronze sword is a bit difficult to handle.” Qin Tiange frowned secretly, staring at the huge mutant crocodile.

He can clearly determine that the giant crocodile absolutely evolved to Samsung and even ready to be promoted to four stars, is an extremely scary giant crocodile.

“By the way, didn’t I draw a strange arrow the last time?” Qin Tiange remembered suddenly. He seemed to draw a special arrow at the beginning. He didn’t care about it at the time, and now it should be something special.

He immediately glanced at the space bracelet, and found the arrow in a corner. The whole body was purple and gold, flashing some dark light, and the arrow’s edge swallowed its sharp edge.

“It’s a good arrow, and I actually saw it.” Qin Tiange was surprised, only to discover that this arrow was not easy.

He didn’t think about it. He bent his bow and arrows, aimed at the crocodile that was rushing insanely, and aimed at its other eye.

“Let me see your power.” Qin Tiange Han faced, murmured to himself, his power was working, and the battle bow was rattling, and the first full moon opened.

Suddenly, a purple awn disappeared through the air. Just listening to the flutter, it instantly disappeared into the eyes of the giant crocodile and disappeared into the head.

Roar...

The giant crocodile was suddenly badly hit, and the forward body suddenly rolled to the ground, rolling continuously, setting off waves of smoke and gravel, and even a huge tail swept down a nearby shop.

Qin Tiange froze for a moment. He never thought of a single arrow penetrating his skull, which directly damaged the giant crocodile. He did not expect that arrow to be so sharp.

Boom ... Boom Boom ...

The crocodile seemed to be extremely painful, rolling over and over again. A purple and gold arrow feather was stuck in his head, and he was stuck in his head. It was extremely painful.

In addition, an arrow penetrated its hard bones, plunged into the brain, and severely wounded his head. This time he died and was seriously injured.

Howl ... for a long time, the giant crocodile struggling to roll and send out a sorrowful sorrow, and finally stopped rolling slowly, lying there, and soon lost his breath.

“Dead?” Qin Tiange stunned, unexpectedly killing a giant crocodile in one shot, it was too unexpected.

With a surprise on his face, he stepped forward a few steps and was about to jump off the top of the building, but then he stopped and a little doubt flashed on his face.

“No, such a powerful Samsung giant can’t die so fast and cheat even if it shoots through its head with an arrow.” Then, Qin Tiange didn’t jump.

He was serious, his eyes glanced coldly at a giant crocodile lying on his back, motionless, not even breathing.

call out!

Suddenly, another steel arrow whistled away, pointed directly at the wound of the giant crocodile, and stabbed into it with a click. Vaguely, Qin Tiange captured the crocodile's body trembling. Although very weak, it was definitely not an illusion.

“Sure enough there is fraud, so insidious giant crocodile.” Qin Tiange sneered, and finally determined that the giant crocodile did not die, but it was the fraud that led him to go.

Thinking of this Qin Tiange smiled, took a steel arrow of a sword pot, pulled the bow again and again, and the steel arrow shot at the eye of the giant crocodile.

Flutter ... Flutter ...

One arrow after another, the giant crocodile, who could not move, couldn't help it, bouncing and jumping, his body thundered, and he ran away.

Unfortunately, a strange purple arrow was inserted into its brain, and it was stuck in the brain. It felt painful as soon as it moved. After a few steps, the giant crocodile slowly fell down.

Alas ... Before dying, the giant crocodile sent a desolate mourning, showing a regret and unwillingness, wanting to be a fisherman but never wanted to be killed by Qin Tiange.

This time really dead, the crocodile's body rolled, revealing his belly, and he was lying there with a stream of red blood flowing from his mouth.

“See if you die?”

Qin Tiange sneered, his body leaped, and landed on the street steadily. He first carried the bronze sword and checked the situation of the giant crocodile. He stabbed a few swords in the soft part of its neck. After turning to be sure that the giant crocodile was dead, he turned around and walked quickly to the unconscious white tiger.

Chapter 253 - Little bunny, give you some radish

A huge white tiger, lying there quietly, more than five meters in length and three meters in height, covered with white fur and a faint black king character on his forehead, revealing a little majesty.

Even though he was comatose and dying, the white tiger still carried strong tiger power. Generally animals are afraid to approach, but there is a person who stands quietly in front of the white tiger.

“This white tiger is about to break through the four-star rating, and it's bigger and bigger than it was seen before. It is indeed the king of beasts.” Qin Tiange admired as he observed.

With a look of expectation on his face, he stared at the white tiger, and gradually, the white tiger in the coma slowly opened his heavy eyes and saw Qin Tiange's existence.

Roar...

Bai Hu roared weakly. He was too injured and was already dying, but Qin Tiange woke him up but did not help him recover.

“Submit, I can save your life. If you don't submit, I will kill you.”

Seeing White Tiger waking up, Qin Tiange expressed expressionlessly and said such a sentence, immediately angered White Tiger.

It's a pity that it was just a symbolic struggle, with a roaring mouth, but it looked weak and unable to move.

It's poisoned too deeply, and don't even try to survive unless it is aided by the liquid of life.

"Give you three breaths, if you don't surrender, then die." Qin Tiange's words revealed a hint of murder.

The white tiger's body could not help but tremble. Tiger's eyes showed a struggle. It was not willing to die, but it was not willing to surrender to the human in front of it.

The White Tiger, the King of Beasts, naturally has its own arrogant character. It is really impossible for him to surrender the humans in front of him as mounts.

However, if he didn't promise, he would die. He really didn't want to die. The choice and wandering between life and death made White Tiger very irritable.

"There is still time, you think about it, I know you don't want to die, as long as you surrender, not slavery to you, and surrender to me has great benefits for you." Qin Tiange began to seduce.

He said as he took out a bottle, which contained a turquoise liquid, exuding a strong breath of life, and attracted the attention of the White Tiger.

It was very eager, and felt that as long as he drank this thing, he could quickly recover from his injuries, and he had to say that his heart was moving.

However, as the pride of the King of Beasts, it did not want to surrender to others. Therefore, Bai Hu still looked very hesitant, lying softly lying on his back, struggling to raise his eyelids and looked at Qin Tiange.

The next moment, Qin Tiange took out another test tube, which was filled with a golden liquid, exuding a mysterious atmosphere, and immediately attracted the attention of the White Tiger.

Howl ... Seeing this golden liquid, the white tiger clearly showed a deep desire, and it had an instinct to tell it that this thing has great benefits.

"This is a regenerative substance. It is of great benefit to you if you take it. You can think about it and give you one last chance." Qin Tiange made an ultimatum, surrendered, or died.

The white tiger is tangled, with tears in its eyes. As the king of beasts, it has its own pride, but at this moment has to face life and death choices.

In the end, Bai Hu's proud head underground whispered, indicating his surrender, he still didn't want to die, and his life was more precious.

"Congratulations, make the right choice." Qin Tiange smiled, smiling happily.

Seeing Bai Hu surrendered, he didn't hesitate and directly fed the other half of the liquid of life. Soon, under the strong recovery of the liquid of life, the white tiger's toxins were cleared, his injury improved and he slowly stood up.

The tiger was shocked, and the white tiger was roaring in the sky. The three-meter-high body was full of oppression, showing a strong power of the king.

However, instead of attacking Qin Tiange, White Tiger lowered his proud head and arched at Qin Tiange, showing intimacy and flattery.

"Hahaha ..." With pleasure, Qin Tiange couldn't help but laugh a few times, he laughed: "Very good, since you have surrendered, let me give you a little regeneration."

Talking, Qin Tiange poured a drop of golden liquid into the white tiger's open mouth, which is the super regenerating substance in the body of the golden gecko.

One drop is enough to allow White Tiger to achieve genetic evolution and have a stronger self-recovery ability, and its future growth will be even higher.

"I will take away the body of that giant crocodile first." Qin Tiange said, came to the dead giant crocodile, followed by a white tiger.

The white tiger stared at the dead giant crocodile. The tiger's eyes were clearly stunned. He did not see the body of the king snake, but instead saw the crocodile's body.

Click!

Qin Tiange dug out a basketball-sized crystal nucleus from the head of a giant crocodile. The whole body is blue, as charming as a crystal.

Then, he retrieved the purple-golden arrow rain, and looked at it more and more, and felt that the arrow was not simple, and it was faintly revealing the atmosphere of simple years.

After watching it for a while, he carefully collected it, and then took away the crocodile's body and everything. Then he jumped onto Bai Hu's back and sat firmly on it.

"Go, hunt down the King Cobra." Qin Tiange reached out and pointed, which was the direction in which King Cobra escaped.

Qin Tiange doesn't intend to let go of the King Cobra, which is also close to the four-star King Cobra, and it must not be missed.

Moreover, at this time the King Cobra had already been wounded, and it was the best time to kill it. If the giant crocodile broke out just now, Qin Tiange would have killed the King Cobra long ago.

Roar!

Bai Hu screamed, his limbs suddenly kicked, and his body rushed out, running fast as lightning, running across the street like a white shadow.

Riding on the white tiger, Qin Tiange didn't feel shaking at all, it was very stable, and the white tiger had perfect control over himself.

This is a good mount. Not only is it sturdy, huge, and beautiful, it is definitely an excellent mount for home travel.

hiss!

In the distance, there was a sudden scream of screaming, with strong anger and unwillingness, and gradually extinguished.

“Well? It’s the cobra king. Did anyone kill it?”

The running white tiger stopped abruptly, Qin Tiange on the white tiger looked suspicious, and heard the roar of the king cobra, revealing the twilight, and seemed to be in trouble.

Sure enough, as White Tiger hurried to the other side, he soon saw the King Cobra lying quietly on a piece of grass, and his whole head was broken.

“Monkey King?” Qin Tiange was surprised, only to find that in front of the dead eyes of the king snake snake was standing a monkey wearing a golden armor and holding a huge metal stick in his hand.

Monkey King was equally surprised, watching the uninvited guest, riding a white tiger, it was Qin Tiange.

“It’s you, is the white tiger your mount?” Monkey King looked at Qin Tiange in surprise, then looked at the white tiger, shocked in his heart.

“Yeah ...” Suddenly, an exclamation came from the side, and a white shadow flickered, hiding behind the monkey king, shivering.

Taking a closer look, Qin Tiange was stunned. It turned out to be a fat white rabbit, but he was familiar, as if he had seen it somewhere.

“Don’t be afraid of Xiaotutu yourself.” The Monkey King turned back and comforted him, telling him that Qin Tiange was his own, so don’t be afraid.

But that made the white rabbit even more scared. Ruby eyes flickered with fear, looking at Qin Tiange in fear, and showing a ray of anger.

“Uh ... this little rabbit, is your friend?” Qin Tiange suddenly remembered, wasn’t this white rabbit the one he was hunting down?

Now I can’t help but feel a little embarrassed. I used to know the Monkey King and see the situation. The relationship between the two is good, monkey, little white rabbit?

Qin Tiange felt weird. He looked at the monkey king in front of him and looked at the white rabbit hiding behind him, looking extremely strange.

“Little bunny, give you some radishes.”

Qin Tiange laughed suddenly, took out a ginseng with a thick baby arm, and directly lost it, and fell right in front of the white rabbit, scaring the latter to jump a few meters high, only to find himself too nervous, Suddenly bowed his head shyly.

But soon it found the ginseng plant in front of it, which was as thick as an arm and crystal-clear, exuding bursts of strange incense, and immediately held it up and stunned.

Chapter 254 - Re-entering Heaven

Qin Tiange left, rode a white tiger, and did not enter the wildlife park. I had originally come to see the Monkey King and told him that a weapon was being built.

Now when I met the Lord, naturally I did n't need to enter the safari park, and I told the rider to leave the place quickly.

The Monkey King looked at Qin Tiange far away, with a thoughtful look, and aimed at a white rabbit holding a large ginseng beside him, and soon understood something.

"Bunny, do you know him?" Monkey King couldn't help asking.

As a result, the White Rabbit did not lift its head, put a thick ginseng in one hand and madly clicked, and it was eating like Huan, and there were three large ginsengs in front of it.

These were all given to it by Qin Tiange. It was a face for the Monkey King, and it was also the compensation for hunting it down. Ginseng and Qin Tiange still had a lot of hands.

"Uh huh, yummy, yummy, this radish is so delicious." The white rabbit trembled, yucked and ate, and murmured vaguely.

It did n't understand that this was ginseng, and it was considered to be radish. Did n't that person just say that they should eat radish, so it was regarded as radish.

The monkey king was speechless and cried and laughed: "I said, bunny rabbit, you should study hard. This is not radish, it is ginseng, a medicinal material. If you read more books and learn more, you just do n't listen. Play, what if I meet a bad guy? "

"I know, oh!" White Rabbit rolled her cute eyes, turned around and ignored it, then hugged two ginsengs and continued mad.

The monkey king touched his forehead, and there was a violent urge. It was committed to the serious study of his staff and friends, and even forced everyone to learn.

This is a shrewd monkey king, and he has a vision. He collects a lot of human books to read for himself, and also orders his monkeys to read, and even the two generals must learn human knowledge.

If Qin Tiange knew the behavior of the monkey king, he would be shocked, and would even admire the monkey king is not easy.

The creature that learns is the most powerful creature, and the creature that does not learn progress is a low-level foolish species.

"Little Bunny is gone, go back and eat again." The Monkey King picked up the sky stick and pulled back the dead King Cobra and lost it.

At the back, a fat white rabbit followed, step by step, holding two ginsengs in his hands, still biting one in his mouth, and his eyes were full of joy.

...

Qin Tiange did not take the eye king snake body, because it was not killed by him, the monkey king naturally killed the opponent's loot.

Riding a white tiger, he ran all the way and hurried towards somewhere.

"It's time to look into the heavens again."

Riding on the white tiger, Qin Tiange thought secretly, this time out, the ultimate goal is to look into the heaven again.

The previous time, he got a quaint Euphorbia in it and killed a celestial creature with a red mercury nuclear bomb.

Now I want to step into it again to see what else is there, after all, that Wang Dong got a floating stone in it.

This thing is an invaluable treasure, Qin Tiange thought, there should be a lot of good things in it, can not be missed.

After arranging things for the base, he came out in a hurry, one is to improve his overall strength through training, and the other is to go for treasure hunting.

Roar!

In the mountain forest, a white tiger roared loudly, the sound was rolling, the whole wild was scared, and many mutant creatures were scared away.

The power of the king of beasts is not fake. Those creatures are instinctively afraid of tigers, and they run away when they hear the sound.

This shout of the white tiger scared the animals in the woods into fright. Fortunately, it did not come here for hunting or predation.

After walking through the woods and over several mountains, Qin Tiange finally came out of this heavenly land again.

The place where the sky descends is still full of fog, as if there is a fog after leaving, which is quite weird, so that Qin Tiange realizes that there are still some strange creatures in it.

"It's strange, why don't the creatures come out?" Qin Tiange sat on the white tiger, thinking about this question curiously.

Perhaps it is the special nature of the land of heaven, which has a mysterious magnetic field, which is likely to be the influence of these magnetic fields, or restrict the outer creatures inside from coming out.

Without consideration, Qin Tiange patted down and sat down with the white tiger, and walked directly into the misty sky.

Howl ... Bai Hu stepped into it, obviously a little vigilant, his eyes tinged with suspicion, his hair all stood up, it seemed to sense any danger.

It kept roaring and wanted to tell Qin Tiange not to enter. Unfortunately, Qin Tiange just wanted to get in, so he shrank away.

“Walk well, don’t be afraid. The king of beasts is afraid of this place?” Qin Tiange patted Bai Hu’s wide head, comforting him without fear.

As the king of beasts, you must be fearless. This is the white tiger mount that Qin Tiange wants, not a docile cat that fears everything.

Roar!

As if stimulated, the white tiger roared, strode headily, and swaggered into the land of heaven, exuding its unique kingly spirit.

In the fog, there were faint shadows flickering, revealing the coldness, making Qin Tiange extra vigilant.

Riding on the white tiger, walking in all the way, he soon came to the place where the alien creature was killed, and the huge pit was still there.

“There is weirdness everywhere. The fog must be emitted by some extraterrestrial creatures, so you must be careful.” Qin Tiange looked grim, and his eyes moved across the fog with vigilance.

He knew that there was something wrong with these mists, and it must have been emitted by some kind of extraterrestrial organisms, otherwise, why did they suddenly disappear.

He instructed the White Tiger to turn around and walk towards the depths of the sky, where a strange sound came out faintly and caught his attention.

The original bone mountain was gone, and there were flying white bone meal everywhere, laying on the ground and stepping on a thick layer.

After passing through the original mountain of bones, Qin Tiange saw a lake, but unfortunately there was no thirst, and there was no drop of water.

“Weird thing ...” Bai Hu stood quietly in front of the thirsty lake, while Qin Tiange carefully looked at the huge lake in front of him, and frowned unconsciously.

He clearly felt a sound here, but when he came over, he found nothing but a thirsty lake.

At the bottom of the lake, the sand has already dried up, cracks and crisscrosses are formed, and from time to time there is a huge gully, showing a breath of sensation.

“These gullies seem to have been cut out by man.” Qin Tiange asked White Tiger to walk into a thirsty lake, observe these huge gullies, and found that they were actually cut out.

In addition, he saw a huge bone in front of a huge gully, broken into two sections, apparently broken by two swords 咦? There is light in front. “

Suddenly, Qin Tiange’s spirit shook, and Huer captured the light from the fog in front, which was strange.

Although it was short-lived, he caught it and immediately drove Bai Hu to catch up.

Not long after, Qin Tiange rode a white tiger to the center of the lake. The mud here was a bit soft and soft, and he didn't seem completely thirsty.

Moreover, in a depression in the middle of the lake bottom, there was still a yellow-brown liquid, like a muddy muddy water.

However, in the middle of this yellow-brown liquid, there is a strange plant growing. The roots are rooted in the liquid, the branches are not high, only three and eight inches tall, and there are nine leaves hanging sparsely.

“What kind of plant is this?” Qin Tiange was surprised and began to look at this plant. It was very strange. I didn't know what kind of plant it was.

Strange plant with a fist-sized fruit hanging from the branches, yellowish brown throughout, as if withered.

Chapter 255 - Withered Star Fruit

A weird stream of liquid, strange little fruit trees, hung a fruit that seemed to wither.

Looking at the three-foot-eight tree, Qin Tiange secretly thought, quickly searching for the knowledge of the pharmacist in his mind, and quickly found something very similar.

“Star fruit?” Qin Tiange was surprised.

He looked at this small fruit tree, much like a star fruit. It is rumored that this fruit tree grows in the sap, and this strange fruit tree can be found only on a withered planet. Its fruit contains the power of a huge star. fruit.

Qin Tiange looked at the little beach liquid, and a little bit of starlight flickered, as if it was a liquid made up of starlight. Is it the star liquid?

Perhaps he was right to guess that the inexplicable liquid in front of him was star fluid, and that fruit tree was the star fruit, which was about to wither.

“Ascendant liquid is poisonous. Once a creature absorbs and quotes this liquid, it must be violent. Only the astral fruit can take root in it. The toxin and energy of the astral fluid can grow and produce astral fruit.

Qin Tiange learned some information from the pharmacist's heritage, about the introduction of Xingchen fruit and Xingye, where Xingye is highly toxic, and any living creature will be violent.

Only the star fruit tree can take root in it, and the astral liquid grows, which results in the strange star fruit.

What surprised him even more was that the Xingchen fruit was very rare and had powerful medicinal effects, which could improve a person's physical fitness, wash the spinal cords, and improve the star power.

“Good thing!” Qin Tiange looked slightly pleased, but he calmed down quickly, his eyes glanced around the fog, looking a little alert.

All spirits must be guarded by creatures. This star fruit is extremely cherished. It doesn't make sense that those creatures outside the world don't covet.

“Pick it and say ...” After thinking about it, Qin Tiange gritted his teeth and went straight forward, pulling up the star fruit tree as fast as lightning, and the entire income space was in the bracelet.

Even, he didn’t even let those liquids go, and the small water pond, which was three meters wide, was packed with dozens of empty wine jars and sealed up.

Throughout the process, Qin Tiange was extremely vigilant, but until he finished receiving everything, there were no abnormalities around it, as if the star fruit had no biological care.

“It’s weird ...” Qin Tiange couldn’t help whispering, but ignored it and turned away quickly.

Entering the land of heaven again, Qin Tiange once again obtained a lot of gains, dozens of altars, and a withered star fruit tree, a mature star fruit.

This thing is very important to him. Once he takes it, his strength will certainly be able to achieve a lot of progress and improvement, naturally beautiful.

Riding a white tiger, Qin Tiange flew out of the thirsty lake all the way, came to the other side, and saw a mountain.

Bare mountains, some tens of meters high and some hundreds of meters, look weird, but there are mountains here?

In fact, seriously, it ’s not a mountain, but a large piece of complete rock. It looks a lot weathered. It looks like a mountain in the distance, but it is a huge rock in the near future.

Ding!

Qin Tiange pulled out the bronze sword, tapped these huge rocks gently, and issued a crisp sound of golden iron and iron strike, very hard.

The three-star bronze sword can only strike a shallow trace, and it is not difficult to imagine how hard these huge rocks are.

“Tianwai meteorite has a very high iron content. If it can be pulled back for smelting, it will inevitably get a lot of rare and powerful metal materials.” Qin Tiange eyes widened, staring at these huge rocks, and got an idea.

These rocks, he can see at a glance, the internal iron content is extremely rich, known as the meteorite iron, it is likely that there are many rare metals not found on Earth.

Thinking that the development of the base was inseparable from metal, he naturally had an idea, and soon he wanted to evacuate the huge rocks here.

It was a pity that Qin Tiange speechlessly found that these huge rocks could not be dug out. Unless he was using engineering mechs to dig, he alone could not dig hundreds of meters tall.

“Forget it, it’s too greedy to be good.” Qin Tiange secretly regretted it and gave up.

He walked into these dense and dense rock formations, searching continuously, watching some gravel scattered on the ground, striking with bronze swords, and bursting into sparks.

These days, the rocks are too hard, and the bronze sword strikes them, and even a little spark can be splashed, leaving a shallow white mark, incredible.

He collected all the way and cleaned up the hard stones that could be taken away one by one, so the name cannot be wasted.

Going all the way, Qin Tiange was like a hard-working bee, so he didn't hum the song.

Soon, he walked out of this heavenly stone forest, and saw a large piece of wall remnants, and huge buildings collapsed into ruins.

“Here, there used to be a city.” Looking at the huge ruins in front of him, Qin Tiange couldn't help showing a shock.

He saw that in a huge ruin in the distance, he could vaguely see the prosperity of that year, and the collapsed building still looked towering, it is not difficult to see the strength here.

Qin Tiange quickly approached by riding a white tiger and came to the ruins before he was truly certain that it was once a huge city.

The towering city walls have collapsed for the most part and still tens of meters high. I dare not imagine what the once complete city walls looked like?

Roar...

At this moment, the white tiger seemed agitated, and continued to plan the ground, making a low roar, which aroused Qin Tiange's alertness.

“What's in the ruins that makes you so restless?” Qin Tiange murmured softly, patting the white tiger's neck, comforting it without having to be restless.

Bai Hu calmed down very quickly, and carried Qin Tiange slowly into the huge ruins of the city in front of him, witnessing a miracle outside this day.

Huge, grand, Qin Tiange didn't know how to describe it.

Even if it collapsed into ruins, the city is still majestic, and even the rock of the city structure is a huge meteorite that I just saw, which is extremely hard.

“What creature built this city?” Qin Tiange thought in shock as he walked through the ruins of the city with his white tiger.

In the end, what kind of creature is such a large and magnificent city? Compared with the base he is building, it is almost a witch.

Roar...

Suddenly, Bai Hu stopped, his expression looked very frantic, his eyes flickered with a hint of trembling and alertness.

Qin Tiange also felt different. Since stepping into the ruins of the city, he obviously felt that the temperature in the air had gradually increased.

Hot, very hot!

This is Qin Tiange's most direct feeling. The ruins are like a large stove, and there is a strong high temperature everywhere, and the hotter it goes the closer to the center.

"It's not right Walking and walking, Qin Tiange feels wrong.

From the moment he stepped into the ruins of the city, he felt that something was wrong. It was too hot here, as if it were a mountain of flames. The heat wave was rolling in, and the sweat wet his clothes and armor.

Even the white tiger's entire body of hair permeated with a trace of sweat. As the heat wave continued to roll and bake, a trace of water vapor transpired.

"His ... it's hot, at least it's Baidu's high temperature."

Qin Tiange drove the White Tiger to a halt, looking shocked, watching the heat waves rolling in front of him, and the rocks around the ruins were scorching hot, approaching a high temperature of Baidu.

He took a closer look and quickly discovered the source of the heat. It was in the middle of the ruins, a peculiar building, burning flames.

"Why is that building on fire?" Qin Tiange narrowed his eyes and looked at the building that was burning fiercely.

The huge building, which is 20 meters high and 35 meters wide, is shrouded in flames, as if it will never go out, emitting endless heat waves.

Chapter 256 - Azure Fire

A building that can burn and ignite, Qin Tiange is curious about what materials the building is made of, and it can continue to burn for so long without melting?

"You are here, I'll go and see."

Soon, Qin Tiange instructed Bai Hu to wait here, but he had to see what happened. The white tiger's hair was slightly curly, and the high temperature made it unbearable.

However, Qin Tiange is unlucky. A strong body can prevent it from being subjected to high temperature roasting, so I want to get stuck.

Leaving a white tiger, Qin Tiange quickly approached that building, and soon reached a kilometer away, with a strong high temperature exceeding one hundred degrees Celsius.

"What a strong temperature, what kind of flame?" Qin Tiange was surprised, approached step by step, using a shield as a barrier, the stronger it got closer to the temperature.

When approaching the hot building one hundred meters, the temperature has already reached hundreds and thousands of degrees, and it can melt steel.

Close to ten meters, the temperature is as high as two thousand degrees Celsius, and even ordinary steel shields are beginning to be roasted and red, and melt directly.

Qin Tiange was so shocked that he had to change to a two-star shield and broke into the flaming flame building in front of him. He saw such a scene.

The fire, the flames boiling, the flames burning, terrifying.

“Is it you?” Qin Tiange’s complexion changed slightly just after stepping into it. When he saw a person, someone was here.

Moreover, this person also knew each other and was taken aback when they saw Qin Tiange coming in.

In a huge room, there was a huge furnace, which looked like a place where ancient weapons were cast.

What surprised him the most was that in front of the furnace, a figure was standing, his body was full of fire, and his eyes almost burst into flames.

He was the former Emperor Yanxuan, Ye Xuan, but he didn’t expect him to be here. I met here before and now I meet here again.

“Damn, why is this guy here?” Ye Xuan changed his face slightly when he saw Qin Tiange breaking in, and his heart was frightened.

He was anxious in his heart, because he couldn’t move at this moment, and once Qin Tiange did something that was not good for him, he would finish it completely.

Ye Xuan looked dignified, his eyes spit fire, and watched the invading Qin Tiange vigilantly, cursing inwardly: “Do not come late but do not come, now break in, do I have such luck today?”

At this moment, Qin Tiange was carefully looking at Ye Xuan in the room, the other side was braving the flames of his hands, and was pressing on the furnace in front of him.

What surprised him the most was that a blue flame was burning in the furnace. Yes, it was a blue flame. The temperature was extremely terrifying.

“The blue fire?” Qin Tiange squinted his eyes and stared at the blue flame of the size of a fist, which was the extremely famous blue fire of the previous life.

This type of flame claims to come from outside the sky, a form of flame never on the earth, and is the most powerful card and killing trick of Emperor Yan.

The blue fire, horrible lethality, and incombustibility are the most powerful signboard abilities of Emperor Yan, and the key to his rise.

“It turns out that here is the opportunity of Yan Emperor, and the key to his rise.” Qin Tiange suddenly understood.

This turned out to be the key to the rise of Emperor Yan. The blue fire, in front of Yan Emperor Ye Xuan, seemed to be trying to conquer the mysterious fire outside the sky.

Qin Tiange felt that the temperature of this flame was at least 10,000 degrees, and even more than that. No wonder Yan Di Ye Xuan has been flying out of control since he obtained the blue fire.

“Brother Qin, wouldn’t you want to seize my chance?” Ye Xuan saw Qin Tiange not talking, and kept staring at the blue flames of the group, and he spoke in a hurry.

He opened his mouth to speak, and every trace of flame spewed out, the temperature was extremely high and strong, and he looked like a fireman.

Moreover, Ye Xuan’s hair had begun to turn into ashes, and was burned into ashes by the powerful flames here, and her body clothes and armor gradually melted.

Even though he had awakened the gene of fire, he still could not compete with the blue fire. If Yexuan completely blocked the strong temperature of the fire outside the sky, the temperature in the entire room might reach tens of thousands of degrees Celsius.

“I’ll take a look, you feel free.” Qin Tiange said nothing, answered the sentence indifferently, and almost made Ye Xuan vomit blood.

What makes you casual? Ye Xuan scolded herself, could she be free? Thinking of Qin Tiange when he was about to take the halberd, he also made a sudden attack, and this time Feng Shui took turns, Ye Xuan couldn’t help worrying.

In fact, his worry was not unreasonable, and Qin Tiange naturally glanced at the blue fire from outside the sky.

But the point is, he has no way to collect the flame, and there is nothing to carry this kind of thing, he can’t take it at all.

He didn’t have the gene to awaken the fire of his ancestors like Ye Xuan, and was unable to incorporate the blue fire into his body, so even the eyesight could do nothing.

Seeing Ye Xuan’s expression of depression and madness, Qin Tiange grinned, “You are so scared of my opportunity to ruin your chance?”

Ye Xuan cursed after hearing: “Who’s not afraid? You bastard, now I’m conquering the most critical moment of devouring this flame. Once destroyed, it will burn to ashes.”

“Okay!” Qin Tiange waved his hand, looking serious, scolded: “Hurry up and take care of my mind, concentrate on the mysterious flame, I am not the kind of careful person.”

Indeed, if you can’t take away or conquer this flame, why interfere with Yexuan? How to say that the other party is one of the five Chinese emperors, belonging to the powerful heritage of the entire China, once destroyed, it is equivalent to one emperor class.

Qin Tiange is not so stupid. What is good for him if he lacks an emperor class? Not at all. On the contrary, the overall strength of Huaxia has declined, and it will be funny when it is bullied by foreign countries.

“However, although I do not prevent you from collecting the flames, I also hope that you do not hinder what I do, otherwise you will be directly reduced to ashes.”

Qin Tiange warned the other side seriously, it is better not to have other thoughts, because he is going to do something here.

What’s up? It turned out that when Qin Tiange saw the scene here, it seemed to be a place to build weapons, and there was a stream of red liquid in the stove.

It was some kind of metallic liquid, and there were many weapon models next to it, including a war halberd model. As long as the metal solution in the furnace was flowed into the model, a complete weapon could be created.

It was after seeing this that Qin Tiange made a temporary intention and decided to re-melt and cast his own halberd here.

“Okay, you and I are all busy.” Ye Xuan agreed.

Qin Tiange did not hesitate, and quickly took out pieces of metal fragments, which were left by the broken Euphorbia and were collected by him.

Seeing these fragments, Ye Xuan wondered: “Isn’t this the spear you got in the first place? How is it broken?”

“Do your thing, be careful to be bitten by the flames outside the sky.” Qin Tiange looked displeased and could not help but scold each other.

Indeed, if you don’t concentrate on conquering the flames now, you will be burned to ashes if you don’t care, and you still want to talk to him?

Ye Xuan’s complexion changed slightly, and she immediately became honest, standing quietly by the stove, ignoring Qin Tiange who came to the stove with the high temperature.

I saw that Qin Tiange threw all the broken Euphorbia into the furnace and was melted by the liquid metal in the furnace. What material is this furnace? Qin Tiange was secretly surprised, and the euphorbia pieces were so hard that they melted in a moment.

Seeing this, Qin Tiange became curious about this furnace. What kind of material was actually able to bear the burning of the blue fire without melting.

“I want this furnace.” Qin Tiange asked directly.

Ye Xuan rolled her eyes, and said helplessly, “Hang Xing Xing, you want what you want, right?”

He is helpless, in fact, why not take a look at this furnace, but Qin Tiange has not disturbed him to conquer the blue fire is very good, the furnace should be given to him.

Anyway, what he wanted was a furnace, not the flame, and Ye Xuan most valued the flame, not the furnace.

In this way, the two reached an agreement, Ye Xuan took the fire from the sky, Qin Tiange wanted a furnace, and he was still recasting his war halberd here.

This is a golden opportunity, how can Qin Tiange miss it?

Chapter 257 - Heavy weapon

Zizi

In the room, two figures stood quietly in front of the furnace, Ye Xuan's nose and nose spit fire, burning flames covered his body, and his armor was completely melted.

And Qin Tiange also, at this time, a body of armor was also melted, exposing his body, burning a burst of sounds, and his flesh was burned.

As he was about to replace the armor to continue blocking, he accidentally discovered that the injured body recovered and became stronger.

Seeing this, Qin Tiange was ecstatic and secretly said, "My immortal body doesn't seem to have really inspired yet. Why not temper the body while taking advantage of it now?"

When he thought about it, Qin Tiange took off the broken armor on the spot and threw it into the furnace. He turned to the other side, and his old face was a little hot.

No way, the two big men are naked, and look awkward. Fortunately, Ye Xuan's nose and nose spit fire, and it was shrouded in flames, otherwise it is estimated that a seam should be drilled in.

boom!

Suddenly, a shock came from the furnace, the blue fire burst out suddenly, and a powerful flame twirled several meters high, almost shaking Yexuan.

Fortunately, the opponent is strong enough, and there is a gene of fire in his body, otherwise he is expected to die back.

Qin Tiange ignored him, and was concentrating, one set after another of the weapon armor was thrown into the furnace, and was continuously melted into a liquid.

"Can you make it look this time?" Qin Tiange thought to himself, his face was more dignified.

He wondered whether it would be possible to recast a powerful weapon this time, depending on his own operation. After all, it was the first time to build a weapon.

There is only one furnace and model, and nothing else. It is unclear whether it can actually be turned into a weapon.

"Yes." Suddenly, Qin Tiange remembered something, remembering that he seemed to have drawn a mysterious stone.

Thinking of him immediately taking out the black stone, he was surprised to find that the stone could radiate some kind of cold energy on its own, resisting the high temperature erosion around it.

"It's really extraordinary, but fortunately, I didn't throw it away." Qin Tiange looked surprised and didn't want to throw it directly into the furnace.

As soon as I heard it, the black rock was thrown into the furnace and did not sink into the liquid or melt on the spot, but quietly floated on the boiling metal liquid full of the furnace.

Amazing, surprised, even Ye Xuan couldn't help being curious, looking at the stone, secretly muttering that this guy was really rich.

Not only did dozens of sets of weapon armors be lost in a row, there were even various meteorite rocks, and finally there was a peculiar stone that did not melt on the spot.

A little time passed, the black stone was finally burnt red by the blue fire, the surface began to fall off, and there were signs of melting inside.

Sure enough, it didn't take long for the stone to melt a little bit, and a drop of silver-white liquid flowed out, much like mercury.

As the mysterious black stone melted, the silver liquid melted into it. At the moment, the boiling metal solution had a phenomenon of solidification on the spot.

“What a strange stone, it should be okay.” Qin Tiange looked at the weird metallic liquid in the furnace and immediately realized that he must now guide the liquid into the model.

Click!

Gently pull a switch of the furnace, and suddenly, a hole was opened on the edge of the furnace, and the red metallic liquid burst out immediately, flowing into a model of the weapon along the channel, which is exactly the style of a spear.

When all the solution flowed into that model, the model changed, and the solution gradually cooled in the model.

The inexplicable high temperature was actually lowered in the model and gradually cooled. Seeing this, Qin Tiange felt a little weird.

However, what he was thinking at the moment was a question. The weapon that was cast would also be broken. Can we build a weapon that can repair itself?

When this idea appeared, it was like wildfire burning, and it could not be extinguished, which made Qin Tiange feel itchy and unbearable, and he couldn't help trying it.

“Can the regenerative material be incorporated into the weapon and regenerate the weapon?” Flashed this thought in his heart, Qin Tiange watched that the halberd was about to cool down, and the ghosts took the golden regenerated material and poured it into the model.

Zizi

Suddenly, a green smoke rose, like the white smoke rising from his body, burned by the flames, and recovered again, and continued to strengthen.

Seeing the horrible resilience of Qin Tiange's body, Ye Xuan was secretly shocked: “Good guy, this body's resilience is too horrible. Is he still a human?”

Ye Xuan was dignified and saw the side of Qin Tiange's terror. He couldn't help feeling a palpitation. He was a powerful guy and could not be an enemy.

Look at his body. Once there is a burn, he will immediately heal himself. The scorched body flesh quickly falls off and burns into ashes. The new body is even stronger.

Ding

At this point, Qin Tiange focused on the model of the halberd, and the cooling metal liquid gradually covered a little golden light.

It was a super-regenerated substance, which was poured into the whole branch by Qin Tiange. A small part of it was consumed during the period, but most of them were successfully integrated into the liquid and produced wonderful changes.

“Sure enough!” Qin Tiange looked ecstatic, watching the gradually cooled metal liquid, quickly shaping in the model, with a strange power to perfectly shape these liquids into a spear.

Soon, a full-flame red halberd, with the black light shining, gradually appeared in front of the halberd, and from time to time flashed golden lines on the halberd, as if blood vessels were spreading.

The regenerated material spreads into the body of the halberd and turns into a mysterious pattern, forming a strange pattern, like a blood vessel, supporting the entire halberd.

Hum!

A sudden buzzing, trembling air, the surrounding flames were instantly scattered a lot, strong sharp body, cold biting.

Euphorbia, it's done!

“Hahahaha” saw this, Qin Tiange couldn't help laughing, reached out a hand, and raised the recast spear with a buzz.

He looked carefully at the Euphorbia and found that there was no difference between the original Euphorbia and the original one, as if it were portrayed by a mold.

Qin Tiange looked at Euphorbia in surprise and looked at the model again. It wasn't like this at all, how could it become the original Euphorbia?

“Did you recover by yourself?” Qin Tiange murmured, causing Euphorbia to buzz, as if responding to him.

Buzz

The halberd continued to tremble, and the halberd bloomed a ray of dark blue light, which scattered the flames around it, as if the broken halberd had revived.

Not to mention Yexuan in this case, Qin Tiange himself was surprised. Some are unimaginable. Is the broken Euphorbia really self-conscious?

“Soul Eater” gently stroked the halberd, and found that two quaint fonts naturally appeared on the halberd.

These two fonts, ancient and vicissitudes, did not understand what the text was, but Qin Tiange still knew the meaning of the two instincts.

Soul Eater, this is the name of Euphorbia. It used to be called Soul Eater, and now it has finally recovered completely. It is truly a complete weapon.

“It turns out that you have a name, a soul-stealer, a good name.” Qin Tiange smiled, looking at the trembling trembling in his hand, very happy.

This mysterious and powerful halberd was reborn again and rebuilt by him, naturally rejoicing.

Fortunately, these fragments were not lost at the beginning, otherwise, the only chance for the recovery of Euphorbia was really missed. Now, the Euphorbia is completely and completely recast, perfectly recovered and reappeared in the world.

“My business is done You have to conquer that flame?”

Looking at the stunned Ye Xuan, Qin Tiange frowned secretly, could not help but remind him, and awakened the dazed Ye Xuan.

The latter’s face suddenly changed, and then the flames rose, and a trace of blue flames ran from the surface of the body and turned into a flame.

“bad!”

Qin Tiange looked startled, feeling instinctually bad, and saw Ye Xuan’s entire body completely surrounded by a boiling blue flame.

A powerful heat wave rolled in, Qin Tiange had to exit the room, far away from the powerful blue sky outside the fire.

Bang!

With a loud noise, the entire building was suddenly torn apart, crushed by endless blue flames and turned into powder.

In the azure flame, a figure rushed out horribly, naked, and was burned by the terrible azure fire, his hair was gone, his body was burned, and even turned black, revealing his skeleton, which was very scary.

Chapter 258 - Misty Beads

boom!

A dark figure rushed out, lying on the ground without a image, scaring the white tiger and roaring away, only to look at the dark figure in horror in horror.

“Cough ... I hate flames.” The figure coughed as he got up, only to find out that it was Qin Tiange.

He held a spear of Euphorbia in his hand, stood up, and was burned into coke, his body fell off quickly, and a new body was regrown, stronger.

On the body, a trace of the blue flame was swallowed up by the newly grown flesh and blood, and finally went out completely.

“Huh?” Qin Tiange was stunned, feeling that his body was warm, and seemed to be no longer painful. The strong high temperature around him, and even the flaming blue flames, seemed normal.

The burned hair was growing quickly, and the blue flames coiled around, but he could no longer burn his hair.

Qin Tiange found that he seemed to be able to resist these azure fires, and was amazed, unable to help reaching for a azure flame.

As a result, the flame did not burn his hands, but looked ordinary, as if there was no temperature.

It's not that the blue fire has no temperature, but that his immortal antibodies are excited to resist these blue fires.

An immortal body is not only a powerful resilience, but also a strong resistance to resist any damage. This is the real immortal body.

Until now, Qin Tiange understands that his immortal body has just inspired a little immortality, and his overall quality has been greatly improved.

“The blue fire, I don't know what the former Emperor Yandi knew I wouldn't even be afraid of his killer?” Qin Tiange smiled hesitantly, thinking about this question secretly.

Emperor Yan, the strongest killer is the blue fire, the terrible flame from the sky, but if he knew that this flame can't hurt Qin Tiange now, what would it look like?

Qin Tiange quickly took out a set of armor, dressed neatly, and carried the halberd to the blue fire that burst out.

“Unfortunately, I can't manipulate the flames, otherwise the blue fire is really suitable for me at the moment, it's a pity.” Qin Tiange watched the blazing blue fire that was constantly erupting.

He can't control these flames, even if he is not harmed, he can't control the flames either, because he doesn't have the fire gene of Ye Xuan.

boom!

Suddenly, the azure fire that burst out shrank abruptly, and completely lost its trace. Then, a azure fire suddenly soared into the sky, stunned out like lightning, and lost its trace in an instant.

“I'll go, and I'll run away?” Qin Tiange looked dumbfounded, cursing endlessly, looking at the blue flames that were getting farther and farther, he could still see that it was a figure.

Ye Xuan ran, yes, he ran straight.

Seeing the other party running away, Qin Tiange had to shake his head and couldn't help whispering: “This boy, he just ran away. Am I so scary?”

In fact, he wasn't clear. Just now, he had inspired the magical characteristics of the undead body and resisted the burning of the blue fire. Ye Xuan was completely seen.

At the center of the flame, Ye Xuan was frightened by Qin Tiange's performance. The blue fire can't burn the other party, so what is left to do?

"That guy is too dangerous, so let's go first."

In the distance, Yexuan people were in the air, shrouded in the blazing blue flames, and constantly felt the cold sweat overflowing from their foreheads.

In fact, there is no need to wipe, and the cold sweat was evaporated before he even overflowed. In fact, he was making troubles by himself and was scared by Qin Tiange.

Anyone who sees that their most powerful means can't hurt the other party will be frightened, Ye Xuan is no exception and just ran away.

"That monster!" Ye Xuan yelled, turned around and passed quickly, and turned into a blue flame that disappeared.

Here, the burning flame was extinguished, and the temperature gradually decreased. The white tiger could withstand the decreasing temperature and ran up quickly.

Qin Tiange patted the intimate white tiger, without speaking, walked quickly into the fragmented ruins and saw a buried furnace.

"Fortunately, that guy didn't take this furnace, otherwise I will hunt you down." Qin Tiange smiled, opened the ruins, and took out the magic furnace.

This thing has been incinerated by the blue fire for a long time, and there is no sign of melting. I have to say that it is different and definitely not an ordinary product.

The furnace is three feet nine inches tall, with a simple appearance and a dense and mysterious pattern imprinted on it. I didn't notice it just now. Now, the furnace is really not easy.

"Good stuff, close it first, and have time to study it." Qin Tiange closed the furnace with a smile, waiting to turn around, and suddenly found that there was a strange fog around him.

Ok?

Qin Tiange's heart was dark, and the halberd swept across, exclaiming and opening up these strange mists of Mo Min, and the whole person seemed very alert.

Roar ... Beside, White Tiger kept roaring and roaring into the fog, as if warning something.

Qin Tiange turned around and sat steadily on the back of White Tiger, looking at the re-created soul-eating halberd in all directions.

"These mists are weird." Qin Tiange muttered, his eyes sharp, and he constantly glanced at the mist that was surging around.

Just now, when the flames were raging here, the fog could not enter here at all, and it was completely burnt by the high temperature.

Now, as Ye Xuan took away the blue fire, the temperature dropped rapidly, and the fog immediately poured in. Needless to say, there must be a problem.

Huh!

Suddenly, a dark shadow flashed in the mist and quickly passed, and a horrible sharp edge was caught across Qin Tiange's neck.

His pupils shrunk, and he lifted his hand and stabbed it with a halberd. It was lightning fast and heavy, and broke the air and hit the sharp edge.

Huh!

Hearing only a whisper, and then a click, the halberd penetrated an object and pierced through it.

A closer look reveals that the halberd pierced a creature. It was not big, but it was terrible.

"This is, the Misty Beast?" Qin Tiange was surprised, looking at the monster that had been killed.

The whole body is one meter and eight meters long, close to one meter high, and looks very petite, but it is extremely powerful and dangerous, especially the sharp claws of his hands.

This creature has never been seen before, but learned from the pharmacist's inheritance knowledge that this is a misty beast with some kind of treasure in it.

Thinking of this, Qin Tiange immediately turned around with a bronze sword in the body of the dead misty beast to continuously plan and search.

Soon, a gray bead was dug out by him, the size of a fist, and the strange mist, which is the treasure produced in the body of the mist beast.

"Mist beads can produce strange mists. They are a rare treasure. They contain powerful mists that can be used for medicine." Qin Tiange muttered to himself, and understood the role and origin of this kind of thing.

The fog here is emitted by the beast of the mist. It is no wonder that the traces of creatures have not been seen all the time. It is completely the characteristics of the beads of mist, which can hide a person's breath of life and cover the trace.

"Hey ... good luck." Qin Tiange chuckled and placed the mist beads on his chest, and soon a mist formed, covering him, including the white tiger beneath him, and seeing nothing from the outside. It's a big cloud of fog, it looks very magical.

"If there are more such beads of fog, maybe an army can form an effective concealment." Looking at the beads of fog, Qin Tiange thought of this matter and immediately got excited.

He felt that there should be a little more of this kind of treasure, which would have a very important role in hiding the battle group.

Chapter 259 - Refining

In a valley, a small stream winds through, and the water is crystal clear. Unfortunately, there are no fish.

By the brook, a figure was watching the observer's huge melting pot, and his expression was astonished.

"The melting pot is so amazing," Qin Tiange marveled, the observer's huge melting pot.

In the land of heaven, he never encountered any mist beast again, and with some regret, he could only come out of it.

He found a valley, took out the amazing furnace and began to look at it. He was surprised to find that the blue fire under the furnace was gone, but the temperature of the furnace itself did not drop.

The entire furnace was extremely red, as if it had been burned, and it did not cool down at all. It was that Qin Tiange could not cool down when thrown into the water, but instead evaporated the stream water.

This aroused his curiosity, and wanted to explore the mystery of the furnace, but unfortunately he could not see the difference.

The only guess is that the melting point of the furnace itself is extremely high, and it does not melt after being burned by the blue fire all year round. It seems that it has been kept at this temperature forever, which is weird.

"Can it be used for refining medicine?" Qin Tiange suddenly thought, could he use this furnace to refining medicine?

After all, refining medicine itself needs to quench the essence of extracting drugs, and now with this never-ending and extremely hot furnace, obviously many steps can be saved.

Qin Tiange first took out a lot of fresh medicinal materials and put them into the furnace. At a sound, a ginseng plant was directly melted.

Yes, it melted in less than a second, burned directly to ashes, most of them were burned, only a small part of the essence of the juice has not been destroyed.

"Really yes!" Qin Tiange looked slightly pleased, seeing this scene immediately realized that the furnace can be used for refining medicine.

This furnace seems to have some characteristics that can condense and lock down the medicinal properties. It seems that as long as the medicinal materials can burn out other impurities, the most precious essence is retained.

Never extinguish, the extremely hot furnace is one of the most natural and best refining things.

Next, Qin Tiange began to prepare the refining medicine. A fresh medicinal material was taken out and thrown into the furnace. The impurities were burned and the essence was retained. The essence of the various medicinal materials in the furnace gradually gathered into a small liquid, boiling continuously. .

“Lianzi, Polygonum multiflorum, Lingtao, Baihua Lingli, Liquid of Life, Star Fruit ...”

In the end, Qin Tiange added several key medicines, lotus seeds, from the lotus seeds that fell after the little fairies matured.

Polygonum multiflorum was cultivated. Lingtao comes from the peach tree demon, all kinds of flowers, and a drop of pale golden liquid of life, and even finally added the star fruit just obtained.

Zizi ...

In the furnace, the essences of various medicinal materials continue to boil, and the effervescent mist rises, giving off a pungent aroma, refreshing.

The medicinal solution inside is colorful and looks extremely gorgeous, but it has a deadly toxin, medicinal poison.

It is a drug that is poisonous. This is the most famous saying left by the Chinese ancestors. As long as it is a medicine, it must contain toxins. If you want to take them, you must neutralize or eliminate them.

Originally, this step was very tedious, but the peculiarity of the furnace appeared, and the colored toxicity inside was slowly burned away by high temperature and removed a little bit.

The multicolored liquid medicine gradually became transparent, ordinary, but with a faint smell of medicine, that was the real good medicine.

Grunt grunt ...

The medicinal solution was boiling, and the haze was diffused, and it continued to evaporate from the furnace mouth, turning into a stream of smoke rising three feet high, but condensing without dispersing.

This phenomenon is very strange. Generally, it does not occur during refining. Is it because of some function of the furnace itself?

Qin Tiange didn't bother, but stared at a little bit of liquid medicine in the furnace, flashing a little light from time to time in transparency, just like a little bit of starlight.

“It's done!” Soon, Qin Tiange looked happy, knowing that this time the refining was done.

He couldn't wait to take out the refined liquid medicine from the furnace, and filled it in a glass container with a full bottle.

There is only one bottle, and it must be said that the furnace is used to refine the medicine. In fact, the output is particularly low, but the quality has been greatly improved, and the quality improvement has great benefits.

Almost without any hesitation, Qin Tiange took a sip of his head and drank the whole liquid directly.

The entrance of the medicinal solution suddenly turned into a hot torrent of energy, sweeping across the limbs and bones, violent, shaking the whole body.

“Good medicine!”

Qin Tiange looked flushed, and was surprised to find that this medicine was too strong, as if he swallowed a hot star, and exploded constantly, forming a terrifying energy shock that swept the body.

The internal organs trembled and cracked continuously, and then returned to intact under the action of the immortal body, and then cracked by the impact. This cycle went on and on.

The bones were clamoring, constantly trembling, cracks spreading throughout the body's bones, a stream of bone marrow spilled inside, and the energy invaded it relentlessly.

In the torrent of energy, a little bit of starlight emerged, constantly reforming Qin Tiange's physical function, and his physical quality was slowly improving.

“A domineering body, the sky ...”

Huer, Qin Tiange held up the halberd, and the whole man made a difficult movement, weird and overbearing, with two beams of intense eyes in his eyes.

His temperament changed abruptly, as if a hegemon, staring at the sky and staring at the world. Even the white tiger snoring not far away was awakened, looking at the master Qin Tiange in surprise, and suddenly found that he had become terrible.

Inside the body, a starlight emerged, little by little twinkling, turning into a small piece of stars, full of 220 points.

Soon, stimulated by a current of energy, these starlights emitted bright starbursts, and then a little starlight appeared.

Little by little, gradually more and more starlights emerged, added to it, and turned into stars everywhere in the body.

The stars are shining and bright, as if Qin Tiange's body is a small universe, the starlight inside is bright, and it illuminates both inside and outside.

One starlight is equivalent to one person's power. With each additional starlight, Qin Tiange feels that his body has added one person's power.

Soon, the physical strength quickly increased from the strength of 220 people to 299 people, and it was almost able to break through the strength of 300 people.

A two-star can have the power of three hundred people. It was an unthinkable thing in previous lives. Now he has achieved it.

If it was known by the five emperors and three first emperors in the previous life, they would definitely kill such a character at any cost, because the potential is too terrible.

Boom!

A dull heartbeat came from, and the surrounding air was shaken. Then, Qin Tiange's body heard a clear crackling sound, as if some kind of obstacle to his progress was broken.

With the break of this life, the physical strength of the Prophet in the power of 299 people immediately climbed up to 300 people.

At this point, all the medicinal properties in the body were completely absorbed and completely disappeared. He also slowly retracted the domineering style and completed this training and promotion.

"The power of three hundred people, good!" Qin Tiange sighed, shaking the whole valley with echoes.

With the power of three hundred people, the feeling that one punch can break the sky makes people addicted, of course, this is an illusion.

However, Qin Tiange knew that he was absolutely horrible with the power of three hundred people. If this power broke out completely, all the people below two stars would be crushed and killed.

"Fitness finally improved again, take a bath before leaving."

Qin Tiange murmured to himself, said that he took off his armor, jumped into the stream to wash off his stinky sweat, and then dressed neatly, closed the furnace, and left the white tiger slowly.

Chapter 260 - The calamity is coming

In the streets of Shenzhen, dense crowds of zombies began to gather and consciously gush in one direction.

The corpses were dispatched, as if they had a collective nature. They seemed to be under some control, and they formed a huge scale, and more and more zombies gathered.

In the base of the guard zone, countless zombies have leaked water around the entire base, and fierce fighting is taking place. The fire has been going on for two days and two nights.

boom....

Inside the base, a number of artillery roared continuously, some of them were already blasted, while others were dumb, no shells left.

After playing for two days, the ammunition was basically clean. The only thing that can still fight is to rely on the defensive wall built to resist the impact of the zombies.

Reinforced concrete fortresses of more than 20 meters height are still somewhat powerless and cannot stop the endless zombies.

Outside the fortifications, densely packed dead zombies are all more than ten meters high, and cleaning is impossible. Seeing that the walls of the base of the security zone are about to be broken.

"Commander, we can't keep it."

At this moment, a lieutenant hurriedly ran to Chen Wu, covered with blood, and looked embarrassed. He reported the news, and the base could not keep it.

Two days, and two days of slaughter, the individual is exhausted. Now the situation is that the base ammunition has been basically cleaned up, and only the white-bladed battle can be used to fight the zombies.

The heavy casualties in this hand-to-hand battle have caused the death of personnel in the base of the guard zone to continue to expand. If it had not just received 1.5 million elite soldiers recently, the guard zone would probably have fallen.

Chen Wu had a heavy face, holding a sword in his hand, his armor was dyed black-red, blood was everywhere, his eyes were red, his blood was dense, and he looked a lot older.

“Have the other survivors been evacuated?” Chen Wu didn’t speak, but asked such a question.

He asked about the large number of survivors gathered in the guard area, hundreds of thousands of people, and more than 1.5 million soldiers in his own right, that is, 2 million people.

Originally, he was reclaiming good land and preparing large grains. As a result, the zombies arrived and surrounded the guard area and stormed directly.

This battle lasted for two days and two nights. The zombie group seemed to have gone mad, and they were shocked to death, and they were about to flood into the base.

Chen Wu realized that it was not good, so he ordered the survivors in the base to evacuate early. By now, they have almost evacuated.

“We have fully evacuated to the direction of Lianhua Mountain, and have evacuated through the underground passage as safely as possible.”

Next to it, a major general truthfully reported that the ordinary survivors in the entire guard zone had been evacuated, leaving them with a group of soldiers who were resisting here.

When Chen Wu heard this, he was relieved, looking dignified, looking at the dense crowd outside the city, and not seeing the countless zombies at the edge, feeling a sense of weakness in his heart.

Too many zombies can’t be killed. Seeing that the corpses are about to pile up, it will really be unbearable here.

“Commander, withdraw.” Someone began to persuade and retreat.

However, Chen Wu shook his head. He pointed at the entire defense zone and said, “Look at yourself, once an evacuation order is given, there will be countless soldiers shattered by the influx of zombies. Can we withdraw? ? “

The zombies had already flooded the city walls, and a fierce hand-to-hand battle had begun. That is, a section of reinforced concrete fortifications in front of Chen Wu was swarmed by a large group of zombies.

“kill!”

Chen Wu waved his sword and rushed straight up, slashing a zombie with a knife. In the back, a large number of officers had to carry a knife to keep up and guarded the commander.

Many people looked anxious and persuaded the commander to evacuate first and again. Behind their palace, it was a pity that Chen Wutie was attentive. He knew that once he evacuated, the army's heart would dissipate.

At the time of the fierce battle in the guard area, far away in the direction of Lianhua Mountain, civil war was overwhelming throughout the base, and a squadron ran up the city wall.

Not only the guard area, but also the Lianhuashan base were besieged by countless zombies. As a large number of survivors fled, the population in the base became more and more, and finally it became a blast.

Qin Tiange and a group of high-level personnel did not expect that there would be so many survivors gathered. It was simply a flood of too many people at once, which caused the internal infrastructure of the base to be filled with people without having time to build.

"Trouble this time!"

On the wall of the base, a group of high-level people gathered there, and countless zombies gathered outside the viewers, all looking dignified.

Zhuo Tianfan took the lead in speaking. He said solemnly, "We were a bit ill-advised. We did not expect that there would be so many survivors. In addition, the guard area is likely to be unsustainable. Hundreds of thousands of refugees directly poured in. Come, our base will not be able to accommodate it."

"This is not the most important thing. Look at the dense crowds of zombies outside the base, the few million. This is a difficult battle." Nie Teng pointed out the countless zombies and reminded him carefully.

They had expected it, but did not expect that the corpse came so fast, it was too sudden, and after a large group of survivors came in, they almost rushed into the base.

"What should we do now?"

"Brother Qin is not here. How should we fight?"

Li Zhi and others looked solemn, looking at the dense crowd of zombies outside, they were a little helpless and didn't know how to fight.

The most difficult thing is that as the head of the base, Qin Tiange is not at the base. This is very dangerous. One is not good. Zombies will face great danger without flowing into the base.

Because there are too many survivors, the entire base is now suddenly flooded with millions of survivors, which is a red flag.

Once they are not handled properly, and even these people cannot be suppressed, then the interior will completely collapse and disintegrate and be replaced by someone.

"What else can we do? Kill!" Li Weiwei said fiercely.

His facial scar was beating, and he shouted, "Whether it is an internal threat or an external zombie threat, in short, as long as it is an enemy, it must be destroyed."

Li Weiwei is right, both inside and outside, as long as the enemy must be relentlessly suppressed to eliminate it.

“Then prepare to fight and inform the major defense teams that we are ready to fight!”

Zhuo Tianfan directly ordered that Qin Tiange was not present. He was the highest general manager of the entire base. Once an emergency happened, he could issue a combat order instead of Qin Tiange.

Of course, it is only to announce orders, but not to command and control people and a combat team, even research teams.

Just as everyone was preparing for the war, a giant white tiger rammed into the corpse three kilometers away from the base.

Roar!

The tiger shook in shock and hit all the way, hitting and flying a zombie, especially a figure riding on top of a white tiger. Euphoria swept across, and the zombies' heads must have broken and died wherever they passed.

Qin Tiange is back He looked anxious. As soon as he entered the Shenzhen city, he saw a dense crowd of zombies. He realized that it was not good, and hurried back immediately.

“Damn it, the corpses attacked ahead of time.”

Riding a white tiger, Qin Tiange waved his spear and killed a blood path. His face was a little dignified, and his heart was worried. What's going on with the base now?

Shocking all the way, at last, he re-opened the corpse's heavy defenses, and killed 300 lives with a force of 300 people, and came to the base.

“Fortunately, it's okay for now.”

Seeing that the base was crippled and the war had not yet begun, Qin Tiange finally let go of his heart. He drove the White Tiger to accelerate, turned into a white horse, rushed to the base wall, and stopped outside the steel gate.

“Look, it's Brother Qin!”

Suddenly, in a group of high-rises above the city gate, someone saw Qin Tiange and immediately exclaimed, looking down one by one, it really was Qin Tiange back.

Seeing him return, all the high-level hearts loosened, and the backbone was back.
